## CORNER-STONE OF NEW HIGH SCHOOL LAID TODAY

### IMPRESSIVE CEREMONY MARKS LAYING OF CORNER-STONE OF NEW HIGH SCHOOL BUILDING

Lieut.-Governor Todd Here For The Occasion—Hon. D. A. Stewart, A. W. Crawford, Dominion Director of Technical Education, Pius Michaud And Other Prominent Men Present—Large Crowd Hear Several Fine Addresses.

The laying of the Corner Stone of Campbellton's new Composite High School building took place here, this afternoon at 3.30 o'clock. Lieutenant Governor W. F. Todd arrived here at noon for the occasion, having motored through from Fredericton with Hon. D. A. Stewart, Minister of Public Works, and Mr. R. S. Barker, his official secretary. His Honor, the Lieut.-Governor laid the corner-stone of the new building which is to be a handsome three-storey structure of brick.

**Impressive Ceremony**  
The occasion was marked by an impressive ceremony. Following the severe weather of the past week, a beautiful autumn day made the open-air meeting a pleasant one and the function was, in consequence, very largely attended.

The stirring song "O Canada" sung by a lusty-voiced throng of school children opened the program and was followed by the introductory remarks of Mr. M. A. Kelly, Chairman of the Campbellton School Board. His Worship, Mayor N. C. McKay then extended a hearty welcome to all visitors. Following this Lieut.-Governor Todd laid the corner-stone of the building and addressed the gathering in fitting words.

Hon. D. A. Stewart, representing the provincial government. Mr. Pius Michaud, M. P., Dr. L. G. Pinault and A. W. Crawford, Dominion Director of Technical Education were also among the speakers. Hon. J. B. M. Baxter, Premier of New Brunswick and W. S. Carter, Chief Superintendent of Education, were both unable to attend, owing to the press of their official duties elsewhere.

Professor F. Peacock, Provincial Director of Vocational education was also present as well as Principal Bridges of the local High School and other leaders in educational affairs in Campbellton. The ceremony closed with the singing of the national anthem.

Owing to the fact that the ceremony has just begun as we go to press, it is impossible to reproduce a detailed account of the different speeches.

### MATAPEDIA VALLEY ROAD BLOCKED

Motor Traffic Stopped By Recent Snow Storm—Said To Be Earliest In Quebec In 72 Years.

As a result of the recent snow storm which proved so severe in many parts of Quebec Province, the upper portion of the Matapedia Valley road has been blocked for several days as far as motor traffic is concerned, according to reports received here yesterday.

One motorist from Quebec city, on his way through to New Brunswick, was unable to return. Mr. Boulanger, deputy minister of roads in Quebec, who was also in that district found it necessary to abandon his car at Sorel and complete a trip from Matapedia by train. His car is still there. It snowed for thirty hours in that district and at the end there was a foot and a half of snow on the road.

While the delays caused to motorists and others is serious enough a more serious condition was made apparent to-day when it was learned that the great majority of the farmers in the district have not yet gathered all their crops, particularly their potatoes. Many of these have been dug up and are now lying on the ground beneath a foot of snow. A large number of trees were badly damaged.

In upper Quebec, four provincial highways have been closed because of storms and dozens of American cars on their way to Quebec City are lined along the roadway through the Beauce valley unable to continue because of the snow. Orders have been issued by the Roads Department to have the road cleared of snow. For the first time in the history of the province the authorities have been caught unawares, through no fault of their own, of course, but merely because the snow arrived earlier than at any time in seventy-two years.

### R. C. PRESBYTERY AT KEDGWICK BURNED

Only Heavy Rain Which Set In During Fire Saved Church Under Construction.

Kedgwick, N. B., Oct. 13.—The Roman Catholic Presbytery at this place was completely destroyed by fire during the week-end, and only for the heavy rain which set in when the fire was at its height the new church, now in course of construction, would have been destroyed too. The fire was discovered about 1.30 a. m. and for about three hours it burned fiercely until nothing was left of the presbytery or its contents. Rev. Father Thibault is the priest in charge and he and members of his household were fortunate in escaping with their lives.

Father Thibault, while deploring his loss, is ready to face his duties as before.

### RATS INVADE PALACE AND DRIVE STARTS

"National Rat Week" Begins Early in Great Britain

London, Oct. 12.—Owing to the recent invasion of Buckingham Palace by rats and their increase throughout the country, the anti-rodent society has started its fall campaign urging housewives, storekeepers and all other patriotic citizens to "do your rat killing early."

Ordinarily, "national rat week," when special efforts are made to exterminate the pests, is celebrated late in November, but this year the date has been shoved up on the calendar owing to indications that there will be an early winter.

### FATAL ACCIDENT ON THE RESTIGOUCHE

Frederick T. Mowat Fatally Shot By His Own Gun On Monday—Funeral Services Tomorrow.

England's Flats on the Restigouche River about 31 miles from Matapedia, was the scene of a most distressing accident on Monday when Frederick Thomas Mowat, only son of Mr. and Mrs. Alexander Mowat of this town, was accidentally shot by his own rifle and died from the injury about an hour later.

The late Mr. Mowat, accompanied by his father, was up the Restigouche inspecting a fishing lodge which had just been completed and was in readiness for next season's activities. Father and son were just leaving for home when the sad accident occurred.

Both men had stepped into the canoe in which they were to run the river. Mr. Mowat-Sr. taking his place in the stern. The younger man shoved the craft off from shore and stepping in noticed that his rifle lay with the muzzle pointing toward him. As a precautionary measure he proceeded to re-arrange it and evidently the hammer caught on the seat or some article of their luggage, for the next instant it was discharged. The bullet shattered his right hand and followed the arm, cutting the main artery in the upper arm and apparently lodging in his chest. Whether the bullet found its way to the lung or not has not been definitely established but the unfortunate young man died within an hour from the loss of blood. He was conscious for some minutes after the accident occurred.

Sandy Fraser, a young riverman who, was near at hand, assisted the father and the remains were brought down the river as far as Flatlands, from where they were conveyed by motor to Campbellton.

The late Mr. Mowat, who was in his twenty-ninth year, was well known here and throughout the province in military circles. For some time he had been engaged in the lumber business with his father who has long been prominent in the business life of the North Shore. The deceased engaged in active service during the late war having gone overseas as a lieutenant with the 132nd North Shore Regiment and being later transferred to the famous 26th Battalion. Since the war the late Mr. Mowat took a keen interest in military matters in the province and was also very popular among a wide circle of friends here, all of whom will deeply regret his untimely death.

Besides his bereaved father and mother the deceased is survived by three sisters, Mrs. H. A. Carr of Campbellton, Mrs. A. R. Fraser of Moncton and Miss Claire, R. N. of New York.

The funeral services which will be held from the deceased's late home on Andrew Street and which were set for this afternoon, have been postponed until tomorrow afternoon at 3.30 o'clock owing to the unfortunate delay in getting word to Mr. and Mrs. H. A. Carr who have been absent.

ly despatched after news of the accident had reached here but owing to the wires being down as a result of the recent storm, the message was, in consequence, delayed.

The bereaved relatives have the heartfelt sympathy of all in this sorrow which has so suddenly come upon them.

### NOTICE

The funeral of the late Fred T. Mowat has been postponed until 3.30 p. m., Friday Oct. 16th.

### SUDDEN DEATH OF JOHN W. RICHARDS

Well Known Member of Firm of Richards Mfg. Co. Passed Away On Monday Morning.

The numerous friends and many business acquaintances of the late John W. Richards of this town will learn with regret of his sudden death which occurred at his home about 5 o'clock on Monday morning. Mr. Richards sudden death was due to a stroke of paralysis and was altogether unexpected as he had just returned on Sunday from Montreal where he had received encouraging word from a specialist regarding his health.

The deceased gentleman who was in his 54th year was a member of the Richards Mfg. Co., large lumber operators here and was well known throughout the province. Besides his wife he leaves to mourn six sons and one daughter. The sons are William in California, Claude in the West and Lyman, Cecil, David and Thomas at home; the daughter is Miss Mildred of New York.

The late Mr. Richards is also survived by three sisters, Mrs. James Evans, Mrs. Eliza Moores, and Mrs. Beatrice Somers of Campbellton and one brother Mr. W. S. Richards also of this town. To these sorrowing relatives the heartfelt sympathy of the community is extended.

The funeral services which were held yesterday afternoon at 2.30 o'clock and which were conducted by the Rev. Dr. Camp, were very largely attended, friends and acquaintances from all sections of the country being present.

### ALCOHOL SEIZED AT BUCTOUCHE

\$2,000 Taken at Buctouche in Raid Interrupted by U. S. Customs' Arrival.

Chatham, N. B., Oct. 14.—Customs Officer G. P. Stewart, W. P. Dawes, O. B. McQuarrie, E. LeBlanc and Probation Inspector J. B. Springer made a surprise raid on premises of James Nowlan at Buctouche, resulting in a seizure of about two thousand dollars worth of alcohol.

The liquor had been ready for shipment by auto. When the officers were searching two American cars drove up but left hurriedly when it appeared that officers were on the premises. A diligent search was made but no further trace of liquor was found on the premises. Nowlan has had the name of being one of the most successful rum runners in the province; his location near the seashore and the main highway makes his business easy, so all he has to do is land the goods in secret there and the buyers have only to come for it.

BANK ACCOUNTANT IS SENT TO PRISON  
Toronto, Oct. 14.—W. A. Chawners, former accountant of the Canadian Bank of Commerce, was yesterday sentenced by Magistrate Jones to a determinate period of two years less one day in jail, to be followed by an indeterminate period not to exceed two years less one day for theft from the bank.

\$250,000 WORTH OF ALCOHOL BURNED  
Halifax, N. S., Oct. 14.—Twenty-five thousand gallons of alcohol, valued at \$250,000, were destroyed by fire that ravaged the 35,000 gallon cargo of alcohol on board the steamer Hohenlinden here yesterday. The fire was caused by escaping fumes from the tin containers being ignited in the ship's engine room.

### STORM SEVERE IN SOME SECTIONS

Nearly Two Feet Of Snow Fell In Some Districts—Wires Down and Other Damage Caused.

While the recent snow storm was not as severe in the immediate vicinity of Campbellton as in other parts of the country, it marked the roughest weather experienced here so early in the season for a number of years.

Hunters who had gone to the woods last week in search of game, however, experienced some difficulty in getting about. In some sections the snowfall amounted to one and a half feet and in many cases back roads were blocked to motor traffic by the drifts. On the I. N. R. the storm was quite severe and here as well as in other sections telephone and telegraph lines were down. The storm also interrupted the towns hydro power service and the Electric Light Department was obliged to utilize their emergency plant. On Monday night however, hydro was again turned on.

On The Coast.

Along the lower section of the Gaspe Coast the storm was quite severe. Between Chandler and Gaspé telephone and telegraph wires were out of commission for sometime. In the Gaspe district the snow fall amounted to about a foot and a half. It is reported that considerable damage to crops has also resulted in the Peninsula but details are not available as to the exact loss in any locality.

At Chandler.

A wind and snow storm here followed by heavy frost has caught many unexpected farmers with parts of their crops still under ground. The storm reached here on Saturday morning at eleven o'clock with a gale of wind accompanied by rain which quickly turned to hail and later to snow, causing havoc with the electric wires and casting the town in darkness for the night. The snow fall was about four inches and was the first of the season in this district.

### PARTRIDGE SEEM SCARCE THIS YEAR

Reports From Different Sections of N. B. Show Dearth of Valuable Game Birds.

Partridge are scarce in New Brunswick this year, according to reports which have been received from different sections of the province. In York County alone there is said to be a marked dearth of these valuable game birds.

As a result of the pronounced scarcity of birds, as already indicated by the reports which have been received here by Chief Game Warden L. A. Gagnon, it is expected that special steps will be taken to investigate the causes leading up to the shortage, which is attributed in some sections to the depredations of the parasites which were discovered on numbers of the birds killed last year. These parasites were also found on dead partridge in the woods, whose death had apparently resulted from the destructive parasites.

Arrangements are being made to co-operate this season with the special commission appointed last year by the representatives of the American and Canadian game associations to investigate the situation which was found to exist then. It is expected that following the opening of the partridge season special efforts will be made to secure specimens for examination in this connection.

This is a special seasonal addition to the regular tea-room service.

### CONVENTION IS HELD AT GASPE

Conservative Choice Between O'Leary And Gauthier—Special Train Provided.

A Conservative convention was held in Gaspe on Monday, the purpose of the gathering being to select a conservative candidate to oppose Hon. Rodolphe Lemieux in Gaspe County in the coming general elections. Gratian O'Leary, a former Gaspe county boy who has distinguished himself as a political writer and correspondent, and Dr. D. L. Gauthier of St. Anne de Monts, are both mentioned as possible candidates.

A special train was arranged for and many friends of the party took advantage of this means to attend the convention.

### BABE RUTH IS HEADED FOR N.B.

"Home Run King" And Other Baseball Celebrities Form Hunting Party.

New York, Oct. 14.—George Herman Ruth, better known as "Babe" the player of four base clubs in the major baseball circuit intends to substitute a gun for his baseball bat and sally into the thickets of New Brunswick and the State of Maine in search of "big game." Through with the worries of attempting to live up to the title of "home run king," for another season, Ruth and a party of other base-ball celebrities are leaving tomorrow morning in search of recreation.

Included in the hunting party will be Bob Shawkey, pitcher of the New York Yankees, Eddie Collins, manager of the Chicago White Sox, and Joe Bush, twirler for the St. Louis Americans.

### TORONTO GUNMEN GET SMALL REWARD

Hold Up Man at Oil Service Station and Only Get \$15.

Toronto, Oct. 13.—Two men answering the description of the bandits who shot and wounded Alexander Turner, grocer, of Tottenham, on Saturday night, after they had robbed him, are believed to be the gunmen who last night entered a Canadian oil service station in Toronto and robbed the man in charge, John Bond, of \$15.

Bond had just completed putting away the day's receipts, with the exception of \$15, and was sitting in the office eating his lunch when at 11.30 two men walked in on him. As Bond looked up at the men one of them drew a revolver and said, "Put up your hands and hand over your money and both walked out of the door. Bond was unable to describe the car in which the men made their escape.

### WOLVES RAVAGING NORTHERN ONTARIO

Many Sheep Killed Recently and Some Farmers Leaving District

Sault Ste. Marie, Ont., Oct. 9.—Wolves and coyotes are again ravaging the Bar River settlers and no less than ten sheep have been killed by wolves in the last ten days. With the Stewart, who is here today, representing settlers from all parts of Laird Township at the Bar River Department do not indicate any serious depredations of the wolves was the topic of conversation. "As a result of the depredations of wolves of this fall many of the farmers around Bar River have either sold, or anticipated selling their remaining sheep," Duncan Fremlin stated.

That it is time the attention of the Quebec government was being more clearly focused upon road conditions in the Gaspé Peninsula with a view to some much needed improvement in its main highway, is the opinion expressed to this paper a few days ago by a prominent merchant of Gaspé county.

Conditions Deplorable

"In some cases conditions are deplorable," he stated.

In certain sections of both Bonaventure and Gaspé Counties, portions of the road are scarcely passable in wet weather. Until these sections are fixed up as they should be, tourist traffic is simply out of the question. It is an insult to the intelligence of a motorist to even suggest that he put his car over these roads in order to "enjoy" a holiday.

Not Getting Her Rights

This merchant is evidently well acquainted with road conditions along the coast. He makes no attempt to saddle the blame on any particular individual or party but emphatically declares that "Gaspé is not getting her rights in the matter of government expenditure for the improvement of highways."

More Spirit Needed

Asked as to his views in regard to the objective of the newly formed Automobile Club at Chandler, this resident of the coast expressed the belief that this new association was headed in the right direction and should be able to accomplish much in the interests of good roads.

"They must go to head-quarters though," he declared, they must approach the government through its representatives and request some definite help and, moreover, they must put more spirit into their requests. This is a big question and it must be tackled in the right way."

In the meantime it is interesting to note what large sums of money are being spent by the Quebec government for the reconstruction and maintenance of highways in the other sections of that province. Grants for the development of the tourist business are also on record but in this regard the needs of the Gaspé territory are persistently ignored.

PRICES IN THE LOCAL MARKET

Usual Fall Advance In Foodstuff Prices Now Apparent—Vegetables Very Penitful

The usual fall advances are now evident in foodstuff prices in the local market. These advances, however, are as yet confined to a few lines.

Vegetables and locally grown fruits, which seem unusually plentiful this season, remain about the same. Potatoes are now retailing at 2.00 to \$2.25 per bbl. and apples at from \$3.50 to \$6.00. Eggs and butter prices are strong, the former retailing at 45c and the latter at 55c per pound.

Meat prices show little change over the past few weeks. Pork is now selling at 25c and 30c according to cut. Locally raised beef is said to be a little more plentiful this year than other seasons and is retailing at 10 to 25c. Lamb has been very plentiful but the demand has been rather uncertain. Chickens are plentiful this season, as prices now range from 35c to 40c per lb.

NO SERIOUS DAMAGE TO ROADS OR BRIDGES

Statement of Hon. D. A. Stewart, Minister of Public Works.

Fredericton, Oct. 14.—Hon. D. A. Stewart, who is here today, representing settlers from all parts of the province, do not indicate any serious depredations of the wolves was the topic of conversation. "As a result of the depredations of wolves of this fall many of the farmers around Bar River have either sold, or anticipated selling their remaining sheep," Duncan Fremlin stated.

## BOBBED HAIR BEGAN IN ODD WAY

Brought In Fashion By Women  
Who Faced Decapitation By  
The Guillotine

Hollywood, Cal., Oct. 14.—The fashion of bobbed hair was in vogue during the French revolution, at least by women who faced decapitation by the guillotine. Testimony to this was disclosed in a grim little satire, written by a French woman at the time of the Commune, which was found in a mass of French books and manuscripts obtained by a large motion picture studio here for research work.

The writer commented on the prevalence of shorn tresses in this wise: "It is the custom before women are executed to cut off their hair, that it may not interfere with the executioner's blade. So all Royalist women go to the guillotine with their hair off at the neck. Incidentally, the head soon follows this example."

Grisettes, as a bit of humor, began cutting their hair the same way—aping the aristocrats in their last fashion. They are finding that it is comfortable and the custom is growing. No one knows where it will stop.

## RAPID GROWTH OF AUTO BUSINESS

New Record In License Receipts  
—N. B. Has More Than 20,000  
Licensed Cars.

Motor vehicle license fees receipts at the Provincial Department of Public Works have passed the half million dollars' mark and the fiscal year will not close until the end of October.

Last year's receipts from automobile fees reached \$452,489.23, and skeptics shook their heads when ex-Premier Veniot's estimate of \$500,000 for the present year was presented to the Legislature. Five years ago receipts were less than \$200,000, while ten years ago—in 1915—the total receipts were \$23,116 and in 1910 the amount was less than \$1,000—\$763 to be exact.

The number of cars licensed in New Brunswick this year is to be upwards of 20,000 and the registrations show that the automotive industry has had an exceptionally good season, there being many new cars on the lists this year. Last year there were 18,310 cars and 1,443 trucks licensed. Complete returns for the present year will not be available for some time. Meanwhile a good many sales of 1926 models are being made by automobile dealers throughout the province.

At present there is considerable speculation as to what changes will be made by the new Government in the system of licensing of automobiles. Reduction in the present license fees and introduction of a gasoline tax were promised by Premier Baxter during the election campaign.

## AS THE SENATE WILL STAND WHEN SESSION OPENS

With Vacancies Filled Still A  
Conservative Majority Of  
Twelve Members.

Ottawa, Oct. 14.—A party Analysis of the Senate, whose representation, is now complete, following the nine appointments made by Premier King in the last six weeks, and as it will appear with the opening of the fifteenth Parliament, provided no more of its members die in the meantime, shows that only some radical change in its constitution can free it from the hold of the dead hand which a minority party in the popular House of Commons is still able to maintain.

Even after four years of Liberal rule, and with a considerable number of deaths—Premier King has appointed 18 to the Upper Chamber since he came into office in December, 1921—the party representing the majority in the elective chamber are now actually in a minority of 12 there being at this date 42 Liberals and 54 Conservatives.

Another feature of this present composition of the Senate is that only in two provinces of the Dominion—Quebec and Prince Edward Island. In one other province, Ontario, the Liberal party a majority of 12, the parties are equally divided, each having three. In Quebec, there are now 15 Liberals Senators and 9 Conservatives; and in Prince Edward Island there are 3 Liberal Senators and 1 Conservative. Nova Scotia is now represented by 2 Liberals and 3 Conservatives; New Brunswick, by 4 Liberals and 6 Conservatives; Ontario, by 10 Liberals and 14 Conservatives; Manitoba, by 2 Liberals and 4 Conservatives; Saskatchewan by 2 Liberals, (including Senator Turfitt, who is called a Progressive) and 4 Conservatives; Alberta, by 3 Liberals and 3 Conservatives, and British Columbia by 1 Liberal and 5 Conservatives.

## WOUNDED MOOSE CHARGED HUNTER

Freeman McLean, of Chatham,  
Saved by Unerring Aim  
at Close Quarters.

Chatham, N. B., Oct. 14.—Freeman McLean, who goes annually on a moose hunting trip, has had great luck this season.

He started out from home and after a comfortable night's rest was early on the way path. Just after dinner he saw a big fellow in the distance and made off after him. He hadn't got far on the way when he heard the report of a rifle from another direction. His quarry, however, only moved about uneasily, so he pursued his course to get within sure rifle shot.

He was going along easily and cautiously seeking vengeance on Mr. McLean.

He heard a great crashing to his right. Turning quickly he got the surprise of his life, for there not more than fifty yards away was a big bull moose coming at him as quickly as he could. Mr. McLean had just time enough to recover himself and get his rifle into action.

When Mr. Moose fell with a bullet in his forehead he was only fifteen feet away from the hunter. He rose, however, and made off. But another shot brought him to a full stop. A curious discovery made on examining the carcass was that the animal had been shot before, the bullet hitting the hard bone of the head about three inches below the left eye.

It is supposed that the shot that had been heard at the beginning of the hunt was the one that hit the animal and in its pain it had attempted to seek vengeance on Mr. McLean.

The head is one of the finest ever brought out of the woods here. It has a spread of 53 inches with eight points on one branch and nine on the other. The carcass weighed over 700 pounds when dressed.

**\$5 POTATOES IS AROOSTOOK'S HOPE**  
Farmers Holding Off Although as High as \$4 Has Been Offered at Some Places

Presque Isle, Me., Oct. 14.—Aroostook potato growers are having visions of \$5 potatoes, which is said to be the reason that some of those who can afford to do so have been holding off and have refused even \$4 a barrel during the past few days.

Prices generally have run over \$3.50 for some days for table stock, with occasional sales up to \$3.80 and even \$4 reported. Meanwhile stocks are being moved at the rate of about 200 cars a day out of Aroostook county. Latest reports of the movement of potatoes show almost twice as many potatoes shipped out of Maine's commercial potato growing belt as for the same date last year. Shipments to date run up to almost \$7,500 cars this season; total shipments last year were 43,129, but up to this time less than 4,000 cars have been shipped.

## A LIVING HOBBY

(Herbert N. Casson, in Forbes Magazine.)

Trust people. Believe in people. Make a hobby of people. You'll be cheated—yes—many times. But in the long run you'll win all that the cynics and pessimists lose.

The new definition of business is Personal Service. If you are pleased to do pleasant things for people, then you are a business man of the new sort.

The world spent \$3,300,000,000 on automobiles and motor-cycles last year. Almost as expensive as war and only a degrees less harrowing.

Many other presents were also received. Mrs. Lemieux thanked her friends who so thoughtfully and generously remembered Mr. Lemieux and herself also their children. Two of their children were unable to be present but they thoughtfully remembered them in church in the morning. After a very enjoyable evening of music and singing and the dancing of a few old-fashioned reels refreshments were served and the party broke up all wishing Mr. and Mrs. Lemieux many more years of happy wedded life.

## The Wife Who Wasn't Wanted

By DOROTHY A. F. MARCELL

Copyright, 1925, Warner Bros. Pictures Inc.  
"THE WIFE WHO WASN'T WANTED" with Irene Rich in a pictureization of this novel

It is the morning of Bob Manning's twenty-first birthday and he and Marjorie Patterson have greeted each other by climbing to the tops of ladders on either side of the wall separating the two estates. Marjorie gives Bob a golf bag she has crocheted for him. He is just starting to kiss her when her ladder falls. Mr. Bledsoe, whose son is to be tried that morning, calls to see John Manning, District Attorney, who is Bob's father, and John, urged by Eileen, his wife, meets him.

CHAPTER 2—Continued  
"I'll see the gentleman in a moment, Mary," he told the maid and delayed to favor his wife with a look of comic-dismay.

"It's just as well for the laws of this land, Eileen, that it's not your business to see that they are enforced. That kind heart of yours would be the joy of the criminal classes."

E. J. Bledsoe was a self-made man. Obsessed from early youth with a desire for power, he had devoted himself to the accumulation of money, which to his mind was the same thing. A man of untiring energy, resource and vision, success had crowned his efforts in a remarkable degree. Now, a millionaire, vast industrial establishments were not only a monument to his ability but a blessing to the community. Yet, the very trait of acquisitiveness which had led to this happy goal was not an unmixed virtue. It had bred, as the years sped

by, a growing indifference and callousness to the rights of others, a ruthlessness towards those who opposed him and finally a conviction that money would buy anything. True, much it had brought him, but certainly it had failed to save him from marked uneasiness, as he waited in the big living room that morning, and studied with the keen eye of a judge of men, the portrait in oils of John in his judicial robes which Eileen had proudly insisted should be hung in the place of honor above the mantle.

Little satisfaction did he seem to get from what he saw, yet, as he turned about with a smiling face to greet John an onlooker would have been persuaded that this cheerful man had not a care in the whole world.

"What?" cried Bledsoe as if he could not believe his own ears.

"Happened to be out this way, Manning—hadn't seen you for a long time. Thought I'd drop in for a chat—get the latest news on the election and get a peak at your place. By Jove, it's nice—my wife says it causes her to sleep—she says she's never so comfortable as when she's in your house. Every time she goes by," he rattled on with the friendliness of an old acquaintance, "Don't want to sell—eh?"

John shook his head and smiled, but it was a watchful smile.

"No?—well, I don't blame you. If I had it, you couldn't get it away from me with dynamite." Now a casual thought seemed to strike him. "Er—by the way, Manning, this is the morning the trial of my son comes off, isn't it?"

John bowed gravely and the sharp glance which shot out from under Bledsoe's shaggy brows got nothing for its pains.

"Too bad about that accident—a sad affair which has caused me much unhappiness. It was a pity—a very great pity the man was hurt."

Bledsoe hesitated, but as John displayed no disposition to speak, went on. "I tell my wife and I tell you, too, Manning, we can't get automobiles without accidents. And don't forget it—the automobile has come to stay—we can't get along without it." With a gesture of hopelessness Bledsoe indicated the price his fellow citizens were doomed to pay for the blessing of the motor car.

John might have been the Sphinx for any expression of opinion he gave on this sage deduction.

"Take my son," Bledsoe continued with spirit. "As fine a boy as ever lived—they don't come better, Manning. Well, there he was, tending to his own business—driving along a little fast, perhaps. He had a date with a girl and you know how those things go—he had to get there. Well, he turned a corner and there—right in his path, Manning, was that man—an inactive old man toddling along—can you beat it? What could Harry do? What could you or I have done under the same circumstances. Harry felt bad, of course—I never saw him any more broken up over anything. But that wouldn't help matters. I tell you, Manning, the real crime—the only crime in that matter—was in letting the old man out alone."

There came an ominous change in John's manner, but evidently the glance from beneath those shaggy brows failed to catch its meaning. "Of course, the trial this morning will be no more than a matter of form—eh Manning?"

"No trial in which I appear is ever a matter of form," said John quietly. "What?" cried Bledsoe as if he could not believe his own ears. "Do you mean to say that you are going to hold my son guilty of crime?"

BLOOD TRANSFUSIONS

FAIL TO SAVE LIFE

Moncton, Oct. 9.—Edward Roberts MacLeod, son of Murdoch MacLeod, of this city, died last night in Sydney Hospital after an illness which has lasted for three weeks. Mr. MacLeod, who was born here Nov. 9, 1899, had not resided in this city for some years but will be remembered by a host of friends.

On October 1 his condition was such that blood transfusions were necessary and his brother, Harry MacLeod, of this city, submitted to the operation. The patient rallied for a week but last night another transfusion was necessary and Mr. Keyes, Superintendent of the Warren Bituminous Paving Company, by whom Mr. MacLeod was employed, gave 18 ounces of blood but without effect, the latter passing away about 11 o'clock.

His father, Murdoch MacLeod, was present at the time of his death and Mrs. T. H. Howard, a sister, was en route with Mr. Howard to Sydney. Another sister Mrs. E. C. Chapman, of Lacombe, Alta., survives, as well as a brother, Murdoch.

The funeral arrangements have not been completed as yet.

SALE OF TIMBER

IN BONAVENTURE

Arrangements have now been completed for the sale of fourteen square miles of timber at La Nouvelle in Bonaventure County, which will take place on the 21st instant. It is expected that there will be four or five lumber companies interested in the deal.

"That is for the jury to decide, Mr. Bledsoe. I shall simply lay all the evidence in my possession before them."

"But Manning," Bledsoe's face twitched with feeling. "I can't bear to have Harry humiliated like that. He is proud; it will be a terrible ordeal for him to undergo. Great God! he burst forth. "You wouldn't put him in jail, would you?"

"I am sorry for you, Bledsoe—very sorry. But had I the same evidence against my son, that I have against yours, I should insist that he be sentenced."

"Manning!" Bledsoe burst forth incredulously.

"I was elected by the people to uphold their laws. I have taken my oath to do it without fear or favor. I will not falter in the duty imposed upon me."

Fear gripped Bledsoe's heart as his better judgment warned him that there was a man who meant exactly what he said. Before the peril which threatened his son, he resorted to his ill-powerful weapon, but with craft and circumspection.

"Of course, I understand your position, Manning—most commendable I'm sure, but in public office there are other considerations—political considerations—which must not be overlooked. In a very few days you've got to go back to the people for their endorsement. You'll need the aid and influence of all your friends. I've always been your friend, but—"

"Stop," rapped John, his eyes like steel and his tones as cold as ice. "That sounds suspiciously like a form of bribery to me, Mr. Bledsoe. If I were you I wouldn't pursue that line of argument any further. As for me, I am very pressed for time. I must bid you good morning."

Bledsoe was not slow to take the hint, but at the door he turned. Heart sick and defeated, passion and vindictiveness had claimed him. In silence he glared back, then he went his way.

As for John, he joined his wife in the breakfast room under no misapprehensions. He was certain that he had made an enemy, a powerful and ruthless one, too.

"You heard?" he said as he sank into his chair.

She nodded. The connecting door had been ajar and already she blamed herself for having insisted that he receive Bledsoe.

"I'm sorry, dear —"

Gas on Stomach  
Won't Let You Sleep

Gas pressing on heart, and other or-  
gans sometimes causes a restless,  
nervous feeling and prevents sleep.  
Alderkia helps any one gas on the  
stomach, unless due to deep-seated  
causes. The QUICK action will sur-  
prise you. Because Alderkia is such  
an excellent intestinal evacuant it is  
wonderful for constipation—it often  
works in one hour and never gripes.

## MAKES GLASS EYE

## IN AN HOUR

Average German Models Are  
Guaranteed For From 3  
to 5 Years.

Lauscha, Thuringia, Oct. 14.—The  
art of making artificial eyes has at-  
tained a state of perfection in Ger-  
many, and many thousands of them  
are expected from the little city,  
whose main industry is to supply re-  
serve optics. The principal firm in  
this business was founded in 1853.  
The artificial eyes are rather more of  
a hygienic than a cosmetic require-  
ment, as it serves to prevent dust,  
etc., from getting into the empty  
socket and setting up an inflammation  
likely to jeopardize the remaining  
eye. It is very light in weight and is  
not spherical but flat in shape. It  
takes one hour to make while the pa-  
tient is present in order that it may  
be modeled after the normal eye. The  
average German artificial eyes are  
guaranteed from three to five years.

## WHEN POLICE CLASH

## WITH STREET MOBS

Paris, Oct. 14.—The twenty-four  
hour general strike, called by the  
Communists ended officially at dawn  
today, but transport workers in the  
vicinity of Paris attempted to pro-  
long the walkout and met with some  
success among the drivers of auto  
buses and trams. There was, how-  
ever, a notable increase in the  
number of taxicabs on the streets and  
the general public was little in-  
convenienced. Most of the factory hands  
and workmen who were out yester-  
day, returned to their tasks this  
morning and the police felt little fear  
of a recrudescence of yesterday's  
rioting in which two persons were  
killed and some thirty wounded.  
Police maintained their vigilance,  
however, posting strong forces at  
possible danger points.

## NERVES AND

## FAINTING SPELLS

Sent Woman to Bed. Great Change  
After Taking Lydia E. Pinkham's  
Vegetable Compound

Sarnia, Ontario.—"After my girls  
were born I was a wreck. My nerves  
were too terrible for words and I sim-  
ply could not stand or walk without  
pains. I suffered with fainting spells  
until I was no longer any good for my  
household duties and had to take to my  
bed. The doctor said I should have an  
operation, but I was not in a fit condition  
at that time. My neighbor said, 'Why  
don't you try Lydia E. Pinkham's Veg-  
etable Compound?' I am sure it will do  
you good and will save those doctor's  
bills. So I was advised by my husband  
to try it after I told him about it. I am  
very thankful to say that I was soon  
able to take a few boarders for a while  
as rooms were scarce at that time. My  
baby is 17 months old now and I have  
not yet had an operation, thanks to your  
medicine. I have recommended the  
Vegetable Compound to a few people I  
know and have told them the good it has  
done me. I know I feel and look a dif-  
ferent woman these last few months  
and I certainly would not be without a  
bottle of your medicine in the house.  
You can use this letter as you see fit,  
as I should be only too glad for those  
suffering as I have to know what it has  
done for me."—Mrs. ROBERT G. MAC-  
GREGOR, R. R. No. 2, Sarnia, Ontario.

A recent canvass of women users of  
the Vegetable Compound report 96 out  
of 100 received beneficial results. This  
is a remarkable proof of its merit. C

Great Quantity of Grain Flattened.  
While Potato Fields are Covered  
With Water

Amherst, N. S., Oct. 14.—Rains  
during the past week have caused  
losses of thousands of dollars in the  
crops of Cumberland. Hundreds of  
acres of grain and marsh hay remains  
urcut and a huge quantity of the grain  
was flattened out by the recent rain  
and windstorms.

The loss to potato growers will be  
tremendous. Many of the fields are  
covered with water, while the ground  
in instances is so soft that the pota-  
toes cannot be dug. The first lot of  
spuds that had been dug and let re-

Beats Electric or Gas  
A new oil lamp that gives an amaz-  
ingly brilliant, soft, white light, even  
better than gas or electricity, has  
been tested by the U. S. Government  
and 35 leading universities and found  
to be superior to 10 ordinary oil  
lamps. It burns without odor, smoke  
or noise—no pumping up, no cleaning,  
clean, safe. Burns 94% air and 6%  
common kerosene (coal-oil).  
The inventor, J. M. Johnson, 216

## To the Electors of Restigouche-Madawaska

I take this opportunity to express my sincere thanks and appreciation for having nominated me candidate as opposed to the present administration at Ottawa.

Conscious of the fact, as are all the Electors of this electoral district of both parties, that the two northern counties of New Brunswick are deserving of, on account of their importance in the Maritime Provinces to-day, special consideration and that during the term of the present representative nothing has been secured for Restigouche County and very little for Madawaska, I will, if elected, with all my energy endeavor to see that the interests and desires of both these counties receive the consideration to which they are entitled.

I am a "Maritime Righter" and will bring the influence of Restigouche-Madawaska behind the cause of Maritime rights.
