Fellows' Speedy Relief

ONLY REQUIRES MINUTES—NOT HOURS—TO RELIEVE
PAIN AND CURE ACUTE DISEASES.

FELLOWS' SPEEDY RELIEF

In from one to twenty minutes, never fails to relieve PAIN with one thorough application. No matter how violent or excruciating the pain, the Rheumatic, Bed-ridden, Infirm, Crippled, Nervous, Neuralgic, or prostrated with diseases, may suffer,

Fellows' Speedy Relief will Afford Instant Ease.

Inflammation of the Kidneys, Inflammation of the Bladder, Inflammation of Bowels, Congestion of the Lungs, Sore Throat, Difficult Breathing, Palpitation of the Heart, Hysteria, Croup, Diphtheria, Catarrh, Influenza, Headache, Toothache, Neuralgia, Rheumatism, Cold Chills, Ague Chills, Chilblains, Frost-bites, Bruises, Summer Complaints, Coughs, Colds, Sprains, Pains in the Chest, Back or Limbs, are instantly relieved.

FEVER AND AGUE.

Fever and Ague cured for 25 cents. There is not a remedial agent in the world that will cure Fever and Ague and all malarial, Bilious, Scarlet, Typhoid, Yellow and other Fevers so quick as Fellows' Speedy Relief. It will in a few moments, when taken according to directions, cure Cramps, Spasms, Sour Stomach, Heartburn, Sick Headache, Diarrhoea, Dyspepsia, Colic, Wind in the Bowels, and all internal pains.

Travellers should always carry a bottle of FELLOWS' SPEEDY RELIEF with them. A few drops in water will prevent sickness or pain from change of water. It is better than French Brandy or Bitters as a stimulant. Miners and lumbermen should always be provided with it.

CAUTION.

All remedial agents capable of destroying life by an overdose should be avoided. Morphine, opium, strychnine, hyoscinus, and other powerful remedies do, at certain times, in very small doses, relieve the patient during their action in the system. But perhaps the second dose may aggravate and increase the suffering, and another dose cause death. There is no necessity for using these uncertain agents when a positive remedy like FELLOWS' SPEEDY RELIEF will stop the most excruciating pain quicker, without entailing the least difficulty in either infant or adult.

THE TRUE RELIEF.—FELLOWS' SPEEDY RELIEF is the only remedial agent in vogue that will instantly stop pain. 25 cents per bottle.

TRULY A HOUSEHOLD FRIEND.

The uniformly, gratifying and often astonishing results attending the use of FELLOWS' SPEEDY RELIEF since its introduction, render it desirable and proper to bring it to the notice of all classes. Its record as a pain relieving and healing remedy for ailments almost constantly occurring in nearly every household, affords the most positive evidence of its superiority. For those very painful and distressing complaints Rheumatism and Neuralgia, it is regarded as the great specific, and as such it is used by all classes of people.

The volumes of testimony regarding its surprising effects constitute the strongest reason for considering FELLOWS' SPEEDY RELIEF as pre-eminently the peoples' trustworthy remedy to be kept ever ready. The proprietors of the article, believing that there is nothing unmercantile in giving the broadest publicity to goods of recognized merit, whether of a medicinal or other nature, herewith present this Household Remedy through the columns of this Book.

FELLOWS' SPEEDY RELIEF is for sale by Druggists and general dealers at 25 cents a bottle.

DR. H. H. HORNER'S

ANTI-BILIOUS PILLS, PURELY VEGETABLE.

These Pills are not offered to the public as a novelty or a universal panacea for "all the ills which flesh is heir to;" they have been extensively used, and their virtues are well known to many who will be glad to learn that the proprietor has made arrangements to continue the manufacture on a scale equal to the increasing demand. The Pills are all made under his personal supervision, and can therefore be relied upon as being equal to those which have given so much satisfaction to all who have used them. The oft-repeated assertions that in bilious disorders and the various diseases of the Liver there is no remedy but by the use of Mercury, in Blue Pills or some other form, have been proved false by ample testimony from those who have used these Purely Vegetable Pills. It is true, however, to remedy a derangement of the bilious secretion you must have something to act directly and powerfully at times upon the Liver; but it is not true that Mercury is the only agent capable of producing this specification. The simple combination of Vegetable principles in these Pills produces the same positive action upon the Liver as Calomel, and will correct the derangement of that organ as surely, without the risk of any unpleasant or injurious consequences; at the same time they have an alternative and tonic effect, which is the secret of their great superiority.

The circumstances under which the formula for these Pills came into the possession of the Proprietor, some years ago, were peculiar, and induced him to prepare from time to time such quantities as would enable him to supply the wants of his friends; but owing to the astonishing results produced by their use, the demand has increased so rapidly that he is compelled to manufacture on a much larger scale than was contemplated, and the unsought testimony from various quarters of the great efficacy and uniformly gratifying results experienced, in cases of bilious affections and other disorders arising from derangement of the biliary organs, proves beyond all doubt that these Pills are capable of effecting the most surprising cures on record, and ought to be available by all who suffer in any way from derangement of the functions of the Liver.

DIRECTIONS.

When a cathartic is required, take three Pills at night and one in the morning; for many persons two Pills will be sufficient for a dose. As an alternative, one Pill should be taken every night until the desired effect is produced.

None genuine except bearing the signature of the Proprietor.

THE 2.20 LIST.

At the close of 1880 there were seventy-one horses in the 2.20 list. Of these seventy-one, twenty-six were by Hambletonian sires, three by Clay, seven by Vt. Black Hawks, seven by Mambrino Chiefs, three by Normans, two by Goldusts, and the balance by miscellaneous sires. Up to July 20, 1881, there have been five accessions to the list, namely:—Alexander, record, 2.19; Robert McGregor, 2.18½; So So, 2.19; Piedmont, 2.17½; and Edwin Thorne, 2.19½. The family order holds good, all but Alexander—a Clay—being by Hambletonian sires, making thirty-one in all. The blood elements which predominate in this list are Hambletonian and Mambrino Chief, 8; Hambletonian and American Star, 7; Hambletonian and Clay, 6. We here publish the list in its entirety as it stands up to date. It is a good thing to study and refer to, and is worth as much to breeders as a guide as the best essays upon breeding the trotter that has ever been written.

"This must be a very inconvenient town to live in," said a Cockney to an inhabitant of Ryde, "for I understand you have to get all your milk from Cowes?" "Not so bad as London," replied the Isle of Wight wag, "for they tell me you get all your milk from Wells."

"Say, Jim, what mechanical work did you first do?" said one darkey to another. "Why, why, cut teeth, ob course," replied the other.

The first pair of buckskin breeches seen in the South Sea Islands were so little understood, that the natives stuffed them with seaweed and had them 'biled' for dinner. General dict for a small tea-party that!

GRACIOSITY.—A gentleman, praising the generosity of a friend, observed: "He spends his money like water!" "Then he liquidates his debts!" rejoined a wag.

GOLDEN ELIXIR.

FOR GENERAL DEBILITY AND PURIFYING THE BLOOD.

Perfectly purifies the blood; enriches the blood; reddens the blood; makes new blood; wonderfully improves the appetite, and changes the constitution suffering from General Debility into one of vigorous health. The best proof of its wonderful efficacy is to be obtained by a trial, and that simple trial strongly establishes its reputation with all. For sale by all Druggists and Dealers in Medicine.

Every Household should have a bottle of **Fellows' Speedy Relief**. For Sudden Colds and Sore Throat, no remedy has ever been discovered to equal it. As a Liniment, it will cure Rheumatism, Neuralgia, Burns, Bruises and wounds of every description. It is the best and cheapest Medicine ever offered to the public. Mothers will find it invaluable in the nursery, and it should always be kept near at hand in case of accident. **Price 25 cents.**

Every moment of our lives every part of our bodies is wearing out and is being built up anew. This work is accomplished by the blood. But if the blood becomes weak or vitiated, and does not perform its work properly, the system is actually poisoned by the worn-out matter clogging the vital organs, instead of leaving the body. For all diseases arising from vitiated blood **GOLDEN ELIXIR** is a sovereign remedy.

Suppose you have "tried fifty remedies" and received no benefit. Your liver may be congested, your stomach half paralyzed, your nerves quivering, your muscles knotted with torture, your bowels constricted, your lungs diseased, your blood full of impurities—yet in one week after commencing a course of **GOLDEN ELIXIR** you will feel like a new creature.

"You claim too much for Golden Elixir," says a skeptic. "How can one Medicine be a specific for Dyspepsia, Rheumatism, Liver Complaint, and fifty other disorders?" Simply, Mr. Cavler, because the virus of all diseases is in the blood, and this fine vegetable antiseptic neutralizes it there.

THE ADVANTAGES FROM THE USE OF FELLOWS' DYSPEPSIA BITTERS ARE: They Restore the Appetite. Ensure Rest and Sleep. Quiet the Nerves. Produce Natural Digestion. Cure General Debility. Are unfailing in Sick Headache. Cure Constipation and Biliousness, and should be administered in all Diseases resulting from an impoverished condition of the Blood.

Fellows' Dyspepsia Bitters can be procured of all Dealers in Medicine. **Price 25c.**

A CONTRARY MULE.—A farmer in this county, says a North Carolina paper, has a mule so awfully contrary that he can do nothing with it. Put him in harness, and it is hard to say which way he will travel. Put a saddle on him, and he appears to doze, but try to mount him, and he will all of a sudden begin to kick every way—straight out, straddling, with all four legs at once. As to eating, he will eat anything, from his feed trough up to a wooden saddle. The owner took a notion to have him shod; but he kicked out the blacksmith shop and returned home. The owner tried to kill him, some time back, so he tied his ears with a trace chain and rode him six consecutive days and nights as hard as he could under whip and spur. The fact is, that he nearly killed himself in the effort, and had to be carried upstairs to bed, and his firm belief was that the mule would die that night; but, to his astonishment, the next morning he found that the mule had kicked to death a Chester sow weighing 300 pounds, bit a piece out of his horse's shoulder, ate up a saddle, blanket and bridle, tore down the fence, and was splurging about, more devilish than ever, to find something else meaner to do.

"**PORTER,**" said the gentleman from New York, as he stepped into his berth, "take this quarter, and call me at Lyons, sure." "All right, sah." Late next morning he calls him: "Only twenty minutes from Buffalo, sah." The passenger makes a chapter of remarks in blanks and dashes, winding up with, "Why in fury didn't you call me at Lyons?" New porter, ecstatically, "Lions! Fore goodness, dat's it! You did say Lyons, for suah, boss, and I done thought ober de whole circus, and I hope to die ef I could ketch onto any animal higher dan buffalo! I'll remember de cage next time, boss." The passenger from New York is not appeased, but all the other passengers are most mightily.

CROSS-EXAMINING A WITNESS.—A barrister tormented a poor German witness so much with questions, that the old man declared he was so exhausted that he must have a drink of water before he could say another word. Upon this the judge remarked, "I think, Sir, you must have done with the witness now, for you have pumped him dry."

An editor being asked, "Do hogs pay?" says a great many do not. They take the paper several years, and then have the postmaster send it back marked "refused."

"So far so good," as the little boy said when he had finished the first pot of his mother's jam.

BAD SPELLING.—A gentleman wrote Dr. Francis the following note:—"Dear Doctor,—I caught cold yesterday and have got a little horse. Please write what I shall do for them."
—J. P.

We annex the answer:—"Dear P.,—"For the cold take half a pound of sugar candy. For the little horse buy a saddle and bridle, and ride him out of town the first time you have pleasant weather. Yours, Dr. P."

What is the difference between a Puseyite and a Baptist?—One, uses wax candles and the other dips.

A young lady was told by a married lady, that she had better precipitate herself off Niagara Fall into the basin beneath than marry. The young lady replied, "I would if I thought I could find a husband at the bottom."

Adam Smith was at times very absent. He was told he had sent a letter to a lady unsealed. He called on her the following day and said, "My dear madam, I have brought you the wafer I forgot to put in your letter."

"It's all over with me!" as the pancake said when it was turned.

PEARL WHITE TEETH.

The admiration of the world, **Enamelline**. Language fails to give expression to the beauty or the utility of a beautiful set of teeth. With no other charm, the possessor may feel proud. **ENAMELLINE** is unequalled for cleaning, preserving and beautifying the teeth, giving them a pearl-like whiteness, and hardening the gums. **ENAMELLINE** removes all tartar, hardens the enamel, arrests decay and imparts to the breath at all times a most delightful fragrance.

DIVISION OF TIME.—"Murphy," said an employer the other morning to one of his workmen, "you came late this morning; the other men were an hour before you."—"Sure and I'll be even with 'em to-night, then."—"How, Murphy?"—"Why, faith, I'll quit an hour before 'em all, sure."

Consumptives leaving home for change of climate should not fail to take with them a supply of **ENGLISHMAN'S COUGH MIXTURE**. It will insure a good night's rest, free from coughing, and easy, light expectoration in the morning.

WHAT IS TRUTH?

Truth is a solid fact. It is the richest coin of the purest metal, free from alloy of any description. The shaft of envy will not face it, neither will the shots of prejudice enter it. It is surrounded on all sides by a thousand foes, but each and all, without exception, are mute beneath its piercing glance. It is a fact as solid as this that **FELLOWS' DYSPEPSIA BITTERS**, which have been before the public for upwards of fifty years, have now become one of the leading medicines at the present day. For a weak stomach, impaired digestion, bilious complaint, and all disorders of the Liver, they act like magic, and a few doses will be found to work wonders on the most important organs of the human system—restore the long-lost complexion, bring back the keen edge of appetite, and arouse into action the whole physical energy of the human frame. Price 25 cents.

A GOOD HORSE.

Wind, says an old horseman, is the grand secret of a good horse. Good lungs will cover a multitude of faults, while, on the other hand, perfection of shape and form are useless when the wind is out. The chest, therefore, in all cases, should be large and capacious. It may vary somewhat in shape, according to the service to which the horse is to be put. If he is apt to be kept for slow work and heavy drawing, the chest may be nearly circular in form, because this shape is one for strength and bulk to receive and bear up against the pressure of the collar, while at the same time sufficient room is secured for that expansion of the lungs caused by slow, regular work. But if the chest is circular, let it be at the same time deep, or else the lungs may be cramped. A horse with a shallow chest is worthless for any purpose. The rule, then, is: For a draught horse, a circular but deep chest; but as you pass through the different degrees of speed up to the racer and trotter, the chest will increase in depth, compared to its roundness, until for the highest rate of speed you must take a chest as deep as a greyhound, and at the same time not lacking in strength.

HOW ABOUT THE OLD HORSE?

How about the old horse? What is to be done with him? Or, what is to be done with a horse that is growing old? These are hard questions for a humane and moderately circumstanced farmer to answer. There can be nothing wrong in disposing of a horse ten years old, having considerable work in him; but how old and feeble should he be before it would seem wrong to get rid of him? If one has an old horse, and he cannot well be kept, the best way is to find some humane farmer who will take him for what he is worth and agree to keep him so long as he lives. But, if possible, he should be kept on the place, and be fed and cared for, in part for the good he has done. And he will be useful for the women and children to drive, because his ways are understood, and he really has valid claims to a living from the farm. A humane man will be certain to have a calm and reflective mind, and such a mind will devise ways for keeping a horse or worn-out animal which a cold and cruel mind would not think of, so that nothing would be lost.

"I wonder (said a Scottish maiden) what my brother John sees in the lasses that he likes them so well; for my part, I wad na gie the company o' sae lad for twenty lasses."

A LETTER WRITER.—"I say, Pat, what are you writing there in such a large hand?"—"Arrah, honey, an' isn't it to my poor mother, who is deaf, that I'm writing a loud letter."

FRIENDLY ADVICE.—Never lend an umbrella, or your name to a bill; the chances are the one will not be returned and that the other will.

A gent, while being measured for a pair of boots, observed:—"Make them cover the calf." "Heaven!" exclaimed the astounded artist, surveying his customer from head to foot, "I have not got leather enough."

CARE OF FARM TEAMS.

The care of farm teams in haying time is a matter of no small importance. Most farmers are apt, we think, to give their horses less care then than at any other time. Horses are worked more hours and harder at this season of the year than at any other, and too often on nothing but green food, with but little grain. At nights they should have four quarts or more of oats, if they are turned out as they should be, but we should feed them no grain in the morning, as they are usually full enough to work without any more feed. They ought to have water before noon, and be fed four quarts or more of oats after watering. For hot weather there is no grain so good for horses as oats. Feed and meal are said to be heating, and we are certain that many horses are lost by feeding the last in hot weather. Horses should not be worked over four or five hours without feed and water. Their stomach being smaller than that of the ox, they digest their food quicker. Instead of using the curry-comb and brush extensively, we should treat them to a bath of water, if the brook or pond is near. They soon get to enjoy it, and it does them good.

A gentleman was lately inquiring for a young lady of his acquaintance. "She is dead," very gravely replied the person to whom he addressed his enquiries. "Good God! I never heard of it. What was her disease?" "Vanity," returned the other; "she buried herself alive in the arms of an old fellow of seventy, with a fortune, in order to have the satisfaction of a gilded tomb."

"Kitty, where's the frying pan?" "Johnny's got it, carting mud and oyster shells up the alley, with the cat for a horse." "The dear little fellow! what a genius he'll yet make; but go and get it. We're going to have company, and must fry some fish for dinner."

An old count paid his addresses to one of the richest heiresses of Paris. In asking her hand in marriage, he frankly said to her, "Miss B., I am very old, and you are very young: will you do me the honor to become my *widow*?"

"What makes the milk so warm?" said Betty to the milkwoman, when she brought her pails to the door one morning. "Please, mum, the pump handle's broke, and missus took the water from the biler."

"It's very well," said Mr. Dodd's helpmate, "for the moral papers to keep saying, don't get in a passion; but, for my part, when Mr. D. goes to bed with his muddy boots on, I kind of bile over."

"Are you an Oddfellow?" "No, sir; I've been married for a week!" "I mean, do you belong to the order of Oddfellows?" "No, no; I belong to the order of Married Men." "Mercy! how dull. Are you a Mason?" "No; I'm a carpenter by trade." "Worse and worse! Are you a Son of Temperance?" "Bother you! no; I'm a son of Mr. John Gosling." The querist went away.

"You look as if you were beside yourself," said a wag to a fellow who stood beside a donkey.

Alderman Bangs remarked to his wife one day—"I can't imagine why my whiskers turn grey so much sooner than the hair on my head." "Oh, la!" said Mrs. Bangs. "It is because you work so much harder with your jaws than with your brains."

Barker's Worm Lozenges.

Many people have Worms. The abominable little reptiles seem to infest the Stomachs of nearly every man, woman, and child. They have no respect for age, sex, or condition. Old folks have Worms, and the middle-aged are often troubled with them. But they are more seriously troublesome to the young, for the reason, perhaps, that the digestive organs of children are generally in a morbid condition from their "juvenile inclination" to eat "anything and everything" they like, no matter "how unwholesome!" Depraved Constitutions and impure Atmosphere are said to breed Worms. But whatever cause they originate from, their presence may be discovered by Languor, Peevishness, Sallow Complexion, bluish cast around the Eyes, Irregular Appetite, Picking the Nose (or Anus), Nausea, Bad Breath, Distended Abdomen, Headache, Gnawing Pains in the Stomach, uneasy or constipated Bowels, Diarrhea, grinding the Teeth, disturbed Sleep, and many other Symptoms of common occurrence. And no doubt Worms destroy thousands of children who might be saved by BARKER'S WORM LOZENGES, the most infallible Vermifuge for speedily and permanently clearing the Stomach of all such Pestiferous afflictions.

Barker's Worm Lozenges are very pleasant to the palate. They have a sweet smell, and Children like them as well as Candy. After removing the Worms, they act as a Healthy Tonic for the Bowels. No Family should be without them!

At the time Lord John Russell was defeated at two elections, an anonymous writer sent him a penny drum, with the inscription, *I am beaten on both sides.*

THE COW AND CALF.—A dandy who wanted the milk passed to him at a country tavern, thus asked for it: "Landlady, please pass your cow this way." To whom the lady thus retorted, "Waiter, take the cow down there where the calf is bleating."

It was a favorite saying of Wilberforce, or Deaf Burke.—The man who pledges his health too often, will soon be left with nothing else to pledge.

Dibdin had a horse which he called Graphy. "Very odd name," said Oxbury. "Not at all," responded Tom; "when I bought him it was Buy-a-Graphy; when I mount him it's Top-a-Graphy; and when I want him to go, it's Gee-ho Graphy."

Universal Liniment.

An external application for Sprains and Bruises, Sore Throat, Quinsy, Pains and Soreness in the Bones and Muscles, Paralysis or Numbness in the Limbs, Pains and Stiffness of the Joints, Swellings and Tumors, Rheumatism, Gout, Tic Doloroux, (Neuralgia,) or Pains in the Nerves, Milk Leg, White Swellings, Chilblains or Frost Bites, Ringworm, Pains in the Chest, Side and Back, &c., and useful in all cases where Liniments, Rubefacients, Blisters, Sinapisms, &c., or any other kind of Counter-Irritant is required.

Directions for Using Universal Liniment.

This Liniment should be liberally applied to the parts affected, three or four times a day, (and even more frequently in severe and dangerous cases,) and rubbed well into the skin with the hands and fingers, or with a small piece of flannel, saturated with the Liniment, so that more or less irritation or smarting is produced in the parts to which it is applied.

Chilblains.—They are inflammatory swellings of the feet, especially about the toes and heels, with painful itching and burning, and are caused by exposure to cold. Sometimes blisters form, which become bad ulcers.

Treatment.—Wash with castile or tar soap, and apply UNIVERSAL LINIMENT freely. Wrap them in lint saturated with the Liniment and keep it on during the night. Keep the feet warm and dry during the day.

Lameness.—It is the result of over use. There is soreness, accompanied by pain on exertion, in the affected part. The celebrated UNIVERSAL LINIMENT is unequalled in curing lameness. Bathe the tender portion with the Liniment at night, and on going to bed, and again in the morning.

Bunions.—They consist of enlargement or thickening of the sack about a joint, usually that of the big toe of the foot. Caused by tight boots. **Treatment.**—An easy boot or shoe is essential. Bind on lint soaked with the UNIVERSAL LINIMENT and cover with oil silk every night.

Keep your Blood In Good Order if you expect a Cure.

In using the Universal Liniment, as is sometimes the case, the directions are not followed, and as a matter of course, the medicine does not have the desired effect; then again, when the Universal Liniment is used for flesh wounds, the blood should be in a good condition to insure a speedy cure. GOLDEN ELIXIR will make the Blood pure.

RELIEF FROM COUGH IN TEN MINUTES.

Englishmen's Cough Mixture is the most certain and Speedy Remedy for all Disorders of the Chest and Lungs. In Asthma, and Consumption, Bronchitis, Coughs, Influenza, Difficulty of Breathing, Spitting Blood, Hoarseness, Loss of Voice, etc., this mixture gives instantaneous relief, and properly persevered with scarcely ever fails to effect a rapid cure. It has now been tried for many years, has an established reputation, and many thousands have been benefited by its use.

THE PARISH CLERK AND THE PEDAGOGUE.

A parish clerk overheard a schoolmaster giving lessons in grammar. "You cannot place a; the singular article," said the preceptor, "before plural nouns. No one can say *a* pigs, *a* women, *a*—" "Nonsense!" cried the clerk; "the prayer-book knows better than you, I should think; and doesn't it teach me to say every Sunday *a*-men?"

One of our excellent ministers, who preaches "touchingly," recently spoke in one of his sermons of "the sad funeral procession" which followed Abel to the grave. A naughty, irreverent woman in the audience nudged her companion, and whispered, "Not such a large procession, but very select. None but the first families."

An elderly miss was heard to exclaim, while sitting at her toilet the other day, "I can bear adversity, I can encounter hardship, and withstand the changes of fickle fortune; but O, to live, and droop, and wither, and die like a single pink, I can't endure it, and what's more, I won't!"

A young gentleman, the other day, asked a young lady what she thought of the married state in general. "Not knowing, I can't tell," was the reply; "but if you and I were to put our heads together, I could soon give you a definite answer."

A gentleman was awakened in the night, and told that his wife was dead. He turned round, drew the coverlet closer, pulled down his night-cap, and muttered, as he went to sleep again, "Oh, how grieved I shall be in the morning!"

There is a Quaker in Philadelphia so upright that he won't sit down to his meals; and so downright in all his acts, that he never goes up stairs, but lodges on the basement.

"Ma, that nice young man, Mr. Saufstung, is very fond of kissing." "Mind your seam, Julia; who told you such nonsense?" "Ma, dear, I had it from his own lips!"

The matrimonial blacksmith at Gretna Green, being asked why old women were so fond of matrimony, replied, "You know that old wood catches fire in an instant."

An old gentleman, being asked what he wished for dinner, replied, "An appetite, good company, something to eat, and a napkin."

Why are kisses like creation? Because they are made out of nothing, and are all "very good."

"Come here, my little man," said a gentleman to a youngster of four years of age, when sitting in a parlor where a large company were assembled; "do you know me?"—"Yes, sir, I think I do."—"Who am I, then—let me hear!"—"You are the man who kissed sister Jane last night." Jane fainted.

"Samvil, Samvil, beware of the vimmin that reads no newspapers! Your father married a woman that read none, and you're the sad consequence! You're as ignorant as a horse. Ignorant people say its throwing away money to take papers, and fools! away time to read 'em."—*Sam Slick.*

A noble saying is recorded of a member of the British House of Commons, who, by his industry and perseverance had won his way to that high position. A proud scion of the aristocracy one day taunted him with his humble origin, saying: "I remember when you blacked my father's boots." "Well, sir," was the noble reply. "Did I not do it well?" General Meadows being on a reconnoitering

party in the Mysore country, a large shot struck the ground at some distance from him and was passing in such a direction as would have exposed him to danger had he continued his route. Quick as thought he stopped his horse, and pulling off his hat, as the shot rolled past, good humoredly said, "I beg you to proceed, sir; I never dispute precedence with gentlemen of your family."

Horner's Anti-Bilious Pills.

For Liver Complaints, Gout, jaundice, Dyspepsia, Rheumatism, Affections of the Bladder and Kidneys, Fevers, Nervousness, Erysipelas, Diseases of the Skin, Impurity of the Blood, Inflammation, Melancholy, Sick Headache, Costiveness, Pains in the Head, Breast, Side, Back and Limbs, Piles, Bilious Affections, &c.

There is scarcely any disease in which purgative medicines are not more or less required, for no person can feel well while a costive habit of body prevails, besides, it soon generates serious and often fatal diseases, which might have been avoided by a timely and judicious use of proper Cathartic Medicines. While using these Pills no particular care is required, and persons may eat and drink as usual. They are so combined as to always dissolve in the stomach, and hence are not impaired by age. In small doses they are Laxative, being mild, safe and prompt in their operation, and in large doses actively Cathartic; cleansing the whole alimentary canal from putrid, irritating and fecal matters, and producing healthy secretions of the stomach, liver, and other organs of the body. They may be taken *at all times*, and in most diseases.—Inflammatory, Intermittent, Remittent, Bilious, and every other form of Fever—jaundice and Liver Complaint. For Dyspepsia, they are really an invaluable article, gradually changing the vitiated secretions of the Stomach and Liver, and producing healthy action in those important organs. They are also invaluable for Diseases of the Skin, and for what is commonly called "Impurity of the Blood," Costiveness, &c., and in fact in every disease where an Aperient, Alternative, or Purgative Medicine may be required. Dyspepsia is usually cured by a persevering use of this valuable Sanative.

Barker's Worm Lozenges thoroughly and effectually destroy all worms, relieving the system of their injurious effects, imparting health and strength. In their certainty and safety they are unsurpassed by any other preparation. Patients can rely upon them, and all afflicted with worms will find them just the medicine they need. They taste as pleasant as confectionary, and children take them readily as they are. Pulverized and mixed with milk, they can be completely concealed. They cause no pain, but impart health and vigor, and make children happy and cheerful.

TAKE ADVICE.

If you are troubled with Indigestion, jaundice, Bilious Complaint, Bad Breath, Sick Headache, Heart Burn, Waterbrash, Loss of Appetite, a sense of fullness or oppression after eating, a furred tongue, languor, and aversion to exercise of mind and body, dejection of spirits, dimness of vision, or any other diseases arising from Dyspepsia, try **Fellow's Dyspepsia Bitters**. They will give you instant relief. Price 25 cents.

SPAVIN CURED.

ST. JOHN, N.B., January 6th 1880.

DEAR SIR:

In regard to your favor of a few days ago, I would say: About one year ago a horse owned by me contracted a large Bone Spavin for the cure of which I tried a number of the liniments and lotions advertised to cure the same, without any effect, and he became very lame. A friend of mine recommended me to try FELLOWS' LEMING'S ESSENCE. I acted upon his advice, and now I am happy to say, the lameness has ceased and the spavin disappeared. I now consider him entirely cured, and would cheerfully recommend FELLOWS' LEMING'S ESSENCE as being the best remedy in the market for all lameness that horses are subject to.

Yours truly,
THOMAS F. FRAY.

RINGBONE CURED.

AUGUSTA, Me., March 8th, 1880.

DEAR SIR:

I have had occasion to use FELLOWS' LEMING'S ESSENCE on a horse so lame from a Ringbone that I could not use him. I have been using it about three weeks, and find it does all you claim for it, as the lameness is gone, and the enlargement has almost disappeared. I firmly believe a few more days will make an entire cure. Respectfully yours,

JAMES T. PARKER.

SPAVINS CURED.

RIVER HERBERT, N.S., June 10, 1880.

MESSRS. T. B. BARKER & SONS.—Dear Sirs:—I have used **Fellows' Leming's Essence** for Spavins, and found it a perfect success. It is a sure remedy if used in time. Yours truly,

T. W. FORREST.

Golden Elixir goes right to the origin or foundation of the disease, and with never-failing certainty removes the cause, while its powerful effect is so mild and gentle that it does not offend the most delicate invalid, nor harm the smallest child. This medicine certainly is the most potent remedy ever known for dispelling every vestige of impure blood. And as it is now sold by druggists and recommended by many who have been cured by its use, its great popularity conclusively proves it to be a staple necessity as well as a household blessing, happily adapted to both sexes of all ages and in every circumstance of life.

Are you a Sufferer?

Are you a sufferer from Indigestion, Jaundice, Bileous Complaint, Bad Breath, Sick Headache, Heartburn, Waterbrash, Costiveness, Loss of Appetite, etc.? If so, try **Fellows' Dyspepsia Bitters**, they will cure you; price 25 cts.

Lame Horses.

Do not give your horse up till you have tried **Fellows' Leming's Essence**. It will cure Spavins, Ringbones, Curbs, Splints, Sprains, Swellings and Stiff Joints; price 50 cts

"I wish to know if you called me an ass?"
"I did, sir, but I qualified it." "You qual-
ified it, did you?" so much the better for you, sir,
but pray how did you qualify it?" "I said
you were an ass, sir, all but the ears."
There is a young man in Toledo who has
grown round shouldered through bending
over so much to kiss the girls, who are rather
short in his neighborhood.

An exemplary young lady up town is very
particular about closing the window curtains
to her room before retiring for the night,
in order to prevent "the man in the moon" from
looking in.
"Susan, I will commit suicide if you wont
have me." "Well, John, as soon as you have
given me that proof of your affection, I will
believe that you love me."

An American paper announces the marriage of Miss Jane Lemon to Mr. Ebenezer Sweet; whereupon somebody perpetrates the following:-

"How happy the extremes do meet

In Jane and Ebenezer;

She is no longer sour, but Sweet,

And he's a Lemon squeezer."

At a weekly meeting a straight laced man and most exemplary deacon submitted a report in writing on the destitute widows who stood in need of assistance from the congregation. "Are you sure, deacon," asked another sober brother, "that you have embraced all the widows!" He said he believed he had.

TAKING HER MEASURE.—"Jessie, what was Joe's arm doing around your waist when you were at the front gate last night?" asked a precious Aberdeen boy of his sister. "His arm wasn't round my waist; I won a belt from him, and he was taking my measure," replied the indignant young lady.

A maiden lady said to her little nephew, "Now, Johnny, you go to bed early, and always do so, and you'll be rosy cheeked when you grow up." Johnny thought over this a few minutes and then observed: "Well, Aunt, you must have sat up a good deal when you were young."

"If I am so unlucky as to have a stupid son," said a military officer, "I would certainly make him a parson." A clergyman, who was in the company, calmly replied, "You think differently, sir, from your father."

A bright little girl of our acquaintance asked us the following conundrum: "How many letters are there in a postman's bag?" We gave her up, and she said there were three—b-a-g.

The difference between a watch and an insurance company seems to be that when you wind one up it goes on, and when you wind up the other it doesn't.

The best that a broken hearted country editor could ask was, "Why is love like a Scotch plaid?" "Because it is all stuff and often crossed."

A Japanese student newly arrived in this country, thought we were all doctors, because everybody took his hand and asked after his health.

Happy is he who has learned this one thing; to do the plain duty of the moment quickly and cheerfully, wherever and whatever it may be.

When is a pig the heaviest? When he is led.

Beggar Woman: "Please, sir, give me a penny to keep me from starving." Gent: "Can't stop—in a great hurry—I've got to make a speech at the Society for the Relief of the Destitute."
"Please, sir," said a little boy to a milk vendor, "mamma says she don't like to buy milk of you." "Why not; don't I give you good measure?" "Yes, sir, but mamma says you feed your cows on such watery turnips!"

A Mr. Abner Bennett, of Buffalo, being more than "common tall," and having held a long conversation with a "jack-thin soul" merchant there, actually at parting made a bow to his cane in the corner, and, seizing the merchant by the head, walked off with him instead of the stick.
An incorrigible old maid, living upon slender means, cut the acquaintance of a friend because he advised her to husband her resources.

CLEANSE THE VITIATED BLOOD

whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and health of the system will follow.

GOLDEN ELIXIR acts on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Heads, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name and nature, are literally dug up and carried out of the system in a short time by the use of this medicine. The *Chronicle* tells of a man meeting two attorneys, one of whom he did not know, but asked his friend to be introduced to his brother-in-law.

An itinerant preacher, who rambled in his sermons, when requested to stick to his text, replied that "scattering shot would hit the most birds."

A widow once said to her daughter, "When you are at my age it will be time enough to dream of a husband." "Yes, mamma," replied the thoughtless fair one, "for a second time."

The Persians have a saying that "ten measures of talk were sent down upon the earth and the women took nine."

CERTIFICATES.

PORTLAND, 6th April 1880.

Dear Sirs,—Last winter I suffered a great deal with a severe pain in my left hip. I purchased a bottle of Universal Liniment, and after a few applications the pain was relieved and shortly after left me, nor have I had a return of it since. I regard it, therefore, as a most excellent remedy.

D. LANE.

FAIRVILLE, May 10th, 1880.

Dear Sirs,—For about three months I suffered greatly with Inflammatory Rheumatism. I finally resolved to try Universal Liniment, and after rubbing with it three times, using in all two bottles, I was relieved of the pain, and in a short time was able to walk about, and am now sound and well again.

H. A. GOOD.

BELLISLE, Jan. 2nd, 1881.

Dear Sirs,—Some three months ago I sprained my leg severely, and suffered a great deal in consequence. I found relief from the first by using Universal Liniment, and a few bottles effected a perfect cure. My wife also obtained decided benefit from this remedy when troubled with Rheumatism—I consider it a most valuable Family Liniment, and as such would heartily recommend it.

J. S. DONOHUE.

ST. JOHN, April 4th, 1880.

Dear Sirs,—I had been troubled with Costiveness for some years, and had tried various remedies with but little benefit. I was induced to purchase a box of Horner's Antibilious Pills, and these I am glad to say have entirely cured me. I believe them to be a most excellent remedy for such complaints as mine.

RICHARD JEMISON.

SALMON RIVER, May 10th, 1881.

Dear Sirs,—I was taken with Rheumatism in my right knee, and could not move from my chair for about three weeks, meanwhile trying all the remedies in common use. Your Universal Liniment gave me instant relief, and I was able to walk again in three days. I have not felt any Rheumatism since. Yours, &c,

GEORGE SCOTT.

GRAND FALLS, 2nd March, 1881.

Dear Sirs,—My wife was attacked with Neuralgia in February last, and could obtain no relief until she used Universal Liniment, which gave her ease immediately.

REMEMBER THIS.

If you are sick, **Golden Elixir** will surely aid Nature in making you well again, **when all else fails.**

If you are comparatively well, but feel the need of a grand tonic and stimulant, never rest easy till you are made a new being by the use of **Golden Elixir.**

If you are **costive** or **dyspeptic**, or are suffering from any other of the numerous diseases of the stomach or bowels, it is your own fault if you remain so, for **Golden Elixir** is a sovereign remedy in all such complaints.

If you are wasting away with any form of **Kidney** or urinary disease, **stop tempting death** this moment, and turn for a cure to **Golden Elixir.**

If you are sick with that terrible sickness, **Nervousness**, you will find a "**Balm in Gilead**" in the use of **Golden Elixir.**

If you are a frequenter or a resident of a malarial or miasmatic district, barricade your system against the scourge of all countries—ague, bilious, malarial, yellow, typhoid, and intermittent fevers—by the use of **Golden Elixir.**

If you have rough, pimply, or sallow skin, bad breath, pains and aches, or feel miserable generally, **Golden Elixir** will give you fair skin, rich blood, the sweetest breath, health and comfort.

In short, it cures **ALL** diseases of the Stomach, Bowels, Blood, Liver, Nerves, Kidneys, etc., and \$500 will be paid for a case it will not cure or help, or for anything impure or injurious found therein.

If you have a complaint which few understand and none will give you credit for; an enfeebled condition of certain organs; a goneness throughout the whole system, twitching of the lower limbs; a desire to fly all to pieces, and a fear that you will; a steady loss of strength and health—any of these symptoms show that you are suffering from that hydra-headed disease,

NERVOUSNESS,

and **Golden Elixir** will effectually cure you.

CANAAN, N.B. July 27th, 1880.

Dear Sirs,—I have used Horner's Anti-bilious Pills in my family for a number of years, and am free to say from my experience of them, that they are an efficient medicine for disorders of the Liver and Bilious complaints.

Yours &c, R. SUMMER.

ARROOSTOCK, June 6th, 1880.

Dear Sirs,—I have for a long time been acquainted with the value of Doctor Horner's Anti-bilious Pills for all Bilious Disorders, Costiveness, etc., etc. Their efficacy is beyond all doubt in my mind, and I depend upon them entirely in such complaints as I have named.

J. M. CROW.

CALAIS, Aug. 2nd, 1879.

My Dear Sirs,—After using Horner's Anti-bilious Pills for several years I feel that I can speak with some confidence as to their merits. For removing Biliousness and correcting the bowels, I believe them to be thoroughly effective and entirely safe—a most desirable and useful family medicine.

JOHN STONER.

ST. JOHN, Aug. 5th, 1880.

Dear Sirs,—I was troubled with Indigestion for a long time, so that I could not attend to my daily work, and had frequently been under medical treatment without receiving much benefit. I saw your Almanac and read of the wonderful cures effected by Fellows' Dyspepsia Bitters. I tried them and they gave me immediate relief, and I am now as well as ever.

R. A. DEEN.

KINGSTON, N.B. Oct. 10th, 1879.

My Dear Sirs,—A few doses of your Fellows' Dyspepsia Bitters invariably cures me of Dyspepsia, with which I have been much troubled—I write this that you may publish it for the benefit of others.

C. M. McLARY.

HALIFAX, N.S. Oct. 16th, 1879.

Dear Sirs,—Fellows' Dyspepsia Bitters are the only cure I can find for Jaundice and Biliousness. Nothing else does me any good.

J. W. VAUGHN.

HALIFAX, N.S. Aug. 11th, 1880.

Gentlemen,—I thank you for the good that Fellows' Dyspepsia Bitters have done me. I am satisfied that they are one of the very best Medicines in use for Dyspepsia and similar complaints.

O. T. BELL.

HALIFAX, N.S. Nov. 2nd, 1880.

My Dear Sirs,—During last month I was taken with a severe cold, accompanied with violent pains in the chest and throat. After using several prescribed remedies without receiving any benefit, I tried your Englishman's Cough Mixture, and after taking two bottles, I found myself entirely cured. I can safely affirm it to be a most excellent remedy for throat and lung affections.

A. G. BAILEY.

ST. ELEANORS, P.E.I. Jan. 25th, 1881.

Dear Sirs,—Having a tendency to lung troubles, accompanied with frequent cough, sore throat, difficulty of breathing, &c., I have tried many Medicines with but little good effect. I am fully persuaded now, however, after satisfactory trial, that I have in Englishman's Cough Mixture, a safe and certain remedy for my complaints.

S. P. HART.

READ THIS.

The most serious outcome of modern social life is the prevalence of Dyspepsia and Indigestion. No one is altogether free from one or the other of the manifold forms in which this scourge attacks the human body, and it would seem that no dietetic rules can be framed which would ensure deliverance from the insidious attacks of this foe, which, however mild, are liable to pass into the more confirmed or chronic state of the complaint, particularly when they recur frequently or are neglected. Every person suffering from Indigestion, Dyspepsia, Stomach out of order, Costiveness, Sick Headache, Loss of Sleep, Wakefulness, Jaundice, Bilious Complaint, Bad Breath, Loss of Appetite, etc., should try **FELLOWS' DYSPEPSIA BITTERS**. One million bottles sold in the last few years. Price 25 cents.

THE BLOOD IS THE LIFE.

GOLDEN ELIXIR purifies the blood, enriches the blood, reddens the blood, makes new blood, wonderfully improves the appetite and changes the constitution suffering from general debility into one of vigorous health. The best proof of its wonderful efficacy is to be obtained by a trial, and that simple trial strongly establishes its reputation with all.

Do you want to have pearl white teeth; if so, use **ENAMELLINE**.

ENAMELLINE is the admiration of all who use it.

ENAMELLINE is, without any doubt, the best of all tooth preparations.

ENAMELLINE will give the teeth a pearl-like whiteness. It will also arrest decay.

ENAMELLINE imparts to the breath at all times a most delightful fragrance.

OUR OPINION.

Our opinion of **FELLOWS' SPEEDY RELIEF** is that it has no equal among Medicines as a reliever of pain. It should be kept in every household. Price 25 cents.

IT HAS NO EQUAL.

We assert that there is no remedy that possesses the curative power over disease that **GOLDEN ELIXIR** furnishes. It cures step by step, surely, from the foundation, and restores the injured parts to their sound condition. The wastes of the body are stopped, and healthy blood is supplied to the system, from which new material is formed.

RECEIPTS.

DELICATE CAKE.

Take one cup of flour; one cup of white sugar; half a cup of butter (stirred to a cream with the sugar before using), whites of three or four eggs stirred in last. Flavor with vanilla, rose water, or lemon.

DROP GINGER CAKES.

One cup of molasses, butter half the size of an egg, three tablespoonsful of sour milk, one teaspoonful of soda, flour enough to make just stiff enough to drop.

PUDDING SAUCE.

One half tea-cup of butter, one and a half tea-cups of sugar, and one pint of strawberries mashed till juicy. Canned berries may be substituted for fresh ones. Beat the butter and sugar to a cream, then stir in the berries.

INDIAN PUDDING.

Put a stick of cinnamon and a quarter of a lb. of butter into a quart of milk, and put it on the fire; when it boils, thicken it with four tablespoonsful of corn meal; when cool add four eggs, the whites and yolks beaten separately, and a cup of sugar. Pour the batter into a baking dish, and bake until brown.

YEAST.

Two cups of grated potatoes; one half cup of sugar; one fourth of a cup of salt. Place these in a pan and pour over the mixture one quart of boiling water, stirring it meanwhile. Place the whole on the stove and let it boil up once. When cool enough—about blood heat—add half a cup of good yeast. Set in a warm place to rise. It is very light and foamy, and does not sour readily; like all soft yeast, keep it in a covered vessel as cool as possible without freezing.

THE BREATH AS SWEET AS ROSES.

ENAMELLINE will make the breath as sweet as roses. It will also cleanse, preserve and beautify the teeth, giving them a pearl-like whiteness, and hardening the gums. **ENAMELLINE** has no equal among tooth preparations.

USEFUL THINGS.

1. **VENTILATION OF BEDROOMS.**—It is at night of all other times, and when we are asleep, that we require to have the largest and most continuous supply of the freshest and purest air. It has been calculated that three thousand cubic feet is the minimum breathing space that should be provided in any sleeping room for two people,—in other words, the room should have the dimensions of fourteen feet by sixteen feet, and should be ten feet in height. Moreover, this three thousand cubic feet of air should be constantly changed and renewed. Every bedroom, therefore, all the year round, should have some communication directly or indirectly—say by the window of the room itself, or by that of an adjoining room—with the external air.

2. **CRIMPING HAIR.**—To make the hair stay in crimp, take two pennyworth of gum-arabic, and add to it just enough boiling water to dissolve it. When dissolved, add enough alcohol to make it rather thin. Let this stand all night, and then bottle it to prevent the alcohol from evaporating. This put on the hair at night, after it is done up in paper or pins will make it stay in crimp the hottest day, and is perfectly harmless.

3. **COLD STARCH.**—A splendid thing to give gloss and prevent the iron from sticking: Make a suds of white Castile soap, and add to your raw starch.

4. **CURE FOR LOCK-JAW CAUSED BY A WOUND.**—If one has an attack of Lock-Jaw, pour a small quantity of warm Turpentine on the wound, and it will give instant relief.

5. If STOVE POLISH is mixed with very strong soap-suds, the lustre appears immediately, and the dust of the polish does not fly around as it usually does.

6. To **KEEP FURS.**—Seal them up before the first of May, as that is the time the moth miller's mischief is accomplished. Seal up your fur boxes in paper bags. Be sure there is no crevice in the paper. Some say, for the preservation of fine Woollen Goods and Furs always use Camphor. Nothing else is sure.

7. To mend **GLASS and CHINA** use the white of egg and flour.

8. It is said a handful of brown sugar thrown on the bottom of a hot oven will take taint out of meat when baking.

9. To **CLEAN TIN-WARE.**—Dampen a cloth, and dip in soda and rub the ware briskly, after which wipe dry.

10. Never iron lace curtains, but stretch them on a mattress to dry, pinning down carefully each point or scallop.

The Blood is the Life.

GOLDEN ELIXIR

The Great Blood Purifier.

Pure blood makes sound flesh, strong bone and a clear skin. If you would have your flesh firm, your bones sound, and your complexion fair, use GOLDEN ELIXIR.

LIST OF DISEASES CURED BY GOLDEN ELIXIR.

Chronic Skin Diseases, Humors in the Blood, Scrofulous Diseases, Fever Sores, Chronic or Old Ulcers, Salt Rheum, Bickets, White Swellings, Scald Heads, Uterine Affections, Cankers, Glandular Swellings, Wasting and Decay of the Body, Pimples and Blotches, Tumors, Dyspepsia, Erysipelas, Kidney and Bladder Diseases, Chronic Rheumatism, and all diseases of the Blood.

GOLDEN ELIXIR is the greatest blood purifier in medicine. It acts through the bowels, liver and skin. It absorbs poisons that float in the blood and purges them from the system.

To combat the tendency to premature decline, no remedy in the world possesses the nourishing and strengthening properties of GOLDEN ELIXIR. It enriches the blood, perfects digestion, stimulates the liver and kidneys, purifies and vitalizes every function and process of the system.

We assert that there is no known remedy that possesses the curative power over diseases that GOLDEN ELIXIR furnishes. It cures step by step surely from the foundation, and restores the injured parts to their sound condition. The wastes of the body are stopped and healthy blood is supplied to the system from which new material is formed.

If those who are taking Golden Elixir for the cure of Chronic, Scrofulous, Syphilitic diseases, however slow may be the cure, "feel better" and find their general health improving, their flesh and weight increasing, or even keeping it, it is a sure sign that the cure is progressing. In these diseases the patient either grows better or worse, the virus of the disease is not inactive; if not arrested and driven from the blood, it will spread and continue to undermine the constitution. As soon as GOLDEN ELIXIR makes the patient "feel better," every hour you will grow better and increase in health, strength and flesh.

GOLDEN ELIXIR acts directly on the blood, vitalizing and enriching it to a surprising degree, building up the system and throwing off the germs of disease. It thoroughly recruits the general bodily health and restores the nervous system to a proper healthy condition, no matter from what cause impaired.

GOLDEN ELIXIR may be considered a specific for Scrofula and blood diseases; its remarkable, rapid and lasting effects in these complaints are most wonderful.

GOLDEN ELIXIR cures all humors, from the worst Scrofula to a common Blotch, Pimple or Eruption, Erysipelas, Salt Rheum, Fever Sores, Scaly or Rough Skin; in short, all diseases caused by bad blood are conquered by this powerful, purifying and invigorating medicine.

Especially has it manifested its potency in curing Tetter, Rose, Rash, Boils, Carbuncles, Sore Eyes, Scrofulous Sores and Swellings.

If you feel dull, drowsy, debilitated, have sallow color or skin, or yellowish brown spots on face or body, frequent headaches or dizziness, bad taste in the mouth, throat heats or chills alternated with hot flushes, irregular appetite and tongue coated, you are suffering from torpid liver or biliousness. As a remedy for all such cases GOLDEN ELIXIR has no equal as it effects a perfect and radical cure.

GOLDEN ELIXIR PURIFIES THE BLOOD, PREVENTS DISEASES, RESTORES THE HEALTH.
