## IS UNIVERSITY ACT CONSTITUTIONAL

### Anglican Synod Says Not and Legal Steps Will be Taken to see Whether Province Can Revoke Dominion Charter

Prince Albert, July 9.—The validity of the University Act passed at the last session of the legislature has been questioned by the English church synod which recently met here, and legal steps will no doubt be taken to ascertain whether the provincial legislature can revoke a federal enactment for a university of Saskatchewan had already existed under a Dominion charter.  
 In the early eighties Bishop McLean obtained a charter at Ottawa providing for the establishment of the University of Saskatchewan in Prince Albert and granting the institution degree conferring powers. The time has now arrived for the people, who have the charter to establish the institution, and they are going to proceed notwithstanding that the act passed by the provincial legislature last session declares that: "The University of Saskatchewan, and no other university having corporate powers capable of being exercised within the province or any portion thereof shall be known by the same name nor shall any such other university have power to grant degrees."  
 It will be observed that the legislature did not repeal the federal law but nullified it in an oblique way. If the matter goes to the courts it will be an interesting fight and it is assumed that the government will stand pat to vindicate the rights of the province to legislate in this matter. Both sides of the house are committed to the provincial act and endorsed this particular principle of the bill.  
 If the English church institution does not attempt to sustain their claim as a degree conferring body, they will make enough trouble over the use of the name, which is a direct violation of the provincial act. That they insist on their right to the name, however, is plainly seen by an advertisement running in the local papers under the heading "University of Saskatchewan," calling a meeting to devise a common policy for the university. The secretary is the noted Canon Flett.

## WE WANT ONLY OUR RIGHTS

### United Demand to Railway Commission to Compel Companies to Abolish Discriminating Freight Rates

The question of freight rates is a bone of contention in western Canada, but places like Calgary and Regina are well within their rights when they state that the trade of a province belongs to that province and the railway companies have no right to regulate traffic rates to place the trade in the hands of either Winnipeg or Vancouver. Calgary has made a strong kick to the railway commission and when that body comes to Winnipeg shortly the whole question will be fought out. Regina will send representatives who can be depended upon to battle for our rights. It is of great importance to this city whether we are to get shipping rates that will place us on equal footing with points outside the province competing for our trade. The distributing business in way freight out of Regina has amounted to an average of seventeen cents per day for the last four months, but we are not doing the volume of business that should be done from here on account of the unfavorable freight tariff.

**ARCOLA IS SATISFIED**  
 Attorney-General to open Town Hall and announce Judicial Seat

Arcola, July 9.—Attorney General Lamont is expected here shortly to open the new town hall, and it is anticipated that he will take advantage of the occasion to make an announcement regarding the seat of the district court. That Arcola will get the plum there is no longer much doubt, and it is said that Editor McLeod of The Star will be appointed clerk of the court.

**ROBLIN WILL FIGHT**  
 G.T.P. Route Through Agricultural College Grounds

Winnipeg, July 9.—Hon. A. C. Kilham, chairman of the government Railway commission, and Dr. James Mills, of the same board, arrived in the city this afternoon from Fort William. The first session of the commission opened in the appeal court room at 11 o'clock, after a brief outline of the arguments against the proposed route of the Grand Trunk Pacific into the city the commission adjourned its sittings until ten o'clock tomorrow. This afternoon all those interested in the entrance of the Grand Trunk Pacific accompanied by the commissioners went over the ground around the agricultural college, Tuxedo Park, and through the city.  
 Judge Kilham called upon Mr Roblin to submit his objections to the line. The premier stated that he was representing the people of Manitoba in protesting against the Grand Trunk Pacific being allowed to cut in half the agricultural college farm. The land had been bought two or three years ago, and was then said to be located so as none of the railways would want to interfere with it. Already the government had in-

vested half a million dollars in it, and it would total one million. If the Grand Trunk Pacific line through the farm was approved it would destroy the property for the purpose for which it was acquired. The opinion of the professors of Glasgow and the United States and their views coincided with his. He would have the commissioners go over the ground and he would be glad to accompany them.  
 Premier Roblin, intimated, and in fact stated, that he was prepared to fight the proposed route to the utmost of his power stating that he was backed by all the members of the local legislature, and by the majority of the people of Manitoba.

**BOURASSA TO FORM PARTY**  
 Prominent Young Quebec Leader to go after Laurier in Next Election

Montreal, July 9.—La Patrie is authorized by the statement of Henri Bourassa to resign his seat in the House of Commons for the purpose of forming an independent political party.

**MR. SCOTT ON COAL LANDS**  
 Premier Will Ask Dominion for Portion of Domain Which He Gave Away Under Autonomy Settlement

Saskatoon, July 8.—Premier Walter Scott, has promised to take over for the provincial government, the mining rights in the locality near Eagle Lake, where a coal discovery has recently been made. Mr. Scott was seen at his home in Regina on Tuesday night, by W. A. McLeod of The Phoenix, who was appointed by the Eagle Lake settlers to see if they could get the benefit this coming fall and winter of the discovery, made so providentially by one of their number. Mr. Scott said that it was against the policy of his government to undertake the operation or ownership of coal mines, but in view of the exceptional circumstances of the case, and the hardships and suffering that might ensue if the settlers in that important district faced another winter with an inefficient fuel supply, he decided to have the mine should the seam discovered prove a good one, developed for use of the settlers by the provincial government and with that purpose entered at once into communication with the department of the interior at Ottawa.  
 Crude tests already made by the settlers, show a fifty foot seam of lignite coal of good quality, said to be of the same quality as the coal mined at Estevan and Medicine Hat, has been discovered about six miles north of Eagle Lake. The seam is only a few feet from the surface and while only partially covered, enough has been disclosed to show that the find is of great value, more especially as fuel is very scarce in the district and nearly all wood within fifty miles of Eagle Lake has been taken by settlers for building purposes and fuel.  
 Discovered by Accident  
 The coal was discovered purely by accident. There is a spring close to

the trail on Stony Creek, in township 22, range 21, west of the third, last year a section of the cribbing was sunk over the spring by Councilman Fred Dowd, who had a horse bogged and drowned in the place. Archibald Campbell, one of the new settlers sent his boys to clean out the spring. They brought back a paifful of coal which they found while digging. Mr. Campbell accompanied the boys on the next trip and they dug a little deeper and found more coal. Mr. Campbell then reported the find to a meeting of settlers on Monday, July 1st, and on Tuesday morning a party of twenty-eight settlers armed with picks, shovels, pails for balling out water and mud, and a testing auger, gathered around the spring. The locality is almost surrounded by steep hills, a tongue or spur of the Bad hills on the south curving around to meet a spur of the Bear hills on the north. The existence of coal in large quantities somewhere in the district is shown by the finding of coal in nearly every well dug for water. Bags and paifful of coal were taken home by the settlers who helped to expose the surface of the seam. The main object in the way of immediate development is the water from the spring. Settlers in the district are jubilant at the prospect of an abundant fuel supply.

**DOLLAR WHEAT**

Kansas, City, Mo., July 9.—With the harvest well under way in the southern portion of the wheat belt, the outcome of the summer's return from the fields is being canvassed by business men. Reports from the interior do not estimate that the reports of two weeks ago will be very much changed by the totals of the wheat yield. The quality, is however likely to be above expectations, and this will have a helpful influence on the actual worth of the crop. Indeed there are many counties in Kansas and Oklahoma that are claiming they will have as many dollars worth of wheat as last year, this being of course on account of the higher prices.

**Oats a Failure**

Some elements enter into the business conditions of the interior that are not generally realised by the eastern authorities. For instance there is this year, almost a total failure of oats in the territory surrounding the city. The cold weather and the green bug have made that crop probably the lightest in two decades. That means a great dependence on corn and wheat to take the place of oats. If the corn does not give a tremendous yield it will be stored more generally than in many years. In other words, of the three great crops in

the middle west one is a failure, one has only a below average yield and is just beginning its career.

**Condition of Crops**  
The high price of grain that followed the bulge in the speculative markets moved a great deal of grain to the market. But with the wholly unprecedented amount of over two hundred million bushels yet in the farmers' hands, there is yet a good supply on hand and with a possible shortage of one hundred million in the yield of this country the farmers are going to try and get a higher figure than yet offered them.

**Dollar Wheat**  
"We are carrying the largest cash reserve in our history," said the president of one of the oldest banks in the wheat belt today. "This is not because we are afraid of a run, but we have an idea that the farmers are going to try and carry their grain well into the winter unless the price is what they term 'right'. It is astonishing what the western farmer thinks should be paid for his products. He wants to fix a price and make the world come up to it—and the curious thing about it is just now that the world seems to be paying him just what he demands. The farmer's unions are educating him to the idea that he can get a dollar a bushel for his wheat; the politicians are telling him that he is monarch of all he surveys, and he is preparing to carry out both predictions if he can. This year at least, unless the crop is assured, he is likely to be very unwilling to dispose of his wheat except at a high price, and we are arranging accordingly."

**LYNCH IS PARDONED**

London, July 9.—On the eve of his visit to Ireland King Edward has granted a free pardon to Col. Arthur Lynch, who was convicted of high treason in 1904, for having fought in the Irish Brigade on the side of the Boers in the South African war. Lynch was sentenced to death, but later his sentence was commuted to life imprisonment, and in January, 1904, he was released "on license." Lynch was member for County Galway in the house of commons.

**INTENSE HEAT**

Chicago, July 9.—Five persons died in Chicago yesterday from the heat. Ten more were stricken and three of these may die.

**Additional Locals**

The license of the Wascana hotel was granted today. The new hostelry will open on Monday next.  
Mrs. E. Connor and two daughters of Moomsin arrived in the city a few days ago to visit Mrs. Fenton Munro.

The board of trade will meet tomorrow evening in the civic chamber at 8 p.m.

Miss Sharman who has been the guest of Mrs. W. F. Kerr for an extended visit has returned to her home.

Supt. Abbott of the C.N.R. was in the city enroute to Winnipeg Monday. He was felled home owing to the illness of his little daughter.

Mr. and Mrs. J. D. Moir arrived in Edmonton on Friday from their wedding trip to Banff, and are stopping at the King Edward.—Edmonton Bulletin.

W. H. Collum, Northern Pacific Pacific ticket agent at Winnipeg was in the city this week routing the excursionists to the Ottawa Old Boys re-union.

H. Soueisse who resided here in the early days, but who has been removed to Winnipeg, is returning here with his family to make his future home.

A man named Stollard raised a cheque from two to fifty-two dollars, and passed it on the Trading Co. The police were put on the trail of the culprit.

Robert Young of Winnipeg, manager of the Investment Department of the Canada Life Insurance Co. spent Monday in the city in the interests of his company.

Messrs. H. W. Laird and A. T. Hunter leave this evening for Winnipeg to appear before the railway commission to advocate the interests of Regina regarding freight rates.

Farmers are requested to read the full page advertisement of M. G. Howe in this issue. Just think, your boy may have that watch he has been asking for so long for only \$1.50.

The annual picnic and bazaar of the W.A. will be held in the parish hall, Pilot Butte on July 19th, a good program has been arranged and a supper will be served from five to seven.

A new feature of the big Regina fair will be automobile races, the schedule for which is now being arranged. Three cups will be donated. These races will be run off in the evening between 7 and 9 o'clock.

Sandy Macdonald who has returned to the city after his accident in a New York sanatorium is at the Regina hospital where he is receiving very kind treatment and continued attention from the Sons of Scotland.

Seen today, E. Meadows, secretary of the exhibition stated that the entries are coming in very rapidly. For horses, cattle and pigs, the classes will be all filled, there being many large exhibits from Manitoba points.

A deposition from Yellow Grass waited on Premier Scott today regarding the draining of the big marsh there. Mr. Scott promised to consider the matter. There has been considerable country flooded in the Yellow Grass district this year for want of the proper drainage.

Solicitors,

REGINA

It cannot be too clearly stated, for the statement is beyond any qualification of contradiction, that never since the Muskoka Free Hospital for Consumptives was opened in 1902, has a single applicant been refused admission, because of his or her poverty.

**MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES**

is dependent upon the contributions of the Canadian public for its maintenance.

ADMINISTRATION BUILDING—MUSKOKA FREE HOSPITAL FOR CONSUMPTIVES

Private philanthropy has erected the buildings, providing accommodation to-day for 75 patients, and which the trustees are prepared to extend, if circumstances warrant it, to 100 beds.

These beds are for those in any part of Canada, without means, who are suffering from this terrible disease in the incipient stage.

There is no large endowment, as in some public institutions, the interest of which will go a long way to pay the running expenses.

The monthly bills, covering cost of administration, salaries of medical men, nursing, clerical and domestic staff, besides the heavy expenditure for maintenance of each patient, are dependent for payment almost entirely on the contributions that come to the treasurer from kind friends throughout the Dominion.

**Could Not Pay—Has Young Wife and Child.**

DR. G. F. CAMPBELL, GRAND VALLEY, ONT.—I have a patient, 26 years of age, with tuberculosis. His circumstances are not such that he could pay, as he has a young wife and child to support. Could you make room for him at the Sanatorium? I think he might improve. Let me know what you would advise.

**Destitute.**

J. AUSTIN, KINROSS, ONT.—I have a man, unmarried and destitute, afflicted with lung trouble, whom we wish to send to the Muskoka Free Hospital for Consumptives. Please let me know what we have to do to gain admission for him.

**Where Will Your Money Do More Good?**

Contributions may be sent to SIR WM. R. MURPHY, Kt., Chief Justice, Osgoode Hall, Toronto, or W. J. GAGE, Esq., 54 Front Street, W., Toronto.

Applications for admission and any other information from J. S. ROBERTSON, Secretary National Sanatorium Association, (Saturday Night Building), 28 Adelaide Street, W., Toronto, Canada.

**MID-SUMMER CLEARANCE SALE OF ALL SUMMER GOODS**

Commencing

**Friday and Saturday of This Week and Continuing Until the Last Day of the Regina Fair, August 3rd.**

Kindly remember the days as we want as many as possible of our customers to take advantage of the First and Second Day Bargains of this sale as we have something very special to offer. Our plans are to clean up all Lines of Mid-Summer Goods as early as possible this year in order to provide room for large shipments of late summer and early fall shipments now in transit from the factories of the east and Old Country. Subscription other than to the United States \$1.00 per annum, if paid in advance; otherwise \$1.20 per annum.

Commercial advertising rates furnished on application.

All communications, etc., should be addressed to THE MANAGER, The West Company, Ltd., Regina, Sask.

WEDNESDAY, July 10, 1907.

The Federal Outlook

In a recent issue, The West, in discussing the federal situation, asserted that we considered the only tenable position for the Conservatives of this province should the party leaders decide to appeal to the country without a well defined policy and one that would enable us to be consistent with regard to the principles of provincial rights.

In taking the stand we did, we realised that there are always more or less men in any party who are prepared to follow the leaders through thick and thin, but we depended on the Conservatives of Saskatchewan who set aside party politics in the local field in 1905, to support any movement that had for its object the reorganisation of the party for federal purposes on progressive lines, and we are gratified that we have been backed up by the President of the Provincial Association; many prominent men in the party, and many leading newspapers, especially the Moose Jaw News.

The news in commenting on our statement says we used "bold words" and we admit that we did, but did so after waiting in vain for the leaders in the east to make an announcement that would in some measure satisfy the people of this province. When the eastern nominations began we felt that it became the duty of the Conservative press of Saskatchewan to take a stand, not alone in the interests of the party, but in the interests of the province.

A federal party convention should have been held long ere this, but even if it is now too late to do this, we feel that if Mr. Borden will come west and make a declaration of policy on the lands question, pledging the party to restore to us our public domain, he will place the party in a position to go into the next federal campaign with a policy that will rectify the wrong perpetuated by the autonomy bill coercion.

Plain Speaking The Regina West has joined the ranks of those journals, which though Conservative, do not intend to bow the knee to every little image which the party leaders set up, and because of that act invoke the faithful to consecrate themselves to its service. In its last issue it even went so far as to say that the movement to reorganise and regenerate the party having been forestalled "may result in the Conservatives in this province being forced into taking an independent stand in the forthcoming elections."

These are bold words, but no bolder than the exigencies of the situation warrant. Now is the time for intelligent Conservatives—Conservatives by conviction rather than by tradition—to voice their opinions. It is useless to mince matters. The party is in the slough of Despond; before it can become a useful instrument of government it must be dragged out, and that by men who not only have the courage of their conviction, but have sufficient discernment to read the signs on the political horizon.

The statement of The West that the movement to reorganise and regenerate the party has been forestalled seems to be too well founded. Apparently the Slanderbund is in control of the ship, and has nailed the black flag to the mast as a signal of the cause in which it will fight. But men who defend themselves from charges by counter threats of exposure are not the stamp of leaders. For even though their information be correct and the members of the government be as immoral as is claimed, the policy is purely negative. Nor has the public a warrant that the new order of things would be immeasurably superior to the present; for the records of investigations tell a tale which is not creditable to some who assume to play the part of Conservative leaders.

Is this a time for negative policies when the whole Dominion is throbbing with a new life? When the entire world seems to be stimulated by a new energy? Forward movements are the order of the day. This is no time to stand still. Our territories require people, our industries are pinched for capital. Even what is produced cannot be marketed. The transportation systems have collapsed before the strain. The country reels with scandal. Some have even alleged that graft is a national sin, while as for immorality of the ministers of the crown, let unanswered challenges suffice.

This is the time for action; when leaders should take counsel together and call their entire party to their conferences. It is time for holding conventions that the leaders may, from the people themselves, learn what they want. Again we applaud the bold words of The West. Being the recognised organ of Provincial Conservatism its statement should have weight. May it continue in the course it has taken.—Moose Jaw News.

Impassable Roads The roads from the north to the city are impassable. This state of affairs should not exist, but in the meantime traffic to Regina is tied up and business here is consequently suffering. For weeks the farmers who would market their wheat in the city cannot do so by reason of the roads, and thus the grain is being drawn to other points where the market is a cent less. If there were a difference of five cents per bushel it would be all the same. Of course this was an unusually wet season and the sloughs are a foot higher than they were a month ago, but there does not appear to be any organised effort to remedy the conditions to the slightest extent. The government has adopted the construction gang policy, but the department has not done anything so far. Part of the district affected is in Mr. Calder's constituency, but, unfortunately, he is at present absent in Europe, and it appears that nothing pertaining to this matter was arranged before he left. The local improvement district ought to be able to do something, and if no one else will move in the matter, the business interests of the city demand that the board of trade take some steps to have an enquiry at least.

Ominous Cheers That mighty cheer which shocked the dignity of the San Francisco court when Judge Dunn pronounced a five year sentence upon Mayor Schmidt is indicative of wide-spread public feeling daily growing stronger in the United States against the political grafter. Canada was not slow to copy many of the worst features of public life in the country to the south of us, but we are not in a hurry to imitate the aroused public conscience which has revolted against the degradation of politics. It is unfortunate that in this country we never get an opportunity to violate the dignity of a court room by applauding the passage of sentence upon political grafters, and it has got so now that we cannot even get an election protest to trial. There is probably much to avoid in connection with politics in the United States, but something which we would do well to imitate is the growing resentment of public opinion against grafting and grafters.

To the Rescue The government has called the party newspapers to the rescue on the cent an acre tax, and it is quite noticeable that recently strenuous efforts are being made by the government press to do what the government failed to do, that is to show the farmers that the direct tax is in their interests, and that it is but bread cast upon the waters. We notice, however, that the men who praise the tax do not have to pay it. Some of the newspapers that are in favor of it are practically in the hands of the government, and we know one case where the editor is expecting and not without hope, that very shortly he will be appointed clerk of one of the new district courts. We hope to congratulate him on the appointment, but the sight of office should not affect the opinion of the paper in such a serious matter as the tax referred to, for it is not very long ago that this very paper represented to the farmers that voting for the Scott government meant the death knell of direct taxation.

Press Comments (Heward Chronicle) The Canadian Pacific Railway Company has decided not to pay school taxes in Heward. The announcement was made to the secretary-treasurer of Heward school district since the notice of assessment was sent out about two weeks ago. Their contention is that the lands in Heward are exempt from taxation as the lands assessed are part of the original grant given to the company by the terms of the company's charter. What the school board will do in the matter is yet to be considered. The case is a little bit out of the ordinary in respect to C.P.R. lands. The lands in question originally belonged to the company, but there has been several transfers, and when the township was agreed upon the lands again reverted to the company. The lands have been assessed to the C.P.R. for three years now, and though they have never paid taxes this is the first intimation they have given that they dispute the assessment. The C.P.R. have at various times fought the tax question through the courts with more or less success and at present are fighting for exemption in Alberta. For some years the C.P.R. was exempt from taxes, both school and otherwise, in lands in the west. A small school section in Manitoba however, demanded school taxes from the C.P.R., and the case went from court to court until it reached the privy council, where a decision was given adverse to the C.P.R. The railway, however, has since maintained that the case was not decided upon its merits and that a decision was given on an irrelevant part of the case in question. The supreme court of Canada has upheld the company's contention on three different cases in exemption. The present case will await the court of revision for the school board's action, which, we hope may be for enforcing payment.

Might Be Complications Peace Delegates see Possibility of Trouble between Japan and United States The Hague, July 8.—The sentiment of the delegates to the peace conference regarding the question that has arisen between the United States and Japan is that the situation is unfortunate for both countries, as the original incident regarding tension between the two countries is liable to give results which may follow. The question, the delegates think, is likely to create a hostile atmosphere, endangering the reciprocal commerce to which friendly relations had opened vast fields. Although settling of the issue by the United States to the Pacific cannot be interpreted as a threat, it is generally admitted there that such action may give rise to a dangerous peculiar excitement, which the administration at Washington may not be able to control. The Spanish representatives say that the United States has now found a hard nut to crack. The Russians remark that the predictions of Count Witte, that the next war will be between Japan and the United States is approaching realization. The English, French and Japanese delegates believe that both governments at Washington and Tokio sincerely wish to realise an understanding, and will not be realised by jingoism. Some of the Germans here are of the opinion that the situation may lead to an American, German entente which while preventing the isolation of Germany would be the strongest compact against British supremacy that could be made.

The West Company, Ltd., Regina, Sask.

WEDNESDAY, July 10, 1907.

The Federal Outlook

In a recent issue, The West, in discussing the federal situation, asserted that we considered the only tenable position for the Conservatives of this province should the party leaders decide to appeal to the country without a well defined policy and one that would enable us to be consistent with regard to the principles of provincial rights.

In taking the stand we did, we realised that there are always more or less men in any party who are prepared to follow the leaders through thick and thin, but we depended on the Conservatives of Saskatchewan who set aside party politics in the local field in 1905, to support any movement that had for its object the reorganisation of the party for federal purposes on progressive lines, and we are gratified that we have been backed up by the President of the Provincial Association; many prominent men in the party, and many leading newspapers, especially the Moose Jaw News.

The News in commenting on our statement says we used "bold words" and we admit that we did, but did so after waiting in vain for the leaders in the east to make an announcement that would in some measure satisfy the people of this province.

When the eastern nominations began we felt that, it became the duty of the Conservative press of Saskatchewan to take a stand, not alone in the interests of the party, but in the interests of the province.

A federal party convention should have been held long ere this, but even if it is now too late to do this, we feel that Mr. Borden will come west and make a declaration of policy on the lands question, pledging the party to restore to us our public domain, he will place the party in a position to go into the next federal campaign with a policy that will rectify the wrong perpetuated by the autonomy bill coercion.

Plain Speaking

The Regina West has joined the ranks of those journals, which though Conservative, do not intend to bow the knee to every little image which the party leaders set up, and because of that act invoke the faithful to consecrate themselves to its service.

In its last issue it even went so far as to say that the movement to reorganise and regenerate the party having been forestalled "may result in the Conservatives in this province being forced into taking an independent stand in the forthcoming elections."

These are bold words, but no bolder than the exigencies of the situation warrant. Now is the time for intelligent Conservatives—Conservatives by conviction rather than by tradition—to voice their opinions. It is useless to mince matters. The party is in the slough of Despond; before it can become a useful instrument of government it must be dragged out, and that by men who not only have the courage of their conviction, but have sufficient discernment to read the signs on the political horizon.

The statement of The West that the movement to reorganise and regenerate the party has been forestalled seems to be too well founded. Apparently the Slanderbund is in control of the ship, and has nailed the black flag to the mast as a signal of the cause in which it will fight.

men who defend themselves from charges by counter threats of exposure are not the stamp of leaders. For even though their information be correct and the members of the government be as immoral as is claimed, the policy is purely negative. Nor has the public a warrant that the new order of things would be immeasurably superior to the present; for the records of investigations tell a tale which is not creditable to some who assume to play the part of Conservative leaders.

Is this a time for negative policies when the whole Dominion is throbbing with a new life? When the entire world seems to be stimulated by a new energy? Forward movements are the order of the day. This is no time to stand still. Our territories require people, our industries are pinched for capital. Even what is produced cannot be marketed. The transportation systems have collapsed before the strain. The country reeks with scandal. Some have even alleged that graft is a national sin, while as for immorality of the ministers of the crown, let unanswered challenges suffice.

This is the time for action; when leaders should take counsel together and call their entire party to their conferences. It is time for holding conventions that the leaders may, from the people themselves, learn what they want. Again we applaud the bold words of The West. Being the recognised organ of Provincial Conservatism its statement should have weight. May it continue in the course it has taken.—Moose Jaw News.

Impassable Roads

The roads from the north to the city are impassable. This state of affairs should not exist, but in the meantime traffic to Regina is tied up and business here is consequently suffering.

For weeks the farmers who would market their wheat in the city cannot do so by reason of the roads, and thus the grain is being drawn to other points where the market is a cent less. If there were a difference of five cents per bushel it would be all the same. Of course this was an unusually wet season and the sloughs are a foot higher than they were a month ago, but there does not appear to be any organised effort to remedy the conditions to the slightest extent.

The government has adopted the construction gang policy, but the department has not done anything so far. Part of the district affected is in Mr. Calder's constituency, but, unfortunately, he is at present absent in Europe, and it appears that nothing pertaining to this matter was arranged before he left.

The local improvement district ought to be able to do something, and if no one else will move in the matter, the business interests of the city demand that the board of trade take some steps to have an enquiry at least.

Ominous Cheers

That mighty cheer which shocked the dignity of the San Francisco court when Judge Dunn pronounced a five year sentence upon Mayor Schmidt is indicative of wide-spread public feeling daily growing stronger in the United States against the political grafter.

Canada was not slow to copy many of the worst features of public life in the country to the south of us, but we are not in a hurry to imitate the aroused public conscience which has revolted against the degradation of politics.

It is unfortunate that in this country we never get an opportunity to violate the dignity of a court room by applauding the passage of sentence upon political grafters, and it has got so now that we cannot even get an election protest to trial.

There is probably much to avoid in connection with politics in the

United States, but something which we would do well to imitate is the growing resentment of public opinion against grafting and grafters.

To the Rescue

The government has called the party newspapers to the rescue on the cent an acre tax, and it is quite noticeable that recently strenuous efforts are being made by the government press to do what the government failed to do, that is to show the farmers that the direct tax is in their interests, and that it is but bread cast upon the waters. We notice, however, that the men who praise the tax do not have to pay it. Some of the newspapers that are in favor of it are practically in the hands of the government, and we know one case where the editor is expecting and not without hope, that very shortly he will be appointed clerk of one of the new district courts. We hope to congratulate him on the appointment, but the sight of office should not affect the opinion of the paper in such a serious matter as the tax referred to, for it is not very long ago that this very paper represented to the farmers that voting for the Scott government meant the death knell of direct taxation.

PRESS COMMENTS

(Heward Chronicle) The Canadian Pacific Railway Company has decided not to pay school taxes in Heward. The announcement was made by the secretary-treasurer of the school district since the notice of assessment was sent out about two weeks ago. Their contention is that the lands in Heward are exempt from taxation as the lands assessed are part of the original grant given to the company by the terms of the company's charter.

What the school board will do in the matter is yet to be considered. The case is a little bit out of the ordinary in respect to C.P.R. lands. The lands in question originally belonged to the company, but there has been several turn-overs, and when the lands again reverted to the company, the lands have been assessed to the C.P.R. for three years now, and though they have never paid taxes this is the first intimation they have given that they dispute the assessment.

The C.P.R. have at various times fought the tax question through the courts with more or less success and at present are fighting for exemption in Alberta. For some years the C.P.R. was exempt from taxes, both school and otherwise, in lands in the west.

A small school section in Manitoba however, demanded school taxes from the C.P.R., and the case went from court to court until it reached the privy council, where a decision was given adverse to the C.P.R.

The railway, however, has always maintained that the case was not decided upon its merits and that a decision was given on an irrelevant part of the case in question.

The supreme court of Canada has upheld the company's contention on three different cases of exemption. For the present we will await the court of revision for the school board's action, which, we hope may be for enforcing payment.

MIGHT BE COMPLICATIONS

Peace Delegates see Possibility of Trouble between Japan and United States

The Hague, July 8.—The sentiment of the delegates to the peace conference regarding the question that has arisen between the United States and Japan is that the situation is unfortunate for both countries, as the original incident causing tension between the two countries is liable to give results which may follow.

The question, the delegates think, is likely to create a hostile atmosphere, endangering the reciprocal commerce to which friendly relations had opened vast fields. Although sending of a fleet by the United States to the Pacific cannot be interpreted as a threat, it is generally admitted there that such action may give rise to a dangerous peculiar excitement, which the administration at Washington may not be able to control.

The Spanish representatives say that the United States has found a hard nut to crack. The Russians remark that the predictions of Count Witte, that the next war will be between Japan and the United States is approaching realization.

The English, French and Japanese delegates believe that both governments at Washington and Tokio sincerely wish to realise an understanding, and will not be misled by jingoism. Some of the Germans here are of the opinion that the situation may lead to an American, German entente which while preventing the isolation of Germany would be the strongest compact against British supremacy that could be made.

Berlin, July 8.—Conviction of an ultimate conflict between Japan and the United States appears to be widespread in Germany. It is one of the subjects sure to be referred to where ever diplomatists, military and naval officials, and others accustomed to follow national politics meet. The newspapers agree that President

SUNSHINE FURNACE. There is no dust nuisance in connection with the Sunshine. Because the Sunshine is fitted with a dust flue (see illustration). When you rock down the ashes (no back-breaking shaking with the Sunshine) what dust arises is drawn from the ash-pan up the dust-flue, then across the fire-pot to the smoke-pipe, as shown in illustration, where it immediately ascends to the outer air. Only two things to remember in connection with this operation—open both the dust and direct draft dampers. Sunshine is just the cleanest, simplest, easiest managed, greatest labor saving furnace that you can buy. If your local dealer does not handle the "Sunshine" write direct to us for Free Booklet.

McClary's. London, Toronto, Montreal, Winnipeg, Vancouver, St. John, Hamilton, Calgary.

PEART BROS. HARDWARE CO., Local Agents

Roosevelt is trying to satisfy the Japanese requests. They also agree that Japan asks nothing unreasonable. They recognise that the difficulty lies in the question of race, the economic antagonism of the Californians against the Japanese and the constitutional responsibility of federal coercion. It is believed by many of the leading statesmen that Japan is preparing to fight the United States for the mastery of the Pacific regardless of the San Francisco incidents. Strategists of the admiralty regard a naval war between Japan and the United States as the most interesting problem of the day. Careful studies that have been worked out are unfavorable to the United States, because the American fleet though stronger than that of Japan, would have to seek a fight in Japanese home waters.

WEEKLY REVIEW

HE'S NABBED New York, July 5.—Chester Windor, the missing teller of the Windsor Trust Co., who disappeared with nearly a hundred thousand of the company's funds several days ago, was arrested here today.

POOR LITTLE FELLOW! Kingston, July 5.—Willie Davy, the six-year old son of Charles Davy, got hold of a bottle of gun powder, and child-like lighted a match and applied it to the powder, blowing the bottle to fragments and burning his face and arms terribly. The little fellow will lose the sight of one eye. The house was set on fire, but the flames were put out.

1600 MILES IN CANOE Wolsley, July 5.—H. Thompson and F. Porter left today by the Qu'Appelle river in a canoe for Winnipeg. It is estimated that they will cover over a thousand miles by the time they reach their destination. They intend making the trip in about sixteen days. They take with them all the necessary supplies.

QUEBEC ELECTIONS. Montreal, July 5.—There is every indication that the provincial general elections will be held in Quebec by the end of September. Unwonted activity is being displayed in the Liberal camp throughout the province, a very unusual thing for a heated term while the general tone of the Liberal press also bears out the idea. Liberal meetings are being announced with a good deal of regularity, no less than three large conclaves of the "faithful" being already scheduled for the month of July.

HAIL AT SEDLEY Sedley, Sask., July 5.—A severe wind and rainstorm of unusual violence struck Sedley last evening and hail did much damage to crops. A newly built granary was blown to pieces, and a new wagon carried over a fence and smashed on an adjoining farm. At a ladies' aid meeting, at A. Ferguson's all the burgles being "faithful" being already scheduled for the month of July.

GUNBOAT ON LAKES. Washington, July 4.—The state department has received the assurance of the British government that there will be no objection to the request of this government in sending the gunboat Don Juan de Austria to the Great Lakes, where she will be used for cruising purposes by the naval militia.

TREE PROPGATION. Ottawa, July 7.—The Dominion government is engaged in an active campaign of tree propagation, and tree preservation in the west. The officials have been busy getting the established farmers and the new settlers on the prairies to plant trees. The movement is meeting with the greatest success. By way of setting an example to the individual the government has just completed the planting of over two million trees on its own forest reserve lands in the three western provinces.

MANY DROWNED. Vancouver, B.C., July 7.—A despatch from Kiteselas states that the Hudson Bay steamer "Mount Royal" running on the Skeena river was wrecked this afternoon in the canyon. The vessel went to pieces in five minutes. The island in the canyon is dotted with passengers. The cause of the accident is not known, but it is impossible to get details at present.

FRENCH TREATY Ottawa, July 4.—In connection with the departure of T. C. Borille, deputy minister of finance, today to meet Mr. Fielding in Paris, it may be mentioned that no trade negotiations with any European country will be opened up, until a new treaty is arranged with France. Canada has at present a treaty with France but

A. B. C.

stands for quality and a wholly Western product as well as the initials of the Alberta Biscuit Company. Our goods are made of wheat from the fields of Alberta and are baked in our ovens at Calgary. DROWNED AT FORGET

Young Englishman Loses His Life in Trying to Swim Across White Lake

Forget, July 8.—On Sunday evening a party of thirteen persons drove to White Lake to bathe. Two of the party started to swim across the lake and no attention was paid to them until cries for help were heard. The rest of the party were then dressing, but three young men, Stacey, Wheatly and Pool hurried to the rescue. Only Stacey was able to reach them and he was able to save his man, landing him on the shore but both were exhausted, but the other man, Childs went under, a search party was sent for from town and worked from nine o'clock till six next morning before they raised the body. The young man Robt. Childs, had only been in the country about three months, emigrating with his brothers from London, who were with him when the accident happened.

I will mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my book on either Dyspepsia, The Heart, or The Kidneys. Troubles of the stomach, heart or kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating the symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—the inside nerves—means stomach weakness, always. And the heart and kidneys as well, have their controlling or inside nerves. Weakness of these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's restorative has made its fame. No other remedy even claims to treat the inside nerves. Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write me today for samples and free book. Dr. Shoop, Racine, Wis. The Restorative is sold by the Regina Pharmacy Stores.

FIVE YEARS FOR SCHMIDT

Mayor of Frisco Convicted of Grafting in Municipal Politics and is Sent to the Pen—Cheers in Court San Francisco, July 6.—The passing of sentence upon the convicted mayor was accompanied by a remarkable demonstration. As the last words fell from the lips of the judge the great court that stood through the dramatic scene gave up a thunderous cheer. Men threw their hats in the air, others climbed upon chairs and the greatest confusion prevailed. Counsel for Schmidt appealed to the court to put a stop to this unseemly occurrence. "If we had a sheriff worthy of the name it would have been stopped instantly," replied the judge. Sheriff O'Neil who stood inside the rail, turned to the court in protest. "No one could have stopped that cheer, your honor." Then the order was given to clear the court. In the meantime half a dozen photographers set off their flashlights, and in the midst of the struggling crowd and suffocating smoke stood the convicted mayor dictating a statement to a half dozen news paper men.

MOTHERWELL ON CROPS

Winnipeg, July 4.—Hon. W. R. Motherwell arrived in the city today. Speaking of the crop condition he said: "From all I have learned the condition of the crop is fully as satisfactory in Alberta as in Saskatchewan. There has been sufficient rain and the grain is in good condition, and the prospects are that with good weather for the balance of the season there will be nothing lacking in the harvest. My general statement then in regard to the wheat in Saskatchewan then, is that it is late in growth and not so far advanced as last year at the same time, but that in other regards the conditions are perfect, and that with good dry hot weather throughout the balance of the season there will be harvested an excellent crop this fall."

THE POWER OF PIANO MUSIC

A piano ceases to be an instrument and becomes a thing of life under the hands of a master. It breathes every human emotion under his fingers and no other instrument so perfectly lends expression. Of course the instrument itself must be a good one, such as the New Stein-Williams Piano, foremost in Canada to-day. W. G. F. Seythes & Co., Regina.

MEDICAL ACT

Supreme Court of Canada Reverses Judgment of Our Court—Confusion Results

Edmonton, July 5.—A deputation from the Alberta Medical Council waited upon Hon. C. W. Ross this morning to confer with him regarding the recent judgment of the Supreme Court of Canada, which declared that the Alberta Medical Act, passed by the Alberta legislature is ultra vires and reversed the judgment of the supreme court of the North-West Territories. The judgment affects a number of medical men in this province, who registered in Alberta subsequent to the passing of the Alberta Medical Act, and previous to the announcement of the judgment of the supreme court of Canada as to its legality. It remains with the medical council to decide whether these men will be admitted as medical practitioners in Alberta. What the decision of the council will be is not yet known. It is very likely, however, that those who registered within the above mentioned date will be required to register again and pass an examination before the medical council.

FOR EVERY WOMAN ACCORDING TO HER NEEDS

The PRACTICAL GIRL and her FOODS SHE CONSIDERS APRONS INDISPENSABLE

A CERTAIN old-fashioned dictionary defines an apron as "a half girde or garment covering the front of the person, used for workmen and others for the purpose of cleanliness..."

APRONS FOR MANY USES Time was when many a woman looked on an apron as a badge of servitude, the sign of a woman's occupation that must be rigorously concealed...

front seams at the bottom to give fullness. The armholes are made very large, so the apron may be easily slipped on and off without crushing the most delicate waist underneath...

Two Squares of Flowered Gingham Make this Apron

be lace, or even puff. trimmed, and a frill of lace can be run around the neck. If made up in heavier materials, the hem may be braid-stitched all around. Or it would be very pretty with a colored hem stitched on to a white or cream centre.

Marked by absolute simplicity, yet essentially dainty, is a little apron that may be worn about the house by the practical girl on whom de-

the practical girl with a cross-stitch pattern worked in colors on serim. This apron is equally pretty made up in white linen, trimmed with a blue banding, a white embroidery ruffe and piped with blue sateen. The sateen should have the color set in salt water or sugar of lead before using.

A work apron that the practical girl is sure to find useful for her office may be made on the simple lines of the white apron worn by the stenographer. It is of checked dimity, with a tiny frill of lace around the neck.

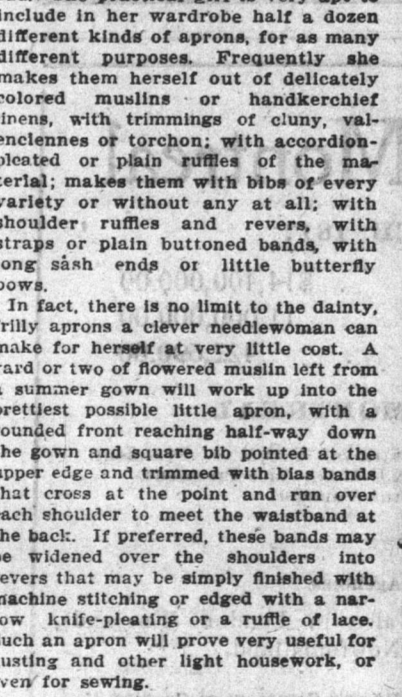

Whatver else the practical girl may do without in the way of clothes, she will find, when once she becomes accustomed to their use, that the apron is not only a necessary adjunct to her daily home life, but absolutely indispensable to her if she is one of that growing class of women who face the world as workers.

One End of a Worn Bureau Scarf May be Utilized

dimity sleeve covers, cut in a bishop model, held into a band at the cuff and finished with a little frill of the material and an elastic at the top, add to the usefulness of this apron. It is also supplied with a capacious pocket.

White Dimity with Crossed Back Straps This apron is made of white dimity with a cross-stitch pattern worked in colors on serim. It is equally pretty made up in white linen, trimmed with a blue banding...

### Local and General

Mrs. Sparling has been visiting friends at Yorkton.

The Canadian and American ball teams will meet again on Friday evening.

Mrs. D. J. Taylor and family are leaving for Winnipeg Beach to spend a holiday.

Hon. J. H. Lamont and J. F. Bole M.L.A., are in Battleford attending the fair.

Born-Harding, on July 9, to Mr. and Mrs. P. F. Harding, Lorne St., twins (girls).

Mr. and Mrs. T. H. Cooper spent a couple of days recently with friends at Stoughton.

Mrs. J. F. Smith, I. W. Sneath and K. N. Ferguson were among those who left yesterday for the coast.

W. Bell of the Massey-Harris Co., Regina, with his bride has been staying a few days at the Jasper house.—Maple-Creek News.

When at the exhibition visitors should inspect the jewelry and silverware stock which M. G. Howe is advertising in this paper.

Senator Pearley was in the city Saturday on business. He is not too optimistic regarding the crop prospects, but says that with proper weather the chances are good for a fair yield.

Mrs. H. V. Bigelow has arrived from the east to take up residence with her husband, the genial partner of Alex. Ross. Mr. and Mrs. Bigelow will reside in Mr. Ross' house until their own is completed.

Dave Cockerall took first money at Edmonton in the 218 class with his colt, Strangle Way. The Calgary bunch were out to beat the Regina horse but they lost heavily. Strangle Way will race at Regina fair.

F. W. Wilson is selling his household effects on Friday afternoon next. Bargain hunters should attend as the furniture is comparatively new. Oster street between 12th avenue and Victoria.

The officers have been appointed for the race meet at the Regina fair. They are: Judges, H. C. Lawson, Regina; Dr. J. P. Creamer, Qu'Appelle; J. A. McCaul, Indian Head; Timers, S. B. Jameson, Regina, W. Peterson, Regina. Clerk of the scales Allen Wetmore, Regina. Clerk of the course, M. McCausland, Regina. Distance clerk, N. S. Edgar, Regina. Judges' clerk, Major A. E. Whitmore. Starter, W. G. Pettigall assisted by Dr. Creamer.

Mrs. Slipper, of the Fort William Times-Journal and Port Arthur News, who is a well known writer as Hester Hope, was here Monday with the national council of women. She was in Regina last season with the press women and on her return she was delighted to observe the completion of so many improvements which were only started a year ago. While here, Mrs. Slipper was shown around by "Sandy Grant."

Some of the retail butchers were brought before Magistrate McCausland yesterday charged with violating the city bylaw. They were John Hoyntz, killer for Edman; A. Edman, Grassick and Greig for owning the slaughter house; and H. Skoock for killing within the city limits. Chief Harwood prosecuted and J. A. Allan defended. Mr. Skoock in giving evidence told of the hold-up of the Armour abattoir since the Trading Co. had shut down, and instanced where the retailers had been encouraged by Ald. Thomson, in the belief that with proper sanitary precautions the slaughter houses could be used. Mr. Allan contended that Mr. Skoock could not be prosecuted as he did not own the slaughter house and can kill where he likes. On this plea this particular case was dropped, but the others were fined the costs of the court. It is possible that the retailers will rent the Tudge abattoir and do their own killing. A meeting will be held this evening to consider the scheme.

Dr. J. C. Black has returned from his trip to the east.

Mrs. Bertrand of Brandon, is in the city visiting relatives.

C. R. Gough of Francis was a visitor in Regina on Tuesday.

T. W. Peart of the firm of Peart Bros. went east on Saturday for a visit.

The federal business college has moved into the Bank of Ottawa block.

Mr. Justice and Mrs. Johnstone have returned from their trip to the east.

Mr. and Mrs. Fred Cars of Lumsden have gone to Banff for a holiday trip.

J. D. Kinella of the Leader staff was married to Miss Bertha Taylor of Ottawa, on Monday at St. Mary's church, by Rev. Father Sulla.

Nurse McGregor of the Victoria hospital is at Davidson visiting her parents.

Work has commenced on the Grand Stand at the exhibition grounds. The seating capacity is being doubled, the roof being raised to give full view of the aerial displays. Underneath the grand stand there will be a large dining room and three booths, and an office for the secretary and directors.

An interesting visitor among the women delegates here Monday, was Mrs. Dennis, wife of the editor of the Halifax Herald. Mrs. Dennis takes considerable interest in Dominion politics, and was anxious to know the sentiment of the west regarding the political situation at Ottawa. The Herald gives Mr. Borden an independent support.

The National Council of Women were here Monday and were the guests of the city for the afternoon. They were driven to the barracks and were received at Government House. In the evening a public meeting was held and interesting addresses were delivered on the work of the organization.

The excursion to the Indian Head experimental farm today is the most successful ever organised. There was a train of twelve coaches off the Soo line. The train from Caron was so crowded that when she arrived here it was necessary to put on another coach and then standing room was at a premium. The department of agriculture have made adequate arrangements to handle the people.

# CHARMING COOL WAISTS

Of Sheer Silks and Fancy Lustres

To You at Big Reductions, if Your Size is 34 or 36

MANUFACTURERS WILL MAKE MISTAKES sometimes, for no human being is infallible. This lot of dainty Sheer Silk Waists were sent to us in only two sizes, 34 and 36. Every waist in the lot is in good style and of the most wanted fabrics for Summer wear. Dainty elaborations of Val. Lace, fine Tucks, Silk Embroidery, etc., in the very latest and most approved designs, turned over to our customers at big savings.

**\$3.25 Worth \$3.50**

Black Japanese Taffeta silk waists. Spanish and Val. lace and neat embroidery trimming.

**\$6.75 Worth \$10.00**

Rich cream Louise silk waists. Dainty tucks, embroidery and

Val. lace. Gibson style shoulder. Lace edged, band collar. If you are of the lucky sizes you secure a big bargain ..... **\$6.75**

Blues, blacks, browns, reds, also white. Considering the high class of fabrics and the neat styles and making. These waists are surprisingly reduced.

**Stylish Lustres**

Large assortments of fancy Lustre waists included in the lot. Present Marked Prices **\$2.50** and **\$3.00**

### Men's Straw Hats

Confidence is a plant of slow growth and perhaps too much praise about our hats might not impress you favorably. But if you happen in and try one on—that's another story.

Straw hats are now having their innings or rather their outings. Stiff straw boaters and sailors.

**And the Panamas**

We must not neglect to mention these because they are quite worthy of it. We have been fortunate this season in procuring the assortments we did, for Panamas are scarce.

The price marks starts at five dollars.

### Good Sales of Tumblers Glasses

There have been remarkable sales lately of glass tumblers and all styles of drinking glasses. Customers tell us the grade of goods we sell command a much better price elsewhere. Every design kept in stock.

### Table Tumblers

Four designs of table tumblers; needle etched ..... 80c a doz.  
 Light wines ..... 60c a doz.  
 Wine glasses ..... \$1.25 a doz.  
 Goblet, thin crystal ..... \$2.00 a doz.
