Winnipeg, April 30—Unexpected developments yesterday in the inquiry being conducted by Messrs. Walsh and Johnston in preparation of the case for the commission means that the sittings here will be continued most of next week. It was expected that adjournment would have taken place this evening to Toronto, but Mr. Walsh yesterday secured a second order from Judge McDonald, for the attendance of another group of witnesses. They are J. B. McArthur, contractor; E. A. James, general manager of the Waterways; Leslie, manager of the Imperial bank here; Whitely, manager of the Merchants; McLaughlin, inspector of the Trades; Parsons, one of the syndicate, and others. All have been served.

These cannot be disposed of, according to Mr. Walsh, before Thursday. It is expected the bankers will tell of the high financing in connection with the Waterways and the Construction Company.

Walsh Returns to City.
W. A. Faulkner, the much-talked-for witness, returned to the city this morning and was served with a subpoena. It is understood that he will deny many of the stories with which his name has been mentioned during the past few days.

F. J. Nolan arrived this morning from Lethbridge and will attend the remainder of the sessions here. The cross-examination of G. D. Minty was resumed this morning by Mr. Bennett. He took up the agreement made by the syndicate with Cornwall for the securing of guarantees of bonds of a subsidy. Mr. Bennett took up the statement of Emmerson that he understood that a portion of the \$250,000 stock of the syndicate would have to be allotted to political parties to secure the consent of the witnesses. He did not know anything of that, but had not attended all the meetings of the syndicate.

All the syndicate arrangements having fallen through," said Mr. Minty. "Bowen came upon the scene and introduced to him by a letter from Cornwall, dated May 5th, 1908."

"What was the Davidson, Toronto, option referred to in that letter?" asked Mr. Bennett.

"The assignment in bank of Davidson's interest in the syndicate to one of the \$250,000 stock of Cornwall," Bowen took it up as indicated by his letter.

"Why were you told to gather outstanding interests in the syndicate at part?"

"To Give Bowen Option.
"Simply because I gathered Bowen wished to get an option on the charter held by it."

"Had you learned then that Bowen represented Clarke?"

"Not till Bowen came back in June, 1907."

"Were all interests collected then?"

VOLUME V.

COMMISSION WILL CONTINUE IN SESSION IN WINNIPEG FOR WEEK

Unexpected Developments Opens up New Line of Enquiry and Witnesses Have Been Subpoenaed.

FAULKNER HAS RETURNED TO WINNIPEG AND HAS BEEN SERVED

J. D. McArthur, Contractor, and Three Winnipeg Bankers Have Also Been Summoned Before Commission.

Bankers Are Expected to Give Evidence Concerning the High Financing of the Waterways Railway and the Canada West Construction Company—Faulkner, it is said, Will Deny Many Statements Made Against Him During the Last Few Days—Nolan Has Arrived in Winnipeg From Lethbridge.

Winnipeg, April 30—Unexpected developments yesterday in the inquiry being conducted by Messrs. Walsh and Johnston in preparation of the case for the commission means that the sittings here will be continued most of next week. It was expected that adjournment would have taken place this evening to Toronto, but Mr. Walsh yesterday secured a second order from Judge McDonald, for the attendance of another group of witnesses. They are J. B. McArthur, contractor; E. A. James, general manager of the Waterways; Leslie, manager of the Imperial bank here; Whitely, manager of the Merchants; McLaughlin, inspector of the Trades; Parsons, one of the syndicate, and others. All have been served.

These cannot be disposed of, according to Mr. Walsh, before Thursday. It is expected the bankers will tell of the high financing in connection with the Waterways and the Construction Company.

Walsh Returns to City.
W. A. Faulkner, the much-talked-for witness, returned to the city this morning and was served with a subpoena. It is understood that he will deny many of the stories with which his name has been mentioned during the past few days.

F. J. Nolan arrived this morning from Lethbridge and will attend the remainder of the sessions here. The cross-examination of G. D. Minty was resumed this morning by Mr. Bennett. He took up the agreement made by the syndicate with Cornwall for the securing of guarantees of bonds of a subsidy. SEMI-WEEKLY EDITION

NUMBER 459

IDENTITY OF THE MYSTERIOUS MR. PARKIN, OF CALGARY, IS DISCLOSED.

Calgary, April 30—The identity of the mysterious Mr. Parkin from Calgary, whose name is appearing prominently in the proceedings of the Royal Commission as being the organizer for Alberta, of the Liberal party, is disclosed here in connection with the University of Saskatchewan. The man who was convicted of passing worthless checks here is also the same man who was convicted of passing worthless checks here some months ago.

FOUR MILLION DOLLARS WORTH OF BUILDING IN CITY THIS YEAR

Conservative Estimates Places Building in Progress and Contemplated at This Figure—No Disastrous Labor Difficulties Anticipated—Among New Buildings Are Five Financial Institutions.

Molsons Bank for a \$400,000 structure adjacent to the Empire Block, on Jasper avenue. The foundations of the building have already been laid. Work has also been commenced on the building of the Canada Permanent, to be erected on the west side of McDougall avenue, between Jasper avenue and Rice street. Contracts for a Dominion Bank building at the southwest corner of McDougall avenue and Jasper avenue and a National Trust Building, which will go up just west of the Molsons Bank building, have already been let. The Union Bank will also erect a handsome building in the Gaspey Block.

The Public School Board are making an outlay of nearly a quarter of a million in new school buildings, the two chief structures being the Seventh street school and the new High school, on Second street in the Hudson's Bay neighborhood.

New Exhibition Buildings.
On the new Exhibition Grounds at least \$75,000 of new buildings will be erected before the opening of the fair in August. Within the year the city will build two new fire halls, one on First street, near Newwood, and the other in the west end. The present City Hall building is to be extended to the east side of the street, and a large addition is to be made to the car barns on Synchuate avenue during the coming summer, and a public library building, and an armory for the local militia will probably be commenced this year.

Among other large buildings in course of construction or ready for the beginning of work are the enlargement of the Alberta and Cecil Hotels, the Crystal Block, on the east side of Fifth street, south of May street, the Court-house, on the corner of May street and McDougall avenue, office building of K. A. McLeod, corner of Rice and McDougall, further addition to King Edward Hotel, new City Hotel, the MacDonald Block, corner of Jasper and Second; the Masonic Temple, corner of Jasper avenue and Sixth street; C.N.R. round-house and machine shop extensions; Grand Trunk Pacific freight sheds; and high-level bridge, construction of which will be commenced as soon as the Provincial Legislature has approved of the agreements between the cities of Edmonton and Strathcona and the C.P.R.

Building permits taken out in Edmonton in 1908 numbered 683, representing an aggregate value of \$2,490,847. Last year 880 permits were issued, representing an outlay of \$2,123,167. Over fifty per cent. of the permits of 1908 were for residences. While the number of permits taken out in 1909 showed a large increase over the total of 1908, the aggregate value was nearly half a million less. This was due to the fact that during 1908 two permits alone represented \$1,480,000 of the value of the buildings, amounting to \$1,250,000, and that of the court-house, \$230,000. Apart from these two permits, the total for the year was \$1,069,847, just half that of last year. Of the 880 permits taken out last year, 461 were for residences, aggregating in value \$899,110, or an average of slightly more than \$1,900 for each dwelling-house. Conservative estimates place the value of buildings now in progress or under contemplation at \$4,000,000.

Hope for the future is bright. Of course should trouble arise in the building trades these latter figures would be seriously affected. In case of a strike or lock-out of any number of buildings in course of erection would be discontinued until the strike or lock-out was over. Buildings would not be awarded. Difficulties as to wage adjustments would be most likely to arise between the carpenters and painters. It is hoped that there will be no trouble this year, such as tied up building operations for such a length of time last summer, when the union carpenters went on strike.

The outlook for the city for all branches of the building trades is very bright, providing there are no untoward and labor troubles. The first four months of 1909, a total for the first four months of the year of \$87,565, as against \$52,925 for the first four months of 1908. These figures show that the building trade of Edmonton is more than holding its own, and indicate the sure and steady growth of the city.

The biggest work already in progress is the construction of the new Parliament Buildings, of which the cornerstone was laid on October 1st last. His Excellency the Governor General. The cost of this building, when completed, will be in the neighborhood of a million and a half of dollars. A great deal of the steel work is already in place. The height of the dome of the building will be judged from the fact that it is to rise nearly 100 feet above the highest point to which the steel has yet been raised. It is expected that the building will be completed and ready for occupation in about four years' time.

The New Bank Buildings.
Bank buildings hold a prominent place in the building schemes of the city. Five financial institutions will erect buildings this summer at a cost of over a quarter of a million dollars. A permit has been taken out by a little patch of alfalfa in his back yard he can shoulder his scythe, go out, cut down his grass, cure it in the sun, haul it away to the mill, and if he so desire there exchange it for four made of alfalfa hay, bring it home and turn it out to his wife and the servant, who in turn will convert this alfalfa hay meal or flour into bread, biscuits, pancakes or pastry.

At the present time more than half of the families of Omaha are eating hay. This hay eating is not confined to poor, but extends to those who are in comfortable circumstances. The wealthy as well as the poor, the laboring man as well as the idler are going into a hay diet, and they all say they like it.

FIRST CONVOCATION

Three Anglican Clergymen, Graduates From Saskatchewan University.
Saskatoon, April 29—The first convocation which has been held in Saskatchewan took place tonight, when eight-and-a-half students of Emmanuel, the Anglican school recently established here in connection with the University of Saskatchewan, attended the ceremony. A large number of local people were on hand at the interesting function, when the three candidates received their baccalaureate and hood, namely, Rev. Leslie C. Murray, Rev. Love of Humboldt and Likeman of Prince Albert. The affair, which was presided over by Archbishop Lynch, was held in the Lyric theatre, the students being divided as follows: Twenty-first, thirty-five seconds and twenty-two thirds.

Addresses were delivered by Archbishop Newham of the Anglican diocese, and Rev. Walter C. Murray, president of the Saskatchewan university. A musical program preceded the ceremonies. Archbishop Lynch reached here from England only yesterday, bringing with him twelve candidates for mission work in the west.

Ground was broken this week for the university buildings. The expenditure this year will be in the neighborhood of \$500,000.

CORNWALL HOTEL FIRE RESULTS IN 12 DEATHS

Were Asleep in Hotel When Fire Broke Out—Over 100 Occupants Major Beatty's Home Narrowly Escapes—Property Valued at Quarter of a Million Destroyed.

Cornwall, Ont., April 29—A disastrous fire broke out in the Rosemont hotel here today and before the flames were quenched twelve lives were lost and property valued at a quarter of a million dollars destroyed. The victims were all sleeping in the hotel. The missing are C. A. Gray, Montreal, his wife and two children; H. Hume, Peterborough; Mrs. Mrs. Archibald, Chas. Gagne, father of the Sterling Bank; Ben Fielding, accountant of the Bank of Montreal; Mary and Jennie Oliver, (not white) and Mrs. Elizabeth Gower. The Oliver girls were waitresses in the hotel for some time. Mrs. Gower was a German woman from Philadelphia employed at the hotel. Six bodies are under the debris still.

The flames jumped across the street and destroyed the Colquhoun Block, which has not been for the coolness and presence of mind of William Fitzgibbon, the well-known president of the Cornwall fire department, who was on duty at the time. The trouble would have been a disaster. Fitzgibbon woke Fielding, who in the smoke of the fire, who was on duty at the time, who was on duty at the time, who was on duty at the time.

The fire got great headway before it was noticed. John Gibeau, with his wife and son had a narrow escape. Mrs. Gray was a delicate woman and in trying to save her husband perished.

Major Beatty, M.P., London, had three children sleeping in the hotel. He awoke with a choking sensation. He clambered down the rope but not before he was badly burned.

CARPENTERS STRIKE IN REGINA

May Occur on Monday—No Settlement As Yet.
Regina, Sask., April 29—Carpenters and contractors here have failed as yet to come to an agreement and the present indications are that 200 men will go out on strike on Monday morning and probably be joined by electricians and plumbers. Failure to come to terms centers chiefly on the question of the open shop and not on the matter of the wage schedule.

The masters claim that under existing circumstances here the open shop is necessary. They claim that local unions take in a large number of incompetent men as members and they claim the right to employ non-union men if it suits them. The men still express confidence that they will win out, and say that if a strike takes place with the amount of work the contractors have on hand it will be a very short duration.

CHILDREN SAVED BY A FISHING LINE.
Kingston, Ont., April 30—While playing on the edge of a creek, Alison Whitmore, four-year-old son of Samuel Whitmore, fell into seven feet of water. He had gone down the bank, and when Mary Waterson, a fifteen-year-old girl, saw him, she called to him and he was rescued. Just as she started to swim for help and she saw the boy's submerged arm save his life. The line became entangled around his hand and arm. She dragged him to the shore and he was brought round again.

VERY BUSY DAY IN PARLIAMENT

Winding up Business Rapidly in Preparation For Prorogation in Two Weeks.

Ottawa, Ont., April 29—The Commons did heavy work today and disposed of many measures. Hon. A. Aylesworth's bill was passed. In regard to this, the minister of justice more recently to the supposed master status of the various provinces, as a result of the retention of their lands by the Dominion.

Hon. Rudolph Lemieux's two bills to bring the cable companies and their rates under control of the Railway Commissioners were passed. Hon. Frank Oliver's amendment of the Volunteer Bounty Act before it was finally disposed of involved some discussion. The amendments were small and rejected. The amendments rejected were those of J. G. Turritt, to provide for the exchange of land which proved veterans and exclude purchase of scrip.

C. J. Doherty, to limit the extension of time to veterans and exclude Samuel Barker, to allow veterans to hire persons to perform their settlement duties. Hon. Major Sharp, to include civil Europeans. Colonel S. Hughes, to include Canadian who served in the world war and were formerly enlisted.

John Heron, to include men who were prevented by illness, etc., from landing in South Africa. W. M. Martin's amendment to allow strikers men to be child laborers to be back their land was allowed. Mr. Oliver's immigration and land bill was passed. Hon. A. Aylesworth's bill regarding the taking over of branch lines for the Intercolonial, with the Senate amendments rejected.

Mr. Graham had a bill to amend the Railway Act put through, which included the proposed bill of Messrs. Lancaster, Meighen and Pappin. The terms are, to extend the jurisdiction of the board to include works already begun, to simplify the procedure regarding string wire across railways, to shorten the time limit of appeal from decisions of the railway board, to widen the liability of railways regarding trespass on their property, and to limit the liability of railway for loss by fire from locomotives to \$5,000 over insurance.

Lively Time in Committee.
Ottawa, Ont., April 29—There was a noisy meeting of the public accounts committee of the House of Commons today, when warm words were heard between Hon. Wm. Pugsley and some of the lawyers of the Opposition side. The trouble arose over the lighting of the two Woods buildings in Ottawa, which was rented by the government. The lighting of the Woods estate, as Mr. Laitou, retained to produce the contract with the Ottawa Electric Company and in this respect supported Mr. Pugsley. The auditor general's report of 1908 shows that the department of public works paid \$100,000 for the lighting of the Woods estate of the government. Mr. Pugsley said that the cost was \$3,000. Major Sharp accused Mr. Pugsley of being as the defendant for the witness, and finally the chairman ruled that the contract need not be produced.

Mr. A. C. Lewis, M.P., who is a member of the House of Commons, was in the House today. He is a member of the House of Commons, and is a member of the House of Commons.

Senate Discusses Navy.
Ottawa, Ont., April 29—The navy bill was given a second reading in the Senate today. Development of the navy in the future was discussed. The bill had been brought in as an evidence that we realized the time had come when for our honor we should share in the duties and responsibilities of the Empire's defence. He said his chief objection to a cash contribution was that it looked like a dole. It made the receiving nation appear dependent and unable to help herself financially. That was certainly not the case with England.

Sir Macdonnell Bowell dwelt upon the fact that the Canadian fleet could only go to war on order-in-council. If Canada was to have a navy it should be established only on the basis of that of Australia which would join the British forces automatically in case of war. If Sir Macdonnell believed, the ambition of the Prime Minister was ultimate separation from the mother country, the Canadian navy was being established on a proper basis to reach that end.

The Insurance bill was supported and the House rose at 12:15.

Miners Return Beaten.
Glace Bay, N.S., April 29—The ten months' strike of the United Mine Workers of America here has been formally called off, the men returning on the conditions previously offered by Messrs. Plummer and Butler. The demand for recognition of the Mine Workers' organization has been dropped. It is estimated that \$750,000 was spent by the organization in the struggle.

GUGGENHEIM ANNUAL MEETING

Manager of Alaska Steamship Company Will Probably Retire.
Seattle, April 29—Pugget Sound shipping interests are much interested in the annual meetings of the Guggenheim company, which will be held in Seattle next Monday for the reason that extensive changes may be made in the official roster of some of the steamship lines. The report is current that Charles E. Peabody, manager of the Alaska Steamship Company, will retire, his contract for two years having expired January 1. Just what man will succeed him is a question that has proved a puzzle. If a steamship man were brought from the Atlantic coast, it would take him two years to become acquainted with the peculiarities of the shipping field on the Pacific. Puget Sound mariners believe that the Guggenheim interests in the Pacific Coast are headed by the Northwestern Commercial Company, and the subsidiary companies are the Alaska Steamship Company, the Northwestern Steamship Company and the North Coast Lighterage Company.

Character Under Which the Project Will be Undertaken has been secured and construction operations will commence this summer. The financing of the proposition has been arranged. George M. McLaren, of the city, son of the Ottawa lumber magnate, is one of the promoters of the scheme.

At the point on the river where the power plant will be located there is a pronounced elbow and over a mile of rapids. It is proposed to build a diversion canal, slightly over a mile in length, to be operated by a power plant. This canal will give a fall of twenty-five feet from the point of diversion at the lower end of the power plant will be placed.

Generate 20,000 Horse Power.
At this point a dam will be constructed, it is proposed, which will make the river navigable over the present rapids.

The estimated cost of the project will be about a million and a half dollars. The minimum power then that can be generated is estimated at 20,000 h.p. and the maximum is considerably larger.

DYING MAN WIRES APPEAL.
Shot by Operator He Summons Aid By Telegraph Key.
Danville, Ky., April 29—"I am dying," a man who had been shot by a train operator, telegraphed to his wife in New York. The message was received by the wife, who immediately telegraphed back to the operator, who was then summoned to the scene. The man died shortly after.

Vienna, April 29—Reports were today received by Semite leaders, who said that a massacre had taken place at Kieff, Russia, in which many Jews were killed and wounded. The reports have not been officially confirmed.

Painful Trial of H. B. Ames, M.P.
New York, April 29—Six thousand suits on a strike, from the Lowell Nile to his home near Montreal, is the unique journey which Herbert B. Ames, a prominent physician of this city, took on his way to his home near Montreal, from St. Antoine division, Montreal, last week. He was accompanied by his wife, Mr. Ames reached here today on an overland route.

Wife Finds Him Dead in Bed on Return from Visit.
Oakland, April 29—Returning home last night after an absence of several days, the wife of Dr. E. G. Stratton, a prominent physician of this city, found her husband dead in his bedroom. His side was a hypodermic syringe, and it is believed that death was caused by an overdose of cocaine.

Mr. Stratton declared that her husband's taking an excessive quantity of the drug had been the cause of his death. Dr. Stratton came here several years ago from Spokane.

WHEAT SELLS FOR FIFTY CENTS PER BUSHEL AT FORT VERMILION

Seven Hundred Miles North of Edmonton Produce is Purchased Cheaper Than in This City—Surveyor McLellan Tells of Purchasing Pork and Beef at Six and Seven Cents per Pound—Sheridan Lawrence Operates Store in Successful Competition With Hudson's Bay Company.

Wm. J. McLellan, D.L.S., who left Edmonton in June, 1908, with a party of 15 men to run the fifth meridian to the 29th base line, has completed his work and returned to Edmonton after an absence of nearly two years. Besides running the 5th meridian to the 29th base, Mr. McLellan's party ran the 28th base line many miles westward Fort Vermilion.

No Market For Grain.
Speaking of conditions in the upper valley of the Peace in the vicinity of the Fort Vermilion settlement, Mr. McLellan says that the country is so productive, and so much ground has been brought under cultivation by the settlers already there, that with a good crop this year, the country will be flooded with grain, which, from the limited demand of the settlement, will be sold at a low price. It is estimated that \$750,000 was spent by the organization in the struggle.

SASKATCHEWAN POWER SCHEME

Work to be Commenced on \$1,500,000 Hydro-Electric Proposition This Summer.

The hydro-electric power proposition undertaken by a group of hydraulic engineers, headed by C. H. Crograve, of Denver, and Chas. Tupper, son of Sir Charles Hibbert Tupper, has reached a point, where the plans and specifications of the proposed plant and diversion canal 110 miles up the Saskatchewan river, are to be finally approved by the public works department at Ottawa.

The plans already have been approved by government engineer Z. Malhot, of Calgary. The approval in Ottawa is of a formal nature only.

Character Under Which the Project Will be Undertaken has been secured and construction operations will commence this summer. The financing of the proposition has been arranged. George M. McLaren, of the city, son of the Ottawa lumber magnate, is one of the promoters of the scheme.

At the point on the river where the power plant will be located there is a pronounced elbow and over a mile of rapids. It is proposed to build a diversion canal, slightly over a mile in length, to be operated by a power plant. This canal will give a fall of twenty-five feet from the point of diversion at the lower end of the power plant will be placed.

Generate 20,000 Horse Power.
At this point a dam will be constructed, it is proposed, which will make the river navigable over the present rapids.

The estimated cost of the project will be about a million and a half dollars. The minimum power then that can be generated is estimated at 20,000 h.p. and the maximum is considerably larger.

WINDSOR BIK.

LUMSDEN COMMITTEE REPORTS TO HOUSE

Lumsden Should Have Recommended Dismissal of Engineers Who Would Not Conform to Instructions—Differences Were Matters of Opinion and Might Have Been Settled if Chief Had Gone Over Work Earlier.

Ottawa, April 27.—The report of the Lumsden investigating committee respecting charges of reclassification on the Transcontinental railway was prepared at a meeting this morning and subsequently presented to the House. It reviews at length the terms of reference and allegations in Mr. Lumsden's letter and states that the chief difference was as to classification of "facilities geological formations," on districts B and F. Reference is made to the opinions of Messrs. Nasbit, Laidlaw, Shepley, Ritchie, Beaudin and McMaster, K.C.'s, in opposition to Mr. Lumsden's interpretation of the specifications. They held that rock in masses means rock cemented together and best removed by blasting. The report goes on to say that Mr. Lumsden recommended the engineers and certified to their classifications and that he had full control over those in which he lost confidence according to his statement. Through having such power the report says he should have recommended the dismissal about any of his staff. The committee finds there was ground for a difference of opinion in classification of the blue print of Mr. Lumsden's classification and in view of the difference between Mr. Lumsden himself and counsel there is no evidence, they say, of excessive over-haul being returned. No charge was made by Mr. Lumsden re frozen material being returned as loose rock.

Regarding the percentages in classification, the committee says the evidence shows the actual measurements in all cases been made of the total quantities of material moved. In certain cases, however, massed material was so irregular that accurate measurements were impossible, and percentage measurements authorized by Mr. Lumsden were resorted to. Mr. Lumsden is quoted as saying in his statement that the percentages in classification were made by Mr. Lumsden and his engineers was a matter of opinion. He made no imputation of bad faith.

Regarding the cost of the line, the evidence Chief Engineer Grant is quoted as saying that there will be no great difference between it and Mr. Lumsden's estimate. The report says in conclusion: "It is to be regretted that Mr. Lumsden did not go earlier upon the work himself and what it more frequently. Had he done so it is possible that any question arising in regard to classification would have been immediately and satisfactorily adjusted. Where any difference arose, your committee are of the opinion that it was Mr. Lumsden's duty as chief engineer to have immediately taken steps to have the differences settled, and if any portion of the staff refused to concur in his instructions, he should have immediately recommended their dismissal to the board of commissioners. District engineers, Mr. Doherty, and of high standing in their profession, stated that they were thoroughly familiar with the classification, and from their respective districts and expressed their complete satisfaction with the engineers under them, and advised that they would be glad to work in their districts. As a consequence it appeared to the committee that no information that would be of assistance to them would be obtained by calling any engineers in addition to those whose evidence was taken."

Your committee beg to submit herewith to the house all the evidence taken before us to date, for the information of members, and to report that in their opinion Mr. Lumsden's charge of general disregard of his instructions has not been sustained. No evidence has been adduced which in our opinion would justify him in stating that he had lost confidence in the chief of the engineering staff referred to by him."

The report is signed by the four Liberal members of the committee, Victor Chaberton, chairman, E. M. MacDonald, A. H. Clarke and Chas. A. Wilson. The three Conservative members, Messrs. Doherty, Crothers, from the committee some weeks ago.

BANK PRESIDENT'S FINE GIFT

Hands Over Hundred Thousand Dollars to St. Stephen's Bank. St. John, N.B., April 27.—R. B. Kesner, president of the insolvent St. Stephen's Bank, returned from the city tonight, and gave out the following statement: "The curator of St. Stephen's Bank has received from President Frank Todd \$100,000 for immediate use in liquidation proceedings. Mr. Todd feels a certain responsibility in connection with some losses made by the bank but he acknowledges no legal obligation in regard to any of them. This payment is full satisfaction of any claims that might be made upon him, and a generous contribution to the relief of the shareholders. It is expected that it will enable the bank to pay all its debts without calling upon the double liability and it gives the shareholders a prospect of receiving some small portion of their investments."

Soldier Fell Out of Window

Halifax, April 28.—Private Ages, of the Royal Canadian Infantry, met death in Wellington barracks last night. Shortly before midnight he was leaning out of the open window when he lost his balance and fell to the ground below. Assistance was rushed, but life was extinct. He was 40 years of age and belonged to London, England.

HOLDS UP CARTER BY-LAW.

Proposition to Close Montreal Bars at 10 p.m. Opposed.

Montreal, April 28.—One of the biggest fights that have ever taken place at the city council occurred today, when the Carter by-law providing for the closing of bars at ten o'clock on ordinary evenings had seven opponents in opposition to it. The main clause of the by-law was finally adopted and a long discussion arose over a proposition to close the liquor groceries as well, but this was defeated on a vote of 9 to 8. An effort to put the by-law through was defeated on a legal objection raised by the city attorneys, and the consideration was delayed until Monday. What the result of this delay may be is not known, as the new license year goes into effect on May 15. But the closing by-law will undoubtedly pass.

A DECIDEDLY USEFUL ACT.

Labor Disputes Settled Under Mr. Lemieux's Measure.

Ottawa, April 27.—The Labor Gazette today gives a summary of the working of the industrial disputes investigation act during the past fiscal year and during the three years that the act has been in operation. In all 37 applications under the act were received during the year ending March 31 last. Twenty-five boards of conciliation and arbitration were established, and in the two other cases one was settled while the board was in process of formation. The act has been established either partially or wholly after the close of the year. Twelve of the disputes dealt with were in connection with railways, and the subject of union recognition. There were only four cases in which strikes were not averted or ended. The board established either in the mining industry, two of the number relating to the mines, not to rules or hours of labor, but to the question of the recognition of certain labor unions. One of the disputes occurred in the metal mining industry, and was mainly concerned, like the cases above mentioned, with the question of union recognition. In each of the remaining disputes referred under the act, the investigation board had been established either by agreement between the parties, or in effecting such an improvement in their relations that no cessation of work occurred.

HEAVY TAXES TO CREATE FLEET.

Government of Russia Paying for 44,000 Men in the Navy.

St. Petersburg, April 27.—The czar has authorized M. Guchkov, the president of the duma, that he will grant the position of a revisor general to the technical and financial conditions with reference to Russia's maritime defence. This consent of the czar makes it clear that the duma will ratify the government's policy of strengthening the navy in Russian eyes directly connected with the problem of Russia's future position. It was not until the council of the empire made it clear that it would support the duma in its wish to make such propositions unless the admiralty was entirely overruled, that the czar was so reluctant consent. It is certain that the court must build publicly a great mass of ships and submarines, and the present Grand Duke Alexis and the present Grand Duke Alexander Michailovitch is certain to be the case.

THOUGHT HIM A BOER.

Former Black Watch Soldier Shoots Neighbor Farmer.

Port Arthur, April 28.—Supposed to be suffering from hallucinations caused by an old wound received at the battle of Mesopotamia in South Africa, Robert Mowbray, former member of the Black Watch regiment, shot and wounded George Bessant, at Silver Mountain Tuesday last. The next morning he endeavored to commit suicide on the platform of the Silver Mountain station by shooting himself in the head with the same weapon, a Winchester rifle. Mowbray passed Bessant for a couple of hours and fired many shots at him. Bessant was shot through the left arm, the charge entering below the elbow and coming out the arm was badly shattered, the bone being broken and the muscles and tissue torn.

DEATHS ON U. S. RAILROADS

Thous. Killed or Injured in Three Months.

Washington, April 27.—A large increase in the number of casualties on United States railroads is shown by the report for the quarter ending December 31, 1909, as compared with the corresponding quarter of 1908. A bulletin issued by the Interstate Commerce commission shows an increase in the number of persons killed of 301, and the number of injured of 5645. The total number of persons killed was 1059 and the total number injured 22,491.

TO BE HOBO FOR HIS HEALTH.

Wealthy Colorado Man Goes on Long Trail to Save Life.

Denver, April 27.—Convinced that the only way to regain his failing health was to "get back to nature," H. J. Holmes, editor of the Glenwood Springs Avalanche, one of the Democratic dailies of the state, today voluntarily assumed the life of a hobo. Holmes will "beat his way" from Denver to Boston, riding the bumpers, sleeping in box cars and knocking at back doors for a hand-out in the most approved hobo style. Holmes has been prominent in Democratic politics in Colorado for 20 years and is a man of means. For a number of years his health has been failing and he has spent \$25,000 in vain after many European spas, but failed to bring relief.

CONFESSION A TISSUE OF LIES

Negro Chapman Now Swears He Told Murder Story to Force Woman to Marry Him.

To the astonishment of the court the negro Chapman, when placed in the witness box Friday morning upon the resumption of the extradition proceedings arising out of his confession to the murder of Lawrence Matthews, of Stillwater, Oklahoma, declared under oath that his story as given to the court on Tuesday and Wednesday last was pure fiction. In a fit of jealous insanity he had woven the tissue of lies which he now swears to the court to force Mrs. Matthews to marry him. What he had said of his own and Mrs. Matthews' connection with the death of Lawrence Matthews had been absolutely false.

Did Not Believe Negro.

His Honor Judge Taylor, on the conclusion of the argument which followed the unexpected turn of events, declared that he had never believed a word of the negro's story and that there was in his opinion, no reasonable ground for the extradition of either of both of the parties concerned, and ordered their release from custody. The perjurer and Mrs. Matthews left the court working in dismay. The court immediately, while the latter remained for some minutes in conference with the counsel who had been representing her. The strain of the court proceedings over, she broke down and wept.

Lancey Was Sceptical.

Chief of Police Lancey was the only witness to give evidence this morning. His lord of how Chapman made it clear to him that the story of the murder, which he had absolutely refused to believe. Mr. Cogwell argued that sufficient evidence had been adduced to show that a crime had been committed and that suspicion rested upon the accused. They should be tried and extradited. His Honor Judge Taylor said that in his opinion no such evidence was before the court. Sheriff Fox will leave his long trip back to Oklahoma this afternoon returning empty handed. The children of Mrs. Matthews still remain in the care of the Canadian street car, but will probably be returned to their mother.

For Party Capital Only.

A feature of Hon. Mr. Graham's vigorous debate on the resolution in connection with the construction of the road was that the very danger that Mr. Lennox feared, which was the boiling over of Canadian trade through American channels would be met by the creation of a new territory, to be known as the Grand Trunk territory, which would be a part of the eastern terminus of the line in Ontario Bay at the mouth of the St. Lawrence river. He said, in continuing the criticism and insinuations against the grand trunk project, that the result was that the vote of \$25,000,000 to cover the cost of construction of the road was passed and Mr. Lennox's resolution was voted down on a straight party division by 105 to 62 a government majority of 43.

Prevents Glass From Cutting Head of GIH Who Runs Into Window.

London, April 27.—Paris has informed the world of how the magnitude of a hat worn by one of its citizens in the fashionable little town of St. Germain-en-Laye all but led to the death of a man. The man, who is now in the hospital, had been in the habit of wearing a hat which was made of glass. The hat was so heavy that it was impossible for him to wear it without the aid of a servant. The hat was so heavy that it was impossible for him to wear it without the aid of a servant. The hat was so heavy that it was impossible for him to wear it without the aid of a servant.

Bessant was shot through the left arm, the charge entering below the elbow and coming out the arm was badly shattered, the bone being broken and the muscles and tissue torn.

THE MARRIAGE IS ANNULLED.

Montreal, April 27.—The marriage of Mr. Agnew with Miss Agnes Mary Goyer was annulled by the Court of Review this morning, confirming the finding of Mr. Justice Martineau of the Montreal Superior Court. The case has been pending before the courts of the Province in one form or another for several years. In 1904, W. Agnew, a Montrealer, who was now of age at the time and was attending the Royal Military College, married Miss Goyer in Kingston, Ontario. She was then a minor. The case was heard by the Court of Review in 1907, and the marriage was annulled, claiming that under the law of Quebec the marriage without the consent of his parents was still a minor. The case was continued by the young wife, step-by-step through the protracted legal proceedings. She was legally married to Agnew under the laws of Ontario. Miss Goyer was principal of a ladies' college in Kingston at the time of her marriage to Agnew.

At the Toronto Horse Show.

Toronto, Ont., April 28.—The horse show judging was the King Edward cup which was won by Mrs. Adam B. London, with Lady Norfolk, Lady Warwick, of Emulica Farm, Oakville, and Duchess of Marlborough, shown by F. T. B. Laurence, Montreal, third. Mrs. Beck won two firsts with Lady Norfolk. In the second class the holders were Mrs. K. L. Wilkes, Galt, with the colt Oro.

AS TO COST AND FUTURE OF N.T.R.

Perennial Question is Again Discussed in Commons—Division on Lennox Motion.

Ottawa, Ont., April 28.—The House of Commons had a full day with the perennial question of the cost and future of the National Transcontinental railway and the G.T.R. Practically the whole of the sitting was devoted to a discussion of a resolution brought up by Mr. Naughton Lennox on a motion to refer to a select committee to investigate the project from the beginning to the end, and the government should take effective action to investigate the danger of the diversion of Canadian traffic to foreign ports, which diversion Mr. Lennox feared as a result of the Grand Trunk arrangement, that it would establish new terminals at Providence, Rhode Island.

Canada the Bond for Peace Alliance

Veteran Leader of Canadian Senate Sees Fine Opportunity for This Country Bringing About Combination of Powers on Behalf of Peace—Reviews Half Century of Canadian History.

Ottawa, April 28.—Sir Richard Cartwright, minister of trade and commerce and government leader in the senate, was the guest of honor tonight at a banquet in the parliamentary restaurant attended by both Liberal and Conservative members of the Upper House. The function was arranged as a celebration of Sir Richard's forty-seventh year of public service and also to mark his assumption of the duties as leader of the Senate in succession to Sir Richard Scott.

In the course of a short speech Sir Richard, in an usual vigorous style, ran over the political and social events which he has witnessed since he first became a member of parliament in 1871. He said he saw in the growth and development of the English-speaking race on this continent, in the British dominions, an opportunity for the creation of an alliance of Anglo-Saxons which would dominate the world and give an assurance of peace which would result in the disarmament of the great powers which at the present time spend two-thirds of their revenues in preparing to out each other's throats. Sir Richard expressed the belief that owing to the composition of its population, in the British dominions, it might be the proper medium to bring about such an alliance of the English-speaking nations. If such an alliance were effected, it would seriously propose disarmament, other nations would not dare trust the proposal lightly.

THROUGH AT CUSTOMS SALE

Odd Purchases Made at Annual Clearance Sale in New York.

New York, April 26.—In the second day of Uncle Sam's spring house-cleaning at the United States appraisers' warehouse, on Washington street, the auction of unclaimed and abandoned goods was concluded. The bidders included many who attend year after year, many of them from out of the city. Several women who were present virtually monopolized the consignments of wearing apparel, Japanese matting, dried prunes and other household necessaries. With some of the women gambling spirit was manifest. When a package of moth eaten carpet was offered, the bidder, a woman, bid \$100, and the women would set to and merrily outbid each other until a figure out of all reason was offered.

A longshoreman bought an opera hat for 40 cents and a sailor staggered out with a lot of statures from Italy listed \$375 brought \$610. A one-armed paperhanger bought an accordion for 25 cents and a man bought the highest bidder for a case of stuffed birds, three crates of dried fruit, two crates of tomato paste and an automobile horn. For years, according to the customs officials to clear all the lower east side has been attending the sales and bidding on everything of value that is offered. He had never bid more than 50 cents and has never purchased anything yet. Colonel Storey calls him "Mark," the lawyer, for he writes every article in the paper. When questioned the man said "I will get something cheap some day—wait and see."

DRIVING JEWS FROM CITY

Ten Thousand Premier to Leave Kieff by Order of Premier Stolypin.

Bolin, April 27.—Driven from the homes they had established, with barely time enough allowed to take their poor household furnishings along 10,000 Jews are getting away from Kieff today. They are being driven according to a special news despatch from the Russian city on direct orders from Premier Stolypin. The Jews are settling in the city without permission from the government. Five days have been allotted to the city officials to clear all the permanent Jews from the city. Kieff has been divided into four sections, and a high official to make the partition of the interior is in command of each quarter. Each has been assigned soldiers and police to enforce the order. The order is responsible for the completeness of the evictions. The Russian official from the department of the interior in the event of the expulsion on the Jewish Sabbath. All Jews are not affected. Those who have always lived in the city may remain, but will be subject in the future to the strictest restrictions. All not natives are to go despite the fact that their presence has been tolerated by the authorities, in many instances for years. They have established in most cases, business establishments, and their presence heretofore has not been considered obnoxious by the local authorities. They made inroads into the commercial life of the city, however, through the competition appealed to by the Russian merchants. The order of expulsion was at once promulgated.

Bryan's Daughter to Wed.

New York, N.Y., April 27.—At Fairview, the daughter of William Jennings Bryan, his oldest daughter, Ruth Bryan Leavitt, will be married next Tuesday, May 3rd, to Reginald Owen, of the British Royal Engineers. No formal announcement will be made of the impending nuptials until the young couple are fairly on their way to the bridegroom's ancestral home in England. The Massey-Harris Alberta Mower saves your horses, saves your time and outlasts two ordinary machines.

NEWS OF THE WEEK

FORT SASKATCHEWA Bulletin News Service. Mrs. S. O. Jones returned Monday morning from Ontario, where she was visiting for the last three months. Mrs. Sutherland, Mrs. Brigham and Mrs. Paul were delegates to the Synod held in Edmonton on Tuesday morning and the Rev. C. H. Macdonald was the speaker. Mrs. James Graham and child on Wednesday to visit her parents.

LAC LA NONNE. Lac La Nonne and Rich Valley are now enjoying a semi-pastoral service. Chas. Borman secretary of the McDonald school, is very busy with the arrangements for a scheduled for May 14. Nonne as the latter part of May. Mr. Stevenson, live stock inspector, returned from a week's meetings at Lac La Nonne, and other places northwest.

Ed. Walters gave a receipt dance at the Boyle hall on Friday evening, April 29th, for a number of friends and acquaintances turned out to congratulate the bride and groom. Mr. Davidson has rented the Pinedale farm. He has brought down a lot of stock, and which is badly needed. Lac La Nonne, April 26th.

FIELD.

Bulletin News Service. On Sunday morning, 24th, a fierce prairie fire was started by Doctor Toifield and seriously injured the doctor's barn. The doctor's family and some of the town, no damage was done to the town. The fire broke out in a southerly direction and the fire broke out, and by back-drawing situation. At one time the fire was burning very good by dint of bad work and energy it was saved, though it was a very close call. As the flames seemed 15 feet from the roof and the heat in the room was very hot, the fire broke out, and by back-drawing situation. At one time the fire was burning very good by dint of bad work and energy it was saved, though it was a very close call.

A consignment of 204,500 pounds of wool, a lot of statures from Italy listed \$375 brought \$610. A one-armed paperhanger bought an accordion for 25 cents and a man bought the highest bidder for a case of stuffed birds, three crates of dried fruit, two crates of tomato paste and an automobile horn. Published every Monday and Thursday by The Bulletin Company, Ltd., at the office, Bulletin Bld., 318 Jasper Ave., East.

PLENTY OF ITS KIND

Old Alberta and Great Waterways bargain is enough. Hereafter when loans of the Province's credit are made to assist railway construction...

At present the interest charges in respect of the Alberta and Great Waterways are mounting up at the rate of \$9,250 per month...

Samuel L. Clemens, Born 1835—Died 1910. The Court of Mirch is dark and still. On this bright morning of second spring...

His towelled, snowy hair, the brows that hang over deep but kindly eyes; The white beard of easy smile...

For proudly may his nation say, Not chiefly that his wit was great. Or that he loved and served the State...

ONE MAN AND A TRUNK (Friday's Daily). President Clarke and his trunkful of papers seem to be all that is left of the Alberta and Great Waterways Railway Company...

And the loss from the immediate failure of the Company would be less than that from their failure any time in future. Absolutely the best thing that could happen under the circumstances...

It is a bargain, it seems almost inevitable that we fall into one Chamberlain's stomach and liver. Tablets will clear the sour stomach, soothe the liver and create a healthy appetite...

At present the interest charges in respect of the Alberta and Great Waterways are mounting up at the rate of \$9,250 per month...

At present the interest charges in respect of the Alberta and Great Waterways are mounting up at the rate of \$9,250 per month...

of other of these pit-falls. It is to be hoped the former. And if by good fortune we should escape the worse fate, that would be the poorest reason in the world for allowing ourselves to be drawn into other traps of this kind in future.

(a)—An O. C. approving of the mortgage and authorizing the president-in-council (Mr. Rutherford) to execute it.

(b)—An O. C. authorizing Mr. Rutherford as provincial treasurer to execute now printed bonds in the form of the mortgage without coupons to be hereafter replaced by engraved or lithographed bonds and coupons to be then executed by him or the then provincial treasurer.

(c)—An O. C. authorizing the Construction agreement and directing its execution by the president of the council. The specifications will be attached. These will either be approved by Mr. Rutherford or else tentatively, subject to confirmation by Mr. Jones.

(d)—An O. C. approving of the order-in-council for the mortgage and authorizing the president-in-council to execute it.

(e)—An O. C. approving of the order-in-council for the mortgage and authorizing the president-in-council to execute it.

(k)—An O. C. approving of the order-in-council for the mortgage and authorizing the president-in-council to execute it.

(l)—An O. C. approving of the order-in-council for the mortgage and authorizing the president-in-council to execute it.

This surely shows a lack of sympathy with a much burdened man. Consider the weight of responsibility the President carries. He is now to be and his trunk—the whole Alberta and Great Waterways Company. He is the stockholders, the directors, the vice-presidents, the president, the honorary vice-presidents, the honorary president rolled in one—all these and whatever other elective officers it may be customary to create in a properly organized railway company.

A. & G. W. R.

FRIDAY AFTERNOON.

Winnipeg, Man., April 29.—The anniversary of G. D. Minty before commission this afternoon reached a factious stage when the witness a continued refusal to answer questions on the ground that he was obliged as the solicitor of the West Construction company, claimed that much of the knowledge he had as a director of the company was obtained as a result of the construction of the company.

The commission were powerfully enforced their decision that should answer but on questioning he said he was instructed to fight the courts and not the commission. He was then ordered to enforce the penalties against the company.

A feature of the afternoon was a brilliant word duel between G. D. Minty, who had just been examined by the commission, and the witness. Each at times, and it was difficult to follow the rapid exchange of retorts nearly reached the limit of endurance.

The most important evidence up to the present by Minty is that he was not a director of the company. He admitted that he was a director of the company in 1907, but that he had resigned in 1908. He also admitted that he was a director of the company in 1909, but that he had resigned in 1910.

The examination of Minty was continued this afternoon. He was asked a number of questions regarding the company's affairs. He admitted that he was a director of the company in 1907, but that he had resigned in 1908. He also admitted that he was a director of the company in 1909, but that he had resigned in 1910.

The examination of Minty was continued this afternoon. He was asked a number of questions regarding the company's affairs. He admitted that he was a director of the company in 1907, but that he had resigned in 1908. He also admitted that he was a director of the company in 1909, but that he had resigned in 1910.

MATTERS MUNICIPAL.

The proceedings at Tuesday evening's Council meeting recall that two of the big problems before the City are that of water supply and sewerage. The expert engaged to look into the former reminded the Council that the water supply is a matter of the greatest importance to the city and that it would be better to consider the two in their relationship than to divide alone into the water and sewerage.

THE MUSICAL FESTIVAL.

Alberta's annual Provincial Musical Festival is to be held next week. The festival opens with a band competition and male chorus competition on Tuesday evening in the Trustee Bank. On Wednesday and Thursday the other vocal, instrumental and choral competitions will take place in all St. John's school room. Thursday evening a grand concert takes place in the rink under the distinguished patronage of His Honor the Lieutenant-Governor. The winning competitors in the festival, a massed chorus of 250 voices, a male chorus of 100 voices, and an orchestra of 50 pieces, will supply the programme, under the direction of Mr. Vernon W. Barford. From the first, the festival has been successful in drawing together the best of the vocal and instrumental talent from all parts of the Province. This year it promises to quite uphold the high standard previously attained. The interest shown is even greater than last year and the number of competitors will be larger. A gratifying feature is the increase in the number of competitors coming from other parts of the Province.

FRIDAY AFTERNOON.

Winnipeg, Man., April 29.—The anniversary of G. D. Minty before commission this afternoon reached a factious stage when the witness a continued refusal to answer questions on the ground that he was obliged as the solicitor of the West Construction company, claimed that much of the knowledge he had as a director of the company was obtained as a result of the construction of the company.

A. & G. W. RAILWAY INQUIRY

FRIDAY AFTERNOON.

Winnipeg, Man., April 29.—The examination of G. D. Minty before the commission this afternoon reached the final stage when the witness began a continued refusal to answer questions on the ground that he was privileged as the solicitor of the Canadian West Construction company.

The commission was powerless to enforce their decision that Minty should answer certain questions, and he was instructed to fight their ruling and it was up to the Manitoba courts and now the commission to enforce the penalties against him.

A feature of the afternoon was the brilliant word duel between Bennett and Minty, which furnished amusement to the audience. Each scored at times, and it was difficult to say which had the advantage. Bitter feeling existed between the two opponents nearly reached the limit of court etiquette.

The most important evidence given up to the present by Minty is that he and Clarke are not connected in the construction company, and that B. R. Clarke president of the Construction company has no interest in the Waterways company in New York.

Bennett in cross questioning endeavored to show that the last statement was incorrect, but up to the time of adjournment he was unable to get such admission from Minty. He told Bennett that Clarke got nothing but \$50,000 stock and was not connected with the railway, whereupon Harvey remarked that the seemed philanthropic.

Mr. Minty, in whom he had complete confidence. "Where is the minute book," asked Mr. Walsh.

"I think it was handed over to the Clarke," Mr. Walsh said. "I know the Royal Bank was to furnish the money and as security the proceeds of the bond issue were to be assigned to it."

Mr. Walsh then took up the construction company's organization and Minty said he was in New York in November, 1909, when Woods, Clarke, Cornwall and the others were there. He had not seen either Cross or Cornwall at the time.

Mr. Walsh asked if Minty had seen either Cross or Cornwall at the time of the meeting on the 21st March of this year in Winnipeg. "Did Clarke ever tell you a member of the government or legislature was interested in this company or bond issue?"

Mr. Walsh asked if Minty had seen either Cross or Cornwall at the time of the meeting on the 21st March of this year in Winnipeg. "Did Clarke ever tell you a member of the government or legislature was interested in this company or bond issue?"

Winnipeg, April 27.—It is rumored in Winnipeg among those best versed in the details of the proposed Waterways railway that the Clarke company, to Foley, Welch and Stewart.

Mr. Walsh then took up the construction company's organization and Minty said he was in New York in November, 1909, when Woods, Clarke, Cornwall and the others were there. He had not seen either Cross or Cornwall at the time.

first connection with the Waterways project. When Faulkner took the option of Cornwall in 1906 he was consulted, but made no effort to secure the option was procured. He had no interest in the syndicate outside of being a solicitor.

Mr. Walsh then took up the construction company's organization and Minty said he was in New York in November, 1909, when Woods, Clarke, Cornwall and the others were there. He had not seen either Cross or Cornwall at the time.

Mr. Walsh asked if Minty had seen either Cross or Cornwall at the time of the meeting on the 21st March of this year in Winnipeg. "Did Clarke ever tell you a member of the government or legislature was interested in this company or bond issue?"
