BODY IN ICE OF RIVER; LEG TRIPS UP BOY SKATER

Encased in Ice Mrs. Baker of Detroit, Missing Since Jan. 10, Is Strangely Found

Windsor, Ont., Jan. 27.—With limbs protruding for perhaps a foot above the frozen surface, the rest of the body encased in solid ice, which completely hid it from view, the corpse of Mrs. Eleanor Baker, aged forty-five, wife of Charles H. Baker, of Detroit, was discovered in the lower Detroit River a short distance out from the shore of Fighting Island on Sunday evening.

A boy skating in the vicinity tripped over what he at first believed was an old stump, which had floated down with the ice. As the skater picked himself up, he was horrified to discover that it was a woman's leg against which he had fallen. Further examination showed the body hanging head downward.

Coroner Labelle had the body removed to a morgue, and yesterday the woman's husband identified the body. Mrs. Baker disappeared from her home in Detroit on January 10, he said, and for some time she had shown signs of mental aberration, due to a proposed surgical operation. He believes that she jumped into the river while in this condition.

SHIPWRECKED MEN HERE ON THE CARAQUET

Sister Ship of Cobequid Brings Them to Port FIVE DAYS ADRIFF ON OCEAN

Captain and Crew of the Schooner Ladysmith Had a Rough Experience—The Ramore Head in From Glasgow

After a rather stormy passage from the West Indies, the Royal Mail Packet Liner Caraqueet arrived in port this morning, and docked at the Pettigill wharf about noon. She brought three first, six second and four third class passengers, mails and about 3,000 tons of general freight.

Among the Caraqueet's passengers were Mr. and Mrs. H. D. Smith, Miss Smith and Master Smith, of this city. It had been the intention of Mr. and Mrs. Smith to come here by the Cobequid, which was wrecked on Trinity Ledge on February 13, but changed their mind just before the steamer sailed. It was thought at first that they were aboard the wrecked steamer.

The Caraqueet also had on board Captain R. A. Lohnes and three members of the schooner Ladysmith, which was wrecked off Cape Cod on February 12. The seamen are E. Powell, S. Simpson, of Halifax, and F. Selig, of Bridgeport.

The Caraqueet also had on board the men told of the strenuous time they experienced during the height of a terrible storm off the coast of Cape Cod, the same storm that raged in the Bay of Fundy at the time the Cobequid stranded. On January 12, along toward the Cape Cod, the Caraqueet was struck by the hurricane which carried away every stitch of canvas, as well as the lifeboats and the schooner's deckload. With the vessel badly damaged and without hope of setting foot on land again Captain Lohnes and his seven men drifted about for five days.

On the fifth day they were sighted by the steamer Chignecto, a boat was sent out to them and they were taken by the steamer to Bermuda. One of the crew, Leopold O'Brien, had his feet badly frozen and he is still in the hospital in Bermuda. Two of the crew signed on the steamer Bermudian for passage to New York, one shipped for the Canary Islands and Captain Lohnes and the other three men came to St. John. The captain will proceed to his home in Liverpool, N. S., and Mr. Powell, Simpson and Selig, who lost everything in the wreck, will endeavor to secure a berth on some of the vessels sailing from St. John.

BIRTHDAY OF THE GERMAN EMPEROR

LONDON'S VERY POOR HARDEST HIT BY STRIKE

Belief That The Coal Carriers' Trouble Will Be Ended Soon—Outlook in Building Trades Worse

London, Jan. 27.—The coal strike continues, but it is not having the same effect in all sections. Some parts of London are almost without coal, while others are not affected, as numbers of non-union men are working under police protection.

The coal porters' union has withdrawn the ban from the hospitals so far as the delivery of coal to these institutions is concerned, but has stipulated that the privilege shall not be abused.

The very poor people, who buy the smallest quantities of the fuel, are the worst sufferers by the strike. It is predicted the trouble will soon be over.

On the other hand, the lockout in the building trades because the men refused to work with non-unionists, threatens to become worse, as indirectly the allied trades threaten to strike in sympathy with their fellow workmen.

Troubles Which Threaten New York, Jan. 27.—A cable to the Tribune from London says:—A large extension of the labor struggle in London occurred last night. The following trades and industries are now engaged or are threatened with a strike—Coal, buildings, electric light, shipping and transport.

POLICE SAY THEY STOLE 258 AUTOS IN A YEAR

New York Detectives Believe They Are on Trail of Gang of Thirty One

New York, Jan. 27.—Following an early morning raid in the Bronx in which two men were arrested in connection with the theft of numerous automobiles in this city in the last twelve months, the police admit that they are on the trail of thirty-one persons. These are said to be members of a band which has thrived by the theft and sale of 258 automobiles during the last year and it is asserted, wholesale arrests may be looked for.

The arrest of Charles Rudy, of Prospect avenue and John Sherwood, of West Ninety-sixth street, was made by Detectives Finan, Hyman and Hughes, acting under orders of Inspector Faurot. It is said the detectives obtained information regarding Rudy from two women, who said Rudy and three other men had invited them to take a joy ride with them. Charges of a serious nature were made against the men, but subsequently retracted by the women themselves.

It is said that one woman told the police that Rudy was one of a band of men who made much money by selling stolen automobiles, and the police resolved to make a descent upon the garage conducted by Rudy, and his arrest followed. Sherwood, who is an insurance adjuster, was charged by the police with collecting money from the owners of stolen machines as well as from the insurance companies with which he is identified. Both men were arraigned in the Tombs. Rudy was held in \$7,000 bail and Sherwood in \$2,000.

A third man had to have been placed under arrest as closed with Deputy Commissioner Dougherty for several hours and it is said he gave information which is likely to lead to the arrest of many of the automobile stealing combination. This band, the police assert, has no connection with that operating in New Jersey, several alleged members of which were arrested in this city and Lakewood. It is said the police have learned the locations of twenty-seven stolen automobiles.

The Love Story of Prince and Princess Alexander of Teck

(London Great Home Weekly.) One dark night in February eleven years ago three figures crept out of Windsor Castle, and walked swiftly from the flaming splendour of the palace into the gloom and mystery of the sabbath-youthful park.

One was an alert and youthful figure, who bore in his hands a lighted lantern. The second was a woman of middle age, stately of carriage, commanding yet kindly of mien.

The third was a beautiful girl, who clung, no without some suggestion of nervousness, to the arm of the lantern-bearer.

With hurried steps they made their way to a spot which might try the nerves of the stoutest. Their goal was the solemn chamber in which the royal sheeted dead lie buried. They entered the mausoleum; the sombre vault fittedly lighted by the dim beams of the lantern as, swung by the hand of its bearer, it glanced from tomb to tomb.

The three passed before one of the sepulchres, and knelt. And where they knelt they remained long in silent prayer, and the lantern-bearer, the massive door of the vault behind them, and returned, by the way they had come, to the great grey castle, from which the red lights were streaming, the strains of a score of instruments pealing.

Less than twelve hours later the same three figures formed the central group of a regal gathering in the famous old St. George's Chapel. But now the younger of the two ladies, escorted by her uncle, King Edward and with her hand to the sovereign of the British Empire, stood before a gallant, upstanding soldier who had come to claim her for his bride.

The man with the lantern was the present reigning Duke of Saxe-Coburg; the elder lady was his mother, the Duchess of Albany. The younger lady was his daughter, and his sister, Princess Alice of Albany; the soldier was Prince Alexander of Teck, youngest brother of Queen Mary.

The Princess in Wonderland

Was there anything sinister or ill-omened in that secret visit to the tomb of the late Duke of Albany, which bells were due to ring their joyous madrigal? No, the passionate affection which united this happy pair was not diminished when the artist of the Duke of Albany, died. They prayed, this pre-nuptial eve, beside the dead prince's last resting place, and he came out of a living husband and father.

It is the way, the tender, unforgetting way, of this charming family. It was not a visit in grief or mourning; it was an offering of the very flowers of the heart to a dead man's memory, as the rest of us offer fragrant bouquets to the memory of those who come not again. It was just the idyllic act which we should expect of this ethereal-minded young princess.

She was brought up in the company of poets and artists and men of funny fancies. Rugged John Ruskin was never so perfect a poet as when some pretty child inspired his wonderful fancy, and he worshipped this little princess, and nursed her and crooned his verses to her, and talked in art terms that she could understand.

And "Alice Carroll" forgot in her presence that he was a terrific swell of a mathematician; and he talked "Alice" and "Bruno" and other merry conceits to her, and sent her the earliest copies of his books, especially the nursery edition of "Alice's" "The princess was not the Alice of the imperishable book, but she inspired many of the ideas that live in his later writings.

We owe one of Alma-Tadema's most charming pictures to this inspiring young princess. It was all before her love story began. She was in love with a tortoise long before she shyly yielded the prince the answer for which he yearned. She was in love with a tortoise which abode with Mrs. Ward, the artist of whom Princess Alice used to take lessons. Now everybody, encouraged by gentlemen with baronies of these gentle reptiles for sale, believe that tortoises are capital things for consuming beetles, and the princess, in common with humbler humanity, shared the delusion. But one day at Kensington, with her playmate, Mrs. Ward's daughter, she discovered that the tortoise was not an insectivore. She saw it munching for all it was worth at a lettuce, and with her playfellow she sprang, in delightfully unroyal disregard of ceremony, full length upon the floor, to watch the pet tortoise at its

Ambitious Sultors

It was one of the biggest surprises that compilers of court circulars have had. Royal matches are not as a rule dissociated from considerations of policy.

A granddaughter of Queen Victoria must necessarily engage the attention of ambitious sultors of foreign royal houses.

There were a dozen princely hearts at the feet of this daughter of Queen Victoria's most gifted son. But she gave with joyous zest her hand to the one man in the world that she loved, though he was the youngest son of perhaps the poorest of the royal houses of Europe.

Prince Alexander's father, the late Duke of Teck, had a not liberal allowance—only that and nothing more; and in his merry, whimsical way he would say, "Here am I, grandfather of the future King of England, and how much pocket-money do you think I have to last me for another month? Fourteen and

Turkish Girl of Wealthy Family Flies Away With Major

Constantinople, Jan. 27.—An elopement by air has created a sensation here.

Some time ago a Turkish major, Mahmud Ali-Bey, fell in love with the beautiful Fatima Hanum, daughter of a wealthy financier.

The major was young, handsome, courageous, but poor, and the financier resolved that only a wealthy man should marry his daughter.

Fatima, however, had her own views. She had been educated in a French college, and became a progressive thinker.

In a fortnight he could master the aeroplane and gain his pilot's certificate. He then proposed to his betrothed that she should elope with him on the machine.

Together they planned how to induce the girl's father, to consent to the marriage. At last the young major hit an idea. Without telling the girl anything, he resolved to take up aviation under the German experts who had arrived at Constantinople.

In a fortnight he could master the aeroplane and gain his pilot's certificate. He then proposed to his betrothed that she should elope with him on the machine.

Mahmed Ali-Bey took a full supply of petrol, and it was said to be his intention to fly to Adrianople or into Bulgaria to be married.

REGENT DEATHS

Woodstock, N. B., Jan. 26.—A young son of Frank Watson died very suddenly this afternoon. It is supposed the child found a box of sugar-coated pills and ate a quantity of them. A physician was summoned and everything done to save the child's life but without avail.

News of a double bereavement came to Frederick W. Stringer, an employee of the Imperial Theatre, when he received a telegram announcing the death in London of both his mother and brother-in-law.

At Red Rapids last week, Paul, eldest son of Mr. and Mrs. David Millen, passed away.

At Arthuret, Victoria County, George Price died last week, aged eighty-four years. He leaves his wife and four daughters.

At Gordonsvale, Carleton County, Allen, aged eleven years, youngest son of Mrs. Charles Campbell, died last week.

At Pokoki, York County, on last Monday, Mrs. Frederick Clare died at the age of twenty-six years.

At Salisbury on Thursday evening Mrs. Hart Murray passed away. She is survived by her husband and quite a large family.

At Lewis Mountain, Salisbury, on the 22nd inst., Mrs. William Alward died. She was about eighty-four years of age. Besides her husband she is survived by several sons and daughters. Almer Alward, section foreman on the I. C. R. at Salisbury; Nelson Alward, farmer, of Lewis Mountain, and Stanley Alward, farmer, of North River, are sons. Several members of her family are residents of the United States.

In Melrose, Westmorland county, last week Miss Margaret Fitzpatrick, daughter of Mr. and Mrs. Martin Fitzpatrick passed away. Deceased was twenty-four years of age. She leaves besides her parents, three sisters, Mrs. M. Ripley, New Glasgow, N. S.; Mrs. B. Baxter, Northport, N. S.; and Miss Mabel at home, and three brothers, Frederick, of Amherst, N. S.; Harry, Bayfield, and William at home.

C. Edwin Taylor died on Sunday morning at the Hospital in Moncton. Mr. Taylor was a native of Moncton, and one of its best known citizens and widely known throughout the province, having been a traveling representative for some years past for the Amherst Boot and Shoe Company. He was a son of the late William Taylor. In former years he was in business, being associated with his brother, R. T. Taylor. He was 67 years of age, and survived by a widow and two daughters, Miss Hazel, at home, and Mrs. Charles Bevanon. Three brothers, Messrs. R. T. and Samuel of Moncton, and George of Garshe, CAL, and two sisters, Mrs. T. R. Denham, of St. John, and Miss Charlotte, of Moncton, also survive.

HERE IS THE SECRET OF LONG LIFE

While looking forward to health and long life it is possible that you are unaware of the conditions necessary to attain healthful old age. Careful eating, and consequently preservation of the health and vitality of the digestive and excretory organs, is of the greatest importance.

Overeating is the usual cause of torpid, sluggish liver action, and when the liver fails additional work is thrown on the kidneys and they break down. Kidney disorders are the great source of suffering in old age. Rheumatism, bodily pains, aching arms and legs, backache and lumbago are the result.

By the use of Dr. Chase's Kidney-Liver Pills to regulate the liver, kidneys and bowels, as occasion requires, you not only overcome the suffering, inconvenience and unpleasantness attendant on attacks of biliousness, indigestion and constipation, but you actually prolong life by keeping these organs in good, healthful condition. This medicine is a wonderful source of comfort for people in old age.

STAR'S NEW POLICY A DECIDED HIT

The people of the North End appreciate the efforts of the Star Theatre to cater to them, even at a much greater outlay of money, as evidenced last night when the theatre was crowded from 6:30 until 10 o'clock.

The new four reel programme policy made an instant hit and Selig's wonderful jungle feature in two reels "Wamba" elicited general comment. The adventures of a mere infant among ferocious lions and other animals in the jungle was truly a wonderful sight. The remainder of the programme was made up of a Kalem drama and an Edison comedy. A special matinee was held this afternoon to accommodate the school children and tonight will be the last showing of this elaborate bill. Tomorrow the Star second big feature will be a powerful Vitagraph society story "Red and White Roses" featuring an all star cast of this popular company's players including Julia Swayze Gordon, Rogers Lytton and others.

GOMPERS TO ANSWER CHARGES BY MOYER

Washington, D. C., Jan. 27.—President Gompers of the American Federation of Labor will leave for Indianapolis today to answer charges of President Charles H. Moyer of the Western Federation of Miners, made yesterday before the convention of the United Mine Workers of America.

When informed of Moyer's allegations, Gompers declared that the records showed them to be "seriously mistaken in fact." He will go before the miners fortified with a copy of the minutes of the last session of the executive council of the American Federation of Labor, other documents, which he says will disprove Moyer's statements.

Friends of Mr. Gompers were offering their congratulations to him today on the 64th anniversary of his birth.

THE CHANGE IN PREMIER BORDEN (Moosejaw Times)

Amongst the resolutions considered by the grain growers' convention at Brandon, Man., last week was this—"That this convention views with alarm the increasing corruption in elections, both federal and provincial, and hereby express its indignation and condemnation of such practices, and demands that the law be made effective to punish election wrongdoing. Premier Borden has been perfectly content to profit by any electoral corruption that will win ridges for his party, and instead of appointing a public prosecutor, has countenanced the engaging of counsel to defend the election crooks who worked for his party."

"There was a strange man here to see you today, papa," said little Ethel, as she ran to meet her father in the hall.

"Did he have a bill?"

"No, papa, he had just a plain nose."

Man Who Built Panama Canal Wants Full Power Before He Will Take Post

New York, Jan. 27.—Colonel George W. Goethals, who built the Panama Canal, has consented to become police commissioner of this city at the end of the present year on condition that the president of the United States place him on the retired list and with the additional condition that Mayor Mitchell in the meantime procure legislation which will make the police commissioner the final court of judgment in dealing with the men under him.

This was the message which George W. Perkins brought back from Panama to Mayor Mitchell at his home. Colonel Goethals sent his terms to the mayor in a letter, after reading which the mayor issued a statement saying that a bill would be drafted and sent to the legislature immediately, providing for the change in the law which Colonel Goethals has made a condition of acceptance.

Washington, Jan. 27.—At the White House it was said that President Wilson knew nothing whatever about the Goethals' report, and that he had confidently expected that Colonel Goethals would become the first governor of the Panama Canal Zone.

At the war department the report was not credited.

MAY QUIT POLITICS

Hartland Observer.—It is currently reported that B. F. Smith has decided that there is no money in politics for him and that his private business demands his whole attention. He, therefore, says the rumor, will abandon politics. It is also said that for his services to the party Mr. Smith feels compensation is due him and that if Providence continues in reforming the senate Mr. Smith aspires to a seat in that body.

GOOD VAUDEVILLE AND PICTURES AT THE LYRIC.

Kennedy and Burt, the latest link in the Lyric's chain of vaudeville acts, again presents a happy combination of song and dance by artists who know how. This clever team offers a dainty act embracing popular novelty songs rendered in a manner decidedly all their own. Mr. Kennedy, possessing a pleasing stage presence, is also blessed with a remarkably fine tenor voice, and he is not stingy with it either. His different numbers were thoroughly enjoyed by all. His pretty partner, Miss Burt, adds much to the act by a charming personality, and a good, clear singing voice.

The Rain Song was interesting and is a change from the ordinary. A touch of humor is conveyed by Mr. Kennedy's evident desire to leave Miss Burt alone upon the stage and battle with the audience for herself. Possibly because he fears that she can fill the bill most satisfactorily, he returns, but in the meantime the audience is guessing as to whether a trip to Reno is to be the outcome of a hasty song quarrel. The picture bill claims the Mutual Weekly, as interesting as ever. The Heart of a Rose, a pretty Reliance drama, and The Dividing Line, a Ramo comedy. The Flying Mitchell will be the attraction the last three days of the week.

**UNIQUE OPENS THE WEEK WITH STIRRING PROGRAMME.**

The fame of the Kay Be war dramas, which has grown so rapidly in the past few months, seems likely to receive another impetus from The Ironmaster, which was offered for the first time in St. John at the Unique theatre yesterday. A special cast engaged for the picture plays it with a simplicity and fidelity which makes the story convincing and puts it among the best of this brand of films. The staging is worthy, especially the scenes on the battlefield and the interior of the iron foundry. The acting of Master Tom Blake, a young man of fourteen years, adds much to the interest.

Coupled with the foregoing is a laughable farce comedy by the Majestic company, The Rivals, the main incident of which is humorous in itself and when connected with the strikingly contrasted personalities and the genuinely funny stage business which illuminates the story, the film proves, what in slang parlance is called a scream. The chase by the Irishman after the Dutchman cannot help but prove enjoyable. The Metropolitan film success, The Blight of Wealth, by the Thanhouserites, is offered for Wednesday and Thursday.

OUR CITY GOVERNMENT

Mr. W. F. Burditt, in the Canadian Courier of last week, reviews the record of the commission plan of government in St. John, and finds that it is a great improvement over the old system.

"One advantage of the commission plan is that it provides a certain degree of continuity in service—makes possible a more permanent policy. Yet, even under a four years' tenure of office, a commissioner is only just beginning to realize the full benefit of experience, when the candidature of some popular but less qualified aspirant may compel his retirement.

Mr. Burditt, with all good citizens realizes that it would be a step backward if any of the present commissioners were replaced at the civic elections by a man less competent or less desirous to make a good record at the head of a department. The citizens would do well to begin to give some thought to the coming elections, and to be most anxious to secure the election of only the best men among those who may offer as candidates.

At last Mr. Hazen has broken his masterly silence and said a word in mild defense of the Bay of Fundy. That which the frantic interviewers and editors and other noises of the St. John Standard failed to do was done by Mr. F. B. Carvell, M.P., who got the slanderous statements of Captain Cliff before parliament, and asked Mr. Hazen what he had to say about it.

St. John is indebted to Mr. Carvell for bringing the matter before parliament and thus getting an authoritative statement published in the press of all Canada. It will still be necessary, however, to get the information for which the board of trade has applied to Mr. Hazen, and show by the record that the percentage of loss to vessels and cargo going in and out of St. John has been so small as to prove this port one of the safest along the whole Atlantic coast north of Cape Hatteras.

Mr. E. M. MacDonald, M.P., of Pictou, told the Canadian Club of Montreal yesterday that the time had come when the business men and politicians of Canada should consider a general revision of the tariff. The general rate in Canada he said, is now about the same as was the rate in the United States before the recent downward revision in that country.

Addressing the Canadian Club of St. John in April last, Professor Edward Kyle of the University of Toronto dealt with the subject, "Canada East and West," and pointed out the importance of each section getting the point of view of the other. It was his impression that the gradual growth of manufacturing industries in the west would tend to lessen the free trade spirit of that section, and if an earnest effort were made to bring about a mutual understanding, the differences between east and west would disappear.

CONSIDER THE BOYS.

Six boys charged with participation in a number of robberies spent last night in the north end police station. In another part of the city last evening about forty boys, assembled in a hall under good supervision, were forming a plan after two weeks of mutual pleasure in the evenings with other boys in the same hall to organize themselves, elect their own officers and committees, conduct their own business, subject of course to the advice of a small executive, and make the club a real boys' club, in which every member would have a personal interest.

These boys are about the same age as the six who spent last night in the North End station charged with crime. Some of them indeed are under ten years of age. Some are working boys, some are newsboys, and all of them are boys subjected to exactly the same temptations as led to the downfall of the other six.

Which is better for the citizens of St. John, to encourage the organization of boys' clubs and see that they have a comfortable place in which to meet, and encourage them to assume their share of responsibility in a well conducted institution; or to leave them to their own devices, and to all the temptations of the street?

A return brought down to parliament shows that Postmaster-General Pelletier got rid of about 1,100 employees in the post office department in the first three or four months after he assumed office. No less than 600 postmasters were dismissed, nearly all of them charged with political partisanship. If to the number who were dismissed in that short period were added all who have since been dismissed, Mr. Pelletier would probably be able to show that he has established a record in departmental history at Ottawa. Mr. Pelletier's idea of civil service reform is to cut off the head of every Liberal office-holder and put in his place a Tory who has been useful in political campaigns.

The country at large learns with regret that Premier Borden is again suffering from ill-health, and hopes that it will be nothing serious. Politically he has strong opponents, but all that is forgotten when illness prevents his attendance upon his duties.

Hon. Mr. Lemieux said in parliament yesterday that he had it on the authority of Mr. Henri Bourassa that the Tory jingoes in Montreal and Toronto had paid for the sewing of the Nationalist flag in Canada. Mr. Lemieux's statement confirms the universal impression. The Tory-Nationalist alliance was engineered by flag-wavers whose patriotism may be measured by the fact that they were thus willing to ally themselves with a party, one of whose members thought it good policy in Quebec province to boast of the deeds of those who had "shot holes in the British flag."

Chicago, Jan. 27—Chicago's first municipal store which the city council recently authorized with an appropriation of \$25,000 and at which groceries are to be sold at cost to the poor is now in operation. If the market proves a success, meats and wearing apparel also will be sold and other stores opened in different sections of the city.

Dr. Barnardo's Homes, which have branches throughout the British Isles, and in Canada, support more than 8,000 children, which they describe as "the largest family in the world." More than 78,000 boys and girls have entered the homes since they were founded by the late Dr. Barnardo in 1866.

BIRTHDAYS OF NOTABILITIES

TUESDAY, JANUARY 27

G. M. Bosworth, vice-president of the C. P. R. familiarly known as "Boss" Bosworth, was born fifty-six years ago to-day in Ogdensburg, N. Y. He is the supreme head under the president of the traffic department of the big system and as such has to look after the transportation of something like sixteen million passengers and thirty million tons of freight every year. Yet he bears his heavy load without complaint and is always ready to assume added duties. Everything that troubles anyone else is usually shouldered off on "Boss" Bosworth whose capacity for work seems to be limitless. Steamships, hotels and telegraphs one after the other were shifted to his department and are now operated under his supervision. He is a most unassuming man and does each day's work quietly and effectively.

The Bread that Makes the Meal BUTTERNUT. Try it and See. No Hairy Growths After This Treatment. (Beauty Notes.) After much experimenting it has been found that delatone is as effective for removing hairy growths as the electric needle. And the argument in favor of the new method is that it is inexpensive, painless and takes little time. Here is the treatment: With powdered delatone and water mix enough paste to cover the undesirable hairs, apply and after 2 or 3 minutes rub off and with it comes every trace of hair. The skin should then be washed to remove the remaining delatone.

PELLETIER CHOPS OFF A HEAD EACH HOUR. Ottawa, Jan. 26—One head was chopped off for every working hour, including Sundays, and counting an eight-hour day, during the first three months of 1912, he had got rid of something over 1,100 employees in the postoffice department, postmasters, letter carriers, messengers, etc. Presumably they were all Liberals and had therefore no right to remain in the public service or draw pay from the public treasury.

INSURANCE MEN INDICTED. Toronto, Jan. 26—The grand jury today found a true bill against the following charged with conspiracy to defraud in connection with the Union Life Insurance Company: H. Pollman Evans, president; Henry Symons, K. C.; Geo. E. Millichip and F. G. Hughes, directors. A second true bill was found against Evans and Symons under a similar charge.

HEALTH IN GARDEN CITIES. Health statistics are always interesting, for by comparing them, the relative values of different places from the economic value of citizens are available. Mr. Harold Craske, secretary of the First Garden City—Letchworth—is justly proud of what vital statistics show concerning his city. And it must be remembered that Letchworth is not a model suburb where the residents are well-to-do. It is "a busy manufacturing town, containing 40 industries, and with a population of over 8,000, drawn from the crowded industrial centres." And yet these are the comparative figures: Ordinary death rate per 1,000. Letchworth..... 6.1. Bourne-mouth..... 9.9. London..... 13.8. Bournemouth..... 16.8. Tisbury..... 18.8. Infant mortality: Letchworth..... 50.6. Liverpool..... 123.0. Burnley..... 145.0. If citizens and babies are of any value to a country, the Garden City movement is a success, economically as well as socially.

USE THE SCHOOL BUILDINGS AS SOCIAL CENTRES

Some Information For St. John People Concerning This Great Movement and Its Results

VII. Rev. Walter T. Sumner, Dean of the Cathedral of St. Peter and Paul, and chairman of the Chicago Vice Commission, in an address delivered over two years ago, spoke with great force and eloquence concerning the value of the social centre, in relation to the improvement of both economic and social conditions, the protection of children, the struggle against the social evil, the solution of problems which confront the moral and social reformer.

In Chicago we have \$10,000 appropriated for our centres, and they are the worst parts of Chicago, and they each average an attendance of three hundred a night. They come there to study, to read, to dance, to see moving pictures, and to hold dramatic performances, to have orchestras, and to have gymnastics, and if there is any question in the minds of any of us whether these pay or not, let us come to visit them some night when we are in Chicago and see the enthusiasm.

There are constructive agencies in these school social centres which will give to all of its young and old that which belongs to every man, woman and child in this country where there may be a forum for public speech, where the nine million women who are in the streets may have their meetings and protest against the injustice done them; where the men will speak in the interests of the 2,000,000 on the streets bearing burdens in industry that they never should bear; centres that will develop citizens who will give the best that is in them to build up that we against vice and crime and disease throughout the community, and who will listen and hear their far-off cry of distress in want, the groan of the sick and the mourn of the sinful, and hearing it, answer it, centres for the development of each citizen of our country.

Magical Effect on Neuralgic Throbbing Pain Goes Quickly

A YEAR'S SUFFERER CURED BY "NERVILINE"

No person reading this need ever again suffer long from Neuralgia. Nerviline will quickly cure the worst Neuralgia, and Mrs. G. Evans, in her strong letter written from Russel post office, says: "One long-ago given up to treating dreadful attacks of Neuralgia. The agony I experienced during some of the bad attacks was simply unmentionable. To use remedies by the score without permanent relief was mighty discouraging. At last I put my faith in Nerviline. I had of the wonderful pain-subduing power it possessed and made up my mind to prove it valuable or useless. No time at once case the pain and cure the headache. Continuous treatment with this magic-working remedy cured me entirely, and I have ever since been well."

THE CARDINAL'S WILL

Bequests Made By Prince of the Church

LATER DOCUMENT MISSING

Text of Instrument Drawn up by Cardinal Rampolla Some Years Ago—Bequest to Pope Leo Included

Cardinal Rampolla was an extremely orderly man. All his letters were carefully filed, all his documents were marked and numbered and in a small drawer of his desk he kept several keys, each with a cardboard tag attached on which was written a few words. One of the keys, a small one, bore the following inscription: "Key of the ebony box with my will in the cupboard with mirrors." A search was made for the ebony box both in the cupboard with mirrors and in other drawers, but all efforts to find it proved fruitless.

Text of the Will "In the name of the most Holy Trinity, Father, Son and Holy Ghost, Amen. "Considering how precarious and fleeting is human life and how troubled the prevailing times, and with my thoughts on death which might overtake me suddenly, if God so wills it, being of sound mind and memory, and of free will, and of right granted to me both by canon and civil laws, by means of this will written by myself I dispose what follows: "When I am in departing from this world, filled with the most humble and deep gratitude toward the Divine bounty which the many favours received with full and unlimited faith, place my soul into the hands of God, my most beloved creator and redeemer, through whose immense mercy and through the infinite merits of His most precious blood shed for me, and by the powerful aid of His blessed Mother, virgin and immaculate, as well as of the Saints and special protectors, despite the multitude of my sins, I hope that a place of salvation will be given me.

"I direct that my body be provisionally interred in the most simple and modest manner at the Cemetery of Campo Verano in the chapel of the Holy Congregation of Propaganda, to which I belong. When the period prescribed by law has elapsed I direct my heirs to have my body exhumed and my remains transferred in the most private manner to my titular church of Santa Cecilia, which will be my last resting place.

Only One Inscription on Tomb "I desire that my remains be buried in the crypt of the above-mentioned titular church and placed near the tomb of the glorious virgin and martyr Cecilia, next to the sepulchre of the Cardinal, facing the altar of the Holy Sacrament of the altar of Saint Agnes. My tomb is to be covered with a simple marble tabernacle, which will be engraved the biblical motto: "Expecto donec veniat legatum meum." I forbid my heirs to put any other inscription on my tomb, or to have any monuments or tombs in equal shares my dearest brothers, Vincenzo and Francesco, and my most beloved sister Eleonora. The light of the sun, the light of the moon, the light of the stars, and of my paternal inheritance, shall be enjoyed by my most beloved and most affectionate Mother, Olympia during her natural life.

"I most humbly beg the holiness of our Lord the Supreme Pontiff, Leo XIII, to deign accept as a pledge of deep respect, sincere gratitude and affectionate attachment the gift by the Republic of Colombia on the occasion of the concordat of December 1, 1887, which date recalls the happy day of his sacerdotal jubilee.

"To my titular Church of Santa Cecilia I bequeath all the other episcopal vestments, 25 velvet curtains, three pectoral crosses, with their respective supplies, 25 gold and silver ornaments with chains, one gold and silver chalice with rubies and brilliants; three episcopal rings, two with emeralds and brilliants and one with rubies and brilliants; and the decorations received from various courts, including the one adorned with brilliants which was given to me by the Emperor of Austria, Emperor of Mexico and King of the Netherlands. The price from the sale of the above objects, with the exception of the 25 pectoral crosses, shall be entirely devoted to embellishing the church and ornamenting the altar of the titular church. For such an object my heirs will contribute the sum of \$1,000 which they will pay when requested to do so by the cardinal who succeeds me in this titular church.

"To the most reverend Chapter of St. Peter I bequeath my three white, red and purple chasubles (to the most reverend Chapter of St. Mary Major the precious chalice used by the Supreme Pontiff Leo XIII on the celebration of his jubilee mass on January 1, 1888, and a chalmys with long lace used by myself on solemn occasions; to my dear brother-in-law Federico I bequeath as an affectionate keepsake a painting of wood representing the Holy Family by Andrea del Sarto. To my nephew Francesco I bequeath a silver toilet service.

Cross Given by German Emperor "To Mgr. Luigi Galimberti, as a token of esteem and benevolence, I bequeath the jewelled pectoral cross with gold chain given to me by His Majesty the Emperor of Germany. To Mgr. Mallo Mocenni I bequeath a miniature representing the Virgin with the book of Raphael; to Mgr. Giacomo Della Chiesa the gold medals of the present Pope given to me during the time it was secretary of state; to my secretary a richly bound missal with a silver cup; to all my servants a year's salary to each, but to my faithful valet, Giuseppe Caretti, the sum of 3,000 lire (\$600). "Written by my hand in Rome today, April 18, 1889. "Mariano, Cardinal Rampolla."

Useless Unto Death. When Sir Ralph Abercromby was mortally wounded in the Battle of Aboukir he was carried on a litter aboard the Fouquier. To ease his pain a soldier's blanket was placed under his head. He asked what it was. "It's only a soldier's blanket," he was told. "Whose blanket is it?" he persisted, lifting himself up. "Only one of the men's." "I want to know the name of the man whose blanket this is," the dying commander insisted. "It is Duncan Roy's, of the 42d, Sir Ralph," said his attendant at last. "Then see that Duncan Roy gets his blanket this very night," commanded the brave man, who did not forget even in his last agonies the comfort and welfare of his men. Of such useless stuff are true soldiers made.

BIRTHDAY OF THE GERMAN EMPEROR

(Continued from page 1) After divine service in the royal chapel, His Majesty held a birthday levee and received congratulations of his ministers, of the ambassadors and the ministers accredited to the German court.

There was the customary display of street decorations, principally of bunting and evergreen festoons, and apparently every business house in the city had in its show windows a bust of the emperor surrounded with flowers.

Elaborate illuminations, particularly on the Linden and the Friedrich streets have been arranged for this evening.

There was a long list of birthday honors and decorations, promotions being awarded lavishly throughout the army and navy services, but the lion's share of the distinctions was conferred on men belonging to the business and artistic worlds.

The highest distinction of all was given to Prince Guido Henckel Von Donnersmarck, who received the Black Eagle. He is a member of the "Princes Trust," in which his partners are Prince Maximilian Egen Zu Fürstenberg and Prince Christian Kraft Zu Hohenlohe Oehringen, which possess enormous interests in real estate, mining and shipping concerns.

A newspaper publisher, August Scherl, proprietor of the Lokal Anzeiger, and numerous other publications, was honored with the second class of the Black Eagle with the star. The same decoration without the star was conferred on Professor Paul Ehrlich, an eminent physician. Dr. Wilhelm Bode, the director of the royal museum, was raised to the hereditary nobility.

London's Very Poor HARDEST HIT BY STRIKE (Continued from page 1)

The executive of the London Building Industries Federation decided yesterday to call out all its members working on the jobs from which some 37,000 carpenters, joiners, plasterers, bricklayers, masons and laborers were discharged on Saturday.

This recommendation is addressed particularly to plumbers, smiths, fitters, carpenters, electricians and painters who have not been required to sign the general agreement. It is impossible to say at present how many men will be affected by the action of the executive, but the building trades federation controls eighteen unions with 100,000 members.

If the men obey the order, London's building trade will be in danger of paralysing an effort will be made to have it identified as possibly that stolen from Mrs. Thayer. The hotel management are watching the case closely.

PRESIDENT MOSHER MAY DEMAND ANOTHER HEARING Fort William, Ont., Jan. 27.—Based on information to which he probably would not have had access had it not been for litigation pending in court here between the C. P. R. and the grain handling firm of Davidson & Smith, A. R. Mosher, grand president of the Brotherhood of Railway Employees, may demand another hearing before the minister of labor on behalf of his organization.

The pending litigation has to do with the service accorded shippers during the strike period of a year ago. Mosher was in the city yesterday.

Objections to Paving Act Amendment—Referred to Sir Frederic Barker—The Suffrage Referendum

Discussion of Commissioner Agar's paving bill by the commissioners, and a delegation of ten Main street property owners occupied nearly two hours' time at the meeting of the common council in regular weekly session yesterday afternoon. A resolution drawn up by several Main street abutters in which objection was taken to the proposed law as being unfair, more especially to the owners of property in Main street was presented to the council. After long discussion it was decided on the mayor's suggestion to submit the by-law to Sir Frederic Barker or some other eminent lawyer for an opinion as to whether or not Main street would be affected, since the act of union had provided for the paving of that street by the city.

Thought Nothing But Death Would End Her Misery.

Was Troubled With Heart Disease.

Mrs. J. D. Talbot, Owen Sound, Ont., writes: "I have been a great sufferer from heart disease, and leaking valves. I have had recourse to every kind of treatment I could think might help me, including the skill of several doctors. I suffered so for years that at times I have felt that nothing but death could end my misery. I was advised by a friend, who had suffered untold pain and misery, just as I had, and had been cured by Milburn's Heart and Nerve Pills. To give them a trial, so I decided to do so. I am delighted with the result, as I am now completely cured, and can sleep as I have not done for years. You are at liberty to use my name at any time as I am convinced they are the best pills on the market for any form of heart disease."

MOVIES IN CLEAN-UP CAMPAIGN

Aroused to action by the evils shown them in their own town, residents of Chester, Pa., are preparing to wage a war on unsanitary conditions. Mayor Ward presided over a meeting of the Suburban Planning Association. Plans were inaugurated to conduct a vigorous campaign in cleaning up the slum district of Chester, in which very unsanitary conditions prevail. An effort will be made to create a health department similar in powers to those in large cities. To vividly bring to the attention of people the unsanitary conditions existing, pictures of the worst places in the city will be taken and exhibited in moving picture houses.

LARGE CROWDS ATTEND VICTORIA STREET REVIVAL MEETINGS

Rev. Dr. Burrows' text last evening was Eph. 5:14. He said that God usually gilds His commands with promises. In the text there were two commands "Awake" and "Arise," and one promise, "Christ shall give the life." This text was spoken in a church. It had members who were asleep—dead. The speaker went on to show very clearly how that same condition prevailed to many church members were asleep. They had gone after the pleasures and pursuits of the world, and had forgotten their obligations. He went further and depicted a worse condition. Members who were actually dead—no spiritual life, some of them officers. Think of it, he said, officers without any spiritual life, helping to dictate the policy of the church. He applied Paul's admonition to awake and arise with trembling to a worse condition. The sermon was beautifully illuminated by a string of illustrations. Many went forward and accepted Christ. Mr. Lanyon led the singing and rendered a solo most effectively.

I have had recourse to every kind of treatment I could think might help me, including the skill of several doctors. I suffered so for years that at times I have felt that nothing but death could end my misery. I was advised by a friend, who had suffered untold pain and misery, just as I had, and had been cured by Milburn's Heart and Nerve Pills. To give them a trial, so I decided to do so. I am delighted with the result, as I am now completely cured, and can sleep as I have not done for years. You are at liberty to use my name at any time as I am convinced they are the best pills on the market for any form of heart disease."

MOVIES IN CLEAN-UP CAMPAIGN

Aroused to action by the evils shown them in their own town, residents of Chester, Pa., are preparing to wage a war on unsanitary conditions. Mayor Ward presided over a meeting of the Suburban Planning Association. Plans were inaugurated to conduct a vigorous campaign in cleaning up the slum district of Chester, in which very unsanitary conditions prevail. An effort will be made to create a health department similar in powers to those in large cities. To vividly bring to the attention of people the unsanitary conditions existing, pictures of the worst places in the city will be taken and exhibited in moving picture houses.

Constipation

Is an enemy within the camp. It will undermine the strongest constitution and ruin the most vigorous health. It leads to indigestion, biliousness, impure blood, bad complexion, sick headaches, and is one of the most frequent causes of appendicitis. To neglect it is slow suicide. Dr. Morse's Indian Root Pills positively cure Constipation. They are entirely vegetable in composition and do not weaken or grip. Preserve your health by taking

"I HAVE GAINED FIFTEEN POUNDS

Since Taking "Fruit-a-tives" And Feel Like a New Person"

Drysdale, Ont., June 15th, 1913. "I am a general storekeeper at the above address and, on account of the great good I have experienced from using "Fruit-a-tives," I recommend them strongly to my customers. They were a great boon to me. I can tell you, for about two years ago, I was laid up in bed with vomiting and a most terrific pain at the base of my skull. This pain nearly drove me mad. Doctors feared it would turn to inflammation of the brain, but I took "Fruit-a-tives" steadily until I was cured. I have gained fifteen pounds since taking "Fruit-a-tives" and I verily believe they saved me from a disastrous illness." J. A. CORRIVEAU. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or from Fruit-a-tives, Limited, Ottawa.

WHO IS RUNNING THE I. C. R.?

Moncton Transcript—Now the burning question is, who is running this Intercolonial Railway, Mr. Guelinck or Mr. Cochrane? Mr. Guelinck must have authorized the order, and Mr. Cochrane must have authorized the countermand. Thus it seems that when Mr. Cochrane stated to the Tory politicians that he had no control of the I. C. R. he was just kidding them. He finds the Moncton Tories easy, but after all, Mr. Emerson got his telegram from the Transcript early in the afternoon and got down to the job until Mr. Borden came down some hours after the first question was put, and said that the matter had not been decided. Between the first question put by Mr. Emerson and the second question put by him some hours later with an answer by Mr. Borden, the countermand order was issued.

RECENT WEDDINGS

The wedding of Walter Sacre and Miss Laura Stafford, daughter of Mr. Cochrane and Mrs. Guelinck, took place last week in Fredericton. At the home of H. O. Branscombe, Cumberland Bay, N. B., on the 21st inst., his eldest daughter, Elma Gladys, was united in marriage to J. Leonard McAllister.

LEFT TO ITSELF ECZEMA SPREADS

When left to itself, eczema, as a rule, runs on indefinitely. Even the most careful treatment it is often obstinate in resisting curative measures. The cause is often difficult to find, but you can readily obtain relief from the dreadful itching by the application of Dr. Chase's Ointment. This treatment cleanses the sores and soothes them, and is a process of healing which leads to complete cure. Patient and persistent treatment is necessary in severe cases, but as you can readily see the improvement from day to day as Dr. Chase's Ointment is applied you will be encouraged to keep on until you have driven out the disease and restored natural, healthy skin. Attention to the general health is advisable in order that the cure may be lasting, but you can depend on Dr. Chase's Ointment to stop the itching and heal the skin. So well does it accomplish this that many cures it brings about are almost like miracles. Put it to the test and you will be surprised and delighted with the results.

WOMAN'S MOST SUCCESSFUL MEDICINE

Known All Over The World—Known Only For The Good It Has Done.

We know of no other medicine which has been so successful in relieving the suffering of women, or received so many genuine testimonials, as has Lydia E. Pinkham's Vegetable Compound.

In nearly every community you will find women who have been restored to health by this famous medicine. Almost every woman you meet knows of the great good it has been doing among suffering women for the past 30 years.

Fox Creek, N. B.—"I have always had pains in the abdomen and a weak condition of the system and often after meals a soreness in my stomach. Lydia E. Pinkham's Vegetable Compound has done me much good. I am stronger, digestion is better and I can work with ambition. I have encouraged many mothers of families to take it as it is the best remedy in the world. You can publish this in the papers." Mrs. WILLIAM S. BOURQUE, Fox Creek, N. B.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health, in which many openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound, many of whom state that it has saved them from surgical operations."

The Willard Case; Geyer and Gunboat

(FROM T. S. ANDREWS)

Milwaukee, Wis., Jan. 25.—The acquittal of Jess Willard on a charge of prize fighting in Los Angeles, shows that the people all over the country are becoming more lenient towards the boxing game than heretofore; in fact, they are taking a broader and saner view of the sport. There is no reason why the boxing game should not be placed on as high a plane as many of the other strenuous sports and the trend seems to be that way. With boxing laws adopted in many of the states, the outlook for the sport is very encouraging. It is only natural to expect that fatalities will occur occasionally, but not in such numbers as other sports, such as baseball, football, automobilism and aeroplaning. Where one death occurs in the roped arena, it is safe to say that dozens occur in the other sports. The same attitude shown in the case of Willard was recently adopted by a jury in England. In this case a young man, practically a boy, had been killed—not in a regular boxing tournament, but more of a friendly contest. The jury, however, returned a verdict of "death by misadventure," and at the same time expressed the opinion that the contest had been conducted fairly, with no animosity shown on either side and therefore, no blame should be attached to the contestant.

**Cowardly and Shameful**  
The Orillia Club has notified the O. H. A. that the Collingwood spectators were almost wholly to blame for the trouble at Collingwood on Thursday night and that the Collingwood players assisted the police in protecting them from the mad-dened crowd. Following is the referee's report:

Mr. W. A. Hewitt,  
Secretary O. H. A.,  
Toronto:  
Dear Sir:—  
Regarding the Orillia-Collingwood Intermediate, O. H. A. game at Collingwood last night, I desire to report on the conduct of the spectators, viz.:  
At the conclusion of the first ten minutes of the extra time several dozen spectators rushed on the ice and attacked the visiting players and myself in an unjustifiable manner and it was with great difficulty that we reached a place of shelter in the dressing room occupied by the Orillia team. The police with drawn revolvers and batons experienced a hard task in preventing the crowd from mobbing us when they attempted to storm the dressing room.

Ward Miller, outfielder of the Chicago Nationals, formerly of Montreal, has signed with manager "Minner" Brown, of the St. Louis Federals. Brown also discussed terms, it was said, with "Hank" Simon, a Pittsburgh catcher.

**THE RING**  
Who Are The Promoters?  
Boston American—Boxing promoters of St. John, N. B., must have a grudge against a young man named William Bryan McNulty for they are trying to match him for a "go" with Johnnie Kilbane, the featherweight champion. Kilbane, by the way, wants only \$3,000 for his hand of the purse for meeting McNulty. This is rather a high price for picking a single lemur.

Five Farms Bought and Will Raise Stock on Them—Option on Site—The Men in the Undertaking

A new pork packing factory of large capacity and modern equipment to turn out a product of the highest grade is to be established in St. John. The decision of the organizers of the company is of great importance not only to St. John, where the new industry will afford work for a large number of men, but also to the farmers of the province as a whole as it will provide a market for those who wish to go in for the raising of pork on a larger scale.

The company has been incorporated by provincial charter under the name of the New Brunswick Packing Company, Limited. Organization has been completed and the directors chosen include J. M. Robinson, president; D. F. Pidgeon, vice-president; A. C. Corfield, managing director; C. N. Kennealy and W. W. Corfield, T. H. Foster has been appointed secretary-treasurer and Barton, Mayhew & Company, auditors.

St. John is named as the head office but temporarily in case the plant is located outside of the city limits. The authorized capital stock is \$99,000 of which only \$50,000 will be issued at present and \$49,000 has already been subscribed. In addition to this, debenture bonds to the value of \$85,000 have already been underwritten, thus assuring a strong financial foundation for the company.

The object of the company is to carry on an extensive pork raising and packing business and for this their plans are already well matured.

**Farms Purchased**

In order to assure themselves of a sufficient supply of the raw material, the company has purchased five farms with a total area of 1,270 acres and there they will raise hogs on a large scale. The farms are 480 acres at River Glade, sixteen miles from Magoon; 250 acres at Salisbury; 140 acres and 100 acres on the Hampton road near Quispamsis and 350 acres on the St. John river near Public Landing. Each of the farms is well equipped with farm buildings and modern machinery and ground has been broken for the crops which will provide food for the stock. Upwards of 200 brood sows of the most approved stock have been purchased already and this number will be added to. The managing-director, who is a practical farmer of wide experience, will have supervision over the farms and each farm will be managed directly by well qualified, practical men who have during the first year the company ex-

### LOCAL NEWS

**ACTION FOR DAMAGES**

Hearing in the case of Merritt vs. The St. John Railway Co. was had before Mr. Justice McKeown in chambers this morning. This is an action under the Workmen's Compensation Act to recover damages brought by the widow, Mrs. Arthur Merritt, a lineman with the defendant company, who was killed on April 25 while working in the employ of the company with wires in Germain street.

The accident took place near St. Andrew's church, where one of the primary wires had been bared on the upper side by the weather. The deceased was working without gloves. Several witnesses were examined this morning. Francis Kerr appeared for the plaintiff, and Fred E. Taylor for the defendant.

**BIRTHDAY SURPRISE**

About fifty of the friends of George W. Kierstead gave him a pleasant surprise last evening at his home, 424 Chesley street, by taking advantage of his birthday to tender him a surprise party and make him a presentation in honor of the event. In behalf of those present, John E. Boyce presented to Mr. Kierstead a gold signet ring. An enjoyable time was spent in games, dancing and music, selections by Miss Eleanor Boyce and James Hould being particularly popular. James Campbell favored the gathering with several pleasing gramophone selections. Refreshments were served, and the party dispersed a little after midnight.

### ANOTHER SCHOONER GOES ASHORE ON THE COAST OF NOVA SCOTIA

The Sylvania Fortunate in Getting Into Deep Water Again

(Special to Times.)

Halifax, N. S., Jan. 27.—Word received here this morning tells that the American fishing schooner "Sylvania," Captain Thomas, ran ashore on White Shoal at the entrance to Sheet Harbor, between seven and eight o'clock last evening and hoisted again at high tide.

The schooner is now anchored in Sheet Harbor, and members of the crew are working the pumps to keep her free of water, which is pouring in almost as fast as it is possible to throw it out.

At the time the "Sylvania" grounded Captain Thomas was groping his way through darkness intending to make Sheet Harbor for shelter. A moderate breeze was blowing, but in the darkness the buoy on White Shoal was not sighted and the vessel ran bow foremost on the rocks. Fortunately the point where she struck is not surrounded by treacherous reefs or shoals, and assisted by the high tide and the use of a life boat, Captain Thomas was able to pull the vessel into deep water.
