DETROIT IS SHOCKED

By Murder of Police-man By Burg-lars

AT MIDNIGHT.

Occurred in Heart of Business District... A Second Officer Probably Fatally Injured... The Murderers Were Pursued But Escaped After Hot Chase.

Detroit, Nov. 18.—Patrolman John Daly, who was shot and murdered in cold blood at midnight, had detected two burglars at work in the rear of Wm. Heidrich's store in Michigan Ave. Herbert H. Pichell, special officer for the Michigan Central railroad, was shot through the abdomen and probably fatally injured when he ran to the policeman's assistance.

SCHOONER A TOTAL LOSS.

Exhausted Crew Spent Terrible Night on Sea Suetpt Craft.

Sydney, C. B., Nov. 17.—(Special.)—While the storm was at its height last Sunday night, the Newfoundland schooner, Volunteer, Capt. Yettman, from Harbor Grace for Sydney, in ballast straggled on Lingas bar and became a total loss. Her crew spent a terrible night on the ill-fated craft, over which the sea broke in great fury. The vessel had been on her way from Prince Edward Island, with a cargo of produce, parted chains during the gale and was driven ashore on the ledge at the entrance to White Head. The rescue of the captain, his wife and crew was effected with the greatest difficulty. The vessel is a day of water.

THE ENGLISH FISHERMEN.

The Enquiry at Hull Was Concluded Yesterday.

Hull, Eng., Nov. 18.—The board of trade inquiry into the actual occurrence of the Dogger Bank disaster, closed with yesterday's session, and the commissioners will report to the board of trade on the subject as speedily as possible. At the opening of today's session the commissioners and others paid high tribute to the gallantry of the members of the fish-boat.

THE WEATHER.

Forecast—Fresh to strong northerly wind; cloudy with local showers of rain or sleet. Saturday fair. Sunday—A variable weather, with showers except in the maritime provinces. Winds to banks, fresh to strong northerly and to American ports, fresh to moderate.

CHIEF OFFICER OF LORD'S ARMY.

Montreal, Nov. 18.—(Special.)—Lord Grey, for 25 years a resident of the city, and well known especially in Methodist circles, as a local preacher, died yesterday. At one time he was chief officer of what was known as the Lord's Army, an organization patterned after the Salvation Army, which attained considerable strength in many Ontario towns.

DIPHTHERIA IN MONTREAL.

It is no exaggeration to say that there are over fifty cases of diphtheria in the city at present. Such is the report of the health officer, this morning. The cases are pretty well spread over the city, and it is expected that another day or two will see a further increase.

NO RUNAWAY HORSES.

Runaway horses are unknown in Russia. No one drives there without having a third cord with a running nose around the neck of the animal. When an animal starts the cord is pulled and the horse stops as soon as he feels the pressure on the wind-pipe.

FELL OVER THE CLIFF.

Son of Late Rev. Joseph Barker of Sheffield.

HE MAY DIE.

Accident Occurred in British Columbia... Lumber Co. Will Carry Over 15,000,000 Feet of Logs... The G. T. P. Survey, The News of Fredericton.

Two Blooming

The Adventures of Two Criminals. Bay Trees.

BY DOUGLAS WINTON.

(Continued.) But no one ever called him a nigger again. Nor would an Englishman, looking at him, imagine that there was any justification for applying such an epithet. Certainly many Spaniards were darker. And yet—and yet—to an observer who had lived long where the races mix, a certain coarseness of the hair, a bluish tint at the bottom of the nails, a sort of line, like a high-water mark, along the sides of the fingers where the darker tint of the black met the lighter of the underside, told their own tale. The black blood was three generations away; but there it was, and by such marks, could its presence be told, and that is how it came about, that a blow with an iron bar, enough to have left a white man of pure descent unconscious for an hour, meeting the hard negro skull of Mr. Van Coortvelt's watchman, stunned him for a minute or two, and that was all.

And, as no way was provided for drawing this back, he had to hunt up a screw-driver which he kept with the cleaning gear of his rifle, and waste nearly another five minutes before he could get it off. Hurried steps and clamorous for admission were now distinguishable. He opened the door, to be besieged by questions. For answer he pointed to the litter in the room. "Outside!" he said roughly. "I saw the chap, and I've got my bullet in him." "It seems to me, that, if you saw this individual, you might have recognized him," said Mr. Pawkins. "Jack eagerly took up the cue. "Yes," he said. "It seems to me that you are in a great deal too great a hurry to be going away. You ought to explain to us how this has happened. That chair on the bed, for instance, wants a great deal of explaining. It looks to me very like a case of dishonest watchman and a shabby burglar."

summit of the hill he turned sharp to the left, through a gap, then, two minutes later, to the left again, into another high road going South. "Now," said Piggy, "if they were in time to see us at all, they were certainly not in time to see us slip off into this road, and will go on chasing us along the other. Is there a motor in the house?" "Three," replied Jack, "but they need not trouble us."

GREAT GAME COUNTRY. The Forest Primeval Back of Grand Falls—A Happy Hunting Ground.

Grand Falls, Nov. 17.—The November term of the Victoria County Court will open at Andover on Tuesday next. There will be no criminal matter to engage the attention of the court, and the civil docket may consist of one or two unimportant cases. There is now excellent sleighing, and farmers are taking advantage of it to haul their products to market. Burgess & Sons have sent a large number of crews to the lumber woods and are still engaged in hiring men. Their operation this winter will not be curtailed any. Mathew Burgess went to St. John yesterday on a business trip. Game has been very abundant in this vicinity this fall, and every sportsman who entered the woods from this point succeeded in shooting a bull moose, and several obtained deer full quota of game, namely a ball moose, a caribou and two deer. Besides a number of bears were shot. The Salmon river country, adjoining Grand Falls, is undoubtedly the best game country in the province since when game is molested on the Tobique, it flees back to Salmon river, which is also the route traveled by big game in their migrations to and from the Restigouche country. Within thirty miles of Grand Falls is a truly primeval and virgin forest, as yet undisturbed by the woodsman and untrampled by hunters, who usually seek game nearer civilization. A solitary trapper may have skirted its boundaries in following the meanderings of some other or mink frequented stream; otherwise its confines have never been trodden by the foot of a man, and in this respect it is a veritable wilderness. To illustrate our meaning plainly, if you take 1,800 grains of meat, eggs or ordinary food, and place it in a temperature of 9 degrees, and put with it one of Stuart's Dyspepsia Tablets it will digest the meat or eggs almost as perfectly as if the meat was enclosed within the stomach. The stomach may be ever so weak, yet these tablets will perform the work of digestion and the body and brain will be properly nourished, and at the same time a radical, lasting cure of Dyspepsia will be made because the much-abused stomach will be given, to some extent, a much needed rest. Your druggist will tell you that of all the many remedies advertised to cure Dyspepsia none of them have given so complete and general satisfaction as Stuart's Dyspepsia Tablets, and not least in importance is these hard times is the fact that they are also the cheapest and give the most good for the least money.

GRAVES OF SOLDIERS IN SOUTH AFRICA. Most of the Resting Places of Canadians Marked--McCreary of Hampton and Other Maritime Men Are on the List of Those Remembered.

Ottawa, Nov. 15.—In view of Lady Minto's departure from Canada, Her Excellency has deemed it wise to make a general statement of the work which has been done in the direction of marking the graves of the Canadians who fell in South Africa, in which she has taken so deep and active an interest. Accordingly following was given out from Government House last evening.

The following details may be acceptable to those who are interested in the attempt to mark in a suitable manner the last resting places of those brave Canadians who gave their lives for the Empire during the South African war. The number of Canadians who fell during the war was 246. Of this number 11 were buried at sea or drowned and their bodies not recovered, five are buried in England. Whilst it was found that relatives of comrades-in-arms had already provided lasting memorials in 12 cases, 25 graves still remain unidentified, but it is expected that these will be located shortly, and as soon as this is done memorials will be sent from Canada to mark the same.

Still to be Marked. After deducting these numbers there remained 193 graves to be marked, and memorials were accordingly despatched to South Africa for this purpose, the last instalment reaching that country in April, 1904. A telegram has now been received from South Africa stating that all memorials for the above graves will be in position over the graves for which they are intended by November 15, 1904.

The work of erecting these memorials has been enormous owing to the vast extent of country over which the graves are scattered and owing to the incomplete nature of the communications. Lady Minto and her committee have, however, received the greatest possible assistance in this arduous work from Colonel H. S. Greenwood, lately of the 3rd Prince of Wales' Canadian Dragoons, and now employed in connection with the South African railway. To him the South African railway company, who have generously transported the stones free of charge over their system, ask to those ladies and gentlemen, mostly Canadians, who have voluntarily given their noble service in helping to bring to a successful issue this difficult undertaking, the warmest thanks of Lady Minto and her committee are due.

The work has been efficiently, economically and rapidly performed, but there under circumstances presenting many serious difficulties, and they have fairly earned the gratitude of Lady Minto and her committee. The work will undoubtedly be extended to them by patriotic Canadians. The accounts of the fund stand at present as follows: The amount of subscriptions collected, plus the interest on the same, up to date, is about \$18,000. The balance on hand after paying all claims is now about \$5,100. Further expenditure will be incurred in fencing in the graves on open veldt, and the balance will probably be diverted to the erection of a central Canadian memorial bearing the names of all Canadians who fell during the war, which is proposed to erect later on in Pretoria.

The Work Accomplished. The following is a complete list of those graves which have memorials.

A SUCCESSFUL SLOYD SCHOOL. Woodstock Institution is Doing Excellent Work--Other News Notes of Interest.

Woodstock, Nov. 17.—An institution that is doing a vast amount of good in this town is the Sloyd school, in Payson's building. The efficient teacher, Miss A. Gertrude O'Brien, is well known throughout the province as an expert in that line of education. The new school room is a vast improvement over the one used last term is larger, more airy, and in every way better equipped for the successful prosecution of the work; new lockers are now being built which, when completed, will give the school a perfect equipment. The roll shows the names of 120 boys from the different town schools. The grades are No. VI to No. XII inclusive.

Bench work, mechanical drawing and nature lessons on wood are the principal studies. The teacher makes a drawing of each model on the blackboard, after which each scholar commences the work of making the model, which, when completed, becomes his property.

The provincial director of manual training, F. B. Kidner, Fredericton, who is an able speaker, will address the Carleton County Teachers' Institute, which will be held on Dec. 22 and 23, on the benefits of manual training.

Fewer Bros. have the contract to install the heating apparatus in the remodelled court house at Andover, and they are now engaged upon the work.

Three Ventureros Boys Got a Ducking in Rockwood Park Yesterday Afternoon.

Yesterday afternoon three lads, while crossing the pond near the falls at Rockwood Park fell through the ice into about four feet of water. One of the boys went to the middle of the pond evidently to try the strength of the ice and fell through. The other two ran to his assistance but the ice gave way and they too were treated to a cold bath.

THE ICE WAS THIN.

They managed to get out without much difficulty and hurried to the gatekeeper's shanty at Gilbert's Lane and after getting warmed and partially dried started for their homes. One of the lads is confined in his bed as a result of the ducking.

HARCOURT NEWS.

Harcourt, Nov. 18.—A. J. Morton, merchant, is quite well. He returned to Moncton this week. They will remain there during the winter.

NEARLY KILLED, LEFT TO DIE.

The Devil Wagon Lends Its Spirit to Its Owners.

New York, Nov. 17.—Planned in a blanket and lying by the roadside, suffering from a possibly fracture of the skull, Jacob Clemens, 58 years old, a farmer of Sawhill Lane, West Chester, was found today near Williams Bridge. A short distance away were his horse and wagon, the horse hitched to a tree and the wagon partly wrecked.

Clemens regained consciousness for a few moments tonight, and in a statement to the coroner said that his wagon was run into by a yellow automobile, in which were four men and a woman. He was thrown out into the road, and was not immediately unconscious, though helpless. The occupants of the automobile started on without paying heed to him, but stopped when about 50 yards away. All five returned to where he lay and the woman wiped his head in her lap and wiped his face with her handkerchief.

Clemens said that they were preparing to go he asked them not to leave him. They said they could not stop but would send a physician. Clemens said, then he became unconscious.

PROFANE.

Blatant profanity is being enjoyed at Moncton. Sufficient snow fell during the storm on Monday to make runners preferable to wheels.

A curious election wager has come to light in New Glasgow. It was made between a young lady and gentleman. The loser of the bet was to buy a box of chocolates and take the winner for a trip on the train line.

Reports from Northumberland county relative to a successor to W. S. Foggie, who gave up his seat in the local house to run for Ottawa in the liberal interest, are that Hon. B. Burchill, J. W. B. Snowball, Warren Winslow and Robert Murray are named in connection with the government candidature with the choice likely to rest between Messrs. Burchill and Snowball.

KILLED WHILE OUT HUNTING.

Thomas E. Hamm of Fairville Had His Skull Shattered Yesterday.

Yesterday morning, Thos. E. Hamm, of Fairville, was instantly killed by the accidental discharge of his gun while out hunting.

John Miles, of Charles street, and Mr. Hamm, of George street, both citizens of Fairville, were out hunting deer near the Manuogoggin Marsh. Arrived at their hunting ground each had two shots at separate deer. The hunters then separated, made a long circular sweep and met again in some small growth of brush, where Hamm was shot by his own rifle. He was lying on his back, his head towards the muzzle of the rifle.

They had not long been thus engaged when the muzzle of some twigs attracted Miles' attention. Taking up his gun he advanced six or eight feet from the spot where Hamm lay. He was looking at the muzzle of the rifle when it discharged and he had been sitting and stopped with his back towards his comrade.

Mr. Hamm was employed by Jas. Masson as a carriage smith. He was a son of S. D. Hamm of Elm street. He was 37 years old and had been married about twelve years, and was also a member of the Fairville fire brigade. Mrs. Hamm is overwhelmed with grief over her sudden loss, and she has the deepest sympathy of the kind-hearted women of Fairville. Four helpless children are left to mourn the loss of a kind father.

The deceased leaves two brothers, Samuel W. and Wm. E., and three sisters, Mrs. James Bilzard, of Richman; Mrs. Walter Whitaker, and Mrs. S. Taylor.

Coroner Macfarland has decided that an inquest is not necessary. The victim of the accident was probably sitting on the stump when the gun likely caught and was discharged.

What is Catarrh? It is an inflammation of the mucous lining of the throat, bronchial tubes and nasal passages excited by germs that can only be destroyed by fragrant healing Catarrh-remedy which is breathed direct to the seat of the disease, and has never yet failed to cure. Pleasant to use, absolutely certain to cure. Catarrh-remedy always gives satisfaction. "I suffered from nasal catarrh so much that I couldn't breathe through my nostrils," writes G. K. Wilcox of Moridon. "I used Catarrh-remedy for a few days and was relieved. It cured in a short time." No other remedy just like Catarrh-remedy is the best. Two months' treatment \$1.00; trial size 25c.

THANKSGIVING WEEK AT THE WORLD'S FAIR.

Carnival of College Sports to Continue Through Six Days, and Schools and Universities Will Give Students Vacation That Another Visit to Exposition May be Made.

St. Louis, Nov. 17.—Thanksgiving week at the World's Fair will be rounded off with a visit from President Roosevelt, Vice-President-elect Fairbanks and members of the cabinet on Saturday, November 20. More than a score of colleges and universities have accepted invitations to participate in the exercises planned for the six days and the season will be enlivened by many social functions, athletic events and special ceremonies.

On Thanksgiving day, Thursday, November 24, all business will be suspended in St. Louis and the populace will join in the exercises at the World's Fair. Appropriate services will be held in observance of the event at Festival Hall and in the afternoon a football contest will be waged on the Stadium grounds between the Haskell-Indiana School team of Lawrence, Kan., and the Washington University eleven of St. Louis.

LATER NAVIGATION IN THE ST. LAWRENCE.

Ice Breaking Experiment Topic of Much Discussion—The Many Advantages—Later Voyages in the Autumn and Earlier Trips to Port in Spring.

The announcement in the Star that all probability a trial will be made December navigation in the St. Lawrence, between Sydney, N. S., and Montreal, has evoked wide discussion shipping circles.

"This is a matter of great importance to Montreal and Canada," remarked Mr. Robert Reford this morning. "A demonstration that an ice breaker is capable of forcing the channel between Montreal and Quebec in November, or early in December, would, I think, mean a great lengthening of the shipping season. By this I do not mean to say navigation throughout the cold months of the year is practical, but do think that present conditions in the means of ice-breakers, are greatly improved."

Asked how ship owners and underwriters in England would view such a project, Mr. Reford said: "The change would have to be brought about gradually. The vessels in the salt trade between Montreal and the Maritime Province ports would naturally be the first to take advantage of it. Later on, when these interested shipping abroad came to realize that they can just as well have a sailing from Montreal on the first of October as on the 20th of November, I do not see any good reason why a change cannot be effected. If it goes well I should imagine that a change might take place in a year or two, but first the British underwriters must be convinced that there is no risk in vessels navigating the St. Lawrence at a later date than they have heretofore been accustomed to."

THE HAGUE CONFERENCE.

Paris, Nov. 17.—A further conference between U. S. Ambassador Porter and Foreign Minister Delcasse relative to reassembling the Hague peace conference has shown that the minister is cordially favorable to the proposition, thus practically assuring its acceptance by France, but the submission of the question to the Cabinet is necessarily deferred pending a settlement of the Cabinet complications.

Many women are denied the happiness of children through derangement of the generative organs. Mrs. Beyer advises women to use Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered with stomach complaint for years. I got so bad that I could not carry my children but five months, then would have a miscarriage. The last time I became pregnant, my husband got me to take Lydia E. Pinkham's Vegetable Compound. After taking the first bottle I was relieved of the sickness of stomach, and began to feel better in every way. I continued its use and was enabled to carry my baby to maturity. I now have a nice baby girl, and can work better than I ever could before. I am like a new woman."—MRS. FRANK BEYER, 22 S. Second St., Meriden, Conn.

Another case which proves that no other medicine in the world accomplishes the same results as Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I was married for five years and gave birth to two premature children. After that I took Lydia E. Pinkham's Vegetable Compound, and it changed me from a weak, nervous woman to a strong, happy and healthy wife within seven months. Within two years a lovely little girl was born, who is the pride and joy of my household. If every woman who is cured feels as grateful and happy as I do, you must have a host of friends, for every day I bless you for the light, health and happiness Lydia E. Pinkham's Vegetable Compound has brought to my home. Sincerely yours, Mrs. M. P. WILBERT, Flat 31, The Norman, Milwaukee, Wis."

Actual sterility in woman is very rare. If any woman thinks she is sterile let her write to Mrs. Pinkham at Lynn, Mass., whose advice is given free to all would-be and expectant mothers.

THE REV. FR. LEE OF BRISBANE

Says Australia is Suffering From Drought—He Endorses Government Ownership.

Returning from a visit to Pope Pius at Rome, the Rev. Father Lee of Brisbane, Queensland, passed through Winnipeg en route for the Antipodes. Soon last week by a reporter for 'The Telegram,' Father Lee spoke somewhat pessimistically of Australia.

"The country today," said he, "is in rather a bad condition and has suffered much from a five years' drought which dried up the land so that it was not possible to grow anything. The long period of drought broke this summer, but is only too likely that a worse season than ever may be experienced next year."

Immigration Poor. "Then, again, immigration has been very poor during the past few years so that the government was forced to bring over hundreds of natives of the South Sea Islands. The result has been, but better suited as they are to the exclusively hot climate, they have taken work from many whites, and now the Government has been forced to abandon importation of foreign labor and a bill has been passed by which all those in the country will be deported."

"I believe the reason is that the general class of immigrants has not much money and as Canada and the States can be reached for less than a quarter of the sum that it takes to go to Australia, they choose these countries. Some years ago, before people knew what opportunities there were in Canada, emigration to Australia and New Zealand, was large, but now it is practically nothing."

Government Ownership. Speaking of the Government ownership of railroads, Father Lee said: "The fact that the Government of Australia own and operate the railways has proved a great benefit to the island continent. The public trusts control the rates, and this in a new country adds very materially in its welfare. The Government opens up great tracts of country that private corporations would not touch because it would be many years before there was any financial surplus. But the Government thus owning all the roads can afford to do that, and the gains of a paying line go toward making up the deficits of new roads."

"Not If It Cost Ten Dollars. A bottle would be without poison's Nervine, writes J. A. Rath, a farmer living near Trenton, Ont. Nervine is the best household liniment I know. We use it for stomach troubles, indigestion, headache, and summer complaint. I know of nothing better to take in hot water to break up a cold, or to rub on for rheumatism or 'neuritis.' Every farmer should keep a few bottles of Nervine handy and have smaller doctor bills. Large bottles 25c. at druggists."

FERTILE CUBA. The soil of Cuba is extremely fruitful. Cabbages there are so large that heads weighing 20 pounds each are common. All vegetables do well. Radishes may be eaten from fourteen to eighteen days after sowing, lettuce in five weeks after sowing, while corn produces three crops per year. Sweet potatoes grow all the year.

It has been said that Augustus Thomas never wrote a poor play. This may or may not be true according to the individual idea of what is good or poor.

Certain it is that Arizona wrote a good one and it is equally certain that the Dailey Stock company can play it well.

Arizona is not an easy piece to play and it is certainly an ambitious effort for a stock company. It is not particularly new and has been given several elaborate productions, notably by King La Shelle, a King La Shelle production was hardly to be expected from the Dailey company, or in fact from any stock company playing at popular prices.

Both sides equally satisfying and Mr. Dailey could not have made a better selection to show the versatility of his splendid company.
