Halifax Asylum for the Blind.

For the founding of this institution a debt of gratitude is due by the people of this Province to the late William Murdoch, Esq., who died in London in 1867, having a few years previously taken up his residence there, after a long, useful and successful life as a merchant of this city. In his Will he bequeathed, in addition to various other charities, the munificent sum of £5,000 N. S. Cy., towards the endowment of an Asylum for the Blind, on condition that a suitable building would be secured at a cost of not less than £3,000. An amount was raised by subscription shortly after his decease, sufficient for this purpose, and an eligible site having been procured gratuitously from the City on the South Common, arrangements were at once made, and a suitable brick building was erected, capable of accommodating about 40 pupils.

As a Report of the Directors, lately submitted to the Annual Meeting, is annexed, it is unnecessary to make further remarks than to express the hope that the blessing of God may attend this Institution, and that it may do all the good that the benevolent founder had in view in his kindly endeavors to increase the happiness and usefulness of this hitherto neglected class of our fellow beings in this Province.

Whereas it has been proposed that an institution for the reception, maintenance and education of blind persons, should be established in the City of Halifax, and it is desirable that such institution should be founded and carried on by individual enterprise and voluntary association.

Be it enacted by the Governor, Council and Assembly, as follows:

1. When it shall be made to appear to the satisfaction of the Governor in Council that not less than twelve persons have associated themselves for the above object, and have subscribed the sum of twelve thousand dollars, and paid thereon into the hands of the Treasurer, by them appointed, the sum of two thousand dollars, the Governor in Council shall, by proclamation, declare this Act to have come into operation, and thereupon immediately thereafter, such persons, and all such other persons as shall from time to time become associated with them, their successors and assigns, shall be and are hereby incorporated into a company and declared to be a body corporate by the name of the "Halifax Asylum for the Blind," and by that name shall and may have succession and be capable of suing and being sued, pleading and being impleaded, defending and being defended in all courts and places whatsoever, in all manner of actions, suits, matters, complaints, and causes whatsoever, and may have and use a common seal, and may change and alter the same at their pleasure, and shall be capable in law of purchasing, holding and conveying any real and personal estate for the purposes of this incorporation and none other, which shall not exceed the annual value of ten thousand dollars.

2. For the better carrying into effect the objects of the said incorporation, there shall annually be elected twelve persons, who shall constitute a Board of Managers and have power to conduct and manage all its concerns, the Managers to be elected by ballot at an annual meeting of the members of the society, to hold their office for one year, or until others

be elected in their places : the said election to be held at such times and places as the said corporation shall by their by-laws, from time to time appoint and direct; the aforesaid managers shall be elected by a majority of the members present at such election; and in case of any vacancy or vacancies in the said Board of Managers, by death, resignation or otherwise, then the said Board shall have power to fill such vacancy or vacancies until the next annual election.

3. The Board of Managers shall, as soon after the annual election as shall be convenient, proceed to elect by ballot, from among their own number, a President, a Vice-President, a Treasurer, and two Secretaries, who shall serve for one year, or until others are elected in their room; and the first election of Managers and Officers shall take place on a day to be fixed by the Governor in Council in the proclamation aforesaid.

4. The Board of Managers, so elected as aforesaid, shall have full power to make such bye-laws as from time to time may be necessary, relative to the management, disposition of the estate and concerns of the said corporation, and regulation of the persons exercising the offices aforesaid, not contrary to law, and may appoint such other agents and servants as may be deemed necessary to transact the business of the said corporation and designate their duties.

5. It shall be lawful for the City of Halifax to transfer by deed, duly executed, to the "Halifax Asylum for the Blind," and either by way of gift or for valuable consideration, any land or hereditaments now vested in the said City of Halifax, either by act of this Province or by purchase, so that the value of such land and hereditaments shall not exceed in the whole the sum of twelve thousand dollars.

6. The managers of the said institution shall, on or before the first day of February in each year, make a full report to the Governor in Council of their proceedings.

The Fourth Report of the Managers of the Halifax Asylum for the Blind—1874.

The Managers of the "HALIFAX ASYLUM FOR THE BLIND," in submitting to its friends and subscribers their Fourth Annual Report have much pleasure in announcing that the condition and progress of the Institution still continues satisfactory, and they are gratified to find that more interest is taken in it by the public generally as it becomes better known. They attribute this to the examination which took place at Argyle Hall last Spring, and from the system of having every Wednesday afternoon a reception for visitors to the Institution, when the pupils can be seen at their studies and various occupations, in both of which a marked improvement has taken place each successive year.

As the Superintendent's report annexed will touch upon those matters more immediately under his charge, the Managers will merely state that in addition to the work of Cane Seating Chairs, Broom making, Wool and Bead Work at which most of the pupils are expert, a commencement has been made the past year in tuning Pianos, which it is found in similar institution in the United States, gives profitable employment to those who have a good ear for music. *Four* have taken to this, with a view of making their living chiefly by it, and the probability is, that in a city and Province like ours, where there are so many instruments that continually require tuning, and so very few competent to do it, it will ensure a safe one.

There have been manufactured the past year 95 dozen of Brooms, and seated 157 Cane Chairs, there has been a falling off in the latter, as the manufacturers who gave the work of seating *new* chairs, have given it up for the present, and as many *old* ones have not been procurable, as would have kept the pupils in work.

The Managers request that those who have such probably encumbering their garrets, will send them to the Institution, or leave their direction, where to send for them with Messrs. Baxter Bros., No. 11 Prince Street, opposite the Building of the Young Mens' Christian Association, and which at the small cost of from 50 to 60 cents per chair, will benefit both, giving employment and means to support a deserving class, and themselves a chair, perhaps equal to new, at one third the cost.

During the summer holidays, the Teachers with commendable zeal, and with a view of making the Institution better known throughout this and the neighboring Provinces, took a tour accompanied by six of the pupils, visiting the chief cities, and giving concerts and exhibitions of their studies and work. In every place they were received most kindly, and doubtless surprised and interested all, in showing what the Blind are capable of, and how readily they can be taught to earn their own living, instead of being, as formerly in this Province—helpless, and objects of pity to their parents and friends.

Promises were made in various quarters that those capable of instruction within the ages of 8 to 18, would be looked up, and sent to the Institution, where the Managers are willing to receive them on most moderate terms, and with the assurance to their friends that they will be as kindly looked after as they could be at home. Think well of it, parents who have blind children, and consider what benefit and happiness you can confer upon them, giving them the opportunity of becoming useful and intelligent. An enquiry of those parents who *have* tried it, will convince you of the incalculable advantage that a few years residence in this institution will be to them.

One additional pupil each from New Brunswick and P. E. Island have been admitted since the summer holidays. More were expected, and it is to be hoped will yet come as this is our principle want; two have left, having received all the instruction needed. One, who was in the Institution less than two years, (David Baird,) proved himself a good mechanic, and has returned to his home in Colchester County as well able to earn his living as any other man in it, if aided as he doubtless will be, by a sympathising community, in getting orders for his work. He took with him a Broom Machine, which he chiefly purchased by his own industry while here, and is able to turn out as many, and of as good quality, as any seeing man, this, with cane seating chairs, must give him a good living, which he well deserves. Another belonging to this city, who had about the same instruction, was equally benefitted, and can speak of the great advantage obtained.

It continues to be a source of much pleasure and satisfaction to the Managers, that all connected with it have conducted themselves in the most praiseworthy manner; both teachers and pupils have given every attention to their duties and studies and the most kindly feeling continues to prevail.

In a pecuniary point the past year has been quite satisfactory. The efficient and worthy Superintendent, Mr. C. F. Fraser, obtained from friends, when on his tour, in donations and proceeds of Concerts, the respectable sum of \$442, after paying all expenses of board, &c., to swell the credit side of the account, all of which was invested in what was most needed—a new piano and organ, the old piano being required for the purpose of instruction in tuning.

The Treasurer's account, duly audited, shows the receipts to have been this year \$4,319.91, and expenditure, \$4,293.79 Balance on hand \$704.89, part of which will be required to pay accounts, that will be coming in after the close of the year.

The health of the Institution has been good. Thanks are due to Dr. Dodge, Physician; and Dr. Cogswell, Dentist, for kindly services, rendered cheerfully on all occasions when needed. To the Railway authorities, in this and other Provinces, Messrs. Fishwick; Small & Hathaway; Lunt & Sons'; and P. E. Island Steamship Company, for free passages during their tour, and to all their friends who so kindly aided in arranging for places of meeting, and in their contributions—a list of which, together with what was received here throughout the year, will be found at the end of this report.

All of which is respectfully submitted.

JAS. F. AVERY, *President.*

Superintendent's Report.

To the President and Board of Managers of the "HALIFAX INSTITUTION FOR THE BLIND."

GENTLEMEN,—I have much pleasure in submitting for your consideration the following Report and trust that it may meet with your approval.

SCHOOL DEPARTMENT.

The pupils have made satisfactory progress in the various branches taught in this department. Through the liberality of the Legislative of Nova Scotia the school has been supplied with books, cyphering boards and other needful apparatus, and the Institution is now in a position to give our blind youth a thorough English education.

MUSICAL DEPARTMENT.

Music is a study in which the pupils take special pleasure. They earnestly seek for a knowledge of the Art, and steadily labour to accomplish their desire, feeling confident that in time their efforts will be crowned with success, and that they, like their fellow blind in the neighboring Republic, will be prepared to take their places in the world as thorough teachers of the Pianoforte, Organ, &c. Instruction in music is given to those pupils whose talents warrant the belief that they will ultimately succeed. A fine cabinet pipe Organ and Piano have been purchased during the last year.

TUNING DEPARTMENT.

The tuning of Pianos, offers to the energetic blind a comparatively lucrative business. This being known it was thought advisable to give the pupils an opportunity of acquiring knowledge in this branch. A class of four young men was formed and have been receiving instruction for the past six months. Their progress is highly satisfactory.

BOYS' MANUFACTURING DEPARTMENT.

The manufacture of brooms was commenced at the close of last year, under the direction of Mr. Wright, and the brooms made have given entire satisfaction. The cane seating of chairs has been carried on successfully and forms a large part of the work done by the pupils.

GIRLS' WORK DEPARTMENT.

The girls receive instruction in Knitting, Crochet, and Bead Work. They are also taught the use of the Sewing Machine.

We have adopted a system of marking similar to that used in some of our Public Schools and a record is kept of the standing of the pupils in their various studies. The highest number attainable is 10, and first class certificates are given to those whose average is above 9.

At the close of the school year in June, prizes were awarded to those who had obtained the best average for the term.

GIRLS WORK DEPARTMENT.

Elizabeth Smith, Halifax.

The average attendance during the year has been 13. Three pupils have left the school; one of them, a young man, intends establishing a Broom Factory in the vicinity of Truro. We have received two new pupils this term, a young man from New Brunswick; and a little girl from P. E. Island.

I trust that the Legislature of each of these Provinces will in its next session, make provision for the education of the blind, and unite with Nova Scotia in supporting one efficient Institution, for the Maritime Provinces. During the summer I visited, accompanied by Miss Ross, six of the Pupils, and Mr. Dilworth, our Steward, 27 of the cities and towns of the Lower Provinces in each of which we gave a concert and a short school exhibition. Through these the Institution has become better known, and its object (viz. that of making the pupils self-reliant men and women), better understood.

The trip was a pecuniary success, and thanks are due to the many friends whose assistance aided in making it such.

There are still many blind children in our own Province who ought to be receiving an education, and I would urge on the parents of these the necessity of sending their children to the Institution, while they are still young, so that they may be fitted to become useful members of Society.

All of which is respectfully submitted.

C. F. FRASER,
Superintendent
