The city of erusalem has been often described.

-Illustrated London News. Dr. Wood's Norway Pine Syrup cures coughs, colds, asthma, bronchitis, hoarseness and consumption if taken in time. Lead as a Tooth Filling.

Dr. S. S. Davidson of Ottawa, in the Dominion Dental Journal, "On June 14, a physician

practicing in Ottawa and well know for his hunting propensities, came to my office to have a lower wisdom tooth treated. After this was accomplished he asked me if there were any other teeth in that vicinity that required treatmert. Examing the second molar, I found what I thought to be an amalgam filling in the grinding surface, which had the appearance of years of service. I remarked that the filling in the tooth was still giving good service. He declared he never had a tooth filled, and never before had required the service of a dentist. pon closer examination I found the cavity filled with a grain of No. 4 shot. This had been jammed in so hard that it completely stopped the opening to the cavity. Around the edge an oxide had formed, and to all appearance was preserving that tooth as well as the most carefully inserted gold filling. The only way the worthy doctor could account for it was in eating a tempting morsel of wild duck, of which he is very fond, the shot being embedded in the meat had Notice of Assignment crowded into the cavity unknown to him and there remained. One Dollar a Year

It is to be particularly understood that all outstanding subscription accounts due after November 6th, 1890, are to be settled on the old terms, viz., \$2 per year, the advertised credit rate.

I have made the foregoing changes in the business of the ADVANCE | with PATENT TELESCOPIC OVEN The first is because many patrons who have been given credit, have abused the privilege to such an extent as to make the business of publishing the paper a non-paying one, and it is neces-sary, in my own interest and that of those who do pay, that I should no longer continue to furnish the AD ANCE to those non-paying subscribers. The second reason is, that I wish to meet the competition of the city weeklies, which are made up from the type of the dailies and, therefore, cost little for production in comparison with a local paper like the ADVANCE, the type of which must be set up especially for it.

Having now published the Advance for nearly 19 years, and endeavored to make it a creditable representative of Miramichi and North Shoreenterprise—a paper which may be taken into any household without fear that it has catered to sensationalism at the sacrifice of that cleanliness of matter, which is too often neglected by the press of the day—
I have reason to hope the foregoing announcement will meet with
general approval and be the means of largely increasing the circulation
