Pirates Raid Ship In New York Harbor; Steal Liquor Stock

AT ODDS OVER RUBE BENTON

O. K., Says Landis; Barred, Declares Heydler

Veteran of 150 Battles, Who Beat Sam Langford, Finds That Race is Run—Closing Day of Six-day Grind.

(Canadian Press) Los Angeles, March 10—Rube Benton, formerly an American Association pitcher, may be eligible to play in organized baseball, as decided by K. M. Landis, baseball commissioner, but he is "not the type of character or player," wanted in the National League, according to John A. Heydler, President of the National League, now here, who telephoned to Garry Herrmann, President of the Cincinnati Club, an order barring Benton from the league.

Oakland, Cal., March 10—Jack Blackburn, negro veteran of more than 150 battles, has admitted that he has dug into his lungs and taken the most essential of all things—wind. Jack was battling with Ray Pelkey here last night when he suddenly dropped to his knees, looked at the referee and said: "Mind, I've thru; I ain't got no wind."

A chorus of booes arose from the younger fans, but the older ones, who remembered when Jack defeated Sam Langford fifteen years ago, uttered not a sound.

Worcester, Mass., March 10—Archie Revelette, B. C., March 10—The ski jumping contest yesterday between Anders Haugen, national champion of the U. S. and Neil Nelson, of Revelstoke, former world's amateur champion resulted in a win for Nelson, who got 894 points to Haugen's 867. No new records were established.

New York, March 10—The last day of the six-day bicycle race at Madison Square Garden which will end at 11 o'clock tonight found seven of the thirteen teams deadlocked for the leadership.

At eight a.m. the 128th hour, the leaders had pedaled 2,287 miles and 5 laps.

The leading teams were: Grenda-Goulet, McNamara-Horan; Gestman-Landis; Egg-Van Kempen; Brodie-Coburn; Hanley-Magin and Buysse-Buysse.

PROGRESSIVES CHOOSE A MAN Candidate for Moose Jaw Seat in the Canadian Commons.

Moose Jaw, March 10—E. N. Hopkins of Moose Jaw, was tonight selected as Progressive candidate in the by-election of April 10, to fill the House of Commons seat vacated by R. M. Johnson.

Mr. Hopkins was elected on the first ballot over J. V. Patterson of Hearne, and W. C. McBride of Caron, and his selection was made unanimous.

Mr. Johnson declined to allow his name to go before the convention on the ground that the question of his qualification had never been definitely settled.

Hon. J. A. Maharg, leader of the Opposition in the Saskatchewan Legislature withdrew his name but pledged his support to the Progressive cause.

Nomination of Mrs. R. M. Johnson, by C. Little, was one of the features. Mr. Johnson, however, in her behalf, refused to allow Mrs. Johnson's name to stand.

Frighten the Orbita's Crew with Revolvers, and Plunder Ship

Two Watch on Board a Speedy Motor Boat—Nine Board Steamship at Pier With Hundreds of People About at the Time.

(Canadian Press) New York, March 10—A motorboat party of eleven pirates raided the Royal Mail Steamship Orbita at Pier 42, North River, yesterday and escaped with the larger part of that vessel's stock of sealed liquor.

The raid was one of the boldest known in recent run running activities. Virtually the entire crew of 260 was on board the Orbita at the time. The seamen were held at revolver's point by the bandits, who proceeded to put the liquor over the side, after which they departed with it in a powerful motor launch.

The Orbita's dock is one block from Christopher street ferry, where Jersey commuters take boats for home. Hundreds of the commuters were passing into the ferry at the time.

The exact value of the liquor is not known. It was first reported that the bandits had restricted their haul to twenty cases of the best brands of whiskey. Later, however, it was reported that half of the Orbita's wine stock was gone also.

The first sign of the raiders came when a high powered motorboat drew up alongside the Orbita. There were eleven men in the boat. Two remained on board to guard the boat, while the other nine mounted the Orbita's deck. Then they drew revolvers and cowed three watchmen who appeared.

So far as can be learned no shots were fired. Apparently the fourth of revolvers was enough for the entire crew.

Any way, six of the pirates got down to the Orbita's store room and forced their way in. They jammed one door and tore the hinges off another. Then they calmly proceeded to select with great discrimination certain good brands of intoxicants.

White Plains, N. Y., March 10—Stricken with heart failure while bathing her two weeks' old baby, Mrs. Lee Kamara fell upon the child and suffocated it. Neighbors, alarmed because Mrs. Kamara failed to answer her telephone, forced an entrance to the house and found the bodies.

Liquor Fleet, Scattered, Is Re-Assembling

New York, March 10—The rum fleet of the Jersey coast, scattered yesterday by storm, was re-assembling today, presumably for its spring drive. Captain Peterson of the steamer Eastern Letter, arriving from Hull, reported sighting two steamers and fourteen schooners off the Ambrose Channel Light.

Club Clothier And Steal \$3,000

New York, March 10—Armed bandits yesterday held up the manager of J. J. Preiss and Co., clothiers, in the lobby of their factory in Fifth street, knocked him unconscious with the butt of a pistol and escaped in a waiting car with a payroll of \$3,000. Hundreds of home-going workers were passing at the time. The bandits forced the elevator operator to run his car upstairs and then ran to a waiting taxicab in which were two other men.

CONTEST QUEBEC ELECTION RESULT

Quebec, March 10—That the election of A. Decherie, Liberal candidate in Quebec county by acclamation on Jan. 29 will be contested is now assured. A petition alleging that the election was illegal, irregular and null, and asking that A. Dion, Conservative candidate, be declared elected, having been filed here yesterday.

ESTEVAN SHAKEN

Estevan, Sask., Mar. 10—Residents of town and country were startled about 8 o'clock last night by violent rumbling which shook houses and rattled window panes as if an earthquake shock was in progress.

BETTER REPORT. Friends of Dr. A. D. Smith, who was knocked down by a fire team in the street, will be happy to hear that his condition today has shown improvement. It is believed now that beyond the fracture of the left arm there are no further injuries.

COMPANY CANNOT COMPETE PROFITABLY WITH HYDRO

Ottawa Concern Files Complaint, Citing Low Rates for Hydro Light and Power In That City.

Ottawa, March 10—Alarmed apparently at the success attending the operations of the Ottawa Hydro Electric Commission, the Ottawa Electric Company, the only competing company in the city, has filed a complaint with the Gregory Commission investigating the hydro electric power situation in Ontario, it was announced here today. It maintains that owing to the low rates for light and power charged in Ottawa by the Hydro Electric Commission, it has become impossible for the Ottawa Electric Company to compete profitably with Ottawa hydro.

According to J. A. Ellis, one of the commissioners of the Ottawa Hydro Electric, the Ottawa Electric Company rates and the rates charged by the hydro are identical.

A Pilgrimage From St. John

Visit to St. Anne de Beaupre in July Under Direction of Rev. W. M. Duke.

For the first time since pilgrimages have been going from New Brunswick to St. Anne's, Quebec, St. John will this year be made the central point for organization purposes. The pilgrims, according to announcement made at the Cathedral this week, will leave St. John by special train on Tuesday, July 17, returning on Friday, July 20. Rev. William M. Duke, rector of the Cathedral, will have charge of the arrangements and will in all probability accompany the pilgrims.

Special arrangements will be arranged so that there will be no need of seeking lodgings during the stay at Quebec city. Sleeping accommodations will be provided in the sleepers that will go to make up the special train. These will remain in Quebec during the days of the religious ceremonies and will be made the headquarters of the pilgrims during their stay.

This year's pilgrimage will be held under the patronage of the Altar Society of St. Anne of the Cathedral parish and it is expected there will be a large number to go from St. John as well as other parts of the province. The fare will be made as reasonably low as possible and within the report of all who might desire to go.

S. A. PLAN FOR EMIGRANT BOYS

London, March 10—(Canadian Press)—The Salvation Army emigration department has launched a scheme for the settlement overseas of 10,000 boys between the ages of fourteen and seventeen years under a practical system of selection, training and supervision. It is the outcome of prolonged negotiations by the Salvation Army and the Government. The authorities have agreed to conform to a good physical and mental standard.

The first party of forty have already entered one of the training centres.

As Hiram Sees It

"Hiram," said The Times reporter to Mr. Hiram Hornbeam, "if you were interested in the booze business what would you like to have?"

"Well," said Hiram, "I'd like to get hold of a newspaper, it's a great thing to have a newspaper at your back. I'd like to see if it is enforced, it'd mean direct taxation. Yes, sir—I'd have a newspaper to holler about Quebec and British Columbia—make a noise all the time. I'd get one right away—By Horn!"

"And if you were a big corporation trying to get something away from a city—or unload on the city something it did not want, what would you like to have?" asked the reporter.

"A newspaper," said Hiram—"a newspaper that'd holler about taxes and competition, and the git-together spirit—and what fools the folks 'ud be not to trust me for their salvation. Yes, sir—one of the fuit things I'd want 'ud be a newspaper—an independent newspaper—always braggin' about it, 'Oh, I know a thing or two—yes, sir.'"

"Well," said the reporter, "if a journal could submit for any length of time on booze and watered stock it would have a right to brag, wouldn't it?"

"It would so," said Hiram. "Yes, sir, it would so."

OTTAWA SENATORS N.H.L. CHAMPIONS

Lose to Canadians in Second Game, But Win Aggregate—Will Meet Pacific Coast Winners.

Ottawa, March 10—Ottawa Senators are champions of the N. H. L. and will be its representatives at the Pacific coast against the winner of the Victoria-Vancouver series. The local team lost the second game of the series 2 to 1, but Canadians have last night lost to the two goals.

Into New York After Battle With Storm

New York, March 10—The Munsion liner crawled into port yesterday from Nassau 24 hours late, after battling with a gale that put one of her low pressure turbines out of commission and kept most of the passengers awake on last Tuesday night.

The Aragus, of the Royal Mail Line, was delayed by a storm from Bermuda, 24 hours late. She ran into a heavy storm on last Wednesday morning. Great waves swept the decks.

Physician Succumbs to Heart Trouble While Driving in Windsor Street.

Windsor, Ont., March 10—Dr. James S. Labelle, coroner, and prominent Windsor physician was stricken by heart failure, as he drove his automobile along Cataract street, in Walkerville, last evening, and died with his hands on the steering wheel. The car ploughed its way along the street for some distance then lunged over the curb and came to a standstill against a tree.

Dr. Labelle was dead when passengers ran over to see what had caused the machine to leave the road. He was found lying on the ground, his hands on the steering wheel.

According to members of the family, Dr. Labelle who was 57 years of age, had been subject for some time to heart attacks.

IRISH BUDGET

Dublin, March 10—in the Dail yesterday, President Cosgrave moved the supplementary budget estimates, including an item of £16,000 for the erection of huts at suitable places along the Ulster frontier, in connection with the customs barriers. The estimates also included £267,000 for war stores and vessels.

Mr. Cosgrave said this latter amount was required immediately to equip twelve armed trawlers for coast guard service and the prevention of gun running.

The original budget estimates call for £7,500,000.

The P. E. I. railway line was so badly tied up by Wednesday's storm that mails were being transported to and from Borden and other points by teams.

BRITISH AMBASSADOR IN PARIS IS SERIOUSLY ILL

Paris, March 10—The condition of Lord Crewe, the British ambassador, who is suffering from an attack of the grippe, is causing anxiety. A consultation of physicians will be held today. A bulletin today said that pneumonia had followed influenza and that Lord Crewe was seriously ill, although his strength was maintained.

President Shot Dead In His Auto; Chicago Bank Doors Closed

Cancelled Checks for \$61,000 in F. W. Popp's Pocket

Body Found Slumped Over Steering Wheel of Coupe on Lonely Road—Logan Square Trust Affairs Being Investigated.

(Canadian Press) Chicago, March 10—The Logan Square Trust and Savings Bank capitalized at \$200,000 and having deposits of \$2,700,000, was closed today while the death of Fred W. Popp, its president, by shooting yesterday was investigated and state bank examiners looked into the institution's finances.

Mr. Popp's body was found slumped over the steering wheel of his small coupe, on a lonely road near here. It was not removed for several hours and no identified until last night.

In a pocket were found cancelled checks for \$61,000, all drawn by, made payable to, and endorsed by Fred W. Popp, a son. That was a detail in connection with the financier's death that first came to the attention of state bank examiners. Mr. Popp had been shot through the head and a pistol containing an exploded cartridge was nearby.

Investigators said Mr. Popp recently had been despondent because of his wife's illness and had found it necessary to take sleeping potions.

Chief of Detectives Hughes, disclosing the police inquiry, said the bank had been under investigation and that it was not known whether or not a charge existed in its accounts.

Until he entered the banking business twenty five years ago, Mr. Popp was a mail carrier.

\$200,000 FOR BOUT OFFERS PURSE OF

Syndicate of Winnipeg Business Men Endeavoring to Match Jack Renault, Canadian Heavyweight, and Harry Wills, Negro Challenger.

New York, Mar. 10—A purse of \$200,000 has been offered by a syndicate of Winnipeg business men for a bout between Jack Renault, Canadian heavyweight, and Harry Wills, negro challenger of world's champion Jack Dempsey. It was disclosed tonight by George Lawley, of the Pioneer Sporting Club. The syndicate proposed the bout for Winnipeg in May.

The offer, Lawley said was conditioned on Renault's showing against George Godfrey, protégé of former champion Jack Johnson tonight. Renault knocked out his negro opponent in the eleventh round of their twelve round match.

The Canadian fighter, who has been approached by the syndicate as a "substitute for Dempsey," is ready to accept the offer, said Lawley, and he added, Wills is seriously considering it. The boxers, however, will await further offers.

Renault led throughout the match tonight and subjected the negro to severe punishment. Godfrey showed flashes of form, but lacked Renault's experience.

Godfrey showed absolutely no hitting power and the Canadian continually beat him to the punches.

The bout, which was scheduled for twelve rounds, was fast and interesting throughout. In the tenth round, Renault sent two hard blows to the head and had the negro ready for a knockout, when the bell rang.

Renault went after his man in the opening of the eleventh and battered the negro about the ring with blows to the head and stomach.

Godfrey was reeling when a right to the jaw sent him to the canvas. The negro weighed 200, while Renault's weight was said to be 195 pounds.

SUSSEX AND HYDRO

Sussex Record: The town of Sussex was lucky in getting its hydro-electric distribution plant installed when it did, as there has been a big advance in the price of the material used. Hydro delay in St. John has cost that city \$80,000 in one item—copper having advanced twenty-five per cent. This proves further the old adage that "delays are dangerous."

TRUST INVESTIGATION

Premier King's resolution providing for the introduction of a bill to investigate combines, trusts and mergers was introduced in the House of Commons today. It proposes machinery to disclose existence of combines operating to the detriment of the public and affords means whereby proceedings under the criminal code might be effective. The resolution carried after some criticism by Right Hon. Arthur Meighen who thought it would be merely investigatory and not executive legislation. The bill based on it was given first reading.

RUSSIAN TRADE MISSION WOULD BE WELCOMED

But Members Must be Desirable, Says Trade Minister

Bill Regarding Trusts and Combines Passes Its First Reading—Estimates for Dredging, Public Buildings, etc.

(By Canadian Press)

Ottawa, March 10.—On a question in the House of Commons yesterday as to whether admission had been refused to a Russian trade mission, the Minister of Trade and Commerce said such was the case as certain of its members would be undesirable. A Russian trade mission whose members were desirable would be welcomed, it was said.

Estimates for construction and repairs on harbors and rivers were voted by the House of Commons yesterday. Department of Public Works were voted for Manitoba, Saskatchewan, Alberta, British Columbia, and the Yukon Territory.

Vancouver Drydock. General J. A. Clark, member for Burrard, made a plea for the completion of the drydock at Vancouver, the contract for which had been let by the former Government, but held up soon after the last elections.

Objects to Spending for Monuments. Protests against spending public money for monuments which men were walking the streets looking for work were voiced when several items in Public Works Department estimates came before the committee of supply. Objecting to a vote of \$100,000 for the erection of the Galtier, G. G. Coote, Progressive member for MacLeod, made a reduction of fifty per cent.

"Pictures are nice to look at," he said, "but they won't keep you warm or fill an empty stomach." "We must not be heartless," replied Hon. W. S. Fielding, "but we must not be wasteful in the expenditure of the arts."

The Coote amendment was defeated and the motion carried.

Dredging Estimates. The House of Commons in committee of supply took up estimates for dredging in the various provinces for a total amount of \$1,725,000.

H. Martel, Liberal, Hanter, made a plea for a more appropriate appropriation for the port of Windsor. Extensive dredging, he explained, was essential or the port was useless as it filled up with deposits very rapidly. The item carried.

A re-vote of \$25,000 for the monument to Sir Wilfrid Laurier brought an inquiry from the Conservative leader, Hon. Arthur Meighen, as to what progress had been made.

"We had got that far," remarked Mr. Meighen. He then called attention to the fact that the monument in which he stated his office had been handicapped by lack of adequate transportation facilities.

Taste, taste, taste and real worth everywhere! That Chesterfield Suite, for instance. Finest of tapestry and a historic reproduction of a falcon hunt. Deep sinking springs, barrel backs, pillow arms, loose spring cushions. The wonderful Wilton square, the hand carved Chesterfield table of genuine Mahogany.

And the same show of class in the Dining Room, complete in genuine Walnut, with an Axminster square below. The Kitchen with its Porcelain table and 16 yards of tiled floor covering. The Bed Room complete, finished in dull Walnut—five pieces besides Simmons spring and mattress and a Brussels square.

They all leave the windows after tomorrow.

BOTH TIRING OF RUHR STRUGGLE

Correspondents Assert That There is a Tendency Towards Peace; Strain is Great.

London, March 10.—Although offering no very definite evidence to support the statement, some of the British correspondents in the Ruhr assert that there is a tendency towards peace and that both sides would be glad to see the end of the strain of the last few weeks.

Both the workers and the industrialists on the German side are tired of the struggle, the correspondents say, the former seeing no hope of winning while at the same time their sufferings are augmented daily. The industrialists, with the exception of one or two of the most influential, are feeling increasingly the pinch of lost trade and are fearing for the future.

The French are reported as suffering scarcely less. They have not got what they went into the Ruhr to obtain, and French industries are being seriously affected by the curtailment of the coal supply.

The suggestion in these dispatches is that it will be impossible for present conditions to continue much longer.

MAYOR MARTIN SUBJECT OF A COURT THREAT

Montreal, Mar. 10.—In the case in which E. W. Villeneuve seeks to have Mayor Mederic Martin unseated for failure to observe the residence claims of the city charter. Justice De Lorimer told the mayor he had better stop making remarks or he would order him to be sequestered from the city.

A vote of \$192,000 for public buildings generally was passed without discussion, and a large item of \$8,185,500 for repairs, furniture, heating, etc., also carried.

Trust Investigation. Premier King's resolution providing for the introduction of a bill to investigate combines, trusts and mergers was introduced in the House of Commons today. It proposes machinery to disclose existence of combines operating to the detriment of the public and affords means whereby proceedings under the criminal code might be effective. The resolution carried after some criticism by Right Hon. Arthur Meighen who thought it would be merely investigatory and not executive legislation. The bill based on it was given first reading.

BOFIN AGAIN ON WAR PATH

London, March 10.—The Irish rebel leader Bofin is on the warpath again, says the Belfast correspondent of the Evening News. Besieged by strong Free State forces, he escaped from the Arigna Mountains, in county Cavan, and is now reported to be operating in Northern Laitrim, at the head of a small but daring band.

They are having a hectic time raiding trains for mails and merchandise. Free State troops are hot on his trail.

DIED ON THE ROAD

Sackville Tribune.—George Austin, aged 80 years, of Rockport, died yesterday on the road from Rockport to Dorchester. Deceased was a veteran of the Civil War who came from New Hampshire with his wife about ten years ago. He subsequently went away for two years and then returned to Rockport where he has been living on a farm. His wife died about a year ago. He leaves no relatives in this part of the country.

We are the dead. Short days ago We lived, felt dawn, saw sunset glow, Loved and were loved, and now we lie In Flanders fields.

Perhaps the trying incidents, the uncertainties and heartbreaks of the war years have faded into the dim mists of memory, but it takes little to remind us of the heroic sacrifices which were made by those boys of St. John who now sleep beneath the poppies "In Flanders fields."

TORONTO TRIBUTE TO CANON KUHRING

(Toronto Globe). Rev. Canon Kuhring died on Monday at his home, 69 Howard street, after an illness of three or four months. Rev. Gustav A. Kuhring of St. Alban's Cathedral and late Canon of the Diocese of Fredericton and Chaplain in the C. E. F., was born in the City of Quebec in 1860. He served his Creator in the days of his youth, beginning work in the Anglican Church in that city at an early age. Later he joined the staff of the Y. M. C. A., under whose auspices he spent nine fruitful years in Quebec, Montreal and Ottawa, leading up to the Christian ministry, to which he was ordained by the late Archbishop Sweetman on his graduation from Wycliffe College, Toronto, in 1891. He served for a time under Canon Dumoulin in St. James' Cathedral and was curate for some years under Rev. Septimus Jones at the Church of the Redeemer, at the same time becoming Dean in Residence of Wycliffe College.

THE RIDDLE OF THE SPINNING WHEEL

Being An Exploit in the Career of Hamilton Cleek, Detective By MARY E. AND THOMAS W. HANSHAW

(Continued from Yesterday) At the top of the steps she paused and looked back at him over the curve of her shoulder, making a wry face. "You still want to go?" she asked stingly. "I'm a brave woman, Mr. Cleek, but I wouldn't undertake this journey alone for anything! There's rats!"

glass, in fact, and resolved itself into a cracked tumbler beside which stood a siphon of soda and an empty bottle smiling strongly of whiskey. "What! Nice little place for a quiet retreat and a smoke—don't think!" he apostrophized it. "With rats in the corners and ghosts all round—brh! He's a strange fellow who likes this sort of company, I must say. But there's nothing to be nosed out here in this pleasant little den. I'll just take a glimpse through the next one, and then get back to Miss Duggan, or she'll be getting the creeps and run."

she ran to him and caught him suddenly by the arm. "Ross, dear, you mustn't be so hasty! You must stay here, entreated, squeezing his arm in her two hands as he looked down at her with his set, angry face. "You know Father, dear. He'll wish in half an hour, he'd bitten his tongue out sooner than spoken to you like that. You know he will. You're his first-born and his favorite—as you have always been. Try and see this thing clearly. Don't act in a hurry, dear. Just wait—wait until this evening, for my sake if not for your own. Don't leave me here to stick the thing out by myself. It isn't fair to me."

right—but you won't get me to go into them," she responded with a laugh. "It's horrible in there. There's a rack and one or two thumb screws and other articles which belong to the Spanish Inquisition period; as well as rats innumerable. My bravery vanishes at this point. I'll not go a step farther!" "But you don't mind if I do?" "Not a bit. I'll wait here. But there's nothing to see—really. And it's getting positively near lunch-time." Cleek cocked his head persuasively at her. "I won't be a minute—really. But that thumb screw has got me guessing as our American cousins say. I suppose there's no lock on the door? Gad! but it opens easily enough. Been fairly recently oiled, I take it?" "Not that I know of. In fact, I don't believe any one's been in the place since Ross came down here, three months ago, to show a friend round. Perhaps he oiled it then?" "Perhaps. I won't be a minute, really. And I've another torch, if you'd like it here." He tossed it to her, and, keeping his spot light ahead of him, entered the dark, dank, evil-smelling place, his footsteps ringing upon the stone flooring and sending the echoes scampering into the corners, together with more tangible—and verminous—things. There was nothing in the first room, but beyond it he came upon the Torture Chamber and all those instruments of cruelty which marked a less kindly period of the world's history. And this Chamber was larger than the other cell. Rusty hooks hung from the ceiling, of incredible size and suggesting unthinkable horrors, and over all hung the odour of damp and decay, mingled with something more modern, which caused Cleek to stop suddenly and sniff like a terrier scenting a rat.

up in another school, Paula, where we deal square blows that do not strike below the belt, and where we do not let our ambitions play upon a flattered old man's affections quite so cleverly or so perceptibly as you do?" "Stop!" The mischief was out, the damage was done, and in one moment that dull, the stammering, broken voice of the old man was struggling up out of his chair, and from the detaining arms of his wife and daughter, face livid, lips twitching, the vein in his transparent temple standing out like a piece of blue whip-cord. His clenched hand shook in the air, trembling with the force that he put into it. "Stop it! How dare you say such words to my wife—how dare you! You shall pay for this, Ross Duggan, my dear! Tonight I alter my will—tonight I strike your name from the will, and make the estates over to someone else. But your name goes out of it—as you do—tonight! . . . Paula, your arm!" He swung toward his wife with all the dignity of his years and his inheritance, and took the arm she held out to him, clinging to it as a child to its mother's skirts, and falteringly left the room, where his words had fallen upon those remaining like the sword of Damocles itself. Ross had gone white—deadly white, as had Maud Duggan herself—and all the indignity of this thing before a stranger to their household showed itself in his tense utterance. "Gad! I'll go—and go now!" he rapped out, in a very fever of fury and outraged pride. "And glad to get away from this infernal hell-est of a place as has made out of a decent British home!" "Ross! Her mother, you know." "Ross! old chap! I forgot for a moment. But it hasn't occurred again. I'll be off, Maud, and get along to Cynthia's. She'll have something to say about this. I daresay, and her Guvnor will probably give me a leg-up in finding a job. I'm better out of this. Mr. Deland, you've been the unwilling victim of an unpleasant scene—and a family scene, which is most unpleasant of all. I must apologize to you. Had I foreseen anything of the kind, we would have postponed your luncheon until a later date. It might have been more agreeable for you. Good-bye, and I'm sorry I can't see more of you. I'm clearing off now, Maud—you can send along my things later." Maud Duggan's eyes searched his face, a look in the eyes of agonized question, as if she was unable to believe the evidence of her own ears. Then

brain, and with some of the moody depression shaken from him. He spent the rest of the afternoon and early evening reading and thinking by the open window of his room, looking out now and then at the whole massive structure of Aygon Castle, with its great gateway, above which Rhea Macdugan stood everlasting guard. "Gad! anything might happen there—and the world be no wiser! It was an appalling thought at best. What secrets had that place held in the past and never revealed to the light of day? What secrets might it not hold in the future?" And those dungeons. The thing he had seen there. . . . And that handkerchief—so obviously belonging to Ross Duggan, and which now lay in his inner pocket. He fumbled for it and brought it out to the light, examining it minutely. Fine linen, finely monogrammed. Very obviously the handkerchief of an extravagant gentleman. But what on earth he should be doing down there, amidst that, was something which sent the grim lines which about Cleek's mouth and eyes, which obviously ate up a good many private fancies. He'd. It would want close looking into, if nothing further proceeded with Miss Duggan's part of the affair. For an hour or two he sat pondering and dreaming there, the book he had caught up absent-mindedly from the billiard-room book-case lying open in his lap. The dinner-gong sounding thought that quiet house brought him quickly to his feet, with that hungry eye which lent pleasing colour to the thought of what the dining-hall afforded, a good table, and his hospitality was by no means frugal. Dollops was already standing by his table, expectant eye upon the trim maid who waited upon them, for during this little sojourn in the Highlands Cleek had expressed a wish for the lady's company during meals, and old Dollops had told his spouse that "Miss Deland were an unco' queer person to wish the company of his mon wif 'im at meastime, but so long as he paid his bill pramp, 'twere nought of hees business." And that was why Dollops was waiting now with that hungry eye of his upon the plate of steaming soup which the maid was bringing to the table. Only his respect for the man who had raised him to his present status kept him from dropping into his seat and gulping the stuff down straightaway. Cleek smiled as he saw the lady's eager eye. "Sit down, sit down, Dollops, and set to," he said with a laugh, laying a hand upon the boy's sleeve with something of tenderness in the gesture

The Dominant Electric Range

The range, illustrated above, is the last word in electric cooking efficiency. It has the same cooking capacity, as an ordinary cabinet type range, with 40 per cent less surface to clean.

Hotpoint Ranges can be had in sizes to suit every requirement. Ranges are made with ovens as easy to clean as the top of your piano. Their smooth round corners absolutely prohibit waste matter lurking in hard-to-get-at places. Owing to the extra high wattage elements, installed on Hotpoint Ranges, the speed with which you can accomplish different cooking operations will surprise you.

CHAPTER VII The Summons Cleek left that house of anger in a strange frame of mind, rather glad to be back again in his own sunny room at the Three Fishers, and away from an influence which seemed somehow horribly malign. The pitched battle had taken place between father and son—egged on by a designing old woman who did not mind to what depths she stooped so that her ends were eventually reached, gave him an eerie feeling. There was something venomous about the whole affair, something that reminded him of an asp about to strike. He could not shake that feeling from him. The premonition that he would be the victim of his own hand held firm hold of his faculties. A walk with Dollops over the moors readily acted as a refresher, for the lady's ready humour had the true Cockney bite in it and he had seen, with his keen eyes, how the master he loved and revered was brooding under the shadow of something he sensed although he could not see. And so his comical faculties were put to good work. Until late-time at length reached—Cleek returned to the Inn of the Three Fishers, a little less clouded in heart and

ARCHDIOCESE OF MONTREAL AGAINST DAYLIGHT SAVING

(Canadian Press Despatch.)
Montreal, March 9.—In a letter, signed by Canon J. A. Mousseau on behalf of the Archbishop of Montreal and addressed today to Alderman Duhaime, it is pointed out that the Catholic authorities of this city are opposed to Daylight Saving. The letter says that "the unanimous objection of the faithful may be summarized as follows:—Few advantages and many inconveniences."

RELIEVED HIS RHEUMATISM!

"I am eighty-three years old and I doctored for rheumatism ever since I came out of the army, over 50 years ago. Like many others, I spent money freely for so-called 'cures' and I have read about 'Uric Acid' until I could almost taste it. I could not sleep nights or walk without pain; my hands were so sore and stiff I could not hold a pen. But now I am again in active business and can walk with ease or write all day with comfort. Friends are surprised at the change. You might just as well attempt to put out a fire with oil as to try to get rid of your rheumatism, lumbago, sciatica, neuritis, and like complaints by taking treatment supposed to drive Uric Acid out of your blood and body. It took Mr. Ashelman fifty years to find out the truth. He learned how to get rid of the true cause of his rheumatism and other disorders, and recover his health and strength from reading 'The Inner Mysteries,' a book now being distributed free by the author, an authority who has devoted over twenty years of his life to the scientific study of this trouble. Anyone sending name and address to H. P. Clearwater, Ph. D., 225-7 Water Street, Hallowell, Maine, will receive by mail and entirely free of charge one complete copy of 'The Inner Mysteries of Rheumatism,' which contains facts overlooked by doctors and scientists for centuries past. If not a sufferer yourself, you would be helping some afflicted friend by handing this good news and opportunity to him. NOTE: As the number of copies available to readers of this paper is limited, it is advisable that you act promptly."

BURDOCK BLOOD BITTERS

Relieved Her Of Headaches

Headache seems to be habitual with many people, and some, if any, are seldom free from it, suffering continually, and wondering why they can get no relief. In all cases of headache the treatment should be directed to the removal of the cause, and with the cause removed the headaches will vanish. It is impossible to find a better remedy for headaches of every description than can be found in Burdock Blood Bitters, and it is equal to B. B., acting as it does on every organ of the system. Mrs. Douglas Rieborough, 250 McKenzie St., Sarnia, Ont., writes: "Having suffered from severe headaches for a considerable length of time I decided to try Burdock Blood Bitters, and found that it helped me wonderfully. It relieved the headaches, and I no longer had a decided improvement in my health." Burdock Blood Bitters is a remedy that has been on the market for the past forty-four years, so you don't experiment with some new and untried medicine. It is put up only by The T. Milburn Co., Limited, Toronto, Ont.

PAYING EXPENSES BY SEIZING MARKS

French and Belgian Armies in Ruhr Already Have Requisitioned More Than 14,000,000,000 — Propaganda Pamphlets Seized.
(Duesseldorf, March 9.—The French and Belgian armies of occupation are paying their expenses by means of requisitioned marks, it was announced today at French headquarters. More than 14,000,000,000 marks have been collected by the occupation forces, all of which will be applied toward expenses incurred since the Ruhr troop movement began just two months ago. The largest sum seized by the French, near Hagen, was 18,000,000,000 marks in Reichsbank funds being shipped by train from Berlin to Cologne. Included in the amount confiscated is 1,000,000,000 marks taken at Duisburg, which was also a Reichsbank shipment, and hundreds of millions of German government strike funds. There are also fines against individuals amounting to 100,000,000 marks against the town of Recklinghausen. The headquarters of the German Association for the Defence of Economic Interests was raided today by the French authorities. Several tons of propaganda matter were confiscated by the French, who contended this was the central pamphlet distributing point for the Ruhr associations. The bureau was in a bank building in Duesseldorf directly across the street from General Degoutte's offices. Says State Forest Seized. Berlin, March 9.—State-owned forests extending over 86,485 acres have been seized by the occupation forces in the newly occupied territory of the Rhineland and Ruhr, according to a statement before the budget committee of the Prussian Diet by the Socialist deputy, Peter Hochdenn. It was announced that the net surplus revenue from the Prussian state forests would be considerably in excess of the budget estimate of 6,850,000,000 marks, due primarily to greater returns from the sale of wood—than expected. Report Milk Seized. Gelsenkirchen, March 9.—Belgian patriots at Buderich, across the River Rhine from Weisel, on Wednesday night, seized shipments of milk from Holland consigned to Dortmund, Essen, Haldhausen, Mueheim-Am-Ruhr, and this city, according to reports received from German sources. French Expel Police. Essen, March 9.—The French troops have again been withdrawn from Dortmund, which was occupied yesterday for the purpose of rounding up all the members of the disbanded security police still at large. The city was searched by the French soldiers and 270 of the security force members were arrested and expelled from the district with a warning not to return. Sending Children Away. Bochum, March 9.—The task undertaken by the Germans of sending several hundred thousand children from the troubled zone has been begun. Five hundred youngsters, from three to seven years of age, were sent from here by special train yesterday. The Germans announce they were sent to Bremen, where they will be distributed among private families to be cared for until the troubles plus over.

TRIES TO ENTER U. S. BY RUNNING LOWER GIRLERS OF BRIDGE AT NIAGARA

(Canadian Press Despatch.)
Niagara Falls, N. Y., March 9.—Leo Castle, eighteen years old, from Alberta, Canada, made a spectacular attempt to smuggle himself into the United States today by running across the lower girders of the Michigan Central cantilever international bridge which spans the Gorge over the lower rapids near the whirlpool. He was captured by immigration authorities and sent back to Canada.

BREAK RECORD; DANCE 14 HOURS

London, March 10.—It is announced from Scotland that two members of the staff of a dancing establishment in Edinburgh had made a record of 14 hours, 36 minutes, for continuous dancing.

PLAN ILLUMINATED ADDRESS TO BRIDE OF DUKE OF YORK

Neighbors Urged by Father of Prospective Bride Not to Buy Expensive Gift — Presents From Unknown People Returned.
London, March 9.—Fortraffishire, seat of the estates of the Earl of Strathmore, father of Lady Elizabeth Bowes-Lyon, will present the lady with an illuminated address on the occasion of her marriage to the Duke of York. The decision to send the prospective bride this gift rather than an expensive present was made at a meeting at which a letter from Lord Strathmore was read urging that, because of the hard times, a large sum should not be spent for a present. Thousands of presents have already been received by the Duke and his fiancée, but many of them have been returned, as it is the custom of the Royal family not to accept a gift from anyone not personally known.

FRANCE STRONG FOR DEBTS SETTLEMENT IF OVERTURES MADE

Determined to Have Complete Cleaning up of Reparation Question Should Germans Make Overtures For Settlement.
(Canadian Press Despatch.)
Paris, March 9.—The outstanding fact in connection with Premier Poincare's visit next week to Brussels for the purpose of conferring with Premier Turgis, is that the French are determined to have a complete cleaning up of the reparation question should Germany make overtures for a settlement. Observers here believed that the whole reparations question will be gone into so thoroughly by the two Premiers that there may be a final and total settlement of the whole matter. If the French have any definite plan, M. Poincare has given no indication of it. The French position, it is said, turns on whether France is willing to accept reparations or is seeking national security. It is on these two points that French public opinion is apparently divided.

MINARD'S LINIMENT FOR COUGHS AND COLDS

FINANCES SOUND.

The monthly meeting of the board of management of the Sunday school of Centenary church was held last night with the minister of the church, Rev. R. G. Fulton, presiding. The meeting was well attended and the financial report showed that all bills were paid and a balance on the right side remained. Plans were discussed for the grading of classes which takes place on the last Sunday in April. The work of the coming month was outlined.

"Wear-Ever"
Nothing looks more homelike than the kettle on the stove—so suggestive of plenty and comfort—and when it's a beautiful "Wear-Ever" Kettle the effect is even better. However that's a minor point. The main thing to remember is that "Wear-Ever" kettle will give longer service, is lighter to handle and needs less fuel to heat it. Decline substitutes and insist on genuine "Wear-Ever."

LOCAL NEWS

It was moved at a recent meeting of the executive of the Connecticut Club that a mahogany desk and some furniture on hand should be donated to the Health Centre and a sum of money to the Animal Rescue League.

Plans for the tea which is to be held in aid of the funds of the local Council of Women were made at a special meeting of the sub-committee for refreshments held yesterday afternoon in the Board of Trade rooms with Mrs. G. Wilford Campbell, the refreshment committee convenor, presiding.

The members of the senior school girls' gymnasium classes of the Y. W. C. A. held a highly successful party sale in the lobby of the Imperial Theatre yesterday afternoon. Mrs. A. E. Logan, the convenor of the physical committee, was in charge and a satisfactory sum was realized.

The Canadian Government steamer Laurentin arrived here yesterday afternoon in tow of the tug Roebling. The steamer was brought here from Black's Harbor where she had seriously damaged her rudder while breaking ice in the channel. She will be repaired here.

Hum Ong and Hum Hoe were each fined \$50 in the police court yesterday afternoon for illegally having opium after they had pleaded guilty to a technical violation of the act. Samuel Leaux forfeited \$200 in connection with a violation of the liquor law.

According to the report of Dr. J. V. Anglin, superintendent, which was tabled in the Legislature this week, the number of patients in the Provincial Hospital for Nervous Diseases during 1922 was \$5,48. The daily average number of patients under care there was 648. This is only twenty-eight higher than for the previous year. Of this weekly outlay for each patient, the municipalities and paying patients make up the balance.

Archibald Stratton, 79 Erin street, is now in the General Public Hospital undergoing treatment for injuries sustained when a horse, belonging to the Bedford Construction Company, which he was leading along Waterloo street, kicked him in the arm and shoulder before breaking loose and running away. Mr. Stratton was taken into a drug store and later removed to the hospital. An X-ray will be taken today to determine whether or not any bones are broken.

A surprise party was given last evening by the night classes and the senior school girls' gymnasium of the Y. W. C. A. to their leader, Miss G. K. Pepler, in honor of her birthday. An impromptu programme was given and special numbers were rendered by Miss Dorothy Lowe, Miss Gladys Johnson and Miss Julia Pirie. Miss Maud Bray made the presentation of an ivory

tray and picture frame to Miss Pepler. Refreshments were served by a committee headed by Miss Pirie and Miss Lawson.

An old-fashioned Candy Pull was held last evening at the home of Gray Townsend, Station street, Fairville, where his Sunday school class of ten boys assembled there. A jolly time was spent.

Mrs. J. Delbert Seeley entertained a large circle of friends last evening at a social dance held in her apartments at the Park Hotel. A most enjoyable evening was spent by all present. The music was supplied by a special orchestra. Refreshments were served and an enjoyable evening spent.

An enjoyable birthday party was held last evening in Douglas avenue Christian church when each guest brought a number of cents equalling his or her number of years. The fund raised was over \$30 which will go towards the choir music fund. Rev. William Phillips presided over a delightful programme. Those taking part were—Elsie Roop, Hilda Williams, John McEachern, Misses Naves, Miss E. Morrell, Hannah Marshall, Mrs. V. B. Henderson, Mrs. H. Taylor, Myrtle Roberts, Mrs. Fred Smith, Mrs. George Scott and Alberta Roberts.

A meeting of the Millidgeville Summer Club took place last evening in the office of the president, H. W. Machum, who was in the chair. Arrangements were made for holding an informal bridge and dance at the Venetian Gardens on Thursday, March 22. Miss Olivia Gregory was appointed convenor of a committee to carry on the arrangements. It was decided to close the winter season with a similar affair in April. Plans for the summer season will be made at the annual meeting in May.

Commissioner Thornton yesterday afternoon met with the committee recently appointed from Beauséjour in regard to fire protection for that district. It was decided to make a survey of the district seeking protection and see what could be done by the city. It is hoped to have the matter introduced at the present sitting of the house as the matter will call for some special legislation. Those present at the meeting besides Commissioner Thornton were—W. I. Fenton, T. E. O'Leary, G. Earle Logan and Councillor O'Brien who was also representing Councillor Campbell.

The Canadian Pacific liner Montcalm sailed yesterday afternoon at 5 o'clock for Liverpool with 160 cabin and 200 third class passengers, in addition to general cargo and a consignment of royal mail. Among the Montcalm's cabin passengers are twelve en route to England from China and Japan. The passenger list includes: Lady Curzon, Mrs. Curzon and Mrs. Burness, of Ottawa; Dr. W. L. Carlisle, Captain Delano de Corbetta, Dr. J. W. Coffin and Dr. H. Y. Grant, of Toronto; Major A. K. Heming, London, Ont., and Rev. A. E. Winchester, of Toronto.

Reduces the cost of upkeep  
WHEN your car hits the inevitable rough bumps, Hassler's absorb the shocks of both upthrust and rebound in the necessarily high resilient action of good springs; they save you not only discomfort in riding, but the pain of paying for needlessly injured springs.  
No need to tell you that the bumps, jars, jolts and vibration suffered by any good car on city streets are only too real. Busy repair shops prove it. Motor nerves prove it. You need Hassler's.  
When you want to renew your car, you will enjoy enhanced re-sale value, made possible by Hassler's saving your car!  
Saved gasoline alone would pay for Hassler's, not to mention saved repairs, tires and re-sale value. You pay for Hassler's anyway, why not have Hassler's now! Your dealer knows these Hassler facts.

WAR UNLESS THE U.S. ACTS, SAYS LEWIS  
New York, March 10.—Europe will be embroiled in a war within a month unless the United States intervenes to prevent a clash between Turkey and England. J. Hamilton Lewis, former United States senator from Illinois, declared on his arrival on the liner Majestic.  
Turkey already is prepared for a fight and is expecting help from both Russia and Germany to enlarge her already big standing army, he said. Hungary is seeking to grab back territory ceded to Rumania, and Austria desires to regain Trieste and parts of Czechoslovakia.  
Mr. Lewis went abroad a year ago to represent claims against Germany. He attended the Geneva and Lausanne conferences.

COURT WARNS SPEEDERS IT MAY IMPOUND CARS  
Cleveland, March 10.—Speeders found guilty of driving faster than thirty miles an hour in Cleveland will have the alternative of serving minimum sentences of ten days in the workhouse or forfeiting the right to use their cars for thirty days to six months. Municipal Judge Samuel H. Silbert announced recently.  
Judge Silbert asked the Cleveland Safety Council to prepare a list of garages and warehouses for use as "pounds." Police will take charge of the cars and keep identification tags until the period of "imprisonment" has passed.

Government fleet to private operators will not be definitely known for at least six weeks and probably longer. The first step in the long process of formulating the plan, which is expected by the board to get the Government definitely out of the operating business, will be to form a general committee made up of the technical personnel of the Government's shipping establishment, who will give the Lister committee their best judgment as to the most feasible way to proceed. The chief consideration of the board is to dispose of its useful ships to operators who will guarantee their use in important trade routes for a fixed period of years. No sales will be made unless it is stipulated that the tonnage involved will be utilized in meeting the traffic needs of the various American ports.

CHOKED TO DEATH BY BUN.  
Camden Man, While Eating, Started to Laugh at Friend's Joke.  
Camden, N. J., March 10.—Su-focation, due to pieces of a cinnamon bun lodging in his throat while he laughed heartily over a joke, caused the death of William M. Pratt, 30.  
Pratt was seated at the table and a friend started to tell a joke, when Pratt began laughing so heartily he fell over in a faint. Word was sent to the office of a physician, but when the doctor arrived Pratt was dead. An autopsy showed that a piece of the bun had lodged in the windpipe.

ASK RECONSIDERATION OF CASE OF DR. B. C. FOSTER  
A delegation representing the parents of students attending High School waited on the Fredericton School Board yesterday and presented a petition asking for a reconsideration of their decision to dismiss Dr. B. C. Foster, principal of the High School, at the completion of the present term. Dr. North, chairman of the board, promised that consideration would be given the petition, which was signed by upwards of 20 parents and pupils attending the school.

### Strengthen Treasury Bench to Relieve The Strain on Bonar Law

#### Facts About Health of the British Prime Minister—The Queen's Maids of Honor—Bridesmaids for Lady Betty—Medicos Nearly Found Tutankhamen's Tomb.

(From our own correspondent.)  
London, Feb. 22.—Since the resumption of Parliament rumor has made itself increasingly busy over the state of the Prime Minister's health. It may be as well, therefore, to give what are the facts.  
When Mr. Law left the coalition ministry his breakdown was serious, but by no means irreparable. When, last autumn, he accepted the invitation to succeed Lloyd George he was again to all intents and purposes a comparatively fit man, but he accepted only after medical sanction was given, and with the proviso that he must be allowed to resign if his health was threatened. Mr. Law spares himself in every possible way, but when he assumed office there was one strain involved of which he scarcely took account. I refer to the rather marked immaturity of the treasury bench as a debating body. It is nonsense to talk of an imminent breakdown, but it is only a commonsense precaution to try to relieve the strain. Hence we may expect a special endeavor to recruit the treasury bench from among former ministers of experience. This explains the present references to the prospects of Mr. Chamberlain, Sir Robert Home and Lord Robert Cecil returning to the fold.

A jeweled miniature of the Queen, pinned to the left shoulder, is the "on duty" badge worn by Queen Mary's maids of honor. The Queen has only one maid at present, Miss Ursula Lawley; but now that the court has returned to London the appointment of one or two more—the prescribed number is four—may be made. Out of town, the maids of honor live with the royal family, but in town they are expected to have houses of their own and to attend at the palace in time for lunch. A royal carriage conveys them thither.  
Lady Betty's Bridesmaids  
Lady Elizabeth Bowes-Lyon, the Duke of York's fiancée, is, I hear, undecided whether to have a bridal retinue of grown-ups or children. She has so many close friends that it is difficult to make a choice among them, although Lady Mary Cambridge's cousin, Lady May and Lady Kathleen Cambridge, the Duke and Duchess of Abercorn's pretty young daughters, are almost certain to be chosen. But perhaps Lady Betty will solve the problem as Miss Prendergast, Miss Dickson-Poynder, Hon. Kate Horne and others of this year's fashionable brides did, and be followed to the altar by some of her numerous small nephews and nieces.  
David Walks Abroad  
Since he established himself in his new house at Chelsea, Lloyd George has adopted the wise practice of getting a little exercise by going on foot to the House of Commons. I saw him recently with Miss Megan literally hanging on his arm as he walked with vigorous alert step along the Embankment. The ex-Premier was doing all the talking and that, too, with the utmost animation. Quite nine people out of ten recognized him, and, walking along behind him, I was amused to notice how narrowly several collisions were avoided through drivers and motorists turning round to gaze after the great little man from Wales.  
Empress Marie  
The Queen Mother's sister, the Empress Marie Feodorovna, I am told, has not been at all well since her return to town from Sandringham, and for a day or two her health gave her doctors some concern. Her Imperial Majesty has suffered considerably from the terrible experience she underwent during the latter days of her life in Russia, when she escaped a fate which undoubtedly would have shortened her existence, by boarding a British man of war. Happily, the Queen Mother still enjoys fairly good health, and is able to get out most days when the weather is favorable, but on medical advice she refrained from witnessing the royal procession at the opening of Parliament.

### GASSED OVERSEAS SHELL SHOCKED and RHEUMATISM

Mr. F. M. Blaquiere, Montreal, Alta., writes:—"After three years' service overseas I returned to Canada almost a complete wreck. I had been gassed, and was suffering from shell shock and rheumatism, and was so nervous I could not sleep at night. I tried many medicines and doctors, but none of them did me any good for any length of time. I got so bad, in the fall of 1919, my hands were so shaky I could scarcely hold anything, and I seemed as if I had a steel band pressing on my head. The least excitement would almost drive me into fits, and my whole system seemed to be in disorder. I had cramps in my legs nearly every night, and hot and cold chills running up and down my back nearly all the time. One day I decided to try Milburn's Heart and Nerve Pills, and after I had taken six boxes I began to feel better. I kept on using them and after a while I was completely recovered."

Compensations inside the House of Commons. The episode is not without its pleasant humor. In the last Parliament Neil McLean, Socialist member for Govan, was the acknowledged "extremist." He bore the Red Flag, so to speak. In this Parliament Mr. McLean is quite mild, and, as an extremist, rather a back number. The Red Flag bearer now is Mr. Newbold, a Glasgow Communist, and last night he had the temerity to call the member for Govan "an opportunist!" Mr. McLean, a peppery little man with what Kipling calls "a 'yrick' cad of 'air,'" could not sit down under this. Do-

### MOTHER, INSIST ON GENUINE "CALIFORNIA FIG SYRUP"

Say "California" to Your Druggist and Refuse any Imitation of this Harmless Laxative for Children  
If your child is listless, full of cold, has colic, or if the stomach is sour, breath bad, tongue coated, a teaspoonful of "California Fig Syrup" will quickly start liver and bowel action. In a few hours you can see for yourself how thoroughly it works the constipation poison, sour bile and waste right out and you have a well, playful child again.  
Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today may save a sick child tomorrow. It never cramps or overacts. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

a gesture of defiant invitation to Mr. Newbold, plainly asking that young disciple of Lenin who has just returned from Moscow, to "come outside." The Communist adopted the safe tactics of the Fabian Society—he went on talking.  
Through Five Centuries.  
How many Londoners or visitors, who pass reverently through Henry V's Chapel in the Abbey, where the good lance he couched at Agincourt rests above his sepulchre, know that masses for the repose of the gallant King's soul have been said for more than 500 years? King Hal founded an Abbey at Ilesworth in Middlesex for Bridgettines, which was uprooted in Henry VIII's time, but resettled at Chudleigh in Devon. And, according to the Catholic Bishop of Plymouth, masses for the repose of the soul of the founder, the victor of Agincourt, are still being said, and have been offered ever since his body was laid in the abbey's sovereign dust at Westminster.  
Hard Luck!  
There are two young gentlemen in London, both medics, who believe they just missed forestalling Lord Carnarvon at Luxor. In 1915 these alert companions were in Egypt in Sam Browns, and occupied including the troops. Both fell over head and ears in love with Egypt on the romantic side, and roamed far and wide amongst the ruins of the Pharaohs. They visited the Valley of Kings, and explored the tombs. One afternoon they sat side by side on some ancient relic in the tomb of Set I. One of them kicked his heels on the floor. "Gad!" the personal narrative proceeds, "hollow! There's another place underneath this!" but they could not dig it out. A. M. C. funds to Egyptian research work, and had to get back to the hypodermic syringes. Nothing will persuade the one I know—he has a brass plate up in Balham now—that he did not miss "Tut" by a short neck. "Old Smith—he's got a show in Wandsworth as — is quite sure of it!" One of London's unwritten war romances.  
There is no gainsaying the tremendous interest aroused by the discovery of Tutankhamen's tomb. In fact, the strings of human curiosity and romance have been set twanging by this event as by no other incident since the war, and are likely to be kept vibrating some time. The great discovery of Lord Carnarvon and Mr. Carter at Luxor has led to discussion regarding the disposal of the mass of archaeological treasures found in Tutankhamen's tomb and the present housing of past finds. It is pointed out that the Cairo Museum is already sufficiently full, and that in any case the seasonal fogs and dampness are not too favorable for the preservation of fragilities thousands of years old. It is therefore suggested that a great museum should be established near Luxor, but here, if the dampness can be circumvented, there is a heat almost equally destructive to be contended with. The solution seems to be the digging out of the rocks, where the Egyptian Kings are buried a great series of underground chambers where siph and thickness of covering and walls will secure a suitable temperature. But such an excavation would take a generation to complete. Owing to the tightening of the Egyptian Government regulations which control the disposal of ancient treasure there is no prospect of other than a minimum proportion of the Carnarvon finds reaching this country.  
Lady Sykes' Son  
Rudyard Kipling was a sponsor at the christening of Lady Sykes' infant son in the crypt of the House of Commons, and I hear that he has made his god-child the unique gift of a new poem in commemoration of the occasion. By the time the god-child comes of age this Kipling poem will have decidedly more than a sentimental value. Lady Sykes has been away in the country, and only returned with Bonar—Bonar's name was decided on as one of the baby's names—for the ceremony.

### "A Terrible Experience"

"I Recall My Experiences with the Burglar with Feelings of Horror!"  
"How would you feel if you awakened in the middle of the night with a flashlight shining in your eyes and the gruff voice of a man threatening that, 'if you make the slightest noise, I'll shoot?' That was my experience the end of last March when my husband was away in the woods and I was alone with my three children. Everytime I think of this experience a shudder passes over me and as long as I live I shall remember it. At the time I really thought I would die. It was a wonder my heart did not stop beating. I was so weak that even if I had any desire to move, I could not. I was bedridden in a cold, clammy perspiration. Even to recall the shocking details now makes me shudder. It was a result of this shock that I contracted a high fever and for hours at a time I was delirious. I got so bad that the doctor finally gave up hope of my ever recovering, but by careful nursing, I was finally pronounced out of danger. The shock had left me so weak, that for no reason whatever, I would suddenly burst into tears. All I suddenly seemed to have been taken out of me. I Druggist

### "He Told Me About How He Got Strong After the 'Flu'"

"I MET this man on the train on the way home from the coast, and he began telling me about having the 'flu' very badly, and how he regained strength by using Dr. Chase's Nerve Food.  
"Then he took a box of the Nerve Food out of his grip, and was so enthusiastic about it that I said: 'You are not selling Nerve Food, are you?'  
"Oh, no," he said, "I am not selling it, but I am recommending it. When I find good things I believe in telling others about it. I was on my back for two weeks with the 'flu,' and when I got up I was so weak that I did not get out of the house for ten days. I started out on the road, but did not have the energy to sell goods."  
"What seemed to be the matter?" I asked.  
"The doctor said my nerves were in bad condition," he said, "I could not sleep nights, and after talking to a customer I seemed to be all in. There was so little nerve force in my system that I went all to pieces with a little exertion."  
"I did not get right," he continued, "until I had used Dr. Chase's Nerve Food for about two weeks. By that time my appetite was good and I began to feel like myself again."  
"For a month I scarcely missed a dose of the Nerve Food, and am now feeling fine. I eat and sleep well, and take the same old pleasure in my work that I always did when in good health. I thought for a while that I would have to quit the road entirely, but I never felt better than I do now."  
"He left the train then, but I thought I never heard a stronger recommendation for any treatment than he gave for Dr. Chase's Nerve Food."

### Girl Guide Notes

A second hooked match played by the 2nd Rothery against Netherwood last Saturday morning, was won by the Guides, 4-2. It was very closely contested and much enjoyed by the spectators on the snowbanks. With the end of the skating they are turning their attention to ambulance work in preparation for the Wallace Nesbitt competition.  
3rd St. John (Y. W. C. A. Boosters' Club) Company are coming along well. They have eleven members at present, but make up in enthusiasm what they lack in numbers. Miss Irene McArthur is "leading a hand" with the Third while Miss Hazen is away.  
A most interesting and instructive talk was given the Guide officers last week by the district commissioner and district secretary of Boy Scouts. One company, anyway, has respected the benefit of it. They have very kindly consented to give us another evening so, please, Officers, turn up on Tuesday night, March 13th, at eight o'clock, armed with pencils and note books. Be prepared.  
Pistol Clue to a Robber.  
Children Pick Up Weapon and Police Arrest Man Who Threw it Away.  
New York, March 10.—Patrolman William Fowler at the West Forty-seventh Street Station found a group of children returning from Sunday school examining a loaded .25 calibre pistol one of them picked up in the street, at Fifty-second Street and Tenth Avenue.  
"Where did you get this?" the patrolman inquired, taking the weapon from the children.  
"That man there threw it away," said one of the group, pointing to Joseph George, a longshoreman, who was walking down the street.  
The patrolman arrested George and about the same time Alexander Lulak came up declaring he had been robbed by George of \$50 at his home after threatening him with the pistol.  
George was held by Magistrate Moses H. Ryttenberg, in West Side Court, for examination.  
QUARREL ON VOYAGE—MARRIED BY SKIPPER  
Swiss Couple on President Polk Make Up After Tiff and Begin Home-moon on Liner.  
New York, March 10.—Soon after the President Polk of the United States line left Southampton, Miss Elsie Hottinger and Albert Hitz quarrelled and their plan to be married at the home of relatives here was declared off when she handed him back his solitary ring. But while it would be easy to avoid each other in Switzerland, their native land, it was an entirely different proposition at sea.  
Four days of unsuccessful dodging proved too much, and they made up. Both agreed that it would be an excellent idea to spend the remaining few days at sea honeymooning. Accordingly they approached Captain Kenneth B. Lowry, and he agreed to marry them. The wedding took place with Miss Josephine Speck as maid of honor and August Hirtmann as best man. What Lydia E. Pinkham's Vegetable Compound Did for Her  
Kansas City, Mo.—"I was left in a very serious condition and no one thought I could ever be any better. Then came the Change of Life, and I was not prepared for what I had to suffer. I had to stop down to pick anything from the floor. I did not suffer any pain, but I was decidedly nervous and could not sleep. For nearly two years I was this way, and the doctor was frank enough to tell me that he could do no more for me. Shortly after this I happened to see in a newspaper an advertisement of Lydia E. Pinkham's Vegetable Compound. In a few days the medicine was in the house and I had begun its use and I took it regularly until I was well. I recommend the Vegetable Compound whenever I have the opportunity."—Mrs. MAY LINDQUIST, 2814 Independence Ave., Kansas City, Mo.

Sweetnam, pastor of the Waterloo street Baptist church, united in marriage Miss Mabel Ebel, daughter of Black River, to James A. Sprague of this city. The bride, who was attended by Miss Rhoda Paris, was charmingly attired in blue crepe, chine and silk. Harold Thorne supported the groom. After the ceremony a wedding supper was served at the house and Mr. and Mrs. Sprague received the best wishes of their friends for a long and happy life. Their popularity was evidenced by the large number of presents received. They will make their home in St. John.

**SHALES CASE**

Mr. Taylor This Morning's Witness—Hearing to Continue Next Week.

In Chancery this morning the case of the Prudential Trust Co., Ltd. vs. The Oil Shales Co. of Canada, Ltd., was continued before Sir Douglas Hauser, Chief Justice. Evidence was given by Mr. Taylor, secretary-treasurer of the plaintiff company concerning the matter of bonds of the defendant company and transactions so far as the plaintiff was concerned with the business. He was cross-examined by P. J. Hughes, of Fredericton, as to the agreement of the company with Hon. Mr. Pugsley, and as to the commencement of the suit.

Mr. Taylor said that the company was really bringing the action at the request of Dr. Pugsley and had refused to make a beginning in the suit he had guaranteed the costs. He recognized a letter sent by Mrs. Isabelle Earle to the company in 1921 asking as to certain bonds of the defendant company and for a refund of some \$1,700 in case there were no bonds registered in her favor. He also recognized a receipt given to her for the amount paid. The case is not finished and will likely take up some days next week.

**HYDRO COMMISSION SECRETARY AUTHORIZED TO ENGAGE STAFF OF SIX**

**Canada Permanent Building Suggested as Headquarters for Civic Executive—Special Standard Rates Proposed for Churches, Hotels and Boarding Houses.**

The possibility of securing a building to house the executive offices of the Hydro-Electric Commission of the City of St. John and the announcement that a canvass of the city for customers would be commenced likely next week, were among the matters considered at a meeting of the commission held this morning at City Hall. A report of the engineer was presented, recommending a call for tenders for the construction of the super-structure of an outside sub-station and for the equipment for it. This outside sub-station will be used jointly with the New Brunswick Power Commission, which will also own part of the equipment, and a portion of both costs will be paid by the N. B. body.

R. A. McAvity, the chairman, presided, and others present were Roy A. Willet, secretary; Barry Wilson, engineer; Mayor Fisher, John N. Flood, W. L. Harding, F. S. A. McMullin and A. M. Rowan, members.

The Mayor reported that the city engineer was working on the matter of a request from the commission in connection with the ownership of city poles now used by the Power Company. The secretary reported that printed contracts would be ready by the first of the week and a staff of canvassers was being arranged to start work next week.

Mr. Rowan thought that the appointment of canvassers and other employees should be made by the whole board.

Mr. Harding said he understood that the secretary was authorized to arrange for canvassers, in order to get this end of the business under way quickly.

The chairman was of the opinion that, as the secretary was responsible for the efficiency of the staff, he should be allowed to pick the best men for the positions.

Mr. Willet said he had about thirty applications.

On motion of Mr. Harding, the secretary was empowered to engage six canvassers.

It was decided to inform the Common Council that the tender of E. Leonard & Sons for sub-station equipment did not include the cost of installation. The Council had already passed a bond issue for this expenditure.

**Recommendations.**  
The engineer, Barry Wilson, submitted his report including plans and specifications for the steel structure for the out-door sub-station erection, and switching equipment for same. A portion of the cost of these items will be borne by the N. B. Power Commission. He recommended that tenders be called for both.

He submitted plans and specifications for the ornamental street lighting for the city, including eighty-three 1,000-candlepower units and thirty-five steel poles to carry secondary lines. He said no further poles would be required in this section. He recommended that tenders be called.

He reported progress on the plans for the rest of the distribution system, and explained that a report on the tenders for poles and equipment would be submitted soon. He said the prices on the new tenders for poles were about the same as on the first call.

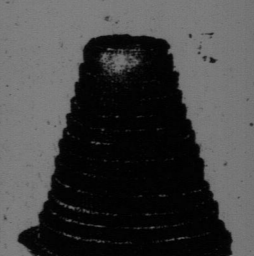

On motion the report was adopted and the recommendation ordered carried out.

Mr. Wilson explained that in the call for tenders for ornamental units, provision was made for the purchase of additional units if it was decided to extend the ornamental area.

Several bills which had been paid by the secretary were reported on. They totaled \$548.29 and included the secretary's salary for February and office supplies. The payments were approved.

A summary of the operation of the commission since its inception was contained in the first quarterly report, presented by the secretary.

**THREE FROM NEW BRUNSWICK; ONE IS ST. JOHN MAN**

Appointment of H. H. Melanson, R. F. McLeod and W. L. Crighton in C. N. R. Service.

Included in the list of appointments in the traffic department of the Canadian National Railways are the names of three former New Brunswickers, all of whom received their early railway education in the Intercolonial Railway. These are H. H. Melanson, who is to be general passenger traffic manager, R. F. McLeod, who becomes assistant to general passenger traffic manager and W. L. Crighton, who is to be assistant manager of the advertising bureau.

H. H. Melanson, who will be general passenger traffic manager of the consolidated railways, was born at Scoudou, N. B. He entered the passenger department of the I. C. R. at Moncton, at an early age, and for many years was assistant general passenger agent of that railway. Mr. Melanson succeeded John M. Lyons as general passenger agent of the Intercolonial, and when the Canadian Northern and Intercolonial railways were amalgamated he became passenger traffic manager of the Canadian National Railways.

Formerly of St. John.

R. F. McLeod, who is to be assistant to passenger traffic manager is a former St. John man, a son of the late George M. and Mrs. McLeod of this city. He was educated in the local school and entered the employ of the passenger department of the Intercolonial at Moncton, in 1903. He succeeded Mr. Melanson as assistant general passenger agent at Moncton and with the inception of the Canadian National Railways he became assistant to passenger traffic manager, with headquarters at Montreal.

W. L. Crighton, who is a native of England, was for a long time advertising agent of the Intercolonial Railway and in recent years has been general advertising agent of the Canadian National Railways at Toronto.

What March 10 Last Year was Like—The Weather in Halifax.

With the thermometer registering two degrees above zero and many feet of snow and ice covering the ground today, March 10, presents quite a contrast with the corresponding day March, 1922. Last year on March 10, the lowest temperature was twenty-two degrees above zero and the highest forty-two and there was not a particle of snow on the ground.

Halifax, N. S., Mar. 10.—From five below zero at four o'clock to ten above at nine was the record of the temperature in Halifax this morning. At Sackville River, a few miles outside the city, the mercury fell to ten below during the night.

**Reorganize The Scouts And Will Have Cubs, Too**

A reorganization meeting of the Centenary church Boy Scout troop was held last evening in the church and a great deal of enthusiasm was shown. Ten boys signified their intention of joining the troop and, as most of them are former Scouts, it is expected that the organization will get under way quickly. Among those present were V. C. Timberley, district secretary of the Boy Scout Association; Rev. R. J. Fulton, pastor of Centenary church; Murray Sinclair, scoutmaster; Gordon Adams, assistant scoutmaster; M. G. Adams, chairman, and E. W. Henry, member of the troops committee.

It was announced that Mr. Sinclair had agreed to take charge of the troop as scoutmaster and would be assisted by Gordon Adams. The meeting decided to form one patrol of scouts as a start and also to have a Wolf Cub pack with the intention of branching out and enlarging the troop later.

Necessary for Car's Efficiency. The universal joint, if not given grease, will decrease the power of the car from one-quarter to one-half.

When the Floats Leak. A leaky float will allow raw fuel to be drawn into the manifold, flooding the cylinders and choking the engine.

For Economy's Sake. By taking out the inner tubes once in every two months and reversing their position in the tire, the danger of having the tubes rubbed through by the edges of the flap, or by other slight projections in the casing, is removed.

Importance of "Boots". Because of flying stones or sticks, it is very important to inspect the leather coverings or "boots," which protect the universals and other parts. A torn boot will cause the lubricant to leak out, giving entrance to dust and dirt.

A Cause of Trouble. When filling the oil reservoir great care should be taken to see that no foreign substance gets into the lubricating system. Tiny bits of waste sometimes work into the system and fill some of the smaller oil lines, shutting off the oil supply entirely.

To Paint Over Brass. Painting over brass is easily accomplished, providing the metal is absolutely clean and free from grease. The brass should first be scoured with a mixture of salt and vinegar, after which the surface should be wiped with hot soapsuds, and wiped dry with a clean rag.

Minimum Carbonization. To encounter the least amount of trouble from carbon formation, the following rules should be observed: (1) Keep the piston rings in proper condition; (2) Use only the best quality of oil; (3) Employ the cleanest possible fuel mixture at all times; and (4) Give the engine a close of carbon removing compound occasionally.

Skidding. A skid is almost certain when the wheels become locked. This will happen if the wheels are with or without chains. The cross links tend to spread, and permit the tread of the tire to come into direct contact with the road surface. The most effective stop can be made by locking the wheels momentarily, releasing them and locking them again, repeating the process if necessary.

by placing a small resistance coil in the line leading to the horn. Proper bearing adjustment is essential to obtain long life for a car. Keep springs tight at the axles; looseness at this point causes spring to break. On steep grades, it is advisable to shift into low gear before commencing the descent. U. S. WILL HAVE FOUR OF FASTEST STEAMSHIPS. New York, March 10.—Reconditioning of four vessels, the Mt. Vernon, Agamemnon, America, and President Buchanan, which is to be undertaken shortly, will cost the Shipping Board around \$10,000,000, according to estimates made by shipping men recently.

Addition of the two ex-German liners to the active fleet will give the United States lines four of the fastest steamers in operation. The Leviathan is expected to make a strong attempt to lift the speed records of the Atlantic from the Majestic and Mauretania after her engines have broken in for several months. She is rated at twenty-five knots and may better that figure. The Mt. Vernon and Agamemnon are rated at twenty-three and one-half knots, but will probably do better than that with oil burners. The George Washington, now at Boston for refitting during the winter, is in the same class. With these vessels operating in the North Atlantic, the United States lines will have a fleet equal to the best under any flag.

The famous McLaughlin-Buick Master Six five-passenger open model to-day, as in past years, sets the standard of automobile value for the Dominion. It is the motor car by which others are judged, because it represents the best of each year's development in mechanical refinements, appearance and riding comfort. The Master Six touring combines the characteristic McLaughlin-Buick qualities of performance and stability with distinctive beauty and a completeness of appointments not to be found elsewhere.

Better Body Construction Braces in the body frames of McLaughlin-Buick open models are bolted through the wooden framework instead of being merely screwed into it. Bolting these braces prevents the joints from loosening under driving strains. Note how the bracket for the windshield post is bolted in seven places making it absolutely rigid. In mounting the bodies on the chassis more bolts are used to secure the body.

**\$15,000,000 IN SHIP CONTRACTS**

Improvement in Shipbuilding in the United States is Shown by Figures.

New York, March 10.—Contracts for new ship construction in January and February amounted to \$5,000,000, and additional orders are in sight to bring the total up to \$15,000,000 by the first of May, according to a statement from the Atlantic Coast Shipbuilding Association. A report from the Department of Commerce states that on February 1, 1923, 236 steel ships of 302,047 gross tons, were building, as compared with 218 vessels of 251,858 tons on January 1, 1922, an advance of seventeen ships of 50,000 tons.

In addition to the contracts for new vessels, considerable sums will be spent for conversion, repairs and reconditioning of ships, the association reports. While the amount of business already placed and contemplated this year seems large in the aggregate, it is small considering the facilities available to build ships. The association records show that there were at least 850 shipyards, boat building plants and repair yards doing business in this country during the war, and while more than two-thirds of the number have either shut down or engaged in other lines of activity about 240 are still in operation or would start up immediately if contracts were to be had. The great majority of these plants are equipped only for repair work or the building of barges, tugs and small wooden ships, but much of the work now being placed is of that type. The contracts for new construction awarded thus far this year are divided among seventeen firms, of which only five belong to the class of shipyards capable of building the larger type vessels. Of this latter class there are thirty on the At-

It will be twenty feet in height with a base of twenty-eight feet and will be constructed of Stanstead granite with the exception of the figure of a soldier on guard, which will be of bronze. The cost of the memorial will be about \$10,000, and the sum will be raised by subscription among the members of the order.

The Governor-General, Lord Byng of Vimy, will unveil the memorial in August of this year in connection with the meeting of the Supreme Lodge in Toronto, and it is expected that a great many will be present at the ceremony.

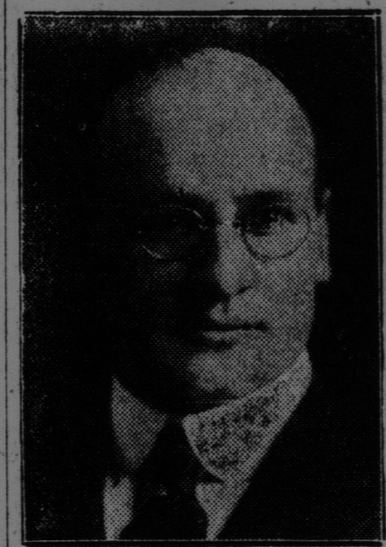

In this connection it may be remembered that the local lodges of the Sons of England erected a memorial to their dead in the form of a brass pulpit in St. Mary's church costing about \$1,000.

The report of the Bureau of Navigation shows the following new contracts made in January: One 5,500 gross ton 12 knot steamer ordered by the Bradley Transportation Co. from the American Shipbuilding Co.; two 4,500 ton 19 knot passenger and freight steamers ordered by the Eastern Steam-

ship Co. from the Bethlehem Shipbuilding Co. of Sparrows Point; one 10,000 ton 12 1/2 knot freighter ordered by the Hess Steamship Co. from the Toledo Shipbuilding Co.

**TRUCK HITS A HEARSE AND KILLS THE DRIVER**

Auto Crashes Into Death Vehicle as Baby's Body is Being Placed in it—Upset Man, Who is Run Over.

New York, Mar. 10.—A hearse standing in front of the undertaking establishment of Max Tick, 227 Lenox avenue, recently was struck by a motor truck which knocked a coffin containing a body from the hands of the driver of the truck and killed the driver. The accident happened at a place where vehicles have been forced to turn to one side of the street because of repairs to surface car tracks. The driver of the hearse was Barney Roth. The truck according to witnesses, sideswiped the hearse before it struck the coffin. One of the handles and the name plate was stripped from the coffin. The impact of the truck knocked Roth down and he rolled under the truck. One of the rear wheels passed over the body of the driver. He was killed instantly. Abraham jumped back just in time to save himself.

**Did Not Know He Killed Man.**  
The crash of the two vehicles and the fall of the coffin were muffled by the roar of the motor truck, and the driver continued on his way, until witnesses of the accident, speechless an instant yelled to him to stop. The driver was stunned when told he had killed a man. Woods was arrested on a technical charge of homicide. Witnesses were about equally divided in blaming the truck driver and in holding him blameless.

**GIRL DYING; ATTACK MOTHER**

Woman Called to Hospital Fights Two Men—One Arrested.

New York, Mar. 10.—Hurrying to Bellevue Hospital, when told that her young daughter, who had been operated on for ear trouble had suffered a relapse and was expected to die, Mrs. Josephine Hajduck, 25, was attacked by two young men a block from the hospital.

The men tried to drag the mother into a hallway, but she fought them off though at the point of collapse from hurrying to reach the side of her dying child. Her cries for help were heard by Patrolman Faust. The men fled when the policeman appeared, but one of them, who said he was Francis McCarthy was arrested on a charge of assault.

When McCarthy was arraigned before Magistrate Edward S. Weil in Yorkville Court, it was learned that Mrs. Hajduck had been sent home and her husband summoned to replace her at the side of the child, who died soon after the mother left. The case was adjourned until today, bail being fixed at \$1,000.

**LLOYD GEORGE'S GRIM JEST.**  
Says He's Sorry False Report of His Death Didn't Produce Obituaries.

London, March 10.—When ex-Premier Lloyd George was told of reports about his death which were current in various parts of the country on Saturday, he was much amused. "I'm rather sorry they were contradicted," he said. "I should have liked to have had the pleasure of reading my own obituaries."

**RUNS OVER A MAN, BUMPS INTO STORE, CUTS HIS THROAT**

New London Doctor Taken to Hospital in Dying Condition After a Strenuous Adventure.

New London, Conn., Mar. 10.—After crashing his new automobile through the plate-glass front of the A. J. Levinson Electrical Supply Company store in Bank street and running down Eugene Partello of Groton recently, Dr. John N. Dimon, a well-known local physician, walked up Holden street, and drawing a pocket knife, slashed his throat almost from ear to ear, severing the jugular vein. He was rushed to a hospital in what was believed to be a dying condition.

Partello, who was passing the Levinson store, was struck by the Dimon automobile and hurled against the metal window frame of the Miller Clothing store. He dropped to the sidewalk unconscious. He was rushed to the same hospital and X-ray pictures were taken to determine whether an operation would be necessary to save his life. Dr. Dimon was driving down Golden street and had turned into Bank street when the accident occurred. According to Stephen Sheehan, who was sitting beside him in the automobile, the physician made the mistake of stepping on the accelerator in rounding the turn and lost control of the car. The machine shot across Bank street at a terrific rate, jumping the curb and running down Partello before it plunged through the front of the Levinson store.

privately owned American ships into the coastal trade that the Shipping Board's Bureau of Research characterized the increased coastal movement of cargoes as "the most marked development in the employment of ships under the United States flag during the past year."

"The vessels under private ownership," said a report made public by the bureau, "have practically abandoned the hopeless task of competing with the more cheaply operated foreign fleets, and have turned to the protected traffic of our coastal waters, where the basis of operation cost is equal and the opportunity is presented of making a profit through increased efficiency in fair competition."

**The Greatest Asset Of Any Business**

The leading men in control of any organization are the most valuable asset of the concern—the power to plan, build and execute.

Therefore, it is quite logical to place a definite property value on such brains, in their relation to the particular organization, and it is business wisdom and propriety to insure this against loss.

No one disputes the advisability of Fire Insurance for property. Life Insurance on the individual—for the benefit of the business—is even more important. Fire may never occur. Death must come. And there is no salvage to human life. Is your business protected against the inevitable?

Ask any Life Insurance man to advise you with regard to Business Life Insurance.

TWO ARE KILLED BY MOONSHINERS

Louisiana Sheriffs Found Buried in Mud—Slain Leading Men to Prison.

Franklin, La., March 10.—Bullet-pierced and trampled by booted feet, the bodies of Wesley Crain and Wiley Pierce, deputy sheriffs of Washington Parish, slain by moonshiners they had captured at a still in the swamps eight miles east of here, were found buried in a shallow grave a quarter of a mile from the destroyed still.

The carcass of a cow had been dragged on top of Cain's body. The body of Pierce had been pressed down in eighteen inches of mud and slush. John Murphy and Gideon Rester, two of the men rounded up by a posse, are accused by the authorities of the crime. An official statement, credited to the Franklinton authorities, is that both men confessed.

LEAGUE OF STATES MAY BE RESULT

It Has Been Suggested That Canada Should Join—Off to Santiago.

New York, March 10.—To prevent the principle of the balance of power from corrupting political relations among the twenty-four republics in the Western Hemisphere, as it is declared to have done in Europe for the last 550 years, will be the fundamental object of the forthcoming international conference of American nations at Santiago, Chile, Henry P. Fletcher, United States Ambassador to Belgium, asserted on Monday at a farewell luncheon given the United States delegation by the Pan-American Society of the United States at the Bankers' Club, 120 Broadway.

Mr. Fletcher outlined the eighteen topics of political and economic import, chief among which is a proposal for a league of American states, excluding Canada, which are on the programme for discussion at the conference. Explaining its aims, he said that the interest of this country in Europe, though justifiable, ought not to be exclusive, since the United States has a great and rapidly increasing commercial interest in Latin America.

At four-year intervals in the various capitals of Latin American Republics. Until the present one, the import of which, it is said, has been considerably augmented by the Harding policy towards South American affairs, these conferences have been concerned with commercial, social and legal questions without venturing upon the more difficult ground of politics.

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old remedy is easily and cheaply prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous old home-made remedy. Anyone who has coughed all day and all night, will say that the immediate relief given is almost like magic. It takes but a moment to prepare and really there is nothing better for coughs.

Into a 16-oz. bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

March 15, as after that date the railways will have to proceed with the preparation of their summer time tables and in the absence of definite advice that daylight saving time will be adopted, the companies will be compelled to proceed with the scheduling of their summer trains on the assumption that daylight saving time will not be adopted.

SEES "GREAT-LAKES-TO-SEA" ROUTE INEVITABLE

Senator Lenroot Tells Cleveland Folk It Will Come Within Decade.

Cleveland, March 10.—Senator Lenroot of Wisconsin, speaking at a chamber of commerce luncheon said that the Great Lakes water route to the sea project cannot be stopped by the selfish interests of Buffalo and New York city, and that within 10 years he expected to see the flags of every nation flying at the mastsheads of ships in Cleveland's harbor.

"Canada and this nation will soon agree to begin the construction of this great project and it will take only seven years to complete it, making ocean ports of every city on the Great Lakes," he declared.

The Wisconsin senator explained how the waterway would reduce transportation costs and make the Great Lakes the gateway for exports from the middle West to Europe.

# BIG GANG OF U.S. COUNTERFEITERS ROUNDED UP

## Two Secret Service Men Worked With Band for Months

### Leaders Apprehended—Plot to Distribute \$1,000,000 Worth of Bogus Notes is Frustrated—Principals Amazed at Arrest.

New York, March 10.—The courage and skill at disguise of two secret service agents, who lived and worked so closely associated with a band of alleged counterfeiters for several months, until they brought about the arrest of 27 prisoners—two of the latter being themselves—was disclosed in the arraignment of two supposed leaders of the counterfeit ring before United States Commissioner Hitchcock.

The two secret service men were Gabrielle Difiore and George H. Harris, but the gang did not know them by these names. They thought they were Salvatore Angelo and Thomas

# She Received Great Benefit From Them

That's Why Nova Scotian Lady Recommends Dodd's Kidney Pills.

Mrs. Leo Gaudett Found Relief and Tells All Sufferers to Use Dodd's Kidney Pills. Sault Ste. Marie, N. S., March 9.—(Special).—The value of Dodd's Kidney Pills as a household remedy is shown by the following statement of Mrs. Leo Gaudett, a well known resident here.

"I suffered with kidney trouble," Mrs. Gaudett states, "I took Dodd's Kidney Pills and have received great benefit from them. I think they are very good."

What Mrs. Gaudett states is all that has ever been claimed for Dodd's Kidney Pills—that they are good for sick kidneys. The road to good health lies through the kidneys. If they are kept strong and well, all the impurities are strained out of the blood. If they are weak and out of order the impurities stay in the blood and disease is the result. Dodd's Kidney Pills keep the kidneys in good condition to do their work of cleansing and purifying the blood.

Ask your neighbors if Dodd's Kidney Pills do not make sound, healthy kidneys.

Jackson, good men, too, and ready to take a chance, whatever it might be. On the records of the Tombs appear the names Angelo and Jackson, because the two Government agents spent two weeks as prisoners there with the other 25 taken after a raid on the restaurant of John Derosa, No. 865 Broome street. Incidentally the counterfeiting plot, according to Government officials, was for the purpose of distributing not less than \$1,000,000 worth of spurious notes. The raid on Derosa's place yielded \$100,000 in counterfeit bills.

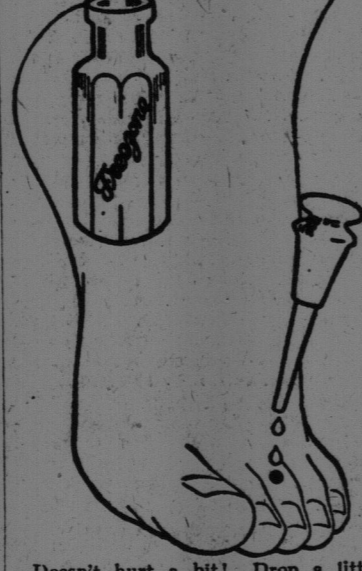

The prisoners arraigned were Enrico Shettino, of No. 373 Broome street, and

But they were by no means idle while in the prison. They had opportunities for conversations with their fellow-prisoners and kept the Government informed of all they learned. It was believed that all needed information was in their hands today, so tonight, while 25 of the alleged counterfeiters were asleep in their cells, Difiore and Harris were released and sneaked out of the building.

They had made arrangements with other secret service operatives to meet them and, when this was accomplished, the party went to No. 37 Broome street. They spent as Italian bankers from Pittsburgh and said they wanted to buy \$100,000 worth of counterfeit money. They agreed to pay \$35,000 for it. And when all the negotiations had been made, the agents declared their identity and arrested Shettino and Esposito.

# CORNS Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Frezone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly! Your druggist sells a tiny bottle of "Frezone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the calluses, without soreness or irritation.

Salvatore Esposito, of No. 120 Mulberry street. They were highly indignant at their predicament, protested innocence and were held in \$10,000 and \$3,000 bail respectively.

When the 25 prisoners were gathered in by treasury agents, Difiore and Harris informed them that the real ring-leaders of the plot had managed to evade arrest, and that the case was incomplete without their apprehension. So the two agents were taken off to the Tombs with their companions and locked up.

# CANADIAN NOVEL GAINS IN FAVOR

Toronto Publisher Optimistic Over Future

Periodicals Stand on Less Secure Ground, Chief Difficulty Being American Competition.

(Montreal Gazette)

Even if it has not quite arrived, the Canadian novel is coming—soon. The Canadian periodical? The people who know most about the matter shrug their shoulders and look sympathetic. The general sentiment regarding the Canadian weekly or monthly magazine might be summed up as, "Let Parliaments be damned, but still demand what gives them the best value for their money."

But the Canadian novel is another matter. A tour of the city's leading libraries and bookshops reveals the fact that the Canadian novel, when it does serve attention, gets it. The day is gone when all that a clerk had to say when asked to make a sale was "This book is by a Canadian author." The old prejudice, which used to remind those concerned of the saying, "A prophet hath no honor in his own country," has died out and is not due to be revived. It is claimed that for this the Canadian Authors' Association, with their Canadian Book Week, can take into themselves the credit.

Chas. J. Musson, head of the Musson Book Company, Toronto, called by some "the all-Canadian publisher," is unqualifiedly optimistic over the future of the Canadian novel.

# A Bad Case Eczema All Over His Body—His Legs—His Arms Covered

John Clark of Passaic, N. J. writes: "I was tormented beyond words. I could not sleep. You could not put a pin on my body. I tried many doctors. They said it was eczema. Three doctors have come back. I had a sore for five months."

Each week we are selecting a letter from some Canadian sufferer to show what can be done in his burning skin disease by the use of D. D. D. for weeks before you receive results. If you don't get relief from the very first bottle we hand you money back. Also a bottle for D. D. D. Soap, too.

FREE Trial bottle will be sent for the name and address to cover postage, etc. Write to THE MARVEL CO., 439 St. Paul Street West, Montreal.

# EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Lustre With Sage Tea and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, thought at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

# SULPHUR CLEARS ROUGH, RED SKIN

Face, Neck and Arms Easily Made Smooth, Says Specialist.

Any breaking out of the skin, every fiery, itching eczema, can be quickly overcome by applying a little Mentho-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation begins at once to soothe irritated skin and heal eruptions such as rash, pimples and ring worm.

It seldom fails to remove the torment and discomfort, and you do not have to wait for relief from embarrassment. Improvement quickly shows. Sufferers from skin trouble should obtain a small jar of Rowley Mentho-Sulphur from any good drugist and use it like cold cream.

publishing them for twenty-five years, but only during the last two or three years has there been a paying market.

# EVERY WOMAN SHOULD POSSESS THE MARVEL DOUCHE

For sanitary reasons should possess the Marvel Douche. Recommended by physicians. Cleanses instantly and thoroughly. Be sure to obtain the genuine Marvel from your Druggist. Price \$4.00 each. Refuse inferior imitations. Send for name and address to cover postage, etc. Write to THE MARVEL CO., 439 St. Paul Street West, Montreal.

# Colds Are Enemies Of Healthy Lungs

A Neglected Cold Is Always Looking For Mischiefs.

It may start in the head—nothing unusual—just an ordinary cold, but that is just the cold, because you neglect it, which shows the seed of lung troubles. Prevention is far better than cure. The cold can be cured and other more serious ailments thus prevented. Anyone suffering from a cold, however slight, should take prompt measures to break it up.

You cannot do better than take Grip Fix. It has an unrivaled record of success in cases of either cold or grippe. Grip Fix does its wonderful work in a single night, and the system, takes away the fever and relieves the soreness. It is compounded of the same pure drugs which every physician prescribes, which are stated on the box. Grip Fix, however, comes in a capsule form that is ideal for home use. It can be given to children without the slightest fear of harm.

Once you have tried Grip Fix, you will keep it as a friend in need whenever you or another has a cold. Grip Fix at Watsons Drug Store, 35c a box.

Publishing Canadian novels is now good business. "People are beginning to realize we have a Canadian literature, and this is to be ascribed largely to the work done by the Canadian Authors' Association. One book we publish, Robt. J. Stead's 'The Cowpuncher,' is now in its fiftieth thousand, and Marjorie C. Pickthall's 'The Bridge' is in its third edition, which means it is running near the 15,000 mark. We have always published entirely at our own risk."

Material Aspect.

The fault of Canadian novelists is that they are too apt to consider the market, they are too much concerned with the material side of the game, according to Mr. Musson. A book typical of the Canadian city has yet to be written, although the Canadian town has been truly pictured, he thinks. Some how, though, it seemed as if the Canadian author had to go away to get "color," somewhere where he could experience the stimulus of the unfamiliar.

Mr. Musson is a warm admirer of the poetry of Bliss Carman and Archibald Lampman. He spoke of several novels in the making, which will be put on the market in the coming summer or fall. Among these is one by Basil King, another by Arthur Henning entitled "Spirit Lake," and Marjorie C. Pickthall's last collection of short stories, which will be so fittingly entitled "Angel's Shoes."

One novel which seems destined to attract wide attention, Mr. Musson said, is "The Bond Triumphant," by Gordon Hill Graeme. This is the novel that won the \$2,500 prize offering by Hec'hall & Stoughton in conjunction with Maclean's Magazine for the best all-Canadian novel. The book, which is a romance of the days of Old Quebec, was selected by the judges as the

# STANLEY, OUT OF ICE PACK, IN PORT

Louisburg, N. S., March 10.—The Government ice-breaker Stanley, arrived here last evening from St. Pierre after a fight since Wednesday morning with great close packed ice fields.

There is no immediate prospect of book prices being lessened, Mr. Musson said, since labor costs are still up. But much paper is now being used. In the experience of one of the leading booksellers of the city, a Canadian book, L. Adam Beck's "The Key of Dreams," is one of the best sellers at the present time. Canadian books, if they were worthy, stood an equal chance with other books, according to this dealer, who mentioned the Canadian Authors' Association as being largely responsible for the elimination of the prejudice against Canadian books which once existed.

"The Canadian novel" will sell if it has merit," another dealer declared, adding that he carried a full stock of Canadian fiction. In common with the expressed opinions of others however, he had not much to say in favor of the Canadian periodical.

A third bookseller, who specializes in the lighter type of fiction, was not so encouraging. "We go light on Canadian novels, believe me," he said. He found the biggest demand was for the popular American novel.

Opinions gathered from the leading libraries of the city were almost unanimous, that the Canadian novel, when it had merit was quite popular and held its own with its American or English rival. The Canadian magazine, however, was undoubtedly out of the running; it could not compete with English and particularly American periodicals.

All those whose opinions were asked agreed on this point, that the root of the difficulty insofar as Canadian publications, whether magazines or novels, are concerned, is chiefly economic.

THIS COAL 85 PER CENT ROCK; 2 CARLOADS SEIZED

Haverhill, March 10.—Temporary seizure of two carloads of coal because it contained 85 per cent. of substance other than coal is announced by Edward M. Putnam, sealer of weights and measures. The coal was consigned to a local dealer and was on the tracks of the Boston & Maine railroad.

Sealer Putnam took samples of the coal to Boston and showed them to the Attorney-General. These samples, he said, showed that they contained from 75 to 85 per cent. rocks or some other foreign substance.

Mr. Putnam said that he could not prevent the cars of coal from being unloaded, but that if the coal should be sold he could summon the dealer into court.

Guard Against "Flu" With Musterole  
Influenza, Grippe and Pneumonia usually start with a cold. The moment you get those warning aches, get busy with good old Musterole. Musterole is a counter-irritant that relieves congestion (which is what a cold really is) and stimulates circulation. It has all the good qualities of the old-fashioned mustard plaster without the blister. Just rub it on with your finger-tips. First you will feel a warm tingle as the healing ointment penetrates the pores, then a soothing, cooling sensation and quick relief. Have Musterole handy for emergency use. It may prevent serious illness. The Musterole Co., of Canada, Ltd., Montreal.

# Our Maritime Oil Industry

TO THE PEOPLE OF THE MARITIME PROVINCES:

Do you realize that we are at the dawn of a new industry? Whilst this great industrial movement is world-wide, yet we have right in our midst here in the Maritime Provinces, the beginning of the establishment of a great oil industry upon a sound commercial basis. Right at our door we have large shale oil deposits rich in oil. The known quantity of oil actually existing in these deposits situated in the Maritime Provinces runs into millions of barrels. The Hartman Process Company is here with its programme and its machinery which will unlock this wealth and which will mean industrial progress and prosperity to the Maritime Provinces.

For a number of months we have been carrying out an educational policy in order to let the people know the value of the shale oil deposits of Eastern Canada, and to show how other Countries are progressing in these matters and that Canada should not lag behind with such opportunities right at our hand. We have conducted our campaign upon conservative lines, placing before the people different Government reports as to the value of our shale oil deposits and as to the history of this industry. We have placed literature of all kinds and descriptions in Public Libraries and other distributing centres regarding this industry and shall at all times endeavor to give you the fullest information.

**A Purely Canadian Enterprise.**  
The sole Hartman rights for the manufacturing sale of the Hartman Retorts here are vested in and are owned by Newcombe & Winchester. We are interested as citizens in having this industry conducted upon sound business principles as a purely Canadian enterprise. The machinery will be manufactured here and all profits arising from the manufacture and sale of this machinery will be kept here as the property of the Canadian Company. The Legal details regarding the organization of this Company are in the hands of our Solicitors, Messrs. Powell and Mesereau, Royal Bank Bldg., St. John. This Company will operate as a subsidiary to the Parent Hartman Process Company. The oil producer will pay a royalty upon every barrel of oil produced. A portion of this royalty will be paid to the Parent Hartman Process Company and a portion of it will be retained by the Canadian Company. We are offering an unequalled opportunity to the Canadian inventor so that he may participate not only in the earnings of the Parent Hartman Process Company which will be drawn from all parts of the world where the industry is established, but also directly to participate in the earnings of the Canadian Company.

**High Quality New Brunswick Shale Oil.**  
The oil produced from our shale contains virtually every component of well petroleum and is refined by the same processes. A barrel (42 gallons) of shale oil produced from one ton of New Brunswick oil shale will by a proper cracking process produce 28 gallons of gasoline.

**Fertilizer.**  
Great fertilizer values are locked up in our shales. The substantial amount of ammonium-sulphate recovered means great assistance to agriculture.

**Gas.**  
Hartman Process machinery operating upon New Brunswick oil shale will produce 3,000 ft. gas per ton. The heat necessary to operate the Hartman Retort is produced through the burning of the hydro-carbon coke in the spent shale which is immediately taken to the fire-box by conveyers. With this portion of the gas is also utilized as fuel. There is left approximately 3,000 feet of gas per ton of shale which will be released to the market for the usual light and power purposes.

The B. T. U. of N. B. shale gas is over 1,200 whereas manufactured water gas is approximately 600.

The Hartman Process Company is bringing business and capital to the Maritime Provinces. As already announced in the press, prominent shale oil companies in United States which have ordered Hartman machinery are making their plans to come to New Brunswick on account of the superiority of the New Brunswick oil shale deposits both in regard to the quantity and quality of the oil. The Ohio Shale Oil Company is one of the companies mentioned in this connection. They are changing their name to be known as the Canadian-United States Shale Oil Co.

**Why Not Sooner?**  
The first question you will ask is "why not have these tremendous deposits of shale been commercialized before?" There are two answers. First, that until recently oil wells were able to supply all the petroleum needed. The second and chief reason is, that until the invention of the Hartman Process no Retort has proven commercially practicable in handling any and all character of shales.

**Oil Shortage.**  
Governments as well as private enterprise are realizing and are frankly stating today that we must now turn to the oil shales to maintain our oil supplies. Gasoline and oil are the most vital necessities of civilization today, but the production is not keeping up with the demand. In the past few years the world has seen the advances of the internal combustion motor which has developed the stupendous increase of automobiles, trucks, tractors, boats and aeroplanes and their use is constantly growing. Gasoline, fuel oil and lubricants are today the very life-blood of industrial existence today.

Some of the chief features about the Hartman Retort are: 1, Simplicity of design and construction, no mechanical details to cause trouble or get out of gear; 2, continuous in operation, running day and night, manufacturing its own fuel; 3, large throughput. There are eight Hartman Retorts varying in capacity from 50 tons to 1,000 daily through-put; 4, it extracts all the oil and the whole machinery is constructed to produce a superior quality of oil; 5, low per ton cost of operation. According to the figures compiled by the Texas-Louisiana division of the Mid-Continent Oil and Gas Association it is costing \$1.36 to produce a barrel of well-oil. Hartman machinery operating upon New Brunswick oil shale will produce a high grade oil at a cost at least one-half of this figure. 6, Low cost of maintenance. The Hartman Retort when once started in operation requires very little attention thus saving much in wages, repairs, etc.

one. The Mayor insists that as between amateur and professional organizations seeking the use of the park, the preference shall go to the amateurs.

Amateur sports of both winter and summer are strongly developed in Ottawa. There are a number of splendid hockey and baseball clubs and both games have a large following of spectators. The amateurs play for the love of the game; for the sake of sport. The professionals may not love the game less, but with them it is a business; the incentive is profit.

Professional sport is not to be discouraged. It has its place. But a professional baseball organization is a commercial organization and so is not entitled to community assistance to the same extent as amateur clubs. It should expect to pay its way.

The amateur baseball clubs are to have first call on Lansdowne Park. That is as it should be.

Cambridge Wins Archer Trophy. Finishing three points ahead of the opponents the Cambridge Curling Club defeated Bathurst last evening and still retain the Archer Trophy. The match was played at Cambridge.

Big River, Sask., March 10.—Frank Schoelges, driving Vermer, Johnson's team, won the Saskatchewan Dog Derby here when he finished the second lap of the 150 mile course Thursday night, covering the total distance in twenty-four hours and thirty-four minutes.

Oxford Boxers Win. Oxford, March 10.—Oxford beat Cambridge in the inter-varsity boxing contests last night, four events to three. E. H. F. Egan, of New College, Oxford, won both the heavyweight and light heavyweight contests.

Saskatoon Defeats Cutler. New York, March 10.—George Castilla, Italian heavyweight wrestler, downed Charlie Cutler, of Chicago, in five minutes and 30 seconds in the main bout at the 1st Regiment Armory last night.

BASKETBALL. Normal School Wins. The Provincial Normal School basketball team defeated Rothery College at Rothery yesterday by a score of 29-22. The winning point necessitated overtime play. The Normal School will play St. John High on the Y. M. C. A. floor this afternoon.

SCHAEFER BALKS AND MATCH MAY BE CANCELLED

Challenger Says if Levis is Named He Will Not Play—Another Meeting.

streets, and other leading druggists. New York, March 10.—If Levis is selected as referee there will be no match. Thus did Young Jake Schaefer bring to an end a three-hour discussion, the purpose of which was to name a referee for the Hoppe-Schaefer match for the world's 18.2 ballline billiard championship which will be played at the Hotel Pennsylvania on March 12, 13 and 14.

A long list of professional and amateur billiardists was submitted, but only a few met with approval. Wire Office to Morningstar.

Hope and Schaefer both agreed to Morningstar. Mr. Miller immediately sent a message to Morningstar, but the latter's acceptance is considered doubtful, due to the distance he must travel and the lateness of the offer. The next choice seemed to be Harry Cline. Hoppe expressed no opposition, while Schaefer appeared willing to agree.

Peterson and Cutler have refereed many big matches and both have proved that they are capable and competent officials. They are eliminated for the present, however, for Cutler is working with Schaefer and Peterson is helping to get Hoppe in shape for the championship match.

Schaefer made it known at one time during the afternoon that he would have no objection to Peterson, but when Hoppe stated he would not care to have Cutler officiate Peterson's name was temporarily stricken from the list.

Aside from the fact that Schaefer objects to Levis for personal reasons, he also has been credited with saying that Levis, who is an amateur, is not the man to referee such an important match. He said he never agreed to the Levis selection and that when Levis was appointed he never was notified. Hoppe was very disappointed when he learned last Friday that Schaefer intended to protest Levis.

The champion refused to make any comment at the time and even recently he said he had no objections to Levis and would like to see him referee. Question Must Be Settled Soon.

"Schaefer has personal grievances among his reasons for making the protest," said Peterson last night. "It is certain that there will be no match if the promoters insist on Levis. Schaefer is determined to have someone to say about the selection of the referee. He is equally determined that Levis shall not be the man. However, the question must be settled soon."

"As far as the referee goes, we all like to see a capable man in there," said Hoppe. "But I think that the Schaefer protest came just a little late. He had at least three weeks to declare himself, but instead he waited until almost the last minute. I don't know the purpose of the delay, but I refuse to let it interfere with my play for after all it will be the one who makes 1,500 points first that wins, and the referee will not have a cue in hand."

According to the rules governing the match, the Brunswick-Balke-Clendenen Company is entitled to the final say in the selection of the referee. But thus far the officials of the company hope to have the players come to some agreement before they take any definite stand.

HOPPE MAKES GRAND AVERAGE OF 108 FOR 2,600 POINTS New York, March 10.—One of the best grand averages ever compiled by a billiard player was turned in during the past week by Willie Hoppe while tuning up for the world's championship match against Jake Schaefer.

He led at least three weeks in the Pennsylvania on March 12, 13 and 14. He made 2,600 points in 24 innings for a grand average of 108-24 in seven games. The figures follow: Innings Runs Avs. 800 1 300 300 300 2 207 150 400 4 204 100 400 4 179 80 400 5 234 80 400 3 314 133 1-3 2,600 24 ..... 108 1-3

ROOKIE WHO WOULDN'T PRACTICE JOINS CAMP AT SAN ANTONIO San Antonio, Texas, March 10.—Joe Dillard, the rookie who wouldn't play in the 18.2 ballline billiard match, jumped into the arena overnight, has left the Giants flat and pulled out for home and friends at Bartlett, Texas. Joe is the last who refused to come out and practice with the other Giants. He was conered and informed of a ten-day suspension. Whereupon Joseph said that he would go back to Bartlett. Whether he will return is a moot question. "I don't know what Paw will say when he sees me back home," said Joe as he climbed aboard the train, "but I swear I just don't want to play baseball." Dillard still has the \$1,000 bonus for signing with the Giants. If he doesn't report again he will be placed on the ineligible roll.

EARL SMITH SIGNS. San Antonio, Texas, March 10.—The Giants nursed aching muscles on the soft leather settees of their palatial hotel yesterday, it being one of those infrequent holidays that come in the life of a ball player once the training season has started. The more divot among the athletes went to church in the morning, and practically the entire delegation turned out for a real Texas rodeo on the outskirts of San Antonio in the afternoon.

While the rodeo affair was in progress Earl Smith, the catcher, blew in from Hot Springs without creating a ripple. There was nobody waiting to greet Earl, and the silent one felt slightly aggrieved over this fact. Later he told newspaper men that he had signed his contract and will jump into a uniform tomorrow morning.

Smith's arrival leaves only George Kelly unaccounted for, aside from the four who are holding out. Kelly received permission to tarry a few days in California, and nobody is worrying about him, for he is in fairly good
