MINIMIZES BREACH

Berlin Press Says Lack of Army Makes Her Negligible.

Berlin, Feb. 5. (The Toronto World.)—The morning newspapers treat the breach in diplomatic relations between the United States and Germany as a matter of great gravity, but all the editorials are pitched in a calm and moderate tone. Most of the newspapers say the news created no surprise, some of them explaining that this step was expected in view of President Wilson's message of last April, and others that it was anticipated in view of the president's continual siding with the entente since the war began. All the newspapers strongly reject the imputation that Germany has broken her promise made in her note of May 4, having stress upon the fact that Germany's promise was expressed on condition of President Wilson's success in bringing England to an observance of the laws of nations. They generally assert that President Wilson persists in ignoring Germany's justification for her submarine policy, as outlined in her various notes.

MAKE NO CONCESSIONS AT EXPENSE OF PIRACY

Berlin in Offering Sop to Neutrals Makes This Point Clear.

London, Feb. 5. (British Admiralty, per wireless press).—The following despatch was received here today from a German government wireless station: "Negotiations are now in course of proceeding in Berlin among parties interested in regard to the question how far additional concessions on the part of Germany are possible, in consideration of certain pressing economic requirements of some neutral states, without prejudicing the purposes aimed at by unlimited U-boat warfare."

U. S. MAY TAKE OVER SHIPBUILDING PLANTS

Steps Under Consideration to Complete Warships Under Construction.

Washington, Feb. 5.—Following a conference today with Attorney-General Gregory, Representative Pagett, chairman of the house naval committee, has begun negotiations for an amendment to the naval appropriation bill providing for the taking over of shipbuilding plants to complete naval vessels, in the event of war. Mr. Gregory said that the president has ample authority to enforce such action, and the amendment will be incorporated into the naval bill, which is expected to pass the senate the latter part of this week.

U. S. and Austria-Hungary Still Maintain Relations

Vienna, Feb. 5. (The Toronto World.)—After the receipt of news of the breaking of diplomatic relations between the United States and Germany on Sunday, Francis C. Penfold, the American ambassador, had a long conference with the Austro-Hungarian foreign minister, Count Czernin, after which it was announced that the relations between the United States and Austria-Hungary were not yet affected.

STRONG APPEAL MADE FOR NATIONAL ARSENAL

W. F. Maclean, M. P., Moves Resolution That No More Rifles Be Purchased From Ross Factory—Hughes Makes Bitter Attack on Lee-Enfields.

By a Staff Reporter. Ottawa, Tuesday, Feb. 6.—The longest sitting of the session was held last night with the Ross rifle as the subject of debate. The discussion arose from a resolution in committee of the whole upon the resolution authorizing a war credit of \$500,000,000, and W. F. Maclean (South York) offered an amendment that none of the money to be appropriated should be applied to the purchase of Ross rifles. He declared that our rifles should be manufactured in a national arsenal, under the direction of the government, and objected to the expenditure of \$2,500,000 in the purchase of 50,000 Ross rifles, when the 500,000 already in hand, none of which are allowed to be used at the front.

HURSTWOOD TORPEDOED FIVE OF CREW KILLED

Fatal Explosion Follows Attack Without Warning on British Steamer—Belgian Relief Ship Sunk by Mine or Torpedo.

London, Feb. 5.—The British steamer Hurstwood, 1229 tons, was torpedoed without warning at noon today. Three men were killed by the explosion and three seriously injured, two of whom died after the crew was landed.

The Belgian relief steamer Lars Kruse, of 1460 tons, and under Danish register, was sunk by a torpedo or a mine near the Belgian coast today. The vessel carried a cargo of wheat from Buenos Aires.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

THE British official communication from the front last night announced that in a local operation the British captured 500 yards of trenches from the Germans in the section northeast of Gueudecourt, north of the Somme. Before consolidating their ground they had to repel two German counter-attacks. In this small action they made 70 prisoners and captured a machine gun. Simultaneously with this little advance, other troops entered the German lines at three points, near Bouchavesnes, Pys and Grandecourt. Before the new British front east of Beaucourt a heavy action proceeded yesterday. It was in this region that the British, advanced 500 yards on a front of three-quarters of a mile on Saturday night, but it was not until yesterday that the Germans succeeded in organizing their counter-attacks. They made four onsets against the new British ground, but each of these failed to get on, and the British made some successful raids of their own, taking 39 prisoners, in addition to the 100 taken at this point when they made their advance.

Many persons see in this renewed action the probable renewal of the battle of the Somme. That engagement has had the form of local British offensives and a series of partial German defeats. Where the British lines stand now, they have before them some strong positions on higher ground and they are reducing these positions as a preliminary measure to the striking of more strident blows. Preparations thus proceed apace for the breaking of German power on land before submarines do much further damage on the sea. The policy of the allies, it is said, now calls for the hastening of the war's end by heavy offensive action on all fronts. General Siralls has been passing a week with General Cadorna on the Italian front in order to make the plans of Italy harmonize and dovetail into the plans of the British, French and Russians.

Washington officials said the other day that altho the United States had broken diplomatic relations with Germany, they would not declare war on her until she had committed some overt act. Now she has committed it for a British official communication on the sinking of the steamer Evestone says that William Wallace of Baltimore, an able seaman and American citizen, died instantly from a shell fired by a German submarine.

Flaming Colors, Mushroom Hats, "Barrel" Frocks

Three of the Outstanding Features of the Spring Mode, as Viewed by "The Scribe," in Gotham.

NEW YORK, Feb. 2nd. The spring mode is a riot of color in the world—an August garden. A Sorolla painting, a Navajo blanket, a Georgian Bay sunset, a ripe wheat-field at dawn with poppies. Blend them into one blaze of blue, green, yellow, purple and pink, and you will have a good idea of the general aspect of the latest thing in smart togethery. The air is electric with possibilities of War, but this is the cheerful front which fashion presents. Milliner, dressmaker, tailor—each appears at first sight to be conducting a small Durbar. It is a season of Oriental brilliancy of tints. Gold yellow, Chinese blue, Persian pink, jade green—these are some of La Mode's pet shades.

And very delightfully, it must be confessed, are they exploited in the new head-wear. For Spring hats, he declared, are of the simplest description—nine out of ten of them of the medium size mushroom type, the teeth being a sailor or a tricorne. As for "trimmings," a band, a ruffle or a cockade of ribbon, a medallion of wool embroidery or perhaps a metallic cabochon—this is the invariable decoration. Which severity of line and treatment so well befits bright color. And, of course, for those of conservative taste and mature years are similar models in nigger brown and black—immensely smart in their clever simplicity.

Fine tagel straw, the shining liere, crepe de Chine and satin—it is of these that the most beautiful grilling hats are composed.

Pockets, pockets, pockets—they are Fashion's sign and seal in suits, coats and frocks. Not the conventional pocket allowed to a woman at sundry times for the accommodation of a handkerchief and possibly a purse and household keys, but a pocket of limitless capacity, in which one may with impunity stow away anything from a lap dog to the contents of a knitting bag. Moreover, they appear in pairs, one at either side of the skirt or coat, so arranged on the big line that their business contribution to the barrel silhouette.

The simplicity that marks the hats prevails in the gowns also, pleats and tucks serving by way of chief ornamentation. Satin, khaki-kool and crepe de Chine are the favored materials. And very not for many a year has it been one's pleasure to drape upon frocks that are so charmingly sane, so appealingly feminine. For those who deem the gold yellow and Japanese greens a trifle too gay, there are seen in many lines, demure and pastel tans. A charming innovation is thin-hair-dress of wash satin in white or flesh pink, while a chic novelty is the "half-over" dress, with its opening cleverly disguised on the shoulder.

Not a trace of Victorian form remains in the new mode. Skirts take an inward curve around the ankles.

The Scribe.

High Colors and Huge Pockets Mark the New Top Coat

Gold, Apple Green and Tan Are the Leading Shades in Which the Spring Coat Appears. And in Every Respect is it Voluminous—Collars and Pockets Immense and the Entire Garment Contrived on a Loose and Generous Scale. As, for Example, the Half-dozen Models Our Artist Has Sketched Below, Selected From the Magnificent Array of New Wraps for Motoring, Dress and General Wear.

A. Old gold velours is the material thereof, with fuchsia pink velour facing the deep cape collar, oblong "silver" buttons decorating belt, cuffs and collar, and old gold satin filling the role of lining. Thus runs the story of this smart new coat from New York, which is the very embodiment of the mode of 1917—high color, huge collar, immense pockets and ample dimensions, generally. It is an individual model, and priced \$52.50.

C. Regarded in New York as one of the smartest types of coat the season has given to us. Made of Poirer twill—like a fine gabardine—in that shade of pale tan which resembles putty, it makes sure of the approval of conservative taste, while filling all the requirements of latest mode. For instance, the capacious pockets, and the enormous collar faced with khaki-kool broadly striped in black and blue. It is lined throughout with putty color satin. This is an individual model—priced \$47.50.

F. Behold a veritable triumph in coat-making, this swagger model to the right. It is fashioned of the softest of moss green velours lined with gold pussy willow silk patterned with an Indian motif in black and blue. Glimpses are to be had of this silk in the facing of the deep collar and cuffs. And La Mode sets the season's mark upon the wrap by adding a tie girle and a pair of big baggy pockets. It is a New York model—price, \$62.50.

D. Draw up a mental picture of tan velours checked with lines of Copenhagen blue or emerald green, and you will have an idea of the color scheme of this extremely attractive coat below. It is replete with new features—the pouch pockets, the tie-string girle, and the deep convertible collar. The lining—which halts at the waist line—is of tan satin. Price, \$22.50.

—Third Floor, James St.

E. Burella, or, as it is more popularly termed in America, monks' cloth, is the fashionable fabric of which the coat labeled "E" is composed. It is procurable in a small rainbow of modish shades—apple, leather tan, putty, mahogany, and ruby, the broad collar faced in each case with fine velours of the same tint, or white. The pockets are of the slash order. Priced as an extra special value, at \$15.00.

MILLION WOMEN DO WORK OF MEN

British Labor Secures Recruits in Place of Soldiers at Front.

FEW GO ON FARMS

New Element of Competition Between Sexes Introduces Another Problem.

London, Jan. 20.—Almost a million women—exactly 985,000—have entered all kinds of positions held by men before the war began, and of this number nearly all—exactly 933,000—were actually substituted for men called to the front or diverted to other war activities.

This is shown in a survey of the whole movement toward woman labor since the outbreak of the war, made officially by the labor department, with data down to the last two months. It shows 3,231,000 women now employed in all branches of industry and commerce, or about a million more than when the war began. It is this new million of women workers one sees at every turn, on the tramways and motor buses taking fares, in the government offices taking the place of the men clerks in the hotels and restaurants as waiters and cashiers, in banks and business houses, and running cinemas,

theatres, public houses, and the whole range of business activities.

Just how far this has gone the government has now figured out to a nicety. In banking and finance, for instance, there were only 9500 women employed before the war; now the number has increased fourfold to 46,000. In government departments, also, the women workers have increased from 66,000 to 133,000, displacing men in all but 8000 cases. In industrial work, the increase of women has been greatest, reaching 323,000, of which 314,000 replaced men. Another very large increase of women is in the government munition works, where there were 2000 before the war and 117,000 now. The government figures give the entire 1,170,000 as directly replacing men.

Big Increase Here. In commercial occupations, clerks in stores, offices, etc., the increase of women is 233,000, of which 264,000 replaced men. In professional occupations, connected with the law, medicine, magazine and newspaper work, etc., the increase of women is 15,000, of which all have replaced men. A curious fact is that each woman has replaced about two men in hotels, public houses, cinemas, theatres, etc., the increase of women being 16,000 and the displacement of men 30,000.

On buses, trams and various kinds of transport service the women have increased 41,000, the entire number replacing that number of men. Men teachers are also largely replaced; also men on municipal transport work, the total increase of women in this line being 34,000, of which 31,000 replaced men. In farm work many men have been drawn off for the war, but few women have replaced them. The men on farms replaced by women is given at 20,000, while the number of women farm workers is 80,000, and the increase since the war only 500. Women nurses since the war only 500. Women nurses since the war only 500. Women nurses since the war only 500.

women for men, the government statement says there has been an increase of 150,000 since last July in the number of women directly replacing men.

This shows a slight check in the rate of replacement. In some trades, like clothing and textiles, women workers have decreased, probably because they were able to get better wages in the many new fields now opening for them. In October 40 per cent. of the textile firms reported they were unable to get all the women they required, so that while the supply of women workers has increased, the demand is also increasing in many branches.

This replacement of men by women is introducing new elements in economic and social conditions which will have to be worked out when peace comes. The women are doing the men's work as well as the men, so that a new element of competition is introduced between the sexes. The women have the advantage of possession of the "million places," and it remains to be seen whether they will hold them, or whether there will be another displacement of women for men, when the million men come back. Many commercial houses have promised to take back the men, but whether this means displacing the women, or keeping both, is still open. The labor unions are also apprehensive of the great swelling of woman labor, as women workers are now about half the total strength of the unions, which are chiefly men's organizations strong in politics and with representatives in parliament and the ministry. So that the competition between the sexes is being extended all along the economical, political and social lines.

GUELPH GOES AFTER HUNDRED THOUSAND

Patriotic Campaigners Start Three Days' Work for That Amount Yesterday.

Special to The Toronto World. Guelph, Feb. 5.—The patriotic campaign for Guelph opened up this morning with a swing, and the canvassers were out bright and early in the cold and storm. The objective of the three days' campaign is \$100,000. Of this amount the city council granted \$20,000, and the balance is to be raised by private subscription. The objective last year was \$50,000, and over \$90,000 was obtained. At the noon luncheon today the executive committee announced that the first forenoon's canvass had netted nearly \$16,000. There are a number of large subscriptions which were not announced. The greatest enthusiasm prevails, and it is expected that the objective will be more than realized.

CLOSING OF HOTELS CAUSES SERIOUS LOSS

Kingston Merchants Find Business Going Elsewhere Because of Poor Accommodation. Special to The Toronto World. Kingston, Ont., Feb. 5.—The startling announcement was made at a conference of the board of trade and a deputiation from Frontenac County Council, that many thousands of dollars are going out of the county and away from the City of Kingston, owing to the fact that steps were not taken to meet the conditions following the closing of several hotels. Lack of hotel and stabling accommodation is responsible for the condition of affairs, and steps are to be taken at once to bring about a remedy as the situation is a serious one for the merchants.

DOUBLE THE SCORE ON THE SOLDIERS

Aura Lee Capture Senior Game by Eight Goals to Four.

Both out of the running for their group honors, Aura Lee and 228th Battalion staged a senior game before a small crowd at the arena last night. Aura Lee doubled the score—8 to 4 on the soldiers.

The black-clad boys trotted out three juniors, and Burns and Spence more than held their own in senior company. Aura Lee showed nice combination and had a more systematic attack than the losers. Harry Watson was the best man on the ice. He worked the soldier defence and went in close to the net time after time.

Both possessors of the good old-fashioned and while the game was clean, it was not thrilling. Aura Lee always had the measure of the soldiers and used better team play. Aura Lee did the right thing by agreeing upon goalie Producers of the 228th Battalion as referees.

Musson and Watson scored for Aura Lee in the first period and the fighters were held without a score. The second period was more even. Each club scored two goals. The fourth and final period was the most exciting and the soldiers were two to make the final 8 to 4.

Aura Lee (8)—Watson, goal; Burns, defence; Wagner, defence; Warr, rover; Bennis, centre; Musson, right; Lattie, left.

228th Battalion (4)—Brown, goal; Merchant, defence; Bousquet, defence; Burns, rover; Ellis, centre; Spence, right; Myers, left.

Referee: Goldie Producers.

MUST GET IN LINE OR GET BLACKLISTED

Major League Owners Will Issue Ultimatum to Ball-players.

New York, Feb. 5.—While all of the club-owners in the National and American Leagues will treat with their respective players as individuals, it is known that the owners have agreed that there is to be no leniency in dealing with the players if they demand that the players are to be met only so far as they are considered reasonable, and that the threatened strike is not to be considered in the guise of a club to make the owners pay the demands of the players. The club-owners are of the opinion that the contracts they have offered the players are fair and that the terms stated therein are as high as they can go in paying salaries under existing conditions. They have determined to put it squarely up to the players—they can either accept them or leave them.

If it further understood that all players who are not in line when the big league season opens on April 12, and who have no good excuses for their failure to be in line, shall be blacklisted. Of course, the owners are not prepared to accept that effect, but it is reported that such is their intention.

CAPTURE THE GOAL

Kitchener, Ont., Feb. 5.—In one of the best games seen on local ice for some time, Kitchener defeated the soldiers, winning 7-0, by a 2-to-0 score. The game was a stirring fast exhibition of hockey, and both the teams had a good deal of work and were right on the job all night. The team that scored in the first frame, with play about even. One minute before the close of the period Kitchener scored on a pretty rush. In the final period Kitchener scored the final goal with a beautiful rush. The final count was as follows:

Kitchener: Johnston, right; defence, Leroux; left defence, Kargars; rover, Shirk; right wing, Solomon; left wing, Krug; centre, Brown; forward, Preston (3)—Goal. Short; right defence, Trushnick; left defence, I. Bowman; rover, Ruppner; right wing, Bowman; left wing, Williams; centre, Schlegel.

Graft Charge Against Boxing Commissioner

New York, Feb. 5.—Testimony given today before Franklin D. Lord, special commissioner of the state, charged that boxing commissioner, Frederick A. Wenck, state boxing commissioner, by the National Law Enforcement Association had never had lunch at the Waldorf Hotel with Tex Rickard, the promoter of the Willard-Koran fight at Madison Square Garden, was denied this afternoon by Mr. Masterman, who was put on the stand for the afternoon hearing in the rooms of the law association, and stated that a day or two before the hearing a match was staged he saw Wenck talking lunch with Rickard in the men's grill at the Waldorf.

The charges of extortion made against Wenck were preferred by Harry M. Folio, John G. White and Patrick T. Connel, attorneys, associated together in the Madison National Show Corporation, which has the license for boxing bouts at Madison Square Garden.

"Did you see any act on the part of either one of them after they left the table?" said Emil Puchs, counsel for the complainants. Austin G. Fox, counsel for Wenck, objected, and after a long wrangle was sustained by Mr. Lord.

An argument as to Mr. Puchs' right to question Mr. Masterman was then entered into, and no settlement had been reached when the hearing will be postponed to the hearing until Wednesday, when Mr. Fox will call the commissioner whether he has any more witnesses to call for Wenck. If he has, the hearings will be continued in Albany; otherwise they will come to an end Wednesday.

ENGLISH BREEDING HIT HARD BY WAR DEMAND.

Many racing stables are selling out and a lot of the small breeders have quit business in England because of the demands of the war according to Philip Chin, the Kentucky breeder and horseman, who has returned from the British Isles after buying thirty horses from John A. Drake, seven mares for \$2,700 and two 2-year-olds for his own stable. The indications are for fewer racing days in England this year, with some restricted racing. The health, probably 60 days in extent.

SEPARATE TENNIS SHEEP FROM GOATS

Pro Question Will Come Up Before U.S. Association on Friday.

New York, Feb. 5.—With the busiest annual meeting that the United States National Lawn Tennis Association has ever known in prospect, a great number of important matters on the program are being eclipsed by the controversy and attention devoted to the newly-proposed amateur rule. Everything else will be simply preliminary skirmish when the delegates go into session on Friday.

George T. Aarn, president of the National Association, has stated that the rule so carefully framed nearly a year ago has its changes in legislation based on five fundamental principles. Robert D. Wrenn and his Committee of One Hundred have begun a lively campaign to make those principles plain to every interested player during the few days left before the vote is cast that will result in completely changing the American game.

The principles, as Adee names them, are as follows:

First—No player shall deliberately capitalize his reputation.

Second—No player shall receive traveling expenses for playing in a tournament team match or exhibition, except from a club or association which he represents.

Third—All team or exhibition matches where gate receipts are charged shall be under the strict supervision of the executive committee.

Fourth—Players engaged in the lawn tennis goods business shall not be ineligible to compete in events sanctioned by the United States National Lawn Tennis Association.

Fifth—There shall be a tribunal to settle each individual case.

The Pacific Coast Lawn Tennis Association has taken a leading part in the opposition to the possibility of enacting the rule. Prominent men in that organization point to the fact that the rumpus started when Maurice E. McLoughlin and Thomas C. Bundy entered into partnership in the sporting goods business. Previous to that time violations of the

UP TO LES DARCY.

New York, Feb. 5.—Les Darcy must make good with McCoy. If he doesn't there is small chance of his ever retaking another \$30,000 guarantee. He has promised Grant Hugh, Broome, that he will box again in three weeks if he is successful against McCoy, and Broome has practically agreed to guarantee him another \$30,000 right over again to meet either Dillon, Mike or Gibbons. Darcy will fight Gibbons some sweet day, but from present indications he wants to clean up a few of the lesser lights first.

Third—All team or exhibition matches where gate receipts are charged shall be under the strict supervision of the executive committee.

UP TO LES DARCY.

New York, Feb. 5.—Les Darcy must make good with McCoy. If he doesn't there is small chance of his ever retaking another \$30,000 guarantee. He has promised Grant Hugh, Broome, that he will box again in three weeks if he is successful against McCoy, and Broome has practically agreed to guarantee him another \$30,000 right over again to meet either Dillon, Mike or Gibbons. Darcy will fight Gibbons some sweet day, but from present indications he wants to clean up a few of the lesser lights first.

Third—All team or exhibition matches where gate receipts are charged shall be under the strict supervision of the executive committee.

SEVERAL CANADIAN HORSES RACING THIS MORN AT HAVANA TRACK

Two Bred By Harry Giddings at Oakville Recently Went to the Park—Thorbred Notes From Oriental Park.

Havana, Feb. 5.—The officials have had several owners and riders on the carpet regarding what they considered the inconsistent showing of some of their charges. After Soldier had won here a few days ago he was sent to Havana to race with the other horses in the country will be liberally represented each season.

Several Canadian bred horses are racing here this winter. In the second race on Thursday last two of them went to the post, Cery and Offortory. Both were bred at the Harry Giddings farm at Oakdale, Ontario, and both are by the late Harry Giddings. One is out of Cuba Free and the other out of James Crawford's mare Widow's.

The Kentucky horseman, A. L. Taylor, who remained here last summer in charge of the farm owned by Senator Diaz, is much taken up with Cuba. Dolita, who was bred to the Maudie's, was recently purchased by a Cuban, and is now in Cuba. Dolita is a fine horse, and is being trained by a Cuban, and is being trained by a Cuban, and is being trained by a Cuban.

BOYS TUSSELE FOR GUN WITH SERIOUS RESULTS

John McClary, Woodstock, in Hospital With Bullet Wound in Face.

Special to The Toronto World.

Woodstock, Feb. 5.—A young lad of fourteen, John McClary, is in the local hospital suffering from a bullet wound inflicted accidentally by the young lad's chum, Percy Carter. The two young fellows were in a room where Carter was examining his \$2 revolver. McClary asked him for the gun, and in a friendly ussue for possession the gun was discharged, the bullet entering McClary's nose and followed down thru the roof of his mouth and thru the upper gum, knocking out three teeth. The bullet or the teeth had not yet been recovered. The doctors say McClary will recover unless complications follow.

NEW PAPER MILL GETS UNDER WAY IN QUEBEC

Montreal, Feb. 5.—The new paper mill of the St. Maurice Pulp and Paper Co. at Three Rivers, Que., has begun operations, and the first run on one of the two fifty-ton units on Saturday proved successful. The capacity of the mill will be 100 tons, and the second unit of 50 tons will be ready for operation in a few days. A sulphite mill, which has been built in connection with the new mill, has been in operation for several weeks. The St. Maurice Pulp and Paper Co. is a subsidiary of the Union Paper and Paper Co., an American concern.

CENTRAL TRACK TEAM AT ROCHESTER

Toronto Athletes Perform Creditably, Notwithstanding Absence of Men Overseas.

Central Y.M.C.A. track team went to Rochester Saturday to compete in their annual dual meet, and the outscored in points, the Toronto boys made a very creditable showing, after being five hours late on account of the storm. Only four of last year's team made the trip, most of the others being overseas, and the experience the new men got will go a long way towards helping Central turn the tables when Rochester come over here next month.

The wider track, with the high curves, was a handicap to the Toronto athletes, but they succeeded in getting first in the 440 yards, third in the 100 yards for the second in the 220 yards.

In the first event, the 100-yard dash, the Toronto boys were well in the lead, but the first heat, the 100-yard dash, the Toronto boys were well in the lead, but the first heat, the 100-yard dash, the Toronto boys were well in the lead.

NEW VEIN STRUCK AT APEX PROPERTY

No Assay Results Reported as Yet—Extra Shift Working on Shaft.

The diamond drill at the Apex has struck a new vein of highly mineralized matter at the contact of the basalt and green schists.

A couple of smaller veins were cut near the surface, but when assayed showed only small values.

It was anticipated, however, that good values would be struck before greater depth was attained.

The shaft, which is down about one hundred feet, has been timbered and sinking started.

This shaft will be carried down to the three hundred foot level, when lateral work will be done.
