McKINLEY WELCOMED. BUFFALO, N. Y., Sept. 5.—President's day at the Pan-American Exposition dawned bright and clear with the thermometer sufficiently low to make the day all that could be desired. It was evident from the crowds on the streets early in the morning that the attendance would be large. Business houses and private residences were gaily decorated with bunting, and banners were stretched from windows and across the streets, bearing words of welcome to the president and expressions of the sentiment which the great fair is designed to foster, peace in America. Although the time announced for the departure of the president from the home of Mr. Milburn, in Delaware avenue, was 10 o'clock, crowds began to gather in front of the house as early as 9 o'clock. A detail of blue coats kept the crowd back from the sidewalk in front of the house, but those most eager to catch a glimpse of the president and Mrs. McKinley indiscriminately invaded the beautiful lawns of adjoining residences and some went so far as to climb up on the verandas.

TURKISH AFFAIRS. CONSTANTINOPLE, Sept. 5.—The Turkish ambassador in London has been instructed to inform Great Britain that the action of the Persian Gulf in preventing the Turkish Corvette Schob from entering Koweyt is incompatible with friendly relations. The British side of the controversy in that the Schob was trying to land Turkish troops on the territory of a Sheikh who is independent of Turkey. CONSERVATIVES, Sept. 5.—The German ambassador in London communicated to the Foreign Office the declaration to intervene and advising the palace to come to an understanding with France. It appears that M. Delcasse is not resting his hands. They leave the court expressed astonishment that Munier should illuminate the embassy and give a banquet on the anniversary of the Sultan's accession, in view of the rupture in relations between France and Turkey.

TORNADO DESTROYS CHURCH. BENKELMAN, Neb., Sept. 5.—The most destructive storm ever known in Western Nebraska struck Benkelman last night. The United Presbyterian church was completely demolished, many stables and windmills blown away and houses partly wrecked. No lives were lost so far as known, as people saw the clouds approaching and took refuge in cellars.

SOLDIERS POISONED. ATLANTA, Ga., Sept. 5.—Two hundred and seventy-five soldiers of the 7th Infantry are in the hospital at Fort McPherson, near here, as a result of poisoning, thought to be from eating a stew which was cooked all night. Four of them, Sergeant Weinburg, and Privates Cole, Gravelly and Gibson may die. Colonel French, in command, has ordered a rigid investigation and the mess sergeant and others supposed to be responsible will be court-martialed.

THE WEATHER. TORONTO, Sept. 5.—Maritime—Light to moderate winds, mostly westerly, fine and warm today and on Friday. WASHINGTON, Sept. 5.—Eastern states and north-western portions tonight, warmer in western portions. Fair, light winds, mostly northerly.

THE YORK CAMPAIGN. Referring to the splendid public meetings being held by Dr. McLeod, the Frederickton Reporter says:—"It is worth while noticing in this respect the back of enthusiasm on the part of the liberals for their candidate, Mr. Gibson has not held a single public meeting, no interest has been shown in his candidature by the public generally, even the bridge contractors, and supporters here kept clear of having anything to do with it. Gibson feels he is a beaten man already, and although it was intended to rush on the election, it has now been indefinitely postponed. To the ordinary observer there is little comparison in the enthusiasm shown by the two parties. The Conservatives are the enthusiasts."

CITY OWNERSHIP IN GLASGOW. Significant Speech at the Opening of the Telegraph Exchange. The test that municipal ownership is having in Glasgow continues to excite much interest. So far it has been successful in every respect. At the recent opening of the new Municipal Telegraph Exchange Mr. Hanbury, member of parliament for Preston, made a striking speech commending such undertakings as the best way to fight the growth of great corporate trusts, which, he feared, were as dangerous in England and Scotland as they were in America; moreover, he saw in this increase of municipal interest a better training in business for the municipal government, which eventually would lead to a larger share of the business capacity in the house of commons. Coming from a conservative member, this was particularly significant.

TO PREVENT DUSTY STREETS. FRANKFORT, Sept. 4.—A Munich chemist has patented a process for laying out in streets, a mass of impervious to windstorms and water, at slight cost. The municipality has granted the inventor permission to make a street experiment. Read the Star's Want ads columns. They may contain something of value to you.

THE METHODISTS Decline to Hear Message From Archbishop of Canterbury. The Composition of the Ecumenical Conference Now in Session in London. LONDON, Sept. 5th.—The Ecumenical Methodist conference today unanimously declined to hear the secretary read the message of the Archbishop of Canterbury, in which he expressed the hope that some day the Methodists would be united with the Episcopalians and on similar import, the message of the Bishop of London, on the ground that they had been addressed to the editor of a religious newspaper and not to the conference. The Rev. Stephen Stephenson, of England, in moving that the messages should not be received said that the conference would not have cause to complain had the prelates been approached in a proper manner.

CARNegie ONCE MORE. RIVESIDE, Calif., Sept. 5.—Andrew Carnegie has offered \$200,000 to this city for a free public library. LONDON, Sept. 4.—Andrew Carnegie has given \$100 each to Shedd, Law, Jones, and Dick, four miners who displayed conspicuous bravery in the rescue of their comrades at the time of the recent Dolombride (Perrishire) colliery disaster.

TO KILL MOSQUITOES. NEW YORK, Sept. 5.—The latest thing in the germ theory and also the destruction of mosquitoes comes from Newark, New Jersey, where the city bacteriologist has solved an interesting scheme. He is working on the theory that there is some germ disease which is peculiarly fatal to the mosquito, and if he can discover and isolate the germ he will inoculate with it as many of the mosquitoes as he can capture and send them on their mission of infecting the tribe.

COLORS FOR THE 62ND REGT. At half-past eleven o'clock this morning the young ladies who have been working in aid of the proposed new stand of colors for the 62nd regiment met at Mrs. John H. Thomson's residence, 217 Garmain street, and handed in their reports along with the different amounts they had collected. The ladies interested in this undertaking are chiefly those who took part in the military drills which have been held here. The colors will be all probability cost between \$300 and \$400, and will be made in England. During the recent visit of the governor general to this city the committee in charge of this affair were informed by the aide-de-camp that the presentation of the colors might be made a part of the official programme of the royal visit, and to this end arrangements are being made. Another meeting will be held this evening, at which definite arrangements will be made.

HOLLAND INVITES BELGIUM. THE HAGUE, Sept. 4.—For the first time since the establishment of Belgian independence the government of the Netherlands has invited Belgium to send military representatives to attend the autumn manoeuvres in Holland. The incident is of political importance. "SHERLOCK HOLMES" ON THE STAGE. The first production of "Sherlock Holmes" in England took place at Liverpool Monday night and proved a great success. The plaudits were loud and continuous. Mr. Gillette's impersonation of Holmes was the main feature, but he was ably supported.

A NOVEL MOINT. The Frederickton Herald tells rather an exciting story of two New York gentlemen, Paul Libby and Charles Wake, who discovered a moose swimming in Churchill Lake. Mr. Libby was waded by the gully that he could not mount the moose's back. He succeeded in his second attempt and had quite an exciting and novel ride. This is a true story, we trust. This is what philosophy amounts to. "I do it, but you should not."—Atchison Globe.

SENSATIONAL SUICIDE. NEW YORK, Sept. 5.—The climax to a dinner party given by Mrs. and Mrs. Albert E. Peters, at their home on 115th street in this city, came last night when Mrs. Peters deliberately walked to the sideboard, filled a liquor glass with carbolic acid and facing her guests drained the glass. Her action, it is said, was brought about by a reproach from her husband before the rest of the party. After she had drunk the poison and physicians were called, Mrs. Peters, who was 28 years of age, begged the doctors to save her life. Everything possible was done, but she died some hours afterwards.

THE DEATH ROLL. BUFFALO, N. Y., Sept. 5.—Archibald Boyd, a visitor from Alexandria, Ontario, dropped dead of heart disease in the lobby of the Moorish Palace on the North Midway, Pan-American grounds, late yesterday afternoon. Boyd was engaged in a conversation with a companion when he put his hand to his side and fell to the floor. The ambulance was summoned but he died before its arrival. Boyd was 40 years old and a prominent man in his home town where he conducted a profitable tea business. He was married and had three children living in Alexandria.

THE STERIL STRIKE.

An important conference was held in New York yesterday between representatives of the steel trust and various labor organizations, but at the close one of the steel company's officials said that nothing had resulted, and that the termination of the great strike rested with the workmen. As the case stands, both sides express confidence, and each claims that it will ultimately prevail in the meantime relations are becoming more strained in the immediate neighborhood of the various works, and at McKeessport deputies have been summoned and are now on the spot to prevent any breach of the peace. It is very fortunate that affairs have thus far gone on so quietly, and there is still ground for hope that a peaceful solution of the trouble will be found.

WORTH \$15,000,000 TO MAINE.

Hon. J. H. Manley, one of the directors of the Maine Central railway, says that the summer tourist travel to Maine this year was at least 15 to 20 per cent greater than in any previous year. From summer tourists and fall and winter sportsmen he estimated that Maine will realize not less than \$15,000,000 this year. This vast sum is distributed all over the state, and confers benefit upon all classes of the people. Manley finds that it pays to attract tourists.

SOMEWHAT SARCASTIC.

The Victoria Colonist, in discussing the mineral wealth of Vancouver Island, says that there cannot be found anywhere else an area of sixteen thousand square miles to surpass this island in natural wealth. And then the Colonist waxes sarcastic and concludes with: "If it were inhabited by a lot of naked savages, and a man was in peril of his life every minute from hostile natives or deadly reefs, the people of Great Britain would be tumbling over each other to get here. But it is so completely safe and respectable that it is overlooked in the search for something spectacular."

MORMONS FOR JAPAN.

Four Mormon missionaries have commenced an active campaign in Japan and their advent has caused considerable excitement. A despatch from Yokohama dealing with the question says: "The Mormon doctrines will make, like the others which have been brought here, little or no impression on the mind of Japan, but their well known integrity and business energy will commend them to a large number of the Japanese people. They stand as good a chance as any of the sects."

WHISTLING UP COURAGE.

A New York paper, fearing that some of its American readers will lose heart because the Constitution has not developed the hoped-for sailing qualities, does not omit to mention in this ingenious manner: "There is, of course, a disposition to find the Shamrock admirable in all respects, out of the spirit of sportsmanship and hospitality, and she may be quite overrated in the popular estimation. And the Columbia is certainly a fine boat. The defeat of the Constitution by her does not mean the loss of the cup, by any means."

FAREWELL TO MISSIONARIES.

The opening meeting of the farewell services to Rev. H. C. and Mrs. Saunders, missionaries who will leave for the foreign field the last of this week, was held last evening in the Reformed Baptist church. Rev. Miles Trafton, the pastor, presided, and addresses on general missionary work were given by Rev. Mr. Saunders, G. H. McDonald, H. C. Trafton and A. H. Trafton. The session closed with a prayer service.

SHOOT, IF YOU DARE.

How the Union Jack and Stars and Stripes Saved a Man.

To the Anglo-American Magazine, Dr. J. George Hodgins contributes an interesting paper on incidents of the International Courtesy, and recalls some notable occasions on which British and Americans have stood by one another. The incident at the battle of the Taku Forts, when Commodore Tatnall joined in the fray, with the cry, "Blood thicker than water," is well known, but the following story will be new to most English readers. It was related at Montreal in 1881 by the Rev. Dr. J. O. Peck. Dr. Peck said: "The man who gave me the facts was Mr. Haskins, an American sailor, who had sailed to a port in Chili. On the way he drank a little and became hysterical. One of the police officers, instead of warning him not to make a noise in the street, drew his sword, and knocked him down. On that, the American sailor got up and knocking the policeman down in return. He was arrested and tried and condemned to be shot in the morning of the following day. Mr. Loring, the American consul, consulted with the authorities that it would be better to shoot the man for such an offense, but they paid no attention to him, so he thereupon made a formal protest in the name of the United States government against the barbarous act. Mr. Haskins, the sailor, went to the authorities and planned, to be shot, but they refused to do so. The morning brought out the English consul was preparing to hoist the Union Jack he saw the crowd in the field opposite, where the execution of the American sailor, of which he had heard, was to take place. Rushing over to the American consul, he said: 'Good God! Loring, you're not going to let them shoot that man!' 'What can I do?' he said. 'I have protested against it. I can do no more.' 'Quite so,' thought the English consul, 'but the Stars and Stripes are hoisted on the English representative. At once, taking his own Union Jack in his hand, he hastened across the field, elbowed his way through the crowd, and the soldier, after turning up the doorman, came to the American flag around him and then laid the Union Jack over his head. Standing a few paces back, he faced the officer and soldiers, and shouted defiantly: 'Now, shoot, if you dare, through the heart of England and America. If they dare not do so, it, for they feared the consequences.' The man was at once released. 'In telling me,' said Mr. Peck, 'Mr. Haskins said to me, with tears streaming down his cheeks, even then, 'I longed to embrace those two flags!'

MUST NOT PULL PUPPETS' EARS.

Teachers in German schools have been prohibited from pulling the ears of pupils. It is declared that many children have thus been rendered permanently deaf. It has been estimated also that a woman 35 years old, whose ear was pulled by a consumptive teacher during her childhood, has suffered from a clear case of "lupus" ever since.

TROUT AND SALMON DYING.

Reports from the fishing resorts on the North Shore indicate that the prolonged drought has had a disastrous effect upon the trout and salmon fisheries. Although numerous fishing parties have been whipping the streams very poor catches have been made and many American fishermen have left for their homes. A gentleman, who has just returned from the fishing grounds told The Telegraph last evening that trout and salmon are dying by hundreds as the result of the water in the streams being heated to a point where existence is impossible. Rain is greatly needed.—Telegraph.

A PROFITABLE IDEA.

In the tourist information bureau this morning the Star noticed some excellent photos of scenery at St. Martins, and on enquiry learned that nearly every visitor in the office had been greatly attracted by their beauty and invariably asked something of this pretty town by the sea. This appears to be a good method of advertising a summer resort and one worthy of cultivation. Get out good photos of your pretty nooks and let us have them on exhibition.

COMING TO ST. JOHN.

A correspondent from St. Stephen writes: Many people here are already making plans to go to St. John at the time of the visit of the Duke and Duchess of York. It is recalled that at the time of the visit of King Edward to St. John, when he was Prince of Wales, the only means of travelling to St. John was by train or by boat. With train communication now, it is likely that many more will visit St. John to see the Duke and Duchess of York than were able to do when the King visited that city years ago.

THE SUNDAY LAW.

Rev. T. E. Fotheringham is reported to have said yesterday that he had not heard of Premier Tweedie's appointment as a commission to take the evidence in the enquiry ordered by the government into the complaint about the Sunday law here, but although the Lord's Day Alliance had hoped to have the whole enquiry conducted by the whole executive council, he felt sure that Mr. Tweedie's appointment would be satisfactory. The alliance will meet at once and decide what steps will be taken in the matter. They will not call any witnesses outside of their own members, as they had information and

facts sufficient to back up the charges. Premier Tweedie this morning said to the Star:—"I have been appointed a commission, as stated in the morning papers, and will begin the enquiry just as soon as my other engagements will permit. It will in all probability be held next week, and will be in the government offices in this city. It will be open to the press."
