WOMEN WANT NOTES AND WILL KEEP UP FIGHT

Indignation Meeting Because
of Last Week's Reverse in
Parliament — Further De-
mands on Asquith for Re-
newed Heting.

NEW YORK, July 17.—The Tri-
bune's London cable says: There is
a general expectation that hostili-
ties will be resumed over the veto
resolutions in November, and that
the general elections will occur in
January. The Liberal hostesses,
headed by Mrs. Asquith, are anx-
ious to have the government re-
main in power during coronation
year, but the irrepressible consti-
tutional conflict cannot be suspen-
ded for the convenience of pleasures
of drawing room entertainers.

LONDON, July 17.—The topstury-
dom produced in parliament by the
cross voting on the woman's suffrage
bill and by the adoption of a block-
ing motion after the second reading of
this fantastic conciliation measure,
which had irritated many friends of
the cause, has encouraged the oppo-
nents of suffrage to undertake a
strenuous outdoor campaign.

The first big demonstration was
held Saturday in Trafalgar-square,
where preparations had been made
for addresses from five platforms.
Lack of organization was evident from
the outset and the crowd while large
did not equal the immense uprising of
suffragettes in the previous week.

The speakers were mainly men,
among them half a dozen members of
parliament, Charles T. Mills, William
R. Fringle, T. W. Hills and others,
and a resolution protesting against the
passage of a conciliation or any other
woman's suffrage bill was adopted.
Lord Cromer's leaflet on the dangers
of the political emancipation of women
was distributed and messages were
read from prominent opponents of the
extension of suffrage.

Prominent women who were pre-
judicial against the movement stayed
away, and there was little enthus-
iasm. The anti-suffrage leaders have
succeeded in creating a large organi-
zation in the west end of London, but
they are not well prepared for taking
the field against the rival suffrage
crowd, with working women's branches,
a big war chest and hundreds of
banners, yet they have been convinced
that something more strenuous than
Mrs. Humphry Ward's long letters in
The Times is needed if the aggres-
sive suffragettes are to be checked and
women are to be kept out of politics.

May Come to a Head
Undoubtedly a demand will be made
upon Mr. Asquith to grant time to the
autumn session for further debate; but
he will undoubtedly refuse, and the
suffragists will have to bide their time
until a new parliament is elected be-
fore they even get a limited franchise.
It is apparent that the Liberal gov-
ernment is determined to withhold its
parliamentary franchise from women.
The members of the present house are
reluctant to receive assurances that
there will be no resumption of hostil-
ties, although there is some uncer-
tainty as to whether individual
members of the militant branch may
not resume the war path on their own
hook, regardless of the policy of the
remainder of their party. Scotland
hard men continue to maintain sur-
veillance over the movement, and the
cabinet in order to protect them from
offense, if not violence.

The vote on the bill disclosed a re-
markable cleavage of opinion, party
distinctions being completely obliterated.
The vote also disclosed acute
personal differences on the question. The
vote of the Liberal Unionists, the
chief Liberal whip, against the bill was
neutralized by the vote of his brother,
Captain Murray, in favor of it. Lord
Berkeley opposed the measure, but his
brother, Viscount Berkeley, voted for it. Lord
Harcourt voted against, his brother for it.
Lord Hugh Cecil and Mr. Balfour for it,
while their cousins opposed it. Capt.
Markham was the most eloquent sup-
porter of the bill. His sister, Violet,
took the stump against it. Votes for
women have become the dominant topic
of conversation at dinner tables every-
where.

The Lords' Veto Conference.
Amid the week's political clamor over
the suffrage bill there has been heard
of the progress of the conference of
the party leaders over the Lords' veto.
The house of commons seems to be re-
conciled to a long continuance of the
truth on the question. The proceed-
ings of the conference continue involu-
table. Nothing has leaked out. Even
the leaders of the government and of
the opposition are kept in the dark.

Some members of the house assert
that there is no intention of bringing
the question to a crisis this autumn
and that the government intends to
use all devices to defer the final
struggle until after the coronation of
King George. They also assert that
the idea of a general election in Jan-
uary has been abandoned and that there
may be a proposal for a joint session
of the two houses early in the spring.
The bill will result in tying the issue
over the coronation.

T. P. O'Connor thinks the confer-
ence is approaching a crisis and that
the conference are on the eve of reach-
ing a decision on the momentous ques-
tion. He hints that he would not be
surprised if the conference reports in
the morning that the government has
one of the terms of a settlement of
the dispute between the Tory and

THE NEED OF THE WEST

Sir Wilfrid Laurier says what the
Canadian west wants is transpor-
tation, yes, transportation and trans-
portation.

That is not quite it. What the
west wants this year is crops and
it has them only in places. Where
the weather conditions are bad there
are fair crops only on the land that
has had half decent cultivation.
In other words what the west
wants is more well-worked ground,
weed-free ground. The farmers
have, too many of them, been chas-
ing quick and big crops, spread-
over a few years with the idea of
getting out of the country. Slim
of the wheat in five years! Never
mind the weeds, and any kind of
farming will do. Result that when
a hot season arrives the grain comes
thin, the ground bakes, and the
crop burns and shrivels up.

With well-tilled ground, the grain
comes quicker and thicker, it
shades the ground in the extreme
heat, holds the moisture and a fair
crop at least is reaped.

This loose farming has had the
result of moving the hard wheat
(the best) further back and has
resulted in the celebrated Manitoba
hard being degraded by inferior
kinds mixed with it, and in an agita-
tion for lowering the wheat
standards.

And what is true of the west is
true of lots of the east, Ontario
included. Good crops and surer
only comes with good farming.
The Canadian west wants trans-
portation; it also can stand a lot
of improved farming. And we be-
lieve that this idea will begin to
spread rapidly over the prairie.
Then the wheat crop will be more
certain and the other crops more
profitable.

WHY THE COST INCREASES OF BRITISH GOVERNMENT

Mad Race For Armament Is Chief
Cause—\$5,000,000 a Day
Is Present Expense.

LONDON, July 17.—Wide interest is
taken in the Earl of Dunmore's as-
sertion in the house of lords that the
government of England is now cost-
ing the taxpayers one million pounds
daily—that is, that is \$5,000,000. He
asked the lords when the increasing cost
of government was going to stop, sar-
castically observing that if the present
Liberal government continued in
power it would soon cost one million
pounds a day to run the country.

Chancellor Lloyd George, at the lord
mayor's dinner in honor of the direc-
tors of the Bank of England last
night, explained the cause of the in-
creasing cost of government. In 1890,
he said, it was ninety-one million
pounds, and in 1910 it was one hun-
dred and seventy-one million pounds.
He added:
"The increase in expenditure, not
only in England, but in every land
under the sun, is due to what Lord
Charles Berkeley said last night, the
common sense of the day, called the 'in-
sane competition in armaments' be-
tween the various countries of the
world. They are now spending an-
nually four hundred and fifty million
pounds upon this machinery of de-
struction. All nations seem to be af-
fected with an epidemic of prodigality.
The result is that which seems to be
sweeping over the world and sweep-
ing to destruction. England takes the
lead in that expenditure."

CLEVELAND, Ohio, July 17.—A de-
ficit of \$78,828 is declared by the
Cleveland Street Railway Co. to-day, after
four months' operation under the three-
cent fare rule. The report of the com-
pany for the month of June shows a
deficit of \$48,827. The directors passed
a resolution to borrow \$250,000 to meet
pressing obligations.

CATHOLICS PROTEST

Tell Sir Wilfrid of Disabilities Under
Manitoba School Act.

WINNIPEG, July 17.—A deputation
from the Catholic Club of Winnipeg
waited on the Hon. Sir Wilfrid Laurier
to protest against the operation of the
Manitoba School Act. They have to
contribute to the general school fund,
and have to maintain their own schools
besides.
Subsequently Sir Wilfrid addressed
over five hundred at the club, and said
that, especially in Quebec, and gen-
erally throughout the Dominion, the Catholics
conceded full liberty of action to other
creeds, and were entitled to ask the
same for themselves from others. Even
if he had not yet realized his ideals in
this respect, he had done his best to do so.

CANOE IS UPSET A MONORAIL CAR ONE OF THREE TIPS OVER ON BROWNS FIRST TRIP

Morris Simon, Aged 22, Per-
ishes in Long Pond —
Companion Says Passing
Launch Caused Upset and
That No Attempt at Rescue

Toronto victims yesterday claimed
their last waters since June 1, when
Morris Simon, 22 years old, of 189 Mc-
Caul-street, was drowned from a can-
oe in Long Pond, Centre Island, at
4.45 p.m. Simon, with two younger
lads, was paddling in the pond. They
were approaching the cut that connects
the pond with the bay, when the canoe
upset.

Jack Williams, cousin of Simon, who
is 15 years of age, and also lives at 189
McCaul-street, and was one of the boys
in the canoe, says that they were try-
ing to get out of the way of a launch
which passed so close to them that
they were upset by its swell. He says
that the launch went directly on its
way, and made no effort to rescue
them. He and the other lad, whose
name was given to the police as John
Simpson, 560 West Richmond-street,
but who, Williams says, was Jack
Shakespeare, 14 years old, who lives in
West Queen-street, clung to the ends
of the canoe so soon as they came to
the surface, and were rescued by a
young man with a canoe, despite the
fact that he had a lady with him at
the time. Simon rose once, but sank
immediately, and did not appear upon
the surface again.

Malt Aykroyd recovered the body by
dragging it to 8.30. When found, his
hands were holding tightly to the
weeds at the bottom of the cut, and
the body was swinging feet up. It was
taken to the city side, and thence to
the morgue, where Coroner Hardy will
hold an inquest to-day.

E. A. English, who was nearby in
his launch, does not agree with the
boy's story of the passing launch. He
says that he saw a launch pass the
boys, but that it was going slowly,
and making little or no swell, and that
it was a considerable distance past the
boys in the canoe when they upset.
They just seemed all to lean to one
side and go over. He says that there
were a number of people on the sur-
face when they upset, and that he
cannot understand why no effort was
made to save the young man. He
himself, had to back away to the sur-
face, and was very close to the boys
with his screw or further dis-
turb their craft. Young Williams
says that when he came to the sur-
face there was a number of canoes
gathered about, and that he implored
them to dive for his cousin, but that
they all said they could not swim well
enough for that.

Simon was a Jew, and money had
been sent to him from his parents in
the old country to take him home. He
was to have started this week. Yester-
day was the third Sunday in
succession with a drowning fatality in
the city waters.

EDITOR FOR CABINET POSITION?

Ottawa Report Gives It to John W.
Dafoe of The Winnipeg Free Press.

OTTAWA, July 17.—(Special).—It is
currently reported in Ottawa that
when the changes in Sir Wilfrid's
cabinet materialize before next ses-
sion of parliament, John W. Dafoe,
the well-known editor of The Win-
nipeg Free Press, will be one of the new
ministers. It has been known for some
time that in order to assist the Lib-
eral situation in the west, another
western man would be brought into
the cabinet.

Mr. Dafoe has probably done more
than any other man, except Hon.
Clifford Sifton, to build up and sustain
the Liberal party in the west. Before
going to Winnipeg, he was the par-
liamentary representative at Ottawa
of The Montreal Star, and was the
first editor of The Ottawa Journal. He
became editor of The Manitoba Free
Press at the invitation of Mr. Sir-
ton.

A Home for the Newsboys

What do you think of a home for
the city in which the National Newsboys' Association originated.
Toronto newsboys also intend to have a home of their own. It
will not be as imposing as the one pictured, but an option has been
secured on a very suitable residence property on Simcoe-street. It will
cost—improved as necessary to suit the purpose—\$20,000, of which
some \$3200 is already in the bank. A reliable board of trustees will
be glad to receive further subscriptions, care of the Toronto Trusts
and Guarantee Company, Ltd., 45 West King-street, city.

MONORAIL CAR WRECKED ON ITS FIRST DAY OUT

MONORAIL CAR WRECKED
ON ITS FIRST DAY OUT

Hundred Passengers Crowded
Into Coach Built for 40, and
Sunken Ties of Hurriedly
Built Roadbed Resulted in
Bad Accident.

NEW YORK, July 17.—The Pelham
Bay Park and City Island Monorail
Company, which has been hastily con-
structing its track and superstructure
between Barrow and City Island
for the last two months, sent its val-
ueless, cigar-shaped car from its City
Island barn to the Harlem Railroad
station at Barrow, yesterday after-
noon to meet the 4.30 p.m. train from
New York. It was the first time in
the road's brief history that the cigar-
shaped car had been put to the prac-
tical test of carrying a full load of pas-
sengers.

After taking on more than 100 pas-
sengers, who packed the car so full that
they could hardly move, and who had
all come from Manhattan and the
Bronx to have a swim at City Island,
the long, cigar-shaped yellow car left
the Barrow station, and, with gather-
ing speed, began, under the direction
of its inventor, Howard Hansel Tunis,
to run back toward City Island on its
single rail. The single rail on which the
car runs curves slightly in several
places, and an additional strain on
the superstructure by which the car is
held upright at these points.

Cars Fall on a Curve.
The heavily laden car took the first
and second curves on the line suc-
cessfully. But, while it was taking the third
curve, the flimsily-constructed struc-
ture which the company admits it put
up as hastily and as economically as
possible, in order to comply with the
terms of the board of estimate's fran-
chise, gave away. The wooden ties
supporting the monorail, which the
ground sank an inch or two into the
unconsolidated bed of dust on which they
were laid.

The spikes holding the iron uprights
supporting the superstructure by
means of which the car is held steady
on the monorail, came out of the wood-
en ties, and amid a clatter of the im-
prisoned passengers, the car fell over
on its side, resting against one of the
ties. The passengers, who were on top
of the car, were thrown into the air,
and that they lay literally in layers, was
the car was opened to let them out.
In the jam 15 suffered painful injuries.

Method of Operation.
The car runs on a cross-tied roadbed
similar to that of a railroad train. But
only a single rail runs along the cen-
ter of the ties, while every 50 feet on
each side of the track iron supports
are erected. These supports hold a
double set of deep-grooved wheels
which run on the cross-ties. The car
is propelled by a motor on the rear,
which receives the electric current that
propels the car.

When the car rounds a curve it tends
naturally to tilt. If the curves of the
track are improperly calculated, or if
the parallel set of overhead wheels
slip off the trolley rails, the car must
topple over. This is what happened
to-day. The normal capacity of the monorail
car is 40, according to President Bur-
rows. After over 100 holiday folk had
crowded into it, inventor Tunis, at the
front motor, began to fear that the car
was taking on too big a load.

BAYLES WINS ASSOCIATION CUP

BISLEY CAMP, July 17.—(C.A.F.
Cable).—In the Association Cup match,
200 and 600 yards, Staff-Sgt. Bayles
(Toronto) finished first, winning 235;
Sgt. Russell, 4th, 55; Pte. Latimer,
12th; Morris, 20th; Morris, 5th; Crowe,
26th; Mortimer, 5th; Steele, 30th;
each won 32; Steele, 40th; Steele, 52nd;
Rowe, 56th; Freeborn, 69th; Mitchell,
72nd, each won 42.

There are large areas in the west,
particularly in Northern Manitoba,
Central and Northern Saskatchewan
and Northern Alberta, that have had
abundant rain all season, and where
the crops are fine as these districts
have ever produced, and from these
sections, even without much addi-
tional rain, a good crop will be
realized. But taking the west gen-
erally, where there is an acreage of
\$600,000 sown to wheat this year,
without immediate rain generally over
the whole country lasting at least
thirty-six hours, there is little hope
of reaping more than seventy or sev-
enty-five million bushels, and every
day of hot dry weather reduces this
probably one or two bushels per acre.
The situation in regard to feed is
even more critical than that of the
wheat crop. It is no exaggeration to
say that from 40 to 50 per cent of
the oats crop will be a total failure.
Hay is very scarce, the crop only be-
ing abundant in hay meadows, which
are usually too wet to cut. Large
quantities of oats were held over from
last season, owing to the low price,
and farmers who have these are, in
many cases, holding for 30 cents a
bushel at the stations.

A Grave Situation

In many sections of Southern Mani-
toba, Saskatchewan and Alberta,
where the drought has been the most
severe, they will not have
either seed wheat or seed
oats. Already the price of
flour has advanced 10 cents per sack,
and the price of bran and shorts from
\$2.50 to \$3 a ton.

The situation is very grave, but con-
ditions must become very much worse
before it can be considered in the
light of a disaster, as the west has
reached a point where even a total
crop failure for a single year would
not mean ruin, although it would cer-
tainly mean great hardship. The
shortage of feed is already being felt
in the livestock markets, as receipts
of "unfished" cattle are rapidly in-
creasing, farmers recognizing that it
is better to sell at once, rather than

30TH YEAR

VOTE FOR STRIKE THAT MAY TIE UP G.T.R.

About 4000 Employees Affect-
ed Are Practically Unani-
mous for Insisting on an
Equal Wage Scale With
the C. P. R.

It is believed that before midnight
there will be about 4000 employees of
the Grand Trunk Railway called out
on strike. A conference is to be held
to-day at Montreal between the com-
pany officials and the representatives
of the union, but it is stated emphat-
ically by union officials that unless the
company agree to equalize wages with
those paid by the C. P. R. the
break is inevitable. Indeed, many
railwaymen were half expectant last
night that at midnight the order
would be flashed along the wires that
would tie up the Grand Trunk be-
tween Portland, Maine, and Chicago,
Ills.

A strike will call out the locomotive
firemen, conductors, brakemen,
switchmen, yardmen and telegraphers.
It is said the engineers will not be
included in the order. Locally about
300 men, equally divided among the
different sections, would be affected.

To take the place of the strikers
the company can call on the former em-
ployees now on pensions, can depend
on a large number of the old employees
who will, within a comparatively
short time, be eligible for pensions,
young firemen not yet admitted to
the union, and, of course, "strike-
breakers." It is reported that there is
a scarcity of firemen that is even now
hard to overcome.

A strike, when called, will mean the
simultaneous tie-up of all passenger
and freight trains.

Vote is for Strike.

MONTREAL, July 17.—(Special).—
Three thousand Grand Trunk votes,
and 380 of the Central Vermont, com-
mitted that it is a strike if the de-
mands of the men are not acceded to.
Vice-President Murdoch of the G.T.R.
declared to-day in fact that the
Grand Trunk does not give in, pre-
parations will be at once made for
a strike.

The official statement, coming from
Mr. Murdoch, states that 3350 votes
were cast favorably to a strike and
fifty against, so it looks very much
like being unanimous all along the
lines of railway.

At noon to-morrow President Chas.
Murdoch of the G.T.R. will meet the
committee, and the result of the vot-
ing will be officially communicated to
the president of the system.

It was also announced this evening
that a vote which had been taken of
the Grand Trunk telegraphers was
also favorable to a strike unless their
demand for increased wages was met
by the company, over 90 per cent of
the votes being favorable to a strike.
M. V. Campbell, vice-president of the
Order of Railway Telegraphers in
Canada, who is here, stated that im-
mediate action will be taken unless
the demands of the men are grant-
ed.

Have Hired Strike-Breakers.

PORT HURON, Mich., July 17.—(Spe-
cial).—From information gleaned here,
the Grand Trunk have been making
preparations to deal with the prospective
strike.

Chicago has been recruiting
ground for strikebreakers, and
forty arrived here to-day, while two
coaches were sent thru to Detroit. It is
said that all the big centres between
here and Chicago have been alerted,
and that labor officers at Sarnia have
turned back about 100 alleged strike-
breakers.

CONDUCTORS HOPEFUL

Conference of Pennsylvania Employees
May Avert Strike.

PHILADELPHIA, July 17.—Hope
that the conference of to-morrow
between the members of their committee
and General Manager Myers of the
Pennsylvania Railroad Company would
result in a clearer understanding of
their demands by the railroad officials
and that the necessity for a strike
would be averted, was expressed to-
day by President A. B. Garretson of
the Order of Railway Conductors, and
W. G. Lee, the head of the Brother-
hood of Railroad Trainmen. While
Mr. Lee refused to add anything to
the statements he has already made
public regarding the controversy, he
declared his belief that the ten hour
standard the men ask for could be
put into effect by the company with-
out making any sacrifice. He ex-
plained that there would have to be
numerous exceptions, as is now the
case, where the demands made upon
greater length than the standard.

YONGE STREET ALTERATIONS.

The remarkable business development
in Toronto within the last five years
has forced the merchants to enlarge
their premises almost every season.
The Dineen Co. have been working
overtime during that period to keep
abreast of the demands made upon
them by the public. The company is
undertaking some very extensive alter-
ations on the ground and in the floor,
which will result in one of the best
lighted hat stores in Toronto. The
lower south wall of the big building
will be entirely of glass, with two new
entrances on Temperance-street, one
having a very attractive marquee for
carriages. It is expected that the work
will be completed within the month.

downfall in the 2:24 trot of Decoration, Bay City gelding that copped first prize easily at Pontiac and Flint. Two City horses was a 10 to 4 favorite, but was unable to beat Mattie Bryson, a 10 to 1 favorite, in the 2:24. The odds were then 10 to 1 in favor of Bryson to decide which was to get the big of the \$1000 purse. Two other events were pulled off during the afternoon, and in one the favorite defeated Tom Dillard won from the 10 to 1 favorite, in the 2:18 pace.

The rapidity with which the science of flying has progressed is amazing even to the most optimistical—it's perhaps the greatest achievement of this century of wonders, and the invention of the marvelous Gnome engine is a big stride towards perfecting the flying machine. The feature of the Gnome is that the motor revolves around a fixed shaft—it's greatest advantage is that no cooling system is needed. It has the strength of 50 horses and weighs but 165 lbs.

WOMEN SUFFRAGE IN BRITAIN.

Even though the remitting of the partial disfranchisement of women was left to a committee of the whole House of Commons results in the shelving of the measure for the current year, the fact that it passed at the second reading by a very large majority will have a distinctly stimulating effect on the movement in the United Kingdom. The debate, entirely outside of party lines, revealed a curious line of cleavage, supporters and opponents being found on both sides, among the holders of political opinion as much as among the rank and file. This, however, in one way, is unfavorable to the cause, since it allows individualism free scope, but also presents adoption of the reform as a governmental proposal. It also leaves the House of Lords in the same indeterminate position and what its present view may be is at the moment an uncertain quantity. The peers made a dash at least in the dark when they introduced the reform bill of 1867, and it is not at all improbable they may do it again when their present conviction is under serious challenge. It is under any circumstances the bill before parliament is only an expression of the demand made by the women suffragists. It recognizes the

In attracting the attention of your readers and the public to the fisheries and the best connection, you must not overlook the fact that in the north and south direction equally important reasons are to be considered. I think you warn us not to regard as a "trip," is nevertheless the one connecting link by shortest route between the waters of the north and the great waters of Hudson Bay, and the future will readily disclose what that link means when the products of Hudson Bay are placed on the table of us and our cousins over the border; besides the fact that in this most pedicious route the three great transcontinental lines are linked together as well as the two of our own; besides, hither and thither their surburbed demands by our northern or southern waters, as much of the same is being done, and the same is not stationary, and, therefore, join with you calling for the attention of the governments at Ottawa and London, and to be brought before us, I was pleased to see the interest which I was being used in this connection, giving us a general was about to travel to the Hudson Bay shore, and from there by steamer through the straits, returning to the shore, and then to the shore, and the G. HAGERMAN'S CORNERS.

Stretches of Farming Country Gives Good Prospect.

HAGERMAN'S CORNERS, July 17.—(Special.)—The crops in this vicinity looking especially good and the late rains have greatly improved conditions generally. Hay is proving to be a crop of much better quality and yielding larger returns than was at one time thought desirable. Fall wheat, too, has immensely benefited and some magnificent crops are to be seen on the farm of John Young, a short distance from here. This village, may be seen one of the best crops of fall wheat in York county. If it proved, it can be surpassed in the province, and even well dried, good judges claim that a bushel will reap 55 bushels to the acre. The farm of C. J. Germain may be seen in the splendid field, while barley the best in the county, is generally well headed. Some

DON'T KNOW IT WAS LOADED.

WELLAND, July 17.—William H. Wilson, aged 39, manager of the Henssely drug store here, says he was shot and instantly killed while on duty. A friend of his, Night Policeman George Laing, had borrowed from him some days ago a revolver for cleaning his own. In the police office Laing was returning Wilson's revolver, and, showing how well his friend was a shot, he had fired a shot. He had removed all the cartridges, but he had not and the ball entered Wilson's heart. A horse owned by Cecil Hagar, near by, was killed by lightning while passing in a field on his farm Saturday morning.

Review of the Fleet—Changes in Royal Palaces—Queen Alexandra's Effects Leave.

LONDON, July 17.—A yachting cruise will follow the royal visit to Aldershot, during which there have been novel features of personal inspection. The King has taken a leaf from the German Emperor's experience and has introduced practical methods of getting into touch with the fighting services. There may be similar inspections of the naval inspection when the royal yacht leaves the fleet. The cruise may last a fortnight and be carried as far as Dartmouth or Plymouth.

The King and Queen will find the changes ordered by King Edward at Marlborough Manor House complete, and during August will see what has been done by the Earl of Bessborough, who has consulted in both instances the Japanese effects in landscape gardening have been introduced in the arrangement of trees and the massing of low groups of herbage. Extensive alterations will be made at Windsor, where rooms will be found in the old castle reconstruction for the royal children.

Buckingham Palace will not be tempted until the Victorian Memorial is finished and the shabbiness of the old building has been dispersed. The Soldiers' Memorial in Grosvenor Road in the Mall will be unveiled by the Duke of Connaught.

SHIPPING THREATENED BY WATERFRONT FIRE

Started by an Employee Dropping a
Package of Matches, Which
Exploded.

NEW YORK, July 18.—A serious fire broke out this afternoon in the old Red Star line pier, now occupied by the Metropolitan Steamship Co., which threatened for a time to destroy the passenger steamer Harvard, which lies between here and Boston, and the freight steamer H. F. Dimock. Fortunately both steamers were able to get away from the burning pier under their own steam. The pier was practically destroyed. The pier, which is at the end of Dey-street, Manhattan, caught fire on the far end, and soon the whole structure was ablaze. The heat of the flames was intense and soon the far end of pier 15, occupied by the Brunswick Steamship Company, was in flames. The steamer Dimock caught fire on the forward part of her superstructure, but the flames were checked before they made any headway. At 2 o'clock the firemen had flooded the American line pier with water, and it was thought that the progress of the flames had been checked.

Employees on the Metropolitan line pier said that the blaze started from an explosion. They said that a longshoreman was carrying two packages, and happened to drop one, which exploded and started the blaze. They believed these packages contained matches in gross.

The loss is estimated at \$600,000. The main pier of the Metropolitan Steamship Company was destroyed, the steamer Henry F. Dimock was badly damaged, and half a dozen lighters were severely burned before they jumped into the water and were rescued by a ferryboat.

The fire was not under control until 2:30. At that time the steamer Dimock, with a decided list, had drifted down the North River to a point north of Ellis Island, where the fire boats were still pumping water into her.

By hard work the firemen prevented other docks and craft in the neighborhood from being struck. The pier number 15 occupied by the Brunswick Steamship Company caught once and the crane of the Lackawanna ferry was ignited several times.

NO POISON IS FOUND IN CHILD'S STOMACH

Result of Post-Mortem Examination of Three-Year-Old
Walter Brown.

Nothing of a poisonous nature is disclosed by the analysis of the stomach of a three-year-old boy, Walter Brown, who died in the city of New York. The boy was found in the north corner of the intersection of the street and the railroad tracks, and then found once at a height of five feet. He was gradually lowered to the ground by a fireman. The coroner made a short autopsy at a height of 900 feet.

The coroner was surrounded by a crowd of people. The count kept on being taken. The coroner was surrounded by a crowd of people. The count kept on being taken. The coroner was surrounded by a crowd of people. The count kept on being taken.

SLASHED THE MAN WHO STOLE AWAY HIS WIFE

Wanted to Mark, Rather Than
Kill Him, But His Hand
Slipped.

PHILADELPHIA, July 18.—Joseph Brown, a waiter in a cafe in the center of the city, was bending over a table pouring out drinks for three men and two women last night, when a man slipped up behind him. Placing one arm around Brown's neck, the man slashed his head with a razor in his other hand, and then severed his windpipe.

The cafe was instantly in an uproar. The men and women fleeing from the scene of the crime. The man who had slashed Brown's neck, then took Brown to a hospital, where he died to-day.

"That man stole my wife from New York. He was my friend and he ruined my home," said the prisoner to the police, when told of Brown's death. He said his name was Harry Percival, and remarked: I did not mean to kill him. I simply wanted to mark him, so that whenever he should look into a mirror he would be reminded of his treachery to me. My hand must have slipped while I was cutting him."

RAINS IN WEST CHASE DOWN PRICES ON CHANGE

Better Prospects For Crops Give
Bears a Little
Innings.

WINNIPEG, July 18.—(Special.)—The influence of beneficial rains thru parts of the grain-growing territory in the west affected the price of wheat on the grain market to-day and the bears had a little inning. July option closed 1 1/2 lower at 1.15 1/2, October, 1/2 lower at 1.05 1/2, and December, 1/2 lower at 1.00 1/2. The principal activity was in October option, and it held within narrow range.

The following weather report was received on the grain exchange to-day: Light general showers fell over the Canadian west yesterday. Along the main line of the C. P. R. from Winnipeg to Regina and south of that stretch the showers were very light. The heaviest was two inches at Pipestone. In Northern Manitoba, Saskatchewan and Alberta heavier rainfalls are recorded. In spots, one-half inch falling at Humboldt, and 3/4 at Edmonton. While the rainfall has not been heavy, considerable benefit will be gained from it, owing to the fact that it has practically lowered temperatures all over the west, thus checking the growth of wheat, and lessening the danger of loss from burning by extreme heat.

LOAVES OF 24 OUNCES TO BE SOLD AT 6 CENTS

Bakers' Association Adopts Policy
to Go Into Effect Next Friday
—May Drop 10 Oz. Loaf.

Beginning next Friday the bakers of the Toronto association will supply a 24-ounce loaf of bread for six cents. This agreement among the members has been definitely settled. "We will continue to bake the small loaves of 10 ounces each," said George Weston, "and sell them for five cents each. There was some talk of lowering the price of the 24-ounce loaf to five cents, but the rise in flour yesterday has made that impossible."

Mark Bredin, president of the Bredin Baking Co., speaking about the matter, said that it was quite probable that most of the bakers would drop the 10-ounce loaf altogether.

Joseph Gibbons Says Mr. O'Donoghue Made Choice of His Own Volition.

Joseph Gibbons, business agent of the Street Railway Employees' Union, discussing the appointment of Judge Barron as chairman of the conciliation board on Saturday said:

"We are quite glad that the chairman is to be a man with the judicial sense, and being a judge, consequently fair. All we want is three fair and impartial men, and we feel sure we will be able to convince them that we are not asking too much. There was no suggestion on our part whatever to Mr. O'Donoghue as to who should be the third man. He was absolutely free to act as he wished."

LOG FOULED LAUNCH

Occupants Rescued by Another Craft
—Dangerous Flotam in Bay.

The amount of floating debris in the bay lately is becoming a menace to the light pleasure craft.

Yesterday afternoon, L. J. Hendry's 30-foot gasoline launch was punctured below the water line by a submerged log floating between the eastern part of the bay and the shore. The launch was driven to the beach, where it was towed to the shore. The occupants were rescued by another craft.

The same sort of a menace caused some annoyance to the members of the Argonaut Rowing Club at their regatta on Saturday. The club's launch was several times called upon to clear the course of floating timbers, boxes and other driftwood.

PROTECTING POWERS WITHDRAW

PARIS, July 17.—The protecting powers, Great Britain, France, Russia and Italy, have decided to withdraw the second guardships from Crete, which were sent to Suda Bay to insure respect for their decisions. The French armoured cruiser Conde has been ordered to proceed for France immediately.

YOUR BEST OPPORTUNITY TO-DAY

WOULD LYNCH DETECTIVE

Nearly a Repetition of the Tragedy of Newark, Ohio.

EAST LIVERPOOL, Ohio, July 17.—Adalbert Keddle, aged 21 years, was shot by Detective Ira Rickett of the Anti-Saloon League force last night. The shooting occurred in the business section of the town. Keddle was standing on the sidewalk when Detective Rickett, it is alleged, attempted to shoot Alvin Dawson, 21 years old. Dawson escaped the fire and Keddle was shot thru the left ankle. Rickett escaped, pursued by a crowd, but ran into the arms of Policeman Fowler. He and Dawson were taken to the city jail, followed by a crowd of several thousand persons. Threats were made to lynch the detective, but he was finally landed behind the bars. Extra police were placed on duty at the jail to prevent a repetition of the Newark tragedy of eight days ago.

In the Money Markets

London Not Disposed to Quarrel

With Outflow of Gold to New York—Wheat Outlook Uncertain—Investments Restricted.

NEW YORK, July 18.—The Post's London correspondent cables:

On mature consideration authorities here favor gold leaving for the United States in moderate quantities. It is not likely to be sent in such a movement to begin, but in view of the great ease prevailing at London and Paris, and the certainty that America will need considerable amounts of gold in the autumn, it is felt that moderate withdrawals at this time may tend to check undue excess in the market and minimize your demands later in the year.

Your finance bills are coming forward freely, but there is some question concerning the ability of the United States market to absorb the quantity of bonds on this side. There is no denying the fact that the market is not in a position to absorb the quantity of bonds on this side. There is no denying the fact that the market is not in a position to absorb the quantity of bonds on this side.

year's crop and business are not sufficient to sustain the country in its extravagance. Many will be brought up by the light of credit and a period of doubt will ensue, pending the next harvest of Providence. The New York market offers no inducement to buyers except those who can guess the low spots for speculative purposes.

Trading on the Toronto Stock Exchange during the week just closed has been generally small volume, and many of the transactions have been in the shape of broken lots. The market has in the main been free of forced liquidation, and only in one or two special instances has any pressure been put on securities, consequently it has been only natural to look for some little appreciation in value in some of the speculative leaders. Such as Rio, Sao Paulo, and the stocks interested with Wall Street have shown an upward tendency in sympathy with the New York exchange, and small net advances have been registered in each case. The movement has been purely technical, however, and a very little active buying has come into the market. In relation to the United States issues, these have been only remarkable for their steadiness, values in nearly every instance having held within narrow ranges. The market shows a lack of action, and little progress has been possible under the narrow speculation which has characterized the week's operations.

Crop news continues the outstanding crop of conversation in local financial circles. The extreme heat which has been experienced from Winnipeg west during the past week has worked considerable damage to the grain, and reports of excessive damage have filled the press from day to day. That the situation has developed into a serious one is now everywhere recognized. Estimates of the wheat yield in the Canadian west run all the way from 50,000,000 to 100,000,000 bushels, but the general opinion among grain men in the west is that the provinces will do well if the 80,000,000 bushel mark is reached. If this estimate be taken as approximately correct for comparison, this indicates that, allowing for the increased acreage this season, the crops will run only about one-half of that of last year. The yield in Ontario promises to be a good one, conditions here of late having been favorable, with plenty of moisture in nearly every section of the province.

WALL STREET POINTERS.

Banks gain \$8,000,000 on week's currency movement.

St. Paul common earnings cut down 1-2 per cent. by big coal bills.

Continued dry weather in North-west.

People's Gas current earnings average nearly 10 per cent.

Lackawanna's wages affecting all classes of trainmen.

Bradstreet's index still characterizes most lines of trade and industry.

Dun's Review of business in all its branches waits on the outcome of the year's crop.

Minneapolis estimators think corn will probably exceed crop of 1909 with about 70 per cent. of last year's yield on all small grains.

Twenty million dollar oil company organized in London.

Receiver named for Col. J. M. Guffy of Pittsburgh, liabilities \$67,000.

Leaders of employees on Pennsylvania Railroad postponed strike.

Philadelphia \$1,000,000 4 per cent. bonds have been placed.

Joseph says: Further advances under the head of the Pacific Coast Reading, Steel stocks and the Copper are almost certain to be seen immediately. Keep long of B.R.T.; buy more than anything else, is the cause of the market's confusion. Day after day the inside interests have tried to make off with selling, but without success. Despite frequent manipulations, speculators have ceased to buy stocks except on short delivery, and when purchases have been made small profits have limited the extent of the buying. Attempts to run in the short interest have been frustrated because of the pressure of long stock either for liquidation or for profit-taking.

The only encouragement to the market this week was the further engagement of gold for import. Considered, however, in its proper light, this should not be regarded as beneficial to stock quotations. Of much more importance is the steady advance of agricultural commodities in the face of a declining demand owing to a falling off of commercial activity. But it necessarily takes a long time to make a readjustment from a period of rapid inflation to one of normal conditions and this process is now in effect, both in securities and in the prices of general commodities.

After the heat of the week which has taken place on Wall Street since the first of the year, it should not be expected that breaks will be as precipitate as they have been. It would appear that stocks are being sold on every opportunity by the large interests, and until they change their position, lower prices are inevitable. This

is the situation in the money markets.

IMPERIAL BANK

OF CANADA

DIVIDEND No. 80.

Notice is hereby given that a dividend at the rate of 10 per cent. per annum upon the Paid-up Capital Stock of this Institution has been declared for the three months ending 31st July, 1910, and that the same will be payable at the Head Office and at the Branches on and after

MONDAY, THE 1ST OF AUGUST NEXT.

The Transfer Books will be closed from the 15th to 31st of July, 1910, both days inclusive. By order of the Board, D. R. WILKIE, General Manager.

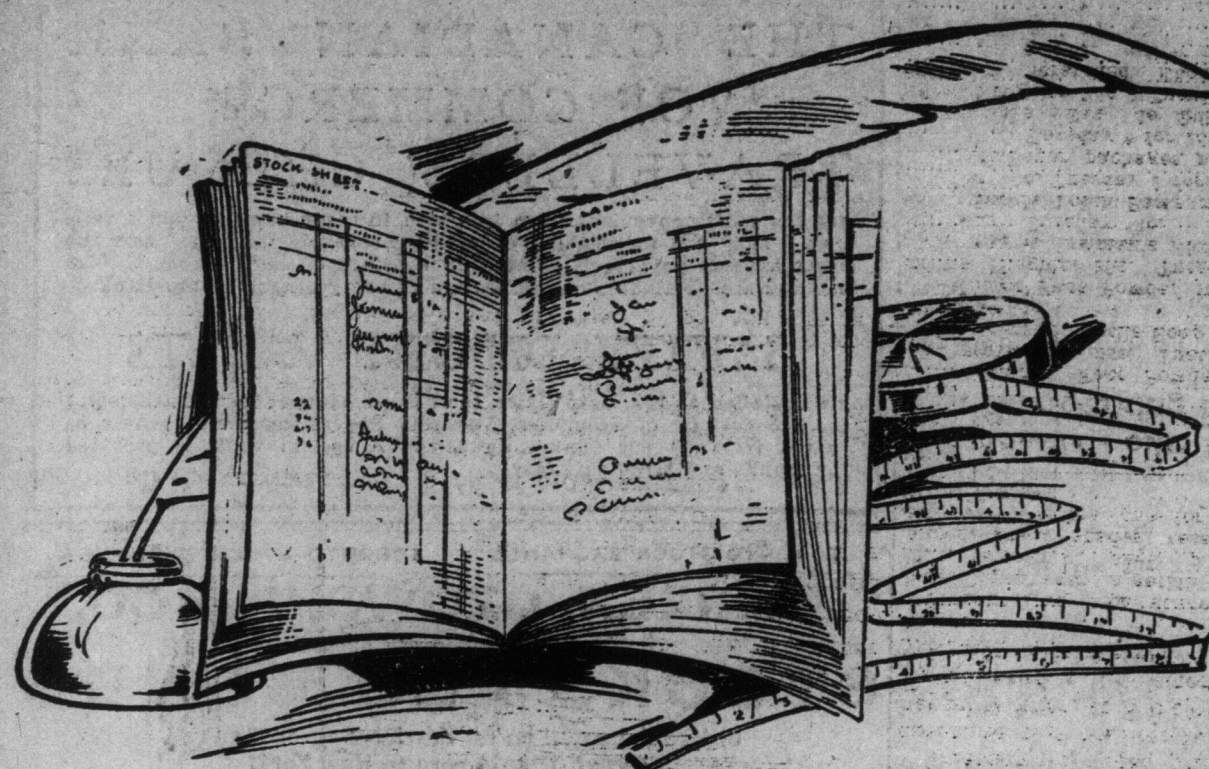

Toronto, 22nd June, 1910.

outlook favors a satisfactory bank statement day, as there has been a good gain in cash by the local institutions. The prospects for a large improvement of gold tend to help sentiment, as the fear of marked stringency has been thereby allayed. It should not be forgotten, however, that trade conditions are conducive to lessened demand and for funds, since the market has been in sympathy with the increase of 18,000 in the number of idle cars is significant in this regard, and railroad earnings should soon feel the effect of a more marked decline. The stock market is somewhat postponed by the leaders of the employees and trouble will probably be avoided for the time being. The market should be well and should offer a better class of goods on all breaks for moderate profits.—Town Topics.

ON WALL STREET.

Ericksen, Perkins & Company has the following:

The stock market was a small affair, as we anticipated. Prices receded a little further, with some loss of a point, a decrease in the local market. Prices were lower all around. Liquidation, however, was small. It was chiefly in the stocks of the United States Steel, which was somewhat affected by talk of reduced wire prices. The Steel Corporation also would be affected by a strike on the Pennsylvania. We do not expect much, but possibly some of the many thousands of shares of the United States Steel Corporation may be sold. The crop damage news from the Northwest, with strength in the market, tended to check buying of stocks, as yesterday the banks make a remarkable showing in today's statement, the surplus, as of last night, increased to \$15

PROBABILITIES—

Moderate northerly winds; fair, with moderate temperature.

"The Moving Finger Writes"

In a few days now a hundred pens will be writing down on the stock sheets the contents of this large city block-full of merchandise.

What an undertaking it is, even for the smallest department. Managers are eager to move out as much merchandise as they can before the pens begin their task; but it is not without regret that they see goods of sterling worth, such as those mentioned in the following columns, sacrificed for the sake of the modern system of store-keeping, the semi-annual inventory that winds up every half year.

For you the system makes opportunities that are clear gain—So don't overlook one of to-morrow's collection.

"A Pretty Girl, a Summer Night," "A Moon all Soft and Mellow"

But the poetry does not relate what the girl was wearing, thereby robbing the verse of much feminine interest. We suggest that it should have been a Dutch-neck waist with short sleeves. This is just a hint for the girls to come for these new waists bright and early Tuesday morning.

100 Waists, in dainty summer style, front of all-over fine embroidery and pin tucking, Dutch neck, 3/4 sleeves, embroidery and lace edging. Sizes 32 to 42. Special Tuesday \$1.25.

150 Waists, of fine mull, exceedingly pretty front of dainty Swiss embroidery, panels, group tucking and rows of fine Val lace, square low neck, short sleeves, trimmed to match waist. Sizes 32 to 42. Special value \$2.50.

A smart Waist, of soft mull, made in chancelier style, side-front opening, beautifully hand embroidered, short sleeves, cuffs, roll collar and front, is finished with pleating and bebe Irish lace insertion. Regular \$4.00. Tuesday \$1.98.

\$3 Long Crepe Kimonos \$1.95

Just the thing for the bed-room lounge, on the hottest day.

Women's Kimono Gowns, of serpentine crepe, Oriental, floral and conventional patterns, navy, sky, cardinal, helio, green and myrtle; tucked back and front; fronts and sleeves trimmed with band of satin ribbon in harmonizing shades. Sizes 34 to 44. Regular \$3.00. Tuesday \$1.95.

Good News for the Golf Girl

Or any girl that loves the out-o'-doors. They know the comforts of a good sweater coat. We're selling ten dollar ones for less than half price to-morrow.

\$6.50 TO \$10.00 SWEATER COATS, TUESDAY TO CLEAR AT \$4.75.

All that are left of our high-class Coats. Your vacation isn't complete without one; all are this season's styles; long and medium lengths; colors brown, castor, grey, navy and old rose. Sizes 24 to 42 bust measure. Regular prices \$6.50 to \$10.00. Tuesday \$4.75.

These Lines of White Wear Must Go. Corset Covers, fine lawn, front has wide embroidery, with silk ribbon and two rows Val lace insertion, neck and arms finished with Val lace frills. Sizes 32 to 44 bust measure. Regular value 65c. Tuesday to clear at 35c.

Underskirts, fine cotton, 17-inch lawn flounce, two rows wide fine lace insertion, one row wide embroidery insertion and deep ruffle of lace, lawn dust ruffle. Lengths 33 to 44 in. Regular value \$2.00. Friday to clear at \$1.45.

Night Gowns, fine cotton, slip-over style, yoke has insertions of Val lace and embroidery medallions. Val lace frills, lace beading and silk ribbons. Lengths 56, 58, 60 inches. Regular value \$1.25. Tuesday to clear at 87c.

Selling of Tips Has Been Forbidden

But we not going to let that interfere with a special shipment of ostrich tips that have just been received and which we will dispose of to-morrow at 85c each. And don't overlook the plumes—they're great value at \$1.85 and \$2.85.

A Saving in Summer Hosiery and Footwear

Just in the midst of the summer season now—and most people are ready for a second pair of light shoes and a fresh supply of hosiery—here's all the footwear you need at most attractive prices.

35c COTTON HOSE 19c. Women's Plain Black Cotton Hose, medium weight for present wear, imported, fashioned, double spliced heel, toe and sole, Hermsdorf dye; all sizes. Regular 58c. Tuesday pair 19c, or 3 pairs for 55c.

50c SILK PLAITED HOSE 35c. Misses' Imported Silk Plaited White Hose, full fashioned, extra spliced heel, toe and sole; look like pure silk, and will wear 50 per cent. better. Sizes 6 to 8 1/2. Tuesday, pair 35c.

Summer Shoes

BATHING SHOES. 120 pairs Women's Bathing shoes, white canvas, canvas covered rubber sole, all sizes, no half sizes. Special Tuesday 29c. Black canvas, with covered cork sole. Special Tuesday 58c.

Ramie Suits—Do You Know Them?

Ramie Suits are better than linen suits; they do not crease and look mussed after one outing; they are made of the grass instead of the flax, and they never harden as linen suits are apt to do. Here's an opportunity to try them out for very little money—Repp and Ramie Suits at about half price Tuesday.

WOMEN'S WASH SUITS.

Special sale of women's high grade Wash Suits, of splendid quality English repp, in white, pink or natural, fine linen in blue only, and of ramie suitings, in rose, wisteria, linen and sky, and of cadet, tan and rose, with stripe effect; smart semi-fitting coats, some with braiding, skirts in either pleated or in flare gore style, with deep tucked graduating skirt, giving flounce effect, braided to match coat; sold regularly at \$7.50, \$8.00, \$9.00 and \$10. Tuesday, \$4.69.

WOMEN'S SUMMER DRESSES.

Clearance of Women's Summer Dresses of the material best suited for wear during the warm weather, fine mercerized mulls, in soft, silky finish, in the following shades—mauve, sky, white, grey and pink; these are made in pretty one-piece styles; some with net yoke and collar, with rows of wide and narrow lace insertion down front, waist line is defined by wide band of lace insertion, tucked flounce, puffed sleeve, trimmed to match waist; others have yoke of self and front panel of Swiss embroidery, with row of lace insertion down each side, flounce has rows of pin and narrow tuckings, sizes are 32 to 42 bust measurements. Not every size or color in each style or color, but all in the lot; the regular selling prices of these goods were \$4.50 and \$5.95, Tuesday's price, \$3.89.

Economize on Carpets

Midsummer stock-taking effects a clearance in Tapestry and Brussels Carpets at a reduction, meaning a saving to you. These are all excellent carpets, and there's enough in each pattern for one or two good sized rooms, with a border to match. Remember, too, they are made, laid and lined free. Here's the saving:

Fine English Tapestry Bedroom Carpets, light floral and chintz patterns, in green, brown and fawn, dark red Turkey effects, for the dining room. Regular 85c and 95c per yard. Tuesday 65c per yard.

Pretty Brussels Carpets, in light shades of green, blue, fawn and pink, floral, conventional and overall patterns; also Persian designs in dark green and red. Regular \$1.25 and \$1.40 per yard. Tuesday 85c per yard.

Canadian Souvenirs

Silverware Section. 5,000 Brooches, Pins, Gold-filled Scarf Pins and pairs Cuff Links, in enamel work, sterling silver, some set with jewels, Canadian emblems and coat of arms. A complete range from 25c to \$1.00.
