An agent of Prince Torlonia, the celebrated banker, has arrived in Paris. It is reported that his visit is for the purpose of arranging with some Paris capitalists for a new Roman loan.

The Democratic journals publish a document, signed by MM. Ledra Rollin, Etienne Arago, and some of the other Representatives implicated in the affair of June, giving their reasons for not surrendering to take their trial at Versailles.

The Legitlanist Representatives held a meeting on the 6th instant, in the Rue St. Honore, to discuss the question of the dower of the Duchess of Orleans. M. Berryer advocated the interests of the Duchess, and the majority sided with his opinion.

It contains not a single harsh expression or threat calculated to wound the susceptibility of the Emperor Nicholas, while it annuances the determination of the Government to support the Porte against all exigencies that would compromise the tignity of an independent Sovereign. Lord Palmerston Jus, likew.so, sent proper instructions to Sir Strationd Canaing, and has placed the Meditterranean fleet at His Excellency's disposal, and which has by this, in all probability, sailed for the Dardanciles. I have also reason for repeating what I have already assured you of, that France has imitated the conduct of England, and that the most purfect the conduct of England, and that the most perfect unnaimity exists between the two powers. I mentioned the opinion of the Austrian and Russian Ambassadors in Paris as to the result. I have reason to believe that the Representatives of those two powers in London have, in like manner, expressed their 'astonishment at the importance given to an affair which was originally a mere quarrel between friends;' and further, that their respective Sovereigns would be extisfied with the expulsion of the refugees from the Turkish dominions."

The Turkish Ambassador in Paris had an interview with the French Minister of Foreign Affairs on Thursday, and this interview lasted for two hours.

M. Frapoli, who was sent to Paris as Envoy from the Roman Triumvire, but whom the French Government refused to receive in that quality, was arrested on Saturday morning in a bouse in Piris, where he was convenient, and carried to the Prefecture of the Police.

The Administration of the Customs' has just published a gaseral table of the Commerce of France with her Colonies and with Foreign Countries during the year 1848. The loss experienced by the Foreign Commerce of France, in couse-sunce of the Revolution of February, amounts to 599 2000/2006, as compared with the Returns of 1847, when the total amount of the Foreign Trade the country was 2,015,000,0006.

ANNEXATION AT QUEBEC. NETTHER of the English papers; which we re-Natifica of the English papers, which we re-ceived from Quebec yesterday morning, gives any details of the Public Meeting convened there on Saturday night. The Gazette tells us that there was a meeting, that the authorities would not per-mit it to be held in the government buildings, and that it was consequently adjourned to the St. George's Motel. Dr. Bardy was called to the George's Hotel. Dr. Bardy was called to the agreement, most of the recall access to Chair, and Mr. Aubin acted as Socretary. M. L. J. PAPINEAU.-A long letter from th gentleman appears in the Quebec Independent, in answer to a request from the Commutee in that C.ty, that he would be present at the Annexation meeting. Mr. Papineau was not able to attend, but he declares his adhesion to the movement, in the most unqualified terms. We quote one para graph Had I been present in Montreal, should have been one of the first to support, with my voice and my signature, an Address so ju tilous, patriotic, strong in argument, free from passion and prejudice, as that signed by so large number of the citizens of Montreal.

Mesers, Noad and Jeffery, of Quebec, desire the Editor of the Independent to contradict the assertion that they are opposed to Annexation.

It is reported in the Frankfort cerresponde of the New York Herald that the Mediterrance squadron of the United States is about to co-operate with these of England and France in the affair between Turkey and Russia.

It was known in London on the evening of the 13th of October that Lord Palmerston and the Chancellor of the Exchequer had held that day long conference with the First Lord of the Admiralty and Admiral Dundas.
