NOTE FOR THE BYLAW---IT IS YOUR PRESENT DUTY AS A CITIZEN OF TORONTO

WHY TORONTO NEEDS CHEAP POWER HON. ADAM BECK AND OTHERS AT MASSEY HALL GREAT AUDIENCE APPROVES BYLAW

Power Ring's Tactics and Arguments Are Exposed and Ridiculed By a Number of Prominent Speakers.

CECIL SMITH IS VIGOROUS
CALLS MAP "PAINTED LIE."

"Solid for the bylaw" was the unanimous opinion of those who attended the huge meeting in Massey Hall on Saturday night. No finer gathering ever assembled in the great hall, if intelligence and solid qualities of citizenship are to be considered. For two hours and a half the audience listened as the speakers stripped away the deception, the misrepresentation, and the downright falsehood with which the Toronto Electric Light Co. and its gang of emissaries under "Billy" Moore, Fred Richardson, ex-Ald. Ramsden and others, banded together not for the first time, have sought to delude the ratepayers of the city.

The meeting was devoted entirely to power argument, not even a civic candidate appearing to advocate the passage of the bylaw. Not a dissenting voice was raised at any time, and it is inconceivable that the citizens who were not present should be so blinded to their own interests as not to make themselves acquainted with the real facts of the case as they were placed before Saturday night's audience. Among the speakers who stood out prominently, W. F. Maclean, M.P., spoke early in the evening and had a most gratifying and cordial reception. Every sentence aroused applause, and his popularity as the lifelong representative of the public ownership sentiment of Canada was abundantly evident.

Hon. Adam Beck, as the ambassador of Niagara power, indicted the immense value of Toronto's opportunities for the city, the manufacturer or the humblest householder, and was cheered to the echo. Cecil B. Smith, a stranger to most of the audience, won his way to enthusiastic approval as he attacked the falsehoods of the electric ring and thrust home his keen points to their minds. Holding up their map of the city with a red-colored square in the centre, which they falsely declare to be the only place where the bylaw is being introduced, he exclaimed:

"I call that, ladies and gentlemen, a painted lie."
The platform was reserved for members of the city council and the speakers. Four ladies also occupied seats on the right of the chairman, Mayor Coatsworth—Dr. Margaret Gordon, Mrs. Flora McD. Denison, Mrs. Vance and Miss Clara Brewster. Among the gentlemen were: W. F. Maclean, M.P., W. K. McNaught, M.L.A., Cecil B. Smith, J. W. Curry, K.C., Dr. E. J. Harrick, A. W. Wright, J. H. Duffie, Controller Hubbard, Ald. Foster, Joseph Thompson, Controller Ward, John Dunn, Ald. Wright, Electrical Engineer, Solomon, Controller Hecken, John Armstrong, "Canada First" McConnell, Col. Hamilton, Controller Harrison, Ald. Hales, James Simpson, Ald. Bengough, Ald. J. Graham, Ald. Keeler, ex-Ald. Spence, Ald. Vaughan, Ald. McBride, Ald. Church, John Laxton, Dr. Beattie Nesbitt, Joseph Oliver, Ald. Murray.

The Mayor's Address.
Mayor Coatsworth on behalf of the city corporation opened the meeting and thanked the audience for their attendance. He said that the bylaw candidates, but to be confined strictly to a consideration of the power question.

Controller Hubbard began the speech making by a few remarks on the misrepresentations which had been made by opponents of the bylaw. They were as consistent as a landlady would be who attempted to prevent a tenant buying some property of his own. W. K. McNaught, M.L.A., pointed out the handicap under which the city labored for want of coal and the opportunity which the illimitable water-power of Niagara gave to overcome it. When he read the News of the last few days he was astonished at the change that had come over that organ since last year. The future of Toronto depended largely on her industries, which supported 70,000 operatives with an annual wage of \$29,000,000.

It had been stated that the working-man would be taxed for support of the distribution plant.
"So far as I can judge, that is absolutely untrue," he said. (Hear, hear.)
It was British policy to buy in the cheapest market, was his remark on the criticism that the Hydro-Electric Commission bought from an American Company instead of a Canadian. He showed how the commission saved \$6,000 a year to the people by accepting a tender from the Ontario Power Co. at a rate of \$2 per horse power lower than had been quoted by the Electric Development Co.

"Was that un-British?" he asked, and the audience roared back, "No."
A Woman's Voice.
Mrs. Flora McD. Denison, who she appeared to Dr. Augustus Stowe, who could have more ably represented the women of Toronto. Mrs. Denison read a letter from Dr. Stowe, in which he announced her sympathy with the cheap power movement, but was unfortunately debarred by the laws of the land from voting on next Wednesday. The letter was a strong appeal to the women voters to vote "Yes" on the bylaw. Mrs. Denison considered it an honor

A Statement From the Premier.

Having made clear the attitude of the government in the contest over the proposed bylaw, it was not my intention to say anything more on the subject. However, the action of the combination, to which I will allude in a moment, renders it necessary for me to say a word or two more.

1. Why is it that the combination, thru its newspaper here, has for two weeks persistently hammered down the value of the Electrical Development Company as an investment—a course practically endorsed by Mr. White on Friday evening? As is well known to gentlemen of high standing in financial circles in this city, the government has always been most careful to avoid using a word or expression which would, perhaps, cast a doubt on financial values of any kind.

2. Are the people of Toronto ready to be instructed as to what is best for them by a bunch of American stock-jobbers retained to help similar people here? A reference to the letter drafted here, transcribed in Boston, and signed by three of these gentry, will show that the City of Toronto is not mentioned, nor is the bylaw referred to in their letter. Why?

3. Because the real effort of the combination I have indicated is directed at the government. The combination has, during the last ten days, flooded the Province of Ontario with thousands of circulars filled with silly falsehoods directed against the government and its policy on the power question. In no one of these circulars that I have seen is the Toronto situation referred to. The combination includes gentlemen of position in financial institutions here, as well as the foreign worthies I have indicated. There is no disguising the issue, and we accept it, to be that shareholders will have something to say as to directors going outside of their proper duties. In any event, the government appreciates the situation.

J. P. WHITNEY.

to be present, because it marked an epoch when women were asked to take part in political discussions.

W. F. Maclean, M.P.
W. F. Maclean, M.P., had a rousing reception and the audience cheered and applauded his first sentence:

"Now that we have the women with us who can prevail against us."
He only wanted to say what the bylaw meant to all of them. No blessing that God had given to man was more valuable to poor as well as rich than the blessing of cheap light. There were some people who preferred dear light and big profits for themselves. If cheap power could be had in Ontario, all the towns in the province would have a new start and Toronto could not lag behind in the procession. Lord Kelvin had shown that house gas was a problem soon to be solved by electricity.

The electric stove and the electric radiator were most at hand and they would only be possible in Toronto with cheap electric power.

In a very short time the competition of cheap electric light would give us gas—(Applause)—and when we have cheap electric energy the three-cent street car fare was in reach. (Applause)

"Give it to them from the shoulder," cried another enthusiast as Mr. Maclean assailed the electric ring, and those who controlled the coal and the oil of the country.

"There was this difference between electricity and some other things—it delivered itself. (Cheers and laughter.) It does not require to pay three cents a mile to the railways." (Cheers.)
"Without going into politics, he would refer to one paper—The Globe."
"What paper to-day is the organ of the great electric ring but The Globe?"

The Great Principle.
Public ownership was the great principle of the day. Whichever party it delivered itself, power it had won out and had never been an expense to the people. He challenged contradiction on this score. The fact was on their hands and no one could contradict it. An old Greek proverb said:

"If you want to be a fiddler you must start fiddling." (Laughter.) If they wanted public ownership they must start now and he preferred to be on the platform with Hon. Adam Beck and the corporation of Toronto on this matter, than with those like J. S. Willison, who refused to seize the opportunity.

The great thing was to make life more livable, to increase the happiness of all, to make it easier for the women, and he knew of nothing that would more contribute to these ends than the adoption of the cheap power policy.

"Go to the polls next week and support it there by your votes," he advised, concluding a speech with these words, "I am convinced that there is enough healthy sentiment in this, or any Canadian town, to drive into oblivion all designing tricksters, or bury out of sight all unwholesome methods, if only the public be organized and brought into action."
Surely there were reasons at the present time why good men should cause themselves to shake off their apathy and indifference. Toronto had passed the village stage and was confronted with the problems that belong to cities of the first class. Facing this city at the present time were large corporations, assisted by trained and able experts, waiting for the opportunity to lay tribute for all time upon the people. Everyone who had a stake in the city, everyone who desired its welfare and good name

Hon. Adam Beck had an ovation

CAR AND TRAIN IN COLLISION VESTIBULE ENTIRELY WRECKED

Almost Another Serious
Accident at the East
Queen-street
Crossing.

A dozen or more passengers in a King-street car were nearer death at the Queen-street crossing late last night than they have ever been before. Flung thru the guard gates, the car struck a passing freight train and the vestibule was wrecked. The motorman had jumped back into the car and escaped injury.

The car was going west in charge of Motorman Smith. The gates were down, as the car approached the crossing, but something was wrong and the car would not stop.

The derailing apparatus threw it off the track, but it plowed along the pavement, thru the gate and into the locomotive. The front vestibule of the car was torn right off and all the front end smashed in.

That no one was injured is a miracle. The motorman saw what was coming and saved himself by running back into the car. There were 15 passengers in the car, including four or five women and two or three children. One boy had his finger cut by flying glass.

The train, which was going south, was stopped almost immediately. It was made up of empty freight cars being transferred from Little York to Mimico. It was not going at a very great rate of speed and the accident might have been much more serious.

It was at this crossing three years ago that a car was wrecked and several persons killed.

EX-CHAMPION IS AN EVANGELIST

Takes Mineral Water
Now and Holds Former
Cronies With
Doubled Knuckles.

OTTAWA, Dec. 29.—(Special.)—A. J. Allen, an ex-champion pugilist of Canada, and according to his own statement, an abolition, but who became converted during the Torrey-Alexander mission here about 18 months ago, preached in Bennett's Theatre yesterday, and in the evening in Welcome Zion Church.

Thousands were unable to gain admission. Curiosity no doubt drew the major portion of the audience, and chief among them were followers of sport. He captivated them, his style was crude, and his language not always grammatical, there was no doubt about his earnestness. He carried conviction, and ere he had spoken ten minutes his remarks were punctuated with applause.

Allen dealt for the most part with the evils connected with drinking, gambling and dancing. He besought his hearers to forsake their evil ways. When all was over crowds of young men pressed forward in the streets to shake hands with the young preacher. On Friday and Saturday Allen had the street corners, in accordance with the old custom; he went with them into the saloons to have a drink. He himself took mineral water. When the liquor was consumed he produced a Bible and proceeded to read St. John, chapter xiv. If any of them made a move to depart he showed the knuckles of an ex-pugilist and continued his verses to the end.

IDA CONQUEST FOR TORONTO
Well Known Actress Joins Ranks of the Royal Alexandra Players.

NEW YORK, Dec. 29.—There was a flurry of excitement Saturday afternoon among the actor folk who frequent upper Broadway, when it became known that Ida Conquest had signed a contract which makes her the leading member of the Royal Alexandra players of Toronto. The terms of the contract were not made public, but when it is remembered that only a short time ago she refused an offer of \$600 a week and evaded for herself and manager the idea of the salary can be guessed.

Will no doubt be the highest paid woman playing in "stock" in America. Miss Conquest said: "The negotiations went thru without a hitch, with the exception of the number of matinees to be played. I only wanted one a week, but the management made some concessions, and I agreed to two. I am sure my engagement in Toronto will be a pleasant one, as I am very fond of that city, and I am told the theatre is one of the most beautiful and comfortable in the country."
The last time Miss Conquest appeared in Toronto was in support of Richard Mansfield.

BOYD WILL HANG.
Cabinet Decides to Let the Law Take Its Course.

OTTAWA, Dec. 29.—(Special.)—At a cabinet meeting yesterday it was decided not to interfere with the sentence of Boyd, the negro who is awaiting death for murder at Toronto. He will be hanged Jan. 8.

4 HIGHWAYMEN SAFELY IN CELLS

Detectives Arrest Two
Men Who Attempt to
Use Revolvers —
Week's Record
of Crime.

BULLETS WHIZZED
BY SOME VICTIMS

At the risk of their lives four police officers captured two daring desperadoes on Saturday night when Geo. Chambers, aged 27, and Thomas Morgan, aged 20, were taken into custody charged with ten hold-ups within a week in Toronto and vicinity, and also with shooting with intent to kill in several instances when their victims showed signs of flight.

Implicated with Morgan and Chambers in holding up a boy on the Glenora bridge on Friday night at 6.30, Reuben Croker, colored, aged 16, was arrested by Detectives Twigg and Moffat at the Togo Restaurant, kept by his father at Jarvis and King-streets, at midnight Sunday. When taken the lad had on him a cheap revolver.

Sam Case, alias Morley of Gannanque, Ont., who was arrested by Detective Tipton on Friday night about 10 o'clock for the theft of a fur-lined overcoat from a guest in a Gannanque hotel, and who told the detective at the time of his arrest that, having fled from his native town to avoid arrest for assault, he was about to launch into the highway robbery business in Toronto, is believed to have been present at the Glenora hold-up before he was arrested Friday night. He will be charged with that offense.

Chambers is Silent.
Chambers, the real criminal, who had recently been released from the penitentiary, is under watch in No. 4 police station, as he has threatened to commit suicide sooner than go back to the pen. He has not spoken since his arrest. Morgan is in No. 3 station, and has told the police with great detail the story of the robberies.

For the past week the whole detective force and extra squad of plainclothes officers have been looking for the twin. On Saturday night, Dec. 23, Fred W. Dandy, a Gerrick County farmer living at Ely P.O., was held up by a strange man, to whom he had given a ride, and with a revolver pointed in his face, a Gerrick County farmer living at Ely P.O., was held up by a strange man, to whom he had given a ride, and with a revolver pointed in his face, a Gerrick County farmer living at Ely P.O., was held up by a strange man, to whom he had given a ride, and with a revolver pointed in his face.

Late Saturday afternoon Detective Tipton got information concerning the actions of two men who were living in a respectable boarding house on a residential street, where they occupied a back parlor. Acting on this Detective Neve and Harry Tipton accompanied by Plainclothesmen Nat Guthrie and Lydiatt, went on the trail. At 8.30 the highwaymen were arrested on Sherbourne-street.

Both had loaded English bulldog revolvers, .38 calibre, and were on their way to do another job. Before Chambers had a chance to get his revolver out of his right hand overcoat pocket, where it was clinched in, Harry Tipton and Twigg had him tight with the muzzle of the revolver pointing toward the ground. Morgan had his revolver out of his pocket before Lydiatt and Guthrie could wrench it from his hands. Both men were hurried to No. 4 station.

Chambers has been convicted many times, and has served terms at Kingston. Morgan is recently out of jail, having been convicted for stealing coal.

In his story to Inspector Duncan Morgan said that Chambers had done all the shooting. He had been instructed by Chambers how to use the gun, but he had not done so.

How They Worked.
At the detective office yesterday the prisoners were brought face to face with several of their victims. In every case Chambers and Morgan were identified.

That the police have landed two of the most reckless and dangerous criminals is evinced by their work during the last week. After Chambers had

NAPINKA, Man., Dec. 29.—(Special).—Mrs. John Yeomans, wife of John Yeomans, one of Medora's most promising young farmers, died this morning from the result of injuries received from the explosion of a cup of coal oil. Mr. Yeomans, before going out to do the chores, lit a fire in the kitchen range, leaving a cup of coal oil, part of which he had used to light the fire, upon the top of the range.

Mrs. Yeomans was in the act of dressing beside the range, when, without any warning, there was an explosion. In an instant, she was covered with a mass of flames, and before help could be secured was so badly burned that very little hope could be held out for her recovery.

is you're doing fairly well as it is. To save a little is the safe road to competency, but to try and save much is the sure road to misery.

But twenty-five hundred years ago a king wrote in the front of his diary these words: "I shall go softly all my days." He will do for you and me today and it may well be our New Year resolution for 1908. "I shall go softly." The same word is used once in the Bible, and the prophet often speaks of velvet. So the phrase means, "I shall walk in velvet shoes and problems with kid gloves during 1908."

I shall go softly, gratefully, not grumbly; humbly, not proudly; modestly, not rashly; prudently, not recklessly; gently, not roughly. Activity stands in danger of being bolted.

The touch of intense activity is sometimes brusque. In our physical strength we forget the power of kindness. Merely the resolution on account of the manner it will give you. If two countrymen, equally unacquainted, were to be put into Toronto's finest drawing room, the one who would attract the most notice would be the one who would do it. The soft word will reform the world. Scolding won't do it. The scolding often makes the other weak. With its roar it beached a few small craft and wrecked a steamer or two. THE BY-LAW NESBITT

TORONTO'S NEXT MAYOR

Two Fatuous and Contradictory Arguments Against Dr. Nesbitt:

The same anti-Beck organization that circulates red-handed copies of the News will single out Dr. Nesbitt as the Mayorality candidate most deserving of its support.

The electric ring forces that find their ideal organ in the News also find their ideal candidate for Mayor in Dr. Beattie Nesbitt.

The same great moral agencies that fling free copies of the News broadcast with one hand are getting ready to help Dr. Nesbitt with the other.

—Telegram, Dec. 27, 1907.

What is there in Dr. Nesbitt's speeches or in his campaign literature to suggest that as "Mayor of all the People" he will prefer to make an arrangement with the Toronto Electric Light Co., or will hesitate to commit Toronto to a costly and unprofitable competitive struggle with a private company?

If we must have Nesbitt for Mayor, we had better defeat the by-law and keep a strong grip on the purse strings.

FR. McSHANE INDUCTED.
Well Received by People of St. Patrick's.

MONTREAL, Dec. 29.—(Special.)—Rev. Gerald McShane was inducted to the chief pastorate of St. Patrick's at high mass to-day before a very large congregation and the very enthusiastic manner in which the people received the new pastor completely dispelled the idea that there was any very considerable part of the congregation which did not relish the change.

Before delivering the inaugural sermon the parish priest read the archbishop's letter, in which his grace said amongst other things: "You realize, my dearly beloved brethren, that all matters concerning the appointment or withdrawal of the pastors or rectors of our churches are of the domain of the episcopal authority and cannot be entrusted to the decision of public meetings of the faithful."

When this was read Father Gerald McShane preached an eloquent sermon, during which he paid a warm tribute to his predecessors, Fathers Connolly, Dowd, Quilivan and Callaghan. Rev. Dr. Luke Callaghan and Father Martin Callaghan have gone to Bermuda.

TWO LIVES LOST IN FIRE.
Oil Lamp Upset and Curtains Take Fire—Father and Son Victims.

OTTAWA, Dec. 29.—A sad tragedy occurred on Saturday night at 11 o'clock on Nelson-street, whereby a father and son lost their lives. Mrs. Desloges was sitting in her kitchen, while her husband and two children were sleeping upstairs. She had been sewing and in replacing the sewing machine cover, slipped upon an orange peeling and fell. The oil lamp was overturned and the curtains were soon ablaze. The woman caught up one child and screamed to awaken the sleepers, but was unsuccessful. Some little delay occurred in ringing a fire alarm. On the arrival of the fire brigade a small fire was well started and the firemen brought out F. X. Desloges, his 7-year-old son and a smaller daughter. The father could not be revived and succumbed to suffocation; the boy, Alexandre, died of burns this morning and the girl, Rosetta, the hurt, will recover. The man was employed as a printer in the government bureau. The fire itself was insignificant.

J. ENOCH THOMPSON'S Platform for Controller

WATER SUPPLY.—We are told that the water supply is contaminated by sewage and that typhoid fever is prevalent in consequence. The highest medical authorities in the city say that our typhoid death rate is 22, as against 8 for Hamilton, also using Lake Ontario water, because our sewage reaches the intake pipe. As the city increases, the sewage will push out farther, and we may any time have a typhoid epidemic. What has the Council done to remedy this? Nothing but talk and order to BOLL THE WATER. What good is cheap power to people stricken with typhoid fever?

CHEAP COAL.—During a hard winter the poor suffer hardships from buying coal in small quantities at high prices. The city annually buys 25,000 tons at \$2.00 to \$2.20 per ton. It would benefit many and not interfere with any business interests if the city contracted for double the quantity and sold orders on the coal merchants for half or quarter-ton at cost price, the same as the Gas Company sells coke orders.

POWER BY-LAW.—An attempt is being made to stampede the electors into carrying the By-law.

I have not forgotten how the Don Improvement Scheme (which I opposed) was rushed through in the same way. Estimate, \$200,000; cost, \$700,000; result, failure. St. Lawrence Market, estimate, \$75,000; cost, \$200,000.

Years ago I was instrumental in defeating a third bonus, to the Credit Valley, but we got the railway all the same. If we talk of pure water, trunk sewers, Yonge street bridge and viaducts, and they have talked and talked, but the judges have been working overtime to investigate their blunders. Give new men a chance to do something.

I submit it is time for a change in the City Council. Many of the retiring Council have been there for years. They have talked of pure water, trunk sewers, Yonge street bridge and viaducts, and they have talked and talked, but the judges have been working overtime to investigate their blunders. Give new men a chance to do something.

SAFE SAVING

This Corporation is the most extensive Land Mortgage Company in the Dominion, and one of the oldest and strongest financial institutions in Canada or the United States.

PUBLIC IS APATHETIC REGARDING MARKETS

And Will So Remain Until a Demonstration is Made—Local Stocks Quiet.

World Office. Saturday Evening, Dec. 28. A cleverly manipulated market is the essence of the Wall-street transactions since a week ago.

The market bent has followed closely the range of the rates for call money. Advances and reactions in call loan rates during the week have been concurrent with those fluctuations.

The week has witnessed very little change as far as the general financial situation is concerned. A belated demand for gold caused another engagement at London.

January disbursements appear to have been made without causing any special disturbance. It would be difficult to expect that the total amount to be left this far in the month in any event.

The weekly bank statement accounted for the rally near the week end. The sharp replenishment in reserves, the marked decrease in loans and the comparative small loss in deposits were items of considerable interest.

With the Canadian stock market broken up by the holiday season there has been a natural decline in the volume of business transacted, and a corresponding lack of buoyancy in the list.

COBALT STOCKS FIRMER WITH RISING TENDENCY

Offerings Are Less Free Because of Belief That Prices Will Advance.

World Office. Saturday Eve. Dec. 28. The Cobalt mining market was quiet during the fore part of the week, but towards the end it hardened somewhat in anticipation. It is thought, of higher prices after Jan. 1.

It will be observed that ore shipments from Cobalt are good and are likely to continue so. The output from the camp is a trifle over 14,000 tons for the year—an estimated to be worth between \$10,000,000 and \$12,000,000.

New York Curb. Charles Head & Co. report the following closing transactions and sales on the New York curb:

Toronto Stock Exchange Unlisted Securities. Asked, Bid. Gold Fields 4 1/2. Cobalt Lake 1 1/2.

NEW YORK, Dec. 28.—The Post's special financial cable from London says: The Bank of England's rate has not been reduced next week, but will probably go to 6 per cent. on Jan. 9, always supposing conditions at New York and at Berlin to favor the change.

Even the best-posted financiers express uncertainty as to whether a sharp downward reaction in money rates is to occur in January, or only moderate relaxation from the existing tension.

It must also be remembered that France has been lending enormous sums in Germany during the recent crisis, and that repayment will take some time.

Will Call Strike Session. NEW YORK, Dec. 28.—United States Senator Geo. S. Nixon of Nevada announced to-night that he had received positive information that Governor Sparks would call a special session of the Nevada Legislature to take action relative to the strike of miners and consequent troubles at Goldfield.
