THE FLOOD OF GOLD.

Washington, Oct. 22.—The forthcoming report of the mint, R. E. Preston, will be devoted to the subject of the flood of gold which seems to be sweeping over the gold-producing countries of the world. When Mr. Preston was asked what effect the large increase in the output of gold would have on the business interests of the world, he replied: "When you have an increase in the production of gold you will surely have an increase in the money of the world, gold is the same as money, the world over, for you may take a gold dollar and put it into the furnace and melt it down, and still it will retain its value, unaided by any other security. The more gold we produce the more money we will have in circulation."

Most assuredly, when there is an abundance of money in circulation prosperity prevails. The more money we have the more we spend. That is the common practice, as it applies to the average person, throughout the world. If the United States has an increase in the production of gold the amount of \$40,000,000,000, it will not be as yet been served, as the location of Van Alen is not known. It is believed that he is in P. Falls.

The high social standing of the Colts and the reputation of Van Alen at the time he was nominated by President Cleveland for the Italian mission continue to make the case extremely sensational. Samuel P. Colt is one of the best known business men of Rhode Island. Mr. Colt comes from a Bristol family, and both have been prominent in society circles of Newport, New York and this city.

The present crisis is traced back to August last. At that time a party of prominent Providence people were invited to meet at Jackson Falls, N.H., including Col. S. P. Colt, who had engaged rooms at a separate hotel, while the majority of the party registered at Gray's Inn. Among the latter was a young New York woman, Mrs. Van Alen, who is a distant connection of the Colt family.

Certain attention was paid to this young lady by Col. Colt because of her connections with the military service. To the improved appliances and facilities for mining, in South Africa, they have the same improved machinery in this country, and you frequently hear of American engineers and geologists that far away country. Thus, the increase in the production of gold comes increased prosperity. I may be an optimist on this subject, but any reasonable man will study this question most carefully. I have very strong grounds for believing that a flood of gold will wash away the troublesome financial problems now confronting the business world.

"I am not astonished at the excitement now prevailing in Europe. The consequence of the speculation in South Africa gold mining stocks, and the fact that I am very much mistaken if I do not believe that a flood of gold will be the next eight or ten years' work."

TO WORK ALONG IRON MINES.  
The Bethlehem Iron Co. of Pennsylvania Prospecting Around Port Arthur.  
There seems to be no end to the development of Canada's natural resources by our cousins from across the line. The Bethlehem Iron Company, which owns large works at Bethlehem, Pennsylvania, and share with the Carnegie of Pittsburgh the contracts for the nickel steel armor plating recently introduced by the United States Government, has secured an option on properties situated in the Mattawan range of the Port Arthur district. They will shortly send an exploring party in charge of an expert. If the results found satisfactory, the company will purchase it and establish works. The ore found in the range is hematite, or red ore, and immense bodies of it are known to exist in the neighborhood. The company have heretofore been prospecting in the Mattawan range, but owing to the war and other causes, they are compelled to resort to Canada.

\$200,000 FOR A WIFE'S LOVE

IS WHAT COLONEL COLT DEMANDS OF JAMES J. VAN ALLEN.  
The Outcome of a Spley Divorce Suit Among the 400 at Providence, R.I., in Which Serious Charges are Made by the Plaintiff and the Defendant Are Sensational Details Expected.

Providence, R.I., Oct. 22.—The social sensation that has been threatened for some time was officially open here yesterday in the Supreme Court here, presided by Chief Justice Gardner and Ripley, attorneys for Mrs. Samuel P. Colt, who filed an application for divorce on the statutory cause for separate maintenance, the custody of her two children and for an injunction restraining her husband from transferring his estate pending the trial of the case.

Francis Colwell, secured a writ for the arrest of James J. Van Alen, who is believed to have fled to the Rhode Island Van Alen, can be arrested and held until he furnishes bonds for the amount of \$40,000. The writ has not as yet been served, as the location of Van Alen is not known. It is believed that he is in P. Falls.

He stood on the prisoner's box as straight as a soldier and did not exhibit the slightest nervousness. When asked if he was guilty or not guilty he replied, "Not guilty."

FATAL FIRE IN HAMILTON.

ANTHONY KOCH SUFFOCATED IN A BURNING BUILDING.  
Rescued His Wife and One Child, Went Back for Three Other Children and Was Overcome—The Three Children and a Domestic Rescued From a Window With a Ladder.

Hamilton, Oct. 22.—Anthony Koch, proprietor of the Queen's Hotel, at the corner of Street and Bay-streets, was smothered to death last night while bravely attempting to rescue his three children from the burning hotel. The fire broke out in the kitchen when the firemen arrived shortly after that time the hotel, which is a two-story frame building of recent construction, was a mass of flames.

Mr. Koch was awakened by the sound of burning and left his room to ascertain the cause. When he reached the stairs he found the hotel burning fiercely. He rushed back to his bedroom and succeeded in conveying his wife and child-in-arms to a place of safety.

In the meantime the firemen had arrived and in their presence Koch darted back into the burning house calling out to his three children and a domestic servant girl were still to be rescued. This was the last seen of the unfortunate man alive.

The fire was again started in the rear of the dwelling houses 223 and 225 Front-street east last night. The premises were badly scorched about a week ago, the fire being apparently of incendiary origin. John Graham is the incendiary.

Victoria Harbor, Ont., Oct. 22.—An incendiary fire in the residence of W. C. Robertson destroyed the building. The piano and a few other articles were saved, slightly damaged. Mr. Robertson, who lives with his wife and children in Toronto and no one was in the house. Loss unknown; insured.

CUT THE MAYOR'S SALARY

AND PAY THE CHAIRMAN OF THE EXECUTIVE \$1500 A YEAR.

A Board of Control of Six Aldermen as \$1000 a Year Each; Aldermen Elective for Two and One for Three Years; Aldermen Elective for One Year.

Yesterday at the City Hall was devoted to Civic Reform. The phrase, "The Time has Now Come," was in the air, and various views were promulgated.

The committee appointed by the city Council, on motion of Ald. Davies, to arrive at some more satisfactory mode of civic government met at 2:30 p.m. yesterday.

Ald. Lamb proposed any step towards amalgamation, as the Citizens' Committee had a broader function and might be called on to criticize aldermen for misdoings in the past.

Ald. Davies said he preferred to go back to his constituents every January and seek their verdict on his present work.

Ald. Halloran said that the present weakness was not in the system, but in the men elected to the office.

Ald. Burns said he preferred to go back to his constituents every January and seek their verdict on his present work.

Came of the Recent Big Drop in Beef and Lamb Prices. Demand for Cheap Meat Met by Giving a Poor Quality—Butchers Complain of Losing Money.

Present Former prices. Beef, 10 cents 12 cents; Pork, 10 cents 12 cents; Lamb, 10 cents 12 cents; Mutton, 10 cents 12 cents.

In the above table the first column shows the figures at which the solids for the family table are being supplied by the butchers of this city at the present time, while in the last column are to be found the prices which prevailed not many weeks ago.

The above table shows that a very material cut has been made during the past few weeks by the retail dealers in the city.

Mr. David Walker moved that Ald. Davies be appointed a committee to investigate the matter.

MR. E. A. MACDONALD

Issues an Appeal to the People of Toronto in Reply to a Resolution of the Toronto City Council.

The World has been requested by Mr. E. A. Macdonald to publish the following: To the people of Toronto:

So many have been lately said in relation to the great work which I have devoted myself for several years past to the construction of a power aqueduct from Lake Ontario to Lake Simcoe.

Knowing the depressed condition of affairs in Toronto, I am sure that the Toronto press would heartily join in the great work which I have devoted myself for several years past to the construction of a power aqueduct from Lake Ontario to Lake Simcoe.

After being defeated at the Legislature and on the public platform, our enemies thought they had left. They said, "The man is gone."

After answering every kindergarten argument which has been advanced against the aqueduct, I have now to pay out of my pocket the cost of the aqueduct.

THE FOUNTAINHEAD OF DIAMONDS

IS AMSTERDAM; 85 PER CENT OF THE WORLD'S GEMS ARE THERE CUT AND POLISHED.

It is there we buy them from the hands of the cutters—personally for "PROMPT CASH."

Coal should be nowhere as cheap as at the mine's mouth. So diamonds are there at least on a profit less than in London or Paris, which by some are supposed to be the world's market.

THE POLITICAL SITUATION.

The despatches inform us Mr. R. S. White of Montreal has resigned his seat as member for Cardwell in the House of Commons.

The appointment of Mr. Curran, a member of the Government, to a judgeship must have had some influence on Mr. White's decision.

For now nearly three years it has been generally accepted by Conservatives that Mr. White was to get this position, and he is not for the Manitoba school question.

The store's advantages were never more apparent. The streams of new goods flowing in and the very low prices of many things develop enthusiasm all along the line.

We do not know of a Government that ever had a more trying time than the Administration at Ottawa since the death of Sir John Macdonald.

These men were not elected to take government offices, but to serve the people in Parliament. The most disconcerting thing to-day is the conservative and patriotic Conservatives at Ottawa is this desire for office.

As we said above, these successive and startling changes in leadership which have taken place in the party are a burning question like the schools of Manitoba, were surely enough to keep the party busy without the worry of a contest for the leadership.

And having made this general de-clarer, we come to Mr. White's case. We exempt him from the list of office-hunting M.P.s. As will be seen in our Ottawa despatch, Mr. White resigns because it is anomalous and improper for him to sit any longer in Parliament, having practically agreed to accept the collectorship of the office of Montreal, made him two years ago.

He thinks an M.P. with an office in his pocket has no business in the House. In this he is right. To every general rule in politics there ought to be as there is an exception. Mr. White had earned a reward, as politicians and the vacancy having occurred the offer was made him.

The Conservative party must pull itself together, check the office-seekers and find just where it is. Why not appoint Mr. White (as the justifiable exception to the rule we've tried to lay down) and open Cardwell and West Huron forthwith? If they have to take a licking let them take it—that does not mean ruination.

More than this, one of the best fighting officers has a bad blam on an amount recovered from Mr. Douglas by legal process. Meantime Mr. Douglas perhaps comforts himself with the idea that inasmuch as

A MUCH NEEDED LESSON.

It is not the duty of the police to punish, insult or treat vexatiously citizens who are summoned or arrested for a misdemeanor or crime.

The case of the police in the trial in which the police were limited to taking care of the individual in their custody until the latter has been fairly tried in open court.

In taking care of the individual in their custody until the latter has been fairly tried in open court, the police should be placed on him as is necessary to secure his presence at the trial.

The ends of justice would be better served if the police were instructed to follow this method in dealing with the public. The police should disabuse themselves of the idea that they are inquisitors with power to demand the personal history of every citizen.

COMMERCIAL NEWS.

The weakest as well as the most active stock market in the local exchange yesterday was Toronto Street Railway.

The heaviest of Canadian Pacific is also attracting some attention. The notice of this stock, generally speaking, do not conform to the situation.

The sterling exchange market is reported firmer at New York. There are fewer bankers and commercial bills offerings and the impression is that the demand for remittance is likely to be great.

The cotton market was irregular yesterday, but in the final transactions rallied and closed at the highest. The speculative liquidation seems to have been severe and in a measure complete.

Coal is now advanced 50c per ton, the Toronto price now being \$15. A further advance is not improbable.

Following are the rates of discount at the principal foreign financial centers: London, 3-1/2 to 4-1/2 per cent; Berlin, 2-1/2 per cent; Antwerp, 2 per cent; Paris, 1-3/4 per cent; Amsterdam, 2 per cent.

FRANCE AND HER NAVY.

The Proposal for a Supplementary Credit. Paris, Oct. 22.—Premier Ribot and Vice-Admiral Besnard, Minister of Marine, were summoned to attend a meeting of the Budget Committee of the Chamber of Deputies last evening. M. Ribot supported Admiral Besnard's urgent demand for a supplementary credit of 7,500,000 francs for the construction of new ships and naval works. Admiral Besnard contended that it was imperative that France should preserve her position in the Mediterranean and the north, and place new vessels upon the distant naval stations.

After the departure of the Ministers, M. Camille Pelletan, reporter of the committee, proposed that four million francs be appropriated on account of the new naval construction program. This proposal was rejected by the committee, which also rejected all other proposals for credits for new vessels. M. Pelletan then resigned, but his resignation has not yet been accepted.

BOARD OF TRADE NOTES.

The Tanners Kick at the Way Some Papers Get Their Market Reports. The following gentlemen met yesterday afternoon and discussed the standards for buckwhheat: W. D. Matthews (Chairman), H. W. Baird, Thomas Flynn and J. L. Spink. At the meeting of the executive of the Tanners' Section a resolution was carried asking the Government to grant uniform and compulsory inspection of hides and skins in the same manner and district where there is an inspector at present or where one may be appointed in future.

Another resolution relative to reports of the leather trade published in daily newspapers was read and discussed. It was to the effect that many of the reports were misleading; the information being obtained from the source only. The papers are respectfully asked to have their reporters go to more than one dealer for their information. Although hard on tanners and dealers, it is felt that this will get reliable market reports.

Hotelkeepers' Association. That there is a split of any consequence in the ranks of the Hotelkeepers' Protective Association, was pointed out by the president, Mr. John Wilson, at a meeting of the association held yesterday afternoon at the Hotel Victoria. Mr. Wilson, who presided, announced that a considerable dissatisfaction existed among members in consequence of the local hotel men in consequence of the price of liquor, as compared with the past summer. In discussing this point, Mr. Wilson stated that the price of liquor in the province of the association to regulate the price of liquor in the province in what manner the business of the province in what was conducted. The association had proved of great benefit in all its undertakings in the past, and it was regarded as somewhat unfortunate that the members had been induced to take hold of the "price schedule" of the association.

A Great Gas Cusher at Ridgeway. Ridgeway, Ont., Oct. 22.—The great gas cusher which was struck in this vicinity last week by the Ontario and Western Railway Company, is located two miles northeast of Ridgeway on the Homer Cutler farm. Conservative estimates place the flow at not less than 2,000,000 feet a day. When the cap is removed from the mouth of the well and the gas is allowed to escape the noise is simply deafening to the ears.

Harvard Old Boys. At the opening meeting of the Harvard Old Boys' Club, of the Eastern Ontario, held at the Hotel Victoria, on Tuesday evening, Oct. 22, the following officers were elected: Hon. P. H. Spanton, M.P., president; E. W. Beatty, first vice-president; G. K. De Lury, secretary; W. A. Stratton, treasurer.

MORE POLICEMEN FOR HAMILTON

The Force to be Strengthened by Four Men—Two Aldermen and a Lady Will be Summoned. Hamilton, Oct. 22.—The Police Commissioners met this afternoon and decided to add four men, making the total strength of the force 55 men. A meeting will be held on Oct. 31 for the appointment of the men. A resolution was passed that policemen reaching the age of 55 shall be retired. This will affect P.C. Ferris and P.C. Wark, but they will not be retired if, in one year, they are the first this year to be re-elected, and thus for the next year the force will be 52 strong. The rule making it necessary for applicants to be residents of the province one year prior to appointment was amended.

In view of the charges made by Ald. The Rug Sale. The sale of Oriental rugs and fancy goods conducted by C. M. Henderson & Co. yesterday afternoon at 14 King Street east was largely attended by connoisseurs and anxious to secure some of these beautiful wares. Mr. Henderson deserves credit for the sale in which the goods were displayed in a most attractive manner, and the sale conducted, every article being offered without reserve and as fast as it was returned on the catalogue. Some of the prices were very fair and others were undoubtedly bargains for the purchasers. The highest price obtained was for a silk mohair carpet, which brought \$185. An Ottawa Lady Had No Hope, But Kootenay Came to the Rescue. Ottawa, Aug. 7, 1895. S. S. Ryckman, M.P.: Dear Sir,—I cannot find words to express to you my gratitude for the services your Kootenay Cure has done for me. I had been troubled by the best physicians in Ottawa for Rheumatism, but they told me that my case was so complicated, my trouble having originated from a cold, that only a remedy they could give would only be temporary. Just at this time I heard enough to call on me. I had very little hope of relief at first, the rheumatism having settled in my muscles and almost destroyed my nerves. However, I determined to try once more, and began to take your medicine, and in my case, physically speaking, all things have passed away and all things have become new. I can now go anywhere, unaided. My nerves are as strong as ever in my life and no change in the atmosphere has any effect on me now. I cannot thank you enough, but write this so that some sufferer may read it and seek relief. You can refer any person to me at my residence, 159 Albert-street, Ottawa, and I shall be only too happy to give them any information in my power. Yours gratefully, MRS. THOMAS A. PIRIE, 159 Albert-street, Ottawa.

IT MOVES in a mysterious way its wonders to perform. Search history for the records of so marvelous a growth, then ask yourself, is it the result of chance? Do the flowers in your garden, the trees in your orchards, the grain in your fields grow by chance, or is their growth the result of careful cultivation? Careful attention to details, living up to all promises, selling good goods lower than all others, are the prime causes for the great triumphs of this business. Beware of the firm who resort to the trick of crying "stop thief!" to divert attention from their own questionable methods; who challenge honest competition one week and whine at successful competitors the next. Our "Battle Cry" is

Your Money's Worth or your money back. It has inspired the confidence of the people, and around it and on that broad platform we have built, if not yet the biggest, surely the greatest store in Canada. No little share of our wonderful success is due to our unmatched prices.
