MR. O'LEARY DECLINES IT

B. Carvell's Offer in Public Accounts is Not Accepted

Ottawa, Jan. 21.—(Special)—Richard O'Leary was the first witness in the public accounts committee this morning and his chief effort was to explain that his memory had been defective. "I had entirely forgotten about this letter," he said, when shown the document he gave Waterbury in 1904, offering to sell smaller sections of the wharf property, recently purchased by the government, for \$1,000 and \$500. Then he began to recall circumstances and seemed to have an admirable recollection of his talk with Mr. Waterbury and of many real estate transactions and bargains he had obtained from the George Meade estate, evidently to show that the auditor what was not worth any more than he sold it for. He claimed that the resident engineer had altered the plan of the government property during the Christmas vacation so as to include that portion of the beach where his employees had taken gravel from. The outside value of thirty or forty loads of gravel he took was not more than \$5. O'Leary gave the government the description called for seven and four fifth acres with 720 feet frontage and he said he did not think it made much difference about the quantity of land but the offer he made to the committee in December and that was the property sold to the government. He asked leave to give an explanation respecting the difference in the letter he had written to the committee in December and that sent to Dr. Pugsley. He said that he had his letter book with him and that the letter copied there was the same as what he read to the committee. The only way in which he could account for the difference in Dr. Pugsley's letter was that he must have dictated two letters, not being satisfied with the first one, he dictated another, which was copied in his letter book and yet the young lady who was his stenographer must have sent the first letter to Dr. Pugsley. That stenographer was not with him now. The letter in his letter book, however, was not signed but that sent to Dr. Pugsley was. Sometimes he signed his letters before they were copied and sometimes afterwards. There was general laughter at this, and the explanation was over. O'Leary was examined further by F. E. Carvell, M. P., and created much amusement by saying that, while he stated his property was not worth \$2,000, he had valued it higher now since the minister had returned \$5,500 for the sawdust wharf. "O'Leary," said Mr. Carvell, "Will you sell me that wharf for two thousand dollars?" "Not today." "Will you sell it for \$2,000?" "No, I will not. I will sell it to you later, but not here."

AGRICULTURAL SOCIETY MEMBERS DINE

Enjoyable Time in Hampton Village Hall Last Evening—175 at Table

Hampton, N. B., Jan. 21.—(Special)—The Hampton and Central North Agricultural Society held their annual supper last evening in Agricultural Hall, Hampton Village, and some 175 enjoyed the meats provided. James A. Floyd, president of the society, introduced a round of speakers who magnified the privileges and advantages of the farming interests with occasional references to the manufacturing and mercantile relations of the town and country. Addresses were delivered by Rev. Dr. J. Roy Campbell, Ormond W. Wetmore, of Clinton, Rev. E. J. Grant, E. A. Schofield, of "Albion Farm," Councilors Flewelling and J. Wm. Smith and George E. Stratton. Mr. Schofield intimated that the Hampton Cheese and Butter Factory, which has been out of business for some time, might be again opened and carried on with satisfactory results. J. W. Smith deprecated the too prevalent disposition of farmers and farmers wives to send their money for dry goods and other household requisites of the country to firms outside, instead of purchasing their supplies of merchants at home or in St. John, a loss to the community, which Mr. Flewelling also deplored. The occasion was very enjoyable and successful, the presence of a large number of ladies, and music by the Hampton Cornet Band adding much to the interest. The comet was seen by many persons here.

FOOTWEAR LIKELY TO COST MORE

Ald. Hayes and E. L. Rising, Bring Word Home From Conference Boot and Shoe Men Talk Over Situation—No Definite Increases at Present But Tendency is in That Direction, Says Mr. Hayes

That the tendency is towards an increase in prices of both leather and rubber footwear is the pith of a statement made yesterday by Ald. R. T. Hayes, of J. M. Humphrey & Co., who with E. L. Rising returned from Montreal where they had been attending a conference of the wholesalers with reference to prices.

Ald. Hayes was careful to say that nothing was certain, but all indications pointed upward though a rise should there be, would not be felt at once.

They said that he had been visiting the markets and talking things over with others. With regard to leather shoes there had been a small falling off in prices but if heavy leather and calf held as firm as at present prices must go up.

Regarding rubbers, there had been a lot of press notices that there had been fabulous earnings on common stock. But no one who had inside information, he said, believed that the earnings were nearly as great and these stories had been started by stock brokers to boost the stocks.

They told that fifty million dollars worth of rubber would be used for auto tires this year so that the auto trade would control the business.

COMMONS AND BRANCH RAILWAYS

Parliament Passes the Bill; Some Criticism by Hon. Mr. Emmerson

Endorses Principle of Bill But Not Its Workings—Fears Groundless Says Dr. Pugsley—W. S. Loggie Heard in Budget Debate

Ottawa, Jan. 20.—This was a New Brunswick day in the commons. Mr. Emmerson spoke on the Intercolonial branch line bill, criticising and commenting. The measure got its third reading and was referred to the committee on the bill.

On motion for the third reading of the branch line bill, Mr. Emmerson said: "The matter of branch lines was one of paramount importance, solving one, at least, of the transportation problems of the Dominion. The people of Ontario and other provinces should be as much interested in the subject as people of the maritime provinces."

He believed that if the I. C. R. had been owned by a private company there were some branch lines that would have been taken over long ago. But there also were some branch lines that no trunk line would take over at any price.

He believed that the bill would result in bringing to a successful completion of a policy which he and Mr. Emmerson and many others in New Brunswick had for years advocated and that most beneficial results would follow not only to the country served by the I. C. R.

Mr. Borden warned Mr. Graham not to be too hasty in entering into any such arrangement as that suggested by the minister of public works.

Mr. Loggie dealt with the question of taxation. Mr. Loggie quoted from the trade and commerce report to show that in 1898 there was collected on all the imports passing through the customs of Canada \$2,130,000 worth of goods, while in 1909 the amount collected was only \$1,618,281, a reduction in the rate of taxation of \$2,250,000 worth of goods.

Mr. Loggie also pointed out that the rate of duty per capita had been reduced from \$30.87 in 1896 to \$45.32. Mr. Loggie had not concluded when the house adjourned.

Mr. Emmerson claimed that the branch lines were doing in some measure the work that was expected of them. The manufacturers of Ontario had been benefited by the Intercolonial in obtaining access to the markets of the maritime provinces.

By promoting the absorption of branch lines, the government would improve transportation facilities and enable the people of Ontario and Quebec to place their wares at the terminus in the maritime provinces along these branch lines.

It was not a financial surplus on the Intercolonial which went into the treasury there was a profit in the pockets of the people. Did those who talked of deficits in the Intercolonial know that every year, for many years, the C. P. R. operating in the maritime provinces east of the St. Lawrence had had a deficit varying from \$200,000 to \$1,000,000?

By one objection was the taking over by the C. P. R. of the Tobique railway. In that case before absorption the bonds could not pay interest. Now it was paid regularly and there was sufficient to give a dividend on the common stock.

Reverting to the conditions in the bill, Mr. Emmerson pointed out that the roads had to be put in a good condition the government would be powerless to act, and if they desired to act the branch companies might not be in a position to improve their lines.

He appealed to the minister of railways to take into consideration the features which made the bill inoperative. The policy could not have these branch lines so soon. They could be taken over on the basis of a division of earnings. While gladly accepting the principle of the bill, he hoped it would be amended.

Hon. Mr. Graham Hon. Mr. Graham, in replying, said he would not deal with the bill. He would have something to say about it later and he hoped to be able to show many favorable sides to the public-owned railway of the Dominion. He agreed that the people of Ontario had received marked benefits from the I. C. R. and he had

tried to frame a bill so that it would meet with the approval of the people generally. He did not admit that the government lacked courage. He thought the government had shown considerable courage in taking hold of the question in the way it had.

Speaking of the conditions in the bill, Mr. Graham submitted that the board of management was the safest and best advisers in a question of that kind. As to the question of not taking over the lines until they were in good condition, it had to be remembered that the whole country was not unanimously in favor of taking over the branch lines without such restrictions.

He believed that if the I. C. R. had been owned by a private company there were some branch lines that would have been taken over long ago. But there also were some branch lines that no trunk line would take over at any price.

He believed that the bill would result in bringing to a successful completion of a policy which he and Mr. Emmerson and many others in New Brunswick had for years advocated and that most beneficial results would follow not only to the country served by the I. C. R.

A HINT TO LADIES WHEN SHOPPING

If you wanted anything badly, and when you got to the store were persuaded to take something else instead, when you came away wouldn't you feel a little disappointed? As if somebody had got one over you—and not for your benefit, mind, but for their own profit?

And when you moved to the something which was represented as being "just as good" as what you asked for, was not as good—was not to be compared with the real thing, wouldn't you feel still worse?

This is just the case about Zam-Buk. Like all good things it has many imitations. When buying it just as for Zam-Buk, and see that you get it. The name is protected by a clearly seen cloud on each packet. Don't have anything else! Then you won't feel that somebody has made a few extra cents out of your lack of foresight.

COMET SEEN HERE

Soon after dark last night thousands of people in this city saw, in a clear, starless, clear, a comet, which remained visible for nearly an hour and more than thirty minutes. The sight was one of great interest and during the early evening seemed to be the chief topic of conversation about the streets.

The sight was one of great interest and during the early evening seemed to be the chief topic of conversation about the streets.

The Open Door for Consumption

A low run-down condition, with perhaps a neglected cold and a little cough, is a cordial invitation to the White Plague, Consumption, to come in and make itself at home. If it is not overlooked the invitation.

In such a case there is no time to be lost. The door must be promptly closed. This can be done by taking a complete rest, with plenty of fresh air, and Father Morriory's No. 10 (Lung Tonic). This medicine clears out the passages, relieves the cough and heals the delicate membrane of lungs and air passages. But perhaps most important of all, it builds up the whole system, giving Nature the needed assistance in fighting off the dread disease.

Though other remedies may have failed, don't give up. Try "Father Morriory's No. 10," combined with fresh air and exercise, and even though you are in the first stages of consumption there is hope of a permanent cure. Sample bottles, etc. Regular size, 60c. at your dealer's, or from Father Morriory Medicine Co., Ltd., Chatham.

BOLD BURGLARIES OF DIGBY'S HOUSES

One Ransacked in Daylight During Few Minutes' Absence of Occupants—Three Tramps Suspected

Digby, N. S., Jan. 20.—Three suspicious looking tramps have been around Digby for the past few days. Tuesday night A. D. Bonnell's summer residence at Hurricane Point was broken open and things more or less disturbed from the basement to the attic, but as far as the keepers are aware nothing was stolen.

This morning between 10 and 11 o'clock while R. C. Smallie's home at the Racquette was left unoccupied for about 20 minutes it was entered by some one who turned things upside down generally and got away with \$60 taken from Capt. Smallie's room and \$6.10 taken from Miss Anne John's pocketbook in the dining room.

Mr. and Mrs. Smallie's room was evidently searched but nothing is missing, the thieves not taking Mrs. Smallie's watch or jewelry, they simply seeking cash only. In Capt. Smallie's room beneath some receipts and other papers was another sum of money which fortunately escaped their attention.

Mrs. Smallie had gone in to see a neighbor and the girl had only been out a few minutes. The burglars must have been watching the premises very closely in order to have made their visit and exit just at the right time. Chief of Police Box has the matter in hand and left Digby on today's west bound express, going as far as Jeddore, where he did not fall in with the suspicious ones, although arrests are liable to be made, perhaps where the public least expects.

UNIONISTS ARE CHEERFUL

(Continued from page 1.) The scene was splendid and historic. The actors who people the scene were prosaic figures whose whoops over each unexpected Unionist success inspired partnership patriotism and at the National Liberal Club disaster fell upon the enthusiasts who imagined there would be nothing to do but mark up the figures of Asquith's growing majority. Independent of the Nationalists' vote the declaration of the Liberals' pollings encompassed the Liberals with gloom which was not dispelled by the inebriated returns received last night. Asquith still had his abode at the club at an early hour this morning.

THEIR GAME SPOILED

Acting upon the theory that Hon. Dr. Pugsley must be discredited and destroyed as a political factor before they can hope to gain any success in this province, the blind leaders of the Conservative remnant continue to pursue the minister with fatuous persistence, to their own discomfort.

The Richibucto wharf is a case in point. Setting out with the assumption that there must be something wrong about it, and that the minister must be the chief offender, they raised a great outcry and heralded misleading news through the length and breadth of the country. A matter involving the purchase of a wharf for a sum less than its value was seized upon, and the facts distorted, the motives of the minister and government officials challenged, and an attempt made to create a general impression that a theft had virtually been committed. Mr. Crockett was the chief opposition conspirator. The smaller item, the leader of the voice of Mr. Crockett in challenge and denunciation. But the facts have come out. The attempt to blacken the character of the minister has failed. A lot of time has been wasted, and much space in the Conservative newspapers given up to reckless denunciation, which is now fully exposed. The gentlemen who come off badly in this affair are Mr. Crockett and Mr. O'Leary, while the St. John Standard adds another to its dreary list of lost causes.

BOURASSA AND OTHERS

Mr. Henri Bourassa is endeavoring to arouse prejudice in the minds of French Canadians against the proposed Canadian navy. Mr. Bourassa is a clever man, and his friends had hoped that as time passed he would see the folly of the course which, as a young politician, he had pursued. Neither in federal politics nor in provincial politics Quebec has been able to make a lasting impression, and his present course can only arouse a flame that will be better extinguished.

Mr. Bourassa directs his attack against Sir Wilfrid Laurier, but includes Mr. R. L. Borden in the sweep of his condemnation. He would have it that Mr. Bourassa is the real savior of Canada, and that these others are false prophets and unsafe leaders. He is opposed to a Canadian navy. He is opposed to Canada taking any part in the defence of the empire, for he appears to object to Sir Wilfrid Laurier's assertion that when England is at war Canada is at war.

SUDDEN DEATH OF CHATHAM MAN

Walter F. Coughlan Dies While Daughter Answers Call at The Door

Chatham, N. B., Jan. 21.—(Special)—Death came suddenly on Wednesday to Walter F. Coughlan, a life long resident of Chatham, and a man deservedly esteemed and respected. He had been complaining of a pain in his chest for a few days, but nothing serious was anticipated. On Wednesday about noon, when his daughter, Mrs. Walter McNeil, with whom he had been living, left him in his room in bed to answer a call at the door, he was seemingly in very good health, but when she returned a few minutes later he was dead. Heart trouble was the cause of his death. Mr. Coughlan was sixty-five years old; born in Loggieville, a son of Peter Coughlan. A few years later the family moved to Chatham, where he learned and followed up the trade of ship caulker and carpenter. He had also made a few trips to sea. He was an energetic and industrious citizen, almost up to the time of the final call. Of a kindly disposition, he had made many friends, who heard with deep regret of his death. The funeral will be held tomorrow morning at the cathedral at 9 o'clock. Mr. Coughlan is survived by Peter and Walter of Chatham; Daniel and Charles of Rumford Falls, Me.; and Mrs. Walter McNeil of Chatham. Charles Coughlan is expected to arrive from Bumford Falls today.

VERY TRUE. Jiggs—That was a fine banquet the Lumber Exchange men had last night. Wiggs—No wonder. Each guest was a board expert.

part of the empire, that is rich and strong enough to do so, has its own fleet upon the seas, built, managed and paid for by its own people, but under the supreme command of the sovereign when needed for the defence of the empire. To those persons, who have for many years looked forward to the day when the over-seas dominions would assume the share of the imperial burden, it cannot fail to be a source of profound satisfaction that the leaders of both the great political parties have declared themselves in favor of a line of policy which is designed to give effect to this principle, and although the Colonialist has fought and is prepared hereafter to fight the battles of the Conservative party, it does not hesitate to say that the satisfaction it feels as a Canadian newspaper is not lessened by the fact that the naval bill, whereby a beginning has been made in this truly imperial policy, has been introduced into parliament by a premier from Quebec. The significance of this fact will not be lost upon the nations of the world.

"The principle having been settled, the rest is a matter of detail. Mr. Borden thinks that the naval programme of the government is inadequate, and there are many people in Canada who will agree with him. Sir Wilfrid Laurier need not have hesitated to ask for more than he has requested parliament to grant; but after all c'est le premier qui compte, and next year perhaps we may look for a plan of naval development more in keeping with the needs of the empire and the ability of Canada to do her share towards meeting them. The vessels, which it is understood will be constructed, will be neither numerous nor powerful, and we are glad that Mr. Borden, while endorsing the principle of the bill, has placed his party in such a position that it is free to advocate a more extensive programme than is now proposed. Until the full details of the proposed expenditures are at hand criticism of them would be premature, and it would be out of place at a time when we are able to congratulate the people of Canada that parliament seems to be a unit in support of the assumption by the dominion of its share of the burden of empire."

The aldermen who were so severely scored by the recent commission of enquiry are not seriously disturbed. Nearly all of them are candidates for re-election.

Hampstead has spoken on the question of the St. John Valley Railway, but Mr. Hazen is still silent. He will find his voice presently, and it may sound a new note. The people want the railway, and will insist upon a more vigorous policy than the provincial government has thus far pursued.

The English colonies afforded the surprise in the British elections yesterday. The situation grows more and more interesting. The results yesterday were in favor of the Unionists, and would suggest that after all it may be a chastened and somewhat less radical government that will finally emerge from the contest.

Hon. Mr. Emerson's criticism of the government's branch railway policy will effect that it does not go far enough. He would apparently have the government take over all the branches at once, and put them in good condition, no matter what state they may now be in, and without regard to traffic possibilities. The policy would of course be popular in the districts traversed by the several branches, but would involve large expenditures, and no doubt meet with much opposition in other parts of Canada. The government has taken the initial step, and may fairly be trusted to pursue a policy in the general interest. There will be no more delay than is necessary, and the various localities will be fairly treated. This was made clear from the remarks of Hon. Mr. Graham and Hon. Dr. Pugsley.

The executive committee having in charge the arrangements for the simultaneous religious campaign to be held here for three weeks commencing Feb. 7, met last night in St. Andrew's church parlors, with Rev. THE LAND OF "PRETTY SOON" I know a land where the streets are paved With the things which we meant to achieve; It is walled with the money we meant to have saved And the pleasure for which we grieve. The kind words unspoken, the promises broken, And many a coveted boon, Are stowed away there in that land some where. The land of "Pretty Soon." There are uncut jewels of possible fame Lying about in the dust, And many a noble and lofty aim Covered with mold and rust. And oh, this place, which it seems so near Is farther away than the moon; Though our purpose is fair, yet we never get there. The land of "Pretty Soon." The road that leads to that mystic land Is strewn with pitiful wrecks; And the ships that have sailed for its shining strand Beaten about on their decks. It is further at night than it was at dawn, And further at night than the moon; Oh let us beware of that land down there— The land of "Pretty Soon." —Selected.

IN LIGHTER VEIN "I'm in a pretty fix, I can tell you," said my neighbor as he sat on the end of the last term, "I wrote to my father the other day, giving him a list of the books I urgently needed, and asking him to send me a few to help me out. 'And didn't he' asked the pal. 'No; he sent the books.'"

MAD GAME OF PATRIARCHS. An old bachelor farmer and his housekeeper in the parish of M— were sitting one evening at family worship when the housekeeper, who was rather shortsighted, began thus— "And Jacob begat the twelve patriarchs." A HIGH FINANCIER. Little five-year-old Elmer received a dime for taking a dose of castor oil. The next day his big brother Fred asked her to pick up a basket of eggs. WOULD KEEP TAX RATE DOWN TO \$1.90. At a meeting of the bills and by-laws committee of the common council last night it was decided to recommend to the council for the next five years, the tax rate should not exceed \$1.90. The rate this year will be about \$2.10. Considerable discussion arose on certain proposed changes in the city court act. It was unanimously agreed that attorneys should not be held immune from a suit in the city court, as is provided in the present act which also states that no claim exceeding \$80 can be tried in this court. The committee agreed that this amount should be raised to \$100. Work is to begin at once on the remodeling of the immigration building at Sand Point, for the better handling of immigrants, who are detained for lack of funds or for other reasons. They are at present in such cases quartered in the Martello hotel, or detention hospital.

JUDGE FORBES' ADDRESS A BRILLIANT ONE.

His Honor Judge Forbes has returned home after attending the centennial services of the Merrimack Bible Society at Newburyport, Mass., on Sunday last. The services were held in the Old South Presbyterian church and addresses were delivered by Rev. C. M. Southgate, president of the Massachusetts Bible Society; Edmund T. Garland representing the Maine Bible Society; Rev. H. C. Hovey, president of the Merrimack Bible Society, and Judge Forbes. In referring to his honor's address the Newburyport Morning Herald says: "The congregation then sang 'God Save the King' which was followed by a brilliant address by Hon. J. Gordon Forbes, of St. John, N. B., and the vice-president of the British and Foreign Bible Society. Mr. Forbes was introduced by Dr. Hovey. The speaker first thanked the congregation for paying such a tribute to his king by the singing of his national song. Judge Forbes' address. He then said: 'Do you realize that about seventy-five per cent of the mission work done in foreign countries is carried on by the Anglo-Saxon race? What great studies will be accomplished in the future depends upon you?'

After congratulating the president of the society for his great work he spoke at some length on the history of the society that he represents. 'Our society,' he said, 'was established in 1804, six years previous to yours, and at that time the needs were so great and pressing that in a short period they grew from a few to a great many. In 1804 the society raised \$400 to carry on its work, while last year the income was about \$2,000,000. 'Over \$500,000 was spent last year in order to translate the Bible into foreign tongues by experts. Last year the Bible was translated into six different Hindu and African languages. See what a wonderful work is being done. Natives of these countries, who twenty years ago knew no other language but their own, are now reading the Bible, been brought under the power of Jesus Christ. 'Last year there were 5,330,000 Bibles and certain of its selections printed, and during the history of the society 250,000,000 have been published. The Bible is printed in 418 different languages. The speaker then took up the question of the foreigners and how they must be looked after and brought into the Sunday schools and there taught the English language so that they will be able to study the Bible. Mr. Forbes told how eagerly the Italians are to get this knowledge as well as many other new comers to our shores. The first thing they ask for is the Bible which they have learned of through their friends who have preceded them. He closed his address by making a direct appeal to all to help in this great work and in so helping others, help ourselves.

The Sternal Question WHAT BREAD?

The question "what pi?" arises but once a day. "What breakfast food" but once also; but "What Bread?" is an eternal question that confronts the housewife every time the snowy tablecloth covers the festive board.

An answer to "The Eternal Question" may be found once and for all in the magic words "Butternut" Bread.

"Butternut Bread is a favorite bread because it is a flavor-right bread." The palate refuses to forget that sweet nutty flavor.

MORE PRONOUNCEMENTS FOR VALLEY RAILWAY

Hampstead, Jan. 20.—A meeting in the interest of the St. John Valley railway was held here tonight and amid great enthusiasm a resolution was unanimously adopted calling upon both governments to take early action.

More than 300 people were present, including strong delegations from the St. John, St. John's, and St. John's West, and all expressed the conviction that united action now by people all along the valley will lead to definite action and early construction.

Bayard Slipp was chairman of tonight's meeting, and among the speakers were S. L. Peters, H. W. Woods, Rev. Mr. Coffey, Morris Scovill, T. Sherman Peters, Sheriff Williams, Isaac P. Carpenter, H. H. H. McLean, Thomas Macpherson, A. H. Slipp, Alfred McAlpine, Wm. Howo, T. Inch and Samuel Beckett.

Mr. Peters read the letter from Col. H. H. McLean which was read at the Gagetown meeting, in which he said the federal government would take the matter up at once if the local government would furnish the information about the character of the road for which Dr. Pugsley had asked. The letter was greeted by warm applause.

Andover, N. B., Jan. 19.—The board of trade of Victoria county held its annual meeting last evening in the court house. In the absence of the secretary, G. G. Porter, who is at present in Cuba, G. E. Baxter was chosen secretary pro tem. The following officers were elected for the ensuing year: J. F. Tweeddale, president; D. Earle, vice-president; G. G. Porter, secretary; F. D. Sadler, treasurer. The committee appointed to inquire into excessive freight rates and dangerous railway crossings asked for an extension of time.

The following resolution was moved by James E. Porter and seconded by Dr. Earle: "We, the members of this board of

Liberal Majority May Not be Enough to Dominate All Combinations

Conservatives Are Feeling More Jubilant But The Liberal Leaders Express Confidence—Nationalists and Laborites May Hold The Balance of Power

London, Jan. 20.—Premier Asquith, speaking at Ladybank, Junction, tonight said he was not going to say anything until the situation was more developed, except to repeat "that with the exception of Birmingham and Liverpool and one or two other isolated cases, the whole great centres of industry had given an emphatic verdict in favor of free trade."

Heckled as to whether he would accede to Redmond's demand for separation, Mr. Asquith said he did not believe there was such a demand, at any rate he would accede to it.

At Bangor the chancellor said: "I am quite confident about the result. After all, the standard of 1906 is quite an abnormal one and under no possible conditions could we expect to keep quite up to that standard judged by the standard of 1905 and the Unionist victories in 1906 and 1909. We shall have a very good working majority."

London, Jan. 20.—Elections were held today for 47 seats, one in London, three in English provincial boroughs, 26 in English counties, eight in Scotland, three in Wales and six in Ireland. Reports from only twelve of these were received tonight.

The old-fashioned English county people, with their rock-ribbed conservatism and their reverence for the nobility and their prejudices against the new-fashioned Socialism, were heard from today in the elections, and they gave a decided boom

Dr. Wood's Norway Pine Syrup.

It contains all the virtues of the world famous Norway pine tree, combined with Wild Cherry Bark and the soothing, healing and expectorant properties of other excellent herbs and barks.

Mr. John Felch, Windsor, Ont., writes: "I was troubled with a nasty hacking cough for the past six months and used a lot of different remedies but they did me no good. At last I was advised by a friend to try Dr. Wood's Norway Pine Syrup and with the first few doses I found great relief and to-day my hacking cough has entirely disappeared and I am never without Dr. Wood's Norway Pine Syrup in the house."

The price of Dr. Wood's Norway Pine Syrup is 25 cents per bottle. It is put up in a yellow wrapper, three pine trees the trade mark, 90 cc pure and accepted none of the many substitutes of the original Norway Pine Syrup.

BENGORE HEAD, BOUND HERE, ADRIFT, HELPLESS

St. John's, Nfld., Jan. 20.—After towing the disabled head line steamer Bengore Head since last Sunday, the Allan line steamer Pomeranian lost her pier seven miles off here this afternoon, when a third hawser broke. The Bengore Head is now adrift, helpless.

Three steamers left St. John's today, the Woburn, Beothic and Bonaventure, to cruise about the coast in search of the crippled freighter. The Pomeranian secured a new hawser here and then immediately left in an effort to save the helpless steamer also.

The Pomeranian, with passengers and freight aboard for Havre and London, left St. John (N. B.) on Jan. 12, and sailed from Halifax two days later. The Bengore Head loaded a cargo of freight at Maryport (Eng.) and sailed from that port on Dec. 27 for St. John (N. B.). She carries no passengers. Her crew consists of about forty men.

On Sunday, when two days out from Halifax, and off the Virgin Rocks on the Newfoundland coast, the Pomeranian sighted a steamer flying distress signals. The craft proved to be the Bengore Head.

Was Weak and Nervous.

Mr. Paul Paul, Cacapevia, Que., writes:—"About five years ago I gave up all hope of getting better of heart trouble. I would nearly choke, and then my heart would stop beating. I could not lie on my left side, and became so nervous and weak I could not work. A friend told me to try Milburn's Heart and Nerve Pills, and before the first box was taken I was almost well, and the second box completely cured me. I have advised many others to try them, and they have all been cured of the same trouble. I have offered to pay for a box for anybody they do not cure."

Milburn's Heart and Nerve Pills are a specific for all diseases or disorders arising from the heart or nerve system. They make the weak heart strong and the shaky nerves firm by imparting a strengthening and restorative influence to every organ, and tissue of the body and curing palpitation of the heart, dizziness, sleeplessness, anemia, twitching of the muscles, sensation of "pins and needles," general debility, lack of vitality, etc.

Do You Realize What it Means to Buy Oak Hall Overcoats at One-Half Oak Hall Regular Prices?

These Overcoats are few of a kind left from the heavy selling during the past four days of our Mid-Winter Sale, and will be sold at 1-2 Their Original Prices.

To fully realize the startling importance of this opportunity you must understand why Half-Price at Oak Hall means so much more than half-price anywhere else.

As makers of the clothing we sell, we sell to you directly at practically the same prices other stores pay at wholesale. For instance, an overcoat for which other stores pay \$12.00 wholesale and for which they charge \$15.00 at retail can be bought from us for \$12.00 in the first place. Now, if any other stores reduce this overcoat to "half-price" its cost to you would be \$6.00, but when we reduce it to "half-price" all you have to pay us is half of \$12.00 or \$6.00. And so it goes right through the line.

You can understand therefore why buying Oak Hall clothes at half-price generally means buying at 33-1/3 cents on the dollar according to other stores prices.

Plenty of wearing time ahead for these Overcoats. So it will pay you handsomely to invest in this proposition. Now as to the Overcoats themselves:

The American Excess Of Good Living

The Principal Cause of the Great Prevalence of Indigestion and Dyspepsia.

A Trial Packet of Stuart's Dyspepsia Tablets Sent Free

Man inhabits every part of the globe where external influences can be successfully resisted. Food is an important element in effecting this, and nature has provided for it accordingly.

The effects of modern civilization are nowhere more obvious than on the luxuriant table. To furnish the refined cuisine, all climates, both sea and land, are laid under contribution, and the stomach is expected to digest, without assistance, everything that is put into it.

Thousands of people who have suffered from stomach troubles, and a general ill-health resulting therefrom, because of a badly regulated diet, and the ingesting of an excessive amount of food at the table, have obtained speedy and permanent relief by means of a simple expedient—that of using one or two of STUART'S DYSPEPSIA TABLETS after each meal, or whenever any of the well-known symptoms of indigestion are present.

These powerful digestive tablets contain every element that exists in the stomach to digest food, and in the exact proportion as found therein. They take the place of the natural digestive juices when these are deficient in quality or quantity, and do their work for them, removing the indigestion by digesting the food, and restoring strength and purifying the digestive tract.

There is no other digestive remedy on the market which has been found equal to Stuart's Dyspepsia Tablets; none which is so rapidly and powerfully efficient, or which removes discomfort, banishes stomach pain, and relieves and cures all of the symptoms of dyspepsia and indigestion in so thorough and pleasant a manner as these marvelous little tablets, a single grain of which is capable of digesting 3,000 grains of any and every kind of food.

All persons who are annoyed with stomach trouble of any kind should use Stuart's Dyspepsia Tablets, which will remove such troubles in a very short time. Purchase a box from your druggist, and send us name and address for free trial packet. Address F. A. Stuart Co., 159 Stuart Building, Marshall, Mich.

ATTACKS SIR WILFRID AND BORDEN

Bourassa Says They Are Violating Rights of Parliament and People

FLING ALL AROUND

In Montreal Speech He Demounces Canada's Naval Policy and Says if England and Germany Came to Blows England Would be Blame

Montreal, Jan. 21.—(Special)—Henri Bourassa, the Nationalist leader, speaking here last night, made an attack on the government's naval policy, which he denounced altogether, while giving Sir Wilfrid Laurier credit for sincerity. The address, which was delivered in the Monument National, was listened to by an audience of more than 2,000, who were apparently in sympathy with the speaker's utterances.

Mr. Bourassa claimed that the proposed naval measure would entail enormous expenses upon the country, and that Sir Wilfrid Laurier's estimate of the cost was altogether astray. Mr. Bourassa denounced the measure from beginning to end, and accused Sir Wilfrid Laurier of violating the rights of parliament and of the Canadian people, and said that Mr. Borden was aiding him. While he respected Sir Wilfrid's views, he said that he would put against them the opinion of such a man as Sir William White, and quoted from him to show that the cost of naval construction was over on the increase.

Regarding the constitutional aspect of the question, Mr. Bourassa declared that the ministerial papers were misleading the public when they claimed that the fleet was for the protection of the Canadian coast. He quoted from Rt. Hon. Mr. McKenna, first Lord of the Admiralty, to show that such a fleet as proposed would act in harmony with the British admiralty, and also quoted Sir Wilfrid Laurier as saying that when England was at war Canada was at war. Mr. Bourassa added that Great Britain did not need Canada's help and did not need it.

Mr. Bourassa ridiculed the so-called German peril and again quoted from Sir William White that there was nothing in the world that was more certain than that England had brought it on herself by a century of diplomatic mistakes.

Referring to Sir Wilfrid Laurier's statement that the United States was the enemy, Mr. Bourassa declared that if England got into a war with the United States she would not be able to defend Canada, but as England could not and would not make war on the United States the proposed fleet would be both useless and ridiculous.

Mr. Bourassa further accused Sir Wilfrid Laurier of having violated all his previous anti-imperial utterances, quoting from his previous speeches, and in conclusion he declared that the question of naval construction should be submitted to a plebiscite.

Allan B. Stanbury, aged 33 years, better known as "Rock" Stanbury, one of the best known horsemen in this country and Canada, died at Baltimore Wednesday. His death was caused by internal injuries, which he sustained about a year ago by being kicked in the ribs by a horse he was training at Fort Erie track. Mr. Stanbury was formerly a jockey and horse trainer, and was the owner of Solon Single, one horse which carried off barrels of the Pimlico track two years ago, and which won some 30 odd races, having made a record of 1:28 1/4 for the mile. Mr. Stanbury was training at Fort Erie track, and was recently offered \$10,000 for the horse. He was also the owner of Sparkling Wave, while a jockey Mr. Stanbury rode for Martin Jordan and N. K. Beach, and was mostly associated with Patrik Gallagher, the millionaire horseman of Philadelphia.

Tris Speaker, who has not signed a contract for 1910 which may mean that he feels it isn't necessary to hurry in the matter after having had his talk with the club's owner after the season ended.

The new form of contract in vogue in the American League, calling for twelve months' service has not been sent to all players. Those who had signed up prior to its issuance will not be sent the new form, their contracts having been accepted and approved by President Ben B. Johnson.

Charles (Deacon) Phillippi, the veteran pitcher of the Pittsburgh baseball club, thinks he is good for still another season, for his contract for 1910 has been received at the club headquarters with his signature attached. Barney Dreyfus has signed the contract with the term note, "if you think you can deliver the goods, sign this and return it."

Johnnie Kling, Cub catcher, who is under the ban of the National Commission, is expected to get back to the harness and play ball. He is hopeful that he will be reinstated and that Manager Chance will trade him to the Cincinnati Reds.

Hockey Albert Kerr, of the Ottawa hockey team, is in a serious condition in Ottawa, as the result of injuries received in the national game in Montreal. His right eye is blind, and two operations have already been performed with a view to restoring the sight. It is feared that he will lose the sight of the injured optic, but Mrs. President Bate, of the Ottawa club, has offered that no expense be spared.

Kerr's sight will be saved, if it takes all this year's receipts of the Ottawa hockey club to do it," said Mr. Bate, "and he will not play hockey again until his eye is perfect."

Bankers Out In Earnest. The Bankers are believers in the old saying "better late than never," and judging from the way in which they transacted business at their meeting last evening, it looks as though the St. John public will yet be treated to some fast games of hockey. Everything is now in readiness and Friday, Jan. 21, will see the opening of the league. The president, Blake McInerney, presided at the meeting last evening and there were present delegates from the Royal New Brunswick, Montreal, Nova Scotia and British North America banks. All these will be represented in the league, with the Bank of Nova Scotia and British North America playing together. Nothing definite was done in the way of selecting a referee for the games, but it is understood that among others, Ralph Parker will be asked to act.

The following is the schedule of games that has been drawn up: Friday, Jan. 21—Royal vs. N. B. Wednesday, Jan. 26—N. S. & B. N. A. vs. Mt. Union. Saturday, Jan. 28—Mt. Union vs. Royal. AMUSEMENTS FOR OURSELVES AND OTHERS

BIOGRAPH, EDISON AND BRITISH FILMS AT NICKEL.

Today at the Nickel there is to be another of the ever-popular Biograph pictures, a story of the west entitled The Dancing Girl of Butte, something of the days when the Montana capital was considered a "boom" town. All the Biograph favorites are in the cast and several new players. Indeed the leading female part is taken by one of the latest additions to the company. Forging still further to the front the Nickel has added the great Edison films to its list, after a prolonged absence of this class of picture, and will commence with the magnificent sporting film, A Bear Hunt in the Rocky Mountains. This is an actual hunt, no fake picture, no fake killing but genuine local conditions, and genuine killing. It is a most engaging item of entertainment. The educational film, Chemical Experiments, will be continued, viz. making carbon with sulphuric acid and syrup; decomposing water with sodium and making of coal gas in a clay pipe. British Bluejackets at Gun Drill and A Naval Review off Spithead will conclude this excellent picture bill, a thoroughly star programme throughout. Miss LeRoy will sing the waltz song from Faust in Italian and Master Packer will sing I Love Thee Lorie. New orchestral music. Big matinee tomorrow for the school children.

OPHEUM THIS WEEK AND NEXT. The clever and refined show at the Opheum this week is winning many friends for that already deservedly popular place of entertainment. This evening and tomorrow will be the last opportunity to see and hear Zero and Zeita, the two remarkable acts on the bill. For next week the debut of failing to account for \$2,800 alleged to have been collected by him as agent of an insurance company, died on his arrival at the police station.

A meeting of the citizens was held in Moncton last evening in an attempt to arouse interest in the coming day elections. A committee was appointed to name candidates and they recommended W. G. Jones and Dr. W. F. Keith as aldermen-at-large, but declined to interfere in the mayoralty or wards, as other candidates are in the field.

THE BOUDOIR OF A FAT WOMAN. What do we see? Terrifically long and austere looking coats; tiny (as possible) shoes; uppers bulging over the vamp; various restraining formalities; 12 or 15 (names unknown); perspiration disinfectants; blackhead eradicators; pimple sprays; blood medicine. Strewed around a few candy boxes; maybe an exerciser on the wall. These "properties" signify that at various times this pleasant room is the scene of fashionable tortures, of heart-burnings, of fallings from grace. Here the poor lady gapes into her restainers, her harness. Here she hides her fat-cumpled, perspiration, blackheads; here, when her spirit is weak, she forsakes the exerciser for the deadly candy box. What a life—what a four-hour!

Avoidable? A Marmola Prescription Tablet, taken after each meal and at bedtime, will reduce that fat (a pound a day) down to the firm flesh beneath; banish the fat-cumpled blouses; give a license to eat all the candy, etc., etc.; and sleep as long as you desire. At Summer Hill, Queen's county, yesterday, the burial of Mrs. Wm. Nelson took place. She was 76 years of age. She first saw street cars, and locomotives on a visit to this city six years ago. Mr. Harry Lord, of Carleton, is a daughter. Rev. L. J. Laird conducted services, and burial was made in the Nelson private cemetery.

The Young People's Society of Victoria street Baptist church gave an enjoyable song service in the Seaman's Institute last night. Those taking part in the programme were George Noble, Misses Pirie, Misses Fay and Scribner and Cora Colwell. Addresses were given by President N. Vanwart and others.

It Takes 21 Days to Make Each Cake

Three weeks are required from start to finish of the cake of Taylor's Infants' Delight Soap that you get at your dealer's.

We have put forty-four years of experience into this soap.

We bring our olive oil and coccoanut oil ten thousand miles—none but the highest grade will do. We use otto of roses that costs us ten dollars an ounce. These oils are filtered through Fuller's earth. They are boiled and then boiled again, with hundreds of gallons of pure water, passing through to remove all possible impurity.

Infants' Delight Soap

A pressure of thirty tons removes the water. Then the soap is stamped into cakes and again inspected for any possible flaw. Ordinary fresh or "green" soap is not hard and firm. It wastes away quickly. We put Infants' Delight Soap through eight separate "agings" until it is hard and firm and ready for immediate use. It will wear as thin as a wafer. Infants' Delight Soap will make your skin like velvet. It is the mildest soap made—the best for the infant and equally good for grown-ups.

For insuring against chaps and roughness no soap can take its place. Get a cake today.

'PHONED FOR POLICE TO COME AND TAKE HIM

Mr. Flewelling Tells Court About Osborne's Strange Actions in Printing Establishment

James Osborne was brought into the court again this morning, but this time he was much more docile than on his former appearance, when he was sent below. The charge against him is that he maliciously damaged the interior of J. W. Flewelling's printing shop in Prince William street.

Mr. Flewelling said this morning that he had had considerable trouble with the prisoner on account of his not being on hand regularly, and it was owing to this that the case originated against Osborne, he being told by the witness that unless he was more punctual his services would be required no longer. At this the prisoner became enraged and damaged the forms and other articles in the shop, after which he requested Mr. Flewelling to send for the police, a proceeding which the complainant was loath to do.

Osborne then tore up about 300 price lists being prepared for Frost & Wood, and again asked the complainant to send for police aid, and on his refusing to comply, the prisoner telephoned to central station himself, with the result that the police soon arrived. Osborne, in the meantime, however, went to the station and asked that a charge be entered against Mr. Flewelling, but the condition of affairs was reversed, and he was locked up.

He was remanded this morning, until he is examined by a doctor.

Joseph Carr, Edward O'Brien and Joseph Baxter were fined \$3 each on a charge of drunkenness, and Delia Convey was sent to the Good Shepherd's Home for an indefinite period on a similar charge. The woman is the mother of three small children, which she told the court this morning, asking who would care for them, but her plea was of no avail, and she was sent to the home.

MRS. MACKAY BREAKS HER BOWLING RECORD

Rolls 182, Within Three of the City Championship Score of Miss Fairweather

The ladies' city championship bowling record of 183, held by Miss Fairweather, was in grave danger of being beaten up the Victoria alleeys this morning, when Mrs. W. Malcolm MacKay rolled the fine string of 182.

A little piece of hard luck near the end of the string saved the record. Mrs. MacKay came within a pin of a score and this pin wobbled very doubtfully, but did not fall. She finished with a score of 183, beating her previous record of 178.

ASKED FOR SEWER BUT NOTHING DONE; GETS INTO COURT

In the police court this morning G. B. Taylor, reported for allowing dirty water to flow across the sidewalk in Bridge street in front of his house, said that he had applied for a sewer, but it had not been given him, and until some action was taken by the city in the matter, he could do nothing.

He said he had petitioned the water and sewerage board, with a petition signed by the residents of the district, who required sewers on their premises, but the board had told him that they could not install a sewer until next spring, as they were under too much expense. Mr. Taylor said he would be willing to do what was right, and the case was stood over for a week, to allow him to arrange for the proper draining of the water.

ANNIVERSARIES OF WEDDINGS OBSERVED

Mr. and Mrs. G. H. V. Belyea, of Sydney street, were pleasantly surprised last evening when several of their friends called at their residence and presented to them a cut glass fruit dish in honor of the fiftieth anniversary of their marriage. They also received a beautiful bouquet of carnations, fifteen in number.

A very pleasant surprise was given Mr. and Mrs. Miles Christopher last evening at their residence, 310 Duke street, west end, when about thirty of their friends called to help them celebrate the twenty-fourth anniversary of their wedding. H. Lemmon, on behalf of the guests, presented to them a set of oak dining room chairs. The evening was pleasantly spent with music and games and refreshments were served.

DEATH OF DAUGHTER OF MR. AND MRS. J. V. RUSSELL

General sympathy will go out to Mr. and Mrs. James V. Russell in the death this morning of their eldest daughter, Miss Edith Russell, aged 10 years. Though ill for some weeks a fatal termination came entirely unexpected and her death consequently comes as even a greater blow.

During the past two days spinal meningitis developed and she passed away about 8 o'clock this morning. Of robust health, particularly bright, and of a friendly disposition her death will be mourned by a large circle of personal friends while to the parents the sympathy of all will be extended. The funeral will be held from Mr. Russell's home, 122 King street, East, on Sunday afternoon.

THEY PAID UP

Believing the east to be easy, four Poles from the west skipped their work bill at the boarding house kept by Louis Fader in Pond street, this morning. They were rounded up, however, by Fader about noon in the Union Depot, and made to pay up. The men arrived from the Canadian west yesterday to take passage on the Allan steamer, Tunisian tomorrow morning. With some money saved they are going home to spend some of it.

With a number of other foreigners they put up at Fader's. While the proprietor was occupied this morning the four went to the Union station, believing, it is said, that they could take train for the steamship dock, and board the boat. The party were settling up and had their baggage down stairs when the quartette left. Their protests that they had paid the proprietor's wife did not go with Fader, and he gave them a choice of handing over the cash or being introduced to a St. John "copper." All squared up, and trouble was avoided.

The Sackville Tribune says F. J. E. Mc Ginn, who has been principal of the St. John school there, has resigned to accept a position as traveler for the S. Hayward Co. of this city.
