If such expressions have been used by any person or persons living near the track, it furnishes a clue, which if followed np, may perhaps result in the capture of the fiend who places so little value on human life. It is the duty of those living along the line to use every endeavor to have the miscreant brought to justice. We do sincerely hope, however, that the inhuman net is not the work of any of the settlers. We do not want to harbor the thought that we have in our midst, and natives of the country, those who could so far forget their manhood, as to proceed in such adevilish manner, to destroy property and perhaps human life. It may be that such is the case, but for the sake of our good name abroad, we sincerely hope it may be found to be the work of some persons having no stake or interest in the country.

One dose cures common sore throat. One bottle has cured bronchitis. Fifty cents' worth has cured an old standing cough. It positively cures catarrh, asthma and croup. Fifty cents' worth has cured crick in the back, and the same quantity lame back of eight years' standing. The following are extracts from a few of the many letters that have been received from different parts of Canada, which, we think, should be sufficient to satisfy the most sceptical: J. Collard, of Sparta, Ont., writes, "Send me 6 dozen Dr. Thomas' Eclectric Oil, have sold all I had from you, and want more now; its cures are truly wonderful." Wm. M'Guire, of Franklin, writes, "I have sold all the agent left, it acts like a charm—it was slow at first, but acts like a charm—it was slow at first, but takes splendidly now." H. Cole, of Iona. writes, "Please forward 6 dozen Thomas' Eclectric Oil, I am nearly out, nothing equals it It is high recommendations of the state of the stat JUST RECEIVED:

Eclectric Oil, 1 am nearly out, nothing equals it. It is highly recommended by those who have used it." J. Bedford, Thamesville, writes, "Send at once a further supply of Eclectric Oil, I have only one bottle left. I have anything sell so well and give such Eclectric Oil, I have only one bottle left. I never saw anything sell so well and give such general satisfaction." J. Thompson, Wood-Ward, writes, "Send me some more Eclectric Oil. I have sold entirely out. Nothing takes like it." Miller & Reid Ulverton, P. Q., write, "The Eclectric Oil is getting a great reputation here, and is daily called for. Send us a further supply without delay."—Lemoyne, Gibb & Co., Buckingham, P. J. C. CHAMBERLAIN, Esq.—Sir,—This is to certify that my wife was very low with Lung Disease. The doctor had given her up. He said her lungs were tubercled, and medicine could not help her. As a last resort I purchased a bottle of the Great Shoshonees Remedy. At the expiration of two days her symptoms were decidedly better. She continued to improve so rapidly, that by the time she had taken one bottle she was able to sit up. By the continuance of the remedy she was perfectly restored to health.

You may publish these facts for the benefit of those similarly afflicted.

SPECIAL NOTICES.

There is no question but what Pulmonary bisorders are increasing with us. It estimated that one tenth of the entire deaths is caused by Consumption alone. From this fact, we can see how utterly futile former fact, we can see how utterly futile former remedies have been to prevent this malady. From the myriads of cases cured by Dr. Wilson's Pulmonary Cherry Balsam, which is unprecedented in the annals of medicine, we believe that in a few years hence Consumption will only be known by its former than the constant of the co ravages. Many valuable lives are annually lost which might have been saved if their attention had been only called to this truly valuable remedy.

Stephen I. Mitchell, Patrick Farrell, James White, John F. Jardine, James J. Mulhall, Wm. F. Smallwood, Allan M'Intyre,

Miscellaneous.

A girl who is worth her wages, and a pension and a house of her own besides, is in the employ of a Madison (Wis.) physician. On Saturday the family left home for a day. The girl, Annie Mulcahy, remained in charge of the house. Answering a ring at the door she found two men who said they had been sent by the son of the master to repair some furniture. The trick did not take. The girl said there was no furniture to repair, and refused to open the screen door. There-upon the men demolished the door and entered. Meantime Annie ran to back room and seized a shot-gun. It was not loaded. Not stopping to see if she could scare the intruders hand will probably be little better than none. She had evidently read the papers and knew the tricks resorted to by the burglars and sneak But not every girl of eigh- The Intercolonial Railway uses this coal teen would have the courage to turn her knowledge to account as did west of Truro.
