

### COAL MINERS GO BACK AT LOWER WAGES

Cuts Are Two Shillings in July, Half a Crown in August.

### AGREEMENT STANDS UNTIL DEC. 31, 1922

Owners Agree to Forego All Profits on Mines for Next Three Months.

London, June 28.—The House of Commons tonight completed the settlement of the miners' strike by sanctioning a wage subsidy agreement which will stand until December 31, 1922 and will then be terminable on three months' notice, thereafter.

Reductions in wages are two shillings in July; half a crown in August and three shillings in September. The men are to resume work on Monday. The men's leaders make much of having established a new principle of profit-sharing on a national basis. The owners will forego profits for three months.

What Owners Get  
Afterwards, to meet general costs, the owners will take seventeen pounds sterling to every hundred paid as standard wages and the balance as profits to be divided in the proportion of seventeen pounds sterling in every hundred to the owners and 83 to the workers. Wages are assured at 90 per cent. above the 1914 standard. National and district boards will be established to adjust wage matters.

Engineers' Ballot  
The ballot of engineers has gone against the acceptance of the employers' terms and a further conference has been called for Friday. The gas workers have agreed to a reduction in wages.

Justifies the Grant  
Announcing the settlement in the House of Commons, Premier Lloyd George justified the granting of the £10,000,000 to the mining industry on the ground that the coal exporting districts were so hard hit by the collapse of the export trade that if economic conditions had full play, there would be unappreciable reductions in wages. The settlement, he said, was a great and promising experiment; no such principle had before been applied in such a vast scale in any industry. He was hopeful that it would inaugurate new relations between capital and labor, not only in coal, but other industries, and he believed that if it was sincerely carried out with good will it would repay the nation for all the damage suffered through the dispute.

British-Four Idle Days  
The British coal industry will have been idle 94 days when the miners resume Monday. While in point of duration this closely approaches the record for a British mine stoppage established in 1897, when the strike lasted sixteen weeks, its effect upon the nation's industrial and economic life admittedly has been far more disastrous. Through the enforced closing of steel mills and the curtailment of rail services and other industries closely allied with or dependent upon mining, the country has experienced a resultant hardship which has been increasingly felt by owners, investors, workers and all classes of the population.

### Sydney Court Is Wretched This Term

Chief Justice Harris Comments on Desperate Nature of Cases He Has to Hear.

Sydney, N. S., June 28.—That the present criminal docket is the most wretched with which he has ever had to deal in any part of the province, was the emphatic statement made by Chief Justice Harris, in his preliminary address to the Cape Breton county grand jury today.

His Lordship declared that for several years past criminal assault, incest and similar crimes have been on the increase in Nova Scotia, and as for the present cases of this nature, so far as he could see, the grand jury should have little difficulty in finding true bills in all of them.

The docket includes a case each of infanticide, attempted murder, assault, incest, breaking and entering and ten criminal assault charges.

Montreal, June 28.—Women highway robbers, armed with dainty revolvers, richly dressed and driving luxurious automobiles are now plying their trade in Montreal, and are succeeding in extorting money from their victims by new methods, according to the story of one who escaped their clutches.

While walking home from Dominion Park, a citizen was overtaken by a respectable looking woman, driving a high-powered car. She asked him if he would like a lift. He assented and asked to be driven to an uptown hotel. Instead of taking him there, however, he was driven to a deserted house in the country.

Pulled a Revolver  
She invited him to enter and the civilian accepted her invitation. As soon as they crossed the threshold, his companion pulled out a revolver and demanded his money. A struggle followed, terminating in a victory for the man. The woman then made a dash for it, but he had robbed several citizens in this way, and was one of a gang of six women engaged in a similar occupation.

The affair ended in her driving him to the hotel, where he saw the last of her. However, he reported the matter to the police.

### BALFOUR AND CURZON TALK TO PREMIERS

Anglo-Japanese Alliance Was Theme of Confidential Discussion.

MEIGHEN DINES WITH GENERAL BYNG  
Sir George Perley to Represent Canada on Overseas Settlement Board.

London, June 28.—(By Gratian O'Leary, Staff Correspondent of the Canadian Press)—The question of the advisability of renewing the Anglo-Japanese Alliance came before the conference of empire premiers today, but owing to the British Prime Minister having to attend a conference in connection with the settlement of the coal strike, discussion was limited to two brief statements by Lord Curzon and Mr. Hon. A. J. Balfour.

Both speeches were confidential and at the close no comment was issued to the press, but it is understood they were of a very non-committal character.

Summary on Alliance  
The British foreign secretary, in fact, confined himself to a summing up of the arguments for and against renewal of the Alliance, while Mr. Balfour, who played an important part in negotiating the original Alliance, gave an outline of its workings, effects and weaknesses. The Dominion Premier asked questions, but took no further part in the discussion.

The conference was reinforced today by the presence of Lord Lee of Fareham, first Lord of the Admiralty, and Sir John Worthington-Evans, secretary of war.

Sees Winston Churchill  
In the afternoon, while Mr. Lloyd George was attending the miners' conference, Premier Meighen and the other Dominion statesmen attended a meeting under the chairmanship of Mr. Hon. Winston Churchill to consider the report of the overseas settlement conference, appointed to inquire into the feasibility of keeping British emigrants of a desirable class within the empire. As a result of the meeting a sub-committee was appointed to go further into the financial aspects of the matter. Sir George Perley will represent Canada.

The evening Premier Meighen dined with Lord Byng of Vimy, Canada's new Governor-General, who is expected to sail from here on August 4.

### Stated Case And New Trial Denied

Condemned Murderers Will Not be Given New Trial for Killing Druggist.

Toronto, June 28.—Following a denial of a new trial to Roy Horum, in connection with his conviction and death sentence for the murder of Leonard Sabine, druggist, on March 5 last, the divisional court this afternoon refused a stated case for Wm. McFadden, who is also condemned to die on August 3rd for the same crime.

The judges of the divisional court disposed of McFadden's case within ten minutes, after opening of the court this afternoon. Fletcher Kerr, counsel for McFadden, argued that Justice Logie, who tried the case, having said he was convinced that it was Horum who fired the fatal shots, there was good ground for a "stated case" for his client.

Nothing to Gain  
The court decided that as the evidence of witnesses other than the prisoners was practically the same in both cases, there was no object in hearing further argument.

After this judgment, Fletcher Kerr said that ten out of twelve jurors who found McFadden guilty supported the plea for a new trial for his client. He proposed going to Ottawa to make a final appeal to the minister of justice.

### Hypnotist Is Fined Because of Failure To Restore Husband

His Powers Could Not Bring Back Husband's Love as He Claimed They Would.

Montreal, June 28.—Chief Judge Decarie, sitting in the court of special sessions this afternoon, sentenced L. J. Fortier, an exponent of hypnotism of 482 St. Denis street, to a fine of \$50, or in default to serve one month in jail, for having obtained the sum of \$50 from Emilla Poitras.

Fortier was arrested some time ago on complaint of Mrs. Poitras following an unsatisfactory attempt to recover her husband's affection through the hypnotic aid of the accused.

His Honor severely castigated Fortier's claims in this case. By guaranteeing the return of the truant husband, Judge Decarie said he was putting forward a claim which he was incapable of justifying.

### AMERICANS GET ANOTHER CARGO OF N. B. LIQUOR

Capture Auto With 235 Quarts of Real Scotch Near Bangor, Me.

PASSENGER FOUND IN BOOZE CAR HELD  
Lively Dash Made by Liquor Officers in High Powered Auto to Get Load.

Special to The Standard  
Bangor, Me., June 28.—Booze buccanniers from over the border ought to keep better informed of the movements of Whitten, McPherson and Gray of the Aroostook big three, if they hope to have any success running the blockade. Deputy Collectors Whitten of Mars Hill and McPherson of Bangor, and Deputy Sheriff Graves of Mars Hill are the three stumbling blocks. They are the same three who on Saturday captured Omar Masse and Sammie Rossignol at Yarmouth and their carload of 247 quarts of whiskey, gin and brandy in Houlton, after a twenty-mile chase.

On Monday afternoon at 3:30 the three sleuths, having disposed of the Houlton case, started for home, and had gone no farther than Howland when they ran right into a Buick roadster piled high with real Scotch—235 quarts of it. The men in the whiskey car turned and raced away for freedom, but the Aroostook sleuths were a little too fast and got them quickly—that is, they got the car, the cargo, and Ludger Garette, the driver. The man who owned the car and cargo made a dash for the woods and hasn't been seen since. The whereabouts of his name and number, however.

The whiskey will be shipped to Portland custom house, while Mr. Garette, who is a garage owner at Blue River, N. B., where the booze car got its cargo, and who was just a passenger, was brought to Bangor and will be arraigned before Commissioner of Hele.

Deputy Collector Whitten says that if his forces were increased to seven men and two or three cars, he could stop all the leaks in the dykes along the border.

Text of the Reply  
The Irish Bulletin organ of the Daily Bireann, in a special issue, publishes Mr. De Valera's reply to the British Prime Minister. It is as follows:

"I am consulting with such of the principal representatives of our nation as are available. We most earnestly desire to help to bring about a lasting peace between the peoples of these two islands, but see no avenue by which it can be reached if you deny Ireland essential unity."

"Before replying more fully to your letter, I am seeking a conference with certain representatives of the political minority in this country."

Public Not Admitted to Witness Champion Going Through Stunts.

Atlantic City, N. J., June 28.—Jack Dempsey ripped another page out of George Carpentier's training programme today when he staged a private workout, his work being limited to fifteen minutes in the old alpine shed, back of his camp, with only newspapermen and a few friends as spectators.

Several hundred persons sweltered in the heat outside of the camp, hoping that the champion would change his mind and make an exhibition public, but the crinkle of the dollar bills in their pockets was no lure to Dempsey. The two doors at the main entrance were locked and chained, and guards shot through cracks in the doors that the champion would not work.

The newspapermen, however, refused to leave, as they did yesterday when Dempsey worked in secret, and became so persistent that Teddy Hayes, the champion's trainer, finally ordered the gates swung open to them.

SHAW INDULGES IN A SERIES OF UTOPIAN DREAMS

New Gospel of Creative Evolution Points Way to Millennium.

MODERN MAN FAILS TO LIVE LONG ENOUGH

New Theory Does Away With All the Childhood Ills—Nice if it Will Work.

London, June 28.—A new gospel of longevity by George Bernard Shaw will be published tomorrow by Messrs. Constable. Its title is "Back to Methuselah." It does not aim to be a complete bible, but only the beginning of one, that is to say, it is "a meta-biology, a descriptive power of the human tongue cannot say, this at least was the conclusion arrived at by one man who used his vocabulary to its limit to describe in a fitting manner what he thought of the individual who had incurred his righteous wrath.

"SPEED" LOST HIS LICENSE TAG

The meanness and cussedness of some people passes the degree beyond which it is not possible to describe. The incident which has been reported is that of a man who has lost his license tag. The man in question is a dog catcher, and he has been reported to have lost his license tag while on duty.

The remedy is that we "go back to Methuselah" and make the normal span of life a thousand years, so that we can do our jobs thoroughly. The dramas show how two statesmen, by adopting the new gospel of force, will achieve the desired longevity. At the time of the third drama, namely, 2170 A. D., the two statesmen have become rolled into one personality and he is president of the British Isles, the country is being run by Chinese and negroes and the chief secretary is Confucius.

Negro Religious Lender Runs Amuck and Wounds Three.

HELD POLICE AND FIREMEN AT BAY For Three Hours He Fought Behind Barricade in His Home.

Atlantic City, June 28.—"Dr." D. D. Murphy, negro leader of a religious sect known as the "Live and Never Die," was held at bay three hours barricaded on the third floor of a small house at 116 Division avenue, this afternoon. He was finally shot dead by Detective Frank McDowell. Two police officers and Elizabeth Chappella, 1177 Division avenue, negroes, were wounded by the man.

Creeping up the stairs, McDowell and the body of Murphy, with a smoking revolver still clamped in his hand, fell down the steps into his arms. He had been hit in the mouth, the bullet coming out the back of his head.

Mrs. Chappella was struck by a bullet in the back and is in a serious condition in the hospital. She was standing in front of the house when Murphy fired several shots at a policeman standing near her. Frank Gaines, a policeman, had four bullet holes in his clothes, but escaped without serious scratch, while Charles Thorogood, another policeman, received a slight wound on the hand.

After waiting a few minutes for the magistrate to appear, Murphy suddenly jumped to his feet, drew a revolver from his pocket and backed slowly out of the door, covering Allen with his fire. Reaching the street, he continued to back for nearly a square until he reached his home. He was followed by Allen and a crowd.

Allen, after seeing his captive disappear in his home, emitted the aid of Joseph Ford, they went to the Dispensary house and entered. Gaines was in the back for nearly a square until he reached his home. He was followed by Allen and a crowd.

Religious Fight In South Africa

Capetown, June 28.—A native religious sect which calls itself the "Israelites," under a "prophet" named Enoch, who refused to evacuate government land at Bulhoek, near Queenstown, Cape Colony, has been forcibly ejected, losing 171 killed and 126 wounded in a fight with mounted Cape police.

For some years past, the government had permitted the "Israelites" to celebrate "Passover" on a common but each year a growing number of pilgrims remained behind on what they called "holy ground" until a village of some 360 huts had sprung up. The sect forbade anybody to enter the village, or to recognize any authority except orders from "Jehovah, the God of Israel," as interpreted by Enoch the prophet.

The government some time ago endeavored to register the settlement but the police were obliged to withdraw bloodshed. The settlement was destroyed by the police. The settlement was destroyed by the police.

Old Baptist Seminary at St. Martins to be Made Headquarters for Bible Training.

Fredericton, N. B., June 28.—The old Baptist seminary at St. Martins, St. John County, now owned by the St. John men, is about to be put to use again, this time as the headquarters of the Bethel Bible School, quarters of the educational institution now owned by the Rev. W. Kenyon, who is an evangelist, who has conducted a number of campaigns in Fredericton and elsewhere in the Maritime Provinces.

Frank D. Swin, ex-M. L. A. of Oakton, and Haveyock Sansom, of Campbellton, who has lately been a student identified with Mr. Kenyon's work, have gone to St. John, where they expect to conclude arrangements for the purchase of the property.

Big Repair Scheme.

Inasmuch as the buildings are out of repair and will need a considerable amount of work, it is said, that \$100,000 will be necessary to establish the new institution.

Mr. Sansom said that he had found opposition to students being recruited for Mr. Kenyon's school upon the ground that it meant sending the young people out of Canada, and inasmuch as his evangelistic activities had been confined largely to the Maritime Provinces in recent years, it has been decided to establish the school here, and the opportunities offered at St. Martins were found to be ideal.

It will be an industrial school, as at Spencer, Mass., where students attending will have an opportunity to work at various kinds of employment to provide for their tuition and board.

### MRS. PERRY MUST STAND TRIAL ON MURDER CHARGE

Grand Jury Returns a True Bill Against Woman Accused of Killing Husband.

Yarmouth, N. S., June 28.—The case of Mrs. Clara Elizabeth Perry, charged with the murder of her husband, George H. Perry, on or about February 28 last, was presented to grand jury this morning by Justice Humphrey Mellish, presiding over the supreme court, which opened its sessions here this morning. Late in the afternoon a true bill was returned against the woman. Justice Mellish in his charge to the jury said the accused was not to be indicted upon mere suspicion but they were to consider the evidence to see if there was a prima facie case. The evidence in the case was largely circumstantial, he said, and when it was sought to establish a case on such evidence, it was usual and proper to look for motives. Justice Mellish then reviewed the evidence tending to show disagreement between Captain and Mrs. Perry, and their subsequent reconciliation. Since then, he said, there was no evidence to show that there had been any serious disagreement between husband and wife, but on the other hand there was evidence to show that Mrs. Perry had been very attentive to her husband during an illness.

### CROWDS OF WOMEN ATTEND HEARING

Judge Tells Grand Jury Evidence is Largely of Circumstantial Nature.

Immediately on announcement of the verdict, W. J. O'Hearn, K.C., assisting R. W. Landry, K.C., Crown prosecutor, moved for the arrangement of Mrs. Perry at ten o'clock tomorrow morning. The court granted the motion and adjourned for the day.

Immediately after the ceremony the happy couple left by automobile for Pictou county, N. S., where they will spend their honeymoon, and on their return will reside at Hampton.

#### THE FUTURE OF THE EMPIRE

There are those who say that the British Empire has attained the zenith of its greatness and power, and that like the Empires of Rome and Greece must sooner or later fall into decay. Whether this prognostication is to come true or not, time alone can show; but certain changes are now taking place in Empire affairs that, as they develop, must unquestionably detract from the prestige and influence of Great Britain itself. The admission of representatives from the overseas Dominions to the councils of the Empire, and the gift to them of a voice in shaping imperial policies, are not unlikely to prove a considerable strain upon their mutual relationship, leaving open grave possibilities for disruption.

In thirty years from now, Canada, Australia and South Africa will each be immensely more populous and wealthy than they are at the present time, and their status in the Empire will become correspondingly more important—in their own opinion at any rate. Their population by that time will probably exceed that of the United Kingdom, while the territorial extent of each is already vast in comparison with it. It is not in the nature of things that peoples living so far apart from each other should always think alike in political matters; and it is inevitable that occasions must arise when certain lines of policy which may be advantageous to one Dominion, will not be so regarded by the people of another. Hence differences must arise, and as each Dominion grows in wealth and importance, none will feel very much inclined to sacrifice its own advantages for the benefit of any of the others. Moreover it is extremely doubtful if the inhabitants of the United Kingdom will ever consent to be dictated to by any of the overseas Dominions. They have never been in the habit of taking any other country into consideration when shaping their policies, and it is very questionable if they will vary their practice in the future. The demand that on all questions of foreign policy which more directly concern the British Government, such as matters arising in connection with Palestine, Mesopotamia and the middle east, the governments of the Dominions should be kept thoroughly and constantly informed; that upon all questions of foreign policy affecting the Empire as a whole the Dominion Governments must be consulted; and that the British Government should enter into no treaties or special alliances without consultation with, and the advice of the Dominions, and that all such treaties, even when entered into, be subject to the approval of the Dominion Parliaments, is a pretty large order, in view of the fact that the enforcement of any policies must always continue to be in the main the task of the United Kingdom. As each overseas Dominion grows in vigor, so will the desire of its people for freedom from all outside obligations increase, until nothing less than absolute independent nationhood will satisfy them.

Premier Meighen is already insisting that all matters arising between the United States and Canada shall be settled as far as the British Empire is concerned, upon the advice of the Canadian Government. From the Canadian standpoint, this of course is quite natural, and in matters of purely domestic importance, should be at once conceded. But it is quite possible that matters may arise which affect not only the relations of the United States with Canada, but with the other parts of the Empire equally and arrangements which may suit Canada, may not suit the other Dominions. Is the Empire as a whole to shape its diplomatic course as far as the United States is concerned to suit the views of Canada?

The idea of a federation of independent States within the Empire may sound very well in theory, but the practical working out of joint policies is going to prove a matter of very considerable difficulty.

#### HELPS TO LONGEVITY.

Lord Leverhulme's advocacy of an strenuous life as a method of living to old age in good health seems to have revived the controversy over the relative merits of simple and hard living. It seems useless to expect to arrive at a decision from living examples, because there are striking

examples of both kinds. In Canada are men who, in their seventies and eighties, are hard-working heads of great institutions, and seemingly enjoying health notwithstanding the responsibilities that press on them. Thousands of men who have lived what would be termed the "simple life" have been found in every decade of the seventies and eighties.

The adage says that "hard work kills no one." That is true. But it is necessary to qualify it by enquiring into methods and conditions of doing hard work, and also of habits of relaxations. Largely it is a question of mental attitude. A man can work eighteen hours a day at tasks which he thoroughly enjoys without being really tired, while nine hours at a disagreeable task will wear him out considerably more. It is worry or discontent that kills. A calm outlook on the vicissitudes of life, the ability to take philosophically the inevitable ups and downs, and the deriving of pleasure from work, seem to make up the best recipe. It is friction that wears out machinery, and restlessness on the human body. If the body be kept quiet with mental satisfaction, it can go a long time without creaking. But suitable change is a safety valve. Idleness is not at all needful for resting. Some men choose golfing, others choose gardening, some reading for relaxation. The hard business day is followed by a restful change for tennis up the persons system. The British have an admirable custom of shutting off business on rigidly maintained schedules, and going in for country life. In the United States, where the strenuous life has been the accepted ideal for all ambitious men, big executives have gobbled ham sandwiches for lunch, rushed to hotels for dinner, rushed home to change clothes for evening functions that, while ostensibly social, were really business affairs, and kept pushing until the vital fires burned low. Then the executive has been cast aside and replaced by another young sacrifice before the altar of the strenuous life. Americans are coming to see the mistake of burning up life energy prematurely. The strenuous life is still the ideal, but it now has conditions and provisos.

The ancient philosophers had a lot to say on the conduct of life, on its ultimate aims, and most satisfying conditions. As a man gets beyond the first flush of youth, he comes more and more to ponder the questions of existence, but no one has yet been able to make an exact science out of theories to promote longevity, nor will anyone. Rational provision of the natural requirements of the human body and complete check on excess of all kinds will help any man.

#### THE GOLF CRAZE

Golf is an old Dutch game that was imported into Scotland in the days of the Stuarts. That may be one reason why its language is so hard to acquire. It has been described by the scoffer as "just enough of a sport to spoil a good walk."

But despite all this, it has developed almost to the point of being a national menace. It is given as the cause of cold meals and wifely tears, and is gradually growing into grounds for divorce. Also it has cultivated preparation to the point that the fisherman is looked on as a model of truthfulness.

Not many people play golf. But vast multitudes carry clubs, lose balls and use strong language. The present slump in business is not entirely due to golf, though some misguided people are said to have with delight the removal of any and all obstacles to the pursuit of the alleged sport.

Medical science has not yet produced an anti-toxin for the golf game. But it is whispered that several large concerns have experts working on it and will have their employees inoculated as soon as anything approaching a discovery is made.

The Toronto Globe is of opinion, as the result of Medicine Hat election, that there are no seats for the Melghen Government between the Great Lakes and the Rockies. Mr. Meighen's wisest course therefore will be to go to the people with as little delay as possible, at any rate before redistribution, as there is no point in waiting till the time arrives for Western Canada to have more seats, if they are all going against him. Mr. Meighen has been putting off an election largely to give the West increased representation, and all the thanks he gets is seeing his candidates turned down.

Quebec police and firemen struck on Saturday, declining to accept the award of a conciliation committee. Youths and other mischievous persons entered some of the stations and did damage. All showed the modern democratic spirit. They could not get what they wanted, so they started in to smash the public's property.

**Making a Precedent.**  
 The British Parliament, it is said, is not too old to learn. It has never been the custom of the Imperial Government to allow discussion in parliament of the agenda of the Imperial conference. Premier Meighen took the opposite course, he placed the agenda before the Canadian Parliament and permitted full discussion of it. The members of the British House of Commons thought this a capital plan, and said so to the leader of their house, Hon. Austin Chamberlain. Great 200 members of all parties signed a requisition asking that they be given the same privilege. The Canadian members had enjoyed Mr. Chamberlain's plan, and the discussion is to take place on Friday of this week.—Calgary Herald.

**Communist Logic.**  
 Communists who appeal to the practice of the early church in support of their views usually fail to observe two rather significant facts. The first is that so far as Scriptural evidence goes we are not warranted in supposing that the custom of "having all things in common" extended beyond the Christians in Jerusalem. The second is that references to the necessity for making special collections throughout the church, and the poor saints which are in Jerusalem suggest that the Communist experiment was not a success, and that Communism then, as now, meant living at other people's expense.—London Morning Post.

 Too old at sixty-five? O shades of Socrates!  
 Of Moses, Gladstone, Tennyson and Laurier!  
 These, and countless more of strong and vigorous men,  
 Who governed, fought and wrote round three score years and ten,  
 They scorned to own that they were getting long their locks were grey,  
 Nor would they sit aside till death should come their way.  
 But with the zeal of youth they worked with heart and brain,  
 Enriching this old world with things they did obtain.

**TOO OLD AT SIXTY-FIVE?** O Edison, for shame!

 And countless more of strong and vigorous men,

 They scorned to own that they were getting long their locks were grey,  
 Nor would they sit aside till death should come their way.  
 But with the zeal of youth they worked with heart and brain,  
 Enriching this old world with things they did obtain.

**TOO OLD AT SIXTY-FIVE?** Away the absurd thought!  
 Great deeds have been accomplished and the achievements wrought  
 By men past sixty-five. And there are men today,  
 By some thought old and weak, and yet keep in the fray.  
 He is not old who walks with buoyant step and light;  
 He is not old whose eyes shine ever clear and bright;  
 He is not old whose arms are flexible and strong,

My sister Gladis had a box of candy in her room yesterday and it took me almost a hour to find it, proving she probably suspected I was going to look for it, and when she came home from Art School I sed, Hello Gladis, did you learn much Art today?  
 I could of learned more, I suppose, sed Gladis.  
 Maybe you'll learn more next time, I sed.  
 Possibly, sed Gladis, and I sed, Hey Gladis, which is the most beautiful lines, strate lines or round lines?  
 The curve is the most beautiful line in drawing because it represents freedom of motion, Im glad to hear you ask a sensible question for once, sed Gladis.  
 Well if a curve is the most beautiful line then a circle must be the greatest thing there is, because a circle is all curves, I sed.  
 That's true, a perfect circle is supposed to be very beautiful, sed Gladis.  
 That's wat I thawt, I sed, G. Gladis, wate till you see yours box of candy.  
 Wat do you mean, have you bin touching my candy, how dare you? sed Gladis, and I sed, Well wate till you see it, Gladis, wate till you see it, I took out all the ugly square ones so all the ones thate left are round ones on account of circles being so beautiful.  
 Well wat did you do with the square ones, you fresh thing? sed Gladis.  
 I ate them to get rid of them, I sed.

**Chicago R.R. Bars Clerks in "Undress"**  
 Says Short Skirts, Peek-a-Boo Waists Ruin Office Morale.

Chicago, June 28.—There will be at least 300 young women in Chicago who will not wear peek-a-boo waists, knee-length skirts, "rolled down" rayon stockings, rouge on cheeks or silk and georgette dresses to work. They are employees of the general offices of the Chicago, Burlington and Quincy Railroad.

Officials of that line decided the style of dress of their young women employees was becoming so unbusinesslike as to permit an effective working morale, so certain rules were before the young stenographers and clerks.

"The general appearance of girls working for us must be such as is becoming to girls working in an office," said one of the officials. "Our women's welfare bureau will determine the interpretation of the word 'modest' when we say that skirts shall be a modest length. We also have banned ginghams as the preferred fabric for work dresses in hot weather."

The ceremonies included the presentation of rent and "offerings of fealty" in kind, according to ancient custom. The Mayor presented to the prince 100 shillings and one pound of pepper on a silver dish.

To Sir Hugh Molesworth St. Aubyn fell the duty to offer a brace of greyhounds. According to ancient usage, they should be pure white, but the

nearest obtainable approach was a well-matched piebald couple.

Another ducal tenant tendered a pair of gilt spurs, and others presented a pound of curran, a salmon spear, a faggot of wood, a pair of white gloves and a rose.

Strangest of all these curious terms of tenure is one requiring the representatives of the manor of Swannacombe and St. Mary Week to present themselves at the ducal court clad in mantles of goatskins. The present day incumbent, Bothwell Hutchings, stoically endured this attire over his ordinary clothes on a broiling hot day. His appearance suggested a blend of a modern country tourist and Robinson Crusoe.

The Prince, much amused at the variety of gifts, solemnly "confirmed" all the royal tenants in their holdings.

London, Ont., June 28.—A hunger strike has been declared by a veteran of the 18th Battalion, who became suddenly insane last week, and who was incarcerated in the county jail because the Ontario and New Westminister neuro-psychiatric hospitals here refused to admit him for treatment without accommodation.

This man, who was remanded to jail for one week by Magistrate A. H. M. Graydon Saturday, has refused to eat since entering Castle Carter, and has not tasted food since Friday night. He states in a rational tone that he will not do so until removed from the goal.

**Sent to Asylum**  
 However, following an examination conducted by Dr. James Wilson, the jail physician, who declared the prisoner to be insane, he was this morning committed to the Ontario Hospital for Insane in Brantford. He is expected to arrive at that institution this week and was brought to London by a companion.

**Thinks He is Spy**  
 He is laboring under the delusion that he is being persecuted as a German spy, and after refusal of the mental hospital to receive him, the police authorities were compelled to remand him to jail upon an insanity charge preferred by the soldiers and commissaries.

The local department of the Soldiers' Civil Re-establishment wired to Ottawa for permission to send the veteran to Westminister Hospital, but considering that this would mean several days in jail for the hungry patient, the police magistrate has committed him to the Ontario Hospital.

**Trouble—Caused by Fermenting**  
**Food and Acid Indigestion.**

Gas and wind in the stomach accompanied by that full, bloated feeling after eating are almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion."

Acid stomachs are dangerous because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and sours, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart.

It is the worst of folly to neglect such a serious condition or to treat with ordinary remedies which have no neutralizing effect on the stomach acids. Instead get from your druggist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, soothe the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Pittsburg, June 28.—Jealousy over a woman's beauty ended in a murder and probably a suicide here today, when John Coslett, 35, a photographer, shot and killed his wife, Elizabeth, 28 years, and then fired three shots over his heart.

The shooting occurred in the parlor of the Coslett home in a fashionable part of the city. The woman died sitting in a rocking chair. Her face was almost shot away by fifteen bullets fired. Coslett is dying in St. John's Hospital.

Coslett, according to neighbors, was jealous of his wife because of her beauty and often had said, according to neighbors, that he would "spoil her beauty for all time" before he would let another man have her.

**Odor.**

Tokyo, June 28.—Revelations concerning the Omotokyo, or the "great fundamental religion," whose leaders have been put in jail after a raid on their headquarters, show that the directors of this cult were pretending to exercise some of the prerogatives of an imperial Japanese family. An account of this raid and some of the discoveries made by the Japanese police were carried by cable at that time.

**REORGANIZATION OF**  
**STATE WAS TAUGHT**

It is charged that the adherents of this organization referred to their religion as "God Administration Era." This is regarded in Japan as an indignity against the throne, because the designation of new Japan dominion, which belongs only to the Emperor.

**Lease Majeste Charged.**

As a result of this and other discoveries lese majeste is one of the charges which have been preferred against Watanabe Doshichi, the leader of the movement, who with others were taken into custody by the authorities at Kyoto after the raid about May 10.

It is probable that exaggerated designs are being attributed to the religion, but the newspapers charge it with numerous crimes, including murder.

**Underground Room Found.**

Near this cell was found another secret underground room devoted ostensibly to "religious" functions. The newspapers have charged that this cell was intended to contain women prisoners.

**FUNERALS.**

The funeral of Josiah Beatty, who passed away at his residence, Golden Grove, on Friday, was held on Sunday afternoon at French Village Church. The service in church and at the gravesite was largely attended by the relatives and friends of the deceased, who was very popular in the district. Interment was made by the Rev. Bernard Waddington, incumbent of Hammond River Mission.

Why is it that there are today few, if any, popular songs. That is popular in the sense that a song used to be so called when everybody sang, whistled or hummed it? It is that writers and musicians today do not achieve that heart appeal which touches the crowd by word or takes its fancy with a catchy tune?

Yesterday on passing the window of Messrs. F. W. Daniel & Co. I was reminded of a song which had a great run in the United States some years ago, "The Blue and the Gray." These seem to be the colors favored in navy blue tulle, satins, handkerchiefs and ribbons in gray silk.

Another name for pounce should be "iron," for there is no wear out to it, and brightened with a silk tie, these waists would be both useful and pretty. Skirts were there, too, of the same material with pleatings around the belt and on the tops of the pockets.

While I am naming things, I should think "The Lure of the Woods" was a good title for the camping window of Messrs. W. H. Thomas & Co. From the tent, which so loyally displays its flag, to the camp photograph, every requirement of the camper is thought of.

Inspection of Lobster Canneries

Educational Campaign Conducted by Dr. A. P. Knight for Dept. of Fisheries.

As a result of the inspection last summer of 22 lobster canneries, Dr. A. P. Knight, organizer under the direction of the Department of Fisheries at Ottawa, an educational campaign. The object of the campaign is to demonstrate to lobster packers the living and dead bacteria which occur in factories, get into the lobster meat, and either destroy the meat or render it unfit for human consumption, or else deteriorate the meat so much that its marketable value is greatly diminished.

As an illustration of the fall in prices that has resulted from diseased meat during the season of 1920, the price paid to the fisherman this season is only about two and one-half cents per pound, as compared with the price last year of five cents and five and a half cents a pound.

Some special prizes for proficiency in the various grades at the Rothery Consolidated School will be presented at the closing exercises which will take place this afternoon at 2 o'clock. Last year E. LET'S TALK IT OVER

"Men are funny creatures about women's dress," said the lady knitting the pink sweater. "If a woman looks like other women wearing the clothes which are in fashion, men make fun of her being conventional. If she dares to assert her individuality and appear in something original they say she dresses conspicuously."

"Yes, indeed," remarked the maiden in the apricot tulle. "In a paper which asks daily a question, I saw this: 'Why does every woman wear silk stockings?' Well, why not? One might as well inquire why do men insist upon silk neckties? 'Women wear silk stockings,' said the knitter 'if the query must be answered, because women wear them. That's the reason. No woman wants to seem unusual and at present every woman who is well dressed has silk on her. They are becoming neat and fashionable. In an age when the skirt is ten inches or more from the ground, stockings must be beyond criticism. Men would be the first to remark if a girl did not look trim and silk stockings add greatly to her costume. In fact many women are economizing on frocks and suits, so that gloves, shoes and stockings may be correct to the last detail and the best which can be purchased."

"What brothers and husbands do to make fun of I don't know," was the general summing up of the situation by the maiden. "But I shall continue to wear silk stockings as long as I want to and that will be while they are the fashion I suppose," she added laughingly.

What do you think about it, MARGUERITE.

Southern Baptist Assn. Hold Sessions

Three Meetings Held Yesterday—Officers and Committees Chosen.

The Southern Association of the Baptists of New Brunswick continued its sessions in Ludlow street Baptist church yesterday morning, afternoon and evening. An immense amount of business was transacted, officers and committees chosen, and interesting addresses heard.

After the devotional exercises, led by Rev. L. H. Crandall, the report on Sunday School and Young People's work was submitted by Rev. C. T. Clark. He reported 65 schools, 5,500 pupils, 632 teachers and officers, \$17 in the cradle roll and 196 in the home departments. \$1,235.31 had been raised for missions, \$301.45 for the Sunday School Board and \$4,940.45 for school purposes.

The secretary read a letter from the Historical Records Committee, which requested that all records of the various churches be placed in a fire-proof vault at Acadia University. This was referred to the executive for further information. The secretary reported that there is no doubt but that it will be a great success.

Mr. Machum spoke of the children as the centre, so that if a child brought up with a good Christian training when he or she, as a man or woman, will remember the teachings of former years and be good in the society of his or her fellow citizens of today to put the Sunday schools to the fore that the children of today may follow up with this great work in the future.

Dr. H. T. DeWolfe spoke on the Educational Institutions on the Educational Institutions and pointed out the need of a better training in early years is never forgotten as the training a young man or woman gets in a Christian college. He spoke of the building of Acadia College and cited instances of work and sacrifice that went towards the foundation of that most excellent institution. It was founded in 1859 by 181 students. The college in 1920, it had 118 in 1919, and 1920 there were 386 students. It is planned to erect a new hall and buildings at the cost of one million dollars. So far there has been about \$200,000 raised. The Rockefeller Fund has agreed to donate one dollar for every three dollars collected. With this great aid it is expected that sufficient money will be raised for this very worthy cause.

The meeting closed with prayer led by Dr. DeWolfe.

SAILOR HATS RETURN. The hand-made sailor, wide-brimmed, shows signs of coming to life again after an era of up-turned or down-turned brims. The forthcoming bulletin of the Retail Millinery Association in the severity of its simplicity that point that its rather severe lines confine it to use with tailored coats.

"In a hat of fabric, this plainly covered shape is a decided change from the brimline turned up or down so much has been done with the mushroom and rolling sailor of late, and so little with the straight-brimmed, hand-made sailor, that it furnishes a welcome change.

MISS HAZEL HOFFMAN Aids To Economy of Summer Work

Most Gifted Artist. Making Housework Easier for Hot Weather—Glass Dishes and Electricity Are Helps.

The privilege of enjoying a musical treat was extended last evening to a few friends of Mr. and Mrs. A. Poyas, Dorchester street, who have as their guests, Mrs. T. Hoffman and Miss Hazel Hoffman, of Montreal.

The latter, a niece of Mr. Poyas, is an all-known pianist and vocalist. Her glowing account of the program given by Miss Hoffman at the Royal Victoria College, Montreal, and her performances on the concert stage have been read in St. John, and her friends in her native city, for she as born here, have followed her career with interest. She is a pupil of Walter Hungerford who, in turn, is a pupil of Lambrino. Miss Hoffman devoted much time to the piano and plays with fine execution. Later she studied singing and has a carefully trained soprano, singing with brilliancy and sympathy. She plans to go to New York to continue her studies, and critics predict a successful future for her.

Last evening Miss Hoffman played a number of selections from the great musicians and delighted her hearers also by singing several solos, ranging from a tragic grand opera number to the daintiness of The Lass With the Delicate Air.

Another singer, who gave great pleasure, was heard last evening. This was A. Bourdon, of Ottawa, who gave several operatic selections with fine dramatic power, singing very artistically. Mrs. Louis LeLacheur sang several songs to the enjoyment of the audience and also accompanied the piano.

The informal concert was a most delightful one and was thoroughly appreciated by those present.

A NEWSIE SCRAP. In the Church street arena yesterday afternoon a fierce encounter took place between two of the newbies who had been disputing with one another for some time and who were urged on by several of their admirers, who will not have the opportunity of attending the Dempsey-Carpenter championship battle on Saturday next at Atlantic City. As it generally happens one of the young gladiators was an Irishman from the East End and the other a Frenchman from the same quarter of the town. For several minutes the battle waged strong until the younger of the two, who was the Irishman, lost his footing while trying to feint at his opponent and received a nasty kick in the shoulder which put him out of the encounter. However, he justly won an accolade.

ST. PETERS WILL Leave League

Intermediates from North End Not Pleased With Treatment.

As a result of the dispute between St. Peter's and the North End team, Harry Dever the manager and captain of the latter team has stated that he will not permit his team to participate in any of the league games to be played there in future, in fact the whole team in general are put-out about this matter. Mr. Dever states that injustice has been done them. It is also known that Moore the skipper of the St. Peter's nine who was refused admission to play in this intermediate league, played on these same grounds a year ago and pitched against the same team that protested against him. Roy Cameron the president of the South End Improvement League said yesterday that the names of all the eligible players were supposed to be handed in, on or before June 15th, and as this is now past he claims that even though two men have dropped from the St. Peter's nine they have the fifteen players signed up to play and they are the only eligible players. As the St. Peter's was one of the strongest teams in the league their many admirers will be sorry to learn of their withdrawal. It is rumored that another South End team with many of the old players of last year signed on will apply for entry into the league as it is still early in the season.

Machias Stable Heads The List Entries for Fredericton Races Close Today—Stakes at Chatham Re-opened.

Fredericton, N. B., June 28—Billy Means, manager of the Washington County Driving Club stables of Machias, Maine, heads the list of horse-making entries for the Fredericton Jockey Association mid-summer meeting on July 15th, 20th, and 21st.

Although entries do not close until tomorrow the entry for his stables of six horses has already been received and there is every indication of a gathering of horses equally as large as that of last year's big mid-summer meeting when the greatest number of horses seen any where in the east assembled here.

## St. Peters Will Leave League

### Intermediates from North End Not Pleased With Treatment.

A result of the dispute between the St. Peter's team and the North End diamond Monday evening, Harry Dever, the manager and captain of the latter team has stated that he will not permit his team to participate in any of the league games to be played there in future, in fact the whole team in general are put out about this matter. Mr. Dever states that injustice has been done them. It is also known that Moore the star pitcher of the St. Peter's team who was refused admission to play in this intermediate league, played on these same grounds a year ago and pitched against the same team that protested against him. Roy Cameron the president of the South End Improvement League said yesterday that the names of all the eligible players were supposed to be handed in, on or before June 15th, and as that is now past the claims that even though two men have dropped from the St. Peter's side they have the fifteen players signed up to play and they are the only ones eligible. As the St. Peter's was one of the strongest teams in the league their many admirers will be sorry to learn of their withdrawal. It is rumored that another South End team with many of the old players of last year signed on will apply for entry into the league as it is still early in the season.

## Machias Stable Heads The List

### Entries for Fredericton Races Close Today — Stakes at Chatham Re-opened.

Fredericton, N. B., June 28—Billy Meana, manager of the Washington County Driving Club stables of Machias, Maine, heads the list of horsemen making entries for the Fredericton Park Association mid-summer meeting on July 19th, 20th, and 21st. Although entries do not close until tomorrow the entry for his stables of six horses has already been received and there is every indication of a gathering of horses equally as large as that of last year's big mid-summer meeting when the greatest number of horses seen any where in the east assembled here.

The racing programme has been arranged as follows:  
Tuesday July 19th—2:12 Trot and pace 2:18 trot and pace and 2:27 trot.  
Wednesday July 20th—Free-for-all, 2:17 trot and pace and 2:27 pace.  
Thursday July 21st—2:14 Trot and pace, 2:20 trot and pace and 2:10 trot.  
Entries for several other Maine and New Brunswick circuit meetings will close this week. Tomorrow is the new closing date for the Port Fairfield Driving Club's stakes to be raced August 17th and 18th. The events being 2:12 trot and pace, 2:24 trot and 2:20 trot and pace. In Thursday entries will close for Woodstock meeting on July 12th, 13th and 14th.

The slow trot, which was originally a 2:30 has been changed to a 2:27, making the complete programme as follows: 2:30 Trot and pace, 2:27 trot, 2:21 trot, 2:20 trot and pace, 2:15 trot and pace, all for \$400 purses. A local named race for \$200 purse was a free-for-all, trot and pace, purse \$500.  
**Chatham Meet**  
Entries will also close on Thursday for the early closing events to be raced at Chatham Fair in September the week after the Fredericton exhibition. The three original stakes have been re-opened and two new events added, being worth \$500. It is the most pretentious offering ever made for the Chatham track and with free return freight privileges over the C. N. R. for race horses. It is expected that the entry list will be large as it is a shipment of only one hundred miles from Fredericton, where the horses will be racing the previous week.  
Chatham's early closing events are: 2:12 Trot and pace, 2:14 trot and pace, 2:27 trot, 2:27 pace and four years old and under, trot and pace.

Kelly and Miller made up the battery for the winners, while Nebo and Glynn were between the points for the Dingley team. The game was interesting from start to finish and there is no doubt but a return match will be played on next Tuesday evening.

## Simms' Team Defeat McAvity

### Industrial League Game Went Eight Innings and Score Was Eight to Two.

The Simms' team defeated the McAvity boys last evening 8 to 2 in the Industrial League. Simms scored two runs in the first inning and one in the second, while McAvity scored one in each of these sessions. Simms repeated the same dose in the next two, but kept their opponents from crossing the plate again. Simms' runs up to the fourth inning nearly all resulted from errors. McAvity's then shifted some of their men around and the outcome was five more innings of very tight ball, the only runs being two for Simms in the sixth. Both pitchers were in fine shape and if Noel for McAvity had been better supported in the first four innings the score would have been a closer one. Noel held his opponents to 3 hits, and M. Rose for Simms allowed only 5. Ross had fourteen strikeouts and Noel nine.

## Y. M. C. I. Track Team For Sussex

### Eight Athletes Will Represent Local Association at the Dominion Day Meet.

A track team of eight men will represent the Y. M. C. I. at the track meet to be held at Sussex under the auspices of the Sussex A. A. C. on Dominion Day. Those entered for the sprints are: Osey MacDonald, Frank Garnet, Joe Tansman, Matthew Rubin and Smith. The distance men are: Berry and LeClair. Tansman and McInnis will be in on the jumps, and McInnis will also be entered for the 15 lb. hammer throw.  
MacDonald is an old St. Joseph's College boy, and a former St. John High School track team man as well. He has shown a considerable burst of speed in the various meets he has competed in, winning his heat in the Labor Day sports at Moncton last year, while running in fast company, and winning his sprints in the Y. M. C. I. sports at Mooseport. Garnet has an enviable record as a speed artist in the skating game and proved at the Electric meet on the East End grounds this spring that he has a bunch of speed that is not solely confined to the blades.  
Tansman made this year's track team at the High School; Berry and LeClair are said to be two long distance men who may be relied to give a good account of themselves. McInnis, with the hammer, and in the jumps, is credited with being capable of performances that will take some hustling to beat.  
Taking it all and all, the Y. M. C. I. have every confidence that their team will add but another string of laurels to those of teams who have already brought the honor of the institution to the fore in every branch of the sporting game. This belief is considerably strengthened in view of the fact that the team will be managed by Ernie Stirling, a veteran of Maritime Track meets, and wise in the generalship thereof.

## Clergy Failed To Prevent Fight

### Vice-Chancellor Stevenson Declined to Act on Motion to Stop Big Fight.

Jersey City, N. J., June 28—Vice-Chancellor Stevenson today declined to act on a motion by the International Reform Bureau for an order directing Promoter Rickard to show cause why he should not be restrained from staging the Dempsey-Carpenter bout in this city next Saturday.  
Mr. Stevenson, however, gave the representative of the bureau permission to apply to another vice-chancellor for such an order, and the clergymen departed to look on up.  
Mr. Stevenson explained that he was leaving town late tonight and could not hear the argument.  
**A Final Attempt.**  
Newark, June 28—A complaint charging criminal conspiracy to hold a prize fight in violation of the state laws of New Jersey, will be submitted tomorrow to prosecutor Garvan in Jersey City in a final attempt to prevent the Dempsey-Carpenter bout on Saturday, Herbert Clark Gilson, attorney for the International Reform Bureau, announced tonight.  
Mr. Gilson declared that he would ask prosecutor Garvan to appear before the Hudson county grand jury, now in session and apply for an indictment against Tex Rickard, promoter of the bout; Jack Dempsey and his manager, Jack Kearns; Georges Carpentier and his manager, Francois Descombes.  
Vice-Chancellor John Foster late this afternoon declined to stop the bout.  
This action was decided upon after two applications for an injunction against the fight had been refused in civil proceedings before two vice-chancellors.  
Attorney Gilson declared his complaint will allege that a criminal conspiracy to violate the laws of New Jersey by holding a prize fight exists; and the claim will be supported by alleged statements of the principals; that a prize ring has been erected and tickets printed and distributed and that a large number of persons of criminal propensities will be attracted to New Jersey to the injury of the morals of the community.  
"Are you sure your tastes and Robert's are congenial?" anxiously inquired the fond mother of the newly engaged daughter.  
"Oh, yes mamma," replied the joyous young thing, "we are both fond of Browning and lemon pie and motor racing."

## Atlantics Won From Beavers

### On the South End diamond last evening the Atlantic Sugar Refinery took the Beavers into camp, winning by a score of 14-3, in one of the league series games.

Although the Beavers started the game with McConnell in the box and played airtight ball until the fifth inning, when McConnell weakened and had to be replaced by McCannus, who held the winners to a few scratch hits. The game was not marked with any feature plays, although the Beavers' first base man tried to work a Ty Cobb base-stealing stunt and failed in the attempt. Osborne and McDermott unpired to the satisfaction of all. The batteries for the winners were Moran and Torz, and for the losers, Jones, McConnell and McManus.

## Babe Ruth At Georges' Camp

### Ruth Greeted Carpenter With Hope French Boxer Would Get Home Run Saturday.

Manhasset, N. Y., June 28—Babe Ruth visited Georges Carpentier's camp today and wished the challenger a home run on Saturday in the contest for the world's heavyweight boxing championship with Jack Dempsey.  
Ruth was one of a small army of visitors, who besieged the camp in a handshaking assault on the challenger, which grew to such proportions later that Carpentier sought refuge from the friendly invasion in a hurried automobile trip. Many who were waiting for the chance to greet the challenger, failed to recognize him as his car sped by them.  
Since early this morning when Carpentier returned from a hard grind on the road the visitors came in an apparently endless stream of automobiles. Ruth greeted Carpentier with the hope that the French boxer would get a home run on Saturday.

ANY BOY OR GIRL in the Maritime Provinces can secure a sixty-five dollar "Pathfinder" bicycle, complete with mud-guards, air pump, parcel carrier and stand, with coaster brake, reinforced frame, spring saddle, and in fact everything that goes to make a bicycle complete, and at the same time earn fifteen dollars pocket money, payable in cash.

If there is a boy or girl who does not want a bicycle, any of them may earn a watch or any other prize they desire by the most generous proposition that has ever been made to the young people of the Maritime Provinces.

Pictorial Review is desirous of securing one million additional readers and in order to do so offers the Pathfinder bicycle mentioned above to any boy or girl who will, before October 15th, sell three hundred copies of this popular woman's magazine. Pictorial Review retails at twenty-five cents per copy. Any one who wishes to enter this competition pays only twenty cents per copy for the magazine and thus makes five cents on every copy sold. To win the bicycle it is necessary that you shall send your money and your order for whatever number of copies of the July issue you may require, to H. V. Mackinnon & Son, P. O. Box 1109, St. John. These magazines will be delivered to you free of charge by Dominion Express. Sell them as quickly as you can and order more. A strict account is kept of all you buy and as soon as you have sold three hundred copies the bicycle will be shipped to you; all charges prepaid. In case you do not desire a bicycle write for particulars about the number you have to sell to secure one or other of the various watches which will be given as prizes. Already boys and girls in different places have sold more than one hundred copies of the June issue of Pictorial Review, and at the rate they are going will have earned their bicycles by the middle of July. Any one can do it!

The generosity of this magnificent offer will be realized when it is remembered that three hundred copies of the magazine costs the competitor only sixty dollars and that the bicycle is worth more than the entire sum paid for these magazines. No such offer was ever made to the boys and girls of these provinces. Do not lose time. You can secure scores of customers this month who will take the magazine from you every month, and in a very short time you will have finished your three hundred sales and be in possession of an up to the minute bicycle. Let us hear from you at once.

EARLIER GAINS LOST LATER IN NEW YORK TRADE

American Ice Common Dividend Increased One Per Cent. by Directors.

MID-SESSION WAS VERY UNCERTAIN Oils Rallied Sharply on Better News Regarding Mexican Taxes.

New York, June 28.—The stock market today followed its uncertain and languid course. Early gains of 1 to 3 points later were subjected to considerable reversals. Overnight developments received favorable interpretation in speculative circles. Transportation hardened on the administration's proposal to fund the country's railways debt, which rallied sharply on reports that the Mexican government would postpone enforcement of foreign tax decrees and foreign exchange responded to settlement of the British miners' strike.

Prices are Higher. Prices attained highest levels in the final hour on a demand for steels and equipments which extended to oils, motors and rubbers. Crucible and United States Steels finished at substantial gains as did Baldwin Locomotive, Mexican Petroleum, Chandler, Reading and Southern Pacific. Sales amounted to \$25,000 shares. Announcement was made after the market's close that the dividend on American ice common has been increased to five per cent. from four.

JASPAR NOW A MODERN CITY

Yellowhead Pass Recalls Days of Rush for Gold—Trip Thru Mountains Beautiful.

OUR NORTHERN EMPIRE, No. 6.

Leaving Edmonton at midnight one reaches Jasper Park, about 250 miles, at daylight the next morning. It is a summer holiday place beside the streams and lakes in the mountains...

Jasper is an outlet for Pocatania coal mines. The Yellowhead Pass is rich in that commodity.

The history of the Rockies and the plains they overlook goes back to the days of the Venetians and Radisson, whose adventures and exploits surpass the imagination of a novelist...

Girls passed to and fro from their lodging their progress is described as like a royal procession. The girls were all offered situations which they abandoned without any unnecessary delay for matrimony.

A Beautiful Scene. Making notes in the observation car at Lake Lucerne, in whose pleasant surface is mirrored the snowy caps of the mountains, set like diamonds in the bow of the hills, the writer involuntarily exclaimed, "How beautiful!"

In 1853 reports of gold finds on the Caribou coast excited excitement and a body of some scores of young men gathered at St. John, New Brunswick, to embark on the expedition.

They passed through Edmonton on their way to the Yellowhead Pass, reaching Jasper House, when their troubles commenced. Mountain slopes flanked by mighty precipices, down which poured cascades, had to be negotiated; lakes and streams to be passed by rats; trees and debris of the hills cut away. Many perished in the way.

After travelling six thousand miles on the Canadian National, the writer can state that in only one case has the train in which he travelled not been on schedule, and that was for thirty minutes only. If that is not efficiency, where will you get it?

Girls passed to and fro from their lodging their progress is described as like a royal procession. The girls were all offered situations which they abandoned without any unnecessary delay for matrimony. Those who were fortunate enough to obtain a wife, settled down into homes of their own and many of them abandoned the risk of the mines for farm life.

PERUVIANS TELL STORY OF THEIR ENFORCED TRIP. Politicians Who Harassed President Were Shipped on a Freighter. INTENDED THEM TO GO TO AUSTRALIA. Forced Captain of Ship to Land Them at Punta Arenas Where Party Scattered.

New York, June 28.—J. Fernando Gazzani, ex-Secretary of State of Peru, and Jorge Prado, a member of the Chamber of Deputies, arrived in this city on the steamer Sixtoles from Colon, after they and twenty other political leaders of Peru had threatened a summary order of deportation to Australia on the freighter Paita by organizing a mutiny and taking control of the ship.

President Leguia of Peru found it advisable to send an ark-bird of his political enemies on an 11,900 or 12,000 mile journey, according to his explanation, contrary to the fact, according to the statement of ex-Secretary of State Gazzani at the Hotel McAlpin recently. What happened, he said, was that President Leguia, growing tired of the game of politics, decided to simplify the problems of the executive by exporting the eminent members of the opposition to the Antipodes.

Some of the twenty-two had been in jail for long or short periods and others were arrested on May 11 of this year, the day we were shipped away, as the two Peruvian politicians told the story through an interpreter yesterday.

Very Little Accommodation. "Some men were seized in their offices and hurried to the ship. It was a freighter with only half a dozen staterooms for the accommodation of twenty-two persons."

"The statement which has been published is possible by my own observation. The twenty-two men belonged to all political parties—the civil, the Liberal and the Constitutional—along with some independents. All were residents of Lima. The purpose was to rid the capital of all men capable of leading an opposition."

"When they were being placed on board the ship, however, revolvers were placed in their hands, they said, by 'occult' means. They were hard-

ly at sea when the twenty-two decided not to go to Australia. Gen. O. B. E. went to the captain and laid the situation before him.

"The captain was a 'Frenchman,' they said. 'The petty officers were British and the crew was Peruvian. The captain had no interest in political troubles in Peru. He was told that he must land us at some port; that we were twenty-two; that we were armed and that we would overtake him if he opposed our will. He agreed to our proposal but he made the objection that he could not land us at Punta Arenas because his clearance papers were for Australia and he had no passports.'

"We directed his attention to the circumstance that we had no passports for Australia either. Under international law we could not land anywhere. The Government of Peru was getting rid of us and no other port could legally allow us to land, so that, speaking from the standpoint of jurisprudence we were condemned to spend the rest of our lives on the ocean."

"The captain of the Paita admitted that the situation was abnormal and agreed to land us at Punta Arenas. There we claimed the privilege of asylum and were allowed to land."

Practically Without Means. When the cargo of statesmen had been discharged at Punta Arenas on May 26, they were practically without means. Some of them had been hustled aboard ship without baggage and with only the clothes they had on. Many of them were men of wealth and were able to finance themselves through friends and banking connections. Ex-Secretary Gazzani and Deputy Prado both had interests in the country, so they decided to continue their journey to New York.
