

The Best Criterion of the Merit of

DEWAR'S WHISKY

is the over increasing demand. The high Standard of Quality which first brought the Whisky into prominence, is rigidly maintained, and every bottle CORKED in Dewar's Distilleries is a guarantee that you get the "BEST" in "SCOTCH."

Montreal Stock Market.

ACTIVITY TO-DAY, BUT WITH LITTLE STRENGTH — A GENERAL THOUGH SMALL TUMBLE DOWN IN PRICES— COMMODITY PRICES THOUGHT TO HAVE REACHED THEIR HIGHEST.

Montreal, April, 23.

Transactions were numerous this forenoon and tending as they all did towards lower values looked like liquidations. But yet except for weariedness from market monotony there was no sufficient reason for general unloading. Steel and Wire provided the occasion for the present declines and London has set the pace about American stocks. Wall Street followed suit, but curiously its declines were not in Steel stocks, but in Railways. Little as the local market in its list of stocks at least is connected with these markets, it declined too.

Canadian Pacific was 1/4 lower in London and fell away locally 1/4. A report in Wall Street Journal of the road gives its mileage as 11,000 miles, its unsold lands as 20,108,049 acres, which if sold at \$3.50 per acre would pay, it is said, the road's entire bonded indebtedness.

Street closing at 255 3/4 was 6 3/4 lower than previous close. The stock tumbled down by whole, half and quarter points and closed weaker and at the session's lowest.

A loss of 2 1/2 was suffered by Electric on no very extensive trading. The course of the stock was a gradual sinking down, though bid and asked prices at the close might indicate that there was support appearing below 200.

Very little descent was registered in Toronto Rails. The close was 3/4 lower than that of Friday it is true, but on the transfer of over 500 shares the break, if there was a break, was very inconsiderable.

In Virtue there was a rush down from 108 which was about the closing of Saturdays, to 104 at which a small parcel sold, then there was a rally to 105 and

105 1/2, offer and demand showed firmness at least.

Street Railway Rights lost 4 points, selling at 70 this session.

Gas was 1/2 lower at 183 1/2.

Republic at 103 was 1 lower.

At 140 War Eagle was unchanged.

At 30 Montreal-London kept to its former level.

Dominion Cotton at 100 was the same as before.

There was activity the forenoon session, but there was little strength in it. If as is thought by some Mr. Gates is not much to blame, he having stated the truth about the iron trade, that there is over-production and that prices must now work lower, a slight depression in all markets and in all stocks will probably take place. Abundance of orders will be still coming in to manufacturers. This, however, it is thought, may go along with lower prices. Iron prices have been very high and can well bear a good deal of depression without impairing the prosperity of the iron industry.

MONTREAL MINING EXCHANGE.

VIRTUE AND BIG THREE ENGAGE MOST ATTENTION — MARKET STILL UNDER PRESSURE — GOLDEN STAR NEGLECTED — PAYNE SELLING AT 118.

Montreal, April 23.

The market was fairly active for a Monday market, trading being centred in Virtue, Big Three and Deer Trail, all of which were inclined to be weak.

Virtue was active within a radius of 1/2 a point. The early sales were made at 106, and later ones between 5 3/4 and 5 1/2, closing at 5 1/2, altogether 7,000 shares sold within that small margin, the closing quotations being 105 3/4-105 1/4.

Deer Trail Cons. sold as low as 9 cents, although the prevailing price was 1/4 better than this, altogether 4000 shares changed hands.

There have been rumors of late that the Fontenoy and Waterloo are about to consolidate, and that the Waterloo mill will be increased to ten stamps and the main shaft sunk another 100 feet.

Mr. D. A. Crawford, the foreman in charge of the work at the Chicora, now in course of development by the Gold Hill company, says that the mine looks very well. The stock was offered at 4 1/2 this morning.

Big Three was under selling pressure and sold as low as 5c. There was a bet made on 'Change to-day that the stock would sell for this low figure. The prevailing price, however, was from 6 to 5 1/4; 5 1/2 was bid at the close, the stock being offered at 5 1/4.

Morrison sold at 2 1/2 for a small block of 500 shares.

Payne was weaker at 118, at which price 500 shares changed hands.

Republic, for a broken lot, sold at 102 1/2, 400 shares being the amount.

NEW YORK EXCHANGE.

LONDON QUOTATIONS FOR AMERICANS LOWER — OPINION BECOMES MORE FAVORABLE TO MR. GATES — WALL STREET OPENINGS SHOWED WEAKNESS — RAILWAY STOCKS WEAKER, WHILE STEEL STOCKS FAIRLY STRONG.

New York, April 23.

Very naturally the London market has sympathized with the same demoralization shown here on Saturday, declines in the Intercolonial stocks running $\frac{3}{4}$ per cent., but a favorable feature is that buying orders, thought to be from New York, made their appearance at the decline.

Newspaper comments on the stock market continue to be devoted largely to the affairs of the A. S. W. Co., and a change in management is claimed to be necessary for the welfare of the Corporation.

Today's market will doubtless open at lower figures than prevailed on Saturday, but after such declines as we have had it may be reasonable to expect that a reaction in an upward direction will take place soon.

There has been no change in the fundamental condition governing the market to warrant general liquidation.

New York (noon), April 23.

The stock market has been very much unsettled during the morning, and at time of writing has not taken a very much more definite tone. At the opening of business, while declines were common, and severe, the actual pressure was rather less than had been expected, and on this accounts the shorts started in to cover contracts.

This caused the rally after the opening, but on the advance, stocks were freely supplied, and consequently the market has had a sagging tendency which has been punctuated by occasional rallies almost wholly owing to the covering of shorts.

It may be noted, however, that the borrowing demand for stocks is simply tremendous, indicating the existence of a still very large outstanding short account. It was to be expected after the demoralized close on Saturday that the opening this morning would be weak and this was emphasized by the fact that London appeared to be frightened at the severe declines here and sent in a lower range of prices together with selling orders in the International stocks. Probably fifty thousand shares have been sold for foreign account during the morning.

Some good judges think that the Keene-Gates bearish contingent are hammering the railroad stocks in order to get back their industrials, and the market certainly gives some evidence that this is the case.

There is absolutely nothing to account for the severe losses in the railroad list, as those stocks would undoubtedly be helped by healthful reaction in the iron trade, both as regards their traffic and their operating expenses.

Mr. P. opened very weak, but has since shown rather better support than it has had since the culmination of the decline.

The Reading are very strong, and the idea prevails that the control of the company has changed or is changing hands. Unusual activity in Western, N. Y. and P. & N. issues is on the idea that the Penna. will utilize that property as its Buffalo extension.

Norfolk was about the only stock in which there was no London selling, that is of course, of the foreign listed shares.

As noted, the steel stocks are comparatively firm, and it looks as if the decline there had culminated.

MINING NEWS.

SHIPMENTS FROM ROSSLAND.

Rossland, B. C., April 21.

Regular shipments began from Le Roi mine last Monday, when twelve cars were shipped. The cars not arriving on time, to be filled at the bins only seven went. On the succeeding days twelve or thirteen cars were shipped regularly. Thus far past week only five and a half days can be reckoned as full shippers and yet, the tonnage, including three cars shipped by the Evening Star, totalled up 2,198 or at the rate of over 2,500 weekly from the Le Roi.

The smelter at Northport has not yet blown in since the authorities wish to have an accumulation of ore on hand before starting. Shipments from the War Eagle and Centre Star have not as yet started, although some ore is being taken out as encountered in development work. The Iron Mask is in a similar position, The No. 1 and Josie are hampered by the want of the compressor ordered last fall, and which is not as yet at hand.

Appended is a statement of the amount shipped during the week and year to date.

	Week	Year.
Le Roi	2,108	15,233.5
War Eagle		10,603
Centre Star		7,017.5
Iron Mask		1,434.5
Evening Star	40	337.5
Monte Cristo		273
I. X. L.		221.5
Total	2,198	35,155.5

BONANZA MINING COMPANY.

Rossland, April 11.

Mr. F. H. Knight, vice-president of the Bonanza Mountain Gold Mining Company, is in the city from Grand Forks. In speaking about the property of his company he said: "The property of the company consists of four claims, the Mountain View, the Colorado, the Bonanza and the Nevada. These have been surveyed and a crown grant applied for. In addition to these claims we own three claims almost adjoining our main group. We have sunk a shaft on the Bonanza to a depth of 65 feet. This shaft was sunk off the ledge to a depth of 30 feet. In this shaft is a ledge seven feet wide, but the veins are not high. The third shaft is down 20 feet. Here the ledge is seven feet wide, well mineralized and carries good values. We expect to deepen this last shaft to 100 feet and then to crosscut 25 to 30 feet which work will occupy 120 days, and

we will be able to ship ore to the Grand Forks smelter. We have built a wagon road from the Bertha mine, a distance of six miles, to the Bonanza group. From the Little Bertha there is a wagon road built to Grand Forks. At the foot of Bonanza mountain we have erected storehouses and stables. From here supplies are hauled to our property, as they are needed. On the property a bunkhouse and other buildings have been erected which are large enough to accommodate from 40 to 50 men. There is a 35-foot hoist and a pump on the Bonanza, and everything is in good shape to further develop it. We expect to be sending ore to Grand Forks, a distance of 20 miles, inside of the next four months, as there is plenty of \$30 ore in the ledge. We regard it as one of the best mining properties in that section.

"The Pathfinder is being operated extensively, and promises to be a very valuable mine. It is about two miles south of the Bonanza company's property. The Golden Eagle, English and French Earthquake, Diamond Hitch, Little Bertha and Volcanic are all promising properties, and are located on the east side of the north fork of the Kettle river. They are all tributary to Grand Forks, where their ores will be smelted. It is a very rich section, and is certain to be heard from during the present season."

THE RUSH TO NOME.

It Is Expected That 20,000 Will Go From The Coast.

Rossland, April 11.

Mr. C. C. Woodhouse arrived in the city yesterday from a trip to the coast. He reports that while he was away he visited Portland, Tacoma, Seattle, Wenatchee, and Spokane. There is a great deal of preparation at the coast cities for going to Cape Nome. This is especially the case at Seattle, where there are large numbers waiting to go to the new Eldorado. Mr. Woodhouse said he had a talk with the steamship agents at Seattle, and they gave it as their judgment that 20,000 people would go to Nome during the coming summer. About 2,000 will start from Seattle and about 18,000 from all other places. The first steamers will start from Seattle about May 15. It takes 10 days to go there and 10 to return from there, and they expect to make five trips during the season. They expect to carry four-fifths of all the passengers the first two trips. The last two trips they expect to bring back a great many, as the season will be closing at about that time. The open season is made up of June, July and August. Those who have good claims can work them the year round after they get prepared for it. The spring, he says, is early in Oregon and Washington, and the hills are now covered with green grass and the country looks very pleasant. Mr. Woodhouse will leave for Republic in a few days.

LE ROI.

Nearly all the mining departments in this mine are in full operation to-day under the contract system, and the result arrived at is alike satisfactory to the management and to the contractors. Regular shipments each day will begin tomorrow. The mine is being rapidly filled up, and by the end of the week the full complement of miners usually employed, about 350, will be at work. The shipments will reach about 250 to 400 tons daily or in the neighborhood of 2,500 tons a week. On the surface the excavations for the new hoist over the five compartment shaft now being raised to the surface, are being vigorously pushed. A large body of men is being kept at work

on this spot. Still when the dimensions of the new hoist, one that requires a house to cover it, measuring 50 by 81 feet, are taken into consideration, it will be recognized that this part of the work upon the Le Roi mine is not to be finished out of hand, no matter how many men are put to work at the same time. This hoist, when completed, will be the largest in the camp, and a long interval between it and the next. It will, however, have its work cut out, for at present the Le Roi has started development and stoping, which this hoist will eventually have to handle, all over the mine on practically every working from top to bottom. On the Black Bear ground the sections of the extended blacksmith and timber framing shops are well advanced, and are nearly ready for occupation. The framing machine saw is already in operation, and is working very satisfactorily. This device saves much time and expense. Six one hundred horse power boilers have arrived in Spokane, and will be here by Tuesday next. Three are already on the ground. These are each calculated to stand a pressure of 125 pounds per square inch. The boiler room will, on the completion of the present arrangements, be altogether distinct from the compressor house, being only connected with a steam pipe. This is the most approved modern arrangement. The power thus obtained will be sufficient for all the work that is at present under contemplation at this end of the A.B.C. properties.

CHICAGO MARKET.

CHICAGO MARKET—April 23, 1900.

From the Harlett Frazier Co., Chicago. H. J. Coon, Manager, 39 St. Sacramento St.

WEAK MARKET ALL OVER THE LINE THIS MORNING — EVERYTHING SOLD AT THE LOWEST FOR A LONG TIME — CLOSING WAS BETTER AT THE OPENING PRICES AND STEADY.

Chicago, April 23,

Liverpool—Wheat opened quiet, 1/8 lower; corn quiet, 1/4 lower.

Paris—Wheat 5 lower; flour unchanged. Opening wheat, May 5.87 1/2; July 5.83 1/2. Closing, wheat, May 5.87 1/2; July 5.83 1/2.

Opening corn, May, 4.01 1/2; July 3.11 1/2; closing, corn, May, 4.08 1/2; July 3.11 1/4.

New York, wheat opened quiet, 1/8 lower for May, 1/4 for July.

Chicago—On lower cables wheat opened 1/4 lower and steady at opening prices.

Don't see much good in wheat yet. What ever liquidation there is to be done in May wheat will probably take place this week, and that over, we look for better market.

Corn opened 1/8 lower around 30; there seems to be lots of order to buy July corn. We feel friendly to corn situation is as strong as ever and we see nothing to change our opinion.

Oats opened unchanged for July and steady.

Provisions opened weak, 22 cents lower, and is now 50 cents lower than Saturday's closing. There seems no hope for prices to go higher yet a while.

Hogs to-day, 32,000; to-morrow, 20,000.

Primary receipts: Last week, receipts, 587,958; shipments, 264,178.

Last year receipts, 513,506; shipments, 157,614.

Exports, last year, receipts 107,928; shipments, 223,478.

Exports flour last year, 30,458 barrels. N. W. cars—Minn., 269, Duluth, 55; last week, 406; last year, 503.

Car lots wheat estimates 45; receipts, 45.

Car lots corn, estimates, 240, receipts, 304.

Car lots oats, estimates, 160; receipts, 118.

(See page 5.)
