STR. HUNGARIAN OVERDUE LLOYDS TAKE MORE HOPEFUL VIEW MAY BE WITH MT. ROYAL

But There is Still no Word of the Missing Liner—Warships May Be Sent in Search.

LONDON, Jan. 3.—The non-arrival of the Allan Line steamship Hungarian, which sailed from Greenock, Scotland, Dec. 14, and now a week overdue, at Portland, Maine, leads shipping agencies to believe that she has fallen in with the Canadian Pacific liner Mount Royal, which left Antwerp, Dec. 7, and is now long overdue at St. John, N.B.

The course of the Hungarian would naturally cross that of the Mount Royal, and underwriters would not be surprised to hear that the Mount Royal is being towed by the Hungarian.

Acting upon this view of the fate of the Mount Royal, the insurance rate on that vessel has been reduced to 20 guineas from the 25 guineas per cent., which ruled on Thursday.

NO WORD YET OF MT. ROYAL

C.P.R. Officials Disposed to Give Up Hope—Lloyds Takes Even Chance.

LONDON, Jan. 3.—(C.A.P. Cable.)—There is no news of the Mount Royal on which insurance at 25 guineas was placed at Lloyds.

Disposed to Give Up.

ST. JOHN, N.B., Jan. 3.—(Special.)—C.P.R. officials were disposed to-day to give up hope that the Mount Royal will ever reach port. There are no first or second-class passengers on the list, but 234 immigrants, mostly Hungarians.

An Even Chance.

MONTREAL, Jan. 3.—The missing steamship Mount Royal is a steel hull, built in 1888 by Swan & Hunter, and is rated 100 ft at Lloyds. She is 470 feet long, 25 feet beam, 23 feet deep, gross tonnage 7684, net register, tons 4599.

What the underwriters think of it is shown by the fact that the Lloyds quotation to-day is not known, but it is some way between 25 and 50 guineas. The latter figure means even chances that she will not turn up.

Warship May Search.

HALIFAX, N.S., Jan. 3.—(Special.)—It is now believed that the Canadian navy will send a warship to make a search for the missing vessel.

GALT IS IN LINE FOR CHEAPER POWER

Everybody in Meeting Stood Up But One—Ring is Fighting a Losing Battle.

GALT, Jan. 3.—(Special.)—Everybody stood up at the close of the big meeting in the town hall here to-night except Hugh Cant to signify their support of the power bylaw next Monday.

Hon. Adam Beck received a vote of thanks carried with cheers for his speech on the question. Other addresses were made by Robert MacGregor, Ald. Oliver, J. H. Fryer, Robt. Scott and Doctor Hawk. The meeting was under the auspices of the board of trade, and president Jarvis took the chair.

The meeting demonstrated that the people are earnestly in favor of the power policy. The only opposition, as in Toronto, is a paid opposition, and the Galt Reformer has lent its columns for the reproduction of the same misrepresentations with which the people of Toronto were recently made familiar. The Reformer to-day heads a front page article, "Kill Niagara Power Bylaw. Will You Vote Blindly to Burden Galt With the Debt Which Will Kill the City?"

The finest opportunity was given to ask questions, and the other remarks are of the usual nature of the electric combine.

The New York Commission.

Hon. Mr. Beck produced the New York Electric and Gas Co. plan, and modeled on the Ontario hydro-electric commission act, "authorizing and directing the Ontario power supply commission to devise plans for the progressive development of the water powers of the state for public use under state ownership and control."

He pointed out that New York had coal upon which no duty of 88 cents a ton has been levied in Ontario, and yet cheap power was deemed an essential to the welfare of the people. It was solely in the interests of the people and not of the electric power companies that the power policy was designed.

Mr. MacGregor of the MacGregor-Gourlay Co. supported the bylaw unhesitatingly. He figured the saving on street lighting and water service to the city would be \$100,000 a year, and the \$60,000 debentures, while the saving on private lighting would be another \$100,000, at least on present consumption. The local power development is about twelve hundred horsepower, and has no surplus power for export to other municipalities.

Mr. MacGregor's figures were not to be questioned. There is some opposition from the local company to the bylaw, but the bitter hostility emanates from more powerful sources, and cannot be dissociated from the Toronto and Niagara river.

Reformers' Attitude.

The lack of public spirit and patriotism on the part of the Reformer here is commented upon, and its antagonism to the power bylaw is pointed out. The Reformer gravely assures them, the cheap power and light will reduce their taxation.

MAGISTRATE REFUSED BAIL FOR JAPANESE

Fourth Arrest Made in Connection With Recent Rioting—Rioting is Denied.

VANCOUVER, Jan. 3.—In the police court to-day the police magistrate flatly refused bail for the Japanese prisoners charged with the attempted murder of three city firemen. A fourth arrest has been made, but the evidence against him has not been disclosed. There is no sign of rioting at Vancouver.

The Trades and Labor Council representatives declared in a meeting that Japanese houses are arsenals, and that if they arm themselves the whites should do likewise. He received hearty endorsement, and a committee of three was appointed to investigate the situation.

Prominent Japs are giving assistance in locating the perpetrators of the outrage, but it will be difficult to get other than circumstantial evidence.

The influx of Japs from Honolulu is increasing rather than abating. Inside information received here says a small steamer is chartered to leave Honolulu next week, with a hundred and fifty Japs for Vancouver. The Canadian-Australia liners have steered months by Japs in Honolulu—fifty to each ship. Charters are now being arranged for at least two more vessels to bring big loads.

Now Thirty-Five Bulgarians Feel That They Have Been Robbed.

Charged with theft of \$15 from Inco Cuiet, an ignorant Bulgarian laborer, living on Trinity-street, Jas. Brown, 175 Eastern-avenue, a Macedonian, and Paniot Agoff, 37 Eastern-avenue, a Bulgarian shoemaker, were arrested yesterday.

The transaction out of which the charge arises involves like sums said to have been secured from 34 Bulgarians under promise of work upon a Californian railroad.

Brown was introduced by Agoff to his fellow-countrymen and when the former had collected the cash amounting to \$510, he promised to meet them at New Year's meeting at the Union Station and send them on their way. They were met by Brown, who asked them to carry yet another day, but when they came again he was not to be found. Later, he was pointed out to P. C. Henshaw (187), who took him in. Later Detective Nat Guthrie gathered Brown admits the deal to a certain point, but declares that he spent \$500 on railway tickets to Chicago. He is, however, clear as to the location of these.

Climax of Differences With the Crown Attorney.

ST. CATHARINES, Jan. 3.—(Special.)—After an all-day session of the police court, in which many witnesses, both for the prosecution and defence, were examined, William Crawford was found guilty of doing actual bodily injury to Fred Wilson in an assault made upon him in a row at the St. Catharines House on Christmas Eve, and was fined \$10 and costs by Justice Magistrate Comfort.

Mr. Brennan entered the court to find the case proceeding, no intimation having been given him that his presence was desired. He found M. J. McCann prosecuting the case.

DELEGATES TO OLD ST. PAUL'S

Representatives of Toronto Diocese at Pan-Canadian Conference in London.

Yesterday afternoon at a special meeting of the committee appointed by the synod last June to take charge of the work of collecting the contribution of the diocese of Toronto to the world-wide united thank offering, which will be presented on June 24 next in St. Paul's on the part of all the dioceses of the Anglican and American churches throughout the world, Rev. Pierre de Lom, the organizing agent for this diocese, reported that he had preached sermons during the last few months on this subject in 22 churches; besides visiting a number of other parishes. The people everywhere were deeply interested in this important event, and several thousand special thank offering envelopes have been distributed.

A sub-committee was appointed to arrange for suitable assistance being given to Rev. Mr. de Lom in his work of bringing the matter properly before all the congregations in the diocese, and his grace the archbishop will be asked to call at an early date a general meeting of the church in all parishes.

Each diocese through the world possesses the privilege of sending six delegates to the pan-Canadian congress, and the following delegates were sent to the diocese of Toronto to represent the diocese: His Grace Archbishop Sweetman, Rev. Provost Mackenzie of Trinity College, Rev. Canon Tucker, LL.D., Dr. N. W. Hoyle, K.C., and Miss Tilley, president of the Women's Auxiliary. The sixth delegate who will represent the St. Andrew's Brotherhood, will be selected next week, and it is highly probable that the honor will fall to N. Farrar Davidson. The special committee will also arrange for the formation of classes to be organized for the purpose of studying the many important subjects which will be brought before the pan-Canadian congress.

HUSBAND MAY BE MURDERER

Sensational Developments in New Jersey Tragedy—Suspicious Facts.

NEWARK, N.J., Jan. 3.—After a half dozen supposed identifications had been disproved the police were satisfied to-night that the woman murdered on the flats that border the Passaic River in Harrison was Helena Schmitt, who, with her husband, conducted a furnished room house at 285 Adams-street, Brooklyn.

The identification was made by the woman's sister, Mrs. Susan Schmitt of the Bronx, and corroborated by Mrs. Schmitt's husband, Martin; Frank Engert, a friend, and finally by the murdered woman's husband.

Whitmore has been detained by the police, and a summons was issued to-night for Engert. The latter, who admitted an intimate acquaintance with Mrs. Whitmore, was able to go into Mrs. Whitmore's home in his identification that the authorities believe he will prove a valuable witness.

Mrs. Schmitt also furnished the police with what is believed to be most important information. She told of a series of letters and telegrams received by herself and the sister in connection with the case, and which Mrs. Whitmore, but some of which must have been written after her death. A trunk belonging to Mrs. Whitmore had also been sent mysteriously to her home, Mrs. Schmitt said.

Mrs. Whitmore left her home on Christmas Day, with the intention according to her sister, Mrs. Essie Hughes, whose home is at 315 Victor-avenue, Schenectady. At 2 o'clock the next morning she was seen in the company of a man on the Hackensack Meadows. That afternoon her nude body was found nearly submerged in a pool of water near where she had been seen. The next day Mrs. Whitmore's trunk was delivered at her sister's home in the Bronx.

TROLLEY CAR WRECKED BY FREIGHT AT OTTAWA

Laborer Instantly Killed and Five Others Injured, One of Whom May Die.

OTTAWA, Jan. 3.—At 1:40 to-day a C.P.R. freight train backed into a street car at a crossing near St. Patrick's-street bridge. The street car was smashed and carried in pieces 100 yards down the track.

The roof was completely torn off, the truck left a shapeless mass, and the body left at end up where the freight car stopped. Passengers on the street car had a most miraculous escape, but a laborer who was digging at the side of the track, August Waunk, was instantly killed.

The motorman, Armand Flegan, and the conductor, Emery Souliere, were injured, and some of the passengers had bones broken; Mrs. George Kritch, had mother-in-law, was injured internally, and George McBain was also hurt. None of them are expected to succumb.

The first intimation the conductor had of the affair was the terrific crash when the freight car struck them, and he jumped. The train, it is said, did not whistle, but the street regulars say that the employees must look both ways ere crossing railway tracks.

Hector Mason, 427 Dufferin-street, a steamfitter, is charged with breaking into a boathouse owned by Almer Strapp, at the foot of Sherbourne-street. He was arrested by Detective McKinney. A quantity of property from the Shappell place was found in Mason's boathouse.

CONDITIONS IN CANADA.

Dr. Shadwell Refers to Some Fortunate Combinations.

LONDON, Jan. 3.—(C.A.P. Cable.)—The Times publishes a second article by Dr. Shadwell on industrial conditions in Canada. Dr. Shadwell refers to the fortunate combination of race and environment which made Canadian captains of industry so effective. The theory of Scotch caution developing itself in an exhilarating atmosphere is the irrefragable analysis of qualities most useful in settlers, and explains the "No English need apply" notice by pointing out the large number of Englishmen who emigrate of the shiftless, unemployable class. The Times editorially concludes the place for a man keen for a chance to raise himself in the world is Canada.

DELEGATES TO OLD ST. PAUL'S

Representatives of Toronto Diocese at Pan-Canadian Conference in London.

Yesterday afternoon at a special meeting of the committee appointed by the synod last June to take charge of the work of collecting the contribution of the diocese of Toronto to the world-wide united thank offering, which will be presented on June 24 next in St. Paul's on the part of all the dioceses of the Anglican and American churches throughout the world, Rev. Pierre de Lom, the organizing agent for this diocese, reported that he had preached sermons during the last few months on this subject in 22 churches; besides visiting a number of other parishes. The people everywhere were deeply interested in this important event, and several thousand special thank offering envelopes have been distributed.

A sub-committee was appointed to arrange for suitable assistance being given to Rev. Mr. de Lom in his work of bringing the matter properly before all the congregations in the diocese, and his grace the archbishop will be asked to call at an early date a general meeting of the church in all parishes.

Each diocese through the world possesses the privilege of sending six delegates to the pan-Canadian congress, and the following delegates were sent to the diocese of Toronto to represent the diocese: His Grace Archbishop Sweetman, Rev. Provost Mackenzie of Trinity College, Rev. Canon Tucker, LL.D., Dr. N. W. Hoyle, K.C., and Miss Tilley, president of the Women's Auxiliary. The sixth delegate who will represent the St. Andrew's Brotherhood, will be selected next week, and it is highly probable that the honor will fall to N. Farrar Davidson. The special committee will also arrange for the formation of classes to be organized for the purpose of studying the many important subjects which will be brought before the pan-Canadian congress.

It was further announced that the number of delegates from Australia, who will probably come via Canada, from the province and from the United States, will be so large that it will be found advisable to charter one or more steamers for their conveyance to England. FATAL WRECK ON C. P. R. NEAR CHAPLEAU

One Woman Passenger Killed and Number of Ontario People on List of those Injured.

NORTH BAY, Jan. 3.—(Special.)—The Imperial Limited express, east-bound, was wrecked at 1:10 this morning 35 miles west of Chapleau by a broken rail. The train was running on time at a good rate of speed when the passengers were suddenly startled by a grinding noise, followed by a loud crash as the cars turned over and plunged down an embankment into a creek. A colonist, second-class and first-class cars were derailed, the Pullmans remaining on the rails.

Fortunately the acetylene gas was extinguished by the shock, which explains the low casualty list. The passengers in the forward coaches were penned in and the work of extracting them by trainmen and fellow-passengers was speedily begun.

The victims are:
Dead—Mrs. H. Sloan of Fielding, Sask.
Injured—Alex. Ross, Dundurn, Saskatchewan, Sask., lost right hand; Reynolds, head; James Livingstone, Dundurn, Ont., shoulder bruised; Louis Hartie, Deloraine, Man., head cut; F. E. Perkins, Port Arthur, head cut; Peter McKean, Black, cut on head; David Lindsay, London, Ont., cut on head; Edward McLean of Paynton, Sask., head and hand cut; Daniel McDougall of St. Almon, Ont., cut on head; Robert Matthews of Moosejaw, back injured; A. Gilchrist of Glenora, scalp wound. In addition to these, two employees of the C.P.R., namely James Hale and James Stanley of Chapleau, were injured.

The worst horror of the wreck was the finding of the woman who had been crushed to death, her arms and head protruding from the broken car, and her body swaying in the water from the creek, which covered the floor of the car for several feet. It was impossible to release the body until 70 hours, after death must have been instantaneous. The unfortunate woman was Mrs. Ben Sloan of Fielding, Sask., who had been injured in a car in Lindsay. Before the wreck she talked of the surprise she would give her sister, who did not know she was in the car. A husband and 18 children survive.

James Stanley, C.P.R. engineer, who was on his way to Schreiber as a passenger, was badly injured about the head, besides internal injuries. One arm was broken and an eye seriously injured.

Miss Alice Smith of Durham, returning from a visit to Brandon, described the wreck to your correspondent.

"The car was hot and I stepped into the vestibule to get a breath of fresh air. While there, Mrs. Sloan came out, smiled and held her hand to her head, and I saw her fall. She plunged down into an eternity of space seemingly. My feet were tightly wedged and I saw her head in with debris, and I felt her body was being crushed. After a while a brakeman peered down thru a hole in the roof and saw my predicament with the light of his lantern. Help was summoned and release came. My feet and limbs were nearly frozen from the creek water, which was gradually creeping up as the car slowly sank

PHOEBE SCHOOL OLD BOYS.

First Annual Banquet Proves a Decided Success.

Over a hundred old boys attended the first annual dinner of the Phoebe-st. School Old Boys' Association, held in the banquet hall at the Temple Building last night.

The toast list included a number of prominent speakers, among whom were two ex-principals of the school, Levi J. Clark and Alexander McMillan.

In a few words S. W. Burns proposed the toast to "Canada" which was responded to by Edmund Bristol, M.P.

He was glad to feel as a Canadian that it was no longer necessary to advertise the industries and wealth of this country.

William A. Bell toasted the "Principals of the School." Levi J. Clark, Alex. McMillan and Jos. L. Leary gave reminiscent and congratulatory addresses.

Joseph T. Lindsay and Jas. H. Hubbard and Henry Simpson spoke as old boys.

The musical program was provided by James McLaughlin, W. J. McBretney, G. Hunter, F. Ryan, Harvey Floyd and Frank Clegg.

Among those present were: George E. Beaton, H. E. Clarke, Geo. E. Trimble, Bert McGill, Len E. Williams, Jas. H. Hubbard (Eng.), Rev. Mr. Fitzgibbon, John Deary, Fred Smith, Charles Overy, Harry Simpson, E. Bristol, M.P., J. Melbourne Elson.

ROGERS NEXT POSTMASTER.

Services to His Party Will Be Duly Rewarded.

W. E. Rogers, secretary-treasurer of Charles Rogers & Son, Ltd., furniture manufacturers, will be the next postmaster of Toronto.

The other names before the committee were those of former Mayor Thos. Urquhart and Dr. J. N. L. Leary.

Mr. Rogers is regarded as having made numerous sacrifices for his party. He was twice unsuccessful candidate in South Toronto.

Disposes Six Hundred.

NEW YORK, Jan. 3.—Six hundred notices of dispossession proceedings were obtained from the municipal courts to-day by the east side landlords as a retaliatory move against the tenants who decline to pay their rent until their demands for a reduction in rent has been allowed.

Headaches Prevention and Cure.

Probably no one knows the torture of headache better than A. J. MacLean, of the N. C. College, Charlottetown, P. E. I., who says: "A result of overwork manifested itself in the form of recurring headaches. They were so severe sometimes as to make me incapable of any serious study for days at a time. But since my discovery of 'Nervine,' headaches are a thing of the past. A few drops taken internally are effective and when rubbed into the forehead and scalp, soon effect a complete cure." He heartily recommends 'Nervine.'

HAMILTON CAMPAIGN FOR CHEAPER POWER

Worst Calamity That Could Befall Ontario Would Be Indifferent Public Opinion.

HAMILTON, Jan. 3.—(Special).—A public meeting in the interests of cheap power campaign was held in Association Hall to-night, and was addressed by W. F. Maclean, M.P., and P. W. Ellis, Niagara Falls Park Commissioner.

Mayor Stewart presided. Mr. Ellis made a strong appeal for support for the bylaw on Monday next, remarking that the worst calamity that could befall Ontario would be an indifferent public opinion on the question of Niagara power.

Mr. Maclean, the first speaker, believed the bylaw would be carried on Monday next wherever the people were voting on it. The issue at this time was the difference between the principle of public ownership and the principle of private ownership and over-capitalization.

Where there was public ownership the idea was to give the best service to the public, while under private ownership the only idea was profit for the shareholders.

Public ownership meant equality of treatment, while under private ownership the great storehouse of electrical energy at Niagara Falls should not be controlled by monopolists.

Mayor Stewart said the council had done its duty in trying to place Hamilton in a favorable position with regard to Niagara power.

EAST TORONTO.

Campaign, The Quiet One, is Being Fought Out With Energy.

EAST TORONTO, Jan. 3.—The mass meeting held to inaugurate the local option movement in the Y.M.C.A. Hall to-night was of such a nature as to fill the building with the greatest interest.

The chair was occupied by Wm. Costigan, who perhaps the most eloquent of the speakers was the Rev. Mr. Ranton and A. R. Haessard of Toronto.

The former dealt especially with the success of the movement as applied to Owen Sound, and proved conclusively to the friends of the option plan that at least that it had been an outstanding success in that city.

He made a strong appeal, as did A. R. Haessard, for the passage of the bylaw in East Toronto at the coming municipal election in that city.

EATING AND LIVING AND HEART DISEASE

"See" That You Get It

The increased circulation of The Toronto Sunday World for the past year indicates conclusively that the people of Toronto and the Province of Ontario appreciate the efforts of the publishers in providing them with an illustrated publication that reflects credit on the Canadian enterprise that promoted the production of an illustrated paper that deals with things Canadian.

This week's number will, if anything, be brighter and more entertaining than any of its predecessors.

The four views, making up a handsome frontpiece, are indicative of the broad sympathy and charity-giving propensities of the Canadian people.

A view of the Little Trinity Church, with its sacrificing pastor, Canon Dixon, forms one of the group. A view of the Christmas tree in the Sick Children's Hospital, Toronto, with a group of the happy and pleased little patients, forms another.

The unselfish devotion of the members of the Salvation Army in looking after the poor and fallen is typically depicted in the third view.

A picture that will appeal to everyone is a magnificent flashlight photograph of the dinner given on Christmas last to the City Newsboys in the large banqueting room of the I. O. F. Temple, where about 500 newsboys of all races and creeds were sumptuously regaled with all the good things that appeal to a sturdy, pushing lad, thru the efforts of the Rev. J. M. Wilkinson, assisted by the generosity of the premier, the Hon. J. P. Whitney, Mr. Noel Marshall, Mr. Peter Ryan and other citizens.

Toronto, Hamilton, Aylmer and other centres will look forward with pleasure to the representative baby pictures which appear in this issue.

Portrait views of prominent people will appear, including one in which all Canadians will be interested, and the residents of Hamilton in particular, viz., that of the late John Robson Cameron.

Views of Xmas festivities, a fine group picture of the winning rink of the Alexandra Lawn Bowling Club, and a remarkable picture of the St. Andrew's Baseball Club, Champions West End and Interassociation Senior League, adorn this issue. In addition, there are many other views too numerous to mention.

The popular Funny Page, which every child will look forward to, and which is of equal interest to their elders, will be resumed in this week's issue of The Sunday World. Johnny and the Teddy Bear will be welcomed by the juveniles everywhere.

The School for Housewives, by Marion Harland, a page of interesting hints on household affairs, profusely illustrated with views, is a feature that will interest the careful housewife.

The Sunday World, while providing for the literary and pictorial appetite, still retains its essential feature as a newspaper, and all the happenings of Saturday afternoon and evening, including the results of all sporting events, complete turf results, will be found in its columns.

This week's issue will be for sale by all newsdealers, newsboys, and on all railway trains, at 5c per copy.

If you cannot buy The Sunday World in any town outside of Toronto, kindly drop a card to the publishers and a sample copy will be sent you.

Newsboys and News Agents are wanted in all unoccupied territory. Write to the Circulation Department, The World, Toronto, for particulars.

SOUND PUBLIC OPINION.

It is many a day since Toronto had so fine an experience of good citizenship as has happened to it within the last few weeks.

In connection with the power campaign, the heart of the people is sound. Notwithstanding all that the critics say, our municipal institutions are fairly sound, notwithstanding all that the critics say, and it simply comes down to this, that when a question is put fairly to the people, and when it is threshed out, as all questions should be, by public meetings, a sane and safe conclusion is sure to be reached by the people when they cast their votes.

The people of Toronto want to do justice to no one, but the people of Toronto do seek fair treatment, and, above all things, that private corporations respect public rights; and it is because of the triumph that has come to our citizens in this recent election that all portions of Canada ought to rejoice at this indication of improved interest on the part of the people in public affairs.

Reactionary newspapers have had a lesson that the public can often think quicker and act better than they give them credit for. Just now is not a good time for the corporation-owned press to lecture the people on public duty.

THE VOICE OF THE PROVINCE.

Why should not all Southern Ontario want cheap electricity for power, for light, and for heat? You'd think from the way that papers like The Toronto News talk there was only one thing people should do, and that is, not to disturb investments in public franchise companies.

We imagine that hereafter the papers that take the coppers and the advertisements of the public will be less likely to antagonize public interests and the rights of those who support them.

is to keep the public in the grip of corporate monopolies. That kind of a paper would command some respect.

But a paper that is directed by "invested capital," that professes to sympathize with the public, antagonized by "invested capital," and yet finds a way of strengthening the hold of the monopoly it favors over the people, is a public enemy.

This seems to be a good time for sorting out these newspapers. But perhaps they have already been sorted out and duly labeled.

ELECTIVE PRINCIPLE.

is Carried Too Far in Universities, Says Dr. Schurman.

PHILADELPHIA, Jan. 4.—At the session of the American Academy of Medicine a movement was begun to assail the elective principle in colleges and universities, and to place the responsibility for this system upon President Charles A. Eliot of Harvard.

The elective principle of colleges and universities is "carried too far," said Dr. Schurman, "and you know as well as I do that the man who is practically responsible for it is President Eliot of Harvard."

"It is the duty of college faculties not to allow a boy of 17 or 18 years to choose what he should study, notwithstanding the fact that one of the leading educators of the United States takes issue with me. At least, this should not be done for the first two years."

"In connection with this, I beg to announce for the first time that regarding this year, 1908, we will admit to our medical college graduates or persons of equivalent training, and in order that there may be no doubt, the determination is not left to the hands of the medical faculty, but examinations will be conducted by a committee consisting of the president and dean of the faculty of arts and sciences, and the dean of the medical faculty."

The audience before whom Dr. Schurman made these sensational remarks, comprised of over a score of leading educators, representing the most prominent literary and medical colleges of the country.

Those attending this conference, which will continue to-morrow, will report and make recommendations to the American Academy of Medicine at its meeting in Chicago next June.

The Rowing Club had another splendid practice at Mutual-street Rink last night and, although the ice was rather soft, the boys were getting in some fine work and enthusiastic audience. The visitors worked hard, but failed to score.

It was a first-class exhibition of hockey. The line-up: Lehmann, point; McVean, cover; Schaeffer, left; Scott, right; Fraser, centre; Frood, rover; Jones, Arnprior (2); Hall, Hayes, point; Conroy, cover; Milne, left; Fraser, right; McGonigle, centre; Harrison, rover; Donnelly, rover.

MURDER IN MONTREAL

"BLACK HAND" IN IT

One Italian Dead and One Other Is Fatally Injured—Possible Motives.

MONTREAL, Jan. 3.—(Special).—One C. Catelini dead, shot in the eye; B. Lator, three stabs in the back and will probably die, with F. Moratillo, stabbed in the head, but not fatally, is the result of an Italian war this evening at 35 St. David-lane. The place of the murder was an old wooden house with 25 Italian boarders of the poorest sort.

The story is that a man belonging to black hand entered and demanded money, which, being refused, shooting began, with the results as just stated. Fifteen men and two women are at headquarters, but not one of them will say a word except that the murderer escaped.

The old house, the scene of the tragedy, was searched, and revolvers and daggers and knives of all sorts, together with a long rifle, were found.

Scarcely a day now passes in which an Italian murder does not take place, and the police appear powerless to check the crime.

Leonardis succeeded in saving one Italian murderer from the scaffold, two years ago, there is no end to the murderous attacks among these people.

ABNORMAL CHILDREN.

Do Not Outshine Others Later in Life.

It is a common experience that children who are abnormally and prematurely developed do not "make good" in following years.

The boy is seldom a great orator in manhood, the child which is far beyond his years in a special development of some kind, is likely to be more than matched later by somebody who was not premature in development.

Just now we are told that a Chicago infant of twenty months is exhibiting a muscular development that is highly remarkable.

The youngster swings dumbbells and stands on his head and handles his legs, and does other athletic feats of an equally extraordinary character for a child of tender age.

His father, a policeman, naturally takes delight in the physical prowess of his son, and no doubt believes he will develop into one of the world's great athletes.

But isn't it possible that the policeman is developing trouble for himself as he develops the muscles of his prodigy? At the child's present rate of physical improvement he may be a difficult proposition to handle at a year's end, a terror at 10 and a Samson at 15.

From your best appearance he will not be the sort of youth a parent can lightly order to fill the coal bucket or grind the coffee.

And when Willie is a little slow about rising in the morning, it can scarcely be expected that any sane father would send him to school with the intention of forcibly separating the boy from the bed, without calling in assistance.

And if such a boy should become a prodigal and then return and find the father's pocket empty, and take forcible possession of the ancestral watch-chain, and again to a family feud, but stand tremblingly by and mingle thankfulness with trepidation.

This is a long look ahead, however. Ordinarily the infant Hercules does not develop into a slayer of monsters. Instead of hardening into a toughening until he is fitted to be a professional strong man, this Chicago infant may become a member of some of our best-known families.

Let the father exhibit all the pride he cares for in his prodigy, but let him make provision for the long list of special forms of supremacy.

LOOK INTO THE FUTURE.

Pacific Ocean Has Grown in Importance.

The Pacific Ocean is daily growing in importance, says a United States exchange, and somehow the going of the United States fleet from the Atlantic to the Pacific seems to be the heralding out of the little old pioneer house into a bigger and better one.

It is something more than a mere practice cruise that is being carried on today along the South American coast, is headed for Magellan's Straits and the great sea off to the eastward.

The importance of the trip of the Admiral Evans' ships is discussed much more fully and much more intelligently by the leading London, Paris, Berlin and St. Petersburg newspapers than it is by the American press.

Being a little farther away from the scene than we are, Europe is better able to throw this exploit into its proper perspective, and to forecast the story about it which history will tell.

It is the Petersburg which first gauged the importance of the present demonstration. Seven or eight months ago, when the trip was first projected, and when many of our own papers opposed what it would ever take place, The Petersburg paper printed in Russia's capable foretold the advent of the new era which would begin when the American fleet, the Russian fleet and the association and interests behind it, steamed out into the Pacific.

Suicide at Montreal.

MONTREAL, Jan. 3.—Miss P. Champagne, 24 years of age, 769 St. Andre-street, whose father died last week and who has been ill and depressed ever since, committed suicide to-night by taking carbolic acid.

"I rather like your friend," Mrs. Page said, graciously, as she sat at the table. "He is good-looking and agreeable, but you can't call him a brilliant conversationalist. The law got him around him."

"Unfortunately," replied Mr. Page, "I cannot talk on a subject unless he knows something about it." — Youth's Companion.

THE LANDLORD OFFERS

REWARD FOR TRIPLET

Benevolent Bachelor Cheered by Tenants of Flats Has Now Raised the Rent

The baby market has gone up. That portion of it at least which is supplied by certain tenement houses in Clinton and Broome-streets, will know no shortage.

President Roosevelt had had nothing to do with it, says The New York American.

A generous landlord, who is not made of the same stuff as the tenement barons who have brought the rent strike down upon their heads, has put a premium on the "cotidian things" and with every new arrival rents will decrease.

Every girl baby born in the tenement houses at No. 71 Clinton-street, or Nos. 123-125 Broome-street, will depress the rent 50c per month, every boy who arrives hereafter, is equivalent to a 3c reduction; twins will cause 2c to be stricken from the monthly rent bill.

Triplets are to be worth 10c. And in addition a bonus of 10c has been offered for the first child born during the new year.

Landlord a Bachelor.

The benevolent landlord who has made the above propositions to the parents of the tenement houses is a bachelor, Dr. Charles L. Singer. He is the proprietor of the two tenement houses, a practicing dentist in his office at No. 71.

This is the explanation of the beneficent offer.

For nine years Dr. Singer has never raised the rent in any of the three tenement houses of which he is owner. Consequently all of the little four-room flats in them have always been full.

To-day there are 24 families living in No. 71 Clinton-street and 20 families in the tenement houses at Broome-street.

Eighty children swarm thru the halls and on the fire escapes at No. 71 and there are 120 youngsters distributed throughout Nos. 123-125 Broome-street.

Not only has Dr. Singer never raised the rent, but he has always treated the tenants with the utmost kindness. The walls have always been papered when needed, the heat has always been sufficient in winter and turned off on time in summer, the plumbing has always been mended promptly and everything has been done which the exemplary landlord should do.

So yesterday a committee of three of the oldest residents called on the paragon among proprietors to thank him for his many kindnesses and wish him a happy New Year.

Dr. Singer, a bachelor, 35 headed the committee, Annie Edelstein of No. 71 and Mrs. Louisa Werner of No. 125 followed. Dr. Singer was highly pleased. He made a tour of the tenements and then gathered as many people as possible to his office to his office, where he delivered a speech.

"After holding forth on the evils of the lease speculation system, and telling the tenants of the poor with large families on the east side, Dr. Singer said:

"While I am a bachelor myself, I love children. Some landlords bar them out, but I like to have them in my houses. Now here is a proposition which I think you will like," and here he put the valuation of future children stated above.

Tenants Are Enthusiastic.

This was hailed with joy by the assembled tenants. The news quickly spread, and last night it was the only subject of conversation in Broome and Clinton-streets.

The proposition was talk of putting the proposition to the landlords against whom the rent strikers are fighting in hope of bringing an end to a trouble.

Speculation was rife among the possessors of large families on how long it would take to have the landlord paying the rent instead of the tenants.

The rent in Dr. Singer's houses ranges from 21c to 24c monthly, and triplets and twins are no uncommon thing in the district. It is only a matter of time ago that the tenants were born to Max Rosen at No. 246 Clinton-street, and again to a family himself at No. 71 Clinton-street.

Dr. Singer's tenants are an ordinary occurrence. If the birth rate in Dr. Singer's tenement had been as prolific for the last few years continued he may regret his offer.

The Broome-street houses have a population from six to eight annually and there are from four to six arrivals at No. 71.

J. Hirsch, a tailor of No. 71, boasts of having the largest family. There are 13 children in his family, but he is seldom that they can ever get together for a counting.

Arrested for False Pretences.

ST. CATHARINES, Jan. 3.—(Special).—A young farmer, Frank Terry, was arrested by the County Judge Carrigan this afternoon on a charge of false pretences.

Early in February, 1907, Terryberry attended an auction for Mrs. Trumm's in Gainsboro Township and bought a horse and many bushels of oats, paying for them with notes which were never honored.

Terryberry is said to have claimed to be wealthy, and to a paymaster of the law a warrant was issued, and Terryberry was given a hearing at St. Ann's Justice of the Peace John L. Healey and Matthias Healey, and was committed for trial. The case was enlarged till last Inst.

COUNTESS ASKS FOR A DIVORCE

Harry Thaw's Sister Has Not Been Happy With Titled Husband. LONDON, Jan. 3.—The failure of another instance of the English nobility with an American woman of wealth became public this afternoon, when the Countess of Yarmouth, who was Alice Thaw of Pittsburgh, a daughter of Mrs. William Thaw, and sister of Harry Thaw, whose second trial for the murder of Stanford White will begin next Monday in New York City, applied to the divorce court for annulment of her marriage to the Earl of Yarmouth.

The court has ordered that the proceedings be held in camera, and the papers are being kept secret. The only inkling obtainable of the charges preferred is a statement to the effect that the nature of the medical evidence to be given makes a public hearing inadvisable. The Countess of Yarmouth is staying at Park Hill, near Evesham, Worcestershire, a magnificent country seat she has leased, decorated and refurnished with lavish expenditure. She declines to comment on the case. The Earl of Yarmouth could not be found in his usual London haunts to-night, and it is supposed he is on the continent, where he spends much of his time.

It has been well known for two years that the domestic affairs of the Yarmouths were most unhappy. The Earl's companions and his manner of living were such that he could not give his wife the position in society which she had a right to expect. She supplied immense sums to defray her husband's extravagance and her friends say she has conducted herself with dignity through the troubles resulting from the unhappy marriage and her brother's difficulties.

The Hertford family, the head of which is the Earl of Yarmouth's father, and to the head of which the earl is heir, he being the eldest son of the sixth Marquis of Hertford, is one of the oldest and proudest of the British nobility. The notoriety brought upon the family thru its indirect connection with the murder case was galling, but this climax to the eldest son's marriage to Alice Thaw is a bitter pill. The Marchioness of Hertford, who has stood by her daughter-in-law through her troubles and has exerted herself to reconcile the couple, is prostrated with grief.

The countess herself has suffered from the strain of the past year. Her friends say she has grown thin rapidly, and has lost her appetite. They have advised her to remain in England until after the divorce proceedings, but the countess desires to return to the United States for her brother's second trial, and it is undecided which course she will pursue.

SELLERS-GOUGH FUR COMPANY LIMITED "FURS EXCLUSIVELY" 244-246 YONGE STREET - CORNER LOUISA. MULLOY'S EDUCATION. Canadian Patriotic Committee Considers Allowance. OTTAWA, Jan. 3.—(Special.)—A meeting was held in the governor-general's office to-day of the Canadian Patriotic Fund Committee for an additional allowance to "Trooper" Mulloy, the blind South African hero. Mulloy has received \$4025 from the fund, which he has employed in furthering his university education. He is now taking a post-graduate course at Oxford, and the proposal has been submitted that the expense of this course, some \$2000, should be defrayed from the patriotic fund. The committee considered, however, that to make this allowance would inaugurate a new system of dealing with the fund, and it was therefore decided to request the federal government to take into consideration the making of a grant towards the completion of Mulloy's education. The subject will be further dealt with at a meeting to be held towards the end of the month. Installation and Presentation. At the meeting of Maple Leaf Council, Royal Arcanum, on Thursday evening last the officers for 1908 were installed by Grand Regent Baker, District Deputy Ryder and Past Regent Oke. Many congratulations were extended by the grand officers to Regent McClelland upon the excellent staff of officers elected to serve under his leadership. The occasion was also taken to present Past Regent Malcomson with a past regent's jewel and a gold watch in recognition of the good service done during the past year. BANK INCREASING CAPITAL. "A PULL ALL TOGETHER."

On Monday next many municipalities in Western Ontario will be asked to deliver their verdict on the electric power policy of the provincial government.

On Wednesday Toronto pronounced for the government's policy by an overwhelming majority, rendered all the more significant by the fact that the citizens declared themselves ready to accept the responsibility of establishing a municipal plant in competition with the local Electric Light Company.

They did so because they recognized that cheap electric power and light is not only of general advantage, but is necessary for the future commercial and industrial development of Ontario and its towns and cities.

That consideration should be equally paramount in the other municipalities that are included within the Niagara sphere of distribution. To each of them cheap electric energy is of immediate and individual interest. In supporting a policy such as that presented by the provincial government, at the instance of the Hydro-Electric Commission, the communities concerned are serving themselves directly, and at the same time acting in a spirit of mutual support. Let every municipality follow and better the lead given by the capital of the province, and thus prevent a vital public necessity from becoming the prey of the high financier, the franchise-hunter and the monopolist. If the municipalities want cheap light and power, they can get it only by voting for the bylaws.

Admiral Uriel Sebree Commands the Cruiser Fleet—Some of the Older Men Stepped Out.

The squadron of United States warships, which under command of Rear Admiral Robley D. Evans, will round Cape Horn and cruise the waters of the Pacific, is one of the most powerful fleets ever assembled.

The pulling may seem rather hard to the young men who are now coming to the fore of particular significance, says The Technical Magazine.

Admiral Uriel Sebree, notable new appointee, having been selected to command the "Pathfinder Fleet" of armored cruisers.

Capt. W. H. Sutherland, the new commander of the battleship Nevada, is another of the older men who are stepping out.

Pere Marquette Shops Resume Ten Hour Schedule.

ST. THOMAS, Jan. 3.—(Special).—General Manager Miller of the Wabash and General Manager Cotter of the Pere Marquette are in conference here.

COLEBROOK, Jan. 3.—George McClellan of Bloomfield, Vt., who was to have been operated on here for appendicitis, has apparently made a quick and complete recovery.

It appears that the physician who diagnosed the case as appendicitis and urged an immediate operation, McClellan, being poor, hesitated; whereupon a purse of \$150 for the expenses of the operation.

Dr. E. E. Jones engaged rooms on Colby-street and Mr. Marshall put the necessary furnishings. A nurse from Lancaster was engaged and came.

McClellan, accompanied by a lady friend, came to town to make certain purchases before submitting to the operation. During this time he changed his mind about the operation and left on short notice for parts unknown, taking with him the \$150 in cash. He is probably convalescent somewhere.

LANDLORD REMOVED DOOR.

OTTAWA, Jan. 3.—(Special).—Considerable feeling has been engendered by the action of the landlord of a house on Gloucester-street. One of the tenants of P. Quinn is a woman who has been blind with her rent and is out of work, so the landlord ordered the family out, and finding that no good, tried to throw them out. This was done, and he adopted the freeze-out system, taking off the front door. The wife and three little children were in danger of being frozen, but the local charity officer has come to their temporary relief with a load of wood wherewith to make a fire.

DON'T NEGLECT YOUR SKIN Zam-Buk Unequaled as a Skin Cure.

About 80 per cent of prevalent skin disease is due to neglect and the remaining 20 per cent to some weakness or infection. The skin, in fact, rules the health. In proportion as the skin acts well or ill, we are well or sick, for every square inch of skin has no fewer than 2,300 pores through which all waste matter, which would be injurious to health if allowed to remain, is expelled from the body.

The skin, because it has important work to do, and is so exposed to injury and disease, deserves far more attention than most people give it. Often the timely use of Zam-Buk, the well-known healing balm, will prevent a nasty attack of eczema, prevent festering, itchy pain and inflammation and avert other skin troubles which, if neglected, would only upset the general health.

A sudden chill, dirt in a cold-crack, or sudden contact with disease germs, are all dangerous to your skin health, and neglected cuts, sores, chafings or chaps, may lead to festering or blood-poisoning.

Neglected sores caused months of agony—spent dollars seeking a cure—One box of Zam-Buk cured.

Below we give the testimony of a lady who, if she had known of Zam-Buk earlier, might have saved nine weeks of painful agony. Mrs. Frederick Bryant of 169 Railway Ave., Stratford (Ont.), says: "I scalded my foot while preparing supper. Next day the skin came off and my foot was in a serious condition. I could not wear my shoe and had to lay up for nine weeks. During this time I used dozens of salves, but none did any good, in fact the wound developed into a running sore. I got no rest day or night from the cruel pain. At this point a sample of Zam-Buk was left at my house and I tried it. Several applications of Zam-Buk had immediate effect in soothing the pain and irritation and I was encouraged to buy a box. One box of Zam-Buk was sufficient to heal the scald, although I had spent dollars in other remedies. New skin has formed nicely over the whole open sore. Zam-Buk is the most wonderful and effective remedy I have used, and I advise others to use it."

Zam-Buk is so refined that it soaks easily through the skin to the seat of disease and exerts a wholesome influence upon the rest of the body. Absolutely pure, soothing and antiseptic, Zam-Buk is recognized as the world's greatest and only perfect healing balm for everyday household use. It is just as invaluable for cuts, bruises, burns and sprains, as it is for eczema, ulcers, piles, bad legs, festering sores, ring-worms, swellings, scalp sores, hidden sores on back or joints, pimples, rashes, chafings, chaps, inflamed and scaly patches, and all diseases of the skin. Every family needs a box of Zam-Buk.

Zam-Buk is sold by all druggists and medicine vendors at 50 cents a box, or will be sent postpaid on receipt of price by the Zam-Buk Co., Toronto, 2 Bloor St. W., Send for free trial box. Special offer.

MAXIMILIAN HARDEN GOT 4 MONTHS SENTENCE

Denied Any Intention of Libelling Count Von Moltke—Made Speech in Defence.

BERLIN, Jan. 3.—Maximilian Harden has been sentenced to four months' imprisonment on the charge of libelling Count Kuno Von Moltke.

Harden was sufficiently recovered to appear in court to-day and the hearing of Count Von Moltke's libel suit against him entered upon its final stage. Harden was attended by his own physician Dr. Eisenburg. He spoke in his own defence.

In the beginning his voice was feeble and he could scarcely be heard, but later, during portions of his address, he developed something of his customary eloquent vigor. His first impressions concerning Prince Philip Zu Eulenburg and the persons attached to the prince's interests had been gained, he said, from the late Prince Von Bismarck and members of his household. It was impossible to obtain absolute proof, but Harden said he was convinced that a ring had been formed around the emperor which while he considered it almost impenetrable, he was determined to endeavor to break thru. If his articles had accomplished this result he was glad, but if in his writings he had libelled Von Moltke, all he could say was he had never intended to do so. "I never meant to libel the count," Harden continued, "and nobody knowing me could imagine that I would deliberately defame anyone. Everybody is aware that I was working purely from political motives. If, however, owing to the peculiarities of my style, this tribunal considers that I should be punished, then I am prepared to undergo imprisonment, but it will be with the conviction that I do not deserve this punishment."

DUNCAN ST. WIDENING BUSINESS MEN PROTEST

Object to the Basis of Assessment and May Petition—City Hall Notes.

Representatives of a number of business firms that will be assessed, should Duncan-street be widened, appeared before the court of revision yesterday afternoon to protest against the work being carried out on the basis of assessment proposed. The city is to pay \$48,000, or 60 per cent of the cost, while the remaining \$32,000 is to be met by a levy upon the property-owners. It is planned to widen the thoroughfare 38 feet above Richmond-street and 28 feet between Adelaide-street and Richmond-street.

Frank Hodgins, who appeared for the Musson Book Company, situated on the southeast corner of Richmond and Duncan-streets, said that by increasing the width the property would be made too narrow in frontage. The E. W. Gillett Company claimed that as the street was 66 feet wide where their premises were, they would not be benefited, while the Telford Manufacturing Company made out a similar case.

Mr. MacParlane, on behalf of the University of Toronto, asserted that under the statute its property should be exempt from taxation. As the time for petitioning against the work does not expire until Jan. 27, the deputation was advised to try to get up a list of the petitioners that if it were signed by persons representing more than half the assessment on the property the undertaking would be abandoned.

The court will sit again on Feb. 1 to pass upon the matter.

THE NEW HORSE MARKET.

The World representative called in to see how the new horse exchange at Toronto Junction was progressing, and was more than surprised to see such a well-fitted place. There appears to have been nothing forgotten; every detail to make the public, also the horses, comfortable has been thoroughly gone into. An army of decorators are at work putting up bunting and flags, which gives the place a fairy-like appearance. The manager, Mr. Smith, reports a large number of horses of all classes, including a pair of registered Clyde mares and carriage pairs, and invites the general public, whether in need of horses or not, to come up and see what they think of the scope and work of the opening sale takes place next Monday, Jan. 6, 1908. Special Sunday Services.

Mr. J. M. Wilkinson has taken Massey Hall for a series of Sunday night meetings. His intention is to provide a pleasant Sunday evening service under religious influences for those who do not attend the regular church services. Father Minehan will speak of the scope and work of the holy name societies of the Catholic Church. As a prelude to this, beautifully-colored views of Oberammergau, the home of the "Passion Play," to be followed by the best motion picture on "The Life and Death of Christ," that Mr. Wilkinson ordered direct from Paris. He visited the "Passion Play" in 1900 and can speak from observation and not from book knowledge. Mr. Wilkinson thinks that no man can look at these views and go away determined to profane the name of Christ by his blasphemy. Mr. Hal H. Morgan will sing illustrated songs. An opportunity will be given to those who wish to join an Anti-Profanity League, and it is expected that 1000 men will stand to be counted. The service is free to all.

Men! Look Here!

Men With Back Pains, Rheumatism, Nerve Weakness, Indigestion, Constipation, Liver, Kidney or Bladder Troubles

My Electric Belt has restored health and strength to thousands of nervous, debilitated and pain-worn men and women. You also can be cured if you will grasp the opportunity I offer. Read what the cured say. Electricity, as furnished by my Belt, cures by giving back to the weakened nerves, muscles and organs the vitality they have lost, reducing inflammation, developing the full vigor of health and removing the effects of overwork, exposure to weather and long-continued sickness.

This grand restorer of life carries a strong current direct to the weakened parts, and is a positive cure for all weakness in men. It develops and expands all weak organs and checks unnatural drains; no case of falling vigor or debility can resist the powerful Electric Suspenders. I have cured thousands of weak, impotent men, and I can cure you, if you will write me. You are a broken man as a result of living a reckless, fast life; your errors of youth and dissipation in manhood have drained the vital forces from your body. Before you are forty life will have lost all its pleasure for you unless you stop this drain now. It is a grand method, and every man who has ever used it is praising it.

DR. McLAUGHLIN'S ELECTRIC BELT

With suspensory for weak men has brought strength, ambition and happiness to thousands of weak men in the past year.

I will not promise to make a Hercules of the man who was never intended by nature to be strong and sturdy. Even that man I can make better than he is, but the man who has been strong and lost his strength I can make as good as he ever was. I can give back to any man what he has lost by abuse of the laws of nature.

Dr. McLaughlin, Vermilion Bay, Ont., Oct. 18, 1907. Dear Sir: I have just received your letter, and was pleased to hear from you and to know that you are still improving your Belts. I thought they were perfect, as they have done so much for me. I have worn the Belt for three months, and can say that I am a new man. You may use my name if you wish, and I will tell anyone the great good the Belt has done for me. Yours very truly, THOMAS KIRCHEN.

It is the grandest remedy in the world for building up wrecked humanity. It fills the exhausted nerves and organs with the fire of life while you sleep. To you who have been reading my advertisements for months, and who need the help of my appliances, why do you hesitate? Is it not because, fearing of spending money trying to seek relief through other treatments, you are doubtful whether there is any help for you? Now, to enable you to satisfy yourself whether or not I have the confidence which I tell you I have in my treatment, I make this offer: If you will secure me for the price of my Belt, I will take your case and cure you before you pay me. Is this not fair? This is my offer.

"Local Option is a failure in Owen Sound"

Local Option ever had a fair test, it is in Owen Sound. Here is the TRUTH about what Local Option has actually done for Owen Sound.

It Has Hurt Trade. Local Option has NOT lessened drunkenness, has NOT improved business nor the financial position of the people generally...

It Has Multiplied Failures. In Owen Sound there have been more failures in the 19 months under Local Option than there were in seven years previous to Local Option...

It Has Created Drunkards. Local Option has been detrimental to the interests of Owen Sound, commercially and morally...

It Has Banished Prosperity. The Division Court returns show that the citizens of Owen Sound have been less prosperous under Local Option because of hampered trade...

It Creates Discord. "I consider Local Option detrimental to the best interests of the town from a business point of view, as it has created discord and set up one portion of the town against the other..."

Here are represented the important industries of Owen Sound—concerns employing nearly 1,500 men—the Mayor, a prominent banker, a leading firm of barristers, well-known men in the fruit and produce trades...

What the Theatres Offer

Among the theories which Tolstoy holds in regard to those influences which have a bearing upon morality is that certain kinds of music are profane. He expounded this theory in a novel, to which he gave the name of "The Kreutzer Sonata." Jacob Gordin, in writing his very successful play, which had a run of nearly a whole year at the Thalia Theatre, New York, and which Miss Walsh is the first to present in its English form at the Princess Theatre next week, makes some use of Tolstoy's theory, and gave the name of "The Kreutzer Sonata" to his play, but this is the only relation the play has to Tolstoy's novel.

Jacob Gordin and Tolstoy both got the title from the same source, namely, from the famous composer Beethoven, who composed a sonata with which all musicians are familiar and which is dedicated to his friend Kreutzer, and hence the name of the well-known composition. The role which Miss

One of the most interesting scenes in Barney Gilmore's new play, "Dublin Dan, the Irish Detective," which comes to the Majestic next week, is said to be the scenic representation in the third act, which depicts the secret

headquarters of the gang of counterfeiters the famous detective has been engaged by the United States government to hunt down. As a matter of fact, the scene is a faithful reproduction of a series of chambers that were quite recently unearthed in New York by the local police of that city, and which were the meeting place of a notorious foreign society that had terrorized the inhabitants of a certain

section of the city by their crimes. Through the courtesy of the police department, Mr. Gilmore was enabled to accompany a photographer to the headquarters of the gang and to secure photographs of the rooms as they were. From these photographs the scene itself was constructed, and the result, as found in the third act of the play, is a faithful replica of the "den."

Promises of a bright and breezy entertainment under the auspices of "The World Beaters" are made by Manager Tom Henry of the Gayety for next week. It is claimed for this organization that entirely new material has been put into the travesties and the olio, and that clever girls and capable comedians have been enlisted to make up a smart attraction. Two skits that are expected to amuse on the strength of plot alone will be supplemented by the work of rapid-fire comedians. Special attention is paid to the staging and to the selection of the costumes to set off a live-day previous. Forty people will be counted in the ensemble, and there is promised a snappy form of entertainment under the names of "A Trip to Newport" and "The Isle of Rubber-necks," during the action of which all that has been accounted lively in the extravaganza to set off a live-day previous. In the olio there are: Red and Matt-land, Red and Hadley, the Century Comedy Four, Mr. and Mrs. Charles Buckley, assisted by Frank Martin and Genie Pollard, the burlesque queen. The special attraction of the week is the world's greatest marksmen, Col. Gaston Borderverry, in his marvelous shooting feats.

John L. Sullivan and his old antagonist, Mike Kilrain, will be an early attraction.

The sale of seats for Carlotta Nilsson and Walter N. Lawrence's Madison Square Company in "The Three of Us" will open at the box office of the Princess Theatre on Monday morning.

"NIGHT RIDERS" OUT AGAIN.

Swoop Down on Kentucky Town and Destroy Several Places.

RUSSELLVILLE, Ky., Jan. 3.—Night riders, 100 strong, swooped down on Russellville early this morning, and after overpowering the three policemen and providing against giving of an alarm, dynamited and burned the two independent tobacco concerns in the city and several other establishments and rode away out the Hopkinsville and Clarksville-turnstile.

Three men were held upon and supplemented by the magistrates and the telephone girl operators and police were held prisoners for nearly two hours.

This is the third raid of the night riders in Western Kentucky and comes in the face of the announcement by the governor that disorder must cease.

The Magistrate Dismissed the Bredin Bread Case.

During the recent municipal campaign all the capital that could be made out of a "light weight bread" agitation was made by those interested in doing so to the detriment of one of the candidates, Alderman-elect Bredin, and now that the "storm" is past and the heat of the fight is abated, it is due the Bredin Bread Company that special mention be made to the public of the magistrate's remarks in dismissing yesterday the case of alleged "light weight bread," the substance of his summing up being that the case against this company was of too trivial a nature to have consideration.

The facts which he had here that in the month in which the company's goods were supposed to have been delinquent in weight the Bredin ovens produced 52,000 loaves; of these only one loaf was seized. The Bredin Bread Company pride themselves on the honesty of their products in quality and weight, and make this public mention in the interest of their patrons as much so as their own personal benefit.

Falsified Bank Books.

SAN FRANCISCO, Cal., Jan. 2.—Another sensational chapter was added to the California Safe Deposit & Trust Company scandal, when H. L. Storrs, one of the bookkeepers in the books had been made under order from J. Dalzell Brown, the imprisoned manager of the bank, and J. Robertson, the fugitive assistant secretary.

The confession establishes the fact that nearly \$1,000,000 was falsely added to the assets of the bank to deceive the state commissioners.

CARLOTTA NEILSON, JOHN WEST LEY AND THOMAS KELLY, So 1 to Appear at the Princess in "The Three of Us."

Walsh is to play was assumed in the original Yiddish play, which had a run of six nights at the Thalia Theatre, New York, by a great Yiddish artist. It was the fame of her portrayal which first attracted the attention of Miss Walsh's managers, Messrs. Waggoner and Kemper. They recognized in the dramatic fervor, the impassioned utterance and natural method of this actress, the counterpoint of the play, in buying the play and having it adapted into English for her use.

"The Kreutzer Sonata," which Miss Walsh is about to present, might have been named very appropriately "The Family Skeleton," as every family has in which a tragedy has occurred and which a skeleton, and in order to find the real motive for the crime it is always necessary to unearth it, whatever it may be. Those who are afraid of ghosts or skeletons had better not go to see Miss Walsh on this occasion. Miss Walsh is an artist who will never be popular with the thin-skinned or pharisaical playgoers, but with those who have a fancy with the highest drama, those who are morally and intellectually strong enough and liberal enough to face the truth in its ugly as well as in its beautiful phase, will always have the greatest esteem for this great actress, and never miss an opportunity of seeing her in any play of which her talent is worthy.

Since "The Christian" was first produced on the stage, some ten years ago, it has been a fruitful subject for criticism, both amongst clergymen and laymen. At the present time London, Eng., is in the midst of one of these wars that are continually cropping up amongst the critics. Many clergymen

SHE PATIENTLY BORE DISGRACE

A Sad letter from a lady whose Husband was Dissipated.

How She Cured Him with a Secret Remedy.

"I had for years patiently borne the disgrace, suffering, misery and privations due to my husband's drinking habits. Hearing of your marvellous remedy for the cure of drunkenness, which I could give my husband secretly, I decided to try it. I procured a package and mixed it in his food and coffee, and, as the remedy was odorless and tasteless, he did not know what it was. He soon began to pick up flesh, his appetite for solid food returned, he took to his work regularly, and we now have a happy home. After he was completely cured I told him what I had done, when he acknowledged that it had been his saving, as he had no the resolution to break off his own accord. I heartily advise all women afflicted as I was to give your remedy a trial."

POLICE ARE PLEASED PAWNBROKERS ARE NOT

Yesterday was the first day upon which city pawnbrokers must make return of all pledges taken in for the day previous. These returns are made under a city bylaw and police regulation by amendment of the Provincial Act.

The brokers are provided with sheets with blanks for ticket number, a description of the object pawned, a description of the person pawning and the amount advanced.

These must be at the detective office before opening of police court. In the discovery of thieves and more particularly in the recovery of property. The pawnbrokers, however, are protesting bitterly, several of them saying that the new regulation will be the death knell of their business.

Free Until Cured

The Dr. Sanden Electric Belt Gives New Strength and Vigor to Men and I Ask No Pay Until Cured

The highest mental and moral development, the greatest possible success in life, either financially or otherwise, can best be attained when the organs of the body are in a normal state of health—when the ambitions and efforts are backed by rugged, manly vigor.

The man who is weak, who lacks nerve force and energy, is certainly handicapped to a greater or less degree in every undertaking where a clear brain and an abundant reserve fund of nervous energy and vitality are essential—and these qualifications are required at the present day more than ever before.

I have devoted my entire life to the minute study of the causes and effects of nervous debility and those weaknesses of men which sap the vital energy. In nearly every case the trouble can be traced to some tax on the nervous system in former years, such as overwork, hard study, dissipation, indiscretions, etc., for all these things lower the vital forces and rob the constitution, and what is still more unfortunate, they generally do so at that delicate period of life when youth is merging into manhood, when Nature should be most assisted in her work of perfect development.

DON'T USE DRUGS

It is in correcting the consequences of these unfortunate mistakes that the properly applied current of Galvanic Electricity gives the best obtainable results, and Sanden Electric Belt, with Suspensory Attachment. It is worn about the body at night only, and gives new life and energy to every weakened organ, curing while you sleep.

My plan of selling my Appliances should meet with the approval of every fair-minded man. It is not necessary to pay in advance, or even to make a deposit. You can make arrangements to get a Belt suited to the requirements of your case, on trial, not to be paid for until you are cured, and I only charge the regular list price—in some cases only \$5.00. If you are not satisfied with the results, you can send the Belt back to me, and that ends the transaction. Isn't that a fair offer?

If you are weak and nervous; if you lack confidence and ambition; if you are easily discouraged and depressed; if you are not the man you ought to be, you need Electricity. Your nerves are craving for it just as the growing fields crave sunshine and warmth. In the great and sublime effort Nature is making to restore your strength, she needs some aid. Will you assist her? You can if you will.

RAILWAY MATTER IS LIVELY TOPIC IN JUNCTION

Injunction is Issued and Will Be Heard To-Day—Roadmaster is Arrested.

TORONTO JUNCTION, Jan. 3.—On account of the interference of the police and councilmen last night with the cars of the Suburban Railway Company, the writ, obtained that night by Manager Royce this afternoon per Justice on Town Clerk Conroy on behalf of the municipality. The writ claims an injunction restraining the town from alleged illegal interference with the company's cars on Dundas-street, east of Keele-street. The writ moves for the injunction to be argued to-morrow morning at 10 o'clock before Judge Magee in chambers at Osgoode Hall. Town Solicitor Anderson will fight against the issue of the injunction.

Can't Keep Agreement.
Manager Royce's affidavit, served with the writ, contends that under its agreement with the Village of Weston, the company is compelled to carry its passengers to Humber-side-avenue junction on account of the interruption of the service on Dundas-street the company has been unable to fulfil its agreement with the village.

Mayor Baird states that his claim of the railway company is not to the point in question, as the company, and the cars have been stopped in the interest of the people of the Junction.

Mayor is Satisfied.
The mayor made out his affidavit this evening.

When the first car from Weston this morning arrived at Keele-street, Dan Kinsman, the roadmaster, attempted to run it around the "Y," and towards Humber-side-avenue. The car was stopped by the police and the motorman ordered to proceed back on Keele-street. When the second Weston car arrived, Kinsman boarded the car, but he was put off by the police. When this happened he remarked to the police that if they wanted to stop him from running the cars to Humber-side-avenue he would be glad to stop. On the arrival of the third car Kinsman took control of the car and ordered the man in the rear to look after the trolley rope. The trolley, however, was pulled off by a special constable.

Mayor Baird said to-night: "I am glad the people appreciated the action I took. It was not done to have any grand effect. But only because it was the only thing that could be done, and if I am in office next year I will make every effort to compel both the street railway companies to live up to their agreements."

Case is Transferred.
The case against Harry Vanzyle, who was accused of obtaining a carload of coal under false pretences, was brought on in police court to-day. Assistant County Crown Attorney Monaghan, who conducted the prosecution, stated that he had just learned that civil proceedings had been commenced before the case brought to the police court, so he thought it best to withdraw. Police Magistrate Ellis then dismissed the case.

Wm. Kennedy and Frank Vaughan, both of Toronto, appeared in police court on a charge of disorderly conduct. They were allowed to go on suspended sentence.

RE-ELECT

Councillor Phelan

WARD TWO

Election Monday, Jan. 6, 1908

attempted manslaughter against Dan Kinsman, the roadmaster, for attempting to run the cars over the police, and thereby endangering life. Manager Royce told Town Solicitor Anderson this morning that he was determined to run a car to Humber-side-avenue if it should take forty men to do it. When the town solicitor intimated this fact to Mayor Baird he immediately ordered the chief of police to have as many special constables sworn in as was necessary. There are now 23 special constables on duty at the corner of Keele and Dundas-streets. The mayor states that a number of them will be kept on duty till after the decision of the case next Wednesday.

The act covering the granting of the franchise to the Toronto Railway Co. states that if the Toronto Railway Co. cease operating their cars west of Humber-side-avenue for one week, the town is empowered to pass a bylaw forfeiting the franchise.

Mayor Baird said to-night: "I am glad the people appreciated the action I took. It was not done to have any grand effect. But only because it was the only thing that could be done, and if I am in office next year I will make every effort to compel both the street railway companies to live up to their agreements."

Case is Transferred.
The case against Harry Vanzyle, who was accused of obtaining a carload of coal under false pretences, was brought on in police court to-day. Assistant County Crown Attorney Monaghan, who conducted the prosecution, stated that he had just learned that civil proceedings had been commenced before the case brought to the police court, so he thought it best to withdraw. Police Magistrate Ellis then dismissed the case.

Wm. Kennedy and Frank Vaughan, both of Toronto, appeared in police court on a charge of disorderly conduct. They were allowed to go on suspended sentence.

Leut.-Col. W. T. Moore, 180 Quebec-avenue, is now in full command of the 27th Battalion, Halton County, where he formerly was adjutant.
