THURSDAY MORNING AUGUST 15 1918

VOL. XXXVIII.—No. 13,791 TWO CENTS

The Toronto World RIBECOURT

British Drive Germans Back Near Parvillers, and Southern Pillar of Enemy Defence is Threatened--Germans on Thiescourt Plateau Have Retreat Cut Off--Australians Gain Control of North Bank of the Somme by Capturing Outskirts of Bray.

FRENCH CAPTURE RIBECOURT AUSTRALIANS CLEAR CATEAUX

Germans Evacuate Forward Positions in Region North of Albert.

BRITISH PATROLS GAIN Local Fighting Has Taken Place in Neighborhood of Parvillers.

London, Aug. 14.—The Germans have evacuated their forward positions at Beaumont Hamel, Serre, Puisieux-au-Mont and Bucoy, lying in the region north of Albert, according to Field Marshal Haig's communication issued tonight.

The text says: "Local fighting has taken place today on the battlefield in the neighborhood of Parvillers. Our troops have made progress and have taken several prisoners." "Following upon his recent withdrawal in the Hebuterne sector, the enemy has evacuated his forward positions at Beaumont Hamel, Serre, Puisieux-au-Mont and Bucoy. Our patrols are pushing forward in touch with the enemy and have gained ground about these villages. A few prisoners have been taken by us."

TWO TORONTO MEN DROWNED IN MUSKOKA

Alfred G. Clark and Roland Dies Loss Lives While Spending Their Holidays.

Two young Toronto men, Alfred G. Clark, aged 15, of 113 Bellefair avenue, and Roland Dies, aged 16, whose home is at 1544 West King street, were the victims of a drowning accident at Muskoka Tuesday afternoon.

BELGIANS TAKE POST NORTH OF DIXMUDE

Germans Made Prisoner in Region of Weidenreft.

Paris, Aug. 14.—A Belgian official communication says: "On the night of Aug. 12-13, one of our patrols captured a German post north of Dixmude. Prisoners were brought in. Other Germans were captured in the region of Weidenreft." "On the night of the 13th, the Germans attacked our line east of Neuport, but were completely repulsed."

Germany Asks for Twenty; Gets Two Austrian Divisions

Geneva, Aug. 14.—Twenty divisions of troops were demanded of Germany's allies by Gen. Ludendorff during the retreat from the Marne, according to The Democrat, which received the news from German sources.

All Hostile Positions Between Bray and Etinehem Fall Into Hands of Australians.

With the British Army in France, Aug. 14.—All hostile positions between the western outskirts of Bray and Etinehem have fallen into the hands of the Australians, thus placing the Somme River banks southwest of Bray under the control of the British. The Australians also have cleared the enemy from Cateaux Wood.

LOSSES IN SHIPPING ABOUT CUT IN TWO

Allied Construction in Past Three Months Doubles Amount Destroyed.

Paris, Aug. 14.—The allied and neutral shipping sunk by enemy submarines during July amounted to 270,000 tons, compared with 524,839 tons sunk in July, 1917. This radical decrease in losses is doubly significant when the increase in merchant marine navigation resulting from the American shipbuilding effort is considered.

MEXICANS REJECT BRITISH PROTEST

New Tax on Oil Wells Causes Tension With Anglo-Americans.

Washington, Aug. 14.—So far from mitigating the severity of the original decree of Feb. 27 last, imposing new taxes and restrictions upon the foreign owners and operators of oil properties in Mexico, in the opinion of officials here, the note of the Mexican Government to the British protest against that decree, has only added to its obnoxious nature.

BOREN OPENS EXHIBITION OF HOSPITAL WAR SPECIMENS

London, Aug. 14.—Premier Borden, in opening today the exhibition of war specimens collected by the Canadian Army Medical Corps, remarked that the British and French hospitals were keeping the most careful record of war cases.

LIET. MAXWELL WOUNDED

Officer Well-Known in Toronto and Cobourg is Seriously Hurt.

A cable was received in Toronto yesterday that Lieut. Elliot Maxwell of the Canadian Artillery had been seriously wounded in the thigh by gunshot. He is well-known here and in Cobourg.

French Take Ribecourt, on the Road Leading to Noyon.

MANY PRISONERS TAKEN Preparations for Counter-Attack by Germans Were Soon Discovered.

Paris, Aug. 14.—The Town of Ribecourt, on the road leading to Noyon, and 4 1/2 miles southwest of that town, has been captured by the French, according to the official statement issued tonight.

The statement follows: "During the day our troops, continuing their progress between the Maiz and the Oise, took Ribecourt." "East of Belval our infantry elements, having discovered preparations for a German counter-attack, succeeded in taking as prisoners seven officers, of whom two were battalion commanders, and a certain number of soldiers." "In the region of Roze and Lassigny the artillery fire has been very spirited."

STAR GERMAN AIRMAN CAPTURED BY BRITISH

Lieut. Dillik Forced to Land in Numerous Aerial Fights by Night.

London, Aug. 14.—Reuter's correspondent at British army headquarters cables that this evening the Germans on both sides continue to exploit the giorious weather to the fullest degree.

MONTREAL CLEANS UP MANY DENS OF VICE

Montreal, Aug. 14.—The first official report of the work of the new regime at cleaning up this city was handed into Joseph Tremblay, director of public safety, by Deputy Police Chief Grandchamps tonight.

FARMER GETS \$200,000 FOR NEW TYPE TRACTOR

Windsor, Aug. 14.—A farm tractor, which is declared to be more easily handled than a team of horses, and which under a crucial test yesterday performed some really remarkable feats, has been sold by its inventor, Leo McClosky, of Maidstone Township, to a Detroit firm at a price said to be in the neighborhood of \$200,000.

Flying Captain is Killed On Cincinnati Golf Grounds

Cincinnati, Aug. 14.—Coming to Cincinnati to participate in the flying circus just previous to the start on a 3,000-mile air cruise to western points, Captain James Norris, British Royal Flying Corps, was instantly killed late this afternoon.

TWELVE AIRPLANES DOWNED BY FRENCH

Many Stations in German Lines Made Targets for Bombs.

Paris, Aug. 14.—An official statement says: "Aviation: Our crews have downed or put out of action twelve German machines. On the night of August 13-14 our bombing machines dropped 32 tons of projectiles on enemy objectives, Tergnier, St. Quentin, Ham and Noyon; on bivouacs in the region of Oulches and the railway junction at Maison Bleue, Guignicourt and Chatelet-sur-Tourne were copiously bombed. Violent fires broke out at Ham and Noyon. Prisoners received as their share fifteen tons of explosives."

FRENCH FOIL ATTACK BY ENEMY IN ALBANIA

Heavy Fighting Ends in Austrian Discomfiture at Porecopolani.

Paris, Aug. 14.—A French official communication says: "Army of the East: There has been moderate artillery activity along the Struma and Vardar Rivers. It was more active in the Cerna bend and north of Monastir." "In Albania the enemy attacked, after bombardments lasting several hours, the positions in the region of Porecopolani. He was repulsed completely by our fire and our frontal attack." "Our aviators have bombed artillery parks northeast of Monastir. Important losses were inflicted on the enemy. British aviators bombed bivouacs north of Geygel."

BRIG. GEN. MORRISON MADE MAJOR-GENERAL

Major B. H. Armstrong Becomes Colonel in Flying Corps.

Canadian Associated Press Cable. London, Aug. 13.—Brigadier E. W. Morrison of the artillery is gazetted major-general. Major B. H. Armstrong, Royal Engineers, a graduate of King'ston, becomes a colonel of the Flying Corps. F. C. Kent, Saskatchewan, is commissioned flying officer.

AMERICAN AVIATORS IN IMPORTANT RAIDS

Attacks Proceed Against German Railway at Three Points.

Washington, Aug. 14.—American aviators have conducted successful raids on the railroad yards at Confans, Longuyon and Demmary-Barcity, according to a communication for yesterday which was made public tonight by the war department. The text of the statement follows: "Section A: Aside from the intermittent artillery activity there is nothing to report from sectors occupied by our troops." "On Aug. 11 and 12 our aviators successfully bombed railroad yards at Longuyon, Demmary-Baroncourt and Confans. All our machines returned."

IMPORTANT GROUND IS LOST BY GERMANS ON THE SOMME

British Gain Five Mile Front North of Albert and French Beat Enemy North of the Oise River.

London, Aug. 14.—Premier David Lloyd George has, in the name of the British nation, sent his felicitations to Field Marshal Sir Douglas Haig, the British commander in the fighting in Picardy. The premier's message reads: "The imperial war cabinet wishes to convey to you and the officers, non-commissioned officers and men of your command warmest congratulations on the triumph achieved by the allied armies in the third battle of the Somme. The British Empire sends heartfelt thanks to you and your most gallant troops."

HAIG IS CONGRATULATED

Lloyd George Sends Felicitations to the British Commander and His Gallant Troops

CONTINUOUS ATTACK ON SOMME BRIDGES

British Air Service Uses Fifty-Eight Tons of Explosives in Work.

London, Aug. 14.—Twenty-one German airplanes were brought down and ten driven out of control yesterday, according to an official statement issued tonight on aviation operations. Six British machines are missing as a result of the aerial onslaught. British and American squadrons co-operated in an attack on an enemy airfield and destroyed six machines parked near the hangars.

NEW WING IN PARK TO HOUSE OFFICIALS

Million Dollar Addition to Parliament Buildings Necessary to Relieve Overcrowding.

A large addition to the parliament buildings in Queen's Park, at a cost of about \$1,000,000, is the latest proposal to meet the congested state of affairs among the various government departments. At present the building is overcrowded and clerical help has had to be accommodated in corridors and committee rooms.

VICTORY LOAN PRIZE WON BY LONDON MAN

Second Prize Goes to Orna K. Smith of Toronto, With Ottawa Artist is Third.

The award of the judges in respect of the poster competition instituted by the Dominion publicity committee of the Victory Loan organization is announced from Ottawa as follows: First prize—\$1000 Victory bond, Frank Nicole, London, Ont. Second prize—\$500 Victory bond, Lorne K. Smith, Toronto. Third prize—\$250 Victory bond, Christopher Pulleylove, Ottawa.

Extend Terulay Street

One of the aldermen said yesterday that Terulay street ought to be extended across College up to Grenville, to relieve the congestion at Yonge and College. The property for the new street was bought and paid for years ago. Some day he hoped to see the Avenue road cars come down by Terulay and make a shorter cut to the new union station.

AMERICANS MAY JOIN BRITAIN IN ALLIANCE

Lord Reading Studies Project of Co-operation During and After War.

London, Aug. 14.—According to The Evening News, Lord Reading, the British ambassador to the United States, who is here on a visit, will discuss with Premier Lloyd George and Arthur J. Balfour, minister of foreign affairs, certain proposals for a closer Anglo-American co-operation both during the war and afterward. The newspaper states that the proposals involve an offensive and defensive alliance in which the operation of other democratic nations will be welcomed.

BRITISH AIR SERVICE USES FIFTY-EIGHT TONS OF EXPLOSIVES IN WORK

London, Aug. 14.—Twenty-one German airplanes were brought down and ten driven out of control yesterday, according to an official statement issued tonight on aviation operations. Six British machines are missing as a result of the aerial onslaught. British and American squadrons co-operated in an attack on an enemy airfield and destroyed six machines parked near the hangars.

LOSS OF FRONT LINE TRENCHES

Unofficial reports have announced the capture of Lassigny by the French and of all the German positions between the western outskirts of Bray-Somme and Etinehem by the Australians. There is, however, no official confirmation of them.

GERMANS IN REAR

From the Somme to the Oise, except in the latter region, where the French have made further gains, the Germans seemingly have had further success in holding back the allied troops and are still in possession of Chaulnes and Roye, upon the capture of which the efforts of the British and French have been centred.

THE GIVING UP OF FRONT LINE TRENCHES

North of Albert possibly may mean that the German high command foresees the ultimate success of the American and British operations along the Somme and is readjusting the German positions to meet any eventualities. In any event the retrograde movement seemingly indicates that the ten-mile salient between Beaumont Hamel and Bray on the Somme, with Albert its apex, now must give way in order that the German front there may come into alignment with that in the south across the Somme. In fact it seems not improbable that the Germans propose to readjust their front from the Somme to Arras, and possibly further northward.

IMPORTANT EPOCH

The capture of Ribecourt by the French marks an important epoch in the offensive which has for its immediate purpose the freeing of the region between the Somme and the Oise of the enemy. As a gain from the strategic standpoint it ranks with the taking by the French of the farthest and hill positions between the Maiz and the Oise, which has brought the French almost to the gates of Lassigny. Thru Ribecourt lies an open route to the Oise Valley to Noyon—a route by rail and the big national thoroughfare, not to mention the canal which parallels the railways for the greater part of the way. Noyon is only a little more than six miles northeast of Ribecourt.

THE ENEMY ARE STILL ENCOUNTERING

violent resistance, the French are continuing to make progress thru the wooded and hilly country between the Maiz and the Oise, where the Germans from recesses in the forests, on spurs and in the canyons are using machine guns innumerable. Gas also is being loosed in great quantities by the enemy. Almost entire control of the Thiescourt Plateau and the other high ground on this sector is now in the hands of the French.

At Yonge, Queen and James Street Doors are boxes where orders or instructions may be placed. These boxes are emptied every hour until 1 p.m., and twice in the afternoon.

EATON'S DAILY STORE NEWS

HAVE YOU A "D.A."? A deposit account is one of the greatest conveniences in ordering goods by telephone. Apply for particulars at the "D.A." Office on the Fourth Floor.

Perhaps You Have Just Acquired a New Auto, If So—

This partial but representative list of excellent values offered by the Auto Accessory Department (Fifth Floor) will be of particular interest to you. For you will, no doubt, be learning to fix and take care of the car yourself, and as your knowledge of its various parts grows the importance of these very necessary accessories will become more obvious. So hang this list up in some convenient spot, such as in your garage, for future reference, and by all means come in and inspect our stock.

A. C. Titan Plug

This Plug is guaranteed gas tight, one of the largest sellers. Regular equipment on Buick, Chalmers Model 32, Enger 12 cylinder and McLaughlin cars.

Price, each, 75c.

The Cico Spark Plug

Reg. equipment on De-troit, Dort, Hudson, Hupp, Federal, Liberty, Paige, Patterson, Pilot, Bour-Davis.

Price, each, 75c.

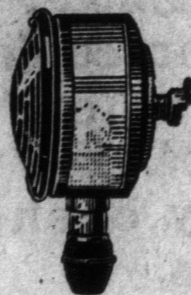

Champion Spark Plug

The make of plugs with which Ford engines are equipped when they leave the factory is best adapted to the requirements of the Ford motor. The Champion is advocated by the Ford Motor Co. These are 1/2-inch.

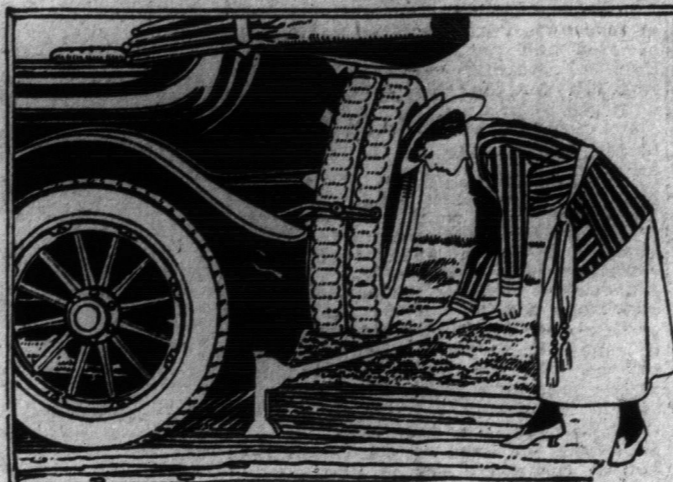

Price, 75c.

Electric Tail Lamp

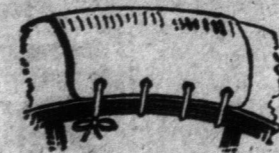

Can be supplied with standard or Ford fitting. Price, \$1.00.

Lane's Handle Control Jack, Price, \$6.00

With the Lane "H-C" Jack, the operator not only avoids getting under car or in contact with dirt or grease at any time, but the extremely long handle extends out to a convenient, comfortable and easy position for manipulation which process is in detail as follows: The handle is unfolded, its hinge joint locked, and then inserted into the jack lever socket (notched edge downward) and pushed in as far as it will go, which sets jack for raising. Handle being thus held into the socket by a spring catch, jack may now be pushed under car and placed for lifting from the outer end of the long handle, while the operator remains in an easy position back of the car. The ordinary pumping motion raises the load in the usual way. To reverse the jack movement the handle is twisted backward, after which a continued pumping motion lowers the load; and as it is still fast in the socket, jack may be pulled out from under the car by hand. Handle is then removed from the jack by releasing the spring catch under socket, and folded for storing. Price, \$6.00.

EATON Outside Blow-Out Patch Complete with Lace

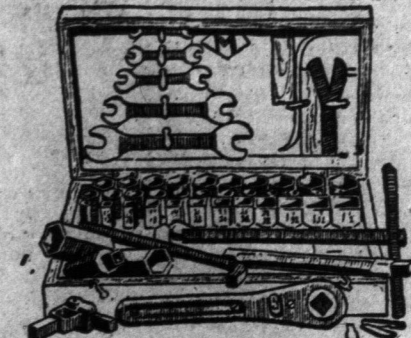

Size 3 1/2 inches, 75c. Size 4 inches, 85c.

Combination Measure and Funnel

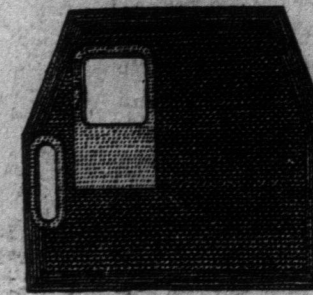

Heavy gauge stock, coppered, with Dominion Government stamp. This is a very convenient method of pouring gasoline or oil. Quart size, 55c. 1/2-gal. size, \$1.00.

No. 14 Mossberg Socket Wrench Set Price, \$14.25

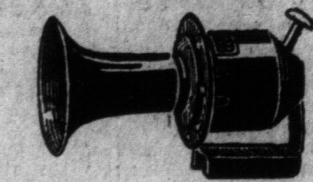

The No. 14 is one of the most complete and highest grade Socket Wrench Sets. Because of the cleverness of the ratchet handle—and the full equipment of this set—the No. 14 is Mossberg Company's recommendation for all cases where quick work is desired. Each tool is included that is required for work by machinists, automobile repair men and marine engineers. Each outfit is packed in wooden box and contains: 1 Mossberg Ratchet Wrench and extension bar, 1 Mossberg Take-down Handle and extension bar, 1 Mossberg Offset Wrench, 1 Sterling Nicked Plier, 1 Grips-all Pipe Wrench, 1 Set of 5 Double End Straight Wrenches, 1 Universal Joint, 3 Screw Driver Bits, 1 Cotter Pin Extractor, 3 Special Spark Plug Sockets, 29-32, 11-32 and 1 5-32 inches, 23 thoroughly hardened Hexagon Sockets, sizes 5-16 to 1 9-32 inches, 11 thoroughly hardened Square Sockets, sizes 13-32 to 1 9-32. Price for set, \$14.25.

Ford Rubber Mat

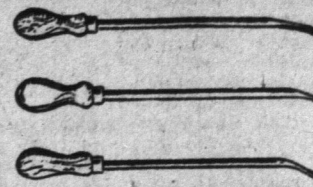

A perfect fit over foot boards of Ford cars, opening also for foot pedals and emergency brake. Price, \$1.50.

Mechanical Auto Horn

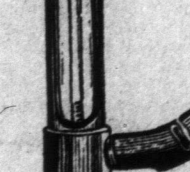

This Horn gives a loud warning signal commanding attention. Can be adjusted to sharp or long rolling sound. Guaranteed to give perfect service. Price, \$3.25.

Vickek Carbon Scrapers

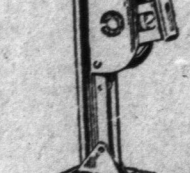

Used for cleaning soot and carbon from piston without removing cylinder head. Shapes are of the most approved pattern. With one of the three tools shown, any point may be reached. Made of extra grade tool steel, properly tempered and securely mounted in strong handles. Set of 3. Price, 50c.

Ford Oil Gauge

This gauge screws into crank case on Ford cars and tells depth of your oil at all times. Price, 30c.

Lane's All Steel Jack

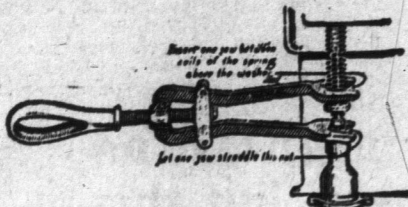

This is a first-class, guaranteed easy-lifting jack, of the short handle variety, having the reversing switch on the jack itself; complete, with handle, \$2.25.

For Ford Cars

The best, easiest and most easily attached foot accelerator of which we know. Can be attached without boring or otherwise marring the car. Permits free foot control. Very neat in design and so attached that floor boards can be removed or replaced without interference of any part of the outfit. Pedal is attached by merely loosening the two rear cylinder bolts. Instructions supplied with each set so a novice can apply it with the use of a wrench and screw driver. Packed in individual box. Price, \$1.00.

Vickek Valve Lifter

Packed one in a box. Compresses valve spring by turning handle. Price, each, \$1.25.

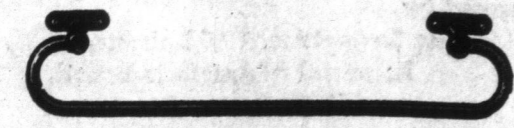

Rubber Pedal Pads Set of 3 Price 40c

Rubber Pedal Pads for Ford. Set of 3, 40c.

A 30-hour Clock of neat design. Fitted with a good, reliable movement, good timekeeper. Finished in black enamel. Price, \$1.75.

Robe Rail

Robe Rail, made from 1/2-inch tubing, black enamel finish. Size 28 ins. long. Price, 85c.

Midget Oil and Grease Gun

This is designed for Ford car. End of gun can be screwed into rear axle housing. Capacity 7 oz. Price, 90c.

Men! A Motor Cap is Handy!

For when you're speeding along a good road it's nice to feel that your hat is on to stay, and that there will be no running back after a stiff one which is easy blown off by the wind. Especially will you like these cool palm beach ones in golf style, with eight piece top and taped seams; sizes 6 3/4 to 7 1/2. Priced at \$1.00.

Or one of these black leather caps which will stand a good amount of wear and bad weather. They are in golf style, with eight-piece crown, satin lining; sizes 6 3/4 to 7 1/2. Each, \$1.50.

Another light hat which, perhaps, you would prefer, is this fibre silk and cotton mixture hat, with dome crown and flexible brim, in navy blue and grey stripes, unlined; sizes 6 3/4 to 7 1/2. Each, \$1.75.

HEAR WITH COMFORT

Think how splendid it would be if you are deaf to be able to hear without effort. This can be accomplished with the aid of the new model of 1918 Acousticon. It is a durable electric instrument, with a new and inconspicuous light earpiece. The Acousticon is made in four models of increasing power, something to help all deafness except those of age or infirmity.

This is the instrument which makes conversation at home pleasant, helps you retain your position in business, and makes you welcome and at ease among friends, because you hear so much better.

Write for descriptive leaflet, or call at the Optical Department, Third Floor, and ask the demonstrator to show you the Acousticon of the right power for your need.

Has your church installed an Acousticon? The important thing is to HEAR.

To Ensure a Perfect Grip on the Wheel

You should wear Motor Gloves or Gauntlets. Take in wet weather, for example, when the polished surfaces of the wheel and gear handles become extremely slippery and cold, if your hands are cold and wet, also there is liable to be an accident; at any rate, it's bound to be very uncomfortable driving. Why not inspect

These Peccary Hog Gauntlets?

They are made from fine soft leather, with extension strap dome fastener, and six-inch gusset cuff. These are the kind of gloves that will not harden when washed with soap and water; sizes 8 to 10. Priced at \$6.00.

Or Cape Gauntlet Gloves

in black or tan, with extension strap, dome fastener, Bolton thumb, half pique seams, and six-inch gusset cuff. Sizes 7 1/2 to 10. Price, \$3.50.

Or Do You Prefer Motor Gloves?

Here is a line made from peccary hog leather, with one-dome fastener, Bolton thumbs, half pique seams and self-stitched backs; sizes 7 to 10. Price, each, \$3.00.

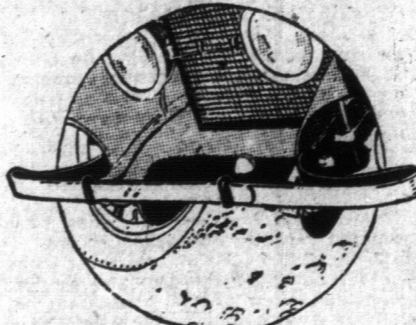

Another Line of Washable Gloves

are these chamoisette ones, made with one-dome fasteners, insewn seams, self-embroidered backs, in grey or natural; sizes 7 1/2 to 9 1/2. Each, \$1.00.

Ladies' Tan Cape Gauntlets

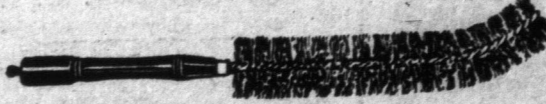

made with high russet cuff, pique sewn seams, Bolton or gusset thumbs, strap and dome clasp, Paris points on the back; sizes 6 to 8. Per pair, \$2.50.

Lyon Resilient Bumper

This Bumper adds greatly to the appearance of the car. Practically indestructible. Price, \$13.50 and \$15.00.

Single Spoke Brush

For cleaning wood or wire wheels. Made long and slender, fits in almost any place. Good quality bristles. Price, 35c.

PRINCE HAS BUSY TIME IN TORONTO

Royal Guest Presents Medals and Visits Several Military Establishments.

LEAVES FOR LONDON

Dinner at Government House Last Night in Honor of Visitors.

After a pretty busy day in Toronto, Prince Arthur of Connaught left yesterday evening for London, Ont., whence he will proceed tonight to Ottawa.

In the forenoon yesterday the prince was offered an official welcome by Premier Hearst in front of the parliament buildings. The prince thanked the premier for the hearty good wishes extended to him by the people of Ontario thru the voice of the premier and for the expressions of loyalty and devotion to the sacred cause of the allied forces. The prince expressed his admiration for the glorious part taken by the Canadians in the present war and the splendid heroism exhibited by the soldiers of the Dominion in Europe.

The prince next inspected the guard of honor of 100 men from the C.O.T.C. and the double line of Great War Veterans.

Distributes Medals.
Prince Arthur then returned to the broad steps of the parliament buildings and distributed a number of medals and decorations to Canadian soldiers who have merited special awards for conspicuous bravery at the front.

Mrs. Agnes Edwards of Port Hope was given the Military Cross won by her son, Lieut. Gilbert Edwards, an R.N.A.S. aviator who was killed in action over the sea.

Lieut. Henry Vernon Le Mesurier, R.N.A.S., was awarded the Military Cross for conspicuous gallantry during an air raid.

Temporary Captain Frank Muir Walker, M.B., M.C., the Military Cross for special devotion to duty under heavy fire.

Second-Lieut. Robert Leighton Moore Perrie, R.F.C., Hamilton, was not present when his name was called. He was to have been presented with the Military Cross.

Pte. James Hill, 123rd Battalion, was given the Military Medal for gallant conduct on the battlefield at Vimy Ridge.

Serg. George Edmund England, 11th Battery, Hamilton, the Military Medal for conspicuous bravery at Passchendaele.

Visits Military Places.
At the conclusion of the ceremonies at the parliament buildings the prince and party journeyed to Hart House, where they were received by Col. R. Wilson, officer in command, and conducted thru the various departments, his royal highness showing great interest in the "war" being carried on at the home.

A trip to the Davisville Military Hospital completed the morning's program. Here the members of the party were met by Lieut.-Col. D. King Smith and were escorted thru the building. Stops were made in practically every room so that the prince might examine the work accomplished and by the returned soldiers and to give him an opportunity to chat with the men.

Following an informal luncheon at Government House the prince and party visited Leaside and other aviation camps in the afternoon, where a close study was made of both ground and air work instruction methods. Spectacular flying stunts were performed by flying officers and instructors for the benefit of the guests. The prince and party had tea in the officers' mess at Leaside before returning to the city.

In the evening there was a dinner at Government House to which a number of distinguished citizens had been invited to meet the prince and party, and late in the evening Prince Arthur and his party left for London, Ont.

WINS MILITARY CROSS.
Lieut. Gordon Appleghat, who went overseas from Toronto with the 180th (Sportsmen's) Battalion, has been awarded the Military Cross for valor on the battlefield. He showed great courage, his fearless example in bombing the German trenches inspiring his men to beat off the enemy. Prior to going overseas he was one of the stars of the senior Ontario Hockey Association champion Riverdale team, and before that a member of the U.T.S. team.

FUEL COMMITTEE APPOINTED.
The city property committee yesterday afternoon decided on motion of Ald. Flewman to ask the mayor to appoint a standing committee to consider ways of securing fuel this winter, and to report from time to time to the board of control. This is the first official step so far taken to deal with the threatened fuel famine.

LIEUT. H. D. WARREN REPORTED WOUNDED

Lieut. Harold D. Warren, Royal Canadian Dragoons, son of Mrs. H. D. Warren, of "Red Gables," Wellesley street, was reported yesterday afternoon as wounded. A later message intimated that his wound was not a dangerous one. Lieut. Warren went overseas in the spring of this year after receiving his military training at the Royal Military College, Kingston, and later with the R.C.D. He was sent to France within a very short time of his arrival overseas.

HOUSING PROBLEM AWAITS SOLUTION

Property Committee Recommends Taking Government's Financial Offer.

Another step towards solving the housing problem was taken yesterday afternoon by the civic property committee, which adopted the recommendation of a sub-committee that an effort be made to take advantage of the provincial government's offer to loan money for building purposes at a low rate of interest to municipalities; that the Toronto Housing Company be asked to offer suggestions and to co-operate, and that the city-owned land be utilized. The further recommendation was also made that the government be asked to modify its offer so that people owning their own land outright may secure a loan not to exceed \$2500 by giving a first mortgage to the government secured by a guarantee of the city, and also supply the city with the guarantee of a reputable citizen acceptable to the city treasurer.

Ald. Beamish Described the Toronto Housing Company as an utter failure, and its experiences would make him cautious about what he did. As for building a house for \$2500, he said in New Ontario houses had been built costing \$2200, and they were nothing but a nuisance.

Ald. Sykes said the proposition was open to objection, being taken by any taxpayer on the ground that the city could not legally enter into such a scheme.

Ald. Bell: The government's scheme is too complex. Let us get a more simple proposition. Let the Toronto Housing Company or some other organization take the scheme up with the government rather than the city. The city had plenty of available land of its own, and that should be its only contribution to any scheme that might be adopted.

Ald. Birrell did not think any building should be built, because one man was owner, houses would be a glut on the market. It would be more to the point if the coal, rather than the housing question, were taken up.

Ald. Ball: There is lots of coal coming in now.

HIGH SCHOOL PUPILS ARE PULLING FLAX

Fifteen university and high school girls are now helping to harvest the flax crop on the provincial government land at Willowdale. The Willowdale school has been fitted up with quarters for the girls, part of the building being used for recreation purposes, while the second floor will be used for dormitories.

The girls, who were enlisted by the Y.M.C.A. and the trades and labor branch of the department of agriculture, are giving entire satisfaction, according to C. F. Bailey, assistant deputy minister of agriculture. So far 40 acres of the flax have been pulled by both the boys and girls, and fifty more will be harvested in the same manner. The balance will be pulled by machinery.

TIME TABLE CHANGES GRAND TRUNK RAILWAY SYSTEM.

After Thursday, August 8th, train number 42, leaving Toronto 1.30 p.m. for Gravenhurst, Tuesdays and Thursdays and train number 45, leaving Muskoka Wharf 7.20 p.m. for Toronto, Tuesdays and Thursdays, will be withdrawn. These trains will continue Saturdays and Sundays only, leaving Toronto 1.30 p.m. for Huntsville Saturdays only, and leaving Muskoka Wharf 5.15 p.m. Muskoka Wharf 7.20 p.m. for Toronto Sundays only. Connections from steamer will be made at Huntsville and Muskoka Wharf Sundays only. For full particulars apply to any Grand Trunk Ticket Agent, or C. E. Horning, D. P. A., Toronto.

NO DANGER FROM BRIDGE.

The complaint that the bridge over Glen road was dangerous because the piers supporting it encroached three feet on the roadway was investigated yesterday by R. C. Harris, works commissioner, and the Ontario Railway Board. As a result of the visit the work will continue, the commissioner explaining that the plan had been approved, material ordered and the bridge nearly completed, and in his opinion there was no danger from accidents.

KEPT COMMON RESORT.

For keeping a common resort on West Queen street, David Yaroshiek, appearing in the women's police court yesterday, was committed to the Ontario Reformatory for six months. Two men and two women who were found in the house at the time of the raid were discharged.

OFFICERS LEAVE TORONTO.

On their way to an American port, about 100 commissioned officers of the R.A.F. in charge of Lieut. E. C. Bridgman, left Toronto yesterday.

GREAT PREPARATIONS FOR BIG EXHIBITION

Buildings Remodeled, New Decorations, More and Better Exhibits Arranged This Year.

EVERYBODY GETS BUSY

No Reason Why Attendance Will Not Equal, if Not Surpass, the Million Record.

There have been so many changes, so much has been made over, improved, added to and generally made better that old-time patrons of the Canadian National Exhibition, which opens its doors Aug. 26 for what is expected to be the greatest year in its history, will hardly do more than recognize it. True, the grounds are there and the permanent buildings are there, where they always were, but—here begins a story.

Interiors as they used to be known have been torn out in several cases, new ones embracing new ideas have been installed, all with a view to making it easier for the public to locate certain exhibits and to see them. The better they have found them, this is the case under the grand stand. Here new aisles have been arranged, whereby the greatest number of people will see the greatest number of exhibits with the greatest ease and the least expenditure of time.

Each booth has been numbered in each building; thus when the visitor is interested in some special line he may find it readily. The street names have been placed in more prominent positions than they ever were in the past. Maps showing the exact location of buildings will be on view; the lighting system has been improved. Everywhere improvement has been made over the preceding years and so marked is this fact that it would appear as if the management has gone over the grounds with a microscopic eye intent upon finding places where improvement could be made. One would not have thought there really were as many improvements possible.

Yesterdays representatives of each newspaper were taken over the grounds by John G. Kent, manager; C. A. E. Brown, vice-president, and Joseph Hay, publicity superintendent. J. A. Russell, president, was unable to attend owing to a slight indisposition. The government building was first visited. Here one of the chief features will be an immense flax exhibit. The public will be shown the flax industry from the straw fibre to the manufactured article, in this case the wing of an airplane. Those who have assisted in the flax industry are particularly interested in learning why the government was so keen on getting it safely harvested.

The aquarium, the place the boys head for as soon as they enter the grounds, has been renovated, and again some improvements will be made on exhibition. There is also to be a model fisherman's outfit and a miniature lighthouse. Countless other attractions will be given attention in this building for a long time.

With 53,000 square feet of floor space already allotted to exhibitors, the transportation building will win its quota of interesting things. New floor matting has been laid and a new decorative plan has been inaugurated, composed of Japanese wisteria, the flags of the allies, bunting and hanging baskets. It is understood that many motor car manufacturers will exhibit motor cars in this place.

It is important also to note in this connection that this will be the only motor car show in America until the close of the year.

To the right of the transportation building the model camp is situated, but this one is not for two weeks, but is permanent. Those who have relatives at the front or in camp elsewhere will surely want to see how the men are cared for in such places, and this is the place to see. There are 500 men, composing the Second Battalion Canadian Garrison Regiment, under the command of Col. R. Barker. The camp is self-sustaining, and although it is not maintained for the purpose of exhibiting, Col. Barker has promised everything possible will be done to accommodate those who wish to inspect it.

Patriotic Food Show.

Wonderfully interesting to the women of Canada is the patriotic food show, which is being held in the education building. Its interior has been remodeled, and there are now 73 booths with 5 demonstration circles. A model of the kitchen of the Hotel Commodore, one of the most famous chefs, will show housewives how to cook. Women will be asked to bring him bits of cooking usually thrown away, and he will show how to use them profitably. Another portion of the building will be used for lectures illustrated by the pictures on the pictures installed.

Across the way, the art building has been redecorated. A feature in connection with the art display will be the lectures to be given by Miss Margaret McLean on the pictures installed. On the lawn a series of lectures will be given by well-known Toronto artists on the buildings it is largely the same story. What was attractive before is several times more attractive now. The art building is easily understood. There is a personal interest being taken by the workmen this year, which element, of course, is lacking in the past, but it was particularly noticeable yesterday. The reason is plain when one follows the manager around the site. He knows the men personally. He calls them by their first names. "John, have you seen to this?" or "Bill, how are you ranging?" or "Tom, how are you getting on?" and thus he keeps in touch with them.

Grand Stand Program.
But the "Ez" beats out all former records, if it thrills, amuses, entertains, instructs the audience to a greater extent than it ever did before, the answer will be found in the untiring energy of those who make it their business to secure the best in every line. Magnificent in its conception, thrilling in its execution, will be the greatest grand stand performance. Never before has so much eventuated, given this part of the fair, and never before has such an opportunity presented itself.

Britannia Militant is the theme. Around it has been woven a masterpiece in brilliant stagecraft. It is the greatest story of the greatest empires under the sun. Its heroes from the time of the crusades will be seen in the pageant. The picture is a scene outside Windsor Castle. A portion of Westminster Abbey is seen on the right. It is promised that the production will be one of the most soul-stirring in the history of the Exhibition.

On Allies' Day, Thursday, August 29, a special program will be given. There will be the torch band from Niagara Camp, Creators' band, representing Italy, an American band from Buffalo, representing the United States, and, of course, the French Torch Band or Garde Republique Band, which has been touring the United States. With these and a British band from Toronto the occasion will be well celebrated.

The fireworks will be staged before the spectacle, so that the crowds may go away with a prayer on their lips, "God Save the King."

For the Midway great preparations have been made. The World at Home shows, with the great Rhinoceros, the Wild West and Circus, will just keep every boy and girl—and most of the old folks—constantly amused.

There are thousands of other attractions which, blended into a whole, will, it is thought, make 1918 the most gorgeous triumph the Exhibition has ever witnessed. There were 317,000 people at the fair last year, and now the talk is that this year the million record should be broken.

FARMERS BENEFIT BY KNOWLEDGE THEY GIVE

Like all other trades and businesses, the farmers have to be satisfied in many cases with raw recruits for the work on the land, and it is to their interest that they turn those recruits, in as short a time as possible, into a regular trained army of less or more experienced workers. It is also, and perhaps more so, to the advantage of the patriotic citizen who wishes to help in greater production, to seek every opportunity of learning all that can be acquired about work on the farm, and the fields.

In the course of propaganda work by the trades and labor branch of the department of agriculture, it is being pointed out to the farmers in Ontario that it is to their full benefit and more to the benefit of their raw recruits for the farm work this year, even if by doing so they do not get the full value for the money they pay in training, years they will be no longer confronted with a shortage of entirely unskilled labor as they will reap the benefit of the training which has been supplied themselves, or which has been obtained by the workers from their farmer neighbors.

According to W. A. Riddell, superintendent of the trades and labor branch, 15 threatening gangs will be out this year in this province to help handle the harvest, and it is expected that they will form a regular and extensive organization of threshing gangs in the Province of Ontario as exist already in many parts of the Canadian west.

MEN ARE PLEASED WITH NEW RECORDS

The hearts of the men at the various military hospitals have been gladdened during the past few days by the addition to the gramophone records that they had on hand, thru the kindness of many friends in the city, who sent the music producers to the Red Cross to give to the men. In all 504 records were distributed, 100 went to Spadina Hospital, 100 to Givens Street Hospital, and also a new machine there; 100 each to College Street, Davisville and Bass.

Geo. Murrell, secretary of the branch, stated his emphatic opinion that the powers that be should, in the first place, realize that a soldier in the front line has hardships and horrors to put up with which may often cause a mental relapse that might easily influence action apparently prejudicial to military discipline, and that in any case the family of an injured soldier should be considered as innocent and worthy of every consideration that the government could do.

"Here is a case," said Comrade Murrell, "in which the soldier became so exhausted and so distraught that he did something for which he was really not responsible. No one knows so well as the returned man how difficult it is to maintain one's equilibrium in the face of the many-sided horrors and filth which meet one on every hand in the trenches. This man had reached the point of exhaustion where he felt that he must go mad or take a rest. The act of talking the rest was undoubtedly a false move, but it was at least natural, having regard to the man's mental condition. He was sentenced to three years' penal servitude, which was later commuted."

A few days ago this man's wife received word that her husband who had been in the firing line for at least ten months had been sentenced to three years, and that she herself would be immediately cut off from the money she had been receiving for her assigned pay, and that in the course of six months the separation allowance would be cut off, too.

"We take the view that this is an injustice, especially in view of the fact that the man had been overseas more than two years when he suffered the monetary mental lapse. The branch is therefore taking up the case on behalf of both the soldier and his family."

"We resent the response given to this woman recently by an official of the charitable institutions that her case was not different from that of Mrs. Maynard, the wife of the alleged bank defaulter. Mr. Maynard had, so it is alleged, kept convicts out of employment in order to make up losses made at the race course."

FAMILIES OF SOLDIERS WHO QUIT ARE CUT OFF

Should the government refuse to pay the wife of a soldier overseas who has been discharged because he suffered a momentary mental lapse, and took a leave of absence because he had been at the front line? This question is engaging the attention of central branch, G.W.V.A.

Geo. Murrell, secretary of the branch, stated his emphatic opinion that the powers that be should, in the first place, realize that a soldier in the front line has hardships and horrors to put up with which may often cause a mental relapse that might easily influence action apparently prejudicial to military discipline, and that in any case the family of an injured soldier should be considered as innocent and worthy of every consideration that the government could do.

"Here is a case," said Comrade Murrell, "in which the soldier became so exhausted and so distraught that he did something for which he was really not responsible. No one knows so well as the returned man how difficult it is to maintain one's equilibrium in the face of the many-sided horrors and filth which meet one on every hand in the trenches. This man had reached the point of exhaustion where he felt that he must go mad or take a rest. The act of talking the rest was undoubtedly a false move, but it was at least natural, having regard to the man's mental condition. He was sentenced to three years' penal servitude, which was later commuted."

A few days ago this man's wife received word that her husband who had been in the firing line for at least ten months had been sentenced to three years, and that she herself would be immediately cut off from the money she had been receiving for her assigned pay, and that in the course of six months the separation allowance would be cut off, too.

"We take the view that this is an injustice, especially in view of the fact that the man had been overseas more than two years when he suffered the monetary mental lapse. The branch is therefore taking up the case on behalf of both the soldier and his family."

F. G. Pratt, acting provincial secretary for the G.W.V.A. in Ontario,

The Disciples of Izaak Walton

will appreciate the frontispiece of this week's Art Section of The Toronto Sunday World, as it portrays many actual fishing scenes posed for by the aforesaid. Hamilton's famous bathing beach and many beauty spots are also shown. Pictorial presentations of military sporting events at Todmorden and Long Branch. The World's camera man was successful in obtaining the picture of the champion vaulting high jump with the man in the air. A group view of the Toronto detachment of Canadian Military Police Corps also appears in this issue. The Sunday World Art Section, combined with the other feature sections, makes The Toronto Sunday World the biggest and best week-end newspaper published in Canada.

returned yesterday from a hurried trip to Ottawa. He will confer with the prime minister for Ontario at Queen's Park today with reference to the action of the police during the recent riots in Toronto.

WILLS PROBATED

Mrs. Ivy Rose Cousee Reed, who died in Toronto in December last, left an estate valued at \$1975, consisting of an equity in the property at 214 Woodbine ave. No will was left, and the husband, Richard Tysler Reed has applied for administration of the estate on behalf of himself and his daughter, Violet May Louise Reed.

VETERANS CHANGE QUARTERS.

Riverdale branch, G.W.V.A., has changed its offices from the corner of Broadview and Queen to 248 Broadview. The quarters at the foot of Broadview were found inadequate for the increasing volume of business. This office also had other unfortunate points. Last winter the ink used to freeze. The new office has large accommodation and is steam heated. It will always be warm and comfortable.

TORONTO LABOR MEN ISSUE MANIFESTO

Set Forth Their Views Regarding War and Like Problems.

The following manifesto has been issued by officials of the Toronto Labor party with a view to clearing up some alleged inaccurate statements...

During the past four weeks a persistent campaign of misrepresentation and inaccurate statements has been directed against the Labor party of this city and, as those who are engaged in this campaign have not approached the Labor party to inquire what are its principles and aims, as the dictates of justice would demand, the executive of the party deems it a service to try to place before the public its attitude towards the war, its aims, and what methods it proposes to carry them into effect.

The Labor party recognizes the prosecution of the war to a successful conclusion, the belief that while Labor has interests peculiar to itself, it has greater interests which are human and all inclusive, and, recognizing the war as a struggle between militarism to triumph, the cause of Labor would be set back a century.

War's Leveling Effects. The party believes that nations, like individuals, are subject to the eternal principles of truth, morality and justice, and that a league of nations co-operating on these principles is sound and true internationalism.

The party believes that human beings are endowed by their Creator with certain fundamental rights, which are the right to a decent human life, and the right to found a home, and they affirm that the time is past when men, women or children should be compelled to spend their lives without a decent minimum of food, shelter, clothing and culture, or to work under conditions that are demoralizing, brutal and degrading.

Recognizes Obligations. The party recognizes that the nation has voluntarily contracted heavy obligations to its citizens, and it is its duty to cooperate with the utmost leisure consistent with the duty of service to the community.

The methods it proposes to carry these aims are the publication of literature, public lectures, and the election of representatives to the legislative councils of the nation, and toward that end it will continue to cooperate with laborers or farmer, whether laborer or clerk, whether by working by hand or by brain, to cooperate with the government in the purpose of creating a heritage worth preserving for the purpose of transmitting it to our descendants.

Speakers—Hon. J. B. Lucas Hon. Geo. S. Henry, Miss Constance Boutton, Theo. Foster, M.P.

Both Meetings start at Eight o'clock.

LEASIDE BOOMING THO HANDICAPPED

New Bus Line Helps, But Better Transportation Still Needed. HAS PROMISING FUTURE

Street Car Facilities Would Do Much for Import-ant Suburb.

The Town of Leaside, now rapidly developing owing to the big munition works, and the establishment of the C. N. R. yards and shops, and the location there of the Royal Air Force camp and other industries, is handicapped by lack of reasonable and regular transportation, altho there has been an improvement of late over the old jitney service by a fifteen-minute bus service in the morning.

Transportation Solution. The only solution is the extension of the St. Clair avenue municipal car line across Yonge street, thru Moore Park or a civic line thru Rosedale, past the military hospital and thru Moore Park and direct to Leaside, is the opinion of George H. Wilkinson, councillor of the Town of Leaside, who added that a regular street car service in his opinion, would develop the town in a remarkable degree and attract a large resident population.

Much building activity is at present in progress in the town. The large new shop in connection with the Leaside Munition Works is well advanced and when completed will employ thousands of people.

The new C. N. R. ten-stall round house and turn table is nearing completion. The repair shops and office buildings are advanced and the Francesechini contracting firm is rapidly grading the ground in preparation for the lay-out of tracks for the new railroad yard.

Owing to the C.N.R. new tracks covering the main road to Thorncliffe Park, it is anticipated that the present head bridge may have to be provided. The residents affected thru the blocking of the road by the tracks are Robert Davies, the Thorncliffe Racing Association, and George H. Wilkinson.

On account of the lack of dwelling houses, the Leaside Munition Works have given instructions to complete their unfinished houses in the town, commenced before the war. According to an official of the company, it is expected that the 150 houses contracted for by the company some time ago, and of which about 40 were commenced and not finished, will be proceeded with as soon as possible.

Labor conditions are ideal in Leaside, according to the statement of William Doolan, a member of the Amalgamated Society of Engineers, who has executive committee, who is engaged at the Leaside Munition Works. "The plant is on the best of terms with organized labor," said Mr. Doolan to a reporter yesterday.

"Leaside is to become an important residential center and a large number of officials and workmen will require to reside in the locality," said a prominent C.N.R. man yesterday. "Many houses would be erected at the present time in Leaside by railway men and others, but for the prohibitive price of building material," he said.

THOUSANDS OF MEN REQUIRED FOR HARVESTING IN WESTERN CANADA. Thousands of men are required to help in the work of harvesting the western crop. The C.P.R. has completed arrangements to transport to the west this great army of workers.

Part of the men going from points in Ontario to Manitoba, Saskatchewan and Alberta extra trains will be operated by the C.P.R. (the distributing point) without charge. Going trip west, \$12.00 to Winnipeg.

Returning trip east, \$18.00 from Winnipeg. Consult C.P.R. agents regarding transportation arrangements west of Winnipeg.

THE SOLDIERS' AID COMMISSION

has been incorporated by the Province of Ontario for the purpose of assisting in the reinstatement of discharged officers and men in civil life.

EMPLOYMENT. We cordially invite the co-operation of the public in the important work of securing employment for soldiers who have been discharged from military service.

VOCATIONAL TRAINING. Classes for the vocational re-education of soldiers who have been so disabled as to prevent them from resuming their former occupations are provided free of cost, and in addition, the support of the soldier and his dependents is provided during the period of retraining and for one month after.

Further information as to courses may be obtained from W. W. Nichol, Superintendent of Education, 116 College Street, Toronto.

RELIEF FUND. Donations for the assistance of soldiers' families in temporary distress will be thankfully received and acknowledged, and should be made payable to the order of the Commission.

Head Office: 116 COLLEGE STREET, TORONTO. Telephone N. 2200. Office Hours: 9 a.m.—10 p.m.; Saturday, 5 p.m.

J. WARWICK, Secretary.

ACTIVITY BY ARTILLERY FROM AVRE TO OISE

Paris, Aug. 14.—The French official statement of today says: Between the Avre and the Oise there was activity by our own and the enemy artillery notably in the sectors of Sapey-Sur-Mats and Conchy-Les-Pots.

On the front of the Vesle German raids were without result. Prisoners were taken by the French during an incursion into the German lines in the region of Meul-Les-Buis. The night was calm everywhere.

SENATOR INVOLVED. Paris, Aug. 14.—A government commission has sent to the military governor of Paris a report tending to charge Charles Humbert, a senator and the former minister of the Parisian Government, with communicating with the enemy. A bill will be introduced at the opening of the senate on Sept. 17, asking for the suspension of Humbert.

Tenders Wanted for "Elevator Enclosure Doors, Etc."

SEALED tenders will be received by the undersigned until MON, AUGUST 19th, 1918, for the "Elevator Enclosure Doors, etc., required in the reconstruction of the above building."

All tenders to be based on the supplying, execution, installation, and completion of the work, with the furnishing of all material, tools, appliances, labor, etc., necessary and described by the plans and specifications for elevator enclosure doors, etc.

The work of this contract shall be proceeded with immediately upon the signing of the same and continued in force until the work is completed. The contractor shall be responsible for the completion of the work by the date specified in the contract.

Plans, specifications, and any other information required can be obtained at the office of the General Contractor, Loyal & Sons Construction Company, Limited, Ottawa.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, for a sum not less than five per cent (5 p.c.) of the amount of the tender. The balance by cash or bank draft, payable to the order of the Minister of Public Works, shall be required when the contract is awarded.

The lowest or any tender not necessarily accepted.

Envelopes containing tenders to be marked: "Tenders for Elevator Enclosure Doors, etc.," and addressed to the undersigned.

JOHN A. PEARSON, Architect, J. G. MARCHELLE, Associate, Centre Block, Parliament Buildings, Ottawa.

RESERVE DEPLETION MAKES ENEMY ANXIOUS

With the French Army in Franco, Aug. 14.—The anxiety of the Germans concerning the depletion of their reserves appears to be confirmed by a document signed by General Ludendorff, a copy of which was spread among all German troops during the recent fighting.

"The state of our resources in men and the economic situation in the interior," says the document, "oblige us to send back to the fighting forces all the men of the armed services."

The document prescribes the destination for all the men of this service then employed in the rear, an advisory "The high command desires above everything to restore the infantry reserves."

BRITISH MOVE ONWARD ON VIEUX-BERQUIN LINE

London, Aug. 14.—The hostile raiders of the night on the night on the battle-front. There was no infantry action.

At mid-day yesterday local hostile attacks in the Dieubusch sector were repulsed. During the night the enemy artillery has shown considerable activity in this neighborhood and also against our positions northwest of Kommel.

The British secured prisoners last night in a successful raid in the neighborhood of Ayelette.

In the Vieux-Berquin sector British troops have continued to push forward and have succeeded in establishing a line north of the village. A number of prisoners and machine guns were captured in the course of this operation. The British line has been advanced slightly east of Motevau.

Health and comfort in old age depends largely on keeping the liver and kidneys in healthful action.

Pains and aches, stiffness of the joints, lumbago and rheumatism tell of poisons left in the blood by sluggishness of the liver and kidneys.

People in advanced years hold Dr. Chase's Kidney-Liver Pills in high esteem because of the promptness and certainty with which they awaken the action of kidneys, liver and bowels.

NEW FIELD'S FORMATION LIKE THAT OF PETROLEA

Ample Ground for Belief That Oil Output of Mosa and Metcalfe Townships Will Ultimately Equal That of Petrolea and Oil Springs.

Glencoe, Ont., Aug. 14.—Today it is self-evident that Canada needs petroleum. America needs petroleum, the world needs petroleum alike for war time and the more peaceful endeavors. This need is manifest in the rising cost of all petroleum products, and the result has been a great impetus to oil prospecting. At the present time America is drawing on its stored surplus of petroleum and petroleum products.

In 1915 Canada paid a bounty on 158,123 barrels of crude petroleum, valued at \$322,284, which may be taken as the total production exclusive of small amounts of light oil produced in Alberta, which is too low in specific gravity to draw government bounty. Of the oil on which bounty was paid New Brunswick produced 1245 barrels and Ontario 195,773 barrels. The value of the total exports of petroleum and its products amounted in 1915 to \$73,771, and of the total imports to \$14,701,251.

The foregoing is copied from a signed statement by Dr. M. Y. Williams, the famous oil expert of the geological survey department of mines, Ottawa.

and from the annual report of the mineral production of Canada we learn that in 1916 the production of crude petroleum was 6,842,288 imperial gallons, whereas the imports of crude and refined oils amounted to 292,426,121 gallons, and the exports in comparison were quite small. There was thus an oil consumption of almost 290,000,000 gallons, of which less than 2% per cent. was from Canadian oil fields.

In the United States and other large oil-producing countries the output is declining. In fact, supplies are being rapidly exhausted, and according to Frederick G. Clapp, geologist of New York, "we are now experiencing an added danger in the fact that at a time when this decline is imminent the consumption of gasoline, which is the most important product of petroleum, has been greatly increasing and shows no signs of letting up."

Resources Little Touched.

In the development of her great natural resources Canada has heretofore been but little ahead of semi-civilized countries. We lacked faith in ourselves and have depended too much on others, except in respect to the more primitive industries, such as agriculture. Before the war there was no one believed that we could train soldiers able in fair fighting to overcome the pick of the German army, and never imagined that loans of many hundreds of millions could be raised in Canada. But with the war has come greater self-reliance and initiative. Metal mining, however, and oil production are still far behind the absolute requirement of our material resources.

The region from which we are now writing has great promise as an oil field. Unfortunately at one stage in its history incompetence set the seal of condemnation on this locality and stayed all advance for a whole generation, and yet the geological features of these townships are identical with those of the Enniskillen in the County of Lambton. The latter gave us Petrolea and one of the great oil pools of the world.

Petrolea is now in its 15th year; the townships of Mosa and Metcalfe are in their first, but there is already ample ground for the belief that their ultimate production will equal that of Petrolea and Oil Springs. The resources in both districts are the same, the oil is found at the same horizon and under conditions

FIFTY WELLS YIELD METCALFE

Number of Companies and Syndicates Have Producing Properties, and Progress of Rockwood Oil and Gas Company Is Particularly Spectacular—Tremendous Demand for Petroleum Has Far Outstripped Production of World's Oil Fields.

Special to The Toronto World.

Glencoe, Ont., Aug. 14.—Petrolea is the source of the greatest fortune ever won by any man in any age. And the stupendous achievement of John D. Rockefeller was not solely the result of business ability or the manipulation of prices on the speculative market; it was the result of his phenomenal foresight and his phenomenal success in the great and growing industry of oil production. Rockefeller reached the head of his class of multimillionaires at a time when petroleum science was in its infancy when the demand for fuel was limited and the price away below those now prevailing. Rockefeller had to struggle, had to trust in a very large number of associates and individuals drilling and making preparation for opening up wells. Oil men have arrived here from Pennsylvania, Ohio, Michigan, Texas and California. Even sleepy old Toronto is waking up and equipping in the direction of this new source of wealth.

Spectacular Progress.

The pioneer in the development of Mosa and Metcalfe is F. J. Garman, general manager of the Ontario Petroleum Company. One of his twenty wells has already yielded 20,000 barrels of oil. He has made a number of oil wells in the district and of the industry, and has been strikingly successful, but perhaps the most spectacular progress is that of the Rockwood Oil and Gas Company of which H. F. Slater is president and general manager. He is a practical oil operator—he purchased 100 acres in Mosa on the first of June last. He has now six wells in operation and has shipped 12,500 worth of oil. He looks for at least twenty wells and a much larger output before the end of the year. The notable feature here is that every one of the six holes put down struck oil. This convincingly testifies to the merits of the field.

The Mosa Oil Syndicate have nine producing wells but they are not pushing production—being in the process of averaging about 100 barrels per day.

The Detroit Petroleum Oil Co. is making shipments.

The Midland Oil Co. has struck gas and oil on two wells and two in the fourth and fifth concessions of Metcalfe. This points to an enlargement of the petroleum area as this 400-acre tract is the whole of the principal anticline in this township. Millionaire Shipley of Philadelphia has brought in the Rockwood Oil and Gas Syndicate and the importance of interests, and Kiehl, Smith and Co. are all drilling. The Allies Oil and Gas Syndicate are preparing for active operations.

The Bothwell-Metcalf Syndicate have secured 1400 acres and are arranging to start three rigs at once. There are now about fifty producing wells in this field and there will not be less than one hundred before the end of the year.

Headway on Merits.

The story of the field is one of daily progress and of daily increase in production. It is making headway steadily on its merits and many observers think that we have seen only the beginning. In fact this must be so. Inadequate appreciation is the constant lot of new fields, but not withstanding the many men from Missouri it is believed the output from Glencoe will soon be equal to that of Petrolea in the sixties. This will mean a very large fortune in a very short time. Earnings of \$12,500 in 90 days or thereabouts from the day of arrival on the ground shows very plainly that boring for oil is not a long drawn out, lifeless, uncertain, low-profit venture. On the contrary it is an industry in which profits can be quickly and certainly realized.

Ontario has had nothing like this golden opportunity since Cobalt's early days. Those who invested in the early days of the beginning got enormous returns. Those who hesitated, vacillated and waited until dividends came secured only a normal profit.

Costs Very Low.

At Glencoe producers are now paid \$3.10 per barrel net, f.o.b. that is, after deducting for pumping and piping the oil to the tank cars. A well can be drilled and placed in commission for less than \$1,000, and after deducting for the cost of the well, the net profit is practically negligible. At Bothwell, 12 miles southwest from Glencoe, four men constitute the entire working force of forty-eight wells. One begins to think that Millionaire Rockefeller has a wide old head.

And speeding up production is often made imperative in the oil fields, otherwise an enterprising neighbor may drain a pool which extends over your lot. In such cases what is described as an "offset well" must be put down on one's own ground. Then if you can pump faster than your neighbor the bulk of oil will find its way into your tanks and ultimately it will swell your bank account.

It is an extra-exciting game and under the pressure of constantly increasing activity stocks generally keep climbing to undreamed of heights. But the wise investor begins at the beginning and then cashes in when it gets to fever heat.

It is now thought that a great output of oil will soon be coming from the field and the importance of the field will increase as the pending developments are prosecuted to full fruition.

Big Profit Making Opportunities in Ontario Oils

It has been said that the reason most of us don't get along is not because we lack chances, but that we lack the qualities which induce us to take chances.

The average investor is "from Missouri," and is inordinately proud of this attitude, but while he is being "shown" some other more enterprising person sees the opportunity and seizes it.

How often do we hear our friends say regretfully of some big money making proposition that in the early days, when the venture was in its infancy, they had the chance to get in "on the ground floor," but failed to take a chance.

"Nothing venture, nothing win."

The old adage is just as true today as it was in olden times. It is a truism that has been demonstrated and proved throughout history. We have wonderful examples of its accuracy in the present colossal conflict in Europe. The general possessed of military genius is invariably the one who is quickest to grasp the possibilities of a situation, and to intelligently take big risks. Who ever heard of a "piker" general winning a brilliant victory?

The saying applies with equal force to the field of investment.

The men who paid out in hard cash over \$300,000 for the Hollinger took a chance. At that time this great gold property was little more than a prospect. It has since grown to be the greatest gold mine in Canada, having already produced millions in gold, and promises an amazingly brilliant future. The men who bought Hollinger are now deservedly rich men.

Instances of this type, both in the mining field, oil, industrial railroad, and in fact, every line of human endeavor could be recited ad infinitum.

The ever increasing demand for oil and its by-products has advanced by leaps and bounds. Production has not kept pace, and prices for crude oil have soared with the demand.

The country is being scoured for new oil fields and old producing districts are being honeycombed with drill holes in search of new pools.

A boom in "oils" has resulted. Not only are big profits being made in wartime, but the prospects for peace times are just as bright.

The uses for oil and its by-products have grown amazingly within late years. To such an extent has oil entered into commercial enterprise that it is safe to say were the total supply on hand, and the future supply cut off, the whole commercial structure would be hopelessly dislocated.

The search for oil in the United States has spread into Canada. Oil has been located in southwestern Ontario, in the Glencoe district. Results obtained in the short time this field has been worked are little short of phenomenal, and the prospects of this field developing into one of the big oil producers of the country are particularly bright.

Likely sections are rapidly being leased, syndicates are being formed, and drilling is being carried on aggressively. Upwards of fifty producing wells have been brought in, with an estimated monthly production of between 20,000 and 25,000 barrels. As further drilling is done this output will undoubtedly be greatly increased.

The oil from this section is the highest grade on the continent, it commands high prices, and returns correspondingly large profits. Including the bounty given by the Dominion Government of 52 cents per barrel, the price received for the product from this section amounts to over \$3 per barrel, a higher price than that received by any other district in United States or Canada.

THE BIGGEST PROFITS WILL BE MADE BY THOSE WHO GET IN EARLY.

GOLD MINING RANKS AS REAL ESSENTIAL

Priorities Board's Resolution Read Before Mining Men's Convention.

Hamilton B. Wills yesterday received a wire from Reno, Nevada, conveying the first definite statement from the United States Priorities Board, classifying gold mining as an essential industry. The resolution, now in convention at Reno, has been notified by Edwin B. Parker, president of the American gold conference, now in convention at Reno.

MINING CORPORATION'S BIG DIP UNWARRANTED

Intrinsic Value of Stock, Figured Conservatively, is \$2.70.

The Northern Miner, discussing the outlook for Mining Corporation shares, says: Mining Corporation has already taken out this year about all the ore reserves shown in the last report. It has yet to run through considerable milling rock and has a half-million tons of old tailings in Cobalt Lake, which should net the company a considerable profit. The mill is being enlarged and should be started on the tails within a few weeks. The Mining Corporation has thrown up its option on a property in Rickard Township, but that is not quite sufficient to cause the rapid decline that has taken place in the last few weeks. According to reports, the company's current assets are about \$3,000,000. Ore reserves would add considerable to those assets, as would also the tails to be treated, making the intrinsic value of the stock about \$2.70, if figured conservatively. It must be remembered that there is a chance new ore being found, and to the figure must be added a certain amount for the speculative side.

GOLD MINES FIND ROAD DAILY GROWING HARDER

The Northern Miner Says: A conference of gold miners has been called for this conference will be in intimate in development of the industry. It is certain that the government is calling for a meeting, i.e., to receive suggestions on the means to be used to bring about a more active and profitable mining industry. The path of the gold mine operators that have, thru unusually high rates and accessible ore, been able to continue operations, is becoming rougher every day.

PRICE OF SILVER FIXED IN BRITAIN

London, Aug. 14.—The maximum price of bar silver was fixed at 48 1/2 pence today.

The above announcement created little interest among Cobalt miners, as the maximum price prescribed is at the level which has prevailed since the outbreak of the war. The United States Government fixed the price of silver at a dollar an ounce.

HOLLINGER GIVEN STEADY SUPPORT

General Trend of Gold Stocks Slightly Easier—Rockwood Oil Fairly Active.

Good buying of Hollinger injected some animation into an otherwise rather reactionary mining market yesterday. Seven hundred shares of Hollinger were taken up at the firm quotation of 46. Oil was advancing 5/8 share to 8 1/8 on Tuesday, fell back to 8.50 again yesterday, and McIntyre sagged a point to 1.39. There is a lull at present in the movement in gold stocks at New York, although the much interest attaches to the meeting of mining men now in progress at Reno, Nev., with the object of impressing upon the United States Government the advisability of extending aid to the gold mining industry. Dome Lake lost half a point at 1 1/2 and West Dome also half a point at 9, while some small blocks of Lake Shore came out 2 1/2 points lower at 62. The bid for Kirkland Lake firmed up a point to 22 on advices pointing to early completion of the mill. Great Britain had fixed the maximum price of silver at 48 1/2 pence but had no effect upon the Cobalt market. Bar silver has been ruling around this quotation in London since the United States Government fixed the price at one dollar, and the placing of the British seal upon this figure by the British Government is of no particular significance to silver producers. It must be remembered also that while the governments have announced the top price they are willing to pay for silver, private purchasers have found it necessary at times to bid considerably more. Timiskaming came out 1-2 lower at 30 1-4. La Rosa 1-2 lower at 35 1-2 and Hargrave 1-8 lower at 4. The Ontario Corporation gold unchanged at 2.25 and McIntyre at 39, while Ophir rolled 1-2 to 4 1-2. Adanac was slightly weaker at 6 1-4.

KERR LAKE OUTPUT IS LARGER IN JULY

Fiscal Year, Which Ends This Month, Expected to Establish Record.

During the month of July the Kerr Lake mine produced approximately 231,000 ounces of silver, an average of 7452 ounces every twenty-four hours. This compares with an output of 189,892 ounces in the corresponding month one year ago. With the exception of May last, which was the highest month in the history of the company, the July output was the highest for the present fiscal year. It is now practically assured that the fiscal year ending August 30 will prove to be the company's banner year. For the eleven months ended July 31 the output amounted to 2,364,122. Provided the August output equals that of July, the total production for the fiscal year will amount to over 2,595,000 ounces.

The following is a summary of the performances of the Kerr Lake during the past eleven months:

Month	Ounces
September	210,398
October	213,803
November	205,522
December	203,400
—1918—	
January	204,441
February	204,158
March	207,100
April	201,000
May	268,218
June	210,000
July	231,000

With only the present month to go and with only a score of some 256,000 standing between the eleven-month record and an even 3,000,000, there are strong indications that the latter total will be achieved.

The financial position of the company has led to much comment as to the likelihood of an extra dividend payable together with the next regular disbursement.

SPOKANE CONFERENCE ON GOLD PRODUCTION

Spokane, Aug. 14.—A conference representing all metallic workers interested in the relief of the gold straggle is to be held in Spokane during the week of September 17 to 21. The conference will be under the auspices of the Northwest Mining Association, which has appointed a committee to arrange all details of the occasion.

The conference which is to be held here is one of many similar ones to be held all over the country at the request of Secretary McAdoo. At each of these meetings the representatives of all interests will discuss what is most needed in each section. An invitation to attend the Spokane conference will be extended to financiers from British Columbia and other Canadian provinces.

Four Good Values in Electric Fixtures

Fixtures and Shades, \$38.75—House set of handsome design. Ceiling and wall lights have shades. Extra pieces for seven and eight-room homes can be added at small extra cost. These sets installed free within our delivery radius. Complete set, as shown, \$38.75.

Fixture and Shades, \$9.25—For parlors, dining-rooms and sitting-rooms, furnished in burnished brass with oxidized ornamented parts. Complete with colored shades, \$9.25.

Bowl and Hanger, \$8.70—Semi-indirect fixture. The hanger is finished with plain brushed brass. Bowl is made of soft-toned glass, with either blue or rose border. For large bedrooms, parlors or sitting-rooms. Bowl and hanger, \$8.70.

New Table Lights—Splendid variety, from a dainty little gold boudoir lamp at \$9.75 to the large living-room types priced from \$12.25 to \$27.50. Some have metal framed shades with art glass panels—others have the new all-glass shades with beautiful designs burned into the glass.

August Homefurnishing Sale

From now until the end of August, all homefurnishing sections will bring their combined power into action for a whirlwind of value-giving. Ordinarily the sale of Rugs, Draperies, Electric Fixtures, Pictures and Wall Papers is held during the entire month of August, but owing to increased market difficulties, shortage of labor and production, we're obliged to confine our efforts to two busy weeks. The occasion fairly hums with remarkable buying opportunities.

Really Remarkable Bargains in New Draperies

Sample Portieres Only 10 pairs in the lot. Some are velour lined with tapestry. Others are velour lined with velour, two different colors, which have gotten slightly marked through being used for display in the department. These are already marked at attractive prices, but to the lucky first ten customers this morning we will offer an additional saving of 25 per cent.

This is a very special offering, and to anyone requiring portieres our advice would be to be here at 8.30 a.m. today and take advantage.

Comforter Covering 29c.

26-inch Comforter Coverings—Cannot be duplicated at this price today. Variety of colorings, designs and grounds, 36 inches wide. About 50 pieces of standard quality silkline, also about 75 pieces of beautifully printed cotton. Ideal for light draperies. August Sale price, yard, 29c.

Egyptian Cloth \$1.98 Yd.

50-inch Egyptian Cloth—Richly mercerized in greens, browns, blue or rose. For portieres or curtains. Cannot be bought wholesale at this price today. August Sale price, yard, \$1.98.

Shadow Prints \$1.49.

50-inch English Reversible Shadow Prints—Yellow, pink, blue on light and dark grounds. Good weight material and have them made the price would be nearer \$15.00. August Sale, special, pair, \$12.49.

Lace Curtains \$1.19

An Attractive Line—English-made Nottingham Lace Curtains. Part of a splendid purchase. They are 2 1/2, 3 1/2 and 3 yards long, 250 pairs in the lot. August Home Furnishing Sale, pair, \$1.19.

Tapestries \$1.69

These 50-inch tapestries could not be duplicated at this price today. There is a good choice of colorings and patterns, but only a limited quantity of each particular one. They are 50 inches wide and of good wearing quality. August Home Furnishing Sale, yard, \$1.69.

Portieres \$12.49 Pair

Egyptian Cloth Portieres—Light and dark blue, rose or green. Heavy weight Egyptian cloth, richly mercerized—trimmed with tapestry borders on one side and bottom. 2 1/2 yards long, 50 inches wide. To buy the material and have them made the price would be nearer \$15.00. August Sale, special, pair, \$12.49.

Swiss Curtain Nets \$5.00

There are several patterns to select from, 40 to 50 inches wide, some in ivory and others in ecrú, beautiful quality, made in St. Gall, Switzerland, "The Home of the Swiss Curtain Makers." Exquisite all-over designs which could be cut up and made into panels for the windows. This is a bargain extraordinary to those wishing high-class attractive curtains. Special Home Furnishing Sale price, yard, \$5.00.

No Better Time Than Now to Join the Home-Lovers' Club

August is the month of unsurpassed opportunities in the Home Furnishing Sections.

Our patrons have responded enthusiastically to the special sale announcements and taken advantage of the substantial savings.

And, naturally, the Home Lovers' Club has increased its membership considerably and is gaining more enrolments every day. Investigation has proved that no other system equals the convenience and economy of the Home-Lovers' Club.

If you are not a member, we urge you to seriously consider the many superior features of this shopping plan.

It costs nothing to join the Club—no fees or interest at all. Club members may buy anything for the home and obtain immediate use thereof upon making a nominal deposit. The balance is then spread over an arranged period. Could anything be fairer than that?

The Club Secretary will gladly explain further particulars without any obligation on your part.

Club Office—Fourth Floor.

Free Estimates on Decorating. Phone Main 7841, Wall Paper Department, for man to call. All paper hanging and painting done by our staff of decorators.

Substantial Reductions on Wanted Rugs Today
