# ONE CARELESS MINER TAKES LIVES OF 400

## Little Town of Cherry Scene of What May Be America's Greatest Mine Horror.

### RESCUE WORK BEGINS WITH HEROIC SACRIFICE

CHERRY, Ill., Nov. 14.—Nearly 400 men and boys, it is believed to-night, are dead or perishing in the St. Paul mine, as a result of yesterday's fire, the experts who penetrated the smoldering air shaft to a depth of 300 feet early to-night, returned with a ray of hope for the grief-stricken relatives of the entombed men.

The fire, which is extinguished is the report of mining experts sent by Gov. Deneen to investigate the calamity, and its cause. For more than 30 hours the prisoners had been cut off from fresh air before the shaft was entered to-night, and undoubtedly have been subjected to smoke and gases.

That life could exist under the terrible condition is doubted by many; but because no trace of high temperature was found in the depths of the mine to-night, friends of the miners, and even officers of the company, regained some of their falling hope.

**May Be Some Alive.**

A. J. Earling, president of the Chicago, Milwaukee and St. Paul Railroad Co., which owns the mine, received an encouraging report from John Reid, son of one of the missing miners, who said that consciousness of the earth had been felt by farmers half a mile south of the mine shaft. The farmers are convinced they were the result of mines fired by imprisoned miners.

The list of the missing miners, compiled to-day, reached the total of 385, including the dead whose charred bodies were taken from the burning cages on Saturday. It was declared to be probable that this list might be increased.

One hundred and seventy men who entered the mine Saturday morning have been accounted for. Among the missing are many Americans, who have lived for years in the mining fields of Illinois. Most of those entombed are foreign born. Most of the men had families.

**Carelessness Caused It.**

The fire broke out late on Saturday afternoon. The only man to escape were those near the shaft when the fire started. They declared a careless miner had thrown a torch on a bundle of hay. Two miners threw the burning mass on a cart and started toward the main shaft.

Before it was reached a small explosion occurred. Those nearest the cages hurried to them and were hoisted to the surface. After about four trips the cages ceased moving.

What disaster occurred in the minutes following the escape of the men near the shaft is unknown.

Great heronism was shown by officials of the mine and the residents of the town of Cherry. These men, who were outside the mine when the fire originated, contributed five to the list of twelve known dead.

Alexander Nerberg, a pit man, standing at the bottom of the shaft, carried the bodies of four men into the cage, the only alley of escape. As the last was carried in he fell across the body. He was dead as were all his companions, when the cage was lifted to the surface.

**Brave Rescuers.**

Those who had gone into the pit with him were John Bundy, the mine superintendent; John Flood and Isaac Lewis, a merchant of Cherry, and Dominic Fonnelli. Dr. W. Howe, a physician of the city, who had sought to go with the men when they descended into the cage, had been thrust out by Bundy, who explained:

"They will need you at the top if we get anyone out. No use risking your life down here."

The physician vainly sought to resuscitate the men when they were carried to him a few minutes later.

Bundy, Flood, Nerberg, Fonnelli, and a mines named Rubinski entered the cage and descended. On the next trip the cage, operated from below, carried the bodies of six miners. When the cage again ascended, this time bearing the unconscious bodies of three of the rescuing party. Again it was lowered, and the bodies of the last three of the six, including Nerberg, were brought up.

**Pitiful Scenes.**

At the entrance of the shaft a scene was enacted such as is seen only at a disaster of this kind. Hundred of screaming women, weeping children and frantic but helpless men crowded about the place.

Almost 200 of the men imprisoned were in the third vein, the only entrance to which was from the second vein, about 20 feet from the main shaft of the pit.

That those of the men who were able had retreated to the farthestmost ends of the mine, the statement of the miners on the surface. There they might huddle together, gasping what little oxygen remained in the burning mine, the entrance to which was sealed up in the hope of extinguishing the fire by cutting off the air.

**Efforts Abandoned.**

After the third attempt to explore the shaft to-day, R. Y. Williams of the United States geological survey, who superintended the work of volunteer explorers, telegraphed for more oxygen cans and other apparatus.

Three times Mr. Williams and Henry Smith, a volunteer, were lowered into the mine in a bucket. Each time they penetrated deeper. The temperature was bearable, but the atmosphere was intolerable.

When explorations were abandoned to-night, it was announced that men fitted with oxygen armor would probably

# 'STEINHEIL FREE' AND ALL PARIS BURRAHS

## Remarkable Demonstrations Follow Acquittal of Woman Tried for Murder—Jury Out for Two Hours.

PARIS, Nov. 14.—Madame Margherita Steinheil was acquitted by a jury at an early hour this morning of the murder of her husband, Adolphe Steinheil, an actor, and her stepmother, Madame Japy.

The verdict was rendered at 12.55 a.m., after two and a half hours' deliberation. The president of the court for explanation, thus proving that the original majority was for conviction. It is said the jury finally divided 3 to 2.

To some degree ant and a stuffy, crowded courtroom favored the prisoner, and the delay caused much apprehension. With the first appearance of the jury, however, several of whom were smiling, an instinctive feeling of acquittal flashed thru the courtroom.

A dramatic scene followed. The red robed judges and counsel filed in and took their places. Every eye was riveted on the door thru which the prisoner should enter, but she did not appear. M. Devallee, the presiding judge, turned to the jury and said: "Have you reached a verdict?"

The foreman arose and replied: "On our conscience, we answer, No to every question."

A salvo of "bravos" followed and a perfect bohemian broke loose. M. Audin, counsel for Mme. Steinheil, embraced his colleagues. Men and women in the rear of the hall jumped and screamed for joy. The judge threatened to clear the courtroom, and when a semblance of order was restored, he called: "Bring in the accused."

**LIBERAL M. P. TO ASK REDUCTIONS IN TARIFF**

For the Benefit of the Agricultural Classes, Says His Notice of Resolution.

OTTAWA, Nov. 14.—(Special.)—Knowles, Liberal member for Moose Jaw, has started the government with a notice of resolution calling for a reduction of the tariff duties on such articles and commodities as are the necessities of the agricultural classes.

While it has been a matter of common knowledge that the western folk do not see eye to eye with either the government or the opposition on the question of the tariff, this is the first definite outbreak by a western Liberal. It is suggested that Mr. Knowles does not mean business, and is merely temporizing with his constituents. His resolution is scanty in information as to what he wants exactly.

**STORMY AT FORT WILLIAM.**

FORT WILLIAM, Nov. 14.—(Special.)—A storm which set in Saturday extended over the entire Lake Superior district. Saturday and to-day the wind has been blowing at 30 miles an hour. Dearly Saturday morning snow fell to a depth of 3 inches, but this quickly disappeared in the mild weather.

**HUNTING FATALITY.**

VICTORIA, B.C., Nov. 14.—(Special.)—To-day, near Goldstream, Edward Allen, a young druggist, was shot in the head while hunting, the charge blinding him and entering the brain. The injury is fatal. There is no clue as yet to the man who fired.

# 100 DROWNED IN SHARK-FILLED WATERS

## Indian Mail Steamer Cut Almost in Two by Collision and Goes Down Within Two Minutes.

SINGAPORE, Nov. 14.—The mail steamer La Seine of the Messageries Maritimes service, running between Java and Singapore, and on her way to this port, was in collision early this morning with the steamer Onda, of the British India Line, and sank within two minutes.

Seven European passengers, including Baron and Baroness Beniczky, the captain of La Seine, five European officers, and 88 others, comprising native passengers and members of the crew were drowned.

The accident occurred about 4 o'clock in the morning in a thick haze. The vessels were steaming at a good speed and the La Seine was cut almost in half. There was no time for panic nor for any attempt on the part of the officers of the foundering steamer to get out their boats. The majority of those on board were caught in their berths and carried down with the vessel.

The force of the collision brought the Onda to almost a dead stop and her engines were at once slowed and her bows lowered.

The rescue work proved thrilling, for not only were the rescuing parties impeded by the dark, but shoals of sharks were already attacking those clinging to pieces of wreckage in the water.

Sixty-one persons from the ill-fated steamer were finally dragged into the boats and brought by the Onda to this port. Many of them had been bitten by sharks and several are severely injured.

**SOCIALIST DISTURBANCES**

German Orators Denounce Bismarck as an Oppressor.

FRANKFURT-ON-MAIN, Germany, Nov. 14.—After a huge socialistic meeting in the Circus Schumann to-day in favor of universal suffrage, serious demonstrations in the streets occurred. Immense crowds formed in procession and marched to the Bismarck monument, where the socialistic street orator, Quint, denounced Bismarck as an oppressor. The crowd shouting: "Down with Bismarck and the Prussian Junkers!" They cheered for election reform.

The demonstrators next proceeded to the Schiller monument, where speeches were delivered. Thence the line of march was to police headquarters, but mounted and foot police dispersed the marchers, arresting many.

Further demonstrations are feared.

**Baptist Union of Western Canada.**

MOOSE JAW, Sask., Nov. 14.—(Special.)—The Baptist convention on Saturday approved a resolution that the organization in future be known as The Baptist Union of Western Canada.

# Bombs Hurlled at Mintos Their Escape Miraculous

## Dragon's Outstretched Sabre Interrupts One and Escort Wards, Off Other, Sand Road Preventing Explosion—Third Bomb is Exploded Nearby, Injuring Bystander—Loaded With Lyddite

AHMEDABAD, British India, Nov. 14.—Lord Minto, the Viceroy of India, and Lady Minto had a narrow escape yesterday from being killed by bombs.

They were driving thru one of the streets, when, without warning, two bombs were thrown at their carriage.

A dragon, who was riding alongside, spurred forward and with outstretched sabre intercepted the first bomb, hurling it some distance away into a sand heap.

The second bomb struck the viceroy's jemidar, a native lieutenant, who was holding an umbrella over Lady Minto, and fell harmlessly to the ground.

Neither bomb exploded, as the soft sand acted as a buffer.

On examination they were found to contain picric acid, a powerful explosive, better known as lyddite.

Just prior to this, as the carriage passed thru one of the streets, a bomb exploded some little distance away.

Police and others, attracted by the explosion, ran up and found a man on the ground with his hand blown off. He proved to be an innocent bystander.

The bomb throwers made their escape in the excitement, and as yet no arrests have been made.

Attempts have been made in India against Lord Minto, Lord Kitchener, Sir Andrew Fraser, Lieut.-Governor of Bengal, and many other officials, and for a year or more there has been fear of an uprising against British rule in India, based on these almost daily attempts on the lives of British officials.

# ANARCHIST AT BUENOS AYRES SLAYS TWO WITH A BOMB

## BUENOS AYRES, Nov. 14.—The chief of police of Buenos Ayres, Senor Falcon, and the police secretary were assassinated to-day while driving in Calle-street.

A man, supposed to be a Russian anarchist, but not yet identified, suddenly sprang from a secluded spot where he had been in waiting and threw a bomb directly under the carriage.

The vehicle was blown to pieces and both Senor Falcon and the secretary were terribly injured. They were carried to a hospital, but died shortly afterward.

Immediately on throwing the bomb, the assassin drew a revolver and shot himself. His wound, however, is not expected to prove mortal.

# ROSS SELLS COAL STOCK TO DOMINION STEEL CO. AT 95--MERGER ASSURED

## Stipulates That Holders of 30,000 Shares Still Uncontrolled Are To Receive Same Price.

MONTREAL, Nov. 14.—(Special.)—James Ross, president of the Dominion Coal Co., and possessor of 50,000 out of a total of 150,000 shares, constituting the common stock of the company, has sold out his entire holdings conditionally to E. R. Wood, the head of the purchasing syndicate, at 95 per share, or about 3 points above the market quotation, thus transferring the control of the company to gentlemen favorable to the Dominion Iron and Steel Company, or at least favorable to a merger being consummated between these two great corporations.

For several weeks past this buying syndicate, represented by Col. Sir Henry Pellatt and E. R. Wood of the Queen City, and J. C. McHugh of this city have been loading up with Dominion Steel common, and it is understood that they controlled a few days ago no less than 45,000 shares.

The papers in connection with this latest deal are now ready and will be signed in the morning, having been approved by both the purchaser and the seller.

Mr. Ross sells 50,000 shares, and the holders of 45,000 shares have assured Mr. Wood of their willingness to throw in their lot with the new regime, and it is understood that 25,000 additional shares were financed on Saturday, twenty-five gentlemen here and in Toronto having underwritten one thousand shares each. Circulars will be sent to the holders of the remaining 30,000 shares, and if they will not consent to share the fortunes of the others, the purchasing syndicate are bound to buy them at the same price.

**PHILADELPHIA LABOR MEN PROPOSE GENERAL STRIKE**

If A. F. of L. Officers Are Imprisoned, Would Have Wage-Earners Cease Work For Fortnight

PHILADELPHIA, Nov. 14.—Plans for a general strike by wage workers throughout the country for a period of two weeks, beginning on the day the officers of the American Federation of Labor are imprisoned for contempt of court were inaugurated here to-day at a meeting of the central labor union. Resolutions to this effect were unanimously adopted by the union, which represents about 75,000 workers in many lines of employment in this city.

Copies of the resolution were sent to the committee of the American Federation of Labor now in session in Toronto, and it was decided to appoint a committee of five in this city to perfect plans by which organized and unorganized wage workers would unite to make the strike effective.

**Hit by Auto.**

NIAGARA FALLS, Ont., Nov. 14.—(Special.)—Thomas Miawikita, aged 55 was badly injured by being knocked down by an automobile last night on River road, breaking his hip bone. Miawikita is slightly deaf. The automobile driver did not stop to ascertain the injured man's condition.

# MINES WITH ORE READY FOR THE SMELTER

## Strikes That Have Electrified the North Inspected—A Visit to Mines East of Lake Gowganda.

GOWGANDA, Nov. 10.—(By the Man on the Trail.)—The logic of the favorable conclusion I have formed with reference to Silverland will be come apparent when I indicate the nature of some of the notable discoveries made as a result of surface prospecting, in a large measure resulting from the assessment work necessary to comply with the conditions of the mining laws.

This close prospecting has been proceeding on thousands of claims extending over an area of five thousand square miles. The number of silver finds made is altogether too great to be dealt with in more than a general way. It is sufficient to say that the mineralization is so widespread that years of active mining will be necessary in the process of elimination and in the evolution of properties which will contribute ultimately to the industrial stability of the country. The majority of these discoveries compel attention and encourage the expenditure of money in development.

The more the country is studied the more it becomes apparent that the amount of work to be done is tremendous and that a vast amount of capital will be necessary to accomplish it.

But in the midst of the multiplicity of veins more or less enriched and promising, a number of startling discoveries have been made. The general character of the work and the short time in which the field has been overrun by prospectors is excuse for the assumption that these strikes have been largely accidental and that from time to time equally wonderful discoveries will be made throughout the length and breadth of Silverland.

**A Bonanza Strike.**

Twenty miles east of Elk City a little stream called "Tis way" thru a sluggish marsh into the Montreal River. Two miles back from this landing a broad vein with outcroppings of metallic silver was uncovered a few months ago. It is known as the Taylor discovery and has just been sold to a group of wealthy gentlemen in Toronto for two hundred and fifty thousand dollars. Were such a vein discovered on Nipissing or La Ross or any of the other listed Cobalt properties the effect would be electrical. As it is very largely a private affair, and in a country still in the swaddling clothes of infantile mining, it has not been heralded to the world. The strike has, nevertheless, fired prospectors with a new determination and has put new energy into operations over a wide section of country. Before the Taylor strike prospectors looked upon Spring Creek with contempt, for only a few of the faithful believed that any good could come out of that locality.

Passing rapidly westward, and for a few days ignoring many recent strikes of exceptional value in James, Willet and Silver Lake, one encounters, forty miles west of the Taylor, another phenomenal discovery. It is known locally as the Morrison.

**A Visit to the Morrison.**

After walking most of the day over the trail along the right of way of the new government road, I arrived at dusk at the Mackay mine. In the morning the manager of the Mackay very kindly walked with me across their line about one hundred yards to the Morrison Camp. There I was introduced to the gentleman in charge, Engineer Dubryn, a Belgian, who has had many years' experience in the notable centres of mining enterprise. He afforded The World's representative every facility to examine this notable discovery.

The official name of the Morrison is the Northern Mining Company of

Keen Competition in West End Harriers' Annual Handicap Race, Holford Winner.

Saturday was the big day out at the West End Y.M.C.A., the Harriers holding their annual 2 1/2 mile walk and 5-mile run. The large prize list, the value of which amounted to nearly \$200, resulted in a large number of entries being received. In the 5-mile run, Jack Tait and Roy Holden were on scratch, with runners ahead with handicaps ranging from 50 seconds to 6 1/2 minutes.

The winner of the race was W. Holford, who started on the five-minute mark. This being his first race his time of 25.42 is exceptionally good and he will surely be heard from later. A good deal of interest was also taken in the 2 1/2-mile walk, as it was thought that Frank Parkes, West End's new walker, would give Godard a good run for his money. Both these men finished inside the old record of 15.50 for the course. Godard being first in the fast time of 15.81. Will Gentlemen was not the finish, he being a few yards from the start, starting the dark horse of the race, starting from the 4-minute mark.

The finish resulted as follows: 1—H. W. Godard .. 3 min. 15.43 2—W. Gentlemen .. 4 min. 22.49 3—F. Parkes .. 3 min. 23.29 4—C. Bauckham .. 4 min. 23.21 5—C. Nunn .. 2 min. 21.41 6—J. Stewart .. 3 min. 22.48 7—H. Winston .. 3 min. 25.14

If figures count West End ought to walk away with that trophy next Saturday. Their nine fastest men averaged 25.7 for five miles. After the races the annual banquet was held, when speeches were heard from Thomas McGillivray, C. H. Ashley, George Glendinning, W. H. Wallace, Lou Seibert was presented with a beautiful pin by the Harrier Club for his unselfish services during the past year. Following made the fastest times: Tait, Holden, Dymont, Sellers, Pratt, Blackwell, Boulton, Nelson, Scholes, Knibbs. These men will likely be the Hamilton-Toronto team; Warner and Woodley, however, will run a trial next Tuesday night.

In the trot, five good ones lined up with Norma Lee on the rail. They got the word the third score down with Trinket and Parker out in front. They raced together the whole mile with Trinket in front at the wire by a neck. In the second heat, Trinket led to the three-quarters when she made a break. Parker went to the front and won by a half a length. In the third heat Trinket led all the way, to win by a neck from the fast coming Reynolds. In the fourth and final heat, Trinket beat Parker a length.

In Class C, O. B. Sheppard uncovered a nice pacer in Richard S. He was all to the good, and was at the pay station first each time, pulled up. O. B. looks to have another Maui Keowick in this fellow, as he does his work like a real race-horse. The starter got his fields away good each time.

## Highest Type of Tobacco Culture.

In the finer and deeper tones of their flavor and aroma it was found that some Egyptian tobacco was injured by the absorption of the pungent pulp board in the boxes. Sealed tin boxes are used in packing the higher grade of Vardias Cigarettes, and one may buy in large tin boxes of 50 and 100 cigarettes the "Crown Prince," "Fleur d'Orient," and the "Prince of Wales."

On the ocean voyage it was found that the pulp board absorbed too much moisture, and the fine tobacco suffered in the contact. Calreans are justly proud of the Vardias, which represent the highest form of tobacco culture.

## Girls Play Basketball.

The girls' basketball season opened Saturday evening at the Y.W.C.G. with the Evangelia Merry-makers and the Silent Five as the principals and a comfortable crowd witnessed the game. The home team had the better of the argument, leading by 7-2 at half time and still increased their lead to 14-2 at full time.

Mitchell of Evangelia proved a very important referee. It is to be hoped that the young ladies' teams of the city will get together and organize a league, which no doubt would be successful. The line up: Evangelia (2): M. Waring, E. Geddes, V. Creighton, A. Gibb, I. Creighton, Silent Five (4): M. Asworthy, L. Ross, E. Carr, G. Bean, E. Banon.

## Why Should You Buy Imported Lager When You Can Get O'Keefe's?

Imported lagers cost more than O'Keefe's "Pilsener"—NOT because they are as good, but because of the duty paid on them. O'Keefe's "Pilsener" is brewed of the finest barley malt, hops and pure water.

The Canadian laws are very strict in this respect, although O'KEEFE'S was brewed of these choice materials long before the pure food laws were passed.

The same thing cannot be said of American lagers. "No folks like home folks". No lager like O'Keefe's "Pilsener"—brewed at home, under home laws, for home use.

Why should you pay more for imported lager—when less money buys such a pure, old, delicious lager as O'Keefe's? THE O'KEEFE BREWERY CO. LIMITED, - - - - TORONTO, Ont.

UNIVERSITY RIOTING.

It is clear that the students in Toronto University do not appreciate the gravity of the situation they have created. On previous occasions they promised, in consideration of lenient treatment, to end the rowdiness which stains their record.

Attempts have been made to palliate the behavior of those who ten days ago terrorized the guests invited to the university functions. Boys sometimes do foolish things and exhibit destructive tendencies, but these offenders were not boys.

The students' parliament has passed some more resolutions of a deprecatory nature, and it was understood would assist the authorities in preserving order. The authorities, without any assistance from the students, discovered some of the culprits, and sentences of a very light description, all things considered, have been dealt out to them.

The students' parliament is now declared to be dissatisfied with this course, and once more asks for leniency. The caput has already been lenient to a degree, and the time for leniency is past.

President Falconer has endeavored to treat the students as gentlemen, but they have not justified him. It is stated that they recognize one of their number who is penalized as entirely innocent, and their remedy for this situation is to protest and threaten a strike. This indicates a lack of appreciation of British spirit and justice which could scarcely have been expected.

The cowardly culprits who shelter themselves behind a professedly innocent victim, and who are not brave enough to confess their own share in the disgraceful disturbances, are evidently influential enough to affect and control the attitude of the students in general. The arts faculty seems to wish to be dissociated from this influence. But the students have missed the sense of the whole situation. When the culprits are manly enough to come forward and confess their faults it will be time enough to talk of clemency. By condoning the offences of the guilty the protesting students share their guilt.

The public, who are paying for the university, have an interest in seeing this evil put right, and if the students fail to respond to President Falconer's very gentle and intentionally conciliatory measures, a much harsher stand must be taken. The province will not tolerate blackguardism in the university.

CITIZENS AND CIVIC SERVICE.

During the recent electoral campaign in New York City Mrs. H. P. Belmont, president of the Political Equality Association, issued a very pertinent series of questions. She asked:

Why has no man of high standing as a moral teacher in either Christian church or Jewish synagogue?

Why has no man of financial integrity in this city?

Why has no capitalist of honest record?

Why is it that no able writer or thinker on the question of the hour—Why is it that such men have stood aside while the battle for the control of this great metropolis for the next four years is being fought?

Where are these men or do they not exist? What use to their country, to their city or to their fellow men are their integrity, their brain power or their wealth? I ask, have they no sense of responsibility?

These questions, or some of them, can quite as justly be asked throughout Canada, and in Toronto. Here in this city the community is up against questions of the most vital importance on which the prosperity of the city and the comfort and convenience of the citizens largely depend and which must influence its well-being for many years to come. Yet participation in the government of the city, or even active interest in its administration is not sought or shown to any marked extent by men of ability and experience in handling large enterprises and who might thus do valuable service to the community. Public spirit is not entirely absent but is not sufficiently cultivated nor is the opportunity a city affords for the exercise of real statesmanship properly appreciated.

Mr. Chamberlain has openly admitted that his association with the administration of Birmingham was of the greatest service to his parliamentary career, and his work as mayor paved the way for the greater successes that attended him in the parliamentary arena.

FEDERAL AND STATE JURISDICTION.

Canada is not the only nation threatened with sharp conflict between federal and state jurisdiction. Short as has been the life of Australia as a federation, friction has already developed and possibly the desire to avoid similar trouble was one of the considerations leading the framers of the constitution of South Africa to deprive the state assemblies of independent powers and subject them entirely to parliament. In the United States, the oldest of English-speaking federations, chronic disputation between federal and state authority has been the leading feature of its history. The question of what their respective spheres should be was long and anxiously debated by the statesmen engaged in adjusting the constitution, one party urging that the federal government should be supreme, and the other that except in so far as the individual states agreed to yield their sovereign rights, those should remain intact and be subject to no federal interference.

The irreconcilability of these contradictory views and the stubbornness with which each was sustained, almost wrecked the Union. In the end the problem of differentiating exactly between federal and state jurisdiction was evaded, but the constitution, as originally adopted by the states, was amended in 1791, the tenth article providing explicitly that the powers not delegated to the United States by the states, were reserved to the states respectively, or to the people. This left disputes between the federation and the states to be settled as they arose, and it took a civil war to decide whether the Union was organic and indivisible or a compact from which any of the contracting parties could retire. With

The extraordinary industrial development of the last half century, and the difficult questions have arisen, and now the wave of temperance legislation that has swept over the republic has left behind it new and very formidable differences. These involve points of vital importance to the prohibitionists, since it depends on the answer to be given whether the liquor abolition acts are to be effective or of no practical account. Curiously enough, the main issue touches very closely that now becoming live in Ontario—how far does a federal license go; does it enable its holder to sell liquor in a state that has prohibited the business.

This, it will be seen, raises very much the same question as that arising out of the grant of a Dominion charter containing powers and privileges at variance with the law of Ontario. Those in the United States who favor federal authority argue that its license must prevail, and that it must protect the business carried on under it, while the upholders of state rights contend that the federal government has no right to interfere with the law of the state. Similar arguments can be used for and against the validity or propriety of a federal charter, interfering with provincial rights or with provincial law. The issues thus raised are not trivial, and they must be met fairly if they are to be arranged in a way that will preserve the proper relationship between federal and provincial authority. Opinion in Canada has been moving steadily in the direction of complete autonomy for each province in connection with its own affairs. That is a laudable principle, which in theory at least has been repeatedly approved by parliament and the federal government. But it is essential for the Dominion that it be strictly observed, and the provinces should unite in withstanding any attempt to encroach on the proper provincial domain.

AMERICAN PORTS AND GRAIN EXPORTS.

According to a recent paragraph in The New York Herald, Montreal is getting a lesser share of the grain export trade than it has had in past years despite largely increased production of the Canadian west. The extra cost of forwarding the grain to Boston is more than offset by the cheaper freight rates from Boston to Liverpool and by the fact that insurance on the cargo by that route is less than one-third of the rate charged on the Montreal route outward bound. "In other words," says The Herald's authority, "American ports are getting Montreal's grain export trade because the insurance rates on grain cargoes from these ports are about seventy per cent. less than those on such freight from Montreal." This is a striking instance of the harm done to Canada by the lack of proper drydocks on the St. Lawrence

route and of the precautions necessary to bring insurance rates down to normal figures. The matter is one that should certainly receive immediate attention from the Dominion authorities, especially since what is so seriously affecting the volume of grain exports must also prejudice other lines of trade.

GRAPES.

The beautiful, fragrant, stimulating and nourishing blood of the blue grape of Canada—just hold them well set brown sugar, straining off the seeds and jar them—use as a syrup with rice or porridge, etc., or diluted in a glass of water they make a fine claret. Why if their virtues were fully appreciated there would be no lament on the part of the wine-growers that they were perishing from over-abundance. Every family in Canada would hold down a dozen or more baskets. Look, they are starting you in the face at fifty cents a basket. Do you want unfermented port wine in your house which at once gives you a most agreeable stimulating feeling, thickens your blood, makes a man of you? Then, as herein suggested, use God's Canadian grapes. John W. Campbell.

THEATRE UNDER THE BAN.

Archbishop Bruchesi Condemns a Montreal Playhouse.

MONTREAL, Nov. 14.—(Special.)—Theatrical circles were considerably shaken up this morning by a letter read at high mass in all the Roman Catholic Churches from the Archbishop of Montreal, condemning in the severest terms possible the performances at the Academy of Music, which his grace designates as a place of peril and danger.

This theatre was taken over some months ago by a company of French artists from Paris and the character of the representations have been more or less a subject of criticism. To-day, however, Mr. Bruchesi asks all fathers and mothers to league together and to say, by their complete absence from this theatre, that those actors and actresses who have come over from Europe to ply their sad trade are not at home in Canada.

His grace adds that the directors of the academy promised him at the outset that all of their pieces would be of the orthodox kind, and he claims that the public have been deceived and the Catholic community scandalized.

Master's Chambers.

Before Cartwright, K.C., Master. Wilson v. Brown—Sloan (Hosack), for plaintiff, moved on consent, for order dismissing motion for judgment without costs. Order made.

Re Cook—W. S. Orniston (Tuxbridge), for executors, moved for administration. F. W. Harcourt, K.C., for infant's Order made. Reference to local master at Whitby.

Rushon v. Galley—C. E. Macdonald, for plaintiff, moved to amend and to add wife of defendant as a defendant, also being the registered owner. F. J. Dunbar, for defendant, contra. Reserved.

Mercantile Bank v. Stock—A. E. Knox, for defendant, moved to set aside notice of trial as irregular. H. E. Rowe, K.C., for plaintiff, took preliminary objection that the notice of motion does not specify irregularity. Motion dismissed with costs to plaintiff in any event.

Tremaine v. Langstaff—J. H. Spence, for plaintiff, moved to amend writ by striking out Peter B. Wood as a plaintiff and adding him as a defendant. S. C. Elgie, K.C., for Wood, McLean (Lawrence & D.) for defendant Langstaff. Reserved.

Marshall v. Todd—D. Urquhart moved to strike out amended statement of claim and also reply as being made without authority and being embarrassing by improperly joining defendant. W. N. Ferguson, K.C., for plaintiff, contra. Reserved.

Silvers, Limited v. Parker—C. F. Ritchie (Ritchie & Co.), for plaintiff, moved for an order shortening time for appearance to fourteen days. Order made.

Judge's Chambers.

Before Britton, J. Martin v. Garlow—A motion by plaintiff for a writ of certiorari to remove into this court the proceedings before certain magistrates for the County of Ontario of plaintiff for thirty days unfiled before said magistrates. H. W. Shapley, for defendant, contra. Judgment: The affidavits filed in reply to this motion satisfy me that the magistrate, Harris, did not act alone in making the order of dismissal. The order was made by two justices, viz. Albert E. Harris and Justice, viz. Albert Harris. The rules in regard to certiorari have not been complied with, no affidavit, and no deposit has been made in informant. The rules, in terms, clearly apply and are operative against the prosecutor, who is thus on behalf of the crown. Upon all the facts and circumstances of this case the motion will be dismissed without costs.

Before Cuts.

Rockman v. Randolph—C. S. Macdonald, K.C., for plaintiff, on appeal from order of the master in appeal setting aside the service of the writs of summons on Edmund and Charles Randolph, W. J. Johnston, for Edmond and Charles Randolph, S. Middleton, K.C., for no one appearing for Wright & Co. Judgment: The sole question is whether or not these defendants carry on business in Toronto within the meaning of C.R. 222 and 223. \* \* \* I am wholly unable to see how, upon the statement of facts on this motion, it can be said that a partnership exists between the defendants Randolphs and Wright & Co. The Randolphs have no place of business here, they have no persons in their employ here; they have no persons to represent them here. They are not interested in the business carried on here except to the extent of the charge which they make upon purchases and sales in New York. Appeal dismissed with costs.

Divisional Court.

Before the Chancellor, Magee, J.; Latchford, J.

Robinson v. Robinson—W. Laidlaw, K.C., for defendant, W. A. Robinson, on appeal from the judgment of Riddell, J., of June 11, 1909, and also on motion by way of petition for the admission of further evidence, which motion was referred by the trial judge to this court. G. W. Holmes, for plaintiff, contra, and also on motion to rescind the order of Riddell, J., allowing the appellant to amend his defence and give evidence in support of the amended pleadings. Judgment: All the circumstances justify the reception of further evidence in respect of the allegations contained in the petition and supporting affidavits. The without giving the defendant an opportunity of proving what is alleged in the petition. It is unfortunate that Wales and Tuckett did not attend for examination, and the best course now is to permit an investigation of the facts in open court before a judge, impressions of the witnesses to the divisional court as now constituted. This further evidence is to be given, not with a view of amending the record and having a further trial, but with a view of enabling the divisional court to dispose satisfactorily of the present litigation. The costs will be subject to further order, and the witnesses and parties are to attend at such time and place as Mr. Justice Before Falcombridge, C.J.; Britton, J.; Riddell, J.

Re Rogers and McFarland—A. McL. Macdonell, K.C., for James Proprietary Mining Co., on motion for an order quashing the appeal herein on the grounds that the appeal is incompetent, that it should have been taken to the master under section 124, and that it was not brought in time. J. R. Cartwright, K.C., for the mining commission. W. M. Douglas, K.C., for Duncan Chisholm. F. R. MacKeehan, for J. T. Rogers, appellant, opposed the motion. No one appeared for McFarland. Judgment: The appeal will be quashed with costs as of a motion to quash only.

WORK OF PLENARY COUNCIL

One Hundred and Fifteen Decrees Will Be Sent to Rome for Approval.

MONTREAL, Nov. 14.—(Special.)—There will be no less than 115 decrees sent to Rome for the approval of the Vatican authorities, as a result of the deliberations of the recent plenary council, a good number of these being of the greatest importance to the Roman Catholic Church in the Dominion. These documents have already been edited and prepared in the Latin tongue, which is the language of the church, and are now being printed in a newspaper establishment in the City of Quebec, and will be sent to Rome.

Falls to Recognize Thief.

Express Clerk Dobson of the Niagara Falls agency, Canadian Express Company, who was the central figure in the sensational assault and robbery of the company's office in that city, when nearly two weeks ago, has been much traveled since that date. In company with Superintendent Welsh of the Canadian Detective Bureau, he has been taken practically about the lake in review of the rogues galleries of the police of various cities. Tuesday last he left the Falls with Detective Welsh and visited Hamilton, Windsor, Detroit, Toledo and Cleveland, returning to the Falls Friday night. He failed to recognize any of the crooks at the time of the robbery, as he had done in the galleries of Niagara Falls, N.Y., and Buffalo.

## Plenty of Mahogany in the New Stock

**IF YOU** admire Mahogany Furniture, you'll be glad to know what a fine showing we make here now. It's a new stock, of course, throughout, and unless you have been here very lately you have no idea of it whatever.

### Mahogany Dining Sets

A Set includes:—Sideboard, Dinner Wagon, China Cabinet, Table, Five Side Chairs, One Arm Chair.  
We show a number of very noteworthy designs of character suitable for very fine rooms. One at \$456, a medium dull finish mahogany, heavy, well proportioned seats of solid hand buffed leather, heavy claw feet—a Grand Rapids design.  
Another at \$567 is still more massively colonial, table having a central pillar with four smaller columns.  
A Sheraton design at \$370 is of a lighter grace. The table and sideboard have six tapering legs, with brass castor caps. The chair seats and backs are studded with brass nails, and the drawers are fitted with heavy old dull brass handles. Feet of the chairs tipped with leather.

We have a fine old colonial design at \$465; very heavy, sumptuous, with capacious drawers and big mirrors, the bed of Napoleon roll back and foot style.  
We offer a five-piece solid mahogany Bedroom Set at \$239.

### Bedroom Suites of Mahogany

Full Bedroom Sets consist of: Bedstead, Dresser or Bureau, Chair, Dressing Table, Somnoe, Cheval Mirror.  
We have a fine old colonial design at \$465; very heavy, sumptuous, with capacious drawers and big mirrors, the bed of Napoleon roll back and foot style.  
We offer a five-piece solid mahogany Bedroom Set at \$239.

### Mahogany Library Sets

\$100 in denim leather if you prefer. See the set at \$208, dark green, hand buffed leather, frame dull satin finish.

### Drawing Rooms of Mahogany

Three-piece Suites—An arm Chair, a Lady's Chair and a Settee.  
The better Suites are shown upholstered in plain green denim, the covering being put on to order.

A Louis XVI. Design at \$120 is made of dull Cuban mahogany, with just one little touch of upholstery—a few inches on the arms—the backs and seats being of woven cane.

The outlines are simple but beautiful, with Grecian proportions. Refined hand carving enriches the frames without detracting from the exquisite simplicity of general effect.

Another of the same period at \$177, oval backs, fluted legs.

A Louis XV. Suite at \$210 is said to be an exact reproduction of the French design.

A Louis XIII.—Strong, capacious, heavy, but not clumsy, at \$160.

### Popular Prices Also

Birch Mahogany Sets, from \$23.

Covered with silk brocade. And prices all the way up, through nearly half a hundred different designs.

### Birch Mahogany at \$82.50

4-ply veneer tops, 3-ply fronts and ends. We consider this Set the best value offering in Canada to-day. The firm which makes it turned out five times the number of orders this season over the corresponding line of a year ago.

### Parlor Cabinets

Birch Mahogany, \$5.50.  
All designs imaginable.

### Odd Mahogany Chairs and Tables

Chairs, \$7.50 up to \$36.00.  
Odd Tables, 100 designs, solid birch, mahogany finish, solid mahogany, mahogany veneer, \$3.50 up to \$36.00.

### Mahogany Desks and Bookcases

Ladies' Birch Mahogany Desks, \$10.75.  
Solid Mahogany, \$47.50.  
All prices between.  
Macey Book Cases, \$4.50 per section, clear glass.  
Regular bases and tops, \$3.00.  
Chippendale Bases, \$6.00.  
Chippendale Tops, \$3.50.  
Colonial style, \$11.00 per section; half sections, \$9.00.

You've no idea of our furniture stock since we opened the new department.

Come and take a mere stroll through from one elevator to another, and just to realize the development.

## A Ramble Through the Rugs

**YOU WILL** be interested in the variety noticeable in our Rug Section of the Carpet Department. Weaves of six different kinds, with half a dozen or more sizes in each, with several classes of designs in three combinations of colorings to a design—there's room for a world of variety.

### Wiltons Will Always Be Favorites

Eight sizes in English Wiltons, from the smallest, 9x9, at \$22.50, to the largest, 11.5x13.5, at \$45.

Four sizes in Americans, 6x9, at \$30.00, to 10.5x12, at \$65.00.

Canadian Wiltons deserve hearty mention. We have a larger range of sizes in Canadian than any other rug—altogether.

6x9 at \$15 begins the scale, 11.5x13.5 at \$45 concludes it. Our Canadian Wiltons were dyed by the Alzarine process, which gets over the old complaint about the colors fading. By this method the dyes are forced into the rug under steam pressure, and they stay there.

### Brussels for Bedrooms

Our Brussels Rugs run from 6x9 at \$9 up to 11.5x13.5 at \$25. Seven sizes altogether.

### Velvet Rugs from Scotland

For dining-rooms a velvet rug seems particularly suitable, 10.6 at \$17.50, to 10.6x12 at \$22.50, three sizes.

### Tapestries, Scotch, Too

Eight sizes, 3x3 at \$7.00, to 10.6x13.5 at \$16.00.

A splendid rug for secondary bedrooms, and so forth, costing little and looking like Brussels. The designs are printed in the yarn, not woven in different colors, hence the economy of cost.

### 5 Sizes of Improved Ingrains

7.6x9 at \$7.50.  
10.6x12 at \$15.50.

These rugs are woven, three of wool yarns, and bound with an extra warp thread of cotton, with silk border. Sizes 6x9, 7.6x9, 10.6x12, 12.6x15, 15.6x18.

They wear like old sixty. The two-tone patterns are reversible. Copenhagen blues and rose are included in the colorings, and some very modern designs are also shown.

If you want a nice, artistic rug at a moderate price, you needn't let anybody persuade you that the new wool Ingrains don't all the bill. They'll wear like Brussels, and they'll keep their color, too. Just see them.

## \$5 Wool Eiderdown Robes \$3.75

**THESE Gowns** were cleared by the Knitting Company to us at the bare cost of production in order to get their surplus eiderdown on hand out of the way.

\$1.10 to \$1.40 Cloths . . . . . 69c  
\$4.25 to \$5.00 Cloths . . . . . \$2.88

### DO YOU WANT TABLE CLOTHS?

**WE HAVE** secured the "seconds" of a Belfast damask manufacturer's table cloths, and we are going to have some real excitement in our celebrated Staples Department on Tuesday. There's little the matter with the cloths, the imperfections being technical rather than practical—a dark thread, a thick thread, a loose thread, or some little defect of that kind. Each flaw has been very kindly marked by the obliging inspector of linens at the factory, so we will be able to point out exactly why you are getting such good cloths so cheap.

Breakfast Cloths, 1-1-2, 1-3-4 and 2 yards square. Clearing Tuesday, each, 49c.  
Breakfast Cloths, 1-2-4 and 2 yards square. Regular up to \$1.39 each. Tuesday, 69c.

## An Important Stock Adjustment in the Silk Department

**ABOUT 5,000 Yards** of our best Silks will be Reduced to a Popular Price To-morrow.

The details about these silks follow:

The general facts to bear in mind are these: They are Simpson Silks, the kind of silks which this store is so well known for. The regular prices at which Simpson Silks sell fall far short of expressing their full quality and worth, as silks are generally understood. You will not make a mistake in promising yourself a decided bargain at 67c a yard to-morrow.

High-class Novelty Dress Silks. Selling regularly at \$1.50, \$1.25 and \$1.00 yard. On sale Tuesday, 67c.

Consisting of Louise, Shantung, Messalina, Chiffon, Taffeta, Surah and Satin de Chenes weaves, in plain stripes, Dresden, Persians, in handsome color tones and combinations, high class designs, some of the choicest effects woven in silk. Selling on Tuesday at 67c.

### Shawls and Woolen Novelties

### TRUST STOOPED TO BURGLARY

Allegation That Papers About Sugar Prosecution Were Stolen.

NEW YORK, Nov. 14.—The mastery of detail shown by the sugar trust in its robbery of the United States treasury is now known included burglary in addition to false weights, false sampling and a good deal of intimate supervision of special customs agents' work—the agents who were supposed to watch the trust. Bribery and threats ran all thru the stealing.

These books and papers disappeared in January, 1908, when the desk of Special Agent Richard Parr, now acting deputy surveyor in charge of the weighing department, was broken into during the night. Mr. Parr's desk was in room 405 at the custom house. The man who smashed the lid and rummaged thru the papers took only those relating to the investigation of the sugar frauds and left behind other valuable papers, together with some articles of an intrinsic value.

### DILLON MUST HANG

Petition for Clemency on Insanity Plea is Refused.

OTTAWA, Nov. 14.—(Special.)—John Dillon, alias James Smith, will be hanged Friday next at Montreal.

On April 6, 1908, Dillon, who was book agent in Montreal, barricaded himself in a house, opened fire on constables who attempted his capture, and killed Constable Shea. He himself was wounded.

A petition for commutation of sentence of death on the plea of insanity has been refused by the governor-council.

### Annual Dedication Service

The annual dedication services were held yesterday at the Church of St. Mary Magdalene. The service was conducted by the pastor, Rev. Charles B. Darling, while the evening sermon was preached by His Lordship Bishop Swenson. In the morning, Rev. Canon H. P. Almon Abbott of Christ's Church, Hamilton, preached.
