LAST GERMAN STAND MADE BEFORE VERDUN BULK OF ARMY NOW FLY

General Von Kluk's Army Has Retired More Than 60 Miles to Northeast, and Army Under Bavarian Crown Prince Falls Back to Lorraine Frontiers—British Army Turned Tide in Great Battle of Marne.

(British Official)

Canadian Press Despatch. LONDON, Sept. 13.—(4.05 p.m.)—The sixth week of the war between Germany and France, Great Britain and Belgium, has brought a vast transformation. The pursued are now the pursuers. The irresistible sweep of seven German armies thru Belgium into France met an immovable force at the Marne River.

The army of Gen. von Kluk, which so long battled to turn the allies' western flank, was itself slowly and steadily outflanked. Its retreat before the small, but hardy British army, turned the tide of battle.

Today, if the French official reports are correct, all the German armies except that facing Verdun and a few miles southwest, are retreating. Gen. von Kluk's army, which a week ago was a few miles to the southeast of

GERMAN ARMIES ARE BEATEN RETIREMENT A COMPELLE ROUT; AND VICTORY IS INCONTESTABLE

General Retreat of Enemy Reported by French Commander-in-Chief, Who Says German Losses Are Staggering, While Retreating Armies Are Short of Food and Ammunition—Thousands of Prisoners Taken—Overwhelming Force of Germans Nearly Decimated by Second British Cavalry Division—Belgian Army Continues Offensive—Russians Win Great Victories in Galicia and Poland—"Die Rather Than Retire," Said General French, and the Order Was Obeyed.

(French Official)

PARIS, Sept. 13.—The following official communique has been issued:

"On our left the enemy continues its retreating movement, and has evacuated Amiens, falling back toward the east, between Soissons and Rheims. The Germans have retired north of the Vesle, leaving the River Marne unguarded southeast of Rheims. On our centre the enemy, which has now lost Revigny and Brabant-le-Roi, remains in the south of the forest of Argonne. On our right wing the hostile forces, which were on the River Meurthe, are retreating beyond St. Die and Lunéville.

"We have occupied Draon, Le Tape, Baccarat, Remiereville, Nomeny and Pont-a-Mausson.

"The Belgian army has pushed forward a vigorous offensive south of Lierre.

GREAT VICTORY FOR RUSSIANS.

"A battle which has been in progress in Galicia for 17 days has ended in a great victory for the Russian arms. The Austrians are retreating along the entire front, leaving in the hands of the Russians a large number of prisoners and much war material."

General Joffre, commander-in-chief of the French forces, has issued an announcement, in which he says:

"The battle which has been fought for five days ended in an incontestable victory for our troops, the retreat of the first, second and third German armies being precipitated. Before the assault of our left and centre, the enemy's fourth army is beginning to fall back north of Vitry-le-Francois and Termaise.

PRISONERS TAKEN ON ALL SIDES.

"Everywhere the enemy is leaving on the field numbers of wounded and quantities of munitions of war, while on all sides prisoners are being taken.

"As they gain ground, our troops find proofs of the intensity of the struggle, and the extraordinary means employed by the Germans in attempting to resist us.

"Our vigorous resumption of the offensive has eventually brought about our success. Officers, subalterns and privates have all responded to the appeal, and all merit will be the country's praise."

FRENCH OCCUPY SOISSONS.

LONDON, Sept. 13.—(4.05 p.m.)—A despatch to Reuter's Telegram Company from Paris says that the French occupied Soissons, Department of Aisne, at 6 o'clock Saturday evening.

ENEMY IS WITHOUT FOOD.

WASHINGTON, Sept. 13.—The French embassy today gave out the following despatch from Bordeaux:

"General withdrawal of German forces, which are being pursued by our troops. Their retreat was precipitated at Montmirail, Fromentier, Termaise and Ravigny, abandoning much of their artillery. They are suffering from a great lack of food, horses and ammunition.

"The ninth German cavalry division remained four days without distribution. At our left wing, on Sept. 11 the German front occupied a line at Soissons, Braine, Fismes and Rheims. At the centre and our right wing the Germans have evacuated Vitry and the River Saulz up to Partigny.

"In the Argonne the Germany army was repulsed towards the north thru the forest of Soloene.

"In Lorraine we have progressed slightly. St. Die has been evacuated by the German army.

RUSSIANS ROUT ENEMY IN GALICIA AND POLAND BREAK AUSTRIAN ARMY

Austro-German Forces Completely Defeated in South Poland and 30,000 Prisoners are Officially Reported Taken—Seventeen Days' Conflict in Galicia Ends in Sweeping Russian Victory—Remnant of Enemy's Forces Are in Danger of Annihilation.

Special Direct Copyrighted Cable to The Toronto World. PETROGRAD, Sept. 13.—Following the taking of Tomaszow, the shattered Austro-German forces that had made their last stand in the south of the Province of Lublin, have been herded by the victorious Russians down into the impassable country between the Rivers Vistula and San. Some 60,000 men, harried in the rear by Russian cavalry and fronted by Russian artillery, are expected momentarily to surrender.

Canadian Press Despatch. PETROGRAD, via London, Sept. 13, 12.40 p.m.—The following statement, issued by the Russian headquarters staff, describes the operations culminating in the victories of Krasnik and Tomaszow, Russian Poland:

"The total Austrian and German forces exceeded 1,000,000 men with 2,500 guns—that is, over 40 divisions of infantry, 11 divisions of cavalry reinforced by German divisions.

"The main body of the enemy numbering 600,000 men moved towards Zavlchovart and Tomaszow, advancing on Lublin and Chela (Russian Poland). Its right wing was covered by the Lemberg (capital of Galicia) army numbering 200 battalions. Its left wing was covered by several Austro-German divisions around Radom (Russian Poland).

"Austrians in Strength.

"On August 25, the Austrian armies began a determined advance to counteract the blow which was threatening Eastern Prussia. The deployment of Russian troops over a front of several hundred versts (a verst is approximately two-thirds of a mile) had not yet been completed. We could therefore, only face the Austrians in the north with a greatly inferior force. The first attacks of the enemy were directed against Krasnik, but the centre of the Austrian efforts very soon was removed to Tomaszow, a district into which their reinforcements began to pour.

"On September 3, when the fall of Lemberg was imminent, the Austrian advance reached a culminating point. On its frontal line the enemy extended from Opole, on the east bank of the

LILLE AND AMIENS HAVE BEEN EVACUATED BY GERMANS

which they had made during this period, and which efforts should be continued without relaxation. (Signed) Gallieni.

ADVANCE ON WHOLE FRONT. The following official statement was issued tonight: "No report has been received tonight from general headquarters. The statements published yesterday and this afternoon have depicted with what vigor our troops are pursuing the Germans in their retreat."

"All we know is that the forward march of the allied armies continues all along the front, and that contact with the enemy is being maintained."

"On our left wing we have crossed the River Aisne." AMIENS IS EVACUATED.

The evacuation of Amiens by the Germans before reported in news despatches was officially announced today.

ITALIANS LAND IN ALBANIA. Troops of the Italian army are being disembarked in Albania, especially at Valona, according to a despatch from Trieste to The Echo de Paris.

Recent advices from Valona stated that Kiamil Elbassan, at the head of 4000 men, had threatened to sack the town.

BELGIANS DRIVE OUT ENEMY. A despatch to the Havas Agency from Antwerp gives the following official communication:

"The Belgian army has recaptured Termonde, and nearly all of East Flanders, as well as the provinces of Antwerp and Limburg, are free from the enemy. Operations resumed by our army at Antwerp are progressing satisfactorily. The Germans are suffering important losses, principally from our heavy field artillery, which is doing remarkable service."

60,000 GERMAN REINFORCEMENTS. A despatch from Ostend says that since Sept. 9 German reinforcements numbering 60,000 have been moving toward Lille by way of Renaix, Belgium. The despatch adds that German troops who have been waiting at Beirlegem to receive the war impost levied on the City of Ghent also have been ordered to the French frontier.

Germans have been seen laying mines under the Belgian roads which the allies are likely to take while following the retreating German forces.

Another despatch from Ostend says reports are current there that Crown Prince Frederick William and Prince Adalbert, sons of the German emperor, and Prince Carl of Wurtemberg have died in a Brussels hospital.

GERMAN CASUALTY LIST.

ROTTERDAM, Sept. 13.—(Via London, 5.40 a.m.)—A despatch from Berlin says that the total losses sustained by the Germans, including the twenty-first casualty list, which has just been published, are given as 6535 dead, 8391 seriously wounded, and 4242 slightly wounded. The number of officers killed and wounded was extremely high. The ratio of the wounded to the dead was about two to one, which is also extreme, the usual ratio being five to one. It is not known to what date the list extends.

ALLIES IN VIGOROUS PURSUIT.

PARIS, Sept. 13.—The following official statement was given out today by the war office:

"The left wing of the Germans continues its general retreat before the Anglo-French forces, which have reached the lower course of the River Aisne."

"In the centre the enemy is likewise retreating. On our right the enemy started today to retire, abandoning the region around Nancy. We recaptured Lunville, our troops vigorously pursuing the enemy in the retreat, which was more rapid than his advance."

"The Germans retired so precipitately that they left maps, documents and personal papers in the general's headquarters. This was especially notable in Montmirail."

DIE RATHER THAN RETIRE.

"On Sept. 6 Sir John French, commander-in-chief of the British forces, gave orders that every effort must be made to repel the enemy, and that troops unable to advance must die rather than retire."

"At Vitry-le-Francois, the French discovered in an abandoned German headquarters the following order, dated Sept. 7, and signed by Lieut.-Gen. Tullf Von Trescheppe and Werdenbach: 'The object of our long and trying march is achieved. The main French troops have been compelled to accept battle. Everything depends upon tomorrow's results.'"

SERVIANS STILL ADVANCE.

ROME, Sept. 13.—The correspondent of The Messagero at Nish telegraphs today that the Servian army yesterday continued its passage across the Save and Danube Rivers to Austrian territory. The headquarters of the Servian army was transferred to Semlin today.

196 IRON CROSSES CONFERRED.

BERLIN, Sept. 13.—Emperor William has conferred 196 Iron Crosses for distinguished service in the field. Eighty-six of them went to members of the 53rd Regiment and eleven to the 83rd. Among the recipients is Count Helmuth Von Moltke, chief of staff, and Major Von Winterfeldt, formerly military attache to the German legation in Paris, and twenty-one other officers.

SERVIANS CROSS SAVE.

NISH, Sept. 13.—(Via London, 8 p.m.)—It is announced that the Servian offensive continues successfully. Servian troops have crossed the Save at several points, and it is said that the Servians are being received enthusiastically by the population of Hungary.

700 GERMAN PRISONERS.

PARIS, Sept. 13.—(7.35 p.m.)—Seven hundred German prisoners have arrived at Brienne-le-Chateau. They expressed surprise that the British were fighting against Germany. Another party of fifty Uhlans has surrendered at Montereau in a starving condition.

GENERAL GERMAN RETREAT.

LONDON, Sept. 12.—With the Anglo-French troops in close pursuit, the Germans are in retreat all along the line of battle, and are being driven into the great forests of Beloune and of the Argonne.

News of the victorious advance of the allies was received here today in official despatches from the front, and confirmed by announcements given out by the British war bureau.

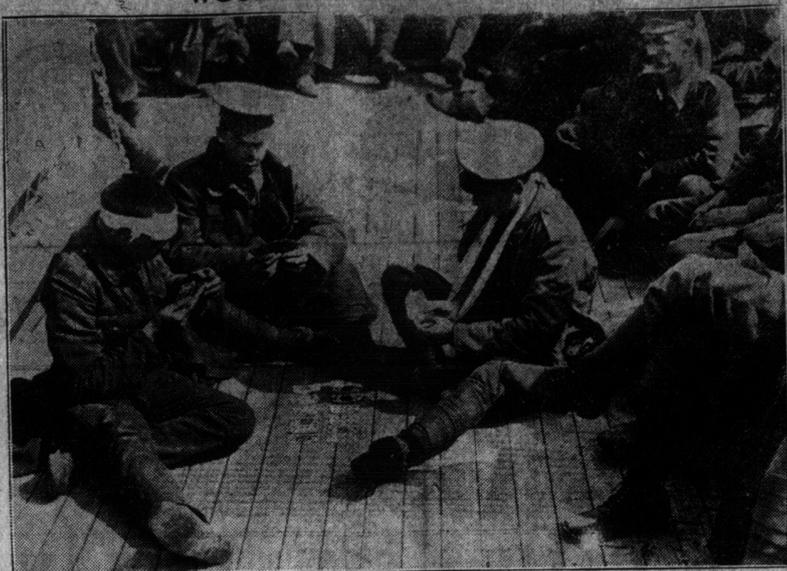

Defeated in his attack of the armies on the French centre, Crown Prince Frederick William has been compelled to flee from Vitry-le-Francois, where he had erected fortifications to halt the French advance. The German losses are staggering, official despatches say. The retirement of his forces is said to have been so precipitate that they abandoned a large quantity of war materials.

RETIREMENT IS A ROUT.

It is also said that the retreat of the German right wing continues with the allies hotly pursuing the enemy along the River Aisne. The kaiser's retreat on the French left is reported to be slowly assuming the proportions of a rout. The Germans have almost used up all their ammunition, and their food supply is said to be getting low.

Official despatches from Paris declare that Germany's right wing army was driven in its disordered rout today to a point 70 miles from

LAST GERMAN STAND MADE BEFORE VERDUN BULK OF ARMY NOW FLY

(Continued From Page 1.)

still cautious. While recognizing the possibility that the German armies may yet rally and draw a strong defensive line, they recognize also the possibility of the almost complete evacuation of France and Belgium.

Paris announces that the Germans have evacuated Amiens. The whereabouts of German reinforcements of 40,000 reported to be marching south on three roads in that neighborhood is unknown.

The Belgian army is credited with the determination to recapture Brussels and claims to have cut the railroad between Liege and Brussels, thus severing an important German line of communication and to be pushing the scattered German forces, composed for the most part of reservists, towards the southeast.

Military authorities in France consider the position of the German army critical. The army which was south of the Argonne forest, they

argue, can hardly retreat eastward owing to the danger from the strongly held French fortress of Verdun, while the mountainous, wooded character of the Argonne district renders retreat due north impracticable. The left wing of the Germans, they believe, must retreat in a northwesterly direction.

They also cherish the hope that the Belgians may succeed in clearing the Germans out of Brabant, when the entire German army would be obliged to retreat on Luxembourg, an operation which they liken to the passing of a large stream thru a narrow bottle neck.

The German version of the battle of Marne is yet to be heard. The German official wireless tonight is silent regarding the operations of the past week in that theatre. It records a local success by the army of the crown prince, which, it reports, took a fortified position to the southwest of Verdun, and the beginning of an attack on the forts to the south of Verdun,

its position of last Monday. The French and British have captured 6000 Germans abandoned by the main army force in its flight. The prisoners taken were half-starved and utterly demoralized.

A war press bureau statement says the allies' aeroplanes report that the enemy's retreat is very rapid. It is also said that the French army has taken all the artillery of the German army corps.

A significant part of the despatch from Paris is the statement that the German left wing near the Argonne forest is now falling back. The Germans have evacuated St. Die, in the extreme western portion of the southern section of the Department of Meurthe-et-Moselle. That movement indicates that the French are assuming the offensive thru the Vosges, from which they were driven a few days ago.

BRITISH AGAIN VICTORIOUS. Assisted by the French cavalry and light artillery, the first and second British cavalry divisions nearly decimated an overwhelming force of Germans northeast of Paris. The kaiser's forces were cut off from their base. They fought well, but they were completely routed, losing more than half their strength in killed and wounded. The British took 6000 prisoners and 15 guns in the engagement. As a result of the capture, it is learned from authentic sources that the Germans are short of all supplies.

GERMAN ARMIES SEPARATED. Latest advices relate that the Germans have been separated completely as a result of their general attack on the allies' left. It is said that Gen. Von Kluk's army and part of Gen. Von Buelow's army is divided into detachments, separating in different directions. The losses of the Germans are heavy. It is said the German rifle fire does not improve. The Germans are withdrawing their forces. The French now hold everything from the Swiss border to a point well to the north of Muhlhausen.

CHANGING THEIR PLANS. Semi-official despatches say the Germans are making their strong attack on Verdun by the army of the crown prince, because the German general staff realize they will be compelled to concentrate their effort. It is reported that Gen. Von Moltke and other members of the staff have been at the actual front on the German centre and left. Their presence there, it is said, would indicate that they are inspecting the German forces with a view of changing their plans, and there is a growing feeling that the Germans will attack in force from another quarter. In pursuing the enemy the British crossed the River Ourcq. Messages to the war press bureau state that aviators have officially reported the enemy is getting out of France at top speed.

RUSSIAN WEDGE IS DRIVEN. It was announced by the official press bureau today that by the capture of Tomaszow on Sept. 10 it is possible that the Russians have driven a wedge thru the Austrian lines on the border between Russian Poland and Galicia. It reports also a brilliant Russian victory, in which the czar's troops took 30,000 prisoners and several hundred guns. This action is probably the immediate result of the success at

Tomaszow, and undoubtedly occurred on the south or west of that former Austrian stronghold.

GERMAN COMMUNICATIONS CUT. A Bordeaux despatch to Lloyd's Weekly News says the line of communications used by the Germans has been cut, and they cannot make use of the line east of the Argonne forest, owing to the rapid advance of the allies on the centre and right. They must therefore try the line thru the Meuse valley and Luxembourg.

FRENCH REOCCUPY LUXEMVILLE. A despatch to Reuter's Telegram Company from Paris says that the French have reoccupied the City of Lunville, Department of Meurthe-et-Moselle.

BELGIANS ALSO VICTORIOUS. A despatch to the Belgian legation in London says that the Belgian troops, fighting along an extended line, have compelled the Germans to retire.

The Belgians have retaken Malines and Tierschot, and have blown up the railway between Louvain and Aisremont, cutting off communication between Brussels and Liege.

The Belgian offensive movement is continuing in a satisfactory way.

SOISSONS IS OCCUPIED. A despatch to a local news agency says that the French forces occupied Soissons, in the Department of Aisne, at 6 o'clock Saturday evening.

MANY TROOPERS KILLED. Advices from Basle, Switzerland, say that between Blotzheim and Sierenz, Alsace, French cavalry and artillery have annihilated two squadrons of German horse. The number of troopers killed was very large.

FRENCH VICTORY IN AIR. LONDON, Sept. 13.—(6.15 p.m.)—A Reuter despatch from Troyes, France, says: "After a chase of several miles a French aviator yesterday succeeded in bringing down a German aeroplane which had been dropping bombs on the town. The German pilot and two military observers (a captain and a lieutenant) were killed."

SERVIANS OCCUPY BIG AREA. ROME, Sept. 13.—The Messagero's Belgrade correspondent reports that the Servians have now occupied all the Austrian territory between the Danube and the Save Rivers.

YOUNG GIRL TOOK LATER DIED ONE HOUR AFTER. Catherine Long, an Owen Sound girl, 15 years of age and rooming with her sister at 320 George street, Toronto, drank a vial of carbolic acid in her room at 8 o'clock Saturday evening, and died

an hour later in St. Michael's Hospital. Catherine told her sister she felt very ill and believed she had drunk a bottle of carbolic acid. Almost immediately she collapsed and sank into unconsciousness. She left a letter to her sister, the contents of which are as yet unknown to the police. Her body lies at St. Michael's, where an inquest will be held.

chase, approaching within gunshot of the station at Travnik and enveloping Krasnostav (84 miles south of Lublin), Zamosc, Grabiesoff near Josefow (on the east bank of the Vistula a short distance south of Opole).

Two bridges were thrown across the Vistula over which troops from Radom crossed on their way to the battlefield while awaiting the result of Gen. Ruzsky's operations. Our plan was based on the rapid reinforcement of our right wing. The Russian railway carried out this task very successfully. Our troops in the Cheim district which were insufficient and too widely spread out, and against which the principal attack of the Austrians was directed, did not receive reinforcements—for the advance of the Austrians even to Cheim itself could eventually only increase the consequences of their defeat in the event of the ultimate success of our wings.

Repelled Continual Attacks. In spite of their numerical inadequacy, our troops in the centre did not confine themselves to defence. They delivered a counter attack obtaining considerable success near Lachewe, where for six days they did nothing but repel continual attacks of the enemy. Only on September 4 were they moved a little to the rear in accordance with orders received. This manoeuvre obtained a more enveloping disposition for our forces.

Fled in Disorder. The successes of General Ruzsky and General Brusiloff enabled us to make a general offensive movement, and the enemy's centre was beaten at Sukhodoye as a result of a rapid movement among the Austrian troops at Krasnik. These were attacked by General Ruzsky on the southwest on September 6 and were forced to accept battle on three fronts. We repelled counter-attacks of the receding Austrians, and carried by impetuous assault the enemy's position on the front at Opole, Tourbine, and extending over a distance of 60 versts, on September 9.

They fled abandoning their arms. They continued vigorously to attack our left wing in order to win success in the direction of Lemberg. However, about September 12 we also repelled the offensive of the Austrians, and the battle of Galicia, which has lasted seventeen days is drawing to an end. The pursuit of the enemy continues."

WEDGE THRU AUSTRIAN LINE. Canadian Press Despatch. LONDON, Sept. 13, 11.13 p.m.—The British War Information Bureau's version of the Austrian defeat in South Poland follows:

"The Austrian invasion of South Poland, which penetrated as far as Opole and Krasnostav and Zamosc, was protected on its right by an army operating east of Lemberg. This latter army was completely defeated by the Russians on September 1 near Lemberg."

"From that moment it became evident that if the Austrian right flank could not continue its stubborn resistance the retreat of the main Austrian army from South Poland would be imperilled. By the capture of Tomaszow on September 10 it is probable that the Russians drove a wedge thru the Austrian line."

Today a brilliant Russian victory is reported in which 30,000 prisoners and several hundred guns were taken. This is probably the immediate result of the Tomaszow action."

A despatch to Lloyd's News from Petrograd, dated yesterday, says: "Two Austrian armies are surrounded and 60,000 prisoners have been taken, including 500 officers from one army and 600 from another. The surrender of both armies is impending. The Germans are again moving troops from the east to the west."

A Reuter despatch from Paris says: "The Main learns from Petrograd that the first Austrian army, under Gen. von Kurbier, has lost 100,000 men, 28,000 soldiers and 400 guns, and that the second Austrian army has lost as prisoners 500 officers and 10,000 men. The Russian victory is considered to be absolutely decisive."

A message from Petrograd to The Paris Journal states that the Russians have taken 120,000 prisoners, and that other captures are imminent.

DRIVEN OVER RIVER SAN. Canadian Press Despatch. LONDON, Sept. 13.—The Exchange Telegraph Co. has received the following official communication from Petrograd:

"The Russians gained a glorious victory over the Austro-Hungarian armies at Krasnik and Tomaszow, the enemy being driven over the River San. Over 200 officers and about 10,000 men were captured by the Russians, as well as a number of big guns, machine guns and stores."

The Boulogne correspondent of The Times has visited Lille to ascertain the truth of the statement that a German army corps was marching southwards from Lille. He reports that only a dozen Uhlans were present in Lille. They had ridden in that morning to ascertain whether the district was quiet, and left early, proceeding in the direction of Tournai. It was thought that these Uhlans comprised one of the patrols of the right wing of the reinforcements. According to the correspondent, the advancing force of Germans which would pass, but not enter, the town was 60,000 strong. At Dunkirk, the correspondent is quoted in a despatch from Amsterdam to the Reuter's Telegram Company. Later, the despatch states, the laundress class of 1902 and 1903, fit for active service, was to be sent to the front."

MORE AUSTRIAN RESERVES. Canadian Press Despatch. LONDON, Sept. 13, 8.40 p.m.—Members of the Austrian laundress, born in 1894, are to be called to the colors according to unofficial news from Vienna, which is quoted in a despatch from Amsterdam to the Reuter's Telegram Company. Later, the despatch states, the laundress class of 1902 and 1903, fit for active service, was to be sent to the front."

TOKIO SUPPLIES WAR MUNITIONS. Canadian Press Despatch. TOKIO, Sept. 13, 1.29 p.m.—In preparation for a lengthy war Russian military authorities here are busy in the navy in arms, ammunition and provisions. From here they will go to China and America.

UNION TO SUPPORT EMPIRE IN BATTLE

Premier Botha of South Africa Declares Country at War With Kaiser.

Special to The Toronto World. WASHINGTON, Sept. 13.—The attitude of the Union of South Africa towards Great Britain in the present struggle is shown in a telegram received today at the British embassy from the foreign office. Gen. Botha, premier of the Union of South Africa, is quoted as declaring that, in the event of war, the union is for war. This, he declared, represents the sentiment and attitude of the Union of South Africa and the people there. The loyalty of the entire union is asserted.

LOYAL RESOLUTION FROM CAPE TOWN

Special to The Toronto World. NEW YORK, Sept. 13.—The numerous passengers of the French liner France, arriving from Cape Town, were met at the pier by a large number of people. The captain, Mr. J. H. Rittenhouse, said that he had undergone many a hard day's work during his trip. He said that he had many of the others of the liner who were met at the pier. The first word received from the liner was that the ship had been captured by the German navy. "This is not a said. It was known our diplomatic relations and to the nation. Lord Botha, from the day of the arrival of the liner, immediately he was Miss Rittenhouse's general impression of the presence of the ship. Much to do with movement of the ship."

THREE LOSE LIVES IN BAY OF QUINTE

Belleville Young Man Spilled Out of Motorboat by Sudden Turn of Steering Wheel—Sank So Rapidly Rescue Impossible—Sad End to Sunday Pleasure Cruise.

Special to The Toronto World. TRENTON, Sept. 13.—Three young men from Belleville, Clare Jenkins, Fred Gerow and James White, were drowned in the Bay of Quinte here this afternoon by being thrown out of a fast motor-boat going at full speed towards Belleville. With Henry Symons, Fred Palmater and Norman Hall, who owned the boat, and who was steering at the time, they had left Trenton dock a few moments before Hall let go the wheel for a moment to light a cigarette. It was caught by James White, who gave it a swift turn to the right. The boat careened over, throwing the three men out, and before Hall could stop the boat and turn around they had sunk to their death. On their return to Trenton R. G. Wedell at once set out with his tug and a crew, and Pat Jennings, an expert diver, to the scene of the accident.

Conquest of Galicia May Cut Off Source of Motor Power.

RUSSIANS CONTROL GERMAN OIL FIELDS

PETROGRAD, Sept. 13.—Russia's conquest of Galicia, carrying with it control of the great Galician oil fields, which have been Germany's main source of supply, outside of the United States, has a most important bearing on the outcome of the war. It is generally expected that it will be a serious blow to the German fighting machine.

RUSSIANS CONTROL GERMAN OIL FIELDS

As the enemy is waging this war mainly on a mechanical basis, their loss of the source of their motive power for automobiles, aeroplanes and dirigibles must eventually tell heavily on their activities. There is a strong possibility that it will be a serious blow to the German fighting machine.

RUSSIANS CONTROL GERMAN OIL FIELDS

Soldiers returned from the scene of the Russian reverse near Soudau lay stress on the German use of armoured motor-carrying machines, which did great execution until Russian artillery nosed them out. Germany's new heavy artillery can be moved only by motor, and a great part of its supply is likewise dependent on this form of locomotion.

RUSSIANS CONTROL GERMAN OIL FIELDS

There is evidence that she already is feeling the lack of other products, which are now unobtainable. It is reported that orders have been issued by Germany commanding her all wool and woolen goods. This is interpreted as meaning that the lightning campaign planned by the Germans is being prolonged.

KITCHENER VISITED ARMIES OF ALLIES

NEW YORK WOMAN REPORTS SEEING BRITISH WAR MINISTER AT HAVRE.

Special to The Toronto World. NEW YORK, Sept. 13.—To many of the numerous passengers whom the French liner France brought in last evening from Havre their most interesting sensation was when the vessel left that port. The crew of the American armored cruiser Tennessee lined the rail to cheer the homeward-bound refugees and the band of the Tennessee played "Home, Sweet Home."

RUSSIANS CONTROL GERMAN OIL FIELDS

"This is not an idle rumor," she said. "It was known to the officers of our diplomatic corps, to military attaches and to the officers of the Tennessee. Lord Kitchener came into Havre from the direction of Paris in an automobile on the Wednesday morning preceding our departure. He had short conferences with the French military officers, and at 11 o'clock that forenoon he hurried on board a British destroyer that had come in about the same time of his arrival. The destroyer put to sea immediately and was on board."

RUSSIANS CONTROL GERMAN OIL FIELDS

Miss Rittenhouse added there was a general impression that Lord Kitchener's presence at the front had much to do with the recent forward movement of the allies.

Towns South of Malines Evacuated By Germans Reservists Fell Back

Fire Was Too Hot for Kaiser's "Last Line," Called Out to Hold Belgians in the North—Correspondent Watches Battle From Fifty-Foot Embankment.

(By Charles Hodson, Special Correspondent of The Central News.)

ANTWERP, Sept. 13.—I spent Friday night at the Bourne Cafe in Malines, which, being close to the cathedral, suffered from the bombardment, but is still habitable. The proprietor, presiding cheerfully over a few bottles and a few packs of cigarettes and some damaged tables and chairs. The roar of the guns awakened me at daybreak. It was evident that Hofstadt was going to be the centre of another war action. I mounted a railway embankment fifty feet high and joined an artillery observation post. Behind us the Belgian line extended about a thousand metres from the railway. Their howitzers behind Elweyt and their field guns at Werde were all protected by strong outposts.

Watched From Above. A captive balloon presently appeared above an extensive woodland further to the right. The observers did much to check the Belgian turning movement in this direction. On the left, however, the Belgian infantry, undeterred by the howitzer bombardment, pushed steadily forward toward Campenhout. Huge clouds of brown Campenhout. The Belgians, however, indicated their advance. The Germans offered a stiffer resistance at Elweyt, bringing their machine-guns into action and hurling shrapnel into the Belgian lines. The rifle fire was incessant. The Belgian artillery made excellent practice and gradually pushed home its attacks. About 9 o'clock in the morning the heavy howitzers were withdrawn.

Cattle Grazed On. The Belgian shells were mainly directed toward Werde, the key to the German position. Werde was plainly visible to me its gray stone church towering above the closely huddled red-tiled houses. A thick wad behind and on either side. Except for the din of the cannonade, the scene was as peaceful as the heart of man could wish. Around the roof of the doocot a covey of white doves flew, bewildered by the racket of the exploding shrapnel and machine. Black and white cattle grazed peacefully, apparently indifferent to the shrieking shell above them. Occasionally a Belgian shell would hit a roof and the ascending column of smoke would then be tinged. Around the captive balloon white puff balls indicated the efforts of the Belgians to put the dangerous observer out of action.

Reservists Quit. It was not in the stomachs of the Landsturm to stand such pasting long, and at 2:30 o'clock Werde was abandoned and apparently deserted. The wood behind the village remained full of the enemy's troops and the Belgians were unable to make any impression on it. The officers in the observation post where it stood, which initially instructed the batteries, which searched the trees thoroughly. Then came a thrilling sight. The German artillery commander evidently imagined he had discovered our reserve. Without warning a couple of batteries on our right fired rapid volleys, the shells exploding directly over our front, less than 200 yards away. They were amazingly misdirected, falling midway between two battalions. Shrapnel exploded on the ground like common shell, fragments striking over the head of the contemptuous cheering Belgians.

A Lull in the Fight. The German snipers virtually ceased at noon and General Skirra immediately pushed forward his left wing and its supports to points where columns of ascending smoke indicated the Germans were behaving with their usual vandalism before retiring. Red Cross parties, composed mainly of black frocked priests, went to succor the wounded. One they met within 700 yards of Elweyt and was warned by the Belgian soldiers not to go nearer because the enemy was lurking in the neighboring wood. On the right the roar of guns and the rattle of musketry continued, indicating that the turning movement was still being made. The Belgians being determined to reach Eppegem. Elsewhere the subject of conflict is completely dead away. My lunch consisted of milk chocolate and potatoes, the milk chocolate about the only edible the Germans left in Hofstadt.

King Albert Arrived. During this lull at noon King Albert came walking down the shattered street, chatting cheerfully with his attendant. As the King's arrival was a predetermined signal, the battle broke out with renewed zest. It was evident that the Germans' horse and artillery had been reinforced from Brussels and against our strong counter attack against our right centre and under a fierce artillery fire discovered to discover our well-masked batteries with poor success. The latter replied with incessant volleys which prevented the Germans recouping either village. When darkness came on and a heavy rain began to fall these were left, a "no man's land."

GERMAN FLEET SIGHTED SOUTH OF ALAND ISLANDS

COPENHAGEN, via London, Sept. 13, 4:40 a.m.—A despatch from Raumo, Finland, says that, according to statements made by pilots and fishermen, a German fleet has been cruising for the last two days in the waters south of the Aland Islands. The fleet includes seven dreadnoughts and cruisers of the Friedland, two big cruisers, four torpedo boats of the first-class, and a lot of coal and repair vessels. Aboard the cruiser Blucher the flag of Chief Admiral Prince Henry of Prussia was hoisted.

DIED AFTER PREACHING A SERMON ON DEATH

Vicar-General Menier Passed Away Suddenly at London, Ontario. Canadian Press Despatch. WINDSOR, Sept. 13.—"Any one of us is apt to be cut off from this life at any moment," declared Rev. John Edmund Menier, vicar-general of the Roman Catholic Diocese of London, in the course of a sermon on "Death" at St. Alphonsus Church this morning. This afternoon he dropped dead from paralysis. He was 84 years of age and had been rector of the local parish for 14 years. He was a native of Quebec City.

Vast Belgian Army Cut German Forces in Two

LONDON, Sept. 13.—The New York Tribune publishes the following despatch from the Ostend correspondent of the Exchange Telegraph Company: "The Belgian victory at Cortenberg is very important, as the German army occupying Belgium has been cut into two sections as a result of it. The victory was due in a great part to artillery of heavy calibre, which was used for the first time there."

Reports from Northern France Show That Withdrawal of Invaders is General—Capture of Numerous Stragglers Indicates Retreat is a Disorderly One.

Canadian Press Despatch. PARIS, Sept. 13, 4 p.m.—Reports from the different regions of North France continue to indicate a general withdrawal of the Germans. Lille and Amiens have been evacuated. The disorder which accompanied the retreat of the Germans is shown by the capture of numerous groups of stragglers.

Belgians Rout Germans

LONDON, Sept. 13, 7:27 p.m.—An Ostend despatch to the Exchange Telegraph Company says: "The Belgian troops have just gained an important success at Cortenberg, between Louvain and Brussels, cutting up a German corps and taking a number of prisoners. The line toward Liege has been occupied by the Belgians."

WOMAN ATTACKED, BOUND AND GAGGED

Brockville Resident Assailed by Unknown Man While Out Walking.

Special to The Toronto World. BROOKVILLE, Ont., Sept. 13.—Mrs. Herbert E. Price, Bartholomew street, was found by John Donovan, lying in a ditch along the G. T. R. tracks in the yards east of Ormond street crossing, her hands and feet bound and tied with a rope and a gag in her mouth. The police have since been working on the case, but have been unable to obtain a clue. Two tramps, taken into custody in the district, proved an alibi and were released.

After visiting the home of a sister, Mrs. Price says she started for her own abode, taking the tracks for a short-cut. Shortly after starting out she was accosted by a man of about six feet in height, who clapped one hand over her mouth and struck her in the face with the other. The stranger then produced a rope and bound her hand and foot, afterwards placing a gag of paper in her mouth which she succeeded later in working out. She states the stranger made a quick departure and she remembered nothing until found by Mr. Donovan, who raised the alarm.

The affair has brought out the fact that several threatening letters have been received at Mr. Price's residence the past summer, some of which were addressed to his brother-in-law, Mr. Lamore, who lives there as a boarder. Those addressed personally to Mrs. Price threatened the family with dire things. Mrs. Price further affirms that her assailant resembles a man who called three or four times lately and enquired for her brother-in-law, Mr. Lamore. Each time the stranger called it would be at a time when Mr. Lamore was at work.

The case is puzzling the local police.

Dried Apples As Food

By Dr. P. H. Bryce, Chief Medical Officer, Department of the Interior, Ottawa.

Apples are composed almost wholly of sugar and water, there being in addition, however, some malic acid which prevents scurvy and small amounts of starch, woody fibre, fruit jelly and ash. With the abundance of meat, butter and cheese, which the old-time settlers on Ontario farms were accustomed to use, such foods as vegetables and fruits were looked upon as little more than condiments since wheat bread was always eaten, while apple-pie or sauce for dessert, often three times a day, was used in the season. With no imported fruits available, preserves and dried fruits were then stored for use in winter times; but today they have almost wholly been displaced by canned goods. Improvident in foods as in other things, Canadians use the canned materials containing water, largely because they are handy, no preparation being required nor soaking over night as the dried fruits require before using. Townspeople, with the fresh southern and California fruits always exposed to view nicely packed, continue to buy such as luxuries often at five cents an orange, while a pound of dried apples can be bought at from 12c to 15c.

TO TEACH EVERY CITIZEN USE OF AN ARMY RIFLE

Toronto Rifle Association Has Wide Field — Lawyers Turn Out Well.

The Toronto Rifle Association now being formed is taking as its sole object the desire to teach every citizen the art of rifle shooting. So great has been the answer to the call of the association that it numbers twice as many members of this club as all other rifle associations put together, which emphasizes the great need of the organization. Shooting will take place on Wednesday and Saturday afternoons and later days will be added if necessary. Members will be given individual instructions and those who wish drilling will also be taught. Full information can be obtained from Major E. L. McColl, 24 Carlton street.

DOCTORS NOT RESPECTED RED CROSS NURSE STRUCK

Germans Stop at Nothing, Say British Wounded on Reaching Home.

Special Correspondence to Toronto World. SOUTHAMPTON, Sept. 4.—About 200 wounded soldiers reached Southampton last night. The officials maintained the greatest secrecy and the public were not allowed near the quay. Special ambulance trains were waiting along the berths and many of the wounded were carried to the train on stretchers. Others were helped down the gangway by their less injured comrades.

Quite a large proportion of the men had their legs, shoulders and heads bandaged. There were some shocking cases of injuries, and some of the men appeared to be at death's door. One of the men, with a bandaged arm, who was standing at the quay-side, replied in answer to a question, that the Germans stopped at nothing. Even the doctors were not safe while attending to the wounded, and the soldier declared that he saw one Red Cross nurse struck on the arm by a German soldier while she was tending to the wounded.

Larned's History of the World

IN FIVE HANDSOME DE LUXE VOLUMES!

From the period when Man first emerged from the dripping caves of pre-historic times; when his only implements of peace and war were the bones from which he gnawed the raw and bleeding flesh; when he was a beast of battle and his female a beast of burden; from these times, when the star of human destiny hung quivering in the murk and plasm of a primeval world; down through the embattled centuries, when might was right, and the millions were ruled by the sword and lash; even to the glorious years of our own era, when right is might—when the few are the servants and not the masters of many—and Man is coming into his own Kingdom.

Through all these changing cycles and centuries, Larned's "History of the World" carries the spellbound reader, stirring him, as it were, with gripping memories of a pre-existence.

Seventy centuries unroll themselves before his eyes. The hoary Pyramids yield up their royal secrets; Babylon and Asshur become again the bustling marts of Trade; we

behold the Children of Israel forsake their altars and cross-dry-shod the Red Sea's unwetted sands to the Promised Land.

The glory that was Greece and the grandeur that was Rome dazzle us once again with their ineffable splendor. Our hearts thrill to the solemn chant of the Crusaders as they stagger amidst the hush and silence of an endless desert—on and on—to Jerusalem the Golden.

We view the mighty sea-rovers of the far North, as they sail uncharted seas to lands unknown to man. We hear their battle-shouts mingled with the shrill screams of the cloud-riding Valkyries—as Celt and Teuton go down in defeat.

The legends of Ancestral Europe are enacted again before our very eyes. Charlemagne and his paladins, King Arthur and his knights, Siegfried and the heroes of the Nibelung—march before us in immortal pageantry.

Powder is invented and the classes begin to crumble before

the masses. Printing is vouchsafed from Heaven and the masses begin to achieve democracy.

The dazzling star of Napoleon arises through the smoke-wreaths that encloud his cannon in the streets of Paris, blazes across the heavens with meteoric splendor, and sinks forever beneath the desolate marshes at Waterloo.

The Americans fight anew the battles of the Revolution, and pass through the bloody baptism of the Civil War. Spain yields her priceless possessions to a free nation. The birth of liberty in the southern Republic of Mexico is here described for the first time.

From the Fall of Babylon to the Fall of Vera Cruz, these matchless pages of our century's greatest historian, Josephus Nelson Larned, hold us breathless with the annals of all recorded history—and yesterday's seven thousand years are imbreathed with the life of humanity today.

Yet it is true that militarism and autocracy are responsible for affraying Europe into two hostile camps. National, American and Federal Ball on Sunday

CINCINNATI (Sept. 13.—National)—St. Louis won two closely-contested games from Cincinnati today, the first by 4 to 2, and the second 3 to 2.

At Chicago (National)—Schulze's home run in the seventh inning gave Chicago a victory over Pittsburgh, 2 to 0.

At Chicago (American)—A ninth-inning batting rally started by Cobb after two men were out, coupled with errors made by Detroit, made it three straight victories over Detroit.

At St. Louis (American)—Cleveland won the first game of a double-header with St. Louis, 5 to 0. When the second game was called at the end of the eighth, the score was tied at 3 runs.

At Chicago (Federal)—Chicago took possession of first place in the Federal League by winning another double-header from Buffalo, 1 to 0 and 7 to 0.

FINE AFTERNOON

Over Fifty in the Saddle—A Number of Mishaps, But Nothing Serious.

The hounds met at York Mills on Saturday afternoon at three o'clock for their first afternoon run of the season. There was an excellent turnout, more than fifty being in the saddle. During the afternoon there were a number of falls, tho' fortunately all the riders got off with- out any serious mishaps. Miss Della Davies' mount, The Whip, stepped in a hole as he came to a stiff fence. As a result he knocked the fencer down, and several rods, turned a somersault, and gave Miss Davies what looked like a nasty fall. However, she was as soon as the horse, apparently none the worse, except a broken saddle. Mrs. Sanford Smith slipped off when the pommet of her saddle broke. Maynard and Dictator deposited Geo. Elliott and Alex. Miller in a nice, soft field, but as it was clearly no fault of the riders, Mr. Elliott will in all probability retain his position as rider for the Sunnybrook stables.

The master, who is looking very fit after his recent trip abroad, was welcomed by everybody.

Bob Montgomery had a pair of his green ones out for the first time. By the way they performed, he had them well named.

Amongst those in the saddle were: The master, on Lacour; Miss Della Davies, on The Whip; Mrs. (Col.) Sanford Smith, on Coquette; Miss Mollie Maclean, on Mrs. Dear; Miss Temple, on Matric; Mrs. Douglas Young, on Leeward; Col. Sanford Smith, on Silver Buckle; Col. Vaux Chadwick, on Cardinal; Lieut.-Col. Aemilus Jarvis, on Rosecommon; A. E. Dymond, on Stimulant; Frank Hodgson, on Colours; R. K. Hodson, on Sunny Boy; Mast Elliott, on Sir Jap; Geo. Pro Lacrosse Players

In Cornwall League

CORNWALL, Sept. 13.—The closing matches of the Cornwall Manufacturers Lacrosse League were played Saturday. The proceeds were given to the Daughters of the Empire for the Patriotic Fund.

The Toronto Paper team defeated the Beach McGill team by 4 to 2, and the Canada Mill defeated the Stormonts by 2 to 2. After playing overtime till nearly 8 o'clock, the Toronto and Canada teams are now tied for first place, and the Stormont and Beach McGill are in a similar position for second.

The save-off will be played next Saturday. Mark Cummins of the Canadians and Elwin Summerville of the Toronto, both of whom are now at their home, played for the Beach McGill team; Cyril Denny with the Toronto; Faps County; Kyer and James and George Penny with Stormont, and Eddie Dege; with Canada. There is nothing in the constitution to prevent these senior men from playing in this league.

Both matches were refereed by Frank Cummins. In the first Donald Smith assisted him, and in the second James McCutcheon acted as judge.

Excelsiors' Long Lead

On Ottawa Shamrocks

BRAMPTON, Sept. 13.—With perfect weather prevailing the Shamrocks of Ottawa, winners of the eastern section of the O.A.L.A. lost to the Excelsiors of Brampton in the first game of the home and home series, which is to decide the championship of the league. The score was 10 to 6. Tom Boucher of Ottawa and T. Henry of this place had been agreed upon as the officials.

Shamrocks (1)—Goal, R. Link; point, H. Muir; cover-point, G. Slatery; first defence, Burke; second defence, Smith; third defence, T. Whelon; centre, Kinzella; third home, Duncan; second home, W. Roberts; first home, McLean; outside home, Connel; inside home, Cursey.

Excelsiors (11)—Goal, Campbell; point, Becnam; cover-point, Mara; first defence, Mullis; second defence, Varr; third defence, Blain; centre, Stevens; third home, Geo. Sproule; second home, J. G. Roberts; first home, H. Sproule; outside home, Charters; inside home, Davis.

Five minutes after play started the home team shot their first goal, G. getting it on a shot from close in. Shamrocks missed one or two good chances to score by wild shooting. Davies replaced him. Davies scored twice for Brampton when there was less than a minute left to go. The first period ended 3 to 9 with Brampton on the long end.

The second session was scarcely under way when Charters opened the scoring for his side. G. Sproule followed with two more, and Duncan tallied Ottawa's first goal by beating out Campbell on a long shot. During the next ten minutes Brampton tallied four more, and when time was called they were leading with the score of 10 to 1.

Both teams made several changes at the start of the third quarter, and the men who played the Shamrocks put on appeared to strengthen their side. In less than a half minute after play started Charters scored for the home team. Davies, Stevens and Roberts followed with goals, and the score at the end of the third quarter was 15 to 1 for Brampton.

After Brampton had scored shortly after the last period started, the visitors made a desperate effort to cut down the big lead. They missed several good chances. The home team tallied three in a row and the final score was 19 to 1.

ST. LAWRENCE MARKET.

Again the wagon section of the St. Lawrence Market was inadequate to supply the space demanded.

Not only was there not enough space for the farmers' and market gardeners' wagons, but the space allowed between the standing purchasers was so narrow, it was a difficult matter to get in.

They not only removed the garage, which occupies such a large corner of the section? We were informed the city council promised a deputation several months ago, and had decided to do so. Why has it not been done?

Thursday there was a bumper market, and the quality of the vegetables was splendid.

Wm. Fox, Lambton road, had some especially fine cauliflower, which he sold very reasonably at 15c per head, as some of the intending purchasers was so narrow, it was a difficult matter to get in.

Butter was more plentiful again, and was not disposed of as quickly as two weeks ago.

Eggs, too, were liberally supplied, also some report their hens moulting, and that they will lay again in a few days.

Spring chickens are not bringing the money they would if they were of better quality.

There were five loads of hay brought in on Saturday, and seven or eight loads of oats.

Nothing Small About These Furniture Reductions

Today and to-morrow the furniture man is showing appreciation of your great response in August by CUTTING PRICES IN HALF
 In the case of odd prices, the aftermath of tremendous selling last month. When you may have handed to you a reduction of one-half the regular price, whether it be seventeen dollars or seven hundred dollars, does it not behoove you to see if you need the furniture to replace the worn out or replenish the scanty? For a practical wedding present or birthday gift furniture is suitable, war time is opportune, and half price a great inducement.
 Remember, nothing but worthy furniture is shown here. Read these examples of what we'll be doing Tuesday.
