ST. JAMES CHURCH ANNUAL S. S. PICNIC

An ideal day favored this annual picnic last Wednesday. The place chosen was "The Pines," West Paradise, kindly placed at the disposal of the committee by Mr. and Mrs. C. S. Bottomley, who, as is their custom, gave the visitors a hearty welcome and otherwise contributed largely to the success of the occasion.

Counting children and adults about one hundred and twenty-five were present—games and sports occupied the greater part of the time. Supper was served at 5.30, followed by a royal candy scramble and distribution of prizes. A start was made for home shortly before seven o'clock, all reaching their destination safely.

The only untoward feature of the return trip was the loss by Ronald Brooks, of his coat, who will be earnestly pleased if this should catch the eye of the finder and so lead to his getting it again.

ARCHITECT HAS LEG BADLY FRACTURED

MIDDLETON—L. R. Fair, well known architect, of Aylesford, met with a painful accident on Tuesday when he had his leg broken. His car in which he and another party were driving at New Albany went in to a ditch, in attempting to get it on the road again by means of logs for levers, one of these smashed, coming down with great force across Mr. Fair's leg and resulting in a bad fracture. Medical aid was summoned after the car had gotten to Albany with Mr. Fair under trying circumstances. He was afterwards removed to Memorial Hospital.

TO CORRESPONDENTS.

Again this week we have received news items, this time from Paradise with no signature. Only a week ago we called attention to the fact that no newspapers publish items without a knowledge of their source. We expect to have to do this a few times more and regret that apparently good items must go into the W. P. B. However, it is essential for every correspondent to understand that there must be some degree of mutual confidence between themselves and the paper for which they may occasionally write.

ALBANY'S OLD HOME WEEK

Interesting Review of Events Connected With the Largely Attended Gathering.—Historical Paper by Deacon Whitman.

Albany—The Old Home Week exercises held in the New Albany Baptist church on Saturday evening, Sunday and Monday were a great success. Even exceeding in interest the brightest anticipations of the promoters, and bringing great blessing to all attending.

The weather with the exception of Monday forenoon was all that could be desired. The people of the community turned out well, while many former Albanians and many visitors from outside points found their way thither and had joined with the home folks in inspiring services of song, sermons and addresses—services which will be long remembered with pleasure by all in attendance. Some have come from Tennessee some from California and several from Massachusetts and Connecticut. The only thing which cast a cloud over these happy re-union services was the sad passing of one of Albany's most promising young men in the person of Elvin Oakes, elder son of Mr. and Mrs. Harold Oakes, who was stricken a few weeks ago with a fatal malady, which terminated his earthly career on Friday evening. The funeral service was held on Saturday afternoon and was very largely attended, not only by the Albany people but also by friends from Melvern Square where Elvin taught school last year, and by many opening meeting in connection with the Old Home Week services was held on Saturday evening last being attended by a large number who joined heartily in the song services—Rev. M. W. Brown, D.D., of Port George took part in the opening exercises, after which the pastor, Rev. A. H. Whitman conducted an inspiring service—giving an address on "The Story of the Hymns and Their Authors" was told after which each was sung heartily by the choir and congregation.

Interesting readings were given at this service by Mrs. A. H. Whitman and Miss Stella Whitman.

ZANE GREY'S TUNA SETS WORLD RECORD

Lands 758-Pound Fish Off Liverpool—Believed To Be Champion

LIVERPOOL—Whether Zane Grey, the well known American novelist, had a purpose in purchasing the Annapolis-built tern schooner Mapleland since his arrival in this province, other than to convert her into a workmanlike yacht, has not been disclosed, but to follow this action by the landing of a 758 pound tuna fish might lead to the belief that Mr. Grey was going into the fish-exporting business. If weight counts for anything, America's popular writer and playwright, would appear to attain just as much distinction in the fishing business as he already had done in his chosen profession.

An ardent follower of tuna fishing, having made previous trips to Nova Scotia for this purpose, Mr. Grey was proclaimed the world's tuna fishing champion at Liverpool yesterday when he succeeded in landing a 758 tuna, which is believed to constitute a world's record. The sea monster was successfully conquered after three hours and ten minutes of grilling endeavor off the Nova Scotia coast and towed into Liverpool harbor. Mr. Grey's prize is a species of the blue fin family.

DEEP BROOK.

Miss Margaret Jones arrived on Friday. She will occupy her bungalow through September.

Rev. W. L. Archibald and daughter Helen, left here on Monday for St. John and P. E. I.

Mrs. Charles North and friends left here on Friday for Boston.

Miss Frances McClelland left here on Saturday for Middleton, Conn.

Mrs. Robie Beals and two daughters of Middleton are guests of Mrs. Marguerite Page for a few days.

Miss Etta De Wolf of St. Stephen, N. B., is enjoying a few days with her friend, Miss Marguerite Jones.

Mr. and Mrs. E. V. Hutchinson returned on Friday from a motor trip visiting the Islands.

Rev. Frank Smith spent Saturday at Middleton.

Mr. and Mrs. Dennis Wright are receiving congratulations on the birth of a son, Harry Millard.

Miss E. A. McClelland returned home after a three weeks visit with her brother George at Power Lot.

Mrs. N. A. Shepard of Minneapolis, Minn., is a guest of her sister, Mrs. L. E. Sherman.

Prof. A. B. Balcom of Acadia University and son Burpee and daughter Hilda, left here on Tuesday for Wolfville. Prof. Balcom and son have been guests at the home of Mr. and Mrs. L. E. Sherman.

Mrs. Raymond Morrison of Lynn, left here on Saturday after a pleasant visit with her parents, Mr. and Mrs. James Ditmars.

Mrs. Garnet L. Benson and children left here last week for Edmonton, Alberta, she was accompanied by her mother, Mrs. J. C. Ditmars, who will visit relatives there.

Carl and Philip Vroom and Harold Ditmars left here on Friday of last week for the Canadian West.

A FIRE RANGER'S LETTER

A letter has come to the Canadian Forestry Association from a fire ranger in which he says:

"You can't say too often that the chief business of all fire rangers is not to watch the forests, but to watch the people. The forests are almost fireproof as long as human beings keep out. But we don't want to keep them out. Every man has a right to camp and fish and hunt, but no man has a right to leave a blackened widow, or a blackened wife, or a blackened child behind him. I've always noticed that the veteran sportsman, the man with the true woodsman's instincts, never takes any chances with fire. He builds a very small campfire because it cooks better and is easier to extinguish. He seldom smokes cigarettes while on the trail and if he has to light a match he snuffs it out throwing away. He knows by bitter experience and observation that all big conflagrations in the forest start with a wisp of fire that a five-year-old could stamp out. He takes no chances for the chances are all against him. He is never tired of telling his friends that an ounce of prevention is worth a pound of regrets and that it takes nature half a century or more to repair the damage that a reckless fisherman can do in three seconds of forgetfulness."

BASEBALL FOR LABOR DAY

Yarmouth Crack Players Will Try to Down Our Local Exponents in Double Header—Ball in Evening.

Why go chasing all over the County on Labor Day Tuesday next, when you can recline in the comfortable grandstand in the Athletic grounds and see a thrilling double header put on by Bridgetown baseball team and Yarmouth. The western bus has a classy bunch of players besides the professionals of whom we have seen and heard much of late as winners of the championship series. See the local boys trim the visitors or extend themselves up to speed limit in the attempt.

The local team has not lost a game this summer but the visitors will be a hard nut to crack. See the games at 2 p.m. and 5 p.m. on the E. A. A. grounds. Admission 25 and 15. Grandstand 10c extra. Band in attendance. After this good rest the melo-oly men will be pleased to see you at their big dance in the Court House in the evening.

LOCAL BALL PLAYERS DEFEAT ANNAPOLIS 7 TO 3

The Junior Ball team defeated Annapolis 7 to 3 in a five innings game on Monday afternoon. Space prevents giving much detail this week. There was some very good playing and among the features a double play by Buckler, M. Ritchie and D. McPherson. The visitors made all their runs in the third inning. The locals tied them in the fifth and threw in four more for good luck. Mr. Elias Ramey umpired in a satisfactory manner.

N. S. MAN IS KILLED

J. J. MacDonald, of Antigonish, Falls to Death From Toronto Bridge

TORONTO—J. J. MacDonald, a workman employed by the Canadian Bridge Company, was killed this afternoon when he fell from the scaffolding to the bed of the creek at Avoca Bridge, Moore Park, where a new structure is being erected. According to the story told by witnesses, the scaffolding on which MacDonald and a fellow workman were engaged, moved, and MacDonald was precipitated fifty feet to the ground, while the other man succeeded in saving himself. MacDonald, who is a married man, is survived by a wife and two children. He comes from Antigonish, N. S.

LARGE SCALLOP BEDS FOUND OFF LURCHER LIGHT

RICH FIND FOR FISHERMEN OF PROVINCE

Bottoms Heavily Covered For Miles—Only Two Other Areas Worked In Nova Scotia

YARMOUTH—Chief Inspector Ward Fisher, who has been investigating the scallop areas of the South Shore, reports that a large and prolific area exists in waters north of the Lurcher Lightship. The fishery protective cruiser Arleux, assisted by patrol boat "A", has been engaged in making investigations this week, and on Wednesday ascertained that, seven miles north of the lightship, the bottoms are heavily covered.

WEDNESDAY, AUG. 27TH, 1924

FOR GERMANY'S ADVANTAGE
 Boston Transcript: If Germany accepts and "plays fair" in the matter of the Dawes plan, she has an opportunity to become one of the most prosperous, and incidentally one of the happiest, countries in Europe. The burden put upon the country by the plans is very great, but it is well adjusted to the public and private resources; it leaves the Germans perfectly free to govern themselves and to manage their business; and even in its severest application it will not outweigh the burden, all things considered, which the people of Great Britain, France and Italy must bear for the next two generations or more. And at the same time Germany will escape, as it is now escaping, many exhausting and economically wasteful conditions to which all those countries are subjected.

IMPERIAL PREFERENCE
 London Evening Standard: For many years the Dominion have been giving the Mother Country a preference. But so far the arrangement has been almost wholly one-sided, and such concessions as have been made on the side of Great Britain hardly touch the greater interests of the overseas states. There can be no really workable scheme of Imperial Preference, as Mr. Chamberlain clearly saw, without taxes on wheat and meat. With taxes on wheat and meat the vast sums at present spent with foreign countries like the Argentine would go automatically to stimulate output in the British Dominions, to increase the populations of Canada and Australia, and so provide customers for our manufactures which would be given a decisive advantage as against those of our foreign rivals. So far the Dominion preferences to Great Britain have rested partly on sentiment and partly on the hope of ultimately reaching a firm business basis. But this one-sided preference clearly cannot endure indefinitely.

TRICK AND ARTIFICE
 Los Angeles Times: A French scientist is making a wood more firm and beautiful than oak or mahogany by mixing certain sawdusts, tannic acid and cheap chemicals together and subjecting them to high pressure. The product can be made to take a high polish and is virtually fireproof. We get sawdust in making lumber and then we make lumber from sawdust; how long can this thing keep up? There must be a catch in it somewhere.

THE AUTOMOBILE MENACE
 Washington Star: Unsafe speeds are the major primary cause of accidents. A machine that is being driven at twenty miles an hour through the streets can not be checked in time to prevent a collision in a sudden emergency such as the unexpected appearance of another machine at a crossing or on a turn, or the sudden appearance of a pedestrian, child or adult, in the driveway. Yet the regulation of speed is not the sole cure for these mishaps. Drivers must be held accountable for whatever happens, and that accountability should take the form of severe punishment whenever life is endangered or is destroyed.

WILL OTHERS FOLLOW?
 Louisville Courier-Journal: Mr. Ramsay MacDonald was considerably ahead of the procession (of disarmament) for these (Singapore) fortifications were entirely within the provisions of the Washington Conference. The fact that he is ahead of the procession is the menace that Prime Minister Bruce sees. None of the other European nations has as yet taken any such attitude; in fact both France and Italy are going the opposite way and the game of disarmament is rather dangerous for only one to play. England's prestige, as Prime Minister

Bruce has emphasized, has been the power behind the League of Nations in its great forward effort. It is the force that is striving to-day to bring Europe out of its post-war wilderness and lead it into the paths of peace.

THE GRAND FLEET A MEMORY
 London Daily Telegraph: This country has taken the lead in paring down its naval resources. Behind this movement has been the will to peace, as well as the desire for economy, and the reduction has been pursued methodically, step by step, in face of all the unsettled problems which the Allied Conference in London has assembled in the hope of solving. As a maritime people, we are not unconscious that the seas remain still our main defence as well as our chief peril; the Grand Fleet has, notwithstanding, become but a memory, and Spithead on Saturday reflected the sincerity with which we have accepted all the implications of the Washington Treaty.

WHAT OTHERS THINK
 Philadelphia Ledger: Canadians for some time have been feeling their oats and are not missing any opportunities to demonstrate that trotting along under British leading strings is not their idea of a wonderful time. The other day, for instance, Sir Frederick Field, Vice-Admiral of the British squadron, publicly suggested that Canada needed four battle cruisers. That was quite enough to call for sarcastic criticism in the Ottawa House of Commons, and one member enjoined the Minister of National Defence to tell Sir Frederick to mind his own business. Canada has lived for a goodly number of years under the protection of the British crown and the Royal Navy, and has not taken kindly to suggestions that she help foot the Imperial Defence Bill. But the obviously logical thing for Canadians to do, if they find the British leading strings offensive, is to provide somewhat for their own protection. They should mind their own business, or else expect British viceregalists to do it for them. If the resentment against British advice leads them to build cruisers of their own, the result will be quite acceptable in London.

SOCIALISM IN FRANCE
 Louisville Courier-Journal: The Socialists number some of the best citizens of France, some with great names and great fortunes, among the one hundred or more of their party in Parliament Blum, Painlevé, Paul Boncour are among them. They are not to be confused with the Communists, which group, although small, seized the machinery of the Socialists, including Jaures' newspaper, L'Humanité, at the time that the doctrines of Moscow broke up the party. Some of France's great intellectuals are Socialists, but Socialism, as understood in France appears rather to be a doctrine which nobody wants to put into actual practice, but which is professed as an ideal. These Socialists, unable to effect their aims, including evacuation of the Ruhr, declined to participate in the Government when Herriot formed it, and thus have none of the responsibilities. But they continued to work for those ideals which they feel should be productive of human justice and human uplift.

WHERE IT BELONGS
 Adelaide (Australia) Chronicle: The ratio of strength provided by the Washington agreement for Britain, America and Japan, complains Mr. Wilbur (American Secretary of the Navy), no longer exists; for instead of 5, 5, 3 respectively the ratio is now 5, 4, 3. As America has notoriously nothing to fear from Britain, the alleged disparity between their fleets is certainly not a matter entitling the Americans to condole with the British Empire. If the British fleet is once again the strongest in existence, it can only be said that it has resumed the position which, judging from the Empire's place in the world, it should morally occupy, and should never have forfeited. For the British Empire is universally recognized as having a world mission; the upholding so far as its capacity allows of the rights of humanity, whereas the mission the Americans have frankly set themselves is to avoid "foreign entanglements," to concentrate their efforts on their defence and on the augmentation of their wealth by the expansion of their overseas markets.

SUPPLEMENTING SHORT PASTURES.

(Experimental Farms Not.)

Cattle on pasture lose flesh, and milk cows usually fall off in milk flow during mid-summer. While flies and heat are contributing factors, the principal cause of this is short pastures. Therefore the scant mid-summer pastures should be supplemented with grain and, either green feed or summer silage, otherwise the cows will drop so badly in milk yield that they cannot easily be brought back to profitable production when stable-feeding starts in the fall.

Grain feeding is advisable with heavy milking cows. Cows milking twenty pounds, or over, should receive one pound of grain for every six to eight pounds of milk which they produce. Pasture grass contains a higher percentage of protein than mature hay and for this reason the summer grain ration need not contain as high a percentage of rich protein feed, such as oil cake and cotton seed, as the ration fed in winter.

It is more economical to depend largely on green feed or summer silage than to use grain as the sole supplement to scant pastures. The cost of cutting and hauling green feed each day makes it more expensive than silage. It is necessary, however, to feed from one to one and a half inches of silage each day to prevent the silage from spoiling, therefore, silage is seldom practical unless a farmer has from twelve to fifteen cows. At the Fredericton Experimental Station last year green feed was used to supplement pastures for the high producing cows from July 20th to August 20th, after which the entire herd was fed silage. Oats and peas were used for both silage and green feed, and there was no appreciable difference in milk flow when the cows were changed from the green feed to the silage. This silage (oats and peas) however, did not give as good results as the corn silage fed the previous year. The mixture used was—Banner oats—2 bushels, Canadian Beauty Peas—1 bushel, corn at the rate of three bushels per acre. Yet the cows were fed from twenty-four to thirty-five pounds of silage per day, and had the run of a rough pasture. This feed, with a small grain ration, maintained the milk flow and kept the cows in good flesh. If green oats are available they will give fair results, although not equal to oats and peas.

SPIRIT OF UNREST

IN UNITED STATES.
 Warren Stone Says Conditions Are Worse Than Ever Since the War.

Toronto.—Warren S. Stone, President of the Brotherhood of Locomotive Engineers who is attending the meeting of the Canadian Locomotive Engineers here, in an interview today said economic and social conditions in the United States offered the first problem with which the administration should cope, rather than the "state of Europe." "There is," he said, "a prevalent spirit of unrest. Twenty per cent. of the farmers are bankrupt, the coal mines are largely closed down, in that only enough coal to meet present requirements is being moved, and many of our steel mills are shut also. The result is that we have a more serious unemployment condition on our hands than ever since the war."

"How do we propose to remedy it?" "By suitable and economic legislation," Mr. Stone replied.

"I think that the government should give some attention to this before interfering in European affairs."

HIGH PRICE FOR BOXED APPLES.

(London, Eng., paper.)
 A vivid illustration of the possibilities for Canadian fruit in Britain is furnished by the placing of carefully selected and properly packed apples on Covent Garden market for sale in the open market in half boxes containing 48 apples and full boxes of 96 apples, consisting of Spitz, Newtons and Winesaps which brought the highest prices ever recorded, half boxes at 22 shillings and boxes at 40 shillings.

A dealer wrote to the department of the Canadian Exhibition Fruit Commissioner that he would take all he could get of this quality of fruit and same packing and guarantee the highest prices. Incidentally Hamburg dealers have offered to purchase 500,000 boxes of Canadian apples, while a Stockholm fruiterer has offered to pay transportation and a week's expenses if the Canadian fruit expert will go there and arrange for a shipment.

It is pointed out, however, that Canadian fruit men must adopt a uniform grade, pack their apples in boxes and not attempt to crowd the packing unduly as the slightest bruising would mean a small price and damage the reputation of the whole pack.

ARE YOUR NERVES "ALL ON EDGE?"

"Fruit-a-tives" Brings Rest and Comfort

Amazing Results from Intensified Fruit Juices

WILL MINE LIMESTONE FOR PICTOU FARMERS

NEW GLASGOW—The mining of limestone to be crushed for use in farming operations, will commence shortly. Principal Cumming, of Truro, has completed a contract with Mr. McDougall, of Koydart, Pictou County, to mine and deliver three hundred tons of limestone, which will be crushed at a central point in Lower East Pictou. The Agricultural Department are also endeavoring to locate a quarry near Bailey's Brook to serve the farmers of West Pictou.

Principal Cumming is also endeavoring to establish a large crushing plant in a central part of the county near the railway, and has been looking over the ground and spending considerable time in this effort. He has interested J. R. Porter, of Stellarton, a well-known coal mining man, and part owner of the Greenwood Coal Company, in the project.

Here and There

A rich strike of silver lead ore has been made on Galena Hill, Yukon Territory. One vein is eighteen feet in width and shows 70 per cent lead with 30 to 50 ounces of silver. Several big mining interests are reported as active in this area.

The manufacture of wooden boxes is an important industry in British Columbia. There are 25 box-making plants in the province, representing a capital of between \$3,000,000 and \$4,000,000, about 1,200 employees and an annual payroll of not less than \$1,250,000.

So popular has the bungalow camp system established by the Canadian Pacific Railway become that it will be necessary to extend it greatly. This statement was made recently by C. B. Foster, Passenger Traffic Manager, after a visit to the hotels and camps in the Rockies.

That the farmers of Western Canada are now giving increasing attention to the improvement of their home surroundings is shown by the fact that they have not only planted 5,250,000 trees distributed by two government forestry stations this year but have also purchased large quantities from private nurseries.

Summer fishing commenced on Lesser Slave Lake on July 28th and will close September 30th. Operators have been limited to a catch of 1,500,000 pounds of whitefish but no limit has been placed on pickerel and jack fish, as the market for these varieties is restricted. Four fish companies are operating this summer and will ship to Chicago via Dominion Express.

Imports of Canadian produce and manufacture into Australia received during the year ended June 30th, 1924, amounted in value to \$5,064,283, an expansion of \$1,899,803 over the previous year. It is the largest volume of trade yet recorded between Canada and Australia. The greatest increase was in motor chassis though a good volume of trade was also done in rubber goods, boots and shoes.

What is claimed to be a world's record for relaying rails was established by a crew of men on the Canadian Pacific Railway, in the New Brunswick district recently. In two days the 220 men in the gang tore up 29.7 miles of old 95-lb. rails and replaced them with new. All available data states that the former Canadian record was 11.7 miles, which exceeds that established in the United States.

The "Empress of Scotland," one of the Canadian Pacific Railway's finest liners, docked at Quebec on August 8th with a passenger list crowded with important names. Among them were Lord Beaverbrook, the Canadian financier, Edward W. Bok, editor of the Ladies' Home Journal, whose offer of a fifty thousand dollar prize for the best plan tending to maintain world peace created so much interest recently, and E. W. Beatty, K.C., Chairman and President, Canadian Pacific Railway. Mr. Beatty had just concluded a most successful tour of Europe with the object of attracting capital and immigrants to Canada. He spoke with great enthusiasm of the prospects of obtaining both and especially anticipated an influx of fine new Canadians from Denmark.

NOT FEASIBLE NOW TO SPEND \$35,000 ON I. O. O. F. HOME

Grand Lodge Finance Committee Rejects Proposal—Rev. G. W. Whitman Is New Grand Master

WOLFVILLE—At a special meeting of the Grand Lodge Finance Committee, Thursday morning, it was voted unanimously that the recommendation of the Home committee for an appropriation of \$35,000 for an enlargement of the Home is not feasible at the present time.

OFFICERS ELECTED
 The Grand Lodge met Thursday morning and conducted routine work until 11 o'clock, after which the election of officers for the ensuing year took place.

The results of this election were: Grand Master, Rev. G. W. Whitman, Grand Pre; Deputy Grand Master, A. C. Barnaby, Bridgewater; Grand Warden, M. L. Robinson, St. Stephen; N. B.; Grand Secretary, J. J. McKinnon, Charlottetown; Grand Treasurer, J. M. Donovan, Halifax; Grand Representatives, 1924-1925, A. A. Gunn, Stellarton, Trustee of Home, 1925-1926, H. R. Brown, Truro; Trustee of Home, 1925-1927, Le Mert McKenzie, Westville. The Lodge voted unanimously to hold their next convention at St. John, N. B.

Excited Passenger: "Can I catch the five o'clock train for Winnipeg?" Official (calmly): "That depends upon how fast you can run. It started three minutes ago."

HORSE RACED AHEAD OF TRAIN FOR 5 MILES

SHELburne—A horse owned by Harvey Harris, of this town, broke out of its stable Saturday afternoon and took the railway track just as the express from Yarmouth was coming along. For five miles the animal raced along the track ahead of the train. It is a mystery how it got across two bridges, the cross ties of which are five or six inches apart, when found all four shoes had been torn off and the horse was in an exhausted condition.

TRAVEL REMAINS HEAVY.

The stream of tourists from the United States is continuing. Every boat to Yarmouth brings a large passenger list and boats arriving at Halifax are bringing their quota.

Tourists travelling by autos have eclipsed all previous records. Some came with simple appliances, expecting to make use of boarding houses and hotels. Others have their autos fitted with complete outfit for camping, with tents, cooking utensils and in some cases have trailers to carry the necessary outfit. Many make use of convenient places along the highway to pitch their tent, cook their meals, and rest over night.

SOWING AND REAPING

Sow with a generous hand;
 Pause not for toil or pain;
 Weary not through the heat of Summer,
 Weary not through the cold Spring rain;
 But wait till the Autumn comes,
 For the sheaves of golden grain.

Scatter the seed and fear not,—
 A table will be spread;
 What matter if you are too weary
 To eat your hard-earned bread?
 Sow while the earth is broken,
 For the hungry must be fed.

Sow,—while the seeds are lying
 In the warm earth's bosom deep,

And your warm tears fall upon it,
 They will stir in their quiet sleep,
 And the green blades rise the quicker
 Perchance for the tears you weep.

Then sow, for the hours are fleeting,
 And the seed must fall to-day,
 And care not what hands shall reap it,
 Or if you should have passed away
 Before the waving cornfields
 Shall gladden the sunny day.

Sow,—and look onward, upward,
 Where the starry light appears,
 Where, in spite of the coward's doubt-
 ing,
 Or your own heart's trembling fears,
 You shall reap in joy the harvest
 You have sown to-day in tears.

MANY CANADIANS ARE RETURNING.

(Ottawa Citizen.)
 Immigration to Canada since the opening of the season of navigation in April aggregated, to the end of June, 68,000, of which 52,000 were from overseas ports and 16,000 were Canadians returning from the United States. The statistics indicate an advance over the arrivals in April, May and June of last year. It is all essentially "direct" immigration. In other words the great volume of those coming to this country come with the assurance of employment. The larger number is arriving without their passage being assisted.

It became necessary some time ago to change the regulations in regard to assisted passages so that people "nominating" them for passage must give in detail the arrangements made for their employment. This is checked up by an official of the department. Prior to this modification, the steamship companies were charged with too much zeal in securing nomination papers from farmers or others and there was some tendency to overcome by immigration to Canada the restriction of the United States quota law. The total figures of overseas immigration do not indicate, however, anything but a very normal movement. It is smaller than in the boom days because of the process of selection and the care taken to see that those coming will be employed.

A Satisfactory Feature.

What is regarded as particularly satisfactory is the home-coming from the States, above indicated. For the past two years the American cities generally, but Detroit and Chicago in particular, have been the mecca for Canadians owing to the high prices prevailing for skilled labor of all kinds. A great many have gone from Ottawa to Detroit, for example. The reports indicate that conditions over there are not nearly as favorable as before while the same thing applies to other cities where skilled labor was attracted by high wages in building construction. The sixteen thousand who have come back already are being supplemented this month. The movement homeward is not from any particular state, but rather is scattered. A considerable number of French Canadians are among them.

The new quota law of the United States not not apply to Canadians going there to reside but a migration certificate has to be secured and a fee of \$10 per head paid. In the case of a family this charge is considered of a deterrent.

THE STORY SHOULD BE TOLD.

We have on the one hand the assurance of one of the members of the Ontario Government that British capitalists are prepared to apply capital to the development of Canadian natural industries, and on the other the hope raised by the editor of the Canadian Mining Journal that the gold-mining industry of this province may be revived. Evidently what has to be done is to interest British capital specifically in our resources. If the old abandoned gold fields of the country can be made at length to yield profits and provide employment some steps ought to be taken to bring the two together. It seems to us that the Nova Scotia Government through its department of industries and immigration has a piece of work indicated here for it to do. Perhaps the Department of Mines might help.

Certain individuals can do something to help the movement along, but it is big enough, and sufficiently large, to justify definite steps on the part of the Government. Apart from what certain men of a speculative turn of mind may do in their own interests in this connection, it is not to be expected that there will be much initiative on the part of individuals. In any case the agency best fitted to do the work thoroughly is the agency that has some direct responsibility for the development of the country.

How many financial people in London know anything about our gold resources? If it is true that there is a real opportunity to develop them properly, it would be at least a first step to do some publicity that would properly inform such people as are most likely to be effectively interested. There never was a time when it was more necessary than it is now that every available thing we can put our hands on should be turned into money and apparently there is a hope here lively enough to justify the Government in doing some constructive publicity work. As a beginning it ought not to cost very much to let something be known regarding expert opinion on the possibilities of our gold fields. It would surely be a pity if the opportunity were to be allowed to go unutilized while everywhere else enterprise is being shown in making opportunities available to those who can make use of them. We hope that the very utmost use will be made of the opportunity which now seems to be presented in connection with gold mining.—The Maritime Merchant.

BERWICK WITHOUT LIGHTS FOR WEEK.

What this Valley needs more than anything else at the present time is a genuine old-fashioned rain-storm. We have had a wonderful summer, so far as fine weather goes, but moisture is the crying need just now. Everywhere, in the fields, in the orchards, gardens, and streams which are fast becoming depleted, the need is apparent. The stream at Factoryville, which supplies energy for Berwick's electric light and power plant is so far depleted as to make it necessary to curtail what has been a day and night service to a minimum service of from 7 to 11 p.m., or thereabouts. The reserve supply at South River Lake was opened up a week or two ago and other efforts have been made by the Town officials to increase the flow from the streams further back. The Town has been without street lights for the past week.—Berwick Register.

VALLEY APPLE CROP 75 PER CENT. OF 1923.

Berwick.—Prospective buyers of fruit from England and the United States are already in the County looking over the fruit prospects for the Valley. They find that the first reports of as large a crop as last year was far astray and a new level of 75 per cent of last year was believed to be about right. At this time the latter estimate may prove a little too high, though it is believed will be around that mark. Apples have been falling considerably in uncared for orchards and some people are so pessimistic that they are free to state the crop will shrink below one half. Nevertheless, there are many orchards that are well filled and looking well at this date. One item that will account for a good deal is that the Valley fruit is much more advanced and larger now than at the same time last year. This season the apples are sure to be better matured and larger when apple picking season arrives.

FINANCES OF CANADA FOR JULY

Smaller Revenue and Larger Expenditure

RECEIPTS OVER \$3,000,000 LESS

OTTAWA—Decreased revenues and increased expenditures of the Dominion during the month of July are shown in the statement issued by the Department of Finance. The statement shows a falling off in revenue of the Dominion during the month of July of \$3,857,413 when comparison is made with revenue for July, 1923. Revenue for July, 1923, was \$32,759,524 while for July, 1924, it amounted to \$28,902,111. Ordinary expenditures for the month of July of the present year show an increase of \$4,140,489 over the ordinary expenditures in July, 1923. Expenditures, on ordinary account this year amount to \$22,497,209, as against \$18,356,720 in July, 1923.

The net debt of Canada now stands at \$2,391,451,680 or an increase of \$1,339,438 during July. Last year the debt showed a decrease of \$5,165,962 during the same month.

With the end of July the first four months of the present fiscal year closed. Ordinary revenue collected during the four months period of the present year was \$138,807,253 or a decrease of \$13,458,390 from the total for the corresponding period last year when revenue totalled \$152,265,643. Ordinary expenditures for the four months of the present year totalled \$96,546,541, as compared with \$91,145,399 in 1923. This is an increase of \$5,401,142. Heavy interest payments on the public debt are responsible, to a degree, for the increased expenditure.

Mrs. Annie Warwick has gone to Middleton for the week-end.

Mr. W. Hall is able to be out on business, after an attack of illness.

A pleasant hour was spent on Tuesday evening by friends of Dr. R. and Mrs. Morse, who assembled to do them honor, and say farewell for a time. Many kind words were spoken by the friends some of whom had known the Doctor and Mrs. Morse from early youth.

Mrs. Edgar Shaffner, Mr. Hanley,

Mr Bishop and others expressed their respect and a deep interest in the state of China and the Chinese.

The musical selections were varied and beautifully rendered. Those who heard Mr. Hunt of Liverpool, will not forget the rich voice or noble rendering of the sacred song. Rev. A. Whitman opened the meeting, Mrs. H. Freeman, the president of the W. F. M. S. was in the chair, with mixed feelings at the close all joined in singing "God be With us When we Meet Again."

Rev. N. Cole, pastor of La Have Methodist church, will take the services in the Lawrencetown circuit August 31st, preaching at Albany in the morning, Ingleville in the afternoon and Lawrencetown in the evening.

REGULAR AIR MAIL ROUTES IN EUROPE

New Line Started Between Stockholm and Berlin

STOCKHOLM—Regular air mail traffic between Stockholm and Berlin began Tuesday.

Other air lines from Sweden, recently established and maintaining regular daily schedules, are Malmo, to Hamburg; Stockholm to Helsinki, Finland; and Malmo to Copenhagen.

It is also planned to start an air service in the near future between Gothenburg, Sweden, and Christiania, Norway.

The Swedish air passengers connections with England via Hamburg have shortened the time of travel to London by a whole day and night.

TRIALS OF INDIGESTION

Common Errors About This Trouble Into Which People Fall.

Many people so far misunderstand the digestive system as to treat it like a machine; neglecting it until it works sluggishly, then irritating it into work again by the use of purgatives. The stomach needs help at all times, but a study of the process of digestion will show that purgatives, as commonly taken, are seldom necessary and often harmful.

To safeguard your digestion the diet must be controlled. Over-eating is always harmful, but one must assimilate enough food to supply the needs of the blood. Remember, the blood has to carry nourishment to all parts of the body and find fuel for its energy. Hence when the blood becomes weak and fails to do its work, indigestion arises. Therefore the sure remedy for indigestion is to build up the blood. If you suffer from any form of indigestion choose your diet carefully and take wholesome nourishment. Above all, start building up your blood by taking a course of Dr. Williams' Pink Pills. Then under the influence of the new blood supply, your digestive system will respond naturally, your appetite improve and your food will do you good. So begin to improve your digestion by starting to take Dr. Williams' Pink Pills now.

You can get these pills from your druggist or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

MINER KILLED

Timberman Crushed to Death When Struck by "Pot" in Glace Bay Colliery

GLACE BAY, N. S.—Joseph Smith, a timberman employed in No. 11 colliery, was instantly killed last evening when a "pot" fell from the roof, crushing him to death. The accident occurred in No. 4 roadway, No. 4 room. Smith was about his usual duties as timberman when the fall from the roof came without warning. As a result of the fatality the mine knocked off for the evening, no night shift going down. No. 11 has a good record for safety, yesterday's being the first fatal accident in three years. Smith, who is a native of Newfoundland, is survived by his wife and six children at Dominion No. 4. An investigation into the accident will be held before Judge Finlayson of the County Court.

Owing to recent heavy rains portions of No. 22 underground workings are flooded and eleven pairs of miners were obliged to leave work this morning.

noon meeting preceding it.

Mr. L. R. Fair met with a serious accident on Tuesday evening 19th in breaking his ankle, he was conveyed from his bungalow at Albany Cross to Middleton Hospital, Aug. 21st.

ALBANY OLD HOME WEEK

young and old assembled for the Sunday School exercises which proved most interesting. The school was opened by Mr. N. P. Whitman, the superintendent. The lesson was read and prayer was offered by Dr. Brown after which Mr. Frank S. Whitman of Bridgeport, Conn. formerly of Albany gave an inspiring address on young peoples work, urging the young people present make their choice for the right, keeping the temple of their bodies and minds pure and clean. This was followed by a very interesting and instructive paper prepared and read by Deacon Phineas Whitman, one of the oldest living Albanians, in his 88th year. This paper dealt with the religious history of Albany during the last century. The church was organized in 1829. The paper told of years of decline and years of great revival and related in a striking manner the earnest christian spirit of the early settlers who would not let God go unless He blessed them. There were great revivals in 1829 and in 1845 and in 1871 and the hope was expressed that the church might once more enjoy a similar season of refreshing.

This paper will form an important part of the history of Albany now being prepared. The regular service at 11 o'clock was conducted by the pastor who cordially welcomed the visitors. A noteworthy feature of this service was the presentation of a beautiful bouquet of asters and chrysanthemums in honor of Mrs. Rachel Saunders of East Dalhousie, the oldest living Albanian who was the guest of honor, and who on the day before had entered her 99th year. The flower bouquet was presented by little Miss Nola Mailman and this was followed by a beautifully worded address written and read by Miss Annie Fain which expressed the hearty congratulations and good wishes of Mrs. Saunders' many friends, present and absent. This was followed by a poem which exhibited true poetic genius prepared and read by Miss Ardis Whitman of Margareville, N. S. A duet "Lifes Twilight Hour" was well rendered by Mrs. A. H. Whitman and Miss Georgia Whitman accompanied on the violin by Miss Frances Whitman.

A unique feature of the morning service was an Old Folks Choir, old hymns of the church had been selected and fifteen or twenty of the older people including the guest of honor, Mrs. Saunders, Mrs. Phineas Whitman, 86 years of age and Mr. Harris Oakes, 88 years, sang with the spirit and understanding also the old hymns: "Oh God our Help in Ages Past," "Oh Thou in Whose Presence,

"From Every Stormy Wind That Blows," "Watchman Tell us of the Night," to the old tunes of Dundee, Dulcimer, Retreat and Watchman respectively.

Rev. M. W. Brown, D.D., was the special preacher at this service, clearly and convincingly he told the story of Christ and the Samaritan woman, taking for his text, John 4:29, and dividing his subject as follows: 1. The Need of a Vision of Christ. 2. The Need of a Vision of Self. 3. The Need of a Vision of Others.

The speaker was at his best and held the close attention of his hearers to the end under the last division he feelingly referred to the men and women who had gone forth from Albany, mentioning especially those of the young men, Frank S. Whitman, Clyde O. Whitman and Asbury Murray.

The evening service was largely attended. A lovely song service was followed by a unique and stirring missionary address delivered by Dr. W. R. Morse, formerly of Lawrence-town, who has been engaged for several years as a medical missionary in China, having been appointed as Dean of the Medical College at Cheng-Fu, West China, a college of 860 students and 61 professors and teachers. In an address of clearness and force Dr. Morse pointed out the difficulties of doing missionary work in China chiefly on account of the wrong thinking of the people. He explained the Chinese philosophy with regard to anatomy and physiology. He showed that Polytheism and Demonism were the source of their education, their ethics and morals all of which contributed to the difficulties of reaching the people for God. He said that the Chinese were not all wrong. They see some things we do here in the homeland. We call them "Chinks" in their eyes we are the "Chinks". They look down upon us and some of our ways and rightly so, as unworthy and even contemptible.

He believed that for the Chinese as well as for us the fear of the Lord is the beginning of wisdom and the hope of China first of all was the christian education of the leaders in the schools and colleges. Rev. L. F. Wallace and Dr. M. W. Brown assisted the pastor in the opening exercises. Mrs. L. F. Wallace sang, "Hold Thou my Hand," with characteristic feeling and power.

Monday Afternoon 2:30 A great day and a great time was

the general expression on the lips of many as they reviewed the exercises of Monday and of the three days of Home Week. The morning of Monday was rainy but by 11 o'clock the rain had ceased and nothing hindered the friends gathering together.

According to the program Monday afternoon was to be devoted to a service which would first include a history of the early settlement of the place by Mr. N. P. Whitman. This was ably and clearly presented and the location of each first settler was placed in chart form before the audience and each successive owner or tenant of the lot was named in order. Following this, N. W. Whitman drew the attention of his hearers to the sacrifices these men and women made in those early days and stated that it was not toil for mere subsistence for themselves and families but they built for the future, laying solid foundations by their toil, faith and patience. He also called attention to the moral and spiritual conditions making for the success and progress of a people. These settlers believed that man shall not live by bread alone but by every word that proceedeth out of the mouth of God. From the first days these settling stood for education as was evidenced by the numbers of their school houses and for religion as was shown by their churches and their adherence thereto. People of any community or land will become great and prosper only as they stand for the principles of the religion of Jesus Christ. Otherwise they will revert to decay and disaster.

The pastor then called upon a number of former residents of Albany and visitors to address the meeting, men and women who had achieved success, winning honor and distinction for themselves and for their native place.

Dr. I. B. Oakes of Wolfville was the first speaker. He was in his happiest mood and his reminiscent remarks were attended by bursts of laughter from the audience, as he referred to the primitive school houses of those days and the drills to which the pupils were subjected in reading, spelling, writing and grammar. Dr. Oakes as one of the Provincial examiners of the papers for teachers licenses is in a position to judge correctly as to the relative value of the work done in those days and in more recent times. He claimed that the young people of the present day were falling in spelling, especially stating that in the papers he examined recently the word "similarly" had been spelled 27 different ways.

Mr. Ingram Oakes, L. L. B. of Halifax, spoke briefly expressing his pleasure at being present and extending his good wishes for the prosperity of his home community.

Mr. L. R. Fain, architect, of Aylesford, N. S., in a deeply interesting reminiscent vein referred to the happy days of yore when he with other Albany youth enjoyed so much the old time "paring parties" with their pumpkin pies and other festivities.

Deacon W. B. McKeown of Lawrence-town, was in his happiest mood as he referred wittily and feelingly to the year or more he spent in Albany as a boy of six years, attending school under that thorough old school master William McKeown. Although he had not been born in Albany, he certainly would have been if he had had any choice in the matter.

Deacon C. R. Marshall of Falkland Ridge emphasized the value of the great moral and spiritual ideals of industry, integrity and spirituality, which alone can produce prosperity. Mr. Marshall's speech was one of the best.

Deacon Arthur W. Hendry of North Brookfield, a former resident of Albany had not been in the Albany church for 36 years. Mr. Hendry said one of the finest things of the afternoon when he stated that the toils and sacrifices of the fathers of Albany were a challenge to the young men and women of the present day to emulate their example.

Brief speeches were also given by Mr. Frank S. Whitman who stated that the young man who remained on the farm today and faithfully did his duty was as worthy of as great respect and should receive equal praise with those who had gone from home. And by Mr. Clyde O. Whitman who emphasized the need and value of young men when going from home to link themselves up with the church and with christian young people as several from Albany had done.

Two sisters, Mrs. Oliver of Mass., and Mrs. Roberts of Digby, daughters of the late Charles Oakes of Albany, followed, expressing their pleasure at being present.

Deacon Phineas Whitman gave some additional information regarding the men who had gone out from Albany and who had accomplished much for the Kingdom of God. Among these he mentioned the late Dr. J. F. Tufts, and his brother, Rev. George Tufts, Rev. George E. Whitman, missionary in China under the American Baptist board, Rev. M. B. Whitman, of Margareville, N. S., and his brother, Rev. A. H. Whitman, the present pastor of the Lawrence-town and Albany churches.

COLLISION FATAL

One Killed and Several Injured When Ontario Cars Meet

HAMILTON, Ont.—One man was killed and several injured in a collision on the Dundas street highway, a short distance from Port Nelson, at two o'clock this morning, when cars from Niagara Falls and Toronto collided. George Bowerman, of Toronto, was almost instantly killed, and Charles Thornton suffered a severe gash in the head and his side was crushed. Edward Jacobs and Don Goodman were shaken up. George MacGillivray is in hospital but not seriously hurt. James Cole, driver of the Niagara Falls, car was badly injured. His ribs are broken and he is hurt internally. Harry Heath, of Niagara Falls, is in St. Joseph's Hospital but not seriously hurt.

HALF MILLION DOLLARS LOSS

Half Million Dollars Loss Caused Great Damage.

Regina.—Hail claims received at the local and Provincial headquarters of the private, municipal and farmers mutual companies indicate that Saturday's storm extended over one of the widest areas ever known in Saskatchewan. It is estimated the loss will aggregate around \$500,000.

Apparently the storm covered an area of about three hundred miles long and 25 to 30 miles wide, claims being received from as far west as Big Stock Lake, north of Maple Creek to as far east as Arcola, and North Portal.

Although about two thousand claims have already been received by the various companies.

Saturday's storm was the third time a number of districts have been hit during the present season. A disastrous feature of the season's storms in that they have before practically been confined to the southern parts of the Province where the crop prospects were particularly bright.

OUR BIRDS

The importance of conserving bird life is stressed in a bulletin issued by the Michigan Bird Conservation Commission. "If all birds should suddenly disappear, every plant, every flower, every green leaf and blade of grass would be destroyed within two years! The birds form a vast aerial army for the destruction of insects, and man has no better friends than the birds. An oriole, for instance has

been known to destroy sixty-seven caterpillars in exactly one minute. A single family of robins destroy a million caterpillars in a season. In the state of Nebraska it is estimated that birds devour 170 car loads of insects in a year. The crow destroys its own weight in insects every twenty-four hours. A single cuckoo is worth fifty dollars to an orchardist. "No birds, no fruit," says the scientist. Let's conserve them.

REV. R. O. ARMSTRONG METHODIST PASTOR DIES

End Comes Suddenly at Hartney, Where He Had Just Taken Charge

Was Secretary of Manitoba Sunday School Association for Five Years

Word was received from Hartney last night of the death of Rev. R. O. Armstrong, a well-known Methodist Minister, who for about five years was secretary of the Manitoba Sunday School Association.

Mr. Armstrong passed away about 8 o'clock, and though he had been suffering from heart trouble for some time, he was thought to be recovering, and the end came suddenly. Transferred from High Bluff by the Methodist Conference which met in Winnipeg recently, Mr. Armstrong had just taken charge of the Hartney circuit, and had occupied the pulpit of the Hartney church just one Sunday.

Deceased who was just in his prime, leaves a widow, two sons and three daughters. Edward, one of the sons, was premier of the first Manitoba Older Boys' parliament, and is a student at Wesley college. The other son is Charles, the daughters are Louise and Jean, in Winnipeg, and Ruth, at home.

The funeral will take place in Winnipeg on Thursday, though definite arrangements have not yet been made. There will be a service at Young Methodist church at 2.30 p. m.

In Many Churches

Mr. Armstrong was a native of King's County, Nova Scotia. He took his college training for the Methodist pastorate at Mount Allison university, New Brunswick, and later in his life studied at Wesley college, Winnipeg, and in various summer schools. He came to the west in 1904, and was stationed successively at Emerson, Elmwood, Winnipeg, Virland and Kenora.

He won the esteem and affection of all to whom he ministered, and his wide circle of friends included many who were not members of the Methodist church. His reputation was further enhanced by devoted and splendid work in the cause of the Sunday school. He held the position of secretary of the Manitoba Sunday School association for about five years, till the time it was merged into the Religious Educational Council of Manitoba, when he took over the pastorate of the High Bluff church.

Mr. Armstrong was a popular writer on religious and educational subjects, and was a frequent contributor to the Manitoba Free Press.

Tributes Paid

In a tribute to Mr. Armstrong, Principal J. H. Riddell, of Wesley college, said last night, "He was one of the most highly respected ministers in the Methodist church, an earnest pastor and a devoted worker. He had been for many years representative of the Christian Guardian in Manitoba, and had done considerable writing for its columns and other papers on religious themes. He took a very active part in all matters pertaining to the welfare of the community and was very highly thought of as a neighbor and a man, honorable, friendly and kindly in all his dealings."

G. H. Stewart, who was president of the Manitoba Sunday School association when Mr. Armstrong was secretary, and is at present president of the Manitoba Boys' Work board, also spoke of Mr. Armstrong in the highest terms.

"I always found him a very dear friend," said Mr. Stewart. "He was a man of the highest integrity, absolutely devoted to the work of the ministry and the Sunday school, and always had a kindly word for everybody, never critical. He was always optimistic about the future of the young people because of the faith he had in them, and it was his great aim to put them in the right path. I was shocked to hear of his untimely death. A splendid man has been lost of the church and the people. Many hundreds of friends will express deep sympathy with the bereaved family."

Goller (to Irish caddy): "Don't you think I've improved a good deal since I began?"
Caddy (anxious to pay a compliment): "You have, sorr. But sure it was alisy for you to improve, sorr."

"What were you in civil life?" asked the bold, bad Baron of a robber in the "Babes in the Woods." "A remover of superfluous heirs," replied the desperado, who was promptly engaged.

Black River Falls, Wis.—"As Lydia E. Pinkham's Vegetable Compound saved me from an operation, I cannot say enough in praise of it. I suffered from organic troubles and my side hurt me so I could hardly be up from my bed, and I was unable to do my housework. I had the best doctors in Eau Claire and they wanted me to have an operation, but Lydia E. Pinkham's Vegetable Compound cured me so I did not need the operation, and I am telling all my friends about it."—Mrs. A. W. BIZER, Black River Falls, Wis.

MAPLELAND WILL SOON BE A YACHT

Annapolis-built Tern Sebr. Graduates Into "Aristocrat" Class

ANAPOLIS ROYAL—Another trim Nova Scotia vessel has caught the eye of a visitor. Zane Grey, distinguished novelist and playwright, who is spending some weeks in the province, has purchased the Annapolis built tern schooner "Mapleland" and will convert her into a workmanlike cruising yacht.

The schooner will sail for New York in a few days with Captain William King, of this town, as master. There she will be refitted palatially as a yacht; her cabins will be extended, baths will be installed, and she will get two new engines and various other improvements.

After being refitted at New York, the schooner will sail for South America, via the Panama Canal, and will carry on an extensive cruise her new owner and a distinguished party of guests.

"Mapleland" was built here in 1919. She is a vessel of 473 tons, and of the following dimensions: Length, 175 feet beam, 35 feet; depth, 13.2 feet.

Up to the time of her purchase by Zane Grey, she was owned by Frank W. Pickles of this town.

STODDARD—MacALONEY

TORBROOK—A very pretty wedding took place Tuesday morning, on the lawn at the home of Mr. and Mrs. James E. MacAloney, when their second daughter Marion was united in marriage to Edgar A. Stoddard, B. A., of Portland, Maine.

The lawn was very prettily roped off with white ribbons, the arch under which the bridal couple stood was made of ferns, asters and sweet peas.

As Mendelssohn's wedding march was being rendered by Mrs. Ethyl Spurr, of Middleton, the bride on the arm of her father, took her place under the arch, dressed in a gown of white mingroy crepe with pearl trimmings, and the conventional veil caught with orange blossoms, her only ornament being a string of pearls, a gift of the groom.

She carried a sweet bouquet of roses and sweet peas and was attended by her sister, Miss Kathleen MacAloney, who wore a blue crepe-de-chine and carried a bouquet of sweet peas; also Miss Agatha McFarland, of Portland, Maine, who wore peach crepe-de-chine and carried a bouquet of asters. The groom was attended by Mark Nelly.

The ceremony was performed by Rev. John Hockin, of Middleton, Methodist Church, in the presence of about fifty guests, after which a dainty lunch was served.

Mrs. Stoddard's travelling gown was dark blue satin crepe. Her coat was black-dust charmuse with squirrel collar and hat to match the coat.

After their honeymoon, spent in various places in Nova Scotia they will make their home in Portland, Maine, where Mr. Stoddard is a popular teacher of mathematics.

Among the guests were Mr. and Mrs. Rouben A. Stoddard of Portland, Maine, Mr. and Mrs. C. N. Crowe, of Bridgewater, and Mrs. Louise Ackles, of Truro.

Many valuable and useful gifts were received.

ROBBERING AND HOW TO PREVENT IT

(Experimental Farms Note)

Bees, like some people, if given the opportunity will steal from one another rather than work. This, however, happens usually only in times of scarcity.

A robber bee is characterized by its nervous actions. It will fly cautiously up to the entrance of a hive, and when it sees a bee coming towards it, it will quickly dodge back; or it will search the walls of a hive in the hope of finding some unguarded crack through which it can crawl. An old offender has a shiny appearance, the result of crawling through cracks or being roughly handled by the guards. On leaving the robbed hive, it has a plump look and unlike the inmates which come out leisurely it is in a hurry and takes wing with difficulty owing to its load.

It is the bee keeper's duty, therefore, to prevent his bees acquiring such dishonest habits by seeing that no sweets are left exposed at any time; that all cracks and openings in the walls of the hive are closed with mud or clay; that when hives are opened the work be done speedily; that feeding, if any, be done in the evening; and that entrances be consistent in size with the strength of the colony. Should disease be present, these measures are doubly necessary to prevent not only robbing and its disastrous results, but also what is infinitely worse, the spreading of the disease.

Should robbing start, prompt action is necessary. Contract the entrance so that but two or three bees can enter abreast; then strew a handful of coarse grass over it and sprinkle with a dipperful of water. This puts the robbers at a disadvantage, as the bees of the colony will attack them as they crawl through the wet grass.

Should the robbed colony, however, stand in danger of being overcome, carry it down into the cellar and leave it there until the uproar subsides. Coal oil wiped over all junctions of the hives acts as an excellent repellent.

LIQUOR SEIZURES IN ANAPOLIS COUNTY

Two of Largest Yet Made In That District—Resistance

ANAPOLIS ROYAL—Two of the largest liquor seizures ever made in this county were made late this evening. Large quantities of liquor were found in the premises of Herbert Burrell, Lequille. The liquor was brought to Annapolis Royal and placed in the Court House cellar.

Another seizure, equally as large, was made at the home of Andrew Smith, in the Liverpool road, where several casks and cases of liquor were found. Inspector Green, of Middleton, who made the seizures was assisted by Provincial Constable Harry Amberman. They met with resistance and experienced great difficulty in raiding the houses.

TANLAC MEETS TEST FOR OVER 3 YEARS

"The more I know about Tanlac the more I feel like praising it," says Mrs. Samuel Shelly, 56 Wood St., Toronto, Ont., Canada. "I always take Tanlac when I begin to feel run-down and it has met my health needs for the past three years."

"For years before I learned of Tanlac I was in such an awful run-down condition that at times I would get so weak and nervous I couldn't do my house work. I was down to almost a skeleton and still losing weight all the time. Headaches

nearly drove me mad and I had a sickly, sallow complexion.

"Tanlac has increased my weight 14 pounds, and has given me a wonderful appetite. My nerves are steady. I sleep well and have health and strength that makes life a pleasure."

Tanlac is for sale by all good druggists. Accept no substitute. Over 40 million bottles sold. Tanlac Vegetables Plus for continuation; made and recommended by the manufacturers of Tanlac.

MANY ATTEND FUNERAL REV. R. O. ARMSTRONG

Impressive Service Held at Young Church—Dr. Riddell Pays Tribute

States Mr. Armstrong Had Character That Was Built on Love

Simple but impressive was the memorial service conducted in Young Methodist church yesterday afternoon, to mark the passing of one of the stalwarts of that branch of the Christian church, in the person of Rev. R. O. Armstrong, who died at Hartney, Monday. The church was well filled with associates and friends who had gathered to pay their last respects to their lost colleague and most of the church-ees with which the deceased was connected during his ministry in Manitoba sent representatives. The service was conducted by Rev. T. Neville, of Dauphin, president of the Manitoba conference, and he was accompanied on the platform by Rev. Dr. J. H. Riddell, principal of Wesley college; Rev. J. W. Aitkens, D. D., minister of Young Methodist church; Dr. J. O. Murray, Presbyterian minister at High Bluff; Rev. R. H. McCullough, Dr. Stewart, Rev. Dr. J. Elliott and Rev. W. A. Cook, of Brandon.

The service opened with prayers, and Dr. Riddell followed with a personal tribute. He spoke of the deceased as a man who, in the eyes of the world and his followers, was not a "great man" as the term is literally applied, but one who by virtue of his goodness would be measured by character in the great world of reality to which he had gone. "Godness was only greatness," he continued, "and Brother Armstrong had a character which was built on love and showed itself in moral courage. He had not sought the path of greatness as the world knows it, but had seen things as they were and tried to make them better."

In condoling with the widow and children, Dr. Riddell said that he did not know the depth of their sorrow as near and dear relatives, but as a friend of the deceased he could appreciate it. He concluded by saying that the thing which distressed him most was that another of God's ambassadors, one of those that we could least afford to lose, had departed this world.

Dr. J. O. Murray said a few words and then the pastor of Young church, Dr. Aitkens, gave an address in which he paid very high tribute to Mr. Armstrong and extended his sympathy to the widow and children.

Many Floral Tributes
At the close of the service, the organist, Arnold Ditson, played the funeral march while the congregation stood with bowed heads, and after the benediction had been pronounced, the coffin was opened and those present filed past to have a last look at the departed one. Many and beautiful were the floral tributes that lay around the coffin, and these were carried out of the church by a number of the gentlemen present, who fell in behind the pallbearers and departed the wreaths in the earth. The pallbearers were: Rev. J. Elliott, D. D.; Dr. T. Glen Hamilton, Dr. G. A. Brown, E. Bayne, F. Meggison and G. H. Stewart. The cortege left the church at 4 o'clock for Elmwood cemetery where a short service was conducted prior to the burial.

A feature of the memorial service was the large number of members of the Methodist conference who were in attendance. The congregation of Morse Place Methodist was also represented, the late minister having opened that church 14 years ago. A solo, "He Knows," was sung by Mrs. E. F. Mills during the church service.

Rev. Mr. Armstrong was recently transferred from High Bluff to Hartney and had only preached one sermon at his new church when he died. He was well known in Manitoba, having come west in 1904, and occupied the position of secretary of the Manitoba Sunday School association for five years. He leaves a widow and five children, two boys and three girls.

She: Archie, isn't Niagara wonderful! I could just stand and look at it forever.
He: But wouldn't it be rather trying to go through life with a cataract in one's eye?

Here and There

A remarkable report comes from Brockville, Ont. Harry Church, a farmer residing five miles north of that town, is the owner of a Holstein cow which has just given birth to three calves. All are alive and thriving.

On July 11, Her Majesty the Queen of Spain and her two daughters visited the Canadian Pacific Railway's pavilion at the British Empire Exhibition. Her Majesty evinced deep interest in all she saw and declared the exhibit to be "perfectly lovely."

Although the present season of ocean travel has reached the period usually associated with a falling off in the number of passengers, steamship companies report that little decrease is apparent this year and that the total volume of passenger traffic in 1924 will probably be the largest of any year since the war.

World production of silver for the first half of 1924 is 117,650,000 ounces, as against 118,250,000 ounces in the first six months of 1923. Canada accounted for a production of 10,800,000 ounces in 1924, as against 10,500,000 ounces in the same period in 1923, an increase of 686,074 pounds, or 15.5 per cent.

Saskatchewan's output of creamery butter in June amounted to 1,787,056 pounds, as compared with 1,746,000 pounds in June, 1923, an increase of 41,056 pounds or 2.4 per cent. From January to June, 1924, the province has produced 5,109,000 pounds of butter, as against 4,423,016 pounds in the same period in 1923, an increase of 686,074 pounds, or 15.5 per cent.

Among the tributes to the late Sir Edmund Osler, of the Canadian Pacific Railway's directorate, was one from C. R. Hoamer, for many years a fellow-director. It was addressed to Vice-President Grant Hall and read as follows: "He was the last living of the great men who organized our great railway."

The late Sir Edmund became a director of the Canadian Pacific Railway in 1885, the year of the completion of the transcontinental line.

A most interesting and attractive volume entitled "Here and There in Montreal" has just been published by the Musson Book Co. of Toronto. The book is well illustrated with maps and pictures in color and brings out many noteworthy facts, such as that the city's total population is 900,000, that two-thirds of this number are French-Canadians and that Montreal is the second port of importance in North America. The author is Charles W. Stokes, Asst. Gen. Publicity Agent of the Canadian Pacific Railway.

The first annual Pow Wow of the Trail Riders of the Canadian Rockies, held at Yoho Camp, was a great success. Over 200 internationally known writers, artists, etc., rode in to gather round the sacred fire in the Sun Dance Lodge. Charles D. Walcott, secretary of the Smithsonian Institute of Washington, D.C., honorary president of the Trail Riders, addressed the gathering, a poem written specially for the occasion by Bliss Carmen was read and Chiefs Walk-in-the-Road and Buffalo Child Long Lance performed an Indian dance.

THE LATE R. O. ARMSTRONG

Rev. R. O. Armstrong, who died sud-
denly at Hartney this week, had for
several years been a contributor to
this page of the Free Press. He was
familiar with much of the best of the
world's literature and wrote with
clarity and a fine appreciation of the
influence of the printed word on the
lives of men and women, boys and
girls. A weekly article by Mr. Arm-
strong which appeared under the head-
line, "Sunday Editorial," was follow-
ed with interest and sympathy by a
wide circle of readers. Mr. Armstrong
was no academic theologian. He be-
lieved in applying the high ethical
standards of his training to the every-
day affairs of the community life
where his lot was cast, and in his
conduct and in his newspaper con-
tributions he was a strong influence
for good living and good citizenship.
The passing of Mr. Armstrong will
be deeply felt. Editorial in Manitoba
Free Press.

SIR HENRY THORNTON ON THE

Expects Net Profits of 1924 Will Com-
pare Favorably With Those of
1923

WINNIPEG—"I do not think any-
one can say the result will be un-
satisfactory, and, despite a loss, there
will still probably be a betterment on
last year's figures," declared Sir Henry
Thornton, President of the C. N. R.,
who discussed the financial position
of the National System during an in-
terview here last night.

Sir Henry said he regretted to say
they would not reach the \$30,000,000
net profit mark he had estimated for
the year owing to a probable decrease
in gross earnings of \$13,000,000, but
that working costs had been so re-
duced that the net profits for 1924
would compare favorably with those
of 1923.

REV. R. O. ARMSTRONG
AN APPRECIATION

By REV. THOMAS NEVILLE
(President of the Manitoba
Methodist Conference)

There has just passed from the
public life of Manitoba one of its most
gifted, unselfish and versatile citizens
in the person of the late Rev. R. O.
Armstrong, M. A. Gifted with splen-
did abilities of a literary character,
which he used as time permitted for
the welfare of the public generally, his
main objective in life seemed to be to
do something whereby the youth of the
nation would be awakened to its
sense of greatness and opportunity.

With this in view he heard the call of
the Manitoba Sunday School Associa-
tion, and for quite a number of years
was its guiding hand and mind. Every
part of the province knew him and
gladly welcomed his periodical visits
and helpful talks and addresses.

To the "Christian Guardian," "On-
ward" and the "Free Press" he was a
constant contributor, and always
wrote something worthwhile and help-
ful.

But the ministerial pastorate was
where he did his best work. From
Emerson, where he was first station-
ed in the west, 20 years ago, to his last
field, Hartney, where he only preached
one Sunday, the people remember him
kindly as a most helpful and unselfish
man.

His brother ministers are a unit in
praise of his kindly deeds, his un-
swerving fidelity and his unreserved
devotion to his work.

He passed facing his work, literally
in the midst of the battle, facing the
evening!

The world is poorer because of his
passing!

Heavier burdens rest upon the
shoulders of those who remain be-
cause of the great load he willingly
carried and which was too much for
the tired body.

Truly we will long for "the touch
of the vanished hand and the sound
of the voice that is still."

The best thing about him was he
was God's man—body, soul, mind and
spirit.

He has left a magnificent memory
to his family—the church and his
wider circle of friends. Let us catch
his unselfish spirit and carry on the
work that he gave his life to do.

NO REASON FOR THE CALAMITY
HOWLING

VERDICT OF PRESIDENT OF THE
R. M. A.

Conditions in West Such As To Cause
Optimism, He Declares

OTTAWA—Interviewed here regard-
ing retail merchandizing conditions
throughout Canada, J. A. Banfield, of
Winnipeg, President of the Retail
Merchants Association of Canada, said
there was no reason for the "calamity
howling," which was prevalent in some
parts of the country, "particularly
down east."

Mr. Banfield, who will preside at
the nineteenth annual convention of
the association here tomorrow, said
that while there was undoubtedly a
depression at present, it was due to
the abnormal conditions brought
about by the war. While the basis of
profit for the retail merchants in all
lines was on a par with what it was
in 1912, the merchants' overhead had
increased from forty to fifty per cent.

Merchants were suffering from "too
much style" Mr. Banfield continued.
Factories, finding business dull, or-
ginated new styles, especially in the
boot and shoe trade, without any re-
gard for the retail merchants. The
consuming public followed closely the
styles and consequently stocks held
by retail merchants became obsolete
before they had a proper chance to
offer them to the public.

"There is nothing the matter with
our country, or business in general,"
Mr. Banfield said. "We find condi-
tions among the retail merchants of
the west to be generally of such a
character as to warrant optimism for
a favorable fall trade. We in the west
are optimistic and that is what is
needed in the east. You must get rid
of the grouch. Get rid of the blue ruin
idea, and show confidence in Canada."

A teacher had been telling an in-
fant's class about the Ten Command-
ments. In order to test their mem-
ories, she asked:

Can any child give me a command-
ment containing only four words?

A hand was raised immediately.

"Well," said the teacher.

BENSON—PURDY

BEAR RIVER—A very pretty wed-
ding took place at Bear River, Mon-
day morning, Aug. 18th, on the lawn
at the home of Mr. and Mrs. Harry
W. Purdy, when their third daughter
Muriel Webster, was united in mar-
riage to Mr. Harry C. Benson, son of
Mr. and Mrs. Robert Benson. The
lawn was very prettily trimmed. From
the arch under which the bridal party
stood was suspended a large bell of
sweet peas. As the wedding march was
being rendered from Mendelssohn, by
Mrs. Carl M. Mack, the bride on the
arm of her father took her place
under the arch dressed in a beauti-
ful gown of white silk cordon crepe
with pearl trimmings and the con-
ventional veil caught with valley
lilies. She carried an arm bouquet of
water lilies with streamers. She was
attended by little Miss Geraldine
Purdy, cousin of the bride as flower
girl, daintily gowned in yellow orga-
ndie muslin. Master Cerenno Purdy
acted as ring bearer.

The ceremony was performed by
Rev. C. M. Mack, B. D., of the Metho-
dist Church, in the presence of about
thirty five guests, after which a buffet
lunch was served in the dining room.
The brides going away gown was of
chocolate brown chiffon broadcloth
with hat to match. Mr. and Mrs. Ben-
son took the noon train for Boston,
where they will reside.

The gifts were many and valuable,
consisting of gold coin, cheques,
silver plate, cut glass and linen. The
groom's gift to the bride was a beauti-
ful Black Fox neck piece, to the
flower girl and ring bearer rings.

Mrs. Benson was a popular member
of the Methodist choir and Sunday
School and will be much missed in
church and social circles.

JONES—MEANS

BEAR RIVER—A pretty wedding
took place at the home of Mrs. Alice
E. Puckette, of Innisfree, Alberta,
grandmother of the bride, on Thurs-
day, July 31, when Miss Anita
Blanche Means, was united in mar-
riage to Douglas B. Jones, travelling
superintendent of the Hayward Lum-
ber Co., of Edmonton. After the cere-
mony they motored to Calgary where
they will spend a short honeymoon
visit. On their return they will reside
at 10306—116th street Edmonton. Mr.
Jones was formerly of Bear River
and is a son of Frank Jones, K. C.,
and Mrs. Jones, of Digby.

LITTLE CHANGE IN LIVING COSTS

Weekly Budget for Family of 5 Round
\$10

OTTAWA—The average cost of a
weekly budget for a family of five us-
ing twenty-nine staple foods was \$9.91
at the beginning of July according to
the current issue of the Labor Gas-
ette.

At the beginning of June it was
\$9.86, and \$10.17 for July of last year.
Slight advances occurred in the price
of flour, potatoes, butter, eggs and
fresh pork.

Prices of sugar, mutton, bacon,
cheese, and beans were lower. Fuel
and rent showed little change.

N. S. COAL WILL MAKE CANADA
INDEPENDENT

Sir Adam Beck Advocates Its Use In
Ontario Steam Plants

FOR GENERATING ELECTRICITY

LONDON, Ontario—Nova Scotia
coal will make Canada independent
of the United States in respect to
the proposed establishment of "three
or four large steam plants for gener-
ating electricity in this province,"
Sir Adam Beck stated to the Cana-
dian Press on his return to the city
today from overseas where he has
been an honorary delegate at the con-
ference of power experts in old Lon-
don.

Lots of Nova Scotia Coal
"We can get large quantities of
soft coal from Nova Scotia for use
in the auxiliary steam plants of the
Province," stated Sir Adam. "This
will make us practically independent
of the United States for our fuel be-
cause the Maritime Provinces can
supply us cheaply and satisfactorily.
All the coal used in our steam plants
will have to be pulverized so that
the breaking up of the soft coal in
the shipments will be to our advan-
tage and not disadvantage."

The Ontario hydro chairman drew
attention to the fact that the pro-
vincial legislature had authorized the
expenditure of large amounts on
auxiliary plants which would shortly
be established at strategic points
throughout Ontario. These large units
would augment the electric power
developed at Niagara Falls and would
serve more effectively the industries
and other consumers of the province.

CITADEL AND HARBOUR, HALIFAX

MARTELLO TOWER

OLD TIMERS AT THE DOCK

NORTHWEST ARM

One hundred and seventy-five years ago, Colonel
the Honorable Edward Cornwallis, twin-brother
of the gay Archbishop of Canterbury, and uncle to
Lord Cornwallis who surrendered to Washington at
Yorktown, sailed His Majesty's ship "Sphinx," fol-
lowed by her tall, wooden sisters, "Merry Jacks,"
"Fair Lady" and eleven more, into what is to-day
Halifax harbor. It was esteemed a great fleet for
those long ago days and the voyage across the Atlan-
tic took many weeks. Halifax is to-day a thriving,
modern city and a great port, but she forgets not
the brave Englishmen who laid the firm foundations
on which she is builded.
The first fortnight of August will witness a car-
nival celebration in honor of Halifax's 175th birthday.
A replica of the "Sphinx" will sail into the harbor
and the landing of Cornwallis and his crew will be
re-enacted at some spot along the shores of Point
Pleasant Park. It is impossible to anchor where
the original "Sphinx" did, as a mass of piers belong-
ing to a great oil industry now covers that part of
the harbor.
Clad in the picturesque costume of 1749, the im-
personator of the founder of Halifax will step ashore
with his entourage and, joined by the waiting throng,
proceed to some pretty glade in the Park or to the
grounds of Dalhousie University. There a panto-
mime of laying the foundation of what proved to
be a Citadel City and a fortress for Britain's estab-
lishment on this continent, will take place. Indians
and French in old-time dress will be in evidence.
Many entertainments are planned for the carnival
weeks; yacht races, regattas, horse races, athletic
contests and military tattoos are some of them. The
carnival will coincide with the visit of the British
world-squadron of warships, and also the finish of
an international yacht race with 17 entries from New
Rochelle, N.Y., to Halifax. The Northwest Arm will
provide boating and bathing and delightful nooks for
picnics along its pretty shore. The unveiling of the
"Cross of Sacrifice," a fine memorial in honor
of the Nova Scotians who died at sea during the
World War, will occur on the headlands of Point
Pleasant Park.
Nova Scotia is a truly delightful summer vacation-
land and draws many tourists from far and near
each year. Halifax's celebration will be an added
attraction for 1924 visitors to that sea province.

Canadian Fruit Wines at Wembley. Last season's apples, grown in British Columbia, placed in cold storage and sold at Wembley Exhibition for forty shillings a box, the highest price received for Canadian apples this year.

The London correspondent Montreal Gazette, tells us also of a Hamburg apple importer who is ready to arrange for the purchase of half a million boxes of Canadian apples, at a minimum price of five dollars a case.

Nova Scotia fruit growers wake up. What British Columbia has done Nova Scotia can do.

You have all the advantages over other growers in Canada; nearness to the British markets, which reduces your marketing charges, the materials for your barrels grown at your door, and the best flavored apples in the world today.

Pack your best apples in half barrels, and you will be repaid by better prices. Apples packed in half barrels when opened in the markets are found more attractive than those packed even in boxes. It is your best package today for your high class stock.

Obituary

Mrs. Montague Aldous

Winnipeg is greatly shocked to learn of the death which occurred this morning of Mrs. Montague Aldous, second daughter of the late Sir Henry Bate, of Ottawa. Possessed of a genial spirit, bright and entertaining, Mrs. Aldous had a large circle of friends, who feel her loss most keenly, more particularly as she had been stricken so recently with a dread malady from which no hope was entertained for her recovery and the end came after but a fortnight's illness. Mr. Claude Aldous, her eldest son, arrived this morning from Toronto, and Mrs. Charles MacLean, of Montreal, the youngest daughter, has been with her mother for the past week.

Winnipeg, the eldest daughter, and Mr. Harry Aldous were in constant attendance upon their mother during her illness. Mrs. A. E. Christie, of Ottawa, sister of the deceased, will arrive tomorrow. Much sympathy goes to the family, who are grief-stricken over their serious loss. (Winnipeg Free Press.)

The husband of Mrs. Aldous referred to above is a brother of Mrs. Fred Harris of this town.

CARS IN COLLISION

Truro.—A motor accident at Hildon, four miles south of here, last evening, resulted in considerable damage to two cars. A sport model, owned by T. W. Blekinson, of Truro, and driven by his son Gavin, was on the way up from Halifax. It was occupied by Charles Yoults, Mrs. T. W. Blekinson and Mrs. J. E. Bagnay, all of Truro. A sedan, owned in New Glasgow and occupied by five men, was going towards Halifax and sideswiped the Truro car. The accident occurred on a straight piece of road. It is said that the Truro car was on the right side of the road and finally went into the ditch to avoid a collision.

MARRIED.

Longley—Eaton.

The United Baptist church at Granville Centre was the scene of a quiet and pretty marriage ceremony on Tuesday, Aug. 19th, when Miss Vera Harris Eaton, second youngest daughter of the late B. C. Eaton, became the bride of Ronald Stewart Longley of Paradise.

The church was tastefully decorated for the occasion. At the hour appointed to the strains of the wedding march played by Miss Estelle Eaton, sister of the bride, the contracting parties unattended took their places under the arch, when Rev. C. W. Cook, brother-in-law of the bride, performed the double ring ceremony assisted by Rev. A. Gibson, pastor of the church.

The bride, always stylish and pretty, looked lovely in her costume of grey georgette, embroidered in blue, with hat to match, and shower bouquet of sweet peas and maiden hair fern. For several years the bride has been a successful teacher in different parts of the Province. The groom is a graduate of Acadia class of '21, also Harvard class of '24.

After a wedding tour of two weeks Mr. and Mrs. Longley will take up their residence in Truro, where he has a position on the teaching staff of the Academy.

The best wishes of their friends in Granville Centre and Paradise go with them, for happiness and prosperity in their married life.

MARRIED.

Purdy—Davis.

A very quiet but pretty even was witnessed by relatives and a few intimate friends on Sunday, August the 10th at high noon in the brighton Avenue Baptist Church, Alton, Mass., when Miss Esther R. Davis, daughter of Mr. and Mrs. Albert E. Davis of 21 Fanvil Street, and Francis W. Purdy of 1258 Commonwealth Avenue were united in marriage. The ceremony was performed by Rev. P. A. A. Killam, pastor of the church. The bride was attended by Miss Ethel C. Fairweather and the groom by Mr. Herbert B. Dunbar. The bride wore very pretty in a gown of powder blue canton crepe with trimming of Irish lace and carried a bouquet of Killarney roses. Following the ceremony the happy couple left for Nova Scotia where they will spend their honeymoon with the groom's parents, Mr. and Mrs. Augustus Purdy of Deep Brook. Both bride and groom are very popular in the business house where they have been employed. The bride holding the position for six years of cashier in the Tremont Store, of S. S. Pierce & Co., and Mr. Purdy for two years in the Brookline store, being recently promoted to office manager of the Maiden store of S. S. Pierce & Co. The young couple have a large circle of friends in Brookline, Allston and Nova Scotia, all of whom extend best wishes for a long, happy and prosperous wedded life.

LONGLEY—EATON

PARADISE—A pretty wedding took place in the Baptist church at Granville Centre on Tuesday morning Aug. 19th at 10 o'clock, the contracting parties being Miss Vera Harris Eaton of Granville Centre and Ronald Stewart Longley, M. A., of Paradise. The church was beautifully decorated for the occasion. The arch under which the couple stood was of evergreen and Golden Glow. The altar was a mass of cut flowers, ferns, etc., and the background of evergreens. The impressive marriage service was read by Clarence Cook, of Newton, Mass., brother-in-law of the bride, assisted by Rev. A. Gibson, of Annapolis.

The couple who were attended entered the church to the strains of Lohegrin's Wedding March played by Miss Estelle Eaton, sister of the bride. The bride was tastefully gowned in grey georgette crepe over grey satin, with trimming of blue and gold embroidery and wore a hat of grey velvet with blue applique trimming. She carried a beautiful shower bouquet of roses and ferns.

Immediately after the ceremony, the happy couple left for a trip through eastern Nova Scotia, and parts of New Brunswick. The bride travelled in a smart suit of grey with rose hat.

After September 1st, Mr. and Mrs. Longley will reside in Truro, where Mr. Longley is engaged as vice-principal of Colchester Academy.

Both bride and groom are successful teachers and are held in high esteem by a large circle of friends who wish them a happy and prosperous journey through life.

Make your hair beautiful with this shampoo

You know women whose hair is always beautiful — no matter how plainly arranged. Think for a moment and you will agree that this beauty lies altogether in softness, the healthy gleam of natural color. That is something every girl and woman can have. By simple care in shampooing. This way recommended by authorities. Now you can test it at our expense. Use an olive oil shampoo. It never leaves hair dull, brittle, dead-looking. Because it cleans mildly, yet thoroughly, each hair, down to the tiny soap pores. Leaves scalp and hair healthily clean.

PALMOLIVE SHAMPOO Made in Canada THE PALMOLIVE COMPANY OF CANADA, LIMITED Toronto, Ont.
