The suspension bridge is so strong enough to allow it to roll around under its own power and the ferry floats and steamer would not stand the strain.

Declares He Did Not Advise or Assist Mrs. Johnson in Her Attempts to Kill Husband—Says He Advised Her Against It

Hopewell Cape, N. B., April 16.—The tenth day's proceedings in connection with the Albert poisoning case concluded this evening with the end a considerable way off. All hope of getting through by Saturday night has been abandoned, it being likely Monday night or possibly Tuesday before the finish is reached. The case for the crown was concluded at noon today and the first witness called by the defence was the prisoner Downing himself, whose direct examination was finished at 5.30, his cross-examination being still in progress when court adjourned. Coming down to the question of the alleged poisoning, the accused said he knew nothing about the heart medicine until Mrs. Johnson said she had got poison in Moncton and had administered it on three different times, twice in biscuit and once in butter-milk. The accused said he was going to tell on her, and asked her what she wanted to get rid of her husband for. So far as the idea of showing Johnson off the wharf, as Mrs. Johnson said he had suggested, the accused said he had never heard of it until he heard it in court. In connection with the use of Paris green, the accused said he never advised it, but on the contrary, after she had told him she was going to use it, he advised her not to do so. He said he told Mrs. Johnson that when she got Johnson killed he had her letters and would hand them over, and she would be punished. Mrs. Johnson had expressed herself very strongly that she did not want to live with her husband. Accused also said he heard Mrs. Johnson say she was going to give "Charlie" (meaning her husband) ground glass, but the witness denied ever advising or suggesting it. She had told him afterwards that she had used it. When cross-examined by Mr. Mullin,

He said he wanted to protect himself. The accused said he had received 107 letters from her during the summer. In this stage of the cross-examination, court adjourned till 9 tomorrow morning. PICTORIAL REVIEW FOR MAY The cover design is a charming baby subject by Jessie Pease Gutmann. Under the head of poetry appears "The Song of the Vase," by Anna Bird Stewart. Then comes the editorial "What Clean-Up Day Means to Your Town," a plea for a better and more beautiful community. A new serial by Cora Harris entitled "The Co-Chitians," begins this month with illustrations by Hanson Booth. Under short stories appear "Cupid and the Car," by Emerson Hough, illustrations by Arthur William Brown; "The Prune-Stone Dope," by Gertrude Brooke Hamilton, illustrations by Walter H. Everett; "The Saving of Hiram Sessions," by Mary E. Wilkins Freeman, illustrations by J. Scott Williams; "Aunt Janie and the Moonlight," by Kelle Howard, illustrations by Jessie Gillespie; "The Latest Scout," by Marie Benton Cooke, illustrations by John Cassel. The special articles include "The German City and the Housewife," an astounding condition of affairs prevailing in Germany that work toward one end—the protection of the housewife. "Make Your Life a Masterpiece," is a philosophical article by Orison Sweet Maxson, and "Bolted Doors," is a charming fantasy of married life by Edwinna Levin. Here is a partial list of the helpful home-making and household articles, "The Best Kind of House for \$5,000," "Ways to Make the House Cool," "Washing-Day Helps," "Ironing-Day Helps," "Pin-Money From Fruits," etc. The fiction and embroidery pages all give the very latest modes; "Monograms for Linen and Lingerie," "Pillows for Bungalowers," "Lovelier Than Ever Are the New Lingerie Frocks," "Charming Afternoon Gowns for Early Summer Wear," "What is New in Tailored Suits and Coats," "Separate Waists and Skirts Suitable for Stout Women," "Latest Novelties in Bathing Suits," "Picturesque Empire Frocks for Evening Wear," "The New Empire Styles for Misses," "Dainty Frocks for Big and Little Sisters," "Juvenile Fashions of Distinction and Charm," "Practical and Pretty Lingerie and Kimonos," etc. Then A Cow. Awkward mistakes occur sometimes through falling into certain mannerisms of expression. A person had a habit of repeating "for years and years" in the course of a sermon. He was preaching on the Prodigal Son, and spoke of him sitting down in that far-off land thinking of the home he had not seen "for years and years." This was all right, but presently he spoke of the welcome to his old home, and of the calf which his father had kept in anticipation of that happy day. "Yes," said he, dropping into his favorite cadence for the winding up of a sentence, "yes, the calf which he had kept for years and years and years!" Then somebody laughed. The Man In The Street
If April showers are a criterion, Mayflowers should be abundant.
Head line reads: "That thaw ends German offensive in Poland"—That fellow's always been notorious.
Story in current magazine refers to the "luxury of modern travel". The author probably had the extra touches of war tax on the berth in mind.
Nietzsche Again!
Sporting writer says that "Willard loomed up like a superman". Sounds like something Nietzsche might have uttered!
By the way, what inning is this in that game of Nietzsche?
Or if the contest is over, who won?
Tantricate, lots of people feel that the result of the luminous and voluminous discussion is that "there used to be a guy with a funny name. He's dead, so let's get on with it."

GERMANS HERE AS PRISONERS
Three Hundred Sailors, Including Part of Dresden's Crew, Arrived on S. S. St. George En Route to Amherst
When the steamer St. George, Captain J. H. MacLaren, steamed into port this morning, and docked at the Inverness wharf, she had aboard more than 800 prisoners of war, almost all Germans who had been taking part in the war of the Fatherland upon the high seas against the Allies. Most of them were in sailors' uniforms. They were kept aboard ship until a strong guard with bayonets drawn was thrown in cordon about the sheds and wharves, as much to keep back the crowd of citizens who thronged the neighborhood to "get a peep" at the prisoners, as to guard against any of the latter trying to make his escape.
After the preliminaries attendant to the arrival, the prisoners were marched to a special train of L. C. R. cars. It was nearly two o'clock before the train, with Conductor Capson in charge, pulled out for Amherst, where the prisoners will be kept in detention camp.
The prisoners were a sturdy looking lot for the most part, some smiling brightly, included in their number were members of the crews of German men-of-war, some from the Dresden, and from the crews of ships of the German merchant marine, taken off ships sunk or captured by British monarchs of the waters.
The crowds along the piers stood patiently for an hour or more waiting to see them, and only a few "jibes" were flung as they filed into the cars. Platoons from the 29th Battalion kept guard, while soldiers from Bermuda and Jamaica, from where the St. George brought the prisoners, accompanied them to Amherst as guard.

CAPTAIN KNEW WAR WAS COMING

Given Sealed Orders 14 Months Before War

OPENED ON JULY 31

Evidence in Damage Suits Against North German Lloyd Company Show Preparations Long in Advance of War

New York, April 17.—Testimony given in admiralty suits against the North German Lloyd Company, which has been instituted because of the failure of the captain of the Kronprinzessin Cecilie to continue the voyage to Plymouth and Cherbourg after July 31, 1914, reveals two exceptionally important facts. One is that the captain of this steamship had a sealed package which was not to be opened until he received a message concerning "some disease" and signed "Stegfried."

The other important fact is that this message from the owners announcing the outbreak of war was received several hours before Germany had declared war on Russia, which did not occur until the following day. War between Germany, Great Britain and France, was not declared until August 4. The only declaration of war at the time the message was sent was that of Austria-Hungary on Serbia. It can hardly be doubted that the officers of the steamship company had information from the highest quarters in Berlin before they sent the message to the Kronprinzessin Cecilie. The inference, seemingly, is that Germany had made up its mind as to whether it was still to make peace with Russia, Great Britain and France, as it had done in the past.

The fact that war had not been declared at the time the message was received on the steamship is the basis of suits for damages by the New York bankers who were sending several million dollars in gold on the Kronprinzessin Cecilie to England and France. The libellants assert that the action of the captain in turning the ship about constituted an abandonment and deviation from the voyage undertaken, and added "Such action operated as a complete breach of contract and entitles us to recover the damages we have sustained."

FRANCE HAS BEEN A REVELATION

High Authority in London Discusses the War

ENGLAND'S GREAT WORK

Promised Only £20,000 to £50,000 Troops and No One Would Have Said Half Million Could Have Been Raised—Drink and The Future

The Times a few days ago published a statement from a high authority in London on the war. Here is a more extended account published in the New York Sun from a private letter from London.

I think that you will be interested to hear something of opinion in the quarter of high influence and authority. There was keen interest to learn of American sentiment about the war. The following is a running précis of much that was said, though of course it is not verbatim. The terms of peace discussed.

That's where America comes in. She may not be interested in the restoration of Alsace and Lorraine, in Poland, or even in Danish Schleswig, but another question must be handled, and that is the reduction of armaments. In that America is surely greatly concerned and in that she could be useful, but the time for America or for any other neutral power to talk about peace has long since gone.

The Duke of Brabant, the fourteen-year-old son of King Albert of Belgium, who has joined the 12th Infantry Regiment as a private soldier, and is fighting in the trenches near Dixmude. Recently the young Duke, who bears the title of Prince Leopold, marched past the King, the Queen and Prime Minister Broqueville during a review, carrying on his shoulder a rifle and on his back the regulation marching kit.

The suffering among the poorer drug users, according to the police, is intense. Lieut. Scherb said that many persons accustomed to get all the drugs they want from illicit peddlers were now unable to obtain any and were consequently reduced to great suffering.

New York, April 17.—One effect of the Boylan anti-drug law and of the more recently enacted Federal Harrison law, coupled with the activities of Police Lieutenant Henry Scherb and his sister, detectives of the "dope squad" under him, has been to deprive hundreds of habitual addicts of their means of support.

France, too, perhaps does not recognize fully what England has done. Our navy is the most powerful in the world, and we are the only nation that can afford to have a couple of million men here. Volunteering has been to me a most surprising thing. Before the war no one would have said that we could have raised a voluntary army of 800,000 men. Such a thing has never been done by any nation. Even Lincoln had to resort to a form of compulsion. Yet we have enlisted more than two million. Conscription has passed away.

There is a sign of revolution going on in England. We shall be a new country after the war. He will be simpler. There don't seem many signs of much reduction in expenses and that sort of thing just yet, but it will be and must be. This people cannot spend seven hundred million pounds a year on war and go on just the same as before. Wives of men at the front are getting more money than they ever had. A woman with four children gets twenty-four shillings a week, agricultural labourers in large districts are getting fourteen shillings and fifteen shillings a week. When the men come back they won't stand that any more.

There was talk about the drink question: "The time sheets show that the men at the front who, of course, have been over on leave in great numbers will never be the same again."

"HANG THE KAISER"

Toronto Daily News.—Commenting upon the slaughter of 140 non-combatant passengers on the two unarmed British merchant vessels, The Wall Street Journal says: "To what lengths will the spirit of militarism carry the German government, that it shocks the world by deliberate premeditated murder, also justified, on any interpretation of international law, in hanging Von Tirpitz and the Kaiser himself."

DUMMY SENTRY

EXPLOSIVE TRAP

Remarkable Tale of Duke of Cornwall Infantry Man

TERribly WOUNDED

"Stalked" Sentinel Only to Find It But a Figure But When He Overturned it, Fearful Things Happened

(Manchester Guardian.) Among a convoy of wounded who arrived at the Norfolk and Norwich Hospital on Wednesday morning was the victim of the "booby trap" mentioned by "Eye-Witness" in his account of the fighting at Neuve Chapelle.

On the night of March 13-14 I was asked whether I would go out on patrol near Arras to reconnoitre the German trenches in company with an officer, as I had done on several occasions before. The officer would not take anybody with him who did not volunteer, for it was well understood to be risky.

Just before we got to the German barbed wire we saw what seemed to be a sentry. I motioned to the officer to keep still, and he did so. Then I saw that he was a dummy. He was in a crouching position, and he was wearing a uniform that was not like ours.

So the officer lay down, and I wriggled away to the right till I got within about ten yards of the sentry's right front. Then I could see it was a dummy, I crawled straight up to it, and, still lying quiet, signalled to the officer to come up. He said to me, "You had better have the thing over so that they can know a dummy has not frightened us."

The officer put his head down. I gave the dummy another shove, and at once the thing went off. The dummy and I then went on into the trench, and the dummy flung himself on the ground. I was in a terrible agony. The trap could not have been made to kill outright, or I should have been dead. I was in a terrible agony. The trap could not have been made to kill outright, or I should have been dead.

After a time I felt something jerk me, and that brought me to my senses. I said, "Who's there?" It was the officer. I said, "Thank God, but I am not likely to live." He replied, "I will get you back" and tried to carry me.

After going about six yards over me both went, and that gave me another chance to walk as far as the open road, where we came across a listening patrol, and then, finding myself back in safety, I collapsed. When I came to myself again I heard the officer telling the captain that I was the bravest man he ever saw, and that he did not know how I had managed to walk back.

A RED CROSS APPEAL MADE TO THE FARMERS

Our country, with its allies, waging a great war for justice, for the protection of small nations in the enjoyment of their rights, for continued and growing freedom, and for the maintenance of its pledged word of honor. Much destruction and desolation are being caused. Lives are being lost by the thousand. Canada's first contingent is now in the thick of it. Some will fall sick; many may be wounded; some will pay the last full measure of devotion to their country and its cause.

The Red Cross Society exists to succor the sick and wounded in war. It needs more money to provide more beds at hospitals in Great Britain and France. It needs more money to pay more Red Cross nurses; it needs more money, and more things made by women, to supply to clearing hospitals, base hospitals, and recovering hospitals. I appeal to farmers to send me sums from \$1 to \$50, during the first week in May. Every \$30 provides one additional hospital bed with the given name over it. By sending me about \$10,000, you would save your country, well, bring credit to yourselves, and make all of us very proud of you. For the sake of the wounded boys, make the gift substantial. It will be an investment towards the recovery of some Canadian soldier who stood in our stead that our cause might be upheld. Faithfully your friend, JAS. W. ROBERTSON, Chairman, Red Cross Society at Ottawa.

CHARGES ARE NOT WARRANTED

Hon. Mr. Oliver Replies to Dr. Roche's Charges—Transactions Were With Conservative Government

Ottawa, April 16—A convincing reply to the charges made by Hon. Dr. Roche in parliament on Tuesday last is made today by Hon. Frank Oliver, who was caught at the time without a voice with which to answer the attack in the house.

Dr. Roche charged Mr. Oliver with having retained coal royalties which should have been paid to the treasury, amounting to \$2,000 or \$3,000. Hon. Mr. Oliver stated that he acquired in 1890 the land from which the coal was taken. A Conservative government was then in power. He supposed that he had acquired the mineral rights, as well as surface rights to the property.

GOT 12,000 LETTERS! Zam-Buk Unanimously Endorsed

A prominent woman's journal recently asked its lady readers to give an opinion, based on personal experience, of several widely-known Canadian products. The publishers recently wrote the proprietors of Zam-Buk to the following effect:—"In connection with our neighborhood of 12,000 letters. We do not know of one instance where the proportion of satisfied users of any product was so great as proved to be the case in regard to Zam-Buk."

Herein lies the proof of the superiority of Zam-Buk—the proof of experience! No amount of advertising, no mere assertion on our part could create such unbounded confidence in Zam-Buk as these Canadian house-wives have expressed. Only the plain, straightforward test of Zam-Buk in the home could do this.

MILLIONS FOR WAR MUNITIONS

Canada Benefits by Big Expenditure—Contracts Now in Hand Amount to \$80,000,000

Ottawa, April 16—A report of the shell committee, appointed by the minister of militia, fell to the ground today. The head of the committee is Col. A. Bertram, and the chief technical adviser is David Carnegie, who has had large experience of this kind in Great Britain.

The report reviews the committee's work in securing orders for the manufacture of shells in Canada, aggregating up to the present time, it is understood, some \$80,000,000, and embracing factories in all parts of Canada. At the present time arrangements are being made at a number of western points to start the manufacture of shells in factories there.

Bad Spells With the Heart

Mrs. A. D. Cameron, Birch Brook, Platon county, N.B., writes:—"For two or three years I was in a run-down condition, very nervous, and was drowsy and sleepy. Then I began to have bad spells with the heart, and cold feelings would creep over me and I felt like as if I were sinking away. I would smother, and my hands would become stiff and cold, and windows and doors would be thrown open because my back to life."

Weak Heart—Palpitation

Mr. Stephen J. Leard, North Tryon, P.E.I., writes:—"At seventy-five years of age my heart gave out and became very irregular and weak in action and would palpitate. My nerves became weak, and I could do nothing but lie in bed in a languishing condition, losing strength and weight. In that condition I began using Dr. Chase's Nerve Food, and am cured. Had I not obtained this treatment I would now be in the box with the roof over my nose. As I am still gaining strength I shall continue its use for a time. During my illness I had two different doctors, but as I could see little benefit I turned to Dr. Chase's Nerve Food, with great advantage. I will gladly answer anyone who wishes to hear direct from me."

Blood Weak—Nerves Exhausted

Miss Elsie Bancroft, Longwood, Ont., writes:—"A year ago I was very much run down in health. The blood seemed to be weak and the nerves very much exhausted. Having heard of Dr. Chase's Nerve Food and of its success in curing cases similar to mine, I began to use it, and was very greatly benefited by continuation of this treatment. Two of my sisters also used this medicine, and found it to be a splendid means of building up the system."

Stomach Trouble—Fainting Spells

Mrs. A. A. Currie, ladies' tailors, Midford, P.E.I., writes:—"I had stomach trouble and fainting spells, and the gas would form on my stomach, so that I would feel like smothering. Often I could not sleep at night without being propped up in bed, as I couldn't get a breath. For about five years I was like that, and consulted four doctors, without being benefited. By using Dr. Chase's Nerve Food and Kidney-Liver Pills I have obtained the greatest benefits imaginable. No medicine I ever took did me so much good, and I want to recommend them."

Chorea—St. Vitus Dance

Mrs. Geo. Chisholm, R.R. No. 1, Grafton, Ont., writes:—"I have used Dr. Chase's Nerve Food on my little girl for what the doctors pronounced Chorea, a disease of the nerves. I consulted our family doctor, and he gave her a liquid medicine, but do what we would, we could not get her to swallow it. A neighbor advised the use of Dr. Chase's Nerve Food, and being in pill form, she took it without any trouble. She was about seven years old, and got pale and run down. The muscles of the face were affected, and she became a pitiful sight. She seemed to improve right along under this treatment, and was entirely cured by using six boxes. She is nine years old now, and you cannot find a larger, healthier-looking child for her age. I shall always be grateful for what Dr. Chase's Nerve Food has done for us, and I can recommend it to all nervous people. You are at liberty to use this letter, so that others may benefit."

Cheering Messages to Nervous Sufferers

Throwing aside all prejudice, the real test of any medical treatment must first be, "Will it Cure?" Apply this test to Dr. Chase's Nerve Food and you find the answer on this page from men and women who have no other object in writing these letters than the benefitting of their fellow men and women.

Chronic Indigestion Cured

Mrs. Herbert Arbuckle, Deschamps, Que., writes:—"I had a bad attack of Chronic Indigestion after the birth of my baby, and though I went to three doctors they all failed to cure me. I read about a lady being cured by Dr. Chase's Nerve Food and began its use. It was only a short time until the trouble was over, and I can eat anything I want now without ill effects. My weight now is 130 pounds, and I am writing this to show anyone who may know of the Nerve Food and get well and strong."

Anaemia—Extreme Weakness

Mr. T. Hyndman, farmer, Rupert, Que., writes:—"I had been gradually falling in health for two years and tried many remedies. Among others I used Dr. Chase's Kidney-Liver Pills, and found them doing me good. Some neighbors told me the doctors said they were dangerous, so I quit their use and went to the doctor. Under his treatment I got so weak I was unable to raise my head from the pillow, and he told me that I had anaemia of the blood and could never be better again, so I sent for another doctor, and he told me the same. I could not take their medicine and was continually vomiting, so I gave them up and said, 'Kill or cure. I will again try Dr. Chase's medicine.'"

Dizzy Spells—Peculiar Feelings

Mrs. T. P. Cullen, Fairview Farm, Sheppard, Alta., writes:—"My nervous system was so run down and exhausted that terrible dizzy spells would come over me, and I would have most peculiar feelings. Everything appeared as if it was falling on me, and caused me to jump after taking a few steps. While in this frightful nervous condition I heard of Dr. Chase's Nerve Food and began using it. This treatment built up my nervous system and completely cured me, and for this reason I am always glad to recommend it for the sake of those who suffer as I did."

Nerves Exhausted—Feared Future

Mrs. R. J. Billings, nurse, North Bay, Ont., writes:—"I am happy to be able to say that Dr. Chase's Nerve Food is fully worth all the praise given it. I have used Dr. Chase's Nerve Food for some time, and would not be without it in the house. I know that if it had not been for Dr. Chase's Nerve Food I would have been out of my mind. My nerves were so far gone that I had gloomy forebodings of the future, and feared the loss of reason. I feel fine now, and do not lose an opportunity of recommending this treatment to my patients."

Nervous Breakdown—Sleeplessness

Mr. R. B. Hillman, Purbrook, Muskoka, Ont., writes:—"About four years ago I was all run down and could not work, and as to writing a letter, I could not do it on account of my hand shaking so badly. My nerves were unstrung and I was troubled with a nervous breakdown. I could not sleep soundly and would start up so suddenly as to almost jump out of bed. My kidneys were bad, too, and I had wretched pains in the back all day. I doctored with our family doctor, but he did not seem to know what I needed. I was recommended to try Dr. Chase's Nerve Food, and could sleep well three nights after starting the use of the Nerve Food and Kidney-Liver Pills. I take great pleasure in recommending these medicines, as I have proved that they do all that is claimed for them."

GROUND AT NEUVE CHAPELLE COBBLED WITH GERMAN SKULLS

Dead Lie Buried in Shallow Graves Everywhere and Whole Picture is One of Ruin and Death—Many Bodies in Plain Sight.

Neuve Chapelle, France, via London, April 16.—The ground to the west of this now shattered town of Neuve Chapelle, from which the British drove the Germans in the middle of March with such terrible loss of life for both sides, is literally cobbled with German skulls. The dead lie buried in shallow graves everywhere and the vicinity is strewn with wreckage and debris.

The British have made it as tidy as they can but beneath many of the trenches and dugouts six inches of the bayonet will meet the resistance of cloth and human flesh while in the No Man's Land between the new British line and the German trenches to the east bodies still lie thick.

Neither the Germans nor the British dare to remove the corpses, and unless some situation develops to alter the relative position of the opposing lines, they are likely still to be there when the summer comes. Many of the trenches and dugouts where the men lie unswayingly harbor the bodies of thousands which were covered with earth after the British push.

So quickly did the British break through the German line that full details of the action are only now becoming known, even to the men who participated. The suddenness of the advance was such that many of the men were dazed that all they knew was that they got there. In fact British staff officers laughingly assert that it was too quick for the best results, the German line giving way so suddenly that the British found themselves like a man who hits his opponent with all his might and counters but slight resistance and is thereby thrown off his balance.

They are pleasant to take, the result is sure, and above all they are guaranteed by a government analyst to be absolutely free from injurious drugs. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

MR. J. A. HILL TELLS WHAT DODD'S KIDNEY PILLS DID FOR HIM.

He Suffered For Four Months From Kidney Trouble but Found Quick Relief When He Used Dodd's Kidney Pills.

Sixty-Nine Corners, Ont., April 16th.—(Special)—"I know that Dodd's Kidney Pills are the very best of medicines." Such is the statement made by Mr. J. A. Hill, a well known resident of this place. "I was sick for six months," Mr. Hill continues. "My troubles started from a cold that seemed to settle in my back. RECENT DEATHS

Charles S. Skinner. The death took place yesterday at his home in King street east of Charles S. Skinner, son of the late Hon. Charles N. Skinner. He was a twin brother of Dr. Stewart Skinner, and for some years was in practice with his father in this city, but some fifteen years ago removed to New York. Last fall ill health forced him to give up active work, and he returned to St. John and has since made his home on King street east. Mr. Skinner was a graduate of the University of New Brunswick. He is survived by his wife, formerly Miss Bolaford, of Fredericton, and by four children. Brothers surviving are Dr. Skinner and S. A. M. Skinner, of this city, and H. Gordon of Boston, and Walter Skinner, of Montreal. Sisters are Mrs. R. H. Gordon and Miss Grace Skinner, of this city. The late Mr. Skinner, although absent from St. John for some years, had a wide circle of friends, who will hear with sorrow of his death.

Mrs. John Jackson. Yesterday there took place, after a short illness, the death of Mrs. Mary Jackson, wife of John Jackson, who was well known in the North End. She was a member of St. Luke's church, and had been active in many ways there. Mr. Jackson is also well known in the city, though he has retired from active business for some years. A sad feature of the bereavement is that he is now seriously ill. The late Mrs. Jackson was a daughter of the late James Robb, and was a native of County Tyrone, Ireland. Besides her husband, there are four step-sons and two step-daughters to mourn. The funeral has been arranged for tomorrow afternoon at 8.30 from the late residence, Millidgeville avenue.

Mrs. Samuel Fisher. The death took place on Friday evening at his late residence, 153 St. James street, of Samuel Fisher in the 79th year of his age. Deceased was a native of Chepstow, Monmouthshire, England, and came in this city in the year 1858, and had been a resident here continuously since that time. Before the day of machine-made footwear, Mr. Fisher carried on a large business in the city but retired from active work some years ago. He is survived by his wife, and two sons, F. C. and S. E. Fisher, of this city.

Mrs. Samuel Davis. Harry Station, April 16.—Mrs. Catherine Davis, wife of Samuel Davis, of Cork Settlement, died at her home there yesterday morning after a few days' illness of pneumonia. Milburn's Heart and Nerve Pills. Mrs. John Harper, Toronto, Ont., writes: "I have used Milburn's Heart and Nerve Pills for the heart and nervous system. I was confined to a grocery store for twelve years, and had to give up business, as I became terribly run down and nervous, and had heart trouble, and I am sure I am gaining very fast now, and I feel that nothing did me any good until I tried your Heart and Nerve Pills, and I am positive they will cure me. The nerves of one hand would tremble and then seem to go numb so that I could not write or sew. Now my hand is quite steady, as you can see by my handwriting. This is a big change which delights me so much for I thought all was done that could be done. I was about to give up in despair when I tried this last remedy, and even after I had only taken half a box the change started to come."

Milburn's Heart and Nerve Pills will restore the enfeebled, enervated, exhausted, overworked system to full constitutional power. Price, 50 cents per box, 3 boxes for \$1.25, at all dealers or mailed direct by The T. Milburn Co., Limited, Toronto, Ont.

ARBOR DAY

Observance Should Be General The Objects for Which It Stands Are to the General Advantage of Canada.

(Issued by Commissioner of Conservation) Arbor day is not observed in Canada to the extent which its importance warrants.

The people of Canada must ever keep in mind their dependence upon her forests. With large areas suitable only for forestry purposes, it is essential that the value of trees and their protection should be thoroughly impressed upon Canadians.

While Arbor day is observed in the rural schools, and in some city schools, its recognition by the general public is not as general as it should be.

In the province of New Brunswick, Arbor day is celebrated to a limited extent in the schools. This is not sufficient, however. The observance of Arbor day should be general.

FAIRVILLE TO HAVE LEAGUE

Four Teams To Compete For Baseball Honors TWO ARE FROM OUTSIDE

Representatives from the baseball teams met last evening in the Fairville court house and it was decided to organize the Fairville league for the coming season, so the sport may now be considered a certainty and many fans made glad.

George O'Reilly, president for 1914, occupied the chair. Hon. J. B. M. Baxter, donor of a challenge cup, was elected honorary president.

Much interest should centre in the league this year as two outside teams have entered the list, the Courtneys, an aggregation from Beausfield and Carleton, and also a North End team, who have not yet determined upon a name under which to win honor and glory.

TOM DALY DOES DUTY IN PINCH

Nice Single is Rescued At Critical Stage DOING WELL WITH WHITE SOX

The many St. John friends of Tom Daly will be pleased to hear that he is making good this year with the Chicago White Sox.

Tommy Daly, who is making rapid strides as a pitcher, has what will work with Ray Schalk this season, is having ample opportunity to test the work of each pitcher.

When Walter Kahn was released to Oakland the White Sox catching staff was cut down to four men and Tom Daly was given a pledge by Manager Howard that thereafter he could consider himself a backstop instead of the general all-around man he has been on the team.

Daly's record last year with the White Sox as utility man was as follows: Played in 64 games, was at bat 188 times, scored 18 runs, had 81 hits, 2 sacrifice hits, drew 7 bases on balls, had 8 stolen bases, struck out 18 times and had a batting average of .238.

Thomas Cosgrove won in the daily roll-off with a score of 118.

AN ATTACK ON MORRISSEY

Accounts of Public Works Department Under Fire—F. D. Swin, M. P. P., Deals With Bridge Building and Repairs

Fredericton, N. B., April 16—The house met at 8 o'clock. Mr. Dugal gave notice of inquiry as to the amount, if any, due to the employment of J. Brown Maxwell by the province, as to the nature of the financial arrangements made by the secretary for agriculture with the Bank of Nova Scotia regarding the purchase of potatoes.

Mr. Pelletier gave notice of inquiry as to the amount, if any, due to the three principal contractors on the Valley railway, and as to Samuel G. Gaunce, gas licensee under a Kings county. Hon. Mr. Morrissey introduced a bill relating to road diversion at Arbutus, Victoria county.

Hon. Mr. Murray introduced a bill to provide for the purchase and sale of school books, which he said was simply a measure to legalize the school book department of the government and its operations.

Hon. Mr. Baxter introduced the following bill: To give power to cities and towns to prevent smoke and noxious gases in connection with the railway, addition to the act to facilitate the settlement of N. B. crown lands by New Brunswick Colonization Company, Ltd., which he explained had been rendered necessary owing to the untimely death of the chief promoter of proposal; relating to solemnization of marriages, which was intended to be a general act to do away with the necessity for bills which cropped up nearly every session to legalize marriages performed by unqualified persons; relating to coroners, which, among other things, made provision for the burial of unidentified persons; respecting county courts, which, he explained, was in substitution for a bill which had already been considered by the house and which it was wished to withdraw.

Hon. Mr. Clarke moved that the order for the third reading of the bill relating to motor vehicles be rescinded and the bill re-committed to the committee for further consideration.

The house went into committee, with Mr. Young in the chair.

Hon. Mr. Baxter moved to amend section 8 of the bill to provide that all fines collected for violation of the act should be paid to the provincial treasurer for the use of the province.

Mr. Tilley wanted to know why such provision. He thought that if municipalities received the money it would make the officials more active.

Hon. Mr. Morrissey said that he was in perfect order, that he had a perfect memory, and that he had a perfect understanding of the situation. He said that he was not in any way affected by the attack on his character, and that he was not in any way affected by the attack on his character.

Hon. Mr. Murray said that he was not in any way affected by the attack on his character, and that he was not in any way affected by the attack on his character.

Important Announcement to the Canadian Public

By the Proprietors of WINGARNIS

IT has come to our notice that there is a tendency to class "WINGARNIS" as a "Beef, Iron and Wine". We want to state emphatically that "WINGARNIS" is not a "Beef, Iron and Wine"—there is no iron whatever in "WINGARNIS" and it is far superior to any other wine tonic.

WINGARNIS is composed of three ingredients:

- (1) Pure, natural, specially selected wine
- (2) Extract of beef
- (3) Extract of malt

These three ingredients constitute the most valuable tonic, blood-building and restorative elements known to science. They are combined by a special process which retains and enhances the health-giving properties in the form of an agreeable and satisfying beverage.

FAMILY OF THE HERO OF THE WHITE RACE

Mrs. Jess Willard, wife of the man who redeemed the pugilistic hopes of the White Race by knocking out Jack Johnson, and their four children. The picture was made just after Mrs. Willard had received word of her husband's victory in their little home on Gregory Ave., Hollywood, Cal. Left to right: Frances H., aged 4; Mrs. Willard; Verna, aged 7; Baby Anette, aged 5 months, and Jesse, Jr., aged 16 months. Mr. and Mrs. Willard were married in Leavenworth, Kansas, March, 1907.

SINGLE TAX PROGRESS IN THE ARGENTINE REPUBLIC

(Toronto World.) A correspondent in Buenos Ayres, Argentina, S. A., recently sent the following news of the movement to the secretary of the Single Tax Association of Ontario. "We have a strong society here. The business men are crowding in and some of their associations have joined us en masse. The constitutionality of a national tax on land values all over the country (and not, as now, only in the national capital and national territories) is being keenly discussed. The advantage in the argument seems to be with the affirmative. In this city a united committee, formed of delegates from all the commercial and industrial associa-

tions, is being formed under the Single Tax League's auspices, for the purpose of promoting the shifting of all taxes on capital and labor to land values. The city council has power to make the change, and the franchise is a limited one practically controlled by the above-mentioned associations. Six trade organizations have opened their columns to our scries and the demands otherwise for information are quite beyond the capacity of our literary staff. "It will interest you to know that, in addition to the province of Cobola, that of Buenos Aires also excludes buildings and improvements from assessment of real estate throughout the rural districts. Out of a total assessment of \$6,951,564.08 for the provincial real estate tax, the rural assessment was \$1,572,618,516 (all buildings and improvements being exempt). The remainder was for the urban areas and included buildings and improvements. The figures are as follows: "The late Argentine president, Dr. Roque Saenz Pena, was a Single Taxer, as you will see by the following declaration made by him: "I consider the desideratum of a good administration to be the simplicity of its system of taxation, to the extent of creating the single tax which, applied to the land as the trunk creating wealth, would leave the branches of all industry free to develop without pruning from the state, thus avoiding bleeding twice the same trunk."

Defy Dyspepsia!
Among the symptoms of Dyspepsia or indigestion may be mentioned a heavy, cutting pain soon after eating; a distended, full feeling of the stomach and bowels; belching of wind and flatulence; a burning sensation in the stomach, which indicates acidity; heartburn; palpitation of the heart; oppression of breathing; pain under the ribs and shoulder-blades; headache through the temples and eyes; dizziness, coated tongue and constipation; sometimes nausea or vomiting.
Abbey's Effervescent Salt is the natural specific for all these conditions. Being an antacid, it immediately relieves the acidity of the stomach and stops the fermentation. It relaxes the secretion and muscular action of the stomach and bowels, and overcomes the constipation. When its use is kept up the normal action of all the organs of digestion is re-established.

Morning War Cables

London, April 16, 10.45.—Although a thaw has set in on the Carpathian mountains, and the roads have been turned into mud, and districts are inundated by swollen streams, the fighting continues. The Russian report that they have taken further heights in the mountain ranges, and repulsed attacks in the vicinity of Rostok and also in the direction of the Star, where the Austro-Germans were attempting an outflanking movement. The Austrians make similar claims, and disclose the fact that the Russians have been attacking also in Southeast Poland and Western Galicia, apparently with a view to preventing the Austrians from sending any more reinforcements into the Carpathians.

The British India office reports that Indian troops have inflicted another defeat on the Turks, who had gathered a large force of regulars and irregulars from which to launch an offensive when the chosen moment arrives. Another Air Raid. London, April 16.—It has not yet been conclusively determined whether one or two German aeroplanes took part in the raid in Kent this afternoon. The reports, however, indicate the presence of a single machine. A despatch from Canterbury spoke of two aeroplanes over the city, but this has not been substantiated from any other point.

DAYTON CITY GOVERNMENT. The city of Dayton, Ohio, has the commission-manager form of government. The commission is elected by the people on a non-partisan ballot. The commissioner receiving the highest number of votes is the mayor. The five commissioners elected correspond to the board of directors of a corporation and they select and appoint an executive, who is the city manager. All the functions of the municipal government come under the city manager, outside of the legislative functions, which are in the hands of the commission.

each headed by a director appointed by the city manager. They are director of public safety, covering police, fire, weights and measures; director of service, who has charge of water works, the cleaning and repairing of streets and sewers, the collection of garbage, and the general supervision of all public utilities; director of finance, who has under him the treasurer, the accountant and the purchasing agent; director of welfare, having charge of all correctional institutions, hospital, charities, parks, playgrounds, etc.; director of law, who is the city attorney.

These directors meet with the city manager every day for an hour and go over the five operating departments.

THE SECRET

All true success is the outcome of real personal interest and genuine endeavor. You may be designing a battleship or you may be thinking out a bright idea for a 10-cent toy, controlling a commissariat or puzzling and experimenting with fruits and spices in order to perfect a new recipe for the home table, but the real road to success is just the same in one case as in each of the others. It is not what work you are doing, but how you are doing your work that really counts. You cannot know, unless it were told you, how much personal interest was thrown into the manufacture of H. P. Sauce before its name began to be a household word. The manufacturers—the largest firm of malt vinegar brewers in the world—were determined upon producing a sauce that should touch perfection and so make a name for itself and bring success to the makers.

over the important questions in each department. The city manager of Dayton in a recent magazine article emphasized this point: "No matter what form of government a city may have, if the people themselves are not interested in it and participate in it, that government will never be a success."

VARITIES OF GRAIN FOR THE MARITIME PROVINCES. In Bulletin No. 81, of the regular series issued by the director of the Dominion Experimental Farms and entitled "Division of Cereals: Summary of Results, 1914," Dr. Charles E. Saunders, Dominion cerealist, recommends the following varieties of grain for the maritime provinces:

Spring wheat—Red Fife and White Fife, old standard sorts in the highest class for bread-making; Early Red Fife and Marquis, maturing earlier, are worthy a trial; Harrow and White Russian give good yields, but are not of early ripening and are of lower strength for bread-making, especially White Russian.

War Cannot Slaughter MORE VICTIMS THAN PNEUMONIA.

Pneumonia is described as a preventable disease if taken in time. Pneumonia is the scourge of the able-bodied men and women "a little run down perhaps" but strong in the belief that they can fight off a cold. Colds are not easily fought off in this northern climate.

A Wise Decision. Well knowing his wife's disposition to make him a present regularly at Christmas, the man who realized the absolute necessity of economy in his household said to his wife—"This year you must not make me a Christmas present—I insist. It would be absurd to do so when we are so hard up. I warn you that if you do I shall learn whatever you buy." So the wife thought things over. She could not bear the idea of being deprived of her annual pleasure. Therefore she gathered together her savings, and bought for her beloved as a Christmas present a whole ton of coal.
