Some leading Liberals were approach d. with the view of making the new organ a Laberal one. The paper was to be published in Campbellion or Dalhousie. This movement originated outside of this county and met with no encouragement from these who were consulted on the subject. In the first place the circulation of the St. John and Moneton dailies is fast increasing here and the political reading wants are fully supplied. Then our local paper, Events, is giving good satisfaction to all parties

The Dalhousie correspondent of Events lectures that, that paper, admirably fills the bill for rocal news and is much appconated, It has a well established and growing circulation in Restigouche, Gloucester, Bon wenture, and Gaspe counties and is received by a great many people in the West who formerly salanged to New Brunswick or to the Gaspe district.
