**Canadian Criminal Record for 1895.**

Increase in the Number of Indictable Offenses as Compared with the Previous Year.

LAQUOR RELATED A PROMINENT PART, THERE BEING OVER ELEVEN THOUSAND CASES OF DRUNKENNESS.

Ottawa, Oct. 2.—The blue book containing the criminal statistics for the year ending June 30, 1895, has been issued. During the year 1895 there were 7,730 charges for indictable offenses, being an increase of 4 hundred and twenty-seven over the year previous. Out of that number of charges 2,154 were acquitted, twenty detained for trial and eighty-two received no sentence through several causes, such as "nolle prosequi," "jury discharged," "hall forfeited," etc., and forty-seven received no sentence. This consequently reduces the number of convictions to 5,474 or 88 per cent of 10,000 inhabitants in the following order:—

No. of Convictions	No. of Convicts
P. Edward Island.....	39
New Brunswick.....	110
Quebec.....	1,300
Manitoba.....	1,135
Ontario.....	1,118
British Columbia.....	111
Alberta.....	118
Saskatchewan.....	111
Total.....	4,335

There were 720 offenders under sixteen years of age in 1895, and 887 in 1894. The educational status of the convicted for 1895 is: Unable to read or write, four per cent; having an elementary education, 1.1 per cent; having a professional education, 1.7 per cent; against 13.1, 7.4 and 2.1 respectively for 1894. The attention of the Teachers and Trustees of the public schools is called to the meetings of the above named association to be held in the Normal School building at Truro on the 14th, 15th and 16th inst. This will be a most important gathering of the educational force of the province. The subjects to be presented are of the highest importance and of the greatest practical interest to all those who are engaged in the work of the school. The speakers are of the highest standing and of the highest ability. It is hoped that a large number from this part of the province will be present to see that their duty is done and by voice and vote help to perfect, or to reject these schemes, so much so closely related to the future of the province. The Teachers' Institute of the Inspector's District should be present by its officers and representatives, and by as many of its members as can possibly attend.
