WASHINGTON, Jan. 20 .- Two opposing phases of the Monroe doctrine were pre thence to the nearest convenient landing sented in the senate to-day, one from the committee on foreign relations favoring a strong re-affirmation of the doctrine, It was further resolved that it was and another from Mr. Sewell, of New Jersey, urging that the doctrine had been carried so far beyond its scope as to threaten dangerous consequences. Mr. Sewell's speech attracted attention from the fact that it is the utterance of oppo sition to the prevailing tendency in con gress on the doctrine, and, moreover the New Jersey senator used direct lan-guage in criticizing the haste of the President in precipitating a question whic involved the possibilities of war.

At Mr. Davis' request the resolution went to the senate calendar.

Mr. Gray (Dem., Delaware) stated that he desired it understood that the favorable report was not unanimous. Mr. Sewell (Rep., New Jersey) ther ddressed the senate on his resolution eciting that President Cleveland had extended the Monroe doctrine beyond its proper scope, and enunciating th principle that the doctrine was for the interest of the United States and was quite elated over their success at the St. not an obligation to aid and protect members of Duncan lodge.

The resolution recites that the President's course was premature and that the Monroe doctrine does not commit the United States to a protectorate of South American republics.

Reading from the message, he declared that the President clearly desired to present the contingency of war. Throughout the message and the letters of the Secretary of State the determina-

tion was clear to make this construction of the doctrine absolutely final and conclusive without reference to results. The senator then quoted from resolutions of congress in 1825 and speeches by Mr. Webster, showing the exact purposes and original scope of the Monroe doctrine. In 1863, Senator Clayton, of Delaware, pointed out in the that the doctrine Senate Monroe was not addressed to foreign nations, but was a mere recommendation to congress, which congress declined at that time and had ever since declined time of the Monroe message strongly opposed the doctrine. against Great Britain is more easily aroused than against other countries for many reasons. In the first place, we are blood relations and family quarrels are always hasty and fierce. Our battles of the revolution and of the war of 1812 have been with England. The attitude of her government during the civil war was specially irritating and disputes about boundary lines and fisheries have

frequently arisen.
"But while this feeling has not abated with us, there has come into power in Great Britain, and we have scarcely noticed it, indeed, it has only been brought strongly and convincingly to our attention by the recent terrific out-break against Germany, a force unknown and unheard of at the time of George III, or the war of 1812, or even our civil war. CAPTAIN Brown, of the tug S. W. Carter, had a peculiar experience with a stranger in town yesterday. On Sunday evening he left a fine rubber coat and a pair of gloves in his room on board the steamer and on going for them yester-day morning found to his astonishment that they were missing. He at once notified the police; but on his return met a stranger clad in and enjoying the com-fort of his stolen goods. The meeting took place on Store street, and the Captain recognizing the coat and gloves followed his man at a rapid pace. The stranger directed his buoyant step across Rock Bay bridge, and the pace growing quicker and quicker he finally gave in. Throwing down the coat, he said to Captain Brown, "I guess you want your coat, don't you? Well, here it is, but don't inform on me." Miss Minnie McBrine, of Bethany, Ont., positively declares that Paine's Celery Compound is worth its weight in gold for sick people. This statement, coming from one who was raised up to health and vigor, commands the closest attention. Past failures with worthless medicines and perfect success with Paine's Celery Compound, is a strong and clear demonstration that the popular compound can be trusted in every case.

Read the following letter written by Miss McBrine, and then honestly decide whether Paine's Celery Compound is worthy of a trial as far as your case is congerval. I commenced to use Paine's Celery Compound, which proved a complete success in my case. Your medicine cured me completely, and I feel as well as ever before in my life.

> HENRY M. STANLEY, in an article on 203 tons of wheat for the Victoria Flour the "Development of Africa," which is to appear in the February Century, re-calls the fact that troubles with the Boers in Southern Africa first induced David Livingstone to travel to the north, and so led the way to the opening of Equatorial Africa. Livingstone, who was a missionary at Kolobeng, accused his Boer neighbors of cruelty to the natives: They resented his interference, and threatened to drive him from the country. He published their misdeeds in the Cape newspapers, and his house was burned in revenge. This led to his leaving Southern Africa and going to a region where he could follow in peace his vocation as a missionary, unmolested by the Boer farmers.

the assembly.

The elevation of Hon. Mr. Davie to the chief justiceship has made one or two changes in the house, Hon. Mr. Turner for the first time meeting the assembly as Premier of the province; and Hon. D. M. Eberts as attorney-general. Mr. Huff, who succeeded to the vacant seat for Cowichan-Alberni takes his seat for the first time. The members have been arriving in town for the past few days and when the house meets to-day there will probably be few absentees. Yesterday several members took a preliminary look over the scene of their approaching labors and were preparing to get back into harness again.

One of the chiefs, however, rose from his seat near Prempeh and uttered some shrill words in a loud tone f voice. These were interpreted as saying that the Ashantees complained that the replies which the ambassadors had brought back from Britain had missed them and that the Ashantees, therefore, are not to blame. The Governor, in reply, said that their ansaho (ambassadors) would also be made prisoners and be taken to Cape Coast Castle, where they will be charged with forgery, in having put their names documents of a misleading nature, It is also claimed that the ambassadors were not really the chiefs they repreented themselves to be, but men of a nuch lower rank. A second guard of British troops then loved forward and surrounded the King,

AN UNLAWFUL WEAPON.

To THE EDITOR:—I see that the Times has been in a hurry to reproduce a letter telligent it is the very reverse. Col. Baker's critic makes a liberal use of the most unlawful weapon in the armory of the critic. The odium theologicum has been used from a very early time in the service of ignorance and prejudice, and t has been only too effective. It has been wielded against every branch of science and against almost every original thinker who has enlightened the

There is a certain class of religionists ever on the watch for heresy and heterodoxy, and whenever a teacher of men propounds any doctrine, or advances any theory, which in the opinion of its members is opposed to their view of religious truth, or to what they regard as the facts of revealed religion, they begin to raise a hue and cry against him. They try their very best to make those who are as ignorant as themselves, though perhaps not so prejudiced or self-conceited, believe that the preacher of new doctrines or the discoverer of

hitherto unknown scientific truth is an enemy of religion. The Vancouver critic says that Col. Baker belongs to the same school of thinkers as Darwin, Huxley, Tyndall, Spencer, Hackel and others. If this is the case, it will have to be admitted that he is in very good company, for Darwin, pencer, Huxley and Tyndall are the leaders of thought in our age. Huxley was greatly tormented by controversial mosquitoes like Mr. G. Clement King, and he desired no better fun than to flatten them out with a slap of his controversial palm. The Vancouver critic might know that he belongs to an older and less liberal age. The qdium theologicum is in these days an obsolete and a discredited weapon, and the man who resorts to it is set down among intelligent men as a narrow minded, ignorant, intolerant bigot, who does not nesitate to resort to the only weapon of persecution that men of his class are allowed to use in this age of tolerance and free enquiry.

DEATH FROM HEART FAILURE That Might Have Been Avoided by the Use

of Dr. Agnew's Cure for the Heart. Promptness is the first essential in all ases of sickness and especially in heart liseases. Minutes may mean everything. The use of an effective medicine may mean the saving of a life, where the use of that possessing little power may simply leave death to take its course. One great virtue of Dr. Agnew's Cure for the Heart is that it gives relief almost immediately, whether ne case be that of organic or sympathetic heart disease. The numerous testimonials received by the proprietor of this medicine ear the strongest testimony to this fact bear the strongest testimony to this lact.
"I would not have been alive to day had it not been for your medicine," is the cheering refrain of a large percentage of the letters received by the proprietor of this remedy. Sold by Dean & Hiscocks and

Albert Menzenmeyer, of Oakland, Finds This City Is Not a Haven of Refuge.

Apprehended for Drunkenness, He Is Now Held as a "Fugitive Offender."

Albert Menzenmeyer, formerly of San Francisco and more recently of the city of Oakland, was arrested early yesterday morning by Sergeant Walker and Detectives Perdue and Palmer of the Viccharged when taken into custody with hours it was decided to abandon this unimportant charge, and an information was substituted to conform with instructions received from Sheriff Calvin B. White, of Alameda county. This information is laid under the Fugitive Offenders act, and alleges that Menzenneyer on Christmas eve last "with intent to commit murder, unlawfully did shoot at one John R. Perkins with a

FRUITGROWERS AND DAIRYMEN.

Delegates from the associations which ave been already formed among the farmers in several districts of the province for the joint shipment of fruit, will on the 29th inst., meet with the cooperative committee of the Fruit Growers' Association at Westminster to arange a scheme whereby all the exports of fruit grown in the province may be managed by a central committee. The advantage of such joint action is apparent, for shipments could then be intelligently regulated so as to relieve the local narkets from being glutted as happened last year at certain periods; and the markets can be kept more regularly supplied, a desirable thing for both producer and consumer, giving the latter a more uniform market and avoiding loss that always falls on the producer when the market is over-

On the 30th instant the regular annual meeting of the Fruit Growers' Association is to be held, and on the following day the dairymen will have their convention. As many as possible of the farmers, dairymen and fruit growers from the Island should attend these neetings, as such gatherings with the nterchange of ideas and discussions that take place are important factors in assisting in the development of the farming and dairying industries of the
