NOTICE

NOTICE is hereby given that 60 days after
the undersigned intend to apply to the
Honorable the Chief Commissioner of
Land and Works for permission to pur-
chase the following described lands: Con-
sidering at a place situated at the south-
west corner of Thomas Greenwood's ad-
dition to purchase, and being on the
eastern boundary line of Lot 22, G.I.,
Kootenay district, thence south 20 chains,
thence east 40 chains, more or less to
the western boundary line of Lot 20, G.I.,
Kootenay district, thence north 20 chains,
thence west 40 chains more or less to the
place of commencement.

Old Believers have had the temerity to
address a request to the premier for
permission to crush the nation's foes.
The premier immediately notified the
governor general of Minsk to take mea-
sures to prevent any outbreak.

E. O. Windsor, expert piano tuner, is in
town for a few days only. Leave orders
with Canada Dry & Book Co.

PASSENGERS INCINERATED

Terrible Loss of Life in a Colorado Railway Accident

Head-on Collision Between Two Passenger Trains in Middle of the Night—Occurs in a Blinding Snowstorm

Pueblo Colo., March 16.—Some two
score lives were crushed out early to-
day in a head-on collision of two pas-
senger trains near Adobe Colo., on the
Denver and Rio Grande railroad, and
more than a score of the victims were
incinerated beyond identification by a
fire that destroyed the wrecked coaches.
Many others were injured, but prob-
ably will recover. The wreck was due
to undelivered orders, heavy mountain
grades, a blinding snowstorm, a sharp
curve and the slippery condition of the
rails. Only the locomotives, baggage
and day coaches were wrecked, the
sleeping cars escaping almost unscathed.

Many of the dead were homeseekers
bound for the northwest. The three
crushed locomotives set fire to the splin-
tered coaches and it was hours before all
the bodies were recovered, the flames
being so hot that rescuers could not
approach the debris until the fuel burned
out. It was a stormy night in the
mountain canyons when the two heavy
trains met. A blinding storm darkened
the gorges and the speed was not high.
Suddenly, the headlights flashed out and
it was realized by the engineers that
something was wrong. According to
fireman J. H. Smith of the west bound
train, engineer Walter Coslette applied
the emergency brake, but the slippery
rails allowed the momentum of the
heavy train to carry it on to the fatal
crash. The impact was so violent that
the coaches were crushed and ground
into each other. Fireman Smith was the
only one of the engine crews to escape.
The baggage car of the west bound
train broke in two and the three coaches
were squeezed together. The baggage
car, the mail car, and a coach of the
east bound train buckled.

Hardly had the noise of the wreck
ceased when a sheet of fire ran through
the shattered coaches, and the wreckage
of the west bound train every seat was
occupied by passengers most of whom
were homeseekers. Many foreigners
were among them and in their terror
they succumbed without attempting to
reach safety, being roasted alive. The
cooler ones, seeing their danger rushed
for the windows and doors, and with the
aid of the passengers in the rear of the
train, and those members of the train
crews who were unhurt, reached the open
air. Many were injured by the rough
handling they received or by flying
glass. It is impossible to determine the
exact number of dead on account of the
incineration of many bodies. The mon-
etary damage is \$90,000. Much baggage
and mail were destroyed.

Relief work trains were at once
despatched to the scene from Pueblo and
Florence, but the work was necessarily
slow because of the smoke from the
burning wreckage and because of the
cold weather. The first train bearing
the injured reached Pueblo shortly after
6 o'clock.

Among the dead were: William H. El-
lis, engineer, No. 16; E. M. McPhar-
land, Globe express messenger, No. 16;
Walter Coslette, engineer, first engine,
No. 3, who leaves a widow and three
children.

J. H. Smith, fireman, stated that en-
gineer Coslette told him that just before
the collision he had seen the headlight
of train No. 16, as it rounded the curve
about 200 yards distant. Smith went to
the engineer's side and saw Coslette at
the emergency brake. He stooped down
and feeling Coslette's feet on his back
jumped.

Denver, March 16.—It is reported here
that an operator's failure to deliver a
train order was the cause of the col-
lision. The first order given to the two
trains were that they should meet
at Adobe. Later, it is understood, the
dispatcher wired operator S. F. Lively,
at Swallows, ten miles east of the scene
of the wreck, to hold the west bound
train there until the eastbound train,
No. 16, should pass. When No. 16
reached Florence its crew was notified
to run on to Swallows. Meantime No. 3
failed to receive its new orders at Swal-
lows, pushed on westward. Operator
Lively was asleep, it is said, when No.
3 passed Swallows. When asked by the
dispatcher at Pueblo if it had passed he
answered "No."

A warrant is out for his arrest.

summit of the mountains the depth is
21 feet. Both the Kings and San
Joaquin rivers are above the danger
line.

The residents of the Garfield Vineyard
region worked all night in a blinding
raid building levees, but their work
went for nothing when a huge overflow
came sweeping through that region
this morning. The Fancher creek, flow-
ing south of Fresno, into the canals of
the Fresno Irrigation Canal company,
is beyond control, and is laying waste
thousands of acres of land are
covered with five feet of water. After
a night of terror the six hundred people
of Laton, on King's river, this morning
moved in a body to the grade of the
Santa Fe river. The levees about Laton
are six feet high, but they are over-
flowing.

Numerous bridges are washing out in
the northern colonies. Both the Santa
Fe and the Southern Pacific report num-
berous washouts and the train service
demoralized.

TRADE IS IMPROVING

Business reports cheerful all
over Canada

BANK CLEARINGS FOR WEEK AND
GENERAL REVIEW

Montreal, March 16.—Trade here will say
tomorrow:

Canadian trade advances are better and
the spring business is opening up well.
Collections seem to be improving at the
leading banks. The dry goods,
millinery and hardware trades all show
great activity. Retail trade is rather bet-
ter than the spring demand is not back-
ward. Staple prices are generally firm.
Western grain deliveries are heavy, and
export trade in flour to the eastward
of the Pacific is steadily increasing.

At Toronto business reports are cheer-
ful and shipments of spring and summer
goods are heavy. Building work is very ac-
tive in Ontario, much new immigration
coming in. Fallows for the week numbered
23 as against 24 last week and 22 in the
same week last year.

The following are the bank clearings
for the week ending March 15, as com-
piled by Bradstreet's:

	Inc. Dec.	%
Montreal	\$25,628,394	9.0
Toronto	22,266,105	19.8
Winnipeg	2,347,683	12.0
Ottawa	2,347,683	12.0
Vancouver	1,941,988	40.8
Halifax	1,485,347	8.3
Hamilton	1,238,548	21.8
St. John	976,988	12.0
Victoria	899,024	24.0

Several names have been mentioned
in connection with the vacancy for the
lieutenant governorship of Nova Scotia
caused by the death of the late Alfred
Gillip Jones, but the one most promi-
nently spoken of is Frederick A. Law-
rence, M.P. for Colchester, Nova Scot-
ia. Mr. Lawrence, who for many years was
speaker of the Nova Scotia legislature, and
would make an excellent appointment.

S. E. Dawson, the king's printer, is to
be superannuated. Charles Parmelee,
M.A., is his successor.

The government intend to appoint a
committee of the house of commons to
revise the rules of procedure. It will be
composed of the prime minister, Hon.
L. P. Brodeur, Mr. Speaker Sutherland,
Mr. Lawrence, who for many years was
speaker of the Nova Scotia legislature, and
three members of the opposition.

It is not thought that any drastic
changes will be made, but probably
some attention will be given to the
abuse of the privilege of bringing mat-
ters to the notice of the house on a mo-
tion to adjourn.

A petition signed by 15,000 people, re-
presenting every province in the dominion,
has been received in opposition to
the Lord's day legislation.

COAST TELEPHONE STRIKE.

DELEGATE IS INTOLERANT

Recommend the Hanging of Patrick Dolan as Beneficial

Word reached here yesterday from Triple
camp, some 50 miles up the west fork of
Kaskia river from Midway, that the owners
of the various claims in that camp are
now commencing with renewed energy to
develop them. It is expected that by the
time the railway reaches that camp early
next fall, at least a dozen properties will
be in a position to develop.

Mrs. Hodges, wife of general superinten-
dent A. B. W. Hodges of the Granby
mines and smelter, will arrive home to-
morrow from a month's visit to the southern
states.

PEACE RIVER ELECTION

COURTS HAVE NO JURISDICTION FOR ADDRESS

POWER CLAIMED TO REST WHOLLY
WITH LEGISLATURE

Edmonton, March 16.—In the Peace river
election case the judgment which has been
handed down by Judge Scott, finds that
the court has no jurisdiction to interfere
or prescribe whether or not the election
has been held; that the power to do so
rests entirely with the legislature, and
that the appeal of Lucien Dubuc to have
the election nullified should have been
made to the legislature itself and not to
the courts.

Sydney B. Woods, deputy attorney gen-
eral, represented the legislature, and took
his point of law from the code of ques-
tioning the time, which has good until
present day, by which parliament took
upon itself the exclusive right to deter-
mine the legality of any election while par-
liament, he contended, still holds except
in so far as it has been delegated to the
courts. Mr. Woods contended that the
court had no jurisdiction in the Peace
river election case and even the consent
of both parties to the controversy could
not give it power, that power rested solely
with the legislature.

Judge Scott found with the legislature.
Mr. Woods, and dismissed the case on the
grounds of want of jurisdiction.

NEWS OF THE DOMINION

YESTERDAY'S HAPPENINGS ALL OVER CANADA.

Toronto, March 16.—At the weekly
meeting of the Empire Club yesterday
L. E. Cole Mason, advised a compara-
tively small but permanent militia
force, which, with the exception of
those men required for garrison at Hal-
fax and Esquimaux, would devote their
time wholly to the instruction of militia.
He also advised a return to the old sys-
tem of military schools, including
infantry, artillery, cavalry, and engineers.

A bill to be introduced into the
Ontario legislature next week providing
for an annual tax of \$300 on all com-
mercial travellers doing business in On-
tario for houses outside of the province.
It is being introduced as a measure of
protection to the stock and building of the
wholesale and retail stationary house of
Grand & Toy, Ltd., at the corner of
Wellington and Gordon streets. The less
is covered by insurance.

Hamilton, March 16.—Twelve of the
fourteen master plumbers charged with
combining and conspiring, last night
changed their plea of not guilty to
guilty, and were allowed to go on sus-
pended sentence upon each giving a
bond of \$200 to appear if called upon for
sentence. The case against Harry Hard-
ing was dismissed. W. J. Walsh, the
president of the provincial association,
who was found guilty a few days ago
was fined \$400.

Collingwood, Ont., March 16.—During
a quarrel in the Grand Central hotel
bar last evening Louis Bartelle, of Ton-
awanda, fatally stabbed Fred Lewis, of
this city, with a big pocket knife, cut-
ting the main artery leading to the
heart, resulting in Lewis' death. Bartelle
was arrested.

London, Ont., March 16.—Congrega-
tional singing has been introduced at
St. Peter's Roman Catholic cathedral.
The bishop announces that it is the de-
sire of the pope that congregational
singing shall be encouraged in churches.

HOUSE PROSECUTED

Winnipeg, March 16.—Edmund Munnell,
of the secret police of Winnipeg, who was
sentenced to death on March 2, her sentence
later being commuted to imprisonment for
life has created a sensation in Winnipeg

SUNLIGHT SOAP

is equally good with hard or soft water.

If you use Sunlight Soap in the Sunlight way (follow directions) you need not boil nor rub your clothes, and yet you will get better results than with boiling and hard rubbing in the old-fashioned way.

As Sunlight Soap contains no injurious chemicals and is perfectly pure, the most delicate fabrics and dainty silks and laces may be washed without the slightest injury.

ANNUAL SCHOOL REPORT

COST OF PUBLIC EDUCATION IS STEADILY RISING.

POSITION OF NELSON COMPARED WITH OTHER CITIES.

The report of the provincial superintendent of education for the year ending June 30, 1905, is at hand. An analysis of the mass of information contained in it will be of special interest to the citizens of Nelson at a time when the growing burden of public school maintenance is a subject of anxious consideration by the city council.

The most striking fact revealed is that the school population of the province is increasing rapidly and with it the expense of providing educational facilities. The total number of scholars during the year was 7,854, an increase of 1,567, or a little more than 20 per cent, over those of the preceding year. The average number attending each year, however, was only 5,185.

The number of pupils in the high schools was only 1,060, hardly four per cent of the total. They were taught by 31 teachers, while the public schools required 628, a total of 659. Sixty per cent of the high school pupils were girls.

The total cost of education for the year was \$729,084.11, an increase of \$12,285.46, or about 1.7 per cent over the amount for the preceding year. A proportionate increase for the current year would bring the grand total to \$741,369.57.

The expenditure for the year was \$729,084.11, an increase of \$12,285.46, or about 1.7 per cent over the amount for the preceding year. A proportionate increase for the current year would bring the grand total to \$741,369.57.

The large amount spent by Vancouver includes \$60,000 for new buildings, a large increase over the preceding year. In all the cities, the cost of education is increasing.

The per capita cost of education in Nelson was \$7.29, slightly below the general average for the province.

The reports of the provincial inspectors agree in testifying to a gradual improvement in the standard of education in the schools, especially in the city of Nelson.

ABOLISH ALL LOBBYISM

LIVELY DEBATE IN THE BOARD OF TRADE ROOMS.

PROVINCIAL STANDARD BEARERS OF LIBERALISM.

At the meeting of the liberal association last night in the board of trade rooms an open debate took place on the subject of lobbying in the legislatures.

The bill of the minister of justice against lobbying in the legislatures, which has been given in parliament, was then spoken to by Mr. McKillop.

"This bill," said A. L. McKillop, "made it an offence punishable by a fine of \$500 for any person to lobby in the legislature of either house of parliament, or his partner, to receive any compensation for appearing before any house of parliament in connection with any bill or resolution."

NO GROUND FOR QUARREL

TRUSTEES AND ALDERMEN COMPOSE THEIR DIFFERENCES.

GOVERNMENT WILL BE ASKED TO PAY FOR ITS OWN.

The matters in dispute between the city school board and the city council were fully discussed at a joint meeting of the trustees and the finance committee, held last night in the office of Dr. Arthur, secretary of the board.

The question of shade trees was raised by Dr. Arthur, but it was thought that local matters were not desirable. The matter was left to Dr. Arthur with authority to act.

PROGRESS IN BOUNDARY

WORK ON THE DOMINION COPPER COMPANY'S PLANT.

ELKHORN, PRINCE HENRY AND PRESTON MINES.

Greenwood, March 16.—At the Dominion Copper company's smelter at Boundary Falls, a new furnace will be added to the two now in use, which will increase the capacity of the plant from 500 to 1,200 tons per day.

The furnace will measure 48x204 inches and will be a fully modern contrivance. A new machine and blacksmith shop has been erected and the machinery for its equipment is expected in a few days.

Altogether some \$20,000 has been expended in the new equipment, and it is expected that the number of men employed will be increased from 100 to 175 while the staffs in the company's mines will also be gradually increased to supply the demand for increased output.

When seen by The Daily News correspondent, T. R. Drummond, manager for the company, would not make any statement regarding the erection of a new smelter at Greenwood or Midway. "We are pretty well fixed where we are," he said.

Negotiations are now going on with the C. P. R. for a new spur track between the dump yard and the Boundary creek. The object of this is to facilitate the handling of the matte. At present this has to be elevated and conveyed some distance to the cars on the old spur when the new track is completed the matte will be handled direct from the mould to a gentle incline to the cars for shipment. The present condition of the plant is excellent and everything is working most satisfactorily.

At the Elkhorn mine the vein has been located in the hanging wall, pitching to the southeast where it is thrown by a slight faulting or displacement similar to all other high grade veins of the district. They go to the 300 foot level and after that the veins have always been found in place. Six men are working night and day shifts sinking the shaft to the 300 foot level. The vein is a very rich one and the ore is of high grade.

The vein is from 8 to 17 inches wide and the ore is very clean. Levels will be run north and south, on the shaft ore, and shipments will be resumed before long. These excellent showings have had a strong effect upon the value of the Boundary Elkhorn Mining Co. Ltd. stock, and the price advanced this week to a higher point than it has ever reached before.

The share of the Prince Henry is being unwatred for the purpose of continuing development. The mine is in first class condition. There is a level run at the 112 foot level of the shaft for 150 feet all in ore. The ore is high grade carrying fair in gold and heavy in silver. Native silver is encountered all through the ore. The shaft will be sunk to the 200 foot level and drifts run on the vein. This will give a large area for stoping ground. The vein is a fissure in the granite-dike formation and varies from six inches to three feet in width. The ore is very clean and massive. The vein is free from the walls and is easily mined, the rock breaks good.

Several tons of ore have been shipped from the mine since the start of the year, and the results have been most satisfactory. The Prince Henry will soon be on a par with such recognized mines of the province, and Elkhorn and Skyhook mines.

The Preston mine is also looking very well and promising, the vein having widened out to 20 inches of high grade ore.

The Preston mine is also looking very well and promising, the vein having widened out to 20 inches of high grade ore.
