COAL CRISIS IN BRITAIN ANTICIPATED

OWNERS WANT 46-HOUR WEEK AND SAME PAY

Plan Opposed, Declares Miners' Federation Secretary

WILL MEET SOON Many of Men's Leaders Are Opposed to Drastic Action at Present

LONDON, June 20—It is probable that next week will see another condition of tension in the coal trade of Great Britain. The Miners' Federation is considering the report of the joint committee on the recent inquiry into the coal situation as between the mine owners and the miners, and the Federation will shortly have before it the coal miners' proposals.

TO BE OPPOSED The secretary of the Miners' Federation, A. J. Cook, declares that he will ruthlessly oppose the employers' proposed restoration of the eight-hour day. Cook, however, is suffering from a nervous breakdown, and has gone abroad, so the final decision of the Federation on the questions at issue may possibly be reached in his absence.

DISCOVERY ALONE IS NOT SUFFICIENT

U. S. Holds New Lands Must be Put to Use to Establish Claim.

WASHINGTON, June 20—The views expressed by Governor Brewster of Maine, last night, with respect to the right of Americans to claim sovereignty over land which may be discovered by the McMillan Arctic expedition, did not serve to break the official silence that has been maintained in government circles here as regards the blanket claim made by Canada to territory north of her establishing boundaries.

WASHINGTON ATTITUDE The attitude of the Washington government to claim sovereignty over land which might be discovered by its nationals, however, is fairly well settled. In general, the position taken by the Washington government, either with respect to United States claims it will support, or to those made by other countries, which it will recognize, is that the mere act of discovery is not sufficient. To become valid, it is held that a claim must be exploited and a bona fide attempt be made to prove the territory discovered to some use.

TWO MEMBERS TO RECEIVE TRIPS

Government to Send Pair From Juvenile Clubs to Springfield, Mass.

FREDERICTON, June 20—In connection with the encouragement of boys and girls clubs in the rural sections of New Brunswick, particularly for the development of live stock breeding, it is announced by the live stock branch of the Provincial Department of Agriculture that two members of such clubs in this province will be sent to Springfield, Mass., in September to take a course in club leadership. The two members have not yet been selected. They may be either boys or girls.

TRAVEL HEAVIER

The S. S. Governor Dingley docked at the Eastern Steamships wharf this morning at 11:15 o'clock with a large passenger list of 100 and 80 tons of general freight. From now on, the Dingley is due to dock between 11 and 12 o'clock instead of 9 and 11 o'clock as formerly. This is accounted for by the increase in passenger and freight travel.

44 BEER HAMMERED

LINDSAY, Ont., June 20—"The most diabolical thing that has ever been done in this province," said former Premier Drury, here, last night, at a mass meeting held by the Progressive party, when he referred to the act of the Ferguson government in increasing the strength of beer.

Cop's Clothing Gets Results

NEW YORK, June 20—Samuel Kupferman, a federal prohibition agent operating along the Brooklyn waterfront, had tried every disguise from that of an affluent ward politician to a disreputable longshoreman, but had failed to gain entrance to the dockside saloons to purchase evidence. Yesterday, as a last resort, he dressed up as a policeman, with uniform, stick and badge. He made five arrests in three establishments.

PEKING GOVERNMENT ASSISTS AGITATORS

Contributes \$100,000 and Orders Civil Servants to Donate Month's Pay.

LONDON, June 20—The Shanghai correspondent of the Morning Post says that the Central Government at Peking, has officially taken sides with the agitators, contributing \$100,000 to the strike fund, and ordering all government employes to contribute a month's pay.

BOY LOSES ARM IN AUTO ACCIDENT

Jackie Long, 10, in Serious Condition After Crash at Fair Vale.

Little Jackie Long, 10-year-old son of Edward Long, of Fair Vale, lost an arm as a result of an automobile in which he was riding running over an embankment on the Goodrich Point road yesterday afternoon. He was riding with Joseph Rogers, driver of the McLaughlin Bread Co. The driver of the car and the lad were both rushed to the General Public Hospital, where it was found the boy had a compound fracture of one arm and was cut about the head. The driver of the car was quite badly bruised about the body.

BOYCOTT IS URGED

Canton Circulars Will Ask Natives to Ostracize All Foreigners.

CANTON, June 20—Circulars are being distributed here urging the public to boycott foreign goods, refuse to sell goods to foreigners, refrain from using foreign bank notes, and decline to work for foreigners or to teach in or attend foreign schools. It is understood that this movement coincides with similar ones in Hong Kong and other cities.

IN THE MARKET

A feature of the country market this morning was the presence of a few boxes of wild strawberries at 50 cents a box. Lamb and spring chickens were more plentiful and have come down a little in price, the former being quoted at 30 to 38 cents and the latter at 50 to 65 cents. Eggs and butter were in good supply, the prices about as they have been for some weeks.

House of Commons Solely Discusses Status of Flea

Is it an animal or an insect? The House of Commons solemnly debated the question yesterday afternoon.

LONDON, June 20.—What is a flea? Is it an animal or an insect? The House of Commons solemnly debated the question yesterday afternoon, and decided that, not even to please Brigadier General Cockrell, could it class them as vertebrates. The matter arose under the performing animals bill to regulate the treatment of stage animals. The House of Lords while extending mercy to big creatures was as deaf as possible to the sufferings of the flea.

TORONTO, Ont., June 20.—Confirmation of the news from Los Angeles, that Andrew H. Pepsall had definitely lost his fight against extradition, was forthcoming last night from his Toronto counsel, Arthur G. Slaght, K. C.

Amundsen Believes No Land In Norwegian Polar Sector

OSLO, June 20.—King Haakon yesterday, at a cabinet meeting, expressed the thankfulness of the entire Norwegian nation over the safe return of Roald Amundsen and his companions from their attempted flight to the North Pole.

During the day Amundsen sent a despatch to Premier Mowinkel informing the premier that although he had surveyed 160,000 square kilometres in his flight, there were no indications of land.

"The cast of the lead in our most northerly latitude," the message said, gave 3,750 metres, which leads to the safe supposition that no land exists in the Norwegian sector of the polar basin."

BREAKDOWN OF CONFERENCE IS DEPLORED

Anxiety Over Peking Government Action Is Seen

PRESS IS UNEASY

Newspapers Agree That General Outlook Is Extremely Disquieting

LONDON, June 20—Growing uneasiness over the Chinese situation is manifested in the published comments and news reports here, due partly to the breakdown of the Shanghai conference, and partly to the attitude of the Central Government at Peking, which is said to have given monetary aid to the anti-foreign strikers.

The Times sees in the latter report ground for increased anxiety, and in its editorial comment, characterizes the general situation as disquieting. The editorial expressions of the other papers are similar in tone.

THREE BROTHERS AT CATHEDRAL ALTAR

Sons of Thomas McGuire at High Mass in Cathedral Sunday—One Just Ordained.

Arthur B. Walsh of New York, writing to his mother, Mrs. Elizabeth Walsh, of Main street, tells of being present at Mount St. Alphonsus Seminary at Esopus on the Hudson and attending the ordination of 24 priests by Cardinal Hayes of New York.

Mr. McGuire, his two daughters, Marie and Helen, and his two sons, Rev. Leonard McGuire, C. S. R., of Quebec and Harold McGuire, were present. Peter Carroll, formerly of this city, now of New York, was also in attendance.

Mr. Walsh told of the pleasure he had in meeting three other Saint John students there, Fraters James Grantman, Lucien Howard and Arthur Ryan. He said Father McGuire would arrive in Saint John today accompanied by his relatives. He will celebrate his first high mass tomorrow morning at 11:30 o'clock in the Cathedral and will be assisted by his two brothers, Rev. Leonard McGuire and Rev. Harry McGuire.

ST. STEPHEN, June 19.—A large and enthusiastic meeting was held here tonight by the supporters of the provincial Opposition, when delegates for St. Stephen were elected to attend and vote at the convention here on Wednesday next.

A. D. Ganong was chairman of the meeting. Among the speakers were M. N. Cockburn, K. C. D. F. Maxwell, J. S. Lord, Andrew McWolf and Gordon Nicholson. The delegates elected for St. Stephen are: Queens ward—W. G. DeWolfe, V. V. Vanstone, Ralph McNeill, Parker Gimmier, Thomas Toal, Hugh Murray, Bruce Buchanan.

Milltown held a similar meeting tonight, when they elected their delegates.

Killer of Montreal Man is Sentenced

Canadian Press Despatch. NEW YORK, June 19.—Charles L. Muller, 26, who shot and killed Thomas L. Leeming, of Montreal and Brooklyn, on June 9, today pleaded guilty of murder in the second degree and was given a sentence of from twenty years to life imprisonment in Sing Sing prison.

Prairie Girl Shoots Herself Three Times

SASKATOON, June 19.—After an absence of 27 hours, Miss Tina Fleming, 21, a Scottish girl, walked into her employer's home, 3 1/2 miles from Nipawin, Sask., Thursday, and told how she had tried three times without avail to shoot herself to death. It was revealed here today, she was wounded in the head and the side below the heart. Hope is held for her recovery.

The young woman said she decided to shoot herself because she had not heard from her people in Scotland for some time.

REMOVAL OF THE McAVITY BRASS FOUNDRY RETAIL DEPARTMENT TO THEIR KING STREET ESTABLISHMENT.

On Monday, Messrs. T. McAvity & Sons, Limited, will remove their Valves and Fittings Department to the fourth floor of their King street store, where, with larger space and improved facilities, they will be in a better position to attend to the requirements of their customers for anything in Brass and Iron Valves and Fittings.

The Messrs. McAvity have also removed their Motor and Gas Engine Department to the ground floor of the same building, where they carry a full range of Marine and Motor Boat Accessories and Gas Engine Fittings.

Haig Starts For Dominion On Birthday

LONDON, June 19.—Field Marshal Earl Haig celebrated his 64th birthday today by sailing on the Letitia for Canada, accompanied by Countess Haig and their daughter.

Earl Haig is president of the British Empire Service League, and he will address the British Empire League at its meeting in Ottawa shortly after his arrival at the Canadian capital.

SINCLAIR WINS IN TEAPOT DOME SUIT

Government Charges of Corruption, Scandal and Fraud in Leases Fail.

CHEYENNE, Wyo., June 19.—Teapot Dome rightfully belongs to Harry F. Sinclair, Mammoth Oil Company, T. Blake Kennedy, United States District Judge decided here today.

Government charges of collusion, scandal and fraud in the leasing of the Dome by former Secretary of the Interior Albert B. Fall to the Mammoth Company were buried deep under a voluminous legal decision, when Judge Kennedy completely upheld every act in the process which resulted in the granting of the big Wyoming oil field concession to Sinclair.

Counsel for the government, Albert D. Walton, United States District Attorney, announced after the decision that an appeal would be taken.

SILVER WEDDING.

A silver wedding anniversary gift of some nice pieces of silver was presented to Mr. and Mrs. A. H. Nugent at their home, 42 St. Patrick street, last night by about 30 of the members of the Mothers' Association of St. Mary's church, of which Mrs. Nugent has been a valued member. The presentation was made by Mrs. H. R. Cole-

man, president of the association, and Mr. and Mrs. Nugent replied, thanking their friends most cordially. The evening was spent very pleasantly with games and music and the hostess served refreshments.

The Greatest Pickpocket Out of Jail—

He operates in great factories—in mines—in shipyards. He is known and feared throughout the world of industry. He's in your home—hiding behind doors—secreted between walls. You can't feel or see him. But he's always there. His hand is never out of your pocket. And in the long run the sum he steals is large.

Paint is elastic—allows for this movement of iron. In brief, Barrett Everjet Paint is weather-proof and waterproof—offers a high degree of resistance against steam, vapors, acids and alkalis. It retains its elasticity under all temperatures.

Everjet Paint is used extensively in factories and mines, on railroads and bridges. Metal fencing, exposed pipe, farm implements—every metal surface that rusts needs Everjet Paint.

Everjet is sold by hardware and general stores. Your dealer will tell you more about this money-saving Barrett Specialty.

Write us today! We will send you, free of course, helpful literature about Barrett Everjet Paint. It will help you save money.

SAINT JOHN, N. B., JUNE 20, 1925.

THE SMUGGLERS.

The Senate yesterday passed with minor amendments the Government's bill providing more severe penalties for smuggling goods into Canada.

It is more than many theorists believe. If the party in power believes the advice of the commission, if accepted, would militate against its political prospects.

The people, in the long run, make their own tariffs. The Americans, who have entrusted their fiscal policy to the party of high protection, can scarcely quarrel with Mr. Coolidge for carrying out the principles for which his party stands, and which were given very hearty endorsement by the voters.

"HOME NEWS FROM ABROAD."

The "independence" of Canada is vigorously declared by the Boston Post in the course of some editorial comment based upon a curious misapprehension of the facts.

Canada, as a matter of fact, has not bluntness, or otherwise, refused to be a party to the pact. The Prime Minister made no statement which would warrant, or even excuse, the Post's sweeping assertion.

HOW IT WORKED OUT.

When the United States created a tariff commission the country was told that the judgment of this body of experts would guide, and practically control, the tariff policy of Congress.

The consuming public naturally desired the larger reduction, but Mr. Coolidge is a high tariff man, the head of a high tariff party, and he had in mind not only the consumers but the interests of the beet sugar industry which is strong in the Middle West.

Lloyd George sees in the Chinese disturbance the possibility of a peril that may change the course of civilization.

With the death of Lafollette there passes from the scene the greatest stormy petrel of American politics since William Jennings Bryan nearly won on the free silver issue.

One forest fire a day on the average for the first half of June is one more reminder of the extent of this peril in New Brunswick. Recent rains have been a help, but we are still in a period of great hazard.

LAUNDRYMEN SORE.

CHICAGO, June 20—Laundrymen don't care for jokes about frayed collars and faded buttonless shirts. They want the newspapers to stop kidding them.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Wavilaser."

Trapping the Nightingale

At Attleboro in this Commonwealth a gentleman was arrested and brought to court for disturbing the peace on a Sunday, to wit, by loud, unrestrained, boisterous and malignant song.

The defendant made no difficulties, but began to quarrel with right good will until the carved ceiling of the Attleboro Palais de Justice rang again with advocates, hussiers and local constables looking for a way of escape.

This incident, but one of many which we could recount to the credit of our Commonwealth's jurisprudence, proves that no matter what the circumstances, it is never good practice to sing before the judge—anyhow, not more than once, and even then with delicate discretion.

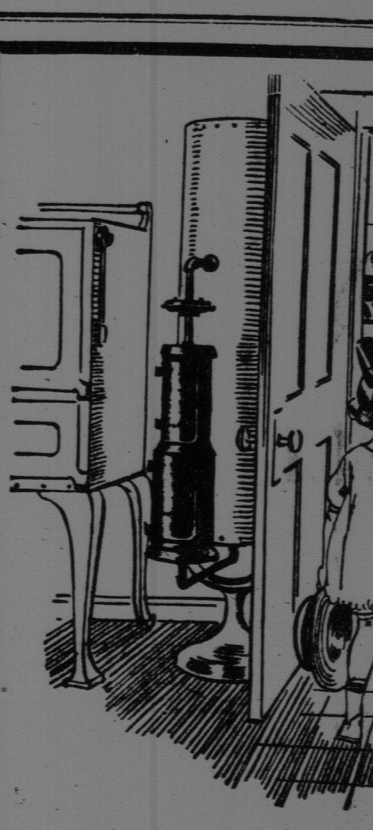

And a Joker, Too.

King Feisal of Mesopotamia is just learning the western game of poker. In a recent game, he announced he had four kings. When he laid down his hand, he had only three, and a player had nerve enough to call his attention to it.

Wonder Spots of The Empire

The Great Pyramids, Egypt

The phrase, "the great pyramids," has been used so often as to create a popular idea that they represent two or three specimens of Egyptian architecture that are at once unique and isolated from the other ruins of ancient splendor in the Nile Valley.

Labor Days or Labor-Less Days?

MADAM, IT DEPENDS ENTIRELY ON YOU. Has your home any labor-saving Gas appliances. Are you still sweating, and toiling over a stove? Are you yet carrying ashes, and coal, and wood? If so, why? We assure you there is no need for it. Put the drudgery on the Gas. It can stand it better than you.

Think About This

You can rent a Gas Range as low as \$5 a year. If you use Gas you can do your cooking for about Ten Cents a day. Our records show the average monthly gas cooking bill in Saint John, to be but \$3.20. And you always have a ready fire, an oven that bakes to a turn.

Wonder Spots of The Empire

The Great Pyramids, Egypt

The largest of the three is that of Cheops. It covers almost thirteen acres of ground, measures 755 feet at the base on each of its four sides, and rises 451 feet above the desert sands. It is now a mass of huge stones, but in its prime it was covered with white marble. Much of the stone has been knocked from the top of it and there can be little doubt but that its original height was almost five hundred feet.

"HAIR-GROOM"

Keeps Hair Combed, Glossy Well-Groomed all Day

"Hair-Groom" is a dignified combing cream which costs only a few cents a jar at any drug-store. Millions use it because it gives that natural gloss and well-groomed effect to the hair—that final touch to good dress both in business and on social occasions. Even stubborn, unruly or shampooped hair stays combed all day in any style you like. "Hair-Groom" is greaseless; also helps grow thick, heavy, lustrous hair.

All Others Obsolete

The fastest selling Ranges in Saint John are Hydro Ranges. Gas Stoves, Oil Stoves, every kind is going into the discard with the tide of popular opinion turned heavily in favor of Hydros. 25% of Hydros sold this month past went into homes as Gas Stoves went out. Which goes to show that the Women know their own business best and cannot be blinded to the gain they make on electric cooking. They have so many neighbors enjoying Hydros that the true facts of lower meter bills are found out without taking the Hydro officials' word for it.

Veterans In Service

No. 9 ROBERT A. JOHNSTON

The strongest man in the city of Saint John!

That was how they described Robert A. Johnston, veteran pressman, years ago. A young man of Herculean build, with whipcord muscles of steel, he met all comers, including the strongest men on the police force and vanquished them in feats of strength.

ROBERT A. JOHNSTON

Today he is bent and aged, and a remarkably tenacious memory enables him to enjoy his declining years in contemplating those glorious times when all the world was young to him, with the future spread before.

"In 1853," he says, "I picked strawberries on the grounds where the hospital now stands. Waterloo street then was known as 'Vinegar Hill,' and when that site was chosen for the hospital, the editor of the Morning News, the first newspaper I worked for, expressed the opinion that the noise of the locomotives would drive the patients crazy. A year later, the Cathedral in Waterloo street was being erected, and I remember I poured some mortar to put round a stovepipe. In that same year, the first sod of the European and North American Railway was turned in Saint John. The place now is known as Celebration street. I have seen four buildings on the land where the Ritchie building now stands in Princess street. The first was a fine dwelling, the second was a building that was destroyed by fire while being erected, the third was consumed by the fire of 1877, while the fourth is the present building. 'Canterbury street then extended only as far as Church street, and that portion of Princess street from Prince William to German, was known as 'Rocky Hill.'"

FIVE POST OFFICES

"In addition, I can place five Post Office sites within my recollection. The first was in Princess street, adjoining the building now City Hall. It was a small affair compared with the present one. The next was the Walker building, Canterbury street. It was destroyed by fire in 1877. The market building was the third with Hon. John V. Ellis as postmaster. Then there was the old building in Prince William street, and finally the present structure."

Mr. Johnston was born in London, England, in 1844, and came to this country when a youth of nine years with his father, who was a tailor. After leaving school here, he was apprenticed with George Fenety, owner of the Morning News, and later King's Printer. The News then was published on the site of the building in Canterbury street now occupied by Campbell's and Shoobredy's, the original building having been burned down. In

Murdoch Passes Through Moncton

Special to The Times-Star. MONCTON, June 20.—Hon. James Murdoch, Minister of Labor, who passed through Moncton on the maritime express last night on his return to Ottawa, said that there were no new developments in the strike situation in Cape Breton since the statement given by him to the press yesterday.

TO WED IN DETROIT.

Mr. and Mrs. J. J. Whipple of 3 Whipple street, have announced the engagement of their daughter, Beatrice, to James Hene Bell, formerly of Grand Falls and now of Detroit. The wedding will take place in the near future. Miss Whipple left last evening for Detroit. On Sunday evening her associates in St. Jude's choir presented to her a lovely piece of linen. The members of the girls' branch of the W. A. C. of St. Jude's gave a linen shower in her honor last week and on last Tuesday tendered her a novelty shower. Among the numerous wedding gifts was a case of silver from the firm of Byrne & McGeouch, with which she had been employed for five years.

Bishop Fiske

Can we make people good by legislation? The Rt. Rev. Charles S. Fiske, bishop of the Protestant Episcopal church, thinks we cannot, and isn't afraid to say so. Bishop Fiske, further, isn't afraid to admit that saying this he is thinking particularly of the prohibition law.

"The curse of today is that we think we can make people good by legislation," he says. "God save us from any more constitutional amendments."

"I've never been excessively keen about the eighteenth amendment, nor have I been carried to empyrean skies by the Volstead act."

"There are too many professional uplifters putting laws on the statute books. It would be just as well to let people be good in their own way and, I sometimes think, be bad in their own way."

PREMIER WELCOMES WEST INDIES PARTY

Conference on Reciprocal Trade Relations Begun Yesterday at Ottawa.

Special to The Times-Star. OTTAWA, June 20.—The parity of representatives of the British West Indies and the Canadian Government, with a view to increasing trade between the two countries, opened in a committee room of the Parliament Buildings yesterday afternoon, with a harmonious interchange of views on the subject.

Words of warm welcome were spoken by Premier Mackenzie King and eloquent responses came from Sir Alfred Sherlock of British Guiana and Hon. William Morrison, of Jamaica.

ROBB CHOSEN CHAIRMAN.

Hon. James A. Robb, acting Minister of Finance, on the motion of the two West Indians, was unanimously chosen chairman of the conference, which, after a brief sitting, adjourned until after the prorogation of Parliament. In the interim the delegates

from the West Indies, numbering over twenty, will visit Toronto, Hamilton, Niagara Falls and centres in Western Ontario.

Music Festival In School Enjoyed

A musical festival was given last night by the scholars of the New Albert school before an appreciative audience which filled the large auditorium. Special numbers were given by the school orchestra, and other numbers on the programme included a reading by Leah Babb, solos by Albert Punter and Miss Margaret Newcombe, and quartette selections by Sadie Leonard, Ruth Carvell, Eugene Mott and Albert Punter. Brief addresses were given by Mrs. E. R. Taylor and H. Colby Smith.

A number of government bills were given third reading, the remainder of estimates of the Department of Public Works were voted in supply, and one-half of the new elections act passed the committee stage.

More Evidence In Charge Against Men

The preliminary hearing in the case of three men charged with assault upon Mrs. Stratton was continued in the police court yesterday afternoon. She testified that, accompanied by detectives, she went to a place near the road just outside the city and there found a liquor flask as well as a "rat" lost from her hair. Her husband testified to finding a white collar which he had previously purchased for his wife. Detectives Power, Biddiscombe and Saunders also testified and the case was adjourned until Monday morning.

NEARING A BREAKDOWN

A Condition that Calls for a Reliable Tonic. Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often the heart palpitates violently at slight exertion, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows weak and they are always depressed. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. Alice Gowan, of Gowan's River, Man., who says:—"About a year ago I had a serious illness which left me very anemic. I was not able to get around well at all, work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

FUNDS NEEDED FOR CHILDREN'S CAMP

Applications For Fair Vale 150—Various Matters Before Health Centre Governors.

With only a few days intervening before the opening of the Lady Byng summer camp for undernourished children, it was reported at the meeting of the Health Centre governors last night that the funds were nearly \$1,500 short of the required amount, and the number of applicants seeking admission to camp numbered close to 150, a number very greatly in excess of the accommodation.

Dr. G. A. B. Addy, president, was in the chair at the meeting last night. In equipment a Franklin stove and easy chairs were most pressing needs for the camp and an appeal was made for these articles.

91 CLINICS HELD.

The administration committee reported showed 91 clinics had been held with 1,623 attending and 583 home visits by the nurses. At 14 well baby clinics 12 attended and nurses made 272 visits. At 19 anti-tuberculosis clinics, 107 attended, five being referred to other care and 811 visits were made by the nurses. At 21 dental clinics 142 attended, one being referred elsewhere. At 25 social hygiene clinics 1,284 treatments were given, 284 patients of whom 24 were new cases. At the last clinic of the season three cases at-

tended. At three pre-school age clinics three cases attended and one was referred elsewhere. At six permanent clinics 14 attended, and at eight school clinics 83 attended and 12 home calls were made.

Hon. Dr. W. F. Roberts spoke of the excellent service of the V. O. N. in obtaining attendance at the prenatal clinic which was a most important factor in the reduction of infant and maternal death rates.

With reference to the suggestion at a previous meeting that a visiting housekeeper was needed to improve conditions in some of the city homes, Dr. Roberts reported having received an application from a former Saint John resident for such a position. Dr. Addy said a service of this kind greatly appealed to him not only for the poor but for those able to pay. He felt such a service could do a great deal of good.

Miss H. Dykeman, the director, reported expenses \$328.78 and receipts \$320.17 for the month and a balance of \$1,661.88.

Walter P. Chrysler Master Car Builder Perfects Four-Cylinder Results

The contributions Walter P. Chrysler has made to the higher development of the four-cylinder automobile can be justly compared to the revolutionary advances he made with the Chrysler Six.

This master car builder had the vision of a finer four than the industry had yet known, finer in performance and finer in riding qualities.

He had the vision of a four that would offer the motorist these new and better results at a cost for operation and maintenance below anything yet attained.

Back of Walter P. Chrysler's vision were achievements that had already made him the foremost figure in the industry. Back of vision also were resources, experience and skill second to none. Under his inspiring direction

they were applied to the development of the new good Maxwell, just as they had been applied to the creation of the Chrysler Six.

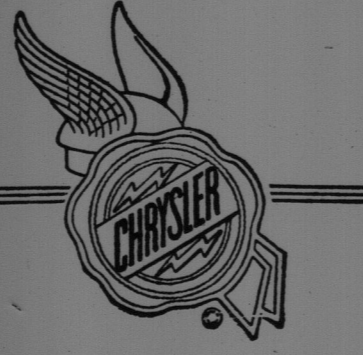

Mr. Chrysler's whole-hearted devotion has gone into the continued perfection of four-cylinder results, his genius is applied enthusiastically to the task.

Consequently the four has always developed side-by-side with the Chrysler Six.

Motor car buyers can always be sure of this: Whatever cars Walter P. Chrysler identifies himself with, whether fours or sixes, they offer advantages in engineering, performance, riding qualities and values to be found nowhere else.

Mr. Chrysler will make an important announcement next week. Watch for it.

The Influence of Sports Wear

Is Evident at Every Turn
The pathway to sports is wide open—Once again women are taking up their favorite outdoor pastimes with added gusto—and those who play the best are those who are apparelled in the best of fashion—We enjoy the confidence of sports women as well as non-participants who love to wear sports clothes for their jaunty and color, because they know through experience that every garment and accessory shown here is correct in cut and detail—This season's showing upholds past traditions. You will see all the new styles, the new shades and the new fabrics at prices most reasonable.

Radiant Frocks in Various Versions **Colorful Sports Sweaters** **Sports Coats and Sports Ensembles**

Fashioned of knitted silks, printed silks, flannels and other fabrics. So gay and colorful you'll just love to have one or two for your summer wardrobe. That possess a rare combination of smartness and youthful charm—for many occasions.

Fess-Holden Morgan Automatic Oil Burning Favored by Women

WOMEN favor and understand Fess Automatic Oil Burning Equipment. They like it because it is so downright simple and free of complications and troubles. In the living room or hall there is a little thermostat (heat regulating thermometer). When more, or less, heat is required a simple adjustment of the thermostat does the work.

They like Fess equipment because it goes right along with its job of keeping the home cosy and warm, doing its work thoroughly, quietly, reliably! Women don't have to worry about it, fuss over it—in fact, they do not have to think of it at all. To them, it is as simple and logical as electric light.

Men Folk Like Their New Freedom
As for the men of households heated by Fess or Fess-Holden Morgan Oil Burners! The men boast to their coal-burning neighbors how much better their homes are heated the Fess way.

Men luxuriate in their freedom from having to shovel coal, carry heavy cans of ashes, sweep and scrape; they like the idea of going to the cellar only once a month perhaps, instead of three or four times a day in the wearying years of coal heating. Owners of larger Fess-Heated homes do not have to employ a furnace man!

Children's Health is Better Now
In Fess-Heated homes children have fewer colds, coughs and other little illnesses. The secret of this is that no matter how viciously cold or mild it is outside you can keep your home uniformly, evenly heated, the Fess way. Grandma and Grandpa like the nice, even warmth. And because oil is so wonderfully clean it doesn't create any dust or grime; this means far less cleaning to do.

And that is the whole family! SAFETY! All Fess equipments have been approved by the Hydro Electric Commission and accepted by the Canadian Fire Underwriters' Association. The entire line of Fess equipment, which is the largest and most complete manufactured, has been tried out under severest conditions and has proved its worth for all cases, both in homes and commercial institutions.

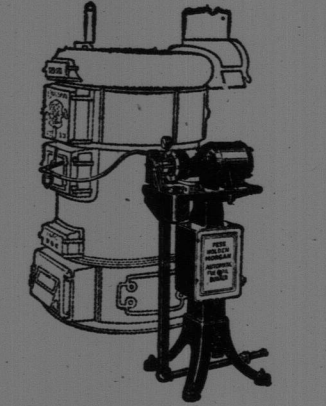

Don't order coal! Obtain from us the Fess-Holden Morgan list of 2,000 Canadian homes oil heated the Fess Way. We will gladly give you a demonstration with no obligation to you whatsoever.

Made in Canada

Simpler in design; more dependable in action; have every protective device; are triple-guaranteed, and yet cost no more than any of the foreign-made burners. There are distinct advantages in dealing with a powerful Canadian manufacturing concern instead of with agencies of foreign companies.

Made in Canada! No duty! Full value for your dollar. Convenient terms if you desire them.

N. B. VOTES PASSED

\$50,000 For Escumaine Harbor; \$25,000 For Mill's Point Wharf.

OTTAWA, June 19—Expenditure of \$50,000 on harbor improvement at Escumaine, N. B., was voted by the House of Commons today. The item was debated some time ago, and was stood over.

An item to \$25,000 for a wharf at Mills Point, N. B., then carried "on division," no division actually taking place.

Both these items were held over when an attack was made in a previous committee on the ground that they were to be spent in fulfillment of election pledges. When both votes had been declared, Hon. H. H. Stevens, Conservative, Centre Vancouver, remarked: "That pays for that bye-election," referring to the Northumberland bye-election of last year.

BAILIFF SALE

THE EVENING TIMES-STAR, SAINT JOHN, N. B., SATURDAY, JUNE 20, 1925

SAINT JOHN INDUSTRY MAKES 2,000,000 POUNDS OF CANDY YEARLY

PRODUCT OF LOCAL FACTORY CARRIES CITY'S NAME AFIELD

Corona Co. Employs 200 to 250 With \$115,000 Wages

Corona Candy Manufactory In Union St.

Tour of Union Street Plant Discloses Interesting Processes in Making of Candy—Home Materials Used When Possible

FORTY POUNDS of assorted confectionery for every citizen of Saint John, taking the population of the city as, roughly, 50,000, are manufactured by the Corona Co., Limited, Union street manufacturers, each year.

About 200 employees—and at the busy Christmas and Easter time 250—60 per cent of them girls and women, are kept busy throughout the year turning out this huge output. The confectionery, besides having a big market in this city, is exported to St. Pierre, Newfoundland, New Zealand, Bermuda and the British West Indies.

Use Home Goods

Sugar, by far the most largely used material in the manufacture of confectionery, is purchased by the Corona plant from the Atlantic Sugar Refinery, Limited. Cocoanuts are imported from Trinidad, to the extent of 500 bags a month, and corn syrup from Ontario.

The Corona plant was formerly at 160-240 Union street, and moved to their present site at 271-283 Union street in 1912. The Corona Company was incorporated in 1911 under the name of the Corona Co., Limited.

Big Plant

Covering 50,000 square feet of ground the four stories and basement of the Corona plant present a busy scene to the visitor. In the basement, where the raw materials are stored, employees are hard at work shelling the cocoanuts.

In the basement are to be found many large bundles of cardboard, used in the making of boxes. The Corona plant has its own box making plant on the second floor of the building.

Makes Own Power

On this floor also, although in a separate department, is the power plant. The Corona corporation generates its own power. All machines used in the plant are electrically driven and are of standard manufacture.

On the first floor are the offices, the shipping and finished stock rooms. On the second floor are the chocolate bar department and the paper box plant; on the third floor are found the cream room, the chocolate dipping and packing departments; on the top story are the hard candy, penny goods, coconut, marshmallow and caramel departments.

Busy Times

Thus between September and December, while the factory employees are working night and day in order to fulfill their Yuletide contracts, Easter candy toys are drying on the racks awaiting packing.

One of the best known products of the factory and one that has a big market is the famous brand of Dorothy Kingston chocolates. A great deal of this brand is sold in Saint John, although the Corona plant's other markets buy heavily of this type of confectionery.

Dining Room

That the management of the Corona firm are looking out for the welfare of their women employees is evidenced by the modern dining room situated on the first floor. Cloak rooms for the girls are in conjunction with the main dining hall and in the latter room, at unch time, the girls may bring their uncles and sit down to nicely appointed tables with everything spotlessly clean.

building during the lunch hour, keep within the confines of the dining and rest rooms as no employees are allowed in the various departments at the lunch hour.

Making Bonbons

On the top floor the bonbons are made. A bonbon is a separate and distinct product from the chocolate as a trade name. The coconut is first shredded by machine and then mixed with the required quantities of refined sugar and corn syrup.

The pink coconut balls are dipped in a substance colored by harmless dyes, guaranteed under existing pure food regulations. After the coconut is dipped, in one substance or another, it is treated to a covering of crystallized sugar, which prevents the air from entering the coating and thus preserves the candies for longer period and in a purer state.

The preparation of the sugar sticks, as well as that of all hard candy, is interesting, and one that requires a great deal of skill, especially in the cooking. If a few degrees too much temperature is expended on the cooking kettles, the mass of unprepared candy may be ruined.

The hard candies are cooked in large furnaces open to the air. When the mixture has been adjudged cooked, it is poured on long, flat, water-jacketed coolers, which are tables with hollow apartments underneath, in which the cooling water is stored.

The next step in the manufacturing process is the use of a gas-heated table with a revolving canvas top. This keeps the batch in a long, straight line which is necessary in order that the mixture may be pulled into strips.

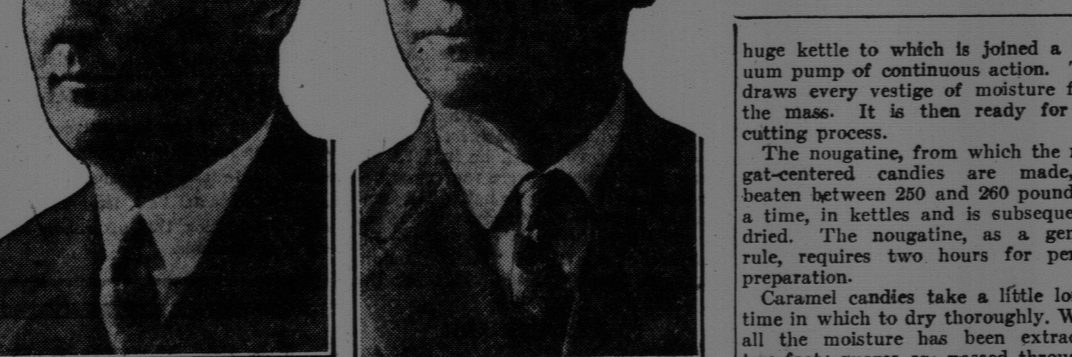

Every variety of candy necessitates a different treatment. In the cutting of the molasses candy, familiar to all in the form of molasses candy kisses, a special cutting machine is used. This device is capable of cutting and wrapping some 20 pounds of candy at the one time.

On the third floor is the cream room, the output of which is used for chocolate centres and fillings. Sugar and corn syrup are mixed together and beaten by machinery. The beating changes the substance from a crystalline watery form to one with the consistency of cream.

huge kettle to which is joined a vacuum pump of continuous action. This draws every vestige of moisture from the mass. It is then ready for the cutting process.

The nougatine, from which the nougat-centred candies are made, is beaten between 250 and 300 pounds at a time, in kettles and is subsequently dried. The nougatine, as a general rule, requires two hours for perfect preparation.

Caramel candies take a little longer time in which to dry thoroughly. When all the moisture has been extracted, two-foot-squares are passed through a cutting machine. Caramels can be cut only with circular knives.

chocolate coatings and are sent to the machine dipping department. The chocolate used for dipping is prepared in kettles and here again great precaution has to be exercised to obtain the required temperature.

Best Hand Dipped

The high grade goods are dipped by hand. This process demands a very high class of help. A centre is lowered into the tray of chocolate and when raised, with a left motion of the hand, various designs are described on the top of the candy.

While the goods are kept in the cooling room after being cooled, they are placed in covered boxes to insure protection from various influences that may become damaging if the boxes are left open to the air.

On the second floor the visitor may view the chocolate bar department and the paper box plant. In the former the chocolate bars are made according to the various moulds.

One Every Second

The moulds are filled with molten chocolate by machinery and are then passed through a boxed apparatus, which has a cooling influence. They are left on the cooling racks for a period which insures their being congealed.

As mentioned, temperature is a very large factor in the manufacture of confectionery. The degree of temperature which the candy is cooked in governs the kind of candy obtained.

the paper. When the machine has completed its operation, the finished box is seen. Some 2,500 may be prepared daily by this machine. By various adjustments, boxes of all sizes from one-half to five-pound dimensions may be turned out.

Fire Protection

The plant has very good sprinkler systems, and these, with their other fire-fighting precautions, make it a very safe factory in which to work. Besides connection with the city water mains, the plant has a 30,000-gallon reserve tank on a steel tower above the building.

A. B. Edwards, manager of the company, has been in the candy-making business for 14 years. Fred J. Kee, superintendent, has a record of 50 years' experience in confectionery plants. W. E. Campbell is supervisor of the offices. Thomas Mitchell, who has with him a group of journeymen candy makers, is foreman of the fourth floor.

TOOK 24 DAYS TO EXTRICATE FROZEN PLANE

Tenacity of Amundsen And Companions Saved Them

RAN INTO MIST

Half Gasoline Was Exhausted When They Were Compelled to Land

Canadian Press. OSLO, June 20.—Captain Amundsen, and his five fellow explorers, will have an enthusiastic welcome, when they arrive here, on their return from their perilous airplane expedition into the Arctic.

STORY OF FLIGHT

Published non-copyrighted accounts of the flier's experiences say they encountered a fog soon after starting from King's Bay, Spitzbergen, on May 21. Rising above the mist they held to their course for some hours, until compelled to alight because half their gasoline was exhausted. Then when it seemed they had found safety in a piece of open water, where the seaplanes alighted, they were suddenly confronted with catastrophe. The ice closed in, immovably jamming both machines. Without immediate means of transportation, stranded amidst a limitless waste of water, and ice, the circumstances were such as to cause dismay, but Amundsen and his companions proved equal to the emergency.

determination, they succeeded in dislodging the effort cost 24 days of exhausting work, during which their rations were rapidly disappearing and the prospects of a safe return seemingly dwindling. Courage and perseverance won through, and at length, discarding all the equipment they could spare, and with only enough gasoline and food to take them back, provided there was no further trouble, they entrusted themselves to the air, heading for Spitzbergen.

Forcibly Fed For Over Six Months

LONDON, June 20.—The Home Secretary, Sir William Joynson-Hicks, stated in Parliament recently that the number of prisoners in England and Wales who were forcibly fed in 1924 was eight.

The greatest number of times any one prisoner was forcibly fed was three. It was a burglar who would not take food, and had to be forcibly fed three times a day.

ROTHESAY SCHOOL YEAR REVIEWED AS TERM IS CLOSED

Head Master at Collegiate Reports 91 Boys in Attendance—Memorial Building Plea. Made—Sports This Afternoon

ROTHESAY COLLEGIATE SCHOOL closes its term this afternoon, and, as usual, a large number of visitors are expected at the exercises.

HEAD MASTER'S REPORT. The report of Rev. W. R. Hibbard, head master, is of much interest to all concerned with the welfare of the institution. It is as follows:—

It is somewhat difficult to decide just what to include in a report of this kind, but I try to choose the subjects which may be of general interest.

In the matriculation examinations taken last June there were 18 candidates, and the percentage in the school examinations to be recommended. Of these 14 passed in all subjects, and the other two failed only in one subject each.

CADETS RATE HIGH. Matriculation results for this year will not be known until later. As a result of the annual inspection held again attained first place.

ATHLETICS. In athletics we have handicapped a good deal by the fact that the fifth form of last year was such a large one and contained so great a proportion of the members of the various teams.

MEMORIAL BUILDING. Thanks chiefly to the continued efforts made by the ladies in connection with the memorial building, a very handsome donation by the architect, D. de Lancy Robinson, we have been able practically to complete the furnishing of the building.

CHANGES IN STAFF. I would tender my very sincere thanks to the members of the staff for their able and loyal support. Especially this year as I do feel that I am much in their debt for, owing to illness and other causes, I was unavoidably absent for several weeks.

As Hiram Sees It. "Hiram," said The Times reporter to Mr. Hiram Hornbrenner, "your explanation of what you said about the women does not appear to have cleared the air at all. It is said that your explanation is worse if anything than the original offense. You were represented as saying women were feeble-minded, and you explained that what you really said was that they were said to be feeble-minded."

DIED THIS MORNING. Many will bear with regret the death of William Leonard Clinton Betts, aged 20, son of Mr. and Mrs. Arthur W. Betts, of 96 Woodville Road, West Saint John, which occurred this morning after a long illness.

SAINT JOHN NURSE. Miss Dorothy Christie, daughter of Mr. and Mrs. R. A. Christie, 134 Victoria street, has completed her term of training at the Mount Sinai Hospital, New York, and has accepted a position as nurse in charge of the children's dispensary, Saint John friends extend congratulations to her.

Rev. C. G. Lawrence Receives Degree. Rev. C. Gordon Lawrence, B. A., rector of Trinity Church, received his degree in divinity on Thursday of this week from Bishop's College, 1-manoxville, when honorary degrees were also conferred. Miss A. E. Allen, of Saint John, graduated, taking first class in English and history option.

Parents Assent to Princess' Betrothal. Canadian Press. ROME, June 20.—The consent of the King and Queen to the engagement of their second daughter, Princess Mafalda, to Prince Philip of Hesse was made public today.

IN HONOR OF THREE. The home of Mr. and Mrs. A. E. Kierstead, Manawagonish Road was the scene of an event which had triple significance, when they entertained for their daughter, Miss Maud Kierstead, on her birthday; for Miss Phyllis Strang, of Lynn, Mass., who is their guest and for Mrs. A. Brown, a cousin of Miss Kierstead, on her wedding anniversary. The house was very attractively decorated with lilies and apple blossoms. The supper table was resplendent with bright candles. A large cake held interesting favors for the guests. Mrs. A. J. Boyd, Mrs. Fred Kilian, and the Misses Mary, Pearl and Eleanor Kierstead assisted in serving. Many lovely gifts were presented Miss Kierstead.

MRS. H. G. PIERCY DEAD. The death of Mrs. Jennie Piercy, wife of Harry G. Piercy of Brookville Station, is announced, and many friends will regret to learn of her passing away. She had been ill for a long time. Besides her husband, she leaves four children, Greta, Edna, Evelyn and Gordon, all at home. There are also four brothers. The funeral will be held at 2:30 o'clock on Sunday afternoon to Fernhill.

ALFRED DUNHILL OF LONDON. These Pipes are made in England of the finest Brucyere obtainable by master craftsmen. They inspire real pride of possession—are a confident and friend—a real pal. You can't afford to be without one. Select your favorite shape at LOUIS GREEN'S, 87 Charlotte Street, The Dunhill Shop. Opp. Admiral Beatty Hotel.

SCHOOLS TAKE MOST OF TAXES

Upkeep Requires 93 Cents of Every Three Dollars Collected.

Streets Get 53 Cents and Fire and Police Services are Next.

The report of the Board of Assessors in filing the assessment for 1925 shows that quite a large proportion of the real estate of the city is exempt from taxation, for one cause or another. Some of this exemption is due to the fact that it is church property, some is school property, some federal government property and some is exempt under special agreement between the owners and the common council.

HOW APPORTIONED. The division of the assessment among the various services shows that this year more is required for streets, fire, ferry, and schools and less for lights, charitable purposes and debenture interest.

Following will be found the apportionment of the assessment for the years 1924 and 1925.

Table with 2 columns: 1925, 1924. Rows include Board of Health, Boys' Industrial Home, Contingencies, Children's Aid, G. P. Hospital, Poor, Lunacy, County Hospital, Schools, Debenture Interest, City, Lights, Police, Fire, Exhibition Buildings, Libraries, City Survey, Charitable Purposes, Schools, Debenture Interest, Total Percentage.

FIVE TO GRADUATE

Evangeline Hospital Nurses Are to Receive Certificates on Monday Afternoon.

Leut.-Col. L. DesBrisay, Toronto, Women's Social Secretary for Canada east, of the Salvation Army, will arrive in the city at noon today to attend the graduating exercises of the Evangeline Hospital on Monday. The exercises will be held in Centenary Hall, Westworth street, at 4 o'clock on Monday afternoon, and five young ladies will receive their certificates. They are Capt. Parents Assent to Princess' Betrothal. Canadian Press. ROME, June 20.—The consent of the King and Queen to the engagement of their second daughter, Princess Mafalda, to Prince Philip of Hesse was made public today.

IN HONOR OF THREE. The home of Mr. and Mrs. A. E. Kierstead, Manawagonish Road was the scene of an event which had triple significance, when they entertained for their daughter, Miss Maud Kierstead, on her birthday; for Miss Phyllis Strang, of Lynn, Mass., who is their guest and for Mrs. A. Brown, a cousin of Miss Kierstead, on her wedding anniversary. The house was very attractively decorated with lilies and apple blossoms. The supper table was resplendent with bright candles. A large cake held interesting favors for the guests. Mrs. A. J. Boyd, Mrs. Fred Kilian, and the Misses Mary, Pearl and Eleanor Kierstead assisted in serving. Many lovely gifts were presented Miss Kierstead.

MRS. H. G. PIERCY DEAD. The death of Mrs. Jennie Piercy, wife of Harry G. Piercy of Brookville Station, is announced, and many friends will regret to learn of her passing away. She had been ill for a long time. Besides her husband, she leaves four children, Greta, Edna, Evelyn and Gordon, all at home. There are also four brothers. The funeral will be held at 2:30 o'clock on Sunday afternoon to Fernhill.

The Business of "Dressing Up"

EVERY business man knows it's good business to wear good clothes. He knows, from a lifetime of experience, that his first impressions of a business caller are based on that caller's "appearance," before a word is spoken. If the impression is good the interview is off to a successful start.

It pays, therefore, for every man trying to make his mark, to give thought to his appearance. To dress well is a real step towards success. And this is merely a matter of getting clothes that fit your figure and personality. Such are Scovil Bros. Clothes, as proven by successfully dressing men for more than a third of a century. And such clothes are surprisingly low priced.
