## HAMILTON MAY GET BIG CENTRAL HOTEL

### Canadian Northern Said To Be Considering \$2,000,000 Project—Labor Party Action

HAMILTON, Oct. 23.—(Special.)—It was reported here to-day that the lack of adequate hotel accommodations in this city will be remedied by the Canadian Northern Railway Company erecting a two million dollar hotel in the central part of the city, where it is said, the company have already secured the necessary land.

It is also understood that the C.N.R. will start construction of their railway tracks into the city, and that they will meet the requirements of the city in regard to the city limits. Viaducts or subways, and no level crossings, are demanded by the city officials. The inability of the city and company to come to an agreement in the matter caused the railway people to abandon their operations here last spring.

Their desire to make a raid on the East Hamilton seat in the provincial parliament, which existed among the local leaders of the Conservative party when the approaching elections were first announced, seems to have subsided. The cause is said to be failure to find a satisfactory candidate for the seat riding, and it is understood that the party conventions in the city constituency have been delayed for this reason.

Conservative deal in this instance has apparently had an effect not looked for, namely, that of suggesting to the labor party the advisability of contesting the West Hamilton seat, which it was expected would go to Col. J. S. Hendrie by acclamation. The laborites now seem determined to make a fight for the colonel's seat, and it is probable that a candidate for the seat will be chosen by them to-morrow night. The Liberals, it has been announced, will make no effort to win either riding.

**Trench Caved In.**  
Ernest Reddie, 225 North Wellington-street, suffered a broken leg thru the caving in of a trench in which he was working while helping to install a water service at the Sawyer-Massey works, this morning. He was taken to the City Hospital.

For diagnosing the cases of human filis which his medicines were supposed to cure, E. A. Colville, a patent medicine merchant, was fined \$50 in police court this morning. Colville was fined \$25 for a similar offence three years ago. Inspector Rose laid the complaint on which the defendant was convicted to-day.

**Garrison Sergeants Meet.**  
Sergeant-Major Creighton, Q.O.R., was elected president of the Toronto Garrison Sergeants' Association last night at the seventh annual meeting. Quartermaster-Sergeant Smith, 10th Royal Grenadiers, was elected vice-president; Q.M.-Sergt. Dager, G.L.B.G., treasurer; and Sergt.-Major Smith, Canadian Army Service Corps, secretary.

The date for the annual theatre night will be settled later. This year it will be held under the distinguished patronage of Their Excellencies the Duke of Devonshire and Connaught.

### OBJECT TO ASSESSMENT

#### Raised Valuation on Land in Burned Area Lowered.

For some reason or other the assessment of two 50-foot lots in Bay-street, south of Wellington, which have not been built on since the fire, was raised from \$600 to \$750 per foot. The matter was brought to the attention of the court of revision yesterday by the Baldwin estate, the owners, with the result that \$100 was cut from the assessment.

The Sinar Sewing Machine Company objected to an assessment on their property of 60 per cent, the manufacturers' rate, on the ground that they were retailers and should only be assessed 25 per cent. Judgment was reserved in the case.

The Ontario Club appeared against the figure of \$65,000 being put on the old Standard Bank building at Wellington and Jordan, which the club is making into a club building. The assessor said as the inside of the walls had been torn out it should be reduced to \$45,000. The representatives of the club thought the walls were worth only \$15,000. The assessor will meet the club officials to-day and try to make a settlement.

D. S. McInnes appealed against his income of \$3600 being taxed because he was a soldier in regular service. Under the law the incomes of officers in regular service are exempt, so the assessment was removed.

### BROKERS ON TRIAL

#### Charged With Defrauding Investors Under False Pretences.

NEW YORK, Oct. 23.—Simon Jacob Herzog, better known as George Graham Rice; Bernard H. Schefels; George Sullivan, otherwise known as "Red Letter" Sullivan; Charles B. Stone; Charles E. Baker; John Delaney and Ralph E. Waterman, composing the brokerage firm of E. H. Schefels & Co., were this afternoon placed on trial in the U. S. Circuit Court, charged with using the mails in a scheme to defraud investors and with obtaining money by false pretences. Their operations covered the whole of the U. S. and portions of Canada.

These men and others were captured in a raid in the Schefels office here in September, 1910, when similar descents were made upon offices of the firm in Chicago, Boston, Philadelphia, Milwaukee, Detroit and Providence.

The trial continues to-morrow and is expected to last several weeks.

### PROPOSE CIVIC TENEMENTS

#### Board of Health Will Deal With the Matter Soon.

Civic tenements, such as have been built in some English cities, will be recommended by the committee of the board of health which has been dealing with the slum conditions in Toronto. They will recommend that certain areas be set apart for the purpose and that the medical health officer report on the places where they should be built. The committee will also recommend that the city solicitor report on the legislation necessary to enable the city to erect tenements.

The board of health and the board of control are at odds to a certain extent over the housing problem. The board of health took it up early in the year and secured a report, while the board of control has already asked the city solicitor to report on the legislation necessary to empower the city to build tenements.

### Sale of Slocum Effects.

It has been decided by the Trusts and Guarantee Co. to refuse the offer of \$23,000 for the total assets of the Dr. T. A. Slocum Co., for which company they are the official liquidators. The hopes of realizing a larger sum for the assets of the defunct company will be sold by public auction in Suckling's rooms, 51 Wellington-street, on Wednesday, Nov. 1.

The shareholders will receive nothing on their investment unless the assets of the company should bring \$100,000, which is practically impossible.

### Church Breaks Law.

A copy of the section of the bylaw which forbids the blocking of the aisles in any meeting place will be sent by the city architect to the pastors of all the city churches. It was reported to him yesterday that the aisles of a west end church were blocked with chairs at both services on Sunday last. The penalty for breaking that by-law is a fine not exceeding \$50 for each offence or six months in jail.

### The White Star Line has to-day received cable advices from the firm of Harland & Wolff of Belfast, builders of the giant steamship "Olympic," confirming the fact that this steamer will be in readiness to rejoin the White Star Line service, leaving Southampton Wednesday, Nov. 29, thus making the departure from New York Saturday, Dec. 9, the Christmas sailing, to accommodate those wishing to send holiday mail to their relatives and friends abroad; also giving them the opportunity of spending Christmas and New Year holidays with their relatives and friends abroad.

### An invitation is extended to ladies to call at Rutherford's, 54 Yonge-street. They are showing the latest in fall millinery.

# COLEBY

Mrs. D. J. Gibb Wishart is giving a tea on Tuesday, Nov. 7, to introduce her daughter, Elsie.

Miss Lucy McLean Howard organized the bridge party which took place yesterday afternoon at the residence of Mrs. Wallace Nesbitt, in aid of the West End Creche. Mrs. Nesbitt provided the tea and Mrs. W. R. Riddell and Mrs. W. H. Cawthra the two prizes, so the theme charity will benefit by the subscriptions to the fourteen tables.

Mrs. Baker, New York, is visiting Mrs. Mulock.

Mrs. A. N. M. Kirkpatrick gave one of her delightful teas yesterday afternoon, when she introduced her pretty daughter Marjorie, who was wearing a very becoming frock of white chiffon over white satin edged with gold and crystal trimming, with a pink satin bandeau in her pretty hair, finished with a chou at the side. She carried a bouquet of pink roses and lilies. (Nearby was a table filled with not only the most lovely flowers, but coming-out presents also. Mrs. Kirkpatrick, with the debutante, received in the drawing-room. Mrs. Morris' great-grandmother of the latter, was also present, looking very sweet and interested in everything going on. Mrs. Kirkpatrick looked exceedingly well in a gown of emerald-green black plon over satin, with diamond and ruby ornaments and a corsage bouquet of orchids and lilies. The tea-room was arranged in the large new room lately added to the house and decorated very effectively with an enormous silver bowl of every shade of yellow and brown chrysanthemums, the silver candlesticks shaded with yellow silk to match. The assistants were the pretty debutantes of the year.

Mrs. Charles Hall, Hamilton, is visiting Mrs. W. J. Grant, East-ave.

Mr. and Mrs. Duggan of the Manor, Murray Bay, announce the engagement of their daughter, Katharine, to Mr. J. Archibald Grey, of the Bank of Montreal, Calgary, formerly of Ottawa.

Miss Beverley Lamb is staying at Spadina Gardens during the absence of Mr. and Mrs. Lamb in Australia.

Mrs. Newbold Jones received yesterday for the first time since her marriage, the reception being held at the residence of her mother, Mrs. Clarkson Jones, Queen's Park. Mrs. Jones was wearing a beautiful gown of black and white striped marquisette and a deep border of blue and yellow roses, the gown being worn over pale blue satin, which was mingled with the painted border of the blue and yellow bouquet of American beauties completed a very effective and becoming costume. The drawing-room was arranged with pink roses and lilies. The tea-table being centred with a large vase of yellow chrysanthemums. Mrs. Douglas Warren and Mrs. Ogden Jones poured out the tea and were assisted by the bride's sister in their bridesmaids' frocks, Miss Gertrude Tate and the Misses Margaret and Emily Jones (England), who are the guests of Mrs. Clarkson Jones.

Mr. A. D. Braithwaite has been moved to Montreal. Mrs. Braithwaite will not move there until after Christmas.

Miss Lillian Burns, who spent the summer in Europe, has arrived in Canada and is now visiting friends in Toronto. She is expected to reach Vancouver in about two weeks.

Mr. and Mrs. C. Berkeley Paget, Revelstoke, B.C., announce the engagement of their daughter, Eleanor Georgina, to Mr. William Raaf Grubbs, Wilmet, B.C. The marriage will take place in St. Peter's Church, Revelstoke, on Wednesday, Oct. 25.

Mrs. R. M. Coulter, who has been spending a few days in Toronto, has returned home.

Miss Lillian Monk is leaving at the beginning of November for Winnipeg, where she will visit her uncle and aunt. Mr. and Mrs. Monk, Miss Marjorie Jones, who will accompany Miss Monk to Winnipeg, will stay with her sister, Mrs. Gordon Richardson, for some time.

Mr. E. L. E. Chevrier, student at law, who recently returned to Toronto to resume his studies at Osgoode Hall, has been elected first vice-president of the Law Students' Association.

Mr. Alex. Cartwright has returned to Ottawa from a short visit to Kingston.

At St. Margaret's, Westminster, London, England, on Oct. 19, Miss Lenora Mary Labatt, daughter of Mr. John Labatt, London, Ontario, was married to Mr. William T. Whiteshead, Montreal. The ceremony was performed by Rev. Canon Henson.

Mr. and Mrs. Basil Leefe, Galle, Ceylon, who have been visiting in Montreal for a week or two, arrived in Ottawa on Monday and will be the guests of Miss Laura Smith for a few days.

Among the out-of-town guests at the Rowan-Dobbie wedding at Niagara Falls on Thursday last were noticed the Bishop of Niagara and Mrs. Clark, Mr. and Mrs. E. R. Niblett, Mr. Harold Egan of the Imperial Bank staff, and Mrs. J. H. C. Dempsie and Miss Dempsie, and Mrs. Cecil B. Smith of Toronto, cousin of the bride.

Yesterday afternoon Mrs. Percy Donville, Hamilton, was the hostess at a delightful at home in honor of her guest, Miss Eglty, Bradford. The table decorations were in shades of red and golden-colored chrysanthemums.

In connection with the St. Stephen's Parish Bazaar on Wednesday, Thursday and Friday three plays will be produced in the assembly hall, Victoria Hall, East Queen-street (opposite Bond-street). The cast for the different plays being:

"Which is Which."—Miss Marlon Meredith, Miss Claire Campbell, Mr. Stanley Bennett, Mr. Walter Menpes,

Miss Elfr. Bowes, Mr. Claude Menpes, Newspaper Nuptials.—Miss Eleanor Macdonald, Miss Marjorie Kirkpatrick, Mr. Jack Ince, Mr. Maurice Macchell, "The Teeth of the Gift Horse."—Miss Dorothy Langmuir, Miss Constance Henderson, Miss Hilda Inglis, Miss Dorothy Massey, Mr. Woodburn Langmuir, Mr. Strachan Ince.

Mrs. Miller Lash has returned from visiting Mrs. Jackson in Chicago.

Mrs. Turner, Admiral-road, gives a tea on Nov. 2, to introduce her daughter Clara.

Mr. and Mrs. E. J. Lennox have issued invitations to the marriage of their daughter, Isabel Emma, to Mr. Keris Starling Ryerson, at 2.30 on Nov. 14, in St. Paul's Church, Bloor-street, and afterwards at their residence, 431 S. e. -course-street.

The Orpheus Quartet will give a recital this evening in the Foresters' Hall, College and Yonge-streets.

From the preparations being made for St. Stephen's parish bazaar, on Wednesday, Thursday and Friday, Victoria Hall, on East Queen-street, is being turned into fairy-land. Col. Sir Henry Pellatt, so far as the lighting is concerned, being the good fairy. The decorations, in holly and white, are most suggestive of Christmas, and the many beautiful plain and fancy articles at most reasonable prices making Christmas a pleasure. The stallholders' caps are a novelty, having a border of holly, and the waitresses for the high tea a border of pink roses. A first-class orchestra will play each day from 8 to 10 p.m.

The regular monthly meeting of the Toronto Women's Press Club will be held at 4.30 this afternoon at the Brown Betty, where Mrs. Labadie will address as the club and "Canadian Days" will be on view.

Dr. Ryckman conducted the ceremony. The bride wore white satin, with an overdress of embroidered chiffon, and veil arranged with orange blossoms. She was unattended. A reception was held, after which Mr. and Mrs. Lingsham left for the east, the bride traveling in a gown of Copenhagen blue with hat to match. Among the guests present were Hon. T. W. Crothers, uncle of the bride, and Mrs. Crothers, St. Thomas; Mr. and Mrs. Lingsham, Belleville; the groom's parents; Mrs. F. McKeown, Belleville, sister of the bride, and Mr. McKeown.

Mr. A. K. Stewart (formerly Miss Lill Downard) will receive for the first time since her marriage, with her mother, Mrs. St. Thomas, Mr. and Mrs. Lingsham, Belleville, the groom's parents; Mrs. F. McKeown, Belleville, sister of the bride, and Mr. McKeown.

Evangelist Inglis Speaks.

A strong evangelical address was delivered to a large audience in the Tabernacle Church, Markham-street, last night by Evangelist Charles Inglis. This is Mr. Inglis' first address in Toronto since 18 years ago, when he conducted an evangelical campaign in this city.

He will give addresses in Markham Tabernacle, to-night and to-morrow night.

Boy a Real Pedestrian.

George Butler, 14 years of age, is some walker. George came from London, where he was under the charge of the Children's Aid Society. At the age of ten he was sent to live with a farmer, Duncan McGregor, at Duntroon, Ont., but soon left there. He ran away to Creemore and from there to Glenora.

From that place he beat it to Beeton and then to Woodbridge and came from there to Toronto. Now the police magistrate has turned him over to the Children's Aid Society again, he being arrested at the Parkdale Station Sunday.

# Dineen's Furs Have a Continental Record

Since back in the "Seventies" the Dineen Company has been buying furs from the Canadian Trader and in the large European markets. It has for the larger part of that period manufactured all the garments sold in its own workshops. The Dineen Company had a small beginning, but to-day an enormous plant is busily at work supplying the demand of "The Dineen Fur Business."

The "Showrooms" are but the public end of the plant, for the Company has a very extensive "made-to-order" business, yet the Showrooms contain an endless variety of splendid garments made from the latest Parisian Models. There is also on view in these rooms a remarkable display of different fur skins from which you may select the material that is to go into the garment you desire.

The reputation of Dineen's Furs is not confined to Toronto, or to Ontario, or even Canada. This is particularly true concerning Alaska Seal and Persian Lamb Jackets and Coats. The Dineen Company is also celebrated for its special lines of Canadian Mink and Fox and Sables. All of these later goods are purchased direct from Trappers in our Northwest.

### CLING TO MURDER THEORY

#### Bruises Found on Violet Smith's Body—Remains Buried.

The remains of Violet Smith, the school teacher who was drowned in the River Shebehokong, were laid at rest yesterday afternoon beside those of her mother in Mount Pleasant Cemetery. Rev. W. L. Armstrong officiated in the absence of Rev. J. T. Treleven.

Last evening Drs. Johnson and Graham held a conference with the relatives and their counsel, W. D. McPherson, K.C., and an investigation is to be started immediately. The doctors in the post-mortem of Sunday morning discovered bruises on the knuckles of the girl's hand and on the side of her neck, which they believed were sustained before death and by some other means than being rolled against the shore by the river current. Death, they said, agreeing with the doctors at Dillon Port, was caused by asphyxiation.

The relatives are far from satisfied with the verdict of suicide, as returned by the Dillon Port jury. They say that death by drowning should have been the wording and not death by suicide.

### USING THE HOUSE.

In the old tale of the two brothers one bade the other choose which "side" of the house he would have. And the greedy fellow replied: "I will have the inside, and leave the outside to you." But I had some talk the other day with a Canadian doctor, who sleeps out-of-doors even when the snow falls. The secret of his safety lies in his "sleeping balcony." This balcony is so constructed that your bed is free from draught and wet, but absolutely "outside." Our houses are neglected in this respect. Even in cities there are roofs, and the roof-garden in central London would not be inviting, and a sleeping balcony in the Strand rather too public. There are many thousands of families in this country where the thing has merely to be mentioned to ensure its being carried out. Before long I hope to be able to write a full and practical article about it. In the meantime it would be interesting to know if anyone has discovered that the "outside" is as useful as the "inside."—T. P.'s Weekly.

PUBLIC AMUSEMENTS

At the Princess

Maude Adams in "Chanticleer." Opinions may differ as to the success of the individual impersonations, but there can be little disagreement as to the entire success of the performance as a whole at the Princess last night, when Edmond Rossam's play, "Chanticleer," was presented for the first time to the Toronto audience. There is some naive magical quality of nature in the play, as a whole, as a whole, as a whole...

At the Royal Alexandra

"With Edged Tools." Few dramatized novels repeat the success of their originals. That, no doubt, is due in part to the differing conditions to which the drama and the novel must conform. But in the case of "With Edged Tools," presented at the Royal Alexandra last night before a crowded audience, the improbability was very successfully overcome. That is largely due to the nature of Mr. Henry Seton Merriman's novel, which lends itself easily to dramatic treatment. A story combining romantic episodes and clever dialog can easily be placed on the stage with even more than its first appeal.

Many can play with edged tools to their own detriment, but in this case the plot turns on the girl without a heart. Out for her own advantage in life and carrying on numerous flirtations, she first engages herself to the son of a wealthy baronet and immediately thereafter to a man who has made his fortune in South Africa. Chance throws the two together in a quest for a marvelous plant named "sunias," which takes them into the wilds of tropical Africa. Hence all the episodes which in these particular acts keep the audience in a constant thrill of excitement.

Were the play criticized from a strict standpoint, it shows might be picked in its development. But that is after all, a defect in the vast majority of dramatized novels. From the modern standpoint it is sufficient if the interest at first aroused is carried continuously thru the stage presentation. And certainly on that score no fault can be found with the production at the Royal Alexandra. It certainly kept the audience who followed the course of the story with that undivided, and therefore the best, attention, which only really dramatic situations could give. A girl skilled in flirtation, who first engages herself in a moment of genuine feeling, to a lover whose nature, and immediately afterwards to another admirer of strong personality. Throw the two men together, thru the intervention of the villain of the play, lead up to the meeting of the hero with his real affinity and rectify everything in the last act and there is the plot of "With Edged Tools." Unveil the duplicity of the flirt and replace her with the real love of the hero for the girl, and the play is a success. The production did not belie. The highly competent company presented it with real skill and marked ability. Miss Marguerite Collier as the flirt, had an ideal role and in her performance she showed a marked ability. Miss Marie Leonard as Jocelyn Gordon, very favorably impressed the audience, and Miss Alice Madue, as Lady Can, did not better act. Miss Nora Craig as Lady Herries, both made an immediate impression. "Jack Meredith" found an able exponent in Mr. Deane, and his father, Sir John, was convincingly played by Richard Hicks, whose characterization elicited special notice. The latest show is seen to great advantage, and made a manly personality out of the character of Guy Oswald. The village of the latest show is taken by Campbell Goldsmith, who displayed strong histrionic talent, especially in his powerful death scene. Charles Hartopp was seen to advantage in the role of Maurice Gordon, and the minor parts were all appropriately filled. "With Edged Tools" will be played during the week with the regular Thursday and Saturday matinees.

At the Grand

"The Rosary." "The Rosary," an effective drama which was first seen here at the Grand last season, opened a return engagement at that popular playhouse last night. The piece, from the pen of Edward E. Rose, seems to be as popular in its appeal as ever, for a large audience followed the development of the story with manifest interest and approval. The production this season maintains a high standard and the acting of the several members of the cast is of marked power and sincerity. The story of the shadows that hung over the home of Bruce Milton and of the ultimate victory of them is well known to those who saw the play last year. Needless to say, the plot bears no resemblance and owes nothing to the novel of the same name by Florence Barclay.

Harrington Reynolds heads the present cast as "Father Brian Kelly." Mr. Reynolds makes the priest a thoroughly lovable old gentleman, Irish to the marrow of his bones and honest and kind to the depths of his heart. A resonant voice of considerable strength is this actor's most engaging quality, and to this he adds an easy stage bearing and an acute sense of proportion and emphasis. The rest of the cast are able and give a splendid performance. Edwin Vall plays the part of Bruce Milton, and Eleanor Knight the dual role of Mrs. Wilson and her sister, Alice Marsh. Billy Champ furnishes most of the humor of the piece as "Skeeters Martin," and he is assisted by Duane Lee as "Lesure Watkins." Mabel Howard is the niece of Father Kelly (Kathleen O'Connor). Edgar Murray is the Charley Harrow of the play, and Walter Fenner appears as the shadow of evil in the play "Kenward Wright."

"The Rosary" will play to large audiences this week, judging by the enthusiastic display last evening. The regular matinees will be given on Wednesday and Saturday.

SERIOUS BLUNDER IN BUILDING OF SCHOOLS

Trustee Fairbairn also favors the plan mentioned in The World recently, of employing an inspector of caretakers and school grounds, who will be empowered to employ and dismiss men. In this manner he hopes to relieve Mr. Bishop of a great deal of work, and give him more time to devote to other important matters. It is very likely that the board of education will adopt a standard plan for future school buildings, so that fittings may be made to pattern in order that construction may not be delayed thru lack of material.

SCHULTZ SELLS CORNER. R. H. Schultz yesterday said he had sold that famous apartment house site of his at Spadina and Bloor-streets for \$30,000. This piece of property was for many months the subject of countless wordy wrangles between Mr. Schultz and about every official in the city hall, and it also made a visit of more than one court of law in which the city was defendant. Schultz at last won out, and got a permit to build an apartment house right up to the street line. He seems to have abandoned the apartment idea. He leaves for California in a few days.

KILLED BY ENGINE. William P. Martin, a laborer at the C. P. R. locomotive repair shops, was yesterday killed yesterday noon when assisting in the removal of the steel plate from the front of an engine. He was standing on the cowcatcher when the front, which was propped up with bars, slipped and fell upon him. His skull was crushed. The remains were removed to Sperry Undertaking Rooms where an inquest was opened. He was 30 years of age and an Englishman. His parents are in the old country.

Most Folks Crave a Wheat Food

The craving of the normal system for wheat food is natural. Wheat is the most perfect food given to man—his "staff of life" for four thousand years. The whole wheat berry contains ALL the elements needed to build the healthy human body.

SHREDDED WHEAT

Biscuit is the whole wheat prepared in its most digestible form. Nothing added—nothing taken away. The crispness of the shreds compels thorough chewing and a thorough mixing with saliva, which is the first process in digestion. Shredded Wheat Biscuit every morning for breakfast, served with milk or cream, will build sturdy, robust bodies—best for children or grown-ups. Delicious in combination with fruit. Your grocer sells them.

ALL THE GOODNESS OF THE GOLDEN WHEAT. Made by Canadian Shredded Wheat Co., Ltd., Niagara Falls, Ont.

Ever wet your finger to test the heat of an ordinary iron? This is not necessary with an Electric Iron. It is hot all the time, with a uniformity of heat that means safety from scorching. Because it heats itself, there is nothing to dirty the bottom of an Electric Iron, which means safety from soiling. There are many other reasons why an Electric Iron is the best method of ironing. Ask for one on trial at our expense for thirty days, and you will not be long in discovering them.

Note and Comment

The press despatches, as well as our own... Cobb, assure us that the baseball battle is on again to-day, and both teams are even to a Giant victory or a run-away win for Athletics.

Judging from the expressed opinions of many baseball club owners... the championship season in future will not be extended to take in Oct. 12, Columbus Day.

President Johnson of the American League has advocated an early closing for several years and in this he has been sustained by all of the clubs in his circuit.

The fact that sixty-seven amateurs have signified their intention of boxing in the holiday tournament signifies the popularity of the sport.

BENDER S. MATHEWSON SO SAYS TY COBB

McGraw Realizes That Next Game is Crucial One, and Will Use His One Best Twirler.

BY TY COBB
Champion batsman of the world, and the greatest living baseball player.

PHILADELPHIA, Oct. 23.—(Special to The Toronto World.)—At last the battle between the Athletics and New York Giants for the 1911 world's championship is being renewed, and hope and enthusiasm will doubtless be revived to-morrow afternoon when the champions of the American and National Leagues take the field at Shibe Park.

I will predict that the pitchers will be Bender for the Athletics and Mathewson for the Giants. They are the two twirlers who were the opponents in that brilliant duel which marked the opening contest in New York on Saturday, Oct. 14, that was the first game of the season.

The Athletics, very wisely, are not permitting the intervention of rain to frighten them. Whatever benefits the weather affords during the six days of idleness, were apportioned out to the Athletics share and share alike.

Mathewson was probably benefited by the rest he gained, but he will find it difficult to stop the attack of the American League. It has been my experience when you pitch just what a pitcher has—I mean the way he curves—"break" and his ability to control them.

INDICATIONS BRIGHT FOR GAME TO-DAY

In Philadelphia—Bender and Mathewson Are the Most Probable Pitchers.

PHILADELPHIA, Oct. 23.—After having been postponed for the fifth time, there is every indication to-night that the fourth game of the world's championship series between the New York Giants and the Athletics will be played to-morrow afternoon at Shibe Park.

Without a doubt the reason that the Athletics and Giants are meeting in the 1911 world's series is that both are teams which have wise managers, who depend upon their work as well as mechanical skill.

Senior School Win From Arts By Score 35-1

Two Mulock Cup games were played yesterday. The first one was between Senior School and Senior Arts, and was played on the stadium, with victory going easily to Senior School by 35-1.

Despite the rain and disagreeable weather of yesterday, Varley seniors and intermediates had good workout on the line, and on the back division of the seniors, Elliott, Currier, and Foster were the main attractions.

Argonauts only had a light workout and will not get down to serious practice this evening. The team are all in good condition, and if they can perfect some of their running and passing plays by the back division their chances of the championship would look much brighter.

The Capital Senior City team will practice every Tuesday and Thursday night at Ketchikan Park.

The Model School Rugby team defeated U. J. Junior School by 24-3. The lineup was as follows: Captain, Curry; D. V. Burke, Garret, Ramsay, McAlister, Hall, Wood, Goodman, Sewel, Richardson, Moore.

While the Athletics were going through their limbering-up process Manager McGraw had the Giants out for a lengthy practice at the Polo Grounds.

Orman v. Manson—A. W. Marquis (St. Catharines) for defendants. R. B. Henderson for plaintiff. An appeal by defendant from the judgment of the County Court of Lincoln of July 4, 1911. At request of counsel for plaintiff argument of this appeal adjourned until 24th inst.

McDougal v. Deary—D. I. Grant for plaintiff. S. S. Sharpe (Uxbridge) for defendant. An appeal by plaintiff from the judgment of Teetzel, J., of June 5, 1911, in which the County Court of Haldimand allowed the plaintiff to recover \$500 damages and costs and dismissing defendant's counter claim with costs. Appeal argued and allowed to extent of reducing the amount of plaintiff's damages to \$250. In the other respects appeal dismissed with costs.

Wilson v. Deacon—I. F. Hellmuth, K.C., for defendant. G. S. Gibbons (London) for plaintiff. An appeal by defendant from the judgment of Riddell, J., of May 27, 1911. An action to recover \$1225, alleged to be due plaintiff by defendant on commission on the sale of property. Plaintiff's expert witness, who was called in evidence, was interviewed by defendant, under an agreement between the parties, whereby plaintiff was given the exclusive privilege of selling the property. Plaintiff's appeal is on the ground that the expert witness was not sufficiently sworn to support the order.

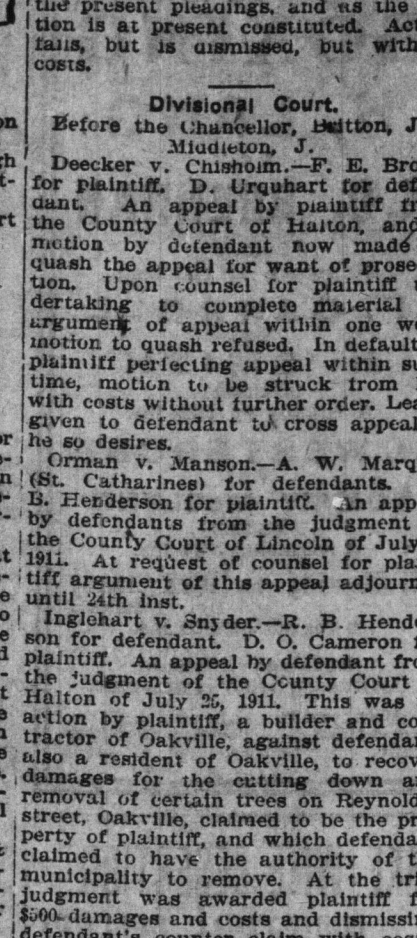

Bank of Montreal v. Partridge, J. M. Ferguson, for defendant. J. G. Kerr (Chatham) for plaintiff. An appeal by defendant from the order of the county court of Kent of July 26, 1911. The defendant, who is indebted to plaintiff, was arrested under the Fraudulent Debtors' Arrest Act, on the ground that he was pretending to be insolvent. Plaintiff's appeal is on the ground that the defendant was not sufficiently sworn to support the order.

COMPENSATION LAWS ARE VERY INADEQUATE

Chief Justice Meredith Held First Inquiry Yesterday, and Many Representatives Spoke.

Politicians, members of the C.M.A., as well as representatives of labor organizations and railway brotherhoods, attended the enquiry conducted at the parliament buildings yesterday by Chief Justice Meredith with a view of establishing a Workmen's Compensation For Injuries Act.

Among those present were Hon. J. J. Foy, Claude Macdonell, M.P.; Ald. McBrice, F. W. Bancroft, vice-president of the Trades Congress of Canada; F. W. Wegman, representing the C.M.A. and many others.

That the Ontario statute regarding compensation to injured workmen was inadequate and out of date was the opinion of Claude Macdonell, who maintained that it was more productive of litigation than any other act. Mr. Macdonell thought the British act was by far the most up-to-date and effective. In Ontario the insurance companies evidently seek to evade compensation by long legal hearings till the patient is either dead or penniless.

The salient feature of the British act is that it declares every workman entitled to compensation from his employer if he suffers injury. It is a matter of indifference whether it be through the employer's negligence or not.

Act Only Benefited Few. John Stuart, who appeared before the commission just as one interested in the subject, said that the British system had not worked out to the benefit of the majority of workmen. As employers had to insure their workmen against accident, it meant that they would not employ men above a certain age. The act as now enforced benefited a few by putting heavier burdens on the others.

E. C. Hunt of Cookstown afforded the commission a concrete case to deal with. Mr. Hunt explained that after losing his arm in a sawmill his wages were stopped, and he had to make provision for getting treatment, as well as his food. Since getting better he had great trouble in finding employment. His former employer had no money and hence he couldn't get any compensation.

Mr. Hunt thought there should be some government assistance in such a case as his. A grant of land or a pension would be in order. Norman Tabor, a manufacturer, suggested the formation of a government commission to deal with these matters.

F. W. Bancroft, representing the Central Labor Council, stated the wish of his organization to assist in the work of the commission. He emphasized the fact that labor people would not consent to any plan by which the working man should contribute to an accident insurance fund. The compulsory negligence principle should be left out of the new act, as it had been left out of all modern legislation of similar character.

Young Englishman Meets Tragic Death in West Toronto—Who Will Run in East York? NORTH TORONTO, Oct. 23.—(Special.) The Toronto & Niagara Power Co. took time by the forelock this morning, and long before a lot of the dwellers in the aristocratic suburb to the north of the city had arisen they had a big gang of men extending their interrupted operations of a month or so into the town and engineer and chief electrician, who rudely threatened their own scheme.

As on the former occasion, when Edward James learned of what was going on, he at once put a man on the job, while the chief of police went to the scene. The power was cut, and while everything was being done, the company's chief electrician, who had been working under authority of the Dominion Railway Board, was contacted by the power company's solicitor, who told him that the power was being cut, and that the company was not going to the court of appeal, but that it had got the matter far rather than to the division court for a further order of setting the matter aside and for all. And so it stands at present. Chief electrician Mackenzie is expected to appear in court tomorrow morning at 10 o'clock. As to whether the proceedings on the work will be set, the solicitor could not say. The matter is wholly a legal one.

There was no interruption to the work and the gang of workmen went on as usual, and taking out those being long to the town's electric lines in other positions. Tomorrow they will be again at work until some decision is reached by the court of appeal. However, he has to do with the complicated matter in discussion. Between the Metropolitan Railway, the Ontario Electric Light Company and the Toronto & Niagara Power Co. to say nothing of the Ontario Railway Board, Torontoans have enough to make them awake nights.

What is holding up the electric light situation, anyway, and how long it is likely to continue? Away back in the good old summer time, Councilor Reg had a motion for the opening of the hydro-electric current should be turned on to West Toronto's streets as at right arrangements were about completed for the presence of the lawn band. It was a very nice party, and the town council, and even the engineer in charge within the circle of the time.

There are some pretty bad holes on the ground, and the water is practically all under the ground. It is practically all under the ground. It is practically all under the ground. It is practically all under the ground.

WEST TORONTO. Young Englishman Met Sudden Death in C. P. R. Shop.—(Special.) Another fatal accident was added to the list of such disasters in the C. P. R. shop at West Toronto, on Monday night. William Martin of 105 Laington-avenue, who is only a few months old, came from his home in Wales, Eng., with his parents, and who has been working in the master electrician's department at the shops, was struck down and immediately killed by a heavy beam falling from the roof of the building. The beam had been leaning against a wall, and when the shop was struck down, it fell upon the boy's head, killing him instantly.

West Toronto North Toronto East Toronto. SUNRISE HEIGHTS. EAST TORONTO LIBERALS. Who is Likely to Lead Forlorn Hope Out There? Rumors are afloat regarding the possibility and probability of a big field of candidates for the Liberal nomination in East York. It is not known whether there is any undue crowding among the prospective members to get in line for the party nomination, and it is believed that the man who commands the job will have the sincere sympathy and hearty good wishes of his fellow-citizens.

Banker Walsh Dead. Was Released on Parole a Week Ago—Wrecked Chicago Bank. CHICAGO, Oct. 23.—John R. Walsh, former banker, publisher and railroad owner, released a week ago from the Leavenworth Federal Penitentiary, died today of heart disease. He was 74 years old. He gained prominence in financial circles through his conduct of the Chicago National Bank, of which he was president. That institution failed, on Jan. 2, 1907. Walsh was indicted on 18 counts, charged with "wrecking" the bank. Three years of litigation, the financier fought desperately to avoid a prison sentence, but the supreme court of the United States on Jan. 17, 1910, refused an appeal, and he served his term at Leavenworth Penitentiary.

Marvels of Skin Grafting. The very latest discovery in skin grafting is the use of hair instead of skin on a raw surface. Dr. P. Carnot, a famous surgeon of Paris, was the first to make use of this method here and at the dispensary on Sunday.

NEWARKET FAIR. The Last and Banner Fair of 1911. Tuesday, Wednesday and Thursday, October 24th, 25th and 26th. The entry list to date guarantees this fair a record breaker, a magnificent display of the best products in the world. Live stock, dairy, ladies' work, etc. etc. etc.

SUNRISE HEIGHTS is made up of the sub-division of the Taylor or Elliott Farm, on the York-Scarboro townline, one mile north of the Dentonia Farm, and one and three-quarter miles north of the city limits in East Toronto. It is just north of St. Clair Avenue. The best road in Toronto—the York-Scarboro townline—passes the property. A central road down the middle of the sub-division gives access to every lot.

Match on Wednesday, Nov. 1, at Alex. Donaldson's. A lot of interest is centered this year in the plowing match which takes place on the farm of Alex. Donaldson, lot 8, concession 5, Markham Township, near Milken's Corners. In all there are seven classes—four in soil and three in red land—and there are good prizes to all. The match takes place on Wednesday, Nov. 1, and the plowing will be done by the East York Women's Institute, a large tract erected on the grounds. Frank Weir of Agincourt is secretary, and Mr. C. W. Mulvey, at 5 o'clock, will give the signal to start.

Earlscourt. St. Chad's Church Had Great Day on Sunday. EARLSCOURT, Oct. 23.—(Special.) The harvest festival services were held in St. Chad's Church on Sunday as follows: Celebration of holy communion at 8 a.m. by Rev. A. F. Rounthwaite, there being twenty-nine communicants; choral celebration at 11, at which the Rev. A. F. Reid, presided. There was a large congregation, and twenty-two communicants. The children's service took place at 3, conducted by Lay Reader P. E. Diamond, and a very appropriate address was given by Miss Collins, one of the workers. At 6 o'clock, choral evening, the service was conducted by the lay reader, the special preacher being Rev. A. F. Reid, rector of St. Matthew's Church, and at which there were 150 present.

Genius Work Among Chinese. Difficulties of chess work among Chinese are amusingly illustrated by the British committee on the subject in their report. A Chinese child at birth is said to be one year old, he writes, and after 150 present. It is said to be two years old. Thus a child, if born in the last month of the year, may be said to be two years of age before it is 30 days old according to European reckoning. A child of 18 months' time of life since birth is reckoned by Chinese to be either two or three years old, this depending on whether it was born in the first or second half of the year. It is common for a Chinese mother to give a name to a girl, presumably to deceive the Fates. It being considered easier to bring up a girl. There are many lovely undeviled families in Well-halve. The latest is that of a widow named Meng Yu Shih, whose family consists of 66, with one servant, makes 67 mouths to the common meal.

Outbreak of Diphtheria. Five Cases Have Made Their Appearance in a Montreal School. MONTREAL, Oct. 23.—The Protestant School Commissioners, declared the medical health officer of the city today, had ordered that the Madison-avenue school in Montreal West should be closed for the present owing to five cases of diphtheria, which had broken out in the place. Health officials are at the school today to make a thorough examination. Last week 23 cases of the disease were reported in the city. It was not thought by the health authorities that there was any grave danger of the disease becoming epidemic.

Expedition to British New Guinea. Reuter's Agency is informed that Mr. D. Jenness, of Balliol College, Oxford, is about to leave England on a scientific expedition to British New Guinea. The undertaking, which has been organized by the University of Cambridge, is being borne by private subscribers, will involve at least twelve months' work in an altitude of 800 feet, and it is thought to be an interlunatic of the Melanesian and Papuan peoples. The district selected had been especially chosen, as it is the most accessible portion of Papua for such an expedition. It remains absolutely unexplored. Goodenough Island is volcanic, and has an area of 20 miles by 40. Its mountains rise to an altitude of 800 feet, and it is thought to be the highest island of its size in the world. There is one mission station on the island, and occasionally the government official lands, but the interior has never been explored. It is shown this country is among the most primitive of the world.

Admiral Extinguished Flames on Warship and Prevented an Explosion. TOULON, Oct. 23.—A repetition of the Liberte disaster was probably averted today by the presence of mind of the commander of the battleship Suffren. As the vessel was preparing to leave harbor, a fire broke out in the boiler room, and the partitions between the boiler and the magazines, causing an outbreak of fire. The commander without delay flooded the magazines and extinguished the flames.

Opposition for Ferguson. BROCKVILLE, Oct. 23.—(Special.) G. Howard Ferguson, the sitting Conservative member for Grenville, and mentioned as likely cabinet material in the Whitney government, is to have opposition in his fight for re-nomination. Mayor F. S. Evanson of Prescott has announced that he will give Ferguson a run in the convention, which has been called for Nov. 1 at Spencerville. Evanson says Ferguson should retire and give some one else a chance. The Brockville Conservatives will pick a candidate on Nov. 7. Ottawa Teachers Coming. A party of public school teachers of Ottawa will arrive in Toronto Friday and will spend several days here. They will visit the public schools next Tuesday in company with Inspector Hughes.

Bravery Medal for Jennings. For his bravery in rescuing a drowning man at Niagara-on-the-Lake on Aug. 23, A. H. Jennings will receive a medal from the Royal Humane Society of Canada. Mr. Jennings jumped from the deck of the Corona, while the boat was at the wharf, and rescued a man in the water below, who had fallen overboard in the dark. The act was a considerable danger, and an investigation committee of the society unanimously decided that he should be awarded a medal. Give Up Harrison Baths. Notice was given to the civic property committee yesterday by the chairman of the Board of Education of their intention of terminating the agreement of the city for the use by school children of the Harrison baths. The reason assigned was that they were not being well enough patronized to warrant the city continuing them. The matter was referred to Property Commissioner Harris for a report. The property commissioner asked the board to pass a resolution for the sale of the baths, which would cost \$425, which the board did.

### REGATTA COURSE WILL BE STARTED IN SPRING

Cost Will Be \$22,855—Project Approved by Civic Island Committee.

By the spring of 1932 Toronto will have a regatta course three-quarters of a mile long, which will be the finest one in Canada and one of the finest in America. The island committee passed yesterday the report of Acting Parks Commissioner C. E. Chambers on the matter, and work on the course will probably be started next spring. The estimated cost is \$22,855. In his report Mr. Chambers said that the improvement of the lagoon beside Hanlan's Point by the building of a regatta course would turn the present barren and waste place into one of the most important points of attraction in the city.

### NO SECRET AGREEMENT SO ARCHITECT INSISTS

City Probes Into Lennox's Dealings With Bennett and Wright—Books Shy on Evidence.

The Lennox-Wright agreement again became subject to questions in the assize court yesterday. H. L. Drayton, city counsel, went over a number of large and small items of the famous bill, each numbered as a separate charge, and which Mr. Lennox admitted he had not entered on his books, or billed the city for, until the beginning of his present action. Mr. Drayton asked the witness if he remembered that the payments were in the Bennett & Wright books as special merchandise, and if it was not understood between them that the thing was to be secret and hid? "I don't think it was so agreed," replied Mr. Lennox.

### ARE GETTING INTERESTED

Aldermen Beginning to Size Up Election Outlook. The city fathers are dealing with the approaching municipal elections in a rather jocular manner these days. At the committee meetings yesterday it was quite the thing to greet an alderman as "controller," and controllers were quizzed as to whether or not they had decided to run for mayor.

### RAIES IN PARKDALE?

Two cases of suspected rabies are now undergoing the Pasteur treatment at the Western Hospital. They are Parkdale people. The mother and her little son were playing with their dog, when it began to act rather strangely, and a veterinary surgeon was called, who advised the dog to be taken care of as a suspect. In the meantime, the mother and son are taking no chances, altho they were not bitten by the dog.

## Commercial Reports

### Wheat Goes Lower at Chicago On General Bearish Statistics

CHICAGO, Oct. 23.—Wheat prices today felt the pressure of sales by large owners and for the first time in nearly a week suffered a material setback. The close was at a decline of 3-8 and 1-8 to 1-8 lower, oats down 1-8 to 1-8 and hog products less costly by a nickel to a dime.

Investment demand for wheat showing a marked decline, the weather in much less than at any time of the recent past. For the first time since the recent decline the demand was decidedly slim. World shipments were heavy, the weather in receipts was improving, and there was a large increase of the United States visible supply. Moreover, prices were current that the growth of wheat in the Argentine gave signs of being the largest on record. Rail rates from time to time, but broadly considered, the market was one of a decline from the start. One of the features was a widening of the December-May difference, certain in the near and buying the market was deferred option. Between the opening and the close December fluctuated from \$1.01 1/2 to \$1.02 3/4, with the first steady at \$1.01 3/4 and a final drop of 1/4 cent compared with Saturday night.

**Better Corn Outlook.** Cooler and clearing weather following the recent rains led the corn crowd to change from the general bullish sentiment of last week. The country, it seemed more inclined to surrender to the old crop recovery. December ranged from 66c to 67c, closing unaltered to 1-8 to 1-8 net lower at 65 1/2 to 66 1/4. Cash grades were lower, 1-8 to 1-8 net lower.

**Northwest Receipts.** Receipts of wheat in cars at primary centers were as follows: 

Week	Year
Chicago	1,000,000
Duluth	1,100,000
Minneapolis	1,200,000
Winnipeg	1,300,000

**World's Shipments.** The weekly world's shipments of grain are as follows: 

Wheat	Wheat & Flour	Barley	Oats
1,000,000	1,500,000	1,200,000	1,800,000

**Liverpool Wheat Market.** LIVERPOOL, Oct. 23.—The unexpected heavy shipments from Russia and the Danube, as well as America together with favorable reports from Argentina, caused a decline in the opening hours, with values 4 1/2 to 4 3/4 lower, notwithstanding the firmness in America on Saturday. Following the opening there was a recovery, but the Russian official report was bullish, and news from Australia are of reduced estimates of wheat crop for the weather. There was a quiet demand for spot, but this market held firm, with a good demand for forward shipment. The market closed unchanged to 1/4 below Saturday.

**Russian Crops.** Russia (officially)—The central statistical committee estimates winter wheat crop at 1,200,000,000 bushels, last year's crop at 1,100,000,000 bushels, and the winter wheat crop at 248,000,000 bushels; rye, 272,000,000 bushels.

**Canadian Visible.** The Canadian visible wheat supply increased 46,000 bushels. 

Wheat	Wheat & Flour	Barley	Oats
1,000,000	1,500,000	1,200,000	1,800,000

### WHEAT POURING INTO HARVEST TERMINALS

#### Big Receipts at Winnipeg and American Points—Visible Supply Shows Big Increase.

J. P. Bickell & Co., from Logan and Errol. Wheat—It was the opinion of the best brokers in the pit at the close that the leading bulk interest was rather than sold for the day. The local trade had much less assistance from outsiders, and the quantity of late crops of last week being far heavier. While working for the reaction, sellers were extremely cautious. There was heavy movement to all wheat markets, a run of 661 cars at Minneapolis, and over 1,000 cars at Winnipeg, with 250,000 bushels of wheat at the north-west; consequently, good to choice steers were not plentiful, for which the demand was fairly good from local and Quebec buyers. The trade in common stock was rather slow, as the offerings were in excess of the requirements.

**Winnipeg Grain Market.**

Wheat	Open	High	Low	Close
Oct. 1911	102 1/2	103 1/2	102 1/2	102 1/2

**Chicago Markets.** J. P. Bickell & Co., Manufacturers' Life Building, report the following quotations on the Chicago Board of Trade: 

Item	Price
Wheat	102 1/2
Barley	97 1/2
Oats	92 1/2

**Foreign Demand for Manitoba Improves—Flour Trade More Active.** The local market for Manitoba wheat is showing a marked improvement, and the flour trade is more active. Receipts of wheat in cars at primary centers were as follows: 

Week	Year
Chicago	1,000,000
Duluth	1,100,000
Minneapolis	1,200,000
Winnipeg	1,300,000

**Local grain dealers' quotations are as follows:**

Item	Price
Wheat—No. 2 red, white or mixed	81c to 82c outside, nominal
Wheat—No. 2 red, white or mixed	81c to 82c outside, nominal
Wheat—No. 2 red, white or mixed	81c to 82c outside, nominal

**TORONTO SUGAR MARKET.** Sugars are quoted in Toronto, in bags, per cwt., as follows: 

Item	Price
Extra granulated, St. Lawrence	5 3/8
Imperial granulated	5 1/2
White sugar, current make	13 1/2 to 14 1/2

### ROUGH STOCK FROM WEST

#### Low Prices All Round for Cattle in East—Hogs Down From Last Week.

MONTECAL, Oct. 23.—At the Montreal Stock Exchange west market the receipts of rough stock for the week ending Oct. 21 were 2500 cattle, 2075 sheep and lambs, 2000 hogs and 500 calves. The offerings on the market this morning amounted to 1500 cattle, 2250 sheep and lambs, 1500 hogs and 500 calves. There was no further change in the condition of the market for cattle since last Wednesday, prices being about steady at the decline. The supply was large, which caused a price of 10c to 12c for the north-west; consequently, good to choice steers were not plentiful, for which the demand was fairly good from local and Quebec buyers. The trade in common stock was rather slow, as the offerings were in excess of the requirements.

**Exporters.** E. L. Woodworth bought for Swift & Co. 252 steers for London, 1277 lbs. each, at \$5.00, or a range in prices of \$4.45 to \$5.00; 1277 lbs. each, at \$4.45 to \$5.00; 1277 lbs. each, at \$4.45 to \$5.00; 1277 lbs. each, at \$4.45 to \$5.00.

Market Notes. James R. Davis, 107 1/2, 1st concession Chincoteague Township, will sell by auction between 20 and 40 milch cows, Thursday, Oct. 25, commencing at 1 p.m. The two best loads of grass fed export cattle seen on this market this season, weighing 1000 lbs. each, were brought to the market by McArthur Bros. of Albia, Iowa, and were sold by Rice & Whaley at \$7.

This sale was doubted by some as being genuine, but on making enquiry, we were informed by another buyer who had offered the same price, that the salesman wanted quality, but he did not want this dealer, a buyer for an option firm, said the sale was genuine.

# Hustless Trading in N.Y. Brings No Change in Market Action

## No Inducement to Activity Prices Barely Move in Wall St.

### Slight Recession in Early Trading Followed by a Brisk Rally— Strong Tone to Toronto Market.

NEW YORK, Oct. 23.—Prices barely moved through most of today's session on the stock exchange. The market was dull and listless and trading was light. London sent over a somewhat lower range of prices, and this fact, coupled with moderate pressure from professional traders caused slight recession in the early trading. It was soon apparent, however, that the bears were attracting no following, and that so far as any tendency was observable, were rather in the direction of better prices. The market rallied briskly and held firm until shortly before the close when a final drive eliminated most of the modest gains.

### Steel Orders Unattractive.

United States Steel was again the most active stock and displayed effective resistance to bear attack. The day's trade reports indicated that the reduced prices of steel and iron might stimulate business indefinitely. Incoming orders were said to be smaller than a week ago notwithstanding that prices of many products are almost at the lowest level of a decade. Altho business early in this month showed some improvement, the important construction orders are uncertain whether in September or October will be as large as in September. Purchases of equipment by railroads continue to be far below normal.

### Financials to Testify.

NEW YORK, Oct. 23.—J. P. Morgan, J. F. Hill, E. H. Gary and other prominent business men expected to appear before the committee on interstate commerce at the hearings to begin Nov. 18, in investigation dealing with the trust question.

### Outlook More Encouraging.

The technical situation of the market is satisfactory. Unfavorable elements have been largely discounted. There is a better sentiment in financial circles. Weak spots have been adjusted by a series of irregular recoveries, and the immediate outlook is certainly more encouraging.—Henry Clews.

### Speculative Market.

The stock market, having recorded on Sept. 25 its low level, has now by a series of irregular recoveries, reached an average in active stocks of about 4 1/2 points above the extreme decline. A continuation of this irregular recovery, furnishing a speculative market, during which advantage may be taken of purchases on the decline for moderate profits.—J. S. Bache & Co.

### London Market Easy.

LONDON, Oct. 23.—Money was easy and discount rates were steady, to-day. About \$3,000,000 South African gold was offered in the open market, and most of it was taken by Paris. The stock market was quiet and irregular. Consols, diamond shares, and Rio Tinto improved, but Kaffirs and Chinese bonds sagged, while the movement in home rails was uncertain. American securities were quiet and featureless during the forenoon. Then continental selling caused a decline, but this was followed by a recovery due to Wall-street support. In the late trading prices sagged again, and the market closed easy.

### MONTREAL STOCK MARKET

Irregular Price Movements With Some Recessions in Evidence.

MONTREAL, Oct. 23.—Trading on the local stock market to-day was fairly active, but price movements were somewhat irregular, there being some recessions from the recent pronounced advances. Consistent features of the trading were Cement common, Detroit United, Richelieu and Power.

### BIG MEN ON WALL STREET.

The New York market moved along in its usual plane yesterday, developing absolutely no new features. A downward turn early in the session carried values below Saturday's low levels, but a recovery followed, and this was carried on so successfully that small net gains for the day resulted. The market is a trading affair pure and simple, and shows no signs of breaking out of the rut.

### Henry Clews.

The veteran banker, broker and financial writer, who is one of the best-known men on "the street."

### Charles Head & Co. to R. R. Bond.

Market, which opened slightly lower, slid down in the early dealings, but this was soon followed by a rally, carrying prices up a point or more, and slightly above Saturday's closing. The market still remains narrow, and in the traders' hands; only a few issues being at all active and monopolizing to a great extent the bulk of the business. Stocks appear to be in a light supply and the short interest large and growing somewhat nervous. Closing prices were firm and at near highest for the day. Business was quite light. We still recommend the trading position, and believe stocks, if bought on breaks, will offer opportunities for profits.

# Porcupine Issues Development More Responsible Undertone

## Liquidation Runs Its Course And Porcupines Turn Strong

### Resumption of Upward Trend in Mining Markets, With Sharp Advances Shown—Beaver on the Toboggan.

World Office, Monday Evening, Oct. 23.

Liquidation of the Porcupine issues having about run its course over the week-end, there was ground for improvement in prices in the market today, and this was realized without any apparent difficulty. The early dealings were not convincing, but the list gained ground as the day advanced, and the tone turned decidedly strong before the close of the session.

Interest shifted back to the old favorites again, with such issues as Dome Extension, Vipond, Pearl Lake and Preston East. Some of the active spots. All of these stocks were buoyant, with the exception of Preston, and the advances which were realized were sufficient to give new heart to the bulls, who were somewhat disconcerted by reason of the slump last week.

**Good Demand on the Declines.**

The feature of the market of late has been the excellent buying which has arisen on each and every decline. This public seemingly recognizes the fact that intrinsic values are such that purchases at present prices are highly attractive, and a good deal of quiet absorption founded on this idea is being evolved.

There was nothing doing in the big issues of any account, both Hollinger and Dea holding comparatively steady around their previous levels.

Strenuous buying of Dome Extension carried the shares up three points during the day. The opening sale was made at 73 1/2, and the price rose steadily from that figure up to 75, closing at 74 3/4 bid. There was an excellent demand around that figure at the close.

**Vipond Strongly Tipped.**

A feature of the market was Vipond, which gained nearly three points at 44, on what was taken to be inside buying. The stock has been strongly tipped of late, and it is reported that a movement is imminent. After the close the shares sold as high as 45. Crown Charter was another strong spot, the stock reaching 42 3/4 and closing strong.

Preston was subjected to some belated profit-taking during the day, and under this influence got down below its previous levels, a recession of 2 points taking place. The range for the day was 28 to 30.

A three point decline in Beaver, which sold off to 41 1/4, was the feature of Cobalts. The movement was set down as a bear rally, which aimed at the shaking up of a big interest, but no further details were obtainable. Crown Reserve was strong and higher.

## EXTENSIVE DEVELOPMENT

### Latest Reports From Engineer of American Goldfields Tell Good Story.

The latest reports from the engineer in charge of the American goldfields recently received at the New York office of the company are exceedingly interesting.

On one of the properties, viz. 12308, three large dykes have already been uncovered ranging from 10 feet to 20 feet each. No. 1 is a vertical dyke, 20 feet wide, running due north and south, composed of schist and quartz. No. 2 is a dyke some 10 feet wide running northwest and southeast, with a dip of six degrees to the north, composed of altered porphyry, thru which run two quartz veins. No. 3 is a vertical dyke, 10 feet wide, with a slight dip to the north, composed of north of west, composed of porphyry and quartz.

No. 2 is a very strong vein with distinct walls, and in every case the veins have widened from the surface down as development proceeds. Free gold has been found in the schist, and others are heavy in sulphides, carrying profitable milling values, and in some instances exceptionally high values. The sulphide ores usually show greater consistency and greater values than straight free gold.

On No. 1 vein a shaft has already been sunk to a depth of 35 feet. Rich sulphide ore has been exposed at the bottom of the shaft. No. 3 vein, which shows free gold, has been worked to a depth of 18 feet. On No. 2 vein the shaft is already down to a depth of 50 feet and operations at this shaft are being continued both night and day. Ore of high assay is being bagged daily.

A prospecting tunnel is also being driven to cut the veins. It is the intention of the company to install machinery as operations proceed.

The property is well equipped with necessary buildings, blacksmith shop, carpenter shop, boiler house, office and storehouses, good camp to accommodate a large force of men and was the first company to complete building operations after the fire on the property. The property adjoins the West Dome on the north, and within a few chains of the northwest part of the big Dome. A good wagon road has already been constructed to the proposed T. & N. O. Railway station and the Dome mine, that while not yet operating, a plant good ore is being bagged while preliminary operations are being carried on. A careful study of the location and formation makes it evident that 12308 and 12310 owned by this company are the richest in the ledge which extends from Pearl Lake to the Dome and Dome Extension.

## MAY REOPEN OPHIR.

**COBALT, Oct. 23.**—A party of men was in camp last week looking over the Ophir property in southeastern Coleman with a view to leasing the property for a term of years. The property has been idle since Aug. 15. A large amount of work had been accomplished on the property to that time. There is a 200-foot shaft and a good plant on the property.

## WILL TOUR ENGLAND.

The Winnipeg Business Men's Excursion will go to Great Britain next year. Instead of touring Western Canada as has been done the past two years, the trip was organized two years ago last spring, for the purpose of building up better trade connections thruout the Dominion. It has been eminently successful in doing that, and has resulted in closer friendship between western communities. Now, the same effort is to be extended to the old country and an extensive trip will be made to British trade centres and cities for the purpose of forming a better acquaintance between the business men of Great Britain and those of Winnipeg. The 1912 excursion has already taken definite shape and will follow an itinerary laid down to include these cities: Liverpool, Manchester, Crowe, Wolverhampton, Birmingham, Rugby, Northampton, Dublin, Holyhead, Chester, Cardiff, Sheffield, Leeds, Bradford, Carlisle, Edinburgh, Glasgow, Londonderry, Portrush, Glenties Causeway, Belfast, Dublin, Holyhead, Chester, Bristol and Bath. The side excursion to Dover to Calais and Paris, Cologne, Berlin, Hamburg, Bremen, Rotterdam, Antwerp, Hook of Holland and from thence to Harwich, England, and London.

## RED TAPE AND SAUSAGES.

The ways of the French red tape expert are many and delightful. Here is a French war office story for which the author vouches. A maker of tinned goods who dealt largely with the French war office had invented a novelty. He had found means of putting sausages into tin boxes which preserved them absolutely. Dumanet, the inventor, has a great love for the succulent sausage, and the notion of preserving them was good news for six months to see if they would really keep before any contract is given. He was left at the Rue St. Dominique street-room for six months to see if they would really keep before any contract is given. ## MARKING PLACE OF AN INTERVIEW.

On the terrace promenade at Emu there is a stone inscribed, "13 July 1870, 9 10 Min. Morrens." This marks the exact spot where Wilhelm the most un-Benedict terminated the interview which led the French to declare war. After the Franco-Prussian war Mrs. Edwell, had they named it, would have called it after a friend, Dr. Ass Gray, one of the most noted botanists of America.—Country Life in America.

## DUST LAYING WITH CALCIUM CHLORIDE.

The highway department of the City of Leeds has recently treated portions of a macadam roadway with granular calcium chloride to combat the dust. Solutions of the same had previously been tried at greater cost and without such satisfactory results. The road is first well swept and two applications of the chloride are made, on succeeding evenings, of about one half pound per yard. From personal observation the writer notes the following: July 19, first application; July 20, rain, second application; July 21, dry, breezy day, no dust; July 22, dust; July 23, heavy thunderstorm, very hot weather; August 5, road in good condition, chloride seems to be as binding; August 10, stiff breeze, but no dust; August 14, road still in good order.

## USING CORE DRILLS AT PIPITING DOWN SHAFT TO GET VEINS AT DEPTH

### Proving Up the Veins at Depth Before Putting Down Shaft—Encouraging Results.

**SWASTIKA, Oct. 18.**—(From Our Man Up North.)—The three domes showing up with the surface work on No. 1 vein on the Pike Lake Gold Mines are the first to be prospected underground on this company's holdings.

A core drill is penetrating the No. 1 vein at the depth of 64 feet, and from the results obtained in the drilling, Manager Brown will make his decision relative to the course where the main shaft is to go down.

The first dome uncovered lies near the lake, where a miniature bay swings in to cut the vein, which is the big lead. Along the exposed quartz free gold shows in the seams. The gold appears to be finely sprinkled thru the quartz, rather than in a particular streak. This dome is 220 feet in length. To the east lies the second dome, which will drill should pick up at the depth of 165 feet. The shaft will be sunk near the center of the big dome in a spot to be chosen later. The vein to be worked from the cross-cut from the main shaft.

The heavy mineralized zone in the dome is 20 feet in length, and is two more domes on No. 1 vein. The middle one is 20 feet in length, while the one on the southernly extreme of the lead is 15 feet. To the southeast of this dome a ledge of schist cuts in, separating a two-foot quartz vein from the main dome. The shaft down to the lead takes a severe dip to the south, appearing fairly horizontal in places. The entire zone in which the three domes lie is richly and systematically mineralized.

The surface prospecting on No. 1 claim for this year is nearly completed. The two lead mineral veins have been exposed sufficiently to permit of intelligent underground work, for which elaborate preparations are now being made. And with the shaft down to the 50-ft. depth, following the deep core drilling, the management will be in a position to break appearing to the work definitely. Present showings are very encouraging.

**Prospecting Other Claims.**

No. 2 and 3 claims are partially prospected on the surface. Work by the company did not start till late in the summer, and in getting well over the surface on No. 2, the management has made a wonderfully good record.

The heavy ledge of rock that shows on No. 2 claim, where the two big veins are unearthed, continues to the west across the three other claims, but with but a few feet to hide the run of the formation.

The country rock is principally keowath schist with an occasional streak of granite. The veins are rich in sulphides. In a few instances the strata are filled with granite intrusions. When the shaft work starts, double crews will be employed to make a hurry-up job of it.

Chas. Fox.

## DEMAND IS KEEN FOR CROWN CHARTERED STOCK

### Good Showing on Davidson Property Reflected in Brisk Buying Movement.

Crown Chartered was again a strong feature in the market yesterday, and continued on the upward movement, which set in shortly after the company acquired the Davidson group of claims in North Tisdale. In the neighborhood of 25,000 shares changed hands yesterday, and despite this heavy trading, the stock was firm through selling at 42 1/2, and closing at 42 1/2 asked.

The work at the Davidson property, where the Crown Chartered company is carrying on operations, is progressing with remarkable rapidity. The crosscut from the 100-foot level is already in several feet, and it is expected that the vein will be tapped at any round of shots. The management is confident that the vein is rich in gold, and that the vein will be rich in gold, and that the vein will be rich in gold.

## INSIDERS BUYING.

Concurrent with the sharp advance in Vipond in the local markets yesterday, it was rumoured that the greatly increased demand represented buying for inside account. After the close of the exchange sales were made at high prices, and the Buffalo and the last call in the market.

## BUFFALO AND PORCUPINE.

Ever since Northern Ontario loomed up as a mining centre of any account, Buffalo and Porcupine have been the province with favorable eyes, and there is more evidence in relation to Porcupine than to any of the camps which preceded it.

This was the characteristic of Burton C. West, the well known Porcupine man, who returned from a short business trip to the Bison city yesterday.

"Buffalo is Porcupine crazy," said Mr. West, "and everybody who is looking for a big revival of interest in the new gold camp in the near future. They are better posted there than Toronto interests are, and can give the Canadians a few pointers in sane optimism too."

## THE PRIMITIVE HOMES OF THE EKIMOS.

Furniture is quite unknown in a common Eskimo home, writes the wife of the Canadian Governor of Greenland, Anna Bistrup, in The Century.

The houses of the Eskimos are all built of stone and turf, with the wind blowing from the street, the entrance always being on the side that is least exposed to the wind. Along the back wall, a platform, a part of the floor is raised eight inches above the floor. It is from six to eight feet deep, and thru its whole length it is divided into rooms or spaces of eight or ten feet.

Each room is separated from the neighboring room by a partition of turf or stone. The houses are almost feverish interest by those who have been following the progress of the work on the Davidson for the past six weeks.

## STEAMER STRIKES SHOAL.

Norwegian Vessel is Total Loss, But Crew Aft.

**HALIFAX, N.S., Oct. 23.**—The Norwegian Steamship Halvorden, Capt. Jurulid, struck on a shoal three miles west of Fourch Head, C.B., at 2:30 o'clock this morning. The ship was from southern ports for Montreal with a cargo of nitrate, her cargo consisting of about 6000 tons of this material. The steamer is broken in two, only part of the funnel above water, and she will be a total loss. The crew landed safely.

## LARGEST OAK IN THE WORLD.

So far as is known the largest oak tree in the world, of at least in this country, is the Sir Joseph Hooker oak at Chico, in the Sacramento Valley, California. It is 105 feet high, and its trunk has a circumference of 25 feet 1 inch. It is the California white oak (Quercus lobata) that is peculiar to California, tho it bears a close resemblance to the English oak. The tree formerly belonged to Gen. John Bidwell, a California Pioneer, and was presented to the Town of Chico by his widow. In 1877 Sir Joseph Dalton Hooker, the distinguished English botanist who was then director of the Kew Gardens near London, visited Chico as a guest of the Bidwells, and referred to the tree under the title of the "Sir Joseph Hooker oak," and Dr. C. S. Sargent, Harvard professor of arboriculture, called it by the same name, which was appropriate, since Sir Joseph Hooker had made the tree known to the world; the General and Mrs. Bidwell, had they named it, would have called it after a friend, Dr. Ass Gray, one of the most noted botanists of America.—Country Life in America.

## Eldorado the Buy

Since our personal inspection of the company's three properties we are more than ever convinced that ELDERADO is one of the best purchases in Porcupine. Our predictions are being gradually fulfilled. The company's mine management, with the understanding free gold gives every promise of widening, and continues to rise. The stock is strongly held, and has never fallen below its issue price. We believe that ELDERADO will see a big advance over present prices. When cross-cutting commences we believe the main body will be quickly located.

We buy and sell all Porcupine and Cobalt stocks.

## EDMONTON BECOMING INDUSTRIAL CENTRE

### Peterboro Man, Just Returned From West, Astounded at Progress Of Alberta's Capital.

The World met Mr. H. P. Kennedy, the well-known live stock man of Peterboro, yesterday. Mr. Kennedy returned only last week from a trip to the Canadian west, and while there made an extensive investment in the City of Edmonton. He bought a subdivision in the northeastern part of Edmonton, and a portion of which he is going to offer to the investors of Ontario and the west.

Everybody is surprised at the wonderful growth of Edmonton in the last few years, and it promises to be the greatest city in the Canadian west, west of Winnipeg. It is served by the Grand Trunk Pacific, by the Canadian Northern, and by the Canadian Pacific.

The whole business of northern Alberta settles in Edmonton, and not only has it developed into a great business centre, but it is likely to become a great industrial centre, and Mr. Kennedy is calling his subdivision "Industrial Centre." It lies northeast of the older portion of Edmonton, and is cut in two by the Grand Trunk Pacific main line, and is inside the new city limits. Negotiations are now being made between the Grand Trunk and the owners of "Industrial Centre" for a station, to be known as "North Edmonton," and is inside the new city limits.
