Cold Springs Farm

A Fine Dairy Barn in Plum Hollow

This fine property was probably settled not less than 180 years ago, about four or five generations since, by Josiah Bullard—great-grandfather of a Mr. Bert Bullard. It seems that Josiah has been a favorite family name for many generations in the Old Green Mountain state—Vermont. Settlers came here mostly as U. E. Loyalists. This estate lies at the east end of upper Delta Lake and partly on both shores of this lake. It is well watered by lake, creek and springs. The property is named from the springs. Among first settlers may be mentioned the Tacka berries, Knapps, Stevens, Kilborns, Sheldons, etc.

These pioneers chopped down the great forests, got away with the stumps, gathered and piled the stones, and burned thousands of log heaps into potash. This potash and the abundant supply of beautiful furs of the day were the only articles that drew money from Montreal, while now that mammoth, mystic, marvellous machine, with its 10,000 wheels, called Commerce, transmutes every handful, every mouthful, the earth produces into gold.

Many weary years they toiled on, sometimes in lonely darkness, retiring with slow step to their humble beds, while the weird glow of their fallow fires roused the wild animals and night-birds which made night hideous as they sang a lullaby to these heroes of toil. Truly, these heroes and heroines of the by-gone times endured with patience privation and want, but they left us an inheritance, a strong mental, moral, and physical constitution, which some have recklessly squandered. This class of people laid the foundation of Ontario's greatness, and from unknown and unremembered graves are destined to rise above the clouds of obscurity and be forever encircled with a wreath of immortelles.

Where are the ten young men, boasted workers, willing to support a wife and family by going into the woods with an axe, each remove a hundred acres of forest; then remove the stumps and stones—forty years plow and sow, reap and mow by hand! The very thought would overwhelm them—the fact much more so. But neither fancy nor fact disturbed your grandmothers. Is it too much to look back, reflect, then say "O, degenerate man!"

Reader, pardon this digression, which projected itself across our path. Even in the long ago the government of the day knew that 100 acres of land was worth little to the country with out a good settler on it. Elder Stevens received lands for getting settlers; Eloiida Parish and others also drew lands.

Mr. Bert Bullard was absent a few years. He travelled some, saw much, learned considerable. He brought home many curios, among them a real banana plant, one fourth the bearing height, some five specimens in natural history. He has a steam launch on the lake near the door.

Since his return he has been adding to the original grant possessed by his father until the plantation has reached the dimensions of 540 acres. On this he has erected probably one of the most expensive, convenient and largest dairy barns in the united counties of Leeds and Grenville. It is 116 feet long, 33 feet wide, a curb roof containing a number of dormer windows, 55 feet to the peak. Well partitioned and stalled for 52 cows, facing. Managers and alleys in better form and better made than any I have previously seen—the simplest. The animals are all on the main floor, and the herd of 65 head of thoroughbred and grade Holstein step in at the door on a dead level and stand in two rows, each 100 feet long. The descent to the other end gives a frost-proof basement 100 feet long and 9 feet deep, into which all the refuse from all the animals falls by trap door. The rest of the space is used to shelter rough wagons and coarser farm implements. Those who have viewed all the outlines give him credit for being thoughtful.

Every animal has a separate ventilator and air-tight drink arrangement, with a ceaseless flow, day and night.

Silo and barn roofed with steel shingles, both clapboarded with steel and excellent taste in painting. Loft of dairy barn has room for one hundred ton of ensilage—very strongly constructed, excellent material from start to finish. Mr. Bullard seems to have a very clear

idea of what he wants and the simplest and best way to get there. This building, all points considered, will compare well with all first-class buildings of its kind in Ontario.

The horse stable has a steel exterior finish, with an overflow of water, and will accommodate 18 horses, with a large provender and grain room in the rear.

The residence is a commodious, comfortable, substantial one, with an overflow of water from a very strong spring that gushes from the base of a rock a few feet in the rear of the house.

All these buildings would be less safe, less attractive, and far less convenient if it were not for the Earl Light. It is but little use to say it is to light up a number of recesses. It seems to me that damp recesses and cellars absorb lamp light, as a cloth does moisture—it vanishes so that we get but little of it. This light appears not only to penetrate and brighten distant places, but also to get around corners. This big dairy barn is very well lighted by day or night. The work, risk, cost would be many times what it is with oil, and then only a poor light. It is but little use to say anything in favor of the "Earl Light." Just give it a chance to display its soft, pure, white light, in all its power, brilliancy and beauty—it will say more in one evening than a volume could tell. Besides, scientists and specialists have demonstrated that city gas and oil destroy nine times more of the life-sustaining principle of the air we breathe than this light, because it is a pure light. Mr. Bullard put in 25 lights and is so well pleased that he would not have one out.

A number of other smaller buildings are being arranged for, and the space occupied by these will be from a 3 to 4 acre enclosure, to be surrounded sometime by decorative hedges and a perpetual fountain. A great ledge rises a few feet in the rear of the buildings, 20 to 30 feet high, nearly perpendicular. Beyond this is a tableland, which may include over 2,000 sugar maples. If the brow of this ledge were planted with the rapid growing French poplar, it would give all a foreign look.

Near by, from under this long rock, flow three great springs. One eighth of this flow will supply all practical wants, the other seven-eighths will supply a large fish pond, stocked with choicest fish.

Life is uncertain. He may not live to put all his plans in operation. Reader, there is a charm, an unrivalled fascination about the grounds and gardens of England found nowhere else in the world—they are real miniature Edens. Many of these gardens are 500 or 600 years old. It required the training, toil, and taste of twenty generations to bring to the surface such beautiful views—a type of earth restorer. What may we not reasonably expect art and enterprise to accomplish in the many naturally beautiful farms of Leeds County?

Death of E. W. Sheldon

Recorder: At Elgin, on October 21st, one of the oldest residents of Bastard township, in the person of Elizer Wright Sheldon passed away. Born near Chantry on the 3rd of September 1819, he had attained his 86th year. He was the oldest son of the late Horace Sheldon, of Portland, who predeceased him fourteen years ago. While Mr. Sheldon was still a small lad, his father removed to Rideau Lake, near Portland. When 18 years of age he went to live with his grandfather, Jeremiah Sheldon, just south of Chantry, on the Delta Road. He married Louisa Slack of Charleston, sixty-two years ago. To them were born ten children, of whom three survive. They are Frank, Lansdowne, Wright, of Elgin, and Mrs. Empey of Alberta. Mr. Sheldon was converted at the age of 70, and was taken into the Baptist Church at Philippsville, to which he remained a consistent member. He was baptized by the Rev. S. Sheldon, while that reverend gentleman was on the Delta circuit. Last spring he fell, sustaining serious injuries from which he never recovered. His funeral was largely attended by sorrowing friends and relatives. The remains have been taken from the vault at Elgin, and interred in the family plot at Plum Hollow.

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement and such a record of cures of female troubles or such hosts of grateful friends as has Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhoea than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development.

Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

\$1000. Reward

Recent investigations have disclosed the fact that unscrupulous handlers of flour are endeavoring to take advantage of the great popularity of Ogilvie's "Royal Household" Flour by refilling with cheap inferior flour, the bags and barrels bearing the Ogilvie Brand, and selling it as the genuine article.

In order to bring the guilty parties to justice we offer the following reward:

REWARD The Ogilvie Flour Mills Co. Ltd., will pay One Thousand Dollars (\$1000.000) for such evidence as will result in the conviction of any person, persons, firms or corporations who may be refilling their bags or barrels with flour of other manufacture and selling the same as flour manufactured by the Ogilvie Flour Mills Co., Ltd.

Bradstreet's on Trade.

Montreal—There has been a quiet tone to trade generally during the past week or so. Wholesale houses report a fairly good sorting trade moving, and the business being done on account of the Christmas trade is heavy. Most activity is shown in drygoods lines. Collections are about fair. It now appears that more notes falling due on the 4th last had to be renewed than had been anticipated.

Western collections are fairly good. Prices in cheese have advanced sharply. The cheese and butter trade this year netted the farmer about \$30,000,000, and in no previous year have average prices been so high.

Toronto—The condition of trade here continues generally satisfactory. The farmers are unusually prosperous and country retail stocks are already moving well. Good sorting orders are appearing in dry goods lines, and fancy lines are very active. A fair trade is moving in groceries, and the hardware trade is good for this time of the year. Orders from the Northwest are big in all lines. Later reports say the meeting of bank paper on the 4th last was even better than expected. Canadian banks are sending money to loan in New York, and there is some stringency here, the price having risen from 5 to 6 per cent.

Quebec—Cold weather has caused activity amongst the trade, but snow is wanted to make country travel good. Arrival for holiday goods are reported satisfactory, and wholesale reports show as large as this time a year ago. Collections show a slight improvement.

Winnipeg—A more active tone is making itself felt in wholesale trade here. Top sorting trade in dry goods is very large and stocks of groceries are moving briskly. Travelers in dry goods are booking large orders for the future trade everywhere seems to be most hopeful. The demand for hardware lines is still brisk and values are generally very firm.

Vancouver and Victoria—There is a reasonable quiet tone to business along the coast, although there is a fair sorting trade going. The feature of the week is a determination on the part of wholesale growers to shorten credit somewhat. Values of commodities generally hold firm, and all kinds of country produce is especially so. The lumber and shingle business and the mining industry continues normally active.

Hamilton—There continues brisk trade with a heavy movement in all lines of Christmas goods. Country trade is fairly active and collections are fair to good. All lines of country produce are coming forward well and values are generally firm.

London—With local and country retail trade improving there is a fairly good sorting trade in wholesale lines here. Collections also are better. All lines of manufacture are busily engaged and the outlook for trade generally is bright.

Ottawa—Wholesale and retail trade is fair here for this time of the year. Collections are coming forward a little better, and further improvement in this respect is expected. Local industries are active and country trade is generally good.

BY ROYAL WARRANT, MILLERS TO H.M. THE PRINCE OF WALES

What Flour Granulation Means in Bread-Making

Flour is composed of myriads of tiny granules. To make good bread these granules must be uniform in size. In poorly milled flour some granules are large, some small. The small ones absorb yeast, "rise" and "ripen" before the large ones—the result is bread of coarse, poor texture. The large granules are not developed into "sponge," they bake into heavy hard particles, spoil the texture of the bread and make it harder to digest.

ROYAL HOUSEHOLD FLOUR is perfectly milled—all the flour granules are uniform in size—the sponge rises uniformly—the bread is even in texture—perfect in flavor—good-looking, appetising bread—easily digested.

Ogilvie's back it with their reputation by branding it

Ogilvie's Royal Household Flour.

CULTURE

On Friday last the students of the model school heard with great pleasure an address by Rev. R. B. Patterson, M.A., on the great subject of Culture. Before entering on the subject proper, Mr. Patterson said that he did not pose as an apostle of culture, and only intended to speak on the subject from the standpoint of what is read in all the leading newspapers and magazines and on what is overheard from the lips of public opinion.

Mr. Patterson took the subject up under three divisions—

1. Definition of Culture.
2. Culture inseparable from religion.
3. How Culture is obtained.

The definition of Culture which was given was "Culture is the endeavor to know and use aright the nature which God has given us, and in the world in which He has placed us—a reaching forward for more knowledge and more perfection." There are many different kinds of culture—hand, voice and eye culture, horticulture, mind culture, and aesthetic culture, but the students in training should not aim at any special culture, but rather at an all-round perfection. The key-notes of culture are intelligence and beauty, and we should strive to attain not superficial culture, but the higher culture, deep, broad and beautiful. Culture is the endeavor to realize nobler self and the study of the nature God has given us, not the study of our environments, or of the methods of teaching only.

Culture is inseparable from religion. Man is naturally a religious being, and his duty is to make the most of his life, not to make a shining mark in any profession, and not to amass wealth, for the world judges man not by what he has but by what he is. True culture looks far beyond a means of livelihood into that glorious eternity where the command and ideal, "Be ye perfect," the goal to which each should aspire, is realized. Humility is consistent with self knowledge, and until Christ came in great humility man never knew the value of soul. There fore, our duty in life is not to work for self alone, but to make the most of the nature God has given us.

But how is that culture to be obtained? We must pursue it with that unflinching desire to succeed which makes success a foregone conclusion. All virtue and goodness make man great in a world of duty, and failure here may, by God's grace, be success there. The great secret of culture is self forgetfulness. Self knowledge, self reverence, self control are not attained in themselves; we should strive to attain something that compels them.

In conclusion, culture is, therefore, through God, trustfulness, the power to start, forget ourselves, and do our duty to the best satisfaction of God and man. Duty done is eternal happiness, and happiness comes only through the harmonious development of one's nobler nature, physically, mentally, morally, spiritually.

SOONER OR LATER

Every man, woman and boy will wake up to the fact that we undersell every man in this part of the country in Men's, Youths' and Boys' Clothing.

The Power of Spot Cash and One Price to All

Is a magnet, when used by a skilled merchant, that will bring all competitors to their knees.

There is no use in talking, the clothing merchant that gives credit has heavy losses, and we all know who makes those losses good.

We Have No Losses—We give No Credit

And no house that does give credit can sell with as small margin of profit as we do.

Now, Sir: You may as well come first as last and see if we can prove what we say.

Come first time you go to Brockville; for come you will some day, perchance after some one gives you the "Haw-Haw" because you bought clothes—so did the other man, but he got much better value.

Our Men's Suits at \$10.00 are eye-openers to the men who purchase at old-time-method business places.

Our \$10.00, \$12.00 and \$15.00 Overcoats are what you would expect them to be where there are no losses to be made up.

Boys' Suits at \$4.00, \$5.00, three piece suits, are such as you are looking for.

Purchase \$10.00 worth from us and we will pay one way fare to Brockville.

The Greater Semi-ready

ARE YOU A PRISONER?

THOUSANDS of men are prisoners of disease as securely as though they were confined behind the bars. Many have forged their own chains by the vice of early youth, exposure to contagious disease, or the excesses of manhood. They feel they are not the men they ought to be or used to be. The vim, vigor, and vitality of manhood are lacking. Are you nervous and despondent? Tired in the morning? Have you to force yourself through the day's work? Have you little ambition and energy? Are you irritable and excitable? eyes swollen, depressed, and haggard looking? memory poor and brain fagged? Have you weak back with dreams and losses at night? deposit in urine? weak generally?—you have

The Seal of Approval

Is given by Physicians to

Dr Hugo's Health Tablets for Women.

Doctors generally prescribe their own remedies. They haven't a good word to say for liquid preparations, and people who know what these preparations contain, don't blame the doctors. But it is different with Dr. Hugo's remedy. Honest physicians are obliged to admit its merits. They themselves prescribe many of its ingredients. Some give our Tablets to their patients (see testimony below) knowing that

They Make Healthy Women

After consulting my physician and being told that I was suffering from a run-down condition which accounted for many other ills, with which I was suffering, I was presented with a box of brown tablets. I took them and in less than a week began to improve, and before two weeks had elapsed was so much better that I felt congratulations were due my physician. Upon complimenting him I was honestly informed by him that I had been taking Dr. Hugo's Health Tablets for Women. It is of little consequence how I obtained the medicine, but of one thing I am certain, I have received greater benefit from it than any other medicine I ever used. **MISS FLORA CLARK, Island Pond, Vt.**

Death of Rev. R. Oliver

The trial scene of 'Irene ended for a good man on Friday evening last, when the Rev. R. Oliver of Frankville, who had been ill for several weeks, closed his long career as a faithful shepherd of the Methodist church, and passed to his eternal reward. His meek and unassuming grace, his undoubted sincerity and genial manner, made him a favorite with the people of the many circuits on which he toiled during his long career as a Christian minister, and this was amply evidenced by the presence at his obsequies of those to whom he had ministered long since and who, in some cases, drove many miles to add their last tribute of respect.

As a young man he did arduous missionary work in the then sparsely populated parts of south Eastern Nipissing, and to the interested listener he could tell stirring tales of trips by canoe over lakes and streams of those wilds. Bath, Vankleek Hill, Renfrew, Richmond, Addison, Pittsburg and Frankville were some of his later charges, where his fervent and energetic soul guided men to a "clear purposed goal."

The sad drowning of his son George at Saskatoon, a few months ago, was a heavy blow, from which the deceased never seemed to recover, and which, taken with this second bereavement, makes the grief of the stricken widow and children particularly distressing. The funeral services held in the Methodist church, Frankville, Monday at 2 p.m., were in charge of the Rev. S. J. Hughes, M. A., Chairman of the Brockville District, assisted by several ministers of the district. The following acted as pall-bearers: Revs. Crane, Perley, Burnett, Garvin, Robertson, and Williams. From Proverbs X 7: "The memory of the just is blessed," the Rev. Mr. Hughes preached a very helpful and sympathetic sermon to the bereaved family and large congregation, after which the burial service was read and the body taken to the Athens vault. There survive to mourn their

loss the widow with four children, Campbell, Alice, Kathleen, and Pansy, who have the sincerest sympathy of a wide circle of friends.

The Gusage Case

In reporting a meeting of the directors of the Kingston House of Industry, the Whig says: "The case of a man named Gusage was considered. He is an Englishman who was disabled at Cornwall. The Davis company provided a permanent home for him in the House of Industry at Athens. Gusage didn't like that place and wished to come to the Kingston house. Miss Machar wanted the man admitted temporarily here where he is at present. This was opposed by Mr. Meek, Mr. Craig and Mr. Crothers. The Kingston house could not be used for those who were provided for elsewhere. The board decided to send the man back to Athens which House of Industry had been given by the Davis' Company a sum of money to keep Gusage the rest of his life. Miss Machar intimated that she would pay a month's board for Gusage till other provision could be made for him."

The News of the World

In the matter of news The Weekly Globe and Canada Farmer covers the whole field. All items of interest are collected, sifted, condensed and presented in an easily accessible and readable form, so the busy farmer may keep himself thoroughly posted regarding the home and foreign events of importance without wasting time. Every effort is made to secure information at first hand to insure its authentic character. The Weekly Globe and Canada Farmer is a high-class newspaper of national interest, sympathy and outlook. It is read regularly by people living in the United States and in all parts of the British Empire. For widespread circulation it is, perhaps, unequalled by any other newspaper published on this continent.

Additional Loal

The ordinance of Baptism will be observed in the Methodist church, Athens, next Sabbath morning.

The Rev. S. J. Hughes has been invited to take anniversary services in Winchester, his former charge, next month.

Mr. F. N. Scovil has received a diploma from the Exhibition Branch of the Canadian Government at Ottawa, certifying that his sample of maple syrup, among others, displayed in the Canadian Section of the Agricultural Palace, at the St. Louis World's Fair, 1904, was successful in winning a gold medal. We congratulate Mr. Scovil on the distinction his exhibit gained. This is but one more proof of our contention that the best maple syrup in the world is produced in Leeds county.

The Reporter Hunt Club returned on Friday last from another successful trip to the valley of the Magnetawan in Parry Sound district. There were eight in the party, and they brought home 16 fine deer. The hunters this season were B. Loverin, R. D. Judson, Athens; B. W. Loverin, Greenbush; George Beecher, L. R. Cossit, E. S. Hatchkiss, C. I. Stagg and A. S. Wright, Brockville. Their new lodge in the wilderness furnished very comfortable quarters and the whole trip was thoroughly enjoyed.

The temperance people of Gananoque are not willing to acknowledge defeat on account of their petition for local option being thrown out by the town council. In the R. T. of T. and Manhood business meetings, it was unanimously decided to push another canvas of the electorate at once and secure the signatures of the merchants, business and professional men and manufacturers to add to that of the workmen which was previously sent in. A circular has been issued to the electorate comparing the Scott act and local option laws.

A nice juicy haunch of venison adorned the Reporter editor's table this week, a gift from Mr. R. D. Judson—a part of the fruit of his first trip to the wilds of Parry Sound. He found that deer hunting contained all the pleasure and work that was on the programme, and besides he had an exciting experience that the other members of the Reporter Hunt Club missed, viz.: a wrestling match with a Peterborough canoe. Fortunately, the contest took place in shallow water, for the canoe came out on top, and as R. D. waded ashore he reflected that while the excitement didn't last as long as a bogging experience he had last spring on the Pacific Coast, it was just as wet and just as satisfying.

The reopening services of Addison Methodist church on Sunday were enjoyed by large congregations. The Rev. F. C. Reynolds gave able discourses and excellent music was furnished by the choir. Extensive improvements were made on the interior of the church, producing a chaste and beautiful effect, and hand some new memorial windows were contributed by the Booth, Brown, Wittse, Mullen, Moore, Duclon, Arnold, Burnett, Empey, Taplin and Stowell families. The chicken supper and entertainment on Monday evening was a great success, and altogether the pastor, Rev. H. W. Burnett, and his co-workers have every reason to be satisfied with the result of their labors. Of the musical part of the programme, which was given by the Athens Methodist choir, the Recorder says: "It was really a treat in every manner. Rev. Mr. Hughes and the Athens congregation have reason to be proud of such a fine musical organization, and Mr. Clow is certainly to be congratulated on keeping together such a large number of fine vocalists."

Choir Concert Notes—Dec. 6

A special train is arranged for from Westport, and from present indications it will bring 150 people from along the line.

Remember the plan opens Monday next, the 27th. There will be reserved seats for all, but you had better secure your seat early to get it where you want it.

Out of town people should speak for seats not later than Saturday, 25th inst.

Enquiries from surrounding districts, with the enthusiasm locally, point to a full house.

Remember, this is an extraordinary event. A list of artists such as Harold Jarvis, Harry Bennett, and Miss Grace Merry would command double our prices in a city.

THE TOLL GATES

The meeting of the joint committees of Brockville and Elizabethtown, held in Brockville on Friday last, was harmonious but not particularly fruitful in the matter of encouraging results.

Reeve Pettem was strongly in favor of abolishing the toll gates, and thought the town should readjust the market fees, charging an all-round fee of 5c for rigs and wiping out the special fee now charged for meats. In any general scheme for abolishing all the gates in the county, he thought the removal of the two gates that Elizabethtown

controls should be considered that township's share of the cost. Alderman Patterson said he thought the market fees would be readjusted to meet the views of the people, and would like to see the township gates removed.

Finally, it was decided to call special meetings of the town and township councils at which delegations could be appointed to wait on the counties' council this week.

A VALUABLE FARMERS' BOOK

The Farmers Manual and Veterinary Guide is the title of a book just issued by the Family Herald and Weekly Star of Montreal. It is safe to say that no book has ever been published giving in such a clear and concise form just what farmers want to know. It is publicly recommended by such authorities as the Hon. N. Monteth, Minister of Agriculture of Ontario; Prof. Day, O.A.C., Guelph; J. A. Ruddick, Dairy Commissioner, Ottawa; F. W. Hodson, Dominion Live Stock Commissioner, Ottawa; M. Cummings, Prin. Agr. Coll., Truro, N.S. and others. This book is not sold for cash at any price. It can be had absolutely free. Full particulars may be had at this office, or by writing to the publishers, The Family Herald and Weekly Star's new picture this season is a gem, and is in great demand. A sample of it can also be seen at this office. The Family Herald's offer this season is the biggest value we have seen. Our farmer readers should see the book before subscribing to any other paper.

The great curative powers of this remarkable remedy is attracting much attention and everywhere it has been introduced it is winning its way among the people. It is a powerful, penetrating oil which we believe has a larger percentage of cures of rheumatism to its credit than any other remedy ever offered for this dread disease: It acts directly on the bone—the lodging place of rheumatism—dispels the poisonous acid from the joints to be carried out of the system in the natural way and by its splendid work has proved that the surest and quickest method of getting relief from the torturing pains of rheumatism, as well as the common sense way, is by a direct attack on the affected part. For the small ills of life it is invaluable.

Mrs. W. H. Thomas of Lombardy writes as follows:—I was subject to stiff neck. Suffered for years and have been as long as two weeks at a time not able to turn my head without turning my whole body. I doctored and got relief only to have the trouble return again. In August last I had a severe attack and I tried Tuck's Rheumatic Bone Oil having been reading in the papers about how good it was for rheumatism, &c. Three applications completely cured me and I have had no return of the trouble since. I recommend Tuck's Bone Oil to everyone.

Mrs. W. H. Thomas, Lombardy, Ont. For rheumatism, lame back, neuralgia, sprains, coughs, colds, quinsy or bronchitis, in short for any and all kinds of inflammation there is nothing to equal Tuck's Bone Oil. A bottle should be on the shelf in every home.

For sale by all medicine dealers at 50c a bottle or sent prepaid by The Tuck Bone Oil Co. Limited, Smith's Falls, Ontario.

SHERMAN—MOTT

A very pretty wedding took place at the parsonage, Addison, on Wednesday morning, Nov. 15th, when the Rev. H. W. Barnett, B. D., united in marriage Mr. Morgan Sherman, of Maitland, to Miss Ethel Mott, one of Athens' charming young ladies. The bride was very prettily attired in brown silk, with white trimming, and looked charming.

THIS BOY CURED

Mrs. A. C. Fisher's Recent Statement: November, 1902, my son Lauren, was taken down with Pneumonia. Two physicians in town attended him. He lay for three months almost like a dead child. His lungs became so swollen that his heart was pressed over to the right side. Altogether I think we paid \$140 to the doctors, and all the time he was getting worse. We commenced the Dr. Slocum treatment. The effect was wonderful. We saw a difference in two days. Our boy is well and strong now and able to enjoy life to the full, and has not taken a drop of medicine since that time. 1902. A. C. FISHER, Mountmorris, Ont.

TAVERNS OF OLD EDINBURGH. They Were Popular Resorts With All Classes of Men.

Some devotion may be found for the universal devotion to tavern life which formerly prevailed in the north-western part of the London Globe.

Another reason for the popularity of the tavern was the cramped and limited accommodation in the tall flats and lanes, where a large family was often crowded together.

Even men of the highest social position preferred the ease and freedom of the tavern to the more formal and decorous dinner at home.

The tavern was a place where men of all ranks met on equal terms, and where the day's work and where fun and merriment were as unrestrained as at "Poodle Alley."

The quality of the food and drink was of a high standard, and the prices were moderate.

ROWDIES BREAK UP MEETING. French Presbyterian Evangelist Object of Another Attack.

Montreal, Nov. 13.—Following after the two demonstrations which have been made against Mr. Mage, the French Presbyterian evangelist, who is endeavoring to hold sessions in the east end of the city, another attack was made last evening.

In spite of disarrangements Mr. Mage proceeded to hold his meeting. Crowds gathered outside, but the presence of a considerable police force kept them in fair order.

THE SUNLIGHT WAY

RUB ON SUNLIGHT SOAP. LEAVE 30 TO 60 MINUTES. RINSE WELL.

Sunlight Soap is better than other soaps, but is best when used in the Sunlight way (follow directions).

Hard rubbing and boiling are things of the past in homes where Sunlight Soap is used as directed.

Sunlight Soap will not injure even the daintiest fabric or the hands, and the clothes will be perfectly white, woollens soft and fluffy.

The reason for this is because Sunlight Soap is absolutely pure, contains no injurious chemicals—indeed, nothing but the active, cleansing, dirt-removing properties of soap that is nothing but soap.

YOUR MONEY REFUNDED. By the dealer from whom you buy Sunlight Soap if you find any cause for complaint.

THE OUTLOOK BLACKER AT ST. PETERSBURG.

The Bank Clerks, Telephone Girls and Professional Leagues Resolve to Join the Strikers.

Workmen Score de Witte and Taunt Him With Crushing Instead of Helpine Them.

St. Petersburg, Nov. 20, 2 p.m.—The outlook for an early collapse of the strike is more gloomy to-day. The situation is distinctly more menacing. The council of workmen's delegates or strike committee are manifestly encouraged by the extension of the strike to St. Petersburg, various organizations, including the bank clerks, telephone girls and some of the professional leagues have voted to join the movement. However, it is certain that the Workmen's Council have received mysterious supplies of funds and consequently they present a bolder front.

The Workmen's Council returned a scornful reply to Count Witte's personal appeal to his "brother workmen," pillorying the Government's profession of solicitude for the workmen and renewing their demands for the immediate abolition of martial law in Poland.

Count Witte's attempt to negotiate directly with the strike leaders has come to naught, although he offered concessions in the case of the Cronstadt mutineers in the event of their being condemned to death. But the leaders refused compromise. "All or nothing" was their response.

The Imperial Ukase on the land question issued to-day, although it wipes out about \$40,000,000 of the peasants' arrears of debt, which under original circumstances might have been received with joy, is another disappointment. The promise of additional lands are too vague to calm the agitated, starving peasants, who in the valley of the Don and Vnarg are again marching, pillaging, burning and murdering.

No confirmation has yet been obtained of yesterday's report of a false Emperor leading the peasants of Penza.

The mill and factory owners at a meeting just held while offering to make some concessions in the matter of hours of labor generally to the workmen, took a final decision unless the men resumed work on Monday they must close down indefinitely. Should the men be locked out in the face of winter it would only make the situation more desperate.

The news from the provinces shows that practically no movement has been started there in support of the general strike but there is a deep suspicion that this may simply be the hull of preparation.

The Social Democrats and Revolutionists are keeping their plans dark. Their organizations have ramifications through out the country and at a signal they might again be able to bring the industries of the country to a standstill.

WITTE SCORNED.

Council of Workmen Reply to Him With Bitter Taunts.

St. Petersburg, Nov. 20.—The text of the resolution adopted at the meeting of the Council of Workmen's Delegates in reply to Count Witte's appeal to the workmen, is as follows: "The Council of Workmen's Delegates expresses astonishment at the Emperor's favorite, who permits himself to call the workmen of St. Petersburg his brethren. The proletariat is not related to him in any way.

Count Witte appeals to us to be compassionate of our wives and children. The Council in reply taunts the workmen with a broken by a tremendous sea, with her officers so badly injured that one, at least, of them had to be taken to the hospital, where it is considered doubtful if he can recover.

The steamer had only just got squared away off Simbirsk in her course for London with the wind south-south-west, when a huge wave caught over the bow of the steamer as she was in the trough of the sea, and struck the pilot-house, smashing the roof and front and carrying away compass and fixtures. The sea also broke in a portion of the woodwork in the smoking-room, washed out the forward state-rooms, and flooded the social hall and forward cabin.

Captain Ellis and Third Officer Glynn, who were in the pilot-house, were thrown against the wall and the third officer so badly hurt that he became unconscious. He was badly cut on the forehead and temple, his spine was hurt, and he has other internal injuries.

Capt. Ellis was hurt about the legs and cut about the face and hands, but was able to move about the deck. The steamer may be able to sail at noon to-morrow.

ONTARIO FRUIT CROWERS

Want to Import Labor From Europe Under Contract.

A Toronto despatch: The Ontario Fruit Growers' Association yesterday morning elected the following officers: President, J. S. Scott; Vice-President, E. Morris; Secretary, J. W. Bell; Treasurer, C. W. Bell; Honorary Directors, Thomas Bell, Lindsay and A. M. Smith, Fort Dalhousie. The following resolutions were adopted: "That owing to the extreme scarcity of labor, the Dominion Parliament should allow the importation of labor from North Europe under contract, during the continuance of the season."

"That the delegation to appear before the Tariff Commission argue that the importation or sale of adulterated canned fruits be prohibited save where the can shows on the label the contents of the package."

The association will urge the government to establish a new station in

southern Ontario, where experiments in hybridization, cross breeding and the organization of new varieties may be carried on. It was also suggested that the Postmaster-General of Canada be urged to institute a system of rural mail delivery.

The retiring president, Mr. A. McNeill, of Ottawa, stated that prosecutions were to be instituted against some growers who had made shipments of fruit to the west which were "a scandal and a disgrace" to Ontario.

A FIVE-YEAR-OLD HERO.

Little Boy Gave Up His Life to Save a Girl.

New York, Nov. 20.—A hero under circumstances that might well have tried the courage of a grown man, little Abraham Diamond, five years old, yesterday gave up his life in Jamaica, L. I., to save the life of a little girl even younger than himself.

Facing a locomotive charging down upon him at the Brenton avenue crossing this child pushed the little red-cloaked figure of the girl from the tracks barely in time. The next instant he was ground under the great driving wheels, which cut off both legs and an arm. He lingered for hours before death ended his sufferings.

On the same track not fifteen feet distant, Kingston Blauvelt, the playmate of Abraham Diamond and a year his senior, stood too horror-stricken to move, and he, too, was struck by the engine that hurled him fifty feet, fracturing his skull.

The two boys died in adjoining cots in the Jamaica Hospital last night. They had bidden each other good-bye with a courage that was marvellous, for they knew they must die. Turning to his mother, little Abraham said with his last strength: "Don't cry, mamma. You have Selby."

Selby Diamond is Abraham's six-year-old brother. The two were crossing the tracks yesterday, when Abraham's instinctive bravery in saving the little girl ended his own life.

FATAL MISAPPREHENSION.

Hanged Himself Thinking He Had Killed His Wife.

St. Apolline, Que., Nov. 20.—Believing that he had murdered his wife, Alexander Labrie, one of the best-known farmers in this district, committed suicide by hanging himself in his shed at his home here this morning. A difference of opinion on some domestic subject between husband and wife resulted in a serious quarrel. In a fit of blind rage Labrie snatched up a loaded shotgun which was standing in the corner of the kitchen, and aiming it at his wife, pulled the trigger. With a piercing shriek, Mrs. Labrie fell unconscious, and when she awoke she found her husband lying on the floor.

Believing that the woman was dead and that he was her murderer, Labrie went to a shed in the rear of his house and hanged himself to a beam with a piece of rope. A few minutes later a neighbor drove up, entered the kitchen, and found Mrs. Labrie lying unconscious on the floor. She was unharmed and soon recovered. She had fainted when her husband pointed the gun at her head, and the charge had passed close to her head, but had missed her entirely.

When the woman was sufficiently recovered a search was made for Labrie. His lifeless body was found a few minutes later, hanging by a rope to one of the rafters of the shed. Labrie was 40 years of age.

HIGHEST IN THE WORLD

Is What Certificate of Dominion Dental Council Will Be.

Toronto despatch: All yesterday was spent by the Dominion Dental Council in discussing the report of the Committee on Constitution, the question of matriculation being one of the most difficult involved, owing to the various standards existing in the Province. It was finally agreed to adopt a standard which recognizes matriculation into any institution in Great Britain or Canada in medicine and dentistry, by the General Medical Council of Great Britain or matriculation into the faculty of arts of any Provincial university of Canada.

Dentists who have been in practice ten years can receive a certificate of the agreeing Province of the Dominion immediately, if desired; those who have been in practice less than ten years either have to pass the examination or wait until they have been in practice ten years before receiving a certificate; those who are now students must serve four years and then pass the examination; and those who hereafter become students must pass the matriculation standard agreed upon, and pass the examination and graduate through a Canadian dental college.

The object of the Council is to nationalize the profession, so as to make the arrangement reciprocal between all the Provinces and Great Britain. Rules of a very stringent nature were adopted, which will thoroughly safeguard the examination, and the leading principle of the council is that from the first the certificate of the Dominion Dental Council shall be the highest in the world.

SUICIDE AT THE FALLS.

Niagara River Was a Good Enough Burial Place for Him.

Niagara Falls despatch: Eric Anderson committed suicide by going over the Falls some time last night. His coat was found at an early hour this morning in the pool Park, near the bank of the river, above the Falls. In the pocket were two letters, one from Andrew Anderson, of 9 Easton street, Kane, Pa., to his brother Eric, and the other a letter of farewell to Andrew from the suicide. Anderson was a Swede, and the letter was in his native tongue. It stated that the writer was too poor to live longer, and was going to leave a world of trouble. He asked his brother not to think about his death, and to say good-bye for him to his mother.

"We will meet on the other side of the grave," he says in one place, and again, "My burial place will be the roaring Niagara. I leave good-bye to my poor devil."

LET THEM ARBITRATE IT.

Trouble of Newfoundland With the United States.

London, Nov. 20.—Referring editorially to the Newfoundland-United States dispute, the Times says that the subject is a complicated and difficult one, and obviously requires careful handling by the Imperial Government. That the result of the present negotiations will be a satisfactory one there is no reason to doubt, for there is no ground for supposing that the United States are approaching the question with any desire but that of arriving at a reasonable settlement.

In case of any difficulty in arriving at an agreement by direct negotiation it would seem but natural to refer the whole matter to arbitration. The case seems eminently fitted for that mode of settlement, for it is one that, while in itself extremely contentious, is not so vital to the interests of Newfoundland or so bound up with the question of national honor as to be unsuitable for submission to the judgment of an impartial third party.

"SAVED MY LIFE"

—That's what a prominent druggist said of Scott's Emulsion a short time ago. As a rule we don't use or refer to testimonials in addressing the public, but the above remark and similar expressions are made so often in connection with Scott's Emulsion that they are worthy of occasional note. From infancy to old age Scott's Emulsion offers a reliable means of remedying improper and weak development, restoring lost flesh and vitality, and repairing waste. The action of Scott's Emulsion is no more of a secret than the composition of the Emulsion itself. What it does it does through nourishment—the kind of nourishment that cannot be obtained in ordinary food. No system is too weak or delicate to retain Scott's Emulsion and gather good from it.

FIVE BURNED ALIVE IN A TENEMENT FIRE.

A New York Italian Tenement House Set on Fire by Incendiaries This Morning.

Three of Those Burned to Death Were Kneeling in Prayer When Fire Reached Them.

New York, Nov. 20.—At least five persons were burned to death in an Italian tenement house fire at 221 East 73rd street early to-day. The building was six storeys high, and the sleeping tenants on the upper five storeys were made prisoners by the flames, with the ground floor a roaring furnace beneath them. Three of those who lost their lives were kneeling in prayer when the fire reached them.

Within the first hour after the fire was under control the bodies of two women and three men had been taken from the stairways between the second and third floors. The police believe that the fire was started by an incendiary. It began in a heap of rubbish at the bottom of an air shaft, and spread through the interior of a grocery store on the ground floor. A policeman saw the fire first just as it had begun to creep up the air shaft. He ran into the building, pounding on the hall doors all the way up to the sixth floor to awaken the tenants. The fire followed him so swiftly that when he reached the top floor he was obliged to send the inmates there out by the fire escapes to save them from suffocation. Within

PROPOSAL OF CENTRAL PRISON SCHOOLMASTER.

Eighth Annual Conference of Canadian Charities and Correction—Classification of Prisoners—President Farewell on Treatment of Inebriates.

Toronto despatch: In opening the eighth annual conference of the Canadian Charities and Correction Association at the Normal School yesterday afternoon, Mr. J. E. Parnell, K. C., the President, dealt with the treatment of inebriates. "The subject must be one of more vigorous and rational legislation," he said, "so that they may be made to do their duty as to supporting their families, and to cease being a nuisance and a menace to society and they and their families be a charge upon the public. The taxpayer cannot afford to have these men drift into a criminal course of life without at least trying the effect of the probation system. Neither can the public afford to have the person who is for the first time convicted of a criminal offence locked up and guarded, clothed and fed at the public expense in the jail, where he runs great danger of becoming a habitual offender. From association with old offenders, he acquires the habits of the criminal class, and the taxpayer is forced to support him for the remainder of his life, without locking him up, is worth a trial."

The Chairman proceeded to say that Provincial men and women had been urged to investigate the system. The speaker said that the growing practice of employing young children in factories required great vigilance, and maintenance of a large number of families, the result of idleness and delinquency on the part of their young children's labor. The desertion of families by drunken men, and the consequent exposing of the wife and children to suffering, as well as the danger of the children becoming recruits for the criminal army, should be made the subject of legislation and such men should be placed on the probation system. The infliction of long or long periods of imprisonment should be the punishment for each man who refused to make with the probation system.

Mr. Warrington, K. C., Hamilton; James Mitchell, Goderich; Sheriff D. M. Cameron, London; Dr. Bruce Smith, Mr. Alex. Shaw, K. C., Mayor Urquhart, J. J. Kelso and Mr. E. H. Shuman also spoke. From Halifax in a letter expressing regret at his inability to be present, and in passing, let me unite in heartily welcoming our partners in the good work. There has not been long since we are banking his its shoulders.

Mr. Parnell, K. C., was a brilliant assembly of the wealth and fashion of Toronto at the horse show. Secretly a years before receiving a sudden absolution of misery, red plots of pestilence and crime.

"Would that our wealthy citizens could be brought to take fore interest in charitable work. Would that they could fully appreciate the responsibilities which the making of their wealth entails. Such of them as have leisure and are pleasure-loving, should be encouraged to do some public duty added sweetness to the cup of pleasure. For my part, I look back upon my connection with the city charities, and with conductors like the late W. P. Bell are about the best part of my life here."

"The Classification of Prisoners" was the subject introduced at the evening session by Mr. Hamilton, C. W. C. The fundamental difficulty, he explained, was in regard to money, for to keep one class of prisoner away from another class required buildings spread over large areas, greater expense in providing for their support, and the consequent necessity of additional guard.

Mr. Carleton urged that pressure should be brought to bear on the Government to try and remedy the matter, and he called attention to the lack of proper matriculation at the Central Prison, which followed.

In the course of the discussion with reference to the Central Prison, the following some proposals were in their element when they had others around them as in the case of the young man, who was arrested in the case of an offender who was held for as a day or two at their own expense, and in the case of their second appearance in court. Mr. Parnell, K. C., was the first to propose that the young man of eighteen or twenty, he believed this would lead to a reduction in the number of criminals.

Mr. O'Sullivan, superintendent of the Mercer Reformatory, described the system of reformatory for that institution, and denied the suggestion that at the Mercer the first reformatory was allowed to associate with the hardened criminal.

Mr. Bruce Smith complained of the inadequate character of Toronto jail, and suggested that a copy of the rules be sent to make proper structural alterations.

Mr. Beverley Jones denied the statement of the statisticians at Ottawa that

a few moments more on all the floors below the fire escapes were packed with Italians, whom the flames had cut off from escape by the interior stairways.

When the firemen arrived with their ladders nearly everybody on the fire escapes were kneeling in prayer or counting rosary beads. Adding to the pathos of the scene was the action of the men, who stood with their arms full of personal possessions, while their wives fought unaided to protect the children from being trampled by the crowd or suffocated by smoke.

Every one on the fire escapes was saved by the firemen. The group of dead was found on a stairway near the second floor. On the next stairway above the firemen found the bodies of two women and one man, who had evidently knelt together where they died.

The dead are: Giuseppe Randazzo, Antonio Lorea, Calisto Tiazza, Santa Tiazza and Antonio Zerrade.

The lessee of the house told the police to-day that the Black Hand Society had recently sent him letters demanding \$2,000. Although the demands did not state what the penalty was, the police refused to pay the money, the police have begun an investigation in the belief that the fire was started by the writer of the letters.

there were more criminal children in Ontario than any other Province. The boys who appeared in court were included in the record, and the actual fact was that in Ontario children were better looked after in this way to prevent their becoming criminals.

Professor G. M. Wong, M. A., described the work of the Ontario Society for the Reformation of Inebriates, and submitted that the present system of dealing with drunkards was wrong. He claimed that the imposition of a fine or short term of imprisonment was not of much value, and that for the inebriate the only thing possible, while for the inebriate in the early stages he recommended the probation system.

Dr. E. J. Barrick spoke on the subject of the prevention of tuberculosis.

SUNK IN A QUICKSAND.

Edna McDonald, of Denver, Was in Up to Her Neck.

Denver, Nov. 20.—Miss Edna McDonald, who lives at Centre street and South Sherman avenue, had a narrow escape from death the other night, and it was due only to the passing of G. D. Johnson that her life was saved.

Miss McDonald was returning alone from church late in the evening, in crossing the road at the corner of Exposition street and South Sherman avenue she felt the ground suddenly give way beneath her. Her body began to sink slowly through a deep bed of slime and mud. She had sunk to a depth where only her shoulders were above ground. Her body was so closely surrounded she could no longer struggle, when her terrified screams attracted the attention of Mr. Johnson. He ran to her assistance.

Although a large, powerful man, his strength was inadequate. He tore some boards from a fence, and threw them across the quagmire, was able to reach the almost exhausted girl. Even with the heavy purchase of his strength on the boards, he could do nothing, however, and was compelled to place a board beneath Miss McDonald's chin to keep her from sinking further in the depths of mud, while he ran three blocks for help. He aroused the neighborhood, six men volunteered to help him, and due to their combined efforts, Miss McDonald was finally extricated.

FAMILY OF CRIMINALS.

Montreal Father, Mother, Two Daughters and Four Sons.

Montreal, Nov. 20.—The record of a family named Bastons, all of whom are now or have recently been in custody, reveals a deplorable criminal tendency. There are eight members of this family—father, mother, four sons and two daughters. Several years ago the father was sent to St. Vincent de Paul Reformatory for five years on conviction for theft, and that three sons were sent to the same institution for three years. Jean, a minor at that time, was taken to a reformatory and confined there for three years.

The mother and two daughters were sentenced to a term in jail. The conviction in each case was for theft. Jean, the youth, served his term in the reformatory, but to-day in the Recorder's Court he pleaded guilty to a charge of having stolen some lead pipe, and it is alleged that he also stole a horse and a pig from a farmer at Longue Pointe.

He was remanded for sentence, but bids fair to say a visit to the other members of the family, who are still at St. Vincent de Paul.

KING WOULD A-SOARING GO.

And Now Spanish Aeronaut Wants \$12,000 Damages.

Paris, Nov. 20.—A despatch to the Temps from Madrid says that Fernando Duro, an amateur aeronaut, will sue King Alfonso for \$12,000 for damages to his balloon. The King was attending the recent contest between Duro and another aeronaut, and his balloon was unattended. He entered the air and began throwing out ballast, intending to make an ascent. One of His Majesty's aides arrived, and, realizing that the King was engaged in a dangerous feat, clambered into the car as it was rising and ripped the balloon for the purpose of letting the gas out. The King, of course, did not ascend.

He was later very angry with his aide, but ultimately forgave him, admitting that he himself had been foolish. Duro's efforts to obtain compensation for his damaged balloon were in vain, and he has since been very angry with the court.

LOCAL ITEMS

—Select Oysters, Wilson's Meat Market The counties council is in session this week.

Dr. J. F. Harte has been appointed a coroner for this county.

Mrs. N. Botsford has returned to Athens from Watertown, N.Y.

Last week it was the same old story — no cases for the division court.

Miss Bessie Barrie of Ogdensburg was last week the guest of Miss Addie Wilson.

Miss Mollie Robeson, modelite, will teach a school near Westport during 1905.

Miss Carrie Redmond is spending a couple of weeks with friends at Lyn and Seeley's.

—Parties requiring graves dug in the Athens cemetery are requested to apply to Clayton Witse, caretaker of the vault.

Mr. John Poland will spend the winter in Quebec, and Mrs. George Mott will occupy his home during his absence.

A meeting of the ministerial association of Brockville district will be held in Athens on Tuesday and Wednesday, December 5 and 6.

On Wednesday last, at his residence, Brockville, Rev. L. A. Betts united in marriage Mr. Ed. Curry of Athens and Miss Pearl Kelsey of Charleston.

Mr. James McArthur, cheesemaker, has returned to his home. Next season he will be employed in the factory of Mr. Wm. Henderson, Lake Elzoida.

Mr. Philip Hollingsworth and family have returned to Athens from Wagarville, where Mr. Hollingsworth had charge of a factory during the past season.

Mr. Flood has the new flour and grist mill at McIntosh Mills nearly completed. It occupies the site of the old mill and is being fitted with modern machinery throughout.

On Wednesday evening last, in Brockville, the Rev. D. Strachan united in marriage Mrs. Julia Simes of Athens and Mr. John H. Livingston of Hard Island. The Reporter extends congratulations and best wishes.

—The roll of successful graduates of the Brockville Business College is constantly increasing. Miss Myrtle Marks has a position in Watertown as stenographer, and Miss Helen Fairbairn holds a similar one in Brockville. The Brockville College is a leader.

After a careful investigation of the merits and prices of different pianos, the committee appointed to buy a piano for the new town hall have selected an "Orme." If the instrument proves equal to the firm's reputation for reliability the wisdom of the committee's choice will be amply verified.

On Saturday evening Mrs. Susan Cheeseman was returning home, carrying some small parcels, when she made a misstep and fell heavily on the sidewalk. Her left hip was injured so that she was unable to rise, and she was carried to her home and medical aid summoned. The extent of the injury is difficult to determine, but it is probable that Mrs. Cheeseman will be confined to her bed for several weeks.

A lodge of the I. O. O. F. is being organized at Newboro.

The Reporter returns thanks to Mr. B. Loverin for a choice roast of venison. Messrs R. Novens & Son will hold a poultry fair in Athens on December 8.

Mr. E. J. Purcell is continuing to act as agent for the Canadian Express Co. See his adv't this week.

Rev. W. G. Taylor will preach in Plum Hollow next Sabbath morning, at 11 o'clock.

Born—At Schenectady, N.Y., on Nov. 17, to Mr. and Mrs. Walter Olds, a daughter.

Mrs. A. E. Moulton returned last week from a visit with her sister, Mrs. J. Jones, Hamilton.

On Saturday cheese sold on Brockville board at 11c, a considerable drop from the previous Saturday.

At Prescott fair yesterday the American buyers were present and paid from 16c to 20c for poultry.

Mr. R. J. Green of Oak Leaf returned home on Monday from the wilds of New Ontario, bringing two fine deer.

Mr. E. C. Tribute has enlarged his well stocked and neatly appointed grocery by adding a room to the rear.

Mr. H. Leggett and family of Crosby last week moved to the house on Wellington street, vacated by the Misses Webster.

The Smith-Jacob hunting party returned home from Omphah last week. They had a delightful outing and secured five deer.

Mrs. Robert Johnston of Lansdowne is visiting her brother, Mr. Johnston A. Greene, and other friends here and at Charleston.

H. L. Wickwire, proprietor of the Commercial House, Frankville, has leased the Foster House, of Toledo. He took possession on the 20th.

Perhaps Brockville Cheese Board will get Exporter Grant's \$150, but he will have to be satisfied that all sales made last week were bona fide at the price bid.

The veterans who are entitled to a land grant in New Ontario, and have not located, now have an opportunity of selling their right to the Ontario government at \$50 each.

Rev. W. G. Taylor, the great Scotch evangelist, will preach in the Athens Baptist church next Sabbath evening (26th) and will hold special services during the week following.

A few days ago, Mr. Johnson A. Green sold his fine farm property here to Mr. John Laing of Newbyrne. This probably means the removal of Mr. Green and family to the Canadian West where three of his sons are prosperous farmers.

Next Sunday will be "World's Temperance Sunday," and it will be observed in Athens by a union meeting of the Baptist, Presbyterian, and Methodist Sunday schools, to be held in St. Paul's church. An appropriate and interesting programme will be presented. A collection will be taken.

Mr. H. Leggett, who recently purchased the Bulls livery, has entered into partnership with Mr. Chant. The combined livery contains thirteen horses and a full equipment of all classes of vehicles, so the public may rely upon getting an excellent service. The business office of the firm will be at the Chant livery.

The American poultry buyers will hold a fair here on Tuesday, Dec. 12. It is not their intention to hold any other fairs in this district, so poultry raisers up the line will do well to remember this. The dealings of the Americans here last season were so satisfactory that the success of their fair here on the 12th is assured.

Mr. F. W. Barber left Athens on Saturday last to take a position in the branch of the Merchants Bank at Wetaskiwan, Alta. This is a promotion, following three years of efficient service here, and his many friends, while regretting his departure, wish him a full measure of success in the Golden West.

Mr. C. C. Slack came up from Montreal on Friday to spend a few days with his family and friends here. He brought, as usual, several of his latest paintings, and their display in the drug store window was viewed with pleased interest by a large number of shoppers and promenaders on Saturday evening. "C. C." has made marked improvement in his figure painting in the last few years, and this is made pleasantly manifest in one of the pastoral scenes exhibited.

At the meeting of Brockville Dairy-men's Board of Trade on Saturday, a resolution was passed favoring the formation of county dairy associations throughout Eastern Ontario. It is not intended that these shall supersede but rather act as an aid to the E. O. D. A. It is hoped that these county organizations will prove highly educative, as it will enable the manufacturers and producers generally to consult together and combine for the advancement of the dairy interests. Mr. Derbyshire announced that at the Athens meeting of the Farmers' Institute, Prof. Ruddick and Prof. Piblow would both be present.

The W. F. M. S. of the St. Paul's Presbyterian church will hold their annual Thank-offering meeting in S. S. room on the evening of Friday next. The whole congregation, including the men and children, are invited. Mrs. (Rev.) McAllister of Iroquois will be present and deliver an address on missionary work. A short programme will be given and refreshments served. Opportunity will be given for an expression of thanks through the medium of the collection plate. Visitors cordially welcomed.

The urgent need of some action being taken to properly fit and decorate the stage of the new town hall has moved several citizens to consider ways and means to that end. Taking advantage of the presence in the village of Mr. C. C. Slack, Athens' versatile artist (now, temporarily, we hope, a resident of Montreal), they called him in counsel this week. Now, Crawl knows lots of things about lights and shades and drops and wings and stage properties and decorations generally, and with his pencil he speedily evolved a sketch that would make our stage a dream of beauty. The cost, he thinks, would not exceed \$300. An energetic committee could easily net that amount this season. If action is taken at once, Mr. Slack might be induced to remain, do the artistic painting, and superintend the carpenter work; if the committee would rather make the money before spending it, that is another matter. Whatever course is decided upon, a move towards organizing for this work should be made immediately.
