## JAPAN'S "HEAVEN SENT OPPORTUNITY"

### Count Okuma Says She Should Afford Protection to "Oppressed" Millions in India—Showing the Cloven Hoof.

Pekin, Nov. 18.—The speech delivered at Kobe by Count Okuma, who was at the time head of the Pro-Asiatic party in Japan, in which he declared that Japan would surely disappoint the people of India, as well as ignore the opportunities given by heaven if she failed to afford protection to the millions of India now being oppressed by Europe, has caused great excitement among the British newspapers published in Northern China.

In this section of the empire the Japan expansion movement is interfering greatly with British interests, and

there is open warfare between Japanese and British merchants.

Since last May Englishmen have been leaders in the anti-Japanese campaign in Peking and Tien Tsin.

The Times, which is the principal British organ in Northern China, gives expression to the "deep-seated and smouldering wrath" of Britons in the Far East and accepts Count Okuma's words as a national expression.

"They reveal," this paper declares, "the cloven hoof and attitude of a pre-arranged and ill-mannered baby among the civilized nations, toward a country the support of which gave her her present position in the world."

### JAPANESE INFUX.

Numbers Going Into United States Show Steady Increase.

Washington, Nov. 18.—While immigration to America from all countries showed during the month of October a considerable increase, being 29 per cent. greater than in October, 1906, and 12 per cent. greater in October, 1906, the increase in immigration from Japan was greater than has been shown in any month in the history of the immigration service.

The restrictive regulations operating against the Japanese and Koreans have been in force about seven months, but notwithstanding this the immigration of Japanese constantly has increased during that period.

The official figures show that during October, 1906, before the restrictive measures were thought of, the number of Japanese who arrived in this country was 684. During October of this year the number of Japanese arriving in America, not counting scores who were smuggled across Canadian and Mexican borders, was 1,616, an increase of about 250 per cent.

While the increase in Japanese immigration is not particularly alarming in the minds of officials of the government because the percentage of Japanese immigrants is not large, it has been sufficient to create comment. No statement concerning the matter, however, can be obtained from any responsible official of the department of commerce and labor.

### AGED MINISTER DEAD.

Ottawa, Nov. 18.—Rev. George Sutherland D. D., aged 75 years, 55 years Presbyterian minister at Piquette, Ont., but who retired five years ago, died here yesterday.

## REPORTED ROUT OF MOORISH PRETENDER

### Mogador Said to Have Been Wrested From Mulai Hafid—Desperate Fight.

Fangier, Nov. 18.—Sultan Abdul Aziz's troops are reported to have wrested the city of Mogador from Mulai Hafid, the Moorish pretender, after a desperate fight.

Mulai's men, it is said, are in full flight southward, leaving an immense amount of booty to the victors. Concerning losses, there are no reports further than that many were killed and wounded on both sides.

Paris, Nov. 18.—A correspondent in Morocco, of the Matin, has secured an interview with Mulai Hafid, the Sultan of the South, who declared he was about to march against his brother, Abdul Aziz, the Sultan of Morocco. Hafid said he hoped France would not assist his brother, as otherwise he would be forced to fight her, too, and in this event all of Morocco would arise in a holy war.

"God will be our leader," he said, "and neither I nor any other Mussulman will be able to control this movement."

### SANTOS DUMONT FAILS.

Paris, Nov. 18.—M. Santos Dumont made an unsuccessful attempt to win the Archon prize of \$10,000 for the first aeroplane to complete a circle across Paris in the air. He made use of his new but untried machine.

He succeeded only in making several short flights, and it was plain that the motor was not powerful enough to drive the aeroplane.

Hamburg, Nov. 18.—United States Secretary of War Taft has engaged passage for a steamer President Grant, sailing from here on Saturday, December 7th.

### PLAN TO MOVE WHEAT.

Portland, Ore., Nov. 18.—To move 48,000,000 bushels of northwestern wheat, a special meeting of the bankers of Portland and R. Balfour, of London, of the firm of Balfour, Guthrie & Co., is being held here to-day. On Saturday Balfour was in conference with the different bankers and as a result the joint meeting was planned.

It is stated that Balfour advocates the direct shipment of gold from London to the Pacific coast as a measure of relief.

### PRICE OF REFUSAL.

Man and Wife Deny Italians Lodgings and Are Attacked.

Ottawa, Nov. 18.—Frank Corell, an Italian, living on Poplar street, was probably fatally stabbed and his wife seriously injured by three Italians last night. The men were refused lodgings and immediately set upon the couple.

### RAILWAY VICTIM.

Niagara Falls, Ont., Nov. 18.—James Killian, employed on a convent farm at Fallview, was killed on the M. C. R. tracks near Bender avenue yesterday. He was about 30 years old, and came here from Ireland.

## PLAN TO ATTRACT HOARDED MONEY

## PANAMA BONDS AND CERTIFICATES ISSUED

### Gigantic Efforts to Relieve Currency Scarcity and Banish Premiums on Cash.

New York, Nov. 18.—Bankers, capitalists and financiers here generally approve the action of Secretary Cortelyou in issuing the \$50,000,000 of Panama bonds and \$100,000,000 of certificates of indebtedness for the relief of the financial stringency. The issue, it is the general opinion, will be found to have beneficial results. The issue of temporary receipts, it is expected, will immediately relieve the currency scarcity and banish the premium on cash.

The putting out of this government security in small denominations is a good move, it is believed, as it will attract from its hiding places much of the currency which has been taken out of circulation by timid bank depositors.

One suggestion as to the excessive use to which new issues may be put was made by an international banker. He expressed the opinion that a large proportion of the new bonds would find their way to France, and in exchange America would get some of the millions of French gold which the Bank of Commerce has already expressed its willingness to allow to flow toward these shores, provided it had some sort of government guarantee of its security.

Effect in London. The official announcement from Washington that treasury certificates to the amount of \$100,000,000, bearing interest at three per cent. and Pan-American bonds amounting to \$50,000,000 would be issued immediately in order to relieve the financial stringency in the United States, had an immediate effect on the markets here to-day.

Prices promptly moved upward, the financiers and members of the stock exchange believing that Secretary of the Treasury Cortelyou's action was bound to, in a great measure, remove the strain in the money market. It was thought probable that it would stop the drain of gold from this market and obviate the necessity for a further increase in the Bank of England's rate of discount. Consols which had been adversely affected by the outflow of gold jumped up half a point above Saturday's closing price to 92½, and other British securities rose in sympathy.

Americans started one to three points above Saturday's closing prices and changed hands in the forenoon at advancing prices. Some of the improvements subsequently disappeared, but at noon they stood firm on one to three points above parity.

### IMPORTING IRISH BUTTER.

Toronto, Nov. 18.—Owing to the high prices asked by retailers for butter, Irish butter is being imported, and the first consignment is expected this week. It will be laid down here at a cost of about 25 cents per pound.

## SPEEDING ACROSS ATLANTIC OCEAN

### Cunarder Mauretania Maintaining an Average of 25 5-8 Knots an Hour.

Queenstown, Nov. 18.—The Cunarder line steamer Mauretania, which left Queenstown at 11 o'clock yesterday morning on her maiden voyage to New York, was 300 miles west of Bro Head at 2 o'clock this morning.

The distance from Queenstown to Bro Head is 70 miles, and, therefore, the Mauretania at 2 o'clock this morning, had covered 230 miles since leaving Queenstown at 11 o'clock yesterday morning, an average of about 24½ knots.

At Pagasse, in Thessaly, 190 tombstones of the second and third centuries B. C. have been discovered. The stones are ornamented with colored designs, the colors being marvelously preserved.

## MUST APPEAL TO COMMISSION

### E. & N. WILL GO ON WITH APPLICATION

### R. Marpole Says If City Makes Satisfactory Terms Work Will Begin at Terminals.

(From Monday's Daily.)

R. Marpole, general executive assistant of the E. & N., and W. D. Salubry, secretary of the E. & N., are in the city to-day. Mr. Marpole says that his company is taking the initial steps toward making application for an appeal to the railway commission with respect to the Store street extension. This, he says, will be necessary in any event. Before work can be undertaken on a street the permission of the commission must be obtained.

As the question of the agreement between the city council and the E. & N. is likely to come up again to-night on Ald. Hanna's initiative. Mr. Marpole was asked what his company would do in the event of the council reversing its former decision and granting the right to the E. & N. to construct along Store street, omitting the restriction contained in section 23 of the agreement. Mr. Marpole said that his company would still have to go on with the application to the railway commission, but if the council amended the agreement to suit the views of the railway company work would begin at once on the terminals on its old Aldon Iron Works site.

Until a satisfactory agreement was reached his company was not prepared to make any move on the terminal site.

## EVENT UNIQUE IN HISTORY

### FAREWELL LUNCHEON TO EMPEROR WILLIAM

### His Visit to England May Remove Estrangement Between Germany and Britain.

London, Nov. 18.—The official visit of Emperor William and the Empress to King Edward and Queen Alexandra was concluded to-day, when they both left Windsor, the Empress proceeding to Holland, while she will visit Queen Wilhelmina, and the Emperor going to High Cliff Castle, where he will spend several weeks in recuperation.

Assembled Royalty. Windsor, Nov. 18.—To-day will be remembered long in Windsor as an occasion of an event probably unique in history. At Windsor Castle a luncheon was served in the state dining room to a party consisting of three kings, five queens and sixteen princes and princesses.

The royal guests were the King and Queen of England, the Emperor and Empress of Germany, the King and Queen of Spain, the Queen of Portugal and the Queen of Norway.

Several interesting photographs of the group of monarchs and then of the entire party were taken. The royal borough was unusually alive with the crowds of sightseers watching the arrival of the royal guests and the other incidents connected with such an unusual gathering.

Germany's Isolation. Berlin, Nov. 18.—The ten years of estrangement between Germany and Great Britain appear to-day to be coming to an end and the conviction is held in government offices in Berlin that the present journey of the Emperor to Britain, taking into account the events which led up to it, is likely to have an enduring value.

The courtesies which are now being extended to Emperor William in England were preceded, it is reported here, by the decision on the part of King Edward to discontinue his personal policy of endeavoring to isolate Germany. The King came to this conclusion in July. After the international conference at Algeiras had completed its business, the policy of Germany's isolation was looked upon by Sir Henry Campbell-Bannerman, the British premier, and Sir Edward Grey, the British foreign secretary, as unprofitable for Britain, and incompatible with her aim of peace throughout the world.

Furthermore, there was a feeling of uneasiness among members of the British cabinet as to whether or not King Edward's informal political suggestions to the British ambassadors granted audiences by his Majesty were strictly

in accord with constitutional practices. The Emperor has said privately now and then to members of his household that he would visit England if he was invited, and King Edward, with the approval of the British government, sent the invitation in June to the British ambassador to Germany, who has sought for some months to bring about the present visit.

The German comment on the courtesies being extended to the Emperor by King Edward is distinctly appreciative, and indeed shows a great deal of good will. Many articles are being published in the newspapers on how much Germany and Great Britain need one another, and Dr. Adolph Von Floeckher, formerly secretary of the German legation in Mexico City and now a keen observer of and writer on international affairs, discussing the visit in Die Grenzboten, developed the idea that the United States, Germany and Great Britain, belonging to the German protestant persuasion, should draw closer together and follow in common the same general international aims.

Germany, the writer insists, should have no understanding or agreement with Great Britain of which the United States is not informed, and in which the United States is not invited to participate. This provision, Dr. Von Floeckher urges, should be insisted upon by Germany preliminary to making any such agreement, especially in view of the existing situation between the United States and Japan.

## NEW COUNTRY PROMISES WELL

### G. T. P. WILL OPEN UP RICH DISTRICT

### Visitor Says There is Good Lumber Resources and Mineral Wealth.

(From Monday's Daily.)

S. J. Henderson, well known as a prospector in the Kootenays, is registered at the Dominion hotel.

Mr. Henderson has recently spent several months in the Caribou country, having explored considerable of the territory which is tributary to the influence of the new transcontinental railway. In company with two other prospectors he left Revelstoke early in March last and reached the Fraser river after a month's cruise through the mountains. Considerable of the distance, about 225 miles, was made by canoe, on the Columbia, Canoe and Fraser. But there was a great deal of hard traveling to be done, their supplies being hauled with toboggans over the snow. The purpose of the journey was to look over the country and see what inducements it had to offer to settlement.

Along the south fork of the Fraser Mr. Henderson says they passed through some very fine valleys, which give promise of harboring some prosperous settlements when the railway is built through. And there is every prospect that railway construction will not be much in advance of the invasion of the people. Quite a number of land-seekers were met by the Henderson party during their explorations in the country. Mr. Henderson says that there are an appreciable settlement until the Grand Trunk Pacific is constructed. He says there is an abundance of good timber in the country, and that it has no doubt great mineral possessions to reward the prospector for generations to come.

In the neighborhood of Barkerville mining operations have been going on with encouraging promise during the past season. On a gulch opening into Williams creek, near the settlement, a company has been engaged hydraulic mining, and it is said has taken out good pay. Operations on the Wild Rose just below Barkerville, have also been fairly successful, and encouraging results are credited to the Waverly company. Eight miles out of Barkerville an American company has been mining with considerable success during the past summer. There are all hydraulic propositions and that great developments may be looked for in the next few years.

### THROWN ON BEAM ENDS.

San Francisco, Nov. 18.—The French ship Alice, which has arrived from Hull, Eng., reports encountering a succession of southwest and northwest gales, continuing with terrific force for 100 days, and Sir Edward Grey, the British foreign secretary, as unprofitable for Britain, and incompatible with her aim of peace throughout the world.

## TERRIBLE CONDITIONS IN RED RUSSIA

### Government's Drastic Methods to Exterminate Revolutionists—Sanguinary Tragedies Enacted Daily.

London, Nov. 18.—Compared with to-day's conditions in Russia, the French revolution was child's play, according to information smuggled by the St. Petersburg correspondent of a London newspaper to Eydtukhnen, East Prussia, and thence telegraphed here.

The outside world, says the correspondent, knows practically nothing of the truth. So strict is the censorship even Russians are ignorant of what does not concern them personally. The government is literally attempting to exterminate the revolutionists. The latter, it must be remembered, are not the hot-heads who figure in the anti-government movements elsewhere throughout the world, but the very flower of the rising generation. Many are of noble blood, rich and highly educated. The revolutionists, on their side, are of noble blood, rich and highly educated. The revolutionists, on their side, are of noble blood, rich and highly educated.

There is official authority for the statement that 13,000 political exiles are in the northern part of Tobolsk alone. It is one of the coldest inhabited regions on earth, yet the prisoners are without sufficient clothing or food. It is certain many must starve or freeze to death this winter.

The correspondent sends with his own copy of a letter written by a convict in the central prison at Riga, which a description is given of the manner in which the cells are kept overflowing. Every day fresh batches of prisoners are brought in, and to make room for them it is necessary to get rid of the old ones," says the letter writer.

## TENOR CRUSHED BY GRAVE CHARGE

### Leon Cazauran Arrested in New York—His Career as Singer Is Blasted.

New York, Nov. 18.—Crushed and spiritless, Leon Cazauran, a young tenor who came to America two weeks ago to sing in Hammerstein's opera company, and was arrested near Monkeyhouse, Central Park, yesterday, sat all day to-day in his rooms wringing his hands. He is a delicate, intelligent looking man about 27 years old.

Mr. Hammerstein will have nothing more to do with him he says, and as a singer his career is blasted.

"Eet is amazing," he repeated over and over, and that is all the English he knows, though in French and Spanish he vehemently denies his guilt of the charges on which Detective James J. Cain arrested him, namely, that of attempting to corrupt the morals of boys.

The fact that the court did not hold him or his friend, Claude Modjeska, but discharged both, after fixing Modjeska \$10 for having in his possession a bad French photograph, does not lessen his dejection.

## PROVINCIAL FRUIT WINS MORE PRIZES

### Exhibit Being Made in Old Land Adds to the List of Awards.

(From Monday's Daily.)

As in former years British Columbia's fruit exhibited in the Old Land is carrying off prizes against all competitors. The department of agriculture has received news of additional winnings.

These include the gold medal at Sheffield, and the highest certificate of merit at Tunbridge. A gold medal has also been awarded the exhibit by the Scottish Horticultural Society.

### FRANCO-RUSSIAN ENTENTE.

Paris, Nov. 18.—The Matin announces that President Fallieres will visit the Emperor of Russia next year.

"The recently organized war courts arrange this. Through our prison windows we can see the church yards. It is another night. Lights are moving outside. A long grave is being dug. Close to the prison wall appear soldiers, officers, prison officials and last of all the victims. They are bound to stakes set to keep them from falling. The superintendent draws a sack over each head. The air is rent with the cries of the men about to die. A volley crashes. Another volley. The officers advance, and with their rifles, accomplish any work the rifle bullets left unfinished. This sanguinary tragedy has been enacted every night for a year and a half. Accusation, investigation and execution take about 24 hours."

Kiev Students Arrested. Kiev, Nov. 18.—A cordon of police and soldiers was thrown around the Kiev university yesterday while a conference of the southern social revolutionary organization was being held in the building in the guise of a student meeting.

The meeting was broken up, and every person who could not show matriculation papers was arrested. After the departure of the police and the troops, a mob of students broke into the university and demanded that the lectures be suspended as a protest against the invasion of the university precincts by the authorities.

To put an end to this disorder the buildings were surrounded by troops a second time. Two hundred students were arrested and the names of a thousand others were taken down. Cosaks occupied the streets leading to the university, and no one was allowed to pass the building.

DEATH WHILE SMILING. Murderer's Thoughts at Moment of Execution Were of His Sister.

Ossining, N. Y., Nov. 18.—John Wenzel, the murderer of George Spatti, a Brooklyn saloon keeper, went to his death in the electric chair at Sing Sing prison with a smile, just as he had promised his sister he would do.

The sister visited him in the death-house yesterday, and before her departure Wenzel said: "I will walk to the chair with a smile on my face, and the smile will be for you."

Wenzel went to the chair without the slightest show of fear, and as the straps were being adjusted he said good-bye to the warden and one of the witnesses whom he recognized. A moment later the electric current was turned on. Death was almost instantaneous.

## PARLIAMENT TO ABOLISH ANARCHY

### Octoberists in Russia Issue Manifesto—Will Carry Out Czar's Will.

St. Petersburg, Nov. 18.—The ticket of the Octoberist-Conservative coalition was successful in the subordinate elections for officers of the lower house of parliament to-day, Prince Valdimir Wolinsky being chosen first vice-president, and Prof. Baron Von Mey Indorff, receiving 133 votes on the first ballot. The Social Democrats as before refrained from voting.

The election of a Baltic German as a vice-president of the lower house of the Russian parliament is considerably commented upon. Baron Von Indorff, who is a professor of the St. Petersburg university, is a member of the Baltic constitutional party whose aims are similar to those of the Octoberists.

The text of the address of the house to the Emperor as drafted by the Octoberist committee has been approved by the Conservatives. It declares it to be the intention of parliament to carry out the Emperor's will, the Octoberist manifesto of considering this to be the Emperor's will, and expresses the hope that it finally will abolish anarchy and give the government an opportunity to make progress along the path of reform to aid in the economic development of the country and to grant further civil liberties.

MARRIED IN BOURBON STYLE PRINCIPALS BOTH OF BLOOD ROYAL

Descendants of Famous Orleans Family Wedded at Wood Norton, England.

London, Nov. 18.—A glimpse of the manners of the old French court was presented to-day at Wood Norton where Prince Charles of Bourbon was married to Princess Louise of France with great ceremony.

The civil marriage was performed by the registrar in St. Mary's Roman Catholic church at Evesham at 8:30 o'clock this morning. Half a dozen members of the royal families, including the King of Spain and other necessary witnesses were the only spectators at this early ceremony, though in spite of the attempt to keep it secret, quite a crowd of people gathered in the vicinity of the little church, and heartily cheered the princess, who is most popular.

There was a remarkable gathering last night at Wood Norton, the seat of the Duke of Orleans, of Kings and Princesses who had assembled to witness the marriage ceremony to-day of Prince Charles of Bourbon and Princess Louise of Orleans. It was a family banquet and there were no speeches or toasts, but all glasses were lifted to the host, the Duke of Orleans, and the bride and bridegroom.

It is seldom that so many princes of Europe have gathered at the same time. Twenty of the one hundred guests were of royal blood, including the King and Queen of Spain, the Queen of Portugal, the Countess of Paris, Duke and Duchess of Orleans, Count and Countess Casira, the Duchess de Guis, the Duchess of Aosta, the Infants Isabella and Eulja of Spain, the Duke and Duchess of Chartres, Duke of Montpensier and the Princess Pia and Josephine of Bourbon.

There was a brilliant gathering to witness the marriage ceremony, both principals to which trace their descent to the famous Orleans family, which at one time gave three reigning houses to Europe and held at one time the thrones of Spain and France.

TRACKED AT LAST.

Man Arrested at Cranbrook on Warrant Issued a Year Ago.

Edmonton, Nov. 18.—Word has reached the Mounted Police here that a young man named Albert McDonald, formerly in the employ of Ross MacDonald & Co., Farmers' Exchange, Strathcona, has been arrested at Cranbrook on a warrant issued a year ago by J. P. Lipton, J. P., of Strathcona. McDonald is charged with having misappropriated \$755 sent him by Mr. Ross for the purchase of apples.

WANTS PAYMENT OF FINE.

Amount Imposed on Michigan Central Railway for Dynamite Explosion Is Not Forthcoming.

Toronto, Nov. 18.—The town of Essex wants \$25,000. The fine was imposed by Mr. Justice Riddell on the Michigan Central railway for carelessness in handling a car of dynamite, the explosion of which caused loss of life and great damage to property. A deputy attorney-general from that town has written to Attorney-General Foy with the object of getting the money in view.

TRIPLE ENTENTE.

King Edward, Emperor William and President Fallieres May Meet Next Year.

Rome, Nov. 18.—It is asserted here that King Edward is successfully negotiating for a meeting between Emperor William and President Fallieres in the Mediterranean next spring, at which the King will be present.

AMERICANS MUST PAY HEAD TAX

Another Illustration of Farical Imposition on European Born People Entering States

Port Arthur, Ont., Nov. 18.—The head tax as applied by the United States on European born people entering the republic had an illustration in Port Arthur yesterday, about the time the steamer America left for Duluth.

Rev. W. Blonquist, pastor of St. Ansgarius, Swedish church of Minneapolis, who has for ten days' past been assisting Rev. Mr. Totterman, pastor of Port Arthur St. Ansgarus church, left for home. Although for 14 years a resident of the United States and a member of the Minnesota diocese and Swedish church, it was pointed out to him by the steamboat officers that before he could land he would have to pay a head tax of \$4.

Rev. Totterman, who was a resident of Duluth for four years before going to live at Minneapolis, said that three weeks ago he had occasion to visit Duluth and had to submit to a payment of a \$4 head tax.

SKATING FATALITY.

Winnipeg, Nov. 18.—Geo. Marcroft, 18 years of age, who has been working in a general store here for some time, was drowned last night while skating.

CONDEMNNS THANKSGIVING DAY.

Ottawa Pastor Makes Ruthless Comments on Its Non-Observance.

Ottawa, Nov. 18.—The propriety of having a national thanksgiving day and its observance by the Anglican churches was discussed at length at the annual Assembly conference at Ottawa yesterday. It was provoked by an address by Rev. Muddleston, who said he would have the whole institution of national thanksgiving swept away, as it served but to show unthankfulness of people, as a whole, by their not going to church and thanking God for his mercies. If thanksgiving day could not be observed better than it was being observed it should be dropped as an unholy thing.

The speaker also had something to say about the government writing a promulgation setting forth a day of national thanksgiving and with the same handwriting an order sanctioning the calling out of the militia to fight against the Indians, and thereby preventing many people from attending church.

OUTBREAK ON SUN'S SURFACE

METEORIC FLIGHT OF SOLAR FRAGMENT

Travels at 12,000 Miles a Minute, Shatters into Fragments, and Disappears.

Oxford, Eng., Nov. 18.—A remarkable outbreak on the sun was observed by Professor Ambau, director of the scientific observatory, at 11:45 a. m. yesterday.

A huge fragment in flames shot up at the rate of over 12,000 miles a minute until it reached a height of 325,000 miles. At 12:10 p. m. it broke into fragments and disappeared.

Sun spots and solar disturbances have been observed for some days past. It has been predicted that they would reach their greatest altitude about the middle of November and that they would probably lead to violent magnetic disturbances on the earth, including storms of the greatest violence, floods and violent earthquakes.

Professor Pickering, of Harvard observatory, said some days ago that he expected the sun spots to be attended by an earthquake, but not of sufficient gravity to cause alarm.

WEARS VICTORIA CROSS.

Sgt. Richardson Has Been Appointed Chief of Police at Indian Head.

Winnipeg, Nov. 18.—Sgt. Richardson, wearer of the Victoria cross, has resigned from the mounted police force and has become chief of police at Indian Head, Sask.

STILL PURCHASING GOLD.

London, Nov. 18.—The United States bought \$700,000,000 in gold from the Bank of England to-day, making about 2,750,000 pounds taken from this source during the week, besides 800,000 pounds purchased in the open market on November 11th.

DOWAGER EMPRESS IS A DIPLOMAT

Mediates Between the Conservative and Progressive Elements at Chinese Court.

Pekin, Nov. 18.—The struggle for supremacy between the two grand consuls, Chinese Chang Chip Tung and Yuan Chip Kay, which has been gradually increasing in intensity during the past fortnight, has demoralized official circles, and has begun to distress the government. The antagonism originated in that of Old and the Young, the Conservative and Progressive, both having the common interest of their court at heart.

The Dowager Empress, whose seventy-third birthday was celebrated yesterday, is in the position of an anxious mediator. At this time the empire is in no position to withstand the fierce onslaught of the great Chinese leaders. The Dowager Empress recommended them to Peking in the hope they would look to the safety of the dynasty and to its prestige.

PRINCE KILLED IN DUEL.

Austrian Scion of Royalty Slain to Have Died From Sword Thrust.

Vienna, Nov. 18.—The News Winner, a journal, asserts that Prince Arnulf, whose death three days ago was officially stated to have resulted from pneumonia, died from a sword wound in a duel with the Duke of Genoa, brother of ex-Queen Margherita of Italy. The duel, it is declared, was fought at Murona, near Venice.

STARTING AMERICAN FLAG.

Washington, D. C., Nov. 18.—A new star was added to the American flag to-day by the admission formally into the Union of the State of Oklahoma. President Roosevelt at 10:15 o'clock this morning signed the proclamation admitting the territories of Oklahoma and Indian jointly as one of the American states.

GIGANTIC PLAN FOR VANCOUVER ISLAND

Red Cliff Lumber Company, With Largest Holdings on Coast, Intend to Develop Immense Enterprise at Alberni.

(From Saturday's Daily.)

There are many evidences to prompt the belief that within a few years Vancouver Island is to become the great centre of the lumber trade of the North American continent. Any doubt on that point is set at rest by the policy which the principals of the Red Cliff Lumber Company of Duluth are pursuing in this part of the province.

For over eight months the representatives of that company have been quietly following out a well defined line of action with respect to the timber resources of Vancouver Island. Waldo C. Knapp, the resident manager of the concern, has hitherto been very uncommunicative with respect to his plans. Repeatedly he has been asked to give some idea of what the company was doing, but he has always turned the subject aside when waited upon by the ubiquitous reporter. Yesterday Mr. Knapp consented to give to a Times reporter a statement of some of the work in hand.

The unfolding of the plan of the Red Cliff Lumber Company on this island is one which gives the fullest assurance to the stability of business life and industry in this part of the province.

The Red Cliff Company of Duluth, the present corporation of the Red Cliff Lumber Company, incorporated under the laws of British Columbia, it is well to remember, is one perhaps of the largest white pine companies in the world, turning out in its two large mills ninety million feet of lumber a year.

Mr. Knapp says it is realized by his associates that in about seven years more the white pine forests which supply the mills will be exhausted.

With an eye to the future, his company have made investigations, and have come to the conclusion that the lumber of the future for general manufacturing is the fir of the Pacific coast.

That conclusion reached, they took the initial steps to secure large holdings and they succeeded in buying very wide tracts of E. & N. lands on the West Coast of the Island. His company incorporated under the laws of the province, and the first step was to acquire the largest holders on the West Coast, all situated in the Alberni valley and within twenty miles of tide water. The holdings represent in the neighborhood of a billion and a half of stumps.

This timber has all been acquired for speculative purposes, as so much of the mill-lands have been handled. The mill-site has already been secured from the E. & N. on the Anderson estate. The mill to be erected will have a capacity of 250,000 feet a day, representing the logging of the roads an expenditure of half a million dollars, and will give employment to about 500 men.

ACTION DISMISSED.

Wife Claimed \$20,000 From C. P. R. for Her Husband's Death.

Toronto, Nov. 18.—Chief Justice Falconbridge has dismissed the action of Annie Fanning, Carlton Place, against the C. P. R. for \$20,000 damages for the death of James Fanning, who was her only means of support. Fanning was an engineer on the C. P. R. and was killed last June by overturning his engine at a point on his track where the rails had been removed by a repair crew. The jury found that the signals had not been set out and that the death was due to negligence on Fanning's part, but Justice Falconbridge in rendering judgment stated that the jury answers were in accord with the undisputed testimony.

CHARGES AGAINST LUMBERMEN

Prosecution to Open in Edmonton Court on Monday Contains 144 Charges.

Edmonton, Nov. 18.—The trial of the alleged lumber combine will begin in the supreme court on Monday morning, the first case being against W. H. Clarke, of the Edmonton Lumber Company. There are in all twelve lumbermen, as follows: W. H. Clarke, Edmonton; P. A. Prince, Calgary; F. D. Becker, Calgary; A. M. Grogan, Calgary; F. U. Irvin, Vegreville; John MacDonald, Edmonton; A. G. Grosse, Westlock; D. G. Gourlay, Lacombe; W. M. Dean, Olds; W. Stuart, Calgary; W. Barclay, Claresholm, and J. W. McNicol, Lethbridge.

The criminal code provides in the case of individuals that a conviction exceeding \$4,000 and not less than \$200, or two years' imprisonment, for each offence, and in the case of corporations for a fine of \$10,000 and a minimum fine of \$1,000.

It has been stated by the prosecution that the charge would be pressed on one count only and against the lumbermen. This would, if a conviction is obtained in each case, result in maximum fines to a total of \$48,000.

Each defendant is charged with three counts. This would, if a conviction is obtained in each case, result in maximum fines to a total of \$48,000.

PRECOGIOUS CRIME.

Youthful Winnipeggers Reach Low in State of Depravity.

Winnipeg, Nov. 18.—The worst case of juvenile criminality to come to the attention of the police was in the police court to-day. The prisoners, H. Echeron, A. Burrows and S. Green, are three boys too small to see over the rail of the prisoners' dock, were charged with the theft of \$90 from Warrington in the post office yesterday.

The evidence given at the trial showed that these boys, although they are all under 12 years old, have gone about as far in crime as many men who are to-day serving sentences. The three have been before the court on previous occasions, being charged with theft. The boys were remanded until to-morrow.

TRAGIC OCCURRENCE ON LEVEL CROSSING

Montreal Freight Train Dashes Into Laundry Wagon—One Man Will Die.

Montreal, Que., Nov. 18.—One man fatally injured, another badly injured, and a team of horses killed, are the results of a level crossing accident which occurred in this city yesterday. A laundry wagon, while driving across the track was struck by a Grand Trunk freight train, the horses were torn to pieces, and the drivers were thrown fifty feet.

AUTHOR'S DEATH.

Paris, Nov. 18.—The Rev. D. Moncur D. Conway, a distinguished American author died here last night.

While shipments will be made by water, the company also looks to the railway facilities to handle a large share of the trade. It is, therefore, essential to the enterprise that the E. & N. line shall be extended and their initial move will depend to a large extent upon the construction of the railway. The Alberni branch is to be a very important adjunct to their milling operations, as Eastern Canada will be a great consumer of the output.

The proposed line will pass for eight miles through the lajds of the Red Cliff company.

Mr. Knapp says his company will make the fir end of the business the main one. The cedar will be an auxiliary, but the staple product of the Alberni branch is to be a very important adjunct to their milling operations, as Eastern Canada will be a great consumer of the output.

The company has in view trade with the Atlantic coast as soon as the Panama canal is completed, so that shipments may be made by that route.

With a parting admonition to the newspaperman to make it very mild if he published anything about the plans of his company, Mr. Knapp dropped the subject.

DISAPPOINTED REDSKINS.

Were Not Permitted to Celebrate Sun Dance at Carberry.

Portage La Prairie, Nov. 18.—Agent Logan was successful in preventing the Indian sun dance at Carberry. When he reached the encampment about 100 Indians and their squaws had assembled. He called for the headmen and issued instructions that the arrangements proceed no further. His authority was supported by the presence of two representatives of the law and the chief accepted his veto and promised to leave. At 9 o'clock the tents were all down, and the disappointed redskins were hiking home to Griswold, and south of the line.

SOLD SECRETS TO FOREIGN POWER

French Traitor's Action Will Lead to Reconstruction of Manual of Naval Tactics.

Paris, Nov. 18.—The Echo de Paris says this morning that M. Thomson, minister of marine, is satisfied that the confession of Ensign Ulmo, who was arrested last month at Toulon, charged with being a spy, and who claimed in his examination before the magistrate on Thursday that he had been in communication with a foreign power for the sale of official documents, but that his offer had been refused on the ground that the papers were not of sufficient value, is incomplete, and that he actually sold to a foreign power the most important documents.

Accordingly the paper says orders have been given for the reconstruction of the whole manual of naval tactics, which will contain the mobilization of secret submarine defences. The work will entail several months of labor and huge expense.

PREMIER DEAKIN IS DISSATISFIED

Likens Imperial Conference to Mountain Labor Which Brought Forth Mouse.

Melbourne, Australia, Nov. 18.—In the federal house yesterday Premier Deakin laid on the table a Colonial office despatch giving particulars of the secretariate for the Over-Sea Dominions. Mr. Deakin remarked that those familiar with the proceedings of the recent imperial conference, and who appreciated the importance of the proposals submitted by the Dominions for their status, and the document received from the Colonial office, were reminded of a mountain labor which brought forth a mouse, and added:

Let us hope its appearance will respect at a meeting to-day of the contract between their needs and the outcome of their exports while consulting them with the reflection that the mouse is creeping in the right direction.

PRINCE ALBERT RESULT.

Regina, Nov. 18.—Premier Scott will, in all probability, spend the winter months at Nassau, a health resort in Ireland. His health has not been of the best since his return to the city last June, and it is thought that he will be unable to stand the winter here until more fully recovered from his attack of pneumonia.

Owing to the premier's absence from the city it is likely that the session will have to be postponed until well into the new year, and there is a possibility that it will be called at about the same date as last year.

DEATH OF RAILROAD MAN.

O. W. Murray, of Winnipeg, Was Identified With History of C. P. R.

Winnipeg, Nov. 18.—Death struck down on Wednesday one of the historical railway men of America, when O. W. Murray died at Merrifield, Sask., as the result of an illness of pneumonia. The deceased was an old-time railroad man, having come to the western country in 1882. He ran the passenger train from Broadview to Moose Jaw on the C. P. R. and was well known to the travellers and exceedingly popular. He was a native of Lafayette, Ind., and has railroaded all over the United States. For many years he has been a member of the O. and B. of R. T. He was 49 years old.

His father, James Murray, was also a well known railway man and was superintendent of the C. P. R. west of Winnipeg for 22 years. He came west with Sir William Van Horne and John M. Egan in 1882.

MURDERESS IS AGAIN ON TRIAL

MRS. BRADLEY'S SANITY QUESTION FOR COURT

Prosecution Deposits She Intended to Kill Brown Six Months Before Tragedy.

Washington, D. C., Nov. 18.—That the defence of Mrs. Annie Bradley, on trial in criminal court No. 1 on the charge of murdering ex-Senator Brown, would be insanity was made evident yesterday by the preliminary statement made to the court by her attorney, Mr. Hoover.

The prosecution consumed the entire afternoon, concluding the examination of its witnesses in chief to prove the facts about Brown's death, and when it rested the case, Mr. Hoover followed with an outline of the case for the defence.

He related the principal events in Mrs. Bradley's life and death minutely in the cause leading up to the shooting which will go to show that she was mentally weak, and that Brown presented her with the revolver with which she killed him, telling her that she could use it upon his wife if she gave her any trouble.

According to Mr. Hoover's statement it will be also shown that there is a taint of insanity in Mrs. Bradley's family.

The testimony presented by the prosecution was all intended to show the premeditation of Mrs. Bradley in her killing Brown. It was testified that she told members of the police force in this city immediately after her arrest, that she had not acted upon any sudden impulse, and one witness from Salt Lake City testified that she told him six months before the tragedy that she intended to kill Brown, if he did not legitimize her children by marrying her.

Another witness from that city described two efforts by Mrs. Bradley to invade Brown's house, supposedly with hostile intent. Max Brown, son of the dead man, was on the stand for a few minutes yesterday. The court adjourned until next Monday.

MIGHT HAVE PROVED MONTREAL HORROR

Winnipeg Convent Catches Fire— Brigade Slow to Arrive—No Outside Escapes.

Winnipeg, Nov. 18.—The convent of the Holy Names, on Provincier street, St. Boniface, caught fire yesterday afternoon, and for a time St. Boniface thought it would have a serious fire, as there were no outside fire escapes to the building, which is three and a half stories high.

The sisters in charge, however, put it out with the hose kept in the convent placed there for the purpose. The town fire brigade arrived somewhat late, as its members had to haul the equipment by hand to the scene, and as the town authorities had requisitioned the horses usually kept for the fire brigade to work on Dawson road.

In the meanwhile Sister Superior went up to the third floor and marshaled sixty little ones, who had their class room on that floor, and took them out in the open. There was no panic of any sort.

The authorities will be asked to place outside escapes on the building, and save the reputation of another Montreal horror. The school of the convent of the Holy Names of Jesus and Mary is a public school, and under the control of the St. Boniface school board.

PREMIER SCOTT'S HEALTH.

Will Spend Winter in a Health Resort— Saskatchewan Session May Be Postponed.

Regina, Nov. 18.—Premier Scott will, in all probability, spend the winter months at Nassau, a health resort in Ireland. His health has not been of the best since his return to the city last June, and it is thought that he will be unable to stand the winter here until more fully recovered from his attack of pneumonia.

Owing to the premier's absence from the city it is likely that the session will have to be postponed until well into the new year, and there is a possibility that it will be called at about the same date as last year.

COMMENTS ON FINANCIAL STORM

SIR W. VAN HORNE VISITS WINNIPEG

C. P. R. Chairman Speaks Hopefully of the Soo-Spokane Line— His Interests in Cuba

Winnipeg, Nov. 18.—Sir Wm. Van Horne, chairman of the board of directors of the C. P. R., is in the city with H. J. Whigham, of New York, and W. K. Whigham, of London. Eng. W. C. Coppel, of Maitland, Coppel & Co., New York, is also here. Sir William mentioned he came west on his annual trip which had for many years been a regular institution. He would go to Selkirk to look at his farm. On Monday he will probably proceed west to Moose Jaw and take the Soo line as he had never yet travelled over a line west of Selkirk. He said, was now the recognized spokesman of the road and no doubt he had covered the ground, when last in Winnipeg. As far as Sir William knew there was nothing immediate in preparation. He thought the Soo-Spokane line was destined to become a great artery of the west.

Asked as to the financial stringency, he said anything he could say was only a pious opinion, and probably not worth the breath it was uttered with. One thing was clear he said, "We are in a storm, nobody knows just how it began, and just when it will pass over. The only thing to do is to lie low and wait."

His principal interests just now were his home in New Brunswick and the Cuba company, of which he is one of the principal shareholders. He is of the opinion that the development of the sugar industry of Cuba were capable of considerably increased returns and with the development of railways the sugar industry of the island, as well as the output of other natural products, it was bound to force ahead. It was only in the newspapers that the rebels rose and were crushed, and only in the newspapers that the battles were fought and won.

In July Sir William spent a little time in Cuba and made a personal examination of the development work in which he is interested. He also spent some time in the newspapers, where he is connected with the Isthmian railway which is under construction in the public.

With an ironical twinkle of the eye he said to know much less about present western conditions than his statement, however, that the depression existing in the west rested on far too sound a basis to be set back for any length of time. Farmers would probably receive a much harder cash for this year's crops as for last, he did not see anything to grumble at.

Sir William mentioned that the general business of the west was not so good as he was interested in the Soo line, and he admitted they were well known financiers, but would not say whether they contemplated operations of any kind in the west.

A rumor circulated to the effect that Sir William was anxious to sell his farm at Selkirk, one reason assigned being that he has not the same interest in his hobby since the farm got side-tracked through the Molson cutoff. He would not say anything with respect to his plans in connection with the farm.

DUKE OR DRUCE IS VITAL QUESTION

Hearing of Perjury Charge in Famous English Mystery Case Resumed

London, Nov. 18.—The hearing of the testimony was resumed yesterday in the proceedings brought by George Hollamby Druce, grandson of the late Thomas Charles Druce, against Herbert Druce, who is charged with perjury by the former in stating that he saw the body of his father, Thomas Charles Druce, lying in a coffin on December 28th, 1884, and that he believed that he had not the same in outcome of the contest for the Duke of Portland estate.

Horace Avery, for the defence, conducted his searching cross-examination of Robert C. Caldwell, of State Island, N. Y., who in his testimony got tangled in his dates. He swore he was married in Ireland in 1884, after returning from India, while Mr. Avery produced a certificate showing the ceremony occurred in 1881.

Mr. Caldwell swore that Thomas Charles Druce did not die in December, 1884, as alleged by the defendant.

OUTLAW SHOT BY CONSTABLE

MAN WANTED FOR MURDER IS KILLED

Out, After Eluding Pursuers for Some Days, Is Run to Earth.

(Special to the Times). Kamlooke, B. C., Nov. 15.—H. Stout, James Williams, the murderer of Bob Williams, the Cariboo trader, was hunted shot and instantly killed by Donald Gordon, a special constable out with one of the chief constables of Fernie's posse last night. The chase for the murderer had been hard one and he eluded his pursuers for some days, leaving no traces to track on. He had abandoned his horses and the police were of the opinion he had hidden in the mountains waiting for an opportunity to double back to Kamlooke. On Tuesday night some Indian women procuring water from the river saw a canoe slip by in the darkness, and this gave the clue how he was attempting to escape. Constable Fernie at once put other possees out at the lower end of the North Thompson, on both sides, and a spot watch was kept on the river and all the trails in the valley. Last night Donald Gordon and Dunan McLean came upon the man and immediately covered him and placed him under arrest. He gave up one revolver, and with a motion he drew a .44 from his holster and shot point blank at McLean, at such close range that the side of the constable's head was seared and powder burned. Both special shot and bullet penetrated the constable's neck, severing the jugular vein. The dead man had left the canoe above a fish trap on the rapids and had walked to a point within eight miles from town, where he met his death.

SEVEN KILLED IN COLLISION ON C. P. R.

Light Engine Crashes Into Soo Express at Moor Lake, Ontario—Father and Son Among Victims.

(Special to the Times). Ottawa, Nov. 15.—Early this morning a railway collision took place at Moor Lake, west of Chalk river, on the C. P. R. Seven are killed and a number are injured. The killed are: J. IRVINE, baggage man, Ottawa, 65; CLARKE, express messenger, Montreal. E. YOUNG, engineer, North Bay. H. I. PRENDERGAST, brakeman, Peabwood. T. PRENDERGAST, father of H. I. Prendergast, Webbwood. J. HENDRIE, engineer, North Bay. J. O. NADEAU, fireman, North Bay. The collision occurred between a light engine running west and the Soo express coming east. The cause is attributed to the light engine not keeping clear of the express, as the engineer should have done. Engineer Hendrie and Fireman Nadeau, of the light engine, were both killed. Fireman Prendergast was on his way to Montreal to the hospital, and his father was accompanying him. They were in the baggage car of the Soo express. Prendergast, Jr., had been injured in a railway accident and was going to the hospital. None of the passengers were seriously injured.

ANOTHER CRISIS FACES AMERICA SHIPBUILDING FIRM HAS CLOSED DOWN

Thousands Employed at Plants Along Great Lakes Thrown Out of Work

CLEVELAND, Ohio, Nov. 15.—At a meeting of the directors of the American Shipbuilding Co. here yesterday, it was decided to retrench in view of the uncertainty of the general financial condition, by shutting down practically all their plants along the Great Lakes at once.

AT LORAIN, where 1,800 men are employed, 1,000 were discharged, and tonight most of the remaining hundreds will be discharged. At Bay City Mich., 300 men were discharged yesterday, and the remaining 600 may be discharged to-day.

THE DETROIT and Wyandotte yards will not be closed for the present. At South Chicago and Superior, Wis., hundreds of men will be taken from the payroll.

THE DIRECTORS assert that the action is only temporary and that the plants will be re-opened as soon as the money situation is relieved. They also assert that the company is in a better financial condition than ever, and that they did not think the shut-down would last more than 30 days at the longest.

CARBOLIC ACID CAUSE OF DEATH

Girl Stenographer in Brandon Registers Her Position and Commits Suicide.

Brandon, Man., Nov. 15.—A sad suicide occurred last night when Miss Eva Jefferson, a well-known stenographer in the law office of Philip & Kilgour, swallowed fully half an ounce of carbolic acid and died in a few minutes.

DECEASED lived with her parents here for some years. She was 24 years old and of quiet disposition.

ABOUT THREE weeks ago she complained of not feeling well, and remarked to the chief clerk that she believed she was forgetting her shorthand. She was told to go home and take a rest for a few days, which she did a week later.

AFTER TWO weeks she returned to the office yesterday afternoon, when she informed Mr. Kilgour that she wished to resign her position as she did not expect to return to work again. Nothing unusual was thought of this, as the staff was of the opinion that she would seek a lighter position.

ON HER way home from the office she entered Kennedy's drug store and purchased the acid for which she signed the receipt. The bottle, being labelled, as called for by the law, after supper she retired to her bedroom, and at 7:15 came running down stairs and told her mother, father, two sisters and a brother, that she had poisoned herself and almost at the same time collapsed on the floor.

THE FAMILY rushed for doctors, three being on the scene in a few minutes, but it was no use. No cause is known, so far, for the deed, although it is said that she had been worrying over a letter she received.

ALBANY, N. Y., Nov. 14.—Superintendent of the state department of public works to-day announced that at noon on Tuesday, December 10th, the following canals will be officially closed: Erie, Champlain, Oswego, Cayuga and Seneca.

THE BLACK RIVER canal will be officially closed at midnight Saturday, November 30th, the closing down for the main canals is much later than usual.

DEATH IN PORTER'S CHICKEN.

LONDON, Nov. 15.—Mrs. Made Robinson, widow of the late John Robinson, a fireman, who died of injuries sustained in a locomotive explosion at Newbury, ate ported chicken at six o'clock last night and died an hour later from apparent ptomaine poisoning.

NEW YORK, Nov. 14.—A seat on the stock exchange was sold to-day for \$3,000, a reduction of \$2,000 from the last previous sale.

E. & N. MAY BEGIN WORK ON TERMINALS

Pending a Settlement of the Store Street Line the Company May Start Operations in City.

There is some probability that work will be commenced in connection with the proposed new freight terminals of the Canadian Pacific at an early date. If the hitch interposed by the dispute with the city council is removed, as has been suggested by Ald. Hanna, the chances are that workmen will be put on at once to prepare the site for the new buildings. The property on which the depot is to be established, the Albion Iron Works, is still occupied by the building equipment by this concern, and there is a great deal of debris and material scattered over the premises that must be cleared up. Considerable labor will be needed for the preparatory work alone. Even if there should be no encouragement from the city to the undertaking of the work, suggestion was had this morning, by a Times reporter, that the company might decide to go ahead and leave the determination of the matter of the crossing rights to the railway commission. Superintendent Marpole, it is said, is expected in the city on Monday next, and it is not unlikely that something definite will be decided upon as the result of his visit. While a great deal of valuable time has been lost which might have been utilized in forwarding the work of construction, the chances are that the undertaking will be vigorously pushed ahead, once the company starts in. From information gathered at railway headquarters this morning, there is suggestion that the plans for the new freight sheds, yards and rail connections therewith, are practically completed.

SCHEME TO TEST DRY FARMING

MEDICINE HAT WANTS TO TRY EXPERIMENT

Hon. W. T. Finlay Will Place Matter Before Alberta Government-- Question of Funds.

MEDICINE Hat, Alb., Nov. 15.—Prior to his departure for Edmonton, Hon. W. T. Finlay was interviewed by members of the city council, board of trade and agricultural society, with reference to the proposition of the establishment of a farm here for experimenting along the lines of dry farming, as laid down by Professor Campbell.

PRESIDENT Harris outlined the work of the special committee of the agricultural society as undertaken up to the present, showing that the scheme was very far advanced, that a suitable site had been procured within two miles of the city; that co-operation had been promised by the city council, and that the board of trade and the Canadian Pacific Railway had promised a grant of \$500.

MR. FINLAY stated it gave him pleasure in hearing that such progress had been made with the proposition. He said that he had brought Prof. Campbell to Alberta and had arranged for twelve lectures and he was glad to know the work was bearing fruit. He advised the placing of a demonstration in the hands of reliable practical men in whom the agricultural society, and the department of agriculture would have confidence. He asked the society to place their proposition in writing with all the particulars and estimates and forward it to him in Edmonton, where it would have his prompt attention, and would be placed before the government with the recommendation for a substantial grant.

PROCLAMATION OF MOROCCO'S SULTAN

Abd El Az'z Sending Out Troop From Rabat-- Pretender's Star on the Wane.

Tangier, Nov. 15.—The star of Mulai Hafid, Sultan of the South, appears to be waning. Mulai Mohammed, a brother of the Sultan, and a Pretender to the throne, has joined Sultan Abd El Aziz at Rabat, and the Sultan has caused a proclamation to be read in the Mosques, saying:

"We have sent Calid Belghazi with troops to Mogador. The Alfrofs tribe is still obedient to our commands. We have sent Calid Mehalla, under General Bagdani (chief of the Sultan's army), to Chaouia; and we have sent another force of troops under Calid Abd Felik and Ben Abdu Khader to Seira.

"The Casablanca and Oudja affairs are still in course of negotiation."

PORTO RICO WANTS RELIEF.

Committee of American Federation of Labor Will Wait on President Roosevelt.

NORFOLK, Va., Nov. 14.—The American Federation of Labor to-day referred to its committee on resolutions a lengthy resolution by the Porto Rican delegates, Igliso, Sanchez and Becorri, providing for a committee to be headed by President Gompers, who shall, following the adjournment of the present convention, visit President Roosevelt, asking for relief for Porto Rico in a number of particulars.

LOCAL NEWS

The funeral of the late F. Green, who died at the Royal Jubilee hospital on the 12th inst., will take place to-morrow morning at 10.30 from the parlors of W. J. Hanna, Yates street.

South Hall, aged 72 years, a native of British Columbia, died this morning at the Royal Jubilee Hospital after a short illness. The remains will be forwarded from the Hanna parlors to-night for interment at Chilliwack.

A mission room has been opened by the Brotherhood of St. Andrews in the Simpson's Institute at the corner of Langley and Broughton streets. It will be open from 10 a. m. to 10 p. m. on week days and from 2 p. m. to 10 p. m. on Sundays. All men are welcome.

The new masonry arch which has been in the course of construction on the E. & N. line near Coldstream has been opened for traffic. The arch is a twenty-foot span.

The funeral of the late George Dumphy, who died in the Jubilee Hospital on the 13th, will take place to-morrow afternoon at 2.30 o'clock from the parlors of the B. C. General Furnishing Company, 1615 Government street.

Last evening in the Salvation Army barracks an address was delivered by Capt. S. Devey, special agent for the army in the northwest and British Columbia, upon army work. The lecture was illustrated by stereoscopic views and was largely attended.

Yesterday as the Ella G., one of Victoria's sealing schooners, was anchored off the outer harbor previous to sailing on a long cruise, two men, Peter Hansen and Harry Gordon, jumped into the water and swam ashore. Efforts were at once made to recapture them. Hansen was secured and taken back to the ship. Gordon was not so easily taken, but later in the day the police arrested him and this morning he was sent on board. The Ella G. sails for the sealing grounds to-day.

S. B. Appleby was this morning sentenced to two months' imprisonment for stealing a gold chain and locket from Helen Hartwell. In her evidence she stated that Appleby when in her room had taken the chain and said he was going to wear it. She expostulated, but to no effect. He had it for several days and it was only when she heard he was about to leave town that she informed the police and Appleby was arrested. Appleby has a bad character in police circles.

While engaged in painting the side of G. P. Matthews' house on Lampton street this morning two painters, T. Amos and C. Perkins, employed by the Melrose Paint and Varnish Co., were thrown to the ground through the collapse of their slings. They were attended to by Dr. Dalby and removed to the Jubilee hospital, but within a place it was stated that they were going to leave the hospital and will be about again in a week's time.

The sergeants' mess of the Fifth Regiment held their annual meeting last evening in the mess room at the drill hall. It was decided to hold the annual banquet and dance in January, and a committee was formed to make the necessary arrangements. The question of rifle practice was also discussed, and the sergeants decided to do all in their power to encourage the younger recruits in the art.

The Critic, published in London, refers to the Tye Copper Company's affairs, says the secretary states: "The board of directors deeply regret to have to inform you of the death of Mr. Clement Livingston, 1907. At the request of the board T. H. Wilson, general manager and local director of this company in British Columbia, who succeeded to an attack of pneumonia on the 26th day of October, 1907. At the request of the board T. H. Wilson, general manager, has consented to go out again at an early date (although only recently returned from a visit to the property) and supervise the business of the company temporarily."

The case of S. B. Appleby, who was this morning convicted of stealing a gold chain and locket from the woman, Helen Hartwell, is not an important one in itself, but its importance comes in the attention it has drawn to the conduct of the hotel in which it occurred. Yesterday a report was presented to the police commissioners at the instance of the Mayor, the general conduct of the place. The report was most unfavorable, and the police commissioners have handed the case down to the licensing board for action. This board will meet this afternoon at 3 o'clock and go into the question.

Rev. Mr. Cherrington, secretary of the Anti-Saloon League of Washington State, has arranged to come over and deliver two lectures on the temperance question in connection with Royal Temperance of this city. The dates have been arranged for December 15th and 19th, and it is quite probable that the lecture room of the First Presbyterian church will be secured for the occasion. Mr. Cherrington is an able speaker and a good deal of interest is being taken in the coming rally.

The funeral of the late Mrs. Margaret Murray took place this morning from the residence of Mr. W. Hurst, second street, at 8.45, and from the

The Life-Boat and Life-Saving Association of British Columbia is making arrangements for a public meeting to be held in the city hall on Tuesday night, 26th inst., when sundry proposals will be made to the citizens of Victoria relative to the manning of the life-boat which the Dominion government has arranged to hand over to the association. Addresses will be delivered by several prominent citizens, and it is hoped that His Honor the Lieutenant

Governor will preside. The secretary of the association will be glad to receive suggestions and help from anyone, his address being 1214 Government street.

—John Oliver, M. P. for Delta, has gone east. He will spend a time visiting friends in Algoma, and then visit Ottawa, returning to this province in time for the opening of the legislature in January.

—The death occurred on Saturday at Paisley, Ont., of Mrs. J. Nelson after an illness extending over several months. There are many former residents of that place in this city who were well acquainted with the late Mrs. Nelson, who was one of the pioneers of that part of the province. About six years ago Mrs. Nelson paid a visit to Victoria, spending over a year on a "trip" to her sons, who are residents of this city. She had attained the age of 66 years.

The five hundred tournament arranged to take place to-morrow at the Alexandra Club has been postponed until a date which will be announced later, when it will include bridge. The tournament is an open one, and all desirous of entering are asked to send in their names early, as it is impossible to make full arrangements when their delay is particularly marked. Prizes are given for both events. Entries may be made at the club or sent in to Mr. A. F. Griffiths, the "Angelen," or Mrs. C. J. V. Spratt, Carberry Gardens.

The funeral took place yesterday of the late David M. Burnett, which took place yesterday from the residence of his sister, Mrs. Smith, of Yates street. Rev. W. Leslie Clay officiated and the following acted as pallbearers: Messrs. D. Campbell, A. Lipskie, A. Donaldson, W. J. Clark, R. Lawson and R. Robinson.

Preparations are now completed for the concert to be given Wednesday evening by the choir of St. Andrew's church. A splendid programme has been prepared, consisting of an opening number by the orchestra, vocal and instrumental solos, duets and quartettes, also a septet for strings only. There will also be two glees by the choir, and in conclusion Romberg's celebrated "Toy symphony" will be rendered by the choir and orchestra. The concert will commence at 8.15 sharp in the school-room of the church.

The life of any constant traveler is always a hard one, but those whose work compels them to take long treks over rough roads, exposed to all conditions of weather, are in constant danger of losing their health. The extreme heat of summer or the piercing winds of winter sap their strength, the kidneys become diseased or rheumatism sets in. What is needed to withstand this hardship is rich, red blood—the pure blood that Dr. Williams' Pink Pills alone can make. These pills are the traveler's best friend. Concerning them Mr. George Dalpe, of St. Elie, Que., says: "I am a grain dealer and am obliged to make frequent trips, sometimes very long, and I returned home from one of these trips last summer very much fatigued. I was overworked and tried to cool and rest myself by lounging on the veranda till I got a severe cold and the next day I did not feel at all well. I had a headache, pains in my stomach and was very weak. I went to see a doctor, but he prescribed nothing but rest and food. I was not better and I was very much fatigued. Major Bagnell and John Pidsley Mann were over to James Island yesterday looking for the panther that it was reported had committed serious depredations among the sheep there a few days ago. They found some signs of the panther having been there, but the animal was not located however. Should he again appear a number of dogs will be taken over and he will be chased until he is caught.

VERDICT OF SUICIDE. Coroner's Jury Inquired Into Death of David Burnett—Funeral To-day.

NEW BAKERY IN VICTORIA WEST

PLANS COMPLETED FOR THE INDUSTRY

Building Will be Erected at Early Date—Will be Complete in Every Way.

(From Saturday's Daily.)

Plans have been completed for the new building for the bakeries in Victoria West, and tenders will be called immediately and it may be ready for use in the very near future. The general plans of the company have before been made known. The intention of the organization is to supply the best quality of bread and all kinds of cakes, etc.

The work will be under the management of Mr. Oke, who has an important part in organizing the company. The building will be located on William street, convenient to the N. H. line in Victoria West. The intention is to find a considerable trade by out of town shipments which can thus be conveniently made. The main building will be erected on 70 feet, giving ample accommodation for the carrying out of the work. The building will be of brick, three stories high, the top floor being used for storing flour, and the one below containing the mixing room, the flour coming down a chute. When the dough has been prepared by machinery it will be passed down to the ground floor, where a scale will divide the dough into its proper size and weight ready for the oven.

The ovens will be of the most up-to-date pattern, heated from beneath by means of steam pipes so that there will be no danger of burning the bread. There will be no fire in the baking chamber, thus assuring perfect cleanliness. The ovens are being imported from England. They are so constructed that the bottom of the oven is taken out at each baking, and the unbaked loaves placed upon it. It is then pushed in place and when done the bottom is again taken out, the whole of the bread being withdrawn at the same moment.

The company has been registered for \$25,000 paid in ten dollar shares. The first issue of 1600 shares was quickly subscribed but, owing to the high cost of building, it has been found necessary to issue 400 more shares at ten dollars each. A number of these have already been taken up. Practically all the shares of this company have been sold in Victoria, and this fact shows the progressive spirit which is growing up in this city.

The names submitted by the council as nominees for the offices and council of the western branch, respectively, are as follows:

For president—A. B. W. Hodges, Grand Forks, B. C.

For secretary—E. Jacobs, Victoria, B. C.; J. W. Collins and E. J. Brown-Cave, both of Vancouver, B. C.

For council—Paul S. Coudrey and F. Stuart, Rosland, B. C.; J. J. Campbell and Leslie Hill, Nelson, B. C.; C. Musgrave, Vancouver, B. C.; W. M. Whitehead, Blairmore, Alberta; J. C. Haas, Spokane, Wash.

BACK FROM EUROPE. F. J. Armstrong Has Returned From Four Year's Course in Music.

F. J. Armstrong, son of Frank Armstrong, 521 Michigan street, has returned home after spending four years in Leipzig, where he has been completing his musical education with special attention to the violin. Mr. Armstrong was formerly a pupil of Professor Wickens, of this city, and while in Europe studied under Becker, one of the best music masters in the Old World. His instruction in theory was taken under Shreck and he had considerable orchestral experience under Nikische.

Mr. Armstrong returns to his home city a graduate of the Leipzig Conservatorium and an accomplished violinist. He intends to take pupils following his profession as teacher of the violin and will also tour the coast at intervals.

Mr. Armstrong is glad to get home again, although he enjoyed his stay in Germany. The opportunities for improving musically in Leipzig in addition to the direct instruction is very great, as he says there is an atmosphere of music always about one.

Justine Gilbert, daughter of Justin Gilbert, of this city, is now studying at Leipzig, after being instructed by Professor Wickens.

COSTLY SPARK. Fire Destroys Toronto Potteries, Causing Damage of \$5,500.

Toronto, Ont., Nov. 15.—The Carleton West Potteries were destroyed by fire last night. The fire is supposed to have been caused by a spark from a defective chimney. The works being beyond the town limits, nothing could be done to save them. The damage is estimated at \$5,500, covered with an insurance of \$1,500.

LOCOMOTIVES FOR WINNIPEG.

C. P. R. Will Place 18 Additional Engines at Prairie Depot.

Winnipeg, Nov. 15.—Sir Thomas Shaughnessy, in communication with Mr. Whyte, second vice-president, said he expected to be able to supply Winnipeg in a few days with fifteen or eighteen additional locomotives.

While in Montreal, C. C. Castle, warehouse commissioner, induced a number of the large exporting houses to cable their agents in London, Liverpool and Glasgow to ascertain the volume of commercial grades of wheat that could be assimilated each week at these ports. A reply from a Liverpool correspondent, Mr. Miller, was to the effect that he could use from thirty to four thousand quarters (24,000 to 32,000 bushels) per week of very low grade wheat to grind into flour which is used for sizing and glazing purposes chiefly in the cotton trade.

Both the Ogilvie and Lake of the Woods companies communicated with the agents in the United States, Kingdom markets to try and work up an additional trade in commercial grades, and each of these companies assured Mr. Castle that they would use as much as possible of their resources during the coming winter in handling these grades for export. The managers of the companies pointed out that the handling of inferior wheat was entirely outside their usual business, but under the present circumstances they were prepared to do so.

WESTERN BRANCH MINING INSTITUTE

Proposition Made and Meeting Called for Purposes of Organization for January 25th.

Mr. Frederic Keffer, of Greenwood, Boundary district, engineer in charge of the Canadian mines of the British Columbia Copper Company, Limited, in his capacity of president of the Canadian Mining Institute has sent the following circular letter to the western members:

It being difficult for members residing in the Western provinces and adjacent United States territory to attend the meetings of the Canadian Mining Institute, which are usually held in Eastern Canada, the council suggests that a branch of the Institute be formed to include this district with a view to holding regular meetings in the West and thus more largely participating in the general work of the Institute.

You are, therefore, requested to attend a meeting of Western members to be held in the city of Nelson on January 15th, 1908, at 2 p. m., when steps will be taken to organize the said branch. A number of papers prepared for the regular annual meeting of the Institute will also be presented for reading and discussion at the Nelson meeting.

I enclose herewith a list of names submitted by the council to constitute the officers of the Western branch for the year. Members are requested to make a cross opposite the names of the persons whom they desire to be elected; or to substitute in the blank space provided on the ballot slip the names of persons other than those suggested. Western members now serving on the council of the Canadian Mining Institute will be ex-officio members of the council of the Western branch.

You are urgently requested to be present at this Nelson meeting, and, if possible, to attend the meeting of the Western branch at the same time. Members presenting papers at this meeting should send the MSS. to Mr. H. Mortimer Lamb, secretary, 1270, Dorchester street, W. Montreal, at the earliest possible date, to admit of printing.

The names submitted by the council as nominees for the offices and council of the western branch, respectively, are as follows:

For president—A. B. W. Hodges, Grand Forks, B. C.

PROBLEMS FOR LADYSMITH CITY

Question of Street Improvements Discussed by Council—Football Matches To-morrow.

(Special Correspondence of the Times), Ladysmith, Nov. 15.—The city council took most of their time upon Monday evening with a discussion of the scavenging of the town. For years now the city has used a dumping ground along the old Victoria road, but when the C. P. R. Company took over the local railway use since it was made into a dump for the city, for the dump was too close to the town to be healthy. Steps were immediately taken to get a road to the beach, and an appropriation was granted for its being done. Many of the members of the council were under the impression that this new road had been laid in use since it was made into a dump for the city, for the dump was too close to the town to be healthy. BRYAN TO RUN FOR PRESIDENT IS DETERMINED TO ACCEPT NOMINATION

If Democrats Desire It He Will Stand No Matter Who Is Republican Nominee

Lincoln, Neb., Nov. 14.—William J. Bryan will accept the nomination for president in 1908. He says that for years he has been pressed to answer the question: "Will you accept the nomination?" and he believes the public is entitled to an answer and to know the position he occupies.

He says: "Now that the elections of 1907 are passed and plans are being made for next year's convention, Mr. Bryan believes that a statement is due to the public. Those who prefer a candidate are entitled to know his position; those who favor his nomination and those who demand his nomination have a right to demand an answer to this question, 'Will you accept a nomination?' Refusal to answer the question has led to the circulation of many false reports, and unfriendly newspapers have taken advantage of his silence to misrepresent his attitude."

"Mr. Bryan will not ask nor seek a nomination, and he will not assume to decide the question of its availability. He has been simply recompensed by his party for what he has done and for what he has endeavored to do that he cannot claim a nomination as a reward, even should his ambition be considerable, for he has had honors enough from his party to satisfy any reasonable ambition. The only question that is to be weighed by the party is whether the party can be strengthened more by his nomination or the nomination of some one else. If he can serve the party by his nomination, he will accept the commission and make the best fight he can. If, however, the choice falls upon another, he will not be disappointed in the application of his availability is a question to be decided not by him, not by a few leaders, not even by the leading newspapers that call themselves Democratic, but by the voters of the party and to them he entrusts the question for decision. They are the supreme court in all matters concerning candidates, as they are in all matters concerning the platform."

"He assumes that they will not select him unless they desire to make an aggressive fight for the application of Democratic principle, and he also takes it for granted that the organization of the party will be in harmony with the platform and will be composed of men whose political records will invite confidence and give assurance that a victory if won will not be a barren victory."

"The Republicans must nominate a reformer, or a stand-patter, or one whose position is unknown, and the course of the Democratic party should be the same, no matter what element controls the Republican convention. The Democratic party must make the mistake it believes. While it must take advantage of Republican mistakes, it must depend upon its own merits for success and not upon the order of its opponents."

"The action of the Republican convention may have its influence on Democratic candidates, but it ought not to have any influence in determining the question whether the one chosen by the Democrats should receive the nomination. If the rank and file of the Democratic party desire Mr. Bryan to make the race he will make it, no matter who may be the Republican nominee."

BRANDON PROSPEROUS. Large Shipments of Wheat Are Being Sent Eastward Each Day.

Brandon, Man., Nov. 15.—On the branch lines of the C. P. R., the Brandon district, on Wednesday, 115 cars of wheat were shipped.

To-day 85 cars of grain started on the eastward journey. This is about the average of the daily business of the district, of which Brandon is the centre. The farmers here are very sanguine. The merchants also feel that with an average shipment of about 100 cars a day business in the city cannot help but go ahead by bounds.

REMEDY LIES IN CITIZENS' HANDS WHAT AMERICANS DID TO STAY PANIC

Hoarded Money Should be Redeposited in Banks, Says Secretary Gortelou.

New York, Nov. 14.—Bringing a message of congratulation and goodwill from President Roosevelt, Geo. B. Cortelou, secretary of the treasury, was the principal speaker at a reception given to-day by the Merchants' Association of New York in a celebration of its tenth anniversary. In the course of his remarks Mr. Cortelou said:

"The financial crisis of this great city have had during the last three weeks one of the severest tests they have undergone, and when the people of the country realize what they have done to stay panic, and re-establish confidence, the measure of public approval of their service will be large indeed."

"Now that the financial storm appears to be subsiding we should turn our attention more and more to the re-education of the country at large. In the south and west and on the Pacific coast and in other sections there are heavy demands upon all the available funds for the movement of our crops, for the continuance of our mercantile undertakings, and what we must not for a moment forget, for the experimental labor. It is a time when every citizen should assume his share of the burden, the hoarding of money, the exactions of unnecessarily harsh requirements in business dealings, but retard our return to normal conditions. The hoarded money should be put back in the banks, and the exactions of bankers and merchants should be proportioned only to actual business necessities. To do otherwise is not only unpatriotic, but unwise."

"I believe that if this money of the country wherever hoarded were at once put back to fulfill its functions in the channels of trade, there would be without twenty-four hours, an almost complete resumption of business operations. The various plans advocated for the currency reform must be subjected to the scrutiny of the people, and every section should be fairly treated, their needs and requirements consulted, and above all, that whatever action is finally taken it shall be so adopted and wholesome as to enhance our commercial standing among the nations of the world."

QUET POWER. Last Evening's Evangelistic Meeting Was Well Attended.

The revival meeting in the Metropolitan church last night was remarkable for its quiet power rather than for anything of a startling nature. There was a good-sized audience present, and the evangelists had undivided attention throughout the meeting.

Mr. Hunter read the 22nd Psalm, and his running commentary was of a very helpful nature.

Mr. Crowley gave a song-sermon on "Guilt and Glory." The song was taken from Isa. xxxv. 9. "The ransomed of the Lord shall return and come to Zion with songs and everlasting joy." Outside the influence of Christianity, he said, there was no harmonious music. It took the spirit of Christ to bring complete harmony. Heaven and hell were on the same road, one at each end, and before one could turn his face towards heaven and glory, he must be delivered from hell and the power and pollution of sin.

To-night's meeting will be in the Metropolitan church and will feature a number of young men and young women and all of youthful spirits. Mr. Hunter very cordially urged that the fathers and mothers should come with their sons and daughters to this meeting.

MILLIONAIRE LABORER. Has Been Bequeathed \$1,000,000 by His Aunt.

Chicago, Nov. 15.—A dispatch to the Tribune from Ludington, Mich., says: John C. Jones, a day laborer, has been bequeathed \$1,000,000 by an aunt, Anna T. Jones, of Philadelphia.

DWELLING HOUSE TORN TO PIECES TWO WERE FATALLY INJURED IN EXPLOSION

Roof of Pittsburg Structure Blown High in Air—Walls Collapsed.

Pittsburg, Pa., Nov. 15.—About twenty persons were injured to-day, two fatally, and a dwelling house was torn to pieces, when an explosion of natural gas occurred on Elm street in this city. In the fire which followed the important letter to the crown attorney, He was remanded for sentence.

VESSEL WAS BERKELEY. Steamers Destroyed by Fire Off California Coast—Crew Rescued.

Gaviota, Cal., Nov. 15.—The steam schooner Berkeley, in ballast from San Pedro for San Francisco, was destroyed by fire yesterday about fifteen miles off this port. The officers and crew of nineteen were all saved, but the vessel will be a total loss.

MORE GOLD FOR UNITED STATES. Large Shipment Is Engaged From Bank of America.

London, Nov. 15.—America took a further large amount of bar gold and American eagles, totalling \$72,000, from the Bank of England to-day for shipment to New York on the New Curlew line steamer Mauretania to-morrow.

BRITISH PREMIER. Condition of Sir Henry Campbell-Bannerman Shows Improvement.

Bristol, Nov. 15.—The condition of Premier Campbell-Bannerman continues satisfactory. He was able to sit up at a late hour last night. It is hoped that after two or three days' rest he will return to London. No further bulletins will be issued. The trouble is said to be due entirely to recent over-exertion.

FOUR DOMINIONS OF THE EMPIRE. Formal Official Recognition of Status of Canada, Australia, New Zealand, and South Africa.

London, Nov. 14.—Lord Elgin's dispatch to Earl Grey of September 21st, is published here to-day. It is the formal official recognition of the new status of Canada, Australia, New Zealand and South Africa, as dominions of the King, as distinct from crown colonies.

BUCKINGHAM EVICTIONS. Ottawa, Ont., Nov. 15.—Evidence for the defence was continued yesterday in the trial of the Buckingham strikers. Several witnesses gave evidence first and that the shooting began early.

POWER STATION GUTTED. Hamilton, Ont., Nov. 14.—The station of the Cataract Power Company at Dundas was gutted by fire this morning. The cause of the fire and the exact amount of the loss is not yet known.

WAGES INCREASING. Montreal, Nov. 14.—A new scale of salaries to teachers employed by Protestant board school commissioners at Montreal was adopted at a meeting to-day. There is an all-round increase.

STANDARD OIL DIVIDEND. New York, Nov. 15.—The directors of the Standard Oil Company to-day declared a quarterly dividend of 10 cent, a share on Great Eastern stock. This is the same amount that was declared in the corresponding quarter last year. The dividend is payable on November 26th.

LOW PRICED CATTLE. London, Ont., Nov. 15.—As a result of a scarcity of fodder throughout the county of Middlesex, cattle are being sold at a sacrifice price by farmers, who are anxious to dispose of their stock before winter comes on.

ADVOCATES THE ALL RED ROUTE. Hon. Clifford Sifton Responds to Soast of "Ships, Colonies and Commerce."

Bristol, Eng., Nov. 14.—Hon. Clifford Sifton inspected the Royal Edward dock to-day, and appeared much impressed with the facilities afforded for land Great Britain produce. At a luncheon which took place at the Victoria rooms, Mr. Sifton, responding to the toast, "Ships, Colonies and Commerce," received much applause. At the conclusion of his remarks, Mr. Sifton referred to the All-Red Route, and pointed out, laying stress on the fact, that as others had a fair service, Canada and Great Britain should have equally as good a service.

WAGES INCREASING. Ottawa, Ont., Nov. 15.—Evidence for the defence was continued yesterday in the trial of the Buckingham strikers. Several witnesses gave evidence first and that the shooting began early.

RED FIR MILL CLOSES. Financial Stringency is Cause of Nanaimo Mill Shutting Down.

The boilers at the Red Fir Mill are cold to-day, the mill having closed down until further notice, says the Nanaimo Free Press. This action is in line with that taken by the other mills of the province, many of which have been closed for some time and others of which are likewise closing down this week. Most of them are in common with the Nanaimo mill have a small reserve stock ahead. The reason given for the closing down is the general depression just now in the lumber business caused largely by the peculiar condition of the financial market. It is not anticipated that the mills will be closed for any great length of time.

FIREMEN IN THEATRES. Montreal, Nov. 15.—Chief Benoit, of the fire brigade wants firemen stationed in all theatres of the city during performances. The theatre managers have been allowed to have their own men, but this plan does not give satisfaction.

THE DEAD BODY IS IDENTIFIED HAS NOT BEEN LONG A RESIDENT HERE

Remains Found on Beach Are Those of William Cottrill, Formerly of Calgary.

The body of the man who is supposed to have committed suicide by shooting himself at Beacon Hill has been identified as that of William Cottrill. He was in charge of the stables of David Spencer at the time, and it is supposed that the deed was done during a fit of temporary insanity.

Cottrill was an Englishman who came out to Calgary some 12 years ago, and has always been interested in horses. Five months ago, when James Mitchell wanted someone to bring out a bunch of hackneys for himself and David Spencer, he persuaded Cottrill to come out and take care of them. This he did, and after his arrival spent three months in the employ of Mr. Mitchell, breaking the hackneys. At the end of that time he had proved himself to be such a valuable man that he was engaged by the David Spencer Company to look after their stable. He proved himself to be always a most able and careful man.

A week ago last Thursday, while coming down the ladder from the loft, Cottrill lost his balance near the top of the ladder and fell backward, a distance of ten or twelve feet, hitting his head against the edge of the curb plank of the stall. He suffered somewhat from the effects of this, and his companions have since noticed him to do odd things at times. On one occasion when bringing out some of the colts without any apparent reason, fetched the colt a kick which made it run out into the yard with the harness on. This was so opposite to his usual gentle manner with the horses that it attracted attention.

On Friday night the carpenters who are working on the stable left Cottrill there as usual about 5 o'clock, and at six one of the employees had occasion to call him up on the telephone, which he answered. That, so far as can be ascertained, was the last time his voice was heard.

In the morning the body was discovered with the bullet wound in the temple, but no one even suspected that the man was Cottrill. It was not until last night, when Mr. Mitchell was reading the detailed description in one of the papers, that it struck him that Cottrill might be the man. At 9 o'clock he went down to the police station and was taken to the morgue, where he at once identified the body as that of the man who had induced to come out from Calgary.

Cottrill was a very quiet, good natured man, and was particularly quiet and kind to the horses in his charge. He was well to do, having money in two different banks to the amount, it is said, of about \$2,000. Previous to taking his life he wrote letters to the banks asking that the money be forwarded to his people in England. He also wrote to David Spencer, Jr., asking him to take care of his things and forward them to his old home.

NEW YORK HORSE SHOW. Great Annual Social Event Now in Full Swing.

New York, Nov. 18.—The annual period when New York society pays its tribute to the fancy breed horse had its beginning auspiciously when the twenty-third annual horse show opened in Madison Square Garden to-day.

The interior of the big garden was gayly decorated with the colors of the horse show association, black and orange, when at the call of the bugle the first prancing hunters and jumpers to be candidates for awards were ushered into the big tan bark ring and put through their paces for the benefit of the judges.

The opening of the big show, which will last through the week, was attended by the gathering of the enthusiastic lovers of the horse who never fail to be present on such an occasion, but the show will not assume its real importance until this evening, when the boxes will be filled with the representatives of New York society and the show will become a social event as well as a show of horses.

This forenoon's session was devoted to the judging of jumpers and the Corinthian class, from which horses were to be selected to compete for the ribbons in the finals of this class.

NOVA SCOTIA CROP. Large Total of Products Housed in Fairly Satisfactory Condition.

Halifax, Nov. 18.—The annual crop report of Nova Scotia shows that despite unfavorable weather a large crop has been housed in a fairly satisfactory condition. The estimated yield of potatoes is placed at six million bushels, hay crop 700,000 tons. The value to the farmer of the several products mentioned below is \$18,757,400. Taking an average crop as follows: Hay, 90 per cent.; oats, 100 per cent.; wheat, 95 per cent.; barley, 95 per cent.; potatoes, 100 per cent.; corn ensilage, 90 per cent.; mangels, 95 per cent.; buckwheat, 90 per cent.

Liverpool, Nov. 18.—One hundred and fifty Welsh miners sailed by the Canadian Pacific steamer Empress of Ireland on Friday. They will go to the Crow's Nest Pass district.

BIG WINNIPEG FIRE. Winnipeg, Nov. 18.—James White's planing mill storehouse at Carberry, Man., was destroyed by fire last night. Piles of lumber which had been in the store for several years were destroyed. The loss is estimated at \$50,000.

DOCTORS AND DRUGS FAILED HER. ECZEMA TORTURED HER. Then She Tried "Fruit-a-tives" and They Cured Her.

Skin disease is always due to impure blood. It is the duty of the skin, bowels and kidneys to rid the system of tissue waste. When there is anything wrong with the kidneys or bowels, the skin tries to do extra work and breaks down under the strain. Sometimes the skin is attacked by germs, which because of its weakened condition, it is unable to resist. Ointments and lotions, and dusting powders, and medicated soaps are useless in eczema because they treat only the outside skin. "Fruit-a-tives" cure, because they go to the root of the trouble, they purify the blood. They act on the liver—regulate the kidneys and bowels—soothe and stimulate the skin—and so purify and enrich the blood that disease germs are thrown off—the itching, bleeding surfaces healed—and the whole system is built up and strengthened.

"I had dreadful eczema on my face, arms and head. I was advised to take 'Fruit-a-tives' to purify the blood and I am very thankful that I took this medicine. When I had taken two boxes, the rash was entirely gone, the pain in the back left, and my complexion is clearer than it has been for years. Before I used this medicine, I tried many kinds of salves and took quantities of medicines, but these did me no good. But 'Fruit-a-tives' at once did me good—and they entirely took away the fearful rash." Mrs. F. Malhiot, 24 Union Street, Ottawa, 50c. At druggists.

CANADA'S ENVOY IN THE ORIENT

HON. R. LEMIEUX SEEKS AN AGREEMENT

Wishes a Programme Mapped Out Which Will Benefit Both Countries.

Tokio, Nov. 16.—Hon. Rodolphe Lemieux, Canadian minister of labor, who is here to consult with the Japanese authorities regarding emigration from this country, has established an office at the British embassy, and is in frequent conference with officials of the foreign office. He expects a favorable outcome of his mission. To a representative of the Associated Press he said:

"I am not proposing any change in the existing treaty, but desire to reach an agreement with a friendly nation looking to the adoption of a programme for the future which will be beneficial to both countries concerned." Minister Lemieux will be entertained by the municipality of Tokio on next Tuesday, and the government is preparing an elaborate programme for his entertainment during his stay in Japan.

The foreign office has notified the emigration companies that 406 Japanese will be allowed to go to Hawaii during this month and December. The government intends to exercise a closer supervision over those going as students to San Francisco.

Considerable fraud has been practiced by registering laborers as students, and this has escaped the scrutiny of the emigration inspectors. American Ambassador O'Brien has been in active conference on this subject with Minister of Foreign Affairs Hayashi, who has issued more stringent instructions to the inspectors, and further restrictions are under advisement.

The Japanese government is considering the advisability of shutting off all emigration to the United States and Canada for the present on the ground that economic conditions render it inadvisable for citizens of Japan to visit foreign countries unless they are able to show that they are amply self-supporting.

Among the leading statesmen, politicians and business men, the importance of the near approach of the American congress and the possibility of the introduction of special measures to restrict immigration is fully realized. The opinion here is that such legislation is not likely to be enacted, but the fact of its introduction and the inevitable debates on the subject, is thought liable to increase the difficulties of the government in adjusting the situation by arousing the Chauvinists on account of discrimination against Japan, while affording ammunition for the opposition, which is increasingly active, in view of the general election in 1908.

KILLED IN WRECK. C. P. R. Caboose Overturned at Charter—One Dead, Another May Die.

Winnipeg, Nov. 18.—In a C. P. R. wreck at Charter, Manitoba, near Brandon, brakeman Neal McEachern was killed, and Conductor John H. Pratt, who was badly injured and may die, is in Brandon hospital. Both reside in Winnipeg. A train was backing up a caboose when it struck a horse and turned it over. McEachern and Pratt were riding in the caboose at the time.

BIG WINNIPEG FIRE. Winnipeg, Nov. 18.—James White's planing mill storehouse at Carberry, Man., was destroyed by fire last night. Piles of lumber which had been in the store for several years were destroyed. The loss is estimated at \$50,000.

SEEK SITES FOR ALBERNI MILLS

CONFERENCE BEING HELD WITH R. MARPOLE

Three Companies Have Decided to Carry On Business at New Town.

Alberni is apparently to become a great milling centre. To-day R. Marpole, the executive agent of the C.P.R. in the city, meeting the representatives of three different companies which are intending to locate there. The Red Cliff Land & Timber Company, and the B. C. Cedar Company also seek sites at Alberni in which to carry on operations.

These three have applied to Mr. Marpole for locations, and he reported that at least one other company will seek a mill site there. Under these circumstances the future of Alberni as a great lumber centre seems assured.

SALMON FOR JAPAN.

Large Shipment of Dog Species to Be Sent From New Westminster.

New Westminster, Nov. 16.—Five hundred tons of dog salmon, part of the season's catch in Northern British Columbia waters, are at present being salted and packed for shipment to Japan by C. S. Shinobu, a Japanese fish packer who employs over 100 Japanese at Sapporo.

The consignment will be worth \$50,000 by the time it reaches Japan, as salted dog salmon is esteemed a great delicacy by the Japanese, and finds a ready sale at 25c. per fish. Locally, dog salmon is not worth more than five or six cents, according to supply.

DETERMINED TO DIE.

Toronto, Nov. 18.—Geo. Lewisman, 44 years old, tried to commit suicide at a lodging house in Ann street yesterday. He was found in bed undressed with the gas turned on full and a morphine injector lying on the dresser. He was taken to the hospital, but the doctors have no hope for his recovery.

HARBINGER OF WINTER.

Winnipeg, Man., Nov. 15.—It would seem as if winter had at last come. Yesterday the Assiniboine river was completely frozen over and to such a depth as to support the weight of the reckless boys who ventured upon it.

DOUBLE TRAGEDY WAS ENACTED

Father Shoots His Daughter, Drinks Prussic Acid, and Dies—Woman Fatally Injured

Santa Cruz, Cal., Nov. 16.—About 10:30 o'clock this morning, Maj. Frank McLaughlin, a prominent politician and capitalist, shot his daughter Agnes, in the temple, the bullet coming out on the opposite side of her head, and soon afterward he committed suicide. Dr. Coungdon examined the girl's wound and found the bullet in her hair. She is still alive but is unconscious. No hope is entertained for her recovery.

After the shooting Maj. McLaughlin telephoned to ex-convict Jeter, who came down immediately to his house, stating that he wanted to see him. Mr. Jeter replied that he was very busy and could not come. Maj. McLaughlin then said: "I have killed my daughter, Agnes and I intend to kill myself." When he was talking to Mr. Jeter he told him to bring a doctor along with him.

Mr. Jeter and a friend immediately jumped into a buggy and drove to Maj. McLaughlin's house, where they arrived in time to see him breathing his last. The major took prussic acid. In the rooms near where the body was found a number of letters were discovered, addressed to different parties. One of them was addressed to McPherson & Waldron, proprietors of the Santa Cruz Sentinel, which read:

"Dear Friends: Please treat my memory as kindly as you can. During my life I did much good and little evil. Best wishes and regards. Frank McLaughlin."

Mr. Jeter also received a letter, which is, in substance, that on McLaughlin's breast would be found a key that would fit his private desk, in which he would find his jewelry. He asked Mr. Jeter to take charge of his affairs. In his letter to Mr. Jeter he said:

"Give my diamond ring to my colored servant girl, as that is all that I have to leave her."

He wrote to Dr. F. E. Morgan here that he was financially embarrassed, and that he was going to "end it all." His wife died just two years ago and he cherished her memory sacredly. The daughter whom he shot was 32 years of age. Maj. McLaughlin was one of the best-known men in California, and a leader of the Republican party. He was interested in many extensive mining operations, and in other enterprises.

With Chief Justice Beatty, of the state supreme court, and Rev. Peter C. York, he acted as arbitrator in the settlement of the long pending trouble between the United Railways and their employees.

AMERICA'S MESSAGE TO OLD COUNTRY

Notable Sermon Preached by Bishop of London on His Return Home.

The Bishop of London, who has gone home from his five week tour in America and Canada, preached a notable address at the Church of Holy Trinity, Bishop's road, Paddington. The bishop dealt with his experiences on this side of the Atlantic, and commented on the love and affection he found here for the Old Country.

Dr. Ingram said: "I cannot speak for the first time for the mother church, after returning from taking a message to her spiritual children across the Atlantic, without bringing back from them the message of love and affection to the old mother church in return for the message of affection which I took. You have no idea how they love you and look to you and trust you. If there is anything which could turn the hearts of the fathers to the children it would be a visit to these churches which have sprung from the Church of England. I really do not know which of the more than forty gatherings I addressed during the forty days I was over the other side impressed me the most. What a touching sight it is to see how the little mustard seed which was blown across the Atlantic three hundred years ago had grown!"

"No Sleeping Partners." If there was one thing which came to the front more than anything else while he was away, the bishop went on, it was the fact that particular emphasis was laid on the fact that he was "the poor man's bishop"—the man who had tried to grapple with the difficulties of the slums of London—the man who took his profession seriously. That was why the welcome was so touching—not because he was Bishop of London, or a British gentleman touring. The people in America expected their mother church here to be a practical church—to go into every slum and knock at every door, to tackle the leading social questions and solve them.

It was a great lesson to be present at the general convention of the churches of the United States, and to see the chamber of deputies elected. It was highly instructive to see a millionaire from Wall Street sitting side by side with a working man representing New York. It was a true democracy—a feeling of freedom—a sense that every individual member of the church had to work the church. "There are no 'parlor cars' in that church," declared Dr. Ingram with increasing enthusiasm; it is a living organism which has to be worked—and a splendidly inspiring feeling it gives to come into contact with it—and the English church has got to get that feeling back. It is not a question of establishment or disestablishment. We have to realize that everybody has a voice in it, and that there are no sleeping partners.

ALBERTA'S PREMIER. Returning Home After Attending Conference on State and Local Taxation.

Winnipeg, Nov. 18.—Hon. A. C. Rutherford, premier of Alberta, left Winnipeg yesterday for Edmonton. Mr. Rutherford is proceeding homeward after attending the national conference on state and local taxation, which was held under the auspices of the National Tax Association in Columbus, Ohio, on November 12th and 15th. Mr. Rutherford was elected one of the vice-presidents. The principal discussion was on uniformity in law, education, legislation and the action on the part of state or province. Alberta in two years opened 300 new schools, and last month opened 15.

W. E. Martin Thought to Have Been Dead Appears in Medicine Hat.

Medicine Hat, Nov. 18.—W. E. Martin, of Irvine, who was supposed to have been drowned in the river here several months ago, is reported to have been in Medicine Hat yesterday, but has since disappeared. The police are searching for him, and if found he will be tried for wife-desertion and several other charges.

FINANCING WHEAT MOVEMENT.

Ottawa, Nov. 18.—Hon. W. S. Fielding is in Montreal to-day making the final arrangements for financing the movement of the wheat crop.

There was to have been a meeting of the cabinet to put through the vacant senatorships for Ontario, but owing to the absence of Mr. Fielding it did not take place.

Are You a Good Fighter?

The battle for commercial success may be closely compared to a prize fight. It is a fight between you and man. Every year of your life is a round in the battle. Dull trade conditions offer an opportunity for you to recruit your strength and to concentrate your forces. It is an excellent time now to get your stock in trim for the fall goods that are to arrive. Summer Specials will do this and in addition to getting your stock in good shape it places at your disposal much "ready cash." Let our ad man talk with you. A phone call will bring him.

ILLNESS OF MINISTER.

Toronto, Nov. 16.-Hon. Dr. Rheum, minister of public works for Ontario, underwent a second operation in Detroit hospital for the affected month that has been bothering him for some time. The operation is said to have been successful, and the doctor expects to be around in a few weeks.

A Serious Question.

A persistent bad cold will run into consumption unless it is relieved in time. So it is with the little daily wants of the people—they grow serious if not promptly relieved. You can afford, for instance, to have that house tenanted for a little while, but when it continues tenanted month after month it becomes a serious matter. The timely "want" ad. ends the trouble.

# WESTWARD HO TO BE SLOGAN

## GIGANTIC SCHEME OF SALVATION ARMY

### Evangelists Will Carry Out Greatest Movement of People Ever Attempted.

Winnipeg, Nov. 16.—"In less than three months of the present year, we received more than 120,000 applications in Great Britain for information in reference to Western Canada from English people who were thinking of immigrating to the Dominion," said Commissioner Coombs of the Salvation Army today.

"During the year 1908 we will carry out the greatest movement of people ever attempted. We will load a ship with immigrants on February 1st, and we will carry these people a distance of almost six thousand miles, to British Columbia. We will take two solid trains from the Atlantic to the Pacific. We will bed and feed the people on the way, granting to them an inclusive rate. We will have in the party at least 200 of the best domestic servants procurable in Great Britain who will take service in British Columbia.

"We have at the present moment 5,000 families of the best class ready to emigrate to Canada as soon as arrangements are completed.

"We will send to the United Kingdom this winter twenty of the most competent men and women representing each of the provinces of Canada."

## GUILT OF TREASON IS ESTABLISHED

### Ensign Ulmo Sold Naval and Military Secrets to Germany—Spying Recognised Institution

Paris, Nov. 16.—The treason of Ensign Ulmo of the French navy, who was arrested at Toulon on October 15th, on the charge of being a spy and who it was announced subsequently had confessed, is now considered to be firmly established.

There is no longer much doubt that he made several trips to Germany and delivered documents to the German spy service at Brussels, which

# Whose Say-So's Best?

With nearly all medicines put up for sale through druggists, one has to take the maker's say-so alone and exclusively as their curative value. Of course, such testimony is not that of a disinterested party and accordingly is not to be given the same credit as if written from disinterested motives.

Dr. Pierce's medicines, however, form a single and therefore an exception to the above rule. Their claim to the confidence of invalids does not rest solely upon their owners' and makers' say-so or praise. Their ingredients are matters of public knowledge, being printed on each separate bottle-wrapper. Thus invalid sufferers are taken into Dr. Pierce's full confidence. Scores of leading medical men have written enough to fill volumes in praise of the curative value of the several ingredients entering into these well-known medicines.

In favor of Dr. Pierce's medicines is the frank, confident, open, honest statement of their full confidence. Scores of every ingredient in plain English, without fear of successful criticism and with confidence that the good sense of the afflicted will lead them to appreciate this honorable manner of confiding to them what they are taking into their stomachs when making use of these medicines.

**WHAT THEY CURE.** People often ask "What do Dr. Pierce's two leading medicines—'Golden Medical Discovery' and 'Favorite Prescription' cure?" Briefly, the answer is that "Golden Medical Discovery" is a most potent alterative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder curing a large percentage of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhoea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it generally cures the several diseases. In fact the "Golden Medical Discovery" is without doubt, the most successful constitutional remedy for all forms of catarrhal diseases known to modern medical science. In Chronic Nasal Catarrh Dr. Sage's Catarrh Remedy fluid should be used for washing and cleansing only the nasal passages while taking the "Discovery" for its blood cleansing and specific, healing effects upon the mucous lining membranes. This combined local and general treatment will cure a very large percentage of the worst cases of chronic nasal catarrh, no matter of how many years' standing they may be.

As to the "Favorite Prescription," it is advised for the cure of one class of diseases only—those Weaknesses, derangements and irregularities peculiar to women. It is a powerful, yet gently acting, invigorating tonic and nervine.

will necessitate a complete revision of the French navy and military signal codes, and the plans for mobilization. Nevertheless the incident is not likely to lead to diplomatic complications with Germany, as it is a recognized institution in Europe. The French government officially announced today that it did not demand the recall of Rear-Admiral Siegel, the German naval attaché at Paris, who is suspected of participation in the Ulmo espionage.

### SEATTLE BUYING GOLD.

Sound City Bank Has Shipment of \$100,000 Coming From London.

Seattle, Nov. 16.—The Seattle National Bank yesterday bought in London \$100,000 gold for shipment here. A cablegram from London states that the gold will be sent to the Seattle bank by the first steamer leaving for America. The officials of the bank estimate that the yellow metal will reach this city within the next fortnight.

The gold was bought in London by the Seattle bank direct, and through any of the New York banking houses. Local bank officials state that this is the first shipment of gold purchased abroad by a Seattle banking institution.

### LIFETIME SENTENCE.

Confesses to Embezzlement—Must Go to Prison For 33-42 Years.

Telluride, Col., Nov. 16.—H. A. Tilly, a former city clerk, who confessed to embezzlement from the city and from the treasury of a fraternal organization of which he was an officer yesterday, pleaded guilty. He was sentenced to the penitentiary for a term of 33 to 42 years. This is the extreme penalty for the crime.

### LOSES HIS LEG.

Amputation as Result of Entanglement in Machinery.

Red Deer, Alta., Nov. 16.—Alfred Young, who was employed by W. Warner, living west of the town, was brought to the Memorial hospital today with a badly injured leg. He was running an engine, and by some unexplained manner got his leg caught in the machinery, tearing one bone completely out of his ankle. The unfortunate man is doing as well as could be expected.

### DUAL TRAGEDY.

Two Austrians Instantly Killed by Engine Near Fort William.

Port William, Nov. 16.—Vobgunk and Deglo Horbuk, two Austrians, were instantly killed by being hit by an engine at Neelung last night. They were returning to the camp from the construction camp, and while walking off one track out of the way of a westbound freight train, were struck by an eastbound engine.
