Alexander Brayley, of St. Johns, N.B., has issued a challenge to any oarsman in the Dominion to row a single scull race early in August for from \$100 to \$300 a side.
READY TO RUN.—It is now stated that the backers of Harris, of Cleveland, are ready to back him to run against Duffy, of Ottawa, or Fraser, of Prescott, for \$100 a side.
CHALLENGE ACCEPTED.—H. Vaughan, the well-known English pedestrian, publishes a card in Bell's Life, London, accepting the challenge of O'Leary, for a twenty-four hours' walk. Vaughan declines positively to attempt a six days' walk, as he has never had an opportunity of testing his powers to that extent. He much prefers to walk in England.
NINE MILE RACE.—On the 5th of next month, Mr. T. Brown will run from the Russell House corner, Ottawa, to Aylmer, against time, on a bet. He is allowed one hour and ten minutes to accomplish the feat.

plause.) Finally, there was the Channel feat, in regard to which he gave an interesting account. There were merry bursts of applause when he described himself, after being rubbed down with porpoise-oil, as not only feeling but sniffling strong, and hearty cheering when he told of the difficulties he had met and overcome. Dr. Pope, late Staff Surgeon, R.A., then made some general remarks on the history of swimming, while Mr. Macgregor, of "Rob Roy repute," gave verbal expression to the admiration of the meeting, and performed the almost superfluous duty of calling on those present to give three cheers for "the hero of the Channel."

REMARKABLE PERFORMANCES.

Mr. Walter Slade, who has earned for himself a wonderful reputation on the running path, continues to eclipse all previous performances. His latest doings are still more remarkable than those chronicled last week. The London Field speaks of them as follows: Slade's exploits in Ireland will certainly stand out in bold relief to anything ever yet achieved, either in that country or in England. He began by winning the half-mile at the international meeting in the then fastest time on record, viz., 1m. 59s. This he beat on Tuesday at the Irish Civil Service meeting, doing 1m. 58 4-5s.; but the surprise of surprises was yet to come. Travelling to Belfast on Friday, June 12, to take part in the North of Ireland sports, he, over a grass course, once more surpassed himself by running the half-mile in 1m. 58 1-5s, but an achievement which must rank as being quite equal to that was the two-mile handicap. A rather liberal start had been given to Nicholson, viz., 350 yards. Slade, going from scratch, was unable to make up this tremendous gap, though he did the fastest time on record—9m. 42s. The committee, we understand, have awarded him a special prize for this performance. One thing must be stated, viz., that the course on the Ormeau grounds is one of the best going for grass in the United Kingdom.

Half-mile Handicap, open.—W. Slade, London, A.C., scratch, 1; W. H. Malcolin, N. I. C. C., 60 yards, 2; J. D. Foster, Methodist College, 70 yards, 3; H. H. Buller, Belfast, 45 yards, 4. Coming into the straight for the last time Slade got on even terms with his men, and won after a game struggle by half a yard. Time, 1m. 58 1-5s.

Two-mile Handicap, open.—E. Nicholson, B. H. and H. C., 350 yards, 1; W. E. Fuller, London, A. C., 300 yards, 2; W. Slade, London, A. C., scratch, 3. Nicholson plodded on at a steady pace, was never caught, and won by 40 yards; four yards divided Fuller and Slade. The latter's time was the fastest on record, viz., 9m. 42s.

An English gentleman named Mann, and his wife, appear to have remarkable success in taming a female boa constrictor, which has just died. It came to be a family pet, and was allowed the freedom of the house. It exhibited great attachment towards its owners not only, but also came to know its friends among visitors. It never exhibited any fear of children, who delighted in petting it. It was accustomed to "ask" for food, water, and to be taken to walk. It ate nothing but pigeons, consuming about one a week, and always killed them by breaking their necks before crushing them in its coils. If a pigeon were given it was not hungry, it would make friends with it, and afterwards ask for a new pigeon to eat. It made great friends with a kitten. The snake could entirely control the pressure of its coils, constantly twining about its owner's bodies and necks, but never hurting them. They often carried it about in travelling when it remained concealed under the coat, as though understanding the necessity of keeping quiet. When it was left behind it recognized and welcomed its friend's return with the greatest joy, answering to its name, Cleo. The boa died during a protracted illness of Mr. Mann, apparently from grief that he could take no notice of her.

HIPPOPOTAMUS HUNTERS.

The late Dr. Livingstone in his "Last Journals" gives the following: At the Longwas of Zamba we came to a party of hereditary hippopotamus hunters, called *makondwe* or *akombwe*. They follow no other occupation, but when their game is getting scanty at one spot they remove to some other part of the Loangwa, Zamgesi, or Shire, and build temporary huts on an island, where their women cultivate patches. The flesh of the animals they kill is eagerly exchanged by the more settled for grain. They are not stingy, and are everywhere welcome guests. I never heard of any fraud in dealing, or that they had been guilty of an outrage on the poor; their characteristic is their courage. Their hunting is the bravest thing I ever saw. Each canoe is manned by two men; they are long light craft, scarcely half an inch in thickness, about eighteen inches beam, and from eighteen to twenty feet long. They are formed for speed, and shaped somewhat like our racing boats. Each man uses a short broad paddle, and as they guide the canoe slowly down the stream to a hippopotamus, not a ripple is raised on the smooth water; they look as if holding their breath, and communicate by signs only. As they come near their prey, the harpooner in the bow lays down his paddle and rises slowly up, and there he stands erect, motionless with eager, with the long-handled weapon at arm's length above his head, till, coming close to the beast, he plunges it with all his might toward the heart. During this exciting feat he has to keep his balance exactly. His neighbor in the stern at once backs his paddle, the harpooner sits down, seizes his paddle, and backs too, to escape; the animal surprised and wounded, seldom returns the attack at this stage of the hunt. The next stage, however, is full of danger. The barbed blade of the harpoon is secured by a long and very strong rope round the handle. It is intended to come out of its socket, and, while the iron head is firmly fixed in the animal's body, the rope unwinds, and the handle floats on surface. The hunter next goes to the handle and hauls on the rope till he knows that he is right over the beast; when he feels the line suddenly slacken he is prepared to deliver another harpoon at the instant when hippo's enormous jaws appear with a terrible grunt above the water. The backing of the paddles is again repeated, but hippo often assaults the canoe, crunches it with his great jaws as easily as a pig would a bunch of asparagus or shivers it with a kick by his hind foot. Deprived of their canoe, the gallant comrades instantly dive and swim to the shore and water; they say that the infuriated beasts look for them on the surface, and being below they escape his sight. When caught by many harpoons the crews of several canoes seize the handles and drag him hither and thither, till weakened by loss of blood, he succumbs.

A TRIAL OF STYLES.

(New York Herald of Wednesday.)

The race which took place in Springfield between the eights of Harvard and Yale, on Friday, was interesting in many respects. It was to a great extent a trial of styles—English and American. All that Cooke, the Yale Captain, displays in his rowing is English, borrowed from the style of the English university crews. Loring, the Harvard coach, who is also conversant with the English system of rowing, on the other hand had instructed his crew to return to the old style, which, in years gone by, brought Harvard colors well to the front. Only for the sliding seat we might have expected to see Harvard up in the 40's. So much has been said about English strokes and American strokes that one might be led to believe that there was a vast difference between them. The English oarsmen, understanding rowing, from long experience, practice and study, better than Americans, wisely adapt

hundred ways, that he is much indebted to them for the victory achieved. Murphy rode the distance of 155 miles in 6h. 45m. 7s., which gave him 14m. 58s. to spare, and then, just to finish off the job in fine style, rode an additional mile in 2m. 15s., making the entire distance travelled 156 miles in 6h. 47m. 22s. The rider finished his feat apparently but little the worse for it, walking to the clubhouse after his final mile seemingly as erect and strong as if he had not ridden more than ten miles. Murphy is a slight built man and of light weight, never weighing more than 180 pounds.

The judges of the day Messrs. Hugh Ferrigan, Joseph N. Chandler, F. C. O'Reilly and A. C. Dayton. Beside these there were markers and clerks on the stand, who did their duty in commendable shape. At 12h. 30m. the word was given, the rider being dressed in green cap, gray loose shirt and linen overalls, and he dashed away on his long journey with a cheer or two from personal friends. At this time there were but 200 persons present, and never during the afternoon were there more than 600 on the grounds. His first mile was made in 2:22, when he changed horses and went the other way of the track, the second mile being finished in 2:23. Five other changes were made before he completed his ten miles, which were made in 2:4m. 16s. His seventh mile was done in 2:06, the fastest of the day. The eleventh mile was reached in 2:23, the twelfth in 2:11, and the slowest of the second ten, the eighteenth, in 3:10. When the twentieth mile had been run, he had been out 59m. 31s., and by rough computation was 4m. 6s. ahead of his time, quite an encouraging outlook. Up to this time he had run the majority of his horses two miles out. After the twenty-fifth mile, the rider drank a little cold tea and frequently his head and neck had been rubbed by the Californians assisting him. Captain Mowry was always on the turn and he ran his horses for an eighth of a mile with the performer, until they were fairly under way, and upon the stretch Murphy was similarly assisted, which service proved of great benefit. The thirtieth mile was made in 2:35, and up to this time the average time of his dismounting and remounting was 5 1/2 seconds. Here he had been 1h. 17m. 01s., and was 5m. 27s. ahead of his time. In his next ten miles he used five horses, the distance being accomplished in 25m. 35s., while the total time on the track, stoppages and all, was 1h. 42m. 30s. His fiftieth mile was run in 2:26, the total time being 2h. 03m. 23s. After the fifty-fourth mile Murphy lost 40 seconds in being sponged, which, included in the time, made the fifty-fifth mile stand as 3:25. When the sixtieth mile had been done the rider had taken up 2h. 35m. 23s. of his time. At the end of the seventy-fourth mile he rested 7m. 25s., meanwhile being thoroughly sponged and given cold tea. Murphy seemed refreshed after the rest and continued on his journey in capital spirits. Changes of horses now occurred after two miles. He had been out 3h. 34m. 34s. at the end of eighteenth mile, and was here 2m. 05s. the best of it. Just at this juncture the pool selling first in favor of "Time" was now Murphy, \$80, Time, \$20; and it continued at this average until it was apparent that the rider could not lose, barring accidents, when it was four to one in his favor.

When one hundred miles had been put behind him, Murphy had been out 4h. 26m. 27s., and calculation showed him 4m. 22s. ahead of time. From the ninety-second mile out to the end horses were changed every mile. The end of the 120th mile showed 5h. 17m. 14s.; the 140th, 6h. 09m. 19s., just 10m., 51s. ahead of time; the 150th, 6h. 38m., being 18m., 15s. in advance of the point he was marked to reach at this stage of his journey. The 155th mile was done in 2:33, with the result as above given. During his task Murphy made 111 remounts. His fastest mile was 2:06, and his slowest 3:25. His best and freshest horse were used after the 100th mile. The following is a complete record of his time:—

Let day with no wind. The other way to distressed, and rowed short and out of all form.

PURE JAMAICA RUM.

The Pall Mall Gazette says:—"A discovery has just been made at Kingston, Jamaica, which has excited much indignation in the bosoms of the planters against the merchants. It seems that certain merchants have been in the practice of importing into the island the inferior description of spirit manufactured in Cuba and shipping it again to Europe by the United States as 'Jamaica Rum.' As 'Jamaica Rum' enjoys a reputation even higher, in many instances, than that of its consumers, this 'trick of the trade' is calculated to destroy the value and character of an article on the production of which the island peculiarly prides itself. It is supposed that the extraordinary torpid and sluggish state of the Jamaica rum market in England, which has for some time past puzzled the planters, is due to this Cuba rum fraud, which has created an erroneous impression that the Jamaica rum is falling off in quality. Directly the discovery was made a meeting of the Cornwall Agricultural Club was summoned, with the view of taking steps to suppress the evil. A series of resolutions was accordingly passed, one of which calls upon the Government for a protection law, while another pledges the planters as a body to have no dealings with merchants or others who are known to lend themselves to a practice so unjust and antagonistic to the interests of the honest producers of one of the chief staples of Jamaica."

HOW GIRLS ARE MADE PRETTY.

The Hindoo girls are graceful and exquisitely formed. From their earliest childhood they are accustomed to carry burdens on their heads. The water for family use is always brought by the girls in earthen jars, carefully poised in this way. This exercise is said to strengthen the muscles of the back, while the chest is thrown forward. No crooked backs are seen in Hindostan. Dr. Henry Spry, one of the company's medical officers, says that "this exercise of carrying small vessels of water on the head might be advantageously introduced into our boarding-schools and private families, and that it might entirely supersede the present machinery of dumb-bells, back-boards, skipping ropes, etc. The young lady ought to be taught to carry the jar, as these Hindoo women do, without ever touching it with her hand." The same practice of carrying water leads to precisely the same results in the south of Spain and in the south of Italy as in India. A Neapolitan female peasant will carry on her head a vessel full of water to the very brim over a rough road and not spill a drop of it, and the acquisition of this art or knack gives her the same erect and elastic gait, and the same expanded chest and well-formed back and shoulders.—Home and School, Louisville, Ky.

EDUCATION AND ATHLETICS.

The mathematical class list just issued at Oxford for the final school examinations gives, says the Pall Mall Gazette, a practical negative to the assertions of some alarmists who aver that the modern furore for athletic exercises in the universities is only indulged in by its votaries to the sacrifice of educational attainments. The first class in the list is made up of six names. Of these Mr. W. Foord Kelcey, of Exeter, played in the University eleven last summer; Mr. C. H. Hodge, of Queen's, has for two years been the champion representative of Oxford in the athletic feat of "putting the stone." Mr. A. W. Michison, of Pembroke, has rowed in the University eight for two years past. Besides these three, Mr. G. Todd, of Pembroke, has been a leading oar in his college eight, third on the river for two seasons, has rowed in his college four, and was asked to row in the "trial eights" last autumn, but was unable to do so in consequence of other engagements.

THE CARRIER-PIGION is likely to come into favor again. Tegetmeier, the celebrated pigeon trainer, has perfected a plan for employing them to establish communication between light ships and the shore in case of shipwrecks. By using the marine code of signs, he is confident that information as to the need of assistance can be conveyed to points which would otherwise be cut off from all communication.

A REMARKABLE RACE.

On the 29th ultimo there arrived at Liverpool two American ships, the J. B. Brown, under the command of Capt. Kezan, and the Southern Cross, under command of Capt. Ballard. The two ships towed out through the brads at San Francisco at 6 o'clock on the morning of December 31st, 1875, side by side, discharged their pilots at the same time, and passed the Farallone Islands together. Met each other the next day and parted company that night. Met again on the line in Pacific, and again in the neighborhood of the island of Pitcairn, in the South Pacific, and did not see anything of each other again until in about three or four degrees of south latitude on the Atlantic side. Here they had it up and tuck for a week or ten days, watching each other as a cat does a rat. Finally a circumstance took place which the master of the Southern Cross says he never experienced before during a command in the East India trade for twenty-six consecutive years. Both ships arrived on the equator side by side, bearing by compass due east and west, and on working up their latitude they found they had no latitude at all—not a fraction either way; fact they were exactly on the equator. From this point they parted company. Met again in the north-east trades, sailed in company for a week or so, then parted. Met again off Holyhead, and took tugs from the same company. Towed up the M. way side by side, and had the dock gates been wide enough they could have entered side by side. As it was the Cross led the way in, the Brown following within a foot of her all the way.

LAGER BEER IN THE COURTS.

In the State of Vermont, where the prohibitory law is in force, the question whether or not lager beer will intoxicate, was lately made the subject of a trial and legal decision in one of the courts. The case arose from the seizure of a keg of lager as contraband under the law, and the owner claimed its restoration on the ground that the liquor was not intoxicating, and therefore did not come within the provisions of the liquor law. To prove this several witnesses were called who swore that they had drunk from fifteen to thirty glasses a day, and that was the least intoxicating effect was produced thereby. One witness swore that he drank lager until he could drink no more, and he would as soon think of getting drunk on milk as on lager beer. Five doctors swore that it was not intoxicating, and although one of the witnesses for the prosecution, who weighed over 200 pounds, swore that he drew lager until he was full to the brim, and that it made him a little light headed, the court decided in favor of the lager beer dealer.

FOOLING WITH PUSSY.

This morning a ranchman brought into town a wildcat which he had caught in a cage trap a few nights ago. The cage was lifted out for the inspection of a possible customer at the corner of Blake and Fifteenth street, the cat meanwhile lying apparently asleep on the floor. A verdant youth from the East came along, and admired the beautiful animal, and, encouraged by its quiescence, ventured to stroke his head. At an instant that cat was the liveliest kind of thing. An angry spit burst from its mouth directed to the back of the cage with raised paw, when that young man drew his hand out in a condition to hunt a sargeon, which he did instanter.

BRUTAL TREATMENT OF ANIMAL.—The Chatham Chief of Police has arrested Jas. W. Wagon, of the township of Chatham, for the purpose of stabbing a mare, the property of James Wagon. Prisoner uses a pitchfork on the horse belonging to Glasgow, and one of them is. He also ill-used a cow belonging to Donald M. Dougall, in the same neighborhood. He was committed for trial at the Court of Assizes 1, the P.M., but gave bail in \$600.

A GREAT DANGER.

From the experiences of the past season on the turf, in Ontario, it is quite plain to be seen one of the greatest elements of danger to its success is entirely within itself, and a danger that is quite within the power of Associations to control. It would not be far from the truth, if it were stated, that about all the difficulties which have arisen this Spring and Summer have had their origin either directly or indirectly from improper judging. Men have been placed in the stand who were woefully ignorant of the first principles of racing; others have occupied the judicial position when they were primarily interested in the success of some horse in the race; and again in other cases the laxity of judging has almost amounted to incompetency. This will always create dissatisfaction, which will prove a serious obstacle to the success of racing. Whether the injustice at London, the laxity at Hamilton, or the ignorance at Oshawa is considered, it eventually amounts to the same thing—dissatisfaction. It behooves Associations to protect themselves from this incubus before it is too late. Prospects were beginning to look flattering; fresh horses were being introduced, and new purchases contemplated. But if the efforts of gentlemen to elevate the standard of, and increase the interest in turf matters is to be rendered nugatory by the apathy of Associations in placing indifferent men in the stand, then will the blow be felt more severely by the Clubs than any one else. There are lots of good men in the country who hold aloof from the sport on account of the extremely uncertain and erratic turns which affairs take, and the conciliation of our best citizens is much to be desired.—To accomplish this, above every thing else, the purity of the stand must be above suspicion, no whisper of incompetency heard, and the rules administered with a firm hand. Men have been heard to declare from the stand that they held pools on the races; while others have gracefully acknowledged their total unacquaintance with the rules by which the contests were governed, but qualified their ignorance by stating they

rec. A properly organized Dominion Turf Association would make these gamblers extremely dangerous to their promoters, as a horse that was once discovered at such a track would be immediately expelled, and his further usefulness for speed purposes lost. However, no protection to the public like this can be expected under our present system. The only penalty that can be inflicted is the unmasking of such depredators, and it is hoped our friends throughout the country will advise us of any similar departures from the highway of honor in turf matters.

AN AMATEUR OPINION.

"THE FASTEST TIME ON RECORD.—KISBER RUNS TWO MILES TEN SECONDS FASTER THAN HAS EVER BEEN ACCOMPLISHED IN AMERICA.—It will be remembered that Kisber, the winner of the Derby, won the Grand Prize of Paris with the utmost ease, and, according to Wilkes' Spirit, 'pulling double in the commonest kind of a canter.' The extraordinary part is that he covered the distance quicker than any horse ever has on this continent, the fastest two miles having been run in 2:32½ by True Blue, at Saratoga, in July, 1878, and by Katie Pease, at Buffalo, in September, 1874—both, however, being ridden out, and carrying, in the first case, only 108 lbs., and in the latter only 105 lbs., while Kisber was hard held the whole way and had 122 lbs. up. The Spirit winds up the article on the Grand Prize as follows:

"The owner of Kisber has won a fortune on his horse, realizing, it is stated, quite a hundred thousand pounds by his victories in the Derby and Grand Prix de Paris. The next engagement of the all-conquering hero is for the Great Doncaster St. Leger, in which his success is merely a question of health. M. Lupin's Enguerrando will also start for this important event; all that can be asked of her, however, nice filly though she be, is to follow humbly in the wake of the grandest horse seen since the days of Gladiateur, whose time in the Grand Prix, Kisber beat, covering the two miles of the race in 2m. 22½s., according to Benson's chronometer. This unprecedented record will serve to prove the great speed at which this year's Grand Prix was run, and demonstrates the wonderful excellence of an animal that could obtain it without ever being extended. More will yet be heard of Kisber."

"We trust American sportsmen will stop blowing about time now!" The above extraordinary article is clipped from the Hamilton Times of the 5th inst., and displays an amount of ignorance in one who professes to write on turf matters that is truly lamentable. True Blue, Katie Pease, or any other horse never accomplished two miles in 2:32½; True Blue's time at Saratoga was 3:32½, only a difference of one minute from that given by our contemporary; and Katie Pease was disqualified in her race at Buffalo, when the two mile dash was won by Lizzie Lucas, although the distance was undoubtedly run by the former in the same time that True Blue is credited with at Saratoga. To any person who witnessed it, it will be news to learn that Katie Pease was "ridden out" in the race in question; it was the opinion of every one present she could have run much faster if it had been required. Again, Kisber's time in the Grand Prize of Paris was 3:22, not 2:22½, only a difference of about sixty seconds again in the record, which might not be much in the time of a funeral, but is considerable in the speed of a race-horse in a two-mile dash.—And further, the distance for the Grand Prize of Paris is not two miles, being only about one mile and seven furlongs; and assuming it to be fully that distance, it can be found by a simple arithmetical calculation

The entrance for the Montreal Trotting meeting close this evening. Mr. Rembler Paul, V.S., of this city, has refused \$800 for his trotting mare Little Wonder. A couple of gentlemen in this city are about purchasing a noted crack running horse from the other side. Last season he showed his heels to such flyers as Big Fellow, Vandalite, &c. A few more of this sort are required. The hotel at the Barrie track has recently been licensed, notwithstanding the strenuous opposition of the Puritans. A race meeting is very probable there in September. Our advertising columns to-day contain the announcement of a newly invented interfering boot. If it will perform half what is claimed, it is of great value to track and road horses. A specimen may be seen at this office.

At noon on Thursday, a beautiful chestnut Fearnought stallion, owned by Mr. Angus McKay, Ingersoll, died from inflammation. He was four years old, and was one of the most promising trotting colts in Canada. He was valued at \$5,000. It is said that Mr. Young, Ottawa, owner of the trotting horse The Moose, was offered \$5,000 for him by an Ogdensburg gentleman. The offer was refused. The match at Ottawa between the hurdlers Galatea and Lilly announced for last Saturday, did not come off, being drawn by mutual consent. The Montreal horse market has been very dull. The principal purchaser last week was Mr. James Mulcahy, of Troy, N. Y., who shipped 18 horses, valued at \$1,126. A three days' meeting is proposed at the new trotting track Ottawa. The programme will consist of running and trotting. The St. Maurice (Three Rivers) races commence on the 18th inst. The Queen's Plate for Quebec will be run the first day. Last week Mr. Alex. Melville, of Fullerton, had his two-year-old filly weighed on the Mitchell scales. She tipped the beam at 1,610 lbs. A meeting was held at Ottawa on Monday evening by the stockholders of the Dominion Trotting track. The following gentlemen were elected officers: President, Mr. Joseph Reopell; Secretary, Mr. W. P. McKay; Treasurer, Mr. Alex. Robillaird.

THE RESIGNATION OF MR. B. G. BRUCE.

As we published the statement of the resignation of this gentleman as the Secretary of the Kentucky Trotting Horse Breeders' Association, we now give the explanation which he makes in his paper, the Kentucky Live Stock Record: "We see going the rounds of the papers a paragraph which states that the editor of this paper, Mr. B. G. Bruce, was moved to resign his position as secretary, by reason of the adverse comments upon the management of the trotting meeting just closed, and that the result of the meeting was disastrous. This is not true, and there is no foundation for the report. We have never seen or heard any unfavorable comments from any source. Mr. Bruce has occupied the position of secretary for the past two seasons, without a cent of cost or expense to the association, though his predecessor received a liberal salary. He was unwilling to work longer for nothing, to the neglect of his own business. Besides, if the meeting was disastrous, which we deny, as not a dollar

favorite. Katie P made the running, but was collared on the last turn by Maritime, and a good race ensued, the Nova Scotian finally winning by about a neck; Moonbeam away in the rear. This was followed by a half-mile heat race, 3 in 5, which fell an easy victory to Cecelia. As a matter of convenience for reference we give the summary of the first day's racing as well.

THE OSHAWA RACES.

The inaugural meeting over the Oshawa track commenced on Thursday of last week and was continued on Friday and Saturday. The track is a half mile one, of good width and built on the latest principles, having good stretches and turns as can be obtained on a course of that length. It appears to be composed of a black loam, which will scarcely ever bake up to hardness, and when settled will be found to dry up quite rapidly. A tight board fence, about ten feet high surrounds the boundary of the lot, while on the inside the track is railed. A neat judges' stand and weighing room, together with the Pool stand are on the inner side; opposite the former is the Grand Stand, two stories, the lower one being occupied as a refreshment room; and the upper part being fitted up with elevated seats. Taken altogether it is probably one of the most complete half-mile Driving Parks in the country. The inner portion of the field is very level, and will be utilized for Base Ball, Cricket and Lacrosse matches, and such other sports as may require an extensive piece of level ground. It is the proprietor's intention to

considering the weather, must have been pleasing to the proprietor. A handicap two-mile dash was next in order. It had five entries, all of which accepted. Passion was made the favorite at about \$25 to \$75, being followed by Warrior, Maritime, Sunnyside and Islander. They were started with two flags, and on the first attempt the flags were dropped to a good start, but after running past the stand the Judges rang the bell to call them back. All answered the bell, sooner or later, except Passion, who was sent around on a canter for the distance; on the completion of which she was brought up to the stand and her rider weighed. Her owner then notified the Judges he claimed the race, on account of the word having been given, and the mare was led away. Immediately afterwards the remainder of the horses were called up, and sent off without her. For the first mile Sunnyside cut out the running but the pace was too hot for her and she retired, giving way to Warrior, who had up to this time been running under a double pull. Maritime, who had been trailing now was called on, and ran up to second place; coming down the stretch for the last time, the Nova Scotian made play for the big bay but could not overhaul him. The elder of Warrior lost no opportunity in the race of giving the other horses the worst of it, and on the board being hung out it was seen he was disqualified, a decision which was acceptable to the great majority. Pools on Passion were subsequently declared drawn; for what reason or under what rule appeared only to be known to the judges. It is the intention of the owner of Passion to contest his right to the first money in a law court, and consequently we do not feel disposed to make any comments on the case. A half-mile heat race followed. The Ruric colt was made the favorite about even up, with the field selling for \$20 in \$48 pools. The first two heats were hot between him and Cora Sands; the first being declared a dead heat, and the latter the mare barely winning. For the third a false run around took place in which all but Montreal shared. The third and fourth heats were captured by Montreal, which finished the race. The judging throughout the day was very unsatisfactory and gave cause for any number of complaints. Barring this, everything else passed off satisfactorily enough.

The 2:35 trot was postponed until Saturday, when it was won by Little Ethan, beating Black Mack and Grey Eddie. The following are the summaries of the different events:

REINSTATEMENT AND SUSPENSIONS.

The little roan gelding Little Jake, of Saginaw, Mich., who gave Jack Draper such a race in Hamilton a couple of years ago, when the former trotted under the name of Erastus, has, since 1874, been under the ban of suspension for non-payment of entrance. By late reports we learn he has been reinstated, the claims against him having been settled.

By order of the Medina, N.Y., Driving Park Association, the following Canadians and horses have been suspended for non-payment of entrance money:—

E. W. Eells, London, Ont., and brown gelding Vanderbilt.

Robt. Harkness and gray gelding Hiley.

The Buffalo, N.Y., Park Association have suspended R. Harkness and grey gelding Hiley for non-payment of entrance money.

OGDENSBURG RACES.

Our report of the Ogdensburg races not having come to hand, we give the following account of the proceedings clipped from an Ottawa paper:—

“ One of the most important features of the day was the races. The purses offered were sufficiently large to attract the crack horses of New York State as well as those of the Dominion, and the sporting fraternity attended the track in the full anticipation of seeing some good sport. The first race on the programme was a mile and eighty yards' dash for a purse of \$150 to first horse, \$50 to second. There were five starters. After a very pretty race, Lulu won in 1:56½, Gray Cloud 2nd, Clandeboye 8rd. The next race was looked upon as the event of the day as regards racing, and considerable interest was centered in it. It was between five Indians and three trotting horses—Indians to run three miles, changing every half-mile; horses to trot five five miles, changing every mile, and was for a purse of \$150. The Indians won in 15 min. 16 secs. The horses trotted on the occasion were North America, American Girl and the Moosa. The latter met with a warm reception by the Ottawa 'boys.' He looks well, and promises to surprise the sporting fraternity ere long. A good deal of money was invested in this race, the Indians being the favorites. The next event on the list was the hurdle race for a purse of \$275; \$200 to first horse, \$50 to second, \$25 to third. The starters were Kelso, 162 lbs., ridden by McBride; Squire, 140 lbs., ridden by Williams; Austringe, 156 lbs., by Jackson; and Lily, 145 lbs., by Flynn. This race was the prettiest on the programme, and created, perhaps, the liveliest interest. The horses kept well together for the first mile and a half, The Squire and Kelso leading alternately. At the finish Kelso came to the front and won by three lengths amid the greatest excitement, Austringe second, Squire third and Lily last. Not a single accident occurred during the race. Kelso was favorite in the pools, and sold even against the field.

The Post Stakes, 1½ miles, \$20 entrance, \$225 added by the Club—second horse to receive \$75—came next. There were five entries. Goldfinch won after a hard struggle, Lulu 2nd.

The grand trotting race, for a purse of \$500, \$300 to first, \$150 to second and \$50 to third, brought out Jack Draper, Captain Smith, Deccit and Lew Ives. Jack Draper won in three straight heats, Captain Smith second and Deccit third. The time was 2:36½, 2:35, and 2:37. This brought the racing part of the programme to a conclusion.

CLIPPERS vs. PAUK NINE.—A game was played in the Queen's Park between the above Toronto Clubs on Saturday. The youthful Clippers were victorious by 9 to 1.

In London on Saturday the Tecumsehs defeated the Cass club, of Detroit, by 14 to 0.

The Chicago White Stockings want Goldsmith, the Tecumseh's pitcher, but he won't go.

At the Hamilton Centenary Church Sunday School Pic-nic, held at the Brant House, Wellington Square, on the 6th inst, a friendly game of base ball was played between Mr. Joseph Green's Junior Bible Class, and the pastor's Senior Bible Class, which resulted in favor of the juniors by a score of 16 to 11.

Mr. Maloney, the fast pitcher of the Pen-tanguishene Club, has been barred in the return match with Collingwood. The Northern papers say he is the fastest ball-thrower in Canada.

Cricket.

TORONTO vs. HAMILTON.

On Saturday an interesting contest took place on the Toronto grounds between the Toronto and Hamilton clubs. As there was not time to complete a two innings' match the result was allowed to rest on the score for the first innings, Hamilton winning by twenty-eight runs. The defeat of the Toronto eleven was of course mainly owing to the fact that the Hamilton men out-played them, but their particularly weak points were their bowling and fielding, there being an unusual number of overthrows and other evidences of decidedly loose play in the field, while the bowling was for the most part anything but effective.

Majority for the President, 39 shots.			

President Mr. D. Allen, occupied the main Arrangements were fully made for sending 200 pairs picked fowls to the Centennial, which will be shown at the Provincial Exhibition to be held in Hamilton in September. These fowls will be taken to the Centennial in charge of the President, and Mr. Sturly, of Guelph. After other necessary business of minor importance the meeting adjourned.

ACCIDENT AT BOTHWELL.

From a correspondent, we learn that a very serious accident happened on Dominion Day to a young man, son of Mr. John McKillop, Reeve of Aldboro', who lives two miles from Wardsville. The poor young fellow left home on the morning of that day, in company with a number of young companions for the purpose of going to Bothwell to see the races held there. It appears that while on the race course one of the running horses bolted into the crowd of people where the young man was standing, striking him on the breast with his knees, bringing him to the ground, and with the force he had attained while running, slid the poor fellow along on the ground, with his knees still on his breast, for a distance of fifteen feet. He was picked up unconscious, and has remained so ever since, and the doctors have poor hopes of his recovery.

LACROSSE.

The match played here on Saturday, for the championship of the world, between the Ontarios and Torontos, was won by the latter in the second, third, and fifth games. Time, 33, 38, 9½, 11½, and 15 minutes. The excitement was intense, and the victors were enthusiastically cheered. Some 4,000 people were present. Challenges were received immediately after the match by the winners from the Shamrocks of Montreal, Montreal of Montreal, Ontarios and Tecumsehs of Toronto. They play the Shamrocks on the 29th inst.

CAMPBELL'S QUININE WINE.—Report from Dr. J. Baker Edwards, Ph. D. D.C.I., F.C.S., Professor of Chemistry and Microscopy.

I hereby certify that I have carefully analyzed the samples of "Quinine Wine" submitted to me by Messrs. Kenneth Campbell & Co., with the following result:

No. 1—Dark in color and turbid, deposits a muddy sediment on standing, has a sweet and acid taste, Orange Flavor and scarcely any yield on evaporation a thick syrup of refined sugar, contains only a microscopic trace of quinine and Quindine. Is made with Orange Wine.

Sample X—Dark color, with dark muddy deposit on standing, has an acid and slightly bitter taste, contains Cinchonine but no Quinine. Is made with an acid wine, not sherry.

No. 3—Campbell's—Light color, clear, with no deposit, contains Disulphate of Quinine in the proportion of 1 grain to two fluid ounces. Is made with sound sherry wine.

N.B. The latter (Campbell's), is the only genuine "Quinine Wine" of the three samples examined.—Signed,

JOHN BAKER EDWARDS, Ph. D. D.C.I., F.C.S., Prof. of Chemistry and Microscopy, Bishop's College and College of Industry, Montreal.

Californians domesticate quail and rear them as tame as barn-yard fowl.

A London physician says that blowing cornets or trombones is the best exercise for women, expanding their lungs, and making them straight.

An animal supposed to be a cross between dog and wolf, was shot in the village of Mar-mora a few days ago by Mr. D. Bently.

A Colorado paper says:—"The Canon City girls don't take kindly to croquet. They say it isn't high-toned enough for them. Leapfrog is their best hold."

The future pitcher and catcher of some champion baseball nine are practising with a half brick done up in an old stocking. This is what may be called the ragged edge of the game.

At Tisbury, in the County of Westmoreland, New Brunswick, there is a boy nine years old that measures three feet nine inches in height and weighs 140 lbs. His name is Louis Cormier, which signifies French origin.

Mr. Andrew McMillan, the market gardener, Dundas, says that early on Tuesday morning on his way to Hamilton, he passed through a shower of loads in Bunsley's Hollow, which lay as thick on the ground as the hair on a dog's back.

A mare belonging to Mr. Alexander McMaster, Low Point, C. B., gave birth to a foal recently, which only had one fore-leg and that one somewhat malformed. Otherwise the animal was fully developed, and at last accounts was thriving.

Mr. Urbain Arseneault, Egemont Bay, N. B., has a cow which brought four calves in ten months. Two last spring and two this spring, only ten months intermission; three of these are heifers. The cow is twelve years old and she has brought twelve calves.

Mr. Whitshire, a woman of small stature, walked 100 miles in 23 hours and 40 minutes, in Dunedin, New Zealand. She is said to be the fastest female walker against time that has ever appeared in Australasian columns. The feat was accomplished in a public hall, and she netted about \$50 for her work.

This is a sample of the arithmetical problems proposed at the Storey County (Nov.) Teachers' Institute:—"A man puts down a certain sum of money on the corner of the street to take the tray, in a \$25-limit game. They both win through. At the end of the deal he finds that he has \$57. How much did he put down and how much did he win?"

Millions of young fish from 1/4 to 1 1/2 inches in length, and apparently having been dead for some time, were observed floating down the river or were washed ashore on the river banks above Amherstburg on Tuesday forenoon last. It is believed this is something that has never before been observed in the neighborhood, and it is possible these are some of the young fry placed in the river by the various breeding establishments.

CHAMPION CANOEISTS.—Mr. Geo. Major, of the Civil Service, and Mr. Christie, of the Ontario Bank, "paddled their own canoe" from Ottawa to Grenville in eight hours on Saturday last, returning by the steamer this morning. We are given to understand that Mr. Major has challenged the celebrated Mr. Brown for a race of twenty-five miles, to come off as soon as preliminaries are arranged.

SHAKE OUT YOUR PINBACK.—"Pull down your vest." "Wipe off your chin." "Shoot the bat, these were three samples of slang we heard yesterday within five minutes from as many young bloods, and we were just on the point of saying something about the admirable growth of slang phrases, when two young ladies passed by, and when one of them audibly said to the other, "Shake out your pinback," we concluded to reserve our lecture.

A CAPTURE.—This morning as Mr. T. B. Williams, who is gardener to Mr. Lowe, of the Department of Agriculture, was engaged at his work, he espied a large porcupine coming from the fence. He and his mate "circumvented the varmint," and turning a wheelbarrow over managed to place it in durance. The animal is of most extraordinary dimensions and might form a most interesting addition to the menagerie coming here shortly.

A team of horses belonging to Mr. Robt. Higgins, of the 6th line, hauled to Watford on Monday last, 81 bushels of spring wheat, the largest load of the season. It was weighed and purchased by Mr. Fuller at \$1 per bushel. The grain and bags weighed 4,800 pounds, the wagon 1,200 and two men that were on the load 805, making a total of 6,805 pounds. Has any of our readers heard of anything to beat this? We are not at all.

ONTARIO CURLING CLUB.—The annual meeting of the Ontario Branch of the Royal Caledonian Curling Club was held at Toronto on Wednesday last. The following officers were chosen:—Patron, Earl Dufferin (re-elected); President, Dr. Hamilton, Dundas; first Vice-Pres., Mr. Gillespie, of Hamilton; second Vice-Pres., J. S. Russell; Secretary and Treasurer, David Walker (re-elected); Chaplain, Rev. Dr. Barclay; Managing Committee, the officers and Dr. Foid, James Pringle, Captain Perry, Robert Crawford and John Harvey. It was agreed to print an Annual for 1877, the publication to be in charge of J. S. Russell, D. Walker and Rev. Dr. Barclay.

CHARITY AND GENEROSITY.—All the world knows, or ought to know, that the lovers of horse-racing are distinguished for kindness of heart and liberal charity. A very pleasing instance of this is before us in a late issue of the London Times. Upon the road to Epsom there is at Sutton the South Metropolitan School, in which 1,600 poor children of tender years are fed, clothed, and instructed. Those who drove to the races on the Derby day saw the children in the school grounds by the roadside drawn up in three classes—boys, girls, and infants; and, as is usual, many threw small coins among them. The amount picked up is reported by the managers at one hundred and six pounds, sixteen shillings. This is ten pounds more than it was last year. The money is to be expended in giving the children a treat to the Crystal Palace, or some other place of recreation.

ENOINOUS HORNS.—Mr. John Connolly, of the 10th concession, Minto, recently found a deer's horn while logging a piece of new land. The horn, although much decayed and broken, has at present five prongs, and must have measured six feet in length. The diameter at the root is now six inches. The horns could not have been less than eight feet across the top—when attached to the deer's head, and must have been from ten to fifteen feet in height, taking into consideration the height of an animal wearing such horns.

Horse Notes.

SALE OF LONG NINE.—Mr. A. Wech, of Chestnut Hill, has purchased this mare—the dam of Nettie Norton—from Mr. John Coffee.

Mr. A. Baltazzi has dealt most liberally with the trainer and jockey of Kisher. Hay-hoc has received the handsome present of £2,000, and Maidment £1,000.

BAD NEWS FROM GRAFTON.—Mr. Bonner's horse Grafton, we are sorry to learn, has been suffering from a bad fistula on his left shoulder for several weeks. It was confidently expected that it would yield to treatment, but the recent symptoms have not been so favorable. We hope the horse will recover, for Charles Green, who has him in charge, feels confident that Grafton, when fully himself, is able to wipe out the best existing record.

A LUCKY COMBINATION WAAGER.—The Derby of 1876, and many former Derbies, have produced no more extraordinary bet than one just won by two gentlemen, one of them a well-known artist. By risking one sovereign they have netted £800, punctually paid on settling day. They got 800 to 1 on a "triple event"—Thunder for the City and Suburban, Petrarch for the Two Thousand, and the Mineral colt for the Derby. All these came off.

FAR FROM CORRECT.—A contemporary says: "The wonder of the summer meeting at the Hartsburg (Ky.) trotting course, is Blackwood, Jr. He is the fastest five-year-old on record, having trotted in 2:27 1/2, at Nashville, in the sand." Unfortunately for the correctness of this item, Lady Maud, when five-year-old, in 1872, got a record of 2:22 1/2. Unfortunately again, Blackwood, Jr. trotted at Nashville, in 2:22 1/2. Unfortunately again, no such fine splitting as eighths of a second is known on the turf.

FAST TIME AT MR. BONNER'S FARM.—A fine exhibition of trotting speed was given at the farm of Mr. Robert Bonner a few days ago. A few amateur horsemen were visiting there, and for a little sport a race was organized between Mosey and Music, whose respective records are 2:21 1/2—2:21 1/2. Mr. Robert Bonner driving the former to wagon, and his son the latter to harness. This race was a close victory for Music, in 2:23 1/2, Mosey lapping her out, though drawing a wagon and 180 lbs. of live weight. Mosey was then put before a sulky, and Mr. David Bonner, who had never pulled a rein over her before, took the ribbons over her. The mares kept together without a break to the three-quarter pole, when Music left her feet and fell back a little. She made a nice break; however, and was coming for Mosey, but the driver of the latter shook her up on the homestretch, she responded nobly, and finished the mile in 2:19 1/2—the fastest she has ever shown in public or private.

The boat was accomplished in a... hall, and she netted about \$50 for her work.

This is a sample of the arithmetical problems proposed at the Storey County (Nov.) Teachers' Institute. — "A man puts down a certain sum of money on the corner of the ace, to take the tray, in a \$25-limit game. They both win through. At the end of the deal he finds that he has \$57. How much did he put down and how much did he win?"

Millions of young fish from 1 1/2 to 1 3/4 inches in length, and apparently having been dead for some time, were observed floating down the river or were washed ashore on the river banks above Amherstburg on Tuesday forenoon last. It is believed this is something that has never before been observed in the neighborhood, and it is possible these are some of the young fry placed in the river by the various breeding establishments.

CHAMPION CANOEISTS.—Mr. Geo. Major, of the Civil Service, and Mr. Christie, of the Ontario Bank, "paddled their own canoe" from Ottawa to Grenville in eight hours on Saturday last, returning by the steamer this morning. We are given to understand that Mr. Major has challenged the celebrated Mr. Brown for a race of twenty-five miles, to come off as soon as preliminaries are arranged.

SHAKE OUT YOUR PINBACK.—"Pull down your vest," "Wipe off your chin," "Shoot the hat," these were three samples of slang we heard yesterday within five minutes from as many young bloods, and we were just on the point of saying something about the abominable growth of slang phrases, when two young ladies passed by, and when one of them audibly said to the other, "Shake out your pinback," we concluded to reserve our lecture.

A CAPTURE.—This morning as Mr. T. B. Williams, who is gardener to Mr. Lowe, of the Department of Agriculture, was engaged at his work, he espied a large porcupine coming from the fence. He and his mate "circumvented the varmint," and turning a wheelbarrow over managed to place it in a slance. The animal is of most extraordinary dimensions and might form a most interesting addition to the menagerie coming here shortly.

A team of horses belonging to Mr. Robt. Higgins, of the 6th line, hauled to Watford on Monday last, 81 bushels of spring wheat, the largest load of the season. It was weighed and purchased by Mr. Fuller at \$1 per bushel. The grain and bags weighed 4,900 pounds, the wagon 1,200 and two men that were on the load 805, making a total of 6,405 pounds. Has any of our readers heard of anything to beat this? We are listening.

A gentleman at Fort Gaines, a few days ago, set a line and caught a twenty pound catfish in a very unusual manner. When he had landed the fish, he found that a moderate sized eel had been hooked. The catfish had attempted to swallow the eel, but the eel had passed out of the gill of the fish. A second attempt was made and the eel went out of the left gill, thus fastening the fish, in a manner which was very unusual to fishermen, and as inextricable as a gordian knot. This not a fish story, therefore it is true.

A gentleman, while engaged north of Rice Lake, Wis., says the Chronotype of that place, observed an eagle arise from the ground holding in its beak and talons a large snake. Attentively watching, he saw the snake coil itself about the body of the bird, expecting to see it momentarily succumb to the deadly stram. Suddenly a very small hawk darted with extraordinary rapidity toward the entangled eagle. Seeming to realize his danger, he tore the reptile into pieces with a report distinctly heard, and then the pieces in separate directions. The hawk caught one piece before it struck the ground, and the eagle gathered up the other piece, moving off on the wing as if he had won the prize.

A NEW WEAPON.
The Times of India says: A pistol that can kill at 500 yards has been patented by Captain Burton. The butt is that of an ordinary pistol; the barrel is that of a good rifle, cut short, but having sufficient "turn" to send the bullet on its errand with the proper spin. The chief object is to send a rifle bullet at an enemy or game, without having to use the shoulder, especially when on horseback. To accomplish this the barrel is filled up with a steel handle to be grasped by the left hand, while the arm is extended as in archery. The inventor has provided a patent safety bullet which will explode as a shell when it crashes against the bones of large game, but will pass through brushwood, or the skin of a wild animal, like an ordinary ball. It will not explode if let fall upon its apex, but if fired into a box of ammunition it will blow up everything.

Two card-playing friends were passing through a pine forest, when one asked the other this quaint question: "Why cannot the proprietor of this forest fell his own timber?" "Because no one is allowed to cut when it is his own deal."

THE THOROUGHBRED STALLION
HYDER ALI
Will make the season of 1876 at Toronto, Cooksville, Oakville, Bronte, Wellington Square, and Hamilton, for a limited number of mares. His book is now open.
Description—Hyder Ali a beautiful bay, about 16 hands, foaled in 1872, sired by imp. Leamington, dam Lady Duke, by Lexington; 2nd dam, Magdalen by Meade; 3rd dam, Pepp's dam by Sumpter; 4th dam, by Lewis' Eclipse; 5th dam, Maria by Craig, Alfred; 6th dam, by Tayloe's Bessie; 7th dam, by imp. Medley, &c. (See American Stud Book, vol. I. p. 602, vol. II. p. 4). Leamington by High-a-Ballagh winner of the St. Leger in 1844.
It is unnecessary to enlarge on the high breeding of Hyder Ali, as the above pedigree, combining the two most fashionable strains in America—Lexington and Leamington—speaks for itself.
Hyder Ali was considered the crack two and three-year-old of his year as a racehorse.
TERMS—To insure thoroughbred, \$40; other mares, \$25.
For further particulars address,
J. DWYER, "Sporting Times" Office, Toronto. 233

Rysdyk, STOCK FARM.
THE TROTTING STALLION RYSDYK
By Hambletonian, out of Lady Duke, by Lexington, will make the season of 1876, at the proprietor's stables.
\$100 TO INSURE,
\$25 to be paid at time of service.
Rysdyk, the "Stud King" of the Stock Farm, is the best bred trotting stallion in America, embracing the best possible cross of Rysdyk's Hambletonian, the highest type of the trotting horse with Lexington, the perfection of the thoroughbred; the unequalled staying qualities of the latter added to the purely gaited trotting action of the former.
Mares kept at moderate charge and well cared for. All accidents and escapes at owner's risk. Communications by letter or telegraph cheerfully attended to by addressing the proprietor or superintendent, H. W. Brown. Mares not proving in foal can be returned next season free of charge. 239-nm

STORMONT STOCK FARM CORNWALL ONT.
RINGWOOD,
Got by Edward Everett; 1st dam by Long Island Black Hawk; 2nd dam by American Star, will stand during the season of 1876, at the Stormont Stock Farm, one mile east of the Town of Cornwall.
Ringwood is, in color, golden chestnut; stands 15 1/2 hands high, and weighs 1,170 lbs. He is a horse of grand presence, of more style, head and tail, than any horse in the country. With his perfect, regular, machine-like action, his wonderful speed, power and substance, and his rare combination, in the closest and most direct lines, of the blood of the three greatest trotting families on the turf, the ABDALLAHS, BASHAWS, and STANS, he is the most desirable horse to breed from in Canada, and not surpassed by any trotting stallion in America. From the appearance of his colts and fillies of 1874 and 1875 (his first get were dropped in 1874), they have his fine size, form and color, it is fair to infer that he will transmit to his stock his own great qualities; the great qualities of style, speed and game that distinguish his Royal ancestry, and place them on the roll of fame, high above all other families of trotters.
Directly descended through his sire, Edward Everett, by Rysdyk's Hambletonian (by Abdallah by Mambrino), from imp. Messenger; through his dam, by Long Island Black Hawk (by Andrew Jackson, by Young Bashaw), from imp. AMERICAN GRAND BASHAW; and through his grand dam, by Seeley's American Star (by American Star by Duroc), from imp. Duroc, he is more closely and immediately allied to the great trotting wonders of America, with the exception of Walkhill Chief, Ajax, and Artemus, full brothers, and of Socra and Norton, full brothers, than any other horse now at the stud, that we know of, either in Canada or in the United States. Add to this the Royal blood of imported Margrave, deeply inbred to the great Heron, derived through the dam of his sire, and you have a combination of the lightest and purest types that may be equalled possibly, but cannot be excelled by that of any trotting sire in the world. AND BLOOD WILL TELL!!
TERMS—\$30 the season, payable 1st Sept. next, or if preferred, \$50 to insure. Season will end 31st July.
All mares owned out of the Counties of Stormont, Dundas and Glengarry, must be paid for at the time of service or before removal.
Mares will be pastured or stabled carefully, and fed grain, as the owners may desire, at the most reasonable rates. Every care will be taken of mares, but all accidents and escapes must be at the risk of their owners.
Mares from a distance will be met at the steamer or cars and taken to and from the farm, free of expense, by a careful man. Send for tabulated pedigrees.
All letters to be addressed,
D. & J. BERGIN, Stormont Stock Farm, Cornwall, Ontario. 248-nm

The Celebrated and High Bred Trotting Stallion
Charles Douglas
Will stand for mares at the Half-mile Racing and Driving Park, Queen street west, Toronto, for the season of 1876.
Pedigree—Charles Douglas was sired by Old Royal George, he by Black Warrior, he by Appleton by Ogden's Messenger, he by imported Messenger; dam by American Star, grand dam by Volcano.
TERMS—To insure, \$25; for the season, \$30. Single leap \$15. Season mares payable 1st August. Single leap payable at time of service. 252-lb C. FLANAGAN
FOR SALE CHEAP!
THE THOROUGHBRED STALLION AND RACE HORSE,
METEOR,
Beautiful golden chestnut, foaled 1869, 15-3, by Asteroid, he by Lexington, dam Maria Imitis by imp. Yorkshire; 2nd dam Ann Ignee, by Am. Eclipse out of Miss Chastante by Sumpter.
Meteor has been a great race horse at all distances, having won the Jersey Derby in 1872 beating among others Joe Daniels and Grey Planet, in the fastest time by about three seconds the race was ever run in. Has been trained to hurdling, is a splendid jumper, and up to 12 stone across country. Would make a fine steeplechaser or stallion. Will be sold very cheap, as his owner has no use for him. For price, extended pedigree and performance, apply at SPORTING TIMES Office; or address
JAMES S. CATTENACH, V.S. 5th Av. Vet. Institute, 15 west 41st Street New York. 253-ll

THE TROTTING STALLION
BASHAW
ABDALLAH
Will make the season of 1876, at the Thames Valley Stock Farm, one mile north of the town of St. Mary's, Ont. Terms, \$25 to insure. Good pasturage and care of mares, but all accidents and escapes at owner's risk.
BASHAW ABDALLAH is a jet black, flowing mane and tail, 16-3; weighs 1,160 lbs., with fine trotting action, good carriage, kind disposition, and great development of muscles. He was sired by Freehold Bashaw, of New Jersey (record of 2:38 1/2), he by old Black Bashaw, he by Young Bashaw, and he by the Arabian horse Grand Bashaw. Bashaw Abdallah's dam was Mary Tracy, by New York Rattler, he by Old Abdallah, he by Mambrino, by imported Messenger. Rattler is a half-brother to Rysdyk's Hambletonian. Young Bashaw's dam was Peri, by First Consul; granddam Fancy, by imported Messenger. Black Bashaw's dam was by True American; grand dam by Hickory. Freehold Bashaw's dam was by Old Abdallah, the sire of Rysdyk's Hambletonian.

that we know of either in Canada or in the United States. Add to this the Royal blood of imported Margrave, deeply inbred to the great Henon, derived through the dam of his sire, and you have a combination of the lightest and purest types that may be equalled possibly, but cannot be excelled by that of any trotting sire in the world. AND BLOOD WILL TELL!

Terms:—\$30 the season, payable 1st Sept. next, or if preferred, \$50 to insure. Season will end 31st July.

All mares owned out of the Counties of Stormont, Dundas and Glengarry, must be paid for at the time of service or before removal.

Mares will be pastured or stabled carefully, and fed grain, as the owners may desire, at the most reasonable rates. Every care will be taken of mares, but all accidents and escapes must be at the risk of their owners.

Mares from a distance will be met at the steamer or cars and taken to and from the farm, free of expense, by a careful man. Send for tabulated pedigrees.

A MAGNIFICENT PRESENT!

The proprietors of the **SPORTING TIMES** have much pleasure in announcing to their patrons that they have made arrangements to present a magnificent horse picture to their advance paying subscribers for the year 1876-7. Realizing the importance of this undertaking, and being determined to offer our subscribers a picture that should in itself be worthy of the paper it represents, and which should be treasured as a work of art; after culling over the finest productions of the American press, we selected the beautiful chromo of **GOLDSMITH MAID**, printed in nine colors and innumerable shades, size 18 1/2 by 24 inches, believing, as our friends will when they see it, that it is the finest horse picture ever published in America. It is not to be confounded with the miserable pictures hawked around the country by some journals, but is really a work of high art, and intrinsically of more value than we receive for our yearly subscription. She is represented standing in a box stall stripped, and in this position the picture, from which the chromo is reproduced, was painted by one of the first artists in the profession in America. When varnished and mounted it is impossible to distinguish between the chromo and a very fine oil-painting. It is a work of art worthy of a place in the finest collection in the country, and what adds to its value is the only correctness of **GOLDSMITH MAID** ever published. As a memento of the most remarkable trotting equine in the world, shortly to be relegated from the turf, it will be treasured by every horseman in the country, more especially by those who have seen the little mare in any of her races. This picture was sold by subscription only a few months ago for \$5 a piece, and copies of it were in great demand. We expect in this liberal gift to more than double our subscription list in the next three months, and if our friends who receive the picture will only show it to their acquaintances and inform them how they may get a copy, we are sure our anticipations will be realized. The picture can be procured in no other way; we do not sell it; and only give it to those who remit **Yearly in advance** for the **SPORTING TIMES**.

To meet the wishes of a number of our patrons who might desire the picture of a horse in action in preference to a still one

She is represented standing in a box stall stripped, and in this position the picture, from which the chromo is reproduced, was painted by one of the first artists in the profession in America. When varnished and mounted it is impossible to distinguish between the chromo and a very fine oil-painting. It is a work of art worthy of a place in the finest collection in the country, and what adds to its value is the only perfect likeness of **GOLDSMITH MAID** ever published. As a memento of the most remarkable trotting equine in the world, shortly to be relegated from the turf, it will be treasured by every horseman in the country, more especially by those who have seen the little mare in any of her races. This picture was sold by subscription only a few months ago for \$5 a piece, and copies of it were in great demand. We expect in this liberal gift to more than double our subscription list in the next three months, and if our friends who receive the picture will only show it to their acquaintances and inform them how they may get a copy, we are sure our anticipations will be realized. The picture can be procured in no other way; we do not sell it; and only give it to those who remit *Yearly in advance* for the **SPORTING TIMES**.

To meet the wishes of a number of our patrons who might desire the picture of a horse in action in preference to a still one like our Chromo of **GOLDSMITH MAID**, as a premium, we have selected the next most remarkable trotting celebrity in the world in her greatest race. We refer to **LULA** at Rochester, N. Y., October 14th, 1875, in her now noted match against Time. The picture is 22 1/2 by 28 inches, being larger than that of **THE MAID**, and is a fine specimen of the pictorial art. It is not claimed to possess the high artistic value of the latter, but still on account of being larger and in action, with a portrait of Mr. Chas. Green, the driver of **LULA**, and a view of the Rochester, N. Y., Driving Park, Judges' Stand, &c.; the staples, &c., being seen in the distance, might be preferred by many to the other. We desire to accommodate our patrons to the fullest extent. All advance paying subscribers for the year 1876-7, and none others, are entitled to their choice of those pictures.
