DISTRICT NEWS

LAWTON.

Bulletin News Service.

The residents of this neighborhood have been much moved by the fact that Mr. Stirling has been granted a post office. This will make things much more convenient in every way. It is reported that Mr. Davidson received seven miles west of this, is also to have a post office.

The saw mill is running at full capacity. Much trouble has been experienced by the Peavine Prairie settlers owing to the bad condition of the ford on the Peavine river, near Mr. Davidson's. This trouble will, however, soon be a thing of the past, as several new bridges are being erected at different points on the river.

Dulbert Munroe recently made a trip to Edmonton and reported that the road is in poor condition for either wagons or sleighs.

Mr. Beddome and Mr. Wallace have also returned from trips to the city. Peter Brant has been erecting a new house, and it is reported that he does not intend to return to the city.

Mr. Davidson and family have moved into their new home, a fine, large building of two stories. The new place has the reputation of being the finest within a radius of several miles and will make a comfortable dwelling.

Mr. Beddome is attending the Normal school in Calgary.

Mr. Wilson had the misfortune to give his hand a nasty cut a short time ago.

Mr. Malduin is also about recovered from the effects of the bad accident he had some weeks ago.

Messrs. Bollenbaugh and Campbell have returned from a business trip to the Athabasca river.

The residents here are looking forward anxiously to the establishment of a school. A movement is being made and it is expected that the site chosen will be somewhere near Mr. Baldwin's. A school is an institution much needed in this part as there are many children of school age.

La grippe and colds are the order of the day.

Another cold spell has embraced this district.

At the home of Dr. and Mrs. Morrison a most enjoyable time was spent on the evening of the 18th inst. Quite a large number were present and interested themselves in progressive whist games. The prize winners were Mrs. (Dr.) McLeary, of Battleford, and Mr. C. Tyrant.

The second department of the North Battleford school has been closed for a few days, by reason of the illness of the teacher, Miss Helen J. Allen.

On Wednesday evening at the home of Mr. and Mrs. John Deans, of this town, there took place the death of their eldest son. The young man for some time past had been engaged with a survey party to the north and returned on Friday, the 13th inst., he returned to his home ill. His condition at that time was not considered serious. He leaves to mourn the loss of an exemplary son and brother, a mother and father, two sisters and two brothers, in whose sorrowing sympathy the community goes out to them.

J. R. Chisholm, merchant, who has been visiting for the past few weeks at points in Ontario, has returned to town.

Roland Taunt, of the North Battleford Manufacturing company, who has been absent for a few days on a business trip to Brandon, Man., has just returned.

There has been considerable snow fall of late in the vicinity of town. Snow plows have gone east and west to relieve the incoming trains. The regular train which leaves town for Battleford at 9 a.m. daily and returns at 1 p.m. was detained in return until 7 p.m. on Monday by reason of snow blockades.

WHEN BABY IS SICK GIVE BABY'S OWN TABLETS

The little ills of childhood often come very suddenly and often they prove serious if not treated promptly. The wise mother will keep Baby's Own Tablets always at hand and give her little one an occasional dose to prevent sickness or to treat promptly if it comes unexpectedly. Baby's Own Tablets cure all the minor ailments of children and are the only safe medicine. A. H. Bonnyman, Montreal, N.S., says: "I have used Baby's Own Tablets for teething, constipation and other ills of childhood, and have found them a safe and excellent medicine." HOLDEN BANQUET A HUGE SUCCESS

Hardisty Liberals Entertain Popular Member for Vermilion—Premier in Attendance.

(From Thursday's Bulletin.)

The town of Hardisty was the scene, on Tuesday, of one of the best and most enthusiastic Liberal gatherings ever held in the province.

In the afternoon the new steel bridge erected over the Battle river was formally opened for traffic, the last rivet being clinched by a sledging wheel, of the muscular arms of Mr. J. B. Holden, the popular member of the legislature for the Vermilion district.

Among those from a distance who were present were Premier Rathbone, Hon. W. F. Finlay, A. S. Ross, M.P.P. of Wetaskiwin, W. F. Puffer, M.P.P. of Lacrosse, and Duncan Marshall of Edmonton.

After the toast to the King had been honored, the Premier proposed the toast, "Our Guest, Mr. J. B. Holden, M.P.P." He paid Mr. Holden a compliment as a faithful member, who gave his closest attention to the wants of his district and of whom the Liberals of Hardisty were justly proud.

In reply Mr. Holden expressed his pleasure at being present at this gathering and heartily thanked the Liberals for their generous hospitality and their kindness in entertaining him on this occasion.

Mr. W. G. Whyte was then called upon to propose the toast to the Alberta government. He paid a compliment to the Premier and the members of his government.

In reply the Premier expressed his pleasure at being present at this gathering and heartily thanked the Liberals for their generous hospitality and their kindness in entertaining him on this occasion.

Mr. J. M. Clements of Mount Loomis, in reply, said he was a new citizen, coming from the United States, and his experience in Canada in the fair made him a Liberal.

The toast to Liberal government in Canada was proposed by Mr. Allan Johnston in a neat speech and was replied to by Duncan Marshall.

Regarding the education department he pointed out that last year 156 new rural schools were organized. So far the demand for teachers in Alberta was much greater than the supply which made secondary and university education important in this province.

TO RETURN SOLID LIBERAL PHALANX

Determination of Liberals Expressed at Annual Meeting of Edmonton Liberal Association.

(From Thursday's Bulletin.)

The annual meeting of the Liberal association of the Edmonton district held last night in the Young Liberal club rooms was largely attended and marked by the same enthusiasm for Liberal principles as has always characterized the members of the party in the Edmonton constituency.

"Much has been said in the Conservative press," said Mr. Boyle, "about graft and corruption. The Conservatives are trying by shouting 'wolf' to stampede the people of Canada. But the electors will not have the wool pulled over their eyes."

"The route is not popular in Ontario or Quebec, and perhaps not east of Manitoba, so we must depend upon Hon. Frank Oliver by his influence and ability to push the railway to completion. It is therefore in the interests of Alberta to send a solid Liberal contingent to Ottawa at the next election to strengthen the hands of the Minister of the Interior."

"The Liberal party were in opposition they did not spend their time in slandering the government. They left they had a higher duty to perform. When they found corruption in public life they stood up like soldiers against it."

A FAMILIAR FALLACY.

Mr. Cocksbutt, M.P. for Brandon, contributed to the fiscal debate on Thursday in his usual style of unintended humor. The lack of employment found during recent months in some of the larger centres of population has magnified into a condition general throughout the country.

Ignoring the implied exaggeration of a temporary and isolated condition, which does the declaration of Mr. Cocksbutt lead? From 1878 to 1896 Mr. Cocksbutt's friends had the power to "help" Canadian industries into a "thrifty condition."

More than twelve years ago the United States adopted a policy specifically designed to "help" the United States industries into a "thrifty condition."

Germany more than any other European country tries to "help" its industries into "thrifty condition" by the method prescribed by Mr. Cocksbutt.

Generations ago one European country adopted the policy which to Mr. Cocksbutt and his friends spells ruin. It is the smallest of the great countries of Europe geographically.

North Sea? Clearly freedom of trade has not brought upon Britain the disaster Mr. Cocksbutt predicts for Canada, if we do not "help" our industries into "thrifty condition."

The plain moral from the facts is that "protected" industries into a "thrifty condition." It may be a "thrifty condition."

They Owned Up. That the three days' obstruction of the Marine estimates was nothing more than obstruction was put beyond question a few days ago when these estimates were taken up again, and three and half millions voted in a single evening.

Mr. Hazen's Choice. Mr. Hazen has announced the members of the New Brunswick Government. Six of them are Conservative. The seventh is Mr. John Morrissey, leader of the Liberals, who withdrew his support from the Robinson Government and precipitated its downfall.

THE EIGHT HINDUS. Montreal Star—That eight British subjects from India should be arrested for their arrival in the British city of Vancouver and fined \$500 apiece because they could not meet the requirements of the Dominion, is a display of stupidity which we had fondly hoped was reserved for our neighbors with their exaggerated doctrine of "states rights."

A JOYFUL JOURNAL. While Mr. Cocksbutt and his Parliamentary colleagues are pronouncing valedictions over the supposed ruins of our prosperity, the Winnipeg Telegram breaks into a series of special editorial articles to express its conviction that the present "spring outlook" presages a prosperity beyond precedent.

Canada and the C.P.R. Mr. Oler, M.P., undertook to inform Parliament last week that the C.P.R. was the backbone of the country. His theory was that the C.P.R. had twenty millions lying in the banks when the "financial stringency" came on, and that this enabled the banks to carry on the business of the country.

A USEFUL INSTITUTION. The City Council last week granted \$5,000 to the Board of Trade, with which to carry on work during the coming year. The grant will be used for a variety of purposes. It is indeed difficult to closely measure the work done by the Board and the opportunity now open to it.

A NON-PLUSSÉ GIDEON. The Montreal Star adjures Mr. Borden by the example of Gideon to dispense with the services of Mr. Foster, who shot and killed a man on the night of 1921 and sent part by check and part in money, no insurance of sinister motive was made.

taken place. If they did not invest their money, they found they needed they they could not get their savings. The consequence has been to create a glut of money in the market.

Mr. Fraser made out both his own and the Imperial Pulp Co.'s tax returns, having previously obtained that the gentleman's consent, Mr. Nolan, who carries on a machinery business in Montreal, had been a client for 12 or 15 years, and he gave Mr. Fraser authority, first verbally and afterwards in a letter, to use his name in connection with this and other transactions.

THE SIGNS OF THE TIMES. Daily the columns of the press remind us that spring is approaching, and preparations already being made for the busiest summer in the history of Central Canada.

Mr. Bristol, M.P., invited the witness to explain the circumstance that his personal tender was on his own libelous and untrue statements, and in plain first thought to typewrite the two tenders, and the second sheet was a follow-up.

Mr. Fraser also gave some information concerning the Imperial Pulp Co. The president was Sir Daniel McMillan, the lieutenant-governor of Manitoba; the secretary R. B. Pattinson, and one of the principal members, Theodore A. Burrows, M.P. For organization purposes the application for a charter was made out in the names of several solicitors in Toronto and they formed the provisional board of directors, which it was generally advisable to make public.

Mr. Burrows' tender of \$11,000 for berth 1122, which was subsequently transferred to the Imperial Pulp Company, was accompanied by two checks—one of \$5,000 and the other of \$6,000. E. M. MacDonald, M.P., said this was a circumstance that had given rise to the "double check" theory.

Mr. Fraser told the committee that he had never been present when Mr. Tariff, as timber commissioner, had opened any tenders; there had been no favoritism shown him in his applications for timber limits, and he had received no consideration other than that was the "general practice," and was extended to competitors.

MR. AMES TIMBER LIMIT SCANDALS

Ottawa, March 28.

The investigation of the sale of timber limits was continued before the public accounts committee on Tuesday, the 27th inst. The leading case in the accusation of corrupt influence in the Imperial Pulp company's acquisition of the Moose Lake berth in December, 1923, A. W. Fraser, K.C. of Ottawa, the first, so-to-speak, of the whole transaction, was examined, and declared that the figures "57,000" which was suspected had been filled in at the office of the department by J. G. Tariff, M.P., the former timber commissioner, were written by himself. The body of the tender was first made out and the figures filled in afterwards, which was not an unusual occurrence.

There were three tenders for this berth. The lowest was that of Mr. Fraser himself and associates, offering \$13,000; the second, James Curries, of \$8,000; and the third, W. H. Nolan, of \$7,000 on behalf of the Imperial Pulp Co.

Mr. Fraser made out both his own and the Imperial Pulp Co.'s tax returns, having previously obtained that the gentleman's consent, Mr. Nolan, who carries on a machinery business in Montreal, had been a client for 12 or 15 years, and he gave Mr. Fraser authority, first verbally and afterwards in a letter, to use his name in connection with this and other transactions.

The question arose as to why Mr. Fraser, having received instructions from the pulp company to submit a tender of \$7,000, put in one of \$13,000 in his own name, well knowing it would be defeated by that of his client. The witness explained that he and his associates, including among others, his own father-in-law, originally had been a client for 12 or 15 years, and he gave Mr. Fraser authority, first verbally and afterwards in a letter, to use his name in connection with this and other transactions.

Mr. Bristol, M.P., invited the witness to explain the circumstance that his personal tender was on his own libelous and untrue statements, and in plain first thought to typewrite the two tenders, and the second sheet was a follow-up.

Mr. Fraser also gave some information concerning the Imperial Pulp Co. The president was Sir Daniel McMillan, the lieutenant-governor of Manitoba; the secretary R. B. A TECHNICAL ERROR IN THE REGULATIONS

Ottawa, March 28.

Justice Clement Gives Decision Which Results in Release from Detention of Hindus in Vancouver—Governor General in Council May Not Delegate Powers Under Immigration Act.

Vancouver, B.C., Mar. 24.—The one hundred and forty-six Hindus, the majority of whom arrived from the Orient by the steamer Mont Eagle and were ordered to be deported because they had not come directly by continuous passage from the land of their birth, today were released on writs of habeas corpus. The Hindus were ordered to be deported under the Dominion government's order in council of January 8, which was declared to be illegal by Justice Clement, of the Supreme court, to be altogether illegal.

The governor general in council cannot delegate his powers in immigration matters to any minister or official, even though that official, in this case, is the minister of the interior. The discretion as to what immigrants shall be admitted or refused admission must be exercised by the governor general in council solely, as I read the act.

Four lawyers sat waiting today to call in support of the Hindus, but they were not called upon. D. G. McDonald, counsel for the Federal government, is in communication this evening with the minister of the interior as to whether or not there shall be an appeal. This is regarded, however, as a technical error, which may be a new order, strictly within the limits of the immigration act and not "delegating" any authority to any minister or official may be expected from Ottawa.

These were the words in the order to which Justice Clement took exception: "Whenever, in the opinion of the minister of the interior, the conditions of the labor market in Canada are such as to make the application of the act desirable, or whenever, in his opinion, other conditions exist, which require a special degree of restriction, etc., etc., the application of certain sections of the act."

"This," said the court, "is delegating to others powers not contemplated or permitted by the act, which clearly is a special degree of restriction, etc., etc., the application of certain sections of the act."

It is not improbable that claims for indemnity for wrongful arrest and detention may be made by the Hindus. A flood of writs is expected.

Will Amend the Act. Ottawa, March 25.—Owing to the decision of Justice Clement in the C.P.R. steamship company in refusing to obey the order of the minister of the interior to deport a number of Hindus, brought recently in contravention of an order in council requiring immigrants to come direct from their native country, Hon. Frank Oliver will introduce in the House of Commons a bill to amend the Immigration Act, so as to make it clear that the cabinet in council has the right to pass the order in question.

The bill will be introduced through the department of justice, and will give the government a check against the admission of any immigrant, without funds and work, while he may be physically fit, who is likely to become a charge on the community by reason of arriving at a time when the labor market is congested and work not easily obtainable.

Will Not Extradite Roy. Paris, March 25.—Geron and Aubin, counsel for Roy, expressed astonishment at the hearing of the application for the extradition of their client. "It will be absolutely impossible to extradite him," said M. Aubin. "I am surprised the American government should attempt it in face of the inevitable refusal, but I presume it was meant to satisfy public opinion in America." He added it was possible that Roy might be examined here. He has in his possession several letters written to Roy by his American wife, formerly Glacia Calla, the week after the tragedy. Both Roy and his counsel thought the affair had blown over.

To Remove the Doukhobors. Montreal, March 24.—M. De Strive, the Russian consul in Montreal, who has taken a deep interest in the Doukhobors, has been invited to leave the city, which is present under consideration by the French government, that the familial section of the Doukhobors should be permitted to settle on one of the small unoccupied islands in the Pacific, under the French flag, the French dependency of Tahiti, in the Pacific ocean.

WITH THE

PRICE OF SEED WHEAT.

The farmers of Alberta may chase No. 1 Northern seed wheat, from the government for per bushel, No. 2 Northern for No. 3 Northern for \$1.07, and seed wheat for \$1.01. The announced price for oats will be announced later date. It has also been announced that seed will be advanced to such settlers as lost their crop last year but also those who were not. These changes in the regulation of the announcement of the price, charged for wheat were made by Mr. A. Leach, inspector of Dominion land agencies in the following order:

"By the original regulations providing the present seed grain distribution was made for supplying settlers only as last their crop last year but also those who were not. These changes in the regulation of the announcement of the price, charged for wheat were made by Mr. A. Leach, inspector of Dominion land agencies in the following order:

"As seedling time is now near hand settlers desiring to make a crop should act as soon as possible. The prices for wheat have been advanced, and are as follows, which include all charges—

"1 Northern wheat, sacked, \$1.11 bushel.
"2 Northern wheat, sacked, \$1.10 bushel.
"3 Northern wheat, sacked, \$1.07 bushel.
"4 wheat, sacked, \$1.01 bushel.

It is expected that within a few days the prices for oats can be announced.

WILL G. T. P. FOLLOW THE COPPER RIVER

Report in Vancouver From North Attaches Significance Survey of this Route, Which Would Considerably Shorten Main Line.

Vancouver, B.C., Mar. 23.—In the north great significance is attached to the return of the G. T. P. survey party from Kitimat to Hazelton on the Skeena river to Copper River last week from whence they were working towards the head waters of that stream from its mouth. The belief is growing that when tenders are called for the next 200 miles east of Hazelton the route will follow the Copper river from the main line, after dropping over the pass at the head of Copper, will descend to the valley of the Bulkley river, on the way to the Nechaco valley. The Copper river route reconnaissance survey which was taken some time ago would considerably shorten the main line. Surveys are still being carried on at the branch on Kitimat to the mouth of the river. Owing to the weighty hauling provisions being made to negotiate the snow the survey camps were on the river for three weeks ago and the matter was beginning to look serious, when a packer secured light pack animals and rushed provisions to the camp.

FOR BUILDING OF G.T.P.

Enormous Outfit of Contractors to Be Shipped to Prince Rupert.

Winnipeg, Mar. 23.—An enormous plant now being used by the railway contracting firm of Messrs. Foley, Welsh & Stewart in carrying out their contracts for double-tracking the Canadian Pacific Railway between Winnipeg and Fort William and the building of the Thunder Bay branch of the Grand Trunk Pacific from Port Arthur north to the main line, will be shipped early next month via the C.P.R. to Vancouver. It will be utilized in connection with the first contracts for constructing the Kitimat branch and a 100-mile section of the Grand Trunk Pacific east from Prince Rupert. The magnitude of the outfit is apparent from its diversified character. It embraces scores of drills for boring tunnels, steam hoists, six hundred tons of horses, ten miles of track for dump cars, and over one thousand peddle cars, and carts, besides other incidental plant.

This only comprises a portion of the equipment owned by this firm, which, after providing for the work on the Pacific coast, still has enough plant left to build the section of the Grand Trunk Pacific between Winnipeg and Edmonton, over three hundred miles, besides a 120-mile section of main line west of Edmonton. Most of the grading on the first-mentioned section has been completed.

With the equipment from points east of Winnipeg will come thousands of men who have been employed by this firm for several years past. The work on double-tracking the C.P.R. between Winnipeg and Fort William is virtually finished, as only three railway camps remain. Grading on the branch line of the Grand Trunk Pacific from Port Arthur north to the main line is also nearing completion, as all the camps have been closed with the exception of five.

It is understood that the dirt will be lying in earnest at Prince Rupert and all along that section early in May. Mr. J. W. Stewart, managing director of the contracting firm, is now in Edmonton in connection with contracts in that vicinity. It is not likely that he will reach Vancouver until a fortnight hence.

HIS CRIME HAUNTED HIM.

Man Who Murdered Pierre Delorme Gives Himself Up.

Montreal, Mar. 23.—The police in this city were notified tonight that a man named William Sangster had given himself up in New York and had confessed to a crime committed nearly a year and a half ago. He stated that with two other men, named Peter Epsom and Joe Lamercke, he had attacked a young man named Pierre Delorme and had shot him when he refused to give up his money. Sangster stated that his conscience had troubled him since committing the deed, hence his confession.

The crime of which he confessed was committed on October 26, Pierre Delorme, a young farmer, was returning from the market in the early evening. In a wagon ahead of him were his parents, who noticed three men sitting by the side of the road. The old couple were not noticed but when their son drove up the highwaymen jumped up and demanded his money. When Delorme offered resistance he was shot twice, one bullet entering behind the right ear.

The noise of the shooting frightened his horses and they ran away from the burglars, being stopped later by the parents of the unfortunate young man. He was found in the bottom of the wagon bleeding profusely and barely conscious. He was taken back to Montreal, but died shortly after. Before dying he told of an attack on him by three robbers. The confession of Sangster has cleared up the mystery and he will be brought here for his trial. His two associates are already in prison, having been sentenced some time ago for burglary.

Demonstration For Unemployed.

Nanaimo, B.C., Mar. 23.—The unemployed made a demonstration late last night at a meeting addressed by Premier McBride. One hundred men who had refused to sign the declaration that they had no money, as imposed by the government before relief work was given, assembled in front of the hall where Premier McBride was to speak and were harassed by Hawthornthwaite, Socialist leader. A resolution was passed calling on the government to disperse with signing the declaration on the ground that it would discriminate more retrogressively to England. The demonstration then drove to break into the hall, but were driven back by the police. Later Premier McBride received the men at his hotel.

UP-TO-DATE METHOD OF BOOK-KEEPING HIGH

Before Accounts Committee Richards Testifies That American Government As Yet An Unpaid High For Expert Work.

Ottawa, March 23.—The government part of the story in respect to the charges of extravagance, etc., against Hon. Mr. Brodeur, the minister of finance, in having a new system of book-keeping installed in the department, was heard today when Willis B. Richards, of Gunn & Richards, New York, was examined before the accounts committee by A. K. McLean, Richards said his firm originated the term "Production engineering" in 1901. It is a new line of work, and its object is by systematizing the organization to produce better results than have ever been produced in various lines of business.

He said the regular charges made by Gunn and himself are \$75 a day. Five or six employees of the firm command \$50 a day, while the others grade down to \$40, \$30, \$25 and \$15. Mr. Falconer of Montreal was regarded as a good man, particularly in what is known as "cost work." Richards said his firm had done work for the United States War and Interior departments, where the charges had been the same. All clients, he said, paid the same prices. His firm would sign a contract, but did not always consider that it was necessary to do so.

He read several contracts, showing that the contracts were all made on a per diem basis. Richards said that shortly after Mr. Brodeur went to Europe, Mr. Templeman had stopped the work. He (Templeman) had said that no man could get \$75 a day and earn it. The work is incomplete, and the firm would like to get the chance to finish it up. If this opportunity is not afforded the department cannot get the full benefit of the new system.

THE TIN CAN TRUST.

Is About To Establish A Factory In Canada.

New York, March 24.—Still another big Yankee trust is about to enter the manufacturing field in the Dominion, with the prime view to evading the Canadian tariff.

The latest project is that of the American Can Company, the so-called Tin Can Trust. While the exact location of the proposed plant has not yet been determined, it can be stated, on the authority of one of the highest officials of the company, that a number of sites are now being considered by the management, and that inside of a week or ten days it is expected that a decision will be reached, with the result that plans will be immediately drawn up for the erection of a plant. Construction work will be pushed with vigor, so that the plant will be ready for operation by the autumn. The new works will entail an initial expenditure of a quarter of a million dollars, but the specifications will be prepared so as to permit of considerable extension later on. In that instance, at least 500 hands will be employed.

The American Can Co. was incorporated under the laws of the State of New Jersey in 1901, for the purpose of consolidating upwards of 100 can-making plants scattered throughout the States and representing at that time about 85 per cent. of the total capacity of the plants of similar description in this country. The capital of the company is \$29,570,000, half of which is 7 per cent. cumulative preferred and the balance common stock.

Among the big manufacturing concerns which are already operating in Canada are the International Paper Company of America (the Haverstock Trust), the American Locomotive Company (the Locomotive Trust) and the Westinghouse, the Pressed Steel Car, the American Steel Foundries interests. According to conservative estimates fully \$25,000,000 of American capital are invested in various United States manufacturing enterprises in the Dominion.

EATEN BY TIMBER WOLVES.

Terrible Fate of Boy Who Was Kept in an Attic.

Fort Francis, Mar. 23.—American settlers living up the Big Fork river, opposite the Canadian boundary, and who visited Barwick, Minn., last week, report that a nine-year-old boy who was kept in their school and did not start for home till after dark, was killed and eaten by timber wolves. His mother, missing him, started out to search with a lantern and was horrified to find the torn shreds of clothing and finally the boots with the feet frozen, still in them, the rest of the body having been devoured by the beasts, who have been unusually daring and rapacious this winter, presumably because of the scarcity of deer.

CHLOROFORMED HIS WIFE.

Milwaukee Man Then Shot Her and Fatally Wounded Himself.

Milwaukee, Wis., Mar. 23.—George Willoughby, manager of the Jewett & Sherman Co., coffee and spice mills, chloroformed his wife as she lay asleep in bed this morning, and then shot her, killing her instantly. Afterwards he fired two bullets into his own breast, and is not expected to recover. Willoughby at first attempted to make the police believe that burglars were responsible for the shooting, but he afterwards confessed that he had committed the murder because he was infatuated with another woman whom he had been supporting for four years.

DEATH OF DEVONSHIRE IS WIDELY MOURNED

Duke Who Was Leader of Liberal Unionist Party and Prominent Politician and in Public Life, Passes Away, Aged 75.

London, March 24.—News of the death of the Duke of Devonshire at Cannes yesterday came as a great surprise in England and caused widespread sorrow. The news was unexpected, as recent reports had been rather encouraging.

The late Duke was born in 1833, and was the son of the seventh Duke and Blanche, daughter of the Earl of Carlisle. He succeeded to his father in 1891 and in 1892 married the Dowager Duchess of Manchester, who, previous to her first marriage, was the Comtesse de Devonshire. His education was received at Trinity College, Cambridge.

The late Duke took a very prominent part in the political life of England, and has at various times filled positions of large responsibility. He was leader of the Liberal Unionist party, and since 1895 has been Lord President of the Council. He was made Lord of the Admiralty in 1896, Secretary of State for War in 1896, Postmaster General in 1893 and Chief Secretary for Ireland in 1871. He has also been Secretary of State for the Colonies, and Secretary of the Duke also took a prominent part in public life. He was a member of the Privy Council, and was also a member of the House of Commons, and was also a member of the House of Lords.

His heir is Victor Cavendish, M.P., born in 1898, eldest son of the late Lord Edward Cavendish and Emma, daughter of the late Right Hon. W. S. Lascelles, M.P. He is married to Evelyn, the daughter of the late Lord Cavendish. The first peer received the title from Henry VIII. He was the second in command of the commissioners appointed to take the surrender of the monasteries and eject their owners in the reign of Henry VIII.

DUBLIN TRAMWAYS PAY.

System Shows Greater Profits Than Any English Line.

Dublin, March 23.—The ill-fated Dublin International Exhibition has not been a dead loss to every one, for the Dublin Corporation has a report shows that the last half of 1907 was the most prosperous in the history of the undertaking, and that the result that plans will be immediately drawn up for the erection of a plant. Construction work will be pushed with vigor, so that the plant will be ready for operation by the autumn. The new works will entail an initial expenditure of a quarter of a million dollars, but the specifications will be prepared so as to permit of considerable extension later on. DOUBLE TRAIN SERVICE ON C.P.R. NEXT WEEK

Increased Traffic Calls for Resumption of Double-Track Service—Party of 25 Settlers Arrive in Crossfield, Alberta.

Calgary, Mar. 23.—On Monday next the passenger service of the C.P.R. will be very nearly complete. Then the double service will be once more established north and south. The service will not be continued past Calgary for a little while yet. The increase on the service has been caused by an increase in the traffic on the road, which is becoming more active.

Now that the immigration of settlers has set in the traffic will continue to be very heavy, probably all summer. The time factor is practically the same as when the service north and east were taken off. The new train for the west will leave here in the afternoon returning to Calgary at 11.45. The train for the east will leave Calgary at 7.15, and will arrive in Crossfield at 11.45. The train for the west will be made up of the same cars as the train for the east. The afternoon train will arrive from the east at 4 o'clock.

New Settlers Arrive.

A detachment from Crossfield, Alberta, of 25 settlers arrived here today. They were the first of the new settlers arriving shortly after 8 a.m. Saturday morning, and immediately they were taken to the new farm near the Colonization company's farm, 25 miles east of here. The party, some of whom are from Dakota, left Tuesday morning and arrived here on Saturday. They have with them 100 head of stock with calves, chickens, traps, etc. They are mostly German-Russian descent, although the children are mostly American.

AT THEIR OLD TRICKS.

Tricks of Tory Landlords to Represent Ireland as Disorganised.

London, March 23.—A parliamentary paper throws a strong light on a conspiracy of the Irish Tory landlords to represent Ireland as disorganised and in a state of anarchy, and to prejudice the Home Rule movement.

The remarkable paper contains the report of an inspection of the constabulary, who was commissioned to inquire into the alleged bomb throwing and the alleged murder of Lord Ash-ton. This Irish nobleman is a fanatical Unionist, who publishes a weekly paper, called Irish Grievances, and is generally known as the "King of the Tory Landlords." The bomb did no harm, but Lord Ash-ton was severely injured. The report is a typical case of Tory terrorism.

The inspector's report practically demonstrates that some of the Tory landlords in position by some of Lord Ash-ton's own allies or some member of his household. An examination of the house shows that some of the windows had been opened all night and doors in order to minimize the force of the explosion. Moreover, the inspector flatly denies that the bomb could have been placed by any of Lord Ash-ton's friends or by any of the Irish League terrorists. He declares further that when the police arrived Lord Ash-ton was drunk, and the inspector adds significantly that the time may come when he will name the real culprit.

SPRING BLOOD IS BAD BLOOD

How to Get New Health and Strength in the Spring.

The winter months are trying to the health of even the most robust. Consumption of food is overworked and nearly always badly ventilated rooms—in the home, in the shop and in the school—taxes the vitality of even the strongest. The blood becomes thin and watery or clogged with impurities, the liver sluggish, the kidneys weakened. Sometimes you get up in the morning just as tired as when you went to bed. Some people have headaches; others are low spirited; some have pimples and skin eruptions. These are all spring symptoms that the blood is out of condition. You can't cure these troubles with purgative medicines, which merely gallop through the system leaving you still weaker. What you need to give you strength in spring is a tonic, and one always reliable tonic and blood builder is Dr. Williams' Pink Pills. These pills not only banish spring ills, but guard you against the more serious ailments that follow, such as anæmia, nervous debility, rheumatism, indigestion and kidney trouble. Every dose of Dr. Williams' Pink Pills makes new, rich, red blood which strengthens every nerve, every organ and every part of the body. This is why Dr. Williams' Pink Pills is the favorite spring medicine with thousands and thousands throughout Canada. Try this medicine this spring and you will have energy and strength to resist the torrid heat of the coming summer. Mrs. Jas. Haskel, Fort Maitland, N.S., says: "I was troubled with headaches, had a bad taste in my mouth, my tongue was coated, and I was soon feeling as well as ever I had been." You can get these pills from any medicine dealer or by mail at 25 cents a box or six boxes at \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

HERE'S A LUCKY YOUNGSTER.

New York, Mar. 23.—While playing in her home, a nine-year-old girl, the daughter of No. 100 Kingsland avenue, Williamsburg, slipped and fell out of a third-story window and landed on the basket of a washwoman who was carrying in the street. The washwoman was so frightened she dropped the basket and ran down the street, leaving the girl on the ground. The girl's mother, finding what had happened, telephoned for an ambulance. Dr. Reilly, of St. Catherine's hospital, who responded, said the child did not even receive a shock.

ENGLAND APPROVES CANADA'S POSITION

Mackenzie King's Mission Will Likely End in Co-Operation of Empire—Hindu Question—He Has Been Given Sympathetic Hearing.

London, March 24.—The suggestion made by Canada that there should be co-operation between Great Britain, India and Canada for preventing the continued influx of Hindus into British Columbia, has been sympathetically received in official circles, and there is every prospect that arrangements satisfactory to all concerned will be reached.

Mackenzie King, the deputy minister of labor at Ottawa, who arrived here last week, has had lengthy interviews with the Earl of Eglinton, secretary of state for the colonies; John Morley, secretary of state for India, and permanent officers of the Indian department, all of whom realize the necessity of doing something. The emigration of Hindus, which is not only harmful to Canada but to the Hindus themselves, is receiving the most earnest consideration here, and Mackenzie King has a mass of information to give the various departments in support of Canada's contention that an end must be put to the unrestricted emigration of Hindus. Any agreement reached, however, must be confirmed by Ottawa, as it is not expected that the result of Mr. King's mission will be announced until after his return to Canada.

PECKHAM ELECTION TOPIC OF THE HOUR

The Victory Believed to Indicate the Country's Fear of Dangerous Trade of Government Policy—Voters Ride in Autos to Poll.

London, Mar. 26.—The enormous vote against the Liberal party and the present headless government in the parliamentary election in Peckham district, London, yesterday, has practically knocked all spirit out of the hustlers at the headquarters of the Liberal party. They assert that "brewers bought the election," meaning that the liquor trade poured unprecedented sums of money into the constituency, but they deny that the result reveals a powerful rush of public opinion against the present rulers of the House of Commons.

All is jubilation at the headquarters of the tariff reformers who say that the movement in favor of Joseph Chamberlain's policy is now powerful and cannot be arrested. More impartial observers, however, attribute yesterday's vote mainly to causes not connected with free trade versus protection. They regard as the chief cause a deep and growing public fear that the Liberal party is tending to be caught in a dangerous snare upon personal liberty, private initiative and individual property.

They Miss Their Leader.

While Sir Henry Campbell-Bannerman was among and was at the Liberal party's helm the country had more confidence in the party. They felt that the big Scotsman could keep the leader more but militant, more advanced sections of his followers in bounds. When he fell seriously if not hopelessly ill, the feeling spread rapidly that the country had no bulwark against the sweeping onslaught upon property, except the House of Lords which was part of the Liberal policy to change radically in the direction of a more popular character.

This public fear, born of many other proposals besides those involved in the licensing bill, caused the brewers and distillers to exploit with unexampled energy and expense in the Peckham district. They sent 10,000 pounds sterling into the constituency and organized the ablest and fiercest fight ever witnessed at an English election. The real nature of the situation was indicated by the fact that every saloon in the constituency was a humming center of Tory agitation and the publicans hired a hundred big motor cars from the west end of London to carry voters to the polls.

100 MILES IN 60 MINUTES.

Automobile Racers Will Travel at this Speed.

New York, Mar. 25.—"One hundred miles an hour" will be a mark set up for builders of racing automobiles to shoot at during the next automobile speed carnival on the famous stretch of ocean beach in Florida between Ormond and Daytona. Though firmly patriotic, Robert Lee Morrell, chairman of the contest committee of the Automobile Club of America, is still a believer in "The King is dead, long live the King," or no sooner is the 1908 Ormond-Daytona race meet over and done with than he begins making plans for the 1909 meet, and the prospect of holding a 100-mile-an-hour race is part of next year's program.

Mr. Morrell said that the experiment of abolishing spring races, in which freaks of various kinds had an undue advantage over cars of standard design and construction, had worked out so well for the Ormond-Daytona bench tournament recently that he thought the plan of having long-distance events could be safely amplified.

Automobile racing enthusiasts of today do not care very much for extreme speed for a mile or two. A car must travel fifty or a hundred miles at a certain high average speed before its performance will excite much favorable comment. It is Chairman Morrell's idea that a 100-mile-an-hour race will attract enough entries to provide a great contest, particularly as formal announcement will be made public long before the date of the meet so that ambitious manufacturers will have plenty of time in which to prepare their candidates for honor in this contest.

AROUND THE CITY

LOCALS. A public meeting in the interests of the Alberta Temperance and Moral Reform League will be held in the Belmont School on Tuesday, March 31, at 8 o'clock. An address will be delivered by J. D. Blaney, of Edmonton.

The death occurred at Horse Hill on Thursday, March 18th, of Miss, youngest daughter of Mr. and Mrs. Henry Borward, in her twentieth year. Captain Constantine has been temporary charge of "O" division, Royal Northwest Mounted Police, Fort Saskatchewan, pending a permanent appointment to fill the vacancy caused by the demise of Major Strickland.

Mr. and Mrs. Bogward, of Horse Hill, wish to express their sincere thanks to the many friends and acquaintances who so kindly rendered assistance and in so many ways tendered sympathy in their recent great bereavement.

Dr. J. E. W. Irving, provincial medical health officer, returned on Saturday from a three weeks' inspection trip through the province. He stated that he found a comparatively small amount of contagious disease in the province. There are several scarlet fever cases in the southern part of the province, some of which are of a very virulent type, but otherwise the province is fairly free from disease.

Edwin Alden has taken an permit for a butcher shop on Mainway road, at the corner of Clark. It will cost \$500.

There are now fourteen cases at the isolation hospital. A large number of measles, which is very prevalent in the city at the present time.

Strathcona this evening and several more for other contractors are now on their way here. Everything is being prepared for the commencement of grading operations at the earliest possible moment in the spring.

John W. Stewart, of Winnipeg, junior member of the firm of Foley, Welsh & Stewart, who have the contract for grading the right of way between G. T. P. from Clover Bar to Wolf Creek, 120 miles west of Edmonton, and the \$6,000,000 contract for the 100 mile section of the main line, arrived in the city last evening from the east on an inspection trip.

The installation of the plant of the Strouger automatic telephone system being carried out at the telephone exchange today. About a dozen men are at work, and a large part of the equipment has already been put in position.

Mr. C. Chipman, commissioner for the Hudson's Bay Company and head of that company's business in Canada, arrived in the city this morning on the C.N.R. from the east. He is accompanied by J. Clouston, of the Hudson's Bay Company, since they are on a trip of inspection of the various posts of the company, and after spending a few days in the city, they will proceed to Calgary and then westward to the Pacific coast.

Mr. Chipman is interviewing John Strouger, deputy minister of public works. This morning Mayor McDougall and Commissioner Pace viewed the operations and expressed their entire satisfaction with the progress of the work.

Mr. C. Chadwick, organizer and superintendent of the provincial reformers, returned from a three weeks' trip to the Pacific coast. Mr. Chadwick visited the coast of British Columbia, and made a report to the department on the result of his observations regarding the proposed industrial school for Alberta.

RED DEER DEBT CASE

Colonel Edwards and his partner, Louis McHarvey, petitioned the manager of the Dominion Carbolinum works, Vancouver, arrived in the city last night and arrived again tomorrow morning for the trial of the case. Mr. Harvey has come to Edmonton to complete arrangements for the transfer of the patent contract to E. K. Wilson, manager of the Bitulithic and Contracting, Ltd. His company will supply the material as they did last year, but the work will be done by the Bitulithic people as the companies consider that the contract here are not large enough to justify two plants.

Mr. Harvey has with him a sample of the flooring of Douglas fir treated with creosote, and has his company suggested for use in the traffic section of the high level bridge. He is showing the sample to the deputy minister for public works this afternoon.

The company have now an extensive contract at Letbridge for the chemical treatment of the timber used in the construction of the C. P. R. bridge there. The company also supply the material for the snow sheds of the C. P. R. through the mountains.

IMMIGRANTS ARRIVING. (From Wednesday's Bulletin.) The past few days have seen many arrivals at the Immigration Hall. They have come from all parts of the earth, but the majority come from the States. Several have arrived from the old country.

During 1905 twice as many immigrants came into Canada from all sources as came into the United States from all sources. In 1906 the number of immigrants increased in population 14 1/2 times.
