Dawn Mills.

KENT COUNTY EXTENDS HEARTY WELCOME TO THE LIBERAL-CONSERVATIVE LEADER

The man who "commands admiration for his conscientious and courageous convictions."

Hear Whitney, Foy, Fraser and Davidson at the Grand Opera House this evening. Everyone, Liberals especially, are most cordially invited.

Mr. Whitney will outline to the electors of Kent the policy upon which his party ask their support at the ensuing election. He will deal with the public issues of our Province.

He will be supported by his eloquent lieutenant, Mr. Foy, who will also deliver an address.

John S. Fraser and John Davidson, the Liberal-Conservative candidates for Kent, will briefly address the meeting.

FIVE PERISHED IN THE FLAMES

When the Father Woke up the Lower Part of the House was Ablaze.

He Tried to Save one of the Children and was Badly Burned.

Winnipeg, Man., April 28.—The five children of J. B. Monchamp, a butcher at St. Norbert, perished in the flames of his burning house early yesterday morning. Monchamp, his wife and eldest daughter were also terribly burned. The dead children are: Robert, aged 11; Marie, aged 8; Charles, aged 4; Cyrille, aged 3, and Bertha, aged 8. The father heard a noise in the night, and upon getting up to see what it was found almost the whole lower story in flames. He shouted upstairs what had happened, and thought he had aroused all his family. Mrs. Monchamp managed to escape with great difficulty, carrying a two-year-old boy and a three-weeks-old baby. She had not time to dress. Bertha came downstairs half-dressed and made an effort to get through the door where the flames were thickest. She was overcome and fell in the midst of the flames. Her father made a dash into the building and picked her up, sustaining some horrible burns, while he brought her unconscious body out into the open. The girl's skin dried like parchment and burned off in many places, and she died without regaining consciousness five hours afterwards. Martha was the next one seen, and after four desperate efforts a store-keeper managed to break through the flames and rescue her without injury beyond a severe scorching. Of the four boys only a few charred ribs and an arm were found after the fire had burned out. The remains were buried this morning. It is not likely an inquest will be held.

The fire started from a lamp which was heating an incubator, and the building is a total loss. Monchamp had lived in the west about ten years and came originally from St. Michael's, Que.

ASSISTING SOCIETY

The Ladies' Assisting Society held their regular monthly meeting yesterday afternoon at the residence of Mrs. Willard Merritt. Mrs. S. T. Martin, president, was in the chair and some 20 members present.

The visiting committee for April, Mesdames Wm. Ball and W. R. Phillimore, reported 30 patients admitted, 10 discharged, two births and two deaths.

Mesdames Glenn and Wm. Merritt were appointed to act for May.

The ladies are arranging for a grand musical recital to be held in the opera house, the program to be presented by pupils of Mrs. John Cooper and W. H. Brackin. Full announcements will be made later. After refreshments the gathering adjourned to meet at Mrs. Kingston's residence in May.

PARDO'S ROOM DONS LA BLEU

Midnight Misdemeanor Causes a Commotion in Local Political Circles.

Various Reasons Assigned for the Act—Grits Blame Tories and Vice Versa.

Some miscreant employed the wee sma' 'ooms of last night or this morning in bestowing a gratuitous coat of kalsomine or bluish paint over the front and sign of the Liberal committee room on King St., and incidentally enlarging his operations to embrace the establishments of Fred. H. Briscoe and Watt & Sons.

Seriously, if this has been done with a vindictive or malicious object, it cannot be too severely condemned. No one, we are assured, with the interests of the Liberal-Conservative cause at heart would stoop to child's play of this kind, and those who are inclined to put political motives behind the act, we trust, are much mistaken.

Several explanations are advanced—many more or less humorous. Some, of course, allege it was the work of the naughty Tories, who possibly desired to degrade in view of the Leader's visit or on general principles. Others again say it was a deep-laid scheme on the part of the Liberals themselves to arouse righteous wrath and create an enthusiasm which their cause has so far been unable to win for itself. Further, it is explained that the deed was done through the jealousy of a rival sign-hanger.

At all events, it was done.

John Watt, the good Liberal, whose adjoining store did not escape, says, in his opinion, the depredation was committed by an envious man who did not secure the work on the sign. Fred. Briscoe, the good Conservative, who had been busily engaged all morning in superintending the cleaning of the windows of his establishment, simply said, laughingly, "Well, there's a moral in this. It shows what I get for keeping bad company."

Major Coogan, county high constable, takes the matter seriously. He offers \$5 reward for the apprehension of the miscreant.

Wm. M. Stone, license commissioner, and one of the leading Liberal lights, says the police have located the man who did the deed. They traced him over the Aberdeen bridge into North Chatham. Mr. Stone says the Liberals intend to find out if he was instigated to his action by the Conservatives, and if so, an effort will be made to make them sorry for it.

S. B. Arnold, one of the leading Conservatives, was quite "wrothy" this morning. "I think that it is an outrage that the Grits should blame the Conservatives for kalsomining that committee room front. It is a silly charge, and the Grits know it. Why the ardent workers in the Liberal party just painted that front themselves so as to arouse the ire of the rank and file against the Conservative party and gain a little cheap sympathy. Such methods of conducting an election campaign are reprehensible. The Conservatives know that no good can accrue to them from such a foolish deed and would have nothing to do with it. I know there isn't a Conservative in the country who would do it."

"I don't mind fighting an election campaign fair," continued Mr. Arnold, "but I hate underhand methods."

Continued on Page Five.

BOY KILLS GIRL PLAYMATE

Shot her in Cloak-room of a Kingston School—Claims it was Accidental.

Child Tipped his Hat and he Drew Pistol to Make Her Cease.

Kingston, April 28.—Eric Sharpe, son of a Princess Street grocer, shot and killed Beatrice Holland, daughter of George Holland, Rideau street, and engineer on the Kingston and Pembroke Railway, while leaving Frontenac school this afternoon. The lad is at police headquarters, and is beside himself with grief and bewilderment. The boy is about 15 years of age, and the girl 14. Both were in the junior fourth class. The bullet entered the girl's temple, and death ensued before the ambulance arrived at the school.

The affair occurred just as the class was being dismissed at four o'clock. Young Sharpe had put on his hat in the cloak-room, and Beatrice, who was near him, jokingly tipped it. Eric told her to stop or he would shoot, and with that he drew a revolver from his pocket. There was a report, a scream, and the little girl fell to the floor. An ambulance and physicians were summoned, but their services were not needed, for the child was dead before their arrival.

Meantime young Sharpe, overwhelmed, fled, but at 7 o'clock gave himself up at police headquarters. He is quite dazed, and can tell little about the occurrence. He said the girl and he were good friends, that he had no thought of shooting her, and that when the revolver came from his pocket it went off accidentally. He says that he ran away, not knowing which way to go. He did not go home, but went off towards the West end of the city, and back to the City Park, where he sat down. He told another boy his troubles, and was advised to give himself up to the police. He decided he would do so, and he walked to the station house and surrendered.

The boy declares he got the revolver under the school steps, but other lads say he had been carrying it, and had been using it in shooting frogs. The families concerned are well known and persons of good standing in the city. The parents are grief-stricken. There is every intention to have the matter fully investigated, and an inquest will be held.

RAILROAD BILL

A committee composed of John Piggott, Sr., Manson Campbell, and Hugh Macdonald, who were appointed to confer with the Lake Erie officials re the amalgamation bill which the railroad have before the Dominion House, left this morning for Windsor, where they will see if some amicable arrangement cannot be made between the city and the railroad company. If this bill passes as it is at present, all of the contracts made between the Erie & Huron railway and the different municipalities along its route will be broken. It will also relieve the Lake Erie company from erecting car shops in Chatham as was agreed with the E. & H.

George Stephens, M. P., left last evening for Ottawa and the bill comes up to-day. The committee will wire Mr. Stephens to-day the result of the conference in Walkerville. It is generally thought that an amicable arrangement will be made.

WAR CONTINUES

London, Tuesday, April 29.—Wiring from Pretoria under date of Sunday, April 27, the correspondent of the Daily Telegraph, says that Gen. Botha with other Boer leaders, attended meetings of the Utrecht and Vryheid commandos last week. At these meetings strong opinions in favor of peace were expressed.

The tacit truce in the Utrecht and Vryheid districts, the correspondent concludes, will expire to-morrow.

AN ERROR

The Planet was misinformed yesterday when it stated that a complaint was lodged with the police commissioners against the health inspector. The complaint was preferred against another civic official, and The Planet regrets that the health inspector suffered temporary injustice in the publicity of the error in this journal.

TUESDAY, APRIL 29.

THE LEADER TO-NIGHT.

To-night Mr. Whitney, the Liberal-Conservative chieftain, will address the electors of Kent in the Grand Opera House.

Every one is cordially invited to be present.

He will discuss the public affairs of the Province and outline the policy of his party thereon.

It will be a magnificent meeting.

Mr. Whitney will be assisted by Mr. Foy and the Conservative candidates for Kent, Messrs. Fraser and Davidson.

Don't fail to be there!

A LOCAL CATCH CRY.

So far as we are yet aware the only alleged argument advanced against the candidature of John S. Fraser for West Kent is that he is a lawyer and that there are enough lawyers in parliament anyway.

This is admittedly a catch cry to prejudice the layman. It emanated in the first place from the massive mind of the local Liberal organ and has been taken up and energetically repeated, in lieu of any sound reasoning or argument, by many of the minor minions of the machine.

It would be little short of insult to the intelligence of the laymen of West Kent, who are quite capable of sifting these catch cries for themselves, to allude to this matter were it not for the fact that it demonstrates the inconsistency and unfairness of those using them.

In the adjoining constituency of West Elgin the Liberal-Conservative candidate is that talented young farmer, Findlay McDiarmid, whom the machine made its corrupt and notorious effort to defeat, while the Liberal candidate is Lawyer McGrimmon, of St. Thomas. In West Elgin, accordingly, the machine is busily engaged in denouncing the "argument" its minions are endeavoring to utilize here.

So much for the consistency of those who are seeking to flaunt this catch cry. Then, again, it is shaded by untruth and characterized by unfairness.

The machine men, when they tell us that Mr. Fraser is a lawyer, do not add that he is also a farmer and a cheese manufacturer—that he farms, in fact, more land than does his opponent. They know it as well as do the people of Kent, whom they seek to humbug by these methods.

As a matter of fact—taken on the standpoint of occupation alone—Mr. Fraser is an especially strong candidate. Being himself a practical farmer he is in close touch with the interests of the agricultural community, while his legal training will stand him in good stead in the discussion of and dealing with legislative technicalities.

And the yeomen of Kent can rest assured that they won't find John S. Fraser supporting and abetting the development of Dakota, as against the interests of this splendid Canadian province.

ROBBING THE MUNICIPALITIES.

Mr. Whitney is not in favor of taxing insurance and banking concerns at the expense of the municipalities. He opposes a tax that simply serves the purposes of a Government that is running in shallow waters. His contention is that with economy at Toronto there would be no need of direct taxation of this character. What he stands for is the right of municipalities to profit by the business done by banks, loan and insurance companies. All such taxes should, he maintains, go into civic treasuries, not into the cash box of a Government that is dissipating our resources and expending thousands of dollars in the employment of useless officials.

We all know that the Provincial Government receives annually about

two hundred and twenty-five thousand dollars from the liquor licenses granted by municipalities. It has played a game of grab for years and its corporation tax is on all fours with its liquor legislation.

The municipalities are robbed by both. Mr. Whitney and his Government will correct both these evils and the municipalities will profit by the change.—Galt Reporter.

A CHANGE IS NECESSARY.

Mr. J. W. Longley, Attorney-General in the Liberal Government of Nova Scotia, advances this argument among others in favor of a change of Government:

"Under a system of popular Government it goes without the saying that frequent changes of Administration are necessary to a healthy development of public affairs."

"Frequent changes of Government are obviously, as has been said, in the public interest. It is impossible for any body of men to be in power for a continuous period without getting lax in their ideas of public duty. That is the innate tendency of mankind."

"Besides, long terms of office induce the members of the Government to get the notion that they not only have a divine right to rule, but that instead of being servants and trustees they are actually the masters, and all favors are to come from them."

"This is subversive of the whole theory of popular government, and it is in the interest of the people to have it clearly understood that governments are not heaven-appointed rulers, but mere instruments of power subject to the will and control of the electorate."

"Again, long terms of office tend to get public matters running in a rut. A department gets mouldy in time under one management, unless, indeed, the administrator is a man of more than ordinary wisdom and capacity, which is not too often the case."

"Frequent changes are necessary in order that new ideas and fresh energy be infused."

Whitney Will Win!

Welcome to Whitney!

Ontario's coming Premier at the Grand to-night.

It is a fight between the People and Principle and the Machine and Money.

Has Pardo advanced one reason to the electors of West Kent for asking a renewal of their confidence?

Pardon us if we quote John Lee again—Mr. Whitney is the man who commands admiration for his conscientious and courageous convictions.

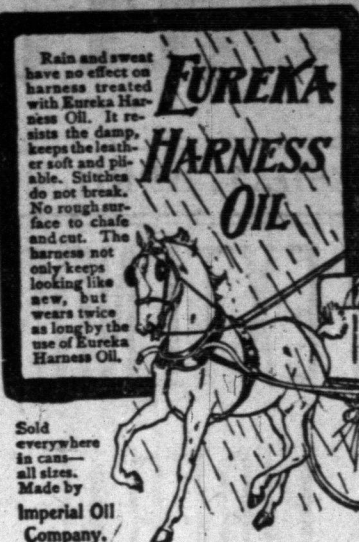

Wasn't it interesting to note the prompt way in which the local license commissioners granted all the West Kent liquor licenses "in face of the ensuing election."

The machine men of the "Liberal" party are in a great state down in Hamilton. They can't beg, coax nor drive a victim into the arena with the popular and talented Conservative candidate, Carscallen. The impression gains ground all over the Province that the people are going to have something to say on May 29th, and that the machine is doomed.

That vigorous exponent of machine methods, the Hamilton Times — also advocate of free-trade-as-it-is (or was) in-England—has been eloquently setting forth for some days the snip the Ross nominee was going to have in downing Mr. Carscallen in East Hamilton. Some of the uninitiated and faithful took the Times man at his word and submitted his name in nomination at the Liberal convention. They say it was a sight to see the fur fly while Brer. Gardiner chased for cover.

TOO EASY.

Belleville Intelligencer.
"Election matters haven't got very warm yet," said a gentleman to the Intelligencer to-day, "but notice one peculiar circumstance: When I pass a bunch of Grits on the street corner they are talking in whispers; when I pass a bunch of Tories they are talking so that you can hear them across the street. How do you account for that?" Ask us something easy.

FUREKA HARNESS OIL

SURE THING PROPHECY.
Hamilton Herald.

The Herald has no reason to draw its old prediction that South Africa will be pacified before the Philippines.

THE MALICIOUS PRINTER.
Toronto Star.

A Braconade item in the Star announces that some of the younger men in the village indulge in "I-fwlye Idwafig." This is almost too dreadful to be believed.

BE CAREFUL.
Oshawa Vindicator.

Bearing in mind that Hon. J. R. Stratton objects to strong criticism of the government, on the ground that it leads to anarchy and sometimes assassination, we hope the Conservative orators and writers will hesitate ere they say this government should be fired out of office.

ABOUT TOOKEY.
Toronto Telegram.

William E. Tooke, an independent candidate, opposing Hon. J. M. Gibson in East Wellington, is a strong prohibitionist and an old member of the Good Templars. In religion he is a Presbyterian. For ten years he has been an active ingredient in politics.

BRER SMIFF'S CONSOLATION.
Bobcaygeon Independent.

Talk about progress. Isn't this country getting rather too much of a hump on? Beef in Toronto and Peterboro at 20c, in Lindsay at 18c and a rise of 2c, in Bobcaygeon. Thank goodness, the suckers are up, and mud-pots will be along in a few days.

UNINTENTIONAL GOOD.
Ottawa Citizen.

Some esteemed contemporaries are accusing John Charlton, M. P., of lack of wisdom in introducing his "O-Chamberlain-Spare-the-Beer" motion. They do Mr. Charlton an injustice. Is it a little thing that he succeeded in putting the Canadian parliament on record before the world as having some sense?

A system disorganized with medicine regains tone with free use of the MAGI Caledonia Water. Sold everywhere. J. J. McLaughlin, Toronto, Sole Agent.

J. W. CARSWELL, Architect.

NOTICE TO CONTRACTORS.

Whole or separate tenders for the remodelling of a house into a brick veneer office for Dr. W. R. Hall, will be received up to 6.00 p. m., Wednesday, May 7. All tenders addressed to Dr. W. R. Hall, marked Tender, and left at the office of the architect.

The lowest or any tender not necessarily accepted. Plans and specifications may be seen at the office of

J. W. CARSWELL, Architect.

DISTRICT DOINGS.

COMBER.

Art examinations were held here last week.

A number of Masons attended Lodge of Instruction in Leamington last week.

Harold Gracey, Detroit, is spending a few days at his home here.

A. Leferre left for Detroit this week.

Mrs. Wm. Lowe and daughter started last week for Alberta, where they will join Mr. Lowe, who arrived there some time ago.

Charlie Lloyd had a finger of his right hand taken off by a saw in Ainslie's mills on Tuesday of last week.

DOYLES.

Blonde Bros. have finished the task of erecting a spacious new house for Burton Larkie. Mr. Larkie will take up his residence in the new house in the near future.

Mr. Schaffer landed a very peculiar fish the other day. It lacked but a small fraction of an ounce from weighing 45 pounds; so we hear.

We are sorry to hear that Walter Doyle, one of our friends, has left this vicinity.

Miss Annie Waddick was united in marriage to Mr. Larry Doyle on Tuesday last. We wish her many years of happiness in her new home.

Gene Harley spent Sunday with Mrs. Thomas Doyle.

Maurice O'Neill spent last week with his brother John.

EAST BRANCH.

Seeding in this vicinity is about over and the farmers are now preparing the ground for corn and sugar beets.

Mr. and Mrs. Adam Irwin, of Dresden, spent Sunday last with friends here.

Messrs. Ripley and Harris, of Dresden, purchased a carload of hay here recently and are now busy pressing it.

A large number from here attended the convention in Chatham on Tuesday last, conducted by Messrs. Whitney and Fox.

Mrs. D. McNelis had the misfortune of fracturing her arm while house-cleaning.

The first game of our football team will be played on Friday night.

Miss Carrie McCreary is assisting W. N. Ayres, of Wallaceburg, in the tailoring business.

A couple of our popular farmers have been very much deceived in their unknown employees which they hired this season. They were paid off and dismissed last week.

Thomas Shaw is having his dwelling house in Wallaceburg remodelled and will move there as soon as it is completed.

CON. 8, RALEIGH.

On Thursday evening a large gathering of people assembled at the residence of Mrs. Woods, among whom was the Rev. W. B. George, our departing minister, who has been extended a call from the English church at Granston, near London. Before lunch an appropriate address was read by Mr. Melvain and a purse was given to Mr. George by Mr. Soutar. Mr. George made a suitable reply, expressing regret at his removal from this, his first field of labour, being necessitated. Mr. George will preach his farewell sermon on Sunday next.

Many of the people of this vicinity regret that the roads here have not been scraped.

Mr. George was presented with a beautiful ring by his brother Forest, who at their concert last Tuesday evening. The Raleigh Plains Dramatic Club furnished the program, acting their play, "Handy Andy."

Mr. Larry Doyle, of the sidroad, who was lately married to Miss Mary Waddick, has been honored by a vigorous bombardment by their many well-wishers. They have been saluted night after night by many unmelodious instruments. It reminds us of a miniature Beer war.

Sid Aldis has adorned his residence with a coat of paint.

Last Sunday some boys visited Ernest Edwards' bush and evidently wishing to catch a squirrel, started a fire. It stopped after having burned about fifteen rods of fence. A liberal reward is offered for the conviction of the culprits.

WALLACEBURG.

April 29.—Mr. and Mrs. Malcolm Cameron were in Sarnia Saturday.

Gordon McCosh spent Sunday at his home in Chatham.

The L. O. O. F. and Daughters of Rebekah attended the morning service in St. James' Church Sunday, in a body.

Rev. T. H. Parr, pastor, preached an eloquent and suitable sermon.

Ernest Harrison has returned to Wallaceburg, after spending the winter in England.

April 29.—Mr. Wm. Grant, who has been in Wallaceburg for the past two or three years, having held a position in the glass works, left yesterday for his home. Mr. Grant has made many friends here, who will be sorry to learn of his departure.

Fire broke out in the Herald-Record office last evening, at 10 o'clock. The fire engine was quickly on hand, but as there was considerable trouble in getting it started, the fire gained considerable headway and quite a lot of damage was done. The fire started at the back of the office.

Morris Fraser left to-day after visiting his cousin, Miss Jean Fraser.

Carrier boys are not authorized to collect subscriptions. Our collector calls in each town once a month; if a subscriber wishes to pay his account before the collector calls, he must remit direct to The Planet Office, Chatham, as we will not be responsible for monies paid to carriers.

There are none deaf, when money talks.

I could not rise to my feet without fainting.

"I had suffered for three years or more at monthly periods," writes Miss Ella Sapp, of Jamestown, Guilford Co., N. C. "It seemed as though I would die with pains in my back and stomach. I could not rise to my feet at all without fainting; had given up all hope of ever being cured, when one of my friends insisted upon my trying Dr. Pierce's Favorite Prescription. With but little faith I tried it, and before I had taken half a bottle I felt better, had better appetite and slept better. Now I have taken two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery,' and am happy to say I am entirely cured, and all done in two months' time when all other medicines had failed to do any good at all."

Dr. Pierce's Pleasant Pellets a pleasant and effective laxative for women.

Theatrical

Westminster Abbey, the historical church of England, is now closed that the necessary alterations may be made for the coronation services, and the Abbey Choir, Glee and Concert party, comprised of the six best boy sopranos, in England, including Percy Phillips, the finest boy soprano in the world, and nine of the finest soloists in England, assisted by Marie Hooton, the wonderful contralto, will be in the Opera House, Chatham, Tuesday, May 13th.

KEEP AN EYE ON THEM.

In the provincial campaign next month the subsidized leeches and officials of the Ross Government will be put in the constituencies working for the Government. Conservative workers should keep a lookout for these "offensive" parliamentarians and secure evidence of the part they take in the contest. After May 29th there will be a Conservative Government in power and such information will be useful for guidance in dealing with the offenders. It is a recognized rule that Government officials shall not take an active part in politics and if the Ross Government's officials flagrantly disregard that regulation they may expect to be dealt with accordingly.

HOW THEY DO IT

Glimpse at the Sanitarium Treatment of Stomach Diseases.

Men and Women Pay Handsomely for the Privilege of Observing the Simple Rules which Anyone may Practice at Home.

Why will so many otherwise sensible men and women pay enormous sums to be made do at a Sanitarium what they could do quite as well at home for free will at home?

The theory of Sanitarium Treatment for Stomach Diseases is Rest for the Stomach and Digestive Organs.

The Bill of Fare at the Sanitariums is very meagre and simple and the hours for meals are far apart.

The treatment provides for a moderate amount of open air exercise, but the strong feature is the rigorous simple diet or almost complete abstinence from food, and consequent rest to the stomach.

Now what is there about all this that cannot just as well and even better be done at home.

Everyone cannot afford to stop work for a month or starve their bodies.

Daily labor must be done and this either mental or physical—requires nutrition of the body.

But there is a way—an easy way—to give the stomach the needed rest and the body the needed nutrition at the same time.

Dodd's Dyspepsia Tablets digest the food, every particle of it, without any assistance from the stomach.

In this way the body gets the nourishment and the stomach the rest while work goes on just the same.

Take one or two of Dodd's Dyspepsia Tablets immediately after each meal. Don't during the meal. Take plenty of open air exercise and you have a perfect treatment for all Stomach Troubles based on the fundamental principle of rest to the tired organs.

FAVOR PEACE

London, April 28.—The war office has made public the following despatch from Lord Kitchener at Pretoria:

"Since April 21, twenty-five Boers have been killed, seventy-eight have been taken prisoners and twenty-five have surrendered.

"There has been desultory fighting in various sections of the Transvaal and Orange River Colony.

"The garrison at Okie (Cape Colony) successfully held out until it was relieved by the columns."

PREMIER TO RESIGN

Ottawa, April 28.—It is reported on good authority that Sir Wilfrid Laurier will resign the premiership immediately after the coronation conference unless his health improves. It is known Sir Wilfrid has been unwell for weeks past, and that his physicians have ordered him to take a rest.

It is understood that if such an eventuality is reached, the premiership will fall to Hon. Mr. Fielding, although the French Canadians will strain all efforts to prevent the position going outside Quebec and will try to arrange a deal by which Mr. Jetté, at present Lieut.-Governor of Quebec, will succeed, or failing him, Fitzpatrick.

WILLIAM A STUDENT

"There," said Wm. Holman last evening, as he moved his hand with all the majesty of possession, and pointed to a robin red-breast that was hopping about on the grounds of the Central school, looking for worms.

"I have just been studying a little natural history," continued the genial clerk of the Hotel Garner. "There is the robin looking for worms and those seven sparrows you see hanging around won't let the red-breast 'pull a worm'."

I watched, and sure enough it was as Mr. Holman said. The minute the robin would go to pull a worm, the sparrows would crowd and their presence bothered the bigger bird.

"That robin could whip the whole bunch of sparrows and they know it. I have often watched this same performance in my back yard and it seems to me that the sparrows just keep the robins from getting the worms out of pure rusefulness. That's the way it appears to me."

PRACTICAL PREACHER

I was out in the early morning the other day and met Dr. Hannon. "Doctor," I said, as I shook hands "you are an early riser."

"Yes," replied the pastor of the Park St. Methodist church, "I always get up early, and I generally have a day's study completed by noon."

"Then you still study, even at your age?" I remarked in some surprise.

"Oh yes. A man would fossilize if he didn't study," replied the minister, "I think that the mind, if it is kept in use, will be active long after decay and age have marked the body. No matter how clever or how talented a minister may be, he will soon wear out, if he doesn't study. The non-study requires vivacity and liveliness in the delivery of a sermon. That is why there is the call for younger men."

There was much in what the Doctor had said and I pondered on the little sermon he had preached on the corner that bright April morning to an audience of one. Would there were more like Dr. Hannon.

DRESDEN

April 29.—J. E. McGloaglin has received the intelligence of the death of his brother Sylvester, who died in Dakota last week, at the age of 36. He leaves a wife and three young children.

Thomas Laird's residence, North Dresden, narrowly escaped being destroyed by fire on Sunday. Very little damage was done, however, as willing helpers aided in tearing off the shingles and putting out the fire with only slight effort.

W. G. Hanna was in town on business yesterday.

Dixon Turnbull was out for the first time after his serious illness yesterday.

Samuel Taylor, of Wallaceburg, was in town yesterday.

Laird Bros.' schooner, the "Vienna" was reported lost yesterday morning, but a wire was received later in the day, announcing her safe arrival at Tober Moray.

A fire engine from Chatham was brought here yesterday and will be in use while the Dresden engine is undergoing thorough repairs.

Rev. N. Lindsay is away on a business trip.

Miss Mabel Leonard, who has been the guest of Miss Cora Merritt, in Chatham, for the past few days, will return home this evening.

Cramps Are Like Burglars They come unexpected, and when they are least welcome. Be armed with a one minute cure for cramps and keep Polson's Nervine handy; it acts instantaneously. Nervine's anodyne power is unique, for its composition expresses the highest medical progress of the age. Polson's Nervine is a true comfort in the family for in all derangements of the stomach and bowels it is an absolute specific. Nervine has five times greater medicinal value than any other remedy and is sold in large 25-cent bottles. Try it.

It's some compensation for great evils that they enforce great lessons.

"DRINK GRANO, CEREAL COFFEE."

IN HALIFAX

A letter has been received by a sergeant in "D" Company from Perry Hewston, who is in Halifax. "Perry" likes the drill first rate and said in his letter that "Cuba" was getting on fine. The duties are as follows:—Get up at 5.30 in the morning; breakfast at 8.00; drill from 8.00 till 12.30; dinner at 1 o'clock; drill from 2.00 p. m. to 3.30 p. m.; supper at five; from 5 till 9.30 to enjoy themselves. He sent his best respects to the members of "D" Company.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

"GROWLER" LOCALS.

The Torg big gun will be heard at the Grand Opera House to-night.

Forty years ago to-day Warren Lambert was travelling through New York State, and found snow on the mountains between Rochester and Albany.

A subscriber of "The Growler" kicked yesterday. He claimed that this sheet was getting as bad as the Boston Herald, one local and all the rest of the sheet ads. We informed him that we were not short of news, but just crowded for space.

"DRINK GRANO, CEREAL COFFEE."

VERY LOW RATES.

during the months of March and April via Chicago & Northwestern Ry.; \$30 from Chicago to Helena, Butte, Anaconda, Ogden and Salt Lake City; \$30.50 Spokane; \$35.00 Portland, Seattle, Tacoma, Vancouver, Victoria and a large number of other points. Tourist sleeping cars every day from Chicago to the Pacific Coast. For maps and particulars apply to nearest ticket agent or address B. H. Bennett, 2 East King street, Toronto, Ont. 11426

KEEP your eyes open and be sure that when you ask for Perry Davis' Painkiller you get just that and nothing else. Use it promptly to cure cramps, diarrhoea and all other bowel complaints in summer.

Steamship travel to Europe is reported to be very heavy during the present season and any passengers intending to cross the Atlantic, would do well to have their berths reserved at once, as ships are rapidly filling up. For further information call on or write W. E. Rispin, general steamship and passenger agent.

THERE has been much talk about Pny-Balsam, the greatest modern remedy for coughs and colds. It cures quickly and certainly. Of all dealers. Made by proprietors of Perry Davis' Painkiller.

The Anaemic Young Girl
Perhaps she is sixteen. Suddenly she seems to lose strength, her beauty fades because her strength fails, her eyes lose their lustre. How her spirit droops! It alarms you, but all this may be corrected quickly. Get her Ferrozone. It is a nerve tonic, it aids the stomach to do its work. Appetite? She'll eat anything and digest it, too. Ferrozone is an absolute specific for the anaemia of young people. Sold by A. I. McCall & Co.

Baking Powder.
Two ounces of tartaric acid, quarter of a pound of carbonate of soda and six ounces of ground rice flour mixed well together and put in this make a good baking powder.

A Dog's Attack.
The supreme court of Vermont holds that the question whether an assault by a dog was prompted by playfulness or viciousness will not be considered in imposing liability on his owner for any resulting injuries. The dog of the defendant in the case at issue jumped against the plaintiff, throwing him down and breaking his hip.

Saxon Farmers.
Many Saxon farmers who work in the fields in summer make artificial flowers in winter.

An Old Superstition.
It was once a common article of belief in England that when a maiden ran into the fields early in the morning to hear the first note of the cuckoo, and when she heard it took off her left shoe and looked into it, she would there find a man's hair of the same color as that of her future husband.

"DRINK GRANO, CEREAL COFFEE."

PARDON'S ROOM

DON'S LA BLEU

Continued from Page 1.

It was amusing to note this morning the very Liberals who were responsible for the disgraceful deed, running around talking to themselves and working themselves into imaginary anger so as to continue the deception among those in the Liberal party but not in the ring.

A. C. McKay says it's a shame. "Those rascally Grits," he groaned, "intend to leave us nothing. They steal our policy whenever it suits them; and now they're evidently after our color, too."

Irish Jack smiled serenely as he hailed The Planet and pointed to the blue-hued sign. "There," he said with evident satisfaction. "Surely The Planet won't blame me for that. That's one thing I'll escape on."

Chief Holmes smiled when he was asked about the case this morning. The Chief said, "P. C. Darr is investigating and I have no information to divulge just yet, though I believe Darr has a clue. Some say that the Tories did it, but I don't believe they did. What good would it do them to do a thing like that? I think that the Liberals sent someone down to whitewash the front window, as is always done, so that the outsiders can't see in. I guess the man who was sent down to do the job this time acted the fool and plastered everything."

SETTLERS' LOW RATES WEST.

VARICOCELE

No matter how serious your case may be, no long time may have had it, our NEW METHOD TREATMENT will cure it. The "varicose veins" return to their normal condition and hence the sexual organs receive proper nourishment. The organs become invigorated and manly powers return. No temporary benefit, but a permanent cure. **NO CUTS. NO PAIN. NO OPERATION NECESSARY.** NO DISEASES OF THE GENITALS.

STRICTURE

Thousands of young and middle-aged men are troubled with this disease—many unconsciously. They may have a smarting sensation, sharp cutting pains at times, weak organs, and all the symptoms of nervous debility—they have STRICTURE. About 100 doctors experiment on you by cutting, stretching or tearing you. This will not cure you, as it will return. Our NEW METHOD TREATMENT abolishes the stricture permanently. It can never return. No pain, no suffering, no mutilation from business by our method. The sexual organs are strengthened, the nerves are invigorated, and the bliss of manhood returns.

Cures Guaranteed

How Sankey Composes His Hymns.

As he sings, so Mr. Sankey composes the tunes for his hymns inspired by the feeling of the moment. Often he will stop suddenly in the midst of reading or talking to jot down on the ever-ready music-paper some bit of melody that comes to him. These jottings he gathers together and develops at his leisure, sometimes fitting them to poems preserved in his scrapbook, sometimes getting Fannie Crosby or another hymn-writer to write words especially for his music. He once said: "Good words will soon attract a good tune." He believes in melody always over harmony as a power to move people—Ladies' Home Journal.

Cultivation Kills Weeds.

If the ground is cultivated often enough no weeds can grow, and if the ground for a crop is carefully prepared before putting in the seed, by deep plowing and frequent harrowing, the cultivation required after the plants are up need not be more than one inch deep. If this be done after every rain there can be no weeds, and they will become fewer every year, while the cultivation will prevent loss of moisture in the soil by affording a loose covering of dry earth.

If Men Only Would.

If the young men who are measuring tape and laces would surrender their work to the young girls who are seeking employment and turn their attention to the pursuits of agriculture, there would be less misery and more contentment in the land; there would be more independence and less servility; more men and fewer creatures; more happy wives with comfortable homes, beautiful children and cheerful tempers.

Death Germs in Pin Heads.

The swallowing of a pin is less to be dreaded than the contagion that may lurk about the pin. Under its head and about the point of a pin, a whole multitude of disease germs may lurk, which, being given entrance to the mouth, from there soon infect the whole body, thus causing illness, or perhaps even death.

Those Loving Girls.

Does—"I wish that young Sotleigh wouldn't stare at me so every time we meet." It's dreadfully embarrassing."

Neill—"Yes, poor fellow! He never did have much sense."

A Perilous Profession.

There are some astrologers in China but not many, as astrology is a very perilous profession. When one of these so-called prophets predicts an event which does not occur, he loses his head.

A locomotive that never moves an inch and never draws a load is fit for nothing but the scrap pile. A Christian who does not go forward an inch and who helps along no Christian work—for what is such a disciple fit? Surely not for praise or imitation. The active Christian is the only possible Christian if we measure by the Bible standards.

NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, and Winnipeg.

N.B.—Since the Prospectus of the Company was issued (about the First of April), the Company has received two offers for the purchase of its entire output of paper. These offers are entirely unsolicited, and are from parties whose standing is such as to guarantee the performance of any contract they may undertake. One of these offers covers the first year of production, and the other covers the first three years. Either offer, if accepted, would be sufficiently profitable to assure the payment of the full dividend on the Preferred Stock, provide the amount required by the Charter for a Reserve Fund, and leave a balance sufficient to pay a large dividend on the Common Stock, if no unforeseen contingencies should arise. This does not include profits estimated from the sale of sulphite pulp or from the saw mill, which, it seems reasonable to suppose, would be sufficient to cover all unexpected contingencies.

PROSPECTUS

OBJECTS OF THE COMPANY

The Atlantic Pulp and Paper Company, Limited, has been organized in order to take advantage of the unrivalled facilities for the manufacture of pulp and paper at New Richmond, on the Bale des Chaleurs, and by its charter, has powers of the fullest description. It is confidently believed that pulp and paper can be more economically manufactured there than any other place in America.

The essentials to the success of such a concern are:

1. Cheap and unlimited pulp wood;
2. Adequate water power cheaply developed;
3. Pure water for the manufacture;
4. Cheap labor;
5. Low transportation charges;
6. Efficient management.

It will be seen that the facilities possessed by this Company assure a point of cheapness in the production of paper never attained before, while the situation of the mills on the Atlantic seaboard makes it possible to ship to all foreign ports by water without trans-shipment. As the Company proposes to confine itself almost exclusively to the export trade, it will readily be seen that this gives it further advantage over all other companies.

1. WOOD SUPPLY.—No paper mill in Canada has greater advantages in point of situation. Many companies do not own their own limits, being entirely dependent on outside purchases, and subject to fluctuations of supply and price. Other companies owning limits have to transport their wood from great distances by water or rail. Thus we find mills at Merriam and Niagara Falls are bringing their pulpwood from Central Quebec. Some prosperous paper companies even buy their pulp in the manufactured state. The mills of the Atlantic Pulp and Paper Company, Limited, will be built about two miles from the limits, where there will also be a very large mill-pond capable of holding several million logs. The Little Cascapedia River flows from end to end through the center of the limits, and the large number of tributary streams does away with the greater part of the hauling usually entailed in getting out pulp wood, thereby greatly decreasing the cost.

2. WATER POWER.—Mr. George F. Hardy of New York, the foremost American authority on this subject, has made a thorough examination of the water power that can be developed at the proposed mill site, and his report shows that sufficient power can be developed to run mills of even greater capacity. This report can be seen at the office of the undersigned, or at any office of the National Trust Company, Limited.

3. WATER SUPPLY.—Pure and clean water is one of the most important factors in connection with pulp and paper-making. The bed of the Little Cascapedia River is rocky, and owing to its crystal-like clearness and purity the water in the river is suitable for making the finest grades of paper without the expense of filtering, which is almost invariably required at other mills.

4. COST OF LABOR.—The labor employed in the mills and woods cost less than probably any other American mill, as far as known, as competent men in this section of the country, on account of the cheapness of living, ask very low wages.

5. TRANSPORTATION CHARGES.—The shipping facilities of this Company are certainly unequalled by any similar enterprise in Canada, the situation of the mills on the Bale des Chaleurs giving every possible advantage for export trade, which is probably the most profitable field. Arrangements can be made with Atlantic steamship lines to run steamers from New Richmond for eight months in the year, as required. During the winter months favorable winter rates have been arranged with the Railway Companies to St. John and Halifax, New Richmond being on the line of the Atlantic and Lake Superior Railway, which will be connected with the mills by a siding.

6. MANAGEMENT.—The Company has been fortunate in securing the services of Mr. Wm. M. McIntyre, formerly Mechanical Superintendent with the Laurentide Pulp Company, Limited, who will act as Manager of the construction and operation of the mills. Mr. McIntyre has had over twenty years' experience in pulp and paper-making, and is regarded as an authority on the manufacture of pulp and paper.

PROPERTIES

The properties and limits acquired by the Company contain about three hundred and two square miles, or one hundred and ninety-three thousand two hundred acres, more or less. The wood is principally spruce, and there is also a large quantity of cedar, pine, birch, balsam, and Gilead, and poplar. The Company has reports on this property made by five different expert Rangers, acting independently. Copies of these may be seen at any office of the National Trust Company, Limited, or at the office of the undersigned.

ISSUE OF STOCK

For the acquiring of the said property, equipment of the pulp and paper mills, the development of the water power, building the railway siding to the mills, and the furnishing of sufficient working capital, the present issue of Preference Stock is made. The whole of the Seven Per Cent. Cumulative Preference Stock has been authorized to be issued on the following terms:

For every two shares of Seven per cent. Cumulative Preference Stock subscribed and paid for, there will be allotted by way of bonus one share of fully paid Common Stock.

The Seven Per Cent. Preferred Stock is Cumulative, carries yearly dividends, and has priority over the Common Stock as to both dividend and assets.

After the payment of the dividend on the Preferred Stock, and before any payment of dividend on the Common Stock, a further sum of one per cent. must be applied to a Reserve Fund, under the charter. This fund will be for the further assuring of the dividends on the Preferred Stock.

Application will be made in due course for the listing of the shares of the Company on the Toronto and Montreal Stock Exchanges.

Applications for Preferred Shares should be forwarded to the **NATIONAL TRUST COMPANY, Limited, Toronto, Montreal, or Winnipeg; or to SUTHERLAND & CAMERON, Brokers, Ottawa, Canada.**

Checks, drafts, etc., are to be made payable to the **NATIONAL TRUST COMPANY, Limited.**

If the whole amount applied for be not allotted, the surplus paid on deposit will be appropriated towards the sum due on allotment. Where no allotment be made, the deposit will be returned in full.

Further information and Forms of Application can be obtained at the offices of SUTHERLAND & CAMERON, 48 SPARKS STREET, OTTAWA, CANADA, or the NATIONAL TRUST COMPANY, LIMITED, TORONTO, MONTREAL, and WINNIPEG.

We offer the Preferred Stock for sale on the above terms.

SUTHERLAND & CAMERON, Brokers
OTTAWA, CANADA.

The following is an extract from one of the reports: "I have been working in the lumber woods for twenty years or more, and have traveled and examined limits in the State of Maine, New Brunswick, and Quebec, and worked in Wisconsin and Minnesota, and I am sure this is the best pulp limit I have ever seen or traveled over."

On the basis of any one of these reports a conservative estimate shows that there is sufficient pulpwood now on the limits to supply the proposed mills for more than 25 years. As spruce wood will replace itself in from twenty-four to thirty years, it will be seen that there is sufficient wood on the limits to afford a perpetual supply to a mill double the capacity of that now contemplated.

The freehold property consists of twenty acres where the saw mill, dwellings, and office are situated, and 254½ acres on the bank of the Little Cascapedia River, where it is proposed to build the Pulp and Paper Mills.

THE PULP AND PAPER MILLS

It is proposed to erect—

- A Paper Mill with a daily capacity of 54 tons.
- A Ground Wood Pulp Mill with a daily capacity of 50 tons, and
- A Sulphite-Pulp Mill with a daily capacity of 40 tons.

Mr. George F. Hardy has estimated the cost of erecting the Pulp and Paper Mills and of developing the water power at \$950,000. The balance from the sale of the Preferred Stock will be sufficient to complete the payments for the limits, water power, saw mill, etc., provide working capital, and leave a substantial balance for contingencies.

THE SAW MILL

There is on the property a saw mill, equipped with the latest improved machinery, capable of turning out from 35,000 to 40,000 superficial feet of sawn lumber in ten hours, and is equipped with all necessary power, gearing, shafting, etc., for the installation of another saw, which would double the capacity.

MARKETS

The markets will be chiefly foreign, including the Eastern States and Great Britain. In view of the expected advances in the price of paper in the Eastern States it is probable that the greater part of the output will be marketed there. Situated as the mills will be on the seaboard, paper can be laid down in Liverpool and New York, duty paid, at such a price as to defy competition.

Freight quotations can be seen at the offices of the National Trust Company, or the undersigned.

ESTIMATE OF BUSINESS AND PROFITS

Estimating the cost of pulp wood at \$2.25 a cord, careful estimates made for the Company show that the ground wood pulp should not cost over \$5.89 a ton, and sulphite pulp not over \$16.00 a ton. The actual cost of newspaper from pulp, estimated at these prices, should not be over \$14.94 a ton. This is after making all necessary allowance for depreciation and renewal of plant, and all charges of management and selling.

The following estimate of the annual output of the mills has been prepared by Mr. Wm. M. McIntyre, a practical pulp and paper manufacturer, and is believed to be conservative and well within the mark, and includes allowances for salaries and contingencies.

15,902 tons of newspaper at \$37.00 a ton		
f.o.b. at mills	\$585,374.00	
\$294½ tons of sulphite pulp at \$30.00 a ton		
f.o.b. at mills	249,825.00	\$834,200.00

Cost of producing same:		
15,902 tons of newspaper, at \$16.94 a ton	266,219.88	
\$294½ tons of sulphite pulp at \$16 a ton	266,219.88	
		419,039.88

Showing a profit of	\$455,177.12	
7 per cent on \$1,500,000 Preference Shares	105,000.00	
Available for Reserve Fund and further Dividends	\$350,177.12	

The ground wood pulp and the balance of sulphite pulp will be consumed in the paper mill of the Company.

The estimated profits from the operation of the saw mill are not included in these figures, but owing to the enormous quantities of cedar on the limits, substantial profits should be made from the manufacture of railway ties, shingles, etc. The Laurentide Pulp Company, Limited, in its annual report, June 30th, 1900, stated that the Company's saw mill added to the year's profits an amount equal to its entire cost, although it was operated for only three months of the year, and estimated that the future profits from this source would cover the interest on the entire bond issue of the Company.

FRED H. BRISCO, OPERA HOUSE BLOCK

Mrs. John Turnbull, of Mono County, disappeared from her home and was found dead under a brush heap, with a package of Paris green by her side.

Eric Sharp, the fifteen-year-old son of a Kingston grocer, deliberately shot and killed Beatrice Holland, fourteen years of age, because she snatched his hat off at school.

HOME SPUN IDEAS

It is really a downright shame that those entrusted with the promotion of the Old Boys' Reunion scheme are allowing it to drop. There is absolutely no reason for this, no matter what may be said about citizens responding. Citizens never do respond to any scheme of this kind unless enticed into it. Now the idea that the citizens are going to flock to them and furnish them with information, money and ideas any more than they do in other cities is a mistaken one and if the present promoters feel they cannot put the affair in a way of ultimate success, let them call another meeting, inject more enthusiasm into it and step out. There are others who can fill the positions. There is altogether too much fuss over fire crackers; let us light it this time short and we will have it go off with a loud report yet.

There is something as ridiculously small in the opposition which a certain alderman's scheme for raising a license fee received, as there was in the scheme itself. If these aldermen would have gone to as much trouble securing a band to play on the park this summer, or having signs with the street names placed on the corners, they would have earned the gratitude of a long suffering people, who are tired of so "much ado about nothing."

This Equestrian Club idea is not new to Chathamites, and it is certainly well worthy of consideration. There is surely among the society belles young ladies with nerve enough to manage a horse, and the amount of pleasure, health and strength to be derived from it is amazing.

Without undertaking to dabble in politics, let us try and give our vote for the man who honestly feel will give this portion of our beloved city the most prestige abroad. A member of parliament can, if he is the right kind of a man, a man with convictions and one who is not afraid to express them, give a more adequate can be derived in any other way. Whoever represents us let him be a man that does not try to follow the old, worn-out path that a still tongue is a wise head. It may be, but it is often the case that he shows his brains by keeping his mouth closed. However much good that may do him, it does not advance the interests of this country. Both candidates are excellent and worthy gentlemen, but let us select the one who has in him the natural ability for the performance of work which is so vital to us if we desire the advancement of the county of Kent.

Let us, for the good we can get out of it and for the good it will do our city, encourage the idea of an aquatic club in Chatham. Do not lose track of the fact that all these things bring people to our city, increase its attractiveness, and help people at home. Nothing speaks so well for a city as the fact that the residents can enjoy themselves in their own town and we have here wonderful facilities for this class of enjoyment.

We are pleased to congratulate the Electric Light Co. on the improvement of their incandescent service. May their shadows never grow more so.

A man who is dignified by his fellows with a municipal office, should try to be worthy of it in his bestowal of favors. Even if he has many faults and frailties it is his duty to keep them out of sight. If he cannot counteract them he should not lose track of them. He is an example for others and that his obligation is not filled only by doing his duty to those whom he represents in the way of looking after their provincial interests, but he might well show an appreciation for the dignity bestowed upon him by abstaining from any parade of his vices if he has any. No matter how much a man may do for a community in the way of helping business, etc., he is unworthy of any office if he does not make at least a show at moral rectitude and elevated deportment.

"To be at once a rake and to glory in the character, discovers at the same time a bad disposition and a bad taste."

"Ingratitude is a crime so shameful that the man was never yet found who would acknowledge himself guilty of it."

One of the "home spun ideas" expressed in this column some time ago has, it appears, met with the approbation of the press through the province, that in reference to "divine loyalty." And it is to be hoped that we, at least, will endeavor to profit by it in this city there is much room for improvement in this respect.

Prussian Oil

Is doing its work in this province where ever introduced as thoroughly and surely as it has been doing all over the Maritime Provinces and New England States where it is in universal use curing the rheumatism, the neuralgia, the sciatica, the lumbago, the sprains, the bruises, the colds, the bronchitis, the asthma, the grippe, the burns and the scalds.

Very quickly when used as directed. Many people in London, St. Mary's, St. Thomas, Bridgetown and Chatham, who have tried it, have found it ever had in the house, etc. Use it and prove it. Sold by Druggists and Dealers.

A. W. Thompson, vice-president of the Ogilvie Milling Company, has sent an order to Winnipeg for the erection of twenty elevators along the line of the company's operations.

CURLER DROWNED

Former Blenheim man Victim of Yachting Accident at Winnipeg.

Winnipeg, Man., April 27. — The steam launch Gracie B. owned by C. F. Bunnell, proprietor of the Clarendon Hotel, left here early yesterday morning with a party of fifteen on board. Sam Harstone, an employee of the hotel, was one of the number. At Lower Fort Garry, where the current is very strong, the yacht's canopy was caught by the ferry cable, and it turned turtle and immediately sank with all on board. Everybody managed to scramble ashore with the exception of Harstone, whose body has not been found yet. He was unmarried, but leaves surviving him the following brothers and sisters:—Joan Harstone, principal High School, Lindsay; Leonard Harstone, Tins Solicitor, St. Mary's; Mrs. Noah Quance, wife of Principal of the High School, St. Thomas; Mrs. G. F. Thompson, wife of Purser on a San Francisco liner. Harstone was one of the best-known curlers in the Dominion.

The deceased was formerly a resident of Blenheim and was well known in the Maple City.

LABBY'S LIBELS

The Editor of London Truth Again Finds Himself in Court.

London, April 28.—More interest than usually attaches to libel suits against Henry Labouchere was exhibited at the trial of a case in the King's Bench Division of the High Court of Justice to-day, in which Lord Suffield was the plaintiff. Lord Suffield, who is permanent lord-in-waiting to the King, claimed damages for articles published in Labouchere's newspaper, Truth, one article alleging that a club of which Lord Suffield was president, was "an impudent and transparent humbug," and that the council of the club and others connected with the scheme was "a line of city prospectuses" for the purpose of deceiving and by means of which smaller people were lured into a snare. Counsel for Lord Suffield pointed out that Lord Suffield and Mount Royal, the Canadian High Commissioner, were president of the club in 1897 while the council of the club, when Mr. Labouchere wrote his articles, included Mr. Choate, the U. S. Ambassador, Cardinal Vaughan, Lord Straithmore and Mount Royal, Lord Charles Beresford and similar celebrities. One of Truth's accusations was that Lord Suffield was "knowingly present at a swindle." The defence admitted the publication, claimed that the statements and facts contained in the articles were true and that the comment was fair.

"DRINK GRANO, CEREAL COFFEE"

MUCH ROUTINE

Business of that Character was Transacted by Police Commissioners.

The Police Commissioners held a short but thoroughly business like meeting yesterday afternoon in the clerk's chambers, Harrison Hall. There were present Chairman Houston, Judge Bell and Mayor Sulman. The following accounts were passed:

A. R. Crow, \$6.00.
John Holmes, \$3.50.
Bell Telephone Co., 85 cents.
G. N. W. 50 cents.

The matter of purchasing the safe in the Police Station was then considered. The safe is the part of the estate of the late William Young, Judge Bell asked if it was in good order and if it was of any use to the police.

Mr. Houston—It is no good for fire purposes.

Mr. Sulman to Chief Holmes—Do you need the safe.

The Chief—We would be the better of it.

Judge Bell—What would be a reasonable price for it?

Mr. Sulman—If it is any good it ought to be worth at least \$50.

The matter was referred to the Mayor to report on what he thinks would be a reasonable price for the safe.

The report of the city engineer re the improvements needed at the Police Station was read. This report was before the council some time ago and referred to the Board of Works who, in their turn, referred it to the Police Commission.

Mr. Houston thought that the Board ought to go over to the Police Station and examine it.

Judge Bell—There is no doubt but that the Station needs repairs, but we ought to have specific plans drawn out and advertise for tenders.

It was decided to ask the City Council to instruct the Engineer to draw out plans and specifications for the work, when the Board will advertise for tenders.

Morley & Co. were given the contract for furnishing the policemen's uniforms at \$23 each.

The tenders were—
Morley & Co.—Sample No. 1, \$25; sample No. 2, \$23.
T. H. Taylor Co.—Sample No. 1 and 2, \$24; sample No. 3 and 4, \$21; sample No. 5 and 6, \$20.50; sample No. 7, \$19; sample No. 8, \$20.
A. Sheldrick—Sample No. 1, \$24; sample No. 2, \$23.
The Board then adjourned.

Ask for Minard's and take no other.

BICYCLE AND OUTING WEAR

Striking Bargains

Some of the fattest plums in our stock-reducing sale are to be found in outing wear,—bicycle suits, bloomers, sweaters, bicycle or golf hose, caps and flannel shirts. Our standard in these goods is as high as in any other class of clothing and furnishings. At their regular prices the articles represented small profits and close calculation. Materials were chosen because they were the very best for the purpose, and better wearing garments are not on sale in Ontario. They are bargains for the simple reason that we are pruning the stock and want to clear them out.

Men's bicycle suits that were \$4, \$4.50 and \$5 are now clearing at \$1.95. Cap and bloomer suits of serviceable tweeds in light checks and mixtures. Bloomers mostly finished with strap and buckle. \$1.95

Another, finer range. Tweed suits that were \$5.50, now marked \$2.50

Men's bicycle bloomers, assorted tweeds, were \$1.25 for \$75c

Men's bicycle bloomers, all with belt straps, flannel bands, reinforced seats and strap knee. Assorted tweed makes that were \$1.50 and \$1.75, selling at \$1.00

Finer goods, pear shaped with extension. Regular \$2.50 bloomers, selling at \$1.50

Fancy flannel shirts, good choice of colors and patterns, collars that can be turned in if preferred. Reg. \$1.25 and \$1.50 shirts for \$1.00

Bicycle hose, assorted mixtures with fancy tops and ribbed

legs. Worst and medium weight wools that sold at 50c for \$25c

Bicycle hose of good worsted wool with fancy tops, nice goods, reg. 75c and \$1.00, selling now at \$50c

Boys' sweaters, red and plain navy. Were 50c and 65c. Both sorts now clearing at \$30c

Men's sweaters, cardinal navy and heather mixtures. Reg. 75c styles, now selling at \$50c

Men's sweaters, dark green with white striped collar, sleeve and skirt. Reg. \$1.00 garments for \$75c

Men's sweaters in clouded stripe pattern. Were \$1.25 for \$1.00

Men's golf caps. A line of 50c tweed caps, medium and dark checks, all silk lined. Also 50c plaid chequers in smaller assortment. Clearing at 25c

Boys' fancy jockey caps, red and blue mostly with blue and white trimmings. A natty 35c cap, clearing at \$15c

THORNTON & DOUGLAS In Liquidation

G. O. I. NOTES

Baseball has superseded football at the C. C. I. concert was repeated in full on Saturday as a matinee, with darkened windows, electric lights and red fire. There was a fairly good attendance, twenty-five of the young ladies of Ursuline Academy being among the number. As before, the eighty or ninety performers acquitted themselves most creditably in their respective parts. Certainly nothing prettier or more graceful has been seen in Chatham since the two scenes of the cantata, "The Revels of May and her Fairies."

The regular bimonthly C. C. I. examinations begin on Thursday, May 1st, and continue for three days. Parents should see that none but the most urgent reasons keep pupils from attendance thereat.

The Collegiate Institute Board has made a valuable addition to the school library in the form of twenty-five volumes of "Orations from Homer to McKinley." These will be read with interest and profit by the budding orators of the C. C. I. Literary Society.

The C. C. I. Literary Society has in contemplation the formation of a choral class next fall under a competent instructor and the giving of a series of high class lectures.

The C. C. I. cadets have begun special drill practice under Drill Instructor.

DILEKONE CURE FOR PILES

OPINIONS OF LEADING PHYSICIANS.

I have found the suppository prepared by W. T. Strong of great assistance in hemorrhoids. It is the best local application I have used. CL. T. CAMPBELL, M. D., Chairman Board of Health, London, Ont.

Price \$1.00. For sale by druggists, or by mail on receipt of price. W. T. STRONG, Manufacturing Chemist, London, Ontario.

What About Mother?

Are they getting up in Years?

Have you noticed how hard this changeable weather is on elderly or sickly people?

Have you got a first-class portrait of them? If anything happened to either or both of them and you did not have their pictures, would you not deeply regret it?

We take pains with all our work, but sittings such as these are our special care. They mean to us and you shall have the best portrait obtainable of them for a very little cost.

WESTLAKE BROS., Fifth Street, Chatham
