Panic Spreading Among Chinese Troops.

Japs Pushing Their Way Into the Flowery Kingdom.

Little Prospect of United Action by the Powers.

Sir & Henry Tyler Emphatically Denies That There is Obstruction to investigation of Grand Trunk Affairs - Preparations

for the Czar's Burial.

The Postponed Wedding. BERLIN, Nov. 8. - The Koelnische Zeitung says that Nicholas II. and Princess Alix will be married in three months. Poor Prospect of Peace.

LONDON, Nov. 8 -The Standard will say tomorrow that there is good ground for stating there is at present little prospect of united action of the powers in China. Russia is ready to act, and France offers no difficulty, but Germany does not admit the utility of intervention.

Germans Defeated by African Tribesmen.

BERLIN, Nov. 8. - A report has reached here that the town of Kilwakiwindji, East Africa, was recently attacked by a force of

2,000 Mawandji tribesmen. A detachment of German regulars and native troops repulsed the attacking party, who subsequently made another assault and captured the town. The engagement was attended with heavy losses to both sides. The German forces, it is said, are not sufficiently strong to retake the town.

The War in the East. LONDON, Nov. 8 .- A dispatch from Shanghai says: The panic in New Chang and throughout Manchuria continues. Numerous country people are arriving at New Chang, and two-thirds of the stores have been closed. A war levy of \$3 per head has been imposed in Hankow. The

people will probably resist it. A Yokohama dispatch says that the Japs are in other ways completing the trap has looked after the interests of his dis-

LONDON, Nov. 9 .- A dispatch to the Central News from Chee Foo dated Nov. 6 reports that hundreds of Chinese are arriving there from Manchuria, who are fleeing, frightened at the approach of the Japanese. The Chinese troops and such of the Chinese fleet as are not cooped up at Port Arthur have been ordered to attack the Japanese wherever they meet them. It is reported that Port Arthur is still invested by the Japanese, and that twenty forts there have

been captured by them. The Chinese soldiers are deserting from New Chang, fearing an attack by the

The Grand Trunk. LONDON, Nov. 8 .- Sir Henry Tyler, the president of the Grand Trunk Railway of Canada, said yesterday in an interview that all statements that the directors were placing obstacles in the way of an investigation of the company's affairs or refusing to permit an examination of the books, as was promised at the recent meeting of the stockholders, were absolutely untrue. The assertion that the accounts of the | be Republicans 245, Democrats 101, Popu-Grand Trunk in its relations with the lists 10. The services will be held in the Cathedral of St. Peter and St. Paul. of the Czar's body adjoins that of Alexander II. The cathedral contains the bodies of all the Emperors of Russia who have reigned since Peter the Great. The municipal council have passed a vote of 50,000

roubles to be used in draping the city.

The municipal council today voted an unlimited credit for the purpose of defraying the expenses of the reception here to Emperor Nicholas II. and the funeral of Alexander III., and also for the erection of a monument to the dead Czar.

The most solemn of religious services at Livadia, to which the body of Alexander III. was removed the previous night. Masses were said in the presence of the peror Nicholas II., the Czarina, Prince and Princess of Wales, the representatives of various foreign powers and many others. The Czar was deeply affected at the conclusion of the service, and after the royal visitors present and the troops had viewed the body, the populace were formed in line and filed past the coffin to take a farewell look at their dead ruler.

An imperial order was promulgated to-day with a gift of £7,000, initiating a subscription for the purpose of giving a dinner to the poor of Kharkoff the day after the passing through that city of the train

> REVISED RETURNS. It now looks as if Gov. Turney (Dem.) will be re-elected in Tennessee by a small

plurality. Indications today are that Holcomb (Pop. Dem.) is elected Governor of Nebraska. The Republicans carried everything else. The total vote of New York State, according to latest semi-official returs, is:

Morton, 637,952; Hill, 488,962; Wheeler, 28,368; Morton's plurality, 149,990.

Republican Chairman Babcock's latest returns show that the Republican representation in the next House will be exactly 250-a majority over all of 144. Only two Populists are elected in the west, one in Kansas and one in Nebraska.

The New York board of aldermen is Republican. The Republicans have sixteen votes in the board and Tammany representation fourteen.

THE LATEST CIPHERING. NEW YORK, Nov. 9 .- But few changes in the Congressional table were reported today. Judging from the latest returns, the total representation of each party in the Lower House in the 54th Congress will

GOLD IN IMMENSE CHUNKS.

The Richness of Australia's Latest Find Said to Be Without Parallel. Marvelous stories are told by the antipodean press of the richness of the new gold fields at Coolgardie. The Australasian

At Coolgardie on July 3 the news leaked out that extraordinary rich quartz had been found within twelve miles of the township. A rush was made to the spot and the owners permitted inspection. The workings consisted of a trench 5 feet long, 2 feet wide and 5 feet in depth, and a shaft has been sunk forty feet a short distance from the cutting. Out of the cutting over 4,000 ounces of gold were "dollied" in five weeks.

W. R. Wilson, of Broken Hill fame, who visited the mine, says: "Less than three tons had been broken when I saw it, and \$150,000 worth of gold was taken from that quantity. One shot dislodged a ton and a half, worth \$40,000." The largest piece of quartz has been christened "Big Ben." It weighs 242 pounds and is estimated to contain \$15,000 worth of gold. The other pieces weigh 108 pounds, fifty-six pounds and forty-six pounds, the whole containing one hundred-weight of pure gold, valued at \$25,000. Four hundred thousand dollars was offered for the mine, and was refused. Exactly 42.86 ounces of dollied gold were taken out of the reef not three feet deep and only a few feet along the reef, and the tailings (two tons) were put through Bayley's battery and averaged 600 ounces to the ton. The shaft is down nearly sixty feet. A drive of five feet struck the reef, and the quality of stone is said to be equal

to the surface. An even more wonderful discovery has been made north of Coolgardie. Four hundred and fifty pounds weight of stone was lodged in the Union Bank the other day, and it is no exaggeration to say that it is nearly half gold. The stone is from the outcrop of the reef, pieces of gold weighing one-half ounce being covered with moss. Most of the blocks are, however, broken into two pieces, and the whole face fractured simply glistens with gold. The biggest block, christened "Honest John," weighs 152 pounds, and shows by a rough measurement that it contains at least half gold, which sticks up all over it in big by from a sprained ankle to walk to the

rough pieces. An even more wonderful stone still was found by the prospectors, who were unable to move or break it. This was found name was placed on the list. just below the capping of the reef. After much effort this rock was reluctantly abandoned, and a camel team started for Coolgardie with 449 pounds weight in smaller pieces. The discoverer estimates that there is at least 200 pounds of gold in the

piece left behind. With regard to this find, Dunn, the mens. The block of stone a foot square, which could not be packed, weighed 400 pounds. The reef runs for 1,000 yards on ber for London. A Sketch of the Socialistically-Inclined British Poet.

Morris to-day is one of the larger figures in English literature. Few men have led so full and active a life. He was the son of a rich city merchant, and inherited an ample fortune. The earlier part of his life he seems to have spent buried in books. He delved deeply into Greek and Scandinavian lore, and out of these studies some of his most beautiful creations have been born. He has come to be known as the modern Chaucer. His most notable poems are "The Earthly Paradise" and "Jason." He has translated largely, and through him the beauties of the Niebelunger Lied have become known to English readers, His poems are characterized with an idyllic sweetness and a freshness and charm that is concededly beyond the grasp of any other modern poet. In them

is the breath of the dawn. But Morris is no mere poet. After joining the Rossetti group, he became an art

WILLIAM MORRIS. of his factory have come fabrics which have introduced taste and art into English drawing rooms. This business, modestly begun, with Rossetti and Burne-Jones as advisers, and ofttimes designers, has developed so that it is now the most important institution of its kind in England. Probably it was in the difficulties he met with in the management of his factory that Morris found the stimulus of his present theories. All of the group, however, seem to have almost unconsciously accepted socialism, and Morris along with it, for he tells us that he began profit sharing, which has ever since been in vogue in his factory, with very great doubt as to its success. Even now he does not think it has been a very great success, but it is certainly unlike any other factory in England. Its workmen are well paid, it has never known a strike, the walking delegate is a stranger there, and so are poverty and want.

The factory is down among the Surrey hills, the most beautiful part of England. not far from the village of Wimbledon. The proprietor divides his time between his factory and London. He is very methodical in his attention to business, giving it five days each week. Saturdays and Sundays he devotes to his literary pursuits, and one has only to glance over his numerous writings to see how fecund an author he is. He is a rich man now and growing old. But he grows more radical year by year, and almost all of his time is now spent propagating socialism. He and his daughters form one of the interesting sights of London in the season as they go about attending all sorts of meetings,

lecturing and expounding his theories. Keep your blood pure and healthy and you will not have rheumatism. Hood's Sarsaparilla gives the blood vitality and richness.

Was Not a "Mariner" - That Sickness Clause - Conservative Lawyers Do Not Like It.

AFTERNOON SESSION. The supplementary sittings of the board of registration were resumed at 2 p.m. The decisions arrived at in the morning were followed, but a bold attempt on the part of the Conservatives to override the ruling respecting sick persons was made just as the court was about to adjourn. George Walter Egelton was introduced by Mr. Hellmuth as having been a resident of London for many years. He lived with his father at 3481 Ridout street. Egelton told the Conservative lawyer that he had been to Chicago for two or three weeks visiting his brother who was not feeling well and wanted George to go and stay with him. He arrived home on Monday-too late to

"A person must be absent in pursuit of his calling," said Judge Edward Elliott. Egelton was not a trained nurse, though. Mr. Hellmuth argued that the clause of the act didn't mean that a person had to be physically incapacitated. Here was a

Harper, A. O. Jeffery, C. G. Jarvis and James Milne were present in the interests f the Liberal party, while the Conserva-ives were looked after by Mr. Irwin, asistant city assessor, I. F. Dansford is employed on the steamer Monarch. plying between Sarnia and Duluth, and esides several weeks in the summer. spends all winter in the city. His home was in the city. The Liberals wanted his name on the list, claiming that he was a resident. Mr. Blackwell testified that

Dansford had lived here for five years, but his parents lived in Huron county. Mr. Hellmuth contended that Dansforddid not come under the heading of a mariner. He was not a sailor, but a steward.

Judge Edward Elliott agreed in this "How do you know," asked Mr. Hellmnth, "but that he is on the list in Huron county? His domicile is supposed to be with his father." Mr. Blackwell-I would like to state

"No you wouldn't like," said Mr, Hellmuth, "you just keep quiet."

Mr. McKillop wanted to show that Dansford was on bad terms with his parents and never went near their home. The court would not take the evidence. Col. Shanly and Judge Edward Elliott thought Dansford was not entitled to vote under the clause relating to mariners,

and P. M. Parke, thought differently. As the board was evenly divided, the application was disallowed. James M. Nichol, whose home is at 820 Queen's avenue, is a student at a university in Toronto, and was there all last week. He

The Liberals produced evidence to show that Logan was in the Northwest during the summer, and was, therefore, deprived of his vote. It was claimed that Legan was a traveler for his father, and the case

was laid over, awaiting further proof from his employer. W. A. Mackay, 390 Adelaide street, and Robert McDermid, 511 Dundas street, were students at Knox College, Toronto. They made the necessary declaration and were added by the Liberals.

Thomas H. Collier, 390 Clarence street, was added. He was reported very ill. George Nemans, Thomas Walters, 147 King street, and Samuel Frager, 325 Gray street, were all in the City Hospital.

Walters was a cripple. All added. George Wright and A. W. Mitchell, two soldiers, were confined to the hospital at Wolseley Barracks and wanted to be added. They were.

Etching on Glass.

Every boy and girl at some time has a strong desire to try experiments, and but for the lack of material and the want of apparatus, together with not knowing just what to commence upon, a great many rainy days would be spent in making mixtures and compounds.

A search through the textbooks of the elder brother or sister brings no information. The mysterious signs and the elaborate, unintelligible explanations and definitions serve more to confuse than help the young beginner. But if the start is made from a few interesting experiments, performed by one's self with simple apparatus, the pleasures of investigation and discovery will lead on and on until the study of the great science of chemistry becomes a delight and the days of the schoolroom lecture or practice are awaited with

eagerness. Everyone has seen the narrow, frostylooking lines bordering the glass door of many railway cars and the fancy letters and devices on the table glassware. The beautiful effects seem wonderful, and and yet any boy or girl with very little patience and ingenuity can produce etch-

ing on glass. First of all go to the drug store and buy 10 cents' worth of fluor spar; grind it up to a fine powder. Then if you have any little vessel of lead about the size of a teacup, very good; if not, get some sheet lead-the grocer will give you a piece from his tea chest-and carefully line a cup with this, so there will be no chance of any of its con-

tents reaching the china. Now for the etching, take a piece of glass and heat it gently, then sniear evenly over one side bee's wax, such as the laundress uses for her flat irons. When this has cooled, with any sharp tool write your name or draw any design you wish on the waxed side of the glass, being sure to cut down through the wax to the glass itself.

Put a tablespoon of the powdered fluor spar in the cup and cover it with sulphuric acid. Enough for the experiment may be bought at the drug store for 5 or 10 cents. Place the etched glass over the cup, waxed side down, and cover the whole with a piece of paper. Heat the bottom of the cup for a few minutes; this must be done gently. very gently, or the wax will melt. Let the cup and glass stand in some warm place for an hour or so and then wipe off the wax. You will find your drawing

distinctly on the glass. With a little practice very pretty designs can be made or your name engraved in an

artistic manner. Care must be taken in handling the sulphuric acid that none may get on your skin or clothes, and the experiment must never be attempted without first putting on a long apron.

The scientific part of the experiment is that fluor spar and warm sulphuric acid readily combine and form a new acid, called fluorhydric acid, which is one of the most powerful acids known. This is so strong that it corrodes glass, Now, when the wax was scratched away, the acid ate into the exposed surface, duplicating in the glass the design in wax.-Chicago

Bow to Polish Furniture. Very dirty furniture should be washed off with a flannel cloth dipped in equal parts of strong vinegar and water before it is polished. It not only removes the dirt, but has a tendency to smooth the varnish that has become rough through long use. Such wonders great, I beg to state that Dr. Pierce's Favorite Prescription is the one thing that can and does cure the derangements of the female system. It is woman's great regulator. If every woman who suffers from diseases peculiar to her sex knew of its wonderful curative properties, a chorus of rejoicing would be heard throughout the length and breadth of the land singing its praises. For nursing mothers and debilitated "run-down" women generally, it is the greatest restorative tonic and soothing nervine known. For those about to become mothers it is indeed a priceless boon. It lessens the pains and perils of childbirth, shortens parturition,

promotes the secretion of an abundance of pourishment for the child and shortens the period of confinement.

MUSIC AND DRAMA.

"ABOUT GOTHAM." Probably in no city in this country is the same amount of genuine humor, comical incidents and funny occurrences met with in daily life as is characteristic of life in the metropolis. The above fact becomes especially apparent to one who visits New York for the first time. They find much that is strange and funny while idly strolling about the streets, while the initiated could write whole volumes of humorous occurrences. The subject is so prolific of fun that George Thatcher selected it as the story for his new minstrel farce-comedy, to which he has given the pertinent title of "About Gotham." With himself and his big minstrel and farce comedy company he will appear at the Grand Opera House next Saturday, matinee and evening.

RHEA TONIGHT. A favorite star in a new character is always a strong attraction, and Rhea should have a crowded house on the occasion of her appearance at the Opera House tonight, when she will present Lord Lytton's celebrated play, "The Lady of Lyons." It is difficult to imagine a character better suited to Rhea than Pauline and it seems strange that she has never essayed the role until this season. Critics of other cities speak with enthusiasm of Rhea's performance and mention also the excellence of her support, Mr. W. S. Hart's Claude being especially praised for magnetic strength. The sale of seats is very large and indicates great interest in this performance among

Rhea's admirers. HOLDEN COMEDY COMPANY. The Idea That Bright's Disease Cannot Be Cured Proven To Be a Fallacy.

QUEBEC, Nov. 5 .- Local physicians are much gratified over the letter of Dr. A. G. McCormick, of Richmond, this Province, testifying to his cure of Bright's Disease by the use of Dodd's Kidney Pills. Since the introduction of the remedy in this city many physicians have not hesitated to prescribe the pilis, and numerous cures have been the result. This latest testimony, coming from so well known a medical man, proves that the local men were right in changing the old-time remedies for Dodd's Kidney Pills. Hence their jubila-

In times like the present, when there are so many worthless preparations on the market and so many new schemes for making money questionably, you will do wisely if you buy only a preparation which has stood the test of

Another important thing is to look out for secret compounds. It is unfortunate that the laws of nature make it impossible many times to trace the origin of many vegetable concections, for the medical world might be able to expess their worthlessness. But it may be well for Scott's Emulsion, however, that the laws are as they are, for Scott's Emulsion can say that it is one of the few preparations whose ingredients cannot be concealed and whose formula is indorsed by the whole medical

In these days of worthless mixtures Scott's Emulsion stands out conspicuously. It has honesty back of it, the indorsement of physicians all around it, remarkable curative properties in it and permanent

cures ahead of it. For twenty years Scott's Emulsion has been growing in public favor until it is now a popular remedy in almost every country of the world. Its growth has been some what remarkable, when viewed on the surface, and still it is only natural, for Scott's Emulsion is the natural outcome of many human complaints.

Scott's Emu sion presents the curative and wonderful nourishing properties of Cod-liver Oil withing the reach of everybody. It is unnatural to take the plain Cod-liver Oil, as it is in a form that taxes the stomach, and yet for a person who is wasting to go without Cod-liver Oil is to refuse the very thing which is the best adapted to wasting

Scott's Emulsion really has over 50 years back of it, for all the plain oil taken for 30 years before Scott's Emulsion was made had to be made exactly like Scott's Emulsion before it could be assimilated. So Scott's Emulsion saves the digestive organs the work of preparing the oil for assimilation See our large size, bleached HUCK TOWELS, only

work of preparing the off for assimulation and it also aids the digestion of other food.

Loss of appetite, loss of flesh, loss of strength and general physical vigor are speedily overcome by Scott's Emulsion. These ailments usually mark a decline of health. Unless a nourishment especially adapted to overcoming this condition of wasting is taken the patient goes from bad to worse, and Consumption, Scrofula, Anæmia and other forms of disease surely re-

sult. Scott's Emulsion is not an ordinary specific. Besides soothing and curative properties which are useful in curing Coughs, Colds, Sore Throat and Inflamma-tion of the Throat and Lungs, it also contains the vital principles of nourishment. A little Scott's Emulsion given to babies or children goes more to the making of solid bones and healthy flesh than all of their ordinary food. Babies who do not thrive soon grow chubby and bright on Scott's Emulsion, and children who are thin and ave the appearance of growing too fast do not seem as though they could grow fast

To Consumptives Scott's Emulsion is life itself. There are thousands of cases on record where Scott's Emulsion has actually cured quite advanced stages of this dread-

ful disease. Coughs, Colds, Sore Throat, Bronchitis, Weak Lungs and all of the phases of Emaciation and decline of health are cured by Scott's Emulsion when all other methods of treatment fail. HELPING THE HELPLESS.

Annual Meeting of the Children's Aid Society.

Encouraging Reports and Election of Officers.

The first annual meeting of the Children's Aid Society was held yesterday afternoon in Somerset Hall, with Mr. S. R. Break, first vice-president, in the chair, and Mesdames A. Morphy, C. Hutchinson, John Hunt, Messrs. Andrew Thompson (postoffice), Fred Matthews, T. R. Parker treasurer), P. H. Bartlett (secretary) and Wm. Saunders (inspector) being present.

The meeting opened with prayer, conducted by Mr. Matthews. The financial report was then presented by the treasurer, Mr. T.R. Parker. It showed a balance on hand of \$102 95. The receipts amounted to \$232 55, of which \$223 was made up of subscriptions and membership The expenditures amounted to \$129 60. The report was adopted.

In presenting the annual report the secretary, Mr. P. H. Bartlett, dealt at length with the disadvantages under which the society was operating, because of the refusal of the police commissioners to vest their inspector with the proper authority to make arrests in the interest of the working of the act. This was no doubt due to the belief that the act could be enforced by the police in the ordinary way. The executive intends to make a further application to the police commissioners shortly. They had no objection to the officer, Mr. Saunders, whose fitness and faithfulness had never been questioned. But until the approval of the board had been received it was, not prudent for Mr. Saunders to make arrests. Notwithstanding this difficulty the work of the society had been very gratifying. Over 40 families, representing about 90 children, had been under the watchful eye of the inspector. Many children, who were before neglected and kept from school, were now being well treated and sent regularly to school. In bringing about this result their inspector had taken advantage of the act to give warning to parents and others, and in several cases unless a change is made for the better proceedings will be taken as soon as the inspector is vested with the proper authority. Four childron of Mrs. Gibson, Point Edward, had been taken in hand by the society and were now in the home. In closing, the report noted that the attention of the authorities had been called to the provision of the act necessitating separate trial for juvenile offenders. There were now 48 members of the society, which is in a very flourishing condition.

This report was also adopted, and Mr. Matthews' report of last summer's outing in the park will be incorporated in it. Mr. Break referred to the success attending the society's work, and spoke

strongly of the need of a public bathing place, where children, no matter how poor, could bathe free of charge and unmolested. The society will act on the suggestion. The election of officers resulted as fol-

LOW SPIRITED AND WEAK.

Common Among the Women of

An Unfortunate Condition Far Too Canada.

Low spirited and weak is a condition that aptly describes the condition of far too many women in this country. They are old in appearance when they should be in the prime of womanhood. They are martyrs to headaches, easily tired and indisposed to exertion, and are pale and sallow in complexion. To those who are thus unfortunately situated the following letter from Mrs. Daniel Gavey, Gaspe Basin, Que., will point the road to renewed health. Mrs. Gavey says: "For a number of years I have been more or less of an invalid. I was low spirited, weak and not able to do very much of the household work. My appetite was bad and I suffered from headaches and slightly from asthma. I used several medicines with no beneficial results, and at last was advised to try Dr. Williams Pink Pills. I used them for some time and am again enjoying the very best of health. My whole system is toned up, and with the other troubles the asthma has disappeared. I consider Pink Pills an invaluable medicine and recommend them to the thousands of women who are suffering as I was." In all cases of this kind Dr. Williams' Pink Pills are the only speedy and infallible cure. They enrich the blood, strengthen the nerves and drive out disease. Pink Pills cure when all other medicines fail. If Pills cure when all other medicines fail. If your dealer does not keep them they will be sent post paid on receipt of 50 cents a box, or six boxes for \$2 50, by addressing the Dr. Williams Medicine Company, Brockville, Ont., or Schenectady, N. Y. Every package contains the full trade mark, "Dr. Williams' Pink Pills for Pale People." Refuse all substitutes and imitations.

IN THE KINGDOM OF THE COW.

Dairymen's Association of Western Ontario-Notes by Secretary Wheaton -More Monkeying With Milk.

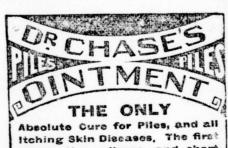

The interests of the association have progressed very favorably during the cheese season just ended. The work of milk inspection and instruction in cheesemaking at the factories has been pushed forward with much vigor. There have been more applications for instruction in cheese, making than during former seasons. Still there is room for further increase along this line. A great many cheesemakers and factorymen postpone sending for assistance till the very last moment. Several instances have occurred during the past season where no application was made for assistance till the cheese were rejected by some cheese buyer. If the instructor had been sent for as soon as the maker saw things were not running smoothly, or even before he got off the track, many dollars, besides a good reputation would have been saved to the factory. We recall one instance in particular where a maker who knew that his cheese were not being made as they should be, did not send for help, either through neglect or because he did not want to pay the instructor's small charge. The result was that his cheese were sold by the unsuspecting salesman at the highest market price, and when the buyer came to examine them they would not pass inspection and had to be resold at a sacrifice of I cent per pound. Many factorymen seem to adopt a "penny wise and pound foolish" policy in this matter and fail to recognize the actual value of having

some competent dairy expert to visit their factories at least once during the season. The cheese season so far has been a fairly successful one, notwithstanding the exceedingly dry weather of July and August. The prices have been higher than usual, with the exception of September and October makes, which are going off at somewhat lower prices than last year. At present, however, the market appears to be a little stiffer. The makes of September and October have been very large, and since the rains in September the quality is likely to be very fine.

There is still a large demand for informa tion on dairy matters. The secretary of the association addressed a local dairy meeting at Shetland on Nov. 8. Another one is arranged for at Carlow, Huron county, on Nov. 16. During the balance of the year a number of meetings are being arranged for in the newer dairy districts.

Meanwhile arrangements are being completed for the Stratford convention on Jan. 15, 16 and 17. A number of practical men who are specialists in their own line have been engaged to give addresses, and as Stratford has good railway connections and good accommodation, a large attendance of dairymen may be expected.

MORE MONKEYING WITH MILK. On Oct. 25 Mr. T. B. Millar, inspector for the Western Dairymen's Association, inspected the milk at the Rothsay cheese factory. The result of his visit was that Joseph Freeland and Thomas Hayes, of Wallace township, were each fined \$15 and \$1 75 costs. They pleaded guilty before Squire Brisbane, of Harriston, the former to adding water and the latter to taking | the cream of the milk sent to the factory.

-It was a great fall from William Ralph Meredith to George Frederick Marter. What a change between June and November 1

-One thing Mr. Essery did not refer to last night, and that was the beautiful electric service which does not grace the streets of London. More than any man he is responsible for the delay in going on with the work.

-Mr. Hellmuth has been paying his respects to journalists, and he did not take the trouble to except his own journalistic friends. No doubt journalists have their faults. The same might be said of lawyers always excepted.

-There are only 94 members in the Legislature, not 95, as stated by Mr. Marter last night. Of this number Mr. Marter has a following of 25. He thinks that Sir Oliver, who now has a following of about double 25, which is likely to grow greater as the days pass by, should retire and let him be Premier. Mr. Meredith knew better than to suggest any such eccentric course, and had the good sense to retire himself.

-An attack was made on the ADVER-TISER by Mr. Essery's legal friends at last night's meeting. Those who do not know better may believe that the ADVERTISER is one of the candidates in the present campaign. For example, we had the assertion made that the ADVERTISER is a non-producer and something that does not employ labor. This statement is grossly incorrect. The ADVERTISER is a producer. It is a worker for the upbuilding of London. Its yearly wage bill is exceeded in point of amount by few industrial establishments in this city. The fact is the ADVERTISER is one of the largest employers in London.

NO VOTE OF THE PEOPLE.

There is serious trouble in the mayor's office today. Having consented so the expenditure of \$50,000 on waterworks-unnecessarily, many citizens complain-without taking a vote of the people, secret meetings of mayor and aldermen have been held recently to discover how they could get the borrawed money out of the taxpayers without observing the law. They have resolved to appeal to Sir Oliver Mowat to permit them to break the law and to prevent a vote of the people upon the question. This course is directly opposed to that which the mayor and Mr. Meredith pledged themselves would be pursued when the city bill was before the Legislature. Then the expenditure was opposed by many taxpayers, and it was only after a solemn promise that the money would not be spent unless the people so voted, that the bill was passed.

Why these secret meetings ?

Why this attempt to prevent the citizens saying whether or not they want their future heavily mortgaged ?

Why this attempt to centralize the management of our civic affairs in Toront o? Such an attempt to over-ride the taxpayers in view of the pledges solumnly given, and after the citizens had voted down a similar money bylaw, is astound-

Well may the taxpayers ask, "What he xt ?"

The fact is that Sir Oliver Mowat must ither break the law, as solicited by Mayor Essery in the petition presented to him, or the taxpayers of London must immediately pay over this \$50,000 out of their ockets.

THE MEETING LAST NIGHT.

The Opposition meeting held in the Grand Opera House was a success in point of attendance, and passed off quietly. Only one speaker was interrupted to any extent, though more than one proved tedious, and though Chairman Beattie pretended to believe that the protesters were friends of Mr. Hobbs those in their neighborhood knew better. The mass of them were supporters of Mr. Essery, who got so weary of Mr. Howland that they adopted this means to tell him so. Mr. Marter made his first appearance as leader of the Opposition in the Legislature. He candidly told the audience that he could not hope to be so effective a leader as Mr. Meredith had proved to be. and truth to tell he had not delivered onehalf of his speech before the unbiassed listener must have reached the conclusion that his self-outlined portrait was pretty nearly correct. The trouble with the Opposition is that in the House of 94 members they have but 26, and therefore their choice was limited. Mr. Marter promises to do his best as leader of the Opposition, and we believe that he will do so. He rightly concludes that his comparative inexperience at present handicaps him, but a few years in Opposition will no doubt sharpen him up and enable him to take a broader and more statesmanlike grasp of public affairs than he seems now inclined to take. Mr. Howland is a learned man, a finelooking fellow, and we are told is a great favorite in the drawing rooms of Toronto. but he proved a wearisome expounder of public affairs. He was heralded in advance as a great orator, but that, apparently, he is never likely to be. The audience listened to him good naturedly for a time, but finally revolted, and he was moved to bring his speech to a sudden close. Mr. Hellmuth was, if anything, more abusive of those who disagree with him than on former occasions. And as for Mr. Essery, he delivered just such a speech as was expected of him. Taken as a whole, this meeting vindicated the ADVERTISER view that the situation remains practically unchanged since June last, with the exception that Mr. Meredith, despairing of getting control of the Government, has retired from public life, and Sir Oliver Mowat has been confirmed in power, as will be demonstrated beyond a cavil on the first division in the new Legislature. The topics touched on last night referred to no matter which was not thoroughly thrashed out in last campaign, and satisfactorily answered by Sir -the esteemed Mr. Hellmuth, of course, Oliver Mowat and his friends. It was simply "cauld kail het again," as the Scotch say, and not very warm at that. This vindicates our view that the friends of Mr. Hobbs are right in not arranging to hold more than a few mass meetings of the electors, who are aiready well informed upon the questions of the day. With the public seized of the issues, we do not doubt that they will consider it to be to their best interests to elect Mr. Hobbs by a substantial majority. Even those who opposed him conceded that only Mr. Meredith could have defeated him in June last, Now Mr. Meredith has retired and many electors who supported him on personal grounds, because they hoped he would soon be premier, are supporting Mr. Hobbs, whose election at this juncture will be dis tinctly to the advantage of the city.

THE ALL GRASPING CITY" ADVOCATE.

Mr. Howland last night spoke of Toronto as "the all-grasping city." Mr. Howland comes from Toronto. He should know. By the way, Mr. Hobbs, whose election as M. P. P. for London Mr. Howland has come here to oppose, has also the opposition of other Toronto interests. His firm has already established an industry here that gives employment to between 40 and 50 hands, which is in direct opposition to Toronto interests, and the Hobbs Company has resolved to establish at least two other industries hitherto not undertaken in London which have been carried on in Toronto. A man who works thus practically - and not merely a professional talker-must be peculiarly objectionable in Toronto circles. But the very fact that "all-grasping Toronto" is adverse to Mr. Hobbs' election should immensely strengthen his candidature in this the city of his choice. "Allgrasping Toronto" opposition is just what is required to add to the majority which Mr. Hobbs will poll on June 20.

ASYLUM CONTRACTS.

Why is it that the opponents of the Mowat Government so persistently misrepresent the condition of affairs with regard to asylum supplies? They say all supplies are obtained without tender. That is a gross misrepresentation. The great staple articles are tendered for by Conservatives as well as by Liberals, as every merchant in London knows. Mr. Benjamin Higgins, Mr. Frank Barnard and other London Conservatives, who have been contractors for the asylum, know this, but visiting politicians and local Conservative lawyers persistently assert to the contrary. Why? Surely the cause that requires misrepresentation to bolster it

SITUATIONS IN A NUTSHELL. 1. A plebiscite on the subject of prohibition was held nearly a year ago. By a large majority the people of Ontario expressed the desire for whatever measure of prohibition it might be found that the Province had power constitutionally to enact. Sir Oliver Mowat had previously pledged himself to respect the people's will.

2. The next step was an agreement between the Dominion and the Provincial authorities to submit the question of jurisdiction to the courts. The question has been so submitted, and it is now before the courts. It may be decided at an early date. or it may take a longer time. LET US FILL THE DINNER PAIL. Raising an ill-founded religious cry will not fill the dinner pail of either Protestant, Roman Catholic or agnostic. What our citizens need more than anything else is work for themselves and for their families. How many workmen do the firebrands employ and what have they done to forward the new electric railway? Is it not fact that hundreds of workingmen in this city have been deprived of employment during the past summer and fall because of unnecessary delay and lack of business ability in settling the street railway question? Is it not a fact that at least \$150,000 would have been spent in wages during the year if the electric railway settlement had not been unnecessarily delayed? When Mayor Spencer left office an agreement was virtually completed. It was laid aside, and today a settlement is further off than it was two years ago. COUNTY HOUSES OF REFUGE

The members of the Prisoners' Aid Association are urging the general adoption of the system of caring for the destitute poor of the country by means of houses of refuge or poor-houses. Up to the present time only 10 out of a total of 35 counties in Ontario have as yet adopted the system. They claims that it is not only the most humane, but that in the end it is by far the most economical method, and moreover, that in counties where there is a well managed house of refuge there is far less begging -in fact no excuse for it-far less pauperism and far less crime.

Other advantages resulting from the establishment of a poor house in the county, which is referred to by the Association, is the fact that the removal of the tramps and the simply destitute poor from the county jail prevents overcrowding of the latter and makes it possible to effect a better classification of the remaining prisoners. This they claim is a matter of much greater importance than is generally supposed, as is found that both vice and crime is propogated by a lack of proper classification of the inmates of county jails.

When it has been decided to erect a county poor-house, plenty of time should be taken in selecting the farm, selecting the site and in deciding upon the char-

acter of the buildings. The farm should be good land, not less than 100 acres, easy to till and convenient to a railway station or boat landing. The buildings should be erected on high ground where they can be easily drained, and where there will be an abundant supply of water both winter and summer. In making plans for the buildings the aims should be economy, convenience, orderly administration, a complete separation of the sexes and a right classification of the inmates. The heating, ventilation and drainage is of great importance, and this should not be entrusted to any except good reliable parties or well-known firms.

One of the best county poor houses in Ontario is the one recently built in the County of Oxford, near the town of Woodstock. The total cost to the county, complete, was \$30,363, less the Government grant of \$4,000.

In the United States nearly every county has a county poor house. In the State of Ohio, for instance, there is a poorhouse in each one of its 88 counties. In the State of New York, with only four exceptions, every county has a poorhouse. In this State the poorhouses are under the supervision of a State Board, and this board now favors the adoption of the cottage system in the construction of county poor-houses. The cottage system is more expensive than the congregate system, but it is claimed that it is much safer in case of fire, it prevents the spread of contagious diseases. it is more home like, and it is the only system that provides for the absolute separation of the sexes.

A well managed county poor house is a regular hive of industry, and every inmate not too ill or too feeble is expected to do a fair day's work, and in this way contribute to their maintenance. As might be expected such a poor-house is not popular with the lazy, good for nothing tramp, and it is found that he gives a wide berth to the county where it is located.

PITTSBURG, Pa., Nov. 8 .- Later particulars from the wreck in the Cumberland division of the Baltimore and Ohio Railway between the western express and the first section of the fast freight train, No. 64, at Rosenstead last night confirm the reports received last night-six were killed and two badly wounded. Twenty-six head of cattle were killed and a number so badly injured that it was necessary to shoot

T. B. Lee, editor of the Rapahannock Times, was a passenger on the express train. He says that both trains were running at top speed when the crash occurred. The engines, he says, were literally torn to pieces. Six cattle cars, one express and one mail car were piled into the space of a single coach, while high above the wreck stood the baggage car almost unroofed. The wreck caught fire, but through prompt work of the passengers and trainmen the flames wete subdued.

SLIGHTLY ASTRAY.

Strange Experience in Chatham, Ont., of a Young Man From Niagara Falls.

Among the occupants of Irish Jack's sitting room last evening was a quiet, unassuming young man who had arrived on the 8:50 G. T. R. After taking a long rest he inquired of the genial proprietor if Snowball was still in business here, and if Merrybank's eldest daughter was married yet. He then excused himself, saying that he had to slip across to Newcastle. It finally dawned on the bewildered man that he was in Chatham, Ont., and not Chatham, N. B., for which latter place he had demanded a ticket at Niagara Falls. He took in the situation quite good naturedly, and Jack did his prettiest to make his guest feel at

Hold Their First Rally in the Opera

Speeches by Messrs. Hellmuth, Marter. Howland and Essery.

The Audience Got Very Tired-Chairman Calls People to Order-Mr. Marter en Laundry Bills, Etc.-Mr. Howland Wearies His Hearers-Mr. Essery's Remarks.

The meeting in the Opera House last night in furtherance of the candidature of Mr. Essery. Conservative candidate, to fill the vacancy in the Legislature, was largely attended. The hall was comfortably crowded, an unusually large number of those in the audience being ladies. The stage and the boxes were draped with flags. Thomas Beattie, president of the Conservative Association, occupied the chair. Seated along the front row with him were Messrs. Marter and Howland, of Toronto, Mayor and Mrs. Essery, I. F. Hellmuth, Richard Bayly, John Minhinnick, Joseph Fellows, Henry Macklin and others. On the platform, among others, were Heury Coombs, I. M. Mayell, Rev. Benj. Clement, C. W. Davis, H. F. Whetter, Harry Irvine, Hume Elliot, E. W. M. Flock, T. W. Scandrett, James Priddis, Richard Whetter, John Overell, E. W. Graves, Ald. Carrothers, W. F. W. Findlater, John Boyd, James Crawford, A. E. Oliver, Robert Logan, Chas. Ruse, Wm. Duff, Hugh Ashton, Ed. Winnett, Richard Evans, J. S. Pearce, T. H. Smallman, and others.

The curtain went up pretty sharp on time, amid a signal of applause

The Chairman. Major Beattie, in opening, announced that if they stood together as they would, a glorious victory would be the result. He never saw the party more united than they were for Mr. Essery.

I F. Hellmuth. Mr. I. F. Hellmuth said that such a gathering showed conclusively that London was true to the old Conservative cause. (Applause.) It was a fitting time that London should show it was true to the Conservative party. For 22 years the city had sent none but a Conservative to the Legislature, and it would be a sorry day when it did otherwise. It was fitting that they should do so as a token of fidelity to their new leader, Mr. Marter. The Conservatives had never sent one of their leaders into exile and broken the heart of another like the Grits. They had stood by He would like to remark on which their opponents were conducting the campaign. The latter were afraid of discussing public issues on the public platform. They termed this "a jaw competi-tion" and a "mouth contest." Mr. Hellmuth waxed wrathy at the idea of lawyers being called non-producers. He didn't know any more real non-producers than journalists themselves. The only thing they produced was bad English and coarse abuse. He accused the Grits of charging Mr. Essery with not being a wealthy man. The Conservative party were perfectly satisfied with their candidate. He wouldn't be a silent member sitting on the front or back benches and merely voting when the party whip was cracked. He said the ADVER-TISER was out with the most corrupt bid for votes he ever heard ofby telling the people to vote for Hobbs and get the Normal School. He compared local Grits to Tammany Hall, and said they would be buried like Tammany on election night. The Leys correspondence, he averred, revealed gross treachery on

Mowat's part.

Mr. Marter, Mr. Meredith, and admitted that he (the speaker) could not hope to follow in that gentleman's footsteps; but he would perform his duty cheerfully and willingly at all times. The Conservatives, he said, had returned from the fight stronger than the the Conservatives 32; the Independents 1. the Conservatives had 28, losing 4; the Patrons had 17 and the Independents 3. The Government's loss was 19 per cent; the Conservatives' loss was 12 per cent. The Conservatives polled 107,218 votes; the Patrons and Independents 98,021 votes-a total of 205,239 as against 153,613 polled by the Government, who were thus in a minority of 51,626. The speaker claimed the Government had no right to carry on assessors, classifying the taxpayers as the affairs of the Province when it had lost the confidence of the people. He condemned the retention of Mr. Harty as Minister of Public Works after he had been defeated at the polls. If the Government could show that they had a surplus, the Conservatives would withdraw Mr. Essery from the contest and let Mr. Hobbs go in by acclamation. The Mowat Government claimed to be economical, but this was untrue. The Province never would have economical government until the Conservatives assumed the reins. The receipts during the four years of the Sandfield Macdonald Administration were \$9,892,000, and the expenses were \$6,074,000, leaving a surplus of \$3,817,000. During he Mowat regime the receipts were \$68,944,000, and the expenditure \$71,755,000, so that the present Government had expended \$2,811,000 more than they had taken in. Instead of a surplus the Government had really a debt of \$571,482. The cost of government had increased 150 per cent since 1871, while the population had only increased 30 per cent. Mr. Marter attacked the incomes of Dr. Bucke and other asylum doctors. Besides salaries of \$2,000, they secured free houses and free living, of which there was no record kept. These officials should be paid cash salaries and be made to buy their own supplies. The stores of these institutions were too expensively managed. There were four people in the stores department of the London Asylum, including Dr. Bucke. drawing in all \$4,450, and the patients did the work. Mr. Marter then waded into Dr. Bucke's laundry and sugar bills, and claimed that the correction made in the ADVER-TISER of the statement regarding the cost of laundry work for Dr. Bucke was not true. He afterwards went into the accounts of the Toronto Asylum, and berated

much for his groceries, coffee pots, etc.

Mr. Marter then waded into the Crown

promotion was that he could use his influence with the lumbermen and secure their wotes and money to keep the Govern-ment in power. Mr. Marter alleged that the colonization roads scheme was a huge bribery fund. It could be much better and more economically handled by the munici-

palities. After a lengthy and involved tirade on the the ballot. The Ontario ballot was one cf itself in power, he affirmed. He thought that after the next session the Lieutenant-Governor would have to live on his \$10,000 salary. The money should go to those who needed it, and not to this Government

(Applause.) I cannot speak for the other members, because we have recently had an election, but I will not forfeit one tittle of my interest in the great temperance cause." (Applause.) He asked the electors to vote for Mr. Essery as a temperance man always. He was sure the ladies would; they were more consistent than the men on this great moral question. Mr. O. A. Hewland,

Mr. O. A. Howland, Toronto, was intro-

duced amid applause, in which cries for Essery were loud and prolonged. In beginning he paid tribute to Mr. Meredith. He referred to the late leader's services to what he called "the all-grasping city of Toronto." It was true that his long labors in Parliament had not been honored by obtaining power, but he uged that this was no justification for changing principles. He spoke of the promise of bread cast upon the waters, and referred to the late election in Toronto as a result of the principles advocated by the Opposition. Members had been sent to Parliament who belonged to other organizations than the Conservative party, but they had the same grievance, and wanted economy and purity of administration, a more vigorous handling of public questions. They did not feel themselves defeated, because these gentlemen did not count themselves members of the Conservative party. The young men of London were urged to follow the example of the young men of Toronto. A reference to Mr. Essery as the future member for London brought forth cries of "Hobbs! Hobbs!" The Conservative party intended, Mr. Howland said, next session to endeavor to worth of goods during the last year, should have been thus deceived. change the system of patronage so that the and he used that fact as an party in power would not have the use of it argument that Mr. Hobbs could not like the Grits. That had been unquestionably a principle of both parties, and under the present Government was leading to demoralizing consequences. There was an unmistakable indignation being manifested at the system.

The crowd was getting very tired long before this, and as Mr. Howland proceeded to deal with registrars some one in the gallery grosned outright. Others kept calling for "Essery," and again some called for "Hobbs." All appeared to be restless, and Mr. Howland, evidently noticing this, said he did not like to leave them without delivering a sufficient and terrible indictment against the Mowat Government. Why am I taking so much of your time?" asked Mr. Howland just after an uproar which made him almost inaudible. The crowd yelled "Essery" again as Mr. Howland proceeded to say that it was because he did not want any gentleman who was brought up to support Sir Oliver Mowat's Government as the most honorable and angelic Government that the world has ever known to go away and be Mr. Marter in opening paid a tribute to capable of making the excuse that that Mr. Meredith, and admitted that he (the Government had not been convicted in detail of the criminal administration of the

use of its funds. The crowd in the gallery became unruly again at this functure and Chairman Beattie was obliged to interfere. "I have known Liberals. The Government before the last | Sir Oliver Mowat all my life," said he, election had 58 members in the last House; "and he was a gentleman. I am sure he would not countenance for a moment any Now the Government had 47, losing 11; of his supporters coming here to raise a disturbance." This was said, though it was evident the tired ones were opponents

of Sir Oliver. This was greeted with other cries of "Essery," and Mr. Howland went on to speak on the separate school question, taking up the same position as that assumed by his party at last general election. He was opposed to the present system of Roman Catholics and Protestants. "We want to see these schools so conducted," said Mr. Howland, "that the pupils will come out of them singing "The Maple Leaf," and not "The Wearing of the Green."

"Hurry; your time is up," said a voice

from the gallery. Instead of hurrying, Mr. Howland wandered away from his subject far enough to speak of the situation in Japan. He compared the Japanese to the Conservatives. They were both inspired by modern ideas and combatting principles which were defensible 50 years ago, but indefensible today. You will all support Mr.

A Voice-Give him a chance to speak. Mr. Howland-And I have no doubt that the result will be that you will place Mr.

sat down. E. T. Esserv.

"Some of those loud-mouthed young men in the gallery will know better on Nov. 20," was the chairman's introduction of Mr. Essery.

A great part of Mr. Essery's speech was devoted to municipal matters. He alleged that it had been urged that because his bank account was not as large as Mr. Hobbs' he was not fit to represent the citizens in Parliament. Mr. Essery then argued against Mr. Hobbs because he was a bachelor. "I have a wife upon the plat-Essery then alluded to his record as a water Dr. Clark, superintendent, for paying too

"When did he carry sick pay to the bedside of his sick brethren like I have done? Where was he when the Salvation Army women were arrested for beating drums on the street, while a minstrel band paraded it on the same day?" Mr. Essery said he was a prohibitionist when the cause was not so popular as now. Where were the London ADVERTISER, John Cameron, Dr. 'gratuitous system," Mr. Marter took up Arnott and other leaders of the temperance cause in this contest? The ADVERTISER the means by which the Government kept | had likened the leader of the Conservative party to a bull in a china shop, and called upon the temperance people to halt until they found out where they were and where the law was as well. Mr. Essery quoted figures showing that the number of licenses had increased from 1,862 in 1887 to 3,369 in 1892. The number of commitments for He said he had been a prohibitionist for drunkenness and vagrancy had also increased, and the vagrant was the finished temperance people did not respect temper- product after the bartender had got

> A Voice-So it is. Proceeding Mr. Essery expressed his inopposition to every government. It was the duty of that opposition to watch the policy of the government and to check it where it interfered with the rights of the citizens and endeavor to expose their policy where it could be exposed. The men who had made England great were the men who were ready with sarcasm and ridicule to point out the defects of the government of the day. He asked them, when they had heard the two local candidates, to come to the conclusion as to who was the best man to be sent away 120

miles alone to do his duty. (Laughter.)
After dealing with Mr. Meredith's position on the Manhood Franchise and other acts, Mr. Essery brought out the old silver medal bull correspondence and induced Mr. Hellmuth to read it. Some gallery youths guyed the bull, and all laughed when Mr. Essery asked if the correspondence was another evidence of Christianity. Other relies of the late election, such as Muldoon's affidavit and the Leys letters were dealt with, and Mr. Essery then passed on to state his stand on the separate school question.

"I take the same grounds that William Ralph Meredith did," said he. Proceeding, he drew his picture of the flage of St. George, St. Patrick and St. Andrew, and the word "Separate" that was not written thereon. They made one trinity; one cross -the cross of Christ. He believed that every man should be able to worship as his conscience dictated, and said that if the Act of Confederation could be altered to admit of separate schools it could and would be altered again to do away with them. Mr. Essery then found fault with cause it sold the Government \$4.731 19 een's printer, and charged that he reone salary of \$1,400 as Queen's printer and \$400 as counting house and stationery clerk. Mr. Essery next explained that he left the Liberal party because, as he said, its policy tended to annexation. Such distinguished men as Edward Blake, Hon. Wm. E. Gladstone and Disraeli had left parties because of principle, and a man would be unworthy of his country if he did not. He denied that he could not be depended upon, and challenged anyone to point to anything in his life of which he

They would say that he (Mr. Essery) was a bigot, and that the solid votes of 1,700 would be cast against him, but there were enough men to see fair play to justice and right. The Government was only hanging on by the skin of its teeth, and there was no reason for electing Mr. Hobbs because he was a Government supporter. He referred to the Normal School, and said that if Messrs. Hyman, Purdom and Love could not get it Mr. Hobbs steed no show. The Hobbs Company, he said, escaped taxation because they promised to establish a nail factory, which they hadn't. Mr. Essery claimed his bank account would be bigger if he hadn't done so much for the poor.

It was 11:30 p.m. when he concluded and many had left long before. Cheers for the Queen and the speakers closed the

TALMAGE WILL WITHDRAW

From the Pastorate of the Brooklyn Tabernacle.

BROOKLYN, Nov. 8 .- Rev. T. De Witt Talmage has definitely decided to leave the pastorate of the Brooklyn Taberracle congregation and accept another pastorate or enter the evangelical field. The following letter was read and acted upon at the ses-

sion of the Tabernacle congregation last "Brooklyn, Nov. 7, 1894. UNDER THE SEARCHLICHT.

Continuation of the Inquiry Into Alleged Boodling by Toronto Aldermen.

Serious Charge Against the Chairman of the Fire and Light Committee.

TORONTO, Nov. 8. - Ald. Stewart, chairman of the fire and light committee, who has been wanted in connection with the aldermanic investigation, arrived in town this morning. He was put on the stand, the gist of his evidence being an absolute denial that he had any share in or knew anything of the alleged corrupt deal between the aldermen and electrical light plant tenderers. He admitted that Col. Rogers and S. H. Wheeler, of the Brush Company, of Cleveland, had remarked in his office that it would be worth a thousand dollars to them to see a certain tender.

When Ald. Stewart stepped down Mr. J. J. Wright, of the Toronto Electric Light Company, took the stand and swore positively that Ald. Stewart had in his own office stated that he (Stewart)

MUST BE GIVEN \$13,000 on behalf of himself and other aldermen on the executive before the company represented by Mr. Wright could again secure a contract.

This statement produced a decided censation in court, which was somewhat intensified when Wright put in a card, on which were the names written by Ald Stewart, on whose behalf Stewart pro fessed (as Wright says) to speak in carrying on corrupt negotiations. The name are so far withheld, though they are in possession of Judge McDougall.

Another feature of today's evidence was an admission by Ald. Stewart that he had shown Mr. Wright decoy figures purporting to be those of the tender of the Toronto Street Railway Company, which tendered for a contract for 25 years. Stewart now swears these figures were false, as they were considerably above the the Hobbs Manufacturing Company be- real figures. It was obviously against the interests of the city that another company

tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 75c. bottles, but it is manufactured by the California Fig Syrup Co-only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Mr. Marter's Speech. The speech was remarkable mainly for its omissions. The first address of the new leader contains not a single declaration of policy. Nobody could judge from it what are his views upon education, upon law reform, upon taxation, upon the municipal system, upon the development of Northern Ontario, upon the preservation and renewal of the forests. No young man entering politics would find in it a gleam of light or a spark of inspiration. It is full of politics

TANGLED <---> THREADS

Madam's dress this morning was a striped lilac silk of amazing rustle and richness. Letting it all out behind her, she went down the stairs and through the hall, sweeping the dust along in a little cloud. Mr. North was not in his parlor; madam went about looking for him.

To her surprise she found him in the drawing-room; it was not often he ventured into that exclusive place. He had a shabby long coat on, and a straw hat. Madam's scornful head went up when she saw him

there. "What do you want?" she asked in a tone that plainly said he had about as much right in the room as an unwelcomed

that old Bohun was dead. Is he still in London?-or at his aunt's?-or where?" "I'm sure I don't know where," retorted Matilda, irritated at being interrupted. Neither did she care. Madam turned the letter over in idle curosity; but the postmark was not to be deciphered. Leaving it

on the mantelpiece, she went to look after Mr. North. He stood on the lawn, doing something to a dwarf-tree of small and beautiful roses. There was some wind today, and his long coat waved a little in the breeze.
"Did you hear what I said—that I was coming to your parlor?" demanded madam,

swooping down upon him majestically. "Money must be had. I want it; Sidney wants it; the house wants it. I ——"
Mr. North had straightened himself. Desperation gave him a little courage.
"I would give it you if I had it. I have

always given it you. But what is to be done when I have it not? You must see that it is not my fault, madam." "I see that when money is needed it is

your place to find it," coolly returned madam. "Sidney cannot live upon air, He "It seems to me that he lives upon gold,"

Mr. North interrupted in querulous tones. 'There's no end to it." "Sidney must have money," equably went on madam. "I must have it, for I purpose oing away for a time. You will there-

"Goodness me! here's the telegraph man." This second interruption was also from Mr. North. Telegraphic messages were omewhat rare at Dallory Hall: and its master went into a flutter. His fears flew to his well beloved son, Dick. The mesenger was coming up the broad walk, a depatch in his hand. Mr. North advanced to eet him; madam sailing behind. "It is for Captain Bohun, sir," spoke up

CHAPTER XII.

The tide came rippling up on the sea shore with a monotonous, soothing murmur. There were no waves today; the air was densely still; but in the western sky litt e black clouds were rising, no bigger yet than a man's hand; and as the weather-wise old fishermen glanced to the spot, they foretold a storm.

Two people, pacing the beach side by side. regarded neither the sea nor the threatened storm. Need you be told that they were Arthur Bohun and Ellen Adair. What were the winds and the waves to them in their happiness? Amidst the misery that was soon to set in for both, the recollection of this short time spent at Eastsea, these few weeks since their love had been declared, and their marriage was approaching, would seem as an impossible dream.

The private carriage, consented to by Mrs. Cumberland, must not be confounded with a secret marriage. It was to be kept from the world in general; but not from every friend they possessed. Mrs. Cumber-He acquiesced, and fixed on Richard North Captain Bohun purposed to tell his aunt, Miss Bohun, his friend in every was; but not until the wedding was over; he would trust no one beforehand, he said, excepting Mrs. Cumberland and Dick. Even Dick he did not trust yet. He commanded Dick's variegated grass," said Mr. North with resignation. "I'm sorry to have troubled you, Matida."

At Death's Door .- Dyspepsia Conquered.-A Great Medical Triumph. GENTLEMEN, -My medical adviser and others told me I could not possibly live, when I commenced the use of Northrop & Lyman's VEGETABLE DISCOVERY for Dyspepsia. My case was one of the worst of its kind. For three years I could not eat meat and my weight decreased from 219 to 119 pounds. All the food I took for thirteen months previous to taking the VEGETABLE DISCOVERY consisted of milk. I am now entirely cured and have regained my usual weight, can eat anything with a keen relish and feel like a new man. I have sold over 30 dozen VEGETABLE DISCOVERY since it cured me, as I am well-known, and people in this section know how low I was, and thought I could not possibly be cured. They are eager to try this grand medicine. It certainly saved my life, as I never expected to recover when I first commenced using it. I am not exaggerating anything, but feel glad to be able to contribute this testimonial and trust it may be the means of convincing others of its merit as a certain cure for Dyspepsia. The Issues in the Present Bye-Election to be Fully Discussed Next Week.

The mass meetings of the electors which the ADVERTISER announced some time ago will be held early next week, when wellknown members of the Government recently returned to power for another four years will speak in furtherance of the andidature of Mr. Hobbs.

Hon. Geo. Ross, Minister of Education, a son of Middlesex, of whom we are all proud, and Hon. John Dryden, Minister of Agriculture, who has the confidence of all classes in the community, is better known in Eastern and Central Ontario than in the West, and Mr. Hobbs, the London citizen candidate, will be the chief speakers. Of the visitors little need be said by way of introduction. Mr. Ross is well known as the most eloquent speaker in Canadian English-speaking public life today. Even his opponents conceded that he made the best speech at the unveiling of the Sir John Macdonald monument in Toronto a few days ago. Hon. Mr. Dryden, we believe, makes his first appearance in London. We are certain it will not be his last, as he is a most entertaining and instructive public speaker.

The mass meetings will be held in the Grand Opera House on Monday evening next and in the East End Town Hall on the following night, at \$ o'clock.

Tuesday next is nomination day at the City Hall, so the electors will not, as we have before said, suffer from lack of discussion of public affairs.

The time to get your Printing is now, the place is the London ADVER-TISER Job Printing Department. Will our friends everywhere remember that we print positively everything, from a book down to the smallest card? Either call in or write for prices and samples. You will be gratified to find how well, how reasonably, and how speedily your order will be filled. We try to keep every promise to the hour.

-The old Hellmuth Boys' College on St. James street will be torn down to make way for new buildings.

-Messrs. Walter Briody and Richard Richardson, of this city, leave next week for Chicago, where they have secured situ--Thomas Lindsay and James Smith, two

respectable-looking men, were arrested last night by Constable Ward charged with trespassing on the C. P. R. in London West. They were remanded for a week by Squire Lacey.

-A parlor concert in aid of the poor was given by Mrs. P. J. Watt at her residence, 106 Kent street, last evening, and was a great success both musically and financially. All the numbers were rendered in a highly creditable manner. The songs by Miss Mutch and Mr. Lockhard were especially worthy of notice.

-Merchants on Dundas street, west of Richmond, complain of the manner in which water lies on the flagstone walks. The curbing in some places is an inch higher than the walk and prevents the water from running off. The attention of the city engineer has been called to the matter and promises of remedy were made. They were never carried out.

-Mr. Thomas Hartley, a well-known fireman at No. 2 station, was married last night to Mrs. Celeste V. Jeffrey. The ceremony was performed at the residence of Mrs. May Morrison, 427 Wellington street, and was witnessed by a large number of friends and relatives of the parties, several of whom were from Windsor and Detroit. Rev. Canon Richardson officiated, while Miss Bella Morrison assisted the bride and Mr. George Jones acted as groomsman.

-At the last meeting of the London West Council it was stated that an exofficial had failed to return to the street railway company the interest on the \$1,000 deposit made by the company at the time of the construction of the electric railway over the river. Mr. Wm. Nicholls, extreasurer, says the interest is in the bank in the special account opened by him and Reeve Platt when the deposit was put up. It originally amounted to \$9 15, but \$4 96 was used as prizes at the opening of the line, with the will of the street railway manager, and the sum now waiting to be paid on that gentleman's demand, the special bank book shows is \$4 29.

-The Ontario entomologists held their concluding session yesterday morning, and by noon the various members were on their way to their respective homes. The president, W. H. Harringten, of Ottawa, was in the chair, the other members present being Messrs, Gamble Geddes, Toronto; Rev. T. W. Fyles, South Quebec; H. H. Lyman, Montreal; D. Arnett, Hugh Stevenson, Dr. Wcolverton, J. A. Balkwill and J. A. Moffatt, of this city. Prof. Fletcher, of Ottawa, returned home last night. A paper was read by Rev. C. J. S. Bethune, of Port Hope, on "The Economic Value of Parasites and Predacious Insects." The paper was very lengthy, and, with the discussion, occupied the whole session.

"Williams' Royal Crown Remedy Saved John Weir's Life,"

May be seen in large letters on the covers of the horses that precede the handsome Royal Crown Remedy wagon at Toronto and Western Fairs. To a Globe reporter, Mr. Weir said: "This is a most marvelous cure. I became pale as a corpse; my blood seemed to be turned to water. I had dizziness and a ringing noise in my head; my hands and feet were cold all the time, and my limbs were completely swoolen up to the body. Some doctors called it consumption of the blood. I got so weak that I could not walk, and finally took to my bed." Mrs. Weir says: "All M. Weir has told you is true, At times he lay for days unconscious and unable to take nourishment of any kind, and was reduced to a mere skeleton of 34 pounds; and I fully believe that if we had been one day later in getting Williams' Royal Crown Remedy he would be in his grave to-day. So it may well be said 'Williams' Royal Crown Remedy saved John Weir's life. The best druggists keep Royal Crown Remedy, but if your dru ggist does not, remit direct to Isaac Williams Company. London, and they will send it to you by first express. The price at which Williams' Royal Crown Remedy is sold makes a course of treatment comparatively inexpensive as compared with any other medical treatment. 6 bottles for \$5, from Isaac Williams Co., London, Ont. Breken Glass in School Windows. To the Editor of the ADVERTISER: I observe from No. 2 committee's report to the Board of Education that there is an item of glass to the amount of \$100 against schools-indeed, very largely for breakages. As janitor I believe myself equally responsible with the principal for damages done to school property, and make a point to look after. I would state that \$1 will cover all the glass broken at Princess avenue school in two years, notwithstand ing that there is a public throughfare through the grounds. D. McDonald.

CHARLEY MITCHELL CANNOT LIVE

The Ex-Pugilist Said to Be Suffering from Bright's Disease-May Die

Within a Year. New York, Nov. 9 .- Charley Mitchell's health is very poor, and he has changed his mind about coming to this country again. He was not at his best by any means when he sailed for England after the Jacksonville episode, but he improved to some extent. Changing his habits altogether, Mitchell expected to recover completely. Two weeks ago he was examined by several leading London physicians, and it was found that he has Bright's disease. Mr. Gaines, a resident of London, who is now visiting Matthew Dowling, of this city, is authority for this statement. He acquainted with one of the physicians who examined Mitchell, and quotes him as saying that the famous boxer may not live a

TRADE IN CANADA.

R. G. Dun & Co.'s Review-Little

Change in the Situation. TORONTO, Nov. 8 .- R. G. Dun & Co.'s weekly review of trade in Canada says: There is a possibility of the United States issuing bonds, and sterling exchange is slightly weaker in consequence. The cold weather has stimulated the demand for drygoods and furs, but there is little change in wholesale departments.

Shipments of hardware and iron have been fair in consequence of the near approach of the close of lake navigation and winter railway freights on the 15th inst. Sugars are reported easier this week, but generally the changes in prices of merchan-

dise are unimportant. Remittances are likely to improve with the freer movement of farm produce. Packers are buying dressed hogs, but ss yet the receipts are light. A weaker market seems to be expected. The failures for the week number 41, as

against 37 for the corresponding week of Cold in the head-Nasal Balm gives instant relief; speedily cures. Never fails.
