COUNTY COUNCIL MEETING WILL PROBABLY ADJOURN

Owing to Election in the County it is Not Likely Any Business Will Be Done at This Afternoon's Session—Report of Finance Committee

The July meeting of the municipal council is scheduled for this afternoon at 2:30 o'clock, but owing to the election being held in the county today, it is probable that an adjournment will be made until tomorrow, as most of the county councillors are busy in their different parishes with election matters.

TORIES TRIED HARD TO STOP HOPEFUL VOTERS BUT THE PLOT FAILED

Partizane Clerk in Polling Booth Refused to Allow Voters to Vote Under Certificate as Allowed By Law—Hon. C. W. Robinson and Sheriff Ritchie Stopped it.

A finer day for the election in the county could not have been wished for, and indications point to a very large vote being polled.

MUST HAVE BEEN CROOKED WORK

Morning Post of London Thinks There is Something Funny About the O'er-Subscription of G. T. P. Bonds

London, July 20.—(Special)—It has been stated in the Morning Post, that the Grand Trunk Pacific issue was over-subscribed before 3 o'clock on the day of issue but it is the largest output since the issue has been a great deal of "taking" before the lists opened yesterday morning.

BOTH SIDES CLAIM THEY ARE RAPIDLY GAINING GROUND

Otherwise There is Not Much Change in the Situation in the Glace Bay Collieries Today—Yesterday's Output Largest During the Trouble

Glace Bay, July 20.—(Special)—With the Dominion Coal Co., the P.W. A. and the U. M. W., still reporting gains, the strike situation in the Glace Bay colliery district remains unchanged. This morning the company told the press that total output for yesterday was 7,765 tons. This is the largest output since the strike began, and if the figures are correct, the company is gradually gaining ground.

LITTLE PERSIAN SHAH WILL HOLD A DURBAR

London, July 20.—A despatch from Tehran to the Times says that the little Shah will hold a Durbar in the city Tuesday to make the acquaintance of his faithful subjects. He is pathetically unhappy and would willingly exchange his honors for his mother's lap.

White, of Chicago, earned a clever victory over Pete Savoy, of St. Joseph, Mo., the bout going the limit, eight rounds. Savoy was in distress several times, his staying powers saving him.

IMPORTANT DISCOVERIES IN SCIENCE OF MEDICINE

Death Stalks in Wake of Mysterious Plague—New Experiments With Tuberculosis Germs

Chicago, July 20.—Pellagra, a mysterious plague as fatal as leprosy and usually found only in the southern states and in tropical countries has been discovered among the inmates of the insane ward of the Dunning Asylum.

THE TIMES NEW REPORTER

HIRAM PHILOSOPHIZES

Mr. Hiram Hornbeam turned aside this morning for an hour to see the boys taking gymnastic exercise on the playground. He remarked to the Times new reporter that he supposed there would be something in the papers now besides politics.

It beats all what a rumpus you fellows kick up in a few days," said Hiram. "Now, two weeks ago we was all going peaceably on our business, never thinking the country was in any danger. Then all at once we pick up a paper an' find out that unless the intelligent electors drop their noses an' git busy right away there won't be nothin' left, that's what livin' fer. Mebbe they laugh the first day, an' say that paper's crazy. Mebbe they don't say much the second day. But by the time the big type comes along, an' the notices of meetin's, an' some feller calls some of our feller a festerin' sore on the body polit—then the dander's up an' you can't hold 'em. Don't it beat all? Now, I a'pose things is goin' on about as usual in the world generally, an' apples grow agin', no matter who's elected today. Hey, what? Look at these boys on the grass here. Ain't they havin' a good time? They'll be men afore long. I wonder what kind of men they'll be. Say—I believe if we paid a little more attention to the boys the men'd soon be all right. Look at that little feller there with the bare legs. Mayor Bullock takes the chair to introduce Dr. Samuel Child, of the Y. M. C. A., who will speak on Canadian government old age annuities. There will be special music, and Dr. Samuel, who is said to be somewhat resemble Sir Wilfrid Laurier, is a very brilliant speaker. The subject is one that St. John people desire to learn about, and there is no easier way to listen to Dr. Samuel's clear and eloquent exposition of the whole subject. Dr. Samuel is accompanied by Mr. Brown.

Three middle aged women are now suffering with the dread malady and six other women have succumbed to the disease within the past year. At the time of their death Dunning physicians were mystified as to the nature of their ailments. A suspicion that Pellagra was the affliction of the women was confirmed yesterday by Dr. C. H. Lavinder, a surgeon of the United States public health and marine hospital service, who for the past two years has been making a study of the baffling disease at a laboratory at Columbia, S. C. "Pellagra is one of the most mysterious diseases known to science," said Dr. Lavinder. "It is caused in no entirely understood and no certain cure has been found for it."

"Most authorities attribute the disease to the use as food of spoiled or damaged corn or its products. But no one is able to state that corn in a certain condition will cause the disease nor can any one guard against it." "Pellagra eats out the body and mind, but is a chronic disease and not acute, and usually when insanity is caused, the patient is moody rather than violent." "The disease is not considered communicable and no efforts are made anywhere, either in Europe or the United States, to quarantine the cases." Paris, July 20.—Dr. Calmette and Guerin announced before the Academy of Science last night, the discovery of an easy method for the determination of whether tuberculosis in individual cases is of bovine or human origin. They proved that the bacilli in tuberculosis of human origin do not infect cattle, by a series of experiments.

THIRD WEEK OF COAL STRIKE FINDS SITUATION THE SAME

Both Sides Claim to Be Well Satisfied With the Outlook—Coal Company is Firm in Its Intention Not to Recognize the American Union

Glace Bay, N. S., July 19.—The third week of the industrial war between the Dominion Coal Company and the P. W. A. on the one side and the U. M. W. A. on the other began Monday. Aggressive action on one side has been successfully resisted by the other and it seems that neither the company nor the strikers can boast of important gains, although each side is issuing statements that success is assured.

PEERS MAY REJECT BRITISH BUDGET

Such Action is Hinted at by Lord Lansdown and an Appeal to the Country Would Follow

London, July 17.—From a statement made yesterday by Lord Lansdown in a political speech, it is apparent that the Unionist lords intend to disregard precedent and treat the budget when it reaches them from the house of commons as they would any other measure. Here before the house of lords has not interfered with the financial measures of the government of the day, the imposition of new taxes and expenditure being considered entirely in the hands of the house of commons.

"HUNGER STRIKE" IS BIG SUCCESS

Suffragettes Win Their Release From Jail By Refusing to Take Food.

London, July 19.—The suffragettes who were recently sent to prison for taking part in disorder in Downing street, were liberated from Holloway jail today as the result of carrying out a "hunger strike."

HAZEN HAS GRAVE TROUBLES OF HIS OWN

If He Loses St. John County There Will Be Interesting Developments—Newspaper Trouble in the City

Premier Hazen must carry St. John on Tuesday as far as serious trouble within the ranks of his supporters. That is the secret of the desperate campaign which is being waged on behalf of the Conservative candidate. Naturally, the government would be desirous of carrying the seat, under any circumstances, but Mr. Hazen is animated by special feelings.

ANOTHER BIG BREAK IN COTTON PRICES

New York, July 19.—There was another sensational break in the cotton market today, with cotton for December delivery closing at 11.77, or 35 points below the final quotation of Saturday and 110 points or \$2.50 a bale below the high record of last Tuesday.

Liquidation continued very heavy and the local bear clique was very aggressive in the late trading on reports of rain in the southwest.

The greatest weakness was in the last half hour and during this time December broke from 11.90 to 11.77. The close was easy and at the lowest point of the day, a net decline of 28 to 30 points.

DEINES GRAND TRUNK HAS BOUGHT THE ALLAN LINE

London, Eng., July 19.—C. M. Hays, general manager of the Grand Trunk railway, interviewed at Liverpool, said there was no truth in the report that his company would acquire the Allan line.

He added that when the Grand Trunk Pacific was completed the company would either build a fleet or form an alliance with another company, that would bring about the same result.

ELIAS HARMER ILL

Norton, July 19.—Elias Harmer, of Norton, on Saturday last was about his work as usual when he suddenly took a dizzy spell. From that he lost consciousness and was delirious for several hours.

Medical aid was summoned immediately, doctors pronouncing it the breaking of a blood vessel and the clot is lying on the brain.

Mr. Harmer came to Norton about nine years ago and since that time has carried on a very successful merchandise and lumbering business. Many social and business friends will be shocked to hear of this sudden misfortune, and all feel keenly for the family and Mrs. Harmer.

SPORTING CHINOOK LOSES MONA PROTEST

R. K. Y. C. Sailing Committee Decide for the Frodsham Boat Which Thus Captures the Merrill Trophy.

After deliberating for some time and having before them the evidence of witnesses, the sailing committee of the R. K. Y. C. last night upheld the protest of the salmon boat Mona against the Chinook in the third and final race for the Merrill cup on Saturday, June 19, which results in the Mona taking the trophy.

It will be remembered that the owner of the Mona, John Frodsham, filed a protest immediately after the race in question, claiming that the Chinook, which finished first, fouled her at the second flag. The point raised in this particular instance, on account of the alleged foul, made the question a difficult one to deal with, but after another session of three hours last night, the decision as announced was arrived at.

The cup referred to, was donated by Vice-Commodore A. H. Merrill, and the three races for the trophy were won by the Frodsham boat.

BOTH TEAMS SEEK TO GET BETTER MEN

St. Peter's and Marathons Plan to Draw From Other Nines

There was a game of ball between the St. Peter's and the St. Joseph's called for last evening on the Shamrock grounds, but only four of the St. Peter's players showed up. To give the St. Peter's a game, several of the St. John-Baptist's joined the St. Joseph's boys and they took the field against the St. Peter's. When the North End boys took the field it was seen that Small, of the St. Joseph's, and Green, of the St. John-Baptist's, were included in their ranks.

The reason for these changes is said to be that the St. Peter's are planning to play these two men in their series against the Marathons. While this step would undoubtedly benefit the team, as both of these players are good men both in the field and at the bat, more or less regret has been expressed by the fans in the matter.

They say that the St. Peter's have won in the league without calling on men from other teams, and that they should continue this policy.

The St. Peter's claim that they are justified by the fact that the Marathons are going to play Howard, of the Clippers, and Art Finamore, of the Fredrickton. The same objection to their playing is made as to Small and Green.

If these two are to play off for the city championship it is felt that there would be more interest taken in the games if they were composed entirely of regular teams which have won in their respective series.

ST. JOHN CRICKETERS BEAT WINDSOR TEAM

Won From the Nova Scotia Players By 113 to 81—They Will Play the Wanderers to day

Windsor, N. S., July 19.—(Special)—A cricket match was played here today between the Windsor Cricket Club, of Windsor, and the St. John team. On account of the heavy rain in the forenoon, the game was not begun until 1 o'clock.

St. John went first to bat and rolled up 113 runs. The principal scorers for St. John were: Cousins, 82; Cobham, 19, and McKean, 18, and for Windsor by Fleming, 34; Buckell, 14 and Dimock, 14.

Cousins and McKean, who were at bat together, ran the St. John score up from 21 to 22 before one of the wickets went down. The bowling for St. John was by Cobham and Bogart.

The visiting team will leave in the morning for Halifax to play the Wanderers. On Wednesday they will play the Garrison team. Mr. Buckell, of Windsor, will play with the Garrison team.

MORE HORSES HERE FOR CIRCUIT RACES

Among the latest horses to arrive at Moosepass for the big meet are Prince Louis, Kingsborough, F. Colquhoun Boy and the J. S. Precoat and Dysart horses from Sussex. In all there are about forty-five horses at the track now.

On Thursday, the opening day of the races, the free-fall and 277 races will be the card. The start will be at 2 o'clock. The meet gives promise of being the best on Moosepass in many years.

EVERY LINER CARRIES SUITS TO THE COLONIES

and thousands of Canadians are yearly dressed in the latest and most approved styles and fashions through the modern and up-to-date system which we have inaugurated on behalf of those residing in the Colonies. It is no mere flight of fancy but an actual fact that you can be attired in a dressy suit of West End style and cut as produced by us for our English customers; or you may have your suit cut and tailored in the latest New York styles. In either case the cost is the same, though the prices are always dollars cheaper than you would pay anything produced locally. Does it sound impossible? Well, we can assure you that it is an actual and certain fact, and one that is greatly appreciated by Canadians.

Our great speciality is our Canadian trade, our most developing feature is our Colonial business, and this could not be so were our performances not equal to our promises. All we say we do, and you would do well to consider the wonderful tailoring advantages now placed within your reach, and then to send same as that of hundreds of others. People don't write us letters like those we print here without having the best of reasons, and we have hundreds of other letters in just the same strain. Follow their lead—let us link you up with London; let us clothe you in whatever smart and stylish fashion you prefer—London or New York—at prices far less than you have ever paid before.

FORMER ST. JOHN MAN IN BIG COAL PURCHASE

C. H. Livingstone a Director of a Company Which Has Just Bought a \$2,000,000 Property

“One of the most important developments of recent years in the coal industry was the meeting on Monday afternoon of a number of Washington, New York and Chicago capitalists in Alexandria (Va.), and the incorporation under the laws of the state of Virginia of the Black Mountain Corporation, a capitalization of \$7,500,000, and the taking over of the valuable coal property of C. Bacon Slomp, in Lee county (Va.), and Hudson Company (Ky.). The price paid was \$2,000,000.”

It is the object of the new corporation to acquire the Dulany coal region, known as the Black Mountain coal field, which is contiguous to the Slomp property in the two above-named counties, and to operate mines and furnish coal to different sections of the country. The corporation will hold upward of 50,000 acres of the most valuable coal and ore land in this section.

Prominent among the directors of the company and well known in local finance are Colin H. Livingstone, vice-president of the bank and the United States Trust Company of this city, and Benjamin L. Dulaney, of Bristol (Tenn.).

Colin H. Livingstone, referred to in this article, is a former St. John man, well remembered here.

BURGLARIZED

Sackville, N. B., July 19.—A successful attempt was made a night or so ago to burglarize J. E. Hickey's store, Main street. A pair of trousers, vest, revolver, razor, some smaller articles, and a few cents, which had been left in the till, were stolen. The entrance was effected through the cellar window from which iron bars had been wrested loose. The store was pretty thoroughly ransacked, though the quantity of goods stolen was not great. It does not seem that any serious effort was made to open the safe. It is thought that the burglary was the work of some local person.

Edward Duffy

Moncton, N. B., July 19.—News of the somewhat tragic death of Edward Duffy, a prominent and well-to-do farmer of Lower Coverdale, Albert county, reached the city about 1 o'clock this morning. It appears that Mr. Duffy, late yesterday afternoon, left his house to go after the cattle. He failed to return after quite a lengthy absence, and those at the house became alarmed and search was made for him. In a field not far from the house the searchers were shocked to find Mr. Duffy's dead body. He had apparently been stricken down with heart failure. Mr. Duffy was well known in the parish of Coverdale. He was unmarried, and an unmarried sister lived with him for him. He was about sixty-five years of age.

It appears that Mr. Duffy, late yesterday afternoon, left his house to go after the cattle. He failed to return after quite a lengthy absence, and those at the house became alarmed and search was made for him. In a field not far from the house the searchers were shocked to find Mr. Duffy's dead body. He had apparently been stricken down with heart failure. Mr. Duffy was well known in the parish of Coverdale. He was unmarried, and an unmarried sister lived with him for him. He was about sixty-five years of age.

Bishop Richardson was in the city yesterday on his way to Fredericton. On Sunday he held confirmation services at Musquash and Macos Bay and regular church services at Prince of Wales, dedicating a new church at the latter place.

Messrs. J. A. Fulton, C. E. O'Reilly, W. P. Eaton, J. A. Legere, Arthur Furlong and Mr. and Mrs. H. MacDonnell and son were in Halifax yesterday.

Women at the Soda Fountain

It was one of those hot days in summer when the heat rises in circles from the pavement, and there seems to be no shelter from the burning sun. The cooling, artificial icebergs in the drugstore window beckoned to those wearing wilted collars and palm-leaf fans. Two pretty girls, accompanied by their chaperon, a young matron, entered the store.

Then came a struggle—what to order. “Well,” said one pretty girl, “I believe I’ll take vanilla.” “Oh, no, don’t,” cried the other, “I am going to take strawberry, just look at those nice, fine, crushed strawberries in the bowl.”

The clerk, wearing the white coat of his trade, was waiting—and, likewise, were several other thirty customers. “Now,” interposed the comely matron, “I am going to take some of that crushed orange for mine, and why don't you girls take some of it, too.”

“Is orange really good?” came the chorus of sweet voices. “We never tasted crushed oranges in soda, and we are at such a loss as to what to order. Now, really, what do you think is the best flavor of all? Let's look at the menu, and then select what we think is best.”

“My, don't those pineapples look good. Wonder how they would taste? Why don't we try some pineapples, dear?” Meanwhile the clerk was still waiting.

Women at the Soda Fountain

and going to another drug store, where they would be waited on by a more accommodating clerk. But they finally took up the menu again, and the youngest girl ordered a chocolate soda.

“Why, that's what we wanted all the time,” came from the other two. “I wonder why we did not think of it, and I always take chocolate, as it is my favorite flavor.”

After the three young people had finished their sodas and left the place, one of the customers, who had waited patiently for his drink, nodded sympathetically at the clerk.

“I am used to that long ago,” the clerk replied. “These girls save more fidelity than the average when it comes to ordering. They never seem to know what they really want, in nine cases out of ten they end up by taking a chocolate soda. Almost all women prefer chocolate to any other flavor, but they like to look over the menu to talk of the merits of the different flavors, find out what flavor I like and then it seems to disappear their favorite chocolate.”

“We try very hard to please the women—we have to do it. The other day several women came in and went through the usual rigmarole before choosing their flavor. Finally one of them asked about crushed strawberry. Now it happened that we were just out of strawberry. They seemed very much surprised and

The Union depot presented an animated appearance this morning as tourists from the Boston boat awaiting trains for the east. The Point du Chene train leaving at 11:20 took away a large number for P. E. Island and intermediate points, while the Atlantic express, leaving at 12 o'clock, took away many more. Travel is now at its height and the depot officials are kept busy on the arrival and departure of every train.

PLAYGROUNDS OF EVERY DAY CLUB

St. John Local Council of Women Make Generous Contribution—Teachers at Work.

The St. John Local Council of Women, who established the first supervised playgrounds in St. John, and who have labored earnestly to have them taken over by the school or civic authorities, as they must be eventually, have joined with the Women's Christian Temperance Union in generous recognition of the efforts being made by the Every Day Club on its grounds this year. The following letter speaks for itself:-

Saint John Council of Women, July 20th, 1939.

To Mr. Belding, President of the Every Day Club:

Dear Sir,—The St. John Local Council of Women, desirous of showing their sympathy in and appreciation of the work accomplished by the E. D. C. in establishing a children's supervised playground, beg your acceptance of the enclosed twenty-five dollars, to be added to the amount already subscribed to the playground fund.

M. N. CHISHOLM, Rec. Secretary.

The fund now stands as follows:-
Previously acknowledged . . . \$71.05

Anthony Graves, who is giving gymnastic instruction to boys on the Every Day Club grounds, was there this morning from 11 to 12 o'clock for the benefit of newsboys who cannot get there in the afternoon. These exercises are free to all boys. Mr. Graves had a class of deeply interested boys on the grounds yesterday afternoon from 3 to 4 o'clock, doing various physical exercises and practicing the high and broad jump, standing on the head, turning handspins, etc.

Miss Joan Coster is on the grounds this afternoon to teach girls to play ground hockey and basket ball. Miss Fowles is supervisor on the grounds every day, morning and afternoon.

POLICE COURT

Women Disputants Told to go to Work—Krist Johnson Out Under Suspended Sentence.

The session in the police court this morning was rather quiet one.

A drunk, Douglas Robertson, was fined four dollars and left court with his fine paid.

Two women, Mrs. Coy of St. Paul street, and a Mrs. Campbell, of Brussels street, brought their domestic troubles to court but received very little satisfaction beyond a peremptory dismissal from Magistrate Ritchie. Mrs. Coy called Mrs. Campbell names and Mrs. Campbell was not slow to retaliate, with equally exquisite epithets and accused the other woman of keeping company with a married man. The evidence, if such it could be called, was very contradictory and his honor on receiving an answer to his query as to where each of the women lived, said to the one, "Now let you lie to Brussels street," and to the other "and you to St. Paul street, and try to find something to keep you both busy at home without bothering the court."

John Swayne arrested by Officers Hughes and Crawford on Market Square last evening was fined \$8 for drunkenness. In connection with his arrest a case of interfering with the police came up against Henry Tufts, a friend of the prisoner. From the evidence submitted by Tufts and William Saunders, who was also called to court, it seems that these latter two with Swayne and a few others, formed a party of merry-makers who came together at 7:30 on Union street and spent the night in having a good time until they were spied on Market Square about 10:30 by policemen Crawford and Hughes who experienced some difficulty in arresting Swayne owing to the interference of Tufts.

G. H. V. Belyea appeared for Tufts and moved for his discharge. His honor in sentencing the man said that the magistrate's report of resistance to high court in any form no matter how slight was \$80. He did not wish to be hard on the prisoner as he let him down with a fine of \$16 or two months hard labor.

Krist Johnson, or as his proper name should be, Niftoer Kristiansen of Norway, who was arrested a few days ago for trying to beat Phillip McGuire in his bar room was allowed to leave town with a room was allowed to leave town with a \$200 standing against him. He said that there was a job waiting for him in a mine and his belongings having been turned over to Judge Ritchie, and a pleased expression on his face.

A WONDERFUL ENGINE

H. R. McLellan is Well Satisfied With Recent Tests of the Strickland-Mowry Engine.

H. R. McLellan in conversation with a Times man this morning expressed himself as entirely satisfied with the tests made on the Strickland-Mowry rotary steam engine, in which he was interested. Mr. McLellan says the tests were most successful.

They placed the engine in a boat much too large for her, but large and roomy to allow some tests regarding the different diameters, speeds and pitch of two and three blade propellers, before equipping a boat for demonstration purposes and while many thought she would hardly move the boat, the engine has proven herself even better and more efficient than expected. The boat in which she is now installed had a 20 Horse Power gasoline engine, previously, and ran about 8 miles an hour, while the new engine is of 7 Horse Power, and drives the boat about 6 miles an hour.

"We are handling a propeller which requires a 10 H. P. engine to turn it 400 revolutions, and we are turning it 400 with our engine, so you can see that she is more than we figure her, and this is evidently due to the fact that we have some of the ordinary reciprocating engine, always figured her indicated H. P. the without allowing anything for her gain in power from her rotating motion, and not giving her sufficient credit for her small amount of friction."

"We will place this same engine in another boat and supply the White Steam attachment out, will then build a compound engine of the same type and of sufficient power to drive a 50 or 60 foot demonstration boat 30 miles per hour."

You are pretty well satisfied with the engine.

"Yes, I would be hard to satisfy, if I was not, for she has done more than we expected her to do, and I do not think we have been at all backward, in asking her to demonstrate her efficiency, and she has already done more than any other engine developed along similar lines has ever done. She has been tested as a stationary engine, and also as a marine engine, has been tested with a Frony Brake, showing about 90 per cent. efficiency, has proven her reverse motion, and has been applied to an auto-motive boiler, and proved herself, and has been reversed under a full head of steam and in many other ways has proven good, and the best thing of all in connection with her, is that she will admit of such a low cost of construction, that when on the market, the engine can be sold for 50 per cent. of the price asked for any other engine on the market, and when you purchase an engine of this design, it can be used for stationary, marine, electrical, and any other purpose for which any engine is used."

"We combine the forces of both the reciprocating engine and the turbine, carrying along the economy of the reciprocating engine at low speed and the turbine at high speed, securing the power from 10 revolutions per minute and increasing the same to any number of revolutions, and without any limit to our speed, as against any type of engine known."

AN INVOLUNTARY BATH

Jim McKay, familiarly known under the suggestive cognomen "Bunty" of north end, was involuntarily treated to a salt water bath yesterday afternoon by falling from the edge of Gregory's dock into seventeen feet of water, which means about five times over his height. It was a very narrow escape for "Jim," as he struck on the guard of the steam yacht Dream and received a severe blow, though he still retained two articles which he had in his keeping when he fell—a squareface in one hand and a rat terrier in the other. He made no outcry when he fell, but a couple of men nearby, hearing him strike the boat, hurried to his assistance and found Capt. Worden, of the Dream, holding him up with a boat-hook.
