WOMAN IN CASE ARRESTED EVIDENCE OF IRRITATION

Emma Goldman, Charged With Conspiracy to Assassinate President McKinley, Caught in Chicago.

DISCLAIMS KNOWLEDGE OF CRIME, BUT NO COMPLICATIONS CAN ARISE.

But Admits She Knew Coelgoos, Whom She Calls a Fool—Police Not Satisfied.

Chicago, Sept. 10.—Captain Coleman, chief of detectives, has sworn out a warrant charging Emma Goldman with conspiracy to assassinate President McKinley. Miss Goldman, who was arrested today, is being held at the Central Police Station in this city.

Never Advocated Violence.

"Do you know that your words are what Coelgoos claims stirred him to shoot the President?" she was asked.

"I do not. I never advocated violence. I merely knew the man. I was leaving for Rochester via Buffalo when Coelgoos had a few words with me. He said he had heard me lecture at some memorial hall in Cleveland last May and that he wanted to know me. He said he knew I was in Chicago and looked me up. I scarcely remember anything about him, save that his complexion was light."

Read the Papers.

"Then, how do you know that this man is the one who tried to kill the President?"

"Oh," with a shrug of the shoulders, "I guessed that from what the newspapers say."

"What did you think when you heard that an attempt to kill the President had been made?" the woman was asked. With a wave of her hands and another shrug of the shoulders she answered disdainfully:

"I thought, 'Oh, the fool!'"

Discussed on Anarchy.

The prisoner's manner was growing more and more excited, and she made an evident effort to control herself. In this she eventually succeeded, and launched into a discourse of the teachings of Anarchy.

She declared that Anarchy did not teach men to do the act which had made Coelgoos despatch and hated the world.

"We work against the system, and education is our watchword," she said.

"On the night of July 12, Isaacs was out of the house for some time, and I went to bed. The man who was seen thru the newspaper was Coelgoos, stood there. He said he wanted to see me. I was about to catch the Nickel Plate train, as I said Mr. Isaacs' daughter was about to go to Rochester, N.Y. He went to the Rock Island depot with us. But I was so busy taking leave of my friends that I scarcely noticed him. It was not a time when one would want to make new friends. At the depot I had the few words with him of which I have told. That was all there ever was between us."

Is She Anarchist?

"I am an Anarchist—a student of socialism, but nothing in anything I ever said to Lena Coelgoos knowingly would have led him to do the act which started every Friday."

"Not even in your lectures? He says your words set his brain on fire," asked the lawyer.

"Am I accountable because some crack-brained person put a wrong construction on my words? Lena Coelgoos, I am convinced, planned the deed unaided and entirely alone. There is no Anarchist ring which would help him. There may be thousands who would murder, but there are men in every walk of life who sometimes feel the impulse to kill."

Strange Inspiration.

"I do not know surely, but I think Coelgoos was one of those down-trodden men who see all the misery which the rich inflict upon the poor who think of it, who brood over it, and then, in despair, resolve to strike a great blow, as you think, for the good of their fellow men. But that is not Anarchy. Coelgoos (the woman pronounced the name with the greatest ease) may have been inspired by me, but if he was, he took the wrong way of showing it."

Denied Herself.

Police officials are not entirely satisfied with Miss Goldman's story. When Captain Schuetter and Detective Hertz discovered her at the home of one Norris, at 303 Sherbourn-avenue, she denied her identity.

"Hello, Miss Goldman," said the captain as he entered the parlor. "Are you glad to see me? Miss Goldman, I'm a Swede."

THREE TRAINMEN MEET HORRIBLE DEATHS

G. T. R. REAR-END COLLISION NEAR PARIS

Conductor Harman of Toronto Literally Annihilated by Fire.

Engineer Denne of Little York Identified by a Bit of Hair.

CONDUCTOR JAMES HARMAN.

ENGINEER FREDERICK DENNE.

As a result of a rear-end collision on the Grand Trunk Railway at an early hour yesterday morning, between Princeton and Paris, three lives were crushed out, and two persons were seriously injured, besides considerable loss being occasioned to rolling stock.

The accident occurred shortly before 1 o'clock, about two miles east of Princeton. Freight train No. 422, bound for London to Toronto, stopped about half way between Paris and Princeton in order to allow a hot-box to cool off. Shortly after the stop was made, a special train of five empty coaches was heard coming. This train was stopped in time, just behind the freight.

About this time the second section of the fast manifest train from Chicago to New York approached and crashed with terrific force into the empty passenger train, passing thru nearly all the cars and throwing them in all directions.

The wreck took fire. The flames spread rapidly, being fed with the hay which three cars of the manifest train contained.

It was in the fire that Engineer Frederick Denne of East Toronto and Conductor James Harman of Toronto perished. The fireman, M. Renne of Sarnia, also was shortly afterward in Brantford hospital, but he is recovering.

It was not until late in the afternoon that portions of the remains of Denne and Harman were found. While clearing away the debris a portion of a human skull was uncovered, but it could not be identified.

A little farther away another portion of a skull was picked up. From the hair, it was identified as that of the remains of Engineer Denne.

Physicians on the scene recognized several bones found as being those of fingers. Several collar buttons, a knife and a pocket picked up were recognized as belonging to Conductor Harman.

Superintendent Jones of the Middle Division of the Grand Trunk left for the scene of the wreck immediately on receipt of the news. He will not return until this morning. The main line was cleared of debris at 11 o'clock. The damage to rolling stock will amount to between \$8000 and \$10,000.

Conductor James Harman was born in Brantford about 40 years ago. When a boy he removed with his parents to Windsor, where at an early age he began railroad reading. He began as a brakeman and for the past 13 years had been a conductor.

He was married to a woman named Harman, who at an early age he began railroad reading. He began as a brakeman and for the past 13 years had been a conductor.

Recent rush in passenger traffic on the Grand Trunk, he was given charge of a passenger train several days ago. For the past 10 years he had made his home at 40 Spadina-avenue. He was well-known in railway circles, and was extremely popular with his fellow workmen. He is survived by three brothers—Ex-Altd. John Harman of Windsor, one in Pittsburg and the other in Chicago.

Brakeman Robert Oliver, who was seriously injured about the head, lives with his wife and little child at 86 Euclid-avenue, this city. He came here a little over a year ago from St. Thomas. Mrs. Oliver, on hearing of the accident to her husband, left at once for the hospital at Brantford, where her husband was removed.

Woodstock, Sept. 10.—The wreck which occurred on the main line of the G.T.R. shortly after midnight last night was attended by three fatalities and the loss of thousands of dollars' worth of property. The accident took place about a mile and a half east of Princeton Station. There

ATTEMPT TO SCUTTLE SHIP OF STATE FAILS

PRESIDENT WILLIAM MCKINLEY WILL LIVE

Julian Hawthorne Crystallizes Information and Opinion in His Inimitable Style—Recovery is Little Short of Miraculous—World Will Now Go on as it Did Prior to Buffalo's Blackest Friday.

(BY JULIAN HAWTHORNE)

MIRACULOUS RECOVERY.

There is really something almost miraculous about his recovery. Much is ascribed to the promptness with which "barbaric" operations were begun upon him, and much, no doubt, is due to the astonishing way in which the bullet avoided every vital organ in its passage.

He is now in a way less than he could hardly have picked out a way less calculated to result in dangerous consequences. The bullet is supposed to be safe in his back muscles, where it will naturally encyst itself. The perforations in the stomach will heal, and all will be well.

UNREMITTING ATTENTIONS.

Of course the wise and unremitting attentions of the doctors have played an important part in this extraordinary case. His skill has made itself seem a very inconsiderable terror. I suppose that McKinley will never become a robust man; he will have to be careful of diet and hygiene for a long time to come, but he will be in health good enough to enjoy the pleasures of life and act as

useful part in it. His mind is as good as ever.

MRS. MCKINLEY'S HEALTH.

The condition of Mrs. McKinley's health has not been so punctually described by those attending her, but, with her sensitive organization, we have a right to believe that she will be as readily influenced for good as for harm by matters affecting her happiness. She would perhaps have died had her husband failed to recover; now that he is almost beyond improvement in her. The people always associate her in their minds in any thoughts they have of her husband, and the kindly feeling that they have for either of them is multiplied by the conviction that the marriage that unites them is a true and a happy one.

THAT IS OVER.

Short are the annals of a happy people. There is nothing to be said about this situation that would not bear the aspect of a forced confession. If things go on as they are going and have gone, there will be no more "news" to be told about Mr. McKinley than there was before he was shot. He, and we, have passed thru a memorable experience; but the period has passed and we may look forward to all manner of good fortune to compensate us for this trying week.

the whole body of believers in violence that their methods are ineffective.

TWO COULDN'T BE FOUND.

But, in fact, it is greatly to be doubted whether the assassin's assertion that he was alone in his crime is not the actual truth. It is almost incredible that two men could be found in this country who would conspire to kill such a man as McKinley, simply because two men could not agree that the killing of a man elected by a nation could have any practical effect in changing or overthrowing popular government.

Coelgoos was probably alone in his deed, because he acted not from philosophical conviction; but simply from personal perversity.

A BLESSING DISGUISED.

Upon the whole, therefore, it would hardly be extreme to say that the event, so tragic in its first aspect, may, in the end, prove to have been a blessing disguised. It has brought forth a powerful expression of good will from the nation and from the whole civilized world; it has shown that our institutions are not to be overturned by any act of criminal violence, and, therefore, it has proved to

THE LAST BULLETIN TUESDAY NIGHT CAUSED A SCARE.

Irritation Caused by the Fragment of Cloth in Skin Gave Rise to Suspicion That the Patient Had Taken a Turn for the Worse.

Milburn House, Buffalo, N.Y., Sept. 10.—Late tonight there was a slight scare at the Milburn residence, caused by the discovery of a slight disturbance developed which made necessary the opening of the wound. The doctors seek to allay all apprehension by the positive statement that this incident cannot give rise to other complications, and their frankness in giving the news to the public leaves no room to question the entire good faith. The further fact communicated in the bulletin that the President was well enough, taking nourishment in the mouth from a pure beef juice was of course gratifying, but to the laymen the mere mention of a complication, however slight, might be naturally created alarm. It seems like a little cloud on the horizon, which might grow and spread. But the most positive assurance were given that the only effect might be to slightly delay the healing of the wound. The irritation was not in any way the result of a suggestion of blood poisoning. The physicians declared over their own signatures that it could

not result in complications. The opening of the wound was in no sense an operation. Several of the stitches were simply taken out and after a three or four washings of the inflamed tissue, the wound was again sewed up. No anesthetics were necessary. Considerable delay was caused by the fact that a certain dressing desired by the surgeons was not in the house, and it was necessary to send into the city for it. The first time the messenger returned he did not have what was wanted and he had to take another trip.

land, who had made 270. Major J. K. Miller and Thomas Caldwell, both of the United Life Association, died, with 218 each, as Miller had made the better score on the 1000 yard range, he secured the 270.

FINAL CONTEST AT SEA GIRT.

Frank Hyde of New York Won All Corner's Match.

New York, Sept. 10.—After 11 days of actual work on the state camp ranges at Sea Girt, N.J., the international riflemen wound up the annual meeting of the National Rifle Association of America today. The final contest was an all-corners match between Hyde and a Canadian.

SAVED HIS LIFE.

Buffalo, Sept. 10.—Dr. McBurney, the New York medical expert, stated that President McKinley's splendid condition is due largely to the conduct of three men at the time of his injury. These are George B. Cortelyou, secretary to the President; Melville W. Hanson, brother of Senator Hanna, and John Scattergood of the Executive Committee of the Pan-American Exposition. When others desired to delay a surgical operation on the President, the arrival of Dr. Roosevelt's "Pack from Niagara, who with a party earlier in the day had gone to see the Falls, these three insisted that he be taken to

the Emergency Hospital at once and operated upon. Their will carried the day, and Doctors Hanson and others operated at once, with the result now known to the whole world. The conduct of the trio was little short of heroic.

GATHERING OF ROYALTIES.

Copenhagen, Sept. 10.—The King and Queen and their children, the King and Queen of Greece and the King of Denmark, and princesses, all on one train, arrived here at noon today from Fredericborg and were present at a farewell luncheon on board the Russian Imperial yacht Standard.

EMMA'S ASSOCIATES.

Chicago Police Have Gathered Up Anarchists' Co-Conspirators.

Chicago, Sept. 10.—The warrant of arrest gives as her conspirators Abraham Isaacs, Maurice Isaacs, Clarence Prentiss, Hippolite Naval, Henry Travaglio, Alfred Schneider, Julia Mechano, Marie Isaacs and Marcell Isaacs. All but Miss Goldman were arrested today, but the men were held without bail, and are now in jail. It is the opinion of several lawyers that Miss Goldman cannot be extradited for trial in New York unless she and Coelgoos are charged with an offence under the Federal statute. The suggestion that the would-be assassin might be tried under the State laws of New York for assault, with intent to kill, would, it is said, preclude the possibility of Miss Goldman's being extradited, as an accessory before the fact, as she is alleged to have done today, to be gone two days, and Conductor Daves went back to Washington tonight. About McKinley, the President's brother, will remain a few days longer, but his family have returned home and Mrs. Duncan and several other relatives of the President have gone. Judge Day, long associated with the President, returned to Canton today. The five members of the cabinet still here will remain a few days, rather as friends who have been intimately associated with the President for years than as public officials.

ROOSEVELT HAS GONE.

Vice-President Roosevelt left the city tonight at 9:30 for Oyster Bay, perfectly confident that the President will recover. So confident was he, in fact, that when a

BOER IS HELD FOR TREASON

Dr. Krause Arraigned in London On a Warrant Issued in the Transvaal.

BIG BAG FOR THE LAST WEEK

Kitchener Reports a Total of 681 Boers Accounted for, With Much Ammunition.

London, Sept. 10.—Dr. Krause, former Governor of Johannesburg, who was arrested last week and was arraigned in the Bow-street Police Court, and remanded, on a charge of treason, was brought up again in the Bow-street Court today. Dr. Krause was informed that a warrant, charging him with intent to murder, was issued in the Transvaal.

Sir George Lewis, on behalf of the prisoner, said he seemed strange since Krause had been in England 12 months as a parolee prisoner of war, warrants should be issued in the Transvaal because of acts committed in England, and he asked how could a gentleman, not an English subject, be charged with high treason.

The case was adjourned to await the arrival of papers from the Transvaal.

LIKE A HUNT.

London, Sept. 10.—The following despatch has been received from Lord Kitchener, dated Pretoria, to-day:

"Since Sept. 2 the columns have again got good results, the total bag being 821, composed of 67 killed, 67 wounded, 203 made prisoners, and 188 surrendered; also 170 rifles, 65,211 rounds of ammunition, 3400 horses, and 10,000 head of cattle."

Lord Kitchener further says that the situation in Cape Colony is unchanged, excepting the capture of Lotter's command reported last week.

REEVE DUNCAN HURT.

Horse Kicked Him in the Abdomen—Condition Serious.

Mr. Henry Duncan, reeve of York Township, is lying at his home at Don in a somewhat serious condition of health, the result of a horse kick. Reeve Duncan, with other members of the Council, spent Monday evening at Little York inspecting a new system of lighting, and afterwards drove home. While putting by the harness from his driver, he had occasion to go behind another horse, and this animal kicked him with both heels. One of the blows was in the stomach and the other in the right arm. Dr. S. B. Richardson of Eggleston was called in, but cannot yet state definitely whether any serious consequences will result from the accident. Reeve Duncan will in any event be confined to his bed for some days.

WHEAT DELIVERY MOVES FREELY.

Average of 150 Cars Per Day is Sent to Elevators.

Winnipeg, Sept. 10.—A James of the C.P.R. returned from the West today. He said that west of Broadview there had been any amount of rain, but no damage had been done, nor had the frost of a day or so ago had any bad effect. Mr. James was as far west as Lagan and on all the branch lines an inspection tour. At all points the wheat delivery was moving freely, an average of 150 cars a day being sent to the elevators. Shipments are not yet as heavy as receipts, but in the course of a week they will be moving briskly towards the West Port. The yield is averaging from 25 to 35 bushels to the acre.

Winnipeg, Man., Sept. 10.—Premier Roblin's case against Dr. W. MEN WHO WON'T BE TAUGHT

Montrealers Do Not Propose to Learn to Bow at the Expense of the City.

NO OFFICIAL INSTRUCTOR NEEDED

City Council Believes the Duke of York Will Not Expect Too Much From Democracy.

Montreal, Sept. 10.—Montrealers will not be taught how to bow down and bow up, or at least it will not be done at the expense of the city.

Court etiquette and the right and wrong manner in which the bows should be made to the royal visitors when they are being presented to the Duke and Duchess were subjects discussed at the meeting of the Civic Committee at the City Hall this morning. There was considerable discussion indulged in, and the resources of Montreal citizens in the matter of making bows were thoroughly investigated.

It was decided by the committee that the people generally would be able by diligently studying the subject to gain sufficient expertise by the evening of the 15th to make their bows at the City Hall without the aid of an official instructor in the art appointed by the City Council.

The Mayor held that this was a democratic country and that royalty could hardly expect as much of Montrealers in the matter of court etiquette as in the case of European courts.

In this contention he was supported by Ald. Ekers, who thought the people would be able to stand the strain without any official coaching.

The matter came up before the committee through an application made in person by Mr. A. Roy Macdonald, who suggested that, as there seemed to be considerable interest being taken in the matter of the proper behavior of those who proposed to attend the civic reception at the City Hall, he should be appointed an official instructor as regards the etiquette of the occasion.

It was finally decided that no official instructor would be retained.

HOW IT COULD BE DONE.

If Nova Scotia Men Lose, Then Two Riders Will Be Joined.

Montreal, Sept. 10.—Mr. J. A. Gillies, ex-M.P. for Richmond, who he believes, states that if Nova Scotia is called upon to lose two of her representatives in the House of Commons, the cutting down will probably be accomplished by naming Richmond and Victoria last, one electoral division and taking one member away from Pictou.

KING EDWARD A BARRISTER.

When the Prince of Wales visited Toronto in 1880, he was made a barrister by the Ontario Law Society. The late John Hillier Cameron presided and put the royal visitor thru his examination.

"What is the highest title under British law?" asked the presiding judge.

"A fee simple," replied the Prince.

Immediately the suggestion was made to the court that the examination need proceed no further, and the King signed the roll.

An effort was made to honor the Duke of Cornwall and York in the same manner when he visits Toronto next month, but in reply to an invitation, which the Law Society forwarded to Ottawa, Lord Minto replied that he would not accept of a division and taking one member away from Pictou.

question of doubt was put to him by the fact that he was not to get out, he collapsed and finally died.

Quick as thought the Vice-President answered: "Ah, but you forgot 20 years of modern surgery, of progress from what I can learn, also the Garfield wound was much more serious than the wound of President McKinley."

President McKinley, I believe that the President will recover, and I believe it so thoroughly that I leave here tonight."

No Extraordinary Grand Jury. Questioned as to the mode of procedure, so far as the State was concerned, he said: "I see no reason for the call of an extraordinary grand jury. The grand jury now in session, composed of American citizens, will undoubtedly take care of the wound."

As asked as to the legislation against Anarchists, he said: "I have thought much on the matter. What has disturbed me has been to find a reason for even Anarchists to attack a man like President McKinley. Here is the one country where they are allowed perfect freedom of speech. Here the ruler is a man descended from farmer stock, set in a man who has no fortune or no means other than that which he may manage to save out of his salary as President. Probably many a working man in the United States would be glad to see the Vice-President to-day, dressed in some little vellement, an invitation to see the Exposition. He said: "I do not believe, even tho I am assured of the President's convalescence, that it would be entirely proper for me to take part in any of the festivities."

When the Vice-President stepped out of the sidewalk to go to the Milburn house, he was met by a crowd of people. He was seen to be in good health and spirits. He was seen to be in good health and spirits.

Regular Meeting of Army and Navy Veterans. The regular monthly meeting of His Majesty's Imperial Army and Navy Veterans Association was held last night in the hall of the Hotel de Ville.

Important Development. An important development of the day was a private determination reached by the President's physician, that the President's recovery was a matter of time.

Moved Himself. Yesterday he took the precaution to ask if he might be permitted to move to the Milburn house, which he had done.

A LAKE SHORE TROLLEY LINE. The property of operating a trolley system on the Island is a point about which there is more or less dispute.

SCARCITY OF FISH. Editor World: In your issue of Sept. 9 I read an editorial on the "Scarcity of Fish," and as the subject is one which is viewed by residents about the shores of Sturgeon Lake, I venture as one of them to make a few remarks upon it, trusting you will give them space.

I have had personal knowledge of and experience in the fishing of this lake for over 20 years, and during the present season have conversed with a goodly number of the residents here, including the old settlers along the western shore.

Another lead is on between "The Herald" and "The Standard" on the trouble by claiming that it beat the "Spec" in the "extra" business of the shooting of McNair's. The "Spec" negates "The Herald's" assertion and challenges another "Spec" that it will be availed with such anxiety.

The anarchist doctrine is that all men are born free and equal. That is true in America, but it does not mean a license to any man who has wanted his "free" and "free" possibilities in scheming as to how he can outrage law and order, and right living placed himself in a high office, or in the possession of wealth.

NO ONE FOR THE ENGLISH

Intense Feeling in Every European Country Against Old John Bull.

FRENCH SPOILING FOR A FIGHT.

Little Holland Would Like to See the Downfall of Her Best Customer.

Chicago, Sept. 10.—Writing from Amsterdam to the Record-Herald, Walter Weisman tells of the hatred that is borne in every European country against England, and of the strong sympathy expressed for the Boers.

The average Englishman does not appear to comprehend why his countrymen on the Continent, smoking his pipe, walking to save cash here, guidebook in hand, seemingly caring not a rap that he is pointed at with the finger of scorn wherever he goes. In most cases he does not even know it; his mantle of self-sufficiency, his mental habit of attending only to his own pastimes and of supposing that other people are doing the same thing, save him many an unpleasant discovery. Lucky for him that he has no eyes in the back of his head.

In all parts of the Continent it is the best or understanding. In several years the lowest classes in dead-end against John Bull and thereby convinced that he is a brutal robber and scoundrel. The press is very moderate in its anti-Englishism. A war with England over South Africa would be popular in France and would be tolerated in Germany. Hatred of England is stronger now in France than hatred of Germany. It will continue until some day or other England gives the French a good trouncing and they will be turned back upon Germany.

Before the war the Boers had no admirers in Holland; they were looked upon as an inferior race. But now it is different. The English in Holland and their conduct in the Boer war has changed the opinion of the Dutch people. They can see no good in him. Not even in France was there greater rejoicing when a year or more ago Tommy Atkins was putting his foot in some sort of a Hoer trap every time he made a movement.

Chamberlain, Mr. Weisman says, is a full version of the attempt to bribe him.

Seventeen-Year-Old Lad Falls From Fourth Storey Window and is Killed outright.

TRIED TO CLIMB ALONG WINDOW LEDGE

Performed Feat Successfully on Monday, But Warned Not to Do so Again.

Seventeen-year-old John Anderson of 39 Lindsay-avenue fell from a fourth-storey window to a board platform in the rear of the premises of Gowans, Kent & Co., 16 East Front-street, yesterday, at noon, and died instantly. Both arms, both legs and his back were broken by the fall, a distance of 40 feet. Coroner Greig investigated the circumstances surrounding the lad's death and decided that an inquest was unnecessary.

How It Happened. Anderson worked for Francis J. Greenway, 232 Markham-street, a China decorator, employed by the Gowans, Kent firm. He was on duty at the Gowans premises and sat on the window ledge to eat his lunch. Afterwards he tried to climb along the ledge from one window to another, and mistaking the "sill" backward to a wooden platform below.

Was Killed Outright. The lad was quickly picked up and expired within a few minutes. His father, Mrs. Goldman, had been notified and arrived at the scene. The body was taken to the morgue.

Members of the firm say the dead boy crawled to the window on Monday night at noon, and was then warned not to do it again. William Anderson, father of the lad, is employed by the Gutta Percha Company.

woman, and my name is Lena Larson, a Swede, and I am endeavoring to imitate the Swedish dialect.

Game Was Up. "All right, I speak British myself," said the police officer as he poured out a few questions in the Norse tongue.

Miss Goldman had been suffering from a misunderstanding. Detective Hertz meanwhile had been investigating and had discovered that the woman was in fact a Swede. "What does this mean?" shouted Captain Sorenson. "It means that the game is up," she said, and she fled. Her identity and whereabouts were ascertained by the police at the offices of Chief O'Neil.

Mayor Prefontaine Served With an Injunction to Restrain Him From Signing the Contract.

AN EXPOSURE IS NOW THREATENED

Alderman Who Was Tempted to Vote for Royal Company May Face Punishment.

Montreal, Sept. 10.—Hon. G. A. Nantel, formerly Commissioner of Public Works, Quebec, this morning served an injunction upon the city to prevent Mayor Prefontaine from signing the lighting contract of the city with the Royal Electric Company, on the ground that the contract is illegal.

The recent fight in the City Council over the granting of the city lighting contract, which culminated in the Royal Company getting it at \$60 per lamp for five years, gives promise of winding up with the disclosure of the methods which were used to secure the contract. In the early days of the fight, Ald. Chenevix publicly stated that he had been offered a bribe of \$3000 to vote for the Royal Company. He has now given notice that he will ask the City Council to appoint a committee to investigate the whole matter, and he states that he will at the same time give evidence in a full version of the attempt to bribe him.

TRUE BILL AGAINST WILSON.

Montreal, Sept. 10.—A true bill was returned here to-day by the Grand Jury, Bench 40th, T. Wilson, Joe Leblond and others.

How He Feels the Robins. A resident of Schenectady, N.Y., who is an amateur wine grower of no mean skill, has adopted a novel plan to prevent the robbers from making inroads among his grapes.

For several years the birds have been a source of great annoyance to this grower of grapes. He was obliged to get a watch upon his vines, particularly those of the certain semi-cultivated species upon which they are particularly fond of feeding.

The grower asserts that the birds will not prevent the grapes from ripening in the least. He says that they derive their sustenance from the leaves, and that in any event the sun never allows them to experience, for of the grapes examined on which birds have been shot all seemed to flourish without loss in size or color.

Quiet Game in a Lane. Policemen Sandell and Redford interrupted a crap game which was in progress at a private residence on King-street, and arrested four lads on a charge of gambling. They are George Williams, 28 West King-street; Joseph Williams, 34 Toronto-street; Ernest Colby, 130 McCaul-street; and Michael Brown, rear of 90 Bathurst-street.

Seventeen-Year-Old Lad Falls From Fourth Storey Window and is Killed outright.

TRIED TO CLIMB ALONG WINDOW LEDGE

Performed Feat Successfully on Monday, But Warned Not to Do so Again.

Seventeen-year-old John Anderson of 39 Lindsay-avenue fell from a fourth-storey window to a board platform in the rear of the premises of Gowans, Kent & Co., 16 East Front-street, yesterday, at noon, and died instantly. Both arms, both legs and his back were broken by the fall, a distance of 40 feet. Coroner Greig investigated the circumstances surrounding the lad's death and decided that an inquest was unnecessary.

How It Happened. Anderson worked for Francis J. Greenway, 232 Markham-street, a China decorator, employed by the Gowans, Kent firm. He was on duty at the Gowans premises and sat on the window ledge to eat his lunch. Afterwards he tried to climb along the ledge from one window to another, and mistaking the "sill" backward to a wooden platform below.

Was Killed Outright. The lad was quickly picked up and expired within a few minutes. His father, Mrs. Goldman, had been notified and arrived at the scene. The body was taken to the morgue.

Members of the firm say the dead boy crawled to the window on Monday night at noon, and was then warned not to do it again. William Anderson, father of the lad, is employed by the Gutta Percha Company.

woman, and my name is Lena Larson, a Swede, and I am endeavoring to imitate the Swedish dialect.

Game Was Up. "All right, I speak British myself," said the police officer as he poured out a few questions in the Norse tongue.

Miss Goldman had been suffering from a misunderstanding. Detective Hertz meanwhile had been investigating and had discovered that the woman was in fact a Swede. "What does this mean?" shouted Captain Sorenson. "It means that the game is up," she said, and she fled. Her identity and whereabouts were ascertained by the police at the offices of Chief O'Neil.

AN EXPOSURE IS NOW THREATENED

Alderman Who Was Tempted to Vote for Royal Company May Face Punishment.

Montreal, Sept. 10.—Hon. G. A. Nantel, formerly Commissioner of Public Works, Quebec, this morning served an injunction upon the city to prevent Mayor Prefontaine from signing the lighting contract of the city with the Royal Electric Company, on the ground that the contract is illegal.

The recent fight in the City Council over the granting of the city lighting contract, which culminated in the Royal Company getting it at \$60 per lamp for five years, gives promise of winding up with the disclosure of the methods which were used to secure the contract. In the early days of the fight, Ald. Chenevix publicly stated that he had been offered a bribe of \$3000 to vote for the Royal Company. He has now given notice that he will ask the City Council to appoint a committee to investigate the whole matter, and he states that he will at the same time give evidence in a full version of the attempt to bribe him.

How He Feels the Robins. A resident of Schenectady, N.Y., who is an amateur wine grower of no mean skill, has adopted a novel plan to prevent the robbers from making inroads among his grapes.

For several years the birds have been a source of great annoyance to this grower of grapes. He was obliged to get a watch upon his vines, particularly those of the certain semi-cultivated species upon which they are particularly fond of feeding.

The grower asserts that the birds will not prevent the grapes from ripening in the least. He says that they derive their sustenance from the leaves, and that in any event the sun never allows them to experience, for of the grapes examined on which birds have been shot all seemed to flourish without loss in size or color.

They are George Williams, 28 West King-street; Joseph Williams, 34 Toronto-street; Ernest Colby, 130 McCaul-street; and Michael Brown, rear of 90 Bathurst-street.

NO STOPPAGE TO BUSINESS

President McKinley Will be Signing Papers By Saturday Night.

LEGISLATION AGAINST ANARCHISTS

People of the United States Must Protect Themselves Against These Ruffians.

Buffalo, Sept. 10.—"The President will be signing official papers by Saturday night," said Secretary Wilson of the Department of Agriculture last night. Secretary Wilson had just returned from the Milburn house, where he talked with the President's physicians, and, later, at the Buffalo Club, he conferred with Secretary Gage, Attorney-General Knox and Postmaster-General Smith.

"Of course," said Mr. Wilson, "no one expects that the President will be out of bed by that time, but he will be strong enough to write his name to official papers. The doctors do not feel like coming out bluntly as a layman would, but they feel there is no doubt about the President's speedy recovery. They do not expect any serious complications."

"Will the President's disability embarrass the government?" Mr. Wilson was asked. "Not in the slightest," said the Secretary. "Why, there's nothing important to be done by the war complications are mostly over with, and Secretary Gage's department is looking after everything. Secretary Wilson is a light grip on everything in his department. By the way, I want to remark right here that I believe John Chiné, one handiwork Mr. Hay labors under is last, no matter how much he is criticized, is there any alderman than Secretary Gage, in fact, leaving out myself, all of the President's Cabinet are specialists in the supposed to know something about things that grow," said Mr. Wilson, with a smile.

"Is there any good reason for apprehension in commercial circles on account of the President's condition?" Mr. Wilson was asked. "Not now," said the Secretary Gage, who returned to Washington tonight, has so much gold that he does not know what to do with it. No, the business world ought to feel perfectly comfortable with the official opinion of the President's doctors."

"Have the members of the Cabinet discussed any measures for Anarchists?" Mr. Wilson was asked. "It has been touched on informally in conversation," said Mr. Wilson. "It is more properly a State than a national matter. Congress can do only so far. I think there is some legislation in the States having a considerable foreign born population. The trouble with Anarchists is that they are not only in our midst, but they are in Europe they are hunted about. Generations of oppression and class distinction have bred in them discontent and envy. They come here and at once begin a propaganda against officials who are working all the while for their amelioration. The people of the United States certainly ought to protect themselves against ruffians of this description."

"How long will the Cabinet members stay in Buffalo?" Mr. Wilson was asked. "Until the President gets about again. There's nothing for us to do, but we shall stay just the same, so that the President may feel that we are with him."

"Would the death of the President cause a general strike in this country?" Mr. Wilson was asked. "An afraid it might be very serious from every point of view," said the Secretary. "There is only one McKinley. The people know what to expect from him. They are not used to a different proposition. I have every confidence in the honor and conservatism of the gentleman who succeeded the President. He has made an excellent Governor of this State. But there is only one McKinley."
