Shrewsbury, Eng., Oct. 15.—A train all the cars with the exception of the last one left the rails, and when the officials from the railroad station reached

Scotland and the north of England to Bristol, left the rails as it entered the station here at an early hour this morning. Sixteen persons, including ten passengers, were killed, and many others were injured.

The London & Northwestern Railroad, on which the train was running, curves charply as it nears Shrewsbury, and there is a standing order that the engineers must not exceed a speed of ten miles an hour at that point. Disregard of this order is believed to have been the cause of the accident. The engine and

The trouble was occasioned by Joseph Kirg an intoxicated logger, who crashed into the window of the laundry conducted by Umkekubo, at 422 Feel street, last night.

The proprietor and Omura rushed and dragged King into a rear room, where he was placed in charge of a young Japanese, who stood guard, armed with a section of gas pipe, while the other Japanese hurried to summon the police to arrest King. Three intoxicated compan

It was in 1894 that Miss Duff met Dr. Judson. The acquaintance continued for a year and the attachment grew. In 1895 Dr. Judson invited Miss Duff to 1895 Dr. Judson invited Miss Duff to his home in Detroit, and at that time, it is alleged, promised to marry her. Dr. Judson's mother left for the west. Through an alleged pretext of commonlaw marriage Miss Duff remained at the doctor's home. She was introduced everywhere as Mrs. Judson, and, as far as the world at large knew, she was his wife. Repeatedly she begged of him to make the tie certain by observing society's laws, in having a public ceremony and a record of their union, but each time he is reported to have put her off.

The Judsons adopted two children, the first a girl, then sixteen months old, the second a boy when he was a day old. Legally, they became the children of Dr. and Mrs. Judson, the doctor figuring as prominently in the adoption as did the

woman, then believed to be his wife. The girl and boy were publicly christened Margaret Judson and Clay Judson.

The fall of a hanging lamp in the Judson home resulted in a fire which burned Mrs. Judson, all but fatally, and resulted in her disfigurement for life. Several operations followed as a result of the burns. Mrs. Judson lost her beauty, with it her home, her happiness, and, eventually, her position in society as the wife of a successful physician. Tangler, Oct. 15.—Judging from the latest semi-official declarations here, Sultan Abd El Aziz, during the conferences with the French Minister, M. Regnault, at Rabat, invited France to consider the question of establishing a protectorate over Moroeco, including the immediate occupation of the entire coast.

The most disquieting feature of the general situation, with the exception of the reported request of the Sultan, that he ports be occupied by French troops, is the practical certainty that an attempt is now imminent to impose foreign military police upon the various scaports of Moroeco, which, it is believed, will meet with fierce resistance upon the part of the natives.

The France-Spanish authorities have announced their intention of beginning the new jet resistant police and the profession of normal conditions at Casa Blanca, as reported by the pro-French press of Moroeco, which, it is believed. Will meet with fierce resistance upon the wart of the natives.

The France-Spanish authorities have announced their intention of beginning the new jet resistance of the soldiers of the touchers of Regent and other Algerian troops, known as "the butchers of Casa Blanca," which naturally is likely to excite the saminosity of the natives.

According to diplomats here, it means not only European intervention, probably with a reconsideration of the terms of the Algerian troops, known as "the butchers of Casa Blanca," which

He promised to send their some picture postal cards from Milan, and drew out his pocketbook and placed a card on it for them to and placed a card on it for them to write their addresses. Suddenly the bell recalling the girls to work was heard and the young women rushed indoors, taking the pocket book with them. It contained \$1,200. The police were notified, and found that the girls were not known in any dressmaker's establishment in the neighborhood.

The police have not yet succeeded in capturing the two young women who robbed the wealthy American officers of \$1,200 yesterday. As the victim is a married man and the father of a family, the authorities decline to reveal his identity, except to say that his name begins with the letter "S."

TRANSFER CHARGES.

Companies Say.

The Police Commissioners held their monthly meeting to-day at noon to appoint a man to the force and to trans point a man to the force and to transact regular business. George E. Sharp, of Brantford, a machinist, was chosen from eight candidates, and the Chief thinks he is a good man. Sharp's measurements are 6 feet 2½ inches in height, chest 37, weight 178 pounds. His age is 23. Sharp is a well-built young fellow, and the Chief was sorry when he was not appointed the last time ho applied, which was a couple of months ago.

Two more vacancies remain, which the Chief wants filled up before the new year.

Chief wants filled up before the new year.

William Marshall, Bay street south, had a complaint against one of the transfer companies. He wrote that he had five trunks taken from the G. T. R. to his home, and that he was charged 25 cents each. The rule governing this states that for each parcel under 200 pounds the charge shall be 25 cents, and for a parcel over 1,000 pounds it shall be 35 cents. The way the transfer companies interpret this rule is that each parcel should be counted. The commissioners spoke of making it 25 cents for one trunk and 10 cents for each additional one. No action wes taken, and, the secretary was advised to have the transfer companies send representatives to the next meeting, when the matter will be dealt with.

Three Explosions.

Brazil, Ind., Oct. 15.—Three distinct explosions were heard here to-day from the direction of the Dupont Powder Mills, 15 miles away. Many windows were shattered in the business and residence districts. All plate windows in the Citizens' Bank building were destroyed. It was reported here that the powder house and two mills of the powder company at Fontanet had blown up and that from 25 to 100 persons had been killed. All communication with Fontanet is cut off by wire and persons in automobiles left at once to render any possible assistance.

Fontanet is a mining town of a few hundred inhabitants situated on the big four railroad, 18 miles east of Terre Haute, and 65 miles west of Indianapolis. Three Explosions.

Terre Haute, Ind., Oot, 15.—The Laflin & Rand Powder Mills at Fontanet, 18 miles north of this city, exploded at 9.15 o'clock this morning, practically wiping out the little mining town and killing 20 meu and seriously injuring 100

ing 20 men and seriously injuring 100 more.

The mills are burning and the bodies of the killed cannot be recovered. Every building in the town and within a radius of half a mile, including the school house, is wrecked.

The Big Four Railroad ran a special train to the scene of the accident with physicans and the injured are being brought to the hospitals in this city. Superintendent Monahan, of the powder mill, is missing and supposed to be in the debris.

A state of panie prevails among the residents of the surrounding country.

The telegraph and telephone wires are down. Many automobile parties have left this city with physicians and relief supplies.

PERSONAL INJURY CASES AT THE ASSIZE COURT.

Verdict for Plaintiffs in Cases Heard Yesterday Afternoon and This Morning.

The case of Thomas Downs vs. the lamilton & Dundas Street Railway Co., n action for damages, closed the after-could be used in the cutting of patterns Hamilton & Dundas Street Railway Co., an action for damages, closed the afternoon session of the Winter Assizes yesterday, the jury bringing in a verdict of \$275 for the plaintiff, Downs, who asked for \$1,000 for injuries received while in a rocking chair swing at Ainslie Wood. The accident happened on the 15th of September, while he was attending the picnic of the International Harvester

picnic of the International Harvester Company's employees. A number were swinging when the swing collarsed, and Downs was thrown out, sustaining a broken wrist and injuries to his head. He was confined to his bed for 15 weeks. The defense contained that the company was not hable, as the plaintiff had not paid admission to the park, and was therefore to blame for the accident. Mr. W. W. Osborne, for the defendants, thought there were grounds for a nonsuit, but he decided not to lake the risk of letting it go to the Appellate Court.

suit, but he decided not to take the risk of letting it go to the Appellate Court. The first case to be taken up this morning was Joseph McLaughlin vs. The Double Use Mitten Company, of Dundas. The action was for \$5,000 damages for the loss of an eye, while in the employ of the company. The action dent occurred on the 25th of March, Plaintiff, a glove cutter, was working on a pattern when the knife he was using broke and the point went into his eye, destroying the sight. The plaintiff claimed that the knife was not properly tested, and that the pattern he was us-

of gloves.

The defence denied all the allegations made by the plaintiff, and contended that the knife could not be properly test-

made by the plaintiff, and contended that the knife could not be properly tested, and that the pattern was in good condition. Mr. George Lynch Staunton appeared for the plaintiff and Mr. J. W. Nesbitt for the defendant. The jury brought in a verdict for the plaintiff, awarding him \$500.

Jabez Taylor vs. Nicholson & Riley was an action for \$2,000 damages for injuries received through an explesion of dynamite. Taylor was employed as foreman of a gang on the construction work of the Brantford & Hamilton Railway, Nicholson & Riley, being the contractors. On the 1st of April, he discovered a portion of dynamite that had not been blown off. He asked Mr. Nicholson, what to do in the matter, but he said they were not allowing any blasting except after the men had quit work. Shortly after speaking to Mr. Nicholson, Taylor had occasion to go near the spot where the dynamite was, when it exploided killing Taylor's helper, and doing Taylor severe injury, including the loss of his hearing.

The defendants say the plaintiff was entirely to blame, in that he did not display the usual amount of caution while working around the dynamite. Mr. George Lynch-Staunton for the plaintiff, and Mr. S. F. Washington for the defendant. The case was still going on at press time.

"Wait here, Mr. Lynne, until I call," he said, and went toward the terrace. Sylvia had sung twice, and had then run up to see Mercy.

"I'll smoke my cigar on the terrace," said the viscount, "if you'll come, Audrey. The signorina will join us when she comes down, I hope—that is, if she is not afraid of the night air."

"I'm afraid of nothing!" responded Sylvia, with a laugh, as she left the room.

"Lovely night, isn't it?" said the vis.

"Lovely night, isn't it?" said the vis-

rather tamely. "The fact is, I'm off to Africa."

"To where?" exclaimed the viscount.

"Africa. And I thought I should bke to say good-bye to Miss Hope before I went, as I shall be away some time."

Poor Audrey's heart beat heavily, and her bosom heaved.

"Good heavens! what a man you are for rushing about!" said the viscount, reproachfully. "You don't seem as if you could stop more than five minutes in one place. Airica, too! What's the use of spending your time among savages? Besides, if you're so fond of 'em. you might as well stay at home; we've got plenty of 'em here. Have a cigar." Have some wine—I hope you've dined!"

Lorrimore said falsely that yes, he adined, and accepted the cigar.

"We've got your friend, the famous Signorina Stella, in the house," said the viscount. "She'll be delighted to see you, I dare say, and I'll set her on to dissuading you from this absurd African idea; eh, Audrey?"

"Sylvia will be very sorry," she said, almost inaudibly.

"Stylvia will be very sorry," she said, almost inaudibly.

"I'll go and see about some wine," said Lord Mariow.

The two left alone were silent for a moment or two, Audrey's heart beating too fast to allow of her speaking at first, and Lorrimore wondering how on earth he should break the news of Neville's proximity. At last he said:

"I'm afraid I have made my visit at an unconventionally late hour. Miss Hope, but I meant starting to-morrow."

"You meant," she said, keeping her voice steady by an effort.

"Yes, I may be a day or two later now. The fact is—" Then, like most men engaged in "breaking" the news, he blurted it out, "Audrey, I have heard of Neville Lynne."

She started, but did not look overcome

She started, but did not look overcome She started, but did not look overcome with joy. She was too much engaged thinking of another man—the Earl of Lorrimore, to wit—to be very much moved, even by the return of her old friend.

"Yes! He—well, the fact is, that he is "Well," replied Lorrimore. "I should if Sylvia had not been here."

"Here! Where! Oh!" and she looked "Yes," said Lorrimore. "I met him to-

night, by the most singular chance, and I have only just left him." "Left him? Where? Oh, why did you

"Left him? Where? Oh, why did you not bring him with you?" said Audrey.
"Sylvia! What has Sylvia to do with him or he with her?" demanded Audrey.
Lorrimore was a bad hand at telling a story, and he looked round helplessly.
"The long and short of it is," he said, "that they know each other—that they are both friends."
"Sylvia and Neville Lynne!"
"Yes."
And in as few words as possible he

And in as few words as possible he told her the story, or as much as he knew of it, Audrey's eyes growing larg-er and larger as she listened and gazed

at him.

"All the while the poor girl was lying at Wildfall, as near death as she could be, and thinking him dead, he was at Lorn Hope Camp, within a few miles of her. It's the most exasperating, aggravating business aht the mind of man can conceive," he said, grimly.

"Actually within a few miles of him and not to know of it."

at all," he said, simply, "but of poor Sylvia. And now the question is, how am I going to bring him to her without scar-

I going to oring mm to ner without scaring her out of her senses? She thinks
him dead—dead, don't you see?"
"I see," said Audrey, slowly and
thoughtfully. "Yes, I see!" And she
indeed saw more than Lorrimore had put
to her. She understood, now, why Sylvia was not married, why she received via was not married, why she received men's homage and admiration with such coldness, and reserve. "Oh; the poor gir!!" she muttered, "and to think it is Neville Lynne. Oh. "I am so glad! So, glad!" and in her joy at her prospects of her friend's happiness, she turned to him with tears glistening in her eyes, and looking so lovely that poor Lorrimore's head swam.

"Yes, I'm glad he's turned up, and—and I wish I'd found him," and he turned his head away.

and I wish I'd found him," and he turned his head away.
Audrey's eyes fell.
"But now we've got to break the news to her," he said. "You see what a splendid hand I am at that kind of thing, and I'm afraid you will have to do it."
"Yes," said Audrey, softly. "I will do it. Where is he?"
"Out there in the shrubbery," he said.
"Waiting for me to call him. Shall I do so?".

"Waiting for me to call him. Shall I do so?".

"No, no; not yet. He must not come yet, in case she should come out suddenly and see him, without being prepared—ah, here she is!" she broke off, as Sylvia's voice was heard singing as she came. "Here's Lord Lorrimore, Sylvia," said-Audrey, trembling a little.

Sylvia utered an exclamation of pleasure.

Middletown, Oct. 14 .- One man was

killed, five others will probably die, and five or eight were badly injured to-day when seventeen cars of a work

broke and the rest of the train went into the ravine.

A hundred laborers were rushed to the spot and began digging the injured out of the wreckage. The seriously injured were rushed to hospitals here in ambulances which were sent to the

Buffalo, Oct. 15 .- Mrs. H. O. Alexander, residing in the Wayne apartment

Buffalo, Oct. 15.—Mrs. H. O. Alexander, residing in the Wayne apartment house, 1,104 Main street, was frightfully burned late yesterday afternoon; a dozen women in the block were thrown int management. The woman was cleaning clothing with gasoline in her apartments on the third floor, when the fituid exploded. She was immediately enveloped in flame. The woman screamed for help and ran for the rear stairs after throwing some clothing about her. Women in the flat heard her screams and saw her running down the stairs, flames leaping from every part of her clothing.

She fell at the bottom of the stairs and it was there that the heroic rescue work began.

Mrs. T. Keifer, wife of the custodian of the flat, heard the woman drop to the floor. She looked out of her door and saw Mrs. Alexander writhing in her blazing garments. She grasped a table-cloth and three literatures.

necessary the application of a wet pack. His Majesty rested a little better than usual, and was somewhat tired after yesterday's work. Nevertheless, he immediately received the court officials and a itungarian official who made a report to the Emperor regarding the progress of the work of putting the Ausgleich in operation, the interview lasting nearly an hour.

Later, however, the patient's condition became worse. The fever, which ceased last night, recurred at about 10 o'clock, although moderately. His heart's action and general conditions are not unsatisfactory. The obstinacy of the fever alone causes uneasiness, the frequent coughing being accompanied by abundant expectoration. The attending physicians again to-day informed His Majesty that a trip to some southern place was advisable, but he decidedly refused to leave Schoenbrunn Castle, saying it would be too tedious for him

place was advisable, but he decidedly re-fused to leave Schoenbrunn Castle, say-ing it would be too tedious for him anywhere else, and that he must work, as otherwise he would fall sick, thus showing clearly that the Emperor does not consider himself to be ill. A despatch from Prague says that a special train is held in readiness there to bring the Archduchess Elizabeth, grandchild of His Majesty, and other members of the family to Vienna in case of necessity.

Stocks and Bonds

Noon stock letter received by A. E. Carpenter from Ennis & Stoppani:

New York, Oct. 15 .- The market dur ing the morning ruled irregular, but showed less real pressure. Buying in Union Pacific, Northern Pacific, Smelt-crs and elsewhere was good, and some of it represented a continuance of influential absorption noted on Saturday and Monday. It is understood that a prominent bear plunger covered his line just prior to the last break in prices. It is now understood that, contrary to the general opinion, American Smelters have no financial interest in the fluctuation in price of copper metal, which is landled as a by-product, the principal business being the smelting of silver, gold and lead ores. The company inventories its silver at 50 cents, against present of the Poly Leidad silver and contract of the Poly Leidad silver at 50 cents. ing the morning ruled irregular, but goo'l loads, with the bulk not finished.

Trade was the worst at this market for the season thus far.

Prices for export cattle were 25c to deeper cwt, lower, but good to choice butchers held their own, while common to medium butchers were 15c to 25c per cwt, dividend rate. It is thought that helders of the stock are now entitled country to such dividends. After 4 per cent, and the stock are now entitled to such dividends. to medium butchers were 15c to 25c per cwt. Lower.

Exporters—Prices ranged from \$4.15 to \$4.75, but only one load at the latter price, the bulk selling around \$4.50 per cwt. Export bulls, \$3.25 to \$3.75.

The City Council last night resolved incipal obstacle being lack of funds, being found that whatever sum was uired for the purpose would be so ich added to the overdraft, an illegal xpehditure of funds not provided for by the rate. In the circumstances the cision was, in our opinion, a wise one and were the principles regarded in arriving at it lived up to in all matters, the city finances would be in a much etter condition and aldermen would be bjected to less worry and annoyance. As to the other special objections made publishing the figures of incomes and fixed assessments, we do not think they hould have any force. If the assessment roll is to be open to all to inspect at all reasonable hours and the statso provides—the law intends all the information it contains to be free to all: ind if any citizen wishes to get it, or nake a record of it, nobody has a right deny him opportunity. If the council chooses to publish one part of the roll, there is no valid reason for suppressing another part. The matter of pressing another part. The matter roll is a record to which the public entitled. The prohibition against givng out confidential information is clearintended to apply only to the statenents furnished to the assessment department to enable it to complete the roll, and not to the matter entered in ousiness or accounts of the city corportion is intended to be kept by the officials secret from the people who elect the aldermen, pay the officials and furnish the taxes to pay the bills incurred. That much is certain. And, whether published or not, the assessment rollassessments, and all-must be kept on file by the clerk during office hours open to inspection without cost by all who wish to examine it.

A GOOD CHOICE.

new Parks Commissioner to succeed the an excellent choice. Mr. Hope is a man public spirit, good judgment and intelligent grasp of public business, and he takes a lively interest in the particular work that will come within the jurcity gains by securing the services of such men. That Mr. Hope is a Liberal and was nominated by Mayor Stewart makes his selection somewhat notable. Hide-bound partisans, who view city affairs merely as means to forward party interests, may censure the Mayor for his course, and it is said the "machine" will have to be reckoned with, its policy ing to make all the appointed Boards party preserves; but the citizen who ooks to the good of Hamilton, and who Mesires to get the best for the city, will elcome any change that will secure to ss of party affiliations. And the May-'s selection of Mr. Hope will be ap-roved by all but the party extremists.

That Dr. Nesbitt has violated the rule That Dr. Nesbitt has violated the rule laid down in the Garrow resolution that no civil servant is to meddle with politics is felt by a good many, and that he will be asked to explain why he spoke as he did at Gravenhurst is considered highly probable. He surely went beyond the bounds of prudence in attacking, though covertly, Hon. Mr. Hanna, and indirectly Hon. On the other hand, the doctor may give explanations which Mr. Whitney can accept." And so it stands. Somehow or other Mr. Whitney has not yet lifted the liquor license business out of politics, as he promised he would. There is trouble in the commission down at Ottawa, and a writ for damages has been issued by one of the cimm against a leading member of the local Tory organization. This cor declares that other Ottawa Tories tried to influence him in his work Board. It appears that the Patronage Committee thought that it should have a say in the giving out of licenses, etc., hence the trouble. Things are at sixes and sevens in Toronto on the licenses and resignations and rumors of resigna tions or dismissals are rife in that city Here the dissension has been kept com paratively quiet, Mr. New making fuss when he was dropped off the Licensing Board.

The State of Texas has begun a postal card publicity campaign. It is said that 7,250,000 people will have Texas literally put into their hands within twelve months, according to plans projected by the Texas Five Million Club. As a first instalment there has been issued a set of postal cards consisting of twelve subjects. Eleven of the set make up a ser n in the license matter, is a ge to Whitney. pancy of 465 families and a total of 21 scriptions. The pictures are handsomely olored. Everybody is mailing cards to friends in distant States and in other countries. The idea is all right, and will no doubt place Texas in the lime-light all over the continent. Perhaps our 100,-000 population scheme could be boosted by just such a post card campaign.

Canadian aspiration to be self-sufficing is natural and honorable; but there is a greater aspiration, which is imperial. To the Dominion belongs—if Canada will have it so—the headship of the oversea states. To Canada is given the role of the elder brother. Better, then, in the interests of the whole empire, to accept

That is sensible enough. But it is a trifle odd that we have in Canada some few bitter partisans who in order to try to make capital against the Gov ernment affect to think Canada is bumiliated by assuming just the position indicated as best for her and most advantageous to the Empire.

The British Attorney-General stated in the Imperial House of Commons that although missing word comnetitions are illegal, limericks may not come under ban of the law. Mr. Byles who brought the matter up, deplored these limerick competitions as encour aging the spirit of gambling amongst the great masses of the people, and the Newcastle Daily Chronicle says that, "As a matter of fact they afford an outlet for the spirit of gambling which Mr. Byles and those who think with him believe can be supressed by Act of Parlia ment; and if it is questionable whether they are or are not more objectionable than street betting, it is unquestionable that they are the outcome of the same deep-rooted passion, inherent in the breast of almost every man, for getting something for nothing." People who de nounce crap shooting and a friendly game of cards, with a five-cent bet, will puzzle their brains over doggerel verse in the shape of a limerick, in the hope of winning a cheap prize and getting theia names in the papers, losing sight of the gambling end of it, and the effect it has upon the gambling spirit. And it's the other fellow's game in every case.

It is not so many years ago since telephones were a luxury of the few, but they have become an essential part of the machinery by which industrial, comthey have become an essential part of the machinery by which industrial, commercial, and even domestic affairs are conducted, so that there are really few people who can remain indifferent to proposals which have to do with the use of one of the most important of the resources of modern civilization. Telephony is one of the things which they manage better in some lands, and notably so in the United States, and it is hardly one of the things of which the British people are entitled to boast. We have always recognized that a great blunder was made when the telegraphs were allowed to pass into the hands of the State, and we believe that as great a mistake, if not indeed a greater one, will have been made when the telphonic communication of the country becomes a national affair. It is, however, we suppose, too late to repine, though it should not be too late for public opinion to be so directed upon State officialdom as to secure that something like a minimum of mismanagement may result. It is no more the business of the State to put one into telephonic communication with one's customers, tradesman, or doctor than it is the business of the State to cut hair or sole boots; but we must take things as we find them—or rather as a complacent public allows them to be found.

A GOOD MEETING

Of Blackheath Women's Institute Held Last Week.

The Blackheath branch of the Wo nen's Institute spent a pleasant and profitable afternoon at the home of Miss McAdam, on Wednesday, Oct. 9, Miss McAdam, on Wednesday, Oct. 9, with the usual attendance of thirty-three. There being little business on naid after the members had been requested to bring to the heat face-ting a not of thos subjects they might wish to have placed on next year's programme, the meeting was opened by singing by the members. The ribst number on the programme was a good selection of instrumental music, very nicely played by Miss Sheha Templeton, one or our youngest musicians.

The question drawer, while not as full as usual, was still interesting, and was

The question drawer, while not as full as usua, was sull interesting, and was anly presided over by Mrs. Wim. Doboth, sea., and Mrs. Guson.

Mrs. Wim. Doboth, sen., read an excellent paper on "A Plan for a Week's Work, in which was pointed out the necessity of system and forethought in making plans for six days of the week, as the only means of securing time for social duties, reading and music, while the seventh day was planned to be one of rest and refreshing to both body and spirit—not a day of extra cooking, entertaining or visiting. Miss Ella Gowland and Miss Jessie Greennill, with their usual grace sang a pretty duet, winca received nearly applause.

Mrs. (Dr.) wans, of Caledonia, gave a heipful talk on caring for the sick, and

Simple Arithmetic.

Perhaps she read the statement made by the Department of Agriculture that the value of the eggs laid by the hens of the value of the eggs laid by the hens the United States in a year would enough to pay off the national debt, maybe, says Harper's Weekly, she "j thought it up," but, anyway, this pre little Baltimore girl was convinced ti she had everything all fixed. She li-been engaged to a very nice young fell for some time, but to most people amount of his present salary would pear an insurmountable obstacle to m rimony. This was the view of ler fatl but when expressed she met i' with happy smile. happy smile.
"Oh, I have thought that all out," she

declared. "You have, ch?" papa asked, knowing comething of his daughter's business something of abilities.

"Yes. And it was so easy," she bub bled. "I was passing the market the other day, and I saw a dear little polka dotted hen for only sixty cents, and I bought her. I read in a poultry paper that a hen will raise twenty chicks in a season. Well, next year, we'll have twenty-one hens, and so of course there will be 420 chicks the next year, and 8,400 the next and 168,000 the next, and 8.400 the next and 168,000 the next, and 3,300,000 the next. And just see what that amounts to-why, selling them at 50 cents each would give us \$1,500,000 in five years, and that won't be so long to wait for that much."

Calm Amid Turmoil. (Montreal Witness.)

Only forty-five persons sat down to dinner at John Armstrong's home near Doniphan Sunday. There was no special attraction or occasion, and those who were there say there was nothing unusual about it, and that as high as sixty persons have been to the Armstrong jome for dinner at one table. There are fifteen persons at the Armstrong home who are there all the time—Mr. and Mrs. Armstrong, eleven children and two hired hands. The rost of those who were present Sunday at dinner were kin who dropped in yithout notice to spend the day. Nothing was said about the large crowd, and to those present it seemed as ordinary as a family gathering of a dozen or less. Mrs. Armstrong has a great reputation as a cock, and it is said that any one who eats of her cooking is never satisfied until he is back again.—Wathen Times.

MADE A GOOD **APPOINTMENT**

Mr. Geo. Hope Placed on the Public Parks Board.

Council Will Not Have Assessment Roll Published.

Road Work on Robert Street Will be Completed.

This year's City Council established a sew record for speed last night, getting through the business in less than an tour. The only matter on which there was any discussion was Ald. Peebles umendment to have the assessment rolls the appointment of a member to the Board to fill the vacancy made by Parks Board to fill the vacancy made by the death of Frank E. Walker were the may items of importance on the programme. Mr. George Hope is the new sarks commissioner, and it is probably the first time in Hamilton's municipal listory that a Conservative Mayor has tad the courage to nominate a Liberal for an appointment on one of the independent boards.

Some of the aldermen breezed themselves for over half an hour on the proposal to have the assessment rolls published. The Finance Committee's recomendation was against it. Ald. Peebles, seconded by Ald. Farrar, moved in amendment that the rolls be printed in pamph.

nent that the rolls be printed in pamphet form at a cost of \$1,750. It was exhalmed that in addition to this it would equire \$400 to prepare the rolls for the

Mayor Stewart said he had been incormed by the manager of the Bank of familton that the bank would not supply the money required for printing he rolls, on the ground that the expenditure was unnecessary. The bank was carrying an overdraft now, and while it was willing to supply money the bolutely necessary, it would not content to do it to have the rolls published. "Was it because the expenditure would is illegal?" asked Chairman Dickson. "Partly that, and because it was not disolutely necessary," was the reply. The Mayor said that while the publishing of the rolls was a plank in his platform at the time of election he would ule the amendment out of order unless lid. Peebles consented to changing it to ead so that the income and fixed assessments for five years back chould not be miblished. Ald. Peebles consented to his.

Nays (13)—Baird. Clark, Nicholson, Vright, Jutten, Kirkpatrick, Gardner, deLaren, Peregrine, Allen, Anderson, lickson, Bailey.
When it came to naming a member or the Parks Board, the Mayor said: "I ave selected a man of my own choice, nd without being solicited, who, I think, a good man. I hope that the aldermen rill be satisfied, and I think he will phold the dignity of the board. He is ertainly one of the best business men re have in the city. I name Mr. George Iope."

There was no opposition, and Chair-nan Dickson congratulated the Mayor n his choice. Year of Men Alone.

Montreal, Oct. 14.—The annual report of the Chief of Police was published to-day. That the liquor habit has a very strong hold on many is shown by the fact that last year men arrested for this offence numbered 2,284. The number of women arrested for the same cause, though much less, still footed up to 349. The total offences of all kinds among men for which arrests were made numbered 7,110. The women arrested for various causes numbered 1,247. Continuing, the report says it is absolutely necessary that the entire force should be strengthened. The police and detectives recovered stolen property last yar to the sum of 867,330.48.

a whower, 30 years on, yesternay sected the courtsing question in a manner which, he believes, will save him much trouble.

With Mr. Matthews' system all that is necessary is that the husband to be sit in his own parior and view the candidates as they come before him. While he fealings that he is establishing a precedent he says that he is confident that it is the only thing for him to do.

Having secret the question to his own satisfaction Mr. Matthews piaced a placard bearing the following macription in the front window of his nome, 1300 North Hasted street, along within North Hasted street, along with the realiding the first him at the features.

The appearance of the card treated something of a sensation along the street, especially simong the women of marriage, one age, taxtos recting the wants of immates of intate in the vicinity told of everything that might be incening from to cad to hired girls, but that a swain should seek his attituty in such a secimingly reckless manner scenical novel.

But it was not long before Mr. Matthews learned that it paid to advertise. Among the passersby was a nearly attired woman who granced at the sign, hesitated, started back, hesitated again, and at last ventured up and rang one door bell. Matthews appeared.

"I beg pardon, out i noticed your advertisement," began the applicant by way of introduction.

"O, yes," answered Matthews. "Just step into the parker."

With you please tell me something about the parce—that is—er—I mean you?" asked the woman.

"Why, yes, replied Matthews. "My wife oned six momens ago and I have found that the fousekeepers you get anout the city care moming about a man's cindren. I must have somebody who will be a mother to my cindaren, and I believe that the way to get that person is to marry ter."

The party was on its way home from a shopping tour in this city. The crossing is reached after a sharp turn. A hedge, a clump, of trees and a couple of buildings partly obscure the sight of the crossing until one is within a short distance of it, and it is probable that Mr. Emery did not even know a train was coming, for he drove the machine directly on the track in front of the train.

ROSEBERY'S TRIBUTE.

Described Queen Victoria as Mother

of the Nation.

London, Oct. 14.—Lord Rosebery, unveiling the statue of Queen Victoria at Edinburgh, described her in a brilliant speech as the mother of the nation. She had knit her people together. He said that her noblest epitaph would be not only that under her Canada had been brought from civil war to cordial allegiance as the noblest dominion of the empire and Australia and New Zealand had become living loyal realities, but under her reign was established the new relation of personal affection and allegiance to the wearer of the British crown.

TOUCHED LIFTING WIRE. George Ritz Instantly Killed at Strat-

Stratford, Oct. 14.—George Ritz, an employee of the Whyte Packing Company, was killed here about 10.30 p.m. by an evidently cross-circuited wire extending from an electric light circuit and which is used in raising and lowering the lights. He was on his way home in a rig with Mr. Irvine, a market gardener, and both alighted to enter the house, where Mr. Irvine wished to leave vegetables. Bitz endeavored to tie the horse to the electric light pole, and in doing so placed both hands on the wire, with the result that his life was snuffed out almost instantly. Ritz was a married man. Coroner Devlin was on the scene to-night and an inquest will be held.

A.B.—Suk instantly stops Pain and Bieeding in Mr. Bee. Hager, of Edmonton, Alta, has recently had occasion to test the remarkable healing powers of ZAM-BUK. He says:—
"When opening a can of Pineapple Sauce the other day, the Can Opener lost its grip and my hand was ripped open by the rough edge of the half opened can. It made a gash in my hand about 2 inches long. The pain was fearful and the blood simply gushed away from me. I had a box of ZAM-BUK handy and I immediately applied some. To my surprise the pain suddenly ceased and the blood stopped. ZAM-BUK'S quickness in healing up Sorea, Cuts, Bruises, otc., is a great puzzle to me."
"ZAM-BUK boats all other remedies and I therefore recommend ZAM-BUK everywhere."

Brought Death to Three Persons at

Amherst, Ohio

Amherst, Ohio.

Lorain, O., Oct. 14.—Matthew Glovesky, five years old, and his sister Lucy,
eleven years old, were run down by a
Lake Shore train and killed last night
near Amherst, and their aunt, Miss
Sophia Glovesky, was fatally hurt.

The three were walking on the track
when the boy's foot became fastened in
a cattle guard. In attempting to rescue
him his sister also caught her foot in
the guard. Their aunt was unable to
pull the children's feet from the cattle
guard, and was unlacing the little boys'
shoe when a freight train bore down
upon them. The children were killed
instantly.

EXPELLING THE PRIESTS.

French Gendarmes Driving Them From Their Homes.

Landerneau, Department of Finisterre, France, Oct. 14.—The priests of the Department of Finisterre, having generally refused to quit their presbyteries, which reverted to the communes under the church and state separation law, are now being expelled by the aid of gendarmes. At many places resistance was encountered. At Relecq the gendarmes were forced to break in the doors of the presbyteries in order to eject the priests, who were surrounded by weeping women, and at Peneran, after a tumultuous scene, the gendarmes took a tumultuous scene, the gendarmes took possession of the bell in the tower of the church in order to prevent the irate populace from gathering.

EVIDENCE OF MURDER.

Charles Allison Found Dead in Lone by Shanty.

Winnipeg. Oct. 14.—The police believe that Chas. Allison, who was found dead in a lonely suburban shack in Elmwood last night, was murdered. His head had been battered and all the evidences around the body indicated a violent death. The crime had evidently been perpetrated several days ago.

Allison was something of a Tecluse, and very little is known of him or his relatives beyond the fact that a daughter resides somewhere in Montreal. Money and jewelry on his person were not taken, so robbery evidently was not the motive of the crime.

But besides things to laugh over, there were things to admire—bright and l music, fascinating costumes, beautiful lighting effects and a success-sion of splendid stage pictures, that have not been surpassed, if equalled, during recent years; the whole making a combination that could not help pleas-

The story takes a somewhat new turn. The story takes a somewhat new turn. It tells of a monarch who is so burdened with happiness that he yearns for something that will cast several shades of sadness over his monotonously joyous life. To this end he orders all his valiant soldiers to take unto themselves wives. No sooner has he done this than wives. No sooner has he done this than he gets into personal connubial entanglements with his neighbor, the King of Altruria and the Crown Prince of Fortunia; and for the rest of the performance he wallows in all the woes of an up-to-date stage king. Just how De Wolf Hopper keeps cheerful in continual comic-opera hot water and makes much merriment for his audience is best known to those who have seen him. Last evening he was as merry as ever, and with his funny sayings and doings and singing kept up his reputation. At the end of the first act, the favorite was accorded the old reception—several cur-

singing kept up his reputation. At the end of the first act, the favorite was accorded the old reception—several curtain calls, which brought one of his famous jumble speeches and the ever green "Casey at the Bat."

That charming little actress. Miss Marguerite Clark, is again supporting him, and she met with a splendid reception. There is no more dainty comedienne of the stage, and the audience was not slow to show warm-hearted appreciation of her finished vocalism and acting. Her songs, "Robin Redbreast." "Twas the Rose," and "What's the Difference?" were admirably sung and, encores were frequent. The company contains other capable vocalists, among them Jos, Phillips, Prince Fortunatus. Detmar Poroin, Cantain Appollus; and Miss Mella Shayne, Lady Patricia; all of whom gave pleasure. The chorus is a particularly good one and, consequently, the various concerted numbers were given in a way to show their decided merits. The music is by Reginald De Koven, and, for the most part, irses a good deal above the average musical comedy plane, Some of it, however, is reminiscent, not aby the song and male chorus, "The and, for the most part, rises a good deal above the average musical comedy plane. Miss Hazard is Clever.

Regarding Miss Grace Hazard, who is booked for the Savoy next week, the New York Telegraph says:

"When treated to the versatile performances of the stars of all nations at the New York Theatre, it makes all good New Yorkers swell with pardonable pride to realize that the American brand of twinklers really put up the best performances of all. And certainly not the least of these, except in size, is dainty little Grace Hazard, whose clever sketch, "Five Feet of Comic Opera," written, staged, conceived and exceuted, even to the making of her effective costumes, all he making of her effective costumes, all by herself, is the most novel and best single act in vaudeville, advanced or

His rise has been rapid, but his reputation is of that enduring kind which only follow's in the wake of fine talents, joined with hard work. Seats for the performance are now on sale. On next Monday Ben Greet will present "The Merchant of Venice" at the Grand, acting Shakespeare's play in the manner of presentation in vogue in St. Philip's Church, last evening, when Emily, only daughter of the late Geo. Mr. Greet's object is not merely to revive the theatrical conditions of a bygone age for the sake of a dramatic curiosity, but to show the plays of Shakespeare as Shakespeare wreta them, and as he intended them to

be acted. The sale of seats opens on Friday morning.

The great, big whistling show, the fanciful fairyesque, "The Gingerbread Man," will be here next Tuesday and Wednesday. The popularity of a musical play nowadays is mostly determined by the number of songs and musical numbers the audience "catches on to."

The New York first night of a production of this class finds the manager mingling with the departing audience, listening as to which songs are popular and kow many of them are being whistled. In "The Gingerbread Man" it was hard to make a decision, as every number struck the fancy of some of the audience.

COUNTY LIBERALS.

Will Meet in Convention on November 9. all things

To the Editor of the Times

Sir,-The executive committee of the Wentworth Reform Association met on Saturday, Oct. 5, and decided to hold a convention at the Liberal rooms, (Arcade) on Nov. 9, to nominate a candidate to contest the riding in the Reform interests, at the next Federal election. convention is to be advertised in all the city and county newspapers, also by city and county newspapers, also by posters and hand bills. My reason for writing you now is that by some unusual circumstance not the slightest notice of Saturday's meeting, which was largely attended, nor the decision to hold a convention, to which we wished to give the greatest publicity, has appeared in the press. Some of the prominent leaders of the party in Ontario are to be invited to address the convention, and making these arrangements may have delayed any announcement of holding the convention. In every municipality in the riding local meetings are to be held on the evening of Thursday, Nov. 7, at which meetings five delegates for each polling subdivision in the municipality will be chosen to represent the municipality in the convention. But the convention is not reatricted to the delegates. Every Liberal in the riding is invited to attend and take part in the proceedings of the convention, the delegates representing the voting power of their municipality. There was a, wide divergence of opinion as to whether it were better to allow every Liberal a vote at the convention or whether the votes should be restricted to chosen delegates, also as to the number of delegates to which each municipality was entitled. Each plan is open to grave objections, but if what has been done does not meet the views of the peoden of the policy of the plan is open to grave objections, but if what has been done does not meet the views of the peoden of the policy of the plan is open to gone of the plan i posters and hand bills. My reason for New Bill at Bennett's.

There is a real live star at Bennett's to address the convention, and making these arrangements may have delayed any announcement of holding the convention in every municipality in the riding local meetings are to be held on the every mile appearing in comic opera. This is Miss Rice's first visit as a vaudvillian, and she certainly presented a novel and pleasing act. Miss Rice worked a number of marionette figures in a cabinet, figures that were exceedingly lifelike and full of animation, but had her own plump face. While the figures performed Miss Rice sang. The stage setting of the act was gorgeous, and made the hit of the bill. Another really artistic act was presented by Oscar Lorraine, a protean violinist. Mr. Lorraine is a violinist of international reputation, and gave a number of clever impersonations. He was enthusiastically encored.

James Callaghen and Jenny St. George presented a pathetic little playlet, entitled "The Old Neighborhood." The pair titled "The Old Neighborhood." The pair titled "The Old Neighborhood." The pair to a real live star to be invited to address the convention and making these arrangements may have delayed any announcement of holding the convention. Ladies' Aid Gave Delightful Affair Last Night.

The Ladies' Aid of Centenary Church certainly provided a spread last even-ing to tempt the appetite of an epicure. The pastor announced in the course of the evening that about \$4,200 had been secured by pledges and the offerings on the plate on Sabbath last, which is to go to the wiping out of the church debt.

Those Horrid Bilious Spells

"It is nothing when you get used to it," is a common expression which many seem to apply to attacks of biliousness. Year after year they suffer from frequent spells of bilious headache, indigestion, constipation followed by looseness of the bowels, dizziness, despondency and ill-temper, and the habit seems to have become so firmly established that they do not think of breaking the chains of bondages.

IMMIGRATION FROM JAPAN

Discussed at Open Meeting of the Canadian Club.

Representatives of Several Other Organizations Take Part.

Feeling for Limited Restruction, But Move Slowly

An interesting discussion under the Japanese should be admitted to timeda. It was what electric the democratic conditions of Canada, Asia in the Conservatory of Music Hall last nese were let in it naturally wone co-

in the Conservatory of Music Hall last evening on the subject of the "Exclusion of Asiatic Immigration From Canada."

The general feeling seemed to be that a limited restriction was the solution of the difficulty.

The President, Mr. W. M. McClemont, introduced the subject by giving an outline of conditiona that exist in connection at the present time. He contended that Canada was just awakening to its teerge H. Jorey said that the morals the conservation and the present time. He contended that Canada was just awakening to its the conservation at the present time. He contended the conditions. He believed a restriction should be taken in exerctions and the present time therefore the constitution and the present time therefore the conditions. He believed a restriction and the present time the conditions. He believed a restriction and the present time therefore the conditions. He believed a restriction as their first care would be to run the line through to the constitution working order before constructing any their first care would be to run the line through to the cost and have it in working order before construction and the present time introduced the subject by giving an outline of conditions that exist in connection at the present time. He contended that Canada was just awakening to its possibilities. The industries of the country were going ahead with a rapputly that was little short of the marveslous, and the eyes of the civilized world were being cast toward Canada as they never brought them. All the trouble with the Indians is over. All the trouble with the Indians i

and the eyes of the civilized world were being cast toward Canada as they never have been before. "We are just realizing our opportunities, and we should go slowly, so that we may never be sorry for what might be called a lost opportunity," he said. With the enlargement of the country the transportation facilities have to be increased, and that means that more labor is needed. The demand for skilled labor, at present, cannot be supplied, and the same applies to the super spheres of labor. It has been proven that the Japanese and Chinese have shown themselves to be better workmen in the cheaper labor. Canada for the value of the control of the country that the present time is more in need of transportation facilities than ever before, and the circumstances having come fore, and the circumstances having come fore. Against the morals of canada and ne proponested that, the collection of canada in the morals of canada in the morals of canada and ne proponested that, the collection of canada in the morals of canada in the morals of canada in the morals of canada and ne proponested that, the collection of canada in the morals of canada and ne proponested that, the collection of canada and ne proponested that, the collection of canada and ne proponested that, the collection of canada in the morals of canada and ne proponested that the canada in the canada and ne proven that the Japanese and Chinese have shown themselves to be better workmen in the cheaper labor. Canada at the present time is more in need of transportation facilities than ever before, and the circumstances having come to such a pass, there is naturally a demand for cheap labor. Even the tovernment offers inducements to foreigners to come to this country to help build our railways. The question as to whether the letting of the Japanese come into this country unrestricted is bound to affect its weal or woc must be carefully considered. The Canadian Club, being national in its ideas, should discuss these live questions of the country irrespective of party politics. The bringing of the Asiatic into this country is bound to effect the law and order of the country.

The labor organizations, continued Mr. McClemont, claim that the Asiatic lives on a lower plane than does the white man, and that the employment of such labor means a reduction of wages for the white workingman. Again, the socialist will say that the social status of the white workingman. Again, the socialist will say that the social status of the country is being reduced, as a result of the immigration of the Asiatic into this country. Judges on the bench say that the Asiatic cannot assimilate with the white man, therefore the Asiatic cannot

Japan for the entrance of Japanese into this country. He did not think it was well for Canada to antagonize Britain The Japanese are coming into this country by the hundred and are adapting themselves to the way of the civilized world at a marvellous rate. It was an object lesson to Canada. They had demonstrated to the world that they could adopt our ways. They were frugal in dress and living. It was now a question of whether Japan could be regarded as an inferior nation. With a tendency in civilized countries towards wealth it naturally meant high living, which tended to devitalize civilization. The disposition of Canada at the present time should be to go slow on such an important question. No one faction, such as the capitalist or the labor organization, should have the say as to whether the Japanese should be excluded from Canada or not. The question should be upt on its highest plane and Japan for the entrance of Japanese into this country. He did not think it was from Canada or not. The question should be put on its highest plane and taken in the light of the greatest good to the greatest number. His idea was that Japanese immigration should be

Mr. Allan Studholme was the next apeaker. He said it was a question that could not be answered in ten minutes. He would like to have ten hours on the subject. The Trades and Labor people went to the meeting with the purposs of learning, rather than giving information. Canadian labor could not stand beside Japanese labor, and Canada at the present time was not in want of skilled labor. Canada had not need of Japanese citizens. One would find on

reading the statistics of British Columbia that the yellow man was driving out white labor in that province.

Mr. Kirwan Martin said there was a point that must not be overlooked on this question. He looked at it from the religious standpoint. According to Christ's teaching all men in the constant was going against Christ's word. As the gospel was preached, exclusion meant naum. The question should be dealt with in a large way, he believed that there should be no exclusion on account of nationality. Only that which presented unitary conditions should be excluded. Mr. Hays' Announcement-Transcor tinental Line Must be Finished First-Labor Situation in British Columbia—Why Mr. Hays Did Not Call on Premier McBride.

Montreal, Oct. 14.-Mr. Charles M Hays, President of the Grand Trunk General Manager of the Grand Trunk, made the absolutely definite announcemade the absolutely definite announcement at the general offices to-day, on his return from his five-weeks' trip over; the two systems and journey to Prince Rupert, that as soon as the transcettinental system is completed and as soon as it is in a position to give the public a new through service the G. T. P. and G. T. R. would have lines of steamers under their own direction at their own disposal on each ocean.

"It may be," said Mr. Hays, "that we will have a fleet created by our selves on one ocean and make arrangements with some existing company for an alliance on another, but assuredly the Grand Trunk and its affiliations will be in a position to play a leading part in the world's transportation lacilities."

Mr. Hays gave it to be understood Mr. Hays gave it to be understood that the Allan Company, through Sir Montagu Allan, who is a memoer of the Grand Trunk Pacific Board, and other members of a local firm, would be associated with these steamship arrangements.

associated with these steamship arrangements.

"It is too early," said Mr. Hays, "to go into details, for we are still "alking of conditions that we do not have to meet for some time."

Another subject discussed by Mr. Hays was the labor situation in British Columbia. He pointed out, however, that the railway management had really no active interest in the gnattage. as their only concern was to see that the contractors should get the work done. "It's up to the contractors," he the contractors should get the work done. 'It's up to the contractors,' he said, 'and I know that in their endeavors to fill their engagements and get the work done they will employ anything that the law will allow them to employ—apanese, Chinese, Hindoo or anything else. My own idea,' said Air, hays, 'is that the very best kind of labor you could have for railway construction are the men who would work a season or two on the line and then settle down on a farm alongside it, but ordinary navvies rarely do that; they want to change from place to place.''

Important notes and maps have been found in their baggage. They explain themselves to be in the service of a private American telegraph company, but it is believed they are special engineers of the Japanese general staff.

desire for a wider field of gate mo HOW MONTREAL SAW IT.

Most of the Tigers were out last night for a work-out, and to begin a week of real hard conditioning for the stiff game that is ahead of them for next Saturday. Most of the boys are a little sore, and several of them are carrying marks of last Saturday's game, which they admit might not have effected them so much if they had been in a little better shape. "It is one of the best things that ever happened them," said one of the officials of the elub yesterday. "They have been winning so steadily that they thought they knew the game so well they did not need to pay attention to their physical condition, and consequently we all knew that the team was in, physically, the poorest shape that they have been in during the past four years." Every one knows wnat they have been in during the past four years. "Every one knows want they have been in during the past four years." Every one knows want they have to go up against on Saturday, and what the loss of Saturday's game would mean, not only the Tiger team, but to football in this vicinity. Every man on the team will be out every might this week, and every one of them will simply put in the hardest week's gruelling they have ever done. The boys have agreed that such things as parties, late hours." officials of the club yesterday. Interphave been winning so steadily that they thought they knew the game so well they did not need to pay attention to their physical condition, and consequently we all knew that the team was in, physically, the poorest shape that they have been in during the past four years." Every one knows what they have to go up against on Saturday, and what the loss of Saturday's game would mean, not only the Tiger team, but to football in this vicinity. Every man on the team will be out every night this week, and every one of them will simply put in the hardest week's gruelling they have ever done. The boys have agreed that such things as parties, late hours and smoking are to be entirely eliminated for the next two months. The team will be a different organization when they step on the field on Saturday against the Argos. There will be a few changes in the make up, but the men will be prepared to go the whole distance, and at a pace that the Argos will have to be better, than they were on Saturday, when they trimmed Ottawa.

Charlie Martin yesterday bought an entire new uniform. The football fever has got him, and Charlie was out last right, and the man that he checks in Saturday's game will not do any trotting around at will, nor breaking a hole in the line. Charlie has all his old-time ability of fast following up and tackling, and will be an exceedingly valuableman. It is altogether likely that Gordon Southon will turn out to-night, and will be at eventre half on Saturday. He played centre for 'Varsity for two years, and was reputed to be one of the good ones. He is a heady player, and will also be a tremendous help to the team. "Dinny" McCarthy will likely be out, so that, with a week's hard work and these additions to the team, they will present an entirely different proposition in their future games.

As to the game on Saturday, the same capital arrangements as were so successfully carried out on Saturday, will prevail.

Following are extracts from the Montreal Herald, which was represented at Saturday's game by Mr. Chas. Hayden:

"The match demonstrated most effectively that the Montreals were the better team. Both clubs find radically different line-ups from last year. On Montreals' team were four new faces. Temmie Stinson was at full, where Percy Molson, who had an injured shoulder, played last season when Montreal played in Hsmilton, Ernie Hamilton, the famous lacroses player, at right half, replacing Bernie Alliston, who died here Irom. typhoid fever; Lornie McAllen, in

their future games. As to the game on Saturday, the same capital arrangements as were so successfully carried out on Saturday will prevail. The reserved seat plan will be opened earlier, but the prices will be the same. That it will be a struggle between giants of the gridiron is certain, as the loss of the game to either will pretty nearly put them out of the running for the championship. All the old-time rivalry between Toronto and Hamilton on the athletic field will be aroused, and the more modern rivalry between the Argos and the Tigers will show every minute. That it will be a more spectacular game than even that of last Saturday seems certain, for, with Flett at half, who is playing such a grand game, and our own Ben Simpson, it is a sure thing that these two will do some great booting of the pigskin, and the play will naturally be opened up much more.

This is at considerable inconvenience to Mr. Brennen and one of the other employees in the office, who kindly agreed to go in Mr. Ballard's place. Mr. Brennen is not what is generally considered a sport, but he takes a deep interest in good athletics, and citizens generally will appreciate his kindness.

HIGHFIELD VS. COLLEGIATE.

Highfield and Collegiate Institute football teams played, Oct, 14. Highfield won by 6 to 4. The team appeared to great advantage. The backs were all good. Unfortunately Higgins injured his thumb, but he did not retire. In the first half the school scored a rouge and a touchdown, 6-0. In the second half the Collegiate scored by a kielegover the dead line, 6-1. Some time afterwards a Collegiate player intercepted a pass and made a long run. Play in front of the school goal at last resulted in a dropkick over goal, from a mark, 6-3. Just before time the Collegiate kicked to the fence, 6-4.

Last evening there was an innovation in City League baseball circles when the Nationals, winners of the Klein & Binkley and Reach Challenge tropheys of 1906, formally handed over to the Britannias, champions of 1907, these beautiful tropheys. The Nationals invited the Brita to a pleasant evening in their club rooms, cor. King and Catharine streets. Spech making and toasts were a feature of the evening. The Ancaster Papers.

The Ancaster Papers.

The report of the Historical Manuscripts Commission on the papers of the Earl of Ancaster, preserved at Grimthorpe, contains many interesting extracts anterior and subsequent to the reign of Elizabeth. One of these, written by Lord Howard of Effingham to Lord Willoughby the year after the Armada, is valuable as showing the indomitable spirit and the pasionate zeal which animated the patriotism of the day. There is also a letter from the Princess Elizabeth, third daughter of George the Third, describing in a charming feminine style to the Duchees of Ancaster how the Royal family had been spending a holiday at Weymouth. "The King, she says, "was never better in his life, which makes us all happier than you can imagine. Mama really is a little fatter, which is a great advantage and pleases us very much, as we thought she wanted it. You may easily believe that the time we spent there was extremely pleasant, as we had no forms nor nothing that was formal." So much for the relaxations of Royalty when George the Third was King.—Newcastle Chromicle.

The concert givers were a sister and two bro-thers, all blind; a fourth brother, who thers, all blind; a fourth brother, who is studying composition at the Berlin Academy of Music and whose works have already been very favorably commented on, being similarly afflicted. The sister possesses a fine and well-trained soprano voice of considerable compass, while one brother, who on this occasion acted as her accompanist, holds an appointment at Muhiheim an-der-Ruhr as organist. The third brother is a 'cellist of considerable talent. The family are natives of Muhiheim.—Pall Mall Gazette.

Hullmund early to-day killed herself and her fourteen-months-old child in her Brooklyn home. Mrs. Hullmund eluded the nurse which had been with her constantly since before the child was born and locked herself in a room in the upper part of the house. An hour or more later, when members of the family burst down the door of the room, gas was pouring from several jets and the mother and child were dead. In a note that Mrs. Hullmund left unaddressed on the dresser in her bedroom she said she that Mrs. Hullmund left unaddressed on the dresser in her bedroom she said she was weary of battling against ill health. Mrs. Hullmund was 29 years old. Her husband is a contracting carpenter and is said to be well to do.

Evangelistic Services at Crown Point Methodist Church.

The revival services which began in the Kensington Avenue Methodist Church, Crown Point, on Sunday, are already indicative of being of great assistance spiritually to the church and congregation. Last night Rev. F W. Hollinrake, B.A., of Zion Taber W. Hollinrake, B.A., of Zion Tabernacle, spoke on the words of the prophet Isaiah, "Here am I, O Lord, send me." He emphasied the great truth that in consecration was strength. The address was most timely and all present felt God's call. The spirit of surrender prevailed the whole meeting. These meetings will be continued every night for two The spirit of surrender prevailed the whole meeting. These meetings will be continued every night for two weeks and one of the city pastors will be present each night to assist the pastor. Rev. I. Couch, of Gore St. speaks to-night. A special feature is the hearty singing which all enjoy. The choir leads the singing. All will receive a hearty welcome so that the benefits of such gatherings from night to night may become as wide spread as possible.

The youthfulness of some of our soldiers is emphasized. "One thing that strikes the observer unfavorably, says the article, "is the extreme youth of many of the rank and file. Suicides' Bonnets.

Mr. Walter Schroder, the North London Coroner, who has had a very extensive experience of inquests on suicides, has drawn attention to an interesting psychological fact which has probably not previously been noticed. While holding an inquest on the remains of a poor woman who in a fit of frenzy jumped into one of the Hampstead ponds, the fact was elicited that her bonnet was found on the bank, dry. This led the Coroner to observe that a woman when about to take her life usually removes her hat or bonnet and places it carefully her hat or bonnet and places it carefully out of the reach of damage before committing her rash act, and he instanced the recent case of a young woman who before jumping in front of a train not only took off her hat, but deliberately put something on it to keep it from blowing away. This curious behaviour, which is not merely casual, but as far as Mr. Schroder's observation and experience goes, invariably reveals a peeculiar twist of the female mind and may be taken as a striking instance of the prevalence of the ruling passion even on the brink of eternity.—Newcastle Chronicle.

ENGINEER IS TO EXPLAIN.

Hydro-Electric Representative in the City To-night.

Difficulty Over James Street Work Probably Settled.

Quarantine on the House Where Smallpox Existed Raised.

A special meeting of the Board of Works has been called for this evening when Chief Engineer Sothman, of the Hydro-Electric Power Commission, will be present and explain to the aldermen the various estimates on underground work and other parts of the proposed municipal system. It is also expected that he will have something more defi-nite to say about power prices. The city officials are getting more disgusted each day with the delay. City Engineer Barrow said this morning that he wished the cow said this morning that he wished the city would go ahead and close with the Cataract Power Company for power for the new annex, disposal works, so that the work there could be completed without delay. The Engineer again expressed his doubt if the Hydro-Electric seneme would ever amount to anything. Engineer Leckie, who is in charge of the new works, said that he would like to see the question of power for the pumps acttled at once.

The difficulty over the width of the devil strip on James street, between King and Main streets, where the Railway Board ordered the city and company to make improvements, has been amicably adjusted. Yesterday attennon amicably adjusted. Yesteriay asternoon Colonel Gibson notified Mayor Stewart that the company would be willing to do the extra foot if the work was allowed to stand until next spring. Although the Mayor says it is up to the Board of Works to decide, he can see no objection to this, especially in view of the fact that the city has no more funds for road work this year. A letter from the company will be sent to the committee for consideration at its meeting this evening.

Dr. Roberts, Medical Health Officer, Dr. Roberts, Medical Health Officer, this morning raised the quarantine on 76 Merrick street, the house where Eva Hutchinson, a thirteen-year-old girl, was detained as a smallpox patient. She has entirely recovered. The Health Department thoroughly disinfected the place to-day and burned all the effects with which the patient came in contact. The other patient, on Birch avenue, the doctor says, is making satisfactory progress.

No adjustment of the insurance on the famous sandsucker has been reached yet, although one of the company's officials was expected here today. The city engineer announced this morning that the middle road would be sufficiently scooped out by to-morrow to permit of the sucker being beached on it for repairs. He expects the insurance question will be settled up before the end of the week so that the work of repairing the dredge can be proceeded with at once.

Although some of the Tory ward heelers are making a hewl over Mayor Stewart's action last night in nominating a Liberal for the position on the Parks Board, in municipal circles generally it is agreed that the Mayor could not have made a better choice.

Complaints have been made that gravel is still being taken from near the base of the High Level bridge, although the Board of Works ordered this was to be stopped. Officials of the department say that they staked off the limits from which gravel was not to be taken and they do not think this space is being encroached on.

Engineer Heddle has handed over to the city engineer his report on the repairs made to the tracks by the Street Railway Company and Mr. Barrow says the report is very fav-erable to the company as also is the one prepared by Foreman Towers.

The city engineer said this morning that he was going to charge the Hamilton Street Railway Company for the amount of water it used in the concrete construction on King street east. It does not amount to very much, but then Mr. Barrow whinks the company should settle, as he says it promised to pay for the water used in this work.

The City Council last night decided to invite Lieut.-Governor Mortimer Clark, who is going to Stoney Creek battlefield on October 22, when the selectation of the burning of the mortgage debt will take place, to come to Hamilton earlier in the day and drive around the city and through the manufacturing district. The Finance Committee was appointed to make arrangements.

Building permits were granted this morning to Donaldson & Patterson for a brick house and stable on Bay street, between Robinson and Charl ton avenue, to cost \$2,400, and to C W. Stephenson for a frame house on Homewood avenue, between Locke and Garth streets, to cost \$1,000.

A good deal of surprise has been expressed that the offer of W. D. Flatt to give the city a park site in the southwest end has not been taken up before this. To-day was the time fixed for the offer to expire. The Parks Board some weeks ago appointed a special committee to wait on the Board of Works in connection with the matter, but it has not done so yet. Mayor Stewart, when the matter was brought to his attention last night, immediately called up—Mr. Flatt, and explained how things stood. The Parks Board will meet at 4 o'clock on Thursday afternoon to deal with the matter.

Dr. Bell, of the Provincial Board of Health, was in the city to-day. He was in specting the canning factories at Burlington yesterday, and left this afternoor to inspect the factories of the Niggara district. He told Dr. Roberts, the Medical Health Officer, that he was pleased to see that the local board had faken some action in the Coal Oil Inlet

It is the intention of Longboat to ask the city to devote the grant which the city promised him if he won the Boston Marathon devoted to the building of a modest little home, in which his mother may spend the remainder of her days.

It has been ascertained in England that Longboat is eligible to the Marathon to be run at the Olympic games next year. Undermined London

Few have any conception of the vast network of pipes and cables there is beneath the streets of London. In the city alone, the engineer to the corporation reports, the total length of the mains and conduits in the subway extends to 13 miles 887 yards. The gas mains total 2 miles 693 yards, the water mains 1 mile 1,638 yards, the electric light cables 2,1442 yards, the hydraulic power mains 1,656 yards, the pneumatic tubes of the general postoffice 1 mile 1,353 yards, and the telegraph and telephone wires 2 miles 1,145 yards.—Pall Mall Gazette.
