Bobaks receive highest Canadian honour -p.11Genrecide

by Gordon Loane Brunswickan News

Traditional budget secrecy at New Brunswick universities may be coming to an end.

Provincial Opposition Leader Bernard Valcourt wants the McKenna government to make universities, including UNB, more accountable for public funds received each year.

To that end, Valcourt wants the government to require university officials to appear before the Legislature's Public Accounts Committee.

The Committee, chaired by an opposition MLA, is composed of government and opposition members. Proceedings are open to the press and public.

Valcourt raised the matter on the floor of the Legislature this week with Advanced Education and Labour Minister, Roly MacIntyre.

"There is no question that with funding as limited as it is and with the MacIntyre. transfer payments the way they are we need accountability for the funds that we are giving to universities," MacIntyre make out and I will be glad to report House can figure out - the Premier told the Legislature in reply to a back," MacIntyre told the Legislature. question from Valcourt.

respect to funding and financing and serious about getting to the bottom who is accountable to whom," said of how universities spend public money.

Does this look right to you? It does to the Univeristy.

"We are discussing that with them [universities] so we will see how we universities. . . no member in this

The Minister promised to consider Minister's response. "We got no Valcourt said in the Legislature. "I do Valcourt's suggestion. "I still agree with straight No and I think that is a plus," not think that is acceptable when so the Leader of the Opposition that it is Valcourt told *The Brunswickan* in an many public resources are going into

"The fact remains that the cannot, I cannot. . . how much the Valcourt was encouraged by the President is putting in his rose garden?"

#### Photo: Mike Dean

Valcourt told The Brunswickan he wants, among other things, the salaries of the President and other top administrators revealed as well. "This is about scrutinising the whole thing. It's got to come out, it's got to come in the public because I'm sure there are practices there that universities could improve a lot in terms of becoming more efficient, more cost conscious and I suspect there is a lot

time for a review of that area with interview this week. Valcourt is the university system." of fat." Security has new "eye" on SUB

Without it, you will have no classes next year. That would be bad.

New camera pans across the yard.

by Joe FitzPatrick **Co-News Editor** 

Rick Peacock, Director of UNB Security, hopes a newly installed video camera will increase safety and security on campus. The camera was installed during this past week. It is housed in a protective plastic dome and was designed to all-

weather specifications. The installation was not the direct result of any increase in problems outside the SUB. "The SUB was a good starting point

because there is a lot of activity through the day and evening," he told The Brunswickan in an interview. "It allows us to take a big view of the core of the campus."

He did admit, however, that "there is fairly frequent vandalism outside the SUB."

"From a safety and security perspective it's a very beneficial tool." he said. Peacock sees this as the first step to

more cameras on campus. Other sites he would like to have a

camera include the other side of the

Photo: Mike Dean

SUB. "It would give a view of the entire courtyard," he said. The model installed is motorized, with tilt, pan, and zoom capabilities. The image

is relayed to the Wu Centre via a fiber optic cable which was recently installed.

"We actually got the grant [for the camera] a year ago, but we waited until

the fiber optic wire was in," he said. "We get a much better quality of image." Peacock also indicated that the camera is hooked up to a VCR and could possibly serve to review incidents after

complaints were received.

**Evicted Neill House** students launch appeals

Four students have launched appeals following their eviction from Neill House last month.

University Secretary Stephen Strople says UNB President Robin Armstrong has been made aware of the appeals. Armstrong must now decide among three options. The President can uphold the appeals, reject them or send them to the Board of Deans.

The four, whose names have not been released were evicted for what UNB's Dean of Residence John Craighead calls individual misconduct. The move followed incidents at Neill House on Friday, January 19, and Saturday January 20.

Meantime, an appeal has yet to be filed on the decision of Craighead to dissolve the House Committee at Neill House, according to the University Secretary.

#### 21 students go professional

Israel Unger, Dean of the Faculty of Science at UNB, has released a list of 21 students from his faculty who were accepted into professional schools last year. Fourteen students were accepted into medial schools, nine of them at Dalhousie University in Halifax. Eight of the students at Dalhousie are from Fredericton. They are Renee Ashfield, Andrew Bishop, Geoffrey Cook, Jeffrey Moore, Tushar Pishe, Graeme Smith, Amanda Tooley, and Stacey Williams. Samira Mubareka is from St. Joseph de Madawaska.

Three other students from Fredericton are also at medical schools. Tom Hruczkowski is at McMaster Medical School, Kristina Kemp is at the University of Western Ontario, and Richard Perng is at the University of Ottawa.

Saint John resident Santosh Kanjeekal is studying medicine at the University of Alberta, and Jennifer Wylie of Bathurst is at Memorial University of Newfoundland. Dalhousie University's School of Dentistry has four former UNB science students in its program: John Brittan from Saint John, Erin Gorman from Stanley, Mark Fleming from Riverview and Nova Scotian Christopher MacDonald from Sydney Mines.

Three students have been accepted into other professional programs. Krista Robertson of Quispamsis was accepted at Dalhousie's School of Pharmacy, Jason Perrin of Fredericton was accepted at Dalhousie's School of Physiotherapy, and Krista Foreman of Fredericton was accepted at the University of Prince Edward Island's veterinary school.

#### Students win national awards

Four UNBF students have received national recognition for outstanding achievement in their undergraduate studies.

Valued at \$1,000 each, Corporate Awards for Canada Scholars are sponsored by Canadian corporations to attract more of this country's brightest students into areas of the economy where their skills are most needed. Candidates must be in their last or second-to-last year of undergraduate study and hold a Canada Scholarship in Science and Engineering.

Peter Deelstra received one of six Pratt & Whitney Canada Awards to encourage excellence and innovation in aeronautical and manufacturing engineering.

Beth Eagles is the winner of the Governor General's Canada Scholarship in Environmental Sciences, which fosters a higher environmental awareness in the sciences and encourages Canada's brightest future scientists to pursue environmental projects.

Lisa Lang is the recipient of one of 10 AECL Research Awards. Through these

#### by Joe FitzPatrick **Co-News** Editor

SU President Kelly Lamrock told Council his opinion of the UNB Administration's financial advice offered at a recent meeting of the UNB Foundation for Students.

"As usual, the Administration mouthed off about our accounts student, and Ben Bedard, in third year,

Student Union. The Foundation is composed of two

student representatives, two administration representatives, and a student chair. Appointments of student representatives are made by the Student Council for two-year periods.

Renee Beaumont, a second-year Law are the student representatives. Beaumont was appointed by this year's Council.

oversees the financial operations of the eliminating the Foundation and replacing it with an employee management board of an indeterminate nature

A lack of communication between the agency and the band seems to have led Uisce Beatha had appeared at The Dock to several mishaps, including the performance at The Dock and Uisce Beatha showing up for the ballroom

Ferlatte also indicated that while he had agency did not contact the band.

Campus Entertainment offered them

A dismayed concert-goer who wished "We figured if we could sell 50 tickets to remain anonymous did not take in advance, we'd have a sizeable walk-up kindly to the news that the concert was crowd of about 50 to 75," he said. "But cancelled. "I'm selling the CD," he said with disdain.

He also questioned the effectiveness entertainment, "They don't even say where you can buy the tickets," he complained.

MacKeel played in the Cellar and drew over a hundred people.

Cellar Pub Manager Darryl Kent reports that the concert went well. "It was a great show, you shouldn't have missed it," he said.

Ferlatte hopes to offer more events in the Cellar in the future. "It works well and we like the people down there."

awards, Atomic Energy of Canada Ltd. is fostering excellence and innovation in engineering and science as they relate to nuclear energy.

Trixie Michaud received one of 20 Her Royal Highness The Princess of Wales' Canada Scholarships in the Biological Sciences. The objective of this award is to foster excellence in the field of AIDS treatment and prevention research.

Candidates for the award are evaluated on the basis of academic standing, course content, institutional recommendation, extra-curricular activities, and career plans and objectives.

#### **Harvest Festival art contest**

Over the past four years, the promotional literature and purchased merchandise produced by the Harvest Jazz and Blues Festival have featured the work of some very talented artists, and 1996 should be no exception. The Festival welcomes the artistic community, whether amateur or professional, to make a contribution to this great annual music event.

The winning design will appear on posters, programs, t-shirts, and other promotional items. All designs should incorporate the artist interpretation of Fredericton's skyline, and must feature the word Harvest in Mistral font. Also appearing within the design should be Fredericton, NB and the dates September 10 to 15. Submissions may be adaptable to a black and white format. The committee has requested that entries be between 11" and 17" and 24" by 30" in size.

The Harvest Jazz and Blues Festival is a non-profit entity, and as such, does not offer financial renumeration for the winning design entry. However, the recipient will receive a 1996 Festival all-access pass for two and a Festival T-shirt and hat.

The design competition closes on March 1, 1996 and all submissions must be delivered to the Harvest Jazz and Blues office on the sixth floor of King's Place. All entrants will be notified about the results of the competition, on or before April 15, 1996. Those whose designs are not chosen can pick up their original artwork.

### **Random Acts of Kindness**

This day has been set aside in an attempt to raise awareness for the power of personal action in our lives and the lives of those around us. By practising Random Kindness, it is hoped that people will recognise the benefits of altruistic actions for their community, their neighbours, and themselves.

You can take part by saying hello to people you meet on the street, dropping a friend a note or a letter, meeting a stranger's need, showing appreciation for the everday work that goes on around you, buying coffee for the person behind you in line, paying someone a compliment, or whatever else you can think of. receivables and then we ignored them," said Lamrock to Council on Tuesday, February 6.

The Foundation, as it is commonly known, is an organization formed in the wake of financial difficulties of the Student Union during the 1986-87 year. This joint Student-Administration organization was formed by the UNB Board of Governors. The body receives the student levees, holds all staff contracts, sends out the checks, and

Tom Austin, Dean of Students and John O'Brien, UNB Comptroller are the members for the Administration. Marlene O'Neill has been the

Foundation secretary since 1987. O'Brien and Austin have been members of the Foundation since its inception. The current Student Union executive began the year with the intention of

Photo: Warren Watson

#### Young Lamrock responds to

#### by Gordon Loane Brunswickan News

Federal Human Resources Development Minister, Doug Young, claims to be on a personal mission to improve the lot of young Canadians. Apprenticeships, internships, youth exchanges, targeted job training and education vouchers are just some of the ideas that Young recently said he is pursuing.

Young's ideas are getting decidedly mixed reviews from UNB Student Union President Kelly Lamrock.

"The Liberal election platform (the Red Book) talked about the idea of getting some practical work and phasing people in," said Lamrock. "We certainly have a number of proposals that we've been working on with one of his counter parts Fredericton York Sunbury MP, Andy Scott." "Certainly if he is interested in talking about how to get people work experience,

even combining it in some ways with Student Aid, we could certainly do business there," Lamrock affirmed. Lamrock was a little less positive

about some of Youngs' other remarks, particularly about the high default rate on student loans and its cost to the tax payer.

"The minister should know that his own department signed an agreement three months ago that puts defaults on the shoulders of the banks, not the government and the tax payers,"

Lamrock pointed out. Young also indicated there is very

little relationship between what university students pay for tuition and the real costs to educate each person. Lamrock took issue with the Federal Minister. "The whole idea that we don't

pay the full value of education, that's not the reason for defining my social program," he said.

"We don't pay the full value of health

care we receive, we don't pay the full value of what it costs to educate a child from grade one to twelve, we don't pay the full cost of going to court, we don't pay the full costs of a number of things."

"That's why we have a government." Lamrock also thinks little of the possibility of education vouchers (which the government would give to individual students rather than institutions) in the future.

"I have no doubt the minister is flying a few trial balloons," said Lamrock. "But the fact of the matter is, if his government continues to get out of the funding of education we're almost there anyway.

Lamrock said he is looking for some fresh new thinking from Young and is prepared to wait awhile because the minister is new on the job. "It would really be refreshing to have a minister talk about improving the quality of education which we haven't seen for awhile."

# **African diversity celebrated**

by Chris Tumwine for The Brunswickan

This article will try to focus on African culture and other important facts about Africa. I would also like to take this opportunity to welcome everyone to African Nite '96 which will take place on Saturday, February 17 in the SUB cafeteria starting at 6:30 PM. Come and enjoy an evening with traditional dishes from various parts of Africa, live entertainment, dancing, a fashion show, and more in the warm and friendly atmosphere of African hospitality.

Africa is blessed with rich cultures which we and the future generations should endeavour to preserve. It is these traditions that give us our basic identities and define our behaviour. It's from this background that the African Student Union endeavours to promote cultural awareness through annual festivities at UNB. We believe that this is one vehicle that can be used to encourage and promote a better understanding between African and non-African students, between Africans and the Fredericton Community, and between Africa, Canada and the rest of the world.

As the Minister of Education in now present in our country have Ontario observed: "For me, something of value to offer,

#### A few facts about Africa...

force, a philosophy that should

permeate all curriculum. It's a

philosophy based on the concept that

each and all of the diverse cultures

- The size of Africa is 11.7 million square miles. It is over three times 1. bigger than Canada.
- 2. The population of Africa is about 600 million (1993 estimate).
- It is 5,000 miles from Africa's most northern point to its most southern 3. point: Africa's greatest distance east to west is 4,700 miles as compared to the Canadian cities of Vancouver to Halifax, which is 3,000 miles.
- Africa occupies a fifth of the earth's total land surface.
- Lake Tanganyika, right in the heart of Africa, is the world's longest fresh 5. water lake (420 miles long). It is also the world's deepest, reaching 4,700 feet in some places.

multiculturalism is a positive dynamic something to share with other cultures, as together we strive to build a new and better way of life together, a more ideal society."

> In addition to the diversity of the cultures of Africa, there are many similarities across the continent such as social structure, customs, beliefs, wise sayings, religious practices and ceremonies, family units, clans, kinship marriage and rites of passage as well as child rearing and indigenous education. The arts of Africa act as a unifying factor through which we understand and appreciate our rich cultural heritage. African music and dancing play a major role in defining the common interests that Africans share.

In conclusion, I would like to thank the community of Fredericton, and all of Canada, for being instrumental in assisting many Africans who live in **Photo courtesy Chris Tumwine** 

Fredericton. I would particularly like to applaud the assistance Canada extends to many African countries. And, my special thanks to Canada for helping African countries in their quest for development in the areas of education, health and technology.

However, the struggle still continues. Africa still needs your support, especially now when there is a positive wind of change. The struggle against poverty, illiteracy, and disease must continue. We must continue working together as partners for Peace, Development and Prosperity.

Long live co-operation between Africa and Canada.

## **Dean of Residence Craighead responds**

#### by Gordon Loane Brunswickan News

UNB's Dean of Residence is disputing comments by Neill House residents that he lacks authority to dissolve the House Committee.

Residents referred to a section of the House Constitution which states that a member cannot be removed unless they resign, are voted out, or fall below the 2.0 GPA requirement.

But Dean John Craighead says after research he conducted, it's quite clear that House Committee's have no legal existence within the University of New Brunswick Act, the provincial legislation which sets out UNB's legal structure.

"They are not recognized as University bodies, their Constitutions are not ratified by the University in any way," Craighead stated.

Craighead cites Section 36 (c), (h) and (w) of the UNB Act which indicates that authority is granted to take what ever steps are necessary for the management and good government of the University. The authority is granted to impose fines and other penalties and sanctions

To further his argument, he cites Section 36 of the UNB Act, which shows that the University's Board of Governors delegates this authority to the President who then delegates it to the Dean of Residence.

Craighead says he dissolved the House Committee for specifically three reasons.

"Problems in the House stemmed from activities that the House Committee organize, and I believe they encouraged the behaviour," he said. "There were rumors (not true) going

extended in the House," he continued. "I personally witnessed members of

the House Committee in the room where excessive amounts of alcohol were being consumed." The Dean cited as a second reason, the recent disruption in the House (incidents

on January 19 and 20) which were not in the best interest of the House.

"The House Committee has a responsibility to act in the interest of the House," Craighead stated.

"I believe the level of intoxication and loutish behaviour were not in the best interests of the House.'

Thirdly, Dean Craighead maintains that the University has a fiduciary responsibility about both the activities of the House Committee and the funds of the House Committee.

"The Residence Representative Board (RRB) has acknowledged that if the University was going to collect House fees, then, to a certain extent, the House Committee needed to be accountable to the University," he said.

Craighead also expanded on the reasons why, in his opinion, the House Committee violated the Alcohol Policy, Quiet Hours, and general standards of conduct.

The Dean referred to the Alcohol Policy which is handed out to both House Committees and individual residents. The policy states that a primary

concern is the health and safety of members of the community. Impairment is prohibited according

to the policy. "It doesn't say it is prohibited in the lounge, rooms and hallways," he pointed out, "It says it's prohibited, period." Craighead points to three incidents of Neill.

around that quiet hours had been following the January 19 and 20 Neill a primary concern for health and safety. "One town student was carried out

> of Neill House intoxicated and I sent halls drinking liquor." two people home with him to look after him," the Dean reported.

shoes and no shirt looking for his English class on a Saturday morning." "Another person had passed out in the basement of the House in a puddle of 'Moose Milk," Craighead said.

The Dean said he personally witnessed an incident in one room where there was both abusive consumption of alcohol and where alcohol was being provided to obviously impaired person(s).

Craighead claims the House Committee raised technical arguments when confronted about alcohol policy violations.

"They want to argue that drinking out of buckets is ok because the alcohol policy says they can't do that in the lounge, but it doesn't say specificlly that they can't do that in the rooms," he continued.

"No one in their right mind would sit and argue that one should drink out of a bucket any place."

"House Committee members raised a technical argument that we couldn't prove underage drinking [had occurred] because we didn't check for identification," Craighead said.

"It's a House that's approximately 60 percent freshmen this year and the majority of the House was drinking."

"So it's quite clear that underage people were drinking," he concluded. The Dean dismissed arguments that no drinking took place in the hallways

"All my evidence from UNB Security House party where no one seemed to have and the Don is that they were out in the halls drinking liquor," said Craighead. "I met one of them in the

Craighead claims residents clearly violated residence quiet hours "by blaring "A second student from Neill House their music beyond the House walls and ended up over in Tilley Hall with no by hanging out the windows and yelling obscenities at people at 7 o'clock in the morning and doing moose calls."

> The Dean said there are general standards of conduct in society and in the residence community.

down that you can't lean out of the four of our series.

#### windows and holler obscenities at people," he stated.

Craighead cited two sections of the residence contract to further illustrate his point.

Section 10 (b) states that residents should avoid nuisance and disturbance to other occupants of similar rented premises

Section 21 states that conditions for the possession and consumption of alcohol in residence apply to all residents and their guests.

Next week Dean Craighead responds "I wonder why it should be written to other matters in Neill House in part

The Executive has decided to give Acting Vice-President (Finance and Administration) Duncan Fulton honouraria for his work last term.

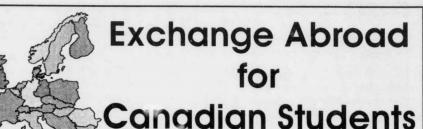

Fulton gets \$558.92

"They [the Executive] decided to back pay me for all the work I did during the two weeks before Christmas, during Christmas and the first week back." Fulton said.

Fulton received a check for \$558.92 in honouraria on January 26. During January, the other executives received \$250 in two checks, which is the usual amount.

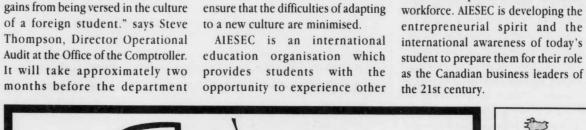

Fulton received \$100 in honouraria last term as a member of the Finance Committee. Fulton was appointed Acting Chair of the Finance Committee on November 28. He became Acting Vice-President (Finance and Administration) on January 16.

This decision by the Executive was not brought to Council.

Michelle Hicks, AIESEC UNB President, and Steve Thompson.

## SU Credit cards: it's not over yet

۵

by Joe FitzPatrick **Co-News Editor** 

The debacle of the SU credit cards is still not over. The funds for the last credit card bill, nearly \$6,300, were charged to the Office budget on October 8 and have yet to be divided among the different line items.

For five weeks The Brunswickan has requested the breakdowns of the SU credit card bill, and despite his assurance that it would be forthcoming, Acting Vice-President Finance and Administration Duncan Fulton has yet to produce the document.

In the latest twist, five months since the cards were cancelled, the UNB Foundation for Students, the joint Administration-student board which oversees the Student Union accounts, is ardently persuing the two largest users of the credit cards, former SU VP Pat FitzPatrick and SU President Kelly Lamrock.

The Brunswickan has learned that the Foundation has twice sent letters to SU President Kelly Lamrock and ex-VP Pat FitzPatrick regarding the reconciliation of the now cancelled SU credit cards.

The first notice was sent to FitzPatrick and Lamrock following the November 20 meeting of the Foundation. The letter requested an "immediate reconciliation of the Student Union MasterCard statements be submitted to the accounting staff."

At the February 5 meeting of the Foundation, it appeared the matter had not been resolved to the satisfaction of the UNB Comptroller, John O'Brien,

who moved a motion to send another letter to Lamrock "ask[ing] for a response within 10 days of receipt of the letter."

The breakdown of the \$1,800 in charges on the card used by Lamrock seems to have stalled following the resignation of Nahie Bassett as Vice-President (Finance and Administration) in December. Lamrock's accounting of the credit card expenditures was submitted to Council on October 24, 1995

"After I submitted my explanations, Nahie told me some were not correct." he said. "I figured if she knew they were wrong, then she had an idea of where they should go... then Nahie resigned." When asked why the credit cards had,

to date, not been reconciled, he responded, "I don't know."

FitzPatrick has, to date, not submitted a statement to reconcile expenses incurred on the card he used as VP, despite a promise to do so when he resigned in late October. He was not available for comment.

According to Fulton, Jeff Clark, Acting Vice-President (External) will be dividing up the credit card bill from the card used by FitzPatrick between expenses made on behalf of the External budget and those made on behalf of CASA.

When Fulton was asked about the cards used by Lamrock, VP University Affairs Chantale Walker and General Administrator Barb Kirk, which make up 40% of the \$6,300 bill, Fulton commented "we'll have to look into that, I thought it was done before I took over." Fulton took office officially at the

January 16 meeting of Council. A story in The Brunswickan ran on page 3 of the January 19 issue which pointed out that the October 8 credit card bill had been charged to the Office budget.

The Brunswickan was able to reconcile all the cards but FitzPatrick's in less than an hour using only the documents supplied to Council at the by Gordon Loane October 24, 1995 meeting.

The amounts would be distributed, if all explanations in the documents were accepted, among Student Relations (currently \$350 over its 1995-96 allocation), the External Affairs budget (\$290 over), Office (\$6,000

**D.** Clubs and Societies

Lamrock would be invoiced for \$95.75, of what, by his own admission were personal expenditures. There was a

further \$175 in expenses on Lamrock's card for which there was no written explanation contained in the documents provided to Council.

Food services on the UNB campus will be in the hands of one of three companies come July 1st. The university received proposals from Versa, Marriot and Beaver Foods by this weeks deadline.

Versa currently provides food services at Saint Thomas, while Marriot has a similar deal at Mount Allison. Beaver is the current food services provider at **UNB** Fredericton.

It will now be up to a group of top UNB administrators and six students to select the best overall proposal. The Advisory committee on the food Services Contract includes Dean of Students, Tom Austin as Chair, UNB VP Finance and Administration, James O'Sullivan and UNB Comptroller, John O'Brien.

UNB's Residence Life Manager, the Directors of the SUB and the Wu Conference Center join Director of

President

max of 15)

All students who are graduating from the Fredericton campus of UNB are eligible to apply. Students who have previously received a Student Activity Award will only be considered for a higher level of award, and in any even, only if their activity in the interim warrants such consideration.

**Other Executive** Merit Awards are intended to recognize any student who has made a

Duncan Fulton, Acting Vice-President (Finance and Administration) over), and Conferences (\$2,100 over).

contribution to student life which is worthy of recognition. Silver Awards are intended to recognize: those students who make a particularly meritorious contribution to student life in a variety of areas, during their time at UNB; those students who make an outstanding contribution in a limited area during their years at UNB; and those students who make an outstanding contribution in a variety of areas during a limited part of their time at UNB before they graduate. Gold Awards are intended to recognize those students who have demonstrated an outstanding commitment to student activity and campus life in a variety of ways duing their years at UNB.

Important Note: These points are intended as guidelines only. While the committee will take notice of the point totals, in any case where it feels that a student has been unfairly prejudiced or advantaged by the point system, the committee reserves the right to recommend any award at the level it feels is justified. Where point ranges are given for a particular activity, points will be awarded according to the degree of responsibility, time committment, and breadth of the contribution.

Housing and Food Services Roy Brostowski in rounding out administrators on the committee.

Four residence students - Michael Mulridge, Maurice Aube, Petrea Taylor, and Meghan Williams join UNB SU VP's Duncan Fulton (Finance and Administrator) and Trish Davidson (Student Services) as student representatives.

"The committee hopes to meet some time next week," said Brostowski.

A decision is expected to be forwarded to the UNB Board of Governors in either April or May.

In the meantime, the Committee is seeking input from anyone in the university community.

Committee members will also be touring food service facilities at other universities in the Maritimes before arriving at a decision.

Whatever the Committee decides it will have an impact on residence fees over the next several years.

The contract will run for three years. All existing service locations on campus are expected to be maintained. These include Lady Dunn, McConnell Hall, L.B.R., McLeod House, Marshall D'Avary and the SUB.

Hosted locations include head Hall, the University Club and the Integrated University Complex. Vending machines are not included

in this contract. The Aitken Centre is also excluded.

10-20

"How much is the President putting in his Rose Garden?"

This is the question the Official Opposition Leader Bernard Valcourt put forth in the Legislature this past week. This is a question this editor, and various other student leaders have been asking for sometime.

More importantly, the question is how much do New Brunswick universities spend in "fertilizer?" When you consider the amount of B.S. abhorrently intrinsic to university expenditures, you as a student, should shamefully plug your nose and get ready your shovel.

If Valcourt's remarks in the Legislature are indicative of the typical MLA, it appears that the provincial government members are unsure of exactly where its money is used, by this great institution of higher learning and others around the province. Advanced Education and Labour Minister Roly MacIntyre was quick to agree with Valcourt that "a review of that area (university accountability) with respect to funding and financing and who is accountable to whom" is necessary.

When the government, acting in our interests is unsure how its doled out funds are used, then that is wrong, if not an indication of bureaucratic ignorance. In order to rectify this, Valcourt suggested the McKenna government require universities to appear before the Legislature's Public Accounts Committee, ideally to be more accountable for their financial dealings..

If universities had to appear before this committee, the intended results, in Valcourt's world, would be, greater efficiency (i.e. handling resources in a better manner), cost concious(ness) and trimming the lard off the universities' bellies. Today's public education system is an all too convenient target for provincial government cuts. As such, any monies geared towards education must be publicly scrutinised to ensure the universities/ school systems, students and the taxpayers are getting their bucks worth.

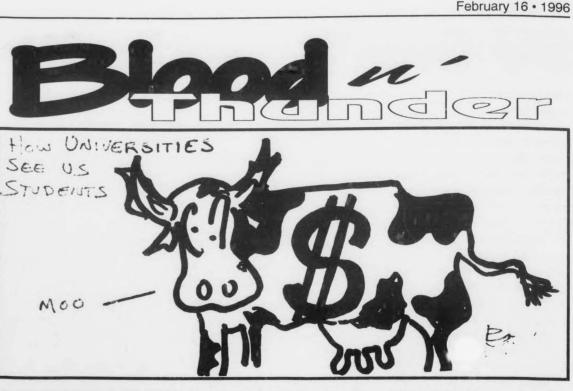

Would it not stand to reason that shareholders in a company may upon request view that company's financial books. So, why not extend that basic principle to higher education? Trying to get the universities' full account of expenditures is sort of like getting the "Jack" out of a "Jack-in-a-box." Universities like to dictate terms, and public scrutiny takes away their terms. That makes universities sad.

If it is on the university terms, no headway will ever be made. I will put forth a little scenario for you that you are all quite aware of, tuition will undoubtedly go up to offset cuts in education, but will the top dogs of this administration or any other provincial university administration take a cut in pay or benefits? I think not.

Students (and the general taxpayer) have far too long been looked at as sacred cash cows by university administrations. It's time to see where our milk is being spent and if the farmer will start putting less cream in their coffees.

The Mugwump Journal

I love advertising. Not all advertising. And definitely not advertising which I've seen so often that I can mime along to it. But I like it all the same. I like the thought behind it. All the analysis into market trends and everything

Let's blame capitalism for everything

#### Dear Editor

It is disturbing to read 'The Left Jab' column every week and to find that all of our society's ills are due to vile and evil capitalism. I never knew that I was so bad off living in this capitalist society. I must thank the writer of this column for bringing these important facts to my attention. For one, I had no idea that capitalism causes unemployment. I just thought it was the fact that there are too many people and not enough jobs. It never would have occurred to me that capitalism causes racism. You speak of the 'good old days' before the capitalist world economy took shape; the ancient times where there was no capitalism or racism ... just slavery and religious persecution. I hardly think that capitalism is the root of today's racism. Racism is just one of the many forms of discrimination and prejudice, as well as slavery and religious persecution. Discrimination has always existed, as you so aptly pointed out, it just evolves and changes with society.

I don't think that a socialist government could put an end to racism and all the other evils of society. As a matter of fact, I don't think any type of government can. Myself, I kind of like being a capitalist. I don't think I'd like it very much if a socialist government tried to take care of me. They have enough trouble taking care of us now. I also enjoy the freedom that I can do whatever I like with my life instead of being set in a predetermined societal mold where I have to work to support the weak and the poor. I like the fact that if you work hard and try to get ahead, it usually works. The hardest worker is the man who works for himself. I'm not sure if I am arguing the right points here. For all I know, you could agree with half of what I said. Your column simply states that capitalism is to blame for our corrupt society ... you never actually say how socialism would fix it.

legislature (yes I said insulting), or some to foolishness like that. This is a law that has never been used before, although there have been real attacks on legislative buildings before without this charge being laid. If convicted these four people could face up to 15 years in prison (for breaking a window).

We must ask ourselves why this archaic and draconian law has been invoked at this time. Some people, including our selfproclaimed (and in some cases appointed) student leaders, will tell you that this charge fits the crime. This is absolutely wrong. These charges have been laid in an attempt to create an atmosphere of fear, so that people will be afraid to demonstrate when the governments decide to attack the services that people need and deserve in the future.

These sorts of attacks on peoples rights by government must be actively opposed. As a start on this campus, I, as Arts Rep in the Student Union, will be putting forward a motion to council calling for the Student Union to demand that the charges against these four people be dropped. Another possible action that people could take is to start a petition campaign for the charges to be dropped. Whatever people do, it is imperative that it be remembered that these people are not criminals, they are innocent victims of a system that does not care about people.

Chris Rogers

me things don't happen over night.

With Best Regards, Tricia Davidson V.P. Student Services

Dear Editor

All year, through one financial disgrace after another I have been silent. My hope has been that the checks and balances that have been established over the years would ensure that the integrity of the Union would remain in tact. I was wrong.

Throughout this year the most important check and balance, the Council, has consistently failed to do their job. They have turned a blind eye to improper reporting of spending as well as improper and unauthorized spending. For instance, the fabled credit cards were acquired without council assent, which contradicts the Financial Policy which governs the Union. Numerous conferences have been attended without prior Council approval, another violation of the Financial Policy and the Executive unilaterally extended the work terms of the summer employees (themselves included) without first seeking approval from Council, presumably at the annual summer council meeting. [Editor's note: only the Executives had their summer work term extended-other summer employees did not| While I do not support the actions of the Executive, and in fact find them disgraceful and selfserving, I cannot understand why Council routinely gives the OK to such acts. Often times the Executive is forced to be more accountable with The Brunswickan rather than Council. This is not right Recently a series of actions taken by the UNBSU VP Student Services, Ms. Tricia Davidson has pushed me to break my silence. It was reported last week that the Consumer's Guide has all but been terminated by the Council. Anyone who thinks that this massive project can be put on-line as easily as it has been portrayed to Council is helplessly naive. I applaud the idea of developing an interactive version of The Guide and I support the notion that it will reduce cost. I cannot, however, understand how \$800 can be seen as reasonable compensation for the job, especially when the person proposing this new project can turn around in the same meeting, cite personal financial hardship, and receive an additional \$1,000 to do something that is already in her portfolio. Over the weekend I did a little math so that I could get my head around this concept. Somehow in the eight weeks remaining between now and the last council meeting Ms. Davidson has to put in 270 hours. (I assume this must be done by the last council meeting as her recommendations and results will have to be received and debated by Council before going into effect. That is barring another unilateral decision of the Executive.) In short, 270 hours in eight weeks amounts to roughly 30 hours a week at a wage of less than \$4 per hour. Ms. Davidson said that she would have to take on a part time job this term to make

else under the sun to provide a slick packaged product. I like being sold things.

I think that this is the main reason I like MultiTech so much. When you're lost in a sea of choices you can always rely on the lads up there to tell you exactly what you need. And then some. That accessory pack that wasn't catching your eye. Perhaps, your stereo would feel jealous of your stunning new tv and you should replace it with a more complementary product. And then there's that kitchen sink out back. In my year and a half here all I've ever actually bought there was a second hand phone. They were cheap and mine hasn't broken yet. But I just love the way they try and guess exactly what I want and then try and sell me something costing about a hundred bucks more.

In my current position - in charge of the financial well being of this newspaper - of course I love advertising. It keeps this newspaper afloat, lessening the burden on the Student Union (and hence you). This allows us to provide you with a varied and informative newspaper, or a week's supply of toilet paper with classifieds and a couple of cheap laughs.

Of all the advertising campaigns, my favourite is the long running series of print ads for Absolut vodka. How can you not appreciate the thousands of pages they've bought when they've filled them with such cool images. Hell, their advert is usually the best looking page in the magazine.

To briefly summarise, all the ads are based around 1 bottle of Absolut and some kind of pun on absolute. They, are at least supposed to say that Absolut is a classy stylish top of the range vodka which classy stylish top of the range people drink (except the top of the range people are really drinking Stolly).

These are the kinds of adverts that make me want to go out and buy the product just as a thank you for creative space filling. So, I went looking for a bottle. It took me a long time to get my hands on one - something to do with minimum drinking age, marketing as an exclusive product, ... but I did eventually get one. The vodka was nice, had the same effect as vodka usually does, and when it was finished I was left with a pristine Absolut bottle. And as I sat back admiring it's refined lines, it occurred to me that the advert had kinda backfired. I had the product I wanted, I didn't really want another. To my unrefined palate, vodka is pretty much vodka - you mix it with something, and suddenly you can't really taste it. But I had my bottle, the single solitary bottle, just like in an ad. You could call it Absolut Neil.

Perhaps I'm just a statistical anomaly, some freak who enjoys images, and the ads were never really meant for me. After all, they're still running, so someone must be buying more than one bottle.

Neil Duxbury

Sincerely, Jonathan Beaudoin

> Oppose Gov't fear tactics but don't break windows

To the Editor

As some people may have heard on the news, there was a demonstration at the Ontario Legislature on February 7. This demonstration was part of a Canadian wide day of action called by the Canadian Federation of Students to oppose cuts to post secondary education. During the demonstration a large number of the demonstrators tried to enter the legislature building. In the attempt by the police to stop this from happening some windows were broken and some other damage was done to the building.

As a result of this legitimate expression of anger at the attacks that all levels of government are launching against social programs, four people were arrested. They have been charged with insulting the

International Socialists Fredericton Branch

#### You want "rubbish", I'll give you "rubbish" and the facts

To the Editor

I am writing in response to the Blood n' Thunder letter sent last week by two students who were/are unhappy with the comments I had made in the article "SU Health Plan Usage Report in Ouestion". I understand the frustration that some students felt this year with the opt-out procedure for the 1995-96 Health Plan, and Jennifer Mallory and Jason Comeau seem to be two of them. However the rubbish that they spoke of in last week's "Blood and Thunder" is not only misguided, but begs the question - how thoroughly did you read the Feb. 2nd article before you decided to air your own problems with the opt-outs? I was writing about the REIMBURSEMENT and/or CLAIMS procedure, which is something completely different i.e.: not opting-out. This inattention to detail is the reason that students who failed to take the YELLOW copy of their opt out form to the business office did not receive a credit of \$95.00 to their account. It is relatively the same as picking up your student loan form at the business office and then failing to take it to the bank - then complaining about not getting your money! We are all adults here and it is ultimately your responsibility to take care of your financial affairs. As far as the two students in question speaking to me about the opt out problems, our offices have no record of your having called. We are working with the business office to make the opt-out

Arts and Science Unite In Forestry **Grad Research** by Shelley Luce

Master's student Serge Lutz has a unique title, which suits the unusual work he is doing in the Faculty of Forestry: Serge is an ecological historian. He is studying the history of New Brunswick's forests and trying to discover what they were like before European settlement and landclearing began.

Serge's B.A. in History from the University of Saskatchewan and several years of working in the forest industry make Serge a natural for the position of ecological historian.

Little is known about the state of New Brunswick's forests before the time of European colonization. Logging in the province was underway by the year 1696 and has continued ever since. Because we do not know what types of trees were present, how big they were or how densely they grew, we cannot begin to assess the ecological impacts of over 200 years of logging. These are questions that Serge is working to answer.

Serge is applying his knowledge of, and

ends meet. It appears as though she would be better off. They normally pay minimum wage (\$5.25) or higher. In addition, she probably would not have to work that many hours per week. In response to her argument of financial hardship, Ms. Davidson knew exactly how much money she would make this year as a member of the Executive. In fact with the extra weeks last summer she has already exceeded that amount. This hardship should have been foreseeable, and knowing that Ms. Davidson should have taken it into account before running for office. I know its harsh, but that is the reality. During my time in office I raised this issue more than once. The Executive of the UNB SU is among the lowest paid in Canada, given the size of the Union, and I would fully support a compensation scheme that takes into account the costs of attending university from outside of Fredericton. This would make the positions truly open to all students as opposed to only townies (Fredericton area residents). I know Ms. Davidson falls in the category of the non-townie and I am sure that the finances are tight. This does not excuse the actions taken by Ms. Davidson, the rest of the Executive, nor the Council. The Union should not get into creating reasons to pay the small group of people who run the show additional money because they need it.

experience with a variety of historical resources in a study designed to discover those answers. Using original handwritten land survey records, diaries and letters which are stored at the New Brunswick Museum, the Provincial Archives of New Brunswick and the Harriet Irving Library at UNB, Serge is finding the species composition, species distribution and other ecological parameters of pre-European forests of

New Brunswick. The project builds on previous uses of archival data and gives it a cutting-edge application: the data are digitized in ARC/ INFO, part of the Geographic Information contribution to forestry research.

Arts, Science, Forestry... The GSA has it all

nder

fact, I would suggest the Executive consult the employment guidelines adopted by Council last spring for some guidelines regarding wage setting. The Guide is without a doubt the biggest success of the Student Union over the past five years. It has received accolades from the entire University community, and is a true statement of the maturity and responsibility that students can bring to the University community. This is a far cry from the actions taken by the Executive and Council this year. Eliminating The Guide is a definite step backwards.

Finally, the financial woes of the Union case this year. this year are not the result of budget errors last spring as has been the position Paul Estabrooks of the Executive all year. Think about it, Vice-President the errors are nothing more than typos Administration UNB SU 1993-94 which anyone could have easily been President UNB SU 1994-95 Somewhere in cybersp@ce corrected. It has been sold as "There are

System, in order to pinpoint locations of trees from the historical records. The ecological data that can be drawn from the occurrence of particular tree species can then be used to paint a picture of the forest in the late 1700's and early 1800's for New Brunswick. Such a reconstruction can lead the way

to a starting point for the study of present day forests in New Brunswick, and could also provide useful information for forest management

The unique combination of historical and scientific inquiry is allowing this UNB graduate student to make an important

The Culture of Speed

by Daniel Goodwin

NOTES FROM THE

successfully meet the standards of international competition. Perhaps more significantly, Francis charged that in order to compete effectively at international levels, it was necessary to do what other world-class

athletes were doing. If that meant taking stanazolol, so be it. We all complacently shook our heads at this line of reasoning. Despite the money, fame and glory which comes with being a world champion, we felt that Johnson should have resisted the urge to cheat. He should have just said no. We all know that cheating is wrong,

unsporting, shameful. Thus, I was amused last semester when one of my professors asked the class whether anyone had ever cheated in school and the vast majority of the students in the auditorium raised their hands. And don't forget, the pressures and rewards of higher education are a lot slighter than those faced by Ben Johnson.

Despite the different stakes and arenas, however, there are useful analogies between the two situations. The sprinter and the university student are both expected to cover the ground in a relatively short period of time.

These expectations are not an isolated phenomenon. The century that gave us Formula One races and the supersonic jet worships at the altar of speed. As we approach the end of the millennium, we are always reminded of the speed of

change: ten years ago, it was said that knowledge (whatever that is) doubled every seven years. Apparently, now it doubles every six.

We hear ad infinitum (and ad nauseam) about the Internet and how it will help us get information easier and quicker. And more of us get caught up in that Catch-22: we work harder and harder in order to buy the things that will save time.

The reason for the shortage of time at the university has its roots in a demographic shift which began in earnest about fifty years ago. The university system as we have it today, requiring 120 credit hours for an Arts degree (five courses a semester for four years) was created by a very different world for very different students.

The students of yore who can afford to spend four years studying full-time were, by and large, the children of wealthy families. And if they didn't graduate with a sterling GPA at the end of four years it was no big deal. At least they had read a lot of books and they'd have no trouble finding a job. Things have changed.

Today, students come from a wide range of economic backgrounds. Many leave university with ridiculously high levels of debt. Many hold down part-time or even full-time jobs while going to school.

Love Is In The Air ...

When a certain well-known member of Canada's track and field team was found guilty of cheating and stripped of his

to make

Several other questions arise from this decision. Who is going to see that these hours are put in? How will they distinguish between her time spent in the office on the rest of her portfolio and her time spent on this project? I understand that this has been justified as Ms. Davidson is doing part of the General Administrators job during her absence. This is not true. The direction of the Health Plan (which is the basis of this project) has always rested in the hands of the VP Student Services. The administration of the plan is the duty of the General Administrator. Naturally, projects such as these normally would involve input from both persons so as to give the Student Leadership perspective as well as the experience and knowledge base of the administrator. This was how the change from the CFS plan a year ago

to the Blue Cross plan was done. My real concern rests with the Consumer's Guide. If Ms. Davidson's make work project is used as a basis for wage setting and the 600 hours Joe FitzPatrick cites is realistic for the development of The Guide, the editor should be receiving \$2,222 not \$800. 1 would argue that this is still too low. In

#### Capitalism's Racist Roots (pt II) by Nik Carrier

This glaring contradiction was personified in Thomas Jefferson.

He wrote the Declaration of Independence and was a Virginia slaveholder. The only way out of this bind was to claim that blacks were less than

Racism therefore did not spring out of the air, or from human nature. It was the result of a 150 year long struggle by the ruling class to justify the large-scale use of African slave labour without which modern capitalism could not have developed.

Racism outlived slavery as it continued to provide capitalism with an excuse for its exploits.

By the late nineteenth century the world was partitioned among a handful of the most powerful states. These imperialist powers-such as Britain, France, Germany and the US-competed with each other for the largest share of the globe. Each state needed to justify its rivalries with the other great powers and their collective claim to dominate the non-European people of Africa, Asia and the Americas.

Racism once again fitted the bill. The theory of natural selection developed by Charles Darwin to explain evolution was snatched by the imperialists and mangled into a supposed justification for their division of the world. The global pecking order, supposedly reflected the biological superiority of the 'white races'.

This ideology was used to argue that imperial domination was both in the interests of the western powers and the interests of the oppressed who benefited from its 'benevolence'. The attitude is best summed up by the poet Rudyard Kipling who wrote of `The White Man's burden'. The rulers of the big powers also encouraged the development of popular nationalism in their own countries. They hoped by doing so both to bind the working class to them and to win mass support for the wars waged in the colonies and among themselves.

Ah, and That spellbinding feeling that hits us like a good case of botulism! Kinda like the teeling one gets when one experiences the thrills and spills of the Tilt-A-Whirl at the Exhibition. This past Wednesday was that spectacular time of year we call Valentine's Day. A day when, strangely enough, we're supposed to commemorate our feelings for others through various rituals of affection, like the mass consumption of saccharine-raising foodstuffs and the advancement for the defoliation of the planet. Seriously though, love, relationships and all that, take a lot of working, which might explain why sometimes it can be a pain in the ass. However, relationships mark the start of a unique experience, depending on the type of relationship one is talking about. In this case, I'm talking about intimate, love (or lust) based relationships. The kind that makes you feel mushy inside when you're together with that certain someone (whether opposite- or same-sex in nature).

It's really remarkable that when people talk of relationships of this sort, society invariably acquaints a heterosexual label on it. Unless of course you happen to have a homosexual relationship, in which case it's thought of as less than a heterosexual one. Apparently, the "normal" course of relationships appear to be exclusive to heterosexual couples. They can fall in love (Awww gorsh!), be dependent, co-dependent or interdependent upon each other, have true feelings for each other (llove youlloveyoullove...), get married ("I now pronounce you ball and chain..), have kids (or not), argue, occasionally separate and get support from one or the other. However, make the relationship a homosexual one, and BOOM, all the criteria goes out the window. Case in point. A recent Ontario court case involved a woman who was trying to obtain support for her and her child from her same-sex partner. The rejecting argument stated that such a request was not eligible on the grounds that "...same-sex relationships do not involve the sort of dependency found in heterosexual unions." The judge disagreed citing a 1995 Supreme Court of Canada ruling by Mr. Justice Frank Iacobucci. The citing states that the traditional "presumption against interdependence in same sex relationships is not only incorrect, but it is also the fruit of stigmatizing stereotype." (Globe and Mail, Saturday, February 10, 1996).

Society for the most part, views homosexual relationships as not having any similarities to heterosexual ones. Well du-uh!. Who's the rocket scientist who thought this one out? The only difference, relationship wise that exists, is whether the couples are opposite-sex or same-sex partners. If you think about it, that's really not much of a significant difference. In every other way but gender, homosexual relationships go through the same motions as heterosexual relationships. We live, love, depend, argue, reconcile, raise kids with, and separate from our partners. Things that heterosexual couples encounter in their relationships. The aspect of labeling a relationship as superior to others, isn't based on who one loves, or even why. It depends on how one loves, and that is one genuine part of what makes relationships go on.

"Erotic comes from the Greek word 'eros', the personification of love in all its aspects... and personifying creative power and harmony. When I speak of erotica, then I speak of it as an assertion of the life force of women, of that creative energy empowered, the knowledge and use of which we are now redaiming in our language, our history, our dancing, our loving, our work, our lives."

Aubre Lorde, b. 1934

**New Male Manifesto** 

At last Friday's (Campus Ministry) Spaghetti Supper we discussed, what it meant to be a man. Much of the conversation focused on the ten theses of "The New Male Manifesto" by Aaron R. Kipnis, from his new book Knights Without Armour, published by Jeremy P. Tarcher, Inc. Reactions to these theses ranged from tacit agreement to mild disgust.

Some at the gathering clearly, and quickly, recognized that the manifesto was little more than a male reaction to feminist movements of the last decade or two. Some (males) did not feel the need to articulate such a manifesto, either on paper or in public. They felt it was more important to be a male, in the best way they knew how, sans public fanfare. Others, who recognized the need for equality for all, voiced their weariness with the male bashing that still lingered. A few appeared unaware, or ignorant, of the (structural) inequality still occurring, whether in the church, in the marketplace, or in society in general.

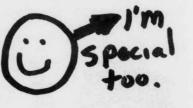

I list the theses of the "New Male Manifesto". You might find them thoughtful, challenging, interesting, perhaps even humourous. They are as follows:

I. Men are beautiful. Masculinity is lifesupporting. Male sexuality generates life. The male body deserves to be nurtured and protected.

II. A man's value is not measured by what he produces. We are not our professions. We need to be loved for who we are. We make money to support life. Our real challenges, and the adventure which makes life full, is making soul.

III. Men are not flawed by nature. We become destructive when our masculinity is damaged.

IV. A man doesn't have to live up to any narrow, societal image of manhood. There are many ancient and modern images of men as healers, protectors, lovers and partners with women, men and

nature. This is how we are in our depths, celebrators of life, ethical and strong.

V. Men do not need or want to become more like women. Women can help men by giving them room to change, grow and recover masculine depth. Women support men's healing by seeking out and affirming the good in them.

VI. Masculinity does not require the denial of feeling. Men have the right to express all their feelings. In our society this takes courage and the support of others. We start to die as human beings when we are afraid to say or act upon what we feel.

VII. Men are not only competitors. Men

are brothers. It is natural for us to cooperate with each other. We find strength and support through telling the truth to one another - man to man.

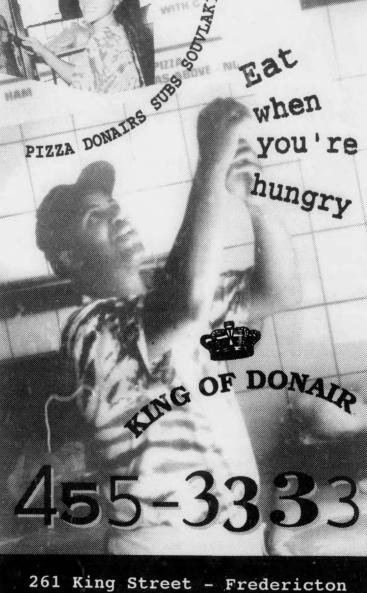

VIII. Men deserve the same rights as women for custody of children, economic support, government aid, education, health care and protection from abuse. Fathers are equal to mothers in their ability to raise children.

IX. Men wish to be equal partners with women in all things. As men learn to treat women fairly, they want women to work toward a vision of partnership as well.

X. Men's lives have been too circumscribed. We have the right to be wrong, irresponsible, unpredictable, silly, inconsistent, afraid, indecisive, experimental, insecure, visionary, lustful, lazy, fat, bald, old, playful, fierce, irreverent, magical, wildly impractical, unconventional, and many other things we're not supposed to be.

Perhaps you would like to respond to this new male manifesto via The Brunswickan's Blood n' Thunder or our Spaghetti supper talks on Fridays. Whether you agree or disagree, your input is valuable.

DOM

Molly Lamb Bobak and Bruno Bobak, on the night of their honorary reception were jovial, jolly and well . . . in good spirits.

Add to the list upbeat, happy, unpretentious, natural. None of this black cynic artist business here. These and thanks of the speakers: Ian two original Official War Artists are a picture of modesty and happiness. They have worn time well.

In Bruno's own words: "Everybody seems to think that artists go through life with a great struggle, the truth of the matter is in my case and I think in Molly's case as well - I don't think we have struggled at all anywhere along the way."

On Saturday evening at the Beaverbrook Art Gallery (BAG), a large group of friends and members gathered to toast Molly and Bruno's appointment to the Order of Canada (the highest honor awarded to civilians for exceptional merit and achievement in any area).

The gallery was opulent as always, daffodil, tulip and crocus blooms and clay pottery. The reception was warm and personal despite the massive

contributions and roots within the "every night doing drawings of my community and abroad. The bunkies. Around five bucks for every atmosphere was couthly informal the portrait, ten charcoal portraits every crowd responsive and congratulatory the speech-making jocose and brief.

I managed to get a mini-history through the introductions, greetings Lumsden-gallery director, Andy Scott-Fredericton York Sunbury MP and Dr. Colin Mackay-former President of UNB and founding member of the Board of Governors of BAG. As they recounted dates, names and titles - with anecdote and humor - although they were impressive, my attention was drawn to the modest-looking couple sitting by the podium. By deduction I gathered that the almost coy looking, gentle-eyed man must have been Bruno, and the slender, graceful woman next to him - Molly. Their humble posture hinting almost of coyness reminded me more of timorous, amorous classmates than the in 1945 and have two children: established artists that they are.

The official proceedings concluded with tables embellished with violet, with the presentation of a gold pin of introduced to Fredericton through the the gallery to the artists and Bruno's words of acknowledgement. He included in his thanks Group of Seven them from the lotus land of the West turnout which totaled 400 midway artist/teacher Arthur Lismer for Coast to New Brunswick." through the evening. The feeling of introduction and encouragement when genuine pleasure seemed to be he was 10 years old, as well as resident artist and both he and Molly

contagious. The evening turned out to root and he eventually met Molly. be a warm reminiscing of the couple's Endearingly, he recalled spending night. They would send them home to their mothers and girlfriends" (Bruno Bobak Selected Works 1943 - 80).

> This artist couple share a long and illustrious history both military and civilian. Emerging from quite disparate geological locations - he was born in Wawelowka Poland (1923) and she in Vancouver, B.C.(1922) - the pair's histories run surprisingly parallel and converge upon military involvement. He enlisted in the Canadian Armed Forces in 1943, was second lieutenant in the and became Canada's youngest Official War Artist. Similarly, Molly joined the Canadian Woman's Army Corporation (CWAC) in 1942, became lieutenant and was appointed Official War Artist with the Canadian Army in Europe. Bruno and Molly were married Alexander and Amy.

> In the 1960's Molly and Bruno were gates of the University. It was Dr. Colin MacKay, President of UNB, who "wooed

At present, a selection of both artists grace the new Marian McCain Atlantic Gallery wing of the BAG and an exhibition of drawings by Bruno may be seen at the and vice-versa in a reciprocity of inspiration

night's proceedings and was the army where his artistic seeds took the Art Centre. That's why you'll have established themselves and fruition that constitutes history.

# Alberta Ballet bounds through town

Calgary troupe put on a superb show at the Playhouse

#### by Mary-Kathryn Whitney Brunswickan Entertainment

Last weekend the Alberta Ballet provided Fredericton with a superb way to spend a Saturday night, brought to the Playhouse courtesy of the Onstage Series.

The Ballet, based in Calgary, has existed for 30 years and boasts a audience loved it! company of 18 dancers and two permanent apprentices. The current Artistic Director, Ali Pourfarrokh, has lead the company since 1988 and his interest in neo-classical ballets, contemporary classics and innovative Dream, was performed next, with music new works has injected a freshness into the well-respected dance company. The commission of work from Canadian choreographers shows the company's commitment to Canadian hopefuls.

One such commissioned work was performed Saturday. Quest, choreographed by Crystal Pite, with music by Bach, proved to be my favourite piece. The perils of romance were expressed in six parts, with a decidedly comic perspective. Subtle body movements and facial expressions that often accompany romance were and years of training go into each tiny heightened with an elegant flair, and the

piece poked fun at gender stereotypes that delineate chivalry.

Although humorous, the dance lost none of the beauty that goes hand-in-hand with skilful performance. Especially wonderful and surely difficult to effect was the slow motion race that two male dancers performed in a fierce competition for a lady's dropped handkerchief. The

The cyclical nature of the quest for love was neatly used to end the piece, as if to remind us all of our common follies in matters of the heart.

Pourfarrokh's own work, Butterfly by Canadian contemporary composer Marjan Mozetich. This work was not so much a story as it was a mixture of movements inspired by the music and by a short Taoist poem about a man dreaming of being a butterfly.

The piece was performed with a surrealistic gentleness that called to mind the graceful movement of butterflies. Watching the dancers make synchronised movements in harmony with the music, it was easy to forget just how much strength, control, hard work, movement and pose. The end result was

nothing short of amazing and wonderful to watch.

> The final showcase piece performed was a one-act adaptation of the Bizet opera, Carmen, choreographed by Guiseppe Carbone.

> Although definitely enjoyable and beautifully executed, I must admit that the story of Carmen, the free-spirited, femme fatale, appeared rather hurried. The extreme passions involved -- love, hate, jealousy -- seemed to be stunted by the shortness of the piece, and as a result, the scenes lacked cohesiveness. Even considering this, the piece was a pleasure to behold and showed the dancers' great talent.

> Especially remarkable was Barbara Moore in her role as Carmen, and it became apparent why she was chosen for the title role. I would be remiss if I did not mention that the costume design for Carmen was especially lovely and fitting for the piece, owing to Paul Daigle who was responsible for costume and scenic design

All in all, last Saturday was a nearly perfect evening and thanks must go out to the Alberta Ballet and to the folks who organise the Onstage Series for bringing in such high quality dance companies.

PROTRACTING THE ANGLES by Peter J.

Every student relishes the concept of leaving home. Maybe in some situations it could be because each Saturday night must be sacrificed for the family's mandatory 'Matlock Movie Marathon.' Maybe it's because the household is obsessed with drinking skim milk (studies show that it's not really milk - it's just discoloured water). However, the primary reason for leaving the proverbial nest is independence.

Ahh, independence. Living on your own, free from the clutches of patronizing parents, staying up past 10 PM (although I have been allowed up until 11 o'clock since grade 12). What a wonderful feeling, feasting on the thrill of being away from home.

Well, maybe 'feasting' isn't quite the right word. See, in order to feast, you must first know how to cook.

As my mom prepared to return home after helping me move to Fredericton in September, she said, "If you need anything, just phone." I remember thinking, 'Yeah, sure. I don't have to take this oppression, man. I am on my own. I don't need anything.' And I didn't. Until I had to cook my first meal. I quickly learned the difference between first- and third-degree burns.

Yes, I may have been prepared to sleep without my Curious George doll and ready to colour co-ordinate my clothes by myself, but meal preparation was as foreign to me as doing the dishes. However, the independence aspect dictated that I figure out this 'food' thing myself. And by October I had figured something out: I belonged to the special group known as the 'cookingimpaired.' No matter, though. I knew I could survive on my own despite the incessant intrustions of my doubting mom.

Like all students concerned with their physical well-being, I managed to

by Lucy Brunswickan Entertainment

So it looks like Seinfeld has at least one more season to go.

This year, Seinfeld has had a renewed energy, following a couple of seasons in which the show's freshness seemed to be flagging. Co-creator Larry David has signed off the show, announcing that this will be his last year, and despite the fact that it's one of my favourite shows of all time, I hope it won't go on much longer.

Blasphemy, I know! I'll say 10 Hail Jerry's tonight before my weekly X-Files pilgrimage.

Even so, as much as we'd like good things to stay the same forever, television shows have a limited shelf life. Think about Cheers. Cancellation turned out to be the best thing for it. The one-hour series finale had recordbreaking ratings; for seasons before that it was simply a sad effort to recreate the charm it once had

It's the nature of television. Some day, you will even be sighing at the refrain "I'll be there for you," and looking for new friends.

That's why, for now, Mad TV is more fun than Saturday Night Live. Unlike SNL, with so many bad jokes that last way too long, Mad TV is a bunch of fresh faces and some fresh satire. Still, it won't last long.

We're very demanding of the box. That's why they have to show bums on NYPD Blue. Not the homeless kind, we've seen them on Law and Order a hundred times. No, the anatomical bums, real bare ones, in the shower, in bed, anywhere you might find a good bum.

racist but somehow still likable Sipowitz on NYPD Blue, said that people used to yell at him on the street: "Hey Sipowitz! When are we going to see your butt?" Blue butts have been legendary since the show premiered under a cloud of ass-

Dennis Franz, who plays the sexist,

roversy. NYPD Blue is a quality show, if you like that kind of stuff. Unlike Baywatch in so many ways...good acting (can't go wrong with Jimmy Smits, I always say), good writing, and the camera work is surpassed only by Homocide. So on that level it can be argued that the bum-baring on Blue is artistic. Realistic. I mean, we all have to take it off at the end of the day. If you don't like it, you can just 'lawyer up.'

On the other hand, the reason the stars of Blue have to undress before the final credits are rolled is that the attention span of the average television fan is really limited. We want action, we want fireworks, we want something we've never seen before

The TV audience has seen all there is to see so many times, that one of the only choices left open to producers who want to break some ground is to push the envelope. Or cancel sooner rather than later.

Cancellation might be the best thing for Picket Fences these days. The show never got the audience it deserved, and now it's losing faithful fans as it reworks themes of religion, social justice and individual quirkiness that at one time made it an original.

Picket Fences once aired a lesbian kiss, you gotta give it credit. Every week used to be a tearjerker. Now it's so much of the same that it's hard to sustain interest through the hour. I've been flipping to Murder One. It's already a dud, but that's another story.

Maybe I'm just getting old. I was sorry when they cancelled L.A. Law, but now when news of another cancellation comes down the pipe, you can depend that there'll be something bigger and better to replace it. Something flashier, with more naked body parts.

Or dead body parts. Television is depraved, and it's making you depraved, too. It's not just your attention span that's suffering with the training it receives from the One-Eyed god. You're also being desensitized. Murder and rape and guns and bare bums and funny people and pretty people and bikini-ed life guards only too willing to give you mouth-to-mouth resuscitation -- they're all much more common on TV than in real life.

I think that's why Canada has yet to produce a decent daytime soap opera. We're just not comfortable with the Hollywood scale of misrepresentation that's needed for a good daytime drama.

Of course, I love it still. Well, it's a love-hate thing. I don't think I'll want my kids watching it. By that time, shows like Seinfeld will be set in nudist colonies, and the stars won't be carrying surfboards around at hip-level. Plus, it's a colossal waste of time. How come I never 'work up to my potential' with my studies, my profs want to know?

I just tell 'em: Shows to watch, sofas to sit on, babe. So much mind-rot, so little time, I always say.

So t ECM brev nigh glue dura was win mon unsi awa bit l seer awa one trad I fam is a are reco cate non else the cate a ba in th up, abo Not wha 'alte they Har B like cou mai men cate sup thos it to did non just picl inst ther Year

meet my health quota. I related to my ever-inquisitive mother that I had been eating vegetables - corn, potatoes, peas. And that's true enough, albeit in the form of Corn Flakes, potato chips, and - okay, fine - the peas were an outright lie. And who knew that you have to peel vegetables before you boil them? Apparently my mom did, as she sent me 50 pre-peeled potatoes to make sure I stayed 'healthy.' A blatant infringement on my independence...

I soon discovered something else: food spoils very rapidly. The decaying contents of my fridge eventually covered the entire rainbow spectrum. And it's pretty bad when you stop selecting your meal by nutritional value and begin choosing by colour. "Hmm, I think I'll cook some of this green stuff, add a side dish of fluorescent yellow, and garnish with this beautiful black gunk!" Yep, that's my recipe - just mix well and hope you don't die.

Finally one afternoon, the daily hunger pangs overcame me and I sank to the carpet. From my new vantage point on the floor I spotted something edible lying under the table. A cracker! Incredible luck? Sure, until I reached it. Unsalted. Damn. Then suddenly, someone came through the doorway carrying eight bulging bags of groceries. Of course - my mother. "I was just driving by ... " she said.

"You live 150 kilometres away!" I yelled. "I don't need any help, so you can just go home and not worry about me. But, uh, leave the food, though."

Later I figured out how to cook hot dogs; however, they tasted kind of funny. As I now know, some hot dogs come individually wrapped. (Future note: remove plastic before boiling.) So it was time to tackle the seafood department of my cupboard.

After polishing off a portion of my highly-touted Tuna Fish Surprise (the big surprise was that I could actually mix tuna), I just figured, "Hey, I'll eat more tomorrow so why bother putting it away? What harm could that do?" Suddenly a hollow, resonant, Star Wars-esque voice echoed through my mind. "Use the cling-wrap, Peter."

"Obi-Wan, is that you?"

"No, it's your mother. Cover that bowl or you'll get salmonella poisoning. And don't forget to freeze that hamburger meat."

Grrrr... Still having independence quashed by the Jedi-mom.

How can I live on my own with such constant interference? Just who does she think she is, constantly driving up here, repeatedly travelling back and forth with food, paying some of my grocery bills, buying me a bunch of utensils, constantly phoning to see if I need anything? As if I need any help, right?

Well... Hmm. Who am I kidding?

I love my mom.

### **The African cultural experience**

by George Ato Eguakun for Brunswickan Entertainment

Ladies and Gentlemen, if you are reading this article, you may or may not have been to Africa before are not an African, there may b lots of questions on your mind about this mystery continent than could be answered by the local media. Most of these questions could best be answered through the eyes of the Africans themselves. Africa Night celebrations on the UNB campus have always been designed to provide answers to some of these questions questions answered through interacting with real sons and

ECMA from now on for the sake of brevity) were handed out last Sunday night - I'm sure that most of you were glued to your television sets for the duration of the ceremony. I know I wasn't. Anyway, I got a list of the winners faxed to me the following morning, and was very, very unsurprised by it. Nevertheless, these awards always disappoint me a little bit because so the only artists who seem to have a chance at the 'big' awards are the more mainstream ones, particularly those with a

So the East Coast Music Awards (or

traditional feel to them. I do realise that the Maritimes are famous for their folk scene, and there is a wealth of talent in that area but are they the only ones that deserve recognition? Instead, there is a single category for alternative artists, and none of those artists get a mention elsewhere. Incidentally, the winner in the 'Alternative Artist Of The Year' category on Sunday night was Sloan, a band who essentially no longer exist in their previous form due to a breakup, and haven't put out an album for about eighteen months. Hmm. Nothing like being up to date with what is new and cutting edge in the 'alternative' music scene. After all, if they were there is a good chance that Hardship Post might have won.

But Sloan won. Good for them. I

Maybe I am just being too hard on the ECMA committee as most awards ceremonies travel the most inoffensive path they can. In Charlottetown on Sunday night, they did just that. But in doing so, they also gave the traditional music scene the praise that it deserves. And it is the kind of praise that it probably won't get anywhere else. Perhaps that is why there is such a rich traditional scene on the East Coast - it gets the support that it needs to survive. So I probably should begrudge them

their awards. After all, who else would do it? But should it be done at the exclusion of all the other good music

they could recite it on stage. Blatant publicity at its best. Whatever it was, they won, and after seeing them live I can understand why. They managed to take a cavernous venue like the Aitken Centre and make it feel more like a pub of sorts (although the dense smoke and vast volumes of alcohol being served helped). You can't help but wonder what would happen if all the awards were decided that way; talking pigs might fly...

Do you have large piles of money lying around the house? Not sure what to do with them? Well, might I suggest you stop by CHSR and ask them all about their annual Fundrive as they could do with your help. Your money even. CHSR-FM is a wonderful asset to both the campus and the community, but it doesn't run itself. They need money. Most of the operating budget comes from other sources (as long as they don't take it back again ... ), but they also rely on donations from anyone who wants to support them. Anyone at all.

So what do you get in return? Their eternal gratitude, of course. But there is more. They have a whole bunch of CDs to give away, and when you donate \$15 or more, you can take your pick. Not only do you help a worthwhile cause, you get some new music to listen to. A pretty good deal for everyone involved.

The Brunswickan • 13

### **Crones and Shaman**

Brunswickan Entertainment

Gallery Connexion is pleased to announce the opening of an exhibition entitled Crones and Shaman by Sackville artist Louisa Barton Johnson on Saturday February 17, 1996 between 7 and 9 PM. At 8 PM there will be an original dance performance by Natalie Morin. The soundtrack was composed and performed by Halifax musician Kathy MacGillivray, the operatic vocals are performed by Teresa Connors, (also from Halifax).

Louisa Barton Johnson's large multimedia sculptural installation Crones and Shaman consists of a Bear, a Raven, a Deer Woman and nine

Crones. Each of these large figures are constructed of a variety of materials including fur, fluorescent lights, copper, carrots, roses, burlap, roots, etc. All of the figures have speakers wired inside them and the Bear, Raven and Deer Woman wills peak with individual voices, while the groups of Crones will have many voices. The dance choreographed by Natalie Morin, of Montreal, will have the dancer becoming an amalgam of animals and birds, who emerges from the bear and slowly sheds her costume to become an almost naked woman. Louisa's work is informed by the folk stories of eastern Europe, and by her experience growing up in the bush of interior British Columbia.

A Deaf, Dumb and Blind Travel Guide For The Debutante Traveler

14 • The Brunswickan

as told to Murray Thorpe by Warren Watson

Artwork by Nina Botten

Well, it was a few years ago, and I was travelling throughout Europe by Eurail. One of my best decisions besides visiting the Iberian Peninsula itself was to take the ferry from Algeciras, Spain to Tangier, **Morocco**.

Morocco is the land of the Atlas Mountains, good soccer players and of course, Casablanca. Casablanca was not on the itinerary, but I think, one of these days, I should watch the movie in its entirety. This was the sum total of my knowledge of the mystic land of Morocco as I got onto the ferry in Spain.

During the ferry ride of a few hours, I hung out with the other people lugging backpacks around. I met Gavin who had just come from the rock of Gibraltar, the place where both monkeys and British Currency can be found. Gavin was a South African doing the Eurail thing and had split up with his South African buddy several days earlier because this friend needed a VISA for what seemed to be every country they went to. Gavin had a British Passport because of his mother being British and did not use the more restrictive South African passport.

On the ferry, Gavin and I decided to team up. We did not want to do the obvious tourist things such as travelling to Casablanca. Instead we decided to travel to Fes, a vibrant city recommended to us by another traveller.

Once the ferry landed at Tangier, I went through customs and waited by the dock for Gavin to clear customs. Just leaving the slip, I was approached by an extremely friendly local. "Hello, Welcome to Morocco ... I am a student (of life) and I will help you." I was impressed, naively so, by my own personal welcome and we exchanged introductions.

Ten minutes later along came Gavin with a guide of his own. Neither one of us had agreed to a guide at this point. On the ferry, we were told that we would be approached by a lot of guides until we hired one, and then we would not be bothered by other guides. The trick was then to get the guide to show you the sights and not shop after shop which tends to happen because of commission. The guides, not only get paid for bringing you into a shop, but they also get a percentage of whatever you buy.

**Roof-top View of Fes** 

We found American currency went a long way, and our guide took the money and left us alone. That night we travelled to Fes. Half way through the trip, our bus stopped and in what looked like a desolate spot, a small portable restaurant popped up. This was a good opportunity to get out of the very cramped and smokey bus and stretch our legs.

Sunrise saw us in Fes just outside the Casbah. We entered the walled city and found a guide. He spoke French with a little English. This suited me just fine as we could converse in French. We agreed on a price and off the three of us went. We were taken into a mosque, a leather factory and a wide range of shops.

The leather factory relied on child labour and the working conditions were appalling. While walking through the outdoor factory we passed a tour group from France. All of them were carrying mint leaves and some of them had the leaves in their noses. After Tangier, I had gotten used to the smell of sewage, but I didn't get used to the smell of the factory. The images of rotting animal carcasses and of children

Tl umn.

We did not take either guide since we were on our way to Fes. The train station was next to the ferry

terminal, but we found it surrounded by crowds. The daughter of a head of state was boarding the train, so we watched the proceedings. As we watched the train pull away, I said to Gavin, "I guess we were supposed to be on that train as well."

The next plan of action was to spend the rest of the day touring Tangier, and then to take the night bus to Fes. I used night transportation a lot while travelling in Europe as this combined travel and accommodation expenses. So we now decided to take a guide. We didn't have to look far, there were at least six surrounding us as we were discussing our plans. We couldn't decide which one was the least persistent so we said, "no thanks" to them and started walking.

Two minutes later, we heard, "guide?" We said "sure" and we agreed on a price to show us around. We saw the Casbah and the inner city, as well as four shops before calling the tour short. Our guide was not very happy because we did not buy anything. The handicrafts, the rugs and the leather we saw were all splendid, but I couldn't carry a rug with me for two months around Europe. The rugs could be shipped, but I declined.

A Leather Sweat Shop

toiling in the leather factory were fixed in memory. After the factory, it was back into the bustling streets of the inner city of Fes.

We were toured through shops selling rugs, metalwares and leather products. We were offered tea on several occasions but we politely declined, citing stomach problems (which we would have had if we drank nonpotable water). We got the hard sell constantly on the merchandise but politely said, "non merci." Our guide tired of us, and after collecting his fee he left us in the middle of the inner city.

We then realized, paying our guide before he had taken us out of the inner city was a mistake. It was like a maze but we were fortunate that there was enough of a slope to the entire area that we could follow the slope back to our starting place. We then took the train back to Tangier and caught the ferry back to Spain the following morning. Gavin and I then parted, he for Gibraltar again, and I for the Moorish fortress city of Granada, Spain.

ery cramped

hile walking mint leaves ll of sewage, l of children

highly unlikely, East will be in trouble in a 3NT contract. South leads the Ace of clubs with only one honour out of five missing and takes seven tricks for the defense, putting 3NT off three. West will, however, make 4NT with 10 tricks as North cannot lead a stiff King of a suit that may win a finesse later in the play, unless of course his partner has bid the suit.

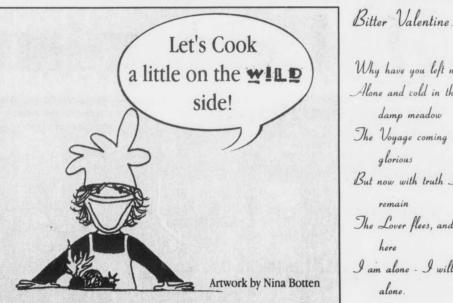

If clubs are bid, 3NT should never be the contract with no stoppers in either East or West's hand. A stopper is a card high enough to prevent a player from taking every trick in a particular suit.

Both 4 V's and 4 A's are unbeatable if correctly played. In 4 A's, the third round of clubs can be roughed in the dummy, and then trumps can be drawn (getting the kids off of the streets), and in the end East/West will get 10 tricks, losing two club tricks and one diamond trick.

In 4 ♥'s, the play is different. The third round of clubs is not roughed, otherwise one of the opponents may have more trumps in the likely event of a 4-2 split. Throw a losing diamond on the third round, and if clubs are continued, trump in the short trump hand. If North overtrumps, you overtrump yourself, and hope you can still draw trump. As the cards lie, you can. You can now draw trump and pitch your last losing diamond on the fourth spade. Your only losers are three clubs and the contract is home.

are 3NT, 4V's, 4A's, 5A's and 5V's.(The How should the bidding and in parminor suit games need 29 points since ticular, the play, of the following hand they are at the 5 level.) Games are worth go? West is the dealer and neither side bonuses in the scoring (to be mentioned is vulnerable. later) so you want to be there whenever

#### Chunky Chili à la Cheapo.

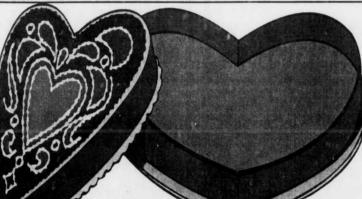

large pot (not optional) 1 lb ground beef (commonly known as hamburger) l big onion - diced l cup of sliced mushrooms green pepper - diced l large clove of garlic - crushed l large can of tomatoes (crushed, diced, whole, etc) l large can of tomato sauce 1 can of chili beans (dark or whatever!)

Brown beef, onion, garlic, green pepper and mushrooms in pot.

Make sure you put the veggies in after the beef and garlic have cooked over a medium heat for a few minutes because the veggies need less time to cook.

Dump in the tomatoes (use a potato masher to squash if whole) and then add the sauce and beans. Season to taste with salt, pepper, pinches of basil, chili peppers, and cayenne pepper. Enjoy!!

What is it, you say? Good question. There is definitely a simple definition for the word. Many academics of these "ivory halls" contend that tenure is a monetary guarantee. After a few years of being observed, professors are eligible for this job security. However, tenure does not exclude any professor from being held responsible for misguided actions. Even if a professor has received tenure after the usual five year temporary contract, it is not guarantee of a job for life. Evaluations take place every year where three areas are usually considered: scholarly work produced by the professor, the standard of their teaching ability, and their administrative and community input throughout the year in question.

Most scholars of the professorial field believe that tenure is a necessity for all professors in order to ensure they are allowed to express contrary and unpopular views without repercussions. Freedom of speech becomes a valued right when discussing the proper etiquette professors must adhere to in order to keep their tenured position. The contradictions in opinions lie in precisely this area where it becomes difficult to determine the amount of latitude a professor has in the classroom to teach the course material.

What do you think? You can call 453-4955 at the Student Union office or reach me by email at univaff@unb.ca.

University of New Brunswick Fredericton Psychology real than your waking life. Or if you ever have a profound feel-Colloquium presents: Dr. Colin Ware, Faculty of Computer Science at the University of New Brunswick. "STEREO ALGORITHMS FOR VISUAL INFORMATION DIS-PLAY" on Friday, February 16,1996, at 3:30 p.m., in the Snodgrass Room, Keirstead Hall. Coffee will be Served. EVERYONE WELCOME.

#### SIMPSON TO GIVE 1996 DINEEN LECTURE AT UNB

A high-ranking military engineer will deliver the 1996 Third Age Centre, Holy Cross House Dineen Memorial Lecture at the University of New Brunswick in Fredericton and Saint John, Feb. 28 and 29.

Col. James K. Simpson, CD, director of defence geomatics for the Department of National Defence in Ottawa, has titled his lecture An Overview of the Conflict in the Former Republic of Yugoslavia from a UN Engineer's Perspective. He will give the lecture in Fredericton on Wednesday, Feb. 28, at 8 p.m. in the Dineen Auditorium, Head Hall, and in Saint John on Thursday, Feb. 29, at 8 p.m. in Oland Hall, Room 104. In both locations, the lecture and the receptions which follow are free of charge and open to the public.

On Feb. 28, Col. Simpson will present a technical lecture on United Nations' Engineering Challenges and Activities in the Former Republic of Yugoslavia. Intended for UNB students and faculty, this talk will take place at 2:30 p.m. in the Dineen Auditorium on the Fredericton campus.

Col. Simpson spent a year in the former Republic of Yugoslavia as the force engineer to the United Nations Peace Forces commander before he was appointed director of defence geomatics in Ottawa in 1995. A professional engineer, he holds a bachelor's degree in mechanical engineering and a master's degree in civil engineering from the Royal Military College in Kingston, Ontario. Col. Simpson has also taught engineering at his alma mater.

His numerous military assignments have included base engineer at CFB Halifax, the largest of the Canadian Forces construction engineering and environmental matters at skirts and slicked back hair. Mobile Command Headquarters; command engineer of the army; and deputy chief of staff military engineering within Maritime Command.

The Dineen Memorial Lectures began in 1980 and honour former engineering professor and UNB president James 0. Dineen. The lectures, which focus on technology and its impact on society, are sponsored by the university, the faculty of engineering, the Associated Alumni of UNB and UNBSI's Visiting Lecturers' Committee.

For additional information on this year's lectures, call

ing of love that fills your world with a joy beyond words - then this talk on ECKANKAR will be of interest to you. You can learn to find spiritual freedom through the Light and Sound of God. This presentation is sponsored by local students of ECKANKAR

Canada (Fredericton). For more information, please write: **ECKANKAR**

Don't miss the Third Age Centre's "Medication Review Clinic Distance Education Project," a unique approach to medication education for older adults. Hosted by Mary Lou Arseneault and Dr. Janice Irvine-Meek on Cable 10's "There & Then/Here & Now" program, Thursday, February 8th and 22nd at 7;00 p.m. or Sunday, February 11th and 25th at 1:00 p.m.

The Third Age Centre presents: "Money Talks," A series of seminars on finance for seniors to be held Monday and Thursday mornings during March from 10:00 a.m. to noon at Royal Canadian Legion Building, 199 Queen St., Fredericton. Cost per session: \$5.00 non members/\$3.00 TAC members. For more information call the Third Age Centre at 452-0526/452-0523.

"Widowhood Research Project Leads to Life Skills Program." The Third Age Centre is planning a life skills workshop for widows age 55 + entitled "Striving on your own." This educational program will begin in mid-March and will consist of one two-hour session per week for six consecutive weeks. For more information or to register, please call the Third Age Centre at 452-0526 or 452-0523.

#### Rockabilly Mardi Gras at the Market

The Harvest Jazz and Blues Festival presents the 3rd annual Mardi Gras, featuring New England's premiere Rockabilly band, King Memphis. Scheduled for Saturday, February 24 at the Boyce Farmers Market, Mardi Gras will "flip, flop and fly" Fredericton Bases; senior staff officer responsible for infrastructure, into the past - into the Rockabilly era of bobby socks, poodle

> "It's a great event to beat those mid-winter blues," said Brent Staeben, Festival Chair. People are encouraged to come dressed in Rockabilly style and show off their dancing skills in the jive contest. For those who haven't mastered the jive, LTD Dance Studios will be on hand to give demonstrations.

> Fredericton's own Downtown Blues Band will warm things up when the doors open at 7:00 p.m. and people are invited to drop into the "Malt Shoppe" for special food and drinks.

Mardi Gras goers know that it would not be complete without the Casino. Once again the Nashwaaksis Lions Club will host the

PM. Old Arts Chapel, UNB

HEMP N.B. MOVIE NIGHT. This Monday, February 19, 1996, we will be showing Fast Times at Ridgemont High in MacLaggan Hall, Room 105 at 9:00 PM. The fee is \$2 per person. And don't forget this is a weekly event.

Gallery Connexion is pleased to announce the opening of an exhibition entitled Crones and Shaman by Sackville artist Louisa Barton Johnson on Saturday February 17, 1996 between 7 and 9p.m.. At 8p.m. there will be an original dance performance by Natalie Morin. The soundtrack was composed and performed by Halifax musician Kathy MacGillivray, the operatic vocals are performed by Teresa Connors (also from Halifax).

Louisa Barton Johnson's large multimedia sculptural installation Crones and Shaman consists of a Bear, a Raven, a Deer Woman and nine Crones. Each of these large figures are constructed of a variety of materials including fur, fluorescent lights, copper, carrots, roses, burlap, roots, etc. All of the figures have speakers wired inside them and the Bear, Raven and Deer Woman will speak with individual voices, while the groups of Crones will have many voices. The dance choreographed by Natalie Morin, of Montreal, will have the dancer becoming an amalgam of animals and birds, who emerges from the bear and slowly sheds her costume to become an almost naked women. Louisa's work is informed by the folk stories of eastern Europe, and by her Febru

#### Valentines for Two Guitars at Saint Anne's Chapel

Classical guitarists Steven Peacock and Gerry Van Wart present music for two guitars in the intimate atmosphere of Saint Anne's Chapel, at the corner of Charlotte and Westmoreland Streets, this Friday, February 16th at 8 p.m. The concert, billed as Valentines for Two Guitars, features works by Sor, Weiss and Nardelli as well as music in the Spanish tradition by Granados, Albéniz and de Falla. Tickets are available at the door for \$8 for adults and \$6 for students and seniors. Part of the proceeds will be donated to the Parish Church Organ Fund.

#### ESSAY PRIZES FOR WORK SUBMITTED IN ARTS COURSES

Did you know that prizes are given annually for the best essay written on a number of topics that generally fall within the scope of a number of Arts disciplines?

These are: the Premier Richard Hatfield Essay Prize, for the best essay dealing with constitutional questions; the Rabbi David Spiro Essay Prize for a deserving essay relating to Jewish history, literature or contemporary affairs; the Harry S. Velensky Prize for the best essay on subject of human relations, with a view to promoting better understanding between all peoples at all levels of society.

If you have written an essay which seems to fall within these terms of reference, why not ask your instructor if it should be submitted to the Arts Faculty Prizes Committee? Aim to get this in motion by the end of March if you can.

#### Introductory Talk on ECKANKAR

A free introductory one-hour presentation on ECKANKAR, Ancient Wisdom for Today, will take place Monday February 26, 1996 at 7:30 p.m. at MacLaggan Hall (Nursing Building) -Room 125 on the U.N.B. Campus in Fredericton. If you want to know about reincarnation, karma, out-of-body experiences, or Soul Travel. If you feel there is more to life than what you see on the surface. If you have dreams more

Casino with several block tables to try your luck at. Gamblers will use their funny makey winnings to purchase a prize from a selection of donated items, or put their money on a ballot for the Grand prize of airfare for two to a destination of their choice.

Staeben advises Mardi Gras Fans to buy their tickets early as this event enjoys a sold-out crowd. Tickets are \$10 in advance and are now on sale downtown at Hongkong Bank, Mazzuca's, Purple Haze or the Festival office on the 6th floor of King's Place. Uptown, tickets are available at Fenety's Irving on Prospect Street. Visa or Mastercard holders can purchase tickets by phoning 454-BLUES (25-83). Tickets will also be sold at the Farmer's Market on Saturdays. Any tickets remaining will be available at the door the night of the event for \$12.

For more information or to arrange interviews with entertainers, please call Angela Watson at the Harvest Jazz and Blues Festival office at 454-2583.

UNB/STU Gay and Lesbian Alliance will be meeting at 7p.m. on Friday in the Alumni Memorial Building, Room 19E1. This week: Games Night, bring your favourite board game (Life and Monopoly will be provided). GALA provides peer support for les/bi/gay students and faculty members. New members and gaypositive people are always welcome. P-FLAG meets on the 3rd Sunday of the month at 2p.m. in the same room as mentioned above. P-FLAG is an international organization for parents, families and friends of lesbians, gays and bisexauls. Share your concerns; educate yourself; support the les/bi/gay in you life. Les/ bi/gays are also welcome.

VON Oromocto is holding a Hepatitis B- drop-in clinic, no appointment necessary, on February 19, 1996 from 4:30 to 8:30 p.m.. It will be held in the basement of the Town Hall in Oromocto for future information call 357-8542.

#### Happy! Happy! Rat year!

A Chinese New Year banquet will be held in the SUB ballroom on Friday, February 16, 1996 from 6:30p.m.to 10:00p.m.. Tickets are available at OCSA Committees at the SUB help center or e-mail L1RP, D64R. The price of a ticket is \$8 for members; \$10 for nonmembers; and \$13 at the door. There will be a casino after dinner.

experience growing up in the bush of interior British Columbia.

The artist will be in Fredericton from February 15 to 18 and will be available for interviews. For more information, please contact Sarah Maloney at 454-1433.

#### Winning Historian To Present Public Lecture at STU

Eminent historian Michael Marrus will present St. Thomas University's annual history lecture on February 20, 1996 at 7:30 PM. Dr. Marrus, a professor of history at the University of Toronto, is a well-published authority on the history of European fascism and the Holocaust and other areas. The STU lecture, titled "War Crimes: The Nuremberg Trial, Fifty Years After" is open to the public and will be held in room G 2, Sir James Dunn Hall at STU. A reception is to follow.

Dr. Marrus has lectured widely in North America, Europe and Israel. He has been a Guggenheim Fellow, and a visiting fellow at Oxford University and the Institute for Advanced Studies of the Hebrew University. He is the author of six books. In collaboration with Robert Paxton, he published Vicby France and the Jews which received a National Jewish Book Award. His prize-winning The Holocaust in History has appeared in Polish, Italian and French editions and is currently being translated into Japanese.

Michael Marrus has also written an award-winning biography of Samuel Bronfman. His most recent work is a history and collection of documents on the Nuremberg War Crimes Trial, which will be published in the fall of 1996.

For further information, please contact Professor Dan Gleason, history department, St. Thomas University at (506)452-0614 or Theresa Suart, director of university relations at (506)452-0522.

#### ATHLETES OF THE WEEK

#### Michelle MacWhirter, Swimming

UNB's female athlete of the week is Michelle MacWhirter of the Varsity Reds swim team. The third year Physical Education student is from Stephenville, Newfoundland. This past weekend at the AUAA Championships in Fredericton, Michelle won gold medals in the 200 Freestyle, the 100 Backstroke and the 400 Freestyle for a total of three gold. She had CIAU qualifying times in all three of these events. Michelle was named AUAA Female Athlete of the Year for her outstanding season. Coach Bob Cannon stated "Michelle is a very tough competitor. She will shine at CIAU's, I have no doubt!"

#### Josh Ballem, Swimming & Terry Pomeroy, Wrestling

The male athlete of the week is shared by Josh Ballem of the Varsity Reds swim team and Terry Pomeroy of the Varsity Reds wrestling team.

Josh Ballem is a first year Business student from Charlottetown, PEI. This last weekend at the AUAA Swimming Championships in Fredericton, the men's team captured the AUAA title. Josh took gold medals in the 100 Fly, the 50 Fly, the 200 Fly and the 1500 Freestyle. He made both a CIAU and an Olympic Trials qualifying time in the 100 Fly. Josh was named AUAA Male Athlete of the Year and AUAA Male Rookie of the Year for his outstanding efforts. Coach Bob Connon stated "Josh came up with some very big swims for us this past weekend."

Terry Pomeroy is a fifth year Physical Education student from Oromocto, NB. This past weekend at the AUAA Wrestling Championships in Fredericton the wrestling team captured their seventh consecutive AUAA title. Terry won his fifth AUAA title to go undefeated in the 52 kg weight class over his five years at UNB. He was not scored out in the AUAA finals in the past three years and his comulative season stats are 35-5. The team captain will compete in the CIAU Championships in two weeks at Brock University.

#### AUAA Swimmers of the Year: Michelle MacWhirter and Josh Ballem.

#### by Neil Duxbury Brunswickan Sports

The UNB Varsity Reds and the Dalhousie Tigers split the AUAA swimming championships last weekend. The V-Reds took the Men's side of the event 233-147, while the Dalhousie Women's team triumphed by a margin of 259-139. Mount Allison and Memorial shared third and fourth spots over the two events.

The V-Reds and Tigers took all events except one, the men's 800m free relay, which was won by the team from Memorial. They also split the AUAA awards, three of which ended up in Fredericton.

Michelle MacWhirter scooped the AUAA Female Athlete of the Year award along with wins in the 100m backstroke and 200m & 400m freestyle. MacWhirter and 5 swimmers from Dal comprise the AUAA's female representation at the CIAU championships.

ympic trials. Quite an accomplishment for a first year athlete.

"It's been a surprise. Coming here, I wasn't too sure how ... I just wanted to fit in and have a good meet. Probably the best meet of my life this weekend."

Ballem, along with Chris Jones, Marty Laycock and Jason Lukeman and a solitary Tiger are the AUAA qualifiers for the CIAU

Photo Judson Delong championships.

**Photo Judson Delong** 

the top 8, and then see how it goes from there in the finals. Hope to get a medal in the relay."

Coach Bob Connon is also hopeful for the relay events. "We have a top rate backstroke [Jones], breaststroke [Laycock], butterfly [Ballem] and freestyler [Lukeman] and I think we should be very strong in the medley relay and they're all good in the freestyle so we should be in there with a very strong relay team."

He continues "After CIAUs we're going to have had our best swims. Four of our five athletes are not rested yet, so the swims they've posted so far this season are unshaved and tapered. I think that after CIAUs we'll see how well UNB's done nationally."

Looking back, Connon feels that 95-96 has been a year well spent. "It's been a good...interesting year working with these

Both the Men's and Women's basketball teams will have the same problem this weekend - the Memorial Sea-Hawk whose shirt reads Devereaux.

John Devereaux enters the game averaging 23.1 points, ranked second in the AUAA. Meanwhile, Jennifer Devereaux ranks 7th in the AUAA (though only 2nd on the Sea-Hawks weekend, the women's team look to roster) in points per game with 12.9.

While both pose problems, the teams they play on are in startlingly different situations. The women's team are proud

owners of a league leading 14-2 record, while the men are in the basement with a 6-8 record, tied with SMU and two

With 6 of the 8 men's teams going to Halifax for the playoffs, the pair of games in the Pit this weekend could prove to be decisive in filling the 6th spot

After winning a pair against PEI last continue their recovery, and keep their outside hopes of a playoff chance alive. When these teams met last month on the rock, the Sea-Hawks took all 4 games

hosted UNB in the first game of a best of three series. The Panthers did not wait long to get on the board. At 2:25,

Wilson fired a shot on the goalie side of the near face off circle. It appeared to be somewhat harmless, but LeBlanc could not stop it. The Panthers added to their lead at 7:39 when, on the power play, White rebounded one of the many shots taken. White got a second five minutes later when he deflected Ertel's pass into the net at 12:43. At 16:52, Ertel got on the scoresheet himself, scoring on a rebound that came into the middle of the zone (no Reds in sight!). Finally, at 18:40, MacPherson added a fifth goal, when he slid the puck around LeBlanc. The shots on goal were 18 to 4 for the Panthers in the first period.

There was no scoring in the second period. The shots momentum. It's imperative that we win the first game." on goal were 16 to 12 for the Reds.

Things got pretty nasty in the third period. The Reds scored early on a power play goal at 0:39. The puck went around the tage" for the playoff series by virtue of their 3-1 (6-4, 5-4, 6box and was shot by MacLean, the shot was slowed down by 4, 3-5) record against UPEI in the regular season. Johnson in the net, but it trickled in the net before he could Last Thursday's 5-4 loss to STU gave some indication of clear it. From that point on penalties started to take centre UNB's defensive frailties. The Tommies scored three quick

# points behind UNB.

UNB racers at Poley Mountain. From left to right- Elliot Little, Andrew Stephenson, Gordon Weary, Victor King and coach Ryan Williams.

#### Brunswickan Sports

On the Sunday of January 20th, the UNB Ski Team entered their first race of the 1996 season, the first Cavendish Cup race of the year held at Poley Mountain, Sussex New Brunswick. Entered in the Senior Men's Slalom division were four of UNB's strongest racers, who swept the Men's Slalom by bringing home all three medals of the division.

Andrew Stephenson, an executive of the UNB Ski Team and an experienced racer, had strong runs in both heats of the Slalom race. He took the bronze for UNB with his times of 1:00.98 and 1:04.07 and placed 12th overall of the 66 racers that made up the various divisions at the Poley Mt. Cavendish Cup. Gordon Weary, Captain of the UNB Ski Team, ran the course in his trademark style of a full-bore run. Gordon placed second with his times of 59.06 and 1:03.21, finished 11th overall and took silver, UNB's second medal of the day. However, Elliot Little, a UNB ski team rookie, dashed the hopes of any competing racer's strive for gold with his explosive runs in both heats of the Slalom race and secured first place and a

gold medal for UNB with his times of

57.04 and 59.32 seconds. Little, a seasoned racer, placed 9th overall. Little is finishing his forestry engineering here at UNB and looks forward to many more years of racing with UNB.

Victor King, possibly UNB's most promising young racer, had an excellent run in the first heat of the Slalom race which placed him in second position. However, an unfortunate run-in with an icy patch on the course placed him out of reach of any medals.

The UNB Ski Team has had an excellent turn out this year, recording 25 members. All are avid skiers and many have years of skiing experience to their credit. Brian Crothers, president of the UNB Ski Team, believes the strong enthusiasm of the UNB racers and the superior coaching supplied by Crabbe Mt. will herald an excellent year for the team

Next week, UNB Ski Club's results in the Super Giant Slalom and Slalom race at Crabbe Mt.

### **V-Reds make AUAA Playoffs**

**Brunswickan Sports** 

Despite losing their final regular season game, the UNB Varsity Red's Women's Volleyball Team, have crept into the AUAA playoffs.

The playoffs, which take place this weekend at Mount Allison University, feature the Dalhousie Tigers, Saint Mary's Huskies, Moncton Anges Bleu as well as the V-Reds.

UNB (9-7), the two time defending champions, will face the unbeaten Tigers (16-0) in their semifinal, Saturday afternoon at 4pm. In the 2pm semi UdeM (12-4) faces SMU (12-4).

the fourth and final playoff spot, Bleus, who triumphed 3-0 (15-8; 17-

#### **Classifieds Guidelines**

The Brunswickan would like to clarify the policy on submitting classifieds for publication.

#### 1. To begin

Classifieds are a free service offered by The Brunswickan to the staff and students of UNB and STU.

#### 2. Submission

Classifieds must be received by 5pm on Tuesday of the week of publication. There are two methods. (a) e-mail from a UNB or STU account. (b) personal delivery to Rm 35 in the SUB. Personal deliveries MUST be accompanied by a valid UNB/STU id card.

#### 3. Re-Submission

If you wish a classified to run for more than 1 week, you must submit it each week.

#### 4. Content

Classifieds should be 30 words or less. Your name, phone# and id# should be appended to the ad.

#### 5. Disclosure

Classifieds are not confidential. The editorial board will provide names of submitters if they feel that the circumstances warrant it.

#### 6. Inclusion

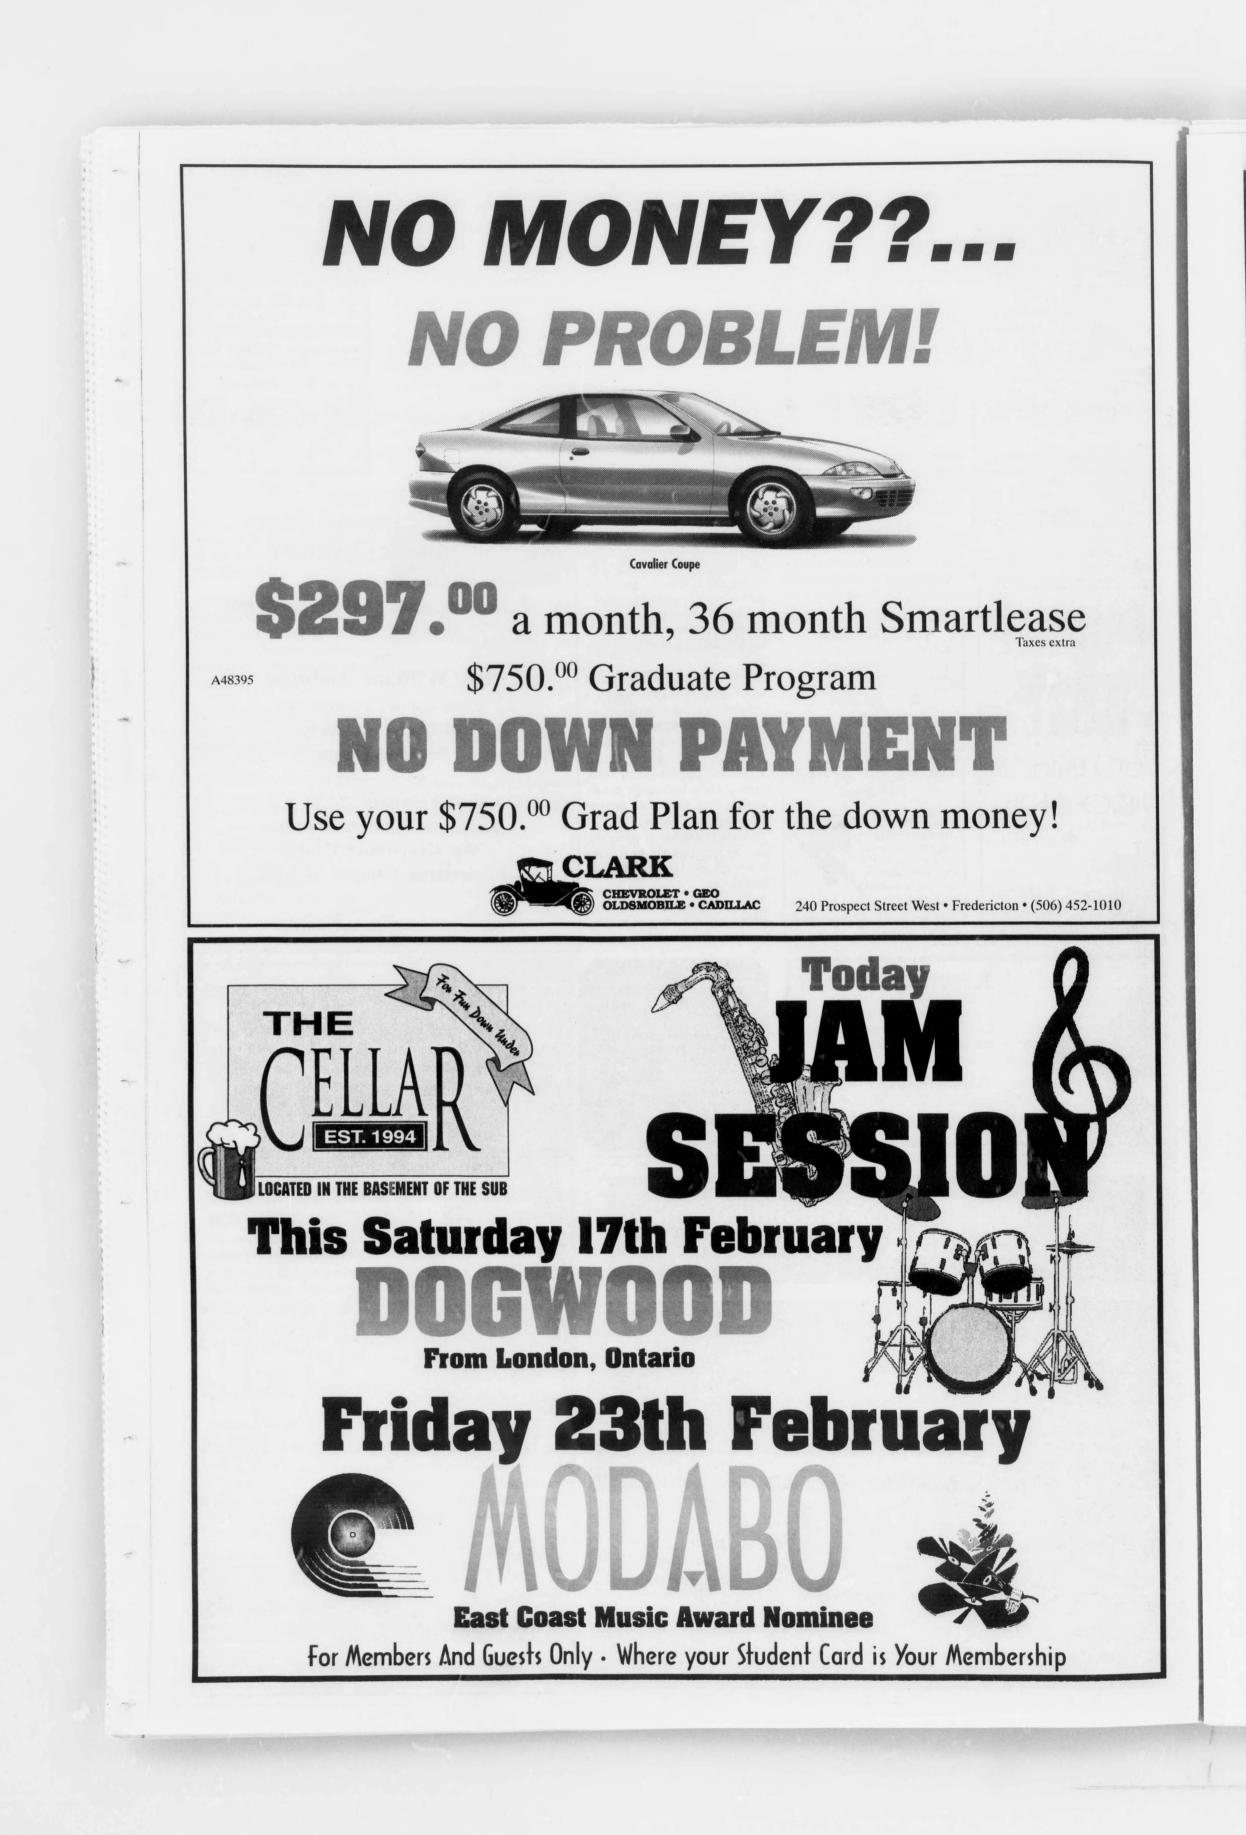

Acceptance of a classified does not guarantee publication. The number of classified printed may be limited by available space.

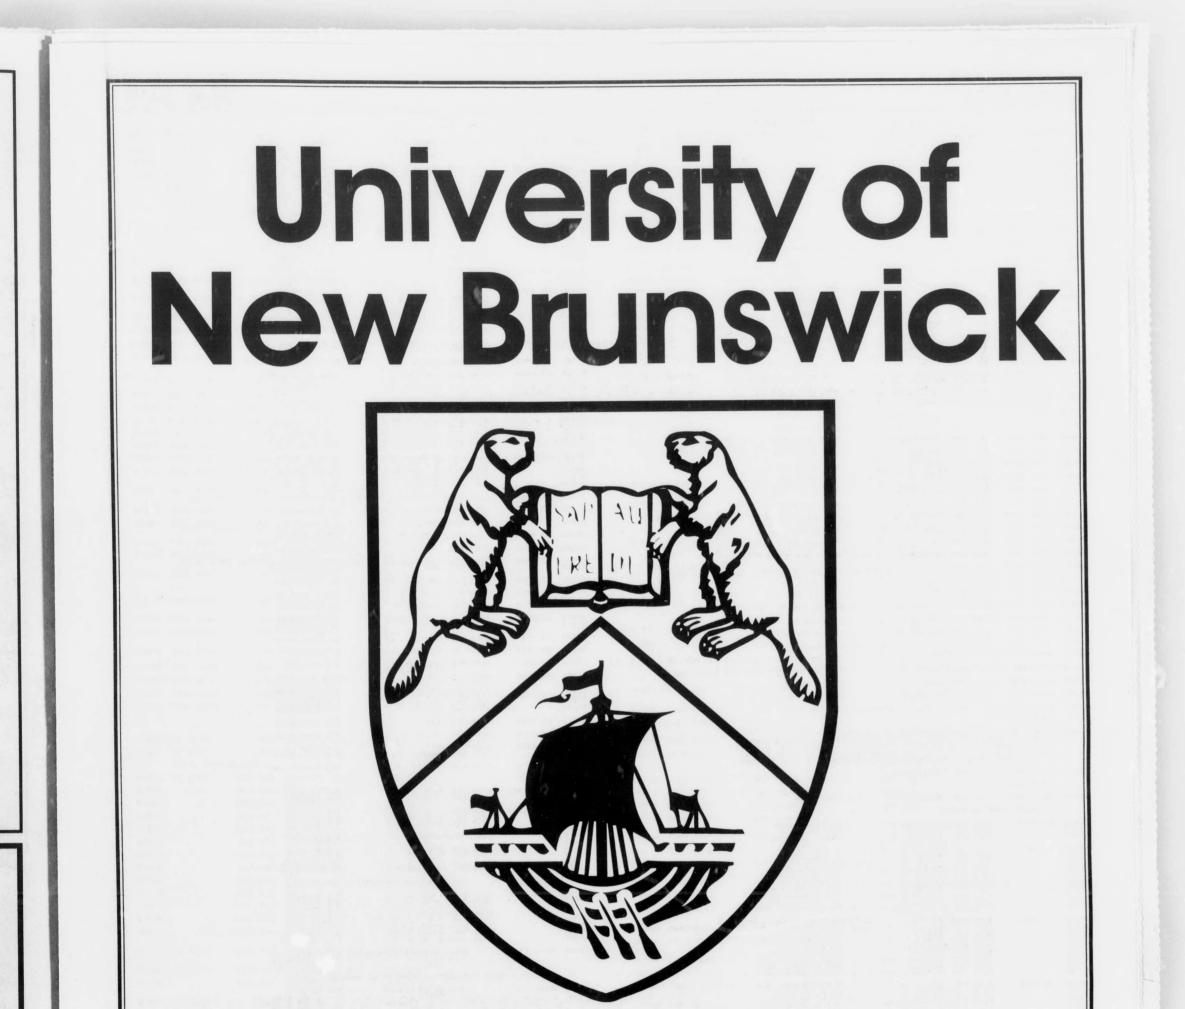

#### 7. And finally

The Brunswickan reserves the right to refuse to publish any classified deemed to be offensive. If you have any complaints they should be addressed to the Managing Editor.

If you have any questions or comments about the above guidelines, please contact the Managing Editor.

### **UNB's On-line Registration System**

#### Introduction

Undergraduate students on the Fredericton Campus of the University of New Brunswick are able to register for their courses using computers available on campus or through the Internet.

This on-line computer-based system is intended to make registration easy. By having direct access to UNB's Student Information System, you will be able to both register for courses and to make any subsequent changes necessary.

You will receive an On-Line Registration Handbook from your faculty. If you still have difficulty using the system, come to the main registration centre in the IUC Science concourse or to the Registrar's Office during business hours.

#### Preparation for Registering in the Winter 1996-97 Session

#### **Timetable Information**

Before you begin the registration process, you must be clear as to the courses for which you will register. You should take a copy of this timetable with you for your session with your advisor.

Be prepared to construct your timetable for the Winter 96-97 session.

An updated timetable, with classroom assignments, will be mailed to all students during the summer.

#### **Conflicts**

If you try to register for two courses in the same time slot, a warning message will appear on the screen. Faculties will be advised if a student has registered for two courses in the same time slot, and they have the right to delete one of the courses. Therefore you should discuss all potential conflicts with your advisor.

#### Advising

We recognize that students need to discuss their academic programs and plans to ensure that their course selection is appropriate to meet graduation requirements as well as future goals. All students in degree programmes are required to meet with an advisor prior to registering.

Returning students in degree programs, both in full-time and part-time studies, should contact their department office (or Dean's office for faculties with no departments) for information regarding advising procedures. Part-time students in degree programs, returning after one or more year's leave of absence are advised to meet with the faculty to review their program.

Full-time students in No Degree programs are advised to review their programs with Judith Potter in the Department of Extension and Summer Session. Students transferring into a degree program from another post-secondary institution, will be able to access the on-line registration system as soon as they have been accepted, and advised by their Faculty.

#### Prerequisites and Restricted Courses

You are required to honour prerequisites and corequisites attached to courses. Courses selected for which you have not satisfied prerequisites or other requirements can be deleted by your faculty. It is your responsibility to check your status concerning courses for which you do not have the prerequisite or corequisite. Some courses have restricted access. You should consult your advisor if you want permission to register for a course so designated.

#### Personal Identification Number (PIN)

You will need an active personal identification number and your student identification number to register for Winter 1996-97 courses. You will be given a new 1996-97 PIN once advising has been completed. This personal identification number is for your use only and gives you access to the registration system. For the security of your record, it is important that you not share your PIN with others, and that you exit properly from the registration system once you have completed your entry.

Full-time no-degree and part-time and full-time visiting students may get their PIN from the Registrar's Office.

Exchange students will get their PIN from the faculty that houses their program of study.

Part-time no-degree students may get their PIN from the Department of Extension and Summer Session, or from the Registrar's Office.

Students in the Concurrent Bachelor of Education programs will first be advised by their non-Education faculty advisor, then be advised and get their PIN from the Faculty of Education.

New students in the BA/BSc program will be advised by the Arts faculty first, then be advised and get their PIN from the Science faculty. Students in the Concurrent BA/BCS program will be advised by the Arts faculty first, then be advised and get their PIN from the Faculty of Computer Science

#### Audit and "Extra to Degree" Permission

Students wishing to audit a course or to declare a course to be extra to their program must obtain permission from the instructor and the program advisor and have the course recorded on a course change form.

#### **Course Cancellation**

If a course is cancelled, students will be notified. It is the student's responsibility to select another course with the advisor and to register for it.
