PROVINCE'S GUEST BARRED FROM MASS

French Representative Was Refused Invitation

Lieutenant-Governor Jette Refused to Attend as Mon. Herbetie Was Ignored.

QUEBEC, July 29.—The reason Sir Louis Jette, Lieutenant-Governor of Quebec, was the conspicuous absentee from the mass on the Plains of Abraham last Sunday morning was the fact that the clergy had refused to invite officially his guest, Hon. Louis Herbetie, one of the commissioners of France, who is a noted anti-Clerical. Admiral Jauriquerry, the other commissioner, though a Protestant, has never identified himself with the anti-clerical legislation in France.

The Enterprise Foundry a Total Loss—Inter-colonial Hotel and Outbuildings, I. C. R. Station and Freight Sheds Burned, and Other Properties Damaged.

ENTERPRISE FOUNDRY INSURANCE \$52,000 The Loss is Estimated at \$80,000

SACKVILLE, N. B., July 30.—Sackville was visited last night by what was probably the most calamitous fire in its history, which left the plant of the Enterprise Foundry Company in ruins, destroyed the Intercolonial Hotel, with its barn and other outbuildings, and also the old Intercolonial railway station, which had been used as a freight shed and adjoining sheds. In addition to this the fire did considerable damage to the new Intercolonial station.

NO JUDGMENTS GIVEN YET IN ANY OF DIVORCE CASES

Judge Gregory Warns Vanderbeek Not to Get Married Again—Mr. Powell Advised to Wait a While—No Hurry Displayed.

FREDERICTON, July 30.—The divorce court met this morning pursuant to adjournment when it was expected that Judge Gregory would deliver judgment in the cases of Horsman vs. Horsman and Purge vs. Purge. His honor said that he regretted very much to have to announce that he would have to still further postpone delivering decisions as he had mislaid papers of the case and was not prepared at the present time. This his honor was speaking those interested in the Vanderbeek divorce suit tried yesterday entered the court room. The judge was taken somewhat by surprise and asked Mr. Vanderbeek what he was after and whether or not he expected him the judge to find him another wife. Mr. Vanderbeek replied that he had come down as he saw the court was going to meet and Mr. Carvell his attorney had gone home yesterday and he had had no conversation with him.

INTERCOLONIAL NOW HAS A TOTAL MILEAGE OF 1,466-65

Survey Has Been Completed—Progress of the Work on the Moncton-Chipman Section of the G. T. P.

MONCTON, July 30.—Within a month it is expected the first rails of the Grand Trunk Pacific Railway in the Province of New Brunswick will be laid on the Moncton-Chipman section of the Transcontinental Railway. Preliminary work on seventeen miles of the fifty mile section has been completed, extending west from Moncton and work on the entire section is progressing most favorably. A six mile road has been constructed branching off near Salisbury and extending to the gravel pits near that place. The work of ballasting that road will be started immediately, and when this is completed the first rails will be put down. Six miles from Chipman another gang of men is working on preliminary construction and along the remainder of the fifty miles between this city and Chipman another section of men are at work. There are five hundred men on this section, including Austrians, Italians, Bulgarians and natives. Work has been carried on under favorable conditions, particularly the digging of earth, as there has been no rock at all encountered, and grades were not very heavy. With regard to the building of bridges, there has been little or no

GERMANY BUILDING AN AERIAL NAVY

Eight Dirigible Balloons Will Soon be in Service.

The Zepplin Model is Favored—Present Plans are Chiefly for Experimental Purposes.

BERLIN, July 30.—While County Zepplin is preparing for his great trial with his aluminum airship, other experiments with semi-rigid and entirely flexible dirigible balloons are proceeding in various parts of the country under the supervision of government officials. It is understood that by the end of the year the military authorities will possess eight dirigible balloons suitable for war purposes. Two of these will be of the Zepplin model, with a gas capacity of about half a million cubic feet. The taking over of these depends upon the result of the endurance, flight and their ability to descend on dry land. Two others are of the semi-rigid class. They are now in the possession of the army balloon corps, and have a capacity of 50,000 and 120,000 cubic feet respectively. Three of the balloons are of the Parseval class. These are flexible envelopes of 40,000, 110,000 and 170,000 capacity. The eighth is an enormous flexible balloon, now under construction at the Siemens-Schuckert workshop here, with a capacity of 434,000 cubic feet. The acceptance of the flexible balloons is conditioned on ability to pack and transport the entire balloon on wagons, so that after unpacking it can be filled from portable gas tanks wherever desired, while following in the train of the army. These acquisitions will form the base of further tests in order to decide which system is most useful for army purposes. At the conclusion of experiments, a fleet of at least thirty will be constructed. Test will shortly be carried out in the vicinity of Berlin, which will include the dropping of explosives from airships on designated positions, but the results of these tests will be kept secret.

DEPUTIES ARE CHARGED WITH SERIOUS CRIME

ST. STEPHEN, N. B., July 29.—War is on in Calais. Three sturdiy deputies, Albert French, Ernest L. Richardson and Leslie H. Hayward, have been operating in Calais for some time against the liquor dealers. Last Friday evening they went to Milltown, Me., and arrested J. F. Seawray, or Sirois, proprietor of the Milltown House, a small hotel, on the charge of having liquor on his premises. It is stated by eye-witnesses that the Frenchman offered no resistance, but for all that he was unharmed. He was taken to the police station and his bonds for his appearance at the superior court. Later he swore out warrants charging French with assault with a dangerous weapon, and Richardson and Hayward with common assault. The three were arraigned this evening by Marshal Crossman and Deputy Marshal Hayward and arraigned in a special session of the court in Machichet. Calais is greatly excited over the developments and excitement is shared to a considerable extent on this side of the river.

GOVERNOR MAY HAVE BEEN LOST IN BAD STORM

ST. JOHN'S, N. F., July 29.—No tidings were received today of the whereabouts of the cruiser Flota, which was sent to the Labrador coast for the safety of the vessel on account of the report of a severe north-west hurricane off the Labrador coast. The Flota has not been heard from for four days when last reported she was off the southern Labrador coast. In the storm which swept Tinker Harbor, wrecking seventeen vessels, and reported yesterday, eight vessels and three men are also said to have been lost at Bayam Bay. No reports from the northern Labrador coast have been received.

The collision was caused by the rear train being stopped on a charge of assault.

BOARD OF WORKS

Last night's meeting of the water and sewerage board was held at the headquarters of the board on Tuesday evening. The aldermen completed their business in quick time and were through by ten o'clock.

Applications for the extension of sewerage and water mains took up considerable time. An extension on Haven street, West End, was practically refused. Concerning one on Celebration street the board was asked to report. The claim of George Cusack for \$200 damage due to a defective sewer was ordered to be paid. The claim of A. Danial and Company, Charlotte St., for water rates was refused and the order and the director were asked to refer to the board of works for the water rates on the property of W. F. Barnhill, Fairville.

A list of the proposed locations of standpipes for the water works was presented to the board. At the request of Ald. McGoldrick the matter was referred to the board of works which meets on Friday.

A special committee was appointed to inspect Misses' Excursions leave Aug. 11th and Sept. 6th. See general arrangements outlined by General columns. Read the posters issued, or call on railway agents.

TAKE MOOSE IN ACTION. Dr. Heber Bishop Gets Moving Pictures of Big Game.

Dr. Heber Bishop has the distinction of having secured the only moving pictures of big game ever taken. These were secured as the result of a suggestion of the fish and game commission, and the work of securing the pictures took several weeks in the woods of Maine and New Brunswick. These were taken by a party of five men, including Dr. Bishop, and the work of taking pictures of moose being particularly difficult. The moose come out only at night, and the early morning, so that the question of light had to be taken into consideration.

One of the most interesting of the moving pictures taken by Dr. Bishop's party and now being shown at the Boston Theatre, is a most exciting struggle with a salmon which weighed 56 pounds and took five hours and 28 minutes to land. Boston Globe.

DEATH FOLLOWS BURNS ON LITTLE BOY'S BODY

George Quinn, the three-year-old son of James Quinn, a North End fish dealer, died last night at eight o'clock as the result of burns received early yesterday morning.

The little fellow slept with his sister, who is a year or two older, and shortly after seven o'clock yesterday morning they both awoke. George crawled out of his bed in his nightgown and in some unknown manner secured some matches with which he started to play. Suddenly his little sister was startled by a cry and upon looking at George found his nightgown on fire. The youngster was soon enveloped in flames. In this condition he ran screaming to his parents' room, where they were asleep. The cries of both his sister, who was frantic with fear, and the boy himself awoke the father and mother, who jumped from their bed and immediately extinguished the flames with a quilt. The entire nightgown and little undershirt had been burned, and there was hardly a speck of hair left on the boy's head, which was severely burned. His hands and arms, legs and thighs were covered with large, painful burns, which caused the little fellow to scream with pain.

Dr. Roberts was summoned and upon his arrival George was unconscious. He remained in this condition for some time, and from the first there was little hope of saving his life. Before his death, however, he returned to consciousness. He died at eight o'clock in the evening.

The parents of the boy are affected greatly by the death of the little fellow. He was their only son and was very bright and smart for his age. He was the life of the Quinn home. Much sympathy is expressed for the mother and father of the boy by their numerous friends in the North End and other parts of the city.

NOVA SCOTIA MEN DEAD. Priest Died in Boston Hospital—Laborer Fisher's Boat Capsized and Man Drowned.

HALIFAX, July 30.—Rev. John Cameron, parish priest of New Aberdeen died yesterday in Boston City hospital. Father Cameron was a native of Glen Lavel, Scotland and came to Cape Breton from Parish of Aberdeen about 7 years ago, six of which he had charge of New Aberdeen. He left for Boston to undergo treatment about two weeks ago. He was aged about 55 years.

While Clifford Brewer of Ingonish was landing his lobster traps yesterday afternoon he capsized his boat, which is supposed to have struck a sunken rock. His body was found close to shore in about two feet of water.

VIENNA, July 30.—A special to Die Zeit from Constantinople gives details of an alleged plot against the Sultan's life, which, it says, finally determined the Sultan to grant a constitution.

ATHENS, July 30.—A semi-official statement has been published calling attention to the enthusiastic approval of the new regime shown by Greek residents throughout Turkey, as contrasted with the unceasing discontent of the Bulgarians. The statement announced that Greek banks everywhere are joining in the movement of conciliation.

CONSTANTINOPLE, July 30.—Although the demonstrations on the streets of Constantinople over the granting of a constitution have practically ceased, nevertheless there are signs of much dissatisfaction among the public as to the progress of the introduction of liberal elements. Some of the wisest descriptions continue in the cafes, where officers and civilians embrace each other and express their delight at the ending of the tyrannical regime.

The situation still lacks orderliness and it is impossible to forecast the next development. The young Turks are masters of Constantinople and the European provinces and the capital the feeling is anything but favorable to the Sultan. Even in Constantinople disloyal propaganda is being disseminated. At a banquet in Zeres to celebrate the anniversary of the constitution, the name of the Sultan was hoisted, while the Christians at this place are beginning to distrust the professions of the young Turks.

Hardly any news has been received from the Asiatic provinces, the naval and military commandant at Smyrna have been dismissed by the young Turks owing to their hostile attitude toward the constitution.

Everyone has been greatly impressed with the perfect organization of the young Turk movement and the absolute discipline in all ranks. The only incident of today has been a noisy demonstration of artillery officers who are regarded as disloyal. The master of the Artillery, whose withdrawal was demanded. It has become known that the Zaim Melamed Pasha, Minister of Mines and Forests was assisted in getting out of the country by the good offices of the Italian Embassy and this fact has produced a bad impression among the liberal Turks.

SAN FRANCISCO, July 30.—Stanley Ketchell and Hugo Kelly, who will meet in a 20 round bout at the Coliseum tomorrow night, have finished their period of training and are now in condition. The battle carries with it the middleweight championship Ketchell, the holder, having won it by his recent defeat of Paque in Milwaukee. The men will weigh in at 6 p. m., and must not exceed 150 pounds. Interest in the contest is keen and there was a tremendous rush to purchase seats when they were placed on sale yesterday. Betting favors Ketchell at 2 to 1.

SANDPOINT, Idaho, July 30.—Abe Attell was awarded a decision over Eddie Marino at the end of a ten round battle last night. Marino was outclassed and was given a hard punishment, being saved in the third round by the gong.

HORSE THIEF ATTEMPTS SUICIDE IN JAIL

Stole Outfit From a Barn But Was Captured After an Exciting Chase Through the Streets.

WARREN, Mass., July 29.—An unknown man who is alleged to have stolen a horse and wagon from the stables of George Adams was pursued by an angry mob through the streets of this village today, and when finally captured and placed in the lock-up, made an attempt to end his life by hanging. At a late hour tonight he had not recovered consciousness. Cards were found on his bearing the name "Alton Torsey, Saco, Maine."

When Mr. Adams found his horse and carriage gone from his stable, he started for the village in the hope of over-taking the thief, and when about to board an electric car near this town he met a man driving the stolen outfit. Adams recovered the equipment, but the man disappeared into the woods.

While Adams was telling his story to an officer the man suddenly reappeared and the chase began. The culprit was driven into the cellar of William H. Kimball, where he hid under some planks. He was arrested by Officer Joseph St. George and taken to the lock-up, where a short time after he was found hanging, apparently lifeless, by a strip of his blanket, to an upper bar.

MURDERESS DIES AT CAYENNE. Mrs. Vere St. Leger Goad Was Deported From Monte Carlo for Trunk Butchery.

FRANKFORT ON MAIN, July 29.—A despatch from Monte Carlo states that Mrs. Vere St. Leger Goad is dead at Cayenne, French Guiana, of typhoid fever.

Mrs. Goad and her husband under the titles of Sir Vere St. Leger Goad and Lady Goad, had lived at Monte Carlo in the city for some time when they were arrested on August 6 of last year in the railroad station at Marseilles.

They were trying to ship to Paris a trunk containing the body of a woman, which turned out to be that of Emma Lewis, whom they had murdered in their villa at Monte Carlo for her jewels.

Goad subsequently confessed that he and his wife conspired to murder and he sought to shoulder the burden of guilt, but on the trial the conclusion was reached that he had acted under the influence of his wife.

While she was condemned to death, the man was sentenced to imprisonment for life. On February 11, however, her sentence was commuted and she was set free.

AN ENGLISH VIEW OF NAPOLEON

It is recorded that years after Waterloo, when the Iron Duke stood before the tomb of his great enemy at Les Invalides, he said, "Napoleon never was a gentleman."

The great contrast between the two soldiers was never better exemplified than by a strange little incident which occurred at Waterloo. The emperor had ridden so far toward the British lines as to be within range of our cannon. The officers in command of the batteries saw Bonaparte surrounded by his brilliant staff and treated the emperor as the duke who had seen the emperor's approach and observed the act of his gunners, galloped up to the battery and ordered his guns to cease firing. It was an act of generosity characteristic of Wellington, and it is said to think that had the positions been reversed the orders to the gunners would have been different.—Pearson's Weekly.

THE HUMAN ANATOMY.

To the Editor of Sports:
Dear Sir,—It is said that anatomy is a great study—I believe it. I've been trying since goodness knows when to locate certain of my bodily organs, which, until recent years, I did not know that I possessed.
Occasionally I hear said, "He was hit in the collar." "He was kicked in the scuff." "She was run over just below the post office." "His shot a man in the backyard." "He was shot in the corridor." "He kissed her upon the piazza." "The engineer struck the fireman in the cab and the fireman kicked the engineer in the coal tender." Now, have these anatomical parts ever been tagged or labelled?
To this list might be added a sentence which appeared in a St. John paper a few years ago in an account of a lover's suicide: "He shot himself half way between the bathroom door and the front porch."
UP TO DATE.
Bank Cashier—Madam, I have no doubt this check is all right, but you will have to bring somebody to identify you.
Fair Caller—I know it, sir. I have read all about such things and know what your routes are. I have brought my little boy to identify me. Warring tell the gentleman who I am.—Chicago Tribune.

GOES TO JAIL FOR PULLING HIS WIFE'S EAR

John Keefe of Pond Street in Trouble—A Tramp Told to "Go to Halifax"

For a husband to pull his wife's ear is considered an offense by the law, and is called an assault for which the hubby can be sent to jail for a couple of months in default of paying a fine of \$20.

In the police court this morning John Keefe of Pond Street was before Magistrate Henderson charged with assaulting his wife. The defendant is a man of about 48 years of age and the ear that he pulled is part of his wife who is about 70 years of age. When asked what he had to say to the charge Keefe said he had been having family troubles for some time past and that his wife was continually "yanking" at him. He repeatedly told her to "quit" but when she did not stop "yanking" he simply caught hold of her ear and pulled and he did not consider that an assault.

Magistrate Henderson asked the old man if it was not true that he had been leading for some time, while his aged wife went out to work and supplied the food.

"Oh your worship!" said the defendant, "I can't get work but am willing to work if I can get it to do. The wife sometimes brings in a loaf of bread and I get a piece of it."

The magistrate said that from the confession made regarding the pulling of the woman's ear the prisoner was guilty of assault, so he was remanded to jail until further inquiries are made regarding him.

Mrs. Keefe was then called into court and said that she considered her husband was insane, and that he would not treat her as he did if he had been in his right mind, but he has been that way for the past five years.

Patrick Kelley is a tramp and beggar, with a bad foot. He was brought before the court by Sgt. Baxter on the charge of vagrancy. It is not Kelly's first offence in St. John or elsewhere, but this morning he said he was a native of Halifax, and if given a chance would return to the sister city. He was sentenced to a term of three months jail with hard labor, but three months was allowed to stand providing he gets out of the city by noon.

"You can go to Halifax," said his honor, Kelly thanked the court and hobbled out of the room, saying as he left that he would immediately leave the city.

One common drunk was fined four dollars.

OTTAWA, Ont., July 30—Judge Cassels will resume his inquiry into the civil service commissioners' charges against the marine department on September 2nd in Montreal. BUSY DAY AT CITY HALL.

This will be a busy day at City Hall as three different meetings are on the agenda.

This afternoon at three o'clock the sub-committee of the safety board, which was to consider the fire situation in West St. John and recommend what action should be taken, will meet.

At four o'clock the commissioners of the public hospital will meet with another sub-committee to consider the fire escapes on the hospital building.

The regular monthly meeting of the treasury board will be held this evening at eight o'clock.

TEAMSTERS AND STREET CARS BECOMING A NUISANCE

They Do Not Obey the Regulations About Standing Still When a Fire Alarm Rings.

The fire department were given two calls this morning. Shortly after nine o'clock a fire was discovered among some shavings in Lawton & Co's factory on Erin street. An alarm was sounded from box 17, but when the department arrived the factory employes had put the fire out with the factory hose.

About 11:45 o'clock an alarm was sent in from box 14, and the department was responding to find a blaze on the roof of the Toomey house on Clarence street. The house is occupied by Robert Hamilton and Albert Graves. A stream from the chemical put out the blaze, and the damage done the building was slight.

Of late the drivers of the fire apparatus find their work in responding to alarms hindered by the utter disregard of teamsters and street car motormen of the orders to stop or get out of the way of the department apparatus. Fire department drivers are careful and are good men, but when they get up speed and a street car motormen or driver of a sloven deliberately drives in the way it compels the fireman to act quickly and in many cases accidents are only avoided by the good work of the driver. Yesterday afternoon when the fire escapes on the hospital building, the regular monthly meeting of the treasury board will be held this evening at eight o'clock.

QUART OF BLOOD SAVES MOTHER'S LIFE

Ben Volunteers as Woman Was Dying and She Quickly Recovers.

WYCHA, N. Y., July 29.—Mrs. Joseph Derrick, of Roma, N. Y., is alive today because her son William Derrick, 24 years old, gave nearly a quart of his blood for transmission to her veins last night when she was in a state of collapse following a severe hemorrhage. A physician told the members of Mrs. Derrick's family that the only hope of saving her life lay in blood transfusion.

PERSIAN NATIONALIST LEADER MURDERED

Was the Foremost Orator of the Recent Parliament—Crime Supposed to Have Been Committed by Order of the Shah.

TERRACAN, July 29.—Sayid Muhammad, the nationalist leader and the foremost orator of the recent parliament, was assassinated at Hamadan, which is about 186 miles from Tehran. Sayid Muhammad went to Hamadan after leaving the British legation where he had taken refuge. Prior to this he was among those captured by the Cossacks after the fight which raged around the parliament buildings in Tehran during the latter part of June. It is supposed that the deed was committed by agents of the Shah.

NEW YORK COPS KILLING ALL COLLARLESS DOGS

In Spite of the S. P. C. A.'s Protests—This is Being Done for the Public Safety.

AMUSEMENTS

THE DREYFUS CASE A GREAT PICTURE

The crowds that saw the great French military picture, The Dreyfus Case, at the Nickel yesterday afternoon and evening were amazed at the truly wonderful triumph for Pathé Freres, the Paris photographers. The historic truthfulness of the characters, scenes and plots gave the picture unusual realism and few could realize it was a rehearsed play, though an exact re-enactment of the original episode.

AT THE CEDAR

Have you seen Professor Caden? This was the question on the lips of all who attended that great popular house The Cedars last night. This wonderful man certainly held the vast audience spellbound last night by his wonderful performance. Lovers of the mysterious must be sure to pay a visit during the rest of his engagement which concludes on Saturday. The picture are of the usual high class, "A Little Music" being one continual screen from start to finish yesterday and the new show was as promised—a good one. Holmes and Buchanan sang that great favorite, by Your Side, as a duet number, and as usual encores were demanded. The Grand Canal at Venice is one of the most interesting pictures yet shown. Beautifully tinted the spectator is carried the full length of the canal—obtaining at the same time a splendid view of the many magnificent buildings for which Venice is noted, and views of its famous monuments and bridges. I Won \$100,000 is a comedy drama picture, and Sammy's Idea, and The Leaky Glove are both laugh producers. Today Prof. Titus will sing Dear Heart, and Harry LeRoy will sing If I Should Fall In Love For You.

HAPPY HALF HOUR

The same old S. R. O. was the rule at the Happy Half Hour yesterday, and the new show was as promised—a good one. Holmes and Buchanan sang that great favorite, by Your Side, as a duet number, and as usual encores were demanded. The Grand Canal at Venice is one of the most interesting pictures yet shown. Beautifully tinted the spectator is carried the full length of the canal—obtaining at the same time a splendid view of the many magnificent buildings for which Venice is noted, and views of its famous monuments and bridges. EXCELLENT PICTURES AT THE UNIQVE

Some of the best pictures ever shown in this city are now at the Unique. The feature film is entitled, "Held by Bandits," and is one of the best and most interesting malo-dramas ever produced. It tells of the thrilling rescue of an American girl who was captured by bandits while camping in the Alps with a party of tourists. She was the favor of a daughter of one of the brigands, who informed her father. Her lover finally rescues her after a sharp fight, in which all the bandits are killed.

INVALID DISHEER

"Did you ever see a Jew come in," said a veteran waiter in another restaurant, "go to a side table, and whisper that he wants pork chops?" This is what we tell the cook: "Forbidden fruit, put out the lights and chase the rabbi!"

SARCASTIC COMMENT

One of the regular customers of a city restaurant observed for several mornings that, when serving the dishes, a new waiter would invariably get his fingers in the meat and vegetable dishes. When the aforesaid waiter came around to the table one morning the customer gave the following order, supplemented with some sarcastic comment:

Give Your Washerwoman Fels-Naptha, Says Anty Drudge.

Mrs. Gospeper—"Goodness, but Mrs. Verrich must have a lot of work in that big house. I've heard she had four women doing the washing."

Mrs. Cottager—"I have had more than a dozen doing my washing, though only one at a time."

Anty Drudge—"If you bought Fels-Naptha soap, you could keep your washerwoman longer or do the washing yourself. Washing is a small job for any woman if she uses Fels-Naptha in cold or lukewarm water, and lets it take the place of boiling and hard rubbing."

Be sure and use Fels-Naptha soap the Fels-Naptha way—no hot water.

THE RESTAURANT SLANG HAS REACHED ITS LIMIT

Walters in the cheaper American restaurants possess a vocabulary of slang and a stock of stories replete with humor. There is an old story of a waiter who showed up his orders in such quaint terms that a traveler determined to battle the man's ingenuity. The waiter, however, was equal to the occasion, so when the traveler ordered two eggs which were to be scrambled and served on toast, the waiter translated the order to "Adam and Eve on a raft. Shipwreck them."

STRANGE PARE

"Give me two eggs fried on one side and three slices of crisp, broiled breakfast bacon," ordered the man. "Two cakes slugged in the face and three squeals crisp," bowed the waiter, while the woman looked astounded. "And yours, madame?" said the waiter, innocent of creating any sensation. "I'd like a steak well done covered with onions," she replied. "One steak crumpled and soft-cooked," again yelled the waiter.

INVALID DISHEER

"What would you like to drink?" asked the waiter. "The woman ordered a cup of coffee, with cream, two lumps of sugar and a course, and wanted a spoon. The man wanted a cup of coffee without cream. Here is what the waiter ordered. "Cup of mud, two chunks of ballast, milk the Jersey, and throw in a piece of strap-iron; draw another a small wine."

SACKVILLE FIRE

(Continued from Page 1.)

gether with other foundry buildings, save the sand shop, were in flames. It was not long before the hotel barn and in turn, the hotel itself, and old station were also masses of flames. Before the hotel caught, the house was practically full. The guests had been awakened and gotten out in safety, though one or two, becoming excited, were in danger for a time. Mrs. Dixon, the aged mother of A. W. Dixon, had to be carried from the burning building by her son. When the old station caught it was seen that nothing could be done to save it, and all energies were turned toward saving the new structure. Fortunately the men were successful in this, though the west end of the building was quite badly gutted. Employees of the road were able to save valuable papers which were in the old station.

This morning there is nothing but a mass of smoking ruins where yesterday were a dozen buildings. One very large quantity of finished stock and several companies' tools, he said, would not nearly meet the loss. In addition to the buildings there was destroyed a very large quantity of finished stock and also a quantity of raw material as well. Included in the latter was two carloads of steel. The insurance on the Intercolonial Hotel property is understood to have been but about two thousand dollars. This, of course, would not nearly cover Dixon's loss. All hotel furniture, save the piano, was destroyed.

SARDINE DISPUTE REACHES ANOTHER STAGE

Matters reached an acute stage in the sardine-fishing business on Monday last, when representatives of the Workmen's Union entered complaints at the custom house against syndicate fishermen who have taken fish across the line without entering or clearing as the law directs. As a result several boats have been placed under the customs ban and are liable to seizure. It is a matter of regret that this action should have been found necessary to those who know anything about the sardine business that it cannot be carried on successfully if boats have to enter and clear every trip.

The guests at the Algonquin hotel, St. Andrews, this week include F. W. Fisher, H. W. Schofield, H. G. Harrison, W. W. Stetson and C. F. Sanford, of St. John.

This will positively be the greatest sale ever held in a section of Canada, and any one living within a radius of thirty miles can well afford to avail himself of the stupendous underpriced offerings of this greatest bargain feast. C. B. Pidgeon.

About 8.30 o'clock last evening a small boy managed to enter street car No. 27 and steal the fare box. The boy made his escape by jumping a fence in the rear of the Christian Church.

By an advertisement in another column, the Knights of Pythias of this city are requested to turn out on Saturday afternoon at 6 o'clock and escort to the boat those who are going to Boston.

G. Winthrop Sands, a stevedore of W. K. Vanderbilt, was killed 39 miles from Paris, France, yesterday. He was driving his horse power automobile at a terrific clip when a tire burst and the machine was dashed against a tree, and turning over buried him under it. The driver was killed instantly and was so badly injured that he died after being removed from the wreck.

Queer collections drift in with the tide of church collections. Last week Mr. J. C. Armstrong missed a little piece of silver (made out of a ten cent piece) from the top of his hat when he had forgotten all about it, until a Sunday or two ago when he discovered the missing piece among the cushions in the offertory of the Presbyterian church of which he is treasurer.—Beacon.

The residence of the late Hon. James Mitchell, St. Stephen, was sold by sheriff sale on Saturday last to satisfy a mortgage claim arising out of moneys owed the Union Bank of Halifax by the Graham Bail Ice Company, Ltd. of Sydney, of which Mrs. Mitchell is a member. The claim amounted to about \$700. The property was sold to Mrs. Franzy Bates for \$200.—Beacon.

Henry Post who has been superintending the inside finish work on the new Catholic Church at Grand Falls, returned home on Saturday. The church is a massive structure built of concrete blocks and handsomely finished. It will cost in the vicinity of \$40,000.—Dispatch.

Two of the fakirs, followers of Cole Bros' circus, were captured at Westfield yesterday and after turning over \$700 to the police they were allowed to go free. At Antigonish on Monday an elderly man was forced out of the money by the sharpers who worked the shell game. Constable Fraser, of Antigonish, assisted by Constable McLean, of Hopewell, rounded up the fakirs at Truro, and forced them to hand over the money. After being released the men left for Amherst.—Transcript.

The crews who "also rowed" in the fat man's skiff race at Westfield on Saturday last, Messrs. McIntosh, Robinson, Nevis, Keefe, Frodsham and Partner; Bartsch and Rothwell, not being satisfied with the result, and anti-fat were won upon the true merits of the contestants, hereby challenge the winners, Messrs. Creighton and Dooey, to a race over the same course (or a longer one if they have recovered their wind) on Saturday, August 1st. An injunction will be applied for to prevent the challenged parties using Anti-Fat before the race.

BANK CLEARINGS.

Week ending Thursday... \$1,196,531 Same week last year... 1,139,212

Increase... \$57,466 This is a different showing from what has been regularly reported during the past eight or ten months, when decreases have been the rule. Yet the fact that bank clearings show a satisfactory gain in one week is not necessarily an indication of generally improved conditions. If similarly favorable reports are received for a month or two it will be time to speak of better trade.

LACK OF WITNESSES; HEARING ADJOURNS No Session of Central Railway Enquiry Today.

Mr. Powell Could Not Get Witnesses He Wanted—Mr. McAvilly's Accounts Not Yet Ready for the Court.

The Central Railway Commission met this morning and adjourned sine die without transacting any business. The commission was represented by Judge Landry, president, and H. A. Powell, commissioner. A. P. Barnhill appeared for the former railway commission and M. G. Teed for the N. B. C. & R. Co.

Mr. Barnhill informed the court that the work of compiling Mr. McAvilly's accounts during the period the road was in the hands of the former commissioners, had been completed. He had not had an opportunity to check the totals, and the stenographers had not completed the work of transcribing the accounts. He was therefore unable to submit the accounts to the court.

Mr. Powell explained that this session had been called to hear a couple of witnesses whom he intended to examine, if his accounts were completed. He could not get his witnesses for this morning, so he had informed the other two commissioners that they need not be present, as the court would not be able to go on with the session.

Mr. Barnhill said he wanted it made clear that Mr. McAvilly had not defaulted in not having the accounts ready. When the session was fixed for today he had informed the court that he did not think he would be able to do so if possible.

Judge Landry in assenting to Mr. Barnhill's explanation said that it was very satisfactory to hear that everything would be made clear. The commissioners were not seeking for sessions or for any evidence of wrong doing, they merely wished to get the facts.

Mr. Powell informed the court that the only remaining witnesses who he thought could throw any light on the transactions of the road were L. G. Fowle, Hon. Wm. Fugley, E. G. Evans and Mr. Wheaton, the contractor.

It was arranged that the court should be convened at the call of the president, not earlier than next week, and if possible on a date when Hon. Wm. Fugley would be able to attend.

ST. JOHN MAN SENTENCED FOR LARCENY IN BANGOR

John Reid Sent in for Four Months for Taking Time—Aged Negro Wanderer From Cape Breton.

(Bangor Commercial). John Reid, of St. John, N. B., who gave Patrolman Donovan a wild goose chase Tuesday afternoon before he was captured on Exchange street, was sentenced to 130 days in jail Wednesday morning by Judge Chapman for the larceny of six watches from the establishment of Adolf B. Friedman and Hyman Epstein.

Reid, now corresponding to a jeweler store, for he went up into the places of business of Friedman and Epstein, and while the proprietors were tending to other business, he lifted the timepieces, valued at \$38.50, and made off with them. Friedman, soon on the scent, located him, and after an exciting chase which began on Broad street, wound up Saturday in the Bangor House park and over the Maine Central draw-bridge and captured him on Exchange St.

IS A GREAT WALKER.

John Thomas Blackwell, an aged colored man of 84 summers, who is walking from Cape Breton to Virginia, was in this city Tuesday and applied for shelter at the police station. After spending Wednesday in this city, the aged colored man will resume his tramp south Thursday.

Blackwell, who was described in the Commercial's correspondence from Machias several days ago, is quite a picturesque character. He has been well informed and knows the places he has visited like a book.

Seven years ago he heard that a brother whom he had not seen for 60 years was living in Cape Breton, so he started out from Woodstock, Va., to find him. He passed through Bangor on the journey which took him a year and a half to complete. After a vain search his brother was not located, but John decided to see Canada, so spent a year in Fredericton, a year in Halifax, and a year in North and South Sydney.

Blackwell is six feet, two inches tall, weighs 225 pounds and wears a number 16 sandal. Erect, quiet and dignified, he is a typical darkey of "The South." On his return to Woodstock, he hopes to find his old "masser" Captain John Gravelle, with whom he makes his home.
