THE CAPTAIN'S OPINION OF QUEBEC.

Quebeo I sing of War is
A charming place, a second Paris
To view with poetic eyes,
As on the mountain side it lies,
It seems a great two-handed Jack,
Sitting on a high Cape Diamond's back,
Washing his feet in the Cul de Sac.

A right distinction here is made, "I wixt Gentlemen and men of trade; The gentlemen live on the hill, The men of Trade in the Basse Ville. And each is suited to his wish, For catching larks or catching fish.

The Governor so good you know,
To every one so "Comme il faut;"
The English ladies all so bright,
The French so easy, so polite,
That tho' a man a word can't thump in
They'll guess his meaning by his mumping.

The Abipones have been in one thing fortunate above all other stages, for the history of their manners and fortunes by Martin Dobrizhoffer, a German Jesuit, who devoted the prime of his years to the task of converting them, and in old age, after the extinction of his order, found consolation in recording the knowledge which he had so painfully acquired, and the labours which had been so miserably frustrated, is, of all books relating to savage life, the most curious, and, in every respect, the most interesting.—Southey's History of the Brazils.

Dr. Gordon went to America in 1770, and remained there until 1786, and wrote a considerable part of his work on the spot. Congress allowed him the inspection of such records as could with propriety be submitted to the perusal of a private person. Washington, Gates, Greene, Lincoln, and Otho Williams also allowed a liberal examination of their papers. "The accounts here given of American Affairs," says the author, "are so different in several respects frc.a what have been the conceptions of many on each side of the Atlantic, that it was necessary to insert a variety of letters, papers, and anecdotes, to anthenticate the narrative."

This letter, most important in its objects and opinions, was written to Lord Sydenham, the Secretary of State for Foreign Affairs, as appears by the copy contained in the Hartley correspondence. It enters very fully into the subject of the principles and prospects of the United States, and the danger of Great Britain in the continued friendship between them and France. He supposes France is intriguing in this matter, and refers to the France. He suspects France is intriguing in this matter, and refers to the Marquis de la Fayette's visit to America without reason given, and describes his interview with Monsieur de Vergennes, quoting his words. Several pages are occupied on the subject of the British and American marine, and the ultimate destiny of the United States is forcibly pointed out. The letter is altogether a most masterly production, and events have since shown how

The above is a translation of part of the titles of the pieces in the above volume which contains 160 pages; there are no less than nine title pages, which leads to the supposition they were issued at different times. The volume has the autograph of the Earl of Moira, "Lord Rawdon" of the American War, and was no doubt brought home with him. The English Translation of the last tract appears to be in his handwriting.

The name of Philoponus is a pseudonym, the real name of the author being Caspar Plautus, the same to whom the work is dedicated in a most fulsome and commendatory preface. A grossor piece of literary impudence is scarcely to be met with. The author was a monk at Lintz; he handles the old fathers of American History without gloves, and in turn is so treated by Winckelman. He calls the Brothers De Bry liars. Some of the plates are curious: the engraved title contains portraits of St. Brandon and Father Boyl, the latter of whom accompanied Columbus on his second voyage.—

To Americans this volume will prove of great interest, as it describes the localities of the birth-places and residences of Brewster and Bradford, two of the most prominent of the "Pilgrim Fathers." The late Rev. Joseph Hunter was the first to point out these places in his "Collections on the Founders of New Plymouth," (pub. in 1854, price 8s, see No. 2345), "and hence," says Mr. Raine, "it is that educated and accomplished men from America are perpetually visiting with feelings of deep filial affection and veneration the villages of Austerfield and Scrooby." To the copies issued by J. R. Smith an extra print has been added of "a View of the present state of the Archiepiscopal Palace at Scrooby, the residence of William Brewster, the 'Pilgrim Father.'"

The soil about Puerto Seguro (and very likely in most parts of the valleys), is a rich black mould, which, as you turn it up fresh to the sun, appears as if intermingled with gold dust, some of which we endeavoured to wash and purify from the dust; but though we were a little prejudiced against the thoughts that it could be possible that this metal should be so promiscuously and universally mingled with common earth, yet we endeavoured to cleanse and wash the earth from some of it, and the more did the worst it appeared like sale, but it and the more we did, the more it appeared like gold; but in order to be further satisfied, I brought away some of it, which we lost in our confusions in China .page 400, 401.

Folio, portrait, map, plates, and pedigrees, old calf, A VERY INTERESTING COPY from the particulars given in the following note. £15. 15s London, 1715

This copy of Thoresby's Ducatus Leodiensis, 1715, was bouy by me at the sale of the effects of a Mrs. Fairfax, a widow lady, who in Landsown Place East, Bath, in or about 1812.

She was the widow of a member of the family of Fairfax, settled in Virginia, who were descended of the Fairfaxes of Yorkshire, and to whom descended the title of Lord Fairfax.

With it were various papers of the Virginia Fairfaxes, some of which came into my possession at the same sale, which was by auction.

It appears that this copy of Thoresby, in which is an account of their family, had been taken with them to America at the time of their emigration. At p. 69 are a few MS. Notes in continuation of the Pedigree, and there are also a few slight notes by the same hand to the Pedigree of Gale, at p. 204, a family who had been one of them a Judge of the Admiralty in North Carolina.

When originally bound, blank leaves were introduced at the beginning and close of the colume, apparently for the purpose of annotation, but they have been devoted to quite another purpose, and it is from this that the present copy obtains its peculiar interest. It is, in fact, an Album (PERHAPS THE ONLY AMERICAN ALBUM IN EXISTENCE). The names (about 100) appear to be those of persons who visited the Fairfax family from about 1725 to 1757, each of whom has added a motto. Among the names we find Gale, Lawrence Washington, Pigott, Wolcott, Robinson, and the Fairfaxes. Some are of people from England.

More particularly the Lady at whose sale the book was bought was Sarah, the daughter of Wilson Carey, of Rich Nick, in Virginia (Warwick County) widow of George William Eairfax, born 2nd Jan. 1723-4, at New Providence, who lived in Virginia. He was son of William Fairfax, who was President of the Council in Virginia, son of Henry Fairfax, of Tolston, in the County of York, Esq., England. George William died in 1717. His younger brother, Bryan Fairfax, became by descent the 8th Baron Fairfax, of Cameron, succeeding his cousins Thomas, the 6th Lord Fairfax, and Robert, the 7th Lord, both of whom resided in Virginia. These two Lord Fairfaxes were sons of Thomas, the 5th Lord Fairfax, of Cameron, who died in 1710, brothers of Henry Fairfax, of Tolston, beforementioned.—Joseph Hunter, Torrington Square, Dec. 27, 1847.

The above account of this remarkable book is copied from the fly-leaf, and was written by Rev. Jos. Hunter, the eminent and much-respected Antiquary, Genealogist, and Historian, who died in 1861.

The travels extend over three years, 1795-7, and embrace a very large portion of the United States and Canada. In fact there can be no question that the colonization of Canada was mainly promoted and influenced by this book." "Accompanied by a faithful servant, Mr. Weld, sometimes on horsebuck. sometimes on foot, or in cance, made his way through vast forests, or along rivers or lakes; narrowly escaped shipwreck on Lake Erie, and experienced all the adventure incident to passing through an unsettled country, while in the cities and towns he mixed in the best society, and had the honour and

advancing study of Philology may be brought to illustrate and enrich a scientific

"Of the science of Grammar, by induction from the philological facts of
many languages, Mr. Barnes has, in this volume, supplied a concise and comprehensive manual. Grammarians may differ as to the regularity of the

but it is generally allowed that some conformity or similarity of practice may principles on which nations have constructed their forms and usagas of speech, but it is generally allowed that some conformity or similarity of practice may be traced, and that an attempt may be made to expound a true science of Grammar. Mr. Barnes has so far grounded his Grammar upon English as to make it an English frammar, but he has continually referred to comparative philology, and sought to render his work illustrative of general forms, in conformity with principles common, more or less, to the language of all manking. More than sixty languages have been compared in the course of preparing the volume; and the general principles laid down will be found useful in the study of various tongues. It is a learned and philosophical treatise."—Literary Gazette.

"To those who wish to possess a ortical knowledge of their own Native English, ome acquaintance with Anglo-Saxon is indispensable; and we have never seen an introduction better calculated than the present to supply the wants of a beginner in a short space of time. The declensions and conjugations are well stated, and illustrated by references to Greek, the Latin, Fresch, and other languages. A philosophical spirit pervades every part. The Delectus consists of short pleces on various subjects, with extracts from Anglo-Saxon History and the Saxon Chrunicle. There is a good Glossary at the end."—

BARNES' (Rev. W.) Views of Labour and Gold. Fcp. 8vo, cloth. 3s "Mr. Barnes is a reader and a thinker. He has a third and a conspicuous merit—his style is perfectly lucid and simple. If the humblest reader of ordinary intelligence desired to follow out the process by which societies are built up and held together, he has but to betake himself to the study of Mr. Barnes's epitome. The title "Views of Labour and Gold," cannot be said to indicate the scope of the Essays, which open with pletures of primitive life, nad pass on, through an agreeably diversified range of topics, to considerations of the rights, duties, and interests of Labour and Capital, and to the enquiry, What constitutes the utility, wealth, and positive well being of a nation Subjects of this class are rarely handled with so firm a grasp and such light and artistic manipulation."—Athenoum.

"BIBLIA PAUPERUM." One of the earliest and most curious

LICOUR BOOKS, reproduced in facsimile from a copy in the British Museum, by J. Ph. Berjeau. Royal 4to, half bound. £2. 2s
The Biblia Pauperum, known also by the title of Historia Veteris et
Novi Texamerut, is a set of woodcuts in which the Old and New Testament
are both brought to memory by pictures, and some lines of text in Latin. This
name, Biblia Pauperum, is derived from its use by monks of the poorer orders
commonly called Pauperus Christi.

As a reciment of the sayliest woodcuts and of privited block looks destined.

As a specimen of the earliest woodouts and of printed block-books, destined to supersede the manuscripts anterior to the valuable invention of Guttenberg, the Biblia Paupernm is well worthy the attention of the amateur of Fine Arts as well as of the Bibliographer. It consists of 40 engravings, printed on one aide only of the leaves, and disposed so as to have the figures opposite to each other.

other.

The engravings were printed by friction, with a substance of a brownish colour instead of printing ink, which was unknown at this early period. To imitate as near as possible the original, the plates in this facsimile are disposed opposite seach other, and printed in a brownish co.our. Various editions of this Block-Book have been discovered, without any writer being able to say which is the first one. A review of them is given in the printed Introduction of the

Besides the rhymed Latin Poetry—of which part was given by Heinecken, and after him by Ottley—the Introduction gives, for the first time, the whole of the Text printed on both sides in the upper compartment, as well as an English Enplanation of the subject.

Only 250 copies have been printed, uniformly with Mr. S. Lingh Botherby's Principla Typographica.

"We heartily welcome this volume, brought out with so much care and ability. It does credit to the printers of the University. . . The work is acholarlike, and is a valuable contribution to the materials for Biblical Criticism. . We heartily commend it to the study of all who are interested either in the philology of the English language, or in the history and formation of our Authorized Version."—The Christian Remembrancer, a Quarterly Review.

"It may almost be a question, whether the present volume phasesses greater interest for the divine or for the philologist. To the latter it must certainly be interesting from the opportunity which it affords him of marking the gradual development of our languages. The four versions of the Gospel. . . with a learned and instructive preface, and a few necessary notes, form a volume, the Queries.

cloth 10s 6d.

"Daniel De Foe devoted his life and energies to the defence of free institutions and good government. He was the Radical of his day. He not only wrote, but suffered for truth and liberty. He was impoverished and persecuted for his labours in this cause; nay, he was repeatedly imprisoned for his principles, or for his unswerving attachment to them, and for his boldness and honesty in asserting them. He was the vigorous and indefatigable opponent of priestism, of ecclesiastical domination, and of the Popish tendencies of his time. We might not approve of all he wrote against the Catholics, but we should remember that he saw and felt, as we cannot, how inherently opposed to true freedom is the Catholic system. Although we live in very different times from those in which De Foe lived, yet his life is full of pregnant lessons for the liberals and friends of religious freedom of our day."

CHATTO (W. A., Author of "Jackson's History of Wood Engraving") Facts and Speculations on the History of Playing Cards

ing") Facts and Speculations on the History of Playing Cards in Europe. 8vo, profusely illustrated with engravings, both plain and coloured, cloth. £1. 1s

"The inquiry into the origin and signification of the suits and their marks, and the heraldic, theological, and political emblems pictured from time to time, in their changes, opens a new field of antiquarian interest; and the nerse-verance with which Mr. Chatto has explored it leaves little to be gained by his successors. The plates with which the volume is enriched add considerably to its value in this point of view. It is not to be denied that, take it altogether, it contains more matter than has ever before been collected in one view upon the same subject. In spite of its faults, it is exceedingly amusing; and the most critical reader cannot fall to be entertained by the variety of curious outlying learning Mr. Chatto has somehow contrived to draw into the investigations."—Altas.

Frequently, as we read of the Works of Caxton and the early English Printers,
and of their Black Letter Books, very few persons ever had the opportunity of
seeing any of these productions, and forming a proper estimate of the ingenuity

of the fourt, and the necessary study and comparison of Caxton's Works with
those of his contemporaries in Germany, by Mr. V. Figgins, who spent two
years' "labour of love" in cutting the matrixes for the type.

Extensively devoted to details which must of necessity interest those who care to know something moro about their forefathers than the mere fact that they have existed. Many of therm—until recently consigned to oblivion ever since the passing away of the remote generations to which they belonged—intinately connected with the social condition, usages, and manners of the people who—uncouth, unlearned, ill-housed, ill-fed, and comfortless though they were, still formed England's most important, most wealthy, and most infuential community throughout the chequered and troublous tines of the 13th and 14th centuries. During this period, in fact, there is hardly a phase or feature of English national life upon which, in a greater or less degree, from these pages of the "Liber Albus," some light is not reflected.

On this and on all matters bearing upon the origin and object of the poem, Mr. Wright's historical introduction gives ample information. . . . In the thrifteen years that have passed since the first edition of the present text was published by the late Mr. Pickering, our old literature and history has been more studied, and we trust that a large circle of readers will be prepared to welcome this cheaper and that a large circle of readers will be prepared to welcome this cheaper and carefully revised reprint."—Literary Gazetie.

LOWER'S (Mark Antony, M.A., F.S.A.) Patronymica Britannica, a Dictionary of Family Names. Royal 8vo, 500 pages, with illustrations, cloth. £1. 58

trations, cloth. £1. 5s
This work is the result of a study of British Family Names, extending over more than twenty years. The favourable reception which the Author's "English Surnames" obtained in the sale of Three Editions, and the many hundreds of communications to which that work gave rise, have convinced him that the subject is one in which considerable interest is felt. He has therefore been induced to devote a large amount of attention to the origin, and history of our family designations; a subject which, when investigated in the light of ancient records and of modern philology, proves highly illustrative of many habits and customs of our ancestors, and forms a very curious branch of Archeology.—Preface.

Old English Writers. With illuminated Title-page, and numerous engravings from designs by the Author. Svo, cloth. 14s "The present volume is truly a worthy sequel (to the 'SDRAMRE') in the same curious and antiquarian line, blending with remarkable facts and intelligence, such a fund of anecdote and illustration, that the reader is almost surprised to find that he has learned so much while he appeared to be pursuing mere amusement. The text is so pleasing that we scarcely dream of its sterling value; and it seems as if, in unison with the woodcuts, which so cleverly explain its points and adorn its various topics, the whole design were intended for a relaxation from study, rather than an ample exposition of an extraordinary and universal custom, which produced the most important effect upon the minds and habits of mankind."—Literary Gazette.

"Mr. Lower's work is both curious and instructive, while the manner of its treatment is so inviting and popular, that the subject to which it refers, which many have hitherto had too good reason to consider meagre and unprofitable, assumes, under the hands of the writer, the novelty of fiction with the importance of historical truth."—Athencum.

WARDEN, R.A., F.S.A. 2 thick vols, 8vo, cloth. £1. 1s
The Glossary of Archdeacon Nares is by far the best and most useful work
we possess for explaining and illustrating the obsolete language and the customs and manners of the 16th and 17th Centuries, and it is quite indispensable
for the readers of the literature of the Elizabethan period. The additional
words and examples are distinguished from those in the original text by a †
prefixed to each. The work contains between five and six thousand additional examples, the result of original research, not merely supplementary
to Nares, but to all other compilations of the kind.

The specimens contain two or three lines each besides the signature, so that to the historian such a work will recomend itself as enabling him to test the genuineness of the document he consults, whilst the judgment of the autograph collector may be similarly assisted, and his pecuniary resources economized by a judicious use of the Manual. To the bookworm, whose name is Legion, we would merely observe, that daily experience teaches us the great value and interest attached to books containing Marginal Notes and Memoranda, when traced to be from the pens of eminent persons.

"This is one of the most extraordinary collections of love epistics we have chanced to mest with, and the well-known literary reputation of the lady—the Mrs. Thrale, of Dr. Johnson and Miss Burney celebrity—considerably enhances, their interest. The letters themselves trant on the say to characterise; nor shall we venture to decide whether they more 'speak the drivelling of dotage, or the folly of love; in ether case they present human nature to us under a new aspect, and furnish one of those riddles which nothing yet dreamt of in our philosophy can satisfactorily solve."—Polytechnic Review.

"The author of this volume may justly claim credit for considerable learning, great industry, and, above all, strong faith in the interest and importance of his subject. . . On various points he has given us additional information, and afforded us new views, for which we are bound to thank him. The body of the book is followed by a very complete index, so as to render reference to any part of it easy: tills was the more necessary, on account of the multifariousness of the topics treated, the variety of persons mentioned, and the many works quoted."—Athenaeum, Oct. 8, 1863.

"The Rev. Beale Poste has long been known to antiquaries as one of the best read of all those who have clucidated the earliest annals of this country. He is a practical man, has investigated for himself monuments and manuscripts, and we have in the above-named volume the fruits of many years' patient study. The objects which will occupy the attention of the reader are—1. The political position of the principal British powers before the Roman conquest—under the Roman dominion, and struggling unsuccessfully against the Angle-Saxon race; 2. The Geography of Ancient Britain; 3. An investigation of the Ancient British Historians, Gildas and Nennius, and the more obscure British chroniclers; 4. The ancient stone monuments of the Celtic period; and, lastly, some curious and interesting notices of the early British Church. Mr. Poste has not touched on subjects which have received much attention from others, save in curious and inverse ing nowices of the early British Church. Mr. Poste has not bouched on subjects which have received much attention from others, save in cases where he had something new to offer, and the volume must be regarded therefore, as an entirely new collection of discoveries and deductions tending to throw light on the darkest, as well as the earliest, portion of our national history."—Atlas.

In the Witch stor: Nathan has excelled himself, and it is to be hoped we have not seen his lastfort in this branch of local English literature. Third Collection. Fcap, 8vo, cloth. 4s 6d.

"The author is a genuine poct, and it is delightful to catch the pure breath of song in verses which assert themselves only as the modest vehicle of rare words and Saxon inflections. We have no intention of setting up the Dorset patois against the more extended provincialism of Scotland, still less of comparing the Dorsetshire poet with the Scotch; yet we feel sure that these poems would have delighted the heart of Burns, that many of them are not unworthy of him, and that (at any rate) his best productions cannot express a more cordial sympathy with external nature, or a more loving interest in human Joys and sorrows."—Literary Gazette.

"We are under great obligations to the lady, sister to the local historian of Morthamptonshire, who has occupied her time in producing this very capital Glossary of Northamptonshire provincialisms."—Examiner.

"The provincial dialects of England contain and preserve the elements and rudiments of our compound tongue. In Miss Baker's admirable 'Northamptonshire Glossary,' we have rather a repertory of archaisms than vulgarisms. But it is much more than a vocabulary; it preserves not only dialectical peculiarities, but odd and disappearing customs; and there is hardly a page in it which does not throw light on some obscurity in our writers, or recall old habits and practices."—Christian Remembrancer, Quarterly Review.

The Folk-lore of Shakespeare; III. Was Shakespeare a Soldier?

By William J. Thoms, F.S.A. Post 8vo, cloth. 4s 6d 1865

"On this subject of Shakespeare in Germany, Mr. W. J. Thoms mas reprinted a paper read some years ago before the Society of Antiquaries, together with two other 'Notelets' on the Poet—'The Folk Lore of Shakespeare, from the Atheneum, and 'Was Shakespeare a Soldier?' from Notes and Queries. Not the least of Mr. Thoms's many services to English lite ure is the invention of that admirable word folk-lore, which appeared for the first time in these columns only a few years ago, and has already become a domestic term in every corner of the world. His illustration of Shakespeare's knowledge of this little world of fairy dreams and legends is a purfect bit of criticism. He answers the query as to Shakespeare's having seen martial service in the affirmative; and therein we think his argument sound, his conclusion right. These 'Notelets' were very well worthy of being collected into a book."—Atheneum.

TESTAMENT (The New) translated from Griesbach's Text, by SAMUEL SHARPE, Author of the History of Egypt, &c. 5th

edition. 12mo, pp. 412, cloth. 1s 6d.

The aim of the translator has been to give the meaning and idlom of the Greek as far as possible in English words. The book is printed in paragraphs (the verses of the authorised version are numbered in thomagins) the speeches by inverted commans, and the quotations from the "Oid Testament" in Italies, those passages which seem to be poetry in a smaller type. It is entirely free from any motive to enforce decrivate points. Five large impressions of the volume sufficiently test its value.

We cordally recommend this edition of the New Testament to our readers and contributors.—British Controversatist.

Upon the whole, we must admit that his is the most convert English Version.

 "Mr. Verson has, we think, acted wisely in taking Rask for his model; but let no one suppose from the title that the beek is merely a compilation from the work of that philologist. The accidence is abridged from Rusk, with constant revision, cornection, and medification; but the syntax, a most important portion of the book, is original, and is compiled with great care and skill; and the latter helf of the volume chaists of a well-thosen selection of extracts from Anglo-Saxen writers, in prose and in verse, for the practice of the student, who will find great assistance in reading them from the grammatical notes with which they are accompanied, and from the glossary which follows them. This volume well studie; will nonle anyone to read with ease the generality of Anglo-Saxen writers; and its cheapness places it within the reach of every cless. WILLMOTT (Robert Aris, some time Incumbent of Bear Wood, Berks) A Journal of Summer Time in the Country. FOURTH EDITION; to which is added an Introductory Memoir by his Sister. Foolscap 8vo, elegantly printed by Whittingham, extra

cloth. bs
This 'Journal of Summer Time' is a geulai gossip of literary matters under the various days of the month from May to August. It is full of aneedote, and full of interest; and is a sort of literary natural history, like that of Selbourne. by good Gilbert White. The observations, the reading, the meditations of a well-trained, well-filled mind, give this volume its charm, and make it one which even the best-informed reader may wile away an hour with in recalling his own wanderings in the literary fields. The great glory of this book is that it is thoroughly natural. It does not aim at fine writing or sensational stories, but jots down from day to day such memoranda as a well-st-red mind, familiar with the great treasures of our literature, would give forth in the quiet of a country parsonage, when summer smited over the fields and woods, and a garden gave forth its pleasant sights and sounds.—Eirmingham Journal.

"It must be observed that this is not a mere account of St. Patrick's Purgatory, but a complete history of the legends and superstitions relating to the subject, from the earliest times, rescued from old MSS. as well as from old printed books. Moreover, it embraces a singular chapter of literary history omitted by Warton and all former writers with whom we are acquainted: and we think we may add, that it forms the best introduction to Dante that has yet been published."—Literary Gazette.

"The design of the present work is to present a comprehensive account of the Succession of Ministres of the Church of Scotland, since the period of the Reformation. An attempt is made to give some additional interest by furnishing incidental notices of their lives, writings, and families, which may prove useful to the Blographer, the Genealogist, and the Historian.

"The sources from which the work has been compiled are the various records of Kirk Sessions, Presbyteries, Synods, and General Assemblies, together with the Books of Assignations, Presentations to Benefices, and the Commissariat Registers of Confirmed Testaments. From these authentic sources the information here collected will, it is believed, be found as accurate as the utmost care can render it.
