ONDON, July 14, 11.10 p.m.—Fierce counter-attacks made by the Germans, in an effort to reconquer some of the ground captured by the British in today's drive, were completely crushed by the British fire, according to the official statement, issued by the war office tonight.

The text of the statement follows:

"It is now possible to give further details of the action begun at daybreak this morning. Having driven the enemy back, step by step, to his second system of defence, the period from July 11 to July 12 was mainly spent by our troops in bombarding formidable enemy positions and in making other necessary preparations for a further advance.

"Two determined counter-attacks on our new position were completely crushed by our fire. (Later in the day, after a fierce counter attack, the Germans succeeded in recapturing the Village of Bazentin-le-Petit, but were at once driven out again by our infantry. The whole village is once more in our hands.

## The Prime Ministers Assured That Our Nickel Is All Right

Again we come back to the question of Canada having turned over the absolute control of her nickel mines to a foreign country, presumably the United States, but as a matter of fact to Germany, where the Canadian nickel deposits are owned and for whom a professed American company refines them and sells them under the direction of said owners in Germany! This is a hard thing to say, but it is true, and perhaps a good way of restating the case is to quote Saturday Night of this week, which has the following:

week, which has the following:

Mr. W. F. Maclean, M.P., did not succeed in making the nickel question the paramount issue in North Perth, but his attempt deserved to succeed. The situation with regard to our nickel wealth is deploable and anomalous. We possess the largest known deposit of this valuable industrial metal, and yet we get no industrial benefits from it, beyond the carnings of the miners and workers who prepare the crude matte for shipment to other countries. The benefits of a policy similar to that adopted when an embargo was placed on the export of unsawn timber are too plain to permit of argument. That policy made dying towns in Ontario and Quebec prospercus centres of industry. Nickel procuse of \$24,250.

With three districts still to make returns, Secours National's French Flag Day totaled the magnificent sum of \$24,250.

Vive la France! In spirit and in truth the slogan went thru Toronto yesterday, when bearers of the little would be vastly more important than the mere production of sawn timber and pulp.

Yet we find the Hearst government when he says that the Nickel Trust 'has been able to assure the two Conservative governments of Canada that they consess the largest known deposit of this valuation of the canada that they need an ormalous. We possess the largest known deposit of this valuation of the countries. The begins of the countries and more and workers who prepare the crude matte for shipment of the magnificent sum of \$24,250.

With three districts still to make returns, Secours National's French Flag Day totaled the magnificent would accrue from manufacturing them on our own soil that the slogan went thru Toronto yesterday, when bearers of the little to make the stream of the mere production of sawn timber and pulp.

Yet we find the Hearst government than been the success the largest known deposit of this valuation to canadian tactories.

The situation becomes the more singular than the mere production of sawn timber and pulp.

Yet we find the Hearst government than been the success

sending hundreds of thousands of our sons to the war to engage in it; we have had recruiting meetings going on all over the country; we have the women and daughters of the country working to aid our sons at the front; and we had a great day in the City of Toronto yesterday raising money for the aid of our French aities at Verdun and in that way alleviate the distress caused by this war. And parliament has been busy now in three sessions making further provision for doing our share in the war and IT HAS DONE ALMOST EVERYTHING BUT THE ONE ESSENTIAL THING; THAT IS, PREVENT CANADIAN NICKEL-FROM GETTING TO GERMANY FOR USE IN THE MAKING OF MUNITIONS FOR THE DESTRUCTION OF CANADIAN SOLDIERS BRITISH SOLDIERS AND THE SOLDIERS. STRUCTION OF CANADIAN SOLDIERS, BRITISH SOLDIERS AND THE SOL-DIERS OF THE ALLIES!

True, Sir Robert Borden has told us that he has a written statement from mebody that none of the Canadian nickel is getting to Germany, and true Hon. Frank Cochrane sent one of his controllers, Major Graham Bell, to the States to check off the nickel refined from Canadian ore; and true also there is a big corps

of British secret agents watching Canadian nickel when it gets over there.

But it is also true that the Deutschiand is loading up with Canadian ore, and it is also true that Canadian nickel is used every day by the German nation in their attacks on the civilization of the world. But we have Sir Robert Borden's states ment that he has been assured that everything is all right in this respect. We also have the assurance of Hon. Mr. Hearst of the Ontario Government that everything is all right, and that the policy of the Ontario Government is only what it ought to be in this respect, and that Canadians ought to be proud that they are running up be in this respect, and that Canadians ought to be proud that they are running up a debt of several millions of dollars in this way, while they are also aiding in supplying Germans with nickel! Mr. Hearst has also received assurances, and no doubt in this respect they are well satisfied that they have got these assurances in writing, as did Sir Robert Borden.

And we are also quite convinced that the Germans are laughing in their sleeves at their success in putting it over Canadians and Canadian public men and Canadian governments; and they are also probably rejoicing to find out how well they dian governments; and they are also probably rejoicing to find out now well they are being assisted by a large number of newspapers in Canada, and especially Liberal newspapers like The Globe, and how they are being assisted by Liberal party thru their chief representatives and especially by the silence of Sir Wilfrid Laurier and Mr. N. W. Rowell, now engaged on social reform topical And meanwhile we say again the Deutschland is loading up with Canadian nickel!

This may be all very well for the politicians and for the Canadian Minister of

states that it is to be warmer today, promising a business for straw hats. Dineen's, at Yonge and Temperance streets, can show a larger line of fine summer hats than any retail hatter in Canada. The store will be caused. This may be all very well for the politicians and for the Canadian Minister of the Crown, but it is mighty severe for the Canadian people who are spending all their money and getting paid back in a nickel coinage of the kind above referred to. It is the most expensive nickel coinage Canada ever minted, and means a heavy toll on the sons of Canada and very destructive to the cause of liberty, freedom and the safety of the life of the British Empirel And yet Sir Robert Borden has this assurance that the British Government has given him, and the Hon. Frank Cochane has the assurance his controller gives him; and if there is anything a solution likes it is a written axhibit. But Canadians take no stock in this kind. politician likes it is a written exhibit. But Canadians take no stock in this kind of political deception. The trouble is that the Canadian governments, both this and the preceding one, went wrong on the nickel business and were led into a wrong policy by the clever agents of the American Nickel Co., alias the nickel wrong policy by the clever agents of the American Nickel Co., alias the nickel trust that has its headquarters at Frankfort, Germany; and so satisfied are both governments in regard to this condition of affairs that they are not going to do anything to stop it! Let the war go on for seven years more, and no move will be anything to stop it! Let the war go on for seven years more, and no move will be made! They tax the people millions of dollars of money and see the Canadian nickel shipped from the United States to Germany, to be there used against us; and there will probably be other boats like the Deutschland in New York ports shortly for more nickel; and yet the prime ministers will tell the people that they have the assurance of somebody that all is well and the greatest honor paid to Canada was ed and carried by the British army between the Solithic and the greatest honor paid to Canada was the Ancre Rivers early yesterday morning. immediately driven out by a rush of British infantry. Our troops appear to have gained a complete moral ascendency over the enemy.

From the despatch of Sir Douglas Haig, announcing the success, it can be seen that the attack was methodically prepared for. After the enemy had lost his first system of defence he was driven back, step by step, on his second system. The British artillery spent July 11 and 12 in bombarding the formidable German positions, and the infantry spent these two days in making other necessary preparations for the achieving of a further advance. One assault only was launched and that assault was decisive. The bombardment began at 3 o'clock in the morning and the infantry lines swarmed over the remains of the organized works of the enemy just 25 minutes later. In a few minutes they had ousted the Germans. The resourceful British officers befooled the enemy by making him believe that the assault was going to come
from another direction than it actually came. Thus, the element of surprise
played a big part in the carrying out of this successful stroke.

significance attaching to this is that the Germans are too hard pressed to counter-attack and try to win back the ground lost to the French on the banks of the Somme. It would not be like that a year ago. Any allied assaults then were sure to stir up a hornet's nest. The German soldier has lost much of his old-time aggressiveness. The French sent an aviator, out to bombard the Town of Mulheim, on the right bank of the Rhine, in reprisal for the German bombardment of the open town of Luneville.

The Belgians report that intense artillery duels prevail on their front. They are preparing the way for the regaining of their country.

West of the Stripa River in southeastern Galica, the Russians are letting the Austrian and German troops beat their heads off in attacking their strong defence. Furlous counter-attacks, launched by the Teuton troops, suffered repulse. The making of counter-attacks shows that the Russians have captured some positions and the enemy is trying to oust them before these are consolidated. The Russians took \$200 prisoners, two guns, 19 machine guns and a bomb-thrower. The capture of guns indicates an advance of two or three miles. On the Stokhed the Russians are established on the left bank. They are being furiously attacked by the Austrians and Germans and these are also starting a furious bombardment of the Russians in the region of the lower Lipa. The Austrians claim that they have retaken their old positions lower Lipa. The Austrians claim that they have retaken their old positions on the heights west of the upper Moldava and they have repulsed two Russian attacks on a broad front, west and northwest of Buczacz. The Russians gained ground in a third attack, but the Austrians claim that they were completely ejected in night fighting. North of the Kovel-Sarny railway the Austrians assert that the Russians gained a footing on the left bank of the Stokhod River, but they say that by a surprise attack late in the evening they drove the Russians back and took 160 prisoners.

Rumors of peace have come out of Austria-Hungary so often and they have as often proved abortive that there would perhaps be a tendency to disresard the present upheaval in the Austrian cabinet, whereby Count Andrassy, leader of the opposition, is to succeed Baron Burlan as premier. Count Andrassy has before attempted to negotiate a separate peace with the allies, but the Austrian demands have hitherto been too high. But the disastrous defeats of the Austro-Hungarian armies, coupled with the revelation that by defending Kovel, Germany intends to use the Austrian armies to defend Berlin instead of Vienna and Budapest, may well cause the Austrian Government to lesten to reason.

Bedside.

The Canadian Pacific Railway has established a new high record in the matter of earnings. The gross earnings for the month of April, 1916, were \$3,425,440 greater than in April, 1915. The increase in the company's gross earnings from July 1, 1915, to April 20, 1916, was \$21,-025,48

the city, and I think a grant of \$200 would be carried thru council."

H. H. Newman, solicitor for the Citizens' Freight and Express Campaign, was of the decided opinion that the express companies are guilty of misrepresentation, instancing the conditions under which agents at outside points accept goods to be delivered to residents in the city. In very many cases demurrage was charged on goods which they required people to call for.

Finding Enemies.

A. Hanna, East Toronto, said he appreciated the business methods carried out by the express and freight campaign. "You are finding out your enemies," he said, "and you are preparing your ammunition in a splendid way. We have in our midst a sort of piracy which fleeces us out of our rights, and East Toronto thoroly endorses this campaign."

F. Patience, East Toronto, also endorsed Mr. Hanna's statements, charging that the express and railway companies were allied corporations. "They are getting thin-skinned since our campaign started," he said.

L. Jarvis, Oakwood, declared that the day would come when the merchants would show to the City of Toronto the unjust treatment received from the express companies.

### GOOD TAILORING ESSENTIAL. Suits Turned Out by Hickey's Carefully Made and Fitted.

Careful tailoring is an absolute necessity for clothes to wear long and retain style. No matter how good the cloth a suit which has not been put together in a careful and painstaking way soon begins to look shabby. Hickey's, at 97 Yonge street, have a wide range of suits correct in every detail, at moderate prices.

#### WILL DEMAND IMPROVED HIGHWAYS NEXT SPRING

ew Toronto and Mimico Decide Present Conditions Cannot Continue.

Matters have reached such a stage in the villages of New Toronto and Mimico that irrespective of any action the 'Toronto-Hamilton or York Highway Commission may take, the residents living in the two villages will demand improved highways before next spring no matter how the cost is assessed. In New Toronto three or four new factories are either in course of erection or under contempletion and Reeve Ionsides of that town and Reeve John Harrison of Mimico have decided that present conditions cannot continue. A meeting of the York Highway Commission was held yesterday, but it is said that there is no solution of the trouble as between the two commissions and no prospect of any. Etobicoke Township council are apuarently helpless in the matter. Nobody knows who is responsible for the Lake Shore road.

Ald Ball Speaks.

Ald. H. Ball eulogized the work of Chairman J. R. MacNicol and the executive committee in arousing the enthusiasm of the merchants in the outlying sections. The alderman was of the opinion that there should be no express companies. The parcels post delivered in the city and suburbs, and was handled by the Dominion Government.

"We must depend upon the ordinary straight code of justice which the public demands," said the alderman. "With free express delivery, I am satisfied that not only merchants, but residents, will get more parcels to their homes and create an interchange of traffic. The residents of the suburbs are entitled to financial help, the same as those in the centre of the city, and I think a grant of \$200 would be carried thru council."

CONSIDER THE QUALITY in straw hats that usually cost \$1.25, \$1.50 and \$2 and you'll get an accurate idea of the value of these. We've priced them almost without regard to their actual value for a record selling this morning. The sizes are broken, but there is ample variety, as you will notice when you see them piled up all of a size on tables by themselves, for quick selection. There are sennit-braid straws with plain or notch edge, a hat of exceptionally fine split straw, and another of coarse fancy straw, this latter style being smartly trimmed with a "Palm Beach" band. Altogether this is one of the most noteworthy EATON savings in hats we remember ever offering, and at a price within the reach of most men. Sizes in the lot from 6 5-8 to 7 3-8. Allies Will Confine Themselves to Applying Historic Rules.

LONDON, July 14, 11.45 p.m ..- The British foreign office addressed a note to neutral governments today, explaining the reasons which prompted the adondonment of the declaration of London. The declaration was abrogated by an order-in-council published on July'8, and a similar decree was issued

in Paris on the same day. The present British note explains that the allies adopted the declaration of London at the beginning of war, because in their anxiety to conform to international law, they believed the declaration provided a suitable digest

Accidental death was the verdict of the coroner's jury at the morgue last night, under Coroner W. A. Young, in the case of young Floyd Thomas, who was killed on the C.P.R. siding at West Toronto behind the factory of the Hansen-Van Winkle Company.

The evidence of the factory foreman and the members of the train crew showed that in coupling up-a-car on the siding the car was shoved against the bank at the rail end, and the young chap was crushed between the freight car and the bank, death being due to a broken neck and other injuries. One of the train crew had walked around the car a minute before the accident, and testified that the boy was not there at the time, and was not seen by them before the accident.

As a rider to the verdict, the jury recommended that a fence be built at this point that would absolutely stop pedestrians crossing the tracks, and that all sidings be equipped with bumpers, which might prevent similar accidents. The crew were exonerated from all blame.

## DAIRYING SEASON IN

By a Staff Reporter.

Surpass All Previous Records.

OTTAWA, July 14.-The dairying season in Canada has been an excellent one and the cheese production of the Dominion will probably this year reach record figures. Prices are higher and exporters are finding little difficulty in securing adequate ocean tonnage. The admiralty has made arrangements for space in the transports. The average sailing from Montreal is about one steamer per day. The total export will in all likelihood be two hundred million pounds as compared with one hundred and fifty millions ast year.
Western Canada is now supplying its own dairying needs and there is a surplus from British Columbia.

LONDON. July 15.—At the fifth day hearing of the school appeal in the privy council. Sir John Simon replied for the appellants on the whole case, but his lordship gave no indication what the decision would be. The second appeal subsequently was called on, in which the same appellants and the Ottawa Corporation Separate School Commission are respondents. This appeal is consolidated with the third appeal by the trustees, in which the Quebec Bank and the Ottawa Separate School Commission are respondents.

Separate School Commission are respondents.

Sir John Simon remarked, in reply to the lord chancellor, that the decision in the case just concluded did not necessarily decide the questions in these latter appeals. If their lordships had intimated their judgment in the first appeal, it would be for their clients, the trustees. Then he thought it would only have been necessary to have briefly mentioned what this appeal was about, as he believed, if the first appeal was allowed, the second appeal would be unarguable by the respondents. The trustees in this case had brought actions against respondents, claiming injunctions to restrain the corporation from paying to the commission, and the latter from receiving, the school rates collected by the corporation for the trustees.

trustees.

The action against the bank and separate school commission was for an injunction to restrain the bank from paying to the commission moneys of the trustees deposited in the name of the appellants. In that case, too, the action was dismissed, and hearing adjourned.

A conviction made in the police court on March 10 last, by Mr. Kingsford, where J. G. Arnold was found guilty of neglecting to provide for his wife and was fined \$50 and costs, was quashed yesterday by Judge Morson. According to an agreement signed by Mrs. Arnold in 1914, she agreed that on condition of her husband paying \$4 a week for the support of their child she would release him from all liability for her support. Acting Crown Attorney Thurston argued that no agreement could override the criminal code, and that as the parties had lived together since the agreement was signed it was now void. His honor refused to consider the agreement void, and, in quashing the conviction, he advised Mrs. Arnold to sue for alimony. He added that the case was not for the criminal court.

Those who stay at home and try to evade service will pay in harder times to follow and in higher prices, and after the war is over in the everlasting contempt of those who return. This is an element which should not be overlooked. There is plenty of evidence of it in letters from the front now. Even the men who, dressed in khaki, lounge about at home because they cannot get attached, or transfer from one battalion going to the front to another staying at home, will not escape the general classification.

## A Great War Book

"The Undying Story," by Dougla. Newton, Toronto; McClelland, Goodchile & Stewart, Limited; \$1.35.

"We are concerned with the undying nistory of heroism. Others more capable have and will discuss the technicalities of war and the scientific value of fighting." Thus Mr. Newton sums up the purpose of his thrilling volume, which gives vivid and memorable pic tures of the first three months of the war until the first battle of Ypres.
After reading the book it almost seems as the no other war had any further interest. The absorbing issue, the engrossing detail, the fascinating incidents and the constantly growing sense that it this region we have the sense that in this period we have the critical moments of the great war in which the tide definitely turned renrest of our lives reading the stories will be to be familiar with the ful months of battle. The whole book has an epic grandeur which will appeal more to the general reader than to the academic technician. The facts are given, and they are set in an atmosphere which serves to impart something at least of the impression that such experiences create on those who endure them. Bare bones of figures and facts gather the living flesh of movement and sequence about them in Mr. Newton's narrative. The account of the first impact of the Germans upon the British army near Mons has always.

At the soldiers' convalescent home by the serveryone wanted to help. A man in khaki crossed the road, coin in hand to pay for his little flag. On the verandah the big member of the High-landers who looked so fit and the slight hero who had left his arm overseas were all in sympathy with the day.

"Buy a flag?" called a girl to a body of marching soldiers. Most of the men had flags, but the answer came cheerily back, "We'll help them with our artillery, an dthat will be even and essential features of the first fate-Germans upon the British army near Mons has already become a classic. Mons has already become a classic. "The attack that was meant to overwhelm failed to overwhelm As the packed ranks of Germans came on like a crowd breaking away from a football match, the British private, disdaining the lash of the shrapnel, held his fire. The Germans rolled forward, clanting their hymns, some say, evidently exultant, evidently certain that the massed rush was going to sweep

so they remained until the enterly arrived at the most deadly point of their rifles' trajectory. Then, in a crash, every trench loosed, every spitting maxim was turned on full at the tap. It was like cutting down hay, the privates said. Before that awful pelting of nickeled bullets, rank after summer reading to give bill or coin and to pin on their cassocks the little rank of the blue-gray host went sink-ing into the earth. The Germans stuck to it gamely, pushing on in a dazed way; but the gale of that awful, steadily calm British firing was too much for them; its scythe-like cut threw them down in heaps. They wavered, broke and went back. The German broke and children surrounded the vendor, holdidren surrounded the vendor of its power. In centuries to come these days will be read about as we read thru years ago of Crecy, of Agin-court, of Waterloo. Those historic skirmishes but served to generate the spirit which filled the men who fought

the battles of the first army in arm of the service contributed to the result. It is a glorious record for the cavalry. "We went thru the Uhlans like brown paper," said General Chet-wode at Charleroi. Even the Light Horse, like the 12th Lancers and the 20th Hussars, rode thru the heavy German squadrons with leavy corps like the Scots Greys broke to pieces. It was at Coulom niers that "forty-five British squadrons met seventy-two of the German divisions fought them and smashed them." There are as many brilliant exploits of the artillery, "the unquenchable field artillery," as Mr. Newton has it, as on "the glorious

Newton has it, as on "the glorious 26th of August," when, "in the inveterate way of the guns," 150 of them fixed the concentrated fire of 600 mark. Madame Rochereau, wife of the Franch consul, was among this number making in her district \$624. Suburbs Did Splendidly.

Good news came pouring in as to the outside points. "The Beaches have nen, they put four enemy guns out of action. ### SARAH BERNHARDT PLANS TRIP TO CANADA AND U.S.

Sarah Bernhardt, the celebrated French actress, now in her 72nd year, has entered into an engagement to act in the United States and in Canada next fall. It will be remembered that Madame Bernhardt lost one of her legs two years ago, but this "inconvenience" has not paralyzed her enerity. A peculiar feature of her visit will be that the plays have been adapted to her physical disability. The "Divine Sarah" has just returned from a professional visit to the front, where she gave several performances to the soldiers. Sarah Bernhardt, the celebrated French

"SMITH" AT THE ALEXANDRA. In spite of the humidity outside, the patrons of the Robins Players, who will present W. Somerset Maugham's charming comedy success, "Smith," at the Alexandra Theatre next week, can enjoy a humorous evening's entertainment in solid comfort. The big cooling plant which keeps that spacious playhouse to a temperature of 65 degrees sends forth pure, frozen, perfumed air in an atmosphere cooling and refreshing. There is no need of one sweltering on the outside, or dread a visit to the warm theatre when one has the Robins Players in mind, as it is a known fact that the Alexandra is far more comfortable and invigorating than on the outside.

"Smith" was formerly used as a staring vehicle for John Drew, who scored enormous popularity in the role of Tom Freeman both on Broadway and its road tour. The action of the play revolves around Tom, an Englishman, who, after eight years of hard and profitable toil in Rhodesia, returns to his native land in search of a wife. present W. HIPPODROME BILL.

For next week the Hippodrome management announces as the headline attraction of a bright bill. Josephine Davis, "the new star of songland," featuring the newest song successes of the season. The talented dramatic star, f. B. Warner, well remembered here for his fine acting in "Allas Jimmy Valentine," will be featured in the special Triangle film, "The Beggar of Cawnpore." Tracey and McBride, new-comers to Toronto, will introduce their own laughable vaudeville specialty, while Rice. Elmer and Tom have a clever comedy acrobatic sketch. Horton and La Triska, "the clown and the Human Doll," have a unique specialty that contains a genuine surprise, while White and White have a most attractive song, dance and musical oftering. Rice and Brown are black-faced comedians.

"THE CHRISTIAN" AT STRAND.

A bill of compelling and vital interest has been arranged for all next week at the Strand Theatre. The headliner will be Hall Caine's magnificent scenes and with a presenting cast of over 3000 people. This fine photo-drama is a V.L. S.E. production, and Edith Storey is seen as Glory Quayle and Earle Williams as John Storm. The staging and scenic effects are of the most sumptuous and superb description, the English Derby Day

"Puppets of Fate." This is the first number of a series of problem-playseach one a complete play in itself—which strike the note of "Who's Guilty?"

LOEW'S YONGE STREET THEATRE.

The celebrated Fridkowski troupe, wonderful Russian singers and dancers, the most amazing act of its kind ever shown in vaudeville, will be shown as the headline attraction at Loew's Yonge street theatre the coming week. This is an elaborate spectacle, which recently headlined the bill at the Palace Theatre, New York, and created a sensation.

Plenty of fun is sure to be on tap when the American comedy four, the "sure fire" quartet, start working. They offer four characters, a colored man, an old "Legit," a spont and an effeminate character. William Cahill, the Irish wit, will tell some of his latest dialect stories.

Murtle Riggs and Bernard Ryan will Myrtle Riggs and Bernard Ryan will present a dainty little sketch, with song, entitled "Disturbing the Peace." Many other acts will be added, including an-other chapter of the popular Iron Claw

MADISON.

Charlie Chaplin, Fannie Ward and Edna Goodrich are the three stars at the Madison Theatre next week. Side-splitting Charlie and Fannie Ward will hold down the screen for the first half of the week. Chaplin appearing in his latest scream inducer, "The Vagabond," which is easily the best thing he has produced, while Fannie Ward has a play especially written for her entitled, "A Cutter Magdalene." "The Making of Maddalena," the vehicle of Edna Goodrich for the latter part of the week, is the story of a beautiful Italian model who marries a young American. The play introduces many novel twists and is sumptuously produced.

Manning Pitched Superb Ball to Score a Shutout-Triple Steal Pulled.

The fair fans were treated very nicely. It was ladies' day at the ball yard yesterday, and one of the finest brands of the great summer pastime was dished up. Old Walter Manning, hero of many a diamond tussic, added another feat of glory to his long string. Walter had the hard-hitting Providence team at his mercy thruout the afternoon. The Grays secured only two hits in nine innings. It is needless to say we scored a 4-to-0 shut-out. Providence had only twenty-seven legally at bat; add two that walked and a hit batsman to this, and it will give you an dea of the kind of pitching Manning was

Besides the pitching stunt, picture triple-steal pulled, and Mr. Graham contributing four hits in as many times at bat. It was one large afternoon. Only one Providence runner reached third base and their two hits were widely separated. The local lot again supplied excellent fielding, and the victory was the fifth

fielding, and the victory was the fifth straight, and eight out of the last ten games—a pretty fast clip, that should soon land them close to the leaders. Trout pulled off a couple of running catches, and the infield worked like a well-oiled machine. It was pretty ball thruout.

The Leafs opened the scoring in their first time at bat. Truesdale walked, was sacrificed to second, took third on a wild pith, and rode home on Graham's rap to right.

The triple-steal was pulled in the third. Truesdale was out, Billiard to Yelle. Smith bunted safely. Murray walked, Smith going to second. Graham singled to right, filling the sacks. Smith stole home while Billiard was winding up/Murray and Graham each advanced a peg, registering a triple-steal. Thompson flied to Eayrs. R. Blackburne singled to left, scoring Murray and Graham. Blackburne was caught trying to make second on the throw-in.

This ended the scoring, but the Leafs

was caught trying to make second on the throw-in.

This ended the scoring, but the Leafs crowded in a few more hits before the finish. After the fourth round, where Providence got their second hit, everybody was pulling for Manning to keep them to the two safeties. Manning got better as he progressed, and the Grays were simply baffled.

Manning grabbed Kane's pop bunt in the second and threw to first for a double-play, with Fabrique half-way down to second. Trout was hit by Truesdale's batted ball in the fourth and declared out. Catcher Paul Kritchell reported yesterday and will likely be used in one of the games this afternoon.

## Montreal Police Games No Outside Competitors

ation.

In past seasons it has been customary for the Toronto and Ottawa police forces to send representatives to these games, and in turn the local police force was always represented at the annual meets at the Queen City and at the capital. However, there will be no meets in these cities this season, the war being the reason for the suspension of athletics by both the Toronto and Ottawa forces.

As this city takes only a passing interest in the war, there are enough entries from the Montreal force this season to furnish plenty of competition.

Shot at Broke. Alleged Disorderly

CINCINNATI, July 14.—John J. Mc-Graw, manager of the New York National League team, was arrested here late tonight on a warrant sworn out by John T. Reed, a local fan, charging him with disorderly conduct. McGraw gave bond for his appearance in the municipal court tomorrow and left with the team for St. Louis tonight.

Trouble started after the game when remarks by several spectators were addressed to the New York team while they were in their dressing rooms. McGraw resented the remarks. There was no blow struck, but some ugly language was used, according to the police.

After McGraw's arrest, Arthur Fletcher, shortstop of the New York Club, swore to a warrant causing Reed's arrest.

HERZOG FOR NEW YORK. NEW YORK. July 14.—Formal announcement of the trade or sale of Charley Herzog, manager of the Cincinnati Reds, to the New York Giants is expected to be made tomorre. President Herrmann of the Reds had a conference with President Hempstead of the Giants today, at which details of the trade were discuszed. Secretary John Foster is in Cincinnati with the Giants. He will consult with the Fleischmann interests in the Cincinnati Club.

One rumor in circulation here today was that Larry Doyle and one other Giant would be traded for Herzog. No confirmation was obtainable as to the New York players to be involved in the deal.

CLEVELAND. O. July 14—Ed. F. Geera, veteran grand circuit criver and trainer, who was badly hurt here yesterday when he fell under the heels of a horse on the North Randell track, passed a comfortable night at the hospital, where he is convalescing, and was reported in good condition today.

Suits that add to every man's reputation for good dressing

IT'S rather a natural desire on the part of every man to look well dressed-you've had suits that always made you feel that way-ours is a stock of such suits exclusively.

THEY'RE tailored in a very painstaking and careful way that makes their good style a permanent feature throughout their whole long life of service. And the suits are available for men of all builds-we're as well equipped to fit stout, slim or short men as we are to fit regularly built men.

### LEVINSKY BESTS DILLON

BAI/TIMORE, Md.. July 13.—Battling Levinsky of New York outpointed Jack Dillon of Indianapolis in almost every round of a ten-round match here this afternoon, and punished him severely in the later rounds. No decision was given. The men are lightheavyweights. The bout was originally billed as a fifteen-round match to a decision, but on account of the poor attendance a ten-round no-decision contest was substituted.

chased by Umpire O Day in the strike had been called on him. But it develops that McGraw ordered Kauff out of the game, and that the umpire had nothing to do with the incident.

McGraw knew that Kauff was trying to furnish an unwarranted alibi for his strikeout. Besides, Bennie on frequent occasions had ignored McGraw's instructions as to inside baseball methods. Kauff was informed that he had not been hired to be an umpire, and that if there was any kicking to be done in the future McGraw would attend to it himself.

Evidently the Giant manager has come to the conclusion that he will get better results from Kauff by handling without gloves and making him walk the chalk line and live up to all the rules. Bennie was such a great star in the outlaw Fed league last year that he probably came to the conclusion he could do as he pleased, but McGraw wants him to

### CONFERENCE HELD

Officials of Number Three Military District Discuss Organization.

Special to The Toronto World. KINGSTON. Ont., July 14 .- "That immediate steps be taken to place the work of recruiting on a thoroly organized basis under a staff of competent military and business men, and that the chief recruiting officer of the district be given every facility to accomplish this work. That a canvass be made of all the males of military age, and that for the purposes of recruiting and the interests of both economy and efficiency the whole military district be divided into a number of smaller districts, each under a competent staff who shall be responsible for recruiting of all branches of the service, and who shall be immediately responsible to the chief recruiting of

floer and under his direct supervision."
The above resolution was passed this afternoon at a meeting held in the city hall, which took the form of a conference for the purpose of devising ways and means to stimulate recruiting in the 3rd military district. resolution was moved by Capt. G. I. Campbell of Kingston, and seconded by Lieut.-Col. Watt, Smith's Falls. The resolution also expressed appreciation of the splendid services of the minister of militia and assured him of thei

BABES REQUIRE WATER

**DURING HOT WEATHER** Nursing Infants Especially Need

Plenty of Cooled Boiled Water and Less Food.

The lack of a tiny sip of water may mean your baby's death!

Nursing habies get especially thirsty n hot weather. They should be given slenty of cooled boiled water to drink. Do not give it just before feeding time, however, unless ordered by the dector. doctor.

Give it between feedings.

Too often when baby cries the mother hastens to put it to the breast or to give it the nursing bottle. This is wrong

give it the nursing bottle. This is wrong for two reasons: First, in many cases baby is only crying because it wants a drink of water and not a meal. Secondly, this practice generally results in overfeeding of baby. Overfed babies are the ones most likely to fall sick during the summer months.

Sometimes the doctor orders barley or oatmeal water for baby. When such is the case, prepare as follows:

Add two tablespoonfuls of washed pearl barley or of oatmeal as the case may be, to a quart of cold water. Boil this down to a pint, cooking slowly for about two hours. Then strain while hot, and add a sufficient quantity of cold boiled water to make a quart of the fluid. Keep cool in a covered jar.

#### PACIFIST WILL BECOME PREMIER OF AUSTRIA

LONDON, July 15 .- Discussing the alleged political crisis in Austria the Milan correspondent of The Telegraph pointed Austrian minister for foreign affairs, to succeed Baron Burian, who is to retire. The correspondent adds that Count Andrassy recently paid an unsuccessful visit to Switzerland in an effort to arrange a basis of peace with

Burian succeeded Count Baron Berchtold as Austrian foreign minister in January, 1915. By the entente allies he was regarded as being under the domination of German influence, and his appointment was viewed in Petrograd as putting an end to the peace rumors then being circulated. He was severely criticized for his failure to prevent Italy from entering the war, and his resignation has been frequently reported since that time. Count Julius Andrassy was formerly premier of Hungary and is one of the most prominent leaders of the Hungarian party. He is credited with being a peace advocate and is regarded in Austria as an advanced liberal and modernist. Count Andrassy has been particularly insistent that Roumania must be kept out of the war. A year ago news despatches from Vienna stated that he had applied to the emperor to cede Bukowina to Roumania as the price of her continue

PARIS, July 14—Altho the German infantry, lacking the support they received in the days when the crown prince's reinforcements apparently were limitless, have abandoned momentarily their assult upon Fort Souville, the violent cannonading reported yesterday afternoon presages further fighting at this point.

There was sledge-hammer strength behind the blows struck at the French lines Wedneeday. The Souville attack was begun by six regiments and ended with the same number, minus losses of over 30 per cent. It was not seconded by fresh brigades with which, a few sweeks ago, the crown prince always supplemented the troops which had it started the ball rolling, for the simple reason that fresh brigades no longer are supplied.

THE CANADIAN CASUALTY AND BOILER INSURANCE COMPANY, LTD., Temple Building, Toronto, No. 157 Bay Street, Toronto, Solicitors for the Said Company, Str.

MACINTOSH, of 26 Adelaide Street West, Toronto, Solicitors for the Said Company, Stf.

SALE OR LEASE OF PROPERTY, CObalt Gem Mining Company, Limited.

An order having been made for the winding up of the Cobalt Gem Mining Co., Limited, the Liquidator has been instructed to ask for tenders for the sale or lease of the property.

The property is a twenty-acre patented location, being the east half of the southwest quarter of the south half of Lot 3, Concession 4, Coleman Township, district of Timiskaming, Ontario, situate about three-eighths of a mile southwest of the Kerr Lake Mine. It is a property from which one nugget, said to weigh 1640 lbs. and said to contain 9715 fine ounces of silver, was obtained:

A shaft 200 feet deep was sunk, with drifts run on the 100 and 200 foot levels for about 100 feet. A tunnel has been run about 125 feet. Several veins have been discovered.

The mins has a blacksmith's shop, drills, tools, log camp, buildings, office and holst, connected with hydraulic air, and from its location presents good possibilities.

The work was discontinued from lack of funds.

Tenders are asked for the purchase of the property on the terms of an acceptain equal instalments 20, 60 and 30 days thereafter. Tenders for the purchase on other terms than the above will also be considered.

While the Liquidator desires to sell the property, tenders for heasing the property on the basis of paying a cash sum down, and a royalty will be considered, and the property will be leased if a satisfactory sale is not made. The highest or any tenders must be in writing and sealed and addressed to "The Master-in-Ordinary, Osgoode Hall, Toronto," and delivered to him on or before eleven o'clock in the forenoon on the 21st day of July, 1916, when tenders will be considered, and the property will be classed if a satisfactory sale is not made. The highest or any tender will not necessarily be accepted.

All tenders must be in writing and sealed and addressed to "The Master-in-Ordinary, Osgoode Hall, Toronto," and delivered to him on or before eleven o'clock in the forenoon on the 21st day of July, 1916, when NOTICE is hereby given that a Bylaw was passed by the Council of the Corporation of the City of Toronto on the 16th day of July, 1916, to authorize the 16sue of "City of Toronto Street Railway Debentures" to the amount of \$38,000.00, for the purpose of paying for constructing a pavement upon a portion of Yonge street, occupied by the right-of-way of the Toronto Railway Company, from the northerly terminus of the tracks of the said Company to a point between Farnham Avenue and Woodlawn Avenue; and that said Bylaw was registered in the Registry Office for the Eastern Division of the City of Toronto on the 14th day of July, 1916.

Any motion to quash or set aside the same, or any part thereof, must be made within three months from the 15th day of July, 1916, the date of the first publication of this notice, and cannot be made thereafter.

W. A. LITTLEJOHN. thereafter.

FOE SMUGGLES DIAMONDS ON SUBMARINE TO U.S.

LONDON, July 14.—A despatch to The Chronicle from Amsterdam says that the real significance of the German submarine Deutschland's voyage to America will probably be found to lie in the word "diamonds." It will be seen later, the despatch says, that the voyage marks the accomplishment of a purpose which the allies hitherto were able largely to thwart and control. It had long been the object of Germany to realize the value of the huge stock of diamonds from her late colony in West Africa.

Stringent measures have liken taken in Holland to prevent the extortation of these German diamonds. Experts

Sharp Rebound Marked After- Full Mill Capacity Not Reached noon's Transactions at New York.

RAILS START DECLINE

Ready Absorption of Reading Gave Market Revival in Confidence.

NEW YORK, July 14.—Extreme depression in the forehoon, when numerous specialties dropped to lowest prices of recent months of the year, and a sharp rebound in the afternoon, when losses were largely replaced by substantial gains, constituted the contrasting features of today's feverish market. In keeping with the movement of the early week, weakness was most acute in the war issues, notably the equipments, industrials and motors, together with coppers, Industrial Alcohol and Mexican Petroleum.

pers. Industrial Alcohol and Mexical Petroleum.

Loss in Crucible and Lackawanna Steels, American and Baldwin Locomotives, New York Air Brake, Inspiration and Tennessee Copper and Alcohol ranged from 2 to 4 points, but United States Steel at no time fell more than a fraction and was among the first to recover. A widely assorted list of unclassified stocks, including the fertilizers, moved with the early current of liquidation, their losses of 1 to 2 points resulting more from the lack of demand than actual pressure.

eign exchange markets was the slight hardening of rates on Berlin and Rome, with ne appreciable aleration in sterling or francs. Forecasts indicate a large cash gain for the week by local banks, which last week suffered a farm of about \$53,000.000. \$53,000.000.

Persistent selling of the Anglo-French fives:marked the day's irregular dealings in bonds. Total sales (par value), \$3.-

HOLLINGER SCRIP DELAYED.

Scrip of the Hollinger Consolidated is being distributed to the share-holders of the Hollinger Gold Mines just as fast as the office of the company here can handle the exchange. Some delay has occurred owing to the en-graving of the new certificates being graving of the new certificates being held up, but now that the new stock has been received from the engraver, it will be sent out as fast as the old shares are received. It is learned that been received from the engraver, these latter are coming in fairly rapidly.

more from the lack of demand than actual pressure.

Canadian Pacific, Reading, Lehigh Valley and Norfolk and Western furnished the basis of forencon pessimism with recessions of 1 to 1½ points, but the free absorption of Reading in the final hour helped to turn the scales.

Shipping stocks were moderately heavy on light offerings, but came forward with rafis later. Final prices recorded numerous het gains, the only notable exceptions being Tenn. Copper, Crucible and Baldwin. Short covering was a factor of no small importance towards the adjournment of quoted values. Total sales amounted to 670,000 shares.

Jones and Baker, brokers of New York, had the following in their market Speculative Edge Off Toronto Market and Former Bulls Are Now the Chief Sellers.

the vein is said to look very promising.

The news is not surprising in view of recent developments. Liquidation proceeded on a larger recent developments at the Adanac of Canada, Cement, Brazilian and Steel property. Only last week ruby silver Corporation here the bare and Steel Corporation here the bare and Steel Corporation bore the brunt of the morning sales and new low prices on the present bear movement were rethis level, which was taken as an almost certain indication of the near presence of a body of high-grade ore. The east winze is now down about 340 feet, and on the 330-foot level a drift is within 15 feet of being under the ore body which was discovered at the 280-foot level. If present indications count for anything, Adamac will domestic stocks. The selling exhausted to influence on domestic stocks. The selling exhausted the contact of the present bear movement were recorded. The only news that seemed to influence the market was that of the allies' victories, and the chances of allies' victories, and the chances of an early peace. The war specialties in New York took the news in a similar way, and Wall Street's weakness was evidently an influence on domestic stocks. The selling exhausted the level of Can salight selling exhausted domestic stocks. The selling exhausted itself pretty much during the morning session, and in the late business some small rallies were forced. There appears to be little discrimination in the market between the stocks of those companies whose earnings have been largely made up from war orders and those that have not. War supplies for instance have been but an incidental in the earnings of Dominion Steel, yet in the earnings of Dominion Steel, yet these shares are declining in almost equal proportion to those of Steel of Canada, or Cement. The speculative edge is admittedly off the market, and those who were confident buyers a month ago are now the most desirous of selling out of their holdings.

Market Moderately Active With Good Undertone-Some Soft Spots. The mining market at the Standard Stock Exchange yesterday was moderately active. The trend of the market generally was inclined to irregularity, with some stocks strong and cthers soft. The undertone of trading, however, is firm, and no declines

of eny importance have taken place or are likely to take place as long as the market is technically as strong as at

of any importance have taken place or are likely to take place as long as the market is technically as strong as at present. Recessions are caused chiefly by lack of buying.

McKinley-Darragh featured the silver stocks again, while Porcupine Vipond displayed a strong tendency to come back after its weakness of the last couple of days.

Dome Extension was a little reactionary, selling up to 35½, but easing off to 34 on the close. Dome Lake sold off a point to 29, but firmed up ½ a point later. Jupiter closed ½ point down, at 29½. McIntyre opened at 152 and eased off to 150, with 149 bid on the close. There is said to be only a small amount of the stock offering. McIntyre Extension held at 43½, but was very dull. Newray was active and stronger, selling up to 41.

Porcupine-Vipond showed renewed strength, advancing 2½ points, to 41, and closing at the top. The liquidation in Vipond, which was responsible for the break, appears to have ceased. West Dome Consolidated was steady between 35 and 36, closing at the higher figure.

Holders of Adanac offered the stock at 198 and, with the best bid 187, no transactions taking place. It is said that certain interests have been caught short in the stock. Efforts to break the price have failed signally.

McKinley-Darragh featured again in the Cobalt list, opening higher, at 64, selling off on profit-taking to 60. Little news on this property is forthoming, all the directors being up in the north country examining the property. Developments on the 400-ft, level are believed to be the most important made in Cobalt for some time, and, if reports are true, will mean big things for McKinley. It is stated that the finds made at this level just double the ore reserves of the mine as published in their annual statements.

the ore reserves of the mine as pub-lished in their annual statements. Beaver became active during the afternoon and rellied to 40, closing a little lower at 39. Peterson Lake was also largely traded in at 23 to 23½. Scneca-Superior was higher at 45, with 47 bid on the close. Timiskaming eased off 2 points after opening at 56.

Ask.

Houston's annual financial review for 1916 was issued yesterday. This review is now in its seventeenth year of publication and like each of its predecessors the present work is larger and more complete than the previous year's issue. The review is now thoroly established as a complete compendium of Canadian financial matters, and bears a favorable comparison with books of a similar patters. books of a similar nature issued on American securities. Mr. Houston is to be commended for the studious care shown in his publication and the tenacity with which he has carried out his original idea of having a Canadian financial review that would commend itself to investors and financiers the world over.

ENQUIRIES BEING MADE FOR MEXICAN STOCKS.

It is notable that bids have appeared again in the Toronto market for some of the Mexican public utility issues, control of which rests in Canadian hands. Mexican Light and Power common is quoted at 10 bid, which commons with the former minimum of common is quoted at 10 bid, which compares with the former minimum of 46, a range of 32½ to 50 in 1914, and 44 to 82¾ in 1913. There have been no sales since war began. The 5 per cent. bonds due 1933 are being bid for at 35, with 45 asked, against the former minimum of 80.

MONTREAL STOCK MARKET.

MONTREAL, July 14.—New York's late rally, resulting in general improvement in prices in that market, was effective in stimulating a better demand for stocks here this afternoon. Steel of Canada and Scotia were features. The former, after a weak start at 53, sold as high as 53% in the morning, and the close at the highest left a net gain of 1. Scotia dealings were relatively small, about 400 shares, but in the afternoon a light demand advanced the price from 124 to 126, and the close at the latter level left a 24% point gain.

Canada Steamship preferred closed 82% bid after an early low of 81, while the common was quoted 25 bid against a low of 241% in the morning. Bridge, which had sold 41% lower at 210, finished 21% bid against 210 on Thursday. Cement's decline continued 1 lower to 60 in the morning, rallied to 60% in the afternoon and closed 60% bid or un-
