WHAT IS BORDEN GOING TO DO?

England Wants To Know About Navy M. P.'S MAKE INQUIRY

What is Intended Policy of Canadian Prime Minister, Ask Sir Gilbert Parker—Norton Griffiths Heard on the Subject, Too

(Canadian Press) London, March 18.—During the discussion on the navy estimates in the House of Commons last night, Sir Gilbert Parker said he regretted that the first lord of the admiralty had omitted to take notice of one aspect of the naval policy.

This was the co-operation of the overseas dominions. He invited Mr. Churchill to say whether the government had any further information as to the intended policy of the prime minister of the imperial navy.

It was a cry often heard in Canada, that if the co-operation of the dominions was desired, they should have some representation. Canadian ministers were urged that they should be sent back with a message to assure Canadians that the admiralty wanted their co-operation and would give them some representation.

The Unionist papers, with the exception of the Standard, welcome Mr. Churchill's speech in which he declared that the battleship programme of this country depended absolutely on that of Germany.

The Times says that by only putting into effect, but especially courteous and friendly words, what all the world knows to be the truth, "We have too good an opinion of Germany to fancy that she cares whether British ministers refer to her by name in many circumstances which can not deceive anybody. Nothing, he said, is expressed in their co-operation and should understand without ill temper or disguise, the conditions in which we carried on within the next few years."

One step has already been taken to ascertain if Mr. Reid was correctly quoted.

COAL BARONS AND MEN ARE NOT FAR APART

Scarce in States Subsidies and, if Strike Occurs, it Will Likely be of Brief Duration

(Special to Times) New York, March 18.—There was a substance of the anthracite strike since today and in consequence there was a falling off in the pressing demand for hard coal by frightened consumers.

The belief is gaining ground that both sides will reach an agreement and that, if there is a suspension of work on April 1, it will not last long. The operators say they are ready to confer with the men on any reasonable proposition and consider the situation from all angles.

There are also reports from the hard coal region that the miners' officials are ready to meet the operators half way. Chicago, March 18.—President Taft may take a hand in the coal situation to avert a strike in the anthracite fields.

There are also reports from the hard coal region that the miners' officials are ready to meet the operators half way. Chicago, March 18.—President Taft may take a hand in the coal situation to avert a strike in the anthracite fields.

COMMISSION BILL UP IN FREDERICTON

Long Discussion Over Some Of The Sections By Committee

The Mayor's Position and Hours—The Board of Health—Labor Men Present Their Case—Consideration Goes Over Till Tonight—Mr. Belyea Replies to Globe Attack

(Special to Times) Fredericton, N. B., March 18.—Delegation from St. John City and County are in the seat of the mighty in the house of assembly this morning until one o'clock and threaded out many of the sections of the new charter for the city of St. John.

There was an earnestness about the discussion that showed much thought on the parts of those who came to watch the legislation. The trades and labor congress was well represented, and the municipal council from Lancaster, members and counsel of the board of health, the slaughter house commission and other bodies were well represented.

Among those from the trades and labor congress were W. W. Allingham and Alfred L. Dever, president and secretary, George Green, Edward Tupper, Municipal Council, John Elliott, Chas. Stevens, Jr., S. Bradshaw, B. McKinnon, George Hennessey, Chas. Long, Thos. Wilson, John Haberfeld, John Corbett, M. J. Burns, J. J. Hughes, J. J. Donovan, W. Saunders and Jas. Sargent.

Section 3 discussed The committee on municipalities with Chairman Munro presiding, met the delegates in the assembly chamber at 10.30. Little or no time was lost in discussing several sections. Kaiser Postpones His Trip Abroad

Some Say Speech By Churchill is a Cause

Officials of Powers Disagree THE OFFICIAL REASON

(Canadian Press) Berlin, March 18.—Emperor William has most unexpectedly postponed his departure for Vienna, Venice and Corfu, which was scheduled for March 22.

This explanation is so indefinite that it may refer either to the coal strike, or as is more probable, to the conflict now going on in connection with the provision of finances to cover the increase in the army and navy recently decided upon and which caused the resignation of Adolf Wermuth, formerly secretary of the imperial treasury.

There is a strong disposition here, however, to connect the emperor's action with the speech delivered yesterday by Winston Spencer Churchill, first lord of the admiralty, in the British House of Commons.

D., now assistant lecturer in geology in Queens University. The congregation guarantees \$1,200 a year, a house and a month's vacation. Dr. Lawson was heard on behalf of the congregation in support of the call.

A resolution calling for an inquiry by the synod into the possibility of increasing the number of students was unanimously adopted.

Laurier Navy "Met requirements" (Toronto Globe).

It would be interesting to learn the reason for the suppression for five months of a memorandum by Admiral Kingsmill on conditions in the Canadian naval service, presented to the commons on Monday. The admiral's report was made in October, shortly after Mr. Borden's government was formed. It is that necessary to speculate at the object of the new government in asking for Admiral Kingsmill's views. If that object was to obtain expert support for the Tory anti-election cry that Laurier's navy was a "tin-pot navy," Admiral Kingsmill refused to provide it by playing politics.

He stated that the late government had called for tenders for four cruisers and six destroyers, the latter of the improved river class. While not ambitious, this scheme, he said, met requirements. He expressed the opinion that it would be in the interests of efficiency if part of the ships were built in England. Cruisers ordered in England could be delivered in a year.

The government's action on this report was significant. It declared that the Laurier programme, which, according to the professional head of the service, "met requirements," was of no benefit to the country, threw out the tenders for construction, and announced the repeal of the Navy Act. Intimation was made of an intention to consult the British Admiralty, but not a single practical step of any sort had been taken to provide Canada with vessels for naval defence. The policy that "met requirements" has been swept aside, and nothing has taken its place save a promise of some action in the distant future. What do the British-born who were humbugged by the talk of Laurier's "tin-pot" navy think of the suppression of Admiral Kingsmill's report?

Disabled on Way to Sydney. Pastnet, March 19—The British steamer Harpeako, which left Cardiff on March 14 for Sydney, C.B., signalled yesterday that she had not in tended to give up her fight for arbitration.

Taft Will Keep up Fight. Boston, March 19—President Taft has informed a committee from the Massachusetts Peace Society that he had not intended to give up his fight for arbitration treaties.

The Evening Times and Star

ST. JOHN, N. B., MARCH 19, 1912.

The St. John Evening Times is printed at 27 and 29 Cambridge Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., a company incorporated under the New Brunswick Companies Act.

Subscription prices—Delivered by carrier, \$2.00 per year, by mail, \$2.50 per year in advance. The Times has the largest advertising circulation in the province.

NO NAVAL POLICY About the same time that Mr. Hazen in Ottawa yesterday was throwing out a suggestion that Canada might seek representation on an imperial board controlling the navy, Mr. Norton Griffiths, M.P., in the British parliament, was urging the British government to offer such representation to the overseas states.

Among the most satisfactory news items concerning the growth of St. John are those which tell of the erection of new warehouses and of buildings on vacant lots. There are many such vacant spaces about the city, and if the owners will sell at anything like a reasonable figure, we might fairly anticipate considerable building activity in the city proper in the next year or two.

The Ottawa Free Press says: "Some idea of the present conditions in the West may be grasped from the statement made in the Commons last night by E. V. Nesbitt, M. P., for North Oxford, that in one week in one court 600 writs were issued by implement companies. That is a pretty serious state of affairs and the farmers have no relief. Their wheat is rotting on the ground and it's not their fault."

LOOKING TO OTTAWA The members of the legislature with great cheerfulness and unanimity yesterday adopted a resolution calling upon the federal government to spend \$1,000,000 per year for ten years on agricultural and industrial education, the money to be handed over to the governments of the different provinces to be expended.

The meeting of the Farmers' and Dairy-men's Association should be one of more than ordinary interest and value. President Campbell, in his address yesterday, pointed out that New Brunswick imports much farm produce which should be raised in the province.

SENATOR DANIEL The appointment of Dr. J. W. Daniel to the senate will be generally approved in this city, of which he has been for so many years a leading citizen. It will not be contended that Dr. Daniel was a brilliant member of the House of Commons, or that he did all that might have been in his power to do to assist Hon. Dr. Pugsley in advancing the interests of the port of St. John; but he was in a general way a good representative, and one who retained the respect and esteem of his fellow citizens.

THE CONSTANT DRAIN It is well that there is a movement afoot to bring immigrants to New Brunswick, and if possible to bring back many of those who have left the province to make homes elsewhere.

IN LIGHTER VEIN MAN AHEAD OF HIM. (Cosmopolitan Magazine). Mayor Marston of Columbus, Ohio, tells the following story: "A teacher said to her class: 'Who was the first man?' 'George Washington,' a little boy shouted promptly. 'How do you make out that George Washington was the first man?' asked the teacher, smiling indulgently. 'Because,' said the little boy, 'he was first in war, first in peace, and first in the hearts of his countrymen.' 'But at this point a larger boy hid up his hand. 'Well,' said the teacher to him, 'who do you think was the first man?' 'I don't know what his name was,' said the larger boy, 'but I know it was George Washington, ma'am, because the history book says George Washington married a widow, so, of course, there must have been a man ahead of him.'"

PRACTICAL NEEDS. (Washington Star). "I shall sweep everything before me," remarked the beautiful candidate. "Well," replied the snow-white citizen, "I wish they'd take you out of national politics and put you at the head of the street-cleaning department."

HOW HE WAS HURT. (Judge). Sunday School Teacher—And when the prodigal son came home, what happened, Tommy? Tommy—His father ran to meet him and hurt himself. Sunday School Teacher—Why, where did you get that? Tommy—I said his father ran and fell on his neck. I believe it would hurt you to fall on your neck!

ANOTHER VIEWPOINT. Sometimes companions tell me jokes. "I had I have heard. Sometimes the woe of other folks. Sometimes the woe of other folks. A chap can't always break away, And people bore me every day. Perhaps my jokes are told to some Who think them true. Perhaps my tales of woe become Annoying quite. I never thought of it before, But maybe sometimes I'm a bore. —Washington Herald.

TELEPATHY. "I suppose," said the physician, smiling, and trying to appear witty while feeling the pulse of a lady patient, "I suppose you consider me an old hunchback?" "Why," replied the lady, "I had no idea you could ascertain a woman's thoughts by merely feeling her pulse."

HIS ADVANTAGE. "I suppose even a rich man has his troubles," "Yes, but he can always find somebody to take an interest in them."—Louisville Courier Journal.

HARMONY DESIRED. Wife—"How nice it would be if all things in this world would work in harmony!" Hub—"Wouldn't it, though! For instance, if coal would go up and down with the thermometer."

YOUTH'S THEOLOGY. The Clergman—"Now, can anyone tell me what are the sins of omission?" Small Boy—"Yes, sir. They are the sins we ought to have done and haven't."—Exchange.

THE ONLY WAY. "I wish I could save my gas and coal bills." "You can." "How?" "File 'em."—Browning's Magazine.

MAKING A BAD MATTER WORSE. "Your wife seems to be very angry?" "Yes." "What's the trouble?" "I didn't inquire. That only makes 'em worse." "Happiness," declaimed the philosopher, "is the pursuit of something, not the catching of it." "Have you ever," interrupted the plain citizen, "changed the last car on a rainy night?"

THE MATCH. "Knicker—What did they have in common?" "Booker—Gardening. He had a business plant and she had widow's weeds."

WELCOME WORDS TO WOMEN Women who suffer with disorders peculiar to their sex should write to Dr. Pierce and receive free the advice of a physician of over 40 years' experience—a skilled and successful specialist in the diseases of women. Every letter of this sort has the most careful consideration and is regarded as strictly confidential. Many sensitively modest women write fully to Dr. Pierce what they would shrink from telling to their local physician. The local physician is pretty sure to say that he cannot do anything without an examination. Dr. Pierce holds that these distasteful examinations are generally needless, and that no woman, except in rare cases, should submit to them. Dr. Pierce's treatment will cure you right in the privacy of your own home. His "Favorite Prescription" has cured hundreds of thousands, some of them the worst of cases. It is the only medicine of its kind that is the product of a regularly graduated physician. The only one good enough that its makers dare to print its every ingredient on its outside wrapper. There's no secrecy. It will bear examination. No alcohol and no habit-forming drugs are found in it. Some unscrupulous medicine dealers may offer you a substitute. Don't take it. Don't trifle with your health. Write to World's Dispensary Medical Association, Dr. R. V. Pierce, President, Buffalo, N. Y.—take the advice received and be well.

KITCHEN MOTTOES

"For several years," said a woman who is alert for new things, "we have been able to find mottoes framed, appropriate to hang near the fireplace, in the boy's den, and near the entrance into the living room, but it has been left till now for some one to hit upon the motto for the kitchen. The other day I saw several of these for sale, framed appropriately to hang in the culinary department. 'What were some of the sentiments?'"

Well, one that struck home was 'Goes and ruin the cake.' Another contained a most excellent bit of advice which, if acted upon, would make the day a cheerier one for anybody who cooks. This was 'Stir a smile into the pudding.' Another read, 'A merry heart makes light pasta.' The only other one I can now bring to mind is this: 'Order, cleanliness and know-how—these three; but the greatest is know-how.'—Newark News.

As yet the suffragettes haven't charged the politicians with Adam's downfall.

The Blue Pencilling of The Presentation List At Royal Court

LONDON SOCIETY NEWS

Picture of Canadian Girl Illustrates the New Art Idea of Women's Dress—News of People From Dominion in England and on Continent

(Times' Special Correspondence) London, March 9.—Through the appointment of Lord Sandhurst to be the new lord chamberlain in place of Lord Spencer, who recently resigned on the score of ill-health, was rather a surprise to a great many people, yet an entirely just and an admirable one. His early connection with the court as lord-in-waiting to Queen Victoria gave him good experience in the intricate duties of court life, which he will find invaluable, and he has a memory so famous that a friend once said of him, "Sandhurst is a man whose mind files all the facts that other minds forget."

These two qualifications fit him well for a task no man on earth should envy him. Besides entailing very hard work, especially on occasions such as coronations and so forth, the job is at once a delicate and a thankless one. And Lord Sandhurst has stepped into it with a wide and unflinching heart. You have heard already of the overcrowded state of the presentation lists, and it has with Lord Sandhurst "blue pencil" certain names of young damsels anxious to be presented, and in many cases, to pacify indignant mothers of the town.

Lord Sandhurst entered the Coldstream Guards on leaving school and served all through the Indian Mutiny, being present at Lucknow and Cawnpore. He was commander of the forces in Ireland in 1879 and under secretary for war in 1880 and 1882, so that he has had a wide experience of the world in many circumstances. The new British ambassador at Bucharest (Roumania) Sir George Barclay—who has recently been in Persia—has a very charming wife who has accompanied him in nearly all his diplomatic travels, and they have a little daughter, who already speaks four languages—and is learning a fifth. When the George was promoted from Constantinople to Tehran his income rose from \$5,000 a year to \$27,000, and it will remain the same at Bucharest.

Lady Barclay is an old friend of "Carnegie's," the white-haired great-granddaughter of the philanthropist, and she has a literary and philanthropic, in common. At the royal palace she has the habit of sitting with its antlered halls, Lady Barclay and the queen have spent many pleasant hours together at music, discussing poetry, and planning schemes for the help of poor people.

The lost line of womanly beauty and the graceful modern dress of woman is a subject full of interest now being discussed by society women and fashion designers. Paris was the originator of the discussion, and her artists are engaged in designing dresses which will give the feminine line "an approach to the alluring contour of the Venus of Milo."

In London the question was quietly taken up by Solomon J. Solomon, R.A., who agreed with the Paris critics that the restricted skirts of the modern dress is ungraceful, and who launched a philippic against the prevailing mode. Saying that women to be graceful require a "base" and that the present day attire is a very ugly prison for the figure, he advocates a return to what he terms the graceful lines of the Dr. Mauger women, which means an approach to the Victorian atrocities.

There is, however, a sharp division of opinion, both among fashion leaders and painters, and many prominent artists dissent from Mr. Solomon's views and deplore what they term a retrograde step in dress.

Curiously enough, at an artistic reception last week, the painting of a beautiful young Canadian lady, which is now being executed by A. Danter May, a popular society portrait painter, was given as an outstanding example of modern artistic attire. The painting, which will probably be exhibited at the Royal Academy in October, is a study of the new fashion.

I bought a box of Milburn's Heart and Nerve Pills, and they did me so much good I continued their use until I had used several boxes, and they restored me to health again. ASK FOR COMMISSION TO PROTECT FOREST, FISH AND GAME HERE

During the evening J. L. Jones, H. T. Marshall, Bert Kennedy, J. Terry and J. Robertson from the Empire of Ireland; D. B. Pidgeon, Fred Macneil and D. Arnold Fox added to the entertainment with musical selections.

The meeting was presided over by a close by these present joining with D. B. Pidgeon in singing O Canada, and God Save the King.

The annual meeting of the association took place before the public meeting and the officers for the coming year were selected as follows: J. Fraser Gregory, president; W. H. Thorne, first vice-president; E. A. Smith, second vice-president; John Shaw, J. R. Thomson, G. E. Day, J. C. Cheley, H. Gilbert, H. McLeish, G. M. Barker, R. B. Patterson and G. Smith as the executive committee.

The secretary's report showed that the association is in a very flourishing condition. The secretary's report stated that 238 members were enrolled and four game wardens had been selected on recommendation of the secretary. Several cases of pollution of streams had been dealt with and the city engineer had reported that the fishways at Loch Lomond would be properly fitted as soon as possible. The inspectors of the marine and fisheries department had looked at some of the rivers.

The protection of New Brunswick's fish, forests and game by a commission with full power to enforce the laws was advocated at a public meeting held under the auspices of the Fish, Forest and Game Association in Keith's Assembly rooms last evening and a resolution to this effect will be forwarded to the local government.

Hon. Chas. E. Oak, of Bangor, told of the commission methods employed in Maine and the results secured. In urging the necessity of greater protection he said that they figured that a moose in the woods was worth \$50 to the state, as it cost an outsider that much, on an average, to secure one.

J. A. Knight, game commissioner of Nova Scotia, described the system there and said that only lack of funds prevented them from making it more complete. Thomas Allan, superintendent of the Tobique Salmon Club, told of their methods of preserving fish in that stream, which has been of great value to the fishing in the lower river and harbor as well.

The executive was given authority to purchase the fishing privileges of the South Branch of the Orontocott river in St. John and Charlotte counties which have been damaged, and reported that the fishways would be repaired in the spring. It is expected that a shipment of trout will be secured to stock some of the lakes in this vicinity and an attempt will be made to have the government establish a hatchery in this province.

The report also said that the secretary regretted that the government did not seem disposed to help the association and

OUR ATTEMPTS TO GET A GRANT HAVE MET WITH FAILURE AS HAVE ALSO OUR EFFORTS TO GET THE SOUTH BRANCH ORONTOCOTT LAKE OPEN TO THE PUBLIC. THERE SEEMS TO BE A LACK OF SYMPATHY SOMEWHERE.

The report also said that the association had presented at its own expense and the lines had been turned in to the government. A great deal more could be done with a little assistance, but the government did not seem to want the help of the members of the association.

It is possible that legislation will be passed at next session at Ottawa for the appointment of a permanent industrial commission. The adjustments of disputes between capital and labor would be one of the duties.

Hon. F. D. Monk has given notice of a resolution at Ottawa, amending the Dry-Stock Subsidies Act, increasing the amount on which the government will pay the three and a half per cent subsidy from \$1,000,000 to \$5,000,000.

A campaign for the diversion of the Harvey & Salisbury Railway to Moncton was opened at a meeting of the Board of Trade in the railway town last evening. It was decided to memorialize both governments and ask for the construction of a combined railway and highway steel bridge at Moncton to replace the present wooden highway bridge.

REAL ESTATE TRANSACTIONS IN CITY AND VICINITY

There is unusual activity in real estate in the suburbs and the summer residence districts this spring. Larger numbers than ever are planning to spend the summer in the country, and the activity in the city real estate has turned people's minds in the direction of land purchase, and is making its effect felt on this class of property.

W. F. Hatheway, M. P. P., has leased the property of Rev. Lindsay Parker at Gondola Point, and is interested in that understood, in some farm lands in that vicinity. T. B. Roberts has sold ten lots at Fair Vale to St. John people, who will build summer houses thereon.

A syndicate of St. John men are about buying the Chamberlain property between Gondola Point road and the Kennebec cause. It consists of 100 acres and the Valley railway route has been surveyed right through it. It is to be subdivided into lots and placed on the market.

Peper-Campbell is making a negotiation for the purchase of additional lots from Joseph Chamberlain which adjoin Mr. Campbell's summer residence. Two new houses have been built at Renforth by D. L. Noble, of St. John.

NEW FISH DISHES FOR LENT

At this season fish finds its way to the table more frequently than at any other time of the year, and the housewife has opportunity for trying new fish dishes. A delicious way of cooking mackerel, a favorite in parts of Germany, says the Newark News, is this: Select a good-sized fish and score it across the back. Add two cups of hot water, a teaspoonful of salt, a sliced onion and two tablespoonfuls of vinegar. Cook it in the oven or on top of the stove for three-quarters of an hour. Drain and cook the sauce for a few minutes, add a dozen capers, and pour it over the fish.

Baked salmon prepared a little different from the usual is this: A large flat earthenware or enameled dish is buttered, and the fish, split open, is put on it. Make a forcemeat of the rice, some bread crumbs, parsley, bayleaf, thyme, butter and six mushrooms chopped and mixed well. Spread the fish with this, sew up and bake it for an hour, basting it with a cupful of stock seasoned with lemon juice, onion and carrot.

Broiled flounder or bluefish is exceedingly tasty prepared after this recipe—Cover the fish—split the bluefish—with a mixture of vinegar, chopped onion, herbs, salt, pepper and olive oil. Set it in a cold place for an hour, turning it often so it will be well marinated. Drain and dip it in fine bread crumbs, then in egg and again in crumbs. Roll till brown, and serve with a sauce tartare. The fish may be cut in pieces convenient for serving.

To prepare smelts in this way, large ones should be selected. Clean, dry and remove the backbone from 18 smelts. Stuff each with a forcemeat of bread-crumbs, butter, chopped onions and mushrooms seasoned to taste. Put in a dish, cover with some chopped onion, the juice of a lemon, a cupful of milk and an ounce of butter. Bake for half an hour. Serve with a border of parsley and drawn butter sauce, to which some lemon has been added.

A simple way to cook herring is this: Clean and split each fish. Let them stand for an hour in olive oil seasoned with a little parsley. Broil over a slow fire, and serve with melted butter, lemon juice and minced parsley. If the fish does not absorb all the olive oil, it will be found delicious for a French dressing.

Herring, cleaned, split and then rolled in cornmeal and fried in salt pork fat or oil. These should be served garnished with lemon and parsley.

Daily Hints For the Cook

SAVE THE RINDS.
All bacon rinds (cut off before cooking the bacon) should be saved and after being carefully washed, stored in a preserve jar, says Today's Magazine. They will be found delicious for seasoning all the spring greens in cooking, imparting a particularly "lusty" flavor and giving an added zest to boiled or fried chicken.

APPLES FRIED IN BUTTER.
Roast three eggs well, add a tablespoonful of sugar and three of flour, also the apples, dip them in the batter and fry in butter. Take them up, sprinkle with powdered sugar and serve hot.

GREYHOUND APPLES.
Core and peel sufficient medium-sized apples to fill a deep dish, and boil whole until tender in a light syrup made of a pound of sugar and a cupful of water boiled together for ten minutes. Boil until soft a quarter of a pound of rice in milk, sweetening to taste. It should be light and dry, not boiled till puffy. Put a thin layer of the rice in a deep dish. Then carefully lay around the edge the boiled apples, afterward filling the centre with the rice. Set in a hot oven until the apples turn reddish and the rice brownly light, then serve with custard sauce or cream and sugar.

DID WELL HERE

(Montreal Standard.)
Montreal real estate is not the only kind that makes fortunes for the purchasers. G. W. Badley went down to St. John city bought the "McLaughlin" farm, overlooking Courtenay Bay, for \$45,000. The farm was subdivided and syndicated and Mr. Badley has sold about one-quarter of it for sufficient to pay for the whole. Mr. Badley was the pioneer in the "McLaughlin" farm, and the balance in monthly instalments in St. John, and the laboring classes were very anxious to secure lots on those terms. So the deal was very profitable for him.

WORTH KNOWING

Unbleached muslin makes an excellent cover for the ironing board. If two or three pieces, cut and hemmed to fit, are kept at hand, there will always be a fresh cover ready in case of mishap. In excellent colery seasoning may be made at home. Get five cents worth of celery seed; run it through the finest knife of the grinder or break it in a mortar; mix with about ten times its bulk of table salt and bottle.

Select large prunes, soak them overnight, and then remove the pits carefully; stuff each prune with nut meat roll in sugar, and serve as one would stuffed dates.

After washing dusters, dip them in kerosene and dry in the open air. This makes an excellent home-made "dustless" duster. Dry mops may be similarly treated with good effect.—Newark News.

CONTRACTED HEAVY COLD

Was In Bed Two Months.

DOCTORS DID NOT SEEM TO DO HER ANY GOOD.

A cold, however slight, should never be neglected, for if it is not treated in time it will, in all probability, lead to bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.

Dr. Wood's Norway Pine Syrup contains the lung healing virtues of the Norway Pine tree, which, combined with other absorbent, expectorant and soothing medicines, makes it without a doubt the best remedy for all coughs and colds.

Miss N. McCumber, St. Martin's N.B., writes:—"In January last I contracted a heavy cold which kept me in bed nearly two months, and the doctors didn't seem to be able to do me any good. I tried several proprietary medicines, but all in vain. One day a friend advised me to try Dr. Wood's Norway Pine Syrup, and when I had taken three bottles I was completely cured, and I feel as well to-day as I ever did, and I am sure my lungs are once more sound, thanks to that wonderful remedy."

Dr. Wood's Norway Pine Syrup is put up in a yellow wrapper, three pine trees the trade mark; price 25 cents.

Wall Street Notes

New York, March 19.—Americans in London regular, with small changes. Billwell resigns from the Mexican Orient R. R.
Geo. F. Baer says operators are willing to confer with miners again.
Attorney-General Wickham promises definite reply to International Harvester Co. re-organization plan within a few days.
National Lead earned 3.58 on common stock, compared with 4.32 previous year. The Mexican situation becomes more pressing.
Money demands from abroad may lead to some liquidation from Germany.
Austria also has its monetary disturbances and April 1 is close at hand.
Most of the papers talk very optimistically about a coal strike here and think it doubtful, but it is difficult to see what they base their conclusions on. As to the stock market, there is considerable bullish sentiment in the street. Politics are not taken into account at present.

COLDS MOST FATAL AT THIS SEASON

This is the time of year when colds seem to turn into pneumonia or quick consumption and to prove more generally fatal than at any other season.

With many people one cold follows another during the winter months until finally the human body becomes so run down that it can no longer resist the attack of the germs which cause lung trouble.

The best rule is to never allow a cold to get farther than the throat, and this you can do by the prompt use of Dr. Chase's Syrup of Licorice and Turpentine.

Dr. Chase's Syrup of Licorice and Turpentine loosens a cough, aids expectoration, and soothes and heals the irritated and inflamed membranes.

ENGLAND'S GREATEST CHARACTER ACTOR TO BE HERE THIS WEEK

Advertisement for 'The Pyramid Smile' featuring a smiling woman's face. Text: 'Many cases of Piles have been cured by a trial package of Pyramid Pile Remedy for clean fun and laughter situations and complications. Dear Old Billy excels even such of his illustrious predecessors from the Private Secretary, Charles's Aunt, Arabian Nights, and Jane. The action of the piece is woven around a kindly, easy-going gentleman of middle age (William Smith) who, for twenty years has been harassed by a dominating wife. In an effort to secure much needed liberty, rest and repose, he secures legal separation, the terms of which stipulate that he shall pay her seven hundred and fifty pounds annually. It is further arranged that in the event of their meeting, she is not to interfere with him in any way, or make known their relationship, or even speak to him on penalty of forfeiting her yearly allowance. Smith's appearance at the seaside, where he is showered with attentions by well-meaning women, and the ultimate results give an evening of rare merriment to the audience. Mr. Hawtry and his company will appear on Thursday, Friday and Saturday this week at the Opera House.'

SCENE FROM DEAR OLD BILLY—MR. HAWTRY IS ON THE LEFT

An event of notable importance will be the coming to St. John of the eminent English character actor, William Hawtry, and his distinguished London Company in their laughing comedy of two continents, Dear Old Billy, a clean and wholesomely funny farcical comedy in three acts by W. B. Rague. This piece comes almost directly from its run of a hundred nights in Chicago where it was one of the three attractions that endured the hottest summer that Chicago has ever known. Mr. Will J. Davis, manager of the Illinois Theatre in that city, referred to Dear Old Billy, as the best piece of comedy he had ever seen in Chicago in twenty years. Mr. Percy Hammond, dramatic critic of the Chicago Tribune, says: "It is a facile example of playing and one quite worthy of Mr. Hawtry's part." The Detroit Free Press says: "Anybody who thinks an Englishman has no sense of humor should see Dear Old Billy, it is the best imported farce since Charles's Aunt. The audience shrieked with laughter. Hawtry is immense and his support is admirable."

New Bay Steamer. Shelburne Gazette.—Captain Ernest H. Lewis of Freeport was here last week inspecting the steamer now on the stocks in Joseph McGill's yard which is being built for the New Burwell-Johnson Iron Company of Yarmouth. The new boat is eighty-five feet over all, twenty feet beam, nine feet deep, and is designed for eleven knots with a 1326 engine. The new boat will be launched the last of April after which she will be towed to Yarmouth to have her machinery installed by the Burwell-Johnson Iron Company. She will be thoroughly equipped for passengers and freight and built of the very best material. She will be owned by Charles F. White & Son of Apple River and commanded by Capt. Lewis.

WAITED THIRTY YEARS FOR WEDDING RING. Remarkable Patience of German Sweethearts, Bound by a Will. Berlin, March 18.—An extraordinary romance of love is reported from Balingen, where Hermann Heesberg, a shipowner, has just married a woman to whom he had been engaged for thirty years. When Heesberg was twenty-eight he fell in love and was about to marry. To his chagrin, however, a wealthy aunt, upon whose financial assistance the lovers had been counting, forbade the marriage upon penalty of disinheritance. The ceremony was accordingly postponed, and Heesberg and his bride-elect awaited with what amount of patience they could summon for the removal of the only barrier that still kept them apart. Before long the aunt died, and the last obstacle to happiness seemed to have been surmounted. But when her will was opened the lovers found that her nephew had been appointed heir upon one condition. That condition was that he did not marry the lady of his love for at least another thirty years. This intelligence was communicated to the unhappy girl, and, with stoical resignation, the lovers settled themselves down to the prospect of a thirty-year's courtship. Their period of probation has now expired, and they have become husband and wife. The marriage, however, had to take place in the house of the bridegroom, who is confined to his room with a heart complaint.

LAND PLENTY BUT TILLERS ARE FEW

Arthur Hawkes, in Ottawa, Says New Provinces Should Not be Populated at Expense of Old

(Ottawa Journal) Arthur Hawkes, commissioner of immigration, is in the city in connection with matters pertaining to his department and to present his report on the result of his investigations into the immigration problems of Canada.

"All indications point to increased immigration to Canada," said Mr. Hawkes. "The Ontario government recently set aside the sum of \$5,000,000 for the settlement of New Ontario. That means immigration to colonize the districts opened up. Donald Sutherland, M. P., former director of colonization, pointed out to the House of Commons not very long ago that in Ontario alone there were twenty-one good farming counties in which the population had decreased 50,000 during the last decade. The new provinces should not be populated at the expense of the older ones, and the immigration question appears to be the solution of the problem to prevent this."

"All the provinces are coming to realize the importance of the immigration question. Nova Scotia recently voted a large sum of money for the reclaiming of unoccupied farms in that province, and New Brunswick has signified its intention of following the same course."

"For the first time in the history of the country there was held in Fredericton, N. B., a short time ago an immigration conference at which that question was fully discussed. At the conference a strong resolution was passed asking the government to utilize the public credit for the settlement of public lands. At the conference Premier Fleming stated that in the last few months he had acquired an entirely new vision of the immigration problem."

"While the immigration problem is no doubt a serious problem," continued Mr. Hawkes, "there is another matter to be dealt with—the settlement of the lands, for without settlement of our lands we cannot get the production, and that is the vital issue of the country."

"Emigration from the old country to Canada is the greatest thing possible for British Unity. Greater than a navy or an army or anything else. By getting the right class of people here from the old country, we get the spirit of Britain here. Lord Grey pronounced the doom of London in a speech in that city a few days ago when he said that Canada was the future centre of the empire. That is true, and it is to this country, the heart of the empire, that the immigration problem is such an important problem."

BOY IS WEALTHY BUT NEAR STARVATION

Property Tied up by Lawsuits But Court Releases \$600

New York, March 18.—George Brinkerhoff, the thirteen-year-old son of the late Consul-General Brinkerhoff, is owner of an estate worth \$60,000. His income, on paper, is sufficient to give him all the comforts of life, but in reality the youth, because of the legal entanglements of the estate, is starving. This was revealed in proceedings before Surrogate Fowler, where efforts were made by annual for the boy to get some income for him. It was shown that since the death of Colonel Robert Allen, trustee of the estate, most of which is located in Cuba, the country in which the father was stationed, the mother of the boy has pawned many belongings to provide for the child. A new trustee, Thomas H. Van Ting, of No. 78 Eighth avenue, was appointed, and \$600 was made available at once.

WHEN THE FOOD FERMENTS

Chronic dyspepsia is essentially a disease of the intestine rather than of the stomach. The trouble is caused by the food passing too slowly along the alimentary canal and fermenting instead of being digested. It will be found that the liver is enlarged and the bowels constipated. The fermenting food gives rise to gas, which crowds the lungs and heart, gives rise to belching and to smothering sensations. The stomach gets sour, the food repeats and leaves sour taste in the mouth; you feel out of sorts and are unfit for work or pleasure. By using Dr. Chase's Kidney-Liver Pills you can get rid of this congested condition of the digestive organs in quick time. The liver is awakened at once, the bowels are regulated and the system is thoroughly rid of the poisonous waste matter which has been causing so much trouble.

Fragrance

WHEN you open a tin of Red Rose Coffee, you will surely be pleased with its unusual fragrance, and you will note particularly the small, even grains, free of the yellow flake or chaff which you have always been accustomed to see in the ground coffee you have used. This is the result of our new crushing process. The small grains settle quickly, so the coffee is never muddy, but always bright and clear. You will be convinced before you taste it, that it is a coffee of unusual quality.

BRITISH NAVY ESTIMATE: CHURCHILL STATES POSITION

London, March 18.—Winston Spencer Churchill, first lord of the admiralty, today introduced the naval estimates for the coming year, in the house of commons. The appropriations called for amount to \$29,477,000, a decrease of \$1,332,000 from the amount spent last year. The first lord accompanied the introduction with a straight talk to Germany promising an augmentation, or a reduction of British naval construction to correspond with Germany's naval program. He said he regretted the necessity of referring specifically to Germany, but continued: "The Germans are a bold, robust nation, whose strong masculine sense and high courage do not recoil fear and are not offended by plain facts if they are expressed with courtesy and sincerity." The first lord laid down a sixty per cent superiority in battleships and cruisers of the dreadnought type, as compared with the German navy as a convenient basis for the next four or five years. The first lord also foretold a more democratic of the navy by the promotion of 25 or 30 warrant officers commission rank as sub-lieutenants.

Local Amateurs do Well In St. Patrick Day Plays

THREE PRODUCTIONS

Father Mathew Boys, St. Peter's Y. M. A. and St. Rose's Dramatic Club—Enjoyable Banquet Held by A. O. H.

The festivities in connection with the observance of St. Patrick's Day were brought to a successful close in St. John last evening with entertainments for the benefit of the Catholic orphans. At all large audiences attended, and were well pleased with the merit of the performances given. After the play in the Opera House the members of the P. M. A. Dramatic Club had luncheon in Bond's restaurant with a round of toasts and musical numbers. Wm. P. Higgins, of St. Stephen's, presided. The A. O. H. also conducted a very enjoyable banquet in their rooms in Union street which were beautifully and appropriately decorated in honor of the event.

Opera House

A capacity audience attended the performance of Robert Emmet, produced by the Father Mathew Association for the benefit of the orphans, in the Opera House last night. The play was a great success and all taking part acquitted themselves admirably. Steve Hurley, in the role of Emmet, made a distinct hit and played the part in an excellent manner. He was ably supported by David Higgins, who played Duddy O'Garra. William Ryan, St. Louis Monahan, James Conlon, J. Lynch, John O'Brien and Fred Hazel, in their roles also did well.

St. Peter's

The production of the three act Irish comedy drama, "Wicklow" by the Dramatic Club of St. Peter's Y. M. A. in Bismarck last evening was witnessed with intense pleasure and interest by the largest audience ever crowded into the building, and it proved to be a distinct success, artistically and financially. The hall has been completely renovated and it is hardly recognizable as the large auditorium of a few months ago, and now displaces from the hands of capable painters, carpenters and decorators, it is resplendent in its new garb. The colorings are chiefly white and green, with tasteful touches of gold, and attractive designs reminiscent of Ireland about the walls, including the harp and the shamrock, the latter entwined with the maple leaf of Canada. The decorative arrangements as well as

A. O. H. Banquet

At the banquet given by Division No. 1 there was a large attendance of members and their friends of the auxiliary, and all thoroughly enjoyed themselves with the programme, and the able and forceful speeches. Fred L. Barrett, president of the division, presided, and gave a very able address. Beside him at the guest table were the presidents of other Catholic divisions, who were accorded a hearty welcome. Vice-president O'Neill acted as deputy-chairman.

JUSTICE OF THE PEACE

TELLS REMARKABLE EXPERIENCE WITH ZAM-BUK.

SUFFERED FOR YEARS WITH ECZEMA & ULCERS, NOTHING SEEMED ABLE TO DO HIM ANY GOOD. ZAM-BUK CURED HIM.

Mr. J. E. Arsenauf, a Justice of the Peace, and station master at Wellington, on the Prince Edward Island Railway, says:

"Four years ago, I slipped in the station and fell on a freight truck, sustaining a bad cut on the front of my leg. I thought this would heal, but instead of doing so it developed into a bad ulcer and later into a case of eczema which spread very rapidly and also started on the other leg. Both legs became so swollen and sore that I could only go about my work by having them bandaged. My doctor said I must stop work and lay up. After six months of this trouble I consulted another doctor, but with no better result. I tried all the salves, liniments and lotions I heard of, but instead of getting better I got worse. This was greatly to my delight that first box gave me relief. I continued to apply it to the sores, and day by day they got better.

"I could see that at last I had got hold of something which would cure me, and in the end it did. It is now over a year since Zam-Buk worked a cure in my case, and there has been no return of the eczema or any trace of it. It would be impossible to find a case where the sores were worse than those on my limbs, and I think Zam-Buk is a marvelous healing balm or it could not have cured me as it did when all else failed."

WHAT ZAM-BUK CURES.

The above is but one example of the wonderful cures that Zam-Buk is daily working. Fairly heretofore in competition, this great balm is a sure cure for all skin diseases, cold sores, chapped hands, frost bites, ulcers, blood-poisoning, varicose sores, piles, scald sores, ringworm, inflamed patches, cuts, burns and bruises.

CONSORT OF KAISER AS AUTHORESS

Her Majesty has Biography of Father to Her Credit, Now Prepares Collection of Sister's Letters

(Times Special Correspondence.)

Berlin, March 18—Germany's Kaiserin is so unflinchingly a crowned authoress that few people realize her great interest in letters. As a fact, however, she is preparing a collection of the letters of her sister, Princess Feodora of Schleswig-Holstein, who died two years ago. A biography of the princess has already appeared. Princess Feodora, who was an invalid and never married, was herself an excellent novelist and an expert authority on the life of peasants and fishing-folk in Schleswig-Holstein.

The Kaiserin once collaborated in a biography. This was the life of her father, the late Duke Frederick. Her younger brother, who is an authority on court affairs, says that the Kaiserin reads nothing but biography and history and that she likes her biography and her history to be lively and animated. Her favorite foreign historians are Macaulay and Prescott, and her favorite biographer is Reinhold Koser, who produced a great life of Frederick the Great, for which Kaiser Wilhelm lately bestowed on him a high decoration. Dr. Koser is director of state archives of Prussia.

HEARD AND SEEN IN MALE ATTIRE

There was once a certain Rising Young Man who entered in a clothing store in an office who could not resist an itching you more about what was going on in the office than all the rest of the employees put together, and the Boss himself thrown in for good measure. As a little little news-gatherer of office gossip he was the only and original Peal Fry. He knew when Stimpkins borrowed five dollars from Smithson to pay his gas bill, and straightway he asked the man next him whether he thought Stimpkins was spending his money in a poolroom or a racket-shop—since it could scarcely be "boose" that was claiming it.

He could always tell you just who was due for a raise on January 1st and who was not—and he knew the salary of every man in the office. He could and did yell like thunder at the hipples of the boy—and smirk and bow and scrape before the Boss. Besides that, he could tell the Boss on some other fellow's shoulders when anything went wrong in the office work quicker and more competently than the whole rest of the office force could express their regret of the mistake and beg for pardon to set it right. Have you one in your office like that? Well, then, you're in an office that is three-bosomed.

kind who never grumbles or rudely makes an reply when you say "good morning" to him.

There was once a certain Rising Young Man who could not resist the price of potatoes, even without bustling and bragging about the kind he grew. His grandfather used to raise back in 1860, and he would express an opinion—and that too, as though it were a personal matter and the other fellow a liar—about any and everything under the sun. He'd have the best word on the matter or die in the attempt. He was forever and a day talking about fights and fighters and "yellow streaks" and "quitters." He carried a clasp on each shoulder and smothered with his teeth, and seemed faintly by sticking to have someone knock it off.

He considered himself the leader of all the rest in everything, and he talked himself into believing that everyone in the office feared him—mentally and physically. He was it once and only real man's man. When he played cards he banged his head down on the table as often play and he pulled and stormed and talked to himself if a clasp told him he'd failed to follow suit.

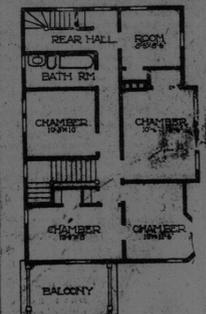

In poker, for instance, if he called a "raise" and the "show-down" showed he considered it a powerful display of his own nerve. If the other fellow bluffed him out, he considered it merely an error in judgment, and not a defeat. "How do you feel?" he would ask of his opponent. "No, no, give 'em, you don't have to be told more about him, do you?"

He poked as bias in the extreme and burst of the whole pettiest business, but he'd never fall out of the window rubbering at a girl who happened to glance in his way, and declared them all idiots for wearing hobble skirts and muskroom hats. But his humor was mighty fond of hell socks and bright scarves, and without his cane he'd positively feel un-dressed. Do you recognize him? Yes, well, he's a mollycoddle!

and this is to be filled with sand and seaweed. A regulation base placed near one end of the pit will complete the outfit.

"Sliding will be the added number to our 1912 programme. The way we have arranged the sliding feature should provide considerable amusement and enjoyment for the players, and at the same time fit them in one department of the game where few players are really proficient. I hope that this will work out as successfully as our spirit feature worked last year."

Great Lung Power. Seattle, March 18.—Harry Knox, a six-foot freshman at the University of Washington, a member of the freshman rowing crew, is said by Dr. Hall, physical director of the university, to have the greatest lung capacity on record—47 inches. The record was formerly held by a German named Van Boeckman, with 43 inches. Knox's home is in Olympia.

The Hero. "Dublin Giant" Takes Count Jim Coffey, the Dublin giant, died, literally speaking, on Friday night at the New Polo A. C., New York, but before he fell for the long sleep he did his best, and that was some best. Soldier Kerns handed the visitor from the Emerald Isles the opinion. It came in the last few seconds of the first round. The battle was short, but it was great while it lasted.

Coffey started off like a hurricane. He chased the Soldier around the ring and suddenly shot a straight left that staggered his rival. The Dublin giant tried to take advantage of the situation. As he measured Kerns the latter revolved and with a terrible right sent Coffey to the mat.

He was up, only to be knocked down again. Another right caught his head to bump the canvas. When he arose, slightly wobbly, Kerns measured him with a deadly accuracy. Ten seconds later the referee had finished telling ten.

"Mickey" McIntyre to West. The Sydney Record says that Mickey McIntyre, Cape Breton lightweight, is going west. This boxer was developed by Dan Smith, formerly of St. John, and he has some years in Sydney. He trained him for his important bouts and to the professor is given a major share of the credit for bringing him along. The Record says: "Mickey was particularly anxious for the west on April 1 to have a bout with young Kosick in Saskatoon. The bout is arranged for April 15 and should the Cape Breton champion come up to the expectation of his friends he will then be matched with Joe Bayley, the champion lightweight of the Pacific coast."

"Mickey was particularly anxious for Dan Smith to accompany him, but unfortunately the latter finds it impossible to get away from home for the four weeks necessary to complete the tour, although as he is stated to a representative of the Record he was 'keen as nut' to take the trip.

"The interest taken in Mickey by his friends is clearly evidenced by the number benefit which will come off in Gloucester on the 19th inst."

SPRING APPROACHES. (Lonsville Courier-Journal.) And now the astute druggist man replenishes the sulphur can; into the jobber writes his needs concerning bulbs and garden seeds; removes the fountain pen, dry dock, and puts fly paper into stock. So we may safely understand that gentle spring is near at hand.

McVey Beats Barry. Sydney, N. S. W., March 17.—Sam McVey, the California pugilist and heavy-weight champion of Australia, easily defeated Jim Barry, the Chicago heavyweight, in a 20-round contest here today. Kilbane and the Injured Boy.

Cleveland, Ohio, March 18.—Feather-weight Champion, Johnny Kilbane, today paid a visit to Andy Deloh, nine years old, in a local hospital. Andy did not get to see Kilbane's home coming yesterday. While waiting for the big champion with two hundred thousands others an automobile struck him. He was taken to a hospital, badly hurt. The Champion read of Andy's accident and went to see him, bringing him flowers.

THE SECRET

All true success is the outcome of real personal interest and genuine endeavor. You may be designing a battleship or you may be thinking out a bright idea for a 15 cent toy, controlling a commissariat or pushing and experimenting with fruits and spices in order to perfect a new relish for the home table, but the real road to success is just the same in one case as in each of the others. It is not what work you are doing, but how you are doing your work that really counts. You cannot know, unless it were told you, how much personal interest was thrown into the manufacture of H. P. Sauce before its name began to be a household word.

The manufacturers—the largest firm of malt vinegar brewers in the world—were determining upon producing a sauce that should touch perfection and so make a name for itself and bring success to the makers. The Midland Vinegar Company of England are proud of their H. P. Sauce, proud of the reputation it has earned of being the richest, most pleasant, fruitiest, succulent and purest malt vinegar and the manner of blending, the "knack" of converting so many different flavors into one delicious whole—that is the secret of H. P. You had better test it for yourself, it's easy. Grocers over here are already selling it freely.

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through diarrhea or a case of the stomach. GIRL'S EVIDENCE AGAINST SISTER IN MURDER TRIAL

New Orleans, March 18.—From the lips of her aunt and sister, physicians and embalmers, the state has begun to forge the links of the chain of evidence by which it hopes to prove Annie Crawford murdered her sister, Elsie, by administering poison while nursing her.

After Mrs. Robert Crawford, the aunt, related the circumstances which preceded Elsie Crawford's death and told of her suspicions being directed against Annie, Gertrude Crawford, nineteen, youngest of the Crawford family, which lost four members by sudden and mysterious deaths, took the witness stand. Biting her lips to control her emotion, she told of Annie's strange actions preceding and just after Elsie Crawford's death. She said she had seen Annie give Elsie something in a glass the night before she died.

But the aunt and the sister of the defendant testified that Annie displayed not the slightest emotion when Elsie died. Dr. J. H. McGuire, who attended Elsie in her last illness, described her condition as presenting every indication of being due to opium poisoning.

DAVID HARUM'S RIVAL

There is a shrewd old farmer in Cheshire County, New York, whose fame for driving a close horse trade rivals that of David Harum.

TAKE TWO HOURS TO TELL IT.

"I've got an hour or two to kill I wish I knew what to do." "Just 'over and ask Brown how the new baby is getting along."

SHIP SEARCH FOR MISSING MONEY LED TO TWO ARRESTS

Sailors of Sardinian in Police Court—Passenger Reported Loss of \$300

According to evidence given in the police court this morning in the case of David Murdoch, charged with stealing tea from the S. S. Sardinian, one passenger who came across in the steamer had to proceed to the west about \$300 poorer than when he embarked on the other side. The passenger, it appears, left his coat in his stateroom while he went to the ship's stateroom to be vaccinated, and his purse was in the inside pocket of the coat. When he returned to his stateroom for the coat the money, it is said, was gone. There were 100 francs.

The ship was searched but no trace of the money was found. While engaging in the search for the money the ship's officers came upon a quantity of tea in Murdoch's room and also found a weapon which Henry Seve, another prisoner, was carrying.

The two men were before Magistrate Ritchie in the police court this morning. Both pleaded not guilty. The men were arrested yesterday afternoon by Detective Walsh of the Allan line, soon after the steamer had docked at Sand Point. Chief Officer J. R. Aird told of searching Murdoch's room and there finding about a pound of tea. The ship's tea was kept in the stove room about 400 feet away from Murdoch's room. The value of the tea would be about \$125. Chief Steward A. Toole said that Murdoch first told him that he had purchased the tea in Havre, but later confessed that it belonged to the ship.

Murdoch, when asked for an explanation, told the court that the tea that the stewards got on the way back from this port was not good and that he took a little of the better kind for the stewards' use. He had not intended to steal it from the ship, but merely to use. The prisoner was remanded.

The other prisoner was also remanded. The weapons found on him consisted of a long bladed stiletto, and a pair of brass knuckles. He will also be kept in jail until the steamer sails.

WANTED INDIAN SUITS AND KILLED THE HENS TO GET THE FEATHERS

Solution of the Mystery of Slaughter in Wm. Beckett's Hen House

The mystery surrounding the killing of fourteen hens belonging to William A. Beckett, guard of the chain gang, has been cleared up, and the story of the killing would make an excellent scenario for a moving picture film. The slaughter took place on Sunday afternoon last. Mr. Beckett and his family and several of the neighboring families in Kennedy street were in the city looking at the parade and everything was peace and quietness in the vicinity of the domicile.

When Mr. Beckett returned home late in the afternoon he went out into the yard and found that his hen coop had been broken into and fourteen hens were lying lifeless on the floor. The glass sides of the coop had been broken, and the place looked as though it had been hit by a tornado. He went to the North End Police station and informed the police, and Sergeant Kilgrock and several of his stalwarts set to work to clear up the matter. They have succeeded.

The culprits, for there are two, are no hardened criminals, but two youngsters aged four and six years, named Higgins, and they live with their parents in Indian town. Sunday afternoon, it appears they were allowed out to play, and one of the places they visited was Mr. Beckett's back yard. Here one of them hit upon a novel scheme—to get into the coop, kill the hens, pluck them, and secure enough feathers to cover their clothes so that they could have Indian suits. The plan needed no second thought and they set to work.

One secured a hammer and the hens were soon rounded up and laid low. Then the boys set to work with the plucking, and soon finished their task. With the feathers in their pockets and arms they walked proudly home and hid them. It was not until later that their parents found out where they got them. The lady's father communicated with Mr. Beckett and it is understood that a settlement has been reached.

The boys are much too young to bring before the juvenile court, so the only punishment to mete out to them is treading.

C.P.R. WANTS INJUNCTION CONTINUED IN FORCE

Saw and Grind Mill Matter Before Judge McLeod—Equity Sitings

Before Mr. Justice McLeod in chambers this morning application was made by Fred E. Taylor, acting for the C. P. R., for a continuation of an injunction order against Regis Tibodeau last month restraining him from operating his grist and saw mill in the Seaview river. The C. P. R. have a pumping station about a mile below the mill and they say that saw-dust and wheat hulls escape from the mill and interfere with their station.

M. G. Teed, acting for the defendant, says that the defendant has had the uninterrupted use of the river for the operation of his mill for more than thirty-five years. His Honor allowed the matter to stand for a week to allow the parties to arrive at a settlement.

Equity.

The monthly sitting of the equity court was held this morning. Chief Justice Barker presiding. In the matter of the Royal Trust Company et al vs. Alexander Gibson Railway and Manufacturing Company, et al, Fred E. Taylor moved to confirm the report of the master. The report was read and the order made.

A petition asking for the appointment of Hon. Mr. Flemming and affidavits of Hon. Mr. Flemming and Dr. J. V. Anglin were read and an order was made appointing Mr. Flemming as committee.
