MEMORANDUM.

FOR THE INFORMATION OF PERSONS WHO MAY DESIRE TO
LEAVE MONEY OR PROPERTY, BY WILL, TO THE
HOSPITAL FOR SICK CHILDREN.

THE HOSPITAL can legally receive any amount of money which may be given or bequeathed.

The Hospital can also take by gift, devise, or bequest any lands or tenements, or any interest therein, the annual value of which does not exceed \$1,000, provided the gift, devise, or bequest is made at least six months before the death of the person making the same.

The clause in the Will may be in the following form :—

“ I give, devise and bequeath to the Hospital for Sick Children, at Toronto, the sum of dollars ; and also [describing lands or real property intended to be devised.]”

In cases where death is apprehended within six months, and when, therefore, the devise of lands would probably fail, it will be advisable to put the bequest in this form :—

“ I give and bequeath to the Hospital for Sick Children, at Toronto, the sum of dollars, to be raised and paid out of my money and personal effects.” If the bounty is intended for the branch of the Hospital called the Lakeside Home, or for any especial purpose, as for endowing a Cot, the purpose should be specified. In such cases the form may be to the following effect :—

“ I give and bequeath to the Hospital for Sick Children at Toronto ; for the use of the Lakeside Home, [or for the maintenance of a Cot to be called The Cot,] the sum of, etc.”

The Capital sum required for the endowment of a Cot is about \$2,000.

HOSPITAL FOR SICK CHILDREN.

90 JARVIS STREET, TORONTO.

For the relief of Children as OUT-PATIENTS, from birth to the age of fourteen years ; and for the reception of Children as IN-PATIENTS from the age of two years up to fourteen years.

No children suffering from *SMALL-POX*, or other infectious or any incurable disease, can be admitted into the Hospital.

The Parents or Guardians of Patients coming from the country are earnestly requested to communicate with the Matron a few days (if possible) before the presentation of the patient, to ascertain whether the case is suitable for admission, or whether there is a vacancy in the Hospital. Such communication must be accompanied by a certificate from the Medical Attendant stating the nature of the disease.

Parents or friends of patients are not allowed to give to the children *anything* but fruit and that only with the consent of the nurse in charge.

The Hospital is open daily for inspection (Sundays excepted), from 2 to 4 p.m., and the Committee invite all persons interested to visit it.

The Committee beg to intimate that donations of worn-out table, bed or other linen, articles of children's clothing, children's books and toys, will be most acceptable to the Charity.

Friends are requested to send their contributions to MRS. SAMUEL McMASTER, who will be happy to give every information, and to whom all drafts and Post Office Orders should be made payable.

The Hospital is supported by contributions, VOLUNTARY, in the fullest sense of the word. And as there is no canvassing for funds, friends will kindly send such subscriptions as their generous hearts, guided by God's Spirit, may prompt, and state whether their gifts are for General Expenses, Building Fund, or Lakeside Home.

--------------------------	--------------------

REGULATIONS FOR ATTENDANCE AND ADMISSION.

The Classes of Children admitted to the Hospital are the following :--

Sick children, destitute and friendless.

Sick children whose parents, owing to poverty, are unable to care for them.

Sick children who, from various circumstances, cannot receive the necessary care and attention at home, but whose friends are willing to contribute somewhat towards the expense actually incurred in their maintenance.

The Committee of the Hospital, unwilling to foster pauperism, have strictly enforced the rule of remuneration to *some* extent, whenever the relatives of applicants have been in a position to afford it.

Medical advice and prescriptions are given every day at two o'clock p.m.; out-patients are also visited and treated at their homes.

Parents and others from whom children are received into the Hospital shall be required to sign an application for admission, in a form approved by the Committee, which shall state the terms on which the patient is received, and contain an agreement on the part of the applicant to be bound thereby.

In-patients are seen at two p.m., daily.

Out-patients are seen at two p.m., daily, Sundays excepted.

No child can be admitted unless brought by some grown person.

No child should be brought unless needing medical or surgical relief.

Persons desirous of obtaining medical advice for their children as out-patients must apply at the Hospital at two in the afternoon.

The visiting day for parents and friends shall be Wednesday, and no more than two shall be admitted to see any patient at a time.

The attendants are bound strictly to enforce these Regulations, which are intended to promote the general comfort. It is hoped that the friends of patients will feel it to be their duty to conform to these rules, and to behave with propriety to the attendants.

Patients once dismissed for breach of Regulations cannot be re-admitted to the benefits of the Hospital.

The Managing Committee will give immediate attendance to all complaints. These must be made in writing, and signed by the party making the complaint.

R U L E S

FINALLY PASSED BY THE COMMITTEE, 11TH DECEMBER, 1878.

1. The Committee mentioned in the Declaration of Incorporation, as the first Committee, consisted of the following, viz.: [*Naming twenty-two ladies*].

2. The Committee shall continue to consist of such of the above named ladies and of no others, as shall remain Members of it, as provided in the Declaration of Incorporation; so long as the number shall not be reduced below ten.

3. The Regular Meeting of the Committee shall be held at the Hospital on the first Friday in each month at 12 o'clock.

4. Four Members of the Committee present at any regular meetings or meeting called by notice to all the members, shall be a Quorum.

5. Any member who fails to attend the regular meetings for three consecutive months, shall cease to be a member of the Committee. But failure to attend, by illness or absence from the city, shall not create a vacancy until the end of six months.

6. Every vacancy occasioned by non-attendance, resignation or death, shall be noted in the minutes of the next regular meeting; or if then by inadvertence omitted, shall be noted in the minutes of some other regular meeting.

7. Vacancies which reduce the Committee to a smaller number than ten may be filled at any Regular or Special Meeting of the Committee, provided that notice of the intention so to do shall have been sent to each member of the Committee a week before the meeting is held.

8. One of the Committee shall be appointed as Visitor for each week; and shall visit the Hospital daily, or procure another member of the Committee to do so in her place.

9. The Committee will avail themselves of the assistance of ladies who may be disposed to aid in the work of the Hospital by reading and singing with the patients, or in other way contributing to their instruction or amusement.

10. The Medical Staff shall consist of the Consulting Physicians and Attending Physicians, appointed from time to time by the Committee.

11. Children shall be received as In-patients from two to fourteen years of age; and Out-patients from birth to fourteen years of age may be brought for medical advice.

12. No child suffering from small-pox or other infectious disease can be admitted.

13. Presents of toys or other things to any patient shall belong to the child only while in the Hospital, and for its use and amusement there; and shall not (unless when given by its parents or guardians) be given away or taken from the Hospital without the consent of the Committee; when such consent is not given they shall be left as the property of the Hospital.

14. The visiting day for parents or friends shall be Wednesday, and not more than two shall be permitted to see any patient at a time.

15. *Parents and others from whom children are received into the Hospital shall be required to sign an application for admission, on a form approved by the Committee, which shall state the terms on which the patient is received, and contain an agreement on the part of the applicant to be bound thereby.*

16. Notices required by these Rules to be given by members of the Committee shall be sufficient if given by prepaid letter or postal card, mailed to the address of the Member.

17. No amendment to these Rules, whether by addition or alteration shall be made except in one of the following cases, viz.:

1. When all the members of the Committee agree to the amendment;
2. When the amendment has been proposed at the Regular Meeting next before that at which it is to be passed;
3. When a copy of the proposed amendment has been given to each member of the Committee, at least a week before the Regular Meeting at which it is proposed to pass it, with notice that it will be proposed at such meeting.

HOSPITAL FOR SICK CHILDREN.

A WORK OF FAITH.

THIRTEENTH ANNUAL REPORT.

“One half the world knows not how the other half lives,” was the title of a picture seen over twenty-one years ago hanging in one of the celebrated galleries of art in the Motherland. The scene is a small attic in which a man is seated and working at a fine shoe. His face wears the look of a determined will to conquer himself, for work he must. On the floor in the foreground is a chubby little fellow of two or three years beating a tin pan with the back of a spoon; the centre figure is a woman standing, needle in hand, biting the end off her thread; her head and gaze turned where her heart is, to the corner, where, on an old-fashioned chest lies the still form of her dead baby covered by a sheet: no time for mourning, no leisure for sorrow:

“Men must work and women must weep,
There's little to earn and many to keep.”

Our object in writing the Report year by year, is to try and bring those who “know not” into close contact with ourselves, who are a part of “the other half,” that they may see (as well as we can show them on paper) how *we* “live,” and have some sympathy with our work, its sorrows and its joys.

Our work is fourfold and should be looked at from all its points:—

- I.—MEDICAL,
- II.—RELIGIOUS,
- III.—PROSPECTIVE,
- IV.—BEHIND THE SCENES.

MEDICAL.

Our physicians attend daily, giving their time and skill free of charge. There is one at the hospital at 2 p.m., every day to see any patient who comes in; each retaining the patient he admits*. He then visits that case as often as is required. Since we came into our temporary quarters very great demands have been made on their time, as we have had many serious cases, including scarlet fever, whooping cough, measles, and diphtheria, and several of our nurses have been laid aside, chiefly from the extra work entailed by the unsuitability of the premises. We have a

*Owing to our being in temporary quarters, and consequently having no out-patient department, we have not insisted upon this rule being strictly kept. When patients arrive the physician for the day is at once telephoned to come.

TRAINING SCHOOL FOR NURSES,

attached to our Hospital, as nursing children is as much a specialty as children's diseases. These nurses come on probation for one month, after which, if they prove suitable, they are provided with our uniform, and allowed eight dollars a month the first year, and ten the second. They have regular lectures, given three times a week, by certified physicians, on subjects bearing upon their work. During the past winter these lectures were delivered by Dr. Peters, Dr. McCallum and Dr. Thistle.

Our first graduate will (D.V.) be Miss Hamilton, whose second year will shortly expire, and all who have known her on her wards will, I am sure, join us in wishing her "God speed" wherever her lot may be cast.

RELIGIOUS.

It is this, because it is what is commonly known as "a work of faith." BY such expression is meant that we go to no one but our God for all we need. We have no collectors, no subscription list, no canvassers. We are simply the receiving and paying tellers in this little bank; our Father is the Manager, and He keeps us free from carefulness. Strange looking cheques he sends us. Sometimes they come written in a large round hand and read: "Dear Little Children, Hazel and I abstained from buying candies during Lent and saved our money to buy something for you." Sometimes they are short, sharp and to the point:—"Sleighting is good. See that the little children get sleigh-rides once or twice a week, and send the bill to me." Once wrapped in a bit of paper and put in our contribution box were five dollars "from a working mechanic." Occasionally they have black borders and tearfully say "In loving memory of our little one."

All of these we receive from the good hand of our God, and pay out for daily food, and the very many necessities connected with life in the Hospital wards, and with the loving care of sick children.

Our custom is to meet at 11 o'clock every Friday morning at the Hospital, when we look over all letters received during the week, find how much money has come in and how much is required. If there is enough we thank God; if not enough we ask Him for the amount required, "making known all our requests with thanksgiving;" and thus we spend one hour in prayer and praise.

We know of course how many little sick folk are in the house, and we bring them in the arms of faith to our Great Physician. We ask strength for our nurses, wisdom for our matron, for our physicians knowledge of the best remedies, and for ourselves guidance and keeping of the Holy Spirit, that we who are as "a city set on a hill," may have no wish to be hidden, but only desirous that others, seeing the good work, (not us) may glorify our Father who is in heaven.

That our Father has kept His share of the promise is manifest in the simple existence of the Hospital. We began our work in March, 1876, over twelve years ago, and no other means have been used all that time to obtain the necessary money.

A glance at our Treasurer's statement will show that large sums are required averaging \$125.00 a week, and during the summer from June to September, when the Lakeside Home is open, \$76.00 additional.

The expense of a hospital for children is necessarily greater than a similar work for adults. We cannot utilize *our* patients—they are all suffering, and even those who are convalescing are but children, requiring often as much if not more care than while in bed. They cannot help themselves but must be lifted, carried, waited upon, fed, amused and entertained, that a few of the long hours of the long days may be cheated of their weariness, and smiles

coaxed into the pain-drawn faces. Often much time is spent by "Nurse" in trying to beguile the wee one to taste its food at all. Stories have to be told; its attention rivited: the dainty morsel held temptingly near, and a bite is taken almost without knowing it. A favorite scheme is to pretend the food is wood or coal, the mouth the stoke-hole of one of the well-known lake steamers; and it is no uncommon thing to hear words like these: "Now please ma'am, here is very good coal,"—holding at the same time a tempting bit near the "stoke-hole," if you let me put this in ma'am, you will see how it will make the engines work, and then you'll beat the *Cibola*. Now ma'am, you know the engines can't work without water in the boiler," here is handed a cup of milk or cocoa—and then I am sure even the *Chicora* can't catch up to you!"

We endeavor to teach every child while they are with us the lessons we are daily learning ourselves, and our sick children pray "Give us each day our daily bread" with deep meaning and sincerity. Morning family prayer is held in the wards by our Lady Superintendent, but evening prayer is conducted by the children themselves. They pray for the innurses, for each other by name, and, if any child has been conspicuously naughty, for forgiveness. If an operation is pending, they ask very simply and trustfully for strength for the little one, and that "it mayn't hurt much." If any are leaving cured, they thank God and pray that some other "little sick child who has no nice home" may come in the vacant place. They never fail to pray for "Night-nurse who is up all alone," for the matron, and often have the little voices been lifted up for the President in her work. Surely hands so upheld must "be strong and do exploits." "Out of the mouth of babes Thou hast perfected praise," and thus the sick ward becomes a nursery for the Spirit of prayer. We are deeply gratified to be able to state that every member of our household from the Lady Superintendent (a Quakeress) to the laundresses (Salvation Army lasses), are consecrated women endeavoring to do all things "as to the Lord." How else could they do what they have often to do when the children come in covered by both disease and filth, and these frequently repulsive looking children, in many cases the offspring of wretched, diseased and drunken parents.

PROSPECTIVE.

A whole year has passed, and although the Report must go out without carrying any definite statement as to where the future Hospital is to be erected. it is not because we have been idle. Plans were prepared for the old site, tenders received, etc., when a suggestion was made by the University authorities that we should affiliate with them, as they intended to erect a General Hospital in the Queen's Park, to be called the Park Hospital; and in return for such clinics as we could give to the students of the University Medical School, they would give us a site on which to build.* This proposition met with our approval, as it practically gave us the value of our College Avenue lot:—say \$20,000. However, after waiting till the summer has gone, the University scheme of a hospital in the Park has been indefinitely abandoned. We are now negotiating for the purchase of property adjacent to the city, and larger than our old site, where we can have trees and grounds for the little sick folk, and where the future works that our Father may have for us to do may from time to time be erected. It has always been our plan to have in our Hospital a ward where the

ODDS AND ENDS OF TINY HUMANITY.

who are not eligible for any of the "Homes" in our city on account of physical or mental deformities, could be under our care: practically a home for crippled

* We must remember that the medical students of to-day are the physicians of the future, and nowhere else can the diseases of children be so successfully studied as by the bedside of a sick child, in a well-appointed children's hospital.

and deformed children, for these are little sufferers all more or less, and as such belong to us. No hospital can retain them, as all hospital work is essentially curative; and such "cases" kept therein crowd out others whose ailments could be relieved if not cured. On this proposed ground we would have a ample room to build a separate home for such cases, and should our Lord put it into the heart of some servant of His to build this home for us we will trust Him to maintain it as He has done our Hospital and our Lakeside Home.

The Queen Street Methodist Sunday-School has undertaken to furnish a ward of six beds in our new building, and we still intend to have the two free wards, one called "God's Sparrows," the other "God's Lilies." In these wards will be the cots maintained by churches, Sunday-schools, societies and individuals: and in these cots the children of the very poor who could not be paid for in any other way.*

"A PEEP BEHIND THE SCENES."

The little leaflet with this title written by one of our former nurses † tells its own tale so sweetly, that all that is left for me is to continue the history of the little maidens who so lovingly made "the Cap."

Bertie is with us still and much stronger, she has been three and a half years in bed, has undergone several operations, and is so far recovered as to be allowed up with the help of a splint and crutches. She is lifted out of bed daily, and sits on the window-sill watching the people pass. *Bertie* is the happy possessor of the "*Mary Helen Cot.*" *Jo.* is still in the "*Faith Cot.*" Not any better; nor is there much prospect, alas! of her being so; the curvature of her spine becomes more conspicuous year by year—she feels the honour of being our senior patient, having been with us eight years. She is learning to read, and having a taste for music, is leader of the singing in her ward.

Maudie is still a patient child, not much better; she is the one who asked "Nurse" if she could stay here always. We think she is going to have her wish, for there seems no prospect of her leaving save by the "well trodden path to the weary one's rest."

Cora recovered completely and went home.

Martha, the sweet lisping "fattie" is the possessor of the *Violet Cot* and is almost well enough to go away; but no one claims *Martha*. No one visits her on "Mother's day." Her mother is living in the city, at least so we hear, but cannot be found. This is the sad part of our work, sending these children, to whom we have become attached, back to parents who do not want them; and who will only use their ailments as a lever to get alms for their unworthy selves. Far rather would we watch them and close their eyes in "the sleep that knows no waking" till the wonderful morning; then we would know "it is well with the child."*

Lizzie G. recovered and went home.

Bessie, the deaf and dumb child with *Lizzie C.* and *Francis*, were sent to the Orillia Asylum for the feeble minded upon the opening of their new ward.*

* A donation of \$100 a year nominally keeps a cot, which is named by the donor; and it is part of the Secretary's duty to keep these donors informed from time to time of the well-being of their little patient.

† Printed by permission of the editor of the *Observer*, a monthly journal published by the "Young People's Association of Spadina Avenue Methodist Church.

* *Martha* would be a suitable one for our proposed "Home for Crippled and Deformed Children."

* In reply to enquiries about the welfare of these unfortunate children, Dr. Beeton writes on October 4th. :—"All are doing nicely except *Lizzie*, who suffers from spasms or a mild form of convulsion, *Francis*, *Bessie* and *Harry*, are making some progress in school. All are very, very happy."

"Dear quiet *Bella Lee* went home improved, though not recovered. The same is to be said of *Edie Vick*. Edie was the occupant of the "*Orillia Cot*," then her doctors said she could get up if she had "a splint." The kindly folks of Orillia who keep the cot, send the money, and so after a time she was sent home.

Eda recovered and went home. A large tumor we removed from her neck.

Maud is up and about but both of her feet are diseased ; she will never walk well. The ladies of the committee have adopted Maud, and are having her taught dressmaking that her life may be useful.

Clara was chosen to succeed "*Maggie*" in *Our Cot*, because she was next cot neighbour to her, and like her a great sufferer. Last summer at the Lakeside home she grew so much that all her clothes were too small, and then we asked her people to furnish her with others, (they were in comfortable circumstances) they became indignant and took her away, Clara had been with us five years and had not cost them one cent all that time.

Emma is now in the land where there is no more sickness. She so won all our hearts that we sadly miss her patient face from its usual place in the corner.

Mabel, with the bonny brown eyes is recovering so fast, and is so full of spirit, that it is most difficult to keep her from hurting her sore leg again. This is one of the cases where a child up is harder to manage than one in bed. She will soon go home. Heartily do we wish all our little folk had such loving friends and so good a home as Mabel.

Last year a Christmas Letter to the Well-Children of Canada was published in leaflet form and enclosed in the Report of that year describing our Happy Christmas. So many gifts came in that we were able after amply supplying "our own" to carry several baskets of the older toys to children of the city who had nothing for Christmas—one little maiden, whose mother sews for a large wholesale house, showed us with great pride her "Christmas present," the only one her poor mother had been able to provide ; it was the leg of a turkey dried, with a sinew left so as to open and close the foot !

We showed her a basket full of toys and dolls, and said : "the little sick folk in the Hospital have sent you any that you like to choose out of these." She looked awe-struck, and required coaxing and assistance in her choice. When we handed her a large doll, it had only one leg and not much nose to speak of, she took it lovingly in her arms, laid it upon the bed, petted it, cuddled it, then laid her own soft warm cheek upon it, till both the mother and ourselves were weeping at her joy. From place to place as we went with our basket we felt that they who so bountifully supplied the little sick children, would have been twice blessed could they have watched with us the joy of those little toyless children in this rich city !

Our New Years' Day was almost as happy. Another special dinner was provided by an order over the telephone :—"Let the children have an extra treat for New Years' and send the bill to me." Twice a week, while the sleighing lasted, the little ones who were well enough were taken out for a ride, and their delight was indescribable as they drove along the streets where the windows were decorated. The ladies of the flower mission in connection with the W.C.T.U., came regularly every Friday distributing flowers, fruit and jellies. They have added to their loving kindness this year by undertaking to teach those who are likely to be in bed for some time to read and write. At Easter-tide these ladies brought tiny baskets containing a single egg and a liliputian baby nestling among fragrant blossoms, and presented one to each girl. The boys gifts were equally appropriate.

COTS.

- We have at this date:—
- | | |
|---|--|
| The Rolliston Cot, kept by the Young Ladies of Mrs. Neville's School. | St. Paul's S. School Cot, kept by St. Paul's S. School. |
| The Violet, by Judge Ardagh, Barrie. | The Mary Helen, kept by Mrs. J. I. Davidson. |
| The Isabella, by Mrs. W. G. Cassells. | Ministering Children's League, by the Toronto Branch of the Ministering Children's League. |
| The Oddfellows, by the Oddfellows of Toronto. | The Carrie Cot, by Mrs. J. H. McDonald. |
| The Wyllie, by the Masons of Toronto. | All Saints' Alpha Cot, by All Saints S. School. |
| The Ernest, by Mrs. W. B. Evans, Montreal. | The Daisy, a half Cot, by H. L. Clarke. |
| The Orillia, by the People of Orillia. | The Consolidated, by the Ladies of H. S. C. Com. |
| The Our, by Queen St. Methodist S. School. | The Tommie, by Mrs. F. G. Blackstock. |
| The Stanley, by Mrs. G. T. Blackstock. | The Birdie, by Miss Magee, Merricks-ville. |
| The Freddies, by Mr. Power, Barrie. | |
| The Faith, a Waif Cot. kept by St. Peter's S. School. | |

This year the list of Cots has been increased by one *endowed* in loving memory of a little child named "Tommy," and is the first Cot that has been endowed, all the others having been maintained hitherto by annual payments.

This, like the *Isabella Cot* is equipped with everything to make it perfect. We selected for it a little fellow about Tommy's own age, and so proud is *Georgie* of his belongings that when an accident had happened to his quilt, and Nurse spread over him one of ours, he burst out crying and said "That's not a Tommy's Twilt!" These little "sparrows" quickly appreciate their surroundings and resent any interference with their rights.

The ladies who come every Wednesday to sew and mend for us are faithful still, never letting anything prevent their being "on duty." We often have to provide our little ones with clothes after their rags and dirt have been removed at their entrance, and so supplies of cast-off clothing in good condition are very acceptable. We look to our heavenly Father for their clothing as much as we do for their food, and we love to see His hand in all our varied affairs, and to note His tender care with whom are no mere accidents. Our hearts beat in sympathy with the Matron of "The Home for Destitute Children." A Boston lady found in a lot of children's clothing sent in to her a little dress with only one sleeve. At the moment she remarked, "of what use can that be—a dress with only one sleeve?" But next day came a *little one-armed girl*, heaven sent it would seem, provided for beforehand. No grand gift ever caused her such hearty joy as did this evidence of her God's tender care for the minute things in her daily path. And "this God is our God." O! to believe Him! We look at circumstances and question about them. Let us look at Him more simply whence come our help, and remember nothing comes to us only as He orders.

It would be impossible in a Report to thank each one individually for "the kindness of God" which they have shewn, but our hearts go forth to one and all in the prayer that "goodness and mercy may follow them," and that both we and our many helpers and givers may drink more deeply of His Spirit "Who delighteth in mercy, who is good and doeth good," and to whom be glory through Jesus Christ for evermore!

LAKESIDE HOME.

SEPTEMBER 15th, 1888.

The morning rose overcast, but about ten o'clock the sun peeped out from behind the passing clouds, and by noon the hour set for the return to the city from our Lakeside Home, (where we had spent so happy a summer), the day was as warm as any day in the season.

At twelve o'clock, sharp, our funny procession began. First an invalid carriage containing three boys; two with crutches, and one could have walked had he not been too fat. He came to the Lakeside Home last summer a living skeleton, about two years old, (a starvation case) his head one mass of sores. He goes home to-day weighing 37 pounds, and so fat he would do for a "show baby." I said "goes home"—where is home for such as he? His parents, whose neglect brought him to the wretched condition he was in, have never been near to know if he were alive or dead. Next came two baby carriages, in one was "Scottie," still paralyzed, but happy, and able to use his tongue: he is assuring us all the way down that "he will come again some day." Poor "Scottie," he will never be better; and is one of those who would be eligible for our "Home for Crippled and Deformed Children" should the Lord see fit to allow us such a place. In the second carriage was *Marsie* and *Leslie*, both very much better for the three months time on the sands. Then comes a group on foot—literally *on foot*, for not one of them can use both feet. They limp along very cleverly and quickly with their crutches, and are proud to be able to *walk* home, for they had to be *carried* over. After them comes a truck, simply a big box on wheels, in which on mattresses lie six little folks who are not able to sit up; a strange load for the Island grocery cart, trundled along with a good will by the men who work so hard all summer delivering the provisions in the same "big box" for the Clark Brothers. Next another invalid carriage containing three more boys, and Nurse strongly cautions *Harry* "not to jump about, but be a good boy." *Harry* was carried over on a stretcher and is now sitting up crutch in hand, *after five years in bed*. Then another truck, similar to, but smaller than the other, and sitting amid the small baggage is *Carrie*, baby *Maud* and *Jumbo*. All are sorry the Lakeside Home is closing; yet with childish glee are glad to be going to "the other Hospital to see Miss Cody."

They all embarked safely on board the ferry at its own wharf, a mile and a half from the Home, and were soon back in their own wards in our temporary quarters at 90 Jarvis street.

This was the coming home: the going over is the other side of the picture.

The water in the lake this year being much lower than at any previous year in the history of the Lakeside Home, the Doty Brothers, who have always been so kind, could not send their ferries to the lake front, as they were not able to pass the sand bar.

We took over a detachment of our "wellest" ones, and wheeled them up from the point: but for our *sick ones* we secured the schooner yacht *Sea Gull*. The day was fine, and a light East wind blowing. The ambulance drove on to the wharf at 10:30, its uniformed driver, and our own doctor in his white

*We have applied at the Girls, the Boys, and the Orphan's Homes to have him admitted, but all tell us that he is either too young, or too old, or there is no room. There seems no place in the full world for poor *Arthur*.

flannel suit, sitting in front. Peeping in at the window we find one of our nurses in her neat uniform in charge of four very sick ones who are fastened to splints and lying on the floor of the ambulance. They are wearing pretty flannel dressing gowns, made and sent by the Woman's Aid Association of St. Paul's Church and comfortable crochet slippers made by Miss Alley. There were 22 pairs sent. They had quite a variety of head gear, but all looked tenderly cared for. These little ones were carefully lifted out, their mattresses laid on the floor of the wharf waiting room, where they were the objects of much attention and sympathy while the ambulance returned to the Hospital for its second load.

The next detachment arrived in cabs. "Scottie" in red cap and gray dressing gown, insisting on saying "How d'ye do" to every one over and over again. Poor little fellow! he is so proud of being able to speak after so many years of silence that he is irrepresible. "Scottie" was paralyzed and his speech thus affected. The first word he learned to say was "Halloo," and with this he greeted everybody, so that he became nick-named "the Telephone boy." The ambulance having arrived with its second load, we laid mattresses on the bottom of the *Sea Gull*, and loading up began. The doctor and nurse standing in the boat, while another doctor and nurse handed in the little folk very carefully and laid them tenderly down. They were covered with quilts and shaded with parasols, and nurses, doctors and attendants being all aboard, sail was hoisted, and our experiment of taking them over in a sail boat began. So gently and quietly did the *Sea Gull* slip along that some of the little folk who from their position could not see over the side of the boat, asked "are we moving?" As we rounded the point the sails were hauled in and without the sign of a tilt to leeward, she glided along like her graceful namesake, landing us directly opposite the Home.

Stretchers were soon got ready, and the assistants on shore, taking off shoes and stockings, waded in, lifting the little ones again from the doctor and nurses on board to the stretchers already manned by willing carriers, and in an incredibly short time all the little folk were snugly tucked into their Cots at their beloved Lakeside Home.

Looking over the space between the coming and the going of the children, we raise our voices in one great song of praise and thanksgiving to Almighty God, not only for a very happy summer, but one of extra usefulness and blessing, and one amply provided for day by day.

We opened our Home on June 1st, with \$394.95 in the bank. We have cared for 90 children during the four months of summer, having an average family of 50 to provide for every day. And at the close we had on hand \$131.57. Truly our need was "supplied according to His riches."

Our needs only arise day by day, and day by day they are supplied. We seldom had much money in the bank at a time, yet before the next Friday there was enough for another week. For example, to quote from Secretary's diary:—"July, —. Met this morning for prayer, and we had only \$27.46 for the Lakeside Home, while we needed \$49.40 for the expenses of the week. We earnestly asked God for His money, and He more than answered our prayer, for during the day we received \$181.09 proceeds of a bazaar held on the Island; \$25.00 for the maintenance of the Bond Street Congregational Bible Class Cot; \$7.10 from the contribution box, and \$6.50 in payments, making in all \$120.69." "If ye ask anything in My name ye shall receive it." We asked, and abundantly received.

Our rules say—"children admitted from two to fourteen years old," but this year we had babies in arms, and sick mothers with sick babies, and young women of eighteen or twenty and one lad about seventeen. Our matron so thoroughly caught the spirit of our work, that she never refused a case that could be squeezed in.

Our house is not laid out to take any but children, therefore we have only open wards, but we did our best for those who came, and God's sunshine and the glorious fresh air of Gibraltar Point did the rest.

A very interesting fact came to our knowledge only this summer, the truth of which is vouched for by the Rev. Dr. Scadding, the author of "Toronto of Old."

In the days of long ago, before the white man was sole possessor of the shores of our beautiful Lake, the Indians, from a radius of about forty miles around, used to bring the sick and ailing of their tribes and camp out on this Point. Now as the season for so doing would usually be at the same period as that when we do *our* camping out, and as it is clear that they were attracted to this spot because of the benefits which *their* sick ones received, it would indeed seem that "the good hand of our God" guided us to bring *our* sick ones here also: for the place has proved to them a remarkable source of renewing and of vigour.

To our Father God we give the glory, and earnestly thank Him for ever putting it into our hearts to have a "Lakeside Home" for little children, and for sending us such a large hearted man as J. Ross Robertson, who not only built the present house, but is now preparing to spend about \$4,000 more upon it, thus giving us more conveniences, for taking not only as we did this summer, older ones who need the change, but babies, who are always sufferers during the very hot weather.

May every one who has contributed in any degree to our comfort this summer receive from *Our Father* "good measure pressed down and running over" according to His own promise.

Last summer "the campers" on the Island presented us with a large tent, and in it the children this year had tea parties, and played "house," and lived out of doors all the day. The sick ones were wheeled out on the verandahs, beds and all, every fine day, there to enjoy the air and see the passing vessels.

To celebrate the "getting up" of "Harry Paul" after five years in bed, Harry was invited with seven of the other boys to take tea with the President at her Island Home. They arrived in charge of nurse at 2 p.m., and were taken out for a row; each little fellow, being allowed an oar, or paddle, or the tiller. We did not make much progress in any given direction, but had a very happy time. We landed at the Turner Baths, when Mrs. Turner gave as many as could bathe, a suit, a room, and towel, and a funny set of bathers they looked, every one with a crutch, and one little fellow with *only one leg*.

They waded into the shallow water, then stood and "shied" their crutches ashore, while those who could not go in, sat on shore eating apples and peaches given by the proprietors of the fruit stand.

After having a merry time *we* "shied" the crutches back to them and they limped out very very happy. They then dressed and after running on the sand till they were warmed through, we re-embarked and paddled around in the same fashion as before to hear the Band; returning in time for 6 o'clock tea on the verandah. Nurse came for them at 7, and so ended a very happy day, the sunshine of which will remain in their hearts as long as they beat.

Another day the girls were taken for a row. Some were very fearful, holding all the time to "nurse's" hand. *Bertie*, who is improving very fast was carried down and laid in the bottom of the boat, and enjoyed her row as much as any of them. We took out about fifteen in the different trips, landing between times and re-loading.

On calm days when the sun was not too hot, "nurse" carried mattresses down to the water's edge, and laid some of our *very sick* on them. Can any one imagine the delight afforded by such loving care? It is hard work carrying mattresses and children, some of the latter 10 or 11 years old, such a distance over sand, but our nurses are all *child lovers*, and never try to save themselves if the children can be made the least bit happier.

There is a service every Sunday afternoon at 3, conducted by Mr. Casimer Gzowski.

The boys are carried into the large ward and laid upon the beds; the convalescents are seated on little chairs and benches at the foot of the beds; *the organ* (a small affair, very old, the greater number of its notes silent)

standing opposite the speaker. Service begins with a hymn chosen by the children : heartily indeed do their voices join in.

“ I’ve found a Friend, oh, such a Friend !
He loved me ere I knew Him :
He drew me with the cords of love,
And thus He bound me to Him.”

A simple story is read from God’s Word, and then a very simple and interesting talk upon it, followed by another hymn, and all bow in prayer to the loving Saviour who ever :

“ Went about, He was so kind,
To cure poor people who were blind ;
And many who were sick and lame,
He pitied them and did the same.”

The sick and lame together here lay their wants before him, asking for daily supplies, literally “ Give *us* each day *our* daily bread.”

On Wednesday evenings we have a household prayer meeting, many of the larger patients joining us. At this meeting, like the one on Fridays, we tell those present how God has dealt with us during the week, and nurses, servants, patients and president, standing on one common level of needy children, “ in everything by prayer and supplication with thanksgiving make our requests known unto Him.”

We have a number of “ Cots ” in the Lakeside Home supported by the contributions of individuals, societies, Sunday-schools, etc., called by a name chosen by the donors :

Little Ida’s Cot, donor, Mrs. B. Homer Dixon ; Adelaide Cot, donor, “ Sympathizer,” Brockville ; The Advance Cot, donors, Subscribers to “ the Advance,” Treasurer to Yeigh & Co. ; Bond Street Bible Class Cot, donors, Bible Class of Bond Street Congregational Church, Treasurer Mr. Yeigh ; Bethesda Cot, donors, The Young Men’s Bible Class of Queen-street Methodist S. S., Treasurer A. P. Watts, 3 King-street, West ; The St. John’s Cot, donors, Members of St. John’s Lodge ; The Rehoboam Cot, donors, Members of the Rehoboam Lodge.

Donors have the privilege of choosing their child from among those of *Ours* who are unprovided for ; or of sending in a child that they feel would be benefited by a time on the sands.

An annual donation of \$25.00 entitles the donor to name a Cot, and keep a child therein during the season.

"CANADIAN CHILDREN'S COT."
