UNITED MINE WORKERS OF AMERICA ACCEPT THE DEFINITIVE OF UNITED STATES GOV'T

Indianapolis Convention Stands on the Strike Order Which Becomes Effective at Close of Working Day Friday—Their Statement Issued to the Public Places All Responsibility Upon the Operators—Canvass of the Situation Shows Strike of Bituminous Operators Cannot be Avoided—Claim to be Exercising Their Rights.

Indianapolis, Ind., Oct. 29.—That "a strike of bituminous miners cannot be avoided" was the outstanding conclusion of a statement issued late today by the conference of the United Mine Workers of America. Blame for the situation was laid at the feet of the operators because they had refused to negotiate a wage agreement notwithstanding the fact that the mine workers' representatives had urged and beseeched them to do so.

The miners, the statement claims, will be exercising constitutional rights in striking. The statement also sets forth that the union officials gave profound consideration to the statement of President Wilson as it appeared in the newspapers, and added that no communication on that subject had been received from the Federal administration.

The statement follows:

"The conference of United Mine Workers, composed of members of the International Legislative Board, the State Committees of the Central Competitive District, and the District Presidents, United Mine Workers of America, gave most profound consideration to the statement of the President of the United States which appeared in the public press recently, relative to the impending strike of bituminous miners set for November 1. No communication was received by the International officers of the United Mine Workers of America, from either the President or any representative of the Federal government.

Cannot Be Avoided

"A canvass of the entire situation shows that a strike of bituminous miners cannot be avoided. A regular constituted convention of representatives of the United Mine Workers held at Cleveland, Ohio, on September 25th ordered a strike of bituminous mine workers to become effective November 1st. In the event a wage scale was not negotiated by the highest authority in the organization has acted in this manner, and no representatives of the organization have authority to set such action aside. The facts are that the same supreme authority which ordered the pending strike in the name as that which approved the contract that has now expired.

Place Responsibility Upon Operators.

"The responsibility of the strike rests with the coal operators. They have refused to negotiate a wage agreement, notwithstanding the fact that mine workers' representatives have urged and beseeched them to do so. The fundamental cause, which prompted the mine workers to take this drastic action, are deep seated. For two years their wages have re-

WINDSOR HOTEL AT ST. STEPHEN CHANGES HANDS

Will be Remodelled Into An Up-to-date Business Block by City Business Concern.

Special to The Standard
St. Stephen, N. B., Oct. 29.—A valuable piece of real estate changed hands here today in the sale of the Windsor Hotel property by the Wm. Smith, proprietor of the Queen Hotel, to Buchanan and Company, leading furniture dealers, who will remodel it for their use. The property is splendidly located for business purposes, at the corner of Water and Marks streets, and will make a conspicuous addition to the business blocks of the town. Mr. Smith leases the third of the building from the new owners and will continue their use as annex sleeping rooms for the Queen.

NEW YORK LIQUOR MEN TO TEST LAW'S CONSTITUTIONALITY

The Majority of Saloons in Greater New York Were Open for Business Yesterday.

New York, Oct. 29.—The first move of New York liquor dealers to test the constitutionality of the war time prohibition law, since the passage of the Enforcement Act, over the President's veto, was made today by the filing of a suit in the Federal District Court against William E. Edwards, collector of southern interest revenue district here. A Broadway liquor wholesaler brought the action, alleging that the war time prohibition law is void and illegal. In the meantime the majority of the saloons throughout Greater New York were open as usual today.

LONDON "MOVIES" IN SQUABBLE WITH PRIME MINISTER

They Say He Did, He Says He Didn't, and There You Are.

London, Oct. 29.—(C. A. P.)—To what extent the proprietors of moving picture theatres ought to support the government propaganda is a question agitating the cinema business strikes acutely. During the railway strike a message was sent out asking the movies to throw on the screen, "The Prime Minister appeals to the strikers to go back to work for the sake of the women and children." This was widely exhibited, but Downing Street now denies that Lloyd George authorized this message, asserting it was only intended for exhibition if the strikers also issued messages. Movie proprietors deny any such stipulation was received.

LABEL ALLEGED AGAINST WINNIPEG NEWSPAPER

Alderman and Mrs. Queen Are Plaintiffs, Claiming \$25,000 Damages of the Telegram.

Winnipeg, Man., Oct. 29.—Alleged libel, Alderman John Queen and Mrs. Queen have brought suit against the 'Winnipeg Telegram' for \$25,000 damages in connection with two articles referring to an incident in which it was stated that returned soldiers had torn a red flag down from the front of Queen's residence and that Mrs. Queen had said that she was a Bolshevik and proud of it; and an article descriptive of the appearance of the 'eight-hour strike leaders' on their appearance in the dock when brought to trial.

AMHERST LOSES LEADING CITIZEN

E. L. Lay, Supervisor of the City Schools, Passed Away Suddenly Yesterday.

Special to The Standard
Amherst, N. S., Oct. 29.—It is with much surprise and with deep regret that the citizens of Amherst learned this morning that Mr. E. J. Lay, supervisor of our Amherst public schools, had very suddenly passed away. Mr. Lay was known to the public in general that Mr. Lay was in good health. He was toastmaster at the banquet given by our business men to Mr. J. E. Douglas last Monday evening, and it was noted by some at that time that they had never seen Mr. Lay in so genial and affable a spirit.

After teaching for a number of years he resigned to take the inspectorship of the county of Cumberland and part of Colchester, but after filling that position capable for a number of years he resigned to take his old principality again. This was about twenty-five years ago. Mr. Lay had the principality till 1912 when he was appointed to the newly created supervisorship of all our Amherst schools. To him and him alone we owe our public library which has been of so much value to so many of the people of the town. This was peculiarly his child, and he gave it unrelenting care to the end of his days. He was a splendid citizen, deeply devoted to every last interest of Amherst and glad to call Amherst his home.

He is survived by a widow who was formerly Miss Whidden, of Malton; three sons, two of whom are in the military service; Mrs. Brown, of Ottawa, and Miss Jones, who has been spending the past few weeks in Halifax. The funeral arrangements have not as yet been announced.

SUGAR LIMIT TO CANDY MAKERS

Rationing Scheme Suggested by the Sugar Equalization Board of U. S.

Washington, Oct. 29.—Rationing of sugar to manufacturers of candy, soft drinks and like goods is to be suggested by the sugar equalization board, a House war investigating committee was told today by Herbert Hoover, former Federal Food Administrator. This step by the board, Mr. Hoover said, resulted from the fact that "raw sugar has risen beyond all previous prices and can be bought advantageously by the housewife."

SUGGESTS SELF GOVERNMENT FOR IRISH PEOPLE

Sir Horace Plunkett Declares England Would be Playing Part of Wisdom to Give it.

London, Oct. 29.—Sir Horace Plunkett, in an address before the National Liberal Club today, declared that the path of wisdom for the Government was to make to the Irish people an offer of the fullest measure of self-government. He advocated giving to Ireland the status of a self-governing dominion, with certain reservations covering the problem of national defence, leaving it to the Irish people to settle their internal difficulties themselves.

WAR MEMORIAL TO THE MEMORY OF CANADIANS

Silver Cross, Hung from Purple Ribbon, to be Given Every Mother Who Lost Boy Overseas.

Victoria, B. C., Oct. 29.—Major General Mevburn, minister of militia, speaking at a reunion of the 16th Battalion members here last night, announced that a silver cross, hung from a purple ribbon would be given to every mother who had lost a boy at the front. Eight war memorials are to be erected to the memory of the Canadians who fell overseas. One of them would take the form of a Hall of Records, while the others would be memorials commemorating the fallen.

GOOD PROGRESS MADE ON GRAND TRUNK RY. BILL

Sir Walter Cassels, Chief Justice of Exchequer Court, Third Arbitrator of Grand Trunk Purchase.

BILL WILL BE REPORTED FRIDAY

Liberals Made Strong Plea to Have the Award of the Arbitration Referred Back to Parliament.

Special to The Standard
Ottawa, Oct. 29.—Sir Walter Cassels Chief Justice of the Exchequer Court of Canada, will be third arbitrator of the Grand Trunk Railway purchase. This important announcement was made in the House today by Hon. Arthur Meighen. The minister of interior thought it was most fitting that he should act, as he had been arbitrator in suits between the people and the crown for years. He is a judge of the highest reputation for strictness and fair dealing, and the announcement has inspired confidence that the country will get a square deal in the arbitration. An amendment to this effect was embodied in the bill.

The other two members of the board will be selected by the whole Government. The Liberal members of the board suggested that the whole arbitration should be left to him, but Mr. Meighen thought the presence of railway experts or business men as the other arbitrators might be advisable.

Good progress was made on the bill in committee today and the present outlook is that it will be reported for third reading by tomorrow night. The bill will in that case be ready for the Senate by Friday or Monday at the latest. There promises to be a bitter fight in the Upper Chamber, but the government expects to pull out with a majority even if small.

The Liberals made a strong plea to have the award of the arbitrations referred to Parliament for review. This was opposed by Mr. Meighen, who said that this would lead nowhere except into an expense maze, but which liquidation would be greatly preferred.

There was considerable discussion of the seven provisions of the bill, the naming of a committee of managers to operate the Grand Trunk system until after the decision of the arbitration proceedings, but it finally struck a snag. Mr. King had described this provision as "thoroughly vicious." Mr. Fielding declared that it was a "flagrant departure from British parliamentary practice, in that it authorized the government to loan money without coming to parliament."

BACKYARD PLANE HAS ARRIVED

Successful Tests Have Been Made With the Reversible Airplane Propeller.

Dayton, Ohio, Oct. 29.—Announcement from M. C. Cook Aviation Field today that successful tests have been made with a reversible airplane propeller, the day of the "backyard" airplane is here. With the new propeller for airplanes can land and be brought to a stop within fifty feet by actual test, officials said.

LONDON WELCOMES PRINCE ALBERT

City Chamberlain Praises His Work as Sub-Lieutenant at Jutland Battle.

London, Oct. 29.—(Reuters)—Prince Albert was tendered a great welcome to the city yesterday when he received the freedom of the city at the Guild Hall.

ENGLAND'S FINANCIAL STATUS CALLS FOR EXTREME CAUTION BUT NO OCCASION FOR PANIC

Chancellor of Exchequer Reviews the Situation on Which Government is Asking for a Vote of Confidence—Pleads for Economy and a Wise Husbandry of Resources—No Occasion for a Panic as the Country's Position Was Sound—General Levy Upon Capital He Declared as Out of the Question—Drastic Reductions in Navy.

London, Oct. 29.—Austen Chamberlain, Chancellor of the Exchequer, speaking in the House of Commons on the financial situation on which the government is asking for a vote of confidence, said that there was every reason for caution, economy and wise husbandry of resources, but none for panic. Mr. Chamberlain invited the House to explore the suggestion of a levy on war profits. While there was every reason for caution, the Chancellor declared, there was no occasion for panic, as the country's position was sound.

of the "White Man's Burden," and the execution of the tutelage of Turkey under the League of Nations.

Levy on Capital Out of Question.

Mr. Chamberlain, referring to the economies demanded, said that if the staffs of all departments were placed upon the pre-war rate of pay it would effect a saving of only twenty-two millions pounds. Everyone knew that the reduction could not be effected.

Mr. Chamberlain said that a general levy upon capital was out of the question. A levy upon war profits stood upon a different footing, but the difficulties of undertaking such a scheme of taxation were immense, and outweighed the advantage.

The floating debt of the country on October 26, Mr. Chamberlain told the House, amounted to £1,286,000,000 sterling. He anticipated that next year, after providing for the abnormal aftermath of the war expenditure, there would be a substantial balance on the year to go towards the reduction of the debt.

The Chancellor was opposed to a levy on capital, he said, because it would encourage extravagance and hinder the influence of foreign capital. If the House decided upon such a measure it need not expect him to carry it out, he declared.

Mr. Chamberlain hinted at a revision of the railroad rates to make the railway roads self-supporting. Ordinary civilian unemployment doles would be terminated on November 21, he said, and the bread subsidies ended at an early date.

The Drastic Reductions.

The Chancellor indicated that British troops in various parts of the world would be reduced during the next few months by a half million men.

Drastic reductions in the navy he estimated at from £16,000,000 to £2,100,000 sterling. The personnel would be reduced in December to 146,000, he announced.

THE MERCHANTS' BANK BUILDING GUTTED EARLY THIS MORNING

Fire, Which Started About 1.30 O'clock This Morning, Played Havoc in Prince William Street Building—Base of Standard Office Flooded by Water from Burning Building.

Fire, which started about 1.30 o'clock this morning in the basement of the Merchants' Bank of Canada building, Prince William street, did considerable damage to the structure. When first discovered the flames had burst through the basement windows and were shooting almost across the street. An alarm was immediately sent in from box 7, and the fire department was quickly on the scene. A stream was soon playing on the blaze, and for a time it seemed that the fire had been conquered, but huge clouds of smoke began to pour from the windows of the upper flats and the firemen had before them a difficult task.

On account of the nature of the structure it was found impossible to get water in from the rear and the fighting had to be done from the front. The heavy smoke gave the firemen a difficult task, but they went to work with a will and had streams working from every possible angle.

The building was occupied by the Merchants' Bank of Canada on the ground floor. Other tenants were the Mutual Life of Canada, William B. Wallace, William R. Scott, law offices, and offices of the Secretary's Re-establishment Commission.

F. J. Shreve, manager of the bank, said that the insurance on the building and bank fixtures was arranged from the head office. He understood that the loss would be fully covered. Prince Albert, responding, asserted that the fire was caused by a gas burner in the building, and the staff was compelled to work under a heavy smoke barrage. In the press room the water came in and the firemen were under the necessity of wading around in about a foot of water in their endeavor to get the paper out.

During the progress of the fire the gas mains supplying the bank building became disconnected and there was a slight gas explosion. At a late hour this morning the fire was still under way and the building was badly gutted. Several hours

ONT. FARMERS AND LABOR MEN AGREE ON LEADER

At Conference of Both Parties Yesterday E. G. Drury Was Unanimous Choice of Parties.

NEW GOVERNMENT ABOUT COMPLETE

Will be Ready on Short Notice to Take Over Reins from Sir William Hearst and His Ministers.

Toronto, Ont., Oct. 29.—E. C. Drury is to be the next premier of Ontario, succeeding Sir William Hearst. Mr. Drury was the unanimous choice of the Ontario Farmers and Labor Party and the United Farmers of Ontario at their joint conference at the U. F. O. headquarters here. It is understood that the meeting was very harmonious and that there was an indication of pulling well together in the house, though both the U. F. O. and Labor will retain their group features to a considerable extent.

Premier-elect Drury said tonight that the new government was practically completed, that all the portfolios had been allocated, and that the government would be ready on short notice to take over the reins from Sir William Hearst and his ministers. Mr. Drury said he was going home tomorrow to await the call to return to Toronto to accept from the lieutenant-governor the responsibilities of the premiership. He estimated that the government would probably take place in a very short time, as he understood Sir William Hearst had been merely waiting for information as to whom he should suggest to the lieutenant-governor as his successor before vacating.

Ten other names of United Farmers were mentioned, but the only one mentioned after the closing of the afternoon session as candidates for the U. F. O. leadership and premiership, including that of J. J. Morrison, secretary of the U. F. O. in an address to his followers.

It is understood that no vote was taken and that all the gentlemen named retired in favor of Mr. Drury. As an evidence of the unanimity in the choice of Mr. Drury as leader, the Canadian Press was handed a resolution that was moved by P. Hoenan, U. F. O. member-elect for Kenora, and seconded by R. A. Hughes, Toronto, treasurer of the Independent Labor party, the resolution being expressive of hearty endorsement of Mr. Drury as "leader of the Farmer-Labor party."

Asked as to where he would look for a seat after being called by the lieutenant-governor to form a government, Mr. Drury said he had an offer from the Centre Block and from a riding in southwest Ontario. He said he had not decided which he would accept, but naturally he would prefer a riding in Simcoe, his home county.

The policy of the U. F. O., so far as it had been definitely agreed upon, as outlined in an address given by Mr. Drury after his selection this afternoon. In this he stated that one of the first acts of the new government would be to carry out the mandate of the people of the province on prohibition, as declared in the recent referendum vote, and Mr. Drury expressed himself as in complete sympathy with this mandate. He pointed out that the U. F. O. had waged war on special privileges, and this policy would be continued he said. He intimated that the new government would not stand for any class legislation.

MANY ACCIDENTS ON LONDON-EGYPT AIRPLANE ROUTE

House of Commons Learns of Critical Situation Which Required Planes to be Sent by Air Instead of by Sea.

London, Oct. 29.—In the House of Commons tonight Hon. J. B. E. Seeley, under secretary of state for air, declared, regarding the recent allegation that there had been a serious number of fatalities on the new air route to Egypt, that in the spring and early summer there had been an urgent demand from Egypt for airplanes of large size and endurance to cope with the critical situation there. Owing to this urgency, machines had been sent by air instead of by sea. Fifty one Handley Page airplanes started, of which twenty-six arrived safely. Ten were at various points on the route disabled, and fifteen had been given up as wrecked. One machine had crashed down badly and four lives were lost. There were three other bad accidents, involving four fatal, three non-fatal injuries.

At the request of the chief of the air staff a special commission had been appointed to enquire into the matter.

The minister emphasized the fact that the choosing of this route had not involved in any way the use of an aircraft again urged that at the time the situation in Egypt had been critical.

DOCTORS ENTERTAINED AT THE SOLDIERS' HOSPITAL, LANCASTER

Saw Manner in Which Hospital for Treatment of Returned Men is Conducted—An Elaborate Dinner Prepared by Miss Sparling, Staff Dietician, Was Greatly Enjoyed—Everything up to Date.

Members of the St. John Medical Society were the guests last night of the clinical staff of the Dominion Soldiers' Civil Re-establishment Hospital, Lancaster Heights, and while spending an enjoyable time, got a very excellent idea of the wonderfully efficient manner in which this hospital, in particular, is conducted.

A dinner, specially prepared by Miss V. O. Sparling, staff dietician, was much enjoyed by the medics and proved the benefit of this recently established branch of the curriculum of healing. Miss Sparling is a graduate of the University of Toronto, is an expert in the science of corrective diet, she has a separate department at the institution, consisting of a diet kitchen and well appointed dining room, and has several assistants.

Later, the members of the society, after inspecting the building and the various wards, repaired to one of the larger halls, where technical papers were read and a general discussion followed.

Dr. John A. McCarthy, medical superintendent of the hospital, in the course of a very interesting review of the work stated that it should be decidedly understood that the institution was not a military hospital, but confined its attention solely to the needs of discharged soldiers who needed such treatment through injuries received during military service.

These disabled veterans, for a part of extending a year from the date of their discharge, are given medical or surgical treatment absolutely free, and in many cases also receive the full pay he would receive on active service, in his military rank, while he is undergoing treatment.

Since the Civil Re-establishment Department took over the Lancaster Hospital on July 1, there has been treated 73 surgical cases, 25 medical cases and 35 special cases.

Of the surgical cases 41 required operations, two are awaiting operations and the others were of a minor nature.

The out-patients are divided into two classes: those who are given the pay and allowance of their field rank in the service, while they are undergoing treatment, and those who receive their pay and allowance for the days only on which they receive treatment. All the out-patients live at their homes and come at appointed times for consultation and attendance.

In the out-patient department there are 285 patients receiving surgical treatment and massage, 69 receiving medical attention and 46 on the special list.

The Victory Loan Drive Well Away

A Good Day's Work But Only One-Eighth of Objective Has Been Covered—Returns by Districts.

Though handicapped by the fact that the local team captains and ward workers are not reporting, the central committee for St. John City and County reported that yesterday was a good day in the Victory Loan drive, 343 applications having been received, amounting to \$278,050, and bringing the local score up to \$660,850. This is just about one-eighth of the objective, which is \$4,000,000.

The province, as a whole, is making a better showing than the local districts, yesterday's total subscription of \$944,850, made up of 925 applications, creating a total of \$1,499,200—slightly more than a seventh of the necessary objective of \$9,000,000.

Yesterday's returns by districts, reported up to ten o'clock last night, are as follows:

Charlotte—\$22,200, from 22 applications.

York—\$57,650, from 57 applications.

Westmorland—\$45,850, from 186 applications.

Northumberland—\$8,000, from 29 applications.

Queens and Sunbury, west—\$8,000, from six applications.

Kings—\$12,200, from eleven applications.

Restigouche—\$6,150, from 31 applications.

Albert—\$18,050, from four applications.

Welfare Workers Will Meet Today

Dr. W. F. Roberts Has Called a Meeting of Health Officials and Welfare Workers to Discuss Important Matters.

It has been considered by the Provincial Health Department to be a most suitable occasion to hold a provincial conference upon matters pertaining to public welfare, while representatives from every county in the province are in the city attending the Women's Institute sessions.

In addition, the fact that Mrs. J. C. Hamilton, chief superintendent of the Victoria Order of Nurses, of Canada, is visiting New Brunswick with the idea in view of extending to every city, town and hamlet, or group of villages, the services of her order.

At present the questions which are occupying the attention of social workers and others from the Atlantic to the Pacific are those relating to public health, child welfare, medical inspection of schools, care of the mental defective, the treatment of tuberculosis, influenza and venereal diseases, jointly with the equally important matters of children's aid work, juvenile courts, prison farms and mothers' pensions.

The present is considered a most opportune time to discuss these matters, and so the Hon. Dr. W. F. Roberts, minister of health, has called a special meeting of the public health and welfare workers from all over the province and has invited the representatives of the Victorian Order of Nurses, Daughters of the Empire, the Red Cross workers, Women's Institutes, the Tuberculosis Association, the various nursing associations, and patriotic bodies, to be present.

The meeting will be held this afternoon in the Government Rooms, Prince William street, and will start at three o'clock sharp.

vide for their own wants and the wants of their families would receive nothing.

"It is only the beginning of the help we expect to receive" said an official at strike headquarters. We have now reached the digging stage and like any good army we must be provisioned.

Steel companies said they were operating their plants in about the same proportion as during last week. The Carnegie Steel Company reported the Homestead mill 82 1/2 per cent, in operation eight blast furnaces working in Braddock and an improved labor condition in Clairton. Youngstown also was doing better representing 81 per cent of the company mill but no aid was being sent to operate the Mingo Junction, Ohio, or Wheeling plants.

ADMIRAL'S REPLY TO HIS CRITIC

Sir Roslyn Wemyss To the Service.

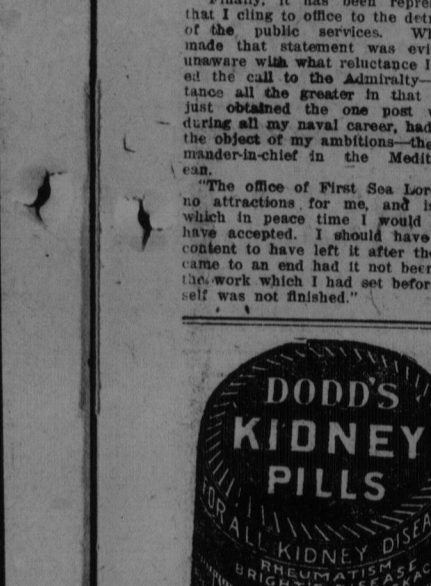

Admiral of the Fleet Sir Roslyn Wemyss announced at the Court of Session last night that he was subject to an attack in the Navy coming to an end when he leaves the office of Sea Lord.

He took advantage of the opportunity to reply vigorously to a but vociferous article that has criticised him recently.

"I speak somewhat feelingly," said, "having been subjected for last year to a series of attacks in various newspaper quarters, which not being specified, consisting no open criticism of any of my acts but in general statements of my alleged disqualifications for my office." Among the graceful compliments paid to me, it has been suggested that I am unfit for my post because I am a weak man. I wonder if the Prime Minister has found it necessary to make such statements affecting the welfare of the person such as the question of naval pay, wonder whether the officers and would consider the welfare of the Navy considered that these persons are justified and the Admiralty has failed in consideration to their just claims?

"Finally, it has been suggested that I cling to office to the detriment of the public service. Who made that statement was evidently unaware with what reluctance I had left the office to the detriment of the public service. Who made that statement was evidently unaware with what reluctance I had left the office to the detriment of the public service. Who made that statement was evidently unaware with what reluctance I had left the office to the detriment of the public service.

"The office of First Sea Lord no attractions for me, and is which in private time I would have accepted. I should have been content to have left it after the coming to an end had it not been for the work which I had set before myself was not finished."

ADMIRAL'S REPLY TO HIS CRITICS

Sir Rosslyn Wemyss To Leave the Service.

Admiral of the Fleet Sir Rosslyn Wemyss, announced at the Officers' Feast at Sheffield last night that his career in the Navy comes to an end when he leaves the office of First Sea Lord.

He took advantage of the opportunity to reply, vigorously to a small but vociferous clique that has been criticizing him recently.

"I speak somewhat feelingly," he said, "having been subjected for the last year to a series of attacks in certain newspaper quarters, which need not be specified, consisting not in open criticism of any of my actions, but in general statements of my alleged disqualifications for my office.

"Among the graceful compliments paid to me, it has been suggested that I am unfit for my post because I am a weak man. I wonder if the Prime Minister has found me so?"

"It has also been intimated that, owing to lack of sympathy or lack of knowledge, or possibly both, I was incapable of dealing with questions affecting the welfare of the personnel, such as the question of naval pay. I wonder whether the officers and men of the Navy consider that these persons are justified and that the Admiralty has failed in consideration to their just claims?"

"Finally, it has been represented that I cling to office to the detriment of the public services. Whoever made that statement was evidently unaware with what reluctance I obeyed the call to the Admiralty—reluctance all the greater in that I had during all my naval career, had been the object of my ambitions—the command-in-chief in the Mediterranean.

"The office of First Sea Lord has no attractions for me, and is one which in peace time I would not have accepted. I should have been content to have left it after the war came to an end had it not been that the work which I had set before myself was not finished."

SURPRISING FIND BY A NURSEMAID

Stolen Traveller's Money Cheques Recovered in Shrubbery of Chateau Frontenac.

Montreal, Oct. 28.—Miss Sarah O'Connor, nurse in the employ of Mr. McMahon, Manager of the Chateau Frontenac, was the lucky finder of \$450 in traveller's money cheques among the shrubbery that lines the path by the Chateau Frontenac archway on Dufferin Terrace on Saturday afternoon last. These had been lost or rather abstracted from the pocket of one of the Chateau guests, Mr. Charles J. Bell of Washington, D. C. in the month of August last at the time of the arrival of H. R. H. the Prince of Wales.

There is quite an interesting story brought to light by the finding of these negotiable cheques or money orders, issued by the American Bankers' Association to enlighten the public of the extensive operations of the American pickpocket at the time of the arrival of the Prince of Wales in Quebec on the 21st of August last, and extended to the holding of the Quebec Provincial Exhibition, during which time the visiting pickpockets reaped a rich harvest in this city.

It will be remembered that Quebec was crowded with strangers at the time and the Chateau filled with Americans. On the day of the arrival of His Royal Highness the Duke of York, the Chateau was packed with people who crowded to the railing to see him land at the King's Wharf. Among the large number of people on the Terrace were a great part of the Chateau guests, who later reported that they had been robbed of their money.

Among the guests of the Hotel who reported the circumstances of his loss was Mr. Charles J. Bell of Washington, who afterwards went back to the United States as did the other victims, and the matter was almost forgotten until Miss O'Connor found the traveller's cheques in a small pocket book on Saturday and handed them over to Mr. McMahon.

It appears that one of the hotel manager's children was at play on the Terrace, and with the aid of a stick was rooting in the shrubbery. Her nurse went to take her away when the latter espied the pocket book lying hidden in the shrub. It is presumed that when the pickpocket had made his haul, and on investigating the contents, saw that the pocket book contained traveller's cheques made payable to Mr. Bell he became alarmed. In the event of his arrest if these cheques were found in his possession it would have been sufficient evidence to convict him. It is likely, therefore that he threw the little book of cheques into the shrubbery, where they remained until found on Saturday last, only slightly damaged by the weather exposure.

Mr. McMahon has written to the owner, and made him acquainted with the fact in regard to the finding of the same. So far as can be learned Mr. Bell is the only one of the hundreds robbed at the time fortunate enough to recover his money.

GERMAN ATTITUDE REMORSEFUL BUT NOT REPENTANT

Dr. Henry Van Dyke Makes Striking Distinction in Toronto Address.

Toronto, Oct. 28.—Dr. Henry Van Dyke, diplomat, poet, preacher and novelist, addressed the Empire Club here on Saturday. Dr. Van Dyke issued a warning against class rule and communism. "The danger of the day is hysteria," he said, referring to the great nervous strain the Allied peoples had been under during the war and the present danger of communism.

"Do not let us forget recent history," advised Dr. Van Dyke, "Don't forget what Germany did. And don't forget what Germany came perilously close to doing. I hear somebody say—'What! A Christian and you are not willing to forgive and forget!' In what part of the Scripture do you find that injunction to forgive and forget? Forgive? Yes, where you find repentance. That is God's rule, and it must be our rule. We are to forgive where we find repentance, but as Cardinal Mercier says, the signs of repentance in Germany are not such as you can notice. If we were to forgive where there is no repentance we would be giving equal kindness to saint and criminal. There is remorse but no repentance at Amerongen and on the island of Weiringen. There are people in Germany who are sincerely sorry, and if they had it to do over again, would take a better path, but the mass of the people are not allowed to know enough for that. They do not even know that their armies were beaten."

In the heat of a renunciation of the Hun war lords, Dr. Van Dyke referred to them as "the Potsdam gang"—pausing for effect between the syllables of the name "Potsdam," which caused a general laugh. "We have it on the best theological authority that that name is quite proper," went on Dr. Van Dyke.

BRITISH NAVAL MEN DESERT THEIR SHIPS

Strenuously Object to Service in the Baltic—Leaders Placed Under Arrest.

London, Oct. 28.—The Central News understands that some bluejackets who were recalled up to London from Devonport on Monday night with a grievance to lay before the authorities regarding service in the Baltic, were arrested subsequent to their arrival at Paddington. The original party consisted of a number of men, but only a proportion of them are in custody.

The following official statement was issued by the Admiralty last night:—"It is the fact that some young seamen who left their ships under sailing orders for the Baltic were arrested as absentees on arrival in London last night. They are being sent back to their ships."

Nothing was known, says the Press Association, at the Admiralty of any grievance of the men in connection with service in the Baltic, nor was it thought likely that they were protesting to the Admiralty to make a complaint. The party numbered between thirty and forty and consisted mainly of boys under twenty.

Now Said to Be as Often Acquired as Inherited.

It is generally and chiefly indicated by eruptions and sores, but in many cases it enlarges the glands of the neck, affects the internal organs, especially the lungs, and if neglected may develop into consumption.

Hood's Sarsaparilla, the medicine that has been used with so much satisfaction by three generations, is wonderfully successful in the treatment of scrofula. Give it a trial.

PROVINCIAL OPPOSITION CONVENTION

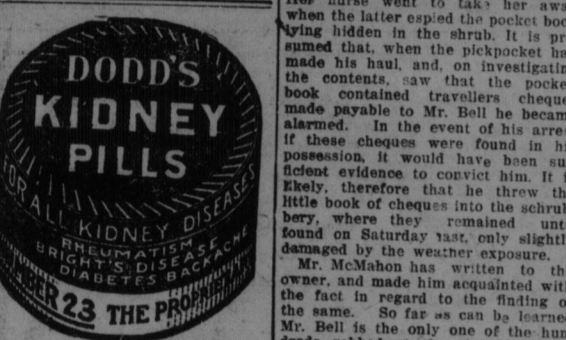

A Convention of the Opposition Party (male and female) in the Province of New Brunswick, will be held in the SEAMEN'S INSTITUTE, ST. JOHN, N. B. THURSDAY, NOVEMBER 6TH, 1919

Three sessions will be held. Morning session called at 10 o'clock. Afternoon session at 2.30 o'clock. Evening session at 8 o'clock.

In addition to the members of the legislature and the defeated candidates in the last Provincial election supporting the present opposition the basis of representation is three delegates for each Parish in each County and for each Ward in each City and Town, besides the chairmen of the Ward and Parish organizations. It is particularly desired that each Ward and Parish should choose at least one lady delegate.

In the interest of Provincial affairs it is urgently requested that each Parish in the Province, as well as each Ward in the towns and cities, should send a complete representation to this Convention.

Merchants of St. John

YOU are urgently solicited by the Executive Committee to lend a prominent portion of your window space in order that the posters of Victory Loan, 1919, may be effectively displayed during the approaching campaign.

These posters are designed by noted commercial artists, and are attractive enough to make a most striking window display by themselves.

Your customers will appreciate your public-spirited co-operation in this connection. They know that all good citizens are behind Canada's effort to clean up her war obligations and to provide for the expansion of trade and the maintenance of good times.

And the public generally will take for granted that behind your windows are splendid stocks worthy of their confidence and selection.

So you will lose nothing by this temporary sacrifice of your window space, but in reality will gain immensely in the esteem of your fellow-men. Merchants may obtain posters at Victory Loan Headquarters, Chipman Hill.

It is suggested that merchants prepare a Victory Loan window on Saturday night next for display Sunday. All churches are observing next Sunday as Victory Loan Sunday.

Tommy Burns Was Great Scrapper

Canadian Most Singular Type in History of Champions—Smallest Man to Ever Win Title.

New York, Oct. 26.—Tommy Burns, the Canadian, was one of the most singular types of fighting men in the history of the heavy-weight champions of the Queensberry Regim. For one thing he was the smallest man in point of stature, that ever won the honor. Tommy, whose average measured but five feet seven and a quarter was a veritable dwarf compared to Sullivan, Jeffries, Fitzsimmons and their successors. Burns was an almost exact duplicate of Tom Sharkey, whose the sailor was creating havoc amongst the big men of the arena. Tommy may or may not have been an exact pugilist as the sailor, but any rate he scaled dizzy heights of Florida than the intrepid sailor. Burns, handicapped as was the sailor in height, won a world's heavy-weight title even though, as some claim, it was achieved in a period of pugilistic decadence. With the winning of the championship Tommy Burns inaugurated the era of the financial in the pugilistic arena. The smallest man that ever held the title, Tommy had the biggest business acumen of any of the previous titleholders. He was the first champion to demand and receive \$30,000 win, lose or draw for a battle. Burns received this amount when he lost his title to Jack Johnson in Australia. Jeffries, Johnson, Willard and Dempsey took their cue in the matter of big payases from the doughy little Canadian, who today lives at ease under his own vine and fig trees on the spoils of battle won by his hardy fists and shrewd brain.

Burns was a professional lacrosse player before he took up the pugilistic game in earnest. It was in this strenuous game that little Tommy developed the wonderful stamina and stout physique which was later to carry him through a career of pugilistic fight to the world's title. When Burns first started in fighting professionally in Canada, he entered the ring as a waterweight. Taking on weight rapidly Tommy soon grew to heavy-weight proportions. His first good battle as a heavy-weight was with old Mike Scarrack, the two going a couple of rounds to a draw. After this he tackled the clever Jack O'Brien and received a six-round whipping. Burns attracted little or no attention until his battles with tough Jack Twiss Sullivan. Burns managed to hold the formidable Sullivan to a twenty-round draw the first time. Later he lost after another bout of equal length with the Twiss. That was in 1906. Burns was just developing into a first class heavy-weight and his rapid improvement, meteoric fact is revealed by the fact that in his battle he established his claim to the heavy-weight championship of America.

Burns was a powerful developed chap. Small as he was, Tommy was sheathed from head to foot with powerful, pliant muscles. One of his greatest characteristics was reach. That measured as long as Jim Jeffries himself—a good 72 1/2 inches. Burns was a "white Joe Walcott" fighting instinct. Highly developed, Burns whipped Marvin Hart, a husky head fighter, who had laid his claim to a title after Jeffries' retirement. In twenty rounds of desperate millage it was the little man's fight to a start to finish and no one was more bewildered or astonished at the result than Hart himself, when the fight finished, Marvin, now a Kennedy sheet and a Boston boxer. Burns' victory caused a country-wide sensation, as Hart had rated himself a first class heavy by defeating Jack Johnson and Jack Leonard. A little later Burns, disposed of Philadelphia

Chauffeur's Horse Made Him Rich—Bet His All on Scotch Verdict at 15 to 1 on Empire Track.

The rain that fell Thursday afternoon and night gave the Yonkers race track a thorough moistening. As a consequence Friday's races were run in a muggy, sticky atmosphere between pasture and glue. Naturally, form was not dependable. Speculators guessed and tried to select "muddies" that could perform well in the going. In five out of six cases the selections proved calamitous. The only favorite that won was Drummond, a 9 to 10 proposition for the sixth race, a four horse affair of a mile and a sixteenth. Nevertheless, all but one of the winners were liberally or strongly backed.

Scottish Verdict Easy Winner. The real sensation of the day was the victory of Scottish Verdict in the fourth race, the Yonkers Consolation Handicap, one mile and seventy yards. Scottish Verdict was backed from 20 to 15, and thereby hangs a tale. He is a three-year-old brown gelding by Shallock-Sensure. His owner is Lawrence Fay, his trainer G. H. Morton and N. Duggan was his rider. He was allotted 98 pounds. As the story goes, the owner, who is a chauffeur, owned a car. Yesterday morning he sold the car for \$600. In the afternoon he bet the entire proceeds of that sale on Scottish Verdict and got an average of 15 to 1 for his money. As the bugle sounded to call the horses from the paddock he said to the jockey: "Duggan, I have every dollar that I own on this race. If you win there is \$500 in it for you. Duggan earned the \$500. On the clubhouse fern he placed his mount in front. Along the backstretch he assumed a lead of ten lengths on the 3 to 2 favorite, Tom McTaggart. On the final turn he gave the selling a breathing spell and the seventy yards with six lengths of him. Let down and gently urged from the head of the stretch to the stand Scotch Verdict won by ten lengths. Subsequent to that sale the news was not disclosed. The sudden improvement of the horse amazed regular turf patrons.

"A little learning is a dangerous thing," but the danger is not in the learning, but in the littleness—Philips Brooks. Jack O'Brien, who questioned Tommy's superiority, O'Brien went into the ring under the impression that the bout was "all framed up" but Burns, a square fighting man, delivered a "double-crossed" Jack and gave him a thrashing which sent the Philadelphiaite to the hospital for a few days. Not long after that O'Brien got a return knock and trained faithfully in the hope of obtaining revenge for the "double-crossed" but Tommy administered another sound thrashing to the Quaker.

LITTLE BITS OF SPORT CHATTER

Here is a sign of spring before winter has really set in. George Brown has received the first entry for the B. A. A.'s 1920 Marathon. Clovis Bortelals, a Canadian soldier, who served overseas and was for two years a prisoner in Germany, is the man. He has already tried the B. A. A. run six times, but wants another go at it. Bortelals is just back from overseas and is living in Brockton.

Leo Handy, an ex-Brookline swimmer and New England champion, swimming for the Detroit A. C. in the Canadian championships in Montreal last Friday night, won the 100-yard event in 59, which is a new Canadian record.

Hockey prospects indoors in New York are practically nil. St. Nicholas rink has been turned into a dance hall and the other rinks are too small for the sport. The Brooklyn Ice Palace management does not favor hockey playing. Ice skating is likely to be encouraged, but hockey seems doomed for a rest for this year at least.

"Chic" Harley, whose great playing featured the defeat Ohio State administered to Michigan Saturday, must be an ever-present thorn. He does everything well—running, punting, drop-kicking and passing. He is a lightweight for such a whirlwind.

Lance Corp. C. E. Blewett won the English A. A. 10-mile championship at Sinnamon Bridge in 53m. 45 3/4s, and W. Hehir was the winner of the seven-mile walking championship. His time was 53m. 22s. At the same meeting W. A. Hill, the sprint champion, in an attempt to beat E. H. Pellings' 250-yard record of 34 4/5s, had a disastrous race with G. F. Muirby, and won by two feet in 25 2/5s.

It is rather interesting that Pellings made his English record of 24 4/5s in 1888, the same year that Charley Sherrill made the American record of 25 4/5s, down on Yale Field. The wonder is that Sherrill's record has stood all these years. It would seem as if Bernie Wefars, Ralph Craig and others might have erased it without much trouble.

Alfred Shrubb is coaching and training the Oxford University cross-country team. Shrubb certainly was a success at hill-and-dale coaching at Harvard, and should make good at Oxford.

Over in England they are already discussing the possible meeting of Jole Ray and the English mile and half-mile champion, A. G. Hill, in the 1500-meter race in the Olympic games in Antwerp in 1920. W. L. Sinclair, in writing of the merits of the two men in the Sporting Chronicle, does not agree with W. G. George that Hill's mile in 4m. 21.1/5s, half-mile in 1m. 58s, and winning quarter in the mile relay at the English championships was the best one-man-one-day performance of all time. He considers that Ray's 4m. 14 3/5s, for the mile, 1m. 35s, in the half and 4m. 25s, in a double mile relay was the greater performance in one day. Still, it is evident that Sinclair favors Hill to win, when the two meet, because he has shown such a hot last quarter in his record mile of 4m. 16 4/5s. It surely is a great race to look forward to.

Ten Week Circuit For Maine And N. B.

Horsemen Met in Fredericton Last Night and Organized for Carrying on of Meets During Next Season.

Fredericton, Oct. 28.—The Maritime and Maine short-sharp harness circuit was formed here this evening at a meeting of horsemen representing various tracks in Maine, New Brunswick and Nova Scotia. The officers of the new circuit are: President, S. D. Heckbert, Chatham; vice-president, P. S. Watson, Fredericton; secretary, F. D. Tweedie, Chatham. Members of the executive reporting the various tracks are: Sackville, A. E. Eber; Sussex, Mr. Fairweather; Springhill, N. E. E. H. Park; St. Stephen, F. D. Graham; Chatham, S. D. Heckbert, F. D. Tweedie; Springhill, N. S. H. A. B. Giendinning; St. John, A. P. Ryan; Roseton, D. B. Buzzell. No representatives from Moncton, Sackville or Sussex were in attendance.

Acadia Defeated Mount Allison

First Intercollegiate Fixture Went to Nova Scotia College, Thirteen to Nothing.

Special to The Standard. Sackville, N. B., Oct. 28.—Acadia trounced Mount Allison by a thirteen to nothing score on Varsity Campus here this afternoon in the first game of the old intercollegiate league since 1915. The Voltwreite boys scored twice in the first half, one being converted very prettily from a difficult angle. In the last minutes of play in the second half one of the Rogers boys, of Amherst, crossed Mount Allison's line for the last try of the game, and the converting kick brought the final score up to thirteen. The game, which was witnessed by a large crowd, was anything but finished football and anything but as one-sided as the score would seem to indicate.

Acadia was able to keep the ball in Mount Allison's territory most of the time, but the game was well contested all the way through. Both teams showed very clearly that they were inexperienced, but Acadia half-line worked much better than the Garnet and Gold halves, and though their passing was not good it was much better than their opponents.

Mr. Ashton, of Fredericton, made an impartial referee. The lines up: Acadia. Forwards. Webb. D. Taylor. Hooper. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison. Mr. Allison.

do, but it was very evident all through the match that both teams have practically everything to learn about tackling. High tackle, which nearly everybody tried to use today, was demonstrated some years ago to be almost useless as means of defence. Acadia halves ran well with the ball. They did very little punting, but in their running they showed considerable speed and broke through the crowd pretty well. Against good tacklers, however, they would have gained much less ground, but as it was they showed superiority today.

Acadia had the advantage of weight in scrum and that fact told against the opponent. The visitors were quicker, too, in forming scrums and frequently gained possession of the ball because of this quickness. Both teams were lamentably weak in tackling. Cann, at fullback for Mount Allison, had one or two nice tackles to his credit, and Macafee, Mount Allison's captain, was effective in tackling about scrums, but speaking generally tackling was woefully inefficient on both sides. Mount Allison's half showed up worst in this regard, but apparently this was because Acadia men were getting the ball more often than the locals, and visiting halves had less tackling to do, but it was very evident all through the match that both teams have practically everything to learn about tackling.

Too Ill to Work

Scores of Women in homes, stores, offices and factories are not fit to be at work. They toil on day after day and year after year suffering with distressing weaknesses and derangements, hoping against hope that they will soon feel better, but how can they hope to do good work or escape permanent invalidism?

Such women are in danger of derangement of women's functions. They owe it to themselves to try that good old fashioned root and herb remedy Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been restoring Women to health and strength.

Here is a Notable Example St. John, N.B.—"I have used Lydia E. Pinkham's Vegetable Compound for bladder and kidney troubles and backache and find it the best medicine I ever took. I used many other remedies with very little result. I had two miscarriages and would have been in my grave ere this if it had not been for your medicine. I always keep a bottle of Vegetable Compound in the house, and I feel fine to do my work for five in the family. I have recommended your Compound to many people, and you may use this testimonial if you like. It may help some other woman."

WOMEN'S INSTITUTE IS PROVIDING AT MORNING SESSION Treated by Specialists in Afternoon

While the motto of the Women's Institute is "For Home and Country," the motto of the Institute in its subjects discussed at the morning session was "For the Home and Country." The sessions were held at the Queen's Hotel, and the program was arranged to show that their interests are not narrowly confined to the home, but that their outlook is broad and their influence far-reaching.

At the morning session Mrs. W. E. Post, president, presided. The program was arranged to show that their interests are not narrowly confined to the home, but that their outlook is broad and their influence far-reaching.

Reports were presented as follows: For Buctouche, Mrs. Longman, Mrs. Swales, Dobbe, Mrs. P. J. Devon, Mrs. Forbes, Mrs. F. A. F. Jones, Mrs. Kippatrick, Mrs. M. J. Bennett, Mrs. Nutting, Mrs. G. M. Bridgman.

An example of the work being done for child welfare was given by Mrs. W. E. Post, president, who introduced the subject, "The Child and the Home." She stated that the children of the home are being neglected and that the children of the street are being neglected and that the children of the street are being neglected.

Dr. Roberts then referred to speakers on the platform with special reference to the work of the Women's Institute for the Deaf, which was introduced by Mrs. W. E. Post.

WOMEN'S INSTITUTE CONVENTION IS PROVING A GREAT SUCCESS

At Morning Session Yesterday Important Subjects Were Treated by Speakers—Largely Attended Meeting at Imperial in Afternoon When Child Welfare Was Discussed—Women's Problems the Evening Subject.

While the motto of the Women's Institute is "For Home and Country" in the subjects discussed at their convention now being held, they have shown that their interests are not narrowly confined to the home nor is the outlook too broad to overlook its importance.

At the morning session yesterday Mothers' pensions, the prohibitory laws, vocational training, immigration, legislation and child welfare were among the subjects treated.

With market oratorical ability Mrs. Ross Henderson, Montreal, provided a feature of the session in her stirring address in favor of mothers' pensions while Mrs. H. Lawrence, St. John, who talked of immigration; Miss Katherine Stewart, of the Victorian Order of Nurses, who spoke on care of children; Mrs. Charles Cobham, Woodstock, who treated of school work; and Mrs. C. J. Osborne, Hillsboro, who outlined the importance of a knowledge of how to distinguish good legislation, all captivated and edified the large audience with timely topics.

Miss Annie Smith, Hoyt Station, presided, assisted by Miss Hazel McCain, supervisor.

Reports were presented as follows: For Burtonche, Mrs. Long; Chipman, Mrs. Swain; Debon, Mrs. Sanderson; Devon, Mrs. Forbes; Florenceville, Mrs. Kilpatrick; Fredericton, Junction, Mrs. Nutter; Gagetown, Mrs. Birkidge.

The delegates and visitors were guests at luncheon at the Manor House of Mrs. W. E. Foster. Special cars were provided to Glen Falls where Mrs. Foster received the guests who were introduced to her by Miss McCain. The suite of rooms was thrown open and at small tables decorated with carnations the guests enjoyed a delightful luncheon.

An example of the work being done for child welfare was given yesterday afternoon at the Imperial theatre when to introduce the subject, one hundred and fifty pupils of the Free Kindergartens sang three songs on the stage of the theatre. The children were loudly applauded and brought with them their own appeal.

Dr. Roberts presided and praised the Women's Institute for their work especially for the assistance they place on the value of the home. He told of the loss of life in the war, and by the influenza, and showed how necessary it was that all humanitarian efforts should be supported. He felt that in matters of public health there was a drowsiness on the part of municipalities, and it was a duty on the part of the women to awaken the public conscience to the value of health regulations and the carrying out of the same.

Dr. Roberts then referred to the speakers on the platform with him, speaking in terms of praise of Mrs. Hanington, President of the Victorian Order of Nurses, Dr. Mabel Hanington, medical inspector of schools, and Miss Hall, inspector of Victorian Order of Nurses.

Dr. Hanington addressed the large audience on the work accomplished so far in St. John, stating that fifty per cent of the cases reported by her had been cured. She had found the average of normality in the schools here 18.12 per cent, or 7 to 40 per cent, in some of the better districts.

She told of the means taken to prevent the spread of diseases in the schools, and how children who were handicapped by physical defects had been cured, and the care which the feeble-minded should have. Dr. Hanington looked forward to the day when there would be a medical inspection all over the province, and called upon the members of the Institute to support such a measure as an integral part of child welfare. She closed her talk with some amusing but touching stories of the children.

Mrs. Hanington herself a member of a Women's Institute, mentioned with pleasure the fact that the W. I. at Devon was advocating music in the schools, and asked the members to endeavor to have the souls and the spirits of the children looked after as well as their bodies. She told of the work of the Victorian Order, how the nurses become the friend of the people in their district and by deeds show their patients that they are there to help advise and teach. The value of the nurses in the far West was pointed out and Mrs. Hanington expressed the hope that all over New Brunswick there may be nurses of this order giving their services of mercy and comfort.

"As long as the mothers are all right we need not worry about the country," Mrs. Hanington said and urged the teaching of patriotism to the children.

The evening session was held at the Imperial theatre when Mrs. Jean Muldrew and an interesting account of the Cercles des Femmes in Quebec, were the features of the evening session. Mrs. J. C. Osman, Hillsboro, presided, and music was provided by the orchestra.

Mr. Savoie stated that women were the saviors or destruction of the family and that upon them depended, to a great extent, the future of the nation. She told of the founding of the Cercles Femmes in Quebec "the Lady Farmers Clubs" as they were called, of which there are now twenty-three and the assistance given by the government in classes and grants for the work. The movement had been most successful and exhibited its results at Provincial and County fairs had attracted much admiration. One object of the Cercles had been to get up festivals and out door plays which had interested the young people throughout the Province. In the schools and convents the teaching of domestic science, bookkeeping and poultry raising had been introduced and members had devoted much time to various industries such as weaving, spinning, knitting and cheesemaking. Mr. Savoie spoke of the love of country which women should inculcate and the moral and material benefits which follow the improvement of the home-land. At the close of his speech he delivered an address in French speaking to the French delegates.

For over an hour Mrs. Jean Muldrew held her audience's interest as she spoke on the "Problems of the Women of the Future." Mrs. Muldrew referred particularly to girls and their outlook on life, speaking from the experience she had gained while house mother for ten years to two hundred and fifty girls in college. She dwelt with emphasis on the necessity for girls knowing one thing thoroughly "a life job" so that they may, whether married or not be able if they have to, to earn their own living. She said they should get a high school entrance certificate if possible but pointed out that the lot of a woman is hard enough when she has to earn her living and most difficult when she does not know anything in particular.

Mothers should teach their girls food values and misquoting Tennyson said for "We are a part of all that we have eat" and girls should know something about nursing for they may be able to save lives. She urged more sleep for all children thus storing up reserve strength and more discipline so that they may be able to obey from the time they are two years old and be trained in sensible habits.

OBITUARY

Mrs. James Hargrove. The death of Agnes Helen, wife of James Hargrove, occurred on Wednesday, October 29, at her home in Chance Harbor, after a long illness. Mrs. Hargrove, who was a daughter of the late Thomas and Margaret McGowan, of this city, is survived by her husband, two brothers, Henry L. and Major John T. McGowan, of this city, and two sisters, Mrs. N. Hophorn, of California, and Mrs. Frederick Hargrove, of Partridge Island. She was highly esteemed by all who knew her and the bereaved family will have the sympathy of a large circle of friends. The funeral will take place this afternoon at two o'clock from her home in Chance Harbor.

PHYSICIANS' ADVICE.

Frederick S. Kelle, M. D., Editor of New York Physicians' "Who's Who," says that weak, nervous people who want increased weight, strength and nerve-force should take a 5-grain tablet of Bitro-Phosphate just before or during each meal. This particular phosphate is the discovery of a famous French scientist, and reports of remarkable results from its use have recently appeared in many medical journals. If you do not sleep well, if you tire easily, do not sleep well, or are too thin, go to any good druggist and get enough Bitro-Phosphate for a two weeks' supply—it costs only fifty cents a week. Eat less; chew your food thoroughly and if at the end of a few weeks you do not feel stronger and better than you have for months; if your nerves are not steadier; if you do not sleep better and have more vim, endurance and vitality; your money will be returned, and the Bitro-Phosphate will cost you nothing.

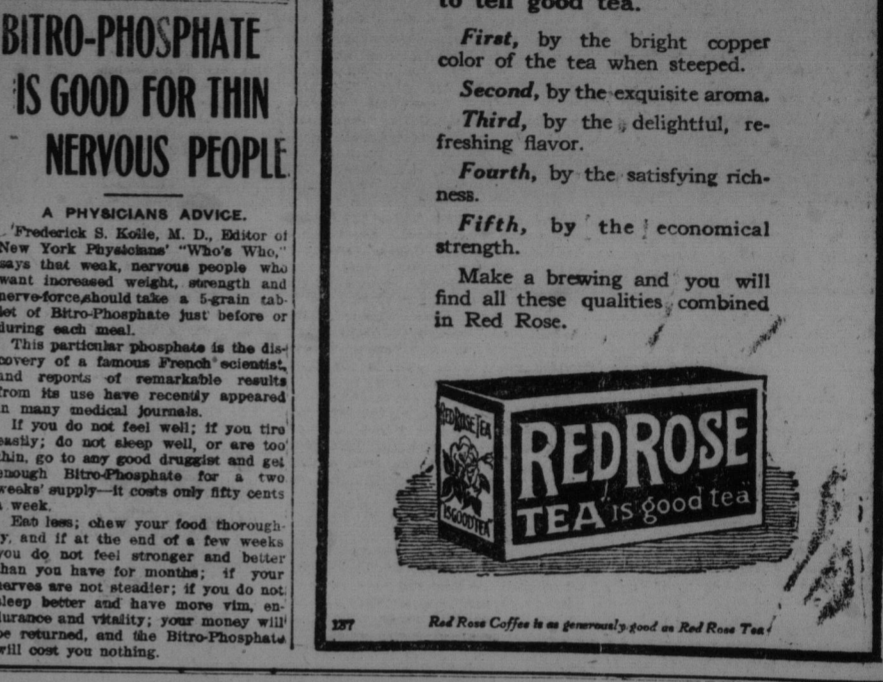

LEAGUE BEGINS TO FUNCTION

Sir Reginald Tower Appointed Temporary High Commissioner at Danzig.

London, Oct. 29.—Sir Reginald Tower, formerly British Minister to Argentina and Paraguay, has been appointed temporary High Commissioner at Danzig by the League of Nations organization, it is learned here. He is expected to assume his duties about November 5. The news of the appointment was received here with double interest, as it is taken as an indication that the league is beginning to function.

BITRO-PHOSPHATE IS GOOD FOR THIN NERVOUS PEOPLE

There are five simple ways to tell good tea. First, by the bright copper color of the tea when steeped. Second, by the exquisite aroma. Third, by the delightful, refreshing flavor. Fourth, by the satisfying richness. Fifth, by the economical strength. Make a brewing and you will find all these qualities, combined in Red Rose.

Red Rose Coffee is as generally good as Red Rose Tea.

Imitations Are Dangerous.

AN OHIO druggist writes to "The Practical Druggist," a prominent New York Drug Journal, as follows: "Please furnish formula for Castoria. All the formulas I have worked with are either ineffective or disagreeable to administer." To this "The Practical Druggist" replies: "We do not supply formulas for proprietary articles. We couldn't if we wanted to. Your experience with imitative formulas is not surprising, but just what is to be expected. When Castoria is wanted, why not supply the genuine? If you make a substitute, it is not fair or right to label it Castoria. We can give you all sorts of laxative preparations for children, but not Castoria, and we think a mother who asks for Castoria would not feel kindly toward you if you gave her your own product under such a name."

Someone some day may try what this druggist was advised not to try, so beware. Remember that Fletcher's Castoria is safe and not an experiment.

Children Cry For Fletcher's CASTORIA

Mothers Must Use Care.

Why do we so often call your attention to imitations of Fletcher's Castoria? Because it is a baby's medicine and imitations are always dangerous, particularly imitations of a remedy for infants.

Druggists generally, the great majority, are reliable and think only of the welfare of their customers. But there is the other kind, as seen above, whose only aim is the greater profit in handling spurious goods. Again we say: beware.

Your own judgment tells you that Fletcher's Castoria having for over thirty years at great expense held up its reputation, must jealously guard it. Then, it follows that this company must use the very best of material. Must employ experts in the selection of the herbs. Must retain skilled chemists in its manufacture.

Your same good judgment must tell you that these irresponsible imitators are trading on your credulity and the reputation built up by Mr. Fletcher, during all these years, for his Castoria.

Betty Wales Dresses

Georgette Enhances Feminine Charms

AMONG the exclusive models for festive occasions just placed on display are exquisite Betty Wales costumes. Some of Georgette alone—others of Satin and Georgette in combination. They are ideal for all social activities.

ONE is a decidedly graceful costume of printed Georgette with black velvet ribbon falling from the shoulder to the knee, caught in under the waist with a Georgette sash. This gives the greatly desired appearance of slimmness even to the full figure.

ANOTHER striking model combines embroidered Georgette over satin in harmonizing shades, the Georgette forming the tunic. Loose bell sleeves add to the charm of this gown.

In all sizes for Misses and Women. Every Betty Wales Dress is unconditionally guaranteed.

HECKLERS BUSY AT TILLET MEETING

British Labor M. P. Rebuked Those Disturbing Dominion Labor Congress Secretary.

Montreal, Oct. 28.—Ben Tillett, M. P., the British labor leader, took occasion in addressing a meeting held under the auspices of the Montreal Trades and Labor Council at Tascote Park last night, to rebuke an element which had evidently come organized for heckling purposes, and had made it difficult for M. Draper, secretary of the Dominion Trades and Labor Congress, to conclude his address which proceeded to the order of the day.

The heckling started when Mr. Draper declared that the only true labor movement in Canada was that represented by the Trades and Labor Congress. Some one yelled, "How about the Big Union?" There was an outbreak from several parts of the hall, most of them being recriminations against Mr. Draper. In appealing to the disturbers for order Mr. Draper pointed out that the leaders were in the main zealous advocates of "free speech" and that they should at least be willing to grant the same tolerance which they so vehemently demanded. Mr. Draper even threatened to bring the meeting to a close if the disturbances continued.

In opening his address, Tillett said that the interruptions did not perplex as much as dishearten him to see anything like a breach in the ranks of labor. He said he represented what was considered a rough element, but that his dockworkers were gentlemen enough to give a fair hearing even to the most radical ideas they did not themselves entertain.

Of Sinister Importance.

He said that workers the world over are today facing problems more serious than ever, being capitalism had organized an international machine of sinister import to the worker which was likely to become more sinister and more powerful as the world industry developed. He pointed out that strikes and lockouts had not injured the machine but were not likely to be predicted that capitalism would die of its own power, and the only chance of the worker was to combine and fight with the evolution of this power was for them to comprehend it and understand it, that they may use their fullest economic and constructive political forces to protect themselves.

He declared that 25,000,000 in England and 60,000,000 in America are today living under conditions which do not justify existence if a standard of health and decency is to be taken. He deplored the slum and did not think it necessary even under the present social system.

When he said that international capitalism speaks one language and never disagrees and that labor must take a lesson and speak one language, too, some one yelled, "One union too." Tillett said: "Yes, tear down and throw away the old one and what will you have? It will be a case of a dog trying to live on his own tail. If one central power could be established in the labor movement, you would have industrial militarism and autocracy."

Saying that he had warned the workers and would also warn the capitalist, he declared that if capitalism insisted upon employing the poorest womanhood and manhood, submit them to degrading conditions, and refuse to recognize consultation, they will grow up on the face of the earth, "Goths and Vandals which no police or military could control."

"This is a wonderful country," said the speaker. "You have gone dry." He warned his audience that their social liberties were being imposed and predicted that if they continued to be lethargic they would be further imposed upon.

On the platform were Jos. Alney, Gustav Franco, A. Mathieu, Richard Lynch and F. Payette.

MURDER CASE AT HALIFAX

Italian Restaurant Proprietor Charged With Murder of a Fellow Countryman.

Halifax, N. S., Oct. 28.—Victor Tomarelli, proprietor of the Roma Cafe on Barrington street, is a prisoner at the police station, charged with the murder of Frank Guino, an Italian tailor, whose body was found on Kempt road by Railway Policeman Furcell on Sunday night.

According to confessions made by Detective Kennedy by Peter Covacich and Roger Stevens, witnesses to the crime, there had been feeling between the two men for some time on account of domestic difficulties. On Sunday evening the four men, Guino, Tomarelli, Covacich and Stevens, met at the Roma Cafe and went from there to a Water street resort. Stevens is a chauffeur, and had a car in which he took the group for a drive to Fair view. On the way back the police began an altercation in the rear seat of the motor, and Stevens stopped by the side of the road almost at the gate of St. John's cemetery. They all got out and a general scuffle ensued, in which, it is supposed, Guino received the blow which resulted in his death. When he fell to the ground, the other three men jumped into the motor and returned to the city.

He wrote, warning her "that he would be revenged."

GIRL PELTED WITH BOMBS

Terrible Revenge of Man Jilted by His Sweetheart.

Berlin, Oct. 28.—An amazing drama of disappointed love has just been enacted with tragic results at Cottbus, in Brandenburg.

A young man recently demobilized, had been jilted by his sweetheart, who refused to see him.

He wrote, warning her "that he would be revenged."

As the girl stood, yesterday morning, among a crowd at the railway station, where pickets were being distributed, the forsaken lover appeared and hurled a number of bombs at the girl with terrible effect.

Six persons, including the jilted lover, were killed and twenty-one wounded.

Love tragedies in Germany are now so frequent that they have become a standing feature of the newspapers.

A case occurred yesterday evening in which the principals were killed.

Accountant of Schools Praises It

Results Were So Gratifying from Taking Tanlac Feels That It Would Be Selfish Not To Tell About It.

"I began taking Tanlac when it was first on sale in Edmonton, and I have gotten such splendid results from it that I would feel selfish if I did not let others know about it," said A. C. Crookshank, who resides at 1914 One Hundred and Eighth street, Edmonton, Alberta, while in the Owl Drug Store in Edmonton, Mr. Crookshank holds the position of accountant for the Edmonton Public Schools, and is well and favorably known throughout a wide section. He has been a resident of Edmonton for fourteen years and is a very popular.

Continuing Mr. Crookshank said: "I had suffered for a number of years from indigestion and the other troubles it generally brings on, I had to always be very careful in selecting my food and even at that most every meal would cause severe indigestion and suffering. What I ate would just seem to lie heavily on my stomach, causing a dull, sick feeling, and the fermentation would cause gas to form. The pressure of this gas against my heart would cause palpitation, and I believed for a long time that I had heart trouble. This condition brought on extreme nervousness and it was very seldom I could get a good night's sleep. After a time all this began to affect my general health, and I became so weak that the least little exertion would completely exhaust me—even walking a few blocks would tire me out."

For years I tried to find something that would relieve my condition, but every thing I tried failed to give me any relief. When Tanlac was first put on sale on here I didn't know anything about the merits of it, but saw that it was recommended highly by those who had been benefited by taking it, and I decided to try it. It gave me just the results I was looking for, and I am fully satisfied that they are permanent as it has been a long time since I have taken it. I have a good appetite and am bothered no more with indigestion. I enjoy eight or ten hours' sound sleep every day, and have regained my strength in general. Tanlac is sold in St. John by Ross Drug Company, and F. W. Munro, under the personal direction of a special Tanlac representative.—(Advt.)

WARNING TO GOVT THINKS GAZETTE OF MONTREAL

Result of Monday's Bye-Elections Must be Taken as Indicating That the Political Unrest is Widespread.

Montreal, Oct. 28.—Commenting on the result of the bye-elections yesterday, the Gazette, Conservative, says: Coming after the Ontario elections of last week, the result must be taken as indicating that the political unrest is widespread and that both Conservative and the Liberal party are likely to lose by it, the Conservatives in greater degree in all probability. The plain fact is that the Union government, while it carried the country two years ago, did not create confidence or gain a hold on the popular mind strong enough to maintain it when the needs of war action passed. It is for ministers and those who advise them wherever these may be to seriously consider the situation, as it affects their policy, present and future. As things are, it is only to be thought they are moving on to defeat, which will be hastened by recent events and the war action passed. A cabinet that commands respect presents to the country such a programme of Conservative measures as are needed to carry it through the coming years of trial with some reserve of financial strength for its action needs. And the first thing towards such end should be the promulgation of a session of parliament that is worthy the country and imperilling such chances of maintaining itself as the government command.

THE LANGUAGE OF COLORS.

What is your favorite color? Do you wear the color that suits your personality? According to the ancients there is a real connection between the color that a person likes best and the character of the person concerned.

Here are a few of the colors and what they stand for:

Red on a man—be it a necktie, scarf or socks—indicates command, nobility, lordship. On a woman, pride, obstinacy and haughtiness.

White has long been a sign of religion and purity. The animal bearing affinity with white is naturally the ermine. Among the Greeks it was a sign of mourning and sadness.

Blue indicates wisdom when worn by a man. On a woman, jealousy in love, politeness and vivaciousness.

Green for men signifies joyousness.

Some Canadian Political Topics

Former Farmers' Party in Ontario Short Lived — Was Buried by Sir Richard Cartwright—Interesting Observations on Quebec Situation.

Ontario Farmers. (Montreal Gazette). As a result of the elections of Monday last, a farmers' party, for the second time in the political history of Ontario, is in a position to play an important part in the direction of the province's affairs.

Political Difficulties. (Montreal Gazette). The situation in 1919 is different from that of twenty-five years ago. The United Farmers of Ontario are represented by the strongest of the four parties or groups into which the newly-elected Legislature divides itself.

Proportional Representation. An announcement by Premier Charles Stewart that his Government will introduce the proportional representation system of voting in Alberta before the next provincial election is described by the Canadian Herald as the most important page developed so far in the struggle between the new U. F. A. political party and the Alberta Government.

Lapointe the Giant-Killer. (Quebec Telegraph). The following editorial comment on the local bye-election is reproduced from the Ottawa Journal: "The contest in Quebec-East, Sir Wilfrid Laurier's old seat, where Mr. Ernest Lapointe has accepted the Liberal nomination and will likely be opposed by the sometime first lieutenant to Mr. Bourassa, promises to be an unusually interesting one."

Lavergne's Abdication. "Government knows of 'no more abdication' in the history of politics than Armand Lavergne has shown in withdrawing from today's election contest in East Quebec. It is disconcerting yet, since more how instructive!" says the Quebec Conservative organ. "It was to place

themselves thus humbly at the service of the Liberals that the Nationalists threw themselves so arrogantly against the old Conservative party crying—to trifle with the simple people—Death to all the parties: it was to aid this fine result that the Nationalist train, believing it would lead them to the renovation of Canadian politics. They are today, with their new chief, in the arms of the Liberals. Tomorrow they will be fighting with the new parties in the light of the classes. It is easy to demolish. It requires greater skill and more meritorious efforts to construct. In abandoning to their Liberal allies, whom they have scorned, the task of construction, the demolishing Nationalists are playing a part which suits them, but it is one which is not courageous nor useful to the country. It is a part more humiliating than honorable."

SIBERIAN PEASANTS ARE FIGHTING THE JAPANESE TROOPS

London, Oct. 28.—The Siberian peasants are fighting the Japanese troops in the trans-Bialka and Amur regions. The third Japanese division, according to a wireless message from Moscow, has suffered very severely and been replaced by the fifth division.

TENDER GUMS — A WARNING

Beware of gum tenderness that warns of Pycorrhoea. Four out of five people over forty have Pycorrhoea—many under forty also. Loosening teeth indicate Pycorrhoea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—infesting the joints or tonsils—or causing other ailments. Forhan's positively prevents Pycorrhoea, if used in time and used consistently. As it hardens the gums the teeth become firmer. Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean. If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes. PRINCE PROVES HE IS REAL FELLOW

Accepts Challenge to Prove His Democracy and Tosses 'Two Bits' to a Soldier.

Windsor, Ont., Oct. 28.—Private Tim Murphy, late of the Canadian Ninety-fifth Battalion, made certain on Friday that the Prince of Wales was "safe for democracy," but the trick cost the Prince twenty-five cents. Just as the Royal special was about to pull out of the Canadian Pacific station, Murphy, climbing to the rear platform of the Prince's car, directed at the Royal visitor what he afterwards said he thought would be a pointer.

"Are you democratic, Your Royal Highness?" queried Timothy. "I hope so," came back the Prince. "Well, give the crowd some practical evidence of it," went on the Irishman. "Shove us over two bits." "Two bits, what's that?" His Royal Highness said, laughing. "Why, Your Royal Highness, that's a bet in the Old Country," Tim replied. And the Prince dug down into his well-pressed trousers, drawing out a Canadian 25-cent piece, which he handed to the surprised soldier. "You're the Prince of all democrats," said Timothy.

KING AND QUEEN ATTENDED OPERA

Famous Metropolitan "Diamond Horse Shoe" Glittered With Jewels.

New York, October 18.—The famous "diamond horse shoe" of the Metropolitan Opera House glittered with jewels tonight in honor of the King and Queen of the Belgians. The wealth and fashion of New York packed the great auditorium from pit to dome to hear a special performance for the benefit of Queen Elizabeth's hospital fund one of Her Majesty's most cherished charities.

The Royal Belgians were given a tremendous ovation as they entered their box while the great orchestra played the Brabanconne before which every Belgian soldier stands at salute wherever he may be. At the close of the performance the Belgian National Anthem was sung by Leon Rother. No complete opera was sung but parts of two were presented. The artists included Rosa Ponselle, Giovanni Martinelli, De Serravallo, Mabel Garrison and Heifetz. It was the only theatrical performance which the King and Queen have attended in the United States. They have declined to go to the theatre because of the illness of President Wilson.
