REMARKABLE STATEMENT

Aged Official of Plymouth, Mass. Manipulated Town Funds To Meet Taxes of Friends Which Threatened to Imperilize Them

Plymouth, Mass., Oct. 16.—Benjamin Reed, 68 years, former tax collector and treasurer of Whitman, and known throughout the country as "Honest Ben," today began a two year term in the House of Correction after pleading guilty yesterday to the larceny of town funds amounting to \$25,000. Reed made a remarkable statement to the court, in pleading to the charge. "I may have done wrong, I realize it now and am willing to take my punishment," he said. "I did the best I could. Not one cent of the \$25,000 in my defalcation has been appropriated to my own use, but rather to meet outstanding taxes which threatened to expose my own peculiar style of book-keeping."

EDWARDS TO SUPPORT HON. F. B. CARVELL

Kingston, Ont., Oct. 16.—In an interview today with the Kingston Daily Standard, Dr. J. W. Edwards, M. P., of Frontenac, not only strongly endorsed the union government, but declared that he will give loyal support to the new minister of public works, Hon. Mr. Carvell, with whom the Frontenac member has often crossed swords.

His statement follows: "No matter what I may think of Mr. Carvell's personality or our love-feasts in the Commons, I recognize he possesses some strong characteristics which, in my judgment, he has weakened by his tactics in debate. However, he has been chosen for an important portfolio in the union government and as far as I am concerned, he will receive as loyal support from me as any other member of the cabinet."

"He has in this crisis risen from partisanship and I place that above everything else and am willing to recognize the lofty motives that have actuated him. Personal considerations should have no weight in matters of such vital importance and, so far as I am concerned, they will not have. I will loyally support him in everything that makes for the nation's welfare and for the winning of the war."

The First Billion: Washington, Oct. 16.—Treasury officials declared today that "unless a Liens fall" the Liberty Loan will have reached its first \$1,000,000,000 in subscriptions by tonight.

BRITISH RED CROSS APPEAL

Very complete preparations have been made by the committee in charge of this appeal to give every individual in the city of St. John an opportunity of contributing to this worthy object. The business and professional men of the city will look after their own districts, while the Boy Scouts will look after the residential sections of the city, and every member of the household is asked to have their contribution placed in an envelope, accompanied by their name, if they so wish, and place this in the box which will be presented at their door by one of the Boy Scouts. Every child attending school in the City of St. John will be asked to make its contribution through the teachers. It is expected that there will be an outpouring of generosity equal to the urgency of the appeal for this splendid organization.

TWENTY CARS LEAVE TRACK; MAN KILLED AND ANOTHER HURTS

Quebec, Oct. 16.—A man is dead and another injured following an accident that occurred through the night at St. Agapit, Lotbiniere county, on the Grand Trunk Railway. Alphonse Cote, of Wootton, Wolfe county, and Jules Gagnon, of Danville, were in a freight car with live stock they were taking to Quebec. The freight, which was derailed, was composed of thirty-five cars and twenty of them left the track through a rail spreading. Cote was killed.

WAR CLAIMS HEAVY ON INSURANCE COMPANIES

Ottawa, Oct. 16.—That life insurance companies in Canada were affected by war mortality to a much greater extent than previously is shown in the annual report of the Life Insurance Association, just issued by the department of finance.

During 1916, the forty-five insurance companies in Canada experienced a total of \$4,560,988 as compared with total claims of \$1,957,150 in the preceding two years. The comparative importance of these claims will be realized when it is observed that the total death claims incurred during the war amounted to \$17,800,000, so that the war claims have been approximately 20.8 per cent. of the total claims incurred.

WAR NOTES

THE WORK OF ST. MONICA'S SOCIETY FOR YEAR REVIEWED

Reports as follows were presented at the annual meeting of St. Monica's Society yesterday:

Mariam President, officers and members: The old philosopher's saying that "the velocity with which time flies is infinite as it is apparent to those who look back" comes home more forcibly to us when we realize that this is our seventh annual meeting.

Time has brought us golden opportunities in the short minutes and fleeting hours of the days and weeks of the year gone by wherein to do good to others and thereby do good to ourselves.

I may classify our work of the past year under the following headings: Miscellaneous work, institutional work, charity committee's work and sewing committee.

Miscellaneous Work: \$210 was realized by this society conducting in Nov., 1916, at the Cathedral high tea the "Kum-rie-ian" booth, and this amount given to Rev. Wm. Duke to add to the school fund.

\$10 contributed to return passage home of a woman to Ireland. \$30 voted for treatment of young girl at River Glade Sanatorium.

\$5.00 for purchase of kimona for same patient. \$8.50 donation for patient County Hospital.

\$25 awarded regimental fund 165th Battalion. \$12 awarded boys' catechism class at Industrial Home. Class conducted by Mrs. Jos. Gleason.

\$12 paid for board for a domestic in poor health without home in this city. \$20 given charities committee for extra purchases at Christmas.

\$25 purchase of girls' ticket to Amherst. A special Christmas treat of fruit, candy, etc., was provided for the boys of the Industrial Home.

At Christmas boxes containing socks, and an assortment of practical comforts were forwarded to Rev. Francis Lockary, Catholic chaplain with the First Canadian Brigade, France, also to a soldier whose wife had died while he was in France.

Milk and eggs sent to a tubercular patient for five weeks. Warm underwear provided for patients at River Glade.

In March this society had offered a solemn high mass of requiem in the Cathedral for the souls of New Brunswick soldiers killed in battle since the beginning of the war.

Fifteen masses offered for relatives of members deceased during the year. 196 pairs of beads and scapular medals in cases supplied the Catholic soldiers of the 210th and 17th battalions.

100 pairs of beads forwarded to Rev. F. Lockary, Catholic chaplain in France. Members of this society helped with donations and services at the luncheon held during the social congress held in this city in January last.

Members donated fifty dozen crullers to Canadian Club for reception tendered visiting battalions. Our members also helped the Kindergarten Association by working on tag day.

Institutional Work

Weekly visits have been made by committees from this society to the Home for Incurables, Military Hospital and during the summer to the Convalescent Home. Delicacies and reading matter were provided for the invalids, and to the soldiers fruit, candy, ice cream, magazines and cigarettes were given.

One of our committees during the summer gave an evening's entertainment at the Convalescent Home providing a musical programme and refreshments.

Charity Committee's Work

Mrs. W. E. Scully, convener. Thirty-eight pairs of boots were given out, thirty of which were at tent schools.

Thirty families at Christmas were supplied with bounteous boxes including chickens, vegetables, groceries and clothing and toys for children. These supplies were donated by the members.

Ten families have been helped with orders of groceries. Three children were placed in Home of Good Shepherd.

One boy placed at Silver Falls. Employment found for four people. Two men placed, donated by members.

Sewing Committee's Work

Mrs. H. J. Sullivan, convener. Two hundred and eight garments made up and distributed to children. Donations of infants' clothing made. (Continued on page 12, fourth column.)

AGREEMENT BETWEEN MEXICO AND THE U. S.

Mexico City, Oct. 16.—An agreement has been reached between the Mexican ambassador at Washington and the United States treasury department, according to reports here, by which Mexico will take off the restrictions on the export of metals which required the re-impatriation of an equal amount of gold for all gold bullion exported, and 25 per cent. on all silver exported. In return money due on the balance of trade to Mexico will be protected in gold.

Geo. Estey, of Kennedy street, ship-carpeniter, had his knee bruised by being caught between a float and the schooner Roger Drury at Long wharf on Monday. He was assisted home by Walker, and will be unable to work for some time.

Cassidy-Lirette

On Monday, L'Assomption church, Moncton, May Ozanna Lirette, youngest daughter of Mr. and Mrs. Doucette Lirette, and Joseph James Cassidy were united in marriage by the Rev. Father Cormier.

It was stated at an inquest on a soldier at the Ligon Hospital that the deceased had a brother who was drowned whilst serving in the Boer War, another brother killed in the present war, and a third brother wounded and paralyzed during the present war.

His mother died of shock upon the receipt of the news of the second son being killed, and his widow was at present a patient in the hospital.

GRAVE SUBJECTS ARE TAKEN UP TODAY IN WASHINGTON CONFERENCE

Washington, Oct. 16.—American naval co-operation with the Allies was further discussed today at a conference by the British Ambassador, Sir Cecil Spring-Rice, the British naval attaché, Commodore Gaunt, United States Secretary of the Navy, Daniel and Admiral Benham, chief of operations. No announcement was made.

The only announcement Secretary Daniels has made of the conference so far is that they concern "very grave subjects."

THE WHITE PLAGUE

Edinburgh's First Professor of Tuberculosis. (London Chronicle.)

Edinburgh University has taken a step of the greatest importance in fighting consumption. Yesterday the court instituted a chair of tuberculosis and appointed Sir Robert William Philip its first professor. The chair will be endowed by the Royal Victoria Tuberculosis Trust of Edinburgh, and it is hoped that other universities will shortly be inspired to similar effort.

Edinburgh is the first university in the Empire to strengthen the position of medical students and practitioners; this matter.

A medical correspondent writes: Edinburgh is fortunate in being able to appoint as its first professor of tuberculosis so able a student of the white plague as Sir Robert Philip, who is an expert adviser to the city on the disease. He is more widely known, perhaps, as the founder of the first tuberculosis dispensary in the world, instituted as long ago as 1887.

The university's progressive policy should have far-reaching and valuable results in relation to the national health. For the past thirty years large sums of money have been expended on measures aimed at the control and treatment of tuberculosis, but there has been a gigantic waste of public money owing to unsuitable cases being sent to the hospital. This arises from cases not being diagnosed until the disease is far advanced.

The patients frequently postpone seeking medical advice until the disease has arrived at a critical stage. Often, too, in its earlier forms, the disease is treated as influenza, bronchitis, or a mere cold.

Sweden's German Queen

In an article sent from Stockholm to the London Daily Express, Frederick Grundy says:

In its queen this country is afflicted with a counterpart of the ex-queen of Greece. A German princess by birth, she seems to have grown more German by transplantation.

Save for a few of its people, comparatively insignificant in numbers but fortunately strong in patriotism, Sweden at the outbreak of the war was overwhelmingly pro-German.

The centre of this worshipping Prussianism was and is the coronation of swastika and its high-priests. From our side queen the beneficial influence spread throughout the country. The king is under it; but it is the queen and the queen has the stronger character of the two, and that he is greatly swayed by her.

"How do the people feel about the queen's visits to Germany?" I asked a well-known Swede, whose greatest ambition was to see Sweden in the ranks of the Allies. "Well," he answered, "I don't know whether they are more disgusted when the Queen of Sweden goes to Germany or when the German princess comes back to Sweden."

On Substitutes

A Rotterdam correspondent tells the following story: A German, tired of life and worrying over his duty, decided to commit suicide, went to a chemist and bought enough cyanide to kill a dozen men. He took it, but it was a substitute, and did no harm. He then bought a rope to hang himself, the rope broke; it was made of paper. Then seeing he could not kill himself, he decided to have a good meal. He ordered a plate of Hungarian goulash. It was also a substitute, and two hours later he died.

### Ripping Good Bill At The Opera House

Picture and Vaudeville Well Worth Seeing—Some of Acts Very Superior

The show in the Opera House this week is well worth seeing. So far every performance has been liberally patronized and indications are good for capacity houses during the remainder of the week. In addition to the last chapter of Gloria's Romance there are five vaudeville acts, some of which can be classed with the best yet seen in this popular amusement house.

One of the features of the programme was a comedy playlet presented by Wm. Lytel & Company. It was capably handled and afforded considerable amusement. Mr. Lytel is a clever actor and his interpretation brought forth many favorable comments.

Magin, Eddy and Roy gave a performance which evoked hearty laughter and prolonged applause. The three dress as clowns and their antics, facial expressions and gesticulations to say nothing of their funny tumbling stunts, kept the audience convulsed with laughter. Their act is one of the best of its kind ever presented on a local stage.

Betty Barnett won well merited applause in an impersonation act. She demonstrated marked ability and won the plaudits of all present for a clever impersonation of Sarah Bernhardt, Harry Lauder and other notables of the stage.

Russell and Frye gave a pleasing musical entertainment. One is a talented pianist as well as a fair singer and his companion possesses a very good tenor voice. They have a good selection of songs and won instant favor.

The Reeds amused the audience by lively chatter, a lot of noise and an

### SCOUT ASSOCIATION

Reports showing a large amount of excellent work accomplished during the year were presented at the annual meeting of the St. John Boy Scouts' Association which was held last evening in the school room of the Stone church. The secretary showed that the finances of the association were fairly satisfactory

and the deputy commissioner reported that there are now fifteen troops with a membership of 683 boys in the city, an increase of six troops and 157 scouts. Mayor Hayes addressed the meeting complimenting the officers and the scouts on the work accomplished.

F. A. Dykeman and C. B. Allen appeared to ask the aid of the scouts in collecting contributions for the British Red Cross. Their co-operation was promised.

Officers for the coming year were re-elected as follows: A. C. Skelton, president; H. A. Cody, vice-president; B. C. Waring, deputy commissioner; and H. M. Hamm, district scout master. H. Wetmore was elected secretary in place of Percy Gibson.

### "REGAL" FLOUR

## Will Class One Provide The One Hundred Thousand Men?

It will be greatly to the advantage of Canada if the entire quota of 100,000 men to be raised under the Military Service Act can be secured from the first class; that is, from the men between the ages of 20 and 34 who were unmarried or widowers without children on July 6th, 1917.

This is almost self-evident for the following reasons:

It is admitted that, between the ages of 20 and 34, the average man is at the height of his physical strength and is most adaptable to the change of conditions from civilian life;

the military Service of unmarried men and widowers without children would occasion less distress than that of most others, since they are largely without dependents. Also, it would entail less financial burden for Canada, through separation allowances, etc.

Authorities estimate that, after all proper exemptions have been allowed, Canada should be able to produce from the first class 100,000 men fit for service, so the drain upon the man power of the country will not be severe.

Members of Class One will be well advised to present themselves for examination immediately to the Medical Board in their district. Upon examination as to their physical fitness, they will be placed in one of the following categories:

Category A—if fit for service in overseas fighting units.

Category B—if fit for service overseas in Army Medical Corps, Forestry Battalion, etc.

Category C—if fit for service in Canada only.

Category E—if unfit for military service of any nature.

If not placed in Category A, the applicant will know that he is not liable for immediate service, but will go to the Post Office and send in a claim for exemption with his Medical Certificate attached, when he will receive in due course a certificate of exemption until those in his medical category are summoned for service.

Where a man, who is placed in category A, feels that exemption should be allowed, an application form can be secured from the postmaster. This form, when filled in, will be forwarded by the postmaster to the registrar of the district, and the applicant will be informed by mail as to the time and place for the consideration of his application by the Exemption Board.

Issued By  
The Military Service Council.

#### THE POLITICAL SITUATION

The Toronto Globe, which has been a strong advocate of union government, contends that those Liberals who have gone into the Borden cabinet have not by that act condoned any of the sins or accepted responsibility for any of the acts of the old Borden government. It says:—

"In supporting a union government Liberals will not be stultified by their criticisms of the Borden administration. The Globe has no intention of recalling the strictures it passed on certain methods and measures of the Borden ministry. But the Borden ministry has ceased to exist, and Liberals who have joined some of its members in a new administration cannot be held responsible for its sins of omission and commission, any more than Brown, Mowat, and Macdougall could be held accountable for the record of Macdonald and Cartier. Liberals who wish to displease the association of their leaders with invertebrate political enemies should bear in mind that many Conservatives have the same feeling, and bitterly opposed Sir Robert Borden's efforts at union."

Hon. William Pugsley entertains the same view as the Toronto Globe. In an interview in the St. John Standard of today's date, he says:—

"One thing that the public should be thankful for—the old government is dead. I understand that Sir Robert Borden and all the members of the previous government resigned and were re-sworn in order that a new government might be formed. The result is that Liberal members going in will not be constitutionally responsible for the acts of their predecessors, and will not have to stand the responsibility for the Soldiers' Votes bill, the War-time Elections Act, and the Canadian Northern legislation."

In other words, the new government, which contains the leader and some other members of the old government, is to make its own record and be judged thereby. If it fails to make radical changes in policy and administration it will go down. The Liberal members of it will be expected to uphold their principles and insist upon many reforms. If they fail, the next parliament will deal with their case, for there will doubtless be a comfortable Liberal majority in the next house. They believed that they were doing their duty to Canada when they consented to union, and none will deny them the credit for pursuing what they believed to be the wiser course. There are, however, very many who still doubt the wisdom of that course, for the Borden government was doomed to defeat and the knowledge of popular resentment was the cause of the premier's efforts to form a union with leading Liberals. The complete defeat of Toryism in Canada has only been deferred and not prevented. The next parliament will finish the job. Meanwhile the people await with some degree of impatience the new government's declaration of policy.

#### SIR WILFRID'S POSITION.

All Canada is deeply interested in the attitude Sir Wilfrid Laurier will assume toward the union government, but he cannot be expected to speak until the government has issued its announcement to the country. Before the new cabinet was formed, his policy, if returned to power, was thus stated in the "Canadian Liberal Monthly": (1) A supreme effort, by a systematic and thorough national war organization, to secure by voluntary enlistment the necessary number of recruits; (2) a referendum if this effort fails; (3) the acceptance of the verdict in every part of Canada if the vote favors conscription; (4) a resumption of recruiting efforts if conscription is negatived.

Commenting on this, the Toronto Globe says:—

"This means that the operation of the Military Service Act would cease, pending a referendum, even if only a portion of the first draft of 100,000 were called to the colors before the election, as will be probably the case. Not many candidates outside of Quebec will frankly support this programme."

It was because they could not support this programme that the Liberal members consented to join a union government pledged not to stop in the middle of the task of raising 100,000 men. The Toronto Globe assumes that after the elections, if Sir Wilfrid is not able to form an administration of his own, he will be "a friendly and helpful critic of the Union Government in all its war measures, except in so far as they conflict with his ideas on compulsory service."

As soon as the union government has given its message to the people, we shall hear promptly from Sir Wilfrid Laurier. It will take some time to measure the real significance of recent political events. The people are all at sea, and require time to adjust themselves. They want to hear from the new government as to its policy, and then they want to hear from the man who was once described by the London Daily News as "the most considerable figure in the statesmanship of Greater Britain."

#### THE BRITISH RED CROSS

The citizens of St. John have been asked to contribute \$25,000 to the British Red Cross. Toronto is out to give half a million. New Brunswick last year gave but a few thousands compared with nearly a million and a quarter in Ontario. The message has come that unless Canada comes to the aid of the British Red Cross must curtail its work for the alleviation of the suffering of the sick and wounded soldiers and sailors who are fighting our battles. The response should be as generous as the means of the people will permit. It should be an universal response, and the organization for collecting contributions will be so thorough that all will have an opportunity to give. The more we have ourselves to enjoy the deeper should be our gratitude to those whose devotion and sacrifice makes our homes safe and our daily lives free from fear and the threat of danger. The British Red Cross is so well organized that its helpful arms are reached out to all who suffer from sickness or wounds in our behalf, and its funds are so carefully administered that there is no waste. Those who give have the assurance that their contribution will do something to aid men in sore need of help and comfort.

The Toronto Telegram, Conservative, hands this scorching to Sir Joseph Flavelle: "Sir Joseph Flavelle delivered himself into the hands of his own enemies, Ontario's enemies and Toronto's enemies. The error of Sir Joseph was in trying to run a packing plant with a pulp attachment! Sir Joseph Flavelle tried to reconcile the spiritual efficiency that fills the soul with peace and the business efficiency that fills the treasury with war profits. It is not easy for any body in war times to simultaneously have his soul full of righteousness and his pockets full of money. Having preached to others, Sir Joseph himself became a castaway on the sea of war profits that had its tributaries in the O'Connor report."

The British Food Control Journal says: "The predatory middleman who buys legitimate trade interest, who buys merely in order to resell at a profit, has been almost wholly eliminated. The necessary middleman who is merely out to make what he can is being taught that he must not make undue profits out of the nation's necessity, and Cost Accountants of the Ministry of Food, with their patriotic provincial helpers, have been brought into existence for the express purpose of ascertaining what profit is fair and what profit is excessive. The food controller will fix profit-restricting prices at every stage."

The Ottawa despatches indicate that Sir George Foster may be about to resign his political travels and his search for a constituency. But why come east? Is Toronto weary of Sir George? Has Ontario no safe haven for his political bark? Perhaps New Brunswick ought to be grateful that he is offered to them as one of the fruits of union government, but past experience may dull the edge of anticipation of great benefits to follow.

The Standard has grave doubts as to Hon. William Pugsley's attitude toward the Military Service Act. And yet, in an interview in today's Standard Mr. Pugsley said:—"When the bill was before the house I opposed it for reasons that I deemed sufficient, but having been consulted with other members from New Brunswick, I decided that it should not be repealed, not even if the Liberals were returned to power." This appears to be fairly plain English.

Moncton Transcript—But no condemnation of the government by any Liberal is one-half as severe as that visited upon it by Sir Robert Borden personally, when he kicked out of office one-half of his colleagues, who, up to last week, were Heaven-born statesmen and administrators, and invited into his administration as his substitutes some of their very strongest critics.

The Standard has turned its guns from Mr. Carvell to Mr. Pugsley and is throwing gas shells with great vigor. It says the Conservatives of St. John and Albert will not tolerate him. Who will be the Tory candidate against him? Will it be Sir George Foster? Evidently the Standard is itching for a fight.

A number of boys were sent to the industrial home this week because parental neglect had made them delinquents. The moment we are relieved from war effort there is a great task of social reconstruction awaiting devoted men and women in this city.

There is an interesting rumor that Hon. J. D. Hazen may go to Washington as Canadian High Commissioner, with a salary of \$25,000 per year, instead of taking the chief-justiceship.

If the Standard really loves Gen. McLean, why send him to his political doom? Why not give him another laurel of some sort, and let it go at that?

Smithers got a job in a coal yard running empty freight cars down a hill. The boss warned him to keep the brakes on and be careful or there would be a smash. Smithers said he would look out.

For a week Smithers did his best. That one day he got heedless, and six empty freight cars dashed down the hill like the wind, crashed through the wooden bunker and landed on their sides in the crease between the tracks.

The boss, yelling and waving his arms, ran full tilt from the office, but Smithers forestalled him quietly.

"You needn't come cussin' and swearin' at me," he said. "I've quit."

#### Sure Thing

A professor at a western engineering college says that for the occasional innovations in the applications of learning such as the following, for instance, he would find it difficult to judge of his usefulness.

"What steps would you take in determining the height of a building using an aneroid barometer?" was the question asked upon an examination paper.

One youthful aspirant answered: "I would lower the barometer by a string and measure the string"—Illustrated World.

The kirk in a certain Scottish village was in urgent need of repair, and Sandy McNah, a very popular member, had been invited to collect subscriptions for the purpose.

One day the minister met Sandy walking irresolutely along the road. He at once guessed the cause.

"Man, Sandy," he said earnestly, "I'm sorry to see you in this state."  
"Ah, well, it's for the good of the cause," replied the delinquent, happily. "Ye see minister, it's a through the gien collectin' fund, and at every house they made me have a wee drap."

"Every house? But—but surely, Sandy, there are some of the kirk members who are teetotalers?"  
"Aye, there are; but I wrote them those."

#### Doctors Said Operation

#### When Chatham Lady Suffered From Extreme Nervous Exhaustion—Now Feeling Fine and Working Large Carden.

Chatham, Ont., Oct. 14—This letter with interest every lady reader, because it describes a condition for which many doctors advise an operation. That the operation is often unnecessary and very often leaves the patient an invalid for life is well known.

You will read here of what Dr. Chase's Nerve Food has done for this lady and will then understand the great good it is accomplishing in many thousands of similar cases throughout the continent.

Every woman should think long and earnestly before consenting to an operation of this kind. It is a simple matter to give Dr. Chase's Nerve Food a trial and the results are almost always entirely satisfactory. You not only avoid the risk and expense of an operation, but find yourself restored to health and vigor.

Mrs. E. M. Ford, 82 Delaware avenue, Chatham, Ont., writes: "For four years I suffered from my nerves. I was restless and could not sleep well. I had headaches, neuralgic pains through the body and backache. There was a buzzing in my ears and twitching of nerves and muscles. I also had palpitation of the heart, which caused shortness of breath. I was easily tired and always drowsy after eating. When walking I would seem to go dead in my feet would seem to go dead in my shoes. I consulted two doctors and both told me that I would have to have an examining and probably an operation, but I would not have either. Shortly after this I commenced using Dr. Chase's Nerve Food, and after a treatment of one month I was able to do my household duties without difficulty, and besides this, attend to a half-acre of garden. I can go about without the dead feeling in my feet, and am grateful to Dr. Chase's Nerve Food for my cure. I think very highly of this medicine, and recommend it to other sufferers whenever I have an opportunity."

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.75, at all dealers, or Edmondson, Bates & Co. Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

#### "INTOLERANCE" PRAISED

St. John, N. B., Oct. 15, 1917.

To the Editor of the Times:—

Sir,—The letter signed by C. Flemmington, secretary N. B. Branch Dominion Alliance, in your issue of this date caused me more amusement than anything that I have read for many moons. Now that Mr. Flemmington has condemned this wonderful picture, I suppose that ends the matter. Before going into this affair any further I would like to ask Mr. Flemmington if he has ever seen Intolerance? If he has not I would strongly advise him to come down from Antioch and see it, for after seeing it, he will not be so intolerant, for Intolerance, the picture, strikes right at the very root of such views as Mr. Flemmington and others like him hold. I might say that I have seen the picture Intolerance. While on a visit to Toronto in September last I visited relatives, former residents of St. John, they took me to see Intolerance. Having seen The Birth of a Nation when here I thought nothing in pictures could surpass it, but they assured me that Intolerance did so. I went and I saw it. I think I assure you that if I were offered my choice between seeing the Toronto fair and Intolerance I would choose the latter. Words cannot describe it. Those who have not seen it cannot believe the wonderful production that has been created into a picture. Those who witnessed The Birth of a Nation when here will be as surprised as I was when they see this

#### How To Prevent Acid Stomachs and Food Fermentation

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach trouble possess stomachs that are absolutely healthy and normal. The real trouble, it which causes all the pain and difficulty, is acid in the stomach, usually due to, or aggravated by, food fermentation.

Acid irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. This both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating, from one to two teaspoonfuls of bicarbonate of soda, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your druggist for the bicarbonate of soda, as I have found other brands utterly lacking in its peculiarly valuable properties.—F. J. G.

#### TO RELIEVE CATARRHAL DEAFNESS AND HEAD NOISES

If you have Catarrhal Deafness or head noises go to your druggist and get 2 ounces of Parment (double strength), and add to it 1/4 pint of hot water and 4 ounces of granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Any one who has Catarrhal Deafness or head noises should give this prescription a trial.

**ANOTHER GREAT CANADIAN ARMY**

(Vancouver World)

Within a few weeks another great army will be in training in Canada for overseas service. It will be an army called to the service of the country by the law of the country. All the men will be picked men, chosen on the principle that secures the most suitable for service at home and abroad.

Though the new army will be constituted by compulsion it will be none the less entitled to honor and esteem from all citizens whose cause it is called upon to defend. Once the drafted soldier is in uniform there is no difference between him and the volunteer. Nothing can, of course, equal the self-sacrifice and patriotism of the man who voluntarily went from Canada to fight Canada's battles on the plains of France and in the bloody Ypres salient. Nevertheless his successor will no less

worthily uphold these high traditions and fight gloriously for the honor and safety of his homeland and empire.

No one has any right to question the motives which drafted men may have had in refraining from volunteering. Many doubtless have had personal responsibilities and engagements which made the conflict between them and the call of public duty a hard and even bitter one. Now the state decides the issue for these men and they will go or stay as best serves the interests of the state.

There can be no more talk of slackers in this dominion. Henceforth under the Military Service Act if a man is not in uniform it is because the nation finds him of greater value in other spheres.

To the man in honorable khaki—volunteer or drafted man—our greatest regard is due. He is the outward and visible sign of the inward and spiritual grace whereby the Canadian nation in this time of peril, holds fast to freedom.

Crisis In Case of German Chancellor Approaches

General Chorus of Disapproval

Vorwaerts Says Nation Weeps Over Having to Put up With Such as He—Krupp Interests Said to Work to Keep War Going

Copenhagen, Oct. 16—It is believed that the political situation which has arisen because of discontent in some quarters with Dr. Michaelis, the imperial German chancellor, will reach a crisis before the Reichstag re-assembles in December. Dr. Michaelis remains in Berlin, conferring with Reichstag leaders and his personal advisers, endeavoring to find a solution of the situation, but according to advices received here, he does not seem to realize that his own position is endangered.

The political leaders and the newspapers continue to declare his unfitness for the high office he holds.

Amsterdam, Oct. 16—The Berlin Socialist paper Vorwaerts, says "It is enough to make one weep to think that we have a chancellor like Michaelis, a vice chancellor like Heffrich, a war minister like Von Stein, a naval secretary of state like Von Capelle. It is enough to make one weep that in this critical time of the empire a government should be in power which, neither at home nor abroad can command, or even lay claim to respect, a government as to whose incapacity there is a general consensus of opinion from Heidebrand to Schneidmann and from Von Reventlow to Ledebour, and that we cannot even tell whether or not this government will be forced to make way for another more capable."

The paper asserts that if the majority party had refused on Tuesday to have any trace with "the present unspeakable government," and had acted as the Socialists did and refused to vote a supplementary budget, Michaelis would have had to disappear.

Amsterdam, Oct. 16—At a Socialist meeting in Berlin Sunday, Philip Scheidemann, leader of the Socialist majority in the Reichstag, deplored the fact that Germany's enemies had "scorched at the German desire for peace."

"We will not renounce a square foot of German soil," he added.

Dr. Michaelis, Herr Scheidemann, declared, was unsuited to the post of chancellor.

Copenhagen, Oct. 16—Austrian and Hungarian Socialist newspapers received here, report that an attempt had been made to start an anti-peace propaganda in Hungary. The propaganda is in the fact that the Krupp and allied interests, and two million marks are said to have been set aside to establish a newspaper in Budapest to carry on the propaganda by means of moving pictures.

**PLAY POLITICS WHILE GERMANS STRIKE BLOW**

Russian Admiral Foresaw Enemy Coup in Riga Gulf But No One Paid Attention to Warnings

Petrograd, Oct. 16—The landing of German troops on Oesel Island could have been averted only by risking battle under unfavorable circumstances, which might have resulted in the opening of the Gulf of Finland to the enemy, said Admiral Verronen, minister of marine, today. The blow is a hard one to Russia, but the Russian fleet apparently was in no position to hinder the Germans.

"Since March," said the admiral, "I have several times drawn attention to the possibility of such a blow, and I also discussed the matter with Premier Kerensky, but no one paid attention to the government's warning. Although we are at war, our political differences have been given first place in the minds of the people. The Germans take this into account and events show that they have been able to take full advantage."

The admiral said that German naval power is four times greater than that of Russia.

"The naval force in the cause of the country did every thing possible to prevent the landing of the Germans, and will continue to carry out all orders of the minister of marine."

The minister of marine sees no immediate danger of a German attempt to enter the Gulf of Finland. He expressed the belief that, owing to the lateness of the season, the German operations will be localized.

The Petrograd council of workmen's and soldiers' delegates issued an appeal to the army and the fleet to obey their commanders, and to fight to save the capital and repel the Germans from the Gulf of Riga.

**TO INCREASE FUNDS OF PRESBYTERIAN CHURCH**

Rev. Robert Laird, secretary of the board of finance of the Presbyterian church in Canada, addressed a gathering of elders and trustees of the local churches in St. David's church last evening. He laid before the meeting a statement of the financial position of the church showing that contributions have doubled during the last five or six years and that more money is being given for church purposes than ever before. He pointed out, however, that there still is pressing need for more funds to reopen home mission fields which have been temporarily abandoned.

A committee to co-ordinate the work of the churches and support the Presbytery in an effort to increase contributions was appointed. The members are as follows:

Knox church, K. J. MacRae and Thos. Graham; St. Andrew's, Alex. Wilson and Wm. Angus; Calvin church, J. M. Murphy and Frank Murphy; St. David's, A. R. Melrose and Charles Robinson; St. Columba's church, J. E. Bryant and Daniel Campbell; St. Matthew's, J. Fraser Gregory and Austin Galbraith; First Presbyterian church, Smeaton Wilson and J. Scott.

Regulation of Exports

Specified What Proportion of Products Shall be Sent Across North Sea—The Matter of Concrete Making Materials to Huns

Washington, Oct. 16—The substance of the agreement between Germany and Holland, given out here for the first time, regulating the amount of food to be obtained by Great Britain from the Netherlands and also the amount to go into Germany. The agreement provides that the total exports from Holland to the United Kingdom shall be pig meat, one quarter of the butter, one-third of the cheese, and two-thirds of the milk. Not less than one half the total exports of meat from Holland to belligerent countries must go to the United Kingdom. This leaves the other half free to go to Germany as required by the German government.

Great Britain by the agreement has the right to at least one half the total exports of potatoes at a price not greater than fifty per cent over the price fixed by the Dutch government for home consumption. Great Britain also gets one half of the potato flour, which includes sago and pudding powder, and obtains one quarter of the exports of

**Still Recruiting**

Word has been received in the city to the effect that Sergeant Thomas Jones of the machine gun draft has been awarded a military medal. He is at present ill in a hospital in England.

Sergeant Charles Alchorn of the city, writing to his mother, Mrs. J. A. Alchorn, 147 Queen street, says that he entered the Royal Flying Corps, has been most successful in all his examinations and has received his commission as a lieutenant.

**Yesterday's Results.**

Up to 6 o'clock last night seventy men

were examined at the local standing medical board in the post office building. They were divided as follows, class "A" thirty-two; "B," eight; "C," eleven; "D" one and "E," or unfit, eighteen. This would mean that 45.7 per cent. were fit and twenty-five per cent. of the total number examined were unfit. A large number also examined last evening.

**The Real Peace For Which The Allies Fight**

New York, Oct. 16.—Peace for humanity and civilization—not one favorable alone to France, or the United States, or the Entente Allies—but peace that will guarantee to nations, large and small, universal respect for right and justice, is the goal toward which war-torn France is struggling, so delegates attending the southern commercial congress in this city were told yesterday by Stephen Lausanne, editor of Le Matin, of Paris.

The occasion was "the press of the Allies luncheon" in honor of the distinguished journalist, given by the congress.

"We have suffered much and expect to suffer still more," M. Lausanne declared. "We are fighting to save humanity from degradation, for humanity would be degraded if Germany won this war. France is in for all the war."

**GAIN IN OUTPUT OF ANTHRACITE COAL**

Wilkes-Barre, Penn., Oct. 16—The shipments of hard coal for September, 1917, as reported to the anthracite bureau of information amounted to 6,373,756 tons, an increase of 828,680 tons over the corresponding month last year, and 676,281 tons less than the largest tonnage shipped in any previous month. It is pointed out that September had five Sundays and one holiday, leaving twenty-four working days.

The total shipments for the nine months of this year amounted to 57,778,097 tons, an increase over the corresponding period of last year of 7,747,000 tons, and exceeds the ten month shipments of 1916 by 1,977,477 tons.

NOT ADMIRATION.

J. T. Tussaud, of Madame Tussaud's Exhibition, replying in the London Daily Mail to a letter from "A South African Soldier" complaining of the presence in the exhibition of the figure of the Kaiser, says:—"We would point out that this figure was removed some months ago, and (as is stated in the notice at its feet) it was reinstated in compliance with the expressed wish of many visitors, who were disappointed when they found that it was missing. Loudest in their disapproval of its removal were our colonial soldier visitors, who appeared to have come purposely to see the model. Needless to say, the desire to see the arch-instructor of the war was not prompted by any feeling of admiration, but rather by that curiosity which is very prevalent to see notorious persons as well as celebrities."

THESSALONICA.

In the days when St. Paul addressed his Epistle to the Thessalonians, says a writer in the London Globe, Salonika was not modern, for it was built about 815 B. C. on the site of an older city called Therma, and was named by its founder after his wife, a sister of Alexander the Great. It has always been a place of importance, as it is the chief harbor of Macedonia, and was a point on the ancient highway from Rome to the East. With a few fine buildings, like the old mosque which had been in turn a temple of Venus and a Christian church, it has always been a collection of hovels of wood and, therefore, high inflammable in the extreme continuous heat of summer.

HE GAVE THE SHOW AWAY.

Two boys charged at Kingston with stealing apples (says a writer in the London Daily News) astonished the court after the hearing with the request that they should be allowed to keep the fruit. The request was not granted, but it will provide confirmation to those who doubt it of another famous court episode. Counsel had pleaded so eloquently that his client in the dock could not possibly have stolen the apples that the jury acquiesced in the demand. To every body's surprise, however, after the judge had discharged him, he asked meekly, "Well, who is to have the trousers? I've got 'em on."

Quebec Receives Her First Hospital Ship

Discharge Depot Gives Disabled Warriors Great Welcome on Arrival

The great discharge depot of the Military Hospitals Commission at Quebec, where accommodation has been arranged for 2,000 disabled men and where soldiers sit down in groups of 600 to eat, received its first hospital transport direct from England recently.

For several months it has been caring for men who came from Halifax by train to be discharged and distributed to the various convalescent homes and hospitals of the commission across the country, but this was the first ship which landed at her own wharf.

The whole organization works like a clock under the management of Col. Guy Mariott, the officer commanding, and is undoubtedly unsurpassed for efficiency by any institution of the country. Every possible provision is made for the soldier's care and comfort and the praise of the men sent on their way across the country by this centre has met Capt. T. W. Jones, the Y. M. C. A. officer, at every turn in his tour through the west in connection with the M. H. C. moving pictures which are now being taken.

All the men landed there are medically boarded and each man's vocational history recorded. The men from the west are attended to first so that they may get on their way, but all are cleared in ten days. These are full of interest and entertainment for the men, and they are eager to get home to their families, there is no dissatisfaction expressed at being held.

There are sports, concerts, drives and picnics every day. The English-speaking people of the city of Quebec cannot give them enough of their hospitality. There have been as many as twenty-two concerts in one week, and always there are fourteen, one up town and one at the depot every night.

A military canteen run by a canteen committee extends credit to the men to the amount of \$4, and arranges for credit to be given for stamps, tailoring and even car tickets, the amount to be taken from their pay at the close of their stay.

The street railway company provides two special cars every night to take the men uptown, and private motor tours are arranged for them by the Quebec Auto Club, give every man a chance to see the quaint old city.

The tuberculosis cases have a ward of their own, a roof garden, and a special recreation hall where a pathoscope movie provides entertainment for them. A large movie machine is installed in the big recreation hall, and building, and plays a big part in the entertainment of the men.

"Depot Night" One night during their stay is called "Depot Night" and moving pictures are shown to the assembled men, showing the work of the Military Hospitals Commission for them. They see just where they are going to be treated and how they will fare, what arrangements are being made to help them back into civil life again, and what their chances are.

It is a night of intense interest to every man, and hundreds of questions are asked and answered following the film. Seventy-five per cent of these are questions about the outlook in the district from which a man comes. There is little evidence of a desire to settle in a new place.

When they leave, the bed cases in the hospital coach attached to the train, they are all given cards of introduction to the secretary of the Soldiers' Aid Commission or the Military Hospitals Commission, and tickets of membership for six months in the Y.M.C.A.

NEW LOW RECORDS MADE AT OPENING OF STOCK MARKET

New York, Oct. 16.—Wall street.—Many active issues, including foremost rails, industrials and specialties, made new low records in feverish opening trading on today's stock market. U. S. Steel reacted a slight fraction to 99 7-8 at the outset, but soon rallied 1/4 point. Reversals in other equipments, metals, oils, and tobaccos ranged from one to three and a half points, but these were partially regained on supporting orders and short covering. Liberty bonds were active. Anglo-French lives fell 1/2 a point to 91.

Chicago, Oct. 16.—Active buying on the part of one of the largest houses on "change," turned corn prices today sharply up grade. This concern alone purchased more than 1,000,000 bushels within half an hour. The buyers pressed to believe that liquidation had run its course and that short selling had been overdone. Opening quotations, which ranged from a shade off to 1-2c. advance with December at 112 7-8 to 113 1-8, and May at 108 1-4 to 108 3-4, were followed by material gains all around.

FINANCING OF EXPORT WHEAT ARRANGED

Ottawa, Oct. 16.—The minister of finance announced this morning that the financing of the exportable surplus of the Canadian wheat crop of this year has been satisfactorily arranged.

LORD NORTHLIFFE SPEAKS FOR BRITISH RED CROSS

Toronto, Oct. 16.—Before 4,000 people in Massey Hall last night, Lord Northcliffe officially opened a three day campaign to secure \$500,000 for the British Red Cross. He eulogized the work of the food controllers in Great Britain, the United States and Canada, declaring that although they were very unpopular they were accomplishing a good deal. Speaking of the British Red Cross and its work he said too much thought was given to its operations on the western front, with the result that the remarkable achievements in other theatres of war were almost overlooked. He declared there was no organization in the world conducted more economically, only two per cent of its income going to maintenance.

MOTHER OF PARLIAMENTS IS IN SESSION AGAIN

Discussion of General War Situation Expected in Few Days. London, Oct. 16.—Parliament re-assembled today after a recess of two months, and began grappling with a big grist of legislative and administrative work. Its most important duty will be the passing of a new vote of credit. This probably will bring up for discussion the general war situation, but it will be a few days before that business is reached. For today there is nothing more exciting than the second reading of a bill giving the government control over all petroleum and the consideration of the titles deprivation bill, which is aimed at those who took up arms against Great Britain and her allies. Chief interest centred in a proposal that the government will take advantage of the opportunity to announce the general policy of its air service, a subject which has been brought into the foreground by the recent raids over London.

May Be High Commissioner In Washington at \$25,000 a Year

Ottawa, Oct. 15—Canada is to have a high commissioner or special envoy at Washington, and the man slated for the position is Hon. J. D. Hazen, ex-minister of marine and fisheries. This is the most interesting report of progress emanating today from the new government. The report is as yet unofficial, but is well founded.

One of the main problems to be dealt with at once is regarding adjusting the balance of late increased British orders for munitions of all kinds, which have gone to the United States. At the same time the strain on the United States for war output has been increased by her own war needs. It is quite probable that any dropping off of war orders to Canada by Great Britain, consequent upon Canada's depleted ability to advance credits may be compensated for by war orders given the United States. Negotiations along this line are already under way. The result may do much to rectify our present adverse trade with the United States, help the exchange situation and help solve Canada's present serious financial and industrial problems.

There will be much work for Mr. Hazen at Washington. In view of the expense necessary to maintain a position commensurate with the importance and requirements of the post in Washington diplomatic circles the salary will probably be \$25,000 per year.

BERLINERS SHIVER TO CONSERVE COAL

Lighting of Fires Before Oct. 15 Is Prohibited by Official Order

Great Shortage of Fuel—Drastic Cut in Railway Traffic—Reserve Stocks at Mines Are Exhausted

Berlin, Oct. 13 (via London)—The coal distribution authorities some days ago, when the weather was sunny and warm, decreed that before Oct. 15 no fires should be lighted anywhere in private or public, even in government buildings. On Saturday the weather began to grow extremely chilly, and has continued so ever since. Men have been compelled to bring out their winter overcoats, and women have donned themselves with furs. Rain adds to the general discomfort.

The suburb of Schoeneberg asked the coal authorities to withdraw the order. London, Oct. 13.—The German state railways are faced with a great shortage of fuel, and drastic limitation of traffic has begun, according to reports reaching here.

The railroads propose to levy heavy excess fares on express trains, so as to discourage all except unavoidable business journeys. A large number of fast trains have been eliminated from the winter timetables. The Wurttemberg railways will charge heavy excess fares for traffic on Saturday afternoons and Sundays.

Washington, Oct. 13.—The department of commerce has received reports on the coal shortage in Germany, from which the following extracts are taken: "Like the iron and the potash industries the coal mining industry of Germany is unable to satisfy the demands made upon it. There is no lack of underground supplies, but it is impossible to bring sufficient quantities above ground, as is likewise the case with the other industries mentioned."

"Moreover, owing to the war, much larger demands are now made on the coal mines than in normal times. Stocks of coal at the mines, which could not be shipped during the past winter for lack of transportation facilities, have disappeared, so that at the present time there are no supplies of coal or coke available for immediate shipment, and the quantities produced pass directly into consumption."

"The reduction in the output is due to three factors—an insufficient number of miners and their helpers, a lessening of the productive capacity of the labor force, and a lack of necessary equipment. The number of mine workers has been increased by the furloughing of

19,000 soldiers who are miners or mine managers by trade or profession. This has resulted in an increase of production, but the output is still insufficient. "Not only in Germany, but also in Austria, which imports large quantities of coal from Germany, the fear is entertained that the supplies of fuel for the coming winter will prove insufficient, and various measures are being taken to conserve the existing stocks. "Even in the Ruhr district, which is

so rich in coal, and in the City of Essen, where no gas has been manufactured as the coke ovens of the mines furnish an abundance of gas as a by-product. The consumption of gas is to be reduced in dwellings, and it is expected that electric heating will be prohibited altogether.

"Special regulations are expected concerning the heating of water, the equipment of bathrooms, the giving of baths in hotels, and the use of office rooms;

several persons are to occupy office rooms which heretofore have often had but one occupant each, the government permitting no exceptions. In the schools several classes are to share the same room.

"Peat and wood cannot take the place of coal, for the restrictions enumerated above are being introduced in Germany even in the Ruhr district, notwithstanding the fact that the people there are cutting wood and digging peat."

Sing and Swing

"I cannot sing; I really cannot," protested the famous Lord Norbury of "hanging fame" to a pretty and pressing hostess. "I have neither words nor voice."

"You are too modest, Chief Justice," said Curran, who was standing by, "for I know hundreds that have hung on your words and thousands that have been transported by your voice."

"Darkness . . . but look! In Heaven, a light,  
And it's shining down . . . God's accolade!  
Lift me up friends. I'm going to win—my cross!"

### Collections In The Schools For Red Cross Fund

At the meeting of the school board last night, it was decided to allow the Boy Scouts to absent themselves from

school on Thursday, Oct. 18, in order to canvas homes of the city for money for the British Red Cross. It was also decided by the board to allow money to be collected in the schools on the same day for the British Red Cross fund. The attention of the board was called to the fact that the percentage of enrollment in the schools at present is 94.50 per cent, and that this percentage was not equaled by the schools of any city in America. The total enrollment was 7,965, while the average daily attendance was 7,327. All the homes in the city will be call-

ed on by Boy Scouts. Each scout will have a sealed box with an opening through which a envelope can be put. The citizens will be requested to put their donations in an envelope and to write their name and address on it. When each scout has completed his district he will take his box to the mayor. An application for a position on the teaching staff from Miss Dora Corbet was referred to the teachers' committee. A letter from Mrs. Helen G. Hooper was next read, stating that at the last monthly meeting of the Housewives' League, it was decided to ask the board

for the monthly use of the High School assembly hall for lectures and demonstrations of food conservation. It was moved by Dr. Manning and seconded by Mr. Day that the Housewives' League be given use of the domestic science rooms in Waterloo street for demonstrations and the High School assembly hall for lectures, providing that it did not interfere with the work of the students. Any expense caused by these demonstrations and lectures was to be paid by the Housewives' League. The motion was put before the board and carried. The chairman next read a letter from

Edmund Ferris, a farmer, stating that he had had a High School boy named Fred Cery on the farm with him for four months in the summer, and that he had been a very great help to him. Mr. Ferris said that when the boy first came to him he did not know very much about farming, but readily picked it up and was soon able to manage a team of horses. Mr. Ferris stated that the boys had been a great help to many and that the farmers should be very thankful for the interest that had been shown. It was moved by Mr. Day that this letter be entered in full in the minutes.

#### YOUNG LADIES' LEAGUE.

The Young Ladies' League of the Y. M. C. A. met yesterday afternoon and organized for the season with a good attendance of members. A vote of thanks was passed to Miss Olive Flewelling, the retiring president, and new officers elected and installed as follows: Mrs. Stanley K. Smith, president; Miss Mabel Lewis, vice-president; Miss Adna Fawcett, secretary; Miss Dorothy Smith, treasurer; Miss Olive Flewelling, Miss Marion Robinson, Miss Winnifred Smith and Miss Jennie Lyons, additional mem-

bers of the executive. The association decided to undertake once more the task of providing Tuesday night suppers for the Bible study groups of the boys' department. The executive will meet at the call of the chair to name convenors and make further arrangements.

END OF ONE OF POOREST OF WORLD SERIES
Joe Page Says the Better Team Won But Neither Nine Has Yet Shown Best Work
(Special to Times by Joe Page)
Albany, N. Y., Oct. 17.—The world's series is over and the White Sox take the world's championship by four games to two. It not only looks as if the better team won, but the wonder is they did not win in at least four games out of five. The one and only set back was an unexpected great form shown by pitcher Rube Benton in the third game of the series.

Table with 10 columns: A, B, R, H, P, O, A, E. Rows for Benton, Perritt, and McCarty.

winning of the series and later will be borne out by world's series figures. Today's game was settled in the fourth inning when Zimmerman made a wild heave of Collins' grounder, giving the latter second. Robertson then made a miserable miff of Jackson's easy fly to right, Collins moving to third on the play. Benton stopped Felsch's grounder and headed off Collins, who was caught off third. Collins waved Felsch and Jackson to keep going. Benton in the meantime threw to Zimmerman and the latter started to run down Eddie. It was a race to the plate, and bonthead Zimmerman, instead of tossing to Rairden for an easy out, chased Collins across the plate with the first run of the game, while Jackson and Felsch went to the second and third corner. Gandil then came through with a hit, scoring both. He was caught at second trying to stretch his hit into a double. Weaver closed the inning by flying to Burns.

Fewer Athletes In Casualty Lists

London, Oct. 18.—Casualties among prominent British sportsmen show a falling off in the latest list issued of those killed and wounded on the western front. Lieut. Col. R. P. Lewis, who has died of wounds, was the famous Middlesex County and Oxford University cricketer. He was one of the finest amateur wicket keepers in the country. He was in the Winchester eleven of 1891 and 1892, and got his "Blue" at Oxford in 1894, appearing at Lord's also in the two following years. Capt. G. W. Birbeck, previously reported wounded and missing, and now officially announced killed in action, was a staunch supporter of coaching. Like his father before him, Captain Birbeck was a valued member of the Norfolk County cricket team. Educated at Eton, where he was twelfth man at cricket, he made his debut for Norfolk in 1906, and played regularly for the County in 1910, when Norfolk won the Minor Counties championship. Major J. T. Catley, killed, represented Highgate school for two years at the public schools boxing competitions at Aldershot, and as a member of the honorable artillery company shot regularly at Bisley, winning many prizes and being included in the King's Hundred. Lieutenant E. G. Fricker, wounded, represented Cranbrook in the public school championships in 1914 at boxing. V. S. Simpson, a Sheffield golfer and soccer footballer, has been awarded the Military Cross for brilliant services, while the famous professional golfer, George Pannell, has gained the Military Medal for gallantry in France, the decoration being pinned on him in the trenches. When the war broke out, he was professional to the Royal Golf Club de Belgique, his pupils including King Albert's children. Captain J. F. Treland, a Cambridge University golfer and cricketer, has also been awarded the Military Cross. Sergeant Phil Evans, a famous Swansea Rugby player, has been wounded in the face by a shell. He was an outstanding member of the Swansea pack in 1913-14. Alf Thomas, their clever centre three-quarter, has been discharged from the army owing to wounds, while their captain, Lieutenant Howel Lewis, is still under treatment for a severe wound.

Brooklyn Club Gives Half Pay to Players in Army

New York, Oct. 12.—The Brooklyn National League baseball club has announced that a fund has been started in behalf of its members called into war service. Charles H. Ebbetts, president of the club, donated \$500 and members of the team subscribed \$1,000. Exhibition games will be played and with the net proceeds necessities and luxuries will be purchased. The club management announced that the members of the fighting ranks next season will receive half pay, and that if an player is incapacitated from future baseball service he will be given a position that will enable him to earn money throughout his lifetime. Leon Cadore, pitcher, left today with 730 other drafted men for the national army camp at Yaphank, N.Y., and Miljus and Sherrod Smith, pitchers, will leave with other contingents soon. Cadore's team mates today presented him with a gold wrist watch. The Savoy Breaks Georgia Record. Atlanta, Ga., Oct. 15.—W. R. Cox's The Savoy, driven by the owner, winning the \$2,500 cup race at the opening of the Grand Circuit meeting here today, paced the fastest mile on record in Georgia. The black gelding's time was two seconds faster than the best previous record of 2:04 1/4 made last year by Ben Earl. Jay Mac, driven by McDonald, won the second race for 2:12 class pacers in straight heats, but Rascel gave the winner a hard battle in each event. The 2:09 trot also was won in straight heats, Brescia besting a fair field. Jack Dillon Outfought. Philadelphia, Oct. 15.—Willie Meehan, of California, outfought Jack Dillon, of Indianapolis, in a six-round fight here tonight. Meehan was the aggressor throughout. A Big Surprise. Artists never look alike, any more than grocers or doctors do. Nevertheless, many persons are surprised at an artist who is not small, anaemic, delicate of feature, and decorated with a flowing neck tie. Such a person lately visited the studio of a certain artist in a big city. The man in question wears a big red beard, and stands six feet and some inches high. His shoulders are broad, and his muscles hard from continued exercise. A woman entered his studio and asked for the artist. "That's him standing over there," the attendant said. The woman looked over to where the artist stood, towering like an ancient viking and gasped, "Why," she whispered, in surprise, "he's big enough to work isn't he?" Suspicion. Mrs. Ryan was, before marriage, Miss Annie Ramsay, daughter of Mr. and Mrs. C. H. Haines, Moore street. Many friends will be sorry to learn of her child's death.  
**GORMLEY-BROSAN**  
A wedding of much interest took place in St. Peter's church at five o'clock this morning when Rev. Peter Costello, C. S. R., united in marriage with mutual consent, John U. Gormley of Boston and Katherine Brosnan, daughter of Mr. and Mrs. Thomas Brosnan of this city. After breakfast at the home of the bride's parents, 259 Main street, Mr. and Mrs. Gormley left on a honeymoon trip to New York and Atlantic City, after which they will reside in Dorchester, Mass.

**BETTER FAIRVILLE CAR SERVICE TO BE STARTED TOMORROW**  
Through Run to Foot of King Street—Week Days Only  
The changes in the Fairville street car service requested by residents of that district, will go into effect tomorrow morning. This announcement has been made by the New Brunswick Power Company in an effort to meet the wishes of their Fairville patrons. To meet the demand for better accommodation an extra car will be placed on the route and all three cars will run from Barrhill's corner, in Fairville, right through to the foot of King street, giving a trip every ten minutes.  
In addition to providing a direct service for the Fairville people, this also will give a much better service for residents of Douglas avenue and will relieve the congestion on the West St. John cars. This new service will be in effect on week-days only, the service on Sundays being the same as formerly, from Fairville to the corner of Douglas avenue and Main street. The new arrangement is regarded by the company as an experiment and upon the patronage the cars receive will depend its continuance.

**Secretary's Detail Work.**  
Minutes of eight general meetings and six executive were recorded.  
Correspondence—1,200 post card notices were issued, fifty-eight letters written.  
A report from March, 1916, to March, 1917, written and submitted to the local council at annual meeting.  
**Entertainment.**  
In January the annual assembly was held proving to be most successful; gross receipts totalling \$830.  
This society is greatly indebted to the generosity of the Knights of Columbus for the use of their hall every week from October to April.  
We are also grateful to the press of this city for the courteous attention given our work.  
To our president, Mrs. Dever, we offer our appreciation for her never failing interest in the welfare of the society and express the earnest wish that for many years to come we may benefit by her wise counsel and direction.  
To the vice presidents and treasurer I feel I voice the unanimous sentiment of the meeting in tendering appreciation for the faithful discharge of their duties.  
In concluding this seventh annual report, Madam President, may I express the hope that this retrospect will bring to each of us a more determined resolution to more actively fulfill the duties as members of this society.  
Numerous indeed are present day demands on our time, but has any cause or object a greater claim than the help of God's poor? Could any effort bring greater reward than the provision of clothing and food to His little ones? Believing that good works are essential to what we do for the needy we do for God Himself.  
When the hand on Time's great clock points to another year, may we all be spared to record that we have prized every minute of Time more precious than a thread of gold, that we have made more sacrifices that faith, hope and charity might prevail amongst us and among those for whom we strive to lighten life's burden.

**VALLEY RAILWAY INQUIRY FURTHER POSTPONED TODAY**  
The Valley Railway Inquiry, which was to have been resumed this morning, again has been postponed. Several postponements have been necessary on account of unavoidable circumstances and it is understood that the latest is due to the pressure of the duties arising from the acceptance of the dominion portfolio of public works by Hon. F. B. Carvell, K.C., counsel for the provincial government in the inquiry.  
The date for the adjourned hearing has not yet been fixed. The chief witness still to be heard is Thomas Bell of this city.

**WORD COMES FROM YOUNG CARLETON SOLDIER WOUNDED**  
Charles Lamoreaux of St. John street west, has received word from his brother, Private Walter Lamoreaux, who went overseas with the 140th battalion. Private Lamoreaux who was not fifteen years old when he enlisted, is at present in the Y.M.C.A. hospital, near Lens, recovering from injuries received while doing his bit. He was wounded previous to the 140th, but joined the Princess Pats C.I.L., and crossed from England to the continent as a member of that unit. He was wounded previous to last Christmas, but is pleased to write his brother Charlie that he is coming along nicely and wishes to be remembered to all his friends.

**CARDINAL HERE THIS EVENING**  
His Eminence Cardinal Begin, of Quebec, is expected to arrive in this city this afternoon at 5.30 o'clock. He will be met at the station by His Lordship Bishop LeBlanc and the clergy of the city and will be escorted to the Palace in automobiles. It is expected there will be ten cars. The Adepte and other hymns will be played by A. S. Godwin on the Cathedral chimes.  
This evening at eight o'clock, a reception will be held in the Cathedral. His Lordship Bishop LeBlanc will give an address of welcome on behalf of the clergy and laity of the diocese. Solemn benediction will follow the address, after which a public reception will be held in the Palace.  
A Moncton despatch says—Cardinal Begin arrived in Moncton this morning on the Maritime Express from Quebec. He was met at the railway station by prominent citizens and escorted to L'Assomption church, where he celebrated mass, the first time mass has ever been celebrated in Moncton by a cardinal. He was conveyed by automobile to St. Joseph's College, where he was entertained at luncheon. He will leave St. Joseph's this afternoon, arriving in Moncton on No. 199, Ocean Limited, and will proceed to St. John, leaving here at 2.30 o'clock.

THE HOUSE FURNISHER  
Dear Mary:  
I thought I had all the furniture I needed, but when baby arrived I just had to rearrange things and make room some way for his clothes. So I went down to Everett's and bought a new chiffonier. It's a beauty and the price was so reasonable.  
I'd never had a chiffonier before. My, what a lot of room one saves! And how convenient! I'm going to get another.  
Baby's well. Come soon  
Love—HELEN  
P. S. They've just dandy chiffoniers at
