BLACK FLAG ON LAKE MICHIGAN.

Chicago Yachtsmen Attacked by Pirates. Armed With Rifles and Flying the Jolly Roger, Crew of Pirate Ship Made Desperate Attack.

CHICAGO, Sept. 18.—With a black flag flying from its masthead and its occupants armed, a sailing craft appeared off the foot of 3rd street yesterday afternoon, after a battle with members of the Douglas Yacht Club, in which the latter were forced to retreat to the pier and its sails were hoisted in the direction of South Chicago. "The pirates" ship, the police say, was seen by scores of persons on the shore. She dropped anchor less than a half mile out of the lake and its sails were hoisted to the wind. The pirates clambered over the sides into a skiff and were rowed to the yacht club building. Carrying rifles and other weapons the invaders attacked a number of persons who were sitting on the porch of the building. The small boat house party were finally routed and telephoned for police aid.

GREAT TRADES CONGRESS IN CHICAGO.

CHICAGO, Sept. 18.—Delegates representing the various trade, industrial and producing interests of the country are to hold a convention in Chicago on October 26-27. The object of the convention is to impress on congress the extent of the demand of the people of all parts of the country for legislation outlined in the presidents last annual message to congress, as follows: "The interstate commerce commission should be vested with the power, where a given rate has been challenged, and after full hearing found to be unreasonable, to decide, subject to judicial review, what shall be a reasonable rate to take its place, the ruling of the commission to take effect immediately upon its announcement, and it is intended by the court of review."

WALKING CONTESTS REVIVED.

NEW YORK, Sept. 18.—Walking contests are to be revived here by the Amateur Athletic Union. There have been no events of this kind for the championship programme since 1898. It was said at that time they were discontinued to make way for throwing the discus. This substitution was caused by the victory of Robert Garrett of Princeton at the first revival of the Olympic games in Greece in 1896. It has been found according to the local press, that the discus throwing is no real test of strength and the expert handling is a knack which many of the best weight throwers have failed to master. Next fall at the Metropolitan international conventions, steps will be taken to revive the discus and javelin and the discus and javelin programmes and the discus may be dropped.

BOARDING HOUSE KEEPER'S WIFE ELOPES WITH COOK.

Matthew McLaughlin Also Charges Wife With Taking Goods and Money---He Says She Ran Away Twice.

Matthew McLaughlin, a Loch Lomond boarding house proprietor, was about the city this morning in search of his wife who he claims has eloped with the new cook, and in leaving she took with her a trunk full of articles, among which were some of his belongings. It is reported that she spent Sunday in a King square hotel, and McLaughlin says that she left the city this morning for parts unknown to him, but he thinks she has perhaps gone to Campbellton, her former home. Besides the clothing taken by the woman, McLaughlin says that she has over three hundred dollars with her. McLaughlin feels his position very badly and was attempting to drown his sorrow this morning. He is seeking the aid of the police in locating his runaway spouse and feels confident that they will find out her present whereabouts before night. He says with his wife and the two cooks both leaving the boarding house, it leaves him in a very awkward position, as there are no less than twenty boarders to be taken care of, all of whom are employed on the water works extension. When last seen by the reporter McLaughlin was wandering about Charlotte street, looking for tidings of his wife.

CUSHING MILL BARRED AGAINST LIQUIDATOR.

There are still new developments in the most complex law case which our courts have had to deal with so far. On Saturday A. H. Hanington went to Dorchester and got from Judge Landry a summons calling upon the liquidators to show cause why the winding up proceedings should not be stayed pending an appeal to the Supreme Court of Canada. This summons was served on W. E. Vroom this morning and immediately afterwards he had a conference with the solicitors Barnhill, Ewing and Stewart. The most interesting developments, however, are at the mill which has been barred up and locked up by the liquidators. A guard was on watch this morning at the entrance to notify the approach of any invaders but so far they have not come in sight and no blood has yet been shed.

WAR CLOUDS GATHER OVER THE BOSPHORUS.

Turkey is Fortifying the Straits and Russia Has Warned Her That to Continue Means War. CONSTANTINOPLE, Sept. 18.—The steady progress of work on the new fortifications on the Bosphorus is causing friction between the Russians and the Turks. The fortifications were hastily commenced at the time of the Russo-Turkish war, Turkey seizing upon this pretext as a means for carrying out a scheme of fortifications, which she had long desired but which had already been opposed by Russia. It is understood that the question of the straits was incompatible with friendly relations between Turkey and Russia. In the meanwhile the ships Kinias Potemkin, Turkey seizing upon this pretext as a means for carrying out a scheme of fortifications, which she had long desired but which had already been opposed by Russia. It is understood that the question of the straits was incompatible with friendly relations between Turkey and Russia.

GRATEST MUSTER OF SCOTS SINCE FLOODING.

King Edward Reviews 40,000 Scottish Militia Men Today—Sir Thomas Lipton Kicked in the Face. EDINBURGH, Sept. 18.—The greatest muster of Scotsmen under arms since the battle of Flodden Field was reviewed by King Edward here today. The King arrived at the Scotch capital this morning and proceeded to Holyrood palace, whence, accompanied by the Duke of Connaught and a brilliant staff, he rode to the parade ground in King's Park, nearly 40,000 Scottish volunteers were in the march. Numerous numbers of visitors from parts of Scotland and the north of England witnessed the review, which is expected to assist in counteracting the exorbitant cost of volunteer outfits over recent worrying regulations of the war office.

MUCH INDIGNATION OVER TRAIN CHANGES.

Several suburban trains were taken off today, much to the disgust of the travelling public, but much more to their disgust two trains that are now nullified by the travelling public for local business than any other have been cancelled. These last two are known as numbers 3 and 4. Last year they were kept on till November, and it was expected that they would be kept on for some weeks yet, but Mr. Emmerson is bound to cut down that two million deficit, no matter how the public suffer. These trains ran between the city and Point du Chevre, making all local stops. Now, if a person wishes to stop at any but the principal stations they will have to leave early in the morning or wait till 11.25 at night or walk.

AN ACTION FOR RENT.

In county court chambers the case of Rustin vs. Byrne came up in review. The plaintiff brought an action for rent. The defendant claimed that he had paid all with the exception of two months' rent to Segge, who he thought was the plaintiff's representative. The jury brought in a verdict for a non-suit, claiming that the action should have been brought in a lower court. Argument of counsel was heard this morning. The court considered D. Mullin, K. C., for the defendant, and E. T. C. Knowles for the plaintiff.

DREDGE WILL BE HERE NEXT WEEK.

G. S. Mayes Has Secured a Good One. Has Engaged the Beaver, a Dipper Dredge and Intends to Hustle the Work Along.

G. S. Mayes, who has the contract from the Dominion Government for dredging the north side of Sand Point slip for the new wharf, has secured for that work one of the best equipped and most up-to-date mud sippers on the Atlantic coast. J. B. M. Baxter, Mr. Mayes' solicitor, who accompanied the contractor today wearing a broad smile because the important business that took them to Boston was transacted so successfully and in such a short time. Mr. Baxter says Mr. Mayes is determined not to lose any time and in Boston rushed matters in a way that made the Yankees cognizant of the fact that all the hustle was not confined to their side of the line. The dredge secured is the Beaver, the property of the J. S. Packard concern of Providence, R. I. She is a powerful mud digger of the dipper type and has been working in a cutting near East Boston. When Mr. Baxter left Boston the dredge was being dismantled and as soon as it is ready Mr. Mayes will wire here for the tug, the Flushing, owned by D. D. Glazier & Son, and the Lord Kitchener, owned by John E. Moore, which will tow the dredge and scows here. With fair weather they should be back in a week from the date of leaving here. It is expected the tugs will leave here Wednesday.

I. O. O. F. GRAND LODGE IN ANNUAL SESSION.

PHILADELPHIA, Sept. 18.—The 31st annual communication of the Sovereign Grand Lodge of the Independent Order of Odd Fellows opened here today. The initial exercises were held in La Temple. According to Grand Sire Wright, among the especially important matters to be considered during the convocation is the subject of the Patriarchs and the branch of the order. The proposition is to make membership in the subordinate lodges the basis of admission to the grand lodge. The total number of lodge members is 1,300,000. If the change be made and the same percentage of lodge members go into the grand lodge as now, the grand lodge will reach a membership of 200,000. It now has 18,000. It will then be the strongest uniform fraternal organization in the world. The grand lodge will also consider the question of extending the order in Porto Rico, San Domingo and Scotland.

MAYOR COLLINS' FUNERAL.

BOSTON, Sept. 18.—The business life of this city was stopped for a while today to do reverence to the memory of Mayor Patrick A. Collins. Schools, courts, trade exchanges, municipal offices and manufacturing establishments all suspended operations some for the day, some for the period of the service at the Cathedral of the Holy Cross. Everywhere were emblems of mourning, city hall, the public buildings, the newspaper offices and many of the commercial houses were draped in black, while flags were at half-mast all over the city and on the ships in the harbor.

A STRIKE BROKEN.

NEW YORK, Sept. 18.—A strike of the Paving Box Makers' Union, declared three weeks ago in a large number of factories in Greater New York, was called off yesterday. The men had demanded a nine hour day, but were instructed to go back on any terms they could obtain from their employers.

STATION WALL UNDERMINED.

All trains entering the depot are now being run very slowly in consequence of the repair work being done to the pling on the north side of the train shed. It has been found that some of the timber on which the foundation rests has rotted away to a considerable extent. They are being cut off several feet below the surface at a point where they are solid and concrete is being put in. Reports that the north wall is weak are flatly contradicted.

M. White's reputation as a poor sail-  
or has led to this free prescription, of-  
fered by a New York Sun correspond-  
ent, who says it has proved infallible,  
in every case: "Bromide of soda, four  
drams; bromide of ammonia, two  
drams; peppermint water, three ounces.  
Mix thoroughly. One teaspoonful in  
wineglass of cold water before each  
meal and at bed time three days before  
sailing. Duplicate quantity to be taken  
in long voyage with same regularity."

UPRIGHT  
PIANOS  
\$4.00  
A MONTH  
A good way of buying a Piano,  
if you do not feel like fully de-  
ciding now, is to rent one for six  
months and then buy it. You  
can come here and choose a new  
Piano, assuming no responsibility  
beyond giving the trifling sum  
agreed upon—\$4.45 or \$5.00. You  
can keep it long as you wish,  
and should you decide to pur-  
chase after a few months, we will  
allow from the price all the rent  
paid.

### THE FINEST SWEATERS for FALL

**A Good Looking Waist Coat**  
The old cable stitch holds its own favorably; and, somehow, those twisted threads seem to crowd more wool in. The sweater is warmer than the more simply knit ones.

**The School Girl's Favorite**  
The sweater is warmer than the more simply knit ones.

**The Newest Stitch**  
The sweater is warmer than the more simply knit ones.

**For the Youngest Article**  
The sweater is warmer than the more simply knit ones.

**AFTER** all, nothing quite takes the place of a sweater, for so delightfully carries the idea of a good thing in the comfortable class. Rough and ready things as they are, there's a style about some of them that is wonderfully attractive.

The newest of the ones has the prettiest front—just like a wide herring-bone done in small needles. This makes a fine close-knit piece. In some curious way space is left between the stitches for buttonholes, and on the lower flap, strengthened by a strong facing of muslin, are buttons, rather larger than those we have seen used up to now on blouse sweaters.

The old cable stitch holds its own favorably; and, somehow, those twisted threads seem to crowd more wool in. The sweater is warmer than the more simply knit ones.

All blouse sweaters end at waist and throat and wrists in a close knit band, the fancy stitch of the rest of it dropped there. The high collars are double, for there's "less stretch" that way—it's a getting away from those old ones that gaped so widely at the throat after the first few wears.

Some of the blouse sweaters have double, too, but not often, for it doesn't much matter whether they stretch or not.

### MAKING A GREAT SUCCESS OF AN UNIQUE DOLLS' FAIR

**A** DOLLS' fair, started by several energetic young girls, proved from the very first that it was a success. It was held in a room at the school and was open to all the girls in the school.

### Have a Baby Hammock Somewhere in Your House

**Adoles for a Nursery**  
Cosy Corner

**B**ABY-HAMMOCKS, ready to hang from convenient posts, or independently provided with supports, are among the greatest joys of the nursery.

Some of them for the littler tots have an attachment which makes it impossible for the baby to slip the hammock over.

The "real" "hush-a-bye" have high sides, with an extra piece set in at each end, so that the baby can't get crawling out at the ends. They are made short—not much more than length—and more closely woven than the usual hammock.

Bright colors make a cheery spot of a nursery corner, but as many hammocks are of white and can be washed easily, the kind that can be made at home. The hammock swings with the cords at the ends drawn through two uprights, which on the inner sides have hooks. When the hammock is to be at rest, the cords are fastened to the hooks, and except for a little rocking of the lower part, the hammock is immovable.

There's another attachment which is nothing more than a piece of mosquito netting, neatly bound and fitted out with tapes, so that it can be tied on securely. That makes an ideal napging place of—cool and airy and comfortable, and free from flies, no matter if placed out-of-doors.

Of course, a hammock like this is only for the littler tots. The sides are too high for the older children to climb in and out of, and half the fun of a hammock for a child is sitting with your feet over the side to start it swinging.

Other hammocks are made for children just as the usual hammock, with head-rest and all, but smaller; and like the baby ones, these come with or without the supports.

Of course, if you're the ordinary big hamper, and the room to swing in, you'll probably use it for the nursery without bothering to get a little one. But it's worth while having one of some kind in the house. It will be the most popular spot with the younger element. While you're looking at hammocks take a peep at the irresistibly cunning ones for dolls—perhaps it may prove a suggestion for the next gift you want to make a wee girl.

### The Economy of the Lingerie Skirt

**S**INCE the first clever woman hit upon the idea of a lingerie skirt to go with lingerie, it has been made in popularizing lingerie. It is a skirt in idea before, but it is rich in simplicity of embroidery and design.

The thing that made lingerie skirts so popular was the fact that they were made of such a variety of materials, and the fact that they were made of such a variety of materials, and the fact that they were made of such a variety of materials.

### Tea Tables in Order For Short Days

**W**ITH the days commencing to shorten perceptibly, tea tables are very much in order. There's something in the new little snap that has mysteriously crept into the air that whets appetites to an almost unlimited degree.

Start your table early—get everything in readiness for a long season of it, for there's nothing else in the world than sitting around it and sipping everybody's drinks with numerous cups of tea. Somehow, conversation is never more spontaneous than at these times, and restfulness—a quality absent from most of our purchases—is wonderfully marked.

### DO SHOPPING ALONE

**D**ON'T TAKE a friend along when you go shopping—that is, if it isn't one woman in a thousand who can help advising you for your own good, and reserving it only if you don't follow her advice slavishly.

Perhaps you're one of the people who think they don't know what they want, in reality, you know very well what you don't want—which is a long step in the right direction. And if you're persuaded into getting something you've the least feeling against, you'll hate it unreasonably when you realize so much better by having either your own indecision or the two decided opinions of your friend.

### Chemisette Styles Still Popular

**I**n alternate stripes, like the combinations of heavy and light lace last winter brought out, is a stunning chemisette, either crocheted in the right shape, or made up of three or four wide stripes, caught together, with another chemisette underneath.

Hesterie Anglaise, done on handkerchiefs, has every dot made conspicuous by the addition of a ball done in some mysterious way, with embroidery, or a pair of undersews to match. These, of course, are the finer kind, and the exceptions to the general rule as well.
