

THE people of any city become what they are and form their standards of right and wrong from the teachings of the Mother, the Teacher, and the Press.

The London Advertiser

THE old newspaper definition of a good journalist was a man with a nose for news, but The London Advertiser's requirement is a man with a passion for the truth.

59TH YEAR. NO. 23341

LONDON, ONTARIO, SATURDAY EVENING, MAY 20, 1922.

TWENTY-FOUR PAGES

PRICE, THREE CENTS

RULES CITY REGULATE GASOLINE STATIONS

Court Flays 3 Guilty of Procuring Illegal Operation

PRISON TERMS TOTALING 25 YEARS IMPOSED

Justice Metes Out Ten and Five-Year Sentences at Toronto.

SCORES YOUNG DOCTOR

Points Out Death Penalty Is Narrowly Escaped by Those Involved.

Toronto, May 20.—John Armstrong, ten years. Dr. Milburn Kemp ten years. Gordon Kemp five years.

Such were the sentences imposed by Mr. Justice Riddell in the assizes today, following the conviction of John Armstrong, Dr. Milburn Kemp and Gordon Kemp for conspiracy and performing an illegal operation.

Mr. Justice Riddell said: "You three men have been convicted by a jury of your countrymen of two serious crimes. And there can be no possible doubt of the righteousness of the verdict."

"You, John Armstrong, a married man with children, authorized your accomplice, still at large, to employ her friend (Dr. Milburn Kemp), and you agreed to supply the funds to pay the operator."

"You, Gordon Kemp, took an active part in the criminal conspiracy; and you, Milburn Kemp, agreed for \$200 to prostitute your surgical skill to effect the desired result."

"You, John Armstrong, paying; you, Milburn Kemp, operating, and you, Gordon Kemp, with the accomplice, who is still at large, assisting, the illegal deed was done—when the police appeared, and all was discovered."

"It now becomes my duty to pronounce the sentence of the law. Parliament has empowered me to impose for the crime the punishment of imprisonment for life; but the jury have recommended you to mercy, and I shall not impose the extreme term."

"You, John Armstrong, who procured the commission of the crime to cover your sin, must be imprisoned for ten years."

"You, Dr. Milburn Kemp, who have disgraced an honorable profession, and were the actual operator, must be imprisoned for ten years. Whether you can distinguish ethically between choking an infant immediately after birth and destroying an immature child before birth I do not know—fortunately for you, the law makes the distinction and you escape the penalty of death."

"You, Dr. Gordon Kemp, apparently just for the excitement of the transaction took an active part in the operation; you are perhaps less to blame than your fellows, and your imprisonment will be for five years."

"For the crime of conspiracy you, John Armstrong and Milburn Kemp, will be imprisoned for seven years, and you, Gordon Kemp, for five years."

"The sentences in all cases to run concurrently and from May 4, 1922; and imprisonment to be in the Kingston penitentiary."

DUCHESS ILL WITH MEASLES.
London, May 20.—(Canadian Press Cable).—One of the victims of measles, which is prevalent in the Southwest London district, is the Duchess of Devonshire, wife of the former governor-general of Canada. She is suffering from a severe attack of the disease.

The Weather

FORECASTS.
Today—Moderate to fresh westerly to northwesterly winds; clearing; fine and a little warmer.

Sunday—Moderate northerly winds; fine and a little warmer.

The depression which was in Michigan yesterday is now northward of the St. Lawrence Valley with diminishing energy, and over the continent generally the pressure is average or a little below.

Rain has fallen over Quebec and the Maritime Provinces, and showers have occurred in many portions of Ontario. In the West the weather has been fine.

Temperatures.
The highest and lowest temperatures during the 24 hours previous to 8 a.m. today were:

	High.	Low.
Victoria	54	48
Calgary	68	56
Winnipeg	62	38
P. Sound	66	44
Toronto	60	40
Kingston	64	52
Ottawa	68	54
Montreal	74	62
Quebec	72	64
P. Point	68	52
S. John	58	44
Halifax	58	56

LOCAL TEMPERATURES.
The highest and lowest temperatures recorded in London during the 24 hours previous to 8 o'clock last night were: Highest, 59; lowest, 53.

The official temperatures for the 12 hours previous to 8 a.m. today were: Highest, 58; lowest, 54.

Barometric Readings.
Friday—5 p.m., 28.67.
Today—8 a.m., 28.64.

Fails to Take Own Life, Sends Report to Newspapers

Former London Resident.

WHEN, in desperation, individuals attempt suicide, they usually shun publicity, but Mrs. June Gray of Detroit, and formerly of London, who last week took poison to end her life, and has since recovered, proves the exception to the rule. In a letter received by The Advertiser Saturday, Mrs. Gray inclosed clippings from Detroit papers, describing her attempted suicide, and requests that the facts be published, "as I am a former resident, and some people may be interested."

Mrs. Gray now lies in the receiving hospital in Detroit recovering from the effects of the self-administered poison, and the motive for her rash deed is attributed to despondency, because her husband, William Gray, formerly of West Lorne, had refused to live with her.

Mrs. Gray, who resided at 459 Henry street, in the motor city, and who is 32 years old, swallowed several poisonous tablets, any one of which would cause death. Hearing her cries, Theodore Garlepy, who lives in the adjoining apartment, rushed to Mrs. Gray's assistance, administering first aid, and calling an ambulance.

At the receiving hospital, the effects of the poisonous dose were counteracted in time to save her life, and she informed the authorities there that she is a secret service operative, and had been living alone for a month. Her husband deserted her, she alleged, and he resides at 4972 Seminole street, Detroit.

Mrs. Gray complained that even her attempt at suicide had failed to bring her husband to her, and she now plans to begin life anew at secret service operating.

"He is obdurate," she said in her statement at the hospital. "He will not come to my side. I had hoped, when I failed to kill myself, he would see the injustice of his attitude and return to me. But he hasn't. Now I don't want him. I wish the poison had killed me—I would have been out of my troubles. But I shall not try suicide again."

"Mr. Gray is to sue for divorce, I understand. He will have a fight, for I am to become a mother, and the child shall not grow up without advantages. The father must pay."

Asserting that her husband is penniless, Mrs. Gray declared: "That caused all the trouble. He accused me of trying to get his money. He was so stingy that after our marriage he refused to buy me enough to eat, though in three years of courtship he was liberal enough."

In her letter to The London Advertiser, Mrs. Gray incloses two newspaper clippings describing her attempted suicide, and one clipping showing her photo, and announcing that in the opinion of attending physicians she will recover.

Her request to The Advertiser that full facts of the case be published is as follows:

"If you please publish these clippings in the Monday paper? As I am a former resident, some people may be interested. Kindly let me know if you will publish them. If you publish them, please let it be published in, and oblige Mrs. June Gray, 459 Henry street, Detroit, Mich., care Mrs. Attwater."

"Mr. Gray is a former resident of West Lorne, Ont."

ARRESTS GIRLS FOR SHOPLIFTING

Two girls, one a juvenile, were arrested Saturday morning in an ice cream parlor by Detectives Nickle and Bolton, and will be charged with shoplifting when they appear in court Monday.

The dresses were stolen from the store of John H. Chapman two weeks ago, the police state.

One of the girls was wearing a stolen dress when she was arrested. The other garment was recovered at the home of the other girl.

RUM RUNNING IS NOW DECREASING

George Tustin, assistant to Provincial Officer Arthur Palmer, reported Saturday that rum running through the city has fallen off remarkably during the past two weeks.

"We have been watching the roads closely," he explained, "and it is a safe bet that there have been no shipments through this city to the border during the last few days at least."

"AND A CLOUD Received Him Out of Their Sight" will be Evangelist of the Street Mission Hall.

will write their Ontario Medical Council examinations here during the first week in June.

Hospitals in London, Hamilton, Detroit, and other centers, have claimed many of the senior students, who as internes in these institutions will round out their clinical experience. Other seniors are taking advantage of opportunities presented to assist general practitioners throughout the district during vacation period.

As usual every year, several Meds take a trip to Northern Ontario, where they act as fire rangers for the provincial authorities, thereby combining an ideal outing, with a fairly lucrative occupation. Fire ranging appeals to many of the thrifty students because they are fairly well isolated in the wilderness, and this factor deters materially from the temptation to spend too much money.

A few students have secured appointments in the Canadian west teaching public school. Their academic

"Give My Love to Everybody," Lady Astor Bids Fond Adieu to Ottawa

OTTAWA, May 20.—"Give my love to everybody," was Lady Astor's parting word to Ottawa as she stepped on the train yesterday, her arms full of apple blossoms and her state-room piled high with gifts.

"Words couldn't tell how I have enjoyed being here, and how much I wish I could have stayed."

The concourse of the station was crowded with friends, many of whom had a hand-shake from Lady Astor and all of them a smile. She singled out soldiers and nurses whom she remembered and talked until Lord Astor gently reminded her that the train was leaving in two minutes.

INFERIOR MILK NETS \$10 FINE

William Tazzman Convicted of Offering Milk Below Standard For Sale.

PLEADS HIS INNOCENCE

Court Warns Accused That Cattle Must Be Kept in Good Condition.

Wm. Tazzman, a milk producer residing on the Gore road, was fined \$10 and costs in police court Saturday morning for offering milk containing less than 3.25 butterfat, contrary to the city bylaw.

"I'm not guilty, declared Mr. Tazzman. "The milk was just as it came from the cow."

Dr. C. S. Tamlin stated that a sample of the milk was taken into a local creamery and sent to the department of public health to be analyzed. It tested but 2.90 butterfat.

Questioned by the court, witness said that it might mean that the milk had been skimmed or watered.

"We have had samples lower than that from this man," stated Dr. Tamlin, "and we have had others that tested much higher. On February 22 it was 2.55, and on March 20 it was 3.55."

"I can't account for it," interjected Mr. Tazzman.

Dr. H. A. Slack of the Institute of Public Health said that most samples received at the institute went much higher than the law required. He couldn't swear that water had been placed in the sample from Tazzman's cows.

"I don't know more than what they accused me of," said Mr. Tazzman, when asked to state his case. "If any water was put in the milk I don't know anything about it."

"The stable was in a dirty condition," declared the inspector. "He is careless about the stables."

"I've been in the business for 30 years," declared the accused. "I'm selling by test now."

"That's the best way for you," observed Dr. Tamlin. "We must have the law lived up to. It has cost us \$20 to get the tests in this case."

"The fine will be \$10 and costs this time," stated the court, "but I can fine you up to \$50."

"Your cattle must be kept in good condition," stated Dr. Tamlin. It is up to you."

"All right," replied Mr. Tazzman as he paid his fine.

G. T. R. EMPLOYEE SEVERELY BURNED

A man by the name of Sinclair was severely burned while at work at the car shops Saturday morning.

The injuries were attended to by Dr. Clegg, after which he was removed to his home.

It's Up To Mother To Keep Baby's Milk Pure

Your Baby In Hot Weather.

SOME wise London physicians once remarked that the most important thing that goes into the baby's bottle is the good sense of the mother.

The milk may be of the purest when it leaves the dairy, but if it stands on a sunny doorstep for an hour or two, or waits in a hot kitchen while the mother goes to market, or is left in an open dish for flies to fall into, it will not be fit to give the baby.

Milk is an extremely delicate article, and is the favorite food of certain little cells that are capable of making great trouble for the baby, once they get inside him. They feed on a mild temperature, and when they find it, they grow and multiply with amazing rapidity.

On the other hand, they are greatly discouraged either by cold or heat. Therefore, the first law of the care of the milk should be "keep it very cold." It should be chilled before it leaves the dairy. Then it should be kept chilled until it is delivered at the house.

SONS OF ENGLAND WILL PLACE ROSES ON GRAVES

More Than 200 Members of Sister Lodges Will Parade to Mount Pleasant Cemetery.

On Sunday afternoon more than 200 members of the Sons of England, the Daughters of England and the juveniles will parade to Mount Pleasant Cemetery, where wreaths will be placed on the graves of the departed members of those organizations. On Sunday, May 28, similar services will be conducted at Woodland Cemetery.

This is the first parade of its kind that has ever been attempted by the Sons of England, and the three lodges are anxious that every member take part in the memorial services. The Sons of England Lodge alone numbers more than 300 strong.

The parade will leave the city hall at 2:30 o'clock, and will proceed direct to the cemetery, where a prayer service will be conducted by Raymond Smith, chaplain of the lodge. Mr. Smith will also deliver a short address suitable to the occasion.

After the opening ceremonies a Union Jack and red and white roses, the lodge emblem, will be placed on each of the forty graves. District Deputy Frank Nichols has charge of the program, the final arrangements of which were drawn up at a meeting in Sherwood Hall on Friday evening.

The remainder of the students are either acting as gentlemen of leisure or are traveling about the country as agents. The wares of the latter men include books, medical and otherwise, aluminum ware, and other staple household articles, or magazines, and those gifted with oratorical powers of the persuasive type usually surpass their classmates at other vocations, when it comes to showing the figures in the bank book in autumn.

Lectures will be resumed at the medical school early in October.

BOTH EULOGIZE AND CRITICIZE LLOYD GEORGE

Press Comments On British Premier's Conduct and Success at Genoa.

Laud Resourcefulness in Face of Immense Difficulties.

Paris, May 20.—Prime Minister Lloyd George of Great Britain, homeward bound from the Genoa conference, arrived in Paris at 10:45 o'clock this morning. He was met by Lord Hardinge, the British ambassador, who accompanied the premier as he took the 11 o'clock train for Calais, continuing his journey to London.

There is every prospect that the public welcome organized for the prime minister on his arrival tonight will be noteworthy and enthusiastic.

Today's editorials on the break-up of the conference are significant, as bearing upon the prime minister's position. On one hand he is adversely criticized for his farewell address at Genoa for the greater part of his public conduct there, and on the other hand he is eulogized for his courage and resourcefulness in the face of immense difficulties, and for what the eulogists term his considerable achievements, even though these fell short of his aims.

As for the conference itself, even its strongest opponents do not claim that it has been a great success, but look to the coming meeting at The Hague for a sequel of real value. Its enemies have hardly a single good word for it, especially those who from the first opposed admission of the soviet delegates to the council table. These pronounce it a dismal failure and welcome its end.

LLOYD GEORGE SPEECH.
GENOA, May 19.—David Lloyd George, the British prime minister, in his valedictory before the final plenary session of the economic conference today, said the Genoa weather has been sunny and gloomy, and that sometimes there had been thunderstorms, but all had ended today in a blue sky.

"That is the history of the conference," he added. "We need all kinds of weather to make a good harvest, and if you make a good look at the conference you will find we have garnered fine crops."

These crops Mr. Lloyd George listed as the coming meeting at The Hague, the pact for non-aggression, and the reports of the finance, transportation and economic commissions.

If these reports were adopted, said Mr. Lloyd George, they would help to restore the prosperity and vigor to depleted Europe. These technical reports alone justified the existence of the Genoa conference, but they must be incorporated into living practice—converted into gold.

"The greatest interest and excitement centered on the question of the relations of Russia with the outside world, and the assistance the world was ready to give to restore Russia and rescue its people," the premier said, adding: "It is a problem full of danger and difficulties; it is surrounded with a jumble of prejudices and wild passions."

"Let me say this about the conference and the way it debated the Russian question," he said. "The discussions in themselves have demonstrated the value of the international conference. Here is a question which has created many political crises in different countries which has provoked wars and revolutions in two continents, debated in conference in an atmosphere of courteous and calm investigation. What better justification could you have for conferences than that? All you have got to do in order to know how valuable conferences are is to consider the contrast between the tone of our deliberations."

Did Not Shirk Duty.
"You might have imagined from some of these that we had come here not to promote general peace, but to organize a general armageddon, and if our discussions had been continued in that spirit most of us would have passed from the Palazzo Reale."

Turn to Page 19, Column 5.

At Winnipeg the danger seemed to be lessening. After a seven-inch rise on Thursday night, the Red River, below the junction with the Assiniboine, kept at practically the same level during yesterday, creeping up just an inch from 8 a.m. to 8 p.m. according to readings at the high-pressure plant. The water here was six feet above summer level. It would have to rise another nine feet before it reached the high mark of 1916, when there was considerable flooding of low-lying areas and such a rise is not anticipated.

American Operators Of Pari-Mutuel Turned Back At Border

BUFFALO, N. Y., May 20.—Twelve pari-mutuel machine operators on their way from the Maryland tracks to Canada for the opening of racing at Woodbine were turned back at the border today by Canadian immigration officials. The Canadian officers told the men that there are many men out of work in the Dominion now and they must be cared for before Americans are allowed to come into take jobs.

The twelve men appealed to federal officials here, but were told that nothing could be done.

JUSTICE MOWAT GIVES DECISION AT HAMILTON

Ruling Will Govern Question Vexing London Aldermen.

REFUSES PERMITS Declares Municipalities Rights in Hydrants, etc., Set Precedent.

The council of the city of London has power to regulate the installation of gasoline curb stations and to grant permits for the erection of the same.

Mr. Justice Mowat, sitting on a case at Hamilton, has made this ruling.

For ten months the city council of London has dabbled along with the matter, refusing to grant permits while other centers have done so.

In the meantime tanks have been erected at various points of the downtown streets. Many of them, it is charged, are a menace to public safety.

A short time ago the city council of Hamilton, by resolution, agreed that the East End Garage should be allowed to erect a curb station. A ratepayer objected. He urged an action to quash the resolution of the council. It came before Mr. Justice Mowat of the Ontario supreme court.

"That municipal councils have the same authority to permit the erection of gasoline stations on the curb as they have to permit the erection of hydrants, patrol boxes, poles, etc., was the declaration of the court."

The matter was a proper one within the discretion of the council, the judge ruled. The resolution of the Hamilton council, he said, was not bad nor illegal in its face. The placing of the apparatus in the street and its erection was a matter within the jurisdiction of the municipal authorities, and the court would not substitute its opinion on a question of fact for that of the council.

The judge went on to say there was no express authority in the municipal act for the erection of hydrants, etc., on the curbs of a city. He thought the reason the legislature failed to specifically mention gasoline tanks was that it was considered unimportant.

Concluding, the judge remarks that, in the superintendence of its highways the municipality must be allowed to decide as to whether or not the public will be served by allowing or refusing the erection of the gasoline tanks.

REPORTS FLOOD RECEDING AROUND WINNIPEG DISTRICT

Waters Begin To Flow Back To River at Several Points.

Winnipeg, May 20.—With the Red River dropping steadily at Emerson and most points between that city and Winnipeg, and with the Assiniboine falling in such a way that flood water at such points as Poplar Point, Irberville and Pigeon Lake, has started to flow back to the river, there was a marked improvement in the flood situation last night. At Irberville, where the Hutchesons have been fighting the flood for a week, and by building dykes have saved great areas from devastation, a fair amount of the levee which was inundated before the dykes were put up, has been reclaimed. On the Hunphrey farm alone about 200 acres has been cleared.

At Winnipeg the danger seemed to be lessening. After a seven-inch rise on Thursday night, the Red River, below the junction with the Assiniboine, kept at practically the same level during yesterday, creeping up just an inch from 8 a.m. to 8 p.m. according to readings at the high-pressure plant. The water here was six feet above summer level. It would have to rise another nine feet before it reached the high mark of 1916, when there was considerable flooding of low-lying areas and such a rise is not anticipated.

VOTES \$398,000 FOR REPAIRS TO ONTARIO DOCKS

Parliament Passes Estimates for Provincial Works Without Opposition.

PT. STANLEY GETS \$10,000

Guthrie Appeals for Larger Appropriation for Goderich.

Special to London Advertiser.
BY RANDOLPH J. CHURCHILL.
OTTAWA, May 19.—Estimates amounting to \$398,000 for harbor, dock and breakwater repairs in the province of Ontario were passed in the House of Commons today without opposition.

Of the total amount voted for the province \$68,100 will be set aside for expenditures on the harbors of Lake Erie and Lake Huron, and \$65,000 for harbors and rivers generally, while \$34,000 will be expended on Owen Sound, \$37,000 on Collingwood, and \$1,000 on Warton, the three harbors on the south shore of Georgian Bay.

The estimates for the harbors of Western Ontario are distributed as follows: Port Stanley, \$10,000; Port Huron, \$25,000; Rondeau, \$10,000; Pelee Island, \$1,000; Leamington, \$2,000; Kingsville, \$5,500; Goderich, \$5,600; and Southampton, \$1,000.

There was no discussion on the amounts contained in the original estimates, but after they had been read by Hon. J. H. King, minister of public works, there was much urging on the part of several members for a supplementary estimate of considerable proportion for the harbor of Goderich.

Appeals for Goderich.
The question was brought up by William Black (South Huron) asking the minister if provisions were being made in the supplementary estimates for further expenditures on that harbor. He reminded Hon. Mr. King that a deputation had waited on him a few weeks previous.

The minister said that while he was in no position as yet to say what the supplementary estimates would contain, he assured the member that the arguments advanced by the deputation were being carefully considered.

Hon. Hugh Guthrie (South Wellington) joined in the plea for greater consideration for Goderich. He said that the position of Goderich had been before the house on many occasions during the past ten years. Matters at the harbor became acute four or five years ago, he said, but owing to the war the government made no large expenditures.

He believed that considerable money would be required to make the harbor what it should be, but the urgency of the need would overrule any objections on that score.

Hon. Mr. Guthrie pointed out that it was the only harbor accessible to big boats from Port McNicoll down. Considerable dredging would be required and something in the nature of a sea wall would be required to make the harbor safe for ships in time of stormy weather.

Mr. Black replied that he did not always agree with the member for South Wellington, but that he must insist there should be a larger amount placed in the estimate than provided at the present time.

He stated that he had learned from the board of trade at Goderich that \$400,000 would be required to make Goderich what it should be, but at the present time a request for only \$100,000 was being made.

Agrees With Guthrie.
J. Malcolm (North Bruce) asserted that the remarks of Mr. Guthrie were well timed. He thoroughly agreed, he said, with the request for further consideration of Goderich harbor. It was the point, he said, from

Only Real Live Soldiers Suit This Boy

MASTER ALLAN RAMSAY.

LONDON, May 19.—The two-year-old son of Princess Patricia, now on a visit to his royal grandparents at Windsor Castle, according to reports, is having the time of his young life "viewing and reviewing" the stalwart guards of his majesty's household.

where grain was distributed to the millers in all parts of Western Ontario.

He would point out to Mr. Guthrie, however, he said, that Goderich was not the natural harbor of refuge for Lake Huron. It was a little too far south to supply the needed shelter. A harbor of refuge was absolutely needed on Lake Huron for the safety of mariners, and should be taken into consideration by the minister. The loss of life on the Great Lakes recently would be ample justification of such an expenditure.

Mr. Malcolm stated that wharves allowed to run down in war years were now in a perilous condition. In his riding alone he did not think that the wharves could be put into shape for half of the emergency vote for the whole province.

GIFT OF LORRAINE STONE ACCEPTED

OTTAWA, May 19.—(By Canadian Press).—Premier Poirer of France has indicated to the Canadian government the desire of the French government to contribute a consignment of Lorraine stone to be used in the memorial chamber in the Parliament Buildings.

CLAIMS HE KILLED MANITOBA MAN

KENORA, May 19.—George Knutsen, a taxidermist from Ingold, walked into the local police office early this morning and gave himself up, stating, according to the police, that he had killed Neil Martin, a prospector, yesterday afternoon at West Lake. No further details were given.

Coroner Kinney and Provincial Constable Woods left for the scene of the alleged tragedy this morning. Neil Martin had been a prospector in the Manitoba boundary district for many years, and lived on the Manitoba side. Knutsen lived on the Ontario side of the boundary.

What Is Digestion?

DIGESTION is the one great process of life.

When digestion is impaired your system suffers from slow starvation.

The result is thin blood, exhausted nerves, depressed spirits and slow, sluggish action of the vital organs.

The symptoms of indigestion are as follows:

Mouth: Furred tongue, bitter taste, saliva sticky.

Stomach: Fermentation of food which fails to be digested, acids and gases given off causing pain about the heart and belching of wind, pain, weight and distension.

Bowels: Irritated by acid state of food, gripping pain and colic. Every bodily

organ is affected, headache, dizziness, rheumatic pains, depression of spirits and sometimes jaundice.

Indigestion usually results from over-eating and the failure of the liver and kidneys to clear the system of poisonous waste matter. Relief is promptly afforded by the use of Dr. Chase's Kidney-Liver Pills, which rid the system of poisons and ensure healthy action of the liver, kidneys and bowels.

Mrs. S. Hetherington, R.R. No. 1, Orangeville, Ont., writes: "I was troubled with indigestion for a number of years, but on taking Dr. Chase's Kidney-Liver Pills I secured great relief with the first box, and after a few more boxes were taken I found I could do without them, and the trouble has not returned."

One pill a dose, 25 cts. a box, all dealers or Edmanson, Bates & Co., Ltd., Toronto.

ORACLE CLUB HOLDS BANQUET

Debating Society Celebrates First Year of Existence at Tecumseh House.

Dean Tucker Delivers Laudatory Address Concerning Aims of Organization.

That the Oracle Debating Club would wield a wide influence in the life and progress of London and Canada was the prophecy made by the Very Rev. Dean Tucker, one of the principal speakers at the first annual banquet of the Oracle Club, held at the Tecumseh House Thursday night. Responding to the toast to the honorary members, the dean, in one of the most impassioned and eloquent addresses ever heard in the hotel dining-room, brought home forcibly to his half hundred hearers the possibilities of such an organization for rendering service to the community. The power of speech, he said, has been recognized as the greatest evolutionary force known to the world. And that a club had been organized that preached the ideals such as the Oracle preached, clean living, truth, justice, reflected great credit on its founders.

By Word of Mouth.
Ideas, Dean Tucker claimed, are the life-blood of civilization. The soul-consoling flower of Christianity germinated with a single idea. In ancient days the only method of conveying epoch-making ideas was by word of mouth. Today the great disseminator of ideas is the press, but the power of eloquence remains as potent a factor in shaping the thought of humanity as ever. To give apt expression to ideas one must have a well-trained and fertile mind. The training of the mind and the development of latent original power is the object the Oracle Club should have in view at all times.

After the banquet, the president, Al Rehnitz, opened the speaking program with a short address on the past and future of the Oracle Club. It was not a social society, he said. And for that very reason its possibilities for accomplishment were greater than most social institutions. It teaches confidence, and confidence is character. It tends to soften prejudices. It leaves the ego with an understanding of the other men's point of view, and for that feature alone its existence is justifiable. But most important of all, it preaches the principles of successful speech as laid down by the orators of history—clean living, ambition, sincerity.

Gordon Tennent, proposing the toast to Canada, touched briefly on his subject, which was replied to by

Expect Stronger X-Rays To Effect Cure.

ST. LOUIS, May 19.—Treatment of cancer is becoming more efficient through the use of the more penetrating X-ray, speakers declared today at the opening session of a convention of the Radiological Society of North America.

Although radio specialists throughout the world have been experimenting for several years, it has been only recently that tangible results have been obtained, the physicians said.

With the Reflection.

Mr. Betts said that one authority, a woman, said that she reconciled herself to being a woman with the reflection that "I at least cannot be called upon to marry one." Mr. Betts observed, however, that although his superficial experience with femininity had given him little knowledge of the subject, he had discovered one thing about them, and that was that he loved them. (Laughter.) G. Ellis and W. J. Laut, speaking on the toast to the Oracle Club, while Major Albert Murphy and Fred Betts of the Oracle Club, who had been in the field of literature, revealed several original conceptions of the subject. Modern literature, said Mr. Ellis, was an accumulation of ideas expressed in past ages. Mr. Laut outlined the achievements of local men in the field of magazine writing. Arthur Stringer, Robert Barr, Harvey O'Higgins, all of whom have attained distinction, lived their youth in London, graduating from high school. That they have now become Americanized was due to the limited field for literary work in Canada, and to the fact that Canadian publishers were unable, through conditions peculiar to Canada, to recognize new talent.

Other features of the program were addresses by P. Bartlett and F. W. Raymond. Major Kippen delivered a refreshing address on the honorary members. Vocal entertainment by Harry Carson, violin solos by Mrs. Carson and selections on the piano by Jack Mitchell were much appreciated.

NOTED MINSTRELS COMING TO GRAND

Aylmer Troupe Will Be Special Attraction for Victoria Day.

The management of the Grand Opera House announces a special attraction for Victoria Day, the excellence of which is guaranteed. The Aylmer Minstrels, which have played with great success all over Western Ontario, have arranged to play a matinee and evening performance in this city, and will present the same show which has been so well received elsewhere.

There are 30 people in the company, which is under the direction of Will H. Starr, who for a number of years was featured as a balladist with the famous Primrose Minstrel Shows. The company makes a departure from the conventional old-time minstrel circle, in that they present the first part in a handsome colonial setting, with costumes of a richness and quality not approached by any other company on the road today. The six endmen include such well-known minstrel comedians as Earl Peckham, Bill Millard, Mort Young, Morley Whiteside, Ralph Perkins and H. E. Armstrong, each of whom contribute to the specialty olio. The performance closes with the funny after-piece, "In Zululand," making a most effective finish to a show of superlative quality.

The company carries its own band and orchestra, and a big street parade will be held at noon on Wednesday. It will be well worth seeing.

REDUCED FARES TO MOUNTAIN RESORTS AND PACIFIC COAST.

Canadian National Railways Announce Reductions.

Travel to British Columbia should take a step forward with the marked reductions in passenger fares just announced by the Canadian National Railways. The return rate from Toronto and Hamilton will be \$109.55 to Vancouver, Victoria, Seattle or Portland, Ore. A circuit tour to include two days on the company's splendid British Columbia steamships between Prince Rupert and Vancouver, may be taken at an extra cost of \$13 to cover meals and berth on steamer. To Calgary, Edmonton and Jasper Park and return fare is \$87.50.

All tickets carry the usual optional route privileges, enabling passengers to travel via the Sudbury-Port Arthur route in one direction, and via the Transcontinental Line back of the height of land, via Cochrane and Cobalt in the reverse. Wide choices are also available on Canadian National route west of Winnipeg.

Tickets are good for stopover at all points within limit of October 31. Apply to any agent of the Canadian National-Grand Trunk Railways for full particulars.

ASK MORE SCHOOL ACCOMMODATION

Special to London Advertiser.
STRATFORD, May 19.—The fulfilment of the adolescent school act in the city is greatly increasing the problem of more school accommodation. The necessary addition to the Collegiate Institute, which has afforded the city council much discussion, must at last be materialized. In addition to this, the erection of a technical school is also being planned, although no definite steps toward it have yet been taken.

Windsor Women Use Baby Buggies To Facilitate Smuggling of Goods

WINDSOR, May 19.—Investigations by customs officers at the ferry dock of baby carriages, coming from Detroit, this afternoon disclosed that this class of vehicle is being used extensively by women for smuggling.

One buggy, in which was a chubby infant, contained no fewer than twenty-four small parcels of goods purchased in Detroit. Three women, who admitted ownership, were compelled to pay duty amounting to more than \$10.

Smuggling, by using baby buggies, is a new one on customs officers, who became suspicious when more than a dozen of these infant carriers were trundled off the five o'clock boat.

"Fat women," or smugglers padded with Detroit purchases, are now seldom seen at the ferry dock, officers said.

J. A. DOCKSTADER ELECTED PREFECT, COLLEGE OF ARTS

New Appointee Is London Boy and Member of Class '23.

Results of the annual election of officers for the Students' Council of the College of Arts at Western University, have been announced and John A. Dockstader, a member of class '23 and a London boy, is the new prefect.

Officers who will act with Prefect Dockstader in administering student affairs at the College of Arts during 1922-23 are: Helen M. Davey, '23, sub-prefect; Helen Ballison, secretary, and Alfred I. Hale, '24, treasurer.

In addition to the above officers, the Students' Council will include representatives from the various classes at the college of arts, who will be elected by their fellow students.

The retiring prefect is George A. Wainwright, of this city, who is a member of the graduating class at Western this year.

BALLOT FOR SUPERVISORS

Brantford Commission Forced to Adopt Novel Plan to Secure Playground Heads.

Special to London Advertiser.
BRANTFORD, May 19.—Appointments as supervisors for local playgrounds were made at a protracted meeting of the playgrounds commission. There were 65 applicants for the posts of supervisors for Tutela, Dufferin and Recreation playgrounds. The applications were so uniformly good that it was finally decided to ballot for the lucky ones. This resulted in the following applicants being successful: Mr. Treble, Tutela; Mr. Bonner, Dufferin; and Mr. Carruth, Recreation. They are all returned soldiers, and will be paid at the rate of \$80 monthly. The committee sat until 11:20 making these appointments.

The necessary paraphernalia will be handed out to these men next Monday, and the work of getting the grounds into condition for the formal opening on Victoria Day will be gone on with.

WILL ADDRESS CANADIAN CLUB
CALGARY, Alta., May 19.—Sir James Aikins, lieutenant-governor of Manitoba, will be in Calgary on Monday, May 22, and will address the two Canadian Clubs at the Palliser at 12:30 noon. His subject will be "The Development of Canadianism."

Of Him it is Said!

THE story of the patriarch Joseph dying in a strange land is one of intense human interest. Of him it is said "he gave commandment" and expressed his last desires concerning his possessions.

Upon returning to their native land after many years, his descendants, we find, were seeking to carry out his wishes.

Conditions have changed since then, yet every owner of property still has the right to direct, during his life, the manner of its distribution after life ends. To make a Will is both a duty and a privilege.

In former years an executor's task was comparatively light. In modern times the complications arising out of Government Income Tax and Succession Duty Returns have made an executor's work burdensome. To-day it is experience that counts.

Of great import to the future welfare of loved ones is your selection of an Executor. The Canada Trust Company is organized to carry out the desires of Will-makers. As Executor of your Estate its officers will see to the execution of your wishes in an impartial, thorough manner.

Our booklet "How to Make your Will" shows the first step to be taken. For your family's sake, write for a copy to-day.

PURITY BREAD

Buy It Today

10c a Loaf

(ONE SIZE ONLY)

The wonderful reception which was accorded PURITY BREAD on its introduction to London housewives has far exceeded our expectations, and has taxed the capacity of our bakery.

Mother's bread was good—there's no doubt about it. You enjoyed eating the bread she produced. It was the best you could get then.

It is different today. The bakers who make our bread are experts, carefully trained in that art. Our modern, sanitary shop contains equipment which has made baking a science. With such a combination our bread is par excellence, and we believe, even better than mother used to make.

URGES NATIONS UPHOLD LEAGUE

Sir George Foster Delivers Instructive Discourse at London Collegiate Institute.

Declares Onus of Success of Organization Lies With Great Democracies.

"On the great democracies of these nations lies the onus of making or breaking it," declared Sir George Foster, speaking on the league of nations, and urging an intelligent support of the league by the people of the 51 nations in it, at the Collegiate Auditorium, Friday night.

At the close of the great war people had become convinced of the necessity of some machinery to prevent the possibility of war, and out of this conviction had come the league of nations, said Sir George.

The subject was dealt with from three angles, by the speaker. First, the league is second, how it works; and third, what it has done up to the present time.

An ordinary audience of people to-day would say, if asked of the league of nations, "Is there any such thing?" or else assert that it was only on paper; the man on the street has comparatively speaking, a blank mind in all things with reference to the league, Sir George said.

If you said that you could in any way mitigate the chances of war you would have the immediate assent of everybody. "If we work the league through to prevent war, it will be because you have taken an intelligent interest in it," he asserted.

The thought had lurked in people's minds for centuries, and when the representatives of 32 countries came to make the conditions and terms of peace at Paris they spent three months hammering out the project of a covenant of a league of nations, continued the speaker.

"It wouldn't work," was what people said of the unanimous vote, but there was a deep philosophy in it, for the small nations can obstruct a resolution, as well as the large ones. In this way all are pleased.

And while it had been the belief that "an ounce of experience was worth a pound of theory," and the two general meetings of the assembly had shown that there was no harm in the condition.

The league at present was made up of representatives of nations which together possessed of 75 per cent of the population of the world and 65 per cent of the land.

As soon as Germany shows the fruits of repentance," said Sir George, "she will be admitted to the league, if not this year then the next year," Sir George stated.

Turkey would be in as soon as the peace treaty with her was arranged. Hungary was making application and Italy was making application, and the one country which counted which was not in was the United States, though the majority of the people of the United States were heart and soul behind the league.

Party politics had prevented the United States from entering the league. President Wilson had consulted Republican party leaders before going to Paris, the republic would probably be in the league to-day.

Some intimate glimpses of the meeting hall and the arrangements made at the general assembly for the delegates were given by the speaker. English and French had been chosen the official languages, though any delegate could use another tongue if he provided the assembly with a translation after.

Ideal of League. In the preamble to the covenant was the ideal of the league. In it were the words: "We thirty-two nations here assembled pledge ourselves that before going into war with one another, we will exhaust all means provided by the League of Nations," said the speaker.

Three significant things, to the delegates, had resulted from the war.

Ridicule Report Big Shake-Up of Teaching Staff Is Pending

MEMBERS of the local educational department ridiculed Saturday the report that a "big shake-up" was pending in connection with the teaching staff of the Collegiate Institute.

"There is to be no 'shake-up,'" explained W. A. Tanner, secretary of the board of education. "It has been decided, I believe, that certain temporary teachers are not to be re-engaged. There are, perhaps, a half dozen of these cases."

Town Topics.

A THOUGHT FOR TODAY

The Lord will take pleasure in His people; He will beautify the meek with salvation.—Psalm 119:4.

THERE is no beautifier of complexion or form or behavior, like the wish to scatter joy and not pain around us.—Ralph Waldo Emerson.

DR. SLACK of the Institute of Public Health will address the Rotary Club at the noon luncheon on Monday next. The topic on which Dr. Slack will speak will be "Adulteration of Food."

THE HIKE FOR the junior school and prep boys of the "Y," which was to have been held to Sage's farm to-day, has been postponed on account of the inclemency of the weather. However, the hike next Saturday will be held as usual, weather permitting.

GEO. H. LOCKE, M.A., chief librarian of Toronto public library, will be one of the principal speakers at the convocation banquet of Western University on Tuesday night of next week. Locke has chosen as his subject, "Why Go To College?"

THE LONDON STREET Railway Company will be the defendants in an action that is being brought against them by Edward Winter and Agnes Winter, of the township of Westminster, and in which action a writ has been served on the defendants by T. G. Meredith, solicitor for the plaintiffs. The action is the result of an accident that occurred last fall when the plaintiffs, accompanied by the father of the male plaintiff, came into collision in an auto with one of the street railway company's cars. The father died as a result of injuries sustained.

REPORT PROMISING CROP CONDITIONS

London reports to Bradstreet's continue in a confident vein, and much encouragement is drawn from the crop outlook, which it is claimed is very promising. Wholesale trade is fair, and if anything a little better, with some demand for fall goods. Retail trade is moderately good. Manufacturing is holding its own, with a good demand for automobile accessories. Building is good, while there is a good demand for candy and confectionery. The grain markets are inclined to fluctuate from day to day, but Ontario wheat is holding firm. Some 120 wheat in farmers' hands in this section of the country. Collections are fair.

REPORT CHURCHES FREE OF DEATHS

ST. CATHARINES, May 19.—That not one death has occurred in Memorial Church, St. Catharines, or the Merritt Methodist Church, was the result of a report made at the Methodist district meeting held here today.

Clifford G. Park of Tintinn, and L. J. Henry of New York were recommended to be continued as probationers. David A. Lane, B.A., of Toronto tendered his resignation which was accepted.

Three things that could be put in three lines. The first result was the death of nine million men between the ages of 18 and 45; the second, the 19,000,000 casualties; and the third, the degradation, moral, mental and physical. All the old methods had been tried to bring peace, and so something new was demanded. The result was the League of Nations, Sir George said. People began to think of what would happen if a destructive war occurred ten or fifteen years from now. All these things contributed to the impulse, and the result was the League of Nations.

The statesman then turned to the explanation of the signs through which the league works. He explained that the "council" of the league was composed of four representatives of the four great powers—Great Britain, France, Italy and Japan—and four representatives of the other nations of the league, elected by the assembly.

The assembly met once a year at Geneva, in September, and was composed of three representatives of each member of the league. In the assembly every nation had only one vote, and there must be general unanimity on all votes of primary importance.

Turning to the work done by the league, Sir George stated that the settlement of the Saar Valley dispute, the Upper Silesian question, and what he said was the crowning achievement of all—the founding of an international court of justice. The compulsory appeal of nations to the league would be worked out before long, Sir George declared.

But it depended on the people in the countries of the league, and the different nationalities, whether the league was made or broken. "They must stand behind it, and I believe they will," the speaker ended.

BAPTIST Y. P. U. TO CONVENE IN CITY

Expect 1,000 Attendance at Rally Which Starts May 23.

Five hundred is the lowest estimate of the delegates who are expected to attend the convention of the Interprovincial Baptist Young People's Union, which is to be held in Adelaide Street Baptist Church, May 23 and 24, and it is confidently expected that the total attendance will easily reach the thousand mark. The convention is on an extensive scale, inasmuch as it combines the work amongst Baptist young people all over the provinces of Ontario and Quebec, and those who have been responsible for its arrangement feel sure that their efforts will be repaid by the exertion of an influence which will make the work of the young people in the church even more effective and far-reaching.

A feature of the program which is sure to arouse the keenest interest, is the fact that Dr. Sumner Vinton of New York, a pioneer missionary and one who is reputed to be one of the best informed men on the continent on missionary matters, has been secured as the speaker at both evening sessions and will accompany his addresses with lantern slides.

The afternoon session will be largely taken up with discussion of topics which are of vital importance in the young people's work of the church, every phase of the work coming in for its share of criticism and suggestions of improvement.

Wednesday, at 5:30, arrangements have been made to banquet all delegates at McCormick's factory, London east, and on the same afternoon, they will also be taken to Springbank and given an opportunity of seeing something of London's lovely natural park and surroundings.

Rev. O. C. Grey of Windsor will conduct the devotional exercises. Mayor Cameron Wilson is to deliver the address of welcome from the city; Miss Phyllis Kennedy from the city Baptist Young People's Union, and G. A. Leichter from the city of London.

Mr. Frank Pierce is chairman of the committee that is arranging details of the convention.

GIVEN VICTORIA HOSPITAL POSITION

Dr. Roy Kingswood Appointed Chief Resident Physician and Surgeon.

Dr. Roy Kingswood was appointed chief resident physician and surgeon at Victoria Hospital at the regular monthly meeting of the hospital trustees held in the hospital Friday afternoon. Dr. Kingswood will replace Dr. R. A. Johnston, whose term of service expires on June 1.

Dr. Kingswood is a graduate of the Western University Medical School and is a native of London.

The resignation of Miss B. Taylor, head nurse, was received and accepted, and also that of Miss Ruth Davidson, dietitian, the resignations to take effect May 31.

The following appointments were made to the training school staff: Miss S. MacPherson, first assistant; Miss A. McMillan, second assistant; Helen Hodgins, head nurse of medical services; and Miss E. C. King, head nurse on surgical services.

The monthly report was as follows: 370 patients admitted, 422 patients discharged, 19 births and 16 deaths. The number of patients treated at the free dispensary was 518. The cash receipts for the month were \$16,211.72.

WILL EXPEND \$2,000 TO RENEW VICTORIA SCHOOL

Trustees Decide To Remodel Building For Branch Collegiate.

Approximately \$2,000 will be expended by the board of education in connection with the old Victoria public school, South London, in order that the same may be placed in shape for a branch high school.

Members of the collegiate institute committee will submit a recommendation to that effect at a special meeting of the board of education, called for Tuesday next at 11 a.m.

Headed by Trustee A. E. Silverwood, chairman, the committee conducted a thorough inspection of the building Friday afternoon and expressed themselves as being more than favorably impressed with the situation. It was found that 10 class-rooms were available while the heating system of the school was declared to be even better than the new school.

The trustees have estimated the costs of necessary repairs, and the work of renovating, placing the same at about \$2,000. When ready the school will provide accommodation for 400 pupils, sufficient to meet the demand, it is believed, for the increased attendance next fall, both normal and otherwise.

Those who participated in Friday's inspection were: Trustees—E. Silverwood, A. A. Bice, Bryden Campbell, Ward Casselman and Edwin Smith.

RAINS ARE WORTH MUCH TO FARMERS

Rains of the past three days have meant thousands of dollars to the farmers of the district, according to R. A. Finn of the department of agriculture.

"Oats, wheat and pasture in some sections needed moisture in the worst possible way," stated Mr. Finn Saturday morning.

Indian Gets "Bottle", "Billy" And Four Months, All For Sum of \$6

Antone McKay, who hails from Oneida, and had a good job on a fruit farm at Springbank, found that Friday was his unlucky day. He started out from Springbank to buy some groceries for himself and wife, but according to his story ran into two Italians, who talked him into buying a bottle of alcohol, and what the court described as a "skull-cracker," but more commonly known as a "billy." Antone said he paid \$6 for the bottle and the ugly-looking weapon.

Mr. McKay will spend the next four months in jail. McKay collected his groceries in a suit case and walked out on the street. Constable Pope, standing on the corner of Ridout and Dundas streets, saw the Indian raise his hand to strike a boy with the weapon and grabbed his wrist. Antone landed in the cells shortly after that time and was charged with being drunk, having liquor in a place other than a private dwelling and carrying concealed weapons.

WAGE MUDDLE TO BE PROLONGED

Mayor Blames Press and Some Aldermen—Latter Blame Mayor.

The salary discussion at the city hall promises to be perpetuated into the middle of the summer.

For three months the matter has been hanging fire, now.

Mayor Wilson has blamed the press and some of the aldermen for dragging the matter out.

One of the aldermen lays the blame for the delay on the mayor. He says the mayor delayed calling meetings in the hope that the aldermen would forget some of the matter.

Ald. Judd blames the mayor, declaring that the effort to slip something over the "green" aldermen in the first salary resolution was "responsible for the delay."

Mayor Wilson called a special meeting of the council Friday night to try and clear up the salary matter, and then his own suggestion, taken up by some of the aldermen, will prolong it for at least weeks to come.

When the Douglas resolution to cut the department head's salaries came up, the mayor sought to delay matters, and suggested that a salary bylaw be introduced, and all the salaries reviewed.

"He is only delaying matters," said Ald. Douglas, in discussing the mayor's suggestion. He added that such a move was just playing for time.

For the past three months the city hall staff has been "standing on its ears," to use a figure of speech of one of the city employees. They have not known what was going to happen to their salaries. They did not know when the mayor might change his mind and go back to his original proposal to cut every salary.

Now that the whole salary list is to be reviewed at the suggestion of the mayor, the staff is again on an uneasy street, and will remain so until the mayor's new proposal is finally disposed of.

RAP GOVERNMENT ON WAGE QUESTION

City Labor Party Members Rap Paying System On Provincial Highways.

Holding that the Provincial Government should be more consistent in payment of wages for labor on the provincial highways, members of the London Labor party, in regular session at the Labor Temple Friday night, passed a resolution to that effect.

In view of the fact that the government has gone on record as favoring a minimum wage, it was decided to call upon the government to see that all government contracts, whether let directly or indirectly, contain the minimum wage clause.

A protest was launched against the city closing two fire halls. It was pointed out that additional men would be unemployed, and that it was unfair to the workers of London who have these two halls closed. Particular discussion centered upon the closing of the North London hall. The Labor men will appeal to the Underwriters' Association.

The executive committee was instructed to communicate with Dr. H. A. Stevenson, M.P.P., and Ald. Ashplant, to learn the nature of the amendments to the street railway bill which they propose making. An emergency meeting may be called to hear these two representatives of labor.

It was decided to join the ranks of the Ontario Labor Educational Association and Arthur Mould was appointed to attend the annual meeting which will be held in Guelph on Wednesday, May 24.

The discussion on the street railway situation was left over for an indefinite period, although a few of the members commented briefly on the subject.

A resolution will be brought before the annual meeting of the Ontario Labor Educational Association on Wednesday, censuring the two labor members who did not support the cause of labor when the London Street Railway and the London Gas question were before the private bills committee.

A report was submitted regarding the formation of another branch of the London Labor Party. A meeting will be held next Friday. This association will be for individual members, and will be affiliated with the London Labor Party, which will act as the parent body.

TYE SISTERS ARE GIVEN RECEPTION

Former Westminster Women Leave Ft. Smith, Arkansas, Hospital.

An interesting item has just been received by W. J. Tye of Lambeth from Fort Smith, Arkansas, concerning his two sisters, Misses Mena and Martha Tye, who have just tendered their resignations to the Sparks Memorial Hospital at Fort Smith.

The Misses Tye were former residents of Westminster, having been born there, and lived for a number of years at Lambeth.

Miss Mena Tye graduated at the Guelph Hospital, and was in charge of Victoria Hospital under the regime of the late Dr. Balfour.

The item contained in a Fort Smith newspaper is as follows: "At the reception tendered the Misses Mena and Martha Tye, retiring superintendents of Sparks Memorial Hospital, by the members of the medical staff, the lady board of managers and the Young Ladies Hospital Guild, very material demonstration of regard of the high esteem in which the Misses Tye are held."

"The long corridor on the first floor was bright with great masses of flowers sent by grateful patients and admiring friends, where an informal receiving group was stationed."

"As an expression of appreciation, the medical staff of the hospital presented the Misses Tye with a large sterling silver tray, with appropriate inscription. The presentation was made by Dr. J. G. Eberle, president of the medical staff."

"More than one hundred called during the evening. The Misses Tye will leave soon after the 1st of June for California, where they will reside."

"The board of directors also presented the Misses Tye with \$100 each in cash."

SEEK WHITE ORPINGTON EXHIBITION FOR LONDON

City Poultry and Pet Stock Association Invite International Club To Hold Show Here.

An invitation was extended to the International White Orpington Club to hold their annual show in London at the regular monthly meeting of the London Poultry and Pet Stock Association, held Friday night.

It was suggested that the International Club hold their show at the same time that the London club stages its exhibition in Queen's Park. The dates for the London show were set for Nov. 2, 3, 4, 5 and 6. Last year there were 1,500 entries, the largest number in the history of the association, and this year there is every indication that the number will run well over 2,000, whether the Orpington show is held here or not.

President John H. Saunders of the Western Fair board, the well-known chicken fancier, explained the objects of a meeting which has been called at Guelph on June 5, 6 and 7, to discuss matters in connection with poultry raising, grants to associations and other matters. It was decided to send William McNeil to the meeting to look after the interests of the London poultrymen.

It was decided to hold a bantam show at the next regular meeting, which will be held June 12, 13 and 14. The following meeting there was a show of French birds, and a cock bird owned by W. H. Henderson of Blackfriars street was judged, not only the best bird in the show, but won a silver cup.

MEDS. '23 AFTER EXAMS HOLD ELECTIONS, BANQUET

A. A. James, Sarnia, Is Choice For President of Class.

Having concluded their final examinations for the year Friday morning, members of Meds '23, of Westminster University, staged a farewell banquet in the Royal Cafe, Friday afternoon, prior to departing for their respective homes in Western Ontario for the summer.

During the banquet A. A. James of Sarnia, was elected president of the class for 1923-24, and Dr. P. J. Thomas was elected vice-president. Speeches were made by H. G. Fletcher, retiring president, R. P. I. Douglis, J. E. Hunter, C. M. L. Beattie, V. A. Callaghan and G. C. Leckie.

Malcolm Campbell presided at the piano, and a number of the entertaining and provided included songs by Hilton Stother and Olin Paul, and novelty dancing by Leo G. Girard.

TOO LATE TO CLASSIFY

DIED. ODELL.—At his late residence, Belmont, on Friday, May 19, 1922, W. H. Odell, age 81 years.

Funeral from the above address, on Monday, May 22, at 2 p.m. Interment at St. Joseph's Cemetery.

LOST.—Pair of white tortoise-shell rimmed glasses, on Elizabeth or Lyle St. Reward, 655 Elias, or phone 2241W.

CHOSER FRIENDS.—No. 75, regular monthly meeting, Monday, May 22, 8 p.m., A. O. F. Hall, Dowling Building, R. T. Goverlock, recorder.

Facts That Will Keep You Posted On This Great Development.

J. McLeod, Evergreen Ave., Offers Treat To Flower Lovers

A TREAT to flower lovers and an excellent opportunity for horticulture enthusiasts to improve their knowledge of tulip lore is offered by John McLeod, 15 Evergreen avenue, who has at present 135 varieties of tulips in bloom and who invites the public to view them on Saturday or Sunday.

Few amateurs are able to offer such a splendid exhibition, and it is expected that many will not only be ready but eager to accept Mr. McLeod's invitation.

INDEPENDENT IS ELECTED AT "U"

Campbell Heads Hippocratic Society Against "Frat" Candidates.

Spirited Campaign Brings Out Largest Vote in School's History.

After one of the most spirited campaigns in the history of Western University Medical School, Malcolm D. Campbell, Meds, '23, a London boy, was this week elected president of the Hippocratic Society of the above institution, which body includes even medical students at Western in its membership.

There were three candidates in the field for the presidency, and a feature of the contest was the fact that for the first time in the history of the school the fraternity element was brought into play. Two of the candidates represented the recently-formed college fraternities at Western, namely, Phi Kappa Pi and Pi Sigma Chi.

Those Meds who are not members of either fraternity, perceiving the fraternity nominations, at once put Mac Campbell in the field, and this independent candidate was victorious.

In the balloting, both fraternities split in favor of their respective favorites, while the independents organized and voted en masse for Campbell with the above result.

A peculiar state of affairs was revealed after the ballots were counted, when it was discovered that, although the independents had organized principal office, they overlooked the contesting other positions, with the result that practically every member of the Hippocratic Society executive is a fraternity man, thereby controlling the society's activities next year, regardless of the fact that an independent student is at the helm.

During the campaign, numerous signs extolling the virtues of the various candidates adorned the interior of the new school, while the opposition in each case proceeded to decorate these emblems with their sentiments on the matter. The largest vote in the history of the school was polled this year, which was due to the fact that the medics freshmen, who are really arts students, in the year, were permitted to cast a ballot.

The concession proved an added factor in aid of the independent students, with the result that Mac Campbell rolled up a majority all most equal to the total votes of either of the other aspirants for the presidency.

The following slate of officers was elected, and they will control all student body funds, contributed by each med to the Hippocratic Society next year (\$5 each student): President, Mac Campbell, '23; vice-president, H. G. Fletcher, '23; treasurer, A. V. Traynor, '24; secretary, A. N. Kilgob, '26; auditor, J. A. Ferguson, '25, and J. A. Lamont, '24.

CHILD WELFARE EXHIBIT TO BE HELD JUNE 6-7-8

This Year Event Will Be Purely Educational, With No Clinics Held.

London's 1922 Child Welfare exhibit, under the auspices of the London Child Welfare Association, will be held June 6, 7 and 8 in the Technical School. An absolutely new exhibit has been arranged this year, the valuable one collected by the general conference of the Methodist Church in Canada, and much that is interesting and of great value will be presented and explained by the demonstrator, Rev. W. E. Millson. The exhibit will be open daily from 10 a.m. to 9 p.m., and a lantern with fine slides will be an important feature.

Emphasis is laid by the committee in charge on the fact that the exhibit this year is to be purely educational, and no clinics will be associated with it. The Child Welfare Association decided early in the year that all clinic work should be done in connection with the well-baby clinics, held now in five school centers each week. Owing to this fact, the annual prizes for baby efficiency have been already awarded through examinations at the regular clinics.

RAP METHOD OF CITY VALUATION

Citizens Air Views at Session of Court of Revision.

Businessman Declares Property Assessed at Four Times Its Cost.

Many and varied were the reasons placed before the court of revision on Friday night by a hundred or so citizens, as to why their income or other taxes should be different from what was specified on the assessment notice.

For nearly five hours, the court, consisting of P. B. Fetterly, chairman; T. W. Scandrett, Sheriff Donald Graham, and S. Grant, listened to appeals from every class of citizen. Some were worked up to such an extent that they gesticulated, argued loud and long, and, incidentally, told the court what they thought of the "expert" valuers, and of all who in any way, shape or form were connected with the assessment department.

In Raising Assessment. "They seem to have a delight in raising the assessment on my property," one York street businessman told the court. "My property today is assessed at more than four times its cost."

"But our expert valuers have seen your property," explained S. Grant.

"Those expert valuers don't know any more about it than you do," was the come-back of the irate citizen. A roar of laughter greeted this retort.

"They are only a bunch of hoodlums," he continued, "whose main purpose is to make money. Their advice doesn't amount to any more than a hill of beans. It has cost me \$50,000 for the last six years to do business in London. I have stayed here because it is my home town, and I thought it was my duty to do so as a good citizen. Why, a few years ago I was offered a factory for nothing in a small town near the city, but I refused it because I wished to be patriotic. I don't want to be penalized for doing these things."

Kept Kennel. George Tustin, inspector of the Humane Society, was assessed ten dollars for having a kennel. Mr. Tustin was quite indignant about it and wanted to know why he should be taxed for looking after city property.

"During the past year," Mr. Tustin pointed out, "I have dealt with 4572 dogs, some of which were diseased, and the majority stray dogs."

After some explanation, the matter was adjusted, and the assessment was withdrawn.

In some cases the people claimed that the assessor had not left a notice at their door, while mistakes in stating the proper frontage, motor trucks, right-of-ways figured in the appeals.

In all, nearly 125 appeals were heard, and more than thirty granted. The remainder were laid over for further consideration by the court.

Accidents in the Country.

THE streets of the cities are looked upon as the places where accidents are most frequent, but it is very doubtful if this would prove to be the case. In the places where traffic is heaviest, regulation is the best possible.

In the last few weeks there have been records of some of the most heartrending accidents right out in the country, where popular fancy pictures everything at peace, and very little danger to any person.

Just a short time ago, a farmer was plowing in a field, when his 5-year-old boy came down and started to play with another plow that was standing at one side of the lot. By the time the father had finished his work he went to his son, only to find that the plow had fallen over on the child's neck and choked him to death.

Less than a week ago death came to a well-known farmer near Mt. Brydges in a tragically sad manner. He had finished his day's work in the field, and was putting a span of horses in the barn when one of them, a colt, kicked him, inflicting injuries from which he died an hour after.

Another account comes from near Midway, where father and son were badly injured. The father was working in the field with a 3-year-old colt, when it kicked out and inflicted very serious injuries. Afterward when the son went to the stable to bathe the animal's shoulders, it kicked him in the head, and would undoubtedly have killed him had he not been dragged out of the road by the hired man. As it was, he was unconscious for a very long period, and, like his father, will be some time in recovering.

These are only four cases that have been heard of in the last few days, and they have all occurred out in the country where, in the minds of most people, there is very little chance for fatal accidents. Statistics will probably show that for the number of people engaged in farm work the number of accidents is higher than in most other callings.

Just why this should be is rather hard to explain. Boys on a farm at any early age become accustomed to being around horses, and perhaps in this way take chances that a stranger would not take. Then, there is the fact that they are at a greater distance from a place where they can get quick medical attention. In a city it is possible to rush an accident case to an hospital or to a doctor and have the necessary treatment inside of a few minutes, and in such cases the element of time enters very largely into the chances of recovery.

Whatever may be the explanation it is a very patent fact that the rural section furnishes from time to time some of the most distressing accident cases, mostly from kicks from animals, and injuries from agricultural and power machinery.

This Sunday's Lesson.

SUNDAY SCHOOL scholars are this Sunday studying "Hilkiah's Great Discovery." Hilkiah was high priest in the reign of Josiah, the sixteenth king of Judah. It is interesting to trace what followed the discovery of the Book of the Law, and to follow the surmises as to how much of the Mosaic writings it included. Opinion differs, some holding that it was part of the Book of Deuteronomy, while others claim it was a true and complete copy of the Book of the Law which Moses wrote and ordered the Levite priests to keep and deposit in the side of the ark of God.

These arguments and the ideas that they carry with them are all very interesting, but the 1922 application is that the Word of God was found and read, and on the reading followed the change in the heart of the nation.

All of which very properly leads to a consideration of what the Bible, as we have it, means to the present generation. It is a very easy matter to scoff a bit at the person who holds to the Bible in this advanced day and generation. We have some very wise men in this world who can carve and cut the old book until there is nothing left to which a man can lay hold and feel that he has something that is going to prove an anchor in time and eternity.

The Gideons have placed Bibles in the rooms of practically all the hotels of this country. A strange practice, you will say. But a look at some of these books brings out the fact that very often they will be found marked and underlined, where men have scored passages that have meant a great deal to them.

There is not a man who was brought up in a home where the old family altar was observed but looks back on those days with a feeling of respect and admiration. He reveres the father who kept up that godly practice, and although it has fallen into disuse in his own home, he knows right well in his innermost heart that he has not done the right thing, and that his children are missing a great and wonderful influence that was accorded him, and that they are going out into life weaker because of this neglect.

When the boy leaves home the mother likes to know that he has his Bible along with him. She feels that in it there is a power to hold that boy that can come from no other source. There are very few boys who ever left their homes to seek their way in the world but had that little old book tucked away in their belongings when the trunk was being packed.

We are a smart folk in many ways, and we get along splendidly on our own hook until—something happens. When a man is at his last resource in trouble or sickness he is more grateful than he can express to get in touch with some man who knows the Book, who has a grip on the real things, and who has a strength that can come from no other source. In these extremities we turn very quickly to the very thing we hold lightly or neglect entirely in the days of our prosperity.

It is the wise teacher who will drive this great truth home to his or her class, rather than centralize on a historic presentation of this Old Testament lesson.

Picking Dandelions.

IT IS wonderful to see the love that some of our men folks have taken for gathering the flowers of the field. They can be seen almost every day now out with a basket picking dandelions.

Of course, the dandelion is a pretty bit of a flower, a spot of yellow on a carpet of green, and it is only natural that it would attract the eye of any man who is fond of color and who has a spirit for lovely things.

Then, too, it is a fact that the dandelion will choke out other growing things, and it spreads very rapidly. So it may be that these men with the baskets are out for the good of vegetation in general, trying to keep the dandelions from becoming masters of the situation.

Some low-brow has come along and made the suggestion that the men with the baskets are out to get the dandelions to make wine, and he further alleges that they can put a kick in this variety of thing that would make a mule look as tame as the man who has just written a check for his income tax.

So there you are—you lay yourself open to three chances of speculation when you pick dandelions: you are after them as gay and pretty flowers; you are trying to help other vegetation by taking them away, or, in the last place, and we put it last, because it seems most likely, you are out picking dandelions to make wine.

Buying City Bonds.

THE statement of a visiting bond dealer that the city of London policy of selling debentures over the counter has robbed bond houses of \$30,000 in commissions, is a pretty good indication of the faith Londoners have in their own city.

The bond dealers' loss is perhaps the ratepayers' gain in this case. Besides, the bonds were all sold at par, and this undoubtedly meant another large saving, as during recent years there have been few bond issues that have netted the municipality selling them par.

The disposal of \$30,000,000 worth of bonds to the city of London residents has not been without other beneficial results. Today the ratepayers to hold city bonds number over the thousand mark. Prior to the inauguration of the "sell-over-the-counter" policy the number of holders of city debentures was not one hundred.

Londoners now have their money invested in their own city. They can walk out any day and see what they have for security. Besides, this policy has won over dozens to a policy of thrift and saving, who prior to the war never owned a bond or ever drew other than bank interest.

There have been many tales of how famous men succeeded. But the most concise is the saying of the old man who advised his boy to work hard and keep his nose clean.

DOROTHY EXPLAINS!

-DOROTHY EXPLAINS SOME OF THE SPECIAL SCENERY THAT MOTHER HAS IN HONOR OF THE MONTHLY BRIDGE PARTY-

LITTLE 'TISERS

No matter what the styles in gloves may be downtown, along the river bank the rage seems to be for undressed kids.

The *Wingham Times* reads a lesson to its townsmen on being punctual in their attendance at public meetings. And the *Times* lesson is capable of pretty general application. The chairman of the committee that made the Made-in-Guelph exhibition a great success started out with a fine of \$5 for any late-comer. There were none.

Every day or so there comes from Ottawa a new bunch of notices. "An act for the relief of so and so." All of which means that another divorce case has been started and put over the jumps. At the rate we are traveling we cannot say boo to the people across the line, where divorce has reached the stage of amounting to a national crime and a menace to the stability of the home.

We notice an item in one of the rural papers to the effect that "Cecil has purchased a car. Now how can Joe make a showing over on the fourth line with only a horse and buggy?" On the face of it Cecil may have the advantage, but it must be remembered that it is against the law to drive a car with one hand, while a well-regulated nag will jog along with the lines thrown over the dashboard. If Joe's a hustler, his chances look mighty good.

Tributes that have been paid to the memory of H. P. OVERHOLT, principal of the high school at Amherstburg, show how a man can endear himself to the whole community, and what a wide field of influence opens out before a man in that position.

He was not only popular, but possessed that strength of character that leaves its impress for abiding good on the lives of the young people with whom he has come in contact.

There has been some trouble in the Peterborough fire department, the outcome being that the chief has been let out. ALD. MCINTYRE fought for him to the last, but now that the new chief is on the job, declares he will do all in his power to give him a chance to make good. That sort of spirit ought to be planted while the spring rains are on, and it ought to be cultivated to make sure it grows into a big tree. Then slips should be shipped out to other centres. Many communities are sadly in need of the MCINTYRE idea.

Looks as though JOHN HUNTER was ready to leave Kincardine and try his hand at real estate in Toronto. For he writes thusly: "Being a real estate agent beats printing to pieces. A short time ago JAMES B. RAE, a Toronto man, bought property for \$175,000. That's all right, but it was unfair of him to unload that property on Hox. F. C. BIGGS, minister of public works in the Ontario government, for the sum of \$205,000. True, it was only a profit of \$30,000, and he maybe deserved it. What we object to is that he should take the minister of highways in and trim him. It seems that Mr. BIGGS gets into deals that have fairly good profits jumping around. It's awful to be a minister and let all the profits go to the other fellow."

BRETT McDONALD of the *Chesley Enterprise*, we thank thee for the following bouquet. You whack hard when you hit, but when you turn to the framing of a bouquet, you do turn out a dandy. Look at this one: "THE LONDON ADVERTISER carries a column, or part of a column, every day under the heading of 'Little Tisers,' in which extracts are quoted from the country press and comments made thereon. THE ADVERTISER knows that the local press is

in touch with public opinion on the concession lines and in small urban centres, and gives these views to its readers, but the Toronto dailies wouldn't condescend to notice what the paper in the old home town has to say on public questions. THE ADVERTISER has, figuratively speaking, its ear to the ground, and its splendid news service and informative editorials make it a welcome daily visitor to many homes in Chesley and vicinity."

The *Montreal Gazette* can see no good reason for keeping oleo off the Canadian market. Speaking of the discussion in the house on this matter, the *Gazette* says: "The debate did not disclose any good reason why the manufacture, importation and sale of oleomargarine ought to be discontinued by the imposition of a statutory prohibition. The arguments put forward in support of the NEILL resolution were hopelessly unconvincing. The sale of oleomargarine inflicts no injury upon the dairy industry. As stated by MR. FIELDING, people buy oleomargarine if they can, and they cannot afford to pay the price for butter. The product is of a high standard, is kept up to that standard by competitive conditions in the industry itself and by government regulation. It is nutritious and palatable and is a desirable alternative upon which the householder may depend when good butter is beyond his purse. There is no deception about it; it is not sold as butter, and there is nothing in the contention that the public are being fooled into buying it."

The *Wheatley Journal* is anxious that all the dogs in the place should be wearing their jewelry. Thus, the editor pens: "Is your dog wearing his 1922 medal? If not, better attend to this little matter at once. Delay in this matter is dangerous."

25 YEARS AGO TODAY

HERE WE HAVE ITEMS OF LOCAL AND DISTRICT INTEREST AS RECORDED IN THE ADVERTISER OF 1897.

SATURDAY, MAY 20.

Weather—Partly cloudy and a little colder.

The following are the Aylmer delegates of the Baptist Church to the Baptist conference in London, on May 25: Rev. Mr. Kimball, W. Darling, H. H. McEwen, Dr. Sinclair, G. R. Christie, J. W. Hutchinson, A. J. Anderson, Rev. K. Bridgman.

The Methodist ministers of the London district were joined at their annual meeting this morning by lay delegates from the various congregations. The morning was occupied by the reception of circuit schedules, to audit which R. Redmond and C. J. Beal were elected. President George Jackson was in the chair, and Rev. T. T. George of Delaware was elected secretary. The assistant secretaries were: Revs. E. G. Powell and J. A. Jackson. The lay delegates were: T. McCormick, J. Robinson, C. J. Beal, William Bowman, W. H. Wortman, W. H. McCutcheon, W. H. Harwood, John Friend, O. E. Dores, T. Lind, A. Venning, E. S. Hunt, George Boad, William Gerry, J. G. Saunby, T. A. Robinson, E. Fenford, Thomas Bedgood, R. Walker, G. Dundas, E. McCann, James Burroughs, John Ferguson, George Henley and R. W. Jackson. The bidding was principally among the local parsonages. The meeting adjourned at 12 o'clock.

A successful concert and assembly, under the auspices of the Princess of Wales, Daughters of England, was given last night in the Foresters' Hall, East London. Dr. H. Williams was chairman of the concert, and almost the entire program was furnished by H. Holden Jubilee Singers. At the conclusion, Mrs. Hooper, president of the Princess of Wales Lodge, moved a vote of thanks to the chairman and the Jubilee Singers, which was carried unanimously. The committee in charge was composed of the lodge's officers: Mrs. Hooper, president; Mrs. Wheatcroft, vice-president; Mrs. Penwarden, chaplain; Robert Simmons, secretary; Mrs. Dyson, treasurer; Mrs. Allen, first guide; Miss Maude Leonard, second guide; Miss Johnston, third guide; Miss Nicholls, fourth guide; Mrs. Smith, inside guard; Mrs. Edwards, outside guard. The lodge has only been organized six years, and has already 70 members.

At yesterday afternoon's meeting of the London Methodist district the question of superannuation was dealt with, and those already in the list were continued on probation, namely: Rev. H. J. Uren, Knowles, J. A. Jackson, J. J. Sinclair, E. G. Powell, J. W. Mortimore, Barker of Dorchester, and Kellington of Thorndale. Rev. R. A. Miller of the Westminster circuit, having completed his probation, will be recommended to the conference to be received into full connection and ordained.

DR. BISHOP'S ADVICE.

VITAL STATISTICS

BY DR. R. H. BISHOP.

VITAL statistics are well named. They are vital to the life and health of every community. Were it not for vital statistics public health officials would not know whether they were gaining or losing in the struggle against death, disease and ignorance. No businessman fails to keep accurate record of accounts, so that he can determine at any time whether he is gaining or losing. It is the same in the great business of life. Every birth must be recorded; every marriage,

every death. So, too, must certain contagious diseases. Records of births, marriages, deaths and infectious diseases are of great value to health officers, to others doing social work, and to doctors and scientists in studying and preventing unnecessary sickness and death. When physicians' reports show a disease like typhoid increasing, steps can be taken immediately to find the source of infection. Every birth should be recorded, not only because it is the child's right, but also to enable accurate account to be kept of the causes of infant deaths. Great progress has been made in recent years in saving the lives of new-born children. This was made possible in part because statistics showed the causes of illness and the extent to which it was occurring.

READ YOUR CHARACTER

By Digby Phillips.

NO. 219—SELLING THE ROCKY MAN. It is the silent, immovable prospect, who sits like a rock and listens without comment, that "gets the goat" of many salesmen, particularly the less experienced ones.

But the older salesmen know that he is not to be feared, if you treat him properly.

There is one principal thing to keep in mind in selling this type of prospect. Just don't try any "funny business" with him. Don't try to "force" him. You can't do it. Just thank your luck that you have run across a prospect who will let you tell your story in peace. Don't worry because he does not interrupt you. If he were not sufficiently interested to want to hear more of your story he would not hesitate a minute to let you know it. Don't waste time with your story, but don't be unduly hurried. Remember that he is silent and immovable simply because he is patient and thoroughly self-contained.

Just what angles you will hit off in your sales talk will depend upon his other characteristics, whether he is fat or spare, whether his head is long or short, wide or narrow, high or low, whether his coloring is light or dark. Nine times out of ten, however, you will find that he is not a decided blond, and that he is round rather than square, or slight in build. The methods of selling brunettes and round people have been discussed in previous articles.

Tomorrow—The Man With the Firm Trade.

LEARN A WORD EVERY DAY

TODAY'S word is CRITERION. It's pronounced—kri-te-ri-un, with accent on the second syllable.

It means—a rule or test by which facts, principles, opinions and conduct are tried, in forming a correct judgment respecting them.

It comes from—a Greek word signifying "a means of judging." It's used like this—"A London editor, discussing pending plans for increased import duties, says: 'To politicians the criterion of an honest tariff bill is to be found in answering the question—does it distribute the booty equally?'"

Our Own Country

Question—To what extent is manufacturing production increasing in Canada?

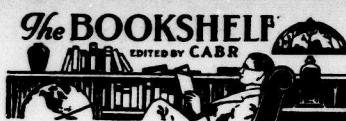

Answer—Manufacturing production in Canada increased 1,000 per cent between 1890 and 1921, or from \$368,000,000 to \$3,680,000,000. In 1921, manufactured products totalled 13 per cent of Canada's total exports. At the armistice they were 42 per cent.

Question—What is the extent of Canadian, American and British investments industrially in Canada?

Answer—In 1921, 58 per cent of Canadian industrial development was in the hands of Canadians; 35 per cent American and only 9 per cent British. Canada, therefore, offers a wide field for increased British investment.

The *Wheatley Journal* is anxious that all the dogs in the place should be wearing their jewelry. Thus, the editor pens:

"Is your dog wearing his 1922 medal? If not, better attend to this little matter at once. Delay in this matter is dangerous."

MAKI. By R. J. Minney. New York, John Lane Company, publishers.

THE every-day life of a native girl of well-to-do parentage in a great city in India is here given with the authority of one who knows intimately, not only the manner of existence, but the trend of thought of the people he describes.

The author is a well-known journalist of Calcutta, and that is the city chosen as the scene of this thrilling, dramatic story.

Maki is fifteen. She has always been kept in seclusion, never been taught to read or write, always dressed in rich raiment with many jewels, and is unusually pretty. On the fifth story of an ugly brick house in the congested native quarter of Calcutta, a square yard of sky, infrequently upon by the lattice bars of her window, is all the world that Maki knows. Her father is a wealthy man and her mother is dead.

In due course, Maki is married to a boy of about her own age—sixteen or so—who is a very poor specimen of humanity, physically and mentally. When Maki leaves him, after a nearly successful attempt at suicide, she sinks, step by step, in the social scale, but always, in spite of the life she leads, stamped with a strange impress of innocence and spirituality, until one wonders what will be the end of it all.

The strength of the book lies in the graphic picturing of native manners and customs, the way in which caste controls the actions of men and women, and takes no heed of passions, emotions or inclinations. The marriage customs are set forth without comment, but they are none the less impressive to a Caucasian reader on that account.

Here is the way the author describes the position of an Indian woman in relation to her husband, and it gives a fair idea of the quality of the whole narrative:

"The Indian woman takes no part in any social function. Hers the place by the stove and the children. Men dine out if they wish to, men indulge in sherbet, they treat themselves to liquor when the desire prompts them, and none of these diversions do they share with their women. The wife, the mother and the daughter, with the tiniest of tottering little ones, sit at the hut door, talking of bogies and fairies or the more commonplace doings of their neighbors. Outside each hut is a mound of refuse, flung by the energetic housewife out of pots and pans and cooking utensils. Kites sweep down upon these, and in them, too, pariah dogs bury their noses. Timid crows crawl from a distance and approach more cautiously, only to be scared away by the glance of a groveling mongrel. Infants, mud-splashed and naked, tumble over stones and over each other, and give vent to yells to celebrate the fall of man in his very infancy."

JOHN F. PIERCE
PASSENGER TRAFFIC MANAGER

MONTREAL, December 15, 1921.
A-25

Canadian Daily Newspapers Association,
908 Excelsior Life Building,
Toronto, Ontario.

Dear Sirs:

Years ago, the newspaper announcements that were put out by the Canada Steamship Lines, Limited, were merely time tables telling when the ships sailed. Of later years, however, large copy has been run in the daily newspapers in those cities that were fairly accessible to points of sailing, telling of the many attractions that were offered in a trip by boat.

Right through the season for the past few years, boat trips have been most popular. 1920 was the finest passenger year the Company ever had. 1921, despite the fact that business was so unsettled, shows but a 7% decrease in passenger traffic over 1920.

Time after time, ships for special cruises, as, for example, those from Montreal to the Saguenay and from Montreal to Newfoundland, have been filled through advertising in the dailies. Next year, as in the past few years, the daily newspapers will be the backbone of this Company's advertising.

With best wishes, I am,

Yours very truly,

John F. Pierce
Passenger Traffic Manager.

The ranks of those to whom sea, sky, and scenic beauty call in vacation time, change from day to day as seasons come and go. Advertising thus becomes to them news of the day. They search for it in the daily newspaper which commands immediate consideration as a part of daily life.

Issued by The Canadian Daily Newspapers Association, Head Office, Toronto.

TORIES FAIL TO SUPPORT MOVE GUTHRIE URGES

Party Members From New Brunswick Vote Against Cut in Estimates.

ITEM OF \$40,000 STANDS

Claims for Increased Appropriation for Goderich Harbor Strongly Presented.

OTTAWA, May 19.—(By Canadian Press).—Further progress in clearing the slate of the house in preparation for Hon. W. S. Fielding's budget speech, which is promised for Tuesday next, was made during today when, in committee of supply, estimates of the public works department, totalling some \$3,700,000, were passed and the house went on to other items.

Votes for harbor and river improvements occupied most of the time of the house with only an occasional flash of interest being manifested in the debate.

While on the public works, harbor and river vote for New Brunswick, totalling \$68,700, Hon. Hugh Guthrie objected to the principle of providing a vote of \$40,000 for contingencies and stated that he wished to test the feeling of the committee in the matter.

Moves To Cut Item.

He moved to cut the item of \$40,000 in half. His amendment was defeated by 79 to 24 and the committee laughed when New Brunswick Conservative members rose in a body with Liberal and Progressive members to oppose Mr. Guthrie's amendment.

During the afternoon the deputy

Son of Famous German General Hurls Wine Glass at 3 American Women

NEW YORK, May 19.—Captain Fritz von Falkenhayn, son of a German general, was a passenger on the North German Lloyd steamer Seydlitz, which arrived here today, and according to passengers, was the central figure of an unpleasant incident, illustrating the boorishness and arrogance of German officers.

A sing-song was in progress in the smoking-room of the liner. Presently von Falkenhayn was leading his compatriots in "Deutschland Über Alles." Most of the passengers stood, but three American women remained seated. Von Falkenhayn was angry and demanded why they had not stood. They explained that they had preferred not to.

governor-general, Sir Louis Davis, gave royal assent to the supply bill for \$88,517,204.53, for the fiscal year 1922-23, and \$9,623,792.61 for March, 31, 1922.

Hon. W. S. Fielding said the amendment showed an absolute failure on Mr. Guthrie's part to appreciate the spirit of his resolution. In past years the money which had been voted was not always spent. It was provided purely to meet contingencies. Mr. Guthrie had shown no reason for supporting his amendment.

When the vote was taken there were 24 in favor of Mr. Guthrie's amendment and 79 against it, a majority of 54 for the original estimate. Liberal members cheered ironically when the three New Brunswick Conservatives who were in the house, Messrs. Hanson (York-Sunbury), Grimmer (Charlotte) and Jones (Royal) rose to vote against Mr. Guthrie's amendment. The resolution was declared carried.

\$254,000 Expended.

On a vote of \$396,980 for Quebec harbor and river works, Hon. H. H. Stevens asked how much of last year's vote of \$423,160 had been actually spent. The minister stated that \$254,000 had been expended. Mr. Stevens objected to the minister asking the committee for \$142,000 more

"Courtesy demands that you stand," von Falkenhayn is said to have replied.

"That's a matter of opinion," was the response.

The room was buzzing with excitement, and all eyes were now on von Falkenhayn. He raised his hand, which still held his glass. The tumbler broke against the wall near the three Americans, shattering over their shoulders, it is said.

The room was now in an uproar. Men rushed at von Falkenhayn, but he was carried off by friends. The next morning he apologized.

Von Falkenhayn is here, he said, to seek a job in an automobile factory.

than had been spent last year.

A vote of \$398,800 for harbors and rivers of Ontario was next considered. The vote last year for this purpose was \$644,700. R. J. Manion (Conservative, Fort William) asked how much had been spent last year and was informed that the expenditure had been \$485,000.

William Black (Progressive, South Huron) referred to the fact that only Goderich for repairs to the docks, \$8,500 was allotted to the port of He asked whether another amount would be placed in the supplementary estimates for repairs to Goderich harbor. This was the only harbor between Port McNicoll and Sarnia on Lake Huron and 21,000,000 bushels of grain had passed through it last year.

Dr. King replied that the matter was receiving consideration, but he could not say what would be done in regard to placing a further amount in the supplementary estimates.

Supports Goderich Claim.

Mr. Guthrie supported Mr. Black's request and emphasized the fact that Goderich harbor required a larger expenditure than the vote in the main estimates.

Mr. Duff immediately rose and declared that Mr. Guthrie was inconsistent in asking for an increase in this vote. Possibly the fact that the money was to be expended in On-

tario had something to do with Mr. Guthrie's changed attitude.

Mr. Guthrie replied that he had never objected to voting money for harbors and rivers when he was satisfied that the expenditure was necessary.

Mr. Duff remarked that prior to the election contracts for \$300,000 worth of unnecessary militia supplies had been awarded in Mr. Guthrie's constituency. The remark passed without comment.

James Malcolm (Liberal, North Bruce) agreed with the other speakers that Goderich harbor should be improved. It was one of the great distributing points on Lake Huron.

Will Deepen Fairway.

John Carruthers (Liberal, Algoma East) declared that the fairway leading into the harbor of Little Current on Georgian Bay was in need of deepening. Recently a coal ship grounded in the channel while steaming into the port. If the fairway was not immediately attended to it would work a great injury to the industries in that district.

The item carried.

On an item of \$28,500 for rivers and harbors in Manitoba, A. L. Beaulieu (Progressive, Provencher) said the amount was entirely inadequate to meet the needs of the province. Recently thousands of acres of arable land were flooded when the Assiniboine River overflowed its banks. The government should not wait until just prior to an election before doing the work. The time to do it was now.

MOB BURNS BODY OF LYNCHED MAN

TEXARKANA, Tex., May 19.—Members of a mob here tonight battered down the jail door with an iron beam, took from the Miller County jail Hullen Owens, colored, who late today shot and fatally wounded R. C. Choate, dragged him at the end of a rope until he was dead and afterward burned the body in the downtown section.

APPOINT RODD ON WARFARE BOARD

WASHINGTON, May 19.—The British embassy has informed the state department of the selection of Sir Rennell Rodd as one of Great Britain's two representatives on the commission provided by the arms

TORTURED BY KIDNEY TROUBLE

Quickly Relieved by Short Treatment With "Fruit-a-Tives"

MADAM LALONDE.

170 CHAMPLAIN ST., MONTREAL, P. Q.
"I am writing to tell you that I owe my life to 'Fruit-a-Tives'. This fruit medicine relieved me when I had given up all hope of recovering my health."

"I suffered terribly from Kidney Trouble, Dyspepsia and Weakness. I had these troubles for years and all the medicine I took did not do me any good."

"I read about 'Fruit-a-Tives' and I tried them. After I had taken a few boxes, I was entirely relieved of the Kidney Trouble, and Dyspepsia, and had gained in strength."

"I hope those who suffer with Kidney Trouble, Dyspepsia and Weakness, will take 'Fruit-a-Tives' to recover their health."

"JEANNETTE LALONDE."

50c a box, 6 for \$2.50; trial size, 25c. At dealers or sent postpaid by Fruit-a-Tives, Limited, Ottawa.—Advt.

conference to revise the rules of warfare. Sir Rennell is a former British ambassador to Italy, and was a member of the Milner commission to Egypt.

The United States government recently announced that its representative would be John Basset Moore.

Every Dollar Canada Can Spare Is Urgently Needed.

IF YOU have a dollar or five or ten that you can possibly spare, in the name of Mercy, send the money to the Save The Children Fund.

To say that help is no longer needed, or that the famine in Russia is over, is absolutely false, and is both cruel and unjust to those who are giving their time and money to save the starving children in the famine area of Saratov.

Sir Benjamin Robertson — formerly Chief Commissioner of the Central Provinces of India and himself the greatest living authority on famine conditions — was sent to Russia to report on the famine situation.

He reported that in the areas where the British organizations are working, there are over ONE MILLION ADULTS, in addition to all the children, who are in dire need of food; and that relief must be forthcoming UNTIL THE END OF AUGUST or everything that has been done thus far will be lost.

Surely this should be regarded as sufficient proof of the need of more funds, by any Canadian who desires to lend a hand in fighting the most appalling famine that the world has ever known.

And we ask your assistance in the name of these starving, helpless children.

Cheques and money orders may be sent to the local committee or your bank, or mailed direct to Sir George Burn, Treasurer, Save The Children Fund, Elgin Building, Ottawa.

All subscriptions are expended in Canada on Canadian Foodstuffs.

SAVE THE CHILDREN FUND

SHOO YOUNGSTERS HOME WITH CURFEW

Travellers' Aid Secretaries
Declare Nine o'Clock Bell
Much Needed.

"Ever since I have come here from Schnectady, New York, I have been horrified at the number of young children allowed to roam round the streets at night alone in London," said Mrs. McIntyre, travellers' aid secretary of the Y. W. C. A., to the Secretary of The Advertiser, a day or so ago, before waiting for a reply to a question she had asked: "Are you interested in the subject of a curfew for London?"

She is herself intensely so, for two reasons. In the first place she thinks it is badly needed in London from what she sees with her own eyes while on duty evening after evening, all the week round. In the second place, from her experience in social service work in her former home city, Schnectady, New York, she knows the curfew is an effective institution.

She thinks, moreover, that the curfew should ring at 9 instead of 10 o'clock, as has been suggested. "In Schnectady," she said, "you should have seen children sleepily when they were made to go to bed. 'Curfew' will be ringing in a few minutes. When the bell did ring there was a regular scurrying for the cover of home. That's what I would like to see in London. The children do not mean any harm. They just like the lights, the freedom, and being a part of things going on."

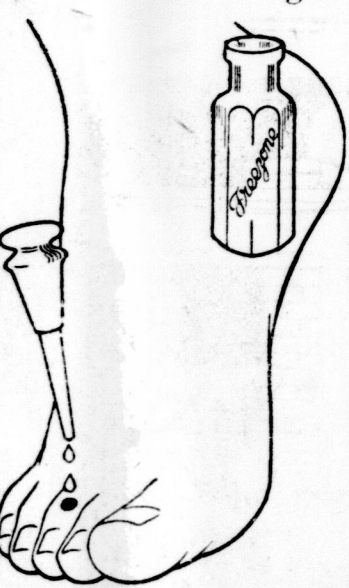

The other night I saw a group of young youngsters down at the Grand Trunk station after 10 o'clock, perfectly unconcerned by the fact they were out so late, apparently thoroughly enjoying themselves. It is absolutely unsafe, as I have reason to believe, from seeing slips of girls, talking away innocently, perhaps, to men waiting around on bus-

Childhood Ailments

The ailments of childhood—constipation, indigestion, colic, colds, etc.—can be quickly banished through the use of Baby's Own Tablets. They are a mild, thorough laxative which instantly regulate the bowels and sweeten the stomach. They are guaranteed to contain no harmful drugs and can be given to the youngest baby with perfect safety. Concerning them Mrs. Alcide Lepage, Ste. Beatrix, Que., writes: "Baby's Own Tablets were of great help to my baby. They regulated her bowels and stomach and made her plump and well." The Tablets are sold by medicine dealers or by mail at 25c a box from Dr. Williams' Medicine Co., Brockville, Ont.—Advt.

CORNS

Lift Off with Fingers

"Doesn't hurt a bit! Drop a little 'Freezone' on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with your fingers. Truly!"

Your druggist sells a tiny bottle of "Freezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.—Advt.

RUPTURE RELIEF

Correct and Comfortable Retention

Rupture is not a tear, but is a dilation of the relaxed muscles, and the distention of the inner lining membrane (caused by weakness, the weight and pushing force of the intestines), therefore subject to retention. Don't bear a truss pad where the rupture is, it's inefficient. It has fitted where the lump is, but it has not fitted where the rupture is, it's inefficient.

The new "EASYPIT" sanitary compound "PAPA" rubber retentive shield, found in conjunction with my series of (elastic aids), "PAPA" pads, and retaining tape, is the most effective and reliable of any device ever invented, the pliable flesh-like touch of the retentive finished shield gives a mild life-like massage, exercising and allowing a free circulation.

Its action permits of rapid contraction, and is intended to allow nature to strengthen the muscles in the shortest time known, and at small cost. Specifically prepared to retain for men, women, children and infants.

These new surgical appliances have received the highest approval wherever shown and are designed in conformity with the science of anatomy and mechanical surgery, as set forth by the world's textbook authorities.

"Made in Canada," and effecting results without harmful, ready-made, oil-lashed, water, wood, hair stuffed or leather covered pads, imported trusses. "The best in the world," so don't wait! Delay may be dangerous. Now is the time to make yourself safe and comfortable for your daily work and pleasure. Tear this notice out now and send three-cent stamp for free circular and my liberal guarantee. Do it today.

THOS. Y. EGAN, (Suite 12), 1057 COLLEGE ST., TORONTO.

Hold Luncheon Within Fortnight To Launch "Y" Building Project

The project of a new Young Women's Christian Association administration and club building will be definitely launched by the Local Council of Women at a luncheon to be held within a fortnight for women of the city who are especially interested in the movement. Mrs. Sidney Small, the charming and gifted woman-member of Toronto's City Council, has been invited to speak and tell about putting over big projects which she can come the end of May or beginning of June, and definite decision and plans will be made at a meeting of the Local Council, called for Monday afternoon at 4.30 o'clock at "Lennox," the King street residence of the Y. W. C.

Apart from the lively interest of the project, there is no harm in it. Sometimes, just the interest of adults in children. Still this cannot be guaranteed.

"The other night my sister was in a local theatre, and she was amazed to see three children, not more than 10 years old, strolling in after 10 o'clock at night. Apart from all other considerations, it is certainly bad for the health of the little people."

Mrs. Parker, who has been in travellers' aid work for the local Young Women's Christian Association, is equally strong in her opinion that curfew regulations are much needed here.

"Need More 'Aids'." "I wonder if the parents know where their children are at nights, especially the younger ones, under 15 and 16 years," she said. "I am sure they could not be unconcerned if they realized the danger there is for the children in being allowed to run about like that."

Mrs. Parker also points out the desirability of extending travellers' aid work to cover the whole 24 hours of the night and day, and provide for someone to be on duty at every train coming in and going out of the city. Someone to play guardian at the stations through the night hours is needed, she declares, when the depot master has many duties besides looking out for the welfare of travellers waiting over.

"Between 3 o'clock in the morning and 8:30 or 9," she said, "it is frequently necessary for people who would be better for protection to wait over for connections. There is no place to go at that hour. Again, taxi fare is doubled through the night, and young girls and women who live here, and who do not care to pay the extra taxi fare, are timid about venturing home in the streets at such hours. The situation is even more difficult for strangers coming in. Undoubtedly there should be a woman travellers' aid there."

Personals

Miss Marjorie Pennington of this city has arrived in England to spend the summer with her aunt, Mrs. McWhinney, Hove, Sussex.

Allyn Whaley of London, and R. G. McMullen of Toronto, are visiting at the home of Col. McMullen, Vansant avenue.—Woodstock Sentinel-Review.

Mrs. J. A. Hobbs, Yale street, gave a miscellaneous shower and tea on Thursday afternoon in honor of Miss Laura A. Thomas, whose marriage takes place early in June.

Mr. George H. Thomas, 496 Adelaide street, announced the engagement of his only daughter Laura to Mr. Percival Roy Collins of this city, the marriage to take place early in June.

Mrs. E. B. Smith, "Tuellyn," returned home Thursday evening from Toronto, where she attended the functions in connection with the visit of Lady Astor, M.P., but was obliged to go back to Hamilton Friday morning, owing to the illness of her father, Mr. Adam Brown.

Mrs. F. P. Betts, who has been confined to the house for some weeks past owing to illness, is making a good recovery, and goes shortly to her country home to convalesce in the delightful scene of the Easter week provincial Girl Guide training camp.

Friends in the city will be interested to learn that Miss Nina Holland, daughter of Mr. and Mrs. John Holland, and sister of Mrs. Alfred Drew of this city, has just received her graduation diploma from the Sick Children's Hospital, Winnipeg. Miss Holland attended the collegiate here, going to Winnipeg some years ago.

Mrs. Aaron Wolfe was the hostess of a smart luncheon Thursday at her home in Maple street in honor of Mrs. Gordon of Chilo, Cal., a charming guest with Mrs. W. Burdock Talbot street. The spacious rooms were decked with white lilies, lily-of-the-valley and Darwin tulips, which were also used on the small tables, where covers were laid for 20. The top table was very attractive, centered with a silver basket tied with a fluffy pink bow, and holding a cluster of spring flowers, resting on a cluny cloth. Pink candles in silver sticks were used at the corners. Mrs. Morris J. Wolf assisted the hostess.

The weekly sewing tea of Hale Street Mothers' Club was held Thursday afternoon at the home of Mrs. Putnam, 175 Sydenham street. The rooms were decorated with the club colors, blue and white, and spring flowers were used effectively throughout. While the mothers were busy sewing garments to be used in the War Memorial Children's Hospital a novel pin contest took place, which caused great amusement. The first prize went to Mrs. J. Dissing.

Comes to Speak

MRS. SIDNEY SMALL.

TORONTO'S charming and gifted woman member of the city council will tell about putting over big projects at the luncheon to be held within a fortnight by the Local Council of Women to definitely start the campaign for a new Y. W. C. A. club and administration building, which will serve as headquarters for all women's activities in the city.

Simcoe street school Mothers' Club, resulting as follows: Honorary president, Mrs. J. Curme; president, Mrs. E. Hartley; vice-president, Mrs. E. Cross; secretary, Mrs. F. Harper; treasurer, Mrs. G. Lumsden; press secretary, Mrs. W. R. Thomson; music convener, Mrs. Faunt; representative to child welfare, Mrs. F. Harper; convener refreshment committee, Mrs. G. Pearce. During the past year the club has been doing a large amount of relief work, making up also a generous subscription to the War Memorial Children's Hospital. Miss Rogers presided for the election. At the close of the meeting a social hour was spent, and refreshments served.

DANCE AIDS BUILDING FUND. So keen are the members of the Forest City Chapter, O. E. S., over securing a headquarters building for the order in the city that not a week has gone by for months past that has not been marked by some entertainment having aid for the fund in view. An average of \$30 or \$40 a week has been realized from these sources alone, thanks to the energy of the chapter members. Friday evening a happy affair was a dance under the chapter's auspices, held in Hyman Hall.

CARDS, COOKING, SUPPER. A successful and well-attended affair of Thursday evening was the supper, sale of home-cooking and supper, held in St. Joseph's school, under the auspices of the Mothers' Unit of that school. The arrangements were in charge of Mrs. J. Moyer, the president.

SALE TEA BIG SUCCESS. Despite the rainy weather of Friday afternoon and evening, the tea and sale of home-cooking and fancy work held at the rectory of the Church of the Redeemer, under the auspices of the Ladies' Guild, was a most successful event. Mrs. Cree, assisted by the president, Mrs. Geoghegan, welcomed the many guests, and at the tea hour Mrs. T. Ashman presided at the attractive tea table, centered with spiraea and tulips gracefully arranged in a bowl. Tall red candles held in silver sticks were used at the corners. The assistants included Mrs. McCallum, Mrs. Kennedy, Mrs. Osborne, Mrs. Bernhardt, Mrs. Nichols, Mrs. Waud and Mrs. Clare.

Rheumatic Treatment

This Trouble Can Only Be Got Rid Of By Enriching the Blood.

In no disease does the blood become thin so rapidly as in rheumatism. Not only does it become thin, but it is loaded with rheumatic poisons. Without proper treatment these poisons increase, the general health is undermined, the inflamed joints swell, and are very painful, and often the sufferer becomes crippled.

Dr. Williams' Pink Pills build up the blood and enable it to cast out the rheumatic poisons with the natural secretions of the body, thus restoring the general health. Sound proof of these statements is offered by George Stanley, Sparta, Ont., who says: "For a number of years I was troubled with rheumatism, which at times was very painful. My general health was also affected, and I could scarcely drag myself around. I had been doctoring a good deal, but did not get any better, until one day my daughter brought me a box of Dr. Williams' Pink Pills. By the time these were used I could move a slight improvement, and I continued taking the pills until I had used about a dozen boxes, by which time I felt like a new person—and looked like one. I could do my work with ease, and have since enjoyed the best of health. I have since recommended Dr. Williams' Pink Pills to several others who received the same benefit as myself."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail post paid at 50 cents a box or six boxes for \$2.50 from Dr. Williams' Medicine Co., Brockville, Ont.—Advt.

LADY BADEN POWELL COMING TO CANADA

Writes Mrs. Betts, Provincial Commissioner of Girl Guides.

Quite a furore has been created in Girl Guide circles in London by the news that Sir Robert Baden Powell and Lady Baden Powell are planning to come to Canada in the spring. Of course, they want to see how the scouts and the guides are getting along, and, with London the home of the Ontario provincial commissioner, and very live guide and scout activities, it scarcely seems possible they could pass the Forest City by in anything like a worth-while tour of the Dominion.

A recent letter received by Mrs. Betts, provincial commissioner, from Lady Baden Powell, mentions the anticipated trip to Canada, and also refers to the value to the guide movement of the gift of a house in England as headquarters.

With regard to the new "Guide House" in England, the provincial press secretary, Miss Beth Pennington, has received this information: "Through the great kindness and generosity of Mrs. Sanderson of 'Greystone,' Washington, the Girl Guides have been the recipients of a beautiful house and park called 'Foxlease,' at Lyndhurst, Hampshire, and it is the hope of all concerned that it will be the real home of guiding in every sense of the word."

"Those who want to learn about the guide movement will always find a corner there. Those who come from far away parts of the empire and all the foreign countries where the guide family exists, will be welcome, too."

Western Ontario Women's Activities

Address News For This Column to The Editor of Woman's Page.

KOMOKA GIRLS' CLUB.

The Komoka Girls' Club met on Tuesday evening at the home of the Misses Cornell. Miss Irene Barber had charge of the topic, "What Our Flag Stands For." Misses Lella McKinlay and Grace Robinson sang a pleasing duet. Music was also furnished by Misses Beulah and Dora Cornell. Miss Gilda Foster read the club paper. The club elected their officers for the coming year as follows: President, Miss Frances Murch; first vice-president, Miss Mary McDougall; second vice-president, Miss Rosa Wernham; secretary-treasurer, Miss Beulah Cornell. The club meets again on June 6 at the home of Miss Gilda Foster.

ALDBOROUGH CONVENTION.

The Aldborough Sunday School convention was held in the Kintyre Presbyterian Church Wednesday, May 17.

Rev. Dr. Webb of Toronto delivered very inspiring addresses both afternoon and evening on "Development in Sunday School Work" and "The Teaching Work of the Church."

In the evening Rev. Mr. Clemens of Rodney spoke on "Evangelism and Youth."

Installation of officers was conducted by Rev. Dr. Webb. Special music was given by the choir, and solos rendered both afternoon and evening by Mrs. (Rev.) Leitch. The 1922 convention will be held at Rodney Presbyterian Church.

SUMMER MEETING, MAY 23.

The Coldstream Women's Institute is holding the summer meeting on May 23 at the home of Mrs. Malcolm Campbell, Poplar Hill. The speaker for the afternoon will be Miss Collins of Ancaster, Ont., and her subject, "Homemaking Ideals." A good program is being prepared. Tea will be served at the close of the meeting.

BYRON WOMEN'S INSTITUTE.

The annual meeting of the recently-organized Byron Women's Institute was held this week, the election of officers resulting as follows: President, Mrs. F. P. Crowe; first vice-president, Mrs. Robt. McEwen; second vice-president, Mrs. Thos. Colledge; secretary-treasurer, Mrs. L. Griffith; assistant secretary, Miss G. Sharp; directors, Mrs. Frank Tanton, Mrs. Raymond Smith, and Mrs. N. Sanderson; district director, Miss M. Nickerson.

An interesting address was given by Miss Collins, outlining institute work, its aims and objects. Mrs. G. Edwards was also present and gave a short talk.

The members of the branch are hoping all the ladies of the district will co-operate in making the organization a great success. The next meeting is to be held at the home of Mrs. Wallace Meriam, Byron, Tuesday, June 20, at 3:30 o'clock.

LOBO WOMEN'S INSTITUTE.

The annual business meeting of the Lobo Women's Institute was held at the home of Mrs. D. T. Gray on Wednesday, May 17, with an attendance of twenty. All reports of year's work were given and new officers elected.

An invitation from Coldstream Institute was read asking the Lobo branch to join in their summer meeting to be held at the home of Mrs. Malcolm Campbell, Poplar Hill, on May 23. This was gratefully accepted.

ECZEMA ON FACE AND HEAD FOR FIVE YEARS

Ecema or salt rheum, as it is so often called, manifests itself in little round pimples which contain an extremely irritating fluid. These break and subsequently a crust or scale is formed and the intense burning, itching and smarting, especially at night or when the part is exposed to a strong heat, is almost unbearable and relief is gladly welcomed.

There is only one way to get relief and no remedy like

BURDOCK BLOOD BITTERS. Take it internally and it gets at the seat of the disease in the blood and drives it out of the system. Apply it externally and it takes out the itching, stinging and burning, and promotes healthy healing.

Mr. J. Sage, 215 Princess avenue, Vancouver, B. C., writes: "Having suffered with ecema on the face and head for the last five years, I consulted several doctors, and tried various kinds of salves and lotions, but I derived no benefit from any of them. I did not know what to do until a friend advised me to try Burdock Blood Bitters, and after I had used two bottles I began to get better and now after taking eight bottles I have not even a blotch on my face. I feel that I cannot praise B. B. B. too highly. I hope you will make full use of this recommendation for the benefit of those who are suffering from this terrible complaint, ecema."

B. B. B. put up only by The T. Milburn Company, Limited, Toronto, Ont.—Advt.

CUTICURA HEALS ITCHY PIMPLES

Face Inflamed and Disfigured. Lost Rest at Night

"My face broke out with hard, red pimples which festered and scaled over. They were in blotches and itched and burned so badly that I had to scratch them and my face was inflamed and disfigured. I lost rest at night on account of the irritation."

"I saw an advertisement for Cuticura Soap and Ointment and sent for a free sample, which relieved me. I bought more, and after using four cakes of Cuticura Soap and two boxes of Ointment I was healed, in about three weeks." (Signed) Miss Juliette Ortiz, Box 1018, San Diego, Calif., Feb. 7, 1921.

Use Cuticura for all toilet purposes. Write for Free Sample. Address: "Lynnas, Ltd., 25 St. Paul St., Toronto, Ont. Sold every where. Soap 25c. Ointment 25c. and 50c. Cutsicura Soap shaves without razor."

Our Personal Guarantee

to All Skin Sufferers

You have our absolute guarantee of relief from the first bottle of D. D. D. Your money will be returned without a word if you tell us that the first bottle did not do what it should, and we want you to try it now on our positive no-pay guarantee. Price, \$1 a bottle. Try D. D. D. Soap too.

Strong's Drug Store, Standard Drug Co., Limited, Taylor's Drug Store, London, Ont.

"If you cannot come conveniently to our store, write to the D. D. D. Co., Dept. 46, Loyall Ave., Toronto, and they will send you free trial bottle for 10c, which merely pays postage and packing."

Ivor, second vice-president, Mrs. Archie Ferguson; secretary-treasurer, Ruby C. McVicar; assistant secretary-treasurer, Laura Edwards; district director, Mrs. Wm. McVicar. Representatives to annual convention are: Mrs. E. T. Caverhill, Mrs. Wm. McVicar, Ruby McVicar, Vera Palmer, Vera Graham and Jessie Irvine.

The June meeting will be held at the home of Mrs. Wash. Irvine, Wednesday, June 21, at 2:30 p.m. Roll call will be answered by "Your Favorite Summer Dessert."

Cynthia Grey's Mail-Box

ATTENTION, HOUSEWIVES.

Dear Miss Grey,—Could any of The Advertiser readers give me a recipe for icing for a story cake that will not become hard and brittle as most of them do?

NOVEMBER GIRL.

Have any of the readers a tried recipe that would be suitable for November girl?

A LONESOME MOTHER.

Dear Miss Grey,—Sometime ago I wrote you a letter, but did not sign my pen-name. I am almost an invalid, and am unable to do any work. I have just one son, who is at home, and he hasn't come one day's work since last September, and he has been real poorly all winter. I had three daughters, but I lost them all. I have one little grandson just four years old, and would be thankful to see anything for him in the way of clothing, toys, etc. I take size 38, and would be pleased to receive anything at all, even a hat. As soon as my son gets work I will try and send you a mite for the hospital.

YOUR NAME AND ADDRESS IS ON FILE IN CASE IT IS ASKED FOR. I hope some of the Boxes can help you by sending a few clothes.

A hearty vote of thanks was tendered the retiring president, Mrs. H. D. Steele, who has conducted the business very ably.

A social hour was enjoyed at the close.

Children's Stockings that stand the wear

THERE is no need to tell Canadian Mothers anything about quality of materials in Mercury Hosiery for children—the name "Mercury" is recognized as the mark of quality—

But we do want to emphasize their wearing quality. They are reinforced where wear comes most—dye with fast, non-running colors—knitted so that washings do not change the shape. Reinforced parts carry all the extra strains. Mercury Hosiery stands the wear.

Ask your dealer to show you "Mercury" Children's Hosiery.

Economy Wash Plan
Is Not Wet Wash Nor Semi-Finish It's Different
EVERYTHING ironed ready for use except the "fussy" corners on a few odd pieces. These we leave for you to smooth out with your hand-iron, if you like.

Our process is different. Few other laundries can do the Economy Wash Plan work.

NO MARKING—NO STARCHING, and each washing done separately. A phone message and a trial will convince you that this is the cheapest way to get rid of blue wash-days.

SOMEWAY AND SOMEHOW
THE PARISIAN LAUNDRY
Laundries, Dry Cleaners, Dyers and Rug Cleaners.

ness we neglected our garden last year, and the only flowers we had were those neighbors brought us, and I would like to repay them. Please criticize my writing. DAD'S ONLY GIRL.

You did not give me your name and address, so I cannot forward the dressed envelope repeating your request, and I will be pleased to send you some. One certainly misses flowers, and I think those having gardens would share with less fortunate ones. You write a very good hand for a little girl.

HAS WESTERN ONTARIO ANY GENTLEMEN?

SUPPOSE everybody lived by the same code of ethics, morals, ideals, and so on, what would the result be? Yet when the mass of men set themselves to aspire to be perfect gentlemen, that is the end, is it not, towards which we would be tending?

If every man were a gentleman, and a perfect one, would not every one act similarly in similar situations. You could always tell just what would be done by one and all men under certain conditions if they were all perfect gentlemen, because they would have the same ideals and everything isn't that right?

So what is a perfect gentleman then? Are there any in Western Ontario, are there many or are there few? Write the answer to "What is a perfect gentleman?" to The London Advertiser, and help answer the question.

The Advertiser is offering \$5 for the best answer to the question, "What is a perfect gentleman?" and \$1 for the next best five. On Wednesday, May 24, at noon, the contest will close, so do it now.

RESPECTS GOD'S WORD.
A gentleman is one who has respect for God's word.
MRS. JAS. REID,
52 Edward street, London, Ont.

HAVEN'T SEEN HIM.
A gentleman is a supposed species of male humanity which really never existed except in the imaginations of love-stricken maidens.
MARIA JANE JONES,
London, Ont.

HIS MORAL WORTH.
A perfect gentleman is one whose nature has been fashioned after the highest models. His qualities depend not upon fashion or manners, but upon moral worth. Not on personal possessions, but on personal qualities. The psalmist briefly describes him as one that walketh uprightly, and worketh righteousness, and speaketh the truth of his heart.

The union of greatness of manners with firmness of mind are noticeable in the true gentleman. He insults not the poor with condescension, nor courts the rich with servility, but takes his place on an easy equality and fraternity with all, without the pretense of being the inferior of any.

ALBERT BROOKS.
Newbury, Ont.

A GENTLEMAN.
He is a man who lives up to the best instincts of his manhood. His early training has helped him to place in his mind the instincts of decency, morality and kindness, placed in every human being, that are chiefly responsible. A kindly act, a situation relieved, a bit of quiet heroism, and no matter in what walk of life we find the doer, we know that a gentleman has passed that way.

EFFIE L. TILDEN.
Harriston, Ont.

WON'T INFLICT PAIN.
It is almost a definition of a gentleman to say he is one who never consciously inflicts pain on a fellow creature. He carefully avoids whatever may cause a jar or jolt in the minds of those with whom he comes in contact, his great concern being to make everyone he meets comfortable.

He is a man who is speaking, and always appreciates others' opinions. A gentleman is seldom prominent in conversation, and never worships, always interpreting things said or done as for the best. He never takes an unfair advantage, and does not insinuate evil which he dare not say outright. Not only are his manners and speech correct, but his heart and thoughts also.

C. B. ROUNDS.
Drumbo, Ont.

KINDLY TO OTHERS.

In my opinion a gentleman is a man who is courteous and kindly toward others, of high principles, and above all a man of honor.

MRS. KATHLEEN L. GLIDDEN.
255 Wakefield Road, London South.

LOOK AROUND!

Are there any gentlemen in Western Ontario? Certainly if one only keeps eyes open and looks around.

Fine clothes and great education do not make the gentleman. They are all right in their place. My idea of a gentleman is one who will put himself out of the way in order to help out a kindred for one of God's little ones. Inasmuch as ye did it to one of the least of these, ye did it unto Me, Jesus our Saviour was a gentleman, and kindness was his ruling power. Then one who will help an aged person when in need or distress, no matter in what position of life they may be, is a follower of Jesus Christ and a lover of all that is good and true. That is my idea of a gentleman.

MRS. UPFOLD.
Putnam, Ont.

"WHAT IS A GENTLEMAN?"

How many times have you been asked this question—and how many times have you been able to answer it? You are about to rush at the answer when you find it is not within your power. To give the detailed characteristics a man must have to be a gentleman would fill too many pages, but you may terminate the answer thus:

You are a married man. The love that kept growing when you and your wife were sweethearts is still growing. The gifts that once had the power to make your sweetheart happy now have the same effect on your wife.

The respectable manner you use when in company is also used when you and your wife are alone. You make your mother-in-law feel as though she were your mother and father-in-law as a father. You do not avoid a child as you would a snake or a lion, but think, "Well, I

suppose everybody lived by the same code of ethics, morals, ideals, and so on, what would the result be? Yet when the mass of men set themselves to aspire to be perfect gentlemen, that is the end, is it not, towards which we would be tending?"

If every man were a gentleman, and a perfect one, would not every one act similarly in similar situations. You could always tell just what would be done by one and all men under certain conditions if they were all perfect gentlemen, because they would have the same ideals and everything isn't that right?"

(Continued From Our Last Issue.)
"If you content," he mumbled, "dare say there's nothing more to be said."

She nodded gaily, repeating the word, "Nothing!" in a flute-like note of mirth. Hanging his head, he began wretchedly to stuff the plunder into his pockets, muttering half to himself: "What a pity! If only I could have had a bit of luck! If only we could have hit it off!"

"If you hurry," she reminded him, "you can catch the night train for San Francisco, you can just about make it."

"Well . . . He glanced uneasily at her, and again was conscious of the heat in his cheeks. "So it comes to this at last . . . eh? . . . good-bye!"

"Good-bye," she repeated, amiably casual.

"I daresay . . ." He gave a dubious chuckle. "Dare say it's stupid but, well, the usual thing, you know."

"Usual thing?" she parroted, with faintly knitted brows.

"To kiss goodbye."

"You'll miss your train."

He developed a moment of desperately sincere emotion: "Fah! you've been a perfect brick to me, a perfect brick. I feel like a dog, leaving you like this."

"Oh!" she said, as one indulges a persistent child—"If you really want to kiss me, Harry, go ahead."

Nevertheless she turned her mouth aside, his lips brushed only her powdered cheek. Then she stepped back to her mirror and with a puff made good the imperceptible damage done by the caress. The glass showed Lorraine's shadow sinking out. She heard a blunder through the living-room, the slam of the screen door. And her hand fumbled, the powder-puff dropped unheeded, mist drifted across her vision, she gasped a breathless "Oh!" Tears meant a wrecked make-up.

There was need enough for haste if he were to carry out the plan she made for him. Lorraine dragged slowly down the walk, with a hand-dog air, the hands in his pockets fingering the price of the last sorry shreds of his self-respect. In the darkness the flesh of his face still burned with fire of shame.

Beside the car he halted and rested with a hand on the door for so long a time that the chauffeur grew inquisitive.

"Where to, Mr. Lorraine?"

"No!" Lorraine blurted into the man's astonished face, and whirling about, strode hastily back to the bungalow.

As he drew near he could hear Fanny's voice. She was at the telephone in the living-room, calling a number he didn't catch; Summerlad's no doubt.

"Hello? Is it you, dear? Fanny?"

"First chance I've had . . . Poor darling! I've been aching to see you all day and tell you how I sympathized, Barry dear . . ."

Something amused her, peals of musical laughter haunted Lorraine down the walk, and he remembered, "Union Pacific Station!" he cried, throwing himself into the car.

XXX.

THAT sunset whose reluctant waning Lorraine was presently to watch from the bungalow veranda was still a glory in the sky when Lucinda motored to Beverly Hills.

It seemed a churlish chance indeed that ordained a reception for her exclusively at the hands of a semi-intelligent Jap, who uttered assorted fragments of English to the general sense that Mister was having his foot treated at the moment, but would soon be disengaged.

She put off her wrap, made herself at home, and sought but somehow failed to distill a compensating thrill from the reflection that she would, ere long, be called upon to make herself at home here for good and all. "Ere long" meaning, of course, after Reno . . . And why not? The house was excellently planned, amply big for two; no reason why Lynn need move unless he really wanted to.

Curiosity concerning Lynn's tastes, for a moment Summerlad gnawed his underlip without attempting to reply. Then with a sign of despair he retreated to one end of the club-lounge, against which he rested, to ease his foot. He said something in an angry mumble, as Lucinda followed into the room.

"I thought I could keep it from you until . . ."

"Till when? Till what?" He growled, inarticulate with vexation. "To let me go on thinking . . ."

"Since you don't live together, why aren't you divorced?"

"Nelly said if I tried to divorce her she'd fight back, and she knows . . . He didn't finish, but shut his teeth on a blundering tongue and looked more than ever guilty. But Lucinda was in a pitiful temper.

"No wonder the poor thing hated the sight of me! . . . Oh, how could you have been so unkind!"

"If you'd only give me a show to explain . . ."

Her lip curled: "Explain!"

"I've been doing my best," Summerlad argued resentfully. "When I saw how it was going to be with you and me, and found out Nelly'd come back to Hollywood, I went to her and had things out—gave her some money and promised her more, on the strength of her promise to go back home."

"And did you hope to keep that a secret from me?"

"My name isn't Summerlad, any more than hers is Marquis—or yours Lee. I thought I'd . . . I thought everything was going to be all right till she turned up again with your officious husband."

"You think Bel had something to do . . ."

"He wanted Nelly on the spot as a sort of club over my head. He hasn't given you up yet!"—Summerlad laughed shortly—"not by a long sight."

"A club over your head?"

Summerlad's look mirrored poise.

When he did find time to read, moved Lucinda to peruse the straggling squad of titles. Novels led in number, in general such trash as furnishes the cinema with most of its plot material. In addition, a subscription set of De Maupassant, another of O. Henry, Wells' "The Outline of History" (uncut), the Collected Verse of Rudyard Kipling, six copies of the same edition of Who's Who on the Screen, Laurence Hope's Indian Love Lyrics in an exceptionally beautiful binding . . .

With a chuckle Lucinda took possession of this last: Lynn would have Laurence Hope! Evidently a gift copy. When she opened the book at its fly-leaf, a slip of printed paper fluttered out. Without pausing she read:

"If you'd only give me a show to explain . . ."

Her lip curled: "Explain!"

"I've been doing my best," Summerlad argued resentfully. "When I saw how it was going to be with you and me, and found out Nelly'd come back to Hollywood, I went to her and had things out—gave her some money and promised her more, on the strength of her promise to go back home."

"And did you hope to keep that a secret from me?"

"My name isn't Summerlad, any more than hers is Marquis—or yours Lee. I thought I'd . . . I thought everything was going to be all right till she turned up again with your officious husband."

"You think Bel had something to do . . ."

"He wanted Nelly on the spot as a sort of club over my head. He hasn't given you up yet!"—Summerlad laughed shortly—"not by a long sight."

"A club over your head?"

Summerlad's look mirrored poise.

Poor Are Rich and Rich Are Poor—On Moon

(By Olive Roberts Barton.)

"People who have nothing to eat but roasts and cake and fruit and fine sauces live in these cities."

NANCY and Nick and the Magical Mushroom listened in amazement at the Moon-Man's story.

"You see, my dear," said Mr. Peerbout, the Man-in-the-Moon, as he leaned back comfortably in his rickety old chair and stroked his beard, "the moon is different from the earth."

"The things you value on earth we moon-people don't care about at all, and the things you throw away down there we prize highly."

"Take our cities, for instance, that you think are so wonderful, one built of carved ice-blocks, another of white marble inlaid with jewels, and one of ivory and pearl."

"They might be called handsome on the earth, but up here they are slums, where the poorest people live. People who have nothing to eat but roasts and cake and fruit and fine sauces, and nothing to wear but velvet and satins and embroideries and laces and hand-some furs, live in these cities."

"It is very sad about them, but we can do nothing about it. The poorer they get, the more servants and automobiles they have, and the more gold rolls into their counting rooms. It's hard to tell when it will stop."

"But what do the rich people have, then?" Nancy couldn't help saying.

"Nothing," replied the Moon-Man. "Nothing at all. You see, I am the richest man in the moon, and I have nothing at all. Poverty is the most

valued thing here, and I have that."

The Twins understood now why Mr. Peerbout had said they were as well-come as poverty.

"Don't you have anything to eat, even?"

"Oh, yes. Yes, indeed! For breakfast I have crackers and milk, for luncheon I have milk and crackers, and for tea I have mackerels and crabs. I change the name just for variety. Won't you have some? After that I'll show you around."

(To be Continued.)
(Copyright, 1922.)

Beaded Gowns
New Model

There seems to be a natural affinity between beads and georgette. These gowns are beaded in Persian and other eastern patterns.

Bright shades are used in colored and iridescent beads. Cut steel beads are most popular and one dress of dull blue georgette shown in a Bond street shop had an all-over pattern of cut steel beads, delicately lovely. Cut crystal beads are fashionable, too.

Georgette dresses for the most part are bright colored—orange, flame, orchid, red-brown or beige and depend upon darker panels or patterns of beading for contrast.

nant contrition as he saw her coloring with affronted sensibility, drawing back from him, momentarily slipping beyond his reach. "Linda!" he implored—"don't look at me that way."

Suddenly, before she could stir to escape, he caught her to him and held her fast.

"Linda, don't be angry with me. I've tried so hard to be good enough for you. Don't let this accident spoil everything for us."

(Continued in Our Next Issue.)

"TIZ" GLADDENS
SORE, TIRED FEET

"TIZ" makes sore, burning, tired feet fairly dance with delight. Away go the aches and pains, the corns, callouses, blisters and bunions.

"TIZ" draws out the acids and poisons that puff up your feet. No matter how hard you work, how long you dance, how far you walk, or how long you remain on your feet, "TIZ" brings restful foot comfort.

"TIZ" is wonderful for tired, aching, swollen, smarting feet. Your feet just tingle for joy; shoes never hurt or seem tight.

Get a box of "TIZ" now from any druggist or department store. End foot torture forever—wear smaller shoes, keep your feet fresh, sweet and happy.—Adv.

St. Thomas Sarnia Windsor London

Radio Radiations

BY THE RADIO EDITOR.

If you want to get the most out of your receiving set, take this tip or two:

Never try to share your aerial with another fellow. It won't work. He will be detuning your set and you will be detuning his. This applies to both outdoor and indoor antenna.

If you have to share the aerial, divide the time of operation. Disconnect one set while the other's in use.

Don't expect too much of your indoor loop or frame aerial. As previously explained, this is only for use in case you have a good radio frequency amplifier or have a set near a broadcasting station.

Don't think, because the aerial is inside the house, that you can shut out reception by closing the doors and windows. Either, upon which the electromagnetic waves travel, permeates all substances, excepting possibly iron and steel, just as easily as it does air.

If you want to shut out reception, throw your switch and disconnect your set from the antenna circuit.

Source of Annoyance.

We speak of the detector tube as oscillating when it is so regulated to receive signals at a maximum audibility. In this oscillating it throws off a small amount of energy which leaks through the receiving set into the aerial.

These signals, thrown off by the aerial, will be heard by those nearby who may be tuning in to the same wave length.

This is a great source of annoyance and requires skill in tuning to avoid it.

Tuning In.

The problem of tuning in to the best advantage is one that each fan will have to work out for himself—by simply varying his dials until he discovers the selective spots.

You may see a set receiving very satisfactorily at a friend's home or in a store and note the position of its dials. But if you try to make exactly the same arrangement on your own set, it may not work at all.

It all depends on the location of the receiving station, the height and length of the aerial, the length of the lead-in and the size of the wire used.

No rules can be laid down for specific tunings.

It is mostly up to the operator himself.

Tickler.

The plate variometer or "tickler" is the one part of the set that requires the most attention and skill in handling account of its regenerative action.

But with a little practice one can soon learn just where each variation is needed, and a maximum of efficiency in reception is enjoyed.

MARCONI RADIO

We have a complete line of Marconi Canadian-made RADIO sets, parts and audion bulbs at standard Canadian prices. Also other lines at prices that are right. Compare these prices with our competitors.

BASEBALL and LATE SPORTING NEWS

IF WEATHER CLEARS BIG MEET IS WELL AWAY

Third Annual Interscholastic Track Games Need Only Hot Sun to Assure Success

Only the weather can interfere with the success of the third annual interscholastic track meet being staged today under the auspices of the W. O. S. A. at Queen's Park. Last night conditions did not look promising, but with a hot sun from early Saturday morning the track at Queen's Park will be dried up by the time the meet gets in motion. Messrs. W. F. Lawrence and M. L. Blake and Prof. Hart completed final arrangements at Queen's Park yesterday.

The value of a meet of this kind in advertising for the city of London cannot be overestimated. Scores of students from all over Western Ontario come to London for this annual field day. The citizens would do well to remember this point, and turn out in large numbers this afternoon to make this meet a huge success.

The Western University, London Chamber of Commerce and the local board of education are doing their utmost to help along this work. An excellent program has been prepared through the co-operation and assistance of the board of governors of Western University. Through the kindness of the chamber of commerce, the board of education and the staff of the local college, a banquet is being given at 5:15 in the London Collegiate Institute to the competitors, guests and officials. At this banquet the trophies and medals will be presented to the winners. This should bring to a successful conclusion the day's activities.

The enthusiasm for the meet among the various schools has been most

striking. Almost 200 of the best athletes in Western Ontario will be present, and doubtless many of the records will be broken. All that is needed to insure success is an attendance of 2,000 citizens of London.

Met Brock, to whom is due the great credit for initiating the W. O. S. A., will act as clerk of the course. Noy, with A. T. Taylor, former "Y" director, as starter. Met arrived in the city last evening, a night too late to see his one-time protégés, the Shamrocks, electrify London basketball fans.

BISONS' RALLY IN NINTH BEATS LEAFS

TORONTO, May 19.—Buffalo made a ninth-inning rally and beat Toronto today 4 to 3. Heitman hit a home run in the ninth and tied the score. The Bisons went out and won. Babe Dye of Buffalo, a Toronto boy, was presented with a diamond ring and a diamond ring by his former teammates of the St. Patrick's Hockey Club.

N.W.B.A. GROUP NO. 7 OPENS
SERIES WITH TWIN BILLJune 1 is Date of Start—North
Bruce Opens May 22.CAGILL, May 19.—Representatives
of Group No. 7, N.W.B.A., held a meet-
ing on Friday evening, when the follow-
ing schedule was drawn up:

June 1—Hanover at Mottke.
June 1—Neustadt at Chesley.
June 2—Chesley at Mottke.
June 10—Mottke at Neustadt.
June 15—Chesley at Mottke.
June 17—Neustadt at Hanover.
June 22—Hanover at Chesley.
June 24—Neustadt at Mottke.
June 24—Chesley at Neustadt.
June 12—Mottke at Hanover.
June 15—Hanover at Neustadt.
June 20—Mottke at Chesley.

South Bruce Schedule.
The following is the schedule to be
played for the South Bruce Amateur
Football League Trophy:

May 22—Maple Leafs at Otter Creek.
May 25—H. N. S. at Ambleside.
May 29—Otter Creek at Tuxis.
May 30—H. N. S. at Otter Creek.
May 31—Ambleside at Maple Leafs.
June 2—Tuxis at Otter Creek.
June 4—Maple Leafs at Ambleside.
June 9—Ambleside at Otter Creek.
June 12—Tuxis at Maple Leafs.
June 14—Otter Creek at Ambleside.
June 15—H. N. S. at Maple Leafs.
June 18—Otter Creek at Maple Leafs.
June 21—Ambleside at H. N. S.
June 26—Otter Creek at H. N. S.
June 28—Maple Leafs at H. N. S.
July 2—Tuxis at H. N. S.
July 7—Maple Leafs at H. N. S.
July 14—Ambleside at Tuxis.
July 17—Tuxis at Ambleside.
The H. N. S. and Tuxis teams are rep-
resentatives of Midway.

MINT
Patter

London returns here Monday arm
in with the Saginaw Aces, league
leaders. They pastime with the Aces for
two games and then stage an all-day
fest with the Saints, formerly the
Hurons, who are stringing along third.

This means that the Tecumseh
have a hard task on their hands all
week, contending with the first
division genies, before the home
folks.

Bill Moore is requested to be on hand
and introduce the new London team to
the fans.

Ex-yrms of Saginaw had seven
pitchers starting last week, but
three were slated for the discard
with Johnny Noonan of expected
fame among the three. He may
have changed his mind since.

Sam Vandave blew in last night in
pack his clothes and he leaves for
Albany, New York state, Saturday
morning.

Once Ben Koehler rounds into
shape, there'll be no excuse for the
younger set to complain of the time
it's taking them to condition.

An enthusiastic Bay City sports writer
says of the Wolves: "Variety, the Park
look like a pennant winning club." He
must have had his back to the stand-
ings.

Roseberry, Saginaw outfielder, is lead-
ing the league in swatting. This gent is
looking them over at the rate of 352.
No less a personage than William Kuhn
is on his trail, but not so fast at 424.
Mackey, the saved-off Ruth of the Lon-
don contingent, leads his teammates
with a 417 pace.

Following are the figures:
Roseberry, cf., Sag., 10 45 24 35 533
Kuhn, lb., Ham., 12 53 23 27 434
Smith, cf., Sag., 11 40 17 26 429
Proven, cf., Flint., 11 40 17 26 425
Kirby, cf., Sag., 10 40 17 25 425
Mackey, cf., Low., 12 35 15 21 417
Kron, cf., Bay City, 12 44 18 27 409
Wire, lb., Bay City, 12 44 18 25 409
Whaley, cf., Bay City, 12 43 19 400
Fike, 2b., Sag., 10 40 16 25 400

THISTLE CLUB EUCURE WINNERS
ARE NAMED

The Thistle Club held the final eucure
party of the season, which resulted in
A. W. Slater receiving the highest
average of the year, followed by R.
Dawson. On the evening of the even-
ing J. Gray came highest, G. English
was the winner of the largest num-
ber of lone-hands.

ADMITS THEFT OF
\$1,928 IN OTTAWA

OTTAWA, May 19.—Clifford Ar-
gue, former secretary of the city fire
department, acknowledged having
stolen \$1,928 from the city by means
of duplicated accounts, in police
court this morning, and walked from
the prisoner's box a free man, amid
loud applause after Magistrate J. E.
Askwith had taken a lenient view of
his offence and allowed him a sus-
pended sentence.

R. V. Sinclair withdrew the pre-
vious plea of not guilty, acknowledged
that his client had committed the
offence with which he was charged,
and in an eloquent plea for clemency,
commended him to the mercy of the
court.

FAVOR RENEWAL
OF NEGOTIATIONS

LONDON, May 19.—(By Canadian
Press Cable).—At a meeting of the
Federation of Engineering and Ship-
building Trades at Portsmouth today
a resolution was passed in favor of
resuming negotiations with the En-
gineering Employers' Federation
with a view to the possible settle-
ment of the dispute which has been
going on for months.

Representatives of the unions con-
cerned will meet the employers to-
morrow.

CURED HIS
RHEUMATISM

"I am eighty-three years old and I
suffered for rheumatism ever since I
came out of the army, over 20 years
ago. Like many others, I spent money
freely for so-called 'cures' and I have
read about 'Uric Acid' until I could
almost taste it. I could not sleep nights
or walk without pain; my hands were
so sore and stiff I could not hold a
pen. But now I am again in active
business and am able to get out with
ease all day with comfort. Friends
are surprised at the change. You
might just as well attempt to put out
a fire with oil as try to get rid of your
rheumatism, neuritis and like com-
plaints by taking treatment supposed
to drive Uric Acid out of your blood
and body. It took Mr. Ashelman fifty
years to find out the truth. He learned
how to get rid of the true cause of
his rheumatism, other disorders, and
recover his strength from 'The Inner
Mysteries,' now being distributed free
of charge. If any reader of 'The
Advertiser' wishes 'The Inner Mys-
teries of Rheumatism' overlooked by
doctors and scientists for centuries
past, simply send a post card or letter
to H. P. Clearwater, 45th Street, Hal-
low, Maine. Send now, lest you forget.
If not a sufferer, cut out this notice
and hand this good news and op-
portunity to some afflicted friend. All
who send will receive it by return mail
without any charge whatever.—Adv.

SPORTS
la CARTE

By C. S. G.

The basketball series for the girls' championship of Canada proved
little in a basketball way after all, for the scores of the two games showed
that beyond using a basketball floor and baskets and other basketball in-
cidents, there is little in common between girls' and boys' rules, and they
are really two separate games. Edmonton girls are undoubtedly cham-
pions under girls' rules; nobody will question Shamrocks' superiority at
boys' rules, despite the fact that physically they are a much smaller team,
and size and strength are important factors under boys' rules. Therefore,
as far as the series goes, the teams are just about where they were when
they started.

The fact that the Edmonton girls were not permitted by their coach to
take part in the social program arranged by the Shamrocks will probably
give an indication of why the locals felt justified in not allowing anything
to be slipped over. Thursday afternoon the businessmen of the city had ar-
ranged to take the visitors about the city in cars, but this was also banned
by the Edmonton coach.

However, the Edmonton girls themselves proved splendid sportswomen.
They were subjected to strenuous checking, and good-natured sport of way.
share and attempted good-natured retaliation in a groping sort of way.
Many interested in sports throughout the city are confident that had
Shamrocks made six more points in the final game they would have won
any protest taken to the Canadian Amateur Athletic Union.

Had the 1922 rules, under which Shamrocks claimed the game should
have been scored, been different as to playing rules, the objections of the
western coach could have been well understood, but as they weren't, it de-
veloped into a purely technical and legal defence on his part on the basis
of letters written between the two clubs, but not borne out in the wording
of the actual agreement regarding the series.

Mr. Page admitted to the writer that Shamrocks had been lax in not
insisting on an understanding of the matter before the games, but that ad-
mission only proves they had not even looked over the rules to prepare pit-
falls for the westerners before arrival. The game, probably foolishly on
their part was the thing, not quibbling over the wording of letters which
were neither final nor binding.

Shamrocks undoubtedly were lax that they did not get legal advice and
draw up a carefully-worded document; they were still more lax when they
permitted the first game to be refereed by the coach of the Edmonton team
in such an important series, and they were lax in a lot of other things that
might have been insisted on, but Londoners will hardly hold this against
them.

Mr. Page, in explaining his attitude to The Advertiser, said that in a
letter written to Miss Blackwell, he had stated that the Edmonton girls
played under 1920-21 Spaulding's girls' rules, and later on had sent a copy
of the rules to London.

Under these rules two points are allowed for each overhead throw, and
that is the way the Edmonton team have had all their games scored.

"Were the 1921 rules stipulated in your agreement?" Mr. Page was
asked.

"No, they were not," returned the western coach, "but, naturally, hav-
ing sent that rule book ahead of us, we expected to play under those rules."
"Do the new rules differ from the old as regards play?"

"Only in one respect, and that is effecting a foul throw and specifying
the point from which it shall be thrown. This particular play did not oc-
cur during the game."

"I doubt very much if this scoring point would have been raised by the
London team had not the score been so large," Mr. Page continued, "and I
am very sorry for the sake of the game that the situation has occurred."

And that's that.

Tracey, the Auser who tried con-
clusions with Bill Brennan the other
evening, walked over 1,000 miles to
break into the fight game. By
showing Brennan, he'll have
plenty of walking room on the
North American continent.

Probably the upshot of the unsat-
isfactory basketball series just closed will
be to have girls either adopt girls' rules
outright throughout the Dominion or
stick to the boys' rules. They won't be
bothered much by noise if it were
decided to adopt the former.

It's strange, umpires don't utilize
their spare time in winter trying to
improve the present-day pop bottle.

L. C. I. enthusiasts have some events
marked down which Londoners could
watch at today's meet with profit, it is
claimed. One is the pole-vault.

London won one game in suc-
cession last week.

George Washington Bradley, who was
the subject of an article in these
columns this week as the pitcher of the
first perfect game, played with the Lon-
don Tecumseh the following year, in
1877, an old-time fan informs us.

estimates. The estimates passed
without amendment.

SENATOR F. PARDEE delivered
his maiden speech in the Senate
today.

The speech, on the question of the
status of Canadian-born citizens of
foreign extraction in the census lists
of the country, was made in reply to
Senator Griesbach, C.B., who de-
fended the present policy of placing
all citizens in the same national cate-
gory as their forefathers. Senator
Griesbach maintained that Canada
could not properly account for the
people within her boundaries if all
citizens were not classed according
to their extraction when the census
was taken.

Senator Pardee urged that all per-
sons born in Canada should be called
Canadians whether their parents
were Gallician, Italian or English. He
said that it was decidedly unfair to
refuse a person born of ancestors
who had lived in Canada several
years the name of Canadian at any
time.

Such a course, he asserted, was
destructive to the public spirit of the
country. He believed it was abso-
lutely necessary for national welfare
to inculcate by every possible means
a truly Canadian spirit in the citi-
zens of this country. It was humili-
ating, Senator Pardee said, to every
Canadian-born person to force him
to use the nationality of his fore-
fathers.

He suggested that when the next
census is taken, every Canadian-born
person should be called a Canadian.
The matter did not come to a vote.

IN connection with a report on the
efforts of William Black, of
Huron South, to secure an appropria-
tion from the public works depart-
ment, for repairs to the breakwater
at Bayfield, it was erroneously stat-
ed a few weeks ago that Mr. Black
inspected the harbor, Sunday, April
30. Mr. Black made the visit on the
day following, Monday, May 1.

WITH the passing of Private Mem-
bers' Day not a few members
from Western Ontario have been
deprived of an opportunity for speech
making. More than one member was
nursing along proposed resolutions
which never saw the orders-of-the-
day and which must now stand over
to the next session for discussion as
the result of the commandeering of
Monday and Wednesday of each week
by the house for government busi-
ness.

W. C. Good, of Brant, whose reso-
lution aimed at race track gambling
was left stranded, has not given up
hopes of bringing the matter before
the house this session. It is possible
that he may introduce a bill embody-
ing the purpose of the resolution,
in the hopes that the government will
take up the question.

EVERY member of parliament was
presented to Lady Astor, when a
reception was tendered the dis-
tinguished visitor by Hon. Speaker
Rodolphe Lemieux and Mrs. Lemieux
in the Parliament Buildings.

LARGE AMOUNT OF
REPARATIONS PAID

LONDON, England, May 19.—(By
Canadian Press Cable).—It is an-
nounced that from April 1, 1921, to
March 31, 1922, £3,680,000 has been
collected by commissioners of cus-
toms under the German reparations act,
of which £3,104,000 has been paid to
the exchequer on account of the
costs of the British army of occupa-
tion. The balance, £576,000, is in the
hands of the paymaster-general.

CEMENT ISSUE REVIVED

Dr. H. A. Stevenson Intro-
duces Measures Affecting
Motor Vehicle Traffic.

TORONTO, May 19.—W. E. Nickle,
K.C. (Conservative, Kingston) started
something in the Legislature this
afternoon which in itself established
a precedent, as Fridays are usually
quiet. Before the orders of the day
were called Mr. Nickle asked if the
government through the minister of
agriculture intended to correct the
false impression in England that
Canadian cattle were diseased.

This impression, according to the
member for Kingston, was increasing,
owing to propaganda in the British
Isles.

Hon. Thomas Crawford, following
Mr. Nickle, recalled the difficulties
he had encountered when in the cat-
tle shipping business. He was of the
opinion that Hon. Manning Doherty
had in his recent trip to England
accomplished nothing towards hav-
ing the embargo removed.

Embargo Has Benefits.

He had been politely told to mind
his own business. Mr. Crawford said
he was not opposed to the lifting of
the embargo by any means, but he
thought that Canadian farmers were
better, or as well off, without its re-
moval. Mr. Crawford argued that
three carcasses could be shipped and
landed in England as cheaply as one
live steer.

In addition to this, the offal of the
animal slaughtered in Canada
brought a good price as a by-product,
which furthered the value of the animal.
He was at a loss to know how
the authorities in Britain could lift
the embargo from Canadian cattle
when it was also imposed on other
nations.

He pointed out that the United
States, being on friendly terms with

England, would not be able to under-
stand the discrimination.

Now Before Commons.

"It is too bad to give the impres-
sion to the English public that we do
not want the embargo lifted," stated
Premier Drury in opening his re-
marks on the subject, "especially
now when it is before the House of
Commons at the present time."

The premier pointed out that the
cattle market to the south of Canada
was cut off, and that the Canadian
farmer had to have a market for his
cattle. He stated that agriculture in
Canada had been hit harder than
any industry in Canada during the
war, and that the farmer was oblig-
ed to take his losses.

"We do not intend to interfere with
the British markets," said the pre-
mier. "If the Canadian steer is kept
out to protect the British farmer,
all right; we would have no objec-
tion. Canadian cattle, however, are
being kept out because the people be-
lieve they are diseased."

"Cement King" Aids.

Hon. G. Howard Ferguson intimated
that there was more than the mere
removal of the embargo to
enter into the question. There was
also the matter of international etic-

Love, Liquor and Black-
hand Form Setting in
Killing Case

HAMILTON, May 19.—Love,
liquor and the black hand may all be
behind the mysterious murder of the Italian whose
body was found in Beverly
body supply a baffling number
of motives and clues. One let-
ter, from which all names have
been removed, was an impass-
ioned plea from the writer to
a girl not to become a nun.

Another set of papers ap-
parently are torn from a diary.
An interpreter says that the
writing is so blurred that he
cannot read it all, but he has
been able to find out that it
is about a secret society.

It mentions "gun," "dagger"
and "bottle of poison." It tells
of a brother of the writer who
is described as "recovering from
a quarrel in a hospital at
Palermo, Italy." Still another
lot of paper looks like a liquor
inventory. The victim has not
been identified.

England, would not be able to under-
stand the discrimination.

Now Before Commons.

"It is too bad to give the impres-
sion to the English public that we do

STOMACH IN SUCH A BAD CONDITION
SMELL OF COOKING MADE HIM SICKStomach Bloating With Gas, Chronic Constipation, Nervousness,
Headache, Weak Kidneys and Lack of Sleep
Made This Man Miserable.

"I Bless the Day I Bought My First Bottle of ANDES, For It Was
the Turning Point in My Health," He Says.

A great many people in Chattanooga
know Harry Dishorn, living on Mc-
Callie avenue. He is a brick con-
tractor, and is known as a very con-
servative man. His statement will be
of interest to many sufferers:
"I had been suffering for quite a
while with gas on my stomach, which
brought me up until I felt like I would
burst," said Mr. Dishorn. "My bowels
wouldn't move without I took very
strong medicine; my head ached like
it was going to split open; had back-
ache and was compelled to be getting
up all night long to relieve my kid-
neys. If I smelled food cooking, that
was a sufferer of stomach disorders.
My troubles undermined my nervous
system and felt at times that I just
wanted to be off by myself. The least

unusual noise, at night, and I would
jump out of bed.
"I felt tired from the time I got
up each morning until I went to bed
that night. I heard about the great
good ANDES was doing in Chattanooga,
so decided to try the medicine myself.
I thought it must be worth a trial.
"The purchase of that first bottle
certainly marked a turning point in
my health. For I have been like an-
other person. I never have sick stom-
ach; eat heartily; sleep fine; nerves
steady; bowels move regularly; I am
feeling fine. It's a great thing to get
a medicine that will do all this for
you. I am glad to recommend ANDES
to any sufferer of stomach disorders.
Sold in London by Strong's Drug
Store, the ANDES expert is here and
will be pleased to talk to you.—Adv.

THIS IS THE SALE YOU HAVE WAITED FOR... NEXT WEEK YOU CAN BUY

McClary's Electric Range

INSTALLED COMPLETE
FOR AS LOW AS \$15 DOWN

Cook it Electrically.

Make your choice without delay. All next
week expert lady demonstrators will operate
McClary Ranges in the Hydro Shop window,
Dundas and Wellington Streets, to show
you exactly what the model you select will
do in service in your own kitchen. Act
quickly.

If You Desire Your
Stove Will Be Installed
Within 24 Hours.
No Fuss or Litter

You could put in a hat all the chips and "clut-
ter" made by hydro experts in installing an
electric range.

The work does not interfere with your house
wiring system or necessitate any changes.

The stove service lines are quickly, neatly
installed; if you need it in a hurry you may
have your stove in operation within 24 hours.

To meet the big rush precipitated by the un-
usually attractive terms now offered hydro's
installation crews have been reinforced.

Come early, make your selection from the com-
plete line exhibited at the Hydro Shop, and be-
gin at once to enjoy the incomparable advan-
tages of McClary's Electric Range.

ASK TO SEE THE 4-BURNER, BIG CAPACITY, COMPACT SPACE SAVING, MODEL D.

TAKES ACTION TO TEST NEW LAW

Writ Issued Against Provincial Officials in Toronto Court.

Mr. Justice Middleton to Render Racetrack Tax Decision.

TORONTO, May 19.—As a result of the action taken this afternoon by the Ontario Jockey Club, in issuing a writ against Hon. Peter Smith, provincial treasurer, and Major Gen. W. A. S. Williams, provincial police commissioner, the whole question of the validity of Hon. W. E. Raney's new race-track betting law is thrown into the courts for settlement.

Under the law, which received royal assent yesterday, the jockey club is required to collect 5 per cent of the wagers at the Ontario tracks and pay the proceeds over to the provincial treasurer at the close of each day's racing under penalty of stoppage of further racing until the tax is paid. The jockey club seeks an injunction preventing the latter action, on the ground that the act is ultra vires, and states in its argument that it is willing to collect the tax and deposit the proceeds with trustees until such time as the validity of the act is decided.

Judgment on the application for

Girl "Sleuth," Who Had Sweethearts in Many Cities, Falls Into Police Net

DETROIT, May 18.—A sweetheart in every big Michigan city was the achievement, federal authorities say, of pretty Violet Stackhouse, 20, alias Jacqueline Rhodes of Mansfield, Ohio, arrested in a downtown hotel on a charge of impersonating an officer.

They add that she has confessed the impersonation, explaining she attempted, as "Jacqueline Rhodes of the secret service," to evade payment of a two weeks' hotel bill, while she sought a fictitious Chinese, "Wah Lo," a drug smuggler.

She said, they declare, she came to Detroit destitute after a quarrel with her husband in Mansfield, on

March 1, and, hearing another girl had evaded paying a hotel bill by posing as a federal officer, she imitated, officers say. Part of her plan, they add, was to send frequent letters to non-existent officials of the secret service in Washington, asking why her pay-checks were not forwarded. She hoped eventually to reach her home in Greensburg, Pa., she said.

Impassioned letters from youths in every large town in the state were found in her room, it is said. Federal authorities declare Mrs. Stackhouse is accomplished and clever, and a graduate of the Pennsylvania Normal School. She is held in the Women's Detention Home.

bill was allowed to stand over to have it reprinted with these amendments. The principal change was that affecting salaries, the following schedule being suggested as minimums: In cities of 80,000 or over, \$3,500 per annum; 40,000 to 80,000, \$3,000; 15,000 to 40,000, \$2,400; 8,000 to 15,000, \$1,500; 6,000 to 8,000, \$1,200, and 5,000 to 6,000, \$900.

Hamilton and Ottawa would be included in the first class, London in the second, Sault Ste. Marie, Brantford, Windsor, St. Catharines, Peterborough, Fort William and Kitchener in the third. According to the terms of amendments to the Ontario public service superannuation act of 1920, introduced today by Premier Drury, civil servants are to retire from the service at the age of 70. The premier explained that the amendments were recommended by the superannuation board, and the changes were chiefly of a minor nature.

2 MEN KILLED IN GAS EXPLOSION

CAMBRIDGE, Mass., May 19.—Two men were killed, one critically hurt and four less seriously injured in a gas explosion in the basement of the Jefferson Physical Laboratory at Harvard University this afternoon. The dead are: A. J. Dunbar of Cambridge, a fellow for research in cyrographic engineering, and William Connell of Cambridge, a carpenter employed in the building.

The largest spiders in the world are found in New Guinea, and their webs are so strong that they are used by the natives as fishing nets.

ADMITS SLAYING OF EMPLOYER

Frederick Baldwin of Fort William Accused by Coroner's Jury.

Recites Tales of Cold-Blooded Brutality to Police Officials.

FORT WILLIAM, Ont., May 19.—Frederick Baldwin, a farm laborer hired on the farm of Robert Molton, a Cloudy Bay settler, who shot and killed the latter in a deserted lane near his homestead on May 9, was tonight accused by a coroner's jury of wilful murder, after a voluntary statement made by Baldwin to Crown Attorney Langworthy had been submitted as evidence.

The statement was a cold-blooded recital of brutality, in which Baldwin related that he left the Molton farmhouse on May 9 at 2:30 o'clock in the afternoon with Molton's rifle for the express purpose of killing his employer. He had often thought of killing Molton because they did not get along well together.

Believing that Molton had gone to a neighbor's, Baldwin stated that he hid himself behind a pile of upturned stumps along the road leading to the farmhouse. When Molton appeared almost abreast of the hidden man Baldwin fired, the bullet striking Molton in the stomach.

The wounded man increased his pace. Baldwin fired a second time, the bullet again taking effect in Molton's stomach. Molton continued to stand, however, and Baldwin fired the third time, the bullet striking his employer in the head and killing him instantly.

Baldwin was arrested the following day, when he was seen attempting to hide an empty shell case in the earth.

LONDONER WINS PHARMACY MEDAL

Ewart C. Ralph Secures Prescription Award at Ontario College.

TORONTO, May 19.—Following are some of the results of the Ontario College of Pharmacy examinations:

The John Roberts scholarship — John Jackson, Gravenhurst.

The John Roberts medal—Robert Bruce Smith, Jarvis.

Pharmacy medal—William S. Lutton, Guelph.

Prescription medal — Ewart C. Ralph, London.

Biology chemistry medal—Norman M. Graham, Parkhill.

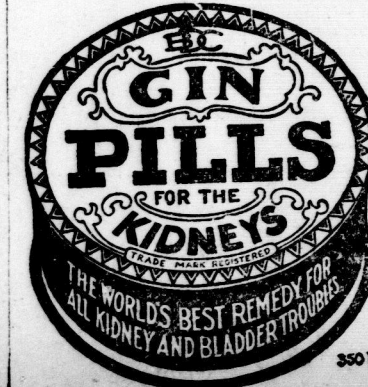

Honor List.

Passed with honors (in order of merit): Robert B. Smith, Jarvis; Gordon J. Wimbush, St. Thomas; Norman M. Graham, Parkhill; William S. Lutton, Guelph; Ewart C. Ralph, London; Baden P. Connor, London; Russell P. Sharp, Dunnville; Fred G. Armstrong, Paris; A. E. Brokenshire, London; John C. Maxwell, Wingham; Hugh McPhee, Parkhill; Wilfred M. Kenny, Chatham; James M. Wylie, Blenheim; Harold S. Boehmer, Kitchener; Warren E. Roberts, Kitchener; W. L. Magee, London; Wesley Hollingshead, Petrolia; Ardis Jean Kennedy, Sarnia; E. W. Brown, London; Jos. A. Tasby, Acton; Donald F. Kirkland, Dutton; Cyril Glennueh, Kingsville; Walter E. Weber, Kitchener; Frank P. White, Stratford; Edith P. Harrison, Dunnville; Charles L. Martin, Parkhill; Russell R. Cross, Port Colborne; Everil Webb, Hamilton; Fred H. Muir, Woodstock; William G. Hill, Port Rowan; W. H. Reid, Shelburne; W. S. Clark, Hamilton; W. D. Hamilton, Welland; T. J. Mulhall, Mount Forest; L. W. Peterson, Kingsville; S. M. Lapp, Hamilton; A. C. Wilson, Wexley; Glenn E. Eby, Kitchener; Fred C. Wood, London; W. T. Kerr, Fergus.

The pass list: Harold H. Boettner, Aylmer; Reg. A. Burke, Highgate; Robert A. Cottrill, Port Elgin; George I. Coulter, Chatham; M. E. Crosby, Highgate; Wallace C. Donaghy, Grand Valley; R. F. Goodbrand, Muirkirk; J. A. Greenberg, Windsor; M. A. Greig, Durham; L. M. Hard, St. Thomas; J. A. Heam, Guelph; J. L. James, St. Catharines; Fred O. Johnson, Wingham; Fred Keane, Bradford; R. J. Leach, Sarnia; Sister Madeleine, Hamilton; P. T. Moislely, Welland; Alice E. Moore, Niagara Falls; F. E. Pennybaker, Clinton; E. H. Rodger, Guelph; T. W. Thompson, Brantford; C. A. Turnbull, St. Thomas.

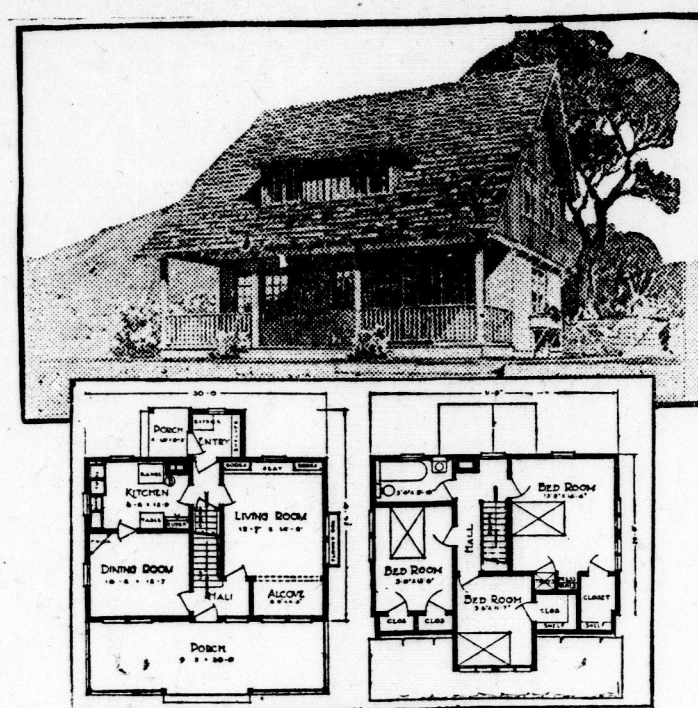

F. E. Weaver, Chatham, must take supplements in theoretical chemistry, theoretical pharmacy and materia medica.

ISSUES STORM WARNING. NEW YORK, May 19.—A southwest storm warning, Delaware Breakwater to Block Island, R. I., was issued today by the weather bureau. The storm, central over Southern Lake Huron, is of marked intensity, and will be attended by strong south and southwest winds.

LARGE CONTRACTING FIRM OPENS OFFICES IN LONDON

John V. Gray Construction Company Offers Increased Facilities To Western Ontario Clients.

In order to serve its Western Ontario clientele, the John V. Gray Construction Company, which has been engaged in general contracting in Ontario for a number of years, has opened an office in London. For years offices have been in operation at Windsor and at Toronto.

This firm, which is favorably known throughout the entire province has executed some of the largest industrial construction work in Ontario, particularly in Windsor, Toronto, and in the vicinity of those cities.

The belief that the wave of depression has almost passed, and that London and district will be the center of much big construction work in the near future, caused the members of the firm to open an office in London.

Windsor Court Lasts But Ninety Seconds.

WINDSOR, May 19.—Windsor's police court today was the shortest court officials can remember.

Judge Gundy sat on the bench exactly 90 seconds.

Only two cases were called. One girl was remanded on a vagrancy charge, and another prisoner pleaded guilty and was remanded on a vagrancy charge. There were no arrests made by the Windsor police during the night.

CONDEMNNS RACE TRACK GAMBLING

Methodist Clergy of Windsor District Meet at Leamington.

WINDSOR, May 19.—Strong condemnation of race meets and of gambling on race tracks was launched at the meeting of the Windsor district of the Methodist Church held in Leamington, attended by clergy and lay delegates from all parts of the district. The following resolution was passed by the delegates present:

"We, the members of the Windsor district, assembled in Leamington, desire to express our condemnation of the pernicious influence of race meets in our district and throughout our province, and we desire to warn the people against the demoralizing effect of race track gambling, and to urge their earnest co-operation with every force which aims to destroy this evil, which is a menace to the citizenship of our fair province.

"We desire to commend Attorney-General Raney for his strenuous and persistent efforts to offset these evils."

It was also resolved that the district petition the Dominion government to pass a law forbidding race track gambling.

Commendation of the Ontario temperance act was also voiced in the following resolution:

"That this annual meeting of the Windsor district place itself on record as being in the heartiest sympathy with the O. T. A. We greatly rejoice over the glorious results, which are evident to all. We also desire to strongly commend Hon. Mr. Raney and his department for the earnest and effective way they have endeavored to enforce the act. At the same time we deplore the attitude of those who have done their utmost to disparage and make the act abortive.

"We approve the introduction in the Legislature by Mr. Raney of two bills which will remedy certain difficulties which have been made manifest, and which we believe will make the act prove more effective."

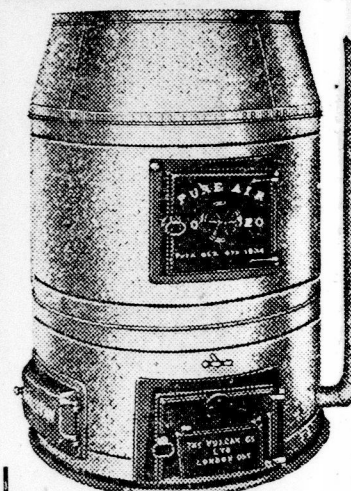

RELEASE BRENNER FROM JAIL FARM

TORONTO, May 19.—Nathan Brenner, who, on March 2, was sentenced to two years, less one day, on four charges in connection with N. Brenner & Co., Limited, will be released today from the jail farm, according to a local afternoon paper. Brenner has been in poor health for some time.

Frost Woven Lawn Fence

Maintains Its Artistic Appearance Years Longer

The artistic appearance of Frost Fence lasts. The value and saleability of your property is enhanced—not for a time—but for many years.

Frost Fence defies rust for more years because Frost wire is extra heavily galvanized—defying rust better than paint on a cheap woven fence.

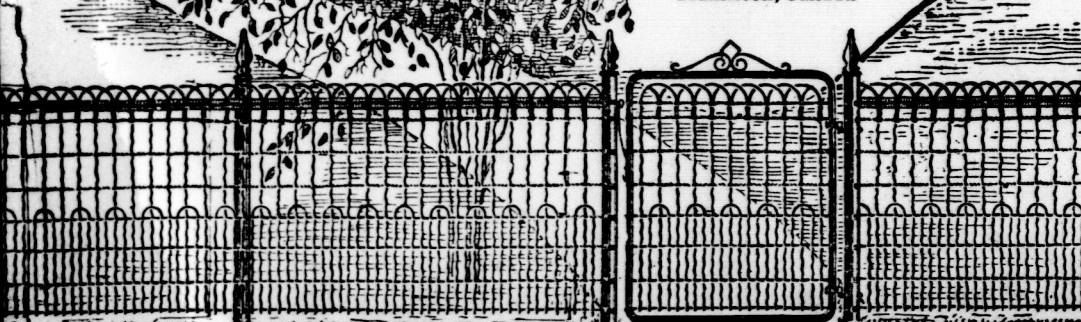

Frost Woven Lawn Fence is made entirely in our own factory—use control the quality. You get unequalled value and service.

Ask your dealer all about style "S" fence illustrated here—mesh 1 1/2 inches (2 1/2 inches top), cable twist horizontal; U-bar iron line posts and rails.

Frost Lawn Fence is woven with the accuracy assured by the most modern machinery. It costs least time and money to erect, because every space is even, every joint firm. In spite of its superior design and lasting quality it costs practically the same as commonplace woven wire fence.

If you do not know a Frost dealer nearby, write us direct for full particulars and prices.

Frost Dealers are carrying well assorted stocks—No delay in filling your order.

The Boys Own London Tiger

A Paper By Boys For Boys.

SATURDAY, MAY 20.

V. 1. No. 13.

HOW THE BOYS OF INDIA SPEND AN AVERAGE DAY

Many Things They Make Themselves, and Their Games Are Few and Simple.

The Indian boys rise up very early in the mornings. Usually the time at which they rise is between half past five and six. The first thing that the Christian boys do before getting out of their beds is to kneel on the bed and pray to God for guidance. Then they get up, roll the bed and keep it in its proper place, usually in the corner of a room.

The next thing they do is to clean their teeth and bathe. They usually use no brush. The brush is used only by wealthy people. The brush the most of them use is the twigs of the banyan tree. They cut them into bits of six inches each and tap one end of the stick with a stone until it looks like a painting brush, then they use charcoal powder or ash and clean the teeth. They have a permanent string around their waist; some are of silver and some of gold. Usually all the Indians have this around their waist, then they take a long strip of cloth about two feet long and about nine inches in breadth and tie this to the string. This cloth is called in tamil "the Komanam."

Next comes breakfast. This is usually called in tamil "the kangai." It is nothing but rice. The rice is usually prepared the night before, and water is added to this so as to prevent it from being spoiled. In the morning, about 7 o'clock, they take this rice with pickles. They usually spread a mat on the ground and sit down. Then their mothers give them each a leaf, usually a plantain leaf, sometimes a leaf made out of many banyan leaves. Rice is put on this leaf and they eat it with their hands. They generally do not use spoons.

Breakfast being finished, they dress to get ready for school. They comb their hair, using coconut or Ginkgo oils and tie a clean cloth around their waist. Then they put on a shirt and a small piece of cloth over the shirt; some use coats also.

Their classes usually begin at 10 in the morning and last till 1 in the afternoon, then they have a leisure of one hour. From 2, the class lasts until 4 in the afternoon. They generally start from their homes an hour before the beginning of the class and go to the school to play for a short time, then go into the class as soon as the bell rings.

They have to be in class as soon as the bell rings, otherwise they will feel the weight of the master's cane on their backs and hands. Usually they wait anxiously for the 1 o'clock bell, because they get very hungry during school hours. As soon as that bell rings all rush to their homes, except those who come to the school from distant places. They bring their food with them in the morning.

At 1 o'clock their food is hot rice and karri. They then go back to school until 4 o'clock and then home for tea. They have their tea in vessels made of brass or aluminum, which are very handy. After tea comes the play hour, the typical games being marbles, tops, kites, wrestling and boxing. They play a game called "gilli thandi," which is played with sticks. There are two parties and they take two sticks, one about a foot and a half long and another about nine inches long, whose ends are pointing. One party is to throw the small stick called "gilli," while the other party is to hit it with the big stick, "thandi." Then the party that sends the gilli the greatest distance is supposed to win.

The game "balchaplan" is played thus: There are two parties containing the same number on either side and a big line is drawn. The line is about 9 to 10 feet long. The two parties stand on either side of the line and a man from one party should go to the other side saying something or singing something, but he should not breathe while singing. He should try to touch any man of that side before he returns to his side when he breathes. The other party also do the same. The party that lasts the longest is the victorious one. Those who are touched by the singer are disqualified.

These games usually last till about half past six in the evening and then they go home and take their bath, then sit down to study their lessons. At half past seven or eight they have their evening meal. After supper they study for a while and then spread their mats and pray again to God, before going to sleep.

Phil Burton (at Wong's)—Waiter, here's half a dollar for you.

Waiter—Thank you, sir. Were you wishing to reserve a table?

Our Phil—Heavens, no! In a few minutes I will return with two ladies and I want you to tell me the tables are reserved.

GETTING READY FOR CAMP AT FISHER'S GLEN AGAIN

Boys, 12 to 15, To Spend Two Weeks There Some Time in July.

Hurrah for camp! What are you going to do this summer?—a general question which boys are asking one another these days. Some of us want to go out on farms. Many of us want jobs, but we cannot seem to find any, therefore, let us go to camp.

The Y. M. C. A. is running its annual camp for junior boys, 12 to 15 years of age, at Fisher's Glen, on Lake Erie. We sure did have a good time last year, even though the big fellows made us stand around, but this year, we understand that the big fellows have to go to the first camp and cannot get in on ours.

We want more London boys to go with us this year because we believe that it is the biggest character developing that a boy can get. Wilf Spearman and several men are going with us as leaders, and we hope to sign up 100 boys this summer.

London won the camp athletics last year, because we had such fellows as George Wright, Jack Pritchett, Cameron Wilson and others. We want to clean up again this year on Hamilton, Galt, Brantford, Woodstock and other towns.

"OH FOR THE JOYS OF A RUNNING STREAM!"

Our Y. M. C. A. has a sign up to the effect that no member of the boys' division should be unable to swim. Arthur Murphy, an expert swimmer and medalist, has been giving splendid help to the staff in teaching about thirty boys to swim.

The summer memberships are starting this week to encourage another 150 boys to learn how to swim before the opportunity comes for them to swim in the river or in any of the lakes.

"I am one of the boys who learned to swim in the Y. M. C. A. and because of my experiences I would like to see 100 other boys in London taught to swim under expert leadership," states one fellow.

MEETING OF DE LA SALLE LITERARY SOCIETY

The De La Salle Literary Society held its regular meeting on Wednesday, May 10. The recording secretary was absent, so the president called upon Stanley Nolan to read the roll-call, which was well responded to. The minutes of the last meeting were read by the secretary and adopted on the motion of Stan. Nolan and seconded by T. Burke. Readings were given by each of the members. The editor read the weekly school room paper, which was appreciated by all the members. The meeting was adjourned on motion of A. Roney and seconded by F. Rankin.

GREAT TIME TO GET AFTER NATURAL SCIENCE BADGES, SAYS PROVINCIAL CHIEF

Mr. Plewman Advises C. S. E. T. To "Get After" Outdoor Test Badges.

Charles Plewman, our provincial chief, states that in Ontario there are 1,017 registered groups taking up Trail Rangers and Tuxis program in 253 different centers in Ontario.

The work is growing more popular every day because of the fact that the program ties the boys up into the natural gang known as their Sunday school classes, meeting on Sunday and then in mid-week.

The local board is desirous of seeing every Protestant Sunday school in London in C. S. E. T. work. Enthusiasm is necessary to keep our work up for the summer months. Some church groups have notified us that they are not going to carry on any further work until fall, which we consider to be a bad mistake. We challenge all the groups to get busy and organize, taking the boys out of doors. Some groups are planning to hold a week-end camp for June 3.

Charles Plewman says that this is the time to make it possible for boys to qualify for badges on such subjects as astronomy, bird life, wild flowers, swimming, life-saving, camp craft and teen games. We are convinced that badge winning develops initiative, creates resourcefulness and helps to produce the type of virile manhood that knows the how of things. Therefore, please take hold of your manual, talk over badges with your boys. Decide on winning a couple and then go after them.

COMEX BOYS PROVE THEMSELVES LIVE WIRES

Excell in All Branches of the C. S. E. T.

In the second year of its existence the Comex Tuxis group of Colborne Street Methodist Church has established itself as one of the leading C. S. E. T. groups in the city of London. Not only in the physical program has the group been successful, but it has also done much in the religious, educational and social programs.

Our latest victory was the election of Harley Wilson for controller in the new Boys' Council. Harley headed the polls, which speaks well for his popularity and ability. This makes the second year that the Comex group has had one of their boys on the Boys' Council, as Roy Allen is on the retiring council.

Last Sunday evening the boys of the church had complete control of the evening service. The Comex group took no small part in the proceedings, for Harley Wilson and Roy Lockery did most of the preaching. Harley spoke on "What the Church Owes to the Boy," and Roy on "What the Boy Owes to the Church." These addresses were splendid, and were given to a packed church.

The Comex basketball team finished second in Group A, losing only one game and that to the Pirates. This defeat was no disgrace, however, as the Pirates were a much heavier and older team. As no player on our team is over 16, we expect to again be a strong contender for the championship next year. A team has also been entered in the baseball league, which is going to be hard to beat.

Much of the success of the group has been due to the untiring efforts of our mentor, Mr. Thompson, manager of the Neal Baking Co., although every boy certainly did his part.

NEW CITY COUNCIL MEETS AT "Y"

Many Important Problems Solved — Tennis League Will Be Formed.

The meeting of the Boys' Council was opened by His Worship the Mayor, who took the chair. Two important matters were discussed—the starting up of an anti-cigarette campaign among boys in the fall, and also to start a tennis league for the C. S. E. T. boys of the city. It is to be run off like other leagues—Trail Rangers, Intermediate and Tuxis. The Boys' Council asks the boys who are going to compete (two to each section) to get practiced up for the fall. The council talked on the possibility of having a week-end camp for all the Tuxis councillors of the city, July 1 and 2.

SCOUTS LATTER DAY SAINTS HAVE CHURCH PARADE

Elder Osler Speaks of Three Stages of Boyhood.

The Boy Scout Troop, No. 29, of the Reorganized Church of Latter Day Saints on Maitland street, paraded last Sunday night, May 7, from Queen's Park to the church, and listened to a splendid address given by Elder William Osler. The troop was in charge of Scoutmaster A. Blanchard, Assistant Scoutmaster L. Rankin, Instructor Wm. Alford and Chaplain Frank Gray.

The speaker described the three stages of boyhood from the age of 5 to 11 years, 11 to 16, and from 16 to 21. He stated that during these three periods the molding of the future men of the nation depended. The school age of the boy should be watched carefully, he stated, as this was the time when the boy must be made self-reliant and commence to build himself, both physically and mentally. This was one of the ideas in forming the Boy Scout troop so that the men in charge could aid in directing the boys in better channels.

This troop is progressing rapidly. Almost all of the scouts have their uniforms, and the troop was in both parades last Saturday, and a week ago, Monday, May 1.

Jack Johnston—Hey, Check, what is efficiency?

C. William Kay—Efficiency is the art of spending nine-tenths of your time in making out reports for someone else to read, which they never do.

This Sounds Like Alex. Beemer. She—What were you doing after the accident?

He—Oh, merely scraping up an acquaintance.

—Cornell (Univ.) Widow.

BOY SCOUT TROOPS BEING FORMED AT ST. PETER'S

St. Martin's and St. Michael's Churches—Great Interest Evincing by R. C. Churches.

Boy Scout troops are being formed at St. Peter's, St. Martin's and St. Michael's Churches.

On Friday the 3rd. London troop held their usual meeting. The troop went out on a short hike; half the troop were sent back to guard headquarters, the remaining half of the troop were told to try to get back to headquarters without being caught by the advance. Only one man, Patrol Leader Paice, was the first scout to get through the lines undetected. When the troop was all in again four new members were sworn in and presented with their tenderfoot badge. Several other scouts passed their tests for second class.

THIRTY BOYS TO REPRESENT LONDON AT FISHER'S GLEN

Only Eighty at Present Registered for This Summer Camp.

Leadership training camp for Western Ontario will be held at Fisher's Glen this year from July 3 to 15. This will be the biggest leadership training camp for church workers and the Y. M. C. A. held in Canada. There are seven others in the Dominion.

The camp is being financed by the Y. M. C. A., and promoted by the Ontario Boys' Work Board, representing all Protestant denominations, and the Y. M. C. A.

London has signed up eight already and expects to take at least thirty.

HIKERS AND CAMERA CLUB ORGANIZED FOR LOCAL BOYS

Learn To "Shoot" Birds, Etc., Without Harming Them.

At 11:15 this morning in the Y. M. C. A. the Hikers and Camera Club was formed, for all boys 12 years of age and up. The purpose of this club is to take all boys, Trail Ranger age, 12-15, who love hiking and who have cameras, to some of London's beauty spots. Prizes will be offered for the best pictures taken and instruction will be given on camera work, how to take good pictures, how to develop and print them. This is a splendid opportunity for all the "Y" and C. S. E. T. boys in the city to learn more about nature, to learn how to creep up on the birds and take photographs of the wild birds of our neighborhood.

All the boys interested who were not out this morning should get into touch with Mr. Wilfred Spearman of the Y. M. C. A.

H. COLERIDGE THREATENS JACK WHITE'S LEAD

Beavers' Stalwart Should Surpass White and Jack Gordon.

Some of the boys of this group are still going strong in the winning of badges. Hollis Coleridge, for example, who is the son of the ex-chairman of the board of education, has won 22 badges and will soon have eclipsed Jack White, Jack Gordon and Millard Grant, who held city records.

Mr. W. Spearman is the mentor of this group and knowing the value of badge winning, is very anxious to keep all the boys at it during the summer months.

An Invitation

The Y. M. C. A. boys' division invites all boys of London, ages 11 to 14, to their weekly hike next week, May 27, whether members of the association or not, leaving the Y. M. C. A. at 2:15 for the country—every boy to bring a lunch—swimming, baseball, races, camp craft and treasure hunt, will be the program. Everyone must come on foot, bringing carfare to come home with. The treasure hunts will be, one for Y. M. C. A. members and the other for all boys who are not members.

For those who are not members the treasure sought for will be a twelve months' membership to the association free, another of eight months free, and another one of six months free.

Efficiently trained leaders will go with the boys and handle them in their swimming, etc. We are expecting a big gang out.

SAY IT WITH FLOWERS.

While we were walking down Dundas street the other night looking in the windows we saw four stores in two blocks with the above sign on display. Now, taking them literally, the meaning is evident, but there is also a wealth of good things which the meaning, figuratively, can imply. Flowers are nature's implement in expressing sentiment. We send flowers to a funeral to express our sympathy with the relatives of the deceased. But we do not send a bouquet to the bride for the same purpose, but rather for the opposite.

However, what of the human flowers, your mothers, and—ere—the other fellow's sister, they are flowers to a fellow. He may be feeling "blue," he will then in all probability go and see his "girl." Why? Because she will in all likelihood drive the weary feeling away from him. If he is in trouble he will go to his mother; not because she will tell him to forget his trouble, but because she will help him fight himself. Truly great things, flowers figuratively, if not literally.

MADE IN CANADA.

No, Archibald, we do not belong to the Canadian Manufacturers' Association, but we do belong to that vast mass of humans known to the world as the Canadian nation. While reading in the Literary Digest the other day we were astounded to read that "American Capital Was Buying Canada!" "Foolish," you may say. But "put your eye to the horizon," and read what is written there in letters as large as some of our heads are at the present time.

The department of trade and commerce have recently issued the following statement:

That 34 per cent of the capital of Canadian manufacturing firms is owned by citizens of the United States; 56 per cent by Canadians; 9 per cent by residents of the British Isles, and 1 per cent by people of other countries.

Astounding and fearful, we term it, and as the organ of thousands of Canada's youths, we protest. Why? Because when even the government of the country "beats it," hot foot to the United States to float a perfectly good issue of Canadian railway bonds in the United States, can you blame the private citizen?

The government floated a loan of \$10,000,000 in New York recently, which the "bulls and bears" of Wall Street, gobbled up with gusto. A few years ago if we needed money we went to London. Why can't we still go there? They need us and we need them. If we have to be economically dependent on any nation why not Great Britain? Once again, we protest this selling of our birthright for a mess of pottage.

A correspondent writes in, wondering why last week's issue of the Boys' Own Tiser was titled our twelfth, rather than thirteenth, issue. No. We are not in the least superstitious. As a matter of fact our birthday is on the thirteenth of a certain month, and, therefore, we are assured that the thirteenth is a lucky number for the Dominion.

We wonder if the boys of London are taking in the present controversy in England about training performing animals. If things can be proved that are charged, no self-respecting person should sit in a theatre that shows a trained animal act. We for one would be willing to join that organization which pledges its members to walk out of a show which shows acts of this kind.

Sir Arthur Conan Doyle is disgusted with the manner Canadians treat spiritualism. Fine! Canadians apparently are good enough Christians that they do not need a sign to prove immortality, they believe, as the beautiful hymn puts it:

"I know that my Redeemer liveth,
and because He lives,
I too, I too shall live."

A Fine Motto: Hit where you aim. This is the motto of the Winchester Junior Rifle Association. We are informed on excellent authority that they live this way, as well as shoot in this manner.

Is This One on Allan Kay?

City Visitor—I am out here, you know, to get local color for a little local color in a pastoral poem I am writing.

Farmer ? ? ?—I reckon your getting it then. I painted that settler your sitting on only this morning.

—Boston Transcript.

BRAVE AHMEEKS HUMBLLED BY BLOODTHIRSTY PIRATES

McVicar, Captain of Piratical Craft, Holds Knox Sluggers at Bay.

The intermediate series of the C. S. E. T. Baseball League was opened last night, when the Knox Church Ahmeeks and the New St. James Pirates clashed on the Springbank diamond. The teams were rather late in starting, and before the end of the game darkness had settled over the park. So dark was it that neither the players nor the umpire could see the ball.

The Ahmeeks expected victory, as they have been defeating some of the best amateur teams in the city, and were ready to bet even their lighter summer apparel on the result of the game. It is rumored that one of the Ahmeek braves has done this, as he has not been seen since the game, and one of the buccaneer crew has been wearing a watermelon smile. McVicar, for the Pirates, was good at all times, and especially in the pinches. One inning, with two on bases and only one out, the Ahmeeks were almost sure of scoring. McVicar, however, settled down, and struck out the next two men, thus retiring the side.

On one occasion McVicar, the Pirate twirler, heaved a fast one at the Ahmeek's slugger, who took a crack at it, which, if he had hit it, would most likely have landed the ball near the river, but he missed it, and the next moment the "ump" was heard to yell "ball two." The game lasted till the seventh inning, when the score was 4-4, and the teams decided to call it off and finish it at a later date.

The Pirates scored three of their four runs in the second inning, when with two men on bases, Burton knocked a three-bagger to right field, bringing in the two runners, and then he himself stole home. They succeeded in bringing in another in the fifth, which made up the four. The Ahmeeks were at their best, and although Blackwell in the box was a little wild at first, he soon settled down and pitched a good game until the fifth inning, when he was replaced by "Lefty" Russel. The Ahmeeks scored their first runs in the third, when Warner and Russel tried to murder the ball for a home run, but only got it as far as second. Another runner crossed the plate in the fifth, making the score 3-3, but the Pirates knocked out another in the last of the inning, and made it 4-3. By this time it was beginning to grow dark, but the Ahmeeks were sure that they could either beat the Pirates, or at least tie the score if given two more innings, so with the permission of the umpire the game continued, although the sun had long before gone to rest. In the seventh the Ahmeeks were successful in getting another run across the plate, tying the score again. Although the Pirates tried their best to break the tie in the last half, they were retired in one, two and three order. When the pitcher threw the ball, the only way the batter knew that it had crossed the plate was by the plug as it dropped into the catcher's mitt.

The line-up was as follows:

Pirates.	Ahmeeks.
Williamson, ss.	Warner, ss.
Adams, 1st.	McCullough, cf.
Upthegrove, 3rd.	Russel, 1st.
W. Chalcraft, 2nd.	Rose, 2nd.
Walker, lf.	McClurg, lf.
McVicar, p.	Ferguson, rf.
B. Chalcraft, cf.	Stewart, c.
Barbour, c.	Blackwell, p.
Burton, rf.	Daly, 3rd.

The score:

Ahmeeks....	002	010	1—1
Pirates....	030	010	0—4

DE LA SALLE FIELD DAY SUCCESS AT SPRINGBANK

McDougall Wins School Championship.

On Monday last De La Salle School held its field day at Springbank. The school went down in a body at 1 p.m.. The day started off with a ball game between Grade VI. vs. Grade VII. at one diamond and Grade VIII. vs. First Year High at the other. The winning teams were Grade VII. and First Year High. Each of these teams get a catcher's mitt for coming out on the top. This is the second time First Year High defeated Grade VIII. this year. The 100-yard dash then took place. The winners are: 12 years and under, James Wilkinson, first; Joe Darcy, second. 14 years and under, Ignatius McDougall, first; Jack Cook, second. 16 years and under, Wm. O'Brien, first; Joe Ryan, second. The standing broad jump, which came next, resulted as follows: 12 years and under, A. Gillies, J. Phelan and W. Fox. 14 and under, McDougall, Fitzgerald. 16 and under, W. Nolan, J. Knuckle.

Sound Sense—War will be doomed when nations come to understand that there is no profit in licking a good customer.—Brockville, Ont., Recorder and Times.

Y. M. C. A. ANNOUNCE SWIMMING PROGRAM

Many Successful Candidates For Aquatic Honors.

During the summer months, commencing Monday, May 22, the special swimming schedule will be in force as follows:

Preps.—Wednesday, 4-5 p.m. Saturday, 9-10 a.m.
Junior School—Monday, 4-5 p.m. Wednesday, 4-5 p.m. Saturday, 10-11-11.45 a.m.

Senior School—Tuesday, 7-8 p.m. Thursday, 7-8 p.m. Saturday, 7-8 p.m. Junior Business—Monday, 7-8 p.m. Wednesday, 7-8 p.m. Friday, 7-8 p.m.

Senior Business—Tuesday, 7-8 p.m. Thursday, 7-8 p.m. Saturday, 7-8 p.m.

Swimming competitions will be held during the summer, when members will have an opportunity of qualifying for a swimming button. Following members have already been awarded their swimmer's button, to win which they are called upon to swim 50 yards, any stroke, dive properly from side of pool, and swim 50 yards on their back: Gar Elson, Ed Atkins, Willard Gray, Charles Talbot, Gordon Webb, Thomas Chittim, Art Carey, Ken McFarland, Willie Hart, George Tambling, Warren Brown, Jack Manuel, D. Manuel, Mat Brown, Allan Tagg, Clarence Boxall, Victor Walker, Lorne Fitzgerald, Jack Pritchett, Gordon Smith, Millard Grant, Howard Pollack.

For rates for special summer membership, from May 15 to Sept. 15, with three swimming periods a week and outdoor hikes, see our ad. in this paper.

COMEX WHITEWASH KNOLLWOOD PARK AND OPPOSING PITCHER TO THE SHOWERS

Cam Brown Effective For Winners When Necessary.

The Comex baseball team out-classed Knollwood Park in a scheduled C. S. E. T. game at Springbank Wednesday night by a score of 13-2. The regular pitcher of Knollwood Park did not arrive until the second inning, and in the meantime seven runs were collected off the delivery of Blisset. Harrison, however, proved to be a much better hurler, although he received poor support from his team mates. Cam Brown, the Comex slab artist, toiled successfully through the whole game and was favored with good support.

Every member of the Comex team secured at least one hit, while Ken Murray and Roy Allin had a perfect day at bat. C. Henderson and H. Ashton also swatted the ball hard.

The Comex team also played a tie game with Maitland Street. Walter Logan in the box, and Buck Thompson as the opposing pitcher. The score was 5-5.

CUBS DROP ONE TO STARS.

The Stars defeated the Cubs by the score of 3 to 2 in a five-inning game on Thursday, the 11th. The game was close, as the score indicates, and also fast, but was called on account of darkness, as the teams did not get off to an early start. Both moundsmen pitched well, but the Stars were always in the lead. Lewis, the Star pitcher, hurled a nice game, allowing 7 hits, and struck out 3; while Forbes, for the losers, was hit frequently, but struck out 5. Ward's catch of a hot liner at third featured, while the base-stealing of John Donohue was perfect. Both catchers did well, but were lost when it came to catching pop-fies. Ross Willis was on the job to umpire as usual, and was called upon to make some close decisions. Batteries—Stars, Lewis and Hodgison; Cubs, Forbes and Thompson.

RELIABLES WIN SOFT-BALL CHAMPIONSHIP OF CITY

The Reliables (Trail Rangers) of the Wellington Street Methodist Church, were the successful team in winning the pennant for the Indoor Baseball League. The games were played and won in true sportsmanlike fashion. The battery was Jack Mitchell, pitcher, and Kenneth Smith, catcher.

VICTOR WONG FOURTH IN BOYS' HEXATHLON CONTEST

London Boys Make Good Showing.

The 1922 contest, as in previous years, was held during the last two weeks of March, and was a genuine success. One hundred and thirty-nine associations, representing 23,720 boys, competed.

The association winners for 1922: Class A—Lincoln, Nebraska, 25,401 points. Class B—Charlotte, N.C., 14,601 points. Class C—Athens, Ga., 9,667 points.

London, in the Class A competition, with 250 entries, secured 15,872 points.

In the individual scores for Canada, Victor Wong stands fourth in the 80-pound class, with 527 points.

In the 90-pound class, Gordon Smith is sixth, with 462 points.

In the 110-pound class, Burton White is sixth with 511 points.

In the 125-pound class, Ernest Johnston is tenth with 377 points.

In the unlimited class George Wright is sixth with 475 points.

It is interesting to note that the time made in 1917 for the four-potato race, of 17 seconds, by Gilmour of London, still stands as a record in the 95-pound class. In the 125-pound class, a record was established of 8 seconds, in the two-potato race, by Burgess and Bryant of London. This record has yet to be beaten.

West End Branch, Toronto, had the largest number of entries in the 1922 contest, namely, 725. This is a splendid record, and is worthy of special mention.

It is significant to note that a larger number of boys competed in the Boys' Hexathlon contest than in any indoor athletic meet ever held of which we have any knowledge.

WINGFOOTS WIN LEAGUE OPENER

Senecas Give Good Game Till The Unlucky Fourth.

The Wingfoot nine gave the Senecas a good beating in the opening game of the C. S. E. T. baseball schedule. For the first three or four innings it looked as though it might be a very close game, but the Seneca pitcher grew wild and a great number of long hits resulted. In this inning the Wingfoots secured seven runs before retiring. After the fourth inning, when the score was 4-4, the Senecas did not score again due to R. Roughley's excellent work on the mound. Though the whole Wingfoot team was hitting very well, W. Gidley and B. Knapp were the stars, getting a number of two and three-baggers, and at the same time bringing in a number of runs. The game ended 15-4 in favor of Wingfoots. Batteries—Senecas, W. Lowry and M. George; Wingfoots, R. Roughley and W. Gray. Wilfred Spierman handled the game.

TYCOONS WIN ANOTHER

On Saturday last a hot game of ball was staged between the Orioles and Tycoons, with the score resulting 9-5. T. Dromgole of the Tycoons made two exciting catches off third. The game was loosely played, with the Tycoons getting six runs in the first inning. The game took place at Union Hill. The batteries were: Orioles—Overton, Foxworthy and Phelan, Burke. Tycoons—O'Donnell and Cook.

HAWKS OPEN SEASON RIDOUT ST. WINS, 7-4

At the weekly meeting of the Askin Hawks on Wednesday, May 10, C. Bradshaw was elected manager of the Hawks baseball team. Ralph Baker was elected captain. The team played their first game on Wednesday, May 17. The game was called off in the fourth inning. The score stood: Ridout Street 7, Hawks 4. It will be played off at a future date.

LONDON WEST DEFEATS EMPRESS AVENUE.

The London West baseball team defeated the Empress Avenue team last Monday night. The London West fan-ettes were out in force, and did their share in the yelling and rooting. Homer Haselgrove starred both on the mound and at bat for the winners. Goodwin, in the box, put up a good fight for the losers. The game ended with a score of 7 to 4.

LONG TRIPS BY AUTO BECOMING MORE POPULAR

Many Tourists Make Inquiries Concerning Trans-Continental Roads.

MOTOR CLUBS ASSIST

Extensive Journeys Are Most Enjoyable Feature of Car Ownership.

BY J. L. MIDDLETON.

According to Secretary Bernard of the London Motor Club, a greatly increased number of motorists will go touring this summer. Car owners in various parts of the province and the United States have written regarding the best routes from one town to another, and inquiries have also reached The Advertiser office for the best cross continent route, while from other sources comes the news of a number of projected tours.

Without a doubt touring is the final test of the owner's ability to operate and care for his car and forms the most enjoyable feature of car ownership. Too many London motorists are content to limit their trips to short runs in the neighborhood of the city, and if covering fifty miles in one day consider they have motored a long distance.

The motor tourist, however, who goes in for the larger tour is the only one that realizes the perfect enjoyment to be derived from a continual change of scenery and a widening knowledge of the country, brought about by his seeking of the highways and byways.

Years ago touring was a matter for considerable thought and preparation, and meant the laying out in advance of the route to be covered, arrangements for night stops, inquiries as to the obtaining of gasoline and oil supplies, etc., but with the modern automobile, garages, supply men and gasoline stations in every small town this feature of touring has become a thing of the past.

The London Motor Club and clubs all over Canada have prepared for their members, in co-operation with the Ontario Motor League and other organizations, road guides, indicating the best roads for travel from

point to point, and have further improved matters as far as the main roads are concerned by placing directional signs at every turn, leaving it only for the motorist to select his route and then follow the signs until he gets there.

Real enjoyment for the seasoned tourist comes from the leaving of the beaten track and the exploration of the byways, resulting in many cases in the finding of beauty spots that will repay breaking away from the main routes.

A good touring radius for the weekend over Saturday and Sunday would be 300 miles, and many such trips can be easily arranged in the shape of a circular tour, so that the same road is not covered twice on the trip. Space will not permit our giving detailed information as to these tours but Secretary Bernard, of the London Motor Club, will furnish any member of the local club or members of other automobile clubs with road guides free of charge which will show just where and how such trips can be planned, and the various routes that will connect it into one harmonious whole. It may be well to state that this touring information is only available to members of the local club in good standing and to motorists belonging to other clubs on a similar basis.

While speaking of touring and the automobile in general it is positively astonishing to find that there are so many really good cars that comparatively few people know anything about. It is amazing to the writer how few cars the average citizen has ever ridden in or driven. It is deplorable how much of his information about cars he has never owned is hearsay, and how much that he says about those he has owned is prejudiced by ignorance concerning the ways of the industry as a whole.

Among London dealers there is a determination to make their products known, cost what it may. Theirs are the products about which the man in the street considers himself informed, because he hears them mentioned every day, sees them often, and because he has ridden in them.

There may be better cars and better values. But if they are not widely known, locally, if no one who is well known stands sponsor for them, why should the buyer risk his money in buying them?

Now that the season of touring, rice, confetti, congratulations, and wedding bells is at hand it should be the aim of every London dealer to let the prospective car owner know what he has to sell, and on the other hand the prospective motorist should make it his duty to look over all the fine offerings in automobiles in the salesrooms of local dealers.

"DIVINING ROD" FINDS AUTO NOISES

USE the divining rod method to locate a knock or other foreign noise in your engine.

It's the way automobile motors are tested in the factories before they are passed on for shipment. The divining rod used is none other than the gear-shifting lever. By its use inspectors can tell whether a new motor is out of perfect tune. It carries the sounds of all parts of the engine to the inspector's ear, and if there is anything wrong in its operation the inspector knows it.

Trained Ear.

In a room full of running motors, an inspector can detect any unusual sound in a single engine by putting his ear to the tip of the gear-shifting lever. That's because he knows the note of a perfect motor.

Besides, each particular kind of unusual sound will tell the inspector exactly where it comes from. His ears are trained to distinguish such sounds and locate them.

But for those whose ears aren't as keen as the motor inspector's, there is another kind of divining rod. It is a piece of a broomstick or other wood. Or it may be a long screw-driver.

With this simple divining rod foreign noises can be detected not only in the engine, but in any other moving part of the automobile. The method of application is simple.

Simple Use.

Place one end of the rod against the part which is suspected of making the unusual noise. Then put the free end in the crook of the

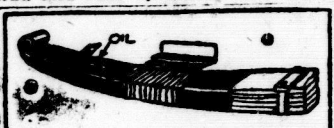

FINDING A KNOCK BY THE "DIVINING ROD" METHOD.

thumb and the thumb knuckle against your ear drum. If the part runs smoothly and nothing is wrong with it, a regular hum will be heard. Otherwise, the hum will be interrupted by a knock or other strange sound.

In this way any fault in the running of the automobile can be located by moving the divining rod from one position to another. Sometimes location of a fault is more difficult than its correction after it is found.

SPRING BOOT AND OILER.

Car springs may be protected from mud and rust by means of a leather

boot and oiler. Openings are made for oiling, so that the spring leaves are kept lubricated.

BAND PROTECTS TOOLS.

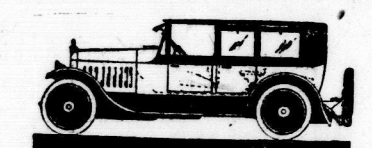

Tools underneath the front seat may be safeguarded against theft by

the attachment of a steel band and lock now being manufactured. The band is hinged to the rear of the seat and bends in to be locked in place against the bottom.

STANDARDIZED

LIMOUSINE—Automobile with a partially enclosed body and a permanent top extending the full length and attached to the windshield. The

part behind the driver is fully enclosed. Two lower doors and a fixed cross seat for two are in the forward, open section.

NEW LINCOLN CAR COMES TO LONDON

Motorists Unite in Admiration of Display At Ford Factory.

Welcome to the "Lincoln" was officially tendered by London motorists at the local factory branch of the Ford Motor Company of Canada, Limited, Waterloo street, this week. The model shown was the 7-passenger sedan, of pleasing appearance. The chassis of the Lincoln is undoubtedly an example of sturdy strength and good design, the driving mechanism being a unit, comprising a tubular propulsion shaft enclosed in a torque tube, and a floating rear axle, with spiral bevel gears. Of its many outstanding characteristics, one which impresses itself in first acquaintance is the car's remarkable ability to cover great distances in a limited space of time. Leland-built Lincoln eight-cylinder motor cars comprise eight types of open and enclosed bodies. These fine cars should prove popular with London motorists.

New York State has 721,488 automobiles, or one to every 14 inhabitants.

New type of muffler developed by the navy for motorboat engines may be applied to automobiles.

Motor cars and trucks are being used by many colleges for extension courses and other purposes.

STATES MOTOR BUSINESS INCREASING IN DISTRICT

Believes Industry in General Is Well on Way to Permanent Stability.

"The volume of automobile sales is a sure barometer of business," said Robert Gray, a prominent bank director at a recent director's meeting.

"Month by month I have been watching the needle steadily moving. In March and April it had passed the 'unsettled stage,' while now it registers 'fair and warm,' with every indication that it will continue.

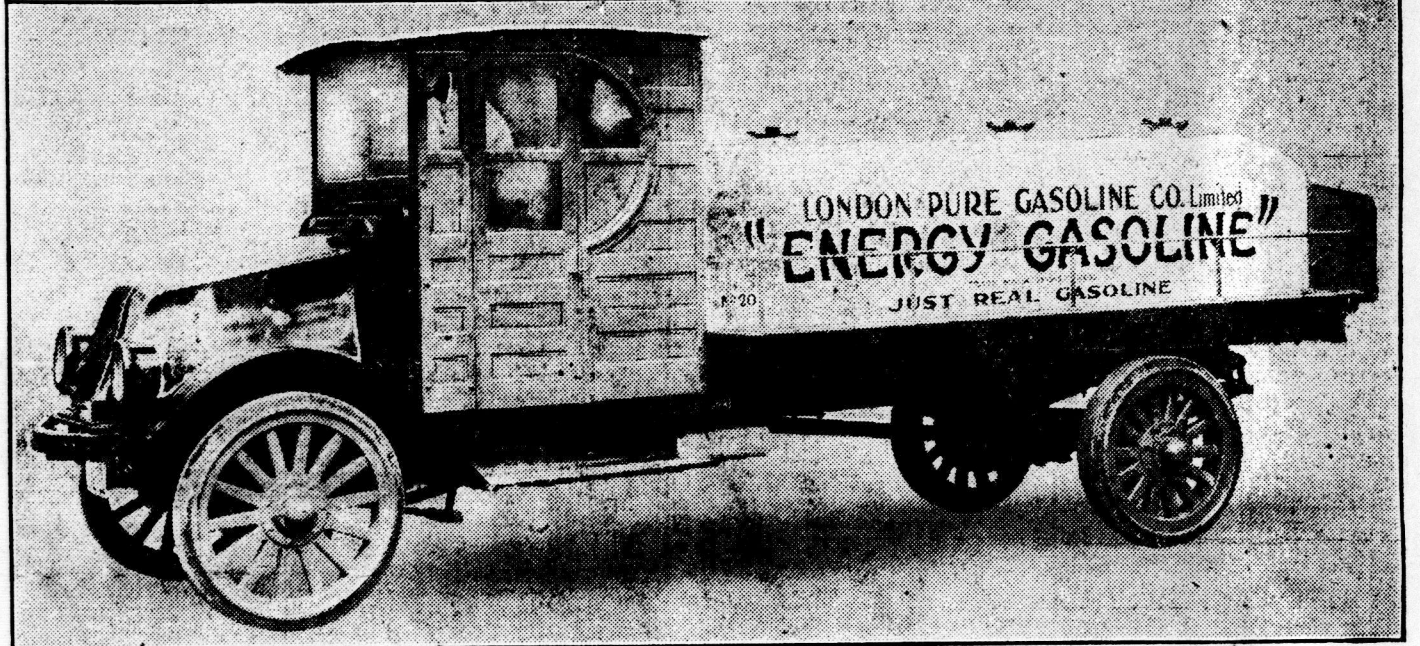

"This is proof conclusive that the business situation has vastly improved, and leads me to believe that the country in general is well on the way to permanent stability."

Mr. Gray further declared: "Sales of Gray-Dort cars, all models, by Gray-Dort distributors and dealers over the entire Dominion during the past three weeks, as reflected by factory shipments, is most gratifying."

"During the first ten days in May we received immediate shipping orders for a greater number of cars than our total shipments for the entire month of April, and our April volume was quite satisfactory."

KOREEN Is Coming

You Want "ENERGY" Gasoline

Ford Owners---

We will continue to give service on all FORD cars as heretofore; also we will maintain a full stock of "GENUINE" FORD REPAIR PARTS, and we solicit a continuance of your patronage, assuring you our constant endeavor will continue to be

"SUPER-FORD SERVICE."

Reliance Garage Ltd.

We Make Sure You Get It

"Energy" Gasoline is delivered direct to the consumer on the farm by our big tank trucks. The "Energy" salesman is right on the truck. You don't need to buy any more than you need—he'll be around again in a week.

"Energy" is a Straight run 100 per cent pure gasoline.

It insures quicker starting, more power and less carbon in your engine than blended gasoline, and is more economical.

Our tank trucks cover Oxford and Middlesex Counties and are ready to give you Energy "Gasoline" when you want it—how you want it—where you want it.

Just Real Gasoline

(Trade Mark Registered)

PURE GASOLINE COMPANY, LIMITED

362 DUNDAS STREET

LONDON, ONTARIO

Watch for Our Big Red, White and Black Tank Trucks

AN EXCELLENT OPPORTUNITY

The continued demand for new Dodge Brothers Motor Cars has brought us in a choice variety of Used Cars. There are some exceptionally good cars in this display and prices should interest you.

A few of this week's offerings:

1920 Chevrolet 490 Touring
Reconditioned throughout,
\$400.

1915 D.B. Touring
Special for quick sale,
\$425.

1920 Ford Coupe
In A1 condition, \$625.

1920 Ford Sedan
Extra good car, \$675.

Overland 85 Touring
Dependable, comfortable,
and ready for service, \$675.

Panel-Body Delivery Car
Three-quarter ton, suitable
for many kinds of business,
\$700.

"TERMS IF DESIRED."

COUNTRY TRIPS BECKON TO TOURISTS AS SUMMER APPROACHES

AUTO HAS ADDED
NEW TERMS TO
OUR LANGUAGENames Applied To Different
Parts Have Created New
Phrases.

SPEAKS STRANGE TONGUE

Meaning Often Foreign To
New Owner of Car.

LIKE radio and airplanes, the automobile has brought into common use a number of new words or terms. Every new invention develops a new vocabulary. The motor car has added several words of a semi-technical nature to the automotive mechanic's language not to mention an expansion of his variety of profanity.

The mechanic in a repair shop and the automobile salesman learns these new terms quickly. As a result he often speaks a strange tongue to the more untutored prospective owner of a car or the possessor of a new machine. Just as a doctor comes in to visit a patient and pronounces his ailment to be aneurism, which is all Greek to the indispensed, so the meaning is altogether foreign to the new owner of a car when a mechanic tells him something is the matter with his planetary transmission.

Throw Out Clutch.
"Throw out the clutch" is an expression often heard in the automobile world. The uninitiated might wonder why anyone should want to pick up the clutch and throw it out of the car. Of course, he soon learns that to throw out the clutch means to press the pedal that operates the clutch so that the engine is disengaged from the driving wheels. To let in the clutch, on the other hand, means to relieve the pressure of the foot from this pedal attached to the clutch so as to cause it to engage.

"Slipping of the clutch" is an action sometimes caused by the partial engagement of clutch and is characterized by more or less relative motion between the two members. These two members of the clutch do not grip positively but slide more or less one upon the other when a car is to be gradually accelerated from rest or when a car speed lower than that corresponding to the lowest motor speed is required.

Car Has Hood.
Every car has a "hood." It is not so much of a decoration to the front of a car as a lady's hat is to her head. But as there are various styles of ladies' hats, so there are different designs in automobile hoods. The hood of a car is the removable covering which incloses the motor and its auxiliaries. It is usually constructed of sheet metal

and furnished with slits in its sides. In the British Isles, Australia, South Africa, New Zealand, etc., a car "hood" is its top and its hood is its bonnet. There in the lands of petrol they refer to top gear, not "chassis" is a word which has little significance to many people. A chassis of a car is the automobile complete as to its mechanical parts but without a body and certain other parts which are usually carried in or on the body. A "stripped chassis" is one from which such parts as the tires, fenders, running boards and all but the essential mechanical parts have been removed.

"Chauffeur" is a word that has been mispronounced perhaps as consistently as any other word that was drafted into our language from the French. Everyone, of course, knows that chauffeur in Canadian means the paid operator of a motor vehicle. It is pronounced shof-ur.

Ford Has Feature.
"Planetary transmission" is a feature of the Ford and several light English cars. It gets its name from its construction and the arrangement of its gears. There is a center gear, sometimes called the sun gear, around which several other gears, called planet gears, revolve. Thus the term planetary transmission. In England, etc., it is known as an epicyclic gear.

"Semi-floating," "three-quarter floating," and "full floating" are terms applied to the rear axle. This does not mean that these live axles are made of certain kinds of soap or of wood, so that they would float on the surface of water. It refers to the fact that in the floating type of construction, the rear axle housing carries the weight of the car and that the shaft which does the driving makes a loose connection between the road wheel and the differential gear, or in other words it "floats" inside of the rear axle housing.

Dogs Connect Axle.
The full floating axle is connected to the wheel by "dogs." These, however, are dogs which neither bark nor bite. The dog in this case is simply a plate fastened to a live axle with projections on it which fit into similar depressions on the rear wheel hubs. Through the dog the rear wheel is driven by the axle shaft but it is not connected rigidly to it. The hub cap is used to muzzle the dog, that is, keep it from escaping. If the hub cap is lost, the dog may become loose and be lost.

"Choke or strangle the carburetor" is a term which means to cut off the air so that it cannot be drawn into the carburetor freely. The result of choking the carburetor is that a greater proportion of gasoline is added to whatever air does enter, making a rich mixture, which helps the car to start easily. The choker is sometimes called the primer.

"Self-starter." This does not mean that a car having a self-starter is apt to start out of its own accord at any unsuspected moment. It does mean that there is in the automobile an electric motor for cranking the car without which the driver would have to get out in front of the machine and start the engine by the hand-cranking method. It means that the car has within it the means of starting the engine and consequently the automobile.

"Universal joint" is a term which might have been recognized by some

in the days ante-dating the O. T. A. driven. "Differential" is a word applied to an arrangement on the rear axle which permits the rear wheels to turn at different speeds when going around a corner. "Accelerator" is the term given to the pedal by means of which the speed of a car is increased or accelerated. By pressing this accelerator pedal more gas is supplied to the engine and an increase of power is furnished. "Advance the spark" and "retard the spark." These terms indicate that the spark is made to occur and ignite the gas earlier or later in the revolution of the engine, determining the time at which the power stroke shall begin.

golf

No "golf fiend" can abide a moment's delay when he gets headed for the Links. A tire that sprang a leak or did such a bolshevik trick as to "blow out" would be consigned to a place hotter than the factory vulcanizer. "Gutta Percha" Tires will bring you promptly to the Club, ready to drive off at the time-keeper's signal. Don't be put "off your game" by the exasperation of tire trouble. A calm nerve, a steady eye and sure hand belong to the unflustered man who drives to his game in peace of mind on "Gutta Percha" Tires.

PRICE: A real golfer doesn't play with a cheap, "dead" ball; he gets the "live" ones and the difference shows in his strokes per hole. A real motorist doesn't have any use for "cheap" tires; he gets the high-grade standard Tires—like "Gutta Percha"—they're really cheapest after all.

"GUTTA PERCHA" TIRES
"Quality All Through"

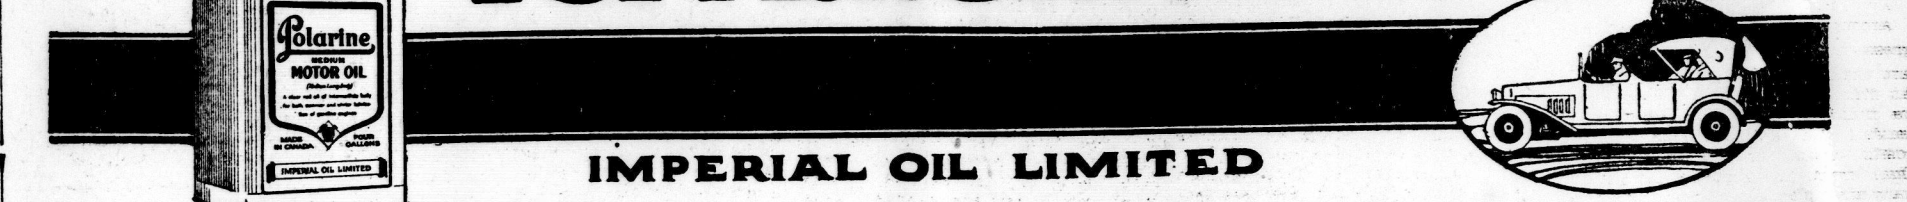

The informed automobile fan recognizes this term as one applying to a flexible coupling through which two shafts at an angle may be

around a corner. "Accelerator" is the term given to the pedal by means of which the speed of a car is increased or accelerated. By pressing this accelerator

pedal more gas is supplied to the engine and an increase of power is furnished. "Advance the spark" and "retard the spark." These terms indicate that the spark is made to occur and ignite the gas earlier or later in the revolution of the engine, determining the time at which the power stroke shall begin.

that the spark is made to occur and ignite the gas earlier or later in the revolution of the engine, determining the time at which the power stroke shall begin.

that the spark is made to occur and ignite the gas earlier or later in the revolution of the engine, determining the time at which the power stroke shall begin.

OWNERS OF AUTOMOBILES SAVE MONEY

GOOD ROADS ADD TO EFFICIENCY

As Essential To Life and Business of Present Day As Are Automobiles.

Bad Highways Restrict Transportation Facilities and Progress.

BY MOTORIST.

Among all the agencies of progress, none has been more important than the good roads movement. At first thought this statement may be difficult fully to appreciate; at least it may be if we think of good roads merely as highways rather than from the standpoint of the part they play as a link in the chain of growth and development of the territory in which they are built.

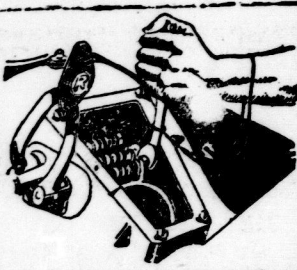

Good roads are a means of better transportation, and therein lies their greatest value. From that standpoint they are just as important as the automobile and the railroad. Of course, we can get along without good roads, but to do so involves a step backward such as none of us want to take in this age of progress and efficiency.

Play Dramatic Part. While good roads of themselves are not a dramatic thing to look at, they do play a dramatic part in the life and business of today; just as much so as the telephone and the telegraph. The people of any territory that has good roads will testify to this fact.

There was a time when messages

SAFE AGAINST SLIPPING.

When a Ford owner tries to adjust the transmission bands of his machine, he has to be extremely careful that the wrench will not slip from his hand and drop out of reach. A

simple way to be assured against such event is to tie a string to the wrench and pass it around the wrist. If the wrench slips, it can be pulled out.

were sent on horseback, when goods were hauled in horse-drawn vehicles and people traveled from place to place by carriage or coach. There was a time, too, when business letters were written by hand and counting was done the same way.

There was a time when manufacturing operations of all kinds were performed by hand. But those days have passed in practically every part of the civilized world. Manual labor has given way to machinery. This is the age of the telephone, the telegraph, the typewriter, the cash register, the adding machine, the automobile, the motor truck, the railroad.

Machinery and progress have become synonymous, simply because the use of machinery is another way of implying increased economy, accuracy and all-round efficiency.

And so it is with good roads. They are an agency of efficiency and progress. We need only make a study of communities and sections

of the country where good roads exist. And what do we note? An atmosphere of industry and contentment, of prosperity and progress. And then, by turning to communities where there are no good roads, we see an absence of the very things which good roads bring.

Present No Problem.

In some countries good roads have been maintained for so long that they no longer present any problem. They have been in existence for generations. This is particularly true of the older and better settled countries. Europe, for instance, presents many examples of wonderful roads built a thousand or more years ago, and maintained in perfect condition throughout the ages.

The most surprising feature of the good roads problem is that any modern, civilized community should hesitate to build and maintain highways. A thousand years ago, or even fifty years ago, good roads were, perhaps, not so necessary, for in those days there were no automobiles. Yet, notwithstanding this fact, good roads existed. How much more they are needed today when transportation, communication, business and life itself are on a so much more efficient basis!

One thing should be remembered, and that is that no community or man should consider the first cost in connection with the building of good roads, for they are an absolute necessity and anything which is indispensable always pays for itself in the end.

Cannot Dissociate Auto.

We cannot dissociate mention of the motor car from a discussion of good roads, for there is a real connection between them. Good roads stimulate the demand for motor cars and increase the driving pleasure of the owners of automobiles.

Bad roads restrict the demand and make the driving of cars less of a pleasure than it otherwise would be. Good roads and the motor car have done more than any other influence known in removing forever the isolation of farm life. They have brought communities closer together.

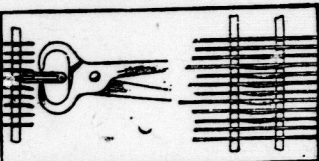

They have enabled people to get out into the country and to visit places they never saw or perhaps never heard of before. They have made it possible for the farmer to get his products to market more quickly and in fresher, cleaner condition than before.

Good roads and the motor car have come to be recognized as a sign of progress, and the absence of them as a sign of retrogression. Under their influence communities have forged ahead, whereas they otherwise would remain in a rut.

Boon to Civilization.

Good roads and the automobile

RADIATOR FINS.

A small door hinge and a pair of pliers are all that is necessary to straighten bent radiator fins. Place the bent fin between the sides of the hinge and clamp down with the pliers as shown.

have been and are a boon to civilization that cannot be measured in dollars and cents. For, in addition to their influence in stimulating business and increasing efficiency, who can compute in money the value of the happiness they have given to millions of people in every part of the civilized globe?

There is only one direction for the good roads movement to go, and that is forward. It must be extended. It cannot even stand still, for that means retrogression. The spirit of the times is that of betterment, not of being satisfied with things as they are. We all want more pleasure out of life. We all want to make ourselves more efficient. Good roads and the automobile point the way.

Annual cost of operating motor vehicles in the United States is estimated at \$6,957,600,000. Most economical touring speed is about 25 miles an hour.

MOTORISTS ATTENTION

We want you to know that users of the

JANUS AUTOMATIC AIR VALVE

for all makes of cars and trucks are getting 25 per cent more mileage per gallon of gasoline used; also a cleaner and more powerful motor. In other words it makes gas cost 25 per cent less than present price. Soon pays for itself. Price installed, \$3.25. Guarantee, money back in 30 days if not satisfied.

"It's The Best Investment I Ever Made"

"I have bought securities and dealt in real estate and put my money in several 'sure things,'" said this business man, "but I made the best investment of all when I bought an Overland."

"That car pays the biggest dividends in health, thrift and happiness. The whole family benefit from its use. It is an ever-willing general servant—ready for every errand and costing very little indeed for upkeep."

Four dollars a week (see the figures below) is

the average outlay of the Overland driver for 100 miles of comfortable motoring. And the pleasure it gives is incalculable. The Overland saves time and money, too, in trips to and from the city. It gives easily 25 miles to the gallon of gas and upwards of 6,500 miles to the set of tires.

Let us give you a trial ride. No obligation. We want you to see for yourself the outstanding value of the Overland, completely equipped, at to-day's exceptionally low prices.

DUNLOP CORD TIRES FABRIC

Making "Mile-ionaires"

These are great days for the motor car user—in a tire sense. Your dollar never before bought as much. Your speedometer never before registered as much. Your repair kit never was as idle. All because Dunlop Cord Tires came and ushered in a new era. Five years ago you paid half as much again for the same size tire; ten years ago you paid twice as much. Prices have been tumbling. Quality has been mounting. One time we thought 3,500 'was mileage to boast of; to-day we may run into half a dozen "25,000 Milers" in a forenoon. "Dunlop did it," says one enthusiast. The "Two Hands" are making us Mile-ionaires," says another, and so on.

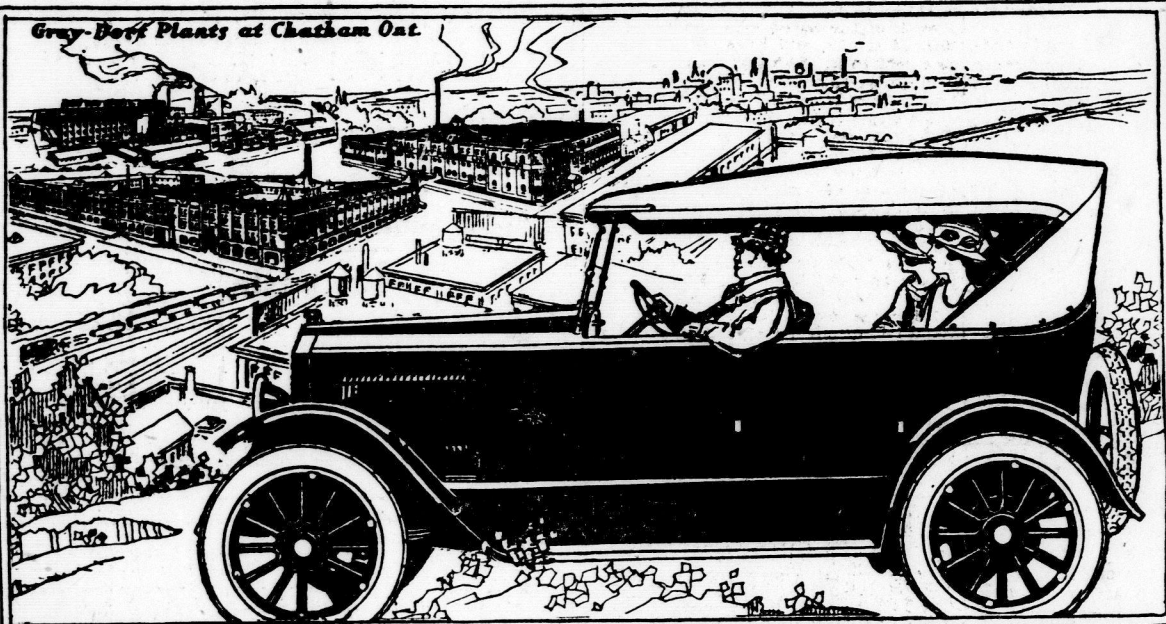

The Sign "Mileage Wanted" is now changed to "Mileage Supplied"—use Dunlop Cords.

Dunlop Tires Deserve Well Because They Serve Well

The New and Improved Gray-Dort

A VASTLY better car than you have seen in its price class—smooth, more powerful, faster, and longer lasting.

Extra light weight pistons and connecting rods, a perfectly balanced motor, accuracy in manufacture—these make this sturdy and reliable motor unexcelled in performance.

These many improvements, which practically eliminate vibration and rattles, thus insure a longer life than average cars and lasting satisfaction.

Genuine leather upholstery, cord tires, straight wall rims, motor

driven horn—these are but outward signs of the many improvements made throughout the car.

You can't afford to buy any car costing \$1000 or more without a critical inspection of the New and Improved Gray-Dort.

Drive in it for half an hour to convince yourself of its reliable performance and comfort. Then actually place the Gray-Dort side by side with any other make of car you may be considering and thus convince yourself of the superior investment value of this Made In Canada Car—Telephone the nearest Gray-Dort Dealer.

MOTOR CAR MEANS HAPPINESS FOR THE ENTIRE FAMILY

CANADIAN GOOD ROADS MEETING OPENS IN JUNE

Motor Leagues of Dominion To Gather Concurrently in Victoria.

S. J. LATTA TO PRESIDE

Many Delegates Are Expected From Oregon, Washington and California.

Concurrently with the annual meeting of the Canadian Automobile Association, which includes all the provincial motor leagues, associations and clubs of Canada, and of which Dr. P. E. Doolittle and W. G. Robertson, of Toronto, are president and secretary-treasurer, respectively, the annual meeting of the Canadian Good Roads Association will be held. The date of the conventions have been advanced one day in order to make them concurrent with the provincial meeting of the western members of the Engineering Institute of Canada.

The Automobile Association good roads' convention will now be held at the Empress Hotel, Victoria, B. C., on Monday, Tuesday, Wednesday and Thursday, June 12, 13, 14 and 15, while the meeting of the engineers will be held at the Vancouver Hotel, Vancouver, on June 16 and 17. The latter will attend the good roads convention in Victoria, and the delegates to the latter will, at the conclusion of their labors, return to Vancouver and assist at the engineering meeting. It being realized that the organizations have much in common, and can be of much assistance to each other.

The holding of the good roads convention in Victoria this year will serve a double purpose—it will demonstrate the national character of the association, which has now held conventions from the Atlantic coast to the Pacific, and it will give a splendid opportunity to the people of the eastern provinces and of the Middle West to see the innumerable beauties of the far western province under the most favorable conditions. Apart from the scenic attractions of Van-

cover and its surroundings, there is nothing more delightful than the steamer trip from there to the capital of the province on Vancouver Island, dotted as it is with emerald islands lapped by an azure sea.

Tourist Fares Effective.
The special summer tourist fares will be in effect so that the railway fares will be much less than the ordinary rates. The return fare from Halifax will be \$170.75; Charlotte-Town, P.E.I., \$169.55; St. John, N.B., \$163.25; Quebec City, \$142.45; Montreal, \$132.30; Ottawa, \$126.55; Toronto, \$109.55, with pro rata rates through the Prairie Provinces to the coast.

These fares will be on either the Canadian National Railway or the Canadian Pacific Railway, while those delegates wishing to return via San Francisco can do so at an approximately additional cost of \$20, or via Prince Rupert for an additional \$13. These are big reductions, and many of the delegates have already announced their intention of taking their wives with them so as to take advantage of the opportunity offered of seeing the Rockies and the Golden West.

The Canadian Good Roads Association officials have already been assured that every province in the Dominion will send official delegates to the convention, while many of the municipalities that have participated in past conventions, and realized the great value of the money and discussions that take place at them on highway problems, are sending their officials to Victoria, feeling that the expense incurred will be more than offset by the savings they can later effect in road construction and maintenance through the knowledge gained at the convention.

The president of the association, the Hon. S. J. Latta, minister of education in the Saskatchewan government, will preside at most of the sessions, and so important are the subjects chosen for discussion that the executive has for the first time extended the convention from three to four days. Every kind of roadway will come under review and the best means of constructing them explained by men who are at the head of their profession in the chief cities of Canada and the United States, while the pressing problems of maintenance are rendered more urgent because of the rapid growth of the automobile and the commercial trucks, will have special attention paid to it. The convention is being held in co-operation with the Good Roads League of British Columbia and other western organizations of a similar character, and in conjunction with it there will be an exhibition of modern road building machinery and special conferences of highway officials, municipal officers and local and provincial good roads associations, for the interchange of knowledge and ideas, with a view to securing uniformity of action as far as possible.

Plan Special Train.
Delegates from the Maritime Provinces will travel by special Pullman to Montreal, and there join up with another reserved car, while Ontario delegates will make similar arrangements. The different parties joining up en route and making practically a good roads special by the time it reaches Vancouver.

The president of the Canadian Good

Roads Association, the Hon. Sam J. Latta, minister of education in the Saskatchewan government, is traveling east now in order to attend the final meeting of the executive board of the association, so as to complete the arrangements for the convention. The holding of this convention at the Empress Hotel in Victoria has been endorsed by an almost surprisingly large number of organizations and public bodies, distance being apparently no bar to their desire to be present and to participate in the discussions that follow the reading of papers or the giving of addresses by men well qualified to speak on all road matters. From the extreme east as well as from Quebec and Ontario and the Prairie Provinces, notifications have been received by the secretary of the nomination of official delegates who will make up special parties for the trip through the Rocky Mountains seeing the far western province at its best, and under exceptional conditions, inasmuch as the special summer rates for the railways are much lower than the standard convention rates, even for western delegates.

The convention will be of an international character, for since the forma-

tion of the Pacific Highway Association in 1912, there has been the closest affiliation between the Province of British Columbia and the three western coast States of Oregon, Washington and California. The various good roads and motor organizations in these states have already signified their intention of sending delegates to Victoria, and the convention will give them the opportunity of becoming better acquainted with the Canadians, as well as of visiting the Portal of Peace on the international highway out of Vancouver city. The organizations that will be represented include the Highway Association of Dallas-California, Oregon State Motor Association, the Tri-State Auto Club, and Washington State Good Roads Association. Many of the delegates from the States will motor to Vancouver over the Columbia River highway.

Many Speakers Accept.
Among the speakers who have already accepted invitations to present papers for discussion are the following: M. A. Lyons, chief engineer of roads board, Province of Manitoba; C. W. Dill, superintendent of highways, Province of Saskatchewan; A. W. Campbell, commissioner of highways for the Dominion

government; J. D. Robertson, deputy minister of public works, Alberta; A. H. Hearst, state highway engineer of Wisconsin; B. M. Hill, chief engineer of highways, Province of New Brunswick; J. A. Duchastel, city manager and engineer, Outremont, P.Q.; James Allen, supervisor of state highways, Olympia, Washington; F. L. McPherson, superintendent of public works, Victoria, B.C.; W. A. McLean, deputy minister of highways, Ontario; F. L. Fellows, city engineer of Vancouver; H. S. Carpenter, deputy minister of highways, Saskatchewan; A. S. McMillan, superintendent of highways, Nova Scotia, and N. D. Darlington, chairman of the California highways commission. This is not by any means the full list of the speakers who will deal with road matters from the financial, legislative and practical standpoint, including foundations, drainage, wearing surfaces, bridges, culverts and so on.

Of special interest to government officials who have to tackle the problem of highway maintenance in relation to modern automobile traffic, will be an address on motor trucks, maximum weight, width, loads, etc., by a representative of the National Automobile

Chamber of Commerce, New York, while among the popular lectures will be one by H. D. Cuthbert of the Northwest Pacific Tourist Association, whose address at the Winnipeg convention was so much appreciated.

Of particular interest to the Prairie Province delegates will be a lecture and demonstration by K. A. Clark, one of the research engineers of the Scientific and Industrial Research Council of Alberta, who has been making experiments in improving and maintaining prairie roads, and a method of getting bitumen absorbed on to the clay elements in soils to modify its action towards water.

The annual general meeting of the Canadian Automobile Association will take place on the afternoon of Tuesday, June 13, when the annual report and financial statement will be presented and the officers and executive elected. The banquet will be on the Wednesday evening at the Empress Hotel. The Canadian Automobile Association will hold their annual meeting and dinner at noon on Wednesday, June 14, at which delegates from all the motor leagues in Canada will be present, the invitations having been sent out by W. G. Robertson, the secretary of the National Association, with which all the provincial motor leagues are affiliated.

Mexico was the only country that imported more automobiles in 1921 than in 1920.

American tourists into Canada increased more than 50 per cent last year.

Powdered camphor mixed with vaseline and heated on a slow fire will prevent rust on tools.

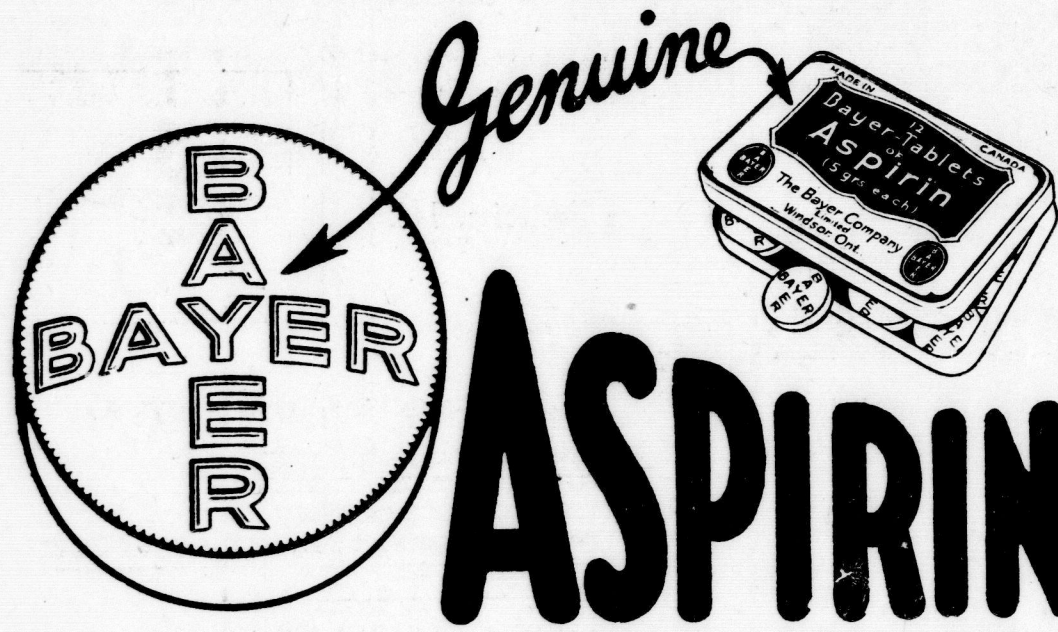

Have you given up? Have you resigned yourself to that old, gnawing pain that nothing seems to relieve? Do you think because you can't get Hot Springs or take some expensive treatment that you have no other alternative? We have many cases considered hopeless, tried everything, baths, serums, electricity, who found recovery in using T.R.C.'s. (Templeton's Rheumatic Capsules). Pride of the First McLaughlin Factory

In the Enniskillen Plant where McLaughlin vehicles were first made in 1870, Ideals of Quality were born, which live to-day in the mammoth McLaughlin institution.

THE FIRST McLAUGHLIN-BUICKS

built fourteen years ago were accepted then as the standard of value in motor cars of that day.

Each succeeding McLaughlin-Buick model has done its share in maintaining this reputation.

McLaughlin-Buick progress has been steady, consistent, sure—not spasmodic, up one year and down the next. Each year has shown sure improvement over preceding years—no unproven, freakish or extreme innovations have been tried. Changes in construction, equipment or finish have been tried, tested and proven before being made a part of standard models.

The 1922 McLaughlin-Buick Models mark one more step forward in this steady progress towards perfection. More firmly still are these Canadian built cars established in their position as "Canada's Standard Car."

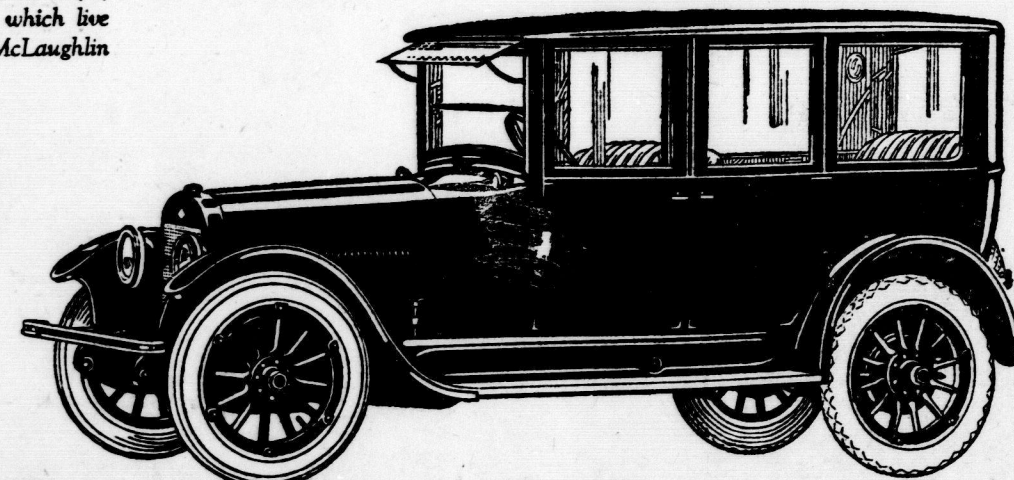

McLaughlin Motor Cars are built—not merely assembled—in Canada.

CONSIDER OTHER PEOPLE WHEN OUT MOTORING

By Dimming Your Lights You May Prevent An Accident.

GLARE IS DANGEROUS

Greater Courtesy On Road Should Be Motorists' Slogan.

The greatest known test of a good disposition is when that good disposition is inside the driver of an automobile, and the car is out on a country road at night, meeting hundreds of machines whose drivers do not have the courtesy to dim their lights.

There is no discomfort in driving "to beat" being constantly blinded by the glare of powerful lights of a car approaching from the opposite direction.

In all walks of life there are the considerate and the inconsiderate. But the latter are more conspicuous when they drive automobiles at night. They consider it too much trouble to be constantly dimming their lights when the machines they meet are numerous. Consequently, they get out of the habit altogether, even when they meet cars on the road only occasionally.

What these drivers overlook is the jeopardy in which they put their own lives, for a driver who is approaching a car with the lights blinding him so that he cannot tell where he is going, may turn to the right, turn turtle in the ditch, and be either killed or seriously hurt. On the other hand, this blinded driver may turn to the left and crash into the approaching machine, causing no end of havoc to it and its occupants.

Causes Accidents.

An experience of this kind recently was reported. The blinded driver lost control of his car. It swerved across the path of the machine with the powerful lights. There was a crash, and both cars were much the worse for the collision. The driver of the bright-eyed car threatened to sue the other for damages. He learned, however, that the court in all probability would consider him the guilty party, and was glad to let the matter drop. Each driver paid for the damage on his own car.

The law about lights is slightly different in different provinces and states. However, it usually calls for the use of an approved anti-glare device or lens. There are many machines on the road that are not equipped with approved lenses, and there are others which have been that are a menace to life and limb, nevertheless, through the use of bulbs above the stipulated candle-power, uplift of reflectors and lamps, im-

proper focusing, and other maladjustments. Then, too, some of the approved lenses or devices may turn around in the lamp so that the direct beams of light, that should be deflected or refracted down on the road, are diverted up into the eyes of drivers of counter-moving vehicles.

The electric lighting system of an automobile is generally of the form in which the current is obtained from a battery which is kept charged by a dynamo. The main lights of a system are two large white lights in front, which are supposed to deflect the beams of light to the ground, the theory being that a strong stream of light will be thrown on the road ahead, but will not reach the height of the eyes of the driver of another

car, or even of a pedestrian who may be walking on the highway.

Advices Care of Lenses.

Approved lenses and devices will car is slowing down, as the extended hand gives such a warning in the daytime. Many cars are now equipped with stop lights, effective both day and night. Two extra white side lights in front for use in city driving, where the regular large accomplish this desirable result if the bulb is in the right c. p. and focused properly; that is, the right distance from the reflector, its position is made adjustable so that the light can be focused in several directions, the lamps plumbed and aligned. Violation of a car sometimes jars the light out of focus, or the lens or device out of true. On many cars the

lights are not properly placed when installed. Right application is imperable if a good, non-glaring driving light is to be secured.

Another light in the system is the red tail light. It is now possible to throw the word stop on a red tail light, which in the night gives the warning to those following that the lights are not needed, are again coming into general use.

Manufacturers are constantly improving the styles of lamps. But, on account of the different laws in various provinces they often provide a lens which is frequently plain glass. This makes it necessary for the owner to get new lenses to comply with the law.

The strongest kind of light fixtures on a car may get bent, if a car is

CHAIN LINKS SEPARATE

A chain can now be obtained adjustable to any size tires. Each link can be disconnected, so that a break or damage can easily be replaced. The diagram shows how the links are put together.

run into, so that the beams of light point upward instead of down on the road. After such an accident the owner of a car should carefully inspect his lights to see that they are still properly focused and pointing correctly. Few cars leave the factory with lamps true. Brackets and lenses usually both need adjusting.

One reason why some drivers do not dim their lights when meeting cars is because of the number of cars on the road and the location of the dimming control switch. This

condition keeps a driver constantly leaning forward to make the adjustment, and detracts his attention somewhat from the driving wheel. However, when driving in the country, where dimmed lights are most important, the cars that are met in the night are not apt to be so numerous but that the courtesy of dimming lights is practiced.

Driving at night in the city is an entirely different proposition. Here the street lamps and electric signs usually give sufficient illumination, so that the driver does not need any lights on his car. Or, of course, to comply with the law, he must keep his dimmed lights on or use side lights, if his car is equipped with them. In fact, no sensible driver will use his undimmed lights except when on a country highway.

Lights should be turned on one-half hour after sundown. While the first hour after this time the lights are practically valueless care should be exercised, nevertheless, to turn on the dimmed lights. This twilight

period is the worst time of the day for driving, for it is too light to make the lamps of any great use, and too dark to see the road ahead clearly.

Spotlight Is Useful.

A spotlight has many good points in night driving in the country. Its beams can be thrown ahead of the regular headlight beams, giving just the additional distance of illumination on right-hand side of the road to permit driving safely at a fair rate of speed. When meeting a car, the headlights can be dimmed and the spotlight thrown to the right to illuminate the near right-hand side of the road and ditch. It is well nigh indispensable at night in back-roads, reading road signs, turning acute unknown corners, etc.

In heavy traffic the tail light of the car ahead is a good guide to the road. For the car behind to put on heavy lights would make it difficult for the

driver of the car ahead. Lights that can be tilted down close to the machine are very satisfactory, especially in heavy traffic.

In going around a corner or up a hill, the light is bound to get in the eyes of drivers going in opposite directions, when they meet. Special care should be exercised in such places.

The most effective protection against glaring lights is a shield of opaque or translucent material placed on the left-hand corner of the windshield, behind which the blinded driver may hide his eyes. But better than this would be more thoughtfulness and courtesy by drivers on the country road at night. It isn't a hardship to press the "dim" switch, and the law in Ontario, as in most provinces and states, requires head devices to be equipped with anti-glare devices or lenses right applied to prevent glare.

How's Your Battery Pulse Today?

If it is low, let us prescribe the right tonic. No matter what make of battery you have in your car, come around to us.

Our job is to keep your battery in commission. You will get an honest expert diagnosis of it, and a real recommendation of what to do.

At the right time, you will find it to your advantage to exchange the old battery for a new Prest-O-Lite. There is a correct size battery with Prest-O-Plates for all makes of cars.

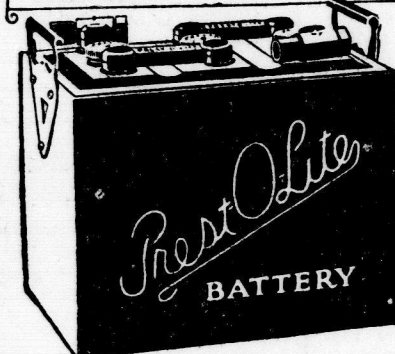

Prest-O-Plates, the greatest advance in battery making; the plates of unusual hardness, combined with peculiar porosity; plates with quick delivery of power in cold weather, and great non-buckling, heat-resisting strength in summer.

Drive around and get our diagnosis. It is free.

THE OLDEST SERVICE TO MOTORISTS

The 100 per cent. Canadian Battery

Will You Take Your Ride Today?

50 Horsepower—Six Cylinders—\$1585
F.O.B. Windsor, Tax Paid

There is a Jewett waiting for you in our showroom. It is your car for any morning or afternoon that you may select.

You must actually feel the might of 50 horsepower to appreciate it. You must sink back in the soft leather cushions and feel the gentle sway of perfectly balanced construction.

Then will come the realization that here is a stout, sturdy, dependable car that has been built for years of care-free service. Every unit is of proven worth

with ample strength to match the power of the mighty motor.

So we repeat, ride in the Jewett as soon as you possibly can. Find out what the largest power plant in its price class actually means in terms of motoring comfort.

Then when you return from your ride, refreshed and relaxed, remember that this is the Six that you can buy for the price of a four—\$1585 f. o. b. Windsor

LONDON FIRM SUPPLIES
ALL BOOKBINDING NEEDS

Chas. Chapman Company in Business Since 1855, Earns Reputation For Good Work.

The Charles Chapman Company, bookbinders, loose leaf manufacturers and account book makers, is one of the oldest and most reliable firms of its kind in the city, having been established in 1855 by the late Charles Chapman, and having behind it 67 years of expert work and fair dealing that would be hard to equal in the business today.

Main Business Section.
Charles Chapman, the founder of the firm, received his early training in New York, later establishing himself in business in London on the same spot that the modern factory stands today, namely, 91 Dundas street. Then that block was the main business section of the city, and next door to the Chapman business house was the Herald-News newspaper office.

In 1887 Mr. Chapman died, and for a few years Joseph Choquette, who has been with the firm since boyhood, acted as manager. In the early nineties the son, C. B. Chapman, took charge of the business, and is its present proprietor. All kinds of binding, such as book, magazine, Bible and music binding, is done by the Charles Chapman Company. Another branch of the business is the manufacturing, ruling and printing of loose leaf books for school, college and business use.

Mr. Chapman stated that the firm does a great deal of bookbinding for the public libraries throughout the district. From Western Provinces.

"The greater part of our work comes from other cities and towns in Ontario," said Mr. Chapman, "and we also have had work from the Western Provinces. In normal times the firm has a staff of 25 employees. "We specialize in making ruled blank books to order to suit the needs of every firm," he added, "and also gold embossing work on leather or cloth. Our machinery is modern, our employees are capable, and our prices are moderate, so give us a trial on your next order, and you will become a lifelong customer."

BUILD UP LARGE TRUCKING BUSINESS BY "SERVICE"

Hill Bros. Move All Kinds of Merchandise With Special Care and Facility.

"Our success in the auto trucking business is due chiefly to the service we have given during our three years of existence," said R. Hill of Hill Bros. auto truck service, when asked what was essential to make cartage a paying business.

Hill Bros. are the cartage agents for several of the larger firms in the city, and their list of customers is growing all the time. No matter whether it be one mile or fifty, their trucks are always ready to make a quick and safe delivery of any consignment of goods, large or small. Merchandise, furniture, household effects, and all kinds of baggage are hauled short or long distances at a minimum charge.

Motor trucks are also ready all the time for carrying passengers, concert parties, clubs or orchestras to cities or towns in Western Ontario.

"Our specialty: Ship your consignments by us, and we will deliver them to their destination," Hill Bros.

Succeed In London

LONDON'S population has doubled in 30 years. In 1890 there were 30,705 people here, and today there are 60,685. The area of the city is 6,302 acres.

London in the next 30 years should again double its population, and thus London's industries have a real basis on which to build.

Thomas Adams, town planning expert, expresses the opinion that this added population will not scatter itself equally in all directions, so that it will be wise to plan for 200,000 people occupying a prospective increase of 50 per cent in the area or approximately 15 square miles. The unfortunate experience of the city in annexing the eastern section of the city area may be a reason for avoiding the raising of any question of annexation at the present time.

The city has grown up both as a manufacturing and distributive center. Both classes of industry require consideration. It is an element of strength that the growth of both these classes of industry has consisted largely of the expansion of plants which originated in London. Probably three-fourths of the local industries have grown up here.

SUPPLIES GOOD EATABLES
TO SATISFY ALL TASTES

Home Dairy Company of London
Solves Problem of Summer Meals.

Now that summer is coming on the tired housewife will not be inclined to stand over a hot stove all, or a part of the day, to cook foods for family consumption.

The Home Dairy Company of 172 Dundas street, has solved this problem, and for the convenience of those who wish to purchase prepared foods during the summer months they are carrying at all times an adequate supply of fried cakes, salads, baked beans, cottage cheese, potato chips, marmalades, and other delicacies that grace the family table.

This week they have added tasty spice cakes to their already long list of commodities.

One can also purchase dairy produce, such as butter, sweet milk, buttermilk, and fresh eggs at the Home Dairy Company.

This company has only been in business one year, but already the venture has proven a success. To see for yourself you have only to look in the store at almost any hour of the day and you will see the counter lined with satisfied customers. And then if you would walk inside and note the cleanliness of the place, the white walls, spotless counters, the glass-covered bowls of foods, and the white aproned girls, you would not wonder why the patronage is so large.

Sandwiches are also being made, and the demand for them is becoming greater every day. Try one with a glass of sweet milk or buttermilk for your noonday lunch. They make as wholesome and appetizing a lunch as you could wish for.

Make this shop your headquarters for picnic supplies; orders will be taken and filled in any quantity.

New foods will be stocked soon, so watch for the announcement. The Home Dairy Company.

CHIVAS CONFECTIONERY IS
MAKING RAPID PROGRESS

Makes Specialty of Catering and
Preparing Short Order Lunches.

Ten years ago, J. M. Chivas resigned his position as manager of the Morton Bakery Company in Windsor to come to London and go into business for himself. He has never regretted it, because during the time he has been in the city his business has progressed with leaps and bounds and today his confectionery store is recognized as one of the best and most reliable in the entire city.

Although Mr. Chivas has carried on business in the same premises for the past ten years, he has had his store remodelled a number of times, has had a new bakehouse installed, and from time to time has added modern conveniences in order to keep his business thoroughly up to date.

All confectionery, including cakes, pies, biscuits, buns and rolls, are baked by experts in Mr. Chivas' bake-shop daily. Especially good is the bread roll that is made from the bun dough. This roll has become so popular among hundreds of customers that Mr. Chivas has found it necessary to specialize in these, and every day the demand is becoming greater.

Asked why his store was so well patronized by the citizens of London, Mr. Chivas replied: "We specialize in catering, and such is the quality of our goods that people, once they buy, must come again."

Wedding cakes are another specialty for which there is a growing demand all the time. Confectionery

VULCAN CO. IS PROMINENT
LONDON, ONTARIO, INDUSTRY

"Pure Air Furnace" Is Product Manufactured by This Enterprising Firm.

Prominent among London's leading manufacturers stands the Vulcan Company, Limited.

It started in a small way, and has climbed steadily upward, employing all male help, with a record of fewer discharges than most industries of a like nature.

The first five years was a battle for existence. Starting with only two, it gradually increased to be in a position to employ nine men during the first five years. During the past ten years, under the able management of Morley W. Calcott, a steady growth has been made. Today the company takes its place among the large manufacturers of London, has a large plant on Fullarton street, and in normal times employs more than sixty men all the time.

The Vulcan Company, Limited, manufactures the well-known and popular "Vulcan Pure Air Furnace," which is the heating medium of hundreds of London homes, as well as many thousands throughout Canada.

The demand for Vulcan Pure-Air Furnaces has exceeded all expectations, the company being compelled to increase this department's capacity considerably.

Few citizens in London are aware of the fact that many of the fire hydrants on the streets were manufactured by the Vulcan Company, Limited. That the hydro street lighting standards and parking signs were also made in London by this company.

Other articles of merit manufactured by the company include fireplace grates, builders' supplies, as well as manhole covers, gutter grates, waterworks specials, and all kinds of gray iron castings. It might also be mentioned that a fully-equipped pattern shop is also included in the company's plant.

Associated with Mr. Calcott are A. R. Boug, the president of the company, and Mr. F. E. Wray, secretary-treasurer, both very efficient businessmen.

is supplied for parties at a moderate cost.

Lunches and short orders are served downstairs, and upstairs there is a spacious dining-room where one can enjoy an excellent dinner. A large assortment of every kind of candy is stocked, and the well-known Moyers Chocolates can be bought, either boxed or in the bulk. With the advent of warm weather, Mr. Chivas will handle cold drinks and Silverwood's ice cream for the convenience of his customers.

SALARY CUT OF \$41,000 PASSES

City Council Adds Rider That Committee Consider Pay-sheet Generally.

Liveliness of Session Leads Appearance of Donnybrook to Meeting.

The special council meeting Friday night accepted the report of the special salary committee on the reduction of \$41,000 in the department salaries, adding a rider that the finance committee take up the general matter of salaries.

It refused to accept Ald. Douglass' motion that the salary increase granted the department heads and others at the end of last year be deducted, providing no salaries were cut to below \$2,500.

Like the meeting of the special salary committee, which, on Wednesday last, battled with these same questions, the meeting got warmer as it progressed.

Reminds Donnybrook. It was really more of a Donnybrook than a council meeting. It was held in the mayor's office. Some of the members of the council, speaking in a derogatory manner, likened the session to one of the private bills committee of the Legislature.

So topsy-turvy were things carried on that when it came to vote two of the members, who were most severe in opposition to Ald. Douglass, were found voting in favor of his amendment.

The serious charge that there was a deliberate attempt to slip something over the "green" men was repeated time and again by Ald. Judd, Ald. May, Ald. Ashplant and others.

Raise Strong Objections. The consideration of the report of the special committee brought out some strong points of objection, especially from Ald. Ashplant and Ald. Holmes, who contended that the council which recommended the report which the council did not reveal what the heads had recommended.

Dr. Holmes made the added objection that the council was interfering with the work of the departments, which did not come under its jurisdiction, the hospital and the police. He suggested that they worry over their own affairs.

Ald. Ashplant pressed for the details of these recommendations, with the result that the council wandered far and wide in its discussion, going into the matter of closing the two fire halls at every length. When they came to the matter of the council that it was not yet decided what halls should be closed, and it was not the intention to close any halls until the matter had been referred to the council.

Follows Protest. This statement followed a protest from Ald. Holmes that the closing of the halls was a matter of policy which certainly should be dealt with and discussed by the council.

When Ald. Douglass got to his motion to cut all department heads, the mayor again brought forth his proposal to have a salary bylaw introduced. This again launched a hot discussion, which resulted in the end on a 7 to 4 vote again.

Ald. Watkinson and Ald. Holmes refused to vote on the matter, and were recorded as opposed. Ald. Watkinson refused to vote, as he said the council was only dealing with half the question. Ald. Holmes refused to vote on this motion, and his own amendment also, because he had asked the mayor for certain information, and that was not forthcoming.

Proposal Ridiculous. "It is ridiculous to ask us to vote on recommendations which we know nothing about," said Ald. Ashplant, when the matter of adopting the recommendations which it was said came from the department heads, was broached. He said that the mayor should be ready to present something intelligent for the council to vote on.

Mayor Wilson said that if he was a department head he would resent interference.

Ald. Ashplant wanted to know who was interfering. He was only seeking information.

Ald. Childs, who presented the resolution, remarked: "As far as I can understand, no recommendations have been made to the council by the department heads."

Ald. Ashplant: "That is what I believe, and the salary committee doesn't know what has been done. The thing is stupid all through."

Mayor Wilson said that he knew the department had been made. As to the details, "I don't care."

Dr. Holmes: "You are asking us to approve of things we cannot approve of. They are outside of our jurisdiction."

Change of Policy. Then the council meandered around to a discussion of the closing of the fire halls, and Dr. Holmes brought up the point that it was a change of policy. When the mayor said that the council would be asked to approve, Ald. Holmes pointed out that the mayor had stated that the two halls were being closed and the men discharged. If the halls were closed, then as a matter of fact the fire department had not as yet been reduced, as the halls could not be open with the men off, he contended.

Mayor Wilson said this was not

RIGHT. You'll wake up later," came back the alderman.

When it was said the fire halls would be closed afterwards, Ald. Judd got in one of his little jabs. "That word afterwards got us into trouble once before," he said. In this he was referring to the original salary resolution with the bonus clause in it.

Ald. Holmes: "Yes, I can see where we have got to watch for the nigger every time in the future."

Ald. May asked who were being discharged. The mayor replied that this matter could not be revived. "You could not take the authority out of the hands of the department heads," he contended.

"Will someone stop putting the authority in," remarked Ald. Ashplant.

Unnecessary Help. Here the council wandered back to the hospital question again, and when Ald. Ashplant demanded details, Ald. Cunningham assayed to pacify him by stating that Miss Ross, the new superintendent of nurses, had taken on much unnecessary help, and they had only cut down on this.

Ald. Ashplant jumped up to know if they had been interference with a department head, by telling her that she had unnecessary help.

Ald. Cunningham said not. The department was a sub-department of the hospital trust. There was no interference with department heads.

"All right," said Ald. Holmes, "then don't let us interfere with the police or hospital. They are none of our business."

Mayor Wilson said the council was asked to approve of the reductions made in the estimates.

"All right," came back the aldermen, "give us the information and we will deal with it. We are trying to gobble up too much as matters stand."

Mayor Wilson: The trouble seems to be that we have no control over ourselves.

Mayor Wilson here explained how the reduction had been brought about in the city hall, and this brought criticism. He said that the tax collector and his wife had been working nights for weeks, and the staff of the city treasurer had been working nights for weeks, trying to get the work out. They did this in order to disperse with the usual extra help, and thus save themselves taking a salary cut.

Crippled Staff. Ald. Ashplant then contended that this was not right. The efficient staff of the treasurer should not be crippled and the staff should not be asked to work such hours without remuneration.

Mayor Wilson here said that the city had a most loyal and efficient staff, and appealed to City Clerk Baker to support him in his contention that there has never been such co-operation between the staffs as there has been since the first of this year.

Ald. May took the wind out of this boast, when he remarked that the staff had been "scared."

At this juncture Ald. May asked what had been done with the department heads, and this brought the discussion into a new channel and paved the way for the Douglass resolution, calling for the reduction of the bonus from all salaries above \$2,500.

The mayor's proposal to get around this was the introduction of a salary bylaw, and he eagerly grasped Ald. Ashplant's resolution that such a bylaw be introduced.

Here the mayor ruled that a no-vote was recorded as opposed. Ald. Watkinson refused to vote, as he said the council was only dealing with half the question. Ald. Holmes refused to vote on this motion, and his own amendment also, because he had asked the mayor for certain information, and that was not forthcoming.

Proposal Ridiculous. "It is ridiculous to ask us to vote on recommendations which we know nothing about," said Ald. Ashplant, when the matter of adopting the recommendations which it was said came from the department heads, was broached. He said that the mayor should be ready to present something intelligent for the council to vote on.

Mayor Wilson said that if he was a department head he would resent interference.

Ald. Ashplant wanted to know who was interfering. He was only seeking information.

Ald. Childs, who presented the resolution, remarked: "As far as I can understand, no recommendations have been made to the council by the department heads."

Ald. Ashplant: "That is what I believe, and the salary committee doesn't know what has been done. The thing is stupid all through."

Mayor Wilson said that he knew the department had been made. As to the details, "I don't care."

Dr. Holmes: "You are asking us to approve of things we cannot approve of. They are outside of our jurisdiction."

Change of Policy. Then the council meandered around to a discussion of the closing of the fire halls, and Dr. Holmes brought up the point that it was a change of policy. When the mayor said that the council would be asked to approve, Ald. Holmes pointed out that the mayor had stated that the two halls were being closed and the men discharged. If the halls were closed, then as a matter of fact the fire department had not as yet been reduced, as the halls could not be open with the men off, he contended.

Mayor Wilson said this was not

BELFAST GANGS ADD TO VICTIMS

Incendiary Fires Cause Thousands of Pounds Damage.

Lord O'Neill's Castle Burned, Aged Peer and Wife Being Rescued.

DUBLIN, May 20.—Strong rumors were current here this afternoon that an agreement had been reached between Michael Collins, head of the provisional government, and Eamon De Valera, the republican leader. The rumors began circulating when at 3.55 p.m. after the afternoon the Daily Express had not yet resumed its sessions.

BELFAST, May 20.—Reports of the number of deaths in yesterday's shootings throughout Belfast vary from five to eight, while a dozen or more persons were wounded. The damage caused by the series of incendiary fires aggregated many thousands of pounds.

Three men who were shot upon avowing themselves Protestants died during the night.

The murder gangs were active early this morning. Two armed men entered the sawmills in the York street area, inquired the religion of the various workers, and shot dead a Catholic, John Connolly, apparently in reprisal for a similar shooting in the case of a Protestant yesterday.

Shanes Castle, the County Antrim home of Lord O'Neill, whose son is speaker of the Ulster House of Commons, was burned this morning by forty men, said to be from Tyrone. The caretaker was wounded while defending the castle. The raiders arrived after setting the fire.

Lord O'Neill, who is 83 years old, and Lady O'Neill were rescued by neighbors.

It is reported here that the Ballynane station was attacked and badly damaged by raiders last night. Details are lacking as communications have been cut. Ballynane, in County Antrim, near Port Glenone. The Martinsburg station on the Cushendall line, and also the police barracks there, are reported to have been destroyed.

Dispatches from Northern Ireland are to the effect that Sinn Féin forces have captured the police barracks at Glenamart, Martinsburg, Carnarough and Cushendall, all in County Antrim.

The garrison of the Martinsburg barracks put up a stiff fight, and held off the raiders until its last cartridge was expended. The bank at Glenamart was captured in addition to the barracks.

FIRE MANSION. Roscrea, Tipperary, May 20.—Fifty men attacked a mansion here this morning, and after binding and blinding the servants, sprinkled oil about, set fire to the place, and departed, firing shots through the windows.

The servants succeeded in freeing themselves and after a long struggle extinguished the flames, saving the mansion.

DUBLIN, May 19.—The Daily Express met today expecting to learn something of the progress of the negotiations between Michael Collins and Eamon de Valera, on the position that would not, and now you want a notice of motion.

The mayor referred the question to Ald. Ashplant, whom he said was well versed on procedure, and the latter said that the motion would not require notice, as it would come from a member of the committee in the form of a minority report.

The mayor then went off on another strain. "Be careful, gentlemen, what you are doing. You are hitting at the heads of our departments. What is the object? We don't want any hasty resolutions."

"It was the first salary resolution that was hasty," shot back Ald. Judd. "The mayor here called for the motion and second of the resolution to lay their cards on the table and not to camouflage their motion. 'What is it you want done? Is it to permanently reduce the salaries of these officials?' he asked."

Ald. Judd answered that the trouble in the past had been that the cards had not been on the table. Had they been when the matter was first introduced there would have been no trouble.

Ald. Douglass said there was no camouflage about his resolution. His motion called for a permanent reduction in the salaries of the officials in question.

Mayor Wilson here went over the names of the officials that would have their salaries cut, and gave the amount, which brought the shot from Ald. Ashplant that the mayor was quite anxious that the council should have lots of detail now, but in regard to the other salary cuts he was not so willing.

Ald. Watkinson contended that only a part of the question was being dealt with. How about the garbage men?

Ald. Cunningham said their case would come up later, and intimated that their cut might be put back.

Ald. Judd, Douglass, May and Ashplant voted for the Douglass resolution. Ald. Cunningham, Ashton, Bean, Drake and Childs voted against. Ald. Holmes and Watkinson would not vote, and were recorded in opposition.

OLD RESPECTED RESIDENT OF BELMONT SUCCUMBS

W. H. O'Dell Passes On His 81st Birthday.

W. H. O'Dell, one of Belmont's oldest and most highly respected citizens, passed away Friday afternoon, May 19. He was born in Belmont in 1841, and died on his 81st birthday. During his life he always took great interest in the welfare of the community. He was a Liberal in politics.

He was married in 1870 to Selina Cole, of Yarmouth, who predeceased him fifteen months ago. Mr. and Mrs. O'Dell and family were members of the Methodist Church here.

Surviving him are two brothers, C. L. O'Dell of Port Huron, and John O'Dell, two sisters, Mrs. Amos Carrothers of Belmont, and Mrs. Fitzpatrick of London; three sons, W. H. O'Dell of Wetsaskiwin, J. S. of Hanna, Alberta; C. C. of Vancouver, and three daughters, Mrs. Laird of Toronto; Mrs. Baker of New York City, and Miss Clark at home.

The funeral will take place from his late residence on Monday, May 22, at 2 p.m. Interment at the fifth concession cemetery in Westminster.

CARMEN TO MEET COMPANY REPRESENTATIVES AGAIN

Parley Friday Did Not Reach Settlement—Another Held Saturday.

The employees of the London Street Railway did not come to any settlement when they met the company's representatives Friday afternoon, and as a result will have another session Saturday night in an attempt to come to some agreement.

It was announced that the conciliation board will not be called in again until every effort of the men and employers to come to a mutual agreement is exhausted.

REVOLVER STOLEN FROM THEATRE

A large-sized revolver was stolen from the Patricia Theatre early Saturday morning by a man who is believed to have hidden himself in the building while the Friday evening show was in progress.

The theatre was locked for the night at 11:40 p.m. and the front door was found unlocked at 2 o'clock by the police.

Detectives investigated the case Saturday morning and reported that the revolver was the only article missing from the premises.

OPERATE "NAVY" ON DETROIT RIVER

Detroit, May 20.—Michigan's "prohibition navy," which recently went into operation on the Detroit River, at present consists of two speed boats capable of 28 miles an hour.

Each is manned by members of the state police, armed with rifles, machine guns and tear gas. Plans of the Michigan public safety department call for a fleet of eight speedboats by midsummer.

FOREST MAN DIES IN SASKATCHEWAN

Winnipeg, Man., May 20.—Chas. H. Rowe, one of Strassburg, Sask., pioneer businessmen, passed away Friday after a short illness, 56 years of age. He leaves a wife and a son, Chesley, and an adopted daughter.

Rowe was one of Strassburg's most progressive citizens. He came west fifteen years ago from Forest, Ontario, and did considerable farming, having a section under cultivation. He was a very jovial disposition, ever ready to give advice, a helping hand, and willing to take hold of new projects for the betterment of town or vicinity.

FINDS WATERLOO DISEASE-FREE

Special to London Advertiser. WATERLOO, May 19.—Sanitary Inspector Flynn of Waterloo, announced today that the town is now free of contagion. He stated that there have been a number of mild cases of scarlet fever throughout the town during the last few months, but as a result of precautionary measures, the disease was prevented from spreading with the result that the town has been finally freed of all forms of contagious disease.

KINGSTON AGAIN HYDRO'S CHOICE

HAMILTON, May 19.—The only report given out from the hydro conference this morning was that Mr. Kingston of St. Catharines had been renominated, and no other names submitted to Premier Dray.

President Ellis was out of the city today, and it was stated that a full statement would be given out later.

INGERSOLL MAN DIES SUDDENLY

Special to London Advertiser. INGERSOLL, May 19.—Stricken with heart-failure, Thomas Bolton died suddenly today at the home of his nephew, Harry Goff, West Oxford. He was in his 76th year. For many years he lived in Dereham Township, where he had been connected with sawmills. He was unmarried, and for a number of years had made his home with Mr. Goff. He had been around as usual this morning, but was heard to fall from a chair in which he had been sitting, and when picked up, was dead.

DR. E. BICE of Queen's avenue had his motor car badly damaged by a passing motorist, as it stood at the curb Thursday night. Although the number of the car which smashed into the doctor's motor was not ascertained, the police have a good description of the driver, and a police court case is likely to follow.

FINANCIAL AND COMMERCIAL

DAIRY PRODUCE FEATURES MART

Butter and Eggs More Plentiful and Show Slight Decline.

Dairy produce was the feature of the local market on Saturday. Butter was more plentiful than it has been for many weeks, and the price declined to 35c per lb wholesale and 37¢ per lb retail.

Eggs were also plentiful, and were selling at 27¢ per dozen wholesale and 30¢ retail.

There was a good demand for vegetables, such as asparagus, which was scarce, sold for 80c and 40¢ per dozen. Radishes were quoted at \$1.00 per dozen, green beans at 20¢ per dozen, and rhubarb at 40¢ per dozen.

Potatoes advanced in price to \$1.75 wholesale and \$1.85 a bag retail. Live hogs are quoted at \$12.50 per cwt for select.

Hay is quoted at \$16.50 per ton. The inclement weather deterred a great number of citizens from attending the market.

Grain, per cwt.—Wheat, No. 1, 40 to 41; No. 2, 39 to 40; No. 3, 38 to 39; No. 4, 37 to 38; No. 5, 36 to 37; No. 6, 35 to 36; No. 7, 34 to 35; No. 8, 33 to 34; No. 9, 32 to 33; No. 10, 31 to 32; No. 11, 30 to 31; SUBURBAN PROPERTIES

Low Taxes on all These Properties.

- 15 acres—Almost adjoining the city, excellent garden soil (gravel loam), 3 1/2 acres young orchard, attractive brick house (furnace), large basement barn, good water. A real home for \$7,500. Owner might break this property into two or three pieces.
- 12 acres—about 2 1/2 miles out, splendid view over city, soil mostly gravel loam, about 1 acre of plum, pear and cherry orchards, beautiful detached house, 2-story brick, 4 bedrooms, 2 1/2 bathrooms, full-sized basement, small barn, chicken pen, etc. Price \$6,500. Owner will consider exchange for city property.
- 20 acres—Near stop 5 on L. & P. S. electric line (2 city blocks to station), excellent garden soil, no waste land, excellent frame cottage, three bedrooms, living-room, dining-room, kitchen, full-sized basement, small barn, chicken pen, etc. Price \$6,500. Owner will consider exchange for city property.
- 23 acres—only 7 1/2 miles from city on one of the main highways. The soil is mixed clay, gravel and sand loam. There is a comfortable old-fashioned brick house and basement barn, small orchard, good water, etc. A snap for \$2,900. Possession after crop taken off. See this now.
- 50 acres—One mile off provincial highway, east of city 10 miles, splendid clay loam soil, very comfortable home, like house and good basement barn. Price \$6,500. Owner might trade for small city house.
- 50 acres—8 1/2 miles northeast of city, good location, clay loam soil, nearly all under cultivation, 2-story brick house and large basement barn. A snap at \$5,500. Half cash.
- 6 acres—Southwest of city, excellent gardening soil, 1 acre of young orchard, no building. Price \$2,000. Will exchange for small city cottage.

- 100-Acre farm, 2 miles from Thorndale, A No. 1 frame house, good bank barn and driveway, all buildings in first-class condition, crop all in. Possession at once. Price \$8,000; \$2,500 down will handle.
- 100-Acre farm, 13th concession, London Township, A No. 1 land, good bank barn, holds 40 head of stock; 1 1/2-story brick house, 5 acres bush, good orchard, plenty of water, beautiful location, fences all in A1 condition; woven wire. Price \$10,500.

If you have anything to exchange call around and see Griffin & Co.

REASONS

Why You Should Own Your Home:

1. A Home is the best investment you can make, and it will yield the biggest returns on your money.
2. It creates a feeling of assurance and independence. It is an asset upon which you can raise money in times of financial stress. It is the big step toward future happiness and success.
3. You need not wait until you have the full amount in order to begin purchasing your home. Any number of builders and owners will finance the greater portion of the transaction through your Real Estate agent. By making payments to the owner each week you pay for your Home with the same amount of money (sometimes less) than you are now paying for rent. Each year your equity in the property becomes greater, and the weekly amount to be paid to the original owner becomes smaller.
4. In the event of sickness or financial reverses you must pay your rent or "get out." If you are buying your Home you can make an arrangement to pay interest on the loan and necessary expenses on the property, i. e., Ground Rent, Water Rent and Taxes, until you "get on your feet." Therefore, those who desire to purchase a Home should not be deterred by the timid thought, "suppose I should get sick or out of work."
5. When you live in your own Home you are not living in an atmosphere of uncertainty, worried and waiting for the landlord's

notice of an increase in your rent, or still worse, those dreaded words, "Sorry, but this house has been sold."

6. You will be secure in the thought, "I will not be forced to move from the neighborhood in which I have lived for many years, now that I own my own Home."

"I can continue to worship in the same church; my children can continue at the same school, and I can continue the association and friendship of my neighbors."

7. You do not have to importune a landlord who is deaf to your urgent plea to fix the roof, the furnace or the porch. Any improvement, any changes in the house, may be made without consulting anyone—your wife excepted.

8. When you Own Your Home you add prestige to your standing in the community and among your business associates.

9. To Own Your Own Home is a duty you owe your wife and children—just as important as life insurance. In the event of your death, your family need not "move out" because they cannot pay high rent. You have left them more than a Home—something tangible upon which to realize dollars when needed.

10. Finally, the man who invests in a Home is richer than the man who invests in rent receipts, not only in dollars and cents, but greater still—in peace of mind.

TENDERS.

For Bridge Over River Thames, Western University, London, Ont.

Sealed tenders will be received at this office up till noon on Wednesday, May 24, for the construction of a steel and reinforced concrete bridge over the north branch of the River Thames. Plans and specifications may be seen at this office or at the office of R. E. W. Hagarty, consulting engineer, Temple Building, Toronto, Ontario. A set of plans and specifications will be furnished from this office to contractors for figuring upon making a deposit of \$25, of which amount \$15 will be returned to them upon the return of plans and specifications. The lowest or any tender not necessarily accepted.

JOHN M. MOORE & CO., Architects. 555-K-1

MAIL CONTRACT.

THE Cove Ranges are now in general use for Rifle practice and the public is warned to keep clear of lots 23, 24 and 25, between the Pipe Line and First Concession Roads, Township of Westminster. Trespassers on the Cove Range itself will be prosecuted according to law.

EUG. FISET, Major-General, Deputy Minister, Department of Militia and Defence, Ottawa, May 11, 1922.

MAIL CONTRACT.

SEALED TENDERS, addressed to the Postmaster-General, will be received at Ottawa until noon on Friday, the 26th day of May, 1922, for the conveyance of His Majesty's mails, on a proposed contract for four years, twelve times per week between Woodstock postoffice and Canadian Pacific Railway station, station letter-box and C. P. R. postal cars, from the 1st of October next.

Printed notices containing further information as to conditions of proposed contract may be seen and blank forms of tender may be obtained at the postoffice of Woodstock and at the office of the postoffice inspector, London.

D. J. McLEAN, Postoffice Inspector, London, May 19, 1922.

MAIL CONTRACT.

URGES LAWS FOR CHILD PROTECTION

Miss Charlotte Whitten Sees Need for Social Legislation.

TORONTO, May 19.—"The care of the mother is something that requires provincial legislation in Canada," said Miss Charlotte Whitten, assistant secretary of the Social Service Council of Canada, speaking before the annual meeting of the Toronto Child Welfare Council this afternoon.

Alderman Mrs. Sydney Small of this city in an address spoke of some phases of Child Welfare that were taken up at the Pan-American conference of women in Baltimore.

"I noticed particularly that all through the reports on child welfare that the delinquent and the near delinquent child was most often referred to," she said.

"I feel that the reason there is so much delinquency among children today is because of the parental neglect in their homes. The question is—how to help this condition?"

"I advocate that more attention be paid to the danger signals of delinquency of the child."

MANCHESTER MILL LOCKOUT AVERTED

MANCHESTER, May 19.—The threatened lockout of operatives in the cotton-spinning trade to the number of 140,000 has been averted. It was announced today.

The dispute was over the workers at Roston and Middleton in the Oldham district, who were on strike against a new wage cut, the master cotton spinners' federation deciding to lock out the other workers unless the strikers returned. Today an announcement was made that the strike had been settled, and that the men would resume work Monday.

Come to Church Tomorrow

"YES, I know all the excuses. I know that one can worship the Creator in a grove of trees or by a running brook, or in a man's own house, just as well as in a church. But I also know as a matter of cold fact the average man does not thus worship."

Here are a few benefits to be derived from church attendance:

"You will listen to and take part in reading some beautiful passages from the Bible. And if you are not familiar with the Bible, you have suffered loss."

"You will take part in singing some good hymns."

"You will meet and nod or speak to good neighbors. You will come away feeling a little more charitably inclined toward

all the world, even toward those excessively foolish young men who regard church-going as a soft performance."

"Join in church work for the sake of showing your faith in your works."

Make your start in church service tomorrow. A fair trial of church attendance will convince you it's well worth while.

My Favorite Verse in the Bible

WE WOULD SEE JESUS: John 12:21.

BY REV. F. H. LARKIN, SEAFORTH, ONT.

THIS is a request—made at a given time, in a given place, and under given circumstances. It is the request for an interview with Jesus, presented to one of our Lord's disciples by certain Greeks, who came to worship at Jerusalem. It is much more than local or casual in its reference. There is something deep and vital about this request; it has a big, broad, universal application. It is the outcome of a soul that has found itself, that is learning its greatest need, and that sees, or thinks it sees, in Christ the satisfaction of its need.

Hugh Peter Hughes was one of the foremost spiritual forces of the last generation. He was a man with a message, and his message was not only to London, where he lived and wrote; it was to the world, to mankind. When he was nearing the end of his days on earth he foreboded the approaching future when his body would be laid away in the grave, and he saw there the opportunity for a continued and continuing message—the message to be inscribed on his monument; and today as people enter that cemetery and pass the grave of Hugh Peter Hughes there stands the monument, and on it the inscription, "Thou, O Christ, art all I want." This inscription was placed there on fulfillment of his own explicit instruction, and it reveals a man whose central and ardent aspiration was to see Jesus, and who advertised the fact for the information and guidance of others.

More than two hundred years ago an English merchant traveling in Scotland said: "I came to Irvine and heard a well-favored, proper old man, with a long beard, and this man showed me all my heart. Then I went to St. Andrew's, where I heard a sweet, majestic-looking man, and he showed me the majesty of God. After him I heard a little fair man, and he showed me the loveliness of Christ."

This last man was Samuel Rutherford, to whom we are indirectly indebted for that great hymn, "The Sands of Time are Sinking." Mrs. Cousins, who wrote the hymn got very much of her inspiration from Rutherford's letters, about which Mr. Spurgeon said: "These letters were the nearest thing to inspiration which can be found in the writings of men. They are about 300 in number, and Christ is the theme of them all. They were written in prison, where Rutherford was put for loyalty to his convictions in a sterner age than ours. At night he used to dream about Christ, and in the day he found his supreme delight in writing about Christ. It is any wonder that in listening to such a man the English merchant became conscious of the loveliness of Christ? Thousands of others have been similarly enlightened, and gladdened, because through these letters they have seen Jesus."

On the Sunday of Oct. 23, 1921, Dr. Fodick of Union Seminary, New York City, was speaking to a congregation in that city just after his return from a tour in the Far East. He had a good deal to say about Oriental problems as they exist in China and Japan—about the wonderful intellectual awakening, the influx of new knowledge, especially at the university centers, and then he made this personal appeal: "Perhaps here this morning some young men and women, eager, forward-looking, liberal in thought and spirit, desire to make the worthwhile investment of enterprise and service. To you I offer one of the most stimulating, intellectual and spiritual challenges on earth today. Go out to Peking or Tokio, to these multitudes of young Oriental students, drinking in our new thinking for the first time like dry sponges fallen at last in water, and see if you can make Jesus Christ real to them—that is, make them aware of Jesus; interest them in Jesus; get them to respond to Jesus; pour the message of truth into their minds and hearts so that they may see Jesus as He is. This is what China and Japan needs, and it is what Canada, what we all need."

Here is a rare sentence from T. R. Glover, Fellow of St. John's College, Cambridge: "To see Jesus as He is calls for all we have of intellect, of tenderness, of love, of greatness."

It calls for all we have of intellect. A man does not have to be exceptionally intellectual or scholarly to know, and honor, Jesus Christ, any more than that intellect and education in themselves and by their mere possession qualify one to give to our divine Lord the glory due unto His name—which they certainly do not. To be in joyful and beautiful fellowship with Christ one does not need to have taken a post-graduate course in some famous seat of learning; he does not even need to have reached the highest rank in a graded public school. It is a sufficient qualification that he is a man, with the nature, the faculties, the impulses, the inward hungers of a man. But granting this, it is still true that the intellect of man finds in Christ infinite scope for research, a field of investigation to occupy all eternity—before which we may well say: "O the depth of the riches, both of the wisdom and knowledge of God; how unsearchable are His judgments, and His ways past finding out."

To see Jesus as He is calls for all we have of tenderness. In this world of ours there are hard, callous, inflexible men, whose gentler sensibilities have never come to life—like the man with an iron leg, and concerning whom it was remarked by one who knew him well that his iron leg was the softest thing about him. Obviously that man as he was, with his wholeness and iron temperament, was not a man to know and to admire Christ, or to see any beauty in Him that He should be desired. He would probably agree with that other critic who said to Wendell Phillips, "Christ is weak." But let a man cultivate in himself the spirit of tenderness, let him realize a uniform and parallel growth in heart and head power, and Christ will come to have a larger and richer meaning to that man. Christ is the beginning of all knowledge," wrote Carlyle, and so it is. The man who has given to the world the real Samuel Johnson was Boswell—the friend of Johnson, his admirer, his lover. Looking at his hero through friendly eyes, listening to him with friendly, sympathetic ears, appraising him with an admiring mind, interpreting him through a devoted, loyal heart, he saw Johnson in his reality and at his best. There were others in whom Johnson awakened dislike and aversion; but these did not see him as Boswell did. Understanding, comprehension, appreciation belong to him and him alone who looks at another through the discerning eye of love.

Who, then, best and really understood Christ? Not the Scribes and Pharisees; not those who scornfully asked, "By what authority doest Thou these things?" not those who sought to entrap Him in His talk; not those who discredited and damn Him with the innuendo remark, "This man receives sinners and eats with them"; not persons of that type, but His disciples; the mothers of the little children; the people of honest and open mind, like Mary of Bethany, John the beloved disciple, and notably the love-constrained Paul. Love gave them keenness and correctness of vision; love gave them insight; love made them the children of light; love qualified them to see Jesus, and to see Him as He is. As it was then, so is it now.

BAPTIST

Adelaide St. Baptist Church

Adelaide and King Streets.

G. A. Leichter, Pastor.

FIND INCREASE IN BUSINESS ORDERS

Principal Cities in Dominion
Report Slight Advance
in Trade.

WINNIPEG, May 19.—(Canadian
Press.)—Little change in Canadian
business conditions is apparent in
advice received from many of the
principal centers, states the weekly
trade report of the Canadian Credit-
men's Trust Association.

Montreal, Quebec, Toronto and
other eastern centers are almost
identical. Manufacturers and whole-
salers find orders slightly on the in-
crease, especially in ladies' and
men's wear, drygoods and small
hardware, etc., while an improvement
is also noticeable in boot and shoe
circles. Retail merchants report
business better, but "choppy" owing
to wet weather.

Winnipeg wholesalers as a whole
find business still on the upgrade,
with hats, shoes, hardware,
furniture and heavy lines still far
from good. Retail trade is fairly
satisfactory, merchants say. Wet
weather during the last week has
interfered with trade throughout
Manitoba, but the flood situation
along the Assiniboine Valley has im-
proved, and it is thought that the
damage will not be nearly so large
as anticipated.

Saskatchewan reports indicate
little change in business conditions
which have been rather handicapped
by wet weather. This and farmers
being held on the land has kept
down trade at country points.

Vancouver wholesalers find every
indication of a satisfactory year's
business. The outlook is for a good
crop and better collections from
farmers and retailers in the fall.

CANADA GAINS HAY MARKET

WASHINGTON, May 19.—(Cana-
dian Press.)—United States hay pro-
ducers and shippers are losing the
Cuban hay market to Canada, ac-
cording to Representative Newton of
Missouri. In a speech advocating
development of interior waterways,
Mr. Newton said that the Middle
Western hay merchants were com-
plaining that because of high rail-
road rates and lack of interior water-
way transportation they could not
compete in the Cuban market with
Canada, which is sending large ship-
ments to Cuba by water.

Harvey Tailored Underwear For Summer Wear and Comfort

The many superior and exclusive points of Harvey Tailored Underwear make an irresistible appeal to the discriminating woman. She chooses Harvey Tailored Underwear for its close, comfortable fit, its dainty finished appearance and lasting wearing qualities. Harvey Underwear is tailored—and is the only Made-In-Canada Tailored Underwear. It is cut to an accurate pattern, shaped, and not stretched to fit, and sewed with a flat seam. This gives a comfortable, easy and snug fitting garment, free from strain and chafing at any point. The Harvey Tailored is the only open combination that will stay completely closed. The great comfort of this feature is exceedingly appreciated. Harvey Tailored Underwear is carefully reinforced at the points of greatest wear. The added strength of the extra thickness insures great resistance to wear and the action of washing. Women who buy Harvey Tailored Underwear quickly realize that these garments will give unrivalled comfort and wear.

Featuring the Harvey Tailored and Reinforced Garments This Week

Lisle Vests (white only), low neck, plain band top, reinforced arm, sleeveless or bodice top. Prices \$1.00, \$1.15, \$1.50 and \$1.75
Lisle Bloomers (white only), elastic top and knees, reinforced seat, a good fitting and comfortable garment. Prices \$1.35 and \$1.50
Mercerized Bloomers (white only), elastic top, reinforced, finished with narrow crochet edge. Prices \$2.00 and \$2.25
Lisle combinations, low neck, band finished top, reinforced at points of greatest wear, tight or loose knee, open style. Prices \$1.75 and \$2.00
Mercerized Combinations, low neck, reinforced top (reinforced), tight or loose knee, open style. Prices \$3.00 and \$3.25

The Traveling Instructor of "Nemo" Hygienic Institute

will spend all next week in our Corset Section for the purpose of personally supervising the fitting and choosing of "Nemo" Corsets. The "Nemo" Corset service of our Corset Department is well known to our hundreds of patrons, and the visit of this expert instructor is an additional service, of which we urge as many as can to take advantage. The many who remember last year's demonstration need only to see this announcement to be here without fail—so wonderfully has she helped to health and comfort women who have had the most difficult corset problems. Visit the "Nemo" demonstration—Second Floor.

Nemo Self-Reducing Corsets reduce and support the abdomen. The gentle friction between the straps and the body of the wearer gradually drives away excess flesh.
MODEL NO. 420—For the average stout figure with excess flesh, evenly proportioned. Low top, with elastic inserts, has long flexible skirt. Pink coutil. Sizes 22 to 36. Price \$5.00
MODEL NO. 402—For the short, stocky figure, excess flesh on lower abdomen and in groin section. Semi-elastic in curve back, gives straighter lines to the lower back, with ease in any position. White coutil. Sizes 22 to 36. Price.....\$7.75

OTHER SELF-REDUCING MODELS FOR DIFFERENT TYPES.

Nemo Wonderlift Corsets, lift up and hold in healthful position the weakened and fallen abdominal organs. It also prevents the development of such a condition when worn in time.
MODEL NO. 560—For medium to full figures, very low bust with elastic inserts, long skirt. The wonderful Bandlet is completely adjustable to the individual lines of the wearer. Its supporting and reducing power makes the figure smaller at once, and permanently. White coutil. Sizes 23 to 36. Price \$7.75
MODEL NO. 554—Similar to Model No. 560, but with medium bust. Price \$7.75
Nemo Kop-Service Models are adapted to the large class of women who do not particularly require abdominal reduction, but are too heavy in hips and thigh.
MODEL NO. 514—For medium to full figures, very low bust, with elastic inserts, long skirt, elastic inserts in back, elastic bands at sides to control thigh flesh, diagonal boning in front gives straight lines over the abdomen. Pink coutil. Sizes 23 to 36. Price \$6.50
Other Kop-Service Models ranging from \$3.00 to \$10.00

BREAD

Parnell's Butter Cream Bread Is a
Treat You Owe Your Family

To produce a better and tastier loaf has ever been the aim of the
Parnell laboratory—a loaf that will meet favor with young and old
and that contains a maximum of energizing ingredients.

Butter-Cream BREAD

the latest addition to the Parnell family with its rich golden crust,
its even texture and its delicious palate satisfying body, is to our
minds the supreme loaf in "Bread-dom" today.

We'd like to have you try it and will be glad to send a wagon to
your door if you do not use Parnell's Bread now.

Costs no more than other breads.
Surely it's worth a try-out to you.
